GIFU PREFECTURAL GOVERNMENT

25 Sho NO.

26 Jan. 1950

SUBJECT: Application for Partial Removal of Designated
Reparation Building from Reparations List.

TO : Col. Coulter, Carleton,
Chief of Tokai-Hokuriku Civil Affairs Region

Sir,

As we received an application as seen in the annexed sheets from the Gifu Plant of the Kawasaki Manufacturing Industry Co. designated reparation plant under our jurisdiction, we conducted a thorough investigation into it and found that the building in question consists of only iron frame being severely damaged by air-raid and contains at present no designated reparations facilities and that the company authorities have an intention to dispose of it as scrap iron after removal at the Handa Plant of the Kawasaki Iron Manufacturing Co. Such being the case, we should like to ask you to give a permission for the removal of it from the reparations list.

Yours truly,

Kiyoshi Goto
Chief, Economic Dep't.

Subject: Application for Permission for Sale of Building
damaged by Air-raid

To: Tokai-Hokuriku Civil Affairs Region.

Applicant: Gifu Seisakusho, Kawasaki Sangyo Co., Ltd.
Mikakino, Sohara-cho, Inaba-gun, Gifu Pref.

Concerning the above subject, I would like to
make the following application.

- I. Detailed description of damaged building
expected to be sold:
 - (a) Location: Mikakino, Sohara-cho, Inaba-gun,
Gifu Pref.
(In the Gifu Plant compound as
shown on the attached sketch.)
 - (b) Building No.: No.16
 - (c) Structure: Iron frame
 - (d) Bldg. Area: 17,620 sq.m.
- II. Reasons for Sale:
The above-mentioned building has been
requested to be sold by the Kawasaki Seitetsu
Company Ltd., Handa, Aichi Pref. for the
production of sheet metal.

GIFU PREFECTURAL GOVERNMENT

24 Sho NO.4366

Dec. 7, 1949

SUBJECT: Application for Permission on Use of Designated
Reparation Equipment.

TO : Supreme Commander for the Allied Powers.

Sir,

As we received a petition as seen in the annexed sheets from the Gifu Plant of Kawasaki Sangyo Co., Ltd., designated reparation plant under our jurisdiction, we made a detailed investigation, of the plant. And as a result, it was made clear that the plant was permitted to convert its production by the Military Government Team, 6th Army, on Dec. 1, 1945 and that it has been concentrating its power for the production of goods for home demand as mentioned below.

On Sept. 30, this year, the plant was permitted to temporarily use 32 pieces of designated machinery by the Gifu Civil Affairs Team and on Oct. 7, it was additionally permitted to use 6 pieces more. So, the plant is now striving for increased production.

But, for the more rational production hereafter it has come to be absolutely necessary for this plant to continually use these machinery. This is the reason why this plant has submitted this application.

We beg to ask for your special consideration that it may be permitted to use them soon.

Yours truly,

Kamon Muto,
Governor, Gifu Pref.

Subject: Application for Permission of Temporary Use of Designated Reparatons Machine.

To : Major Temple S. Ryland, Chief of Economics Section, Gifu Military Government.

Thru : Commerce and Industry Section, Gifu Prefectural Gov't.

1. Name of Machine:
09-6-502, Universal Testing Machine(Amsler type, 50ton)
2. Location of Machine:
Warehouse of Gifu Seisakusho, Kawasaki Sangyo Co., Ltd.
Mikakino, Sohara-cho, Inaba-gun, Gifu Pref.
3. Reasons for Use:
For the compression test of the steel gallery supporter manufactured at this plant.
 - A. It is planned to make an actual installation of this apparatus in the gallery of the coal mines and to ask a criticism about this by giving publicity on its efficiency and manipulation for compression test to the mining world. Due to this the compression test for 200 supporters is necessary.
 - B. The Technical Reserch Station of the Construction Ministry in Tokyo is only one institution for providing the performance of the compression test of this apparatus.
 - C. If a permission for the temporary use of machine is granted the test could be done at this plant.
 - D. By this, expenditure and time needed for transporting them between Tokyo and Gifu will be saved.
4. Period for Temporary Use:
For six months after its permission.

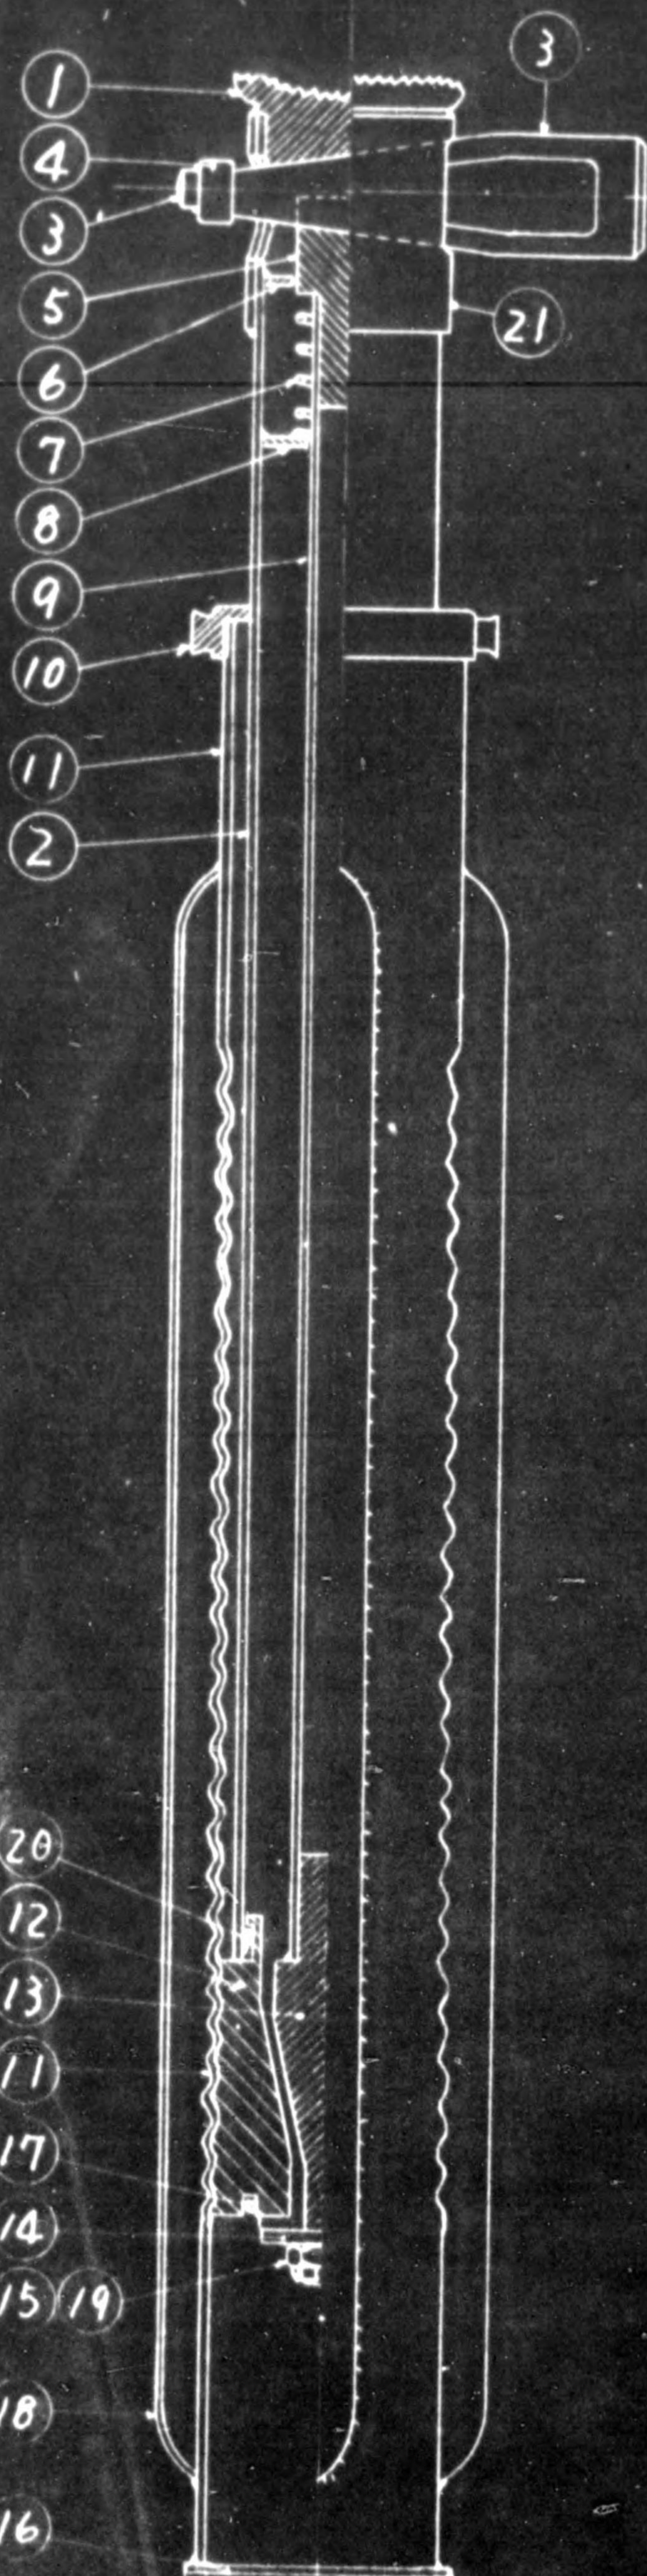

I hereby beg your permission for this matter with your favourable considerations.

Signature:

Kimiyō NaganoTitle : Chief Custodian

EXPLANATION OF GALLERY SUPPORTER
TO BE MANUFACTURED FOR TESTING

- (1) The name of the steel gallery supporter to be manufactured this time is the Simplified Adjustable Supporter, Kawasaki type and its patent for manufacturing is pending at the Patent Bureau of Japanese Government. The number of application is Patent Application No. 3417 in the year of 1949.
(Reference on attached picture)
- (2) Characteristics:
- A. From the standpoint of the reliability nature of the iron supporter the pipe is used for the upper and lower column. Consequently, buckling will not happen and the safety for working inside of the gallery is secured because it sustains much more downward load than the wooden gallery supporter.
 - B. It is easy to manipulate because there are no protruding parts on the outside surface and all functioning parts are kept in the inside of the column.
 - C. It is easily removed in case of a load.
 - D. Due to its light weight, it could be carried by one person.
 - E. Because of no opening on the outside of the pipe there is no chance for the coal dust to enter in.
 - F. The load per unit weight is remarkably great.
 - G. From the result obtained at the load test in the past buckling was produced at 41.7 ton and for the supporter made at other companies this was about from 24 to 25 ton.
 - H. The supporter made at other companies has 45 kg for its weight, but this particular one weighs approximately 35 kg. Accordingly, if the load per unit weight is compared, it will be 1.075 ton/kg and 0.56 ton/kg, respectively showing its efficiency is about twice as much as others.
 - I. If this apparatus is used it will save about ¥ 50 per one ton of coal.
- (3) Structure:
Please refer to attached sketch.

Classification

No.	Length over all	Adjustable range	Reduced length	Weight	Guaranteed capacity
1	1.200 m	0.800 ~ 1.200m	0.800 m	28 Kg	35 ̄
2	1.400	1.000 ~ 1.400	0.900	30	35
3	1.600	1.200 ~ 1.600	1.000	32	35
4	1.800	1.400 ~ 1.800	1.200	35	35
5	2.000	1.600 ~ 2.000	1.300	38	35
6	2.200	1.800 ~ 2.200	1.400	41	35
7	2.400	2.000 ~ 2.400	1.500	44	35

Name of parts and its specification

No.	Name of parts	Specification
1	Top head	Cast steel, supportable for log, and electric welded with upper column to bear eccentric load.
2	Upper column	Steel tube 3"φ (JES)
3	Cotter	Forged steel
4	Releasing bead	ditto
5	Block	Cast steel
6	Upper stiffner	Mild steel, thickness 10mm
7	Spring	
8	Lower stiffner	Mild steel, thickness 10mm
9	Connecting tube	Gas-pipe 1"φ (JES)
10	Lid	Cast steel (finished)
11	Lower column	Steel tube 4"φ (JES)
12	Corrogated block	Forged steel (finished)
13	Locking cone	ditto
14	Washer	Mild Steel plate, thickness 4.5mm
15	Nut	
16	Bottom plate	
17	Spring	
18	Stiffner	Mild steel plate, thickness 3.0mm
19	Locking pin	
20	Ring	
21	Band

Light alloy plate	3,313 "	Goyo Boeki Co.
Paints	1,514 "	Kawasaki Sangyo Co.
Others	15,735 "	"

11. Present Stock of Fuel:

Description	Quantity
Coal	5,700 Kg.
Lignite	7,500 "
Cokes	18,300 "

12. Fuel needed Monthly: (Do not include present stock)

Description	Quantity
Cokes	10,000 Kg.
Coal	2,000 "

13. Products:

Description	Quantity
Coal car for mines	49
Coal mine chimney	12,000
Bracket for railway signal B	500
Portable signal lamp (electric)	100
" (oil)	200
Portable illuminating lamp cart for railway maintenance	240
Body of bus	2
Ticket case	9,000
Wash-stand	1,000
Alarm sign A	1,650
Other miscellaneous articles	3,131

14. Price (Selling price in Yen):

Description	Unit	Price
Coal car for mines	ea.	¥ 10,000
Coal mine chimney	"	¥ 110
Bracket for railway signal B	pair	¥ 500
Portable signal lamp (electric)	ea.	¥ 555
" (oil)	"	¥ 650
Portable illuminating lamp cart for railway maintenance	"	¥ 4,500
Body of bus	"	¥ 120,000
Chicket case	"	¥ 60
Wash-stand	"	¥ 57.10
Alarm sign A	"	¥ 45
Other miscellaneous articles	"	¥ 103.16

15. Desposition of Finished Product:

Description	Quantity	Source of Sale
Bracket for railway signal B	500	To Koito Seisakusho
Portable signal lamp (electric)	100	To Nagoya Tetsudo Co.
Parts for railway	20,000	To Koito Seisakusho
Ticket case	3,600	To Nagoya Tetsudo Co.
Wash-stand	460	To Kikuya Shoten
Alarm sign A	1,710	To Koito Seisakusho & two others
Body of bus	2	To Transportation Ministry
Coal car for mines	46	To Mitsui Tanko
Other miscellaneous articles	2,507	To Shinichi Kurita & two others

16. Present Stock of Finished Goods:

Description	Quantity	Condition
Coal car for mines	4	Being kept at this plant
Body of coal car for mines	6	"
Coal mine chimney	12,000	"
Apparatus box for automatic signal	890	"
Spot light parts	1,114	"
Portable signal lamp (oil)	200	"
Portable illuminating lamp cart for railway maintenance	240	"
Portable inspecting lamp	385	"
Chicket case	5,400	"
Wash-stand	540	"
100 W spot light	673	"
Fish attracting lamp	594	"
Alarm sign A	3,540	"
" B	36,850	"

Press parts 298 Being kept at this plant
 Other miscellaneous articles 832
