The
City Hall

The Temple Auditorium, in which the Sessions of the Grand Lodge, B. P. O. E., were held during the Convention, is built of reinforced concrete and is the largest building of its kind in the world, the main auditorium having a seating capacity of 4000. The building also contains two concert halls, a large banquet hall, and six large store rooms on the ground floor, while the upper floors consist of office rooms, single and en suite.
