Including all of the property bounded by the above described line, subject to existing rights-of-way and easements.

The above described tract of land contains 11.77 acres, more or less.

2. The conveyance authorized by this Act is exempt from sections 54-01-05.2 and 54-01-05.5. The conveyance may only be made after the property has been appraised and the property must be sold at public auction unless no bid equals or exceeds the minimum appraised value. The appraisal must be dated no earlier than eighteen months before the auction. If at the public auction no bid equals or exceeds the minimum appraised value, the state water commission may negotiate a price for the land with a purchaser.
3. All proceeds from the sale or so much of the sale proceeds as may be necessary, not otherwise appropriated, are appropriated on a continuing basis to the state water commission for the purchase of land and the construction of a building and associated appurtenances to be used as a new maintenance facility. 4. The attorney general shall review and approve the form and legality of all legal documents required for the conveyance and purchase authorized by this Act, including title opinions.

It is the intent of the fifty-seventh legislative assembly that the proceeds of the sale of the state water commission maintenance shop located in east Bismarck be used to purchase land and construct a new maintenance shop building. If the proceeds from the sale are less than \$977,100, the state water commission may use other funds appropriated to the state water commission for the purpose of purchasing land and constructing a new maintenance shop building.

It is further the intent of the fifty-seventh legislative assembly that if the proceeds from the sale are not available at the time the state water commission needs to purchase and construct the new building and associated appurtenances, the state water commission may use other funds appropriated to it provided that, upon receipt of the proceeds of the sale, the state water commission shall transfer to the funds from which money was taken an amount equal to any funds utilized for the

purchase of land and construction of the new maintenance building. If the state water commission uses other funds appropriated to it because the funds from the sale of the land and building are insufficient, the state water commission need not make a transfer of sale proceeds.

It is further the intent of the fifty-seventh legislative assembly that no more than a total of \$977,100 may be expended from the amounts appropriated under this Act to purchase land and construct the new maintenance building and associated appurtenances.

SECTION 10. AMENDMENT. Subsections 4 and 5 of section 61-01-26 of the North Dakota Century Code are amended and reenacted as follows:

4. Accruing benefits from these resources can best be achieved for the people of the state through the development, execution, and periodic updating of comprehensive, coordinated, and well-balanced short-term and long-term plans and programs for the conservation and development of such resources by the departments and agencies of the state having responsibilities therefor. The plans and programs for the conservation and development of these resources may include implementation of a program to cost-share with local sponsors of water quality improvement projects.
5. Adequate implementation of such plans and programs shall be provided by the state through cost-sharing and cooperative participation with the appropriate federal and state departments and agencies and political subdivisions within the limitation of budgetary requirements and administrative capabilities, including consideration of cost-sharing for water quality improvement projects.

SECTION 11. AMENDMENT. Section 61-01-26.1 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

61-01-26.1. Findings and declaration of policy - Water to eastern North Dakota a critical priority - Water supplementation study - Employment of staff. The legislative assembly finds that many areas and localities in eastern North Dakota do not enjoy safe drinking water; ~~and that the water in these areas and localities contains iron, sulfates, alkali, salt, nitrates, fluoride, and other hazardous and discoloring substances.~~ It is also found that other areas and localities in eastern North Dakota do not have sufficient quantities of water to ensure a dependable, long-term water supply. The legislative assembly further finds that supplementation of the water resources of eastern North Dakota ~~with water supplies~~ from other available sources, including the Missouri River, may be the only alternative to provide eastern North Dakota with a dependable source of safe, good quality water and an adequate quantity of water.

It is further declared that effective development and utilization of the land and water resources of this state; the opportunity for greater economic security; the protection of health, property, enterprise, and the preservation of the benefits from the land and water resources of this state; and the promotion of the prosperity and general welfare of all of the people of North Dakota involve, necessitate, and require the exercise of the sovereign powers of the state and concern a public purpose. Therefore, in order to accomplish this public purpose, it is declared necessary that a means to supply and distribute water to the people of eastern North Dakota for all beneficial purposes including domestic, rural water, municipal, livestock, light industrial, mining, agriculture, and other uses must be developed. In furtherance of

this public purpose, the supply and delivery of water to eastern North Dakota is established as a critical priority and the state water commission shall ~~continue to cooperate~~, in cooperation with the Garrison diversion conservancy district in addressing and the communities and rural water systems in eastern North Dakota, address this critical priority by developing a plan and estimate of the costs for supplementing the water resources of eastern North Dakota with water supplies from other available resources, including the Missouri River.

The state water commission may employ full-time personnel and may employ such other personnel as are necessary for the administration of this section as appropriated funds permit. Notwithstanding section 61-02-64.1, funds disbursed from the contract fund or appropriated for purposes of administering this section may be used for salaries and expenses of persons employed pursuant to this section.

¹² **SECTION 12. AMENDMENT.** Section 2 of House Bill No. 1151, as approved by the fifty-seventh legislative assembly, is amended and reenacted as follows:

SECTION 2. A new section to chapter 61-02 of the North Dakota Century Code is created and enacted as follows:

Devils Lake outlet - Eminent domain - Design and build construction. In the construction of an outlet from Devils Lake, the commission:

1. Shall make a reasonable and diligent effort to acquire the property interests needed by negotiation. The commission is deemed to have made a reasonable and diligent effort if it has contacted or attempted to contact the owner of the property interest needed at least three times over a thirty-day period. If the commission is unable to acquire the interest needed by negotiation, then it may take possession of the interests needed after making a written offer to purchase and depositing the amount of the offer with the clerk of the district court of the county in which the property interest is located. The amount of the offer must be at least the average value per acre of comparable property. The clerk shall immediately notify the property owner in writing of the deposit. Within thirty days after receiving notice, the property owner may appeal to district court by serving notice of appeal upon the commission and the matter must be tried in the manner prescribed under chapter 32-15.
2. May issue, when it determines that it would be advantageous to the state or that it is necessary in order to construct the outlet in a timely manner, a request for proposals to design and build the outlet. The request for proposals must require that each proposal submitted contain a single price that includes the cost to design and build the outlet. Neither chapter 48-01.1 or 54-44.7, nor any other law requiring competitive bidding applies to the construction of the outlet if the commission determines to use the design and build procedure. The commission shall select the proposal that it determines is the most advantageous to the state.

¹² Section 61-02-23.2 was created by section 2 of House Bill No. 1151, chapter 562.

SECTION 13. A new subsection to section 61-02-14 of the North Dakota Century Code is created and enacted as follows:

SECTION 15. A new subsection to section 61-02.1-04 of the 1999 Supplement to the North Dakota Century Code is created and enacted as follows:

When there has been a recovery of damages, the costs of the action, to be paid by the division from the recovery, exclusive of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the division recovered to the total recovery. If there is a recovery, the division shall pay attorney's fees to the claimant's attorney from the recovery in the amount of twenty-five percent of the subrogation interest recovered. For purposes of this section, recovery includes proceeds paid pursuant to a settlement, confession of judgment, or judgment of a court. The division may intervene in the action to recover compensation awarded. The division has a lien on a recovery to the extent it has paid compensation. The division is not liable for costs or attorney's fees when the claimant has not provided the division prior written notice of the commencement of an action. If a claimant does not bring an action for damages within six months from the date the division awarded benefits, the division may bring an action or claim for relief in the division's name and may retain as the division's subrogation interest the full amount the division has paid in compensation and benefits to a claimant. The division may bring an action within two years from the date the division first awarded benefits, notwithstanding any other statute of limitation. This section does not limit the claimant's right to bring an action to recover for other damages.

AERONAUTICS COMMISSION FEES

AN ACT to amend and reenact sections 2-08-03 and 2-08-04 of the North Dakota Century Code, relating to fees charged by the aeronautics commission.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 2-08-03 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

2-08-03. Aircraft dealer's license - Fees - Dealer's place of business. No person, partnership, association, corporation, or limited liability company may engage in the business of buying, selling, leasing, or exchanging aircraft, or advertise or hold out to the public as being in the business of buying, selling, leasing, or exchanging of aircraft without first being licensed as provided in this chapter.

The aeronautics commission shall prescribe and furnish license and renewal license application forms. A nonrefundable fee of ~~twenty-five~~ one hundred fifty dollars must accompany each application for each dealer location. A dealer's license expires on December thirty-first of each year, and application for renewal must be made before the expiration of the current dealer's license. For each annual ~~twenty-five~~ one hundred fifty dollar license fee or renewal, the dealer must be issued one dealer's registration for one demonstrator aircraft. Additional dealer's demonstrator aircraft registrations must be issued to a licensed dealer upon the payment of ten dollars for each additional demonstrator aircraft, provided such demonstrator aircraft are not used for commercial purposes to produce rental or air taxi revenue, or used for aerial spraying while awaiting sale or trade. All new or used demonstrator aircraft which are for resale but are used by a dealer to produce commercial revenue, or air taxi or rental revenue or for aerial spraying must be registered with the commission and the annual registration fees paid in accordance with the laws of this state. Fees from license applications of aircraft dealers must be deposited with the state treasurer and credited to the aeronautics commission special fund. Fees received for additional aircraft registrations for demonstrator aircraft must be deposited with the state treasurer, who shall deposit such funds in the aeronautics commission special fund.

An applicant for a license or renewal of a license shall submit to the aeronautics commission an inventory of aircraft held by the applicant along with a separate demonstration flight log of time accumulated for those demonstration flights and aircraft tachometer readings for each aircraft on the date of initial application and on November thirtieth before the yearly renewal time. Information on inventory must be provided to the commission on an approved report form. If an aircraft is held in inventory for more than twelve months and is flown more than fifty hours of flight time in any given twelve-month period of time, the commission shall determine if the aircraft is a demonstration aircraft. When the hours flown exceed fifty hours in the twelve-month period, the aircraft is presumed not to be a demonstration aircraft and the aircraft excise tax must be remitted to the aeronautics commission under chapter

57-40.5 unless upon satisfactory proof the aeronautics commission determines the aircraft is used exclusively for demonstration purposes.

The aeronautics commission shall issue dealer's licenses only to dealers who maintain a permanent place of business on an airport open for public use, whether publicly or privately owned in the state of North Dakota, with runway length, aprons, and safe aircraft approaches adequate for fixed wing aircraft or helicopters of the type sold by such a dealer. An established central place on an airport means that such dealer has an enclosed office, building, or structure owned or leased with adequate facilities and equipment for the maintenance, service, and repair of aircraft. The dealer shall maintain business records in the dealer's place of business. The dealer's place of business must be adequate to conduct an aircraft dealer's business where selling, trading, and bartering of aircraft may be conducted and may not be a residence or temporary quarters or so-called permanent quarters occupied pursuant to temporary arrangements. An applicant for an aircraft dealer's license cannot qualify with only a privately owned aircraft hangar as a place of business, which is usually used for storage of aircraft on an airport open for public use. An aircraft dealer to qualify for a dealer's license must maintain an aircraft or helicopter service and repair shop on an airport open for public use with a minimum of five thousand dollars in tools, equipment, aircraft parts, and supplies, as determined by a representative of the director of the aeronautics commission.

The aeronautics commission shall issue a license only after inspection and approval of the aircraft dealer's facilities.

The aeronautics commission shall prescribe and furnish license and renewal license application forms. A nonrefundable fee of ~~fifteen~~ fifty dollars must accompany each application for each dealer location. A dealer's license expires on December thirty-first of each year, and application for renewal must be made before the expiration of the current dealer's license. For each annual ~~fifteen~~ fifty dollar license fee or renewal, the dealer must be issued one dealer's registration for one demonstrator ultralight vehicle. Additional dealer's demonstrator ultralight vehicle registrations must be issued to a licensed dealer upon the payment of ten dollars for each additional demonstrator ultralight vehicle. Fees from license applications of ultralight vehicle dealers and any other fees received for additional demonstrator ultralight vehicle registrations must be deposited in the aeronautics commission special fund.

An ultralight vehicle dealer shall maintain a permanent place of business in North Dakota which may be off or on an airport; provided, if the place of the business is off an airport, such dealer shall maintain a cleared area of sufficient size and length to safely demonstrate ultralight vehicles without undue approach hazards, or hazards to other persons or property. Whenever persons holding ten percent or more of the subscribed shares of any association file a written application with the commissioner requesting the commissioner to make an examination of any such association, the commissioner shall make such examination forthwith. Upon the completion of any examination of any association made by the commissioner or under the direction of the commissioner, the association so examined shall pay to the state treasurer a fee. This section must not be construed to prevent the said officer from fully disclosing to any federal agency any information which such commissioner may have in ~~his~~ the commissioner's office pertaining to such associations. Nothing in this section prevents the proper exchange of information relating to building and loan associations and the business thereof with the representatives of building and loan departments of other states, but in no case may the private business or affairs of any individual association or company be disclosed. This section must not be construed to prevent the said officer from fully disclosing to the federal home loan bank board at Washington, D.C., or to the federal home loan bank of this district, or to any other federal agency, any information which such commissioner may have in ~~his~~ the commissioner's office pertaining to such associations. It is a class C felony for the commissioner, ~~his~~ the commissioner's deputy, or any of ~~his~~ the commissioner's employees to willfully make a false report as to the condition of any association.

Such liquidation must be initiated by a resolution declaring that such association intends to go into liquidation and to discontinue business as a building and loan association, and such resolution requires a two-thirds affirmative vote of the shareholders at any regular meeting, or at a special meeting called for the purpose of liquidation. A copy of the resolution, certified by the president and secretary of the association and under the seal thereof, must be transmitted to the commissioner within ten days after the adoption thereof. Thereupon, the commissioner may issue ~~his~~ the commissioner's certificate reciting that such association is in liquidation. After the issuance of such certificate, it is unlawful for the association to issue shares or to loan or advance its money to shareholders or to any person or persons. If such association refuses or neglects to comply with such order within the time specified therein, or if it appears to the commissioner that the association is in an unsafe condition, or is conducting its business in an unsafe manner such as to render its further proceeding hazardous to the public or to those having funds in its custody, or if ~~he~~ the commissioner finds that its assets are impaired to such an extent that after providing for all liabilities other than to shareholders, they do not exceed in volume the dues or principal payments paid in by shareholders and accredited to or on account of all classes of shares issued and outstanding, ~~he~~ the commissioner, in order to prevent waste and diversion of assets, shall assume and take charge of the affairs and business of such association, and possession of all its books, records, and assets of every description, and ~~he~~ the commissioner shall hold and retain the possession thereof pending the further proceedings as specified in this chapter.

During such period, the commissioner shall remain in charge of the books, records, and assets of every description of the association, and shall attend personally, or be represented, at all meetings of the directors or shareholders. ~~He~~ The commissioner shall suggest such steps as ~~he~~ the commissioner may deem necessary to restore such association to a sound condition, and if it is not restored to a sound condition within the twenty-day period herein limited, ~~he~~ the commissioner shall report the facts to the attorney general. Thereupon it is the duty of the attorney general immediately to institute proceedings in the district court of the county in which such association has its principal place of business for the appointment of the commissioner as receiver.

SENATE BILL NO. 2211

(Senators Klein, D. Mathern)

(Representative Wald)

SELF-CRITICAL FINANCIAL INSTITUTION ANALYSIS PRIVILEGE

AN ACT to create and enact a new chapter to title 6 of the North Dakota Century Code, relating to the provision of a self-critical financial institution analysis privilege.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Definitions. In this chapter, unless the context or subject matter otherwise requires:

1. "Commissioner" means the commissioner of banking and financial institutions.
2. "Compliance audit" means a voluntary, internal evaluation, review, assessment, audit, or investigation for the purpose of identifying or preventing noncompliance with, or promoting compliance with, laws, regulations, orders, or industry or professional standards, which is conducted by or on behalf of a financial institution.
3. "Compliance self-critical analysis audit document" means a document prepared as a result of or in connection with a financial institution's compliance audit. A compliance self-critical analysis audit document may include a written response to the findings of a compliance audit. A compliance self-critical analysis audit document may include, as applicable, field notes and records of observations, work papers, findings, opinions, suggestions, conclusions, drafts, memoranda, drawings, photographs, exhibits, computer-generated or electronically recorded information, phone records, maps, charts, graphs, and surveys, provided this supporting information is collected or developed for the primary purpose and in the course of a compliance audit. A compliance self-critical analysis audit document also includes:
 - a. A compliance audit report prepared by an auditor, who may be an employee of the financial institution or an independent contractor, which may include the scope of the audit, the information gained in the audit, and conclusions and recommendations, with exhibits and appendices;
 - b. Memoranda and documents analyzing portions or all of the compliance audit report and discussing potential implementation issues;
 - c. An implementation plan that addresses correcting past noncompliance, improving current compliance, and preventing future noncompliance; or

- d. Analytic data generated in the course of conducting the compliance audit.
4. "Financial institution" means any organization authorized to do business under state and federal laws relating to financial institutions, including a bank, including the Bank of North Dakota, a savings bank, a trust company, a savings and loan association, or a credit union.

SECTION 2. Self-critical analysis privilege created - Scope. A compliance self-critical analysis privilege is created to protect the confidentiality of compliance self-critical analysis documents or communications in regard to their content relating to voluntary internal compliance audits conducted by financial institutions and persons in regard to activities regulated under title 6 or federal law, both to conduct voluntary internal audits of its compliance programs and management systems, and to assess and improve compliance with state and federal statutes, rules, and orders. The compliance self-critical analysis privilege applies to all litigation or administrative proceedings pending on August 1, 2001.

SECTION 3. Compliance self-critical analysis document not discoverable or admissible. Except as provided in this chapter, a compliance self-critical analysis audit document is privileged information and is not discoverable or admissible evidence in any legal action in any civil, criminal, or administrative proceeding. The privilege is a matter of substantive law of this state and is not merely a procedural matter governing administrative, civil, or criminal procedures in the courts of this state.

SECTION 4. Application of privilege. If a financial institution, person, or entity performs or directs the performance of a compliance audit, an officer, employee, or agent involved with the compliance audit, or any consultant who is hired for the purpose of performing the compliance audit, may not be examined in any civil, criminal, or administrative proceeding as to the compliance audit or any compliance self-critical analysis audit document. This section does not apply if it is determined under sections 6 or 7 of this Act that the privilege does not apply.

SECTION 5. Submission to commissioner.

1. Upon request of the commissioner, a financial institution must submit a compliance self-critical analysis audit document to the commissioner, or the commissioner's designee, as a confidential document under the provisions of section 6-01-07, without waiving the privilege set forth in this chapter to which the financial institution would otherwise be entitled. However, the provisions of section 6-01-07 permitting the commissioner to release confidential documents and make them accessible to federal financial institution regulatory agencies does not apply to the compliance self-critical analysis audit documents voluntarily submitted. To the extent the commissioner has the authority to compel the disclosure of a compliance self-critical analysis audit document under other provisions of applicable law, any report furnished to the commissioner may not be provided to any other person or entity and must be accorded the same confidentiality and other protections as provided above for voluntarily submitted documents. Any use of a compliance self-critical analysis audit document furnished as a result of a request of the commissioner, whether under a claim of authority to compel disclosure or not, is limited to determining whether any disclosed defects in a financial institution's policies or procedures or inappropriate treatment of customers has been remedied or that an

appropriate plan for their remedy is in place. The commissioner may not impose any type of administrative fine or penalty as to any area addressed or matter covered in a compliance self-critical analysis audit document furnished at the commissioner's request, except where there is clear and convincing evidence that the financial institution failed to undertake reasonable corrective action, eliminate inappropriate treatment of customers, or failed to implement an appropriate plan to rectify any noncompliance with state and federal statutes, rules, and orders.

2. A financial institution's compliance self-critical analysis audit document submitted to the commissioner remains subject to all applicable statutory or common-law privileges including the work product doctrine, attorney-client privilege, or the subsequent remedial measures exclusion. A compliance self-critical analysis audit document submitted to and in the possession of the commissioner remains the property of the financial institution and is not subject to any disclosure or production under section 44-04-18.
3. Disclosure of a compliance self-critical analysis audit document to a governmental agency, whether voluntary or pursuant to compulsion of law, does not constitute a waiver of the privilege with respect to any other person or any other government agency.

SECTION 6. Waiver of privilege by financial institution - Grounds for determination of privilege - Civil, administrative, or criminal proceedings.

1. The self-critical analysis privilege does not apply to the extent that it is expressly waived by the financial institution that prepared or caused to be prepared the compliance self-critical analysis audit document.
2. In a civil or administrative proceeding, a court of record, after an in-camera review, may require disclosure of material for which the privilege is asserted, if the court determines one of the following:
 - a. The privilege is asserted for a fraudulent purpose; or
 - b. The material is not subject to the privilege.
3. In a criminal proceeding, a court of record, after an in-camera review, may require disclosure of material for which the privilege is asserted, if the court determines one of the following:
 - a. The privilege is asserted for a fraudulent purpose;
 - b. The material is not subject to the privilege; or
 - c. The material contains evidence relevant to commission of a criminal offense, and all three of the following factors are present:
 - (1) The commissioner, state's attorney, or attorney general has a compelling need for the information;
 - (2) The information is not otherwise available; and

- (3) The commissioner, state's attorney, or attorney general is unable to obtain the substantial equivalent of the information by any other means without incurring prohibitive cost and delay.

SECTION 7. Determination of privilege - Procedure.

1. If a person seeks from a financial institution communications involving a compliance audit or any compliance self-critical analysis audit document during the course of a pending civil or criminal proceeding, the financial institution may assert the self-critical analysis privilege and provide the information set forth in subsection 6 during the course of those proceedings just as any other privilege is asserted in the courts of this state. If the court is required to make a determination as to the privilege, the court shall follow the procedure and conditions set forth in subsection 5.
2. If there is a pending administrative proceeding, or there is no pending civil or criminal proceeding, the commissioner, state's attorney, or attorney general may serve on a financial institution a written request by certified mail for disclosure of a compliance self-critical analysis audit document. Within thirty days after the commissioner, state's attorney, or attorney general serves on a financial institution a written request by certified mail for disclosure of a compliance self-critical analysis audit document, the financial institution that prepared or caused the document to be prepared may file with the appropriate court a petition requesting an in-camera hearing on whether the compliance self-critical analysis audit document or portions of the document are privileged under this chapter or subject to disclosure. The court has jurisdiction over a petition filed by a financial institution under this subsection requesting an in-camera hearing on whether the compliance self-critical analysis document or portions of the document are privileged or subject to disclosure. Failure by the financial institution to file a petition waives the privilege for only the specific request made.
3. A financial institution asserting the compliance self-critical analysis privilege in response to a request for disclosure under this section shall include in its request for an in-camera hearing all of the information set forth in subsection 6.
4. Upon the filing of a petition under this section, the court shall issue an order scheduling, within forty-five days after the filing of the petition, an in-camera hearing to determine whether the compliance self-critical analysis audit document or portions of the document are privileged under this chapter or subject to disclosure.
5. The court, after an in-camera review, may require disclosure of material for which the privilege is asserted if the court determines, based upon its in-camera review, that any one of the conditions set forth in subsection 2 of section 6 of this Act is applicable as to a civil or administrative proceeding or that any one of the conditions set forth in subsection 3 of section 6 of this Act is applicable as to a criminal proceeding. Upon making such determination, the court may only compel the disclosure of those portions of a compliance self-critical analysis document relevant to issues in dispute in the underlying proceeding. A compelled disclosure may not be considered to be a

public document or be deemed to be a waiver of the privilege for any other civil, criminal, or administrative proceeding. A financial institution unsuccessfully opposing disclosure may apply to the court for an appropriate order protecting the document from further disclosure.

6. A financial institution asserting the compliance self-critical analysis privilege in response to a request for disclosure under this section shall provide at the time of making and filing any objection to the disclosure all of the following information:
 - a. The date of the compliance self-critical analysis audit document;
 - b. The identity of the entity conducting the audit;
 - c. The general nature of the activities covered by the compliance audit; and
 - d. An identification of the portions of the compliance self-critical analysis audit document for which the privilege is being asserted.

SECTION 8. Privilege - Burden of proof - Stipulation. A financial institution asserting the compliance self-critical analysis privilege set forth in this chapter has the burden of demonstrating the applicability of the privilege. Once a financial institution has established the applicability of the privilege, a party seeking disclosure has the burden of proving that the privilege is asserted for a fraudulent purpose. The commissioner, state's attorney, or attorney general seeking disclosure of the privilege has the burden of proving the elements set forth in subdivisions a and c of subsection 3 of section 6 of this Act.

The parties may at any time stipulate in proceedings under sections 6 or 7 of this Act to entry of an order directing whether the specific information contained in a compliance self-critical analysis audit document is or is not subject to the privilege provided under this chapter. Any such stipulation may be limited to the instant proceeding and, absent specific language to the contrary, is not applicable to any other proceeding.

SECTION 9. Nonapplication of privilege. The self-critical analysis privilege set forth in this chapter does not extend to:

1. Documents, communications, data, reports, or other information expressly required to be collected, developed, maintained, or reported to a regulatory agency pursuant to this title, or other federal or state law;
2. Information obtained by observation or monitoring by any regulatory agency; or
3. Information obtained from a source independent of the compliance audit.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Midwest interstate passenger rail compact. The midwest interstate passenger rail compact is enacted by this state and entered with all other states legally joining therein in the form substantially as follows:

5. To support efforts of transportation agencies involved in developing and implementing passenger rail service in the midwest.

ARTICLE 2 - COMMISSION

To further the purposes of the compact, a commission is created to carry out the duties specified in this compact.

ARTICLE 3 - MEMBERSHIP

1. The manner of appointment of commission members, terms of office consistent with the terms of this compact, provisions for removal and suspension, and manner of appointment to fill vacancies must be determined by each party state pursuant to its laws, but each commissioner must be a resident of the state of appointment. Commission members shall serve without compensation from the commission.

2. The commission consists of four resident members of each state as follows: the governor or the governor's designee, who shall serve during the tenure of office of the governor, or until a successor is named; one member of the private sector, appointed by the governor to serve during the tenure of the office of the governor, or until a successor is named; and two legislators, one from each house appointed by the chairman of the legislative council to serve two-year terms, or until successors are appointed. All vacancies must be filled in accordance with the laws of the appointing states. Any commissioner appointed to fill a vacancy shall serve until the end of the incomplete term. Each member state must have equal voting privileges, as determined by the commission bylaws.

ARTICLE 4 - POWERS AND DUTIES

1. The duties of the commission are to:
 - a. Advocate for the funding and authorization necessary to make passenger rail improvements a reality for the region;

 - c. Seek development of a long-term, interstate plan for high-speed rail passenger service implementation;
 - d. Cooperate with other agencies, regions, and entities to ensure that the midwest is adequately represented and integrated into national plans for passenger rail development;

 - f. Expend funds as required to carry out the powers and duties of the commission; and
 - g. Report on the activities of the commission to the governor of each member state on an annual basis.
2. In addition to its exercise of these duties, the commission is empowered to:

 - b. Work with local elected officials, economic development planning organizations, and similar entities to raise the visibility of passenger rail service benefits and needs;
 - c. Educate other state officials, federal agencies, other elected officials, and the public on the advantages of passenger rails as an integral part of an intermodal transportation system in the region;

- d. Work with federal agency officials and members of Congress to ensure the funding and authorization necessary to develop a long-term interstate plan for high-speed rail passenger service implementation;
- e. Make recommendations to member states;
- f. If requested by each state participating in a particular project and under the terms of a formal agreement approved by the participating states and the commission, implement or provide overview for specific rail projects;
- g. Establish an office and hire staff as necessary;
- h. Contract for or provide services;
- i. Assess dues, in accordance with the terms of this compact;
- j. Conduct research; and
- k. Establish communities.

ARTICLE 5 - OFFICERS

The commission annually shall elect from among its members a chairman, a vice chairman who is not a resident of the state represented by the chairman, and others as approved in the commission bylaws. The officers shall perform functions and exercise powers as are specified in the commission bylaws.

ARTICLE 6 - MEETINGS AND ADMINISTRATION

The commission shall meet at least once in each calendar year and at other times as may be determined by the commission. Commission business must be conducted in accordance with the procedures and voting rights specified in the bylaws.

ARTICLE 7 - FINANCE

Except as otherwise provided, the moneys necessary to finance the general operations of the commission in exercising its duties, responsibilities, and powers must be appropriated to the commission by the compacting states, when authorized by the respective legislatures, by equal apportionment among the compacting states. This compact does not commit a member state to participate in financing a rail project except as provided by law of a member state.

The commission may accept, for any of its purposes and functions, donations, gifts, grants, and appropriations of money, equipment, supplies, materials, and services from the federal government, from any party state or from any state agency or political subdivision, or from any person. All expenses incurred by the commission must be paid by the commission out of the funds available to it. The commission may not issue any debt instrument. The commission shall submit to the officer designated by the laws of each party state, periodically as required by the laws of each party state, a budget of its actual past and estimated future expenditures.

ARTICLE 8 - ENACTMENT, EFFECTIVE DATE, AND AMENDMENTS

The states of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin are eligible to join this compact. Upon approval of the commission, according to its bylaws, other states may be declared eligible to join the compact. As to any eligible party state, this compact becomes effective when its legislature has enacted the same into law; provided that it may not become initially effective until enacted into law by any three party states. Amendments to the compact become effective upon their enactment by the legislatures of all compacting states.

ARTICLE 9 - WITHDRAWAL, DEFAULT, AND TERMINATION

Withdrawal from this compact must be by enactment of a statute repealing the compact and must take effect one year after the effective date of the repeal. A withdrawing state is liable for any obligations that it may have incurred before the effective date of withdrawal. If any compacting state at any time defaults in the performance of any of its obligations, assumed or imposed, in accordance with this compact, all rights, privileges, and benefits conferred by this compact or agreements under this compact must be suspended from the effective date of the default as fixed by the commission and the commission shall stipulate the conditions and maximum time for compliance under which the defaulting state may resume its regular status. Unless the default is remedied under the stipulations and within the time period set by the commission, this compact may be terminated with respect to the defaulting state by affirmative vote of a majority of the other commission members. Any defaulting state may be reinstated, upon vote of the commission, by performing all acts and obligations as stipulated by the commission.

ARTICLE 10 - CONSTRUCTION AND SEVERABILITY

The provisions of this compact are severable. If any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any compacting state or of the United States or the applicability to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability to any government, agency, person, or circumstance is not affected. If this compact is held contrary to the constitution of any compacting state, the compact remains in effect as to the remaining states and in effect as to the state affected as to all severable matters. This compact must be liberally construed to effectuate its purposes.

SECTION 2. EXPIRATION DATE. This Act is effective through August 1, 2003, and after that date is ineffective.

AN ACT to adopt the Uniform Electronic Transactions Act, relating to electronic records and electronic signatures.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Definitions. In this Act:

1. "Agreement" means the bargain of the parties in fact, as found in the parties' language or inferred from other circumstances and from rules and procedures given the effect of agreements under laws otherwise applicable to a particular transaction.
2. "Automated transaction" means a transaction conducted or performed, in whole or in part, by electronic means or electronic records, in which the acts or records of one or both parties are not reviewed by an individual in the ordinary course in forming a contract, performing under an existing contract, or fulfilling an obligation required by the transaction.

5. "Electronic" means relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities.
6. "Electronic agent" means a computer program or an electronic or other automated means used independently to initiate an action or respond to electronic records or performances, in whole or in part, without review or action by an individual.
7. "Electronic record" means a record created, generated, sent, communicated, received, or stored by electronic means.
8. "Electronic signature" means an electronic sound, symbol, or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.

13. "Security procedure" means a procedure employed for the purpose of verifying that an electronic signature, record, or performance is that of a specific person or for detecting changes or errors in the information in an electronic record. The term includes a procedure that requires the use of algorithms or other codes, identifying words or numbers, encryption, or callback or other acknowledgment procedures.
14. "State" means a state of the United States, the District of Columbia, Puerto Rico, the United States Virgin Islands, or any territory or insular possession subject to the jurisdiction of the United States. The term includes an Indian tribe or band, or Alaskan native village, which is recognized by federal law or formally acknowledged by a state.
15. "Transaction" means an action or set of actions occurring between two or more persons relating to the conduct of business, commercial, or governmental affairs.

SECTION 2. Scope.

1. Except as otherwise provided in subsection 2, this Act applies to electronic records and electronic signatures relating to a transaction.
2. This Act does not apply to a transaction to the extent the transaction is governed by:
 - a. A law governing the creation and execution of wills, codicils, or testamentary trusts;
 - b. The Uniform Commercial Code other than sections 41-01-07 and 41-01-16 and chapters 41-02 and 41-02.1; and
 - c. Chapters 41-03, 41-04, 41-04.1, 41-05, 41-07, 41-08, or 41-09.
3. This Act applies to an electronic record or electronic signature otherwise excluded from the application of this Act under subsection 2 to the extent it is governed by a law other than those specified in subsection 2.
4. A transaction subject to this Act is also subject to other applicable substantive law.

SECTION 3. Prospective application. This Act applies to any electronic record or electronic signature created, generated, sent, communicated, received, or stored after July 31, 2001.

SECTION 4. Use of electronic records and electronic signatures - Variation by agreement.

1. This Act does not require a record or signature to be created, generated, sent, communicated, received, stored, or otherwise processed or used by electronic means or in electronic form.
2. This Act applies only to transactions between parties each of which has agreed to conduct transactions by electronic means. Whether the parties agree to conduct transactions by electronic means is determined from the context and surrounding circumstances, including the parties' conduct.
3. If a party agrees to conduct a transaction by electronic means, this Act does not prohibit the party from refusing to conduct other transactions by electronic means. This subsection may not be varied by agreement.
4. Except as otherwise provided in this Act, the effect of any of this Act's provisions may be varied by agreement. The presence in certain provisions of this Act of the words "unless otherwise agreed", or words of similar import, does not imply that the effect of other provisions may not be varied by agreement.
5. Whether an electronic record or electronic signature has legal consequences is determined by this Act and other applicable law.

SECTION 5. Construction and application. This Act must be construed and applied:

1. To facilitate electronic transactions consistent with other applicable law;
2. To be consistent with reasonable practices concerning electronic transactions and with the continued expansion of those practices; and
3. To effectuate its general purpose to make uniform the law with respect to the subject of this Act among states enacting it.

SECTION 6. Legal recognition of electronic records, electronic signatures, and electronic contracts.

1. A record or signature may not be denied legal effect or enforceability solely because the record or signature is in electronic form.
2. A contract may not be denied legal effect or enforceability solely because an electronic record was used in the contract's formation.
3. If a law requires a record to be in writing, an electronic record satisfies the law.
4. If a law requires a signature, an electronic signature satisfies the law.

SECTION 7. Provision of information in writing - Presentation of records.

1. If parties have agreed to conduct transactions by electronic means and a law requires a person to provide, send, or deliver information in writing

to another person, the requirement is satisfied if the information is provided, sent, or delivered, as the case may be, in an electronic record capable of retention by the recipient at the time of receipt. An electronic record is not capable of retention by the recipient if the sender or the sender's information processing system inhibits the ability of the recipient to print or store the electronic record.

2. If a law other than this Act requires a record to be posted or displayed in a certain manner, to be sent, communicated, or transmitted by a specified method, or to contain information that is formatted in a certain manner, the following rules apply:
 - a. The record must be posted or displayed in the manner specified in the other law.
 - b. Except as otherwise provided in subdivision b of subsection 4, the record must be sent, communicated, or transmitted by the method specified in the other law.
 - c. The record must contain the information formatted in the manner specified in the other law.
3. If a sender inhibits the ability of a recipient to store or print an electronic record, the electronic record is not enforceable against the recipient.
4. The requirements of this section may not be varied by agreement, but:
 - a. To the extent a law other than this Act requires information to be provided, sent, or delivered in writing but permits that requirement to be varied by agreement, the requirement under subsection 1 that the information be in the form of an electronic record capable of retention may also be varied by agreement; and
 - b. A requirement under a law other than this Act to send, communicate, or transmit a record by United States mail first-class postage prepaid may be varied by agreement to the extent permitted by the other law.

SECTION 8. Attribution and effect of electronic record and electronic signature.

1. An electronic record or electronic signature is attributable to a person if it was the act of the person. The act of the person may be shown in any manner, including a showing of the efficacy of any security procedure applied to determine the person to which the electronic record or electronic signature was attributable.
2. The effect of an electronic record or electronic signature attributed to a person under subsection 1 is determined from the context and surrounding circumstances at the time of the record's or signature's creation, execution, or adoption, including the parties' agreement, if any, and otherwise as provided by law.

SECTION 9. Effect of change or error. If a change or error in an electronic record occurs in a transmission between parties to a transaction, the following rules apply:

1. If the parties have agreed to use a security procedure to detect changes or errors and one party has conformed to the procedure, but the other party has not, and the nonconforming party would have detected the change or error had that party also conformed, the conforming party may avoid the effect of the changed or erroneous electronic record.
2. In an automated transaction involving an individual, the individual may avoid the effect of an electronic record that resulted from an error made by the individual in dealing with the electronic agent of another person if the electronic agent did not provide an opportunity for the prevention or correction of the error and, at the time the individual learns of the error, the individual:
 - a. Promptly notifies the other person of the error and that the individual did not intend to be bound by the electronic record received by the other person;
 - b. Takes reasonable steps, including steps that conform to the other person's reasonable instructions, to return to the other person or, if instructed by the other person, to destroy the consideration received, if any, as a result of the erroneous electronic record; and
 - c. Has not used or received any benefit or value from the consideration, if any, received from the other person.
3. If neither subsection 1 nor subsection 2 applies, the change or error has the effect provided by other law, including the law of mistake, and the parties' contract, if any.
4. Subsections 2 and 3 may not be varied by agreement.

SECTION 10. Notarization and acknowledgment. If a law requires a signature or record to be notarized, acknowledged, verified, or made under oath, the requirement is satisfied if the electronic signature of the person authorized to perform those acts, together with all other information required to be included by other applicable law, is attached to or logically associated with the signature or record.

SECTION 11. Retention of electronic records - Originals.

1. If a law requires that a record be retained, the requirement is satisfied by retaining an electronic record of the information in the record which:
 - a. Accurately reflects the information set forth in the record after it was first generated in its final form as an electronic record or otherwise; and
 - b. Remains accessible for later reference.
2. A requirement to retain a record in accordance with subsection 1 does not apply to any information the sole purpose of which is to enable the record to be sent, communicated, or received.
3. A person may satisfy subsection 1 by using the services of another person if the requirements of that subsection are satisfied.

4. If a law requires a record to be presented or retained in the record's original form, or provides consequences if the record is not presented or retained in the record's original form, that law is satisfied by an electronic record retained in accordance with subsection 1.
5. If a law requires retention of a check, that requirement is satisfied by retention of an electronic record of the information on the front and back of the check in accordance with subsection 1.
6. A record retained as an electronic record in accordance with subsection 1 satisfies a law requiring a person to retain a record for evidentiary, audit, or like purposes, unless a law enacted after July 31, 2001, specifically prohibits the use of an electronic record for the specified purpose.
7. This section does not preclude a governmental agency of this state from specifying additional requirements for the retention of a record subject to the agency's jurisdiction.

SECTION 12. Admissibility in evidence. In a proceeding, evidence of a record or signature may not be excluded solely because it is in electronic form.

SECTION 13. Automated transactions. In an automated transaction, the following rules apply:

1. A contract may be formed by the interaction of electronic agents of the parties, even if no individual was aware of or reviewed the electronic agents' actions or the resulting terms and agreements.
2. A contract may be formed by the interaction of an electronic agent and an individual, acting on the individual's own behalf or for another person, including by an interaction in which the individual performs actions that the individual is free to refuse to perform and which the individual knows or has reason to know will cause the electronic agent to complete the transaction or performance.
3. The terms of the contract are determined by the substantive law applicable to the contract.

SECTION 14. Time and place of sending and receipt.

1. Unless otherwise agreed between the sender and the recipient, an electronic record is sent when the record:
 - a. Is addressed properly or otherwise directed properly to an information processing system that the recipient has designated or uses for the purpose of receiving electronic records or information of the type sent and from which the recipient is able to retrieve the electronic record;
 - b. Is in a form capable of being processed by that system; and
 - c. Enters an information processing system outside the control of the sender or of a person that sent the electronic record on behalf of the sender or enters a region of the information processing system

designated or used by the recipient which is under the control of the recipient.

2. Unless otherwise agreed between a sender and the recipient, an electronic record is received when:
 - a. The record enters an information processing system that the recipient has designated or uses for the purpose of receiving electronic records or information of the type sent and from which the recipient is able to retrieve the electronic record; and
 - b. The record is in a form capable of being processed by that system.
3. Subsection 2 applies even if the place the information processing system is located is different from the place the electronic record is deemed to be received under subsection 4.
4. Unless otherwise expressly provided in the electronic record or agreed between the sender and the recipient, an electronic record is deemed to be sent from the sender's place of business and to be received at the recipient's place of business. For purposes of this subsection:
 - a. If the sender or recipient has more than one place of business, the place of business of that person is the place having the closest relationship to the underlying transaction.
 - b. If the sender or the recipient does not have a place of business, the place of business is the sender's or recipient's residence, as the case may be.
5. An electronic record is received under subsection 2 even if no individual is aware of the record's receipt.
6. Receipt of an electronic acknowledgment from an information processing system described in subsection 2 establishes that a record was received but, by itself, does not establish that the content sent corresponds to the content received.
7. If a person is aware that an electronic record purportedly sent under subsection 1, or purportedly received under subsection 2, was not actually sent or received, the legal effect of the sending or receipt is determined by other applicable law. Except to the extent permitted by the other law, this subsection may not be varied by agreement.

SECTION 15. Transferable records.

1. In this section, "transferable record" means an electronic record that:
 - a. Would be a note under chapter 41-03 or a document under chapter 41-07 if the electronic record were in writing; and
 - b. The issuer of the electronic record expressly has agreed is a transferable record.
2. A person has control of a transferable record if a system employed for evidencing the transfer of interests in the transferable record reliably

- establishes that person as the person to which the transferable record was issued or transferred.
3. A system satisfies subsection 2, and a person is deemed to have control of a transferable record, if the transferable record is created, stored, and assigned in such a manner that:
 - a. A single authoritative copy of the transferable record exists which is unique, identifiable, and, except as otherwise provided in subdivisions d, e, and f, unalterable;
 - b. The authoritative copy identifies the person asserting control as:
 - (1) The person to which the transferable record was issued; or
 - (2) If the authoritative copy indicates that the transferable record has been transferred, the person to which the transferable record was most recently transferred;
 - c. The authoritative copy is communicated to and maintained by the person asserting control or its designated custodian;
 - d. Copies or revisions that add or change an identified assignee of the authoritative copy can be made only with the consent of the person asserting control;
 - e. Each copy of the authoritative copy and any copy of a copy is readily identifiable as a copy that is not the authoritative copy; and
 - f. Any revision of the authoritative copy is readily identifiable as authorized or unauthorized.
 4. Except as otherwise agreed, a person having control of a transferable record is the holder, as defined in section 41-01-11, of the transferable record and has the same rights and defenses as a holder of an equivalent record or writing under title 41 including, if the applicable statutory requirements under subsection 1 of section 41-03-28, section 41-07-30, or section 41-09-29 are satisfied, the rights and defenses of a holder in due course, a holder to which a negotiable document of title has been duly negotiated, or a purchaser, respectively. Delivery, possession, and endorsement are not required to obtain or exercise any of the rights under this subsection.
 5. Except as otherwise agreed, an obligor under a transferable record has the same rights and defenses as an equivalent obligor under equivalent records or writings under title 41.
 6. 1. A resolution containing the plan of merger or exchange must be approved by the governing board as required by section 10-19.1-46 or 10-32-83 of each constituent organization and must then be submitted at a regular or special meeting to the owners of each constituent organization in the case of a plan of merger; and the constituent organization whose ownership interests will be acquired by the acquiring constituent organization in the exchange, in the case of an exchange. The plan of merger or exchange may require that it be submitted to the owners whether or not the governing board determines at any time after the governing board's initial approval of the plan that the plan is no longer advisable and recommends that the owners reject it. If owners owning any class or series of ownership interests in a constituent organization are entitled to vote on the plan of merger or exchange pursuant to this subsection, written notice must be given to every owner of that constituent organization, whether or not entitled to vote at the meeting, not less than fourteen days nor more than sixty days before the meeting, in the manner provided in section 10-19.1-73 for notice of meetings of shareholders in the case of a domestic corporation and in the manner provided in section 10-32-40 for notice of meetings of members in the case of a limited liability company. The written notice must state that a purpose of the meeting is to consider the proposed plan of merger or exchange. A copy or short description of the plan of merger or exchange must be included in or enclosed with the notice.
2. At the meeting a vote of the owners must be taken on the proposed plan. The plan of merger is adopted when approved by the affirmative vote of the owners as required by section 10-19.1-74 or 10-32-42. Except as provided in subsection 3 or a member-control agreement, a class or series of ownership interests of the constituent organization is entitled to vote as a class or series if any provision of the plan would, if

contained in a proposed amendment to the articles of organization or a member-control agreement, entitle the class or series of ownership interests to vote as a class or series and, in the case of an exchange, if the class or series is included in the exchange.

3. A class or series of ownership interests of the constituent organization is not entitled to vote as a class or series solely because the plan of merger or exchange effects a cancellation or exchange of the ownership interests of the class or series if the plan of merger or exchange effects a cancellation or exchange of all ownership interests of the constituent organization of all classes and series that are existing immediately before the merger or exchange and owners of ownership interests of that class or series are entitled to obtain payment for the fair value of their ownership interests under section 10-19.1-87 or 10-32-55, as the case may be, in the event of the merger or exchange.

 - a. May merge the subsidiary into the parent; or may merge the subsidiary into any other subsidiary at least ninety percent of the outstanding ownership interest of each class and series of which is owned by the parent directly, or indirectly through related corporations or limited liability companies, without a vote of the owners of the parent or any subsidiary; or

2. A resolution approved by the directors of the parent as required by section 10-19.1-46 or by the governors of the parent present as required by section 10-32-83 must set forth a plan of merger which contains:
 - a. The name of the subsidiary or subsidiaries, the name of the parent, and the name of the surviving constituent organization;
 - b. The manner and basis of converting the ownership interests of the subsidiary into ownership interests of the parent or of another organization or, in whole or in part, into money or other property;

 - d. If the surviving constituent organization is a subsidiary, a statement of any amendments to the articles of the surviving constituent organization that will be part of the merger.

3. If the parent is a constituent organization and is the surviving organization in the merger, it may change its limited liability company name, without a vote of its owners, by the inclusion of a provision to that effect in the resolution of merger setting forth the plan of merger that is approved by the affirmative vote of the board members of the parent present. Upon the effective date of the merger, the name of the parent must be changed.
4. If the parent is a constituent organization but is not the surviving constituent organization in a merger, the resolution is not effective unless the resolution is also approved by the affirmative vote of the holders of a majority of the voting power of all ownership interests of the parent entitled to vote at a regular or special meeting held in accordance with section 10-19.1-98 if the parent is a corporation, section 10-32-102 if the parent is a limited liability company, or in accordance with the laws of the jurisdiction under which the parent is incorporated or organized if the parent is a foreign corporation or foreign limited liability company.
4. 5. A copy of the plan of merger must be mailed to each owner, other than the parent, of each subsidiary that is a constituent organization to the merger.

 - c. The date a copy of the plan of merger was mailed to the owners, other than the parent, of each subsidiary that is a constituent organization in the merger; and

Within thirty days after a copy of the plan of merger is mailed to the owners of each subsidiary that is a constituent organization to the merger, or upon waiver of the mailing by the owners of all outstanding ownership interests of each subsidiary that is a constituent organization to the merger, the articles of merger must be signed on behalf of the parent and filed with the secretary of state, together with the fees provided in section 10-32-150.
- ~~7.~~ 8. The secretary of state shall issue a certificate of merger to the surviving constituent organization in the merger or the surviving constituent organization's legal representative. The certificate must contain the effective date of merger.
- ~~8.~~ 9. If all of the ownership interests of one or more domestic subsidiaries that are a constituent organization to a merger under this section are not owned by the parent directly, or indirectly through related constituent

organizations, immediately before the merger, the owners of each domestic subsidiary have dissenter's rights under section 10-19.1-87 or under section 10-32-54, without regard to subsection 3 of section 10-19.1-88 or to subsection 2 of section 10-32-54, and under section 10-19.1-88 or 10-32-55. If the parent is a constituent organization but is not the surviving constituent organization in the merger, and the articles of incorporation or articles of organization of the surviving constituent organization immediately after the merger differ from the articles of incorporation or articles of organization of the parent immediately before the merger in a manner that would entitle an owner of the parent to dissenter's rights under subsection 1 of section 10-19.1-87 or under subdivision a of subsection 1 of section 10-32-54 if the articles of incorporation or articles of organization of the surviving constituent organization constitute an amendment to the articles of incorporation or articles of organization of the parent, that owner of the parent has dissenter's rights as provided under section 10-19.1-87 or under section 10-32-54. Except as provided in this subsection, sections 10-19.1-87 and 10-32-54 do not apply to any merger affected under this section.

9. 10. A merger among a parent and one or more subsidiaries or among two or more subsidiaries of a parent may be accomplished under sections 10-32-101 through 10-32-103 instead of this section, in which case this section does not apply.

 - d. 3. In an action under subdivision b of subsection 4 in which one or more of the circumstances described in that subdivision is established, a court, upon motion of a limited liability company or a member, may order the sale by a plaintiff or a defendant of all membership interests of the limited liability company held by the plaintiff or defendant to the limited liability company or the moving members, whichever is specified in the motion, if the court determines in the court's discretion that an order is fair and equitable to all parties under all of the circumstances of the case:

If the articles of organization, a member-control agreement, or another agreement state a price for the redemption or buyout of membership interests, the court shall order the sale for the price and on the terms set forth, unless the court determines that the price or terms are unreasonable under all the circumstances of the case.

 - d. The purchase price must be paid in one or more installments as agreed on by the parties or, if no agreement can be reached within forty days of entry of the order, as ordered by the court upon entry of an order for the sale of a membership interest under this subsection and provided the limited liability company or the moving members post a bond in adequate amount with sufficient sureties or otherwise satisfy the court that any full purchase price of the membership interest, plus the additional costs, expenses, and fees awarded by the court, will be paid when due and payable, the selling member no longer has any rights or status as a member, manager, or governor, except the right to receive the fair value of the membership interest plus other amounts as might be awarded. In determining whether to order relief under this section and in determining what particular relief to order, the court shall take into consideration the financial condition of the limited liability company but may not refuse to order any particular form of relief solely on the grounds that the limited liability company has accumulated or current operating profits.

In its consideration of mental abnormality or predatory conduct, the court shall consider the age of the offender, the age of the victim, the difference in ages of the victim and offender, the circumstances and motive of the crime, the relationship of the victim and offender, and the mental state of the offender. The court may order an offender to be evaluated by a qualified counselor, psychologist, or physician before sentencing. Except as provided under subdivision e of subsection 2, the court shall state on the record in open court its affirmative finding for not requiring an offender to register.

The court shall give one copy of the form to the individual and shall send two copies to the attorney general. The attorney general shall forward one copy to the appropriate law enforcement agency having jurisdiction where the individual expects to reside, attend school, or work upon discharge, parole, or release.
7. Registration consists of a written statement signed by the individual, giving the information required by the attorney general, and the fingerprints and photograph of the individual. Within three days after registration, the registering law enforcement agency shall forward the statement, fingerprints, and photograph to the attorney general. If an individual required to register pursuant to this section has a change in name, school, or address, that individual shall inform in writing, within ten days, the law enforcement agency with whom that individual last registered of the individual's new name, school, or address, or employment address if the individual is working in this state but not residing in this state. The law enforcement agency, within three days after receipt of the information, shall forward it to the attorney general. The attorney general shall forward the appropriate registration data to the law enforcement agency having local jurisdiction of the new place of residence, school, or employment. Upon a change of address, the individual required to register shall also register within ten days at the law enforcement agency having local jurisdiction of the new place of residence, school, or employment. 8. An individual required to register under this section shall comply with the registration requirement for the longer of the following periods:

An individual who violates this section who previously has pled guilty or been found guilty of violating this section is guilty of a class C felony.
10. When an individual is released on parole or probation and is required to register pursuant to this section, but fails to do so within the time prescribed, the court shall order the probation, or the parole board shall order the parole, of the individual revoked. ~~The statements, photographs, and fingerprints required by this section are open to inspection by the public.~~
11. If an individual required to register pursuant to this section is temporarily sent outside the facility or institution where that individual is confined under conviction or sentence, the local law enforcement agency having jurisdiction over the place where that individual is being sent must be notified within a reasonable time period before that individual is released from the facility or institution. This subsection does not apply to any individual temporarily released under guard from the facility or institution in which that individual is confined.
12. The attorney general, with the assistance of the department and the juvenile courts, shall develop guidelines for the risk assessment of sexual offenders who are required to register, with a low-risk, moderate risk, or high-risk level being assigned to each offender as follows:
 - a. The department shall conduct a risk assessment of sexual offenders who are incarcerated in institutions under the control of the department and sexual offenders who are on supervised probation. The department, in a timely manner, shall provide the attorney general any information, including the offender's level of risk and supporting documentation, concerning individuals required to be registered under this section who are about to be released or placed into the community.
 - b. The attorney general shall conduct a risk assessment of sexual offenders who are not under the custody or supervision of the department. The attorney general may adopt a law enforcement agency's previous assignment of risk level for an individual if the assessment was conducted in a manner substantially similar to the guidelines developed under this subsection.

- c. The juvenile courts or the agency having legal custody of a juvenile shall conduct a risk assessment of juvenile sex offenders who are required to register under this section. The juvenile courts or the agency having legal custody of a juvenile shall provide the attorney general any information, including the offender's level of risk and supporting documentation, concerning juveniles required to register and who are about to be released or placed into the community.
- d. The agency responsible for conducting the risk assessment shall notify the offender as to the level of risk assigned. An offender may request a review of that determination with the appropriate agency and may present any information that the offender believes may lower the assigned risk level.
13. Relevant and necessary conviction and registration information must be disclosed to the public by a law enforcement agency if the individual is a moderate or high risk and the agency determines that the individual registered under this section is a public risk and disclosure of the conviction and registration information is necessary for public protection. The department, in a timely manner, shall provide law enforcement agencies any information the department determines is relevant concerning individuals required to be registered under this section who are about to be released or placed into the community. A state officer, law enforcement agency, or school district, and an appointee, officer, or employee of these entities are not subject to civil or criminal liability for making risk determinations or for disclosing or for failing to disclose information as permitted by this section. Nonregistration information concerning an offender required to register under this section consisting of the name of the offender, the last known address of the offender, the offense or offenses as defined in subsection 4 to which the offender pled guilty or of which the offender was found guilty, the date of the judgment or order imposing a sentence or probation and the court entering the judgment or order, the sentence or probation imposed upon the offender, and any disposition, if known, of a sentence or probation may be disclosed to the public. The attorney general shall compile nonregistration information concerning offenders required to register under this section from criminal history record information maintained pursuant to chapter 42-60 or from an agency or department of another state or the federal government and shall provide the information upon request at no cost. The attorney general shall develop guidelines for public disclosure of offender registration information. Public disclosure may include internet access if the offender:
- a. Is required to register for a lifetime under subsection 8;
- b. Has been determined to be a high risk to the public by the department, the attorney general, or the courts, according to guidelines developed by those agencies; or
- c. Has been determined to be a high risk to the public by an agency of another state or the federal government.

If the offender has been determined to be a moderate risk, public disclosure must include at a minimum, notification to the victim of the

offense and to any agency, civic organization, or group of persons who have characteristics similar to those of a victim of the offender. Upon request, law enforcement agencies may release conviction and registration information regarding low-risk, moderate-risk, or high-risk offenders.

14. A state officer, law enforcement agency, or school district, or any appointee, officer, or employee of those entities is not subject to civil or criminal liability for making risk determinations or for disclosing or for failing to disclose information as permitted by this section.
- ~~43.~~ 15. If a juvenile is adjudicated delinquent and required or ordered to register as a sexual offender or as an offender against a child under this section, the juvenile shall comply with the registration requirements in this section. Notwithstanding any other provision of law, a law enforcement agency shall register a juvenile offender in the same manner as adult offenders and may release any relevant and necessary information on file to other law enforcement agencies, the department of human services, the superintendent or principal of the school the juvenile attends, or the public if disclosure is necessary to protect public health or safety. The school administration may notify others in similar positions if the juvenile transfers to another learning institution in or outside the state.
44. 16. If an individual has been required to register as a sexual offender or an offender against a child under section 12.1-32-15 or 27-20-52.1 before August 1, 1999, the individual may petition the court to be removed from the offender list if registration is no longer mandatory for that individual. In considering the petition, the court shall comply with the requirements of this section.

⁶¹ **SECTION 2.** A new subdivision to subsection 2 of section 28-32-01 of the 1999 Supplement to the North Dakota Century Code is created and enacted as follows:

CHAPTER 141

HOUSE BILL NO. 1270

(Representatives DeKrey, Koppelman, Warner)
(Senator Lyson)

INTERSTATE COMPACT FOR ADULT OFFENDER SUPERVISION

AN ACT to provide for an interstate compact for adult offender supervision; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Compact for adult offender supervision. The interstate compact for adult offender supervision is entered with all jurisdictions legally joining the compact in the form substantially as follows:

Article 1. Purpose

1. The compacting states to this interstate compact recognize that each state is responsible for the supervision of adult offenders in the community who are authorized pursuant to the bylaws and rules of this compact to travel across state lines both to and from each compacting state in such a manner as to track the location of offenders, transfer supervision authority in an orderly and efficient manner and, when necessary, return offenders to the originating jurisdictions. The compacting states also recognize that the United States Congress, by enacting 4 U.S.C. 112 [Pub. L. No. 89-554; 80 Stat. 608], has authorized and encouraged compacts for cooperative efforts and mutual assistance in the prevention of crime.
2. It is the purpose of this compact and the interstate commission created under this compact, through means of joint and cooperative action among the compacting states:
 - a. To provide the framework for the promotion of public safety and protect the rights of victims through the control and regulation of the interstate movement of offenders in the community;
 - b. To provide for the effective tracking, supervision, and rehabilitation of these offenders by the sending and receiving states; and
 - c. To equitably distribute the costs, benefits, and obligations of the compact among the compacting states.
3. In addition, this compact is intended to:
 - a. Create an interstate commission that will establish uniform procedures to manage the movement between states of offenders placed under community supervision and released to the community under the jurisdiction of courts, paroling authorities or

- corrections or other criminal justice agencies that will promulgate rules to achieve the purpose of this compact;
- b. Ensure an opportunity for comment and time notice to victims and to jurisdictions where offenders are authorized to travel or to relocate across state lines;
 - c. Establish a system of uniform data collection, access to information on active cases by authorized criminal justice officials and regular reporting of compact activities to the heads of state councils, the state executive, judicial, and legislative branches, and the criminal justice administrators;
 - d. Monitor compliance with rules governing interstate movement of offenders and initiate interventions to address and correct noncompliance; and
 - e. Coordinate training and education on the regulation of interstate movement of offenders for officials involved in that activity.
4. The compacting states recognize that there is no right of any offender to live in another state and that duly accredited officers of a sending state may at all times enter a receiving state and there apprehend and retake any offender under supervision, subject to this compact and the bylaws and rules promulgated under this compact. It is the policy of the compacting states that the activities conducted by the interstate commission are intended to formulate public policy and are therefore public business.

The bylaws may provide for members' participation in meetings by telephone or other means of telecommunication or electronic communication. Any voting conducted by telephone or other means of telecommunication or electronic communication is subject to the same quorum requirements of meetings where members are present in person.
4. The interstate commission's bylaws must establish conditions and procedures under which the interstate commission makes its information and official records available to the public for inspection or copying. All documents considered in connection with any action must be identified in the minutes.
 7. The interstate commission shall collect standardized data concerning the interstate movement of offenders as directed through its bylaws and rules that specify the data to be collected, the means of collection and data exchange, and reporting requirements.

Article 8. Rulemaking Functions of the Interstate Commission

1. The interstate commission shall adopt rules in order to effectively and efficiently achieve the purposes of the compact, including transition rules governing administration of the compact during the period in which it is being considered and enacted by the states.
2. Rulemaking must occur pursuant to the criteria set forth in this article and the bylaws and rules adopted pursuant to this article. The rulemaking must substantially conform to the principles of the Federal Administrative Procedure Act [Pub. L. 103-272; 108 Stat. 1373; 5 U.S.C. 551 et seq.] and the Federal Advisory Committee Act [5 U.S.C. Appendix 2, section 1 et seq.]. All rules and amendments become binding as of the date specified in each rule or amendment.
3. If a majority of the legislatures of the compacting states reject a rule, by enactment of a statute or adoption of a resolution in the same manner used to adopt the compact, the rule has no further force and effect in any compacting state.
4. When adopting a rule, the interstate commission shall:
 - a. Publish the proposed rule, stating with particularity the text of the rule that is proposed and the reason for the proposed rule;
 - b. Allow persons to submit written data, facts, opinions and arguments, which information must be publicly available;
 - c. Provide an opportunity for an informal hearing; and

- d. Adopt a final rule and its effective date, if appropriate, based on the rulemaking record. Not later than sixty days after a rule is adopted, any interested person may file a petition in the United States district court for the District of Columbia or in the federal district court where the interstate commission's principal office is located for judicial review of the rule. If the court finds that the interstate commission's action is not supported by substantial evidence in the rulemaking record, the court shall hold the rule unlawful and set it aside. For purposes of this subdivision, evidence is substantial if it would be considered substantial evidence under the Federal Administrative Procedure Act [Pub. L. 103-272; 108 Stat. 1373; 5 U.S.C. 551 et seq.] and the Federal Advisory Committee Act [5 U.S.C. Appendix 2, section 1 et seq.].
5. Rules related to the following subjects must be addressed within twelve months after the first meeting of the interstate commission:
 - a. Notice to victims and opportunity to be heard;
 - b. Offender registration and compliance;
 - c. Violations and returns;
 - d. Transfer procedures and forms;
 - e. Eligibility for transfer;
 - f. Collection of restitution and fees from offenders;
 - g. Data collection and reporting;
 - h. Level of supervision to be provided by the receiving state;
 - i. Transition rules governing the operation of the compact and the interstate commission during the period between the effective date of the compact and the date on which the last eligible state adopts the compact; and
 - j. Mediation, arbitration, and dispute resolution.
6. The existing rules governing the operation of the previous compact superseded by this compact are void twelve months after the first meeting of the interstate commission created under this compact.
7. Upon determination by the interstate commission that an emergency exists, the interstate commission may adopt an emergency rule that becomes effective immediately upon adoption, provided that the usual rulemaking procedures provided in this article are retroactively applied to the rule as soon as reasonably possible, but no later than ninety days after the effective date of the rule.

Article 9. Oversight, Enforcement, and Dispute Resolution by the Interstate Commission

1. a. The interstate commission shall oversee the interstate movement of adult offenders in the compacting states and shall monitor those

activities being administered in noncompacting states which may significantly affect compacting states.

- b. The courts and executive agencies in each compacting state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. In any judicial or administrative proceeding in a compacting state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the interstate commission, the interstate commission is entitled to receive all service of process in any such proceeding and has standing to intervene in the proceeding for all purposes.
2. a. The compacting states shall report to the interstate commission on issues or activities of concern to them and cooperate with and support the interstate commission in the discharge of its duties and responsibilities.

b. The interstate commission shall attempt to resolve any dispute or other issues that are subject to the compact and which may arise among compacting states and noncompacting states. The interstate commission shall adopt a bylaw or rule providing for both mediation and binding dispute resolution for disputes among the compacting states.
3. The interstate commission, in the reasonable exercise of its discretion, shall enforce this compact using any or all means set forth in subsection 2 of article 12 of this compact.

Article 10. Finance

1. The interstate commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.
2. The interstate commission shall levy on and collect an annual assessment from each compacting state to cover the cost of the internal operations and activities of the interstate commission and its staff, which must be in a total amount sufficient to cover the interstate commission's annual budget as approved each year. The aggregate annual assessment amount must be allocated based upon a formula to be determined by the interstate commission, taking into consideration the population of the state and the volume of interstate movement of offenders in each compacting state. The interstate commission shall adopt a rule binding upon all compacting states which governs the assessment.
3. The interstate commission may not incur any obligation of any kind before securing the funds adequate to meet the obligation, nor may the interstate commission pledge the credit of any of the compacting states, except by and with the authority of the compacting state.
4. The interstate commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the interstate commission are subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements

of funds handled by the interstate commission must be audited yearly by a certified or licensed public accountant and the report of the audit must be included in and become part of the annual report of the interstate commission.

5. a. The interstate compact for adult offender supervision fund is established as a special fund in the state treasury. The fund consists of moneys appropriated for the purpose of meeting financial obligations imposed on the state as a result of the state's participation in this compact.
- b. An assessment levied or any other financial obligation imposed under this compact is effective against the state only to the extent that moneys to pay the assessment or meet the financial obligation have been appropriated and deposited in the fund established in subdivision a of this subsection.

Article 11. Compacting States, Effective Date, and Amendment

1. Any state is eligible to become a compacting state.
2. The compact becomes effective and binding upon legislative enactment of the compact into law by thirty-five or more of states. The initial effective date is the later of August 1, 2001, or upon enactment into law by the thirty-fifth state. Thereafter, the compact becomes effective and binding, as to any other compacting state, upon enactment of the compact into law by that state. The governors of noncompacting states or their designees may be invited to participate in interstate commission activities on a nonvoting basis before adoption of the compact by all states.
3. Amendments to the compact may be proposed by the interstate commission for enactment by the compacting states. No amendment becomes effective and binding upon the interstate commission and the compacting states until it is enacted into law by unanimous consent of the compacting states.

Article 12. Withdrawal, Default, Termination, and Judicial Enforcement

1. a. Once effective, the compact continues in force and remains binding upon every compacting state, but a compacting state may withdraw from the compact by repealing the statute resolution that enacted the compact into law. The effective date of withdrawal is the effective date of the repeal.
- b. The withdrawing state shall notify the chairman of the interstate commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The interstate commission shall notify the other compacting states of the withdrawing state's intent to withdraw within sixty days of receipt of the notice.
- c. The withdrawing state is responsible for all assessments, obligations, and liabilities of that state incurred through the effective date of withdrawal, including any obligations, the

- performance of which extend beyond the effective date of withdrawal.
- d. Reinstatement following withdrawal of any compacting state occurs upon the withdrawing state reenacting the compact or upon a later date as determined by the interstate commission.
2. a. If the interstate commission determines that any compacting state has at any time defaulted in the performance of any of its obligations or responsibilities under this compact or the bylaws or rules of the interstate commission, the interstate commission may impose any one or more of the following penalties:
 - (1) Fines, fees, and costs in amounts as are deemed to be reasonable as fixed by the interstate commission.
 - (2) Remedial training and technical assistance as directed by the interstate commission.
 - (3) Suspension and termination of membership in the compact. Suspension may be imposed only after all other reasonable means of securing compliance under the bylaws and rules have been exhausted. Immediate notice of suspension must be given by the interstate commission to the governor, the chief justice, or chief judicial officer of the defaulting state, the majority and minority leaders of the defaulting state's legislative assembly, and the state council.
 - b. The grounds for default include failure of a compacting state to perform obligations or responsibilities imposed upon it by this compact or the interstate commission bylaws or rules. The interstate commission shall immediately notify the defaulting state in writing of the penalty imposed by the interstate commission on the defaulting state pending a cure of the default. The interstate commission shall stipulate the conditions and the time period within which the defaulting state must cure its default. If the defaulting state fails to cure the default within the time period specified by the interstate commission, in addition to any other penalties imposed, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the compacting states and all rights, privileges, and benefits conferred by this compact must be terminated from the effective date of suspension. Within sixty days of the effective date of termination of a defaulting state, the interstate commission shall notify the governor, the chief justice, or chief judicial officer of the defaulting state, the majority and minority leaders of the defaulting state's legislative assembly, and the state council of the termination.
 - c. The defaulting state is responsible for all assessments, obligations, and liabilities of that state incurred through the effective date of termination, including any obligations, the performance of which extend beyond the effective date of termination.
 - d. The interstate commission does not bear any costs relating to the defaulting state unless otherwise mutually agreed upon between the interstate commission and the defaulting state. Reinstatement

following termination of any compacting state requires both a reenactment of the compact by the defaulting state and the approval of the interstate commission pursuant to the rules.

3. The interstate commission, by majority vote of the members, may initiate legal action in the United States district court for the District of Columbia or, at the discretion of the interstate commission, in the federal district court where the interstate commission has its principal office to enforce compliance with the compact, its rules, or bylaws against any compacting state in default. In the event judicial enforcement is necessary, the prevailing party must be awarded all costs of the litigation, including reasonable attorney fees.
4.
 - a. The compact dissolves effective upon the date of the withdrawal or default of the compacting state which reduces membership in the compact to one compacting state.
 - b. Upon the dissolution of this compact, the compact becomes void and the business and affairs of the interstate commission must be concluded and any surplus funds must be distributed in accordance with the bylaws.

Article 13. Binding Effect of Compact and Other Laws

1.
 - a. This compact does not prevent the enforcement of any other law of a compacting state which is consistent with this compact.
 - b. The laws of the state, other than the Constitution of North Dakota, which conflict with this compact are superseded to the extent of the conflict.
2.
 - a. All lawful actions of the interstate commission, including all rules and bylaws adopted by the interstate commission, are binding upon the state unless contrary to the Constitution of North Dakota.
 - b. All agreements between the interstate commission and the compacting states are binding in accordance with their terms.
 - c. Upon the request of a party to a conflict over meaning or interpretation of interstate commission actions, and upon a majority vote of the compacting states, the interstate commission may issue advisory opinions regarding the meaning or interpretation.
 - d. In the event any provision of this compact exceeds the constitutional limits imposed on the legislative assembly of any compacting state, the obligations, duties, powers, or jurisdiction sought to be conferred by the provision upon the interstate commission are ineffective and the obligations, duties, powers, or jurisdiction remain in the compacting state and must be exercised by the agency to which the obligations, duties, powers, or jurisdiction are delegated by law in effect at the time this compact becomes effective.
3. The state is bound by the bylaws and rules adopted under this compact only to the extent that the operation of the bylaws and rules does not impose an obligation exceeding any limitation on state power or

authority contained in the Constitution of North Dakota as interpreted by the courts of this state.

SECTION 2. EXPIRATION DATE. This Act is effective through August 1, 2003, and after that date is ineffective.

HOUSE BILL NO. 1273

(Senators G. Nelson, Stenehjem, Wardner)

DEFERRED PRESENTMENT SERVICE PROVIDER LICENSING

AN ACT to create and enact a new chapter to title 13 of the North Dakota Century Code, relating to the licensing of deferred presentment service providers; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new chapter to title 13 of the North Dakota Century Code is created and enacted as follows:

Definitions. As used in this chapter, unless the context otherwise requires:

1. "Check" means a personal check signed by the maker and made payable to a licensee.
2. "Commissioner" means the commissioner of banking and financial institutions.
3. "Completed deferred presentment service transaction" means a transaction that is completed when a check is redeemed by the maker by payment in full to the licensee in cash, money order, or certified check or by negotiation or deposit by the licensee.
4. "Deferred presentment service transaction" means a transaction made under a written agreement between a licensee and the maker of a check under which the licensee (a) pays to the maker of the check the amount of the check, less the fees permitted under this chapter, and accepts a check from the maker dated on the date of the transaction and agrees to hold the check for a period of time before negotiation or presentment or (b) accepts a check dated after the date of the transaction and agrees to hold the check for deposit until the date written on the check.
5. "Licensee" means a person licensed under this chapter to provide deferred presentment services.

License requirements. A person may not engage in the business of deferred presentment service without a license issued under this chapter. A separate license is required for each location from which the business of deferred presentment service is conducted.

Qualifications for license. To qualify for a license, an applicant shall satisfy the following requirements:

1. Each applicant shall maintain unencumbered assets of at least twenty-five thousand dollars per licensed location, determined in accordance with generally accepted accounting principles.
2. The financial responsibility, financial condition, business experience, character, and general fitness of the applicant must reasonably warrant the belief that the applicant's business will be conducted lawfully and fairly. In determining whether this qualification is met, and for the purpose of investigating compliance with this chapter, the commissioner may review and consider the relevant business records and the capital adequacy of the applicant and the competence, experience, integrity, and financial ability of any person who is a member, partner, director, officer, or twenty-five percent or more shareholder of the applicant.
3. Each applicant shall establish that neither the applicant nor any principal of the applicant has been convicted of a felony. A deferred sentence or federal pretrial diversion must be considered a conviction for purposes of this section.
4. Each applicant shall maintain a bond issued by a surety company authorized to do business in this state, in the amount of twenty thousand dollars, and the commissioner may require a larger bond if the commissioner determines the larger bond is necessary based on the volume of the applicant's business.

Application for license. Each application for a license must be in the form prescribed by the commissioner and must include:

1. The legal name of the applicant, residence of the applicant, business address of the applicant, and address at which deferred presentment service is provided if different from the business address and, if the applicant is a partnership, association, or corporation, the name and address of every member, officer, and director;
2. The location at which the registered office of the applicant is located; and
3. Other data and information the commissioner may require with respect to the applicant and the applicant's directors, officers, members, and shareholders.

Application fees - Financial statements - Annual fee - Deposit of fees. Each applicant for licensure shall include with the application an application and background investigation fee of eight hundred fifty dollars, which is not subject to refund but which, if the license is granted, constitutes the license fee for the first license year or part of the first license year, and each applicant for licensure shall include with the application proof of the required surety bond. The annual license fee is four hundred fifty dollars. Each fee set forth in this section is applicable to each location. The commissioner shall deposit fees and costs collected by the commissioner under this chapter in the department of banking and financial institutions regulatory fund.

Issuance of license - Posting.

1. Upon receipt of a complete application, the commissioner shall determine whether the qualifications prescribed under this chapter are

satisfied. If the commissioner determines the qualifications are satisfied and approves the documents, the commissioner shall issue to the applicant a license to engage in the deferred presentment service business.

2. A licensee shall keep the license conspicuously posted in the place of business of the licensee.
3. A license issued under this section is effective through the remainder of the fiscal year ending June thirtieth after the license's date of issuance unless earlier surrendered, suspended, or revoked under this chapter.

Nontransferability - Change in control of license. A license issued under this chapter is not transferable or assignable. The prior written approval of the commissioner is required for the continued operation of a deferred presentment service business if a change in control of a licensee occurs. Control in the case of a corporation means direct or indirect ownership; the right to control twenty-five percent or more of the voting shares of the corporation; or the ability of any person to elect a majority of the directors or otherwise affect a change in policy. Control in the case of any other entity means the ability to exchange the principals of the organization, whether active or passive. In the case of a change of control request, the commissioner may require information the commissioner deems necessary to determine whether a new application is required. A licensee shall notify the commissioner fifteen days before any proposed change in the licensee's business location or name.

Reports of commissioner. Within fifteen days of the occurrence of any one of the following events, a licensee shall file a written report with the commissioner describing the event and the event's expected impact on the activities of the licensee in the state:

1. The filing for bankruptcy or reorganization by the licensee;
2. The institution of revocation or suspension proceedings against the licensee by any governmental authority;
3. Any felony charges of the licensee or any of the licensee's members, directors, officers, or shareholders; and
4. Any other event the commissioner identifies by rule.

Expiration of license - Renewal. Licenses issued under this chapter expire as of July first of each year. A license may be renewed for the ensuing twelve-month period upon application by the licensee establishing continued compliance with the requirements of this chapter and the payment to the commissioner of the annual license fee before July first of each year.

Regulations - Examinations. The commissioner may adopt rules for the implementation and enforcement of this chapter. A copy of a rule adopted by the commissioner must be mailed to each licensee at least thirty days before the date the rule takes effect. To assure compliance with this chapter, the commissioner may examine the relevant business, books, and records of any licensee. The licensee shall pay an examination or visitation fee, and the commissioner shall charge the licensee for the actual cost of the examination or visitation at an hourly rate set by the commissioner which is sufficient to cover all reasonable expenses associated with the examination or visitation.

Retention of records. Each licensee shall keep and use in the licensee's business any books, accounts, and records the commissioner may require to carry into effect the provisions of this chapter and the rules issued under this chapter. Every licensee shall preserve required books, accounts, and records for at least six years.

Fees for service - Deferred presentment service transaction procedures.

1. Before disbursing funds under a deferred presentment service transaction, a licensee shall provide to the maker of the check a clear and conspicuous printed notice indicating:
 - a. That a deferred presentment service transaction is not intended to meet long-term financial needs.
 - b. That the maker of a check should use a deferred presentment service transaction only to meet short-term cash needs.
 - c. That the maker of a check will be required to pay additional fees if the deferred presentment service transaction is renewed rather than paid in full when due. If the transaction is renewed, any amount paid in excess of the fee applies to the payoff amount.
 - d. A schedule of fees charged for deferred presentment service.
 - e. Any information required under federal law.
 - f. No property, titles to any property, or mortgages may be received or held directly or indirectly by the licensee as a condition of a deferred presentment service transaction or as a method of collection on a defaulted deferred presentment service transaction without proper civil process.
2. A licensee may charge a fee for the deferred presentment service, not to exceed twenty percent of the amount paid to the maker of the check by the licensee. This fee may not be deemed interest for any purpose of law. No other fee or charge may be charged for the deferred presentment service, and no property, titles to any property, or mortgages may be received or held directly or indirectly by the licensee as a condition of a deferred presentment service transaction or as a method of collection on a defaulted deferred presentment service transaction without proper civil process.
3. A licensee may not disburse more than five hundred dollars to the maker of a check in a deferred presentment service transaction.
4. A licensee may not engage in a deferred presentment service transaction with a customer who has an aggregate face value of all outstanding checks from any one maker exceeding five hundred dollars which is payable to the same or any other licensee. A licensee may not enter into a new deferred presentment service transaction with a customer within three business days of that customer's completion of a previous deferred presentment service transaction. A licensee may rely on a written representation of a maker regarding the existence of any outstanding checks for deferred presentment held by a licensee other than the licensee receiving the representation. However, if a licensee

has multiple locations, that licensee may not rely on such written representation of a maker regarding the existence of any outstanding checks for deferred presentment held by that licensee, or one of the licensee's multiple locations, unless the licensee and the licensee's multiple locations use a point of sale registry or some other accounting system to attempt to prevent violations of this subsection.

5. Before a licensee may negotiate or present a check for payment, the check must be endorsed with the actual name under which the licensee is doing business.
6. Each deferred presentment service transaction, including a renewal, must be documented by a written agreement signed by the maker of the check. The written agreement must contain the name of the licensee; the transaction date; the amount of the check; and a statement of the total amount of fees charged, expressed as a dollar amount and as an annual percentage rate. The written agreement must authorize the licensee to defer presentment or negotiation of the check until a specified date. The maker of a check may redeem the check from the licensee at any time before the negotiation or presentment of the check by making payment to the licensee; however, the maker may rescind the transaction by the close of the following business day at no cost.
7. If a check is returned to the licensee from a payer financial institution due to insufficient funds, closed account, or a stop payment order, the licensee has the right to all civil remedies available to collect the check. The licensee may contract for and collect a returned check charge not to exceed twenty dollars per customer, per year. No other fee or charge may be collected as a result of a returned check or as a result of default by the maker of the check in timely payment to the licensee.
8. A maker of a check who has authority to make the check and enters into a deferred presentment service agreement is not subject to a criminal penalty relating to the check or the deferred presentment service agreement unless the account on which the check was written was closed on the original date of the transaction. At the time of entering a transaction, a licensee shall verify that the account on which the check is written is open. A licensee may not pursue or threaten to pursue criminal penalties against a maker of a check for criminal penalties prohibited by this subsection.
9. A licensee may not engage in unfair or deceptive acts, practices, or advertising in the conduct of a deferred presentment service business.
10. The amount paid to the maker by the licensee in a deferred presentment service transaction must be paid in the form of cash or check.
11. Each licensee must conspicuously post in the licensee's licensed location a notice of the fees imposed for the deferred presentment service.
12. A licensee may not renew a deferred presentment service transaction more than once. A licensee's renewal fee may not exceed twenty percent of the amount being renewed. The total period of deferral, including the initial deferral and one renewal, may not exceed forty-five days. An individual renewal period may not be less than fifteen days.

After forty-five days the renewed deferred presentment check must be paid off in cash, money order, or certified check by the maker or must be deposited by the licensee.

13. A licensee may not renew, repay, refinance, or consolidate a deferred presentment service transaction with the proceeds of another deferred presentment service transaction with that licensee by the same maker or customer. It is presumed that a deferred presentment service transaction initiated within three business days before completion of a deferred presentment service transaction is a violation of this subsection.
14. A licensee may not conduct another business, other than a bona fide pawnbroking business, within the same office, suite, room, or place of business at which the licensee engages in deferred presentment service transactions unless the commissioner provides written authorization after a determination the other business is not contrary to the best interests of consumers.
15. A licensee shall provide a notice in a prominent place on each deferred presentment service agreement in no less than ten-point type in substantially the following form:

State law prohibits this business from allowing customers to have outstanding at any one time, deferred presentment service transactions totaling more than five hundred dollars.

16. A licensee or any agent of a licensee who willfully violates this section is guilty of a class A misdemeanor.

Denial of license - Hearing. If the commissioner determines an applicant is not qualified to receive a license, the commissioner shall notify the applicant in writing stating that the application is denied and stating the basis for denial. If the commissioner denies an application, or if the commissioner fails to act on an application within thirty days after the filing of a properly completed application, the applicant may make written demand to the commissioner for a hearing before the commissioner on the question of whether the license should be granted. The hearing must be held within thirty days after receipt of the written demand by the applicant. In the event of a hearing, the commissioner shall reconsider the application and, after hearing, issue a written order granting or denying the application. If an applicant who is denied a license requests a hearing and the commissioner's denial is upheld, the commissioner may assess the applicant for the commissioner's costs incurred for the hearing, in an amount not exceeding two thousand dollars.

Suspension - Revocation.

1. After notice and hearing, the commissioner may suspend or revoke a license if the commissioner finds that the licensee or any principal of the licensee has been convicted of a felony or that the licensee knowingly or through lack of due care:
 - a. Failed to pay the annual license fee imposed under this chapter or any examination fee imposed by the commissioner under the authority of this chapter;

- b. Committed any fraud, engaged in any dishonest activities, or made any misrepresentations;
 - c. Violated this chapter or any rule adopted under this chapter or violated any other law in the course of the licensee's business activities as a licensee;
 - d. Made false statements in the application for the license; or
 - e. Engaged in any unfair or deceptive acts, practices, or advertising in the conduct of a deferred presentment service business.
2. Written notice must be given at least twenty days before the date of a hearing under this chapter.

Violations - Cease and desist orders - Penalties. Except as otherwise provided in this chapter, any person who willfully provides deferred presentment services without a license is guilty of a class C felony and any person who violates any other provisions of this chapter or any rule adopted to implement this chapter is guilty of an infraction. If the commissioner finds, whether without a hearing or after a hearing if a hearing is requested within twenty days of notice of an action by the commissioner under this section, that a person violated this chapter or any rule adopted to implement this chapter, the commissioner may do any one or more of the following:

1. Order the person to cease and desist violating this chapter or the rule.
2. Require the refund of any fees collected by the person in violation of this chapter.
3. Impose a civil penalty not to exceed one thousand dollars per transaction for violation of a cease and desist order issued under this chapter or for violation of this chapter.

A city levying a tax pursuant to this section may levy only so much as will be required to provide an amount representing the difference between the estimated state transportation payment to be received by the school district on behalf of students residing in the city but attending school outside of the city and the estimated actual cost to be incurred by the district in providing transportation for those students.

SECTION 34. AMENDMENT. Section 57-16-04 of the North Dakota Century Code is amended and reenacted as follows:

57-16-04. Increase may be for five years - Extension - Discontinuance.

The governing board of the school district may submit the question of authorizing an excess levy for the current year and not to exceed four succeeding years. The notice of election must give the year or years for which authorization is sought for an excess levy as well as the percentage of excess which is to be voted upon. Prior to the termination of the excess levy, such levy may be extended for a term not to exceed the original term of the increase upon the unanimous approval by the governing board of the school district, and further extensions may be made for the same number of years prior to each termination date upon the unanimous approval of the governing board of the school district. The question of discontinuing such extended excess levy in any school district must be submitted to the qualified electors at the next regular election upon the filing with the school board of a petition containing the signatures of not less than ten percent of the qualified electors of the district as determined by the county superintendent for such county in which such school is located; provided, however, that the approval of discontinuing such extended excess levy does not affect the tax levy in the calendar year in which the election is held. determined under the provisions of chapter ~~45-40.4~~ 15.1-27, to provide funds for the developmental center at westwood park, Grafton, and to provide for water development and utilization and energy conservation and development programs by enactment of an excise tax to be known as the "oil extraction tax" and enactment of an income tax credit.

The legislative assembly has determined that many areas within the state of North Dakota do not have adequate water supplies for municipal, domestic, livestock, light industrial, and other uses. However, adequate water supplies are essential for the social and economic stability of municipalities and rural areas. It is, therefore, declared to be in the best interest of the people of the state of North Dakota to establish a resources trust fund to be used to construct, or assist in the construction of, multiple-use water supply facilities. The legislative assembly also recognizes that appropriate planning to meet current and long-range water needs for the benefit of all of the citizens of the state of North Dakota is a matter of concern and high priority. The legislative assembly further intends that revenues, generated by use of any facilities constructed, in whole or in part, with financing from the resources trust fund, shall be deposited in the resources trust fund.

⁷⁵ **SECTION 36. AMENDMENT.** Subsection 1 of section 57-62-02 of the North Dakota Century Code is amended and reenacted as follows:

1. Fifteen percent must be deposited in a permanent trust fund in the state treasury, to be known as the coal development trust fund, pursuant to section 21 of article X of the Constitution of North Dakota. Those funds held in trust and administered by the board of university and school lands on March 5, 1981, pursuant to section 12, chapter 563, 1975 Session Laws; section 12, chapter 560, 1977 Session Laws; or section 13, chapter 626, 1979 Session Laws must also be deposited in the trust fund created pursuant to this subsection. The board of university and school lands may invest such funds as are not loaned out as provided in this chapter and may consult with the state investment board as provided by law. The income, including interest payments on loans, from the trust must be used first to replace uncollectible loans made from the fund and the balance must be deposited in the state's general fund. Loan principal payments must be redeposited in the trust fund. The trust fund must be perpetual and held in trust as a replacement for depleted natural resources subject to ~~the provisions of~~ this chapter and chapter ~~45-60~~ 15.1-36.

15.1-23-06. Home education - Required monitoring of progress. A parent who has a high school diploma or a general education development certificate may supervise home education but must be monitored in accordance with section 15.1-23-07 for the first two years. If a child receiving home education obtains a basic composite standardized achievement test score below the fiftieth percentile nationally, the parent must be monitored for at least one additional school year and until the child receives a test score at or above the fiftieth percentile. If testing is not required by section 15.1-23-07 during the first two years of monitoring, the period of monitoring may not be extended, except upon the mutual consent of the parent and the monitor. If a parent completes the monitoring requirements of this section for one child, the parent may not be monitored with respect to other children for whom the parent supervises home education.

2. The individual assigned by the school district or selected by the parent under subsection 1 must be licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board.
3. Twice during each school year, the individual shall report the child's progress to the school district superintendent or to the county superintendent if the district does not employ a superintendent.
4. If one child receives home education, the individual shall spend an average of one hour per week in contact with the child and the child's parent. If two or more children receive home education, the individual shall spend one-half hour per month for each additional child receiving home education. If the child attends a public or an approved nonpublic school, the time may be proportionately reduced.

15.1-23-08. Monitoring or test administration. An individual who in accordance with this chapter monitors a child receiving home education or who administers a standardized achievement test to a child receiving home education shall notify the child's school district of residence.

15.1-23-09. Home education - Standardized achievement test. While in grades four, six, eight, and ten, each child receiving home education shall take a standardized achievement test used by the school district in which the child resides or, if requested by the parent, shall take a nationally normed standardized achievement test. The child shall take the test in the child's learning environment or, if requested by the child's parent, in a public school. An individual licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board shall administer the test.

15.1-23-10. Home education - Standardized achievement test - Cost.

1. If a child receiving home education takes the standardized achievement test used by the school district in which the child resides, the school district is responsible for the cost of the test and for the cost of administering the test. The school district shall ensure that the test is administered by an individual who is employed by the district and who is licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board.
2.
 - a. If the child takes a nationally normed standardized achievement test not used by the school district in which the child resides, the child's parent is responsible for the cost of the test.
 - b. The cost of administering a test under this subsection is the responsibility of the child's parent if the test is administered by an individual who is selected by the parent. An individual selected by the child's parent to administer a test under this subsection must be licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board.

- c. The cost of administering a test under this subsection is the responsibility of the school district if, at the request of the child's parent, the school district administers the test. The school district shall ensure that the test is administered by an individual who is employed by the district and who is licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board.

15.1-23-11. Home education - Standardized achievement test - Results.

1. A parent supervising home education shall file the results of the child's standardized achievement test with the superintendent of the district in which the child resides or with the county superintendent if the district does not employ a superintendent.
2. If the child's basic composite score on a standardized achievement test is less than the thirtieth percentile nationally, a multidisciplinary assessment team shall assess the child for a potential learning problem under rules adopted by the superintendent of public instruction.
3. If the multidisciplinary assessment team determines that the child is not disabled and the child's parent wishes to continue home education, the parent, with the advice and consent of an individual who is licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board, shall prepare a remediation plan to address the child's academic deficiencies and file the plan with the superintendent of the school district or with the county superintendent if the district does not employ a superintendent. The parent is responsible for any costs associated with the development of the remediation plan. If the parent fails to file a remediation plan, the parent is deemed to be in violation of compulsory school attendance provisions and may no longer supervise the home education of the child.

15.1-23-12. Home education - Remediation plan. The superintendent of the school district shall use the remediation plan required by section 15.1-23-11 as the basis for determining reasonable academic progress. The remediation plan must remain in effect until such time as the child achieves on a standardized achievement test a basic composite score at or above the thirtieth percentile or a score, which when compared to the previous year's test score, demonstrates one year of academic progress. At the option of the parent, the test may be one required by section 15.1-23-09 or one administered in a higher grade level. The child's parent, with the advice and consent of an individual who is licensed to teach by the education standards and practices board or who is approved to teach by the education standards and practices board, may amend the remediation plan from time to time in order to accommodate the child's academic needs. If after a remediation plan is no longer in effect the child fails to demonstrate reasonable academic progress on a subsequent test required by this section, a remediation plan must again be developed and implemented.

15.1-23-13. Home education - Disabilities - Services plan.

1. If a multidisciplinary assessment team, using eligibility criteria established by the superintendent of public instruction, determines that the child is disabled, that the child requires specially designed instruction due to the disability, and that this instruction cannot be

provided without special education and related services, the parent may continue to supervise home education, provided that:

- a. The child does not have a developmental disability;
 - b. The parent files with the school district superintendent a services plan that was developed privately or through the school district; and
 - c. The services plan demonstrates that the child's special needs are being addressed by persons qualified to provide special education or related services.
2. Annually, the superintendent of the child's school district of residence shall determine reasonable academic progress based on the child's services plan.
 3. If a parent fails to file a services plan as required by this section, the parent is deemed to be in violation of the compulsory school attendance provisions and may no longer supervise the home education of the child.
 4. A child who was once evaluated by a multidisciplinary assessment team need not be reevaluated for a potential learning problem upon scoring below the thirtieth percentile on a subsequent standardized achievement test unless the reevaluation is performed pursuant to the child's services plan.

15.1-23-14. Children with autism - Home education. Notwithstanding any other law, a parent may supervise home education for a developmentally disabled child with autism if:

1. The child has been determined to be autistic by a licensed psychologist;

 - b. A copy of the child's diagnosis of autism prepared and attested to by a licensed psychologist; and
 - c. A services plan developed and followed by the child's school district of residence and the child's parent; or, after providing written notice to the superintendent of the child's school district of residence, a substitute services plan, developed and followed, according to section 15.1-23-15, by a services plan team selected by and compensated by the child's parent.

15.1-23-15. Children with autism - Home education - Progress reports.

1. On or before November first, February first, and May first of each school year, a parent supervising home education for an autistic child under

section 15.1-23-14 shall file with the superintendent of the child's school district of residence progress reports prepared by the services plan team selected under section 15.1-23-14. If at any time the services plan team agrees that the child is not benefiting from home education, the team shall notify the superintendent of the child's school district of residence and request that the child be evaluated by a multidisciplinary team appointed by the superintendent of the child's school district of residence.

2. The superintendent of the child's school district of residence shall forward copies of all documentation required by this section to the superintendent of public instruction.

3. For purposes of this section, a child participating under the auspices of an approved nonpublic school is subject to the same standards for participation in extracurricular activities as those required of full-time students enrolled in the school.
4. Once a child's parent has selected the public school district or the approved nonpublic school in which the child will participate for purposes of extracurricular activities and has provided notification of the selection through the statement required by section 15.1-23-02, the child is subject to the transfer rules as provided in the constitution and bylaws of the North Dakota high school activities association.

15.1-23-17. Home education - High school diplomas.

1. A child's school district of residence, an approved nonpublic high school, or the North Dakota division of independent study may issue a high school diploma to a child who, through home education, has met the issuing entity's requirements for high school graduation provided the child's parent submits to the issuing entity a description of the course material covered in each high school subject, a description of the course objectives and how the objectives were met, and a transcript of the child's performance in grades nine through twelve.
2. In the alternative, a high school diploma may be issued by the child's school district of residence, an approved nonpublic high school, or the North Dakota division of independent study provided the child, through home education, has completed at least seventeen units of high school coursework from the minimum required curriculum offerings established

by law for public and nonpublic schools and the child's parent or legal guardian submits to the issuing entity a description of the course material covered in each high school subject, a description of the course objectives and how the objectives were met, and a transcript of the child's performance in grades nine through twelve. The issuing entity may indicate on a diploma issued under this subsection that the child was provided with home education.

3. If for any reason the documentation required in subsection 1 or 2 is unavailable, the entity issuing the diploma may accept any other reasonable proof that the child has met the applicable requirements for high school graduation.

15.1-23-18. Home education - Liability. No state agency, school district, or county superintendent may be held liable for accepting as correct the information on the statement of intent or for any damages resulting from a parent's failure to educate the child.

15.1-23-19. Home education - State aid to school districts. For purposes of allocating state aid to school districts, a child receiving home education is deemed enrolled in the child's school district of residence if the child is monitored by an individual who is licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board and employed by the public school district in which the child resides. A school district is entitled to fifty percent of the per student payment provided in section 15.1-27-04 times the appropriate factor in section 15.1-27-06 or 15.1-27-07 for each child receiving home education. If a child receiving home education is enrolled in public school classes, proportionate payments must be made. The total amount may not exceed the equivalent of one full per student payment times the appropriate weighting factor.

Any withholding under this subsection may not exceed an amount equal to the cost of meeting the affected student's needs.

15.1-27-11. High school districts - Supplemental payments. The superintendent of public instruction shall calculate the average valuation of property per student by dividing the number of students in average daily membership in grades one through twelve in a high school district into the district's latest available net assessed and equalized taxable valuation of property. If the quotient is less than the latest available statewide average taxable valuation per student and if the district's educational expenditure per student is below the most recent available statewide average cost of education per student, the superintendent of public instruction shall:

1. Determine the difference between the latest available statewide average taxable valuation per student and the average taxable valuation per student in the high school district;
2. Multiply the result determined under subsection 1 by the number of students in average daily membership in grades one through twelve in the high school district;
3. Multiply the result determined under subsection 2 by the number of general fund mills levied by the district in excess of one hundred fifty, provided that any mills levied by the district which are in excess of two hundred ten may not be used in this calculation; and
4. Multiply the result determined under subsection 3 by thirty percent. The result is the supplemental payment to which a high school district is entitled, in addition to any other amount provided under chapter 15.1-27.

1. In addition to any other payments provided for by this chapter, each school district is entitled to receive four hundred dollars for each student who has been assessed by the student's school district and determined to have negligible or very limited English language skills as evidenced by a classification of level I or II using the Woodcock-Munoz language survey.
2. In order to receive the full payment provided for in this section, a school district must complete the student assessment required by subsection 1 and forward the results to the superintendent of public instruction on or before October twenty-fifth of each school year. The superintendent shall distribute the payments no later than May thirtieth of each school year. The superintendent shall prorate payments under this section for any students registering in the school district after October first or

departing from the school district prior to the completion of the school year.

15.1-27-13. Per student payments - Students on active duty. A school district is entitled to receive payments under this chapter for a student who is absent up to one semester because the student is a member of the North Dakota national guard and is engaged in active duty or training within or outside the state.

15.1-27-14. Per student payments - Students attending school out of state. For each student attending school out of state in accordance with section 15.1-29-01, the weighting factors provided in sections 15.1-27-06 and 15.1-27-07 must be increased by twenty percent.

15.1-27-15. Per student payments - Isolated schools.

1. If an elementary school has fewer than fifty students and fifteen percent or more of its students would have to travel beyond a fifteen-mile [24.15-kilometer] radius from their residences in order to attend another school, the weighting factor provided under section 15.1-27-07 must be increased by twenty percent for the first fifteen students. If the school has fewer than fifteen students, the payment received must be for fifteen students.
2. If a high school has fewer than thirty-five students and fifteen percent or more of its students would have to travel beyond a twenty-mile [32.2-kilometer] radius from their residences in order to attend another school, the weighting factor provided under section 15.1-27-06 must be increased by twenty percent for the first twenty students. If the school has fewer than twenty students, the payment received must be for twenty students.

15.1-27-16. Per student payments - Cooperating districts. If, on or after July 1, 1997, any school district receiving payments under this chapter cooperates with another school district for the joint provision of educational services under a plan approved by the superintendent of public instruction, each cooperating district is entitled to receive, for a period of four years, at least the same per student payment for each high school and elementary student as the district received prior to initiation of the cooperative plan.

15.1-27-17. Per student payments - Reorganization of school districts.

1. If any school district receiving per student payments calculated under section 15.1-27-06 reorganized with another school district under chapter 15.1-12 before August 1, 1997, the school district resulting from the reorganization is entitled to receive the same per student payments for each high school student as each separate school district received for each high school student prior to the reorganization, for a period of four years.
2. If any school district receiving per student payments calculated under this chapter reorganizes with another school district under chapter 15.1-12 after July 31, 1997, the school district resulting from the reorganization is entitled to receive the same per student payments for each high school and elementary student as each separate school district received for each high school and elementary student prior to the reorganization, for a period of four years.

3. The weighting factor for each district will be adjusted proportionately over a period of two years, following the period of time provided in subsection 1 or 2, until the adjusted weighting factor equals the weighting factor for the combined enrollment resulting from the reorganization.
4. Notwithstanding the provisions of any other law, no school district may receive less in per student payments for the first year of its reorganization than the total amount that the districts participating in the reorganization received in per student payments for the school year immediately preceding the reorganization. If less than a whole school district participated in a reorganization, the superintendent of public instruction shall prorate the payments to which the newly reorganized district is entitled under this subsection.

15.1-27-18. Per student payments - Eligibility - Minimum amounts.

1. In order to be counted for the purpose of calculating per student payments, as provided for by this chapter, a high school student must be enrolled in at least four high school units. The units may include vocational education courses offered in accordance with chapter 15-20.1 and courses that are approved by the superintendent of public instruction and offered by another high school district.
2. If a student is enrolled for graduation in a nonpublic school or if a student is taking fewer than four high school units and is enrolled in an approved alternative high school education program, the school district in which the student is enrolled is entitled to receive proportionate payments.
3. Each high school district must receive at least as much in total per student payments as it would have received if it had the highest number of students in the next lower weighting category.

15.1-27-19. Summer school courses and programs - Proportionate payments.

1. Each school district that offers summer school courses at the high school level is entitled to receive proportionate payments provided each course offered satisfies requirements for graduation, comprises at least as many clock-hours as courses offered during the regular school term, and complies with rules adopted by the superintendent of public instruction.
2. A school district that offers remedial summer school programs at the elementary level is entitled to receive proportionate payments provided the programs comply with rules adopted by the superintendent of public instruction.
3. The superintendent of public instruction may adopt rules regarding proportionate payments for remedial summer school programs at the elementary level and summer school courses at the high school level.
4. Proportionate payments made under this section during a biennium for summer school courses or programs may not exceed one and one-half percent of the total amount appropriated by the legislative assembly for

per student and transportation aid payments during the biennium, or eight million dollars, whichever is less. No more than seventy-five percent of the amount made available under this subsection may be used to support summer school courses at the high school level and no more than twenty-five percent of the amount made available under this subsection may be used to support remedial summer school programs at the elementary level.

1. Upon the completion of student registration and in no event later than September tenth of each year, the business manager of a school district claiming payments from state funds under the provisions of this chapter shall file a claim in the manner prescribed by the superintendent of public instruction. The business manager must provide the number of registered high school and elementary school students for whom payments are claimed and any other information requested by the superintendent of public instruction.
2. The superintendent of public instruction shall compute the per student payments on the basis of the previous year's average daily membership less the number of students attending school during the current school year in another district under the provisions of open enrollment or the current year's fall enrollment, whichever provides the greater total payment. The superintendent shall make adjustments in the subsequent year according to a comparison between the average daily membership for the year for which the adjusted payment is being made and the year preceding the year for which the adjusted payment is being made, whichever is greater, for grade levels that existed in both years. The greater of the two preceding years' average daily membership must be used in computing any adjustment in a district's per student aid payments.
3. School districts educating children of agricultural migratory workers and school districts offering high school summer courses during the months of June, July, and August are not restricted to payments for a one hundred eighty-day school term.
4. Upon termination of the school year and in no event later than July fifteenth, the business manager of each school district that has received payments from state funds under the provisions of this chapter shall file with the county superintendent of schools a verified statement of the name, residence, and membership of each student and the units of high school work taken by each student enrolled during the previous school year. The county superintendent shall investigate the validity of the statement and shall determine the residence and other qualifications of each student named in the statement. The county superintendent of schools shall attest to the statement. On or before September first of each year, the county superintendent shall certify to the superintendent of public instruction the number of students enrolled in each district in the county for the previous school year upon which any adjustment may be based. If the county superintendent disallows any statement in whole or in part, the county superintendent shall provide notice of the disallowance, together with the names of the affected students, to the superintendent of public instruction and to the school district filing the statement.

5. A district may appeal the determination of a county superintendent to the superintendent of public instruction on or before September fifteenth of the year in which the determination is made. The superintendent of public instruction may modify the determination of the county superintendent if the evidence submitted by the district justifies a modification. The judgment of the superintendent of public instruction is final.

15.1-27-21. Payment to school district - Property valuation changes.

1. If the taxable valuation of property is diminished because real property is reclassified as personal property as a result of legislative or judicial action, the state payment to an affected school district must be based on the diminished valuation in the year in which it is paid to the district.
2. If the state payment to a school district is based upon a determination of property valuation that is later diminished by legislative or judicial action, the district has one year from the date of the final determination or adjudication of the property tax base adjustment within which to apply to the superintendent of public instruction for a supplemental state payment in an amount equaling the difference between the amount that the district received and the amount that the district would have received if the correct property tax base had been used.
3. A school district is entitled to the supplemental state payment provided by this section even if the payment is made in a succeeding biennium.
4. The superintendent of public instruction shall pay the amount due under this section within the limits of legislative appropriations for per student payments and transportation aid.

15.1-27-22. Insufficient moneys - Fractional payments. If moneys in the state general fund are insufficient to make all payments to school districts, the superintendent of public instruction shall prorate the payments on a fractional basis. As additional moneys come into the fund, payments may be made until the school districts receive all moneys to which they are entitled. If an appropriation made by the legislative assembly is inadequate to meet all claims against the appropriation and is therefore the cause of the insufficiency, the prorated fractional payments made under this section constitute payment in full.

15.1-27-23. Weather or other emergency conditions - Closure of schools - State payments to school districts. If because of severe weather or other emergency conditions a school or school district remains closed or provides less than a full day of instruction, the school or school district shall make every effort to reschedule classes so that students receive at least one hundred seventy-three full days of instruction. Any school or school district for which the rescheduling of classes would create undue hardship may request that, for purposes of calculating state payments to the school or school district, the governor waive the rescheduling in whole or in part. The governor may not grant a waiver for less than a full day of instruction.

15.1-27-24. Taylor Grazing Act funds - Disposition. The state treasurer shall apportion payments from the federal government to this state under the provisions of 43 United States Code 315i (the Taylor Grazing Act) among the counties in the state in the proportion that the number of acres [hectares] of Taylor Grazing Act land in each county bears to the total amount of Taylor Grazing Act land

3. The state treasurer shall allocate the percentage of the total moneys received as required by this section among the counties in which the minerals were produced based on the proportion each county's mineral royalty revenue bears to the total mineral royalty revenue received by the state for that calendar quarter. The state treasurer shall pay the amount calculated to each county.
4. The counties may use any money received under this section only for the planning, construction, and maintenance of public facilities and the provision of public services.
5. The percentage of money received by the state under the Act of Congress cited in subsection 1 which must be allocated and paid to the counties under this section is ten percent for collections in 2000, twenty percent for collections in 2001, thirty percent for collections in 2002, forty percent for collections in 2003, and fifty percent for collections in 2004 and thereafter.
6. Any remaining money received by the state under the Act of Congress cited in subsection 1 must be distributed to school districts as provided for in this chapter. Any moneys distributed under this subsection are deemed the first moneys withdrawn or expended from the general fund for the purpose of state aid to school districts.
7. The funds needed to make the distribution to counties, as provided for in this section, are hereby appropriated on a continuing basis.

Each of the school districts eligible for a payment under this section is entitled to receive that percentage of the total amount which is the same as the percentage that the number of the district's students who attended the former school district during the prior school year bears to the total number of students who attended the former school district during the prior school year.

⁸⁶ **SECTION 13.** Chapter 15.1-29 of the North Dakota Century Code is created and enacted as follows:

15.1-29-01. Education of students in bordering states - Payment of tuition.

1. Students may attend a school in a bordering state in accordance with section 15.1-29-02 under the following circumstances:
 - a. A student who lives within forty miles [64.37 kilometers] of another state or in a county bordering on another state may, with the approval of the school board, attend a public school in a bordering state.
 - b. A student who has attended a school district in a bordering state since, and including, the 1990-91 school year must be permitted to continue attending school in the district in the bordering state.
 - c. A student whose sibling attended an out-of-state school during or before the 1990-91 school year must be permitted to attend school in the district the sibling attended in the bordering state.
2. If the school board of the district in which the student resides denies a request for a student's attendance in and payment of tuition to another state, the student's parent may appeal the decision to the three-member committee referenced in section 15.1-29-06.
 - a. If the three-member committee determines that the student meets the terms of subdivision b or c of subsection 1, the student may attend school in the bordering state and the board of the student's school district of residence shall pay the tuition.
 - b. If the three-member committee determines the student falls within the terms of subdivision a of subsection 1, then the three-member committee shall make its decision using the criteria specified in section 15.1-29-06.
 - c. If the student is a kindergarten student, the three-member committee shall apply the same criteria as that specified for elementary students in section 15.1-29-06, except that subsection 2 of section 15.1-29-06 does not apply to an appeal for out-of-state attendance and payment of tuition. Notwithstanding the provisions of this section, if a student's school district of residence does not provide for the education of kindergarten students, the district may not pay tuition for a kindergarten student to attend school in a bordering state.

⁸⁶ Section 15.1-29-01 was amended by section 3 of Senate Bill No. 2147, chapter 193, section 15.1-29-02 was amended by section 2 of House Bill No. 1346, chapter 194, section 15.1-29-06 was amended by section 4 of Senate Bill No. 2147, chapter 193, and section 15.1-29-08 was repealed by section 5 of Senate Bill No. 2147, chapter 193.

- d. Any decision by the three-member committee regarding the payment of tuition for high school, elementary, or kindergarten students may be appealed by the school board or by the student's parent to the state board of public school education. A decision by the state board is final.
3.
 - a. The superintendent of public instruction shall forward all per student and transportation aid payments for a student attending an out-of-state school to the student's school district of residence.
 - b. The student's district of residence may reduce any tuition payment it must make to an out-of-state school by an amount commensurate with the tuition costs the district would be entitled to receive as compensation for a student from the out-of-state district enrolled in its school.
 - c. Transportation payments for a student attending school in a bordering state must be determined as provided in section 15.1-27-27.
 4. Nothing in this section requires that a school district of residence provide student transportation or payments in lieu of transportation for students attending out-of-state schools.

15.1-29-02. Education of students in bordering states - Reciprocal contract.

1. The superintendent of public instruction shall pursue a reciprocal contract with the education agency of each bordering state. The contract must address the cost of educating students in the public schools of the bordering state.
2. A school district may comply with the terms of the superintendent's reciprocal contract or, upon providing notice to the superintendent of public instruction, may contract with a school district in a bordering state for the education of students. A contract between school districts supersedes the terms of the superintendent's reciprocal contract. A contract between school districts must provide for the payment of tuition at an agreed-upon amount. The amount of tuition payable per student may not exceed the amount set by the superintendent's reciprocal contract nor may it be less than the per student payment plus tuition apportionment in the North Dakota school district.
3. For purposes of per student payments and tuition apportionment payments, a student who attends school in a bordering state under a contract provided for by this section is deemed to be in attendance in the student's school district of residence. The student's school district of residence is liable to the school district of the bordering state for payments as provided in the contract.
4. If the education agency of a bordering state is not authorized to or refuses to enter into a reciprocal contract with the superintendent of public instruction, a school district in this state may enter into its own contract with a school district in a bordering state for the education of students. A school district in this state may not agree to accept students from a bordering state unless the tuition payable equals or exceeds the

per student payment plus the tuition apportionment payment that the district would have received from this state for a student in the same grade if its student had been attending school in the bordering state.

15.1-29-03. Education of students in other districts - Payment of tuition.

1. After taking into account the best interests of all affected parties, the board of a school district may elect to send its students to another school district. In this instance, the board may pay tuition for the students. The board may arrange, and when petitioned to do so by qualified electors of the district equal in number to at least a majority of those who voted in the most recent annual school district election shall arrange, with other boards to send students to the other districts and to pay for their tuition and transportation.
2. If a district does not provide educational services to an entire grade level, the students in that grade level may attend a public school of their choice outside their district of residence without going through the procedures outlined in section 15.1-29-05. The school district of residence shall pay tuition to the admitting district. For purposes of determining whether educational services are provided to an entire grade level, districts cooperating with each other in the joint provision of educational services under a plan approved by the superintendent of public instruction are considered to be a single district.

15.1-29-04. Payment of tuition by sending districts - Interest on late payments. If a school board approves the payment of tuition for a student attending school in another district or if a district is required to make tuition payments under the provisions of this chapter, the sending district shall pay at least fifty percent of the annual tuition charge to the admitting district on or before December thirty-first and any remaining amount on or before May thirty-first. If payment is not received by the admitting district within thirty days after the date on which payment is due, simple interest at the rate of six percent per annum accrues to any amount due.

15.1-29-05. Payment of tuition - Petition by parent. A student's parent may file a written petition with the board of the student's school district of residence for the payment of tuition in order that the student can attend another school district. Within sixty days after receiving the petition, the board shall meet with the student's parent and render a decision regarding the payment of tuition. If the board does not render a contrary decision within the sixty-day period, the petition is deemed approved. If the petition is approved, the board shall pay the tuition charges. If the petition is denied, the student's parent may file an appeal with the county superintendent of schools.

15.1-29-06. Payment of tuition for grades one through twelve - Appeal - Withholding of state payments.

1. a. Within fifteen days after receipt of an appeal filed under section 15.1-29-05, the county superintendent of schools shall convene a three-member committee consisting of the county superintendent, the state's attorney, and one member appointed by the board of county commissioners for a term of three years. The committee shall consult with the boards of the affected districts and with the student's parent. The committee shall schedule a hearing, giving due notice to each affected board and to the student's parent. The committee shall conduct the hearing in a manner that allows all

- parties to present arguments and responses. The committee shall base its decision regarding the payment of tuition on the grade in which the student is enrolled.
- b. If the student is or during the following school year will be enrolled in any grade from nine through twelve and the committee finds that the attendance of the student is necessitated by shorter distances, previous attendance in another high school, inadequacy of curriculum considering the student's educational needs, or extreme hardship for the student or the student's family, the committee shall approve the application and the payment of tuition by the student's school district of residence, thereby obligating the district of residence to pay the tuition. The committee's directive regarding the payment of tuition may be for any fixed number of school years, up to the completion of the student's high school education, unless open enrollment is an available option. The decision of the committee may be appealed to the state board of public school education. A decision by the state board is final.
 - c. If the student is or during the following school year will be enrolled in any grade from one through eight and the committee finds that the attendance of the student is necessitated by shorter distances or extreme hardship for the student or the student's family, the committee shall approve the application and the payment of tuition by the student's district of residence, thereby obligating the district of residence to pay the tuition. The committee's directive regarding the payment of tuition is limited to one school year. The student's parent may make subsequent applications for the payment of tuition. The decision of the committee is final and is not subject to appeal.
2. If a student's school district of residence consists of land situated in more than one county, the three-member committee established under subsection 1 must consist of the county superintendent of schools and the state's attorney from the county in which the greatest portion of the school district's land is situated, and an individual appointed for a term of three years by the board of county commissioners representing the county in which the greatest portion of the school district's land is situated.
 3. If the student's school district of residence does not comply with the decision requiring that tuition charges be paid, the board of the admitting district shall notify the superintendent of public instruction. Upon verifying that tuition payments are due the admitting district and are unpaid, the superintendent of public instruction shall withhold all state payments to the student's school district of residence until any tuition due has been fully paid.
 4. A school district of residence may provide transportation to a student for whom tuition is paid under this section. If a school district of residence does not provide transportation to the student, it may be provided by the admitting district and the admitting district is then entitled to state payments for the transportation of the student.

15.1-29-07. Payment of tuition by parent - Content of tuition contract.

1. If the board of a student's school district of residence refuses to pay the tuition for the student to attend school in another district and if the committee established under section 15.1-29-06 denies the petition on appeal, the student's parent may pay the tuition.
2. If the parent chooses to pay the tuition, the parent shall:
 - a. Submit at least fifty percent of the total amount due on the day of enrollment; and
 - b. Provide the board of the admitting district with a written contract agreeing to pay any remaining balance on or before December thirty-first.

15.1-29-08. Payment of tuition - Kindergarten student. If the student is or during the following school year will be enrolled in kindergarten, the board of the student's school district of residence may pay tuition to the receiving district. The board's decision with respect to a kindergarten student is not appealable. If the board of the student's district of residence does not pay the tuition to the admitting district, the student's parent may pay the tuition to the admitting district under the provisions of section 15.1-29-11.

15.1-29-09. Payment of tuition by federal government. An admitting district may accept payments under title 1 of Public Law No. 81-874 [64 Stat. 1100; 20 U.S.C. 236 et seq.] as tuition for a nonresident student if:

1. The student's parent is employed on an installation owned by the federal government;
2. The student's parent resides on an installation owned by the federal government; and
3. The boards of the student's school district of residence and the admitting district agree to accept the payments in lieu of other tuition for the nonresident student.

15.1-29-10. Tuition contracts - Agreement with federal officials. A school board may contract with federal officials for the education of students in a federal school.

15.1-29-11. Admission of students - Conditions. The board of a school district shall admit students from other districts to its schools if:

1. The admission does not create overcrowding; and
2.
 - a. The board of the sending district has entered into a contract with the board of the admitting district regarding the students' attendance;
 - b. Tuition will be paid by the parents of the students from the sending district; or
 - c. The grade level required by the students is not offered by the sending district.

15.1-29-12. Tuition payments - Determination.

1. Except as provided in section 15.1-29-13, a school district sending a student to another district for purposes of education shall pay the full cost of education incurred by the admitting district.
2.
 - a. The admitting district shall determine the cost of education per student for its kindergarten, elementary, and high school students on the basis of its average daily membership and those expenditures permitted in determining the cost of education per student in section 15.1-27-03.
 - b. To the cost of education per student, the admitting district shall add the state average capital outlay per student. The state average capital outlay per student is determined by dividing the total of all school districts' annual expenditures for sinking and interest funds, tax receipts to the building funds, and general fund expenditures for capital outlay by the average daily membership of the state.
 - c. The admitting district shall subtract the following from the amount arrived at under subdivision b:
 - (1) The weighted per student payment received by the admitting district, less the average amount per North Dakota resident student enrolled in the school district realized from the deductions applied under section 15.1-27-06; and
 - (2) Any credit for taxes paid to the admitting district by the student's parent.
 - d. The amount remaining is the full cost of education incurred by the admitting district and the tuition amount payable for the individual student.
3. If the student's school district of residence and the student's parent are both paying tuition, the credit allowed under subdivision c of subsection 2 for taxes paid to the admitting district by the student's parent must be proportionately credited to the student's district of residence and the student's parent.
4. This chapter does not affect the right of a school board to charge and collect tuition from students who are not residents of this state, in accordance with section 15.1-29-02.

15.1-29-13. Tuition payments - Nonresident students.

1.
 - a. Except as provided in this subsection, the board of a school district that admits a nonresident student shall charge and collect tuition for the student. Either the student's district of residence shall pay the tuition to the admitting district in accordance with section 15.1-29-12 or the student's parent shall pay the tuition to the admitting district in accordance with section 15.1-29-07.
 - b. A board may charge tuition for nonresident students enrolled in an approved alternative education program.
 - c. Except as otherwise provided, if a school district fails to charge and collect tuition for a nonresident student, the districts shall forfeit any

- per student payment and transportation aid otherwise payable for the nonresident student.
2.
 - a. The board of a school district may admit a nonresident student from another district in this state offering the same grade level as that in which the student is enrolled without a charge and collection of tuition if the sending and admitting districts have entered into a written contract regarding the student's admission.
 - b. For purposes of determining whether the same grade level is offered, two or more school districts cooperating with each other for the joint provision of educational services under a plan approved by the superintendent of public instruction must be considered to be a single district.
 - c. The contract must specify whether transportation is to be provided and, if so, by which district. If a school district of residence does not provide transportation to the student, it may be provided by the admitting district and the admitting district is then entitled to state payments for the transportation of the student.
 - d. A contract is not necessary if the nonresident student is enrolled in an approved alternative education program for which no tuition is charged.
 - e. A school district may admit a nonresident student described in section 15.1-31-07 from another school district in this state without a charge and collection of tuition and without a written agreement.
 3. A school district may not charge or collect from a nonresident student, the student's parent, or the student's district of residence any fees or charges not otherwise assessed to all resident students.

15.1-29-14. Student placement for noneducational purposes - Residency determination - Payment of tuition.

1. For purposes of applying this chapter, a student's school district of residence is the district in which the student resides:
 - a. At the time that a state court, tribal court, juvenile supervisor, or the division of juvenile services issues an order requiring the student to stay for a prescribed period at a state-licensed foster home or at a state-licensed child care home or facility;
 - b. At the time a county or state social service agency places the student, with the consent of the student's parent or legal guardian, at a state-licensed foster home or at a state-licensed child care home or facility;
 - c. At the time the student is initially placed in a state-operated institution, even if the student is later placed at a state-licensed foster home or at a state-licensed child care home or facility; or
 - d. At the time the student is voluntarily admitted to a state-operated institution or to a state-licensed child care home or facility.

2. The student's school district of residence is obligated to pay:
 - a. All charges for tuition upon claim of the admitting district; and
 - b. All charges for tutoring services upon claim of an admitting facility, provided that the tutoring services are delivered by an individual who is licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board.
3.
 - a. If, after a student placement is made as provided for under subsection 1, the student's custodial parent establishes residency in another school district in this state, the school district in which the custodial parent has established residency becomes the student's school district of residence for purposes of paying tuition and tutoring charges under subsection 2.
 - b. The state shall pay the tuition and tutoring charges under subsection 2 from funds appropriated by the legislative assembly for per student and transportation aid:
 - (1) If, after a student placement is made as provided for under subsection 1, the student's custodial parent establishes residency outside this state; or
 - (2) If a court orders a termination of parental rights with respect to the student's parents.
4. If the student is voluntarily admitted to a state-licensed child care home or facility, or to a state-operated institution, the student's parent or, if one has been appointed, the student's legal guardian may appeal a determination under section 15.1-29-05 regarding the payment of tuition by filing a petition with the county superintendent of schools. Within fifteen days of receiving the petition, the three-member committee established under section 15.1-29-06 shall consult with the boards of the affected school districts and with the student's parent or legal guardian and render a decision regarding responsibility for the payment of tuition charges.
5. If the student's district of residence does not pay the required tuition, the admitting district or facility shall notify the superintendent of public instruction. Upon verification that tuition payments are due and unpaid, the superintendent shall withhold an amount equal to the unpaid tuition from per student payments and transportation aid otherwise payable to the student's school district of residence until the tuition due has been fully paid.
6. An amount equal to the state average per student elementary or high school cost, depending on the student's grade of enrollment, is payable to the admitting district or facility as part of the cost of educating the student for the school year. The payment may not exceed the actual per student cost incurred by the admitting district or facility. The remainder of the actual cost of educating the student not covered by other payments or credits must be paid by the state, within the limits of legislative appropriations, from funds appropriated for special education

in the case of a student with disabilities or from funds appropriated for per student payments and transportation aid in all other cases.

7. If a student with disabilities placed in accordance with this section reaches age eighteen and continues to receive special education and related services, the student's school district of residence is deemed to be the same as that of the student's custodial parent until the special education services are concluded. If the student's custodial parent establishes residency outside this state, or if a court orders a termination of parental rights with respect to the student's parents, the state shall pay the tuition and tutoring charges under subsection 2 from funds appropriated by the legislative assembly for per student and transportation aid.
8.
 - a. The placing agency shall provide written notice regarding an initial placement and all subsequent placements of a student, by registered mail, to the superintendent of the student's school district of residence and to the superintendent of the admitting district:
 - (1) Within five working days after a placement is made under court order;
 - (2) Within five working days after an emergency placement is made; or
 - (3) At least ten working days prior to any other placement.
 - b. The written notice must include any information requested by the superintendent of public instruction for purposes of determining payment responsibility.
 - c. The placing agency shall afford the student's school district of residence reasonable opportunity to participate in permanency planning for the student.
9. Notwithstanding this section, educational services provided to a student by the youth correctional center are not subject to the payment of tuition by either the student's school district of residence or the superintendent of public instruction.
10. For purposes of this section, "custodial parent" means the parent who has been awarded sole legal and physical custody of the student in a legal proceeding or, if there is currently no operative custody order, the parent with whom the student resides. If the student resides with both parents, then both are custodial parents.

15.1-29-15. Levy for tuition payments. If the board of a school district approves tuition payments for students in grades seven through twelve or if the board is required to make tuition payments under this chapter, the board may levy an amount sufficient to meet such payments, pursuant to subdivision c of subsection 1 of section 57-15-14.2.

SECTION 14. Chapter 15.1-30 of the North Dakota Century Code is created and enacted as follows:

15.1-30-01. Transportation or meals and lodging - Options of school board.

1. The board of a school district may:
 - a. Provide for the transportation of a student to and from school; or
 - b. If acceptable to the student's parent, reimburse the parent for expenses incurred in providing meals and lodging to the student outside the student's home, provided that the reimbursement may not exceed the amount permitted under subsection 4 of section 15.1-27-27.
2. A parent receiving payments under section 15.1-30-02 is not eligible to receive payments under this section.
3. If the board elects to provide for the transportation of students by public transit, the board shall establish eligibility criteria based on a minimum distance between a student's residence and the school. Except as otherwise provided by law, the board shall apply the criteria equally to all students in the district.
4. Benefits under this section are available even if a student is transported to another school district in or outside this state, provided the student's attendance meets all other conditions established by law.

15.1-30-02. Transportation payments - Board option.

1. The board of a school district in the state may pay to the parent of each student who resides more than two miles [3.22 kilometers] from the public school which the student attends a reasonable sum per day for each day the student attends the school, provided:
 - a. The student is transported to school by an adult member of the student's family;
 - b. The student's transportation is provided in a vehicle furnished by the student's parent;
 - c. The student's transportation is paid for by the student's parent; or
 - d. The cost of providing meals and lodging for the student at a location other than the student's residence is assumed by the student's parent.
2. The board shall calculate the payment provided for in this section according to the distance between the front door of the student's residence and the front door of the school attended by the student, using the most direct public route.

15.1-30-03. Transportation payments - Written request - Waiver. A parent entitled to any payment authorized by a school board under this chapter shall submit to the school district a written request for payment before June thirtieth of each school year or the payment is deemed waived. Any payment not made within one year of the date on which it is requested is deemed to have been refused and the claim is deemed to have expired.

15.1-30-04. Provision of meals and lodging for high school students - Payment permitted - Levy. Instead of providing transportation so that an eligible high school student residing in the district can attend school in another district, a school board may pay a reasonable allowance to the student's parent for costs incurred in the provision of meals and lodging for the student at a location other than the student's residence. A school district that furnishes either transportation or an allowance for the provision of meals and lodging for a student under this section may levy a tax pursuant to subdivision a of subsection 1 of section 57-15-14.2 for this purpose.

15.1-30-05. Schoolbus transportation services - Optional fee. The board of a school district that has not been reorganized may charge a fee for the provision of schoolbus transportation service to students. If the service began before July 1, 1981, the total fees charged may not exceed an amount equal to the difference between the state transportation payment and the lesser of the state average cost for transportation or the district's cost during the preceding school year. If the service started on or after July 1, 1981, the total fees charged may not exceed an amount equal to the difference between the state transportation payment and the school district's cost of transportation during the preceding school year. A district that has not previously provided transportation to students shall base its fees on estimated costs during the first year transportation is provided.

15.1-30-06. Transportation - Bids, contracts, bonds.

1. Before the beginning of each school year, the board of a school district that provides transportation shall contract for the provision of transportation services during the school year. Except as provided in section 15.1-30-11, the board shall provide notice of its intent to contract by publishing the time and place for submission of sealed bids in the official newspaper of the school district at least ten days prior to the required date of submission. The notice must:
 - a. Include the route to be covered by each contract;
 - b. Provide that the board reserves the right to reject any and all bids;
 - c. Provide that each successful bidder must submit in a separate envelope a bond in an amount set by the board, provided that the amount of the bond must be at least five hundred dollars;
 - d. Provide that the bond must be conditioned for the faithful performance of the duties set forth in the contract; and
 - e. Provide that any bids submitted name the individual who will operate the vehicle and describe the vehicle.
2. If the transportation vehicle is privately owned, the duration of the contract may not exceed seven years.
3. This section does not apply to a school district that owns its own buses and employs its own busdrivers.

15.1-30-07. Transportation contract - Standard form. The superintendent of public instruction shall prepare a standard transportation contract form and shall provide copies, upon request, to school districts.

15.1-30-08. Transportation contract - Provisions. A transportation contract must:

1. Provide that no vehicle other than that described in the contract may be used to transport students, unless a change is authorized in writing by the board of the school district.
2. Provide that only the individual named in the contract may operate a vehicle used to transport students, unless a change is authorized in writing by the board.
3. Include the transportation routes that were established by the board and which are to be covered by the transportation provider.
4. Set compensation for the provision of transportation.
5. Describe the process by which an equitable adjustment of compensation will be determined and paid if a change in the established transportation routes becomes necessary.

15.1-30-09. Transportation contract - Waiver of provisions. In the case of an emergency or other unforeseen event, the school board president may waive transportation contract provisions requiring that only vehicles described in the contract be used and that the vehicles be operated only by individuals named in the contract. The waiver is valid only until the next regular or special meeting of the board.

15.1-30-10. Transportation contract - Assignment. A transportation contract is assignable only upon written authorization by the school board.

15.1-30-11. Transportation contract - Direct negotiation.

1. Notwithstanding sections 15.1-30-06 and 15.1-30-12, a contract for the transportation of students, originally bid by and let to a contractor, may be renewed:
 - a. Through direct negotiation between the board of a school district and the contractor; or
 - b. Upon sealed bids.
2. If a contract is to be renewed through direct negotiation, the school board shall publish notice in the official newspaper of the district, at least thirty days before the date of renewal, and shall make a good-faith effort to obtain at least two written quotations for the contract. The board shall maintain all quotations received on file for at least one year after their receipt. The quotations are public information.
3. If any written quotations are received, the board may directly negotiate a contract, provided:
 - a. The board shall conduct a public meeting regarding the contract;
 - b. The board provides at least seven days' notice of the public meeting regarding the contract by publication in the official newspaper of the district; and

- c. The public is given an opportunity to appear and comment at the public meeting.
4. All terms of the contract must be negotiated and agreed to in the public meeting.
5. If a contract is to be made upon the receipt of sealed bids, the board shall follow the procedure set forth in section 15.1-30-06 for advertising and awarding the bids.

15.1-30-12. Contract for transportation - Conditions.

1. The board of a school district shall let the contract, except as otherwise provided in section 15.1-30-11, to the lowest responsible bidder who:
 - a. Furnishes a bond approved by the board, as provided for in section 15.1-30-06;
 - b. Agrees to use a vehicle which, in the opinion of the board, meets the standards imposed by the superintendent of public instruction under sections 39-21-27 and 39-21-27.1 and which is safe, comfortable, and suitable for the purpose; and
 - c. Identifies individuals who, in the opinion of the board, are competent and responsible to serve as drivers.
2. The board may not enter a contract for transportation with an individual member of the board.
3. An individual member of the board may serve as the driver of a vehicle identified for use in the transportation contract.

15.1-30-13. Transportation of students - Control and discipline. The driver of a vehicle used to transport students under a contract as provided in this chapter is under the supervision and direction of the school board, the school district superintendent, the school principal, and the teachers of the school while the driver is on duty. The disciplinary authority of the school exists while a student is being transported, by or on behalf of the student's school, and the driver of the vehicle is charged with exercising control and discipline during the transportation.

15.1-30-14. Schoolbus route - Extension into bordering state. The board of a school district may extend its bus route into a bordering state for the purpose of transporting students from the bordering state into this state, provided that the superintendent of public instruction has entered a reciprocal contract with the bordering state under section 15.1-29-02 or that the board has entered a contract with a school district in the bordering state under section 15.1-29-02.

15.1-30-15. Transportation services to nonpublic students - Joint provision of transportation services.

1. If the board of a school district provides transportation services to its students, the board may provide transportation services to students attending nonpublic schools, provided:
 - a. The nonpublic school students are transported only along the bus route established for the public school students;

- b. The nonpublic school students are transported only on the days and at the times that the public school students are transported; and
 - c. The legal passenger capacity of each bus is not exceeded by the transportation of nonpublic school students.
2.
 - a. The board of a school district that provides transportation to its students may contract with other local, state, or federal government entities for the joint provision and integration of transportation services to the public.
 - b. A contract under this section must provide for the observation of all safety requirements otherwise imposed by law on schoolbuses, on school vehicles, and on schoolbus drivers when students are being transported.
 - c. Transportation services to students provided pursuant to this subsection qualify for state transportation aid under chapter 15.1-27. However, no payments may be made from state funds for any costs incurred as a result of a deviation from established schoolbus routes necessitated by a contract pursuant to this subsection.

⁸⁷ **SECTION 15.** Chapter 15.1-31 of the North Dakota Century Code is created and enacted as follows:

15.1-31-01. Open enrollment - Procedure.

1. By February first of the school year preceding the year of enrollment, a parent who wishes to enroll a student in a North Dakota school district other than the student's district of residence shall file an application for approval with the board of the student's district of residence. The superintendent of public instruction shall make the application forms available in each school district.
2. By March first of the school year preceding the year of enrollment, the school board of the student's district of residence shall act on the application, notify the parent of the board's decision within five days, and if the application is approved, immediately transmit the application to the admitting district.
3. By April first of the school year preceding the year of enrollment, the board of the admitting district shall approve or deny the application. The board of the admitting district shall notify the board of the district of residence and the student's parent of its decision within five days.

⁸⁷ Section 15.1-31-01 was amended by section 4 of Senate Bill No. 2106, chapter 195, section 15.1-31-06 was amended by section 5 of Senate Bill No. 2106, chapter 195, and section 15.1-31-07 was amended by section 6 of Senate Bill No. 2106, chapter 195.

4. Notice of intent to enroll in the admitting district obligates the student to attend the admitting district during the following school year unless the school boards of the resident and the admitting districts agree in writing to allow the student to transfer back to the resident district or the student's parent relocates to another district.
5. All applications must be reviewed in the order they are received.
6. A student whose school district of residence does not offer the grade level in which the student requires enrollment may not participate in open enrollment. For purposes of determining whether the grade level in which the student requires enrollment is offered, the several school districts cooperating with each other for the joint provision of education services under a plan approved by the superintendent of public instruction must be considered to be a single district.
7. A child placed for purposes other than education in a group or residential care facility or in a residential treatment center is not eligible for open enrollment under this section.
8. The board of a school district of residence and the board of an admitting district shall waive the application, consideration, and approval dates in this section for any student who, together with the student's parent, moves from the student's school district of residence to another school district and who wishes to enroll in a school district other than the district to which the student moved.

15.1-31-02. Open enrollment - Grounds for denial - Exception. Except as provided in section 15.1-31-04, the board of a student's school district of residence may deny an application under section 15.1-31-01 only if the application will result in a reduction of the number of students enrolled in the district by more than twenty percent of the average daily membership the previous school year. However, if denying an application would result in the enrollment of children from the same nuclear family in different school districts, the school board of the district of residence may not deny the application.

15.1-31-03. Open enrollment - Per student aid - Tuition apportionment.

1. Once a student is enrolled in an admitting district, the student must remain enrolled in the admitting district until:
 - a. The student graduates;
 - b. The student relocates to another district;
 - c. The student's parent applies for enrollment in another school district; or
 - d. The student's parent notifies the student's school district of residence that the student will attend school in the school district of residence the following year.
2. Payment for per student aid must be made to the admitting district in accordance with chapter 15.1-27.

3. For purposes of tuition apportionment payments, a student whose application is approved under this section is considered a resident of the admitting district.
4. Except as specifically provided in this chapter, chapter 15.1-29 does not apply to students involved in open enrollment.

15.1-31-04. Open enrollment - Students with disabilities - Additional costs. If an application under this chapter is approved for a student with a disability, the board of the student's school district of residence shall pay to the admitting district the costs incurred by the admitting district in providing special education and related services to the student up to a maximum each school year of two and one-half times the state average per student elementary or high school cost, depending on the student's enrollment level, plus twenty percent of all remaining costs. The superintendent of public instruction shall reimburse the admitting district eighty percent of the remainder of the cost of educating the student with disabilities within the limits of legislative appropriations for that purpose.

15.1-31-05. Open enrollment - Transportation. A school district of residence may provide transportation to a student participating in open enrollment. If a district of residence does not provide transportation to a student participating in open enrollment, transportation may be provided by the admitting district, and the admitting district is then entitled to state payments for the transportation of that student.

15.1-31-06. Open enrollment - School boards - Standards.

1. The board of each school district shall set standards for the acceptance and denial of applications for admittance under open enrollment as provided in section 15.1-31-01. The standards may address the capacity of a program, class, grade level, or school building. The standards may not address previous academic achievement, participation in extracurricular activities, disabilities, English language proficiency, or previous disciplinary proceedings.
2. A board may also determine that applications for admittance under open enrollment, in accordance with this chapter, will not be considered.
3. A school district participating in an open enrollment program may not give or offer to give a student remuneration, or directly or indirectly exert influence on the student or the student's family, in order to encourage participation in the open enrollment program for the purpose of having the student participate in varsity athletic activities.

15.1-31-07. Students not subject to this chapter. If a student, as a result of a school district dissolution, resides in a district other than the one the student chooses to attend at the time of dissolution, the student is not subject to the provisions of this chapter and may attend school in the chosen school district. The student may not be considered a student in average daily membership in the student's school district of residence for purposes of section 15.1-31-02.

⁸⁸ **SECTION 16.** Chapter 15.1-32 of the North Dakota Century Code is created and enacted as follows:

(Education Committee)

(At the request of the Superintendent of Public Instruction)

SCHOOL TUITION PAYMENT APPEALS

AN ACT to amend and reenact sections 15-40.2-05 and 15-40.2-09 of the North Dakota Century Code or in the alternative to amend and reenact section 15.1-29-01 and subsection 1 of section 15.1-29-06 of the North Dakota Century Code, relating to school district tuition payment appeals to the state board of public school education; and to repeal section 15.1-29-08 of the North Dakota Century Code, relating to appealing a school board's decision to not pay tuition for a kindergarten student.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. If House Bill No. 1045 does not become effective, section 15-40.2-05 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-40.2-05. Application of parent or guardian for payment of tuition by district. The parent or guardian of any student who is a resident of a district may apply in writing to the school board of the student's school district of residence for approval of the payment of tuition charges to another school district for attendance of the student in another school district. The school board shall, within sixty days of its receipt of the application, meet with the student's parent or guardian and render a decision in regard to the payment of tuition charges. If the school board has not rendered a decision within sixty days of receipt of the application, the application is deemed approved. If the school board of the district of residence approves the application, it shall pay the tuition charges. If the application is disapproved, the student's parent or guardian may file an appeal with the county superintendent of schools. A three-member committee consisting of a member appointed by the board of county commissioners for a term of three years or appointed to fill the unexpired portion of a term at the time a vacancy occurs, the state's attorney, and the county superintendent of schools shall within fifteen days consult with the school boards of the districts concerned and with the student's parent or guardian, hold a hearing after giving advance notice to the parties directly involved, and render a decision in regard to the payment of tuition charges. The hearing must be conducted in a manner that allows the arguments and responses of all parties to be presented. In making its decision, the committee shall determine whether the student is a high school student, which, for purposes of this section, must be defined to mean grades nine through twelve, whether the student is an elementary school student, which, for purposes of this section, must be defined to mean grades one through eight, or whether the student is a kindergarten student, which, for purposes of this section, must be defined as a program established pursuant to chapter 15-45, and then proceed in accordance with the following:

1. High school. If the student is a high school student and the committee finds that the attendance of the student is necessitated by shorter distances, previous attendance in another high school, inadequacy of curriculum considering the educational needs of the student, or extreme family or student hardship, the committee may approve the application.

Upon approval, the committee shall approve the payment of tuition by the student's district of residence, obligating the district of residence to pay the same. The committee's approval for the payment of tuition may be for any fixed number of school terms, up to the completion of the student's high school education. The decision of the committee may be appealed to the state board of public school education and the decision of the board is final.

2. Elementary or kindergarten. If the student is an elementary or kindergarten student and the committee finds that the attendance of the student is necessitated by shorter distances or extreme family or student hardship, the committee may approve the application. Upon approval, the committee shall approve the payment of tuition by the student's district of residence, and obligate the district of residence to pay the same. The committee's approval for the payment of tuition is limited to one school term, and subsequent applications for the payment of tuition may be made annually. The decision of the committee may be appealed to the state board of public school education and the decision of the board is final.
- ~~3. Kindergarten. If the student is a kindergarten student, the school board of the student's district of residence may pay tuition to the receiving district. The committee may not hear an appeal from the parents or guardian as provided for in this section if the school board of the district of residence decides not to pay tuition to the admitting district. If the school board of the district of residence does not pay the tuition to the admitting district, the student's parent or guardian may pay the tuition to the admitting district under the provisions of section 15-40.2-02.~~

If twenty-five percent or more of the taxable valuation of the school district of residence lies in another county, the joint committee must consist of a member appointed by the board of county commissioners for a term of three years or appointed to fill the unexpired portion of a term at the time a vacancy occurs, the state's attorney, and the county superintendent of schools from the county in which the school district headquarters is located, and any counties in which twenty-five percent or more of the taxable valuation is located. The concurrence of a majority of the quorum of the joint committee is necessary to render a decision regarding the payment of tuition. If the student's district of residence does not comply with the decision requiring that tuition charges be paid, the admitting district shall notify the county superintendent of schools of the county of the student's residence and the state superintendent of public instruction. Upon verification by the county superintendent of schools that tuition payments are due the admitting district and are unpaid, all payments from the state for foundation aid to the student's district of residence must be withheld until the tuition due has been fully paid.

A school district of residence may provide transportation to a student for whom tuition is being paid under this section. If a school district of residence does not provide transportation to the student, it may be provided by the admitting district and the admitting district is then entitled to state payments for the transportation of the student.

SECTION 2. AMENDMENT. If House Bill No. 1045 does not become effective, section 15-40.2-09 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-40.2-09. Attendance in public schools or institutions of bordering states, when permitted - Continuation of attendance under certain circumstances.

1. Students may attend a school in a bordering state in accordance with section 15-40.2-10 under the following circumstances:
 - a. A student who lives within forty miles [64.37 kilometers] of another state or in a county bordering on another state may, with the approval of the school board, attend a public school or institution in a bordering state.
 - b. A student who has attended a school district in a bordering state since, and including, the 1990-91 school year, must be permitted to continue attending school in the district in the bordering state.
 - c. A student, whose sibling attended an out-of-state school during or before the 1990-91 school year, must be permitted to attend school in the district the sibling attends in the bordering state.
2. If the school board of the district in which the student resides denies a request for attendance and payment of tuition in another state, an appeal may be made to the three-member committee in accordance with section 15-40.2-05. If the three-member committee determines that the student falls within the terms of subdivision b or c of subsection 1, then the student may attend in the bordering state and the school district of residence shall pay the tuition. If the three-member committee determines the student falls within the terms of subdivision a of subsection 1, then the three-member committee shall make its decision using the criteria specified in section 15-40.2-05. ~~For kindergarten students, the three-member committee shall use the criteria specified for elementary students in section 15-40.2-05. Subsection 3 of section 15-40.2-05 does not apply to an appeal for out-of-state attendance and payment of tuition.~~ Regardless of the provisions of this section, if the school district of residence does not provide for the education of kindergarten students, it may not pay tuition for a kindergarten student to attend school in a bordering state. The decision of the committee regarding payment of tuition for high school, elementary, or kindergarten students may be appealed by the school board, or the parent or guardian of the student, to the state board of public school education, whose decision is final.
3. Foundation aid payments for students attending out-of-state schools must be made to the district of residence. However, the district of the student's residence is entitled to reduce the tuition payment to an out-of-state school by an amount commensurate with the tuition costs the district would be entitled to receive as compensation for a student from the out-of-state district enrolled in its school. Transportation payments for students attending school in a bordering state must be determined as provided in section 15-40.1-16.
4. This section does not require the district of residence to provide student transportation, or payments in lieu thereof, for students attending out-of-state schools.

⁹⁸ **SECTION 3. AMENDMENT.** Section 15.1-29-01 of the North Dakota Century Code as created by House Bill No. 1045, as approved by the fifty-seventh legislative assembly, is amended and reenacted as follows:

15.1-29-01. Education of students in bordering states - Payment of tuition.

 - c. A student whose sibling attended an out-of-state school during or before the 1990-91 school year must be permitted to attend school in the district the sibling attended in the bordering state.
2. If the school board of the district in which the student resides denies a request for a student's attendance in and payment of tuition to another state, the student's parent may appeal the decision to the three-member committee referenced in section 15.1-29-06.
 - a. If the three-member committee determines that the student meets the terms of subdivision b or c of subsection 1, the student may attend school in the bordering state and the board of the student's school district of residence shall pay the tuition.
 - b. If the three-member committee determines the student falls within the terms of subdivision a of subsection 1, then the three-member committee shall make its decision using the criteria specified in section 15.1-29-06.
 - c. ~~If the student is a kindergarten student, the three-member committee shall apply the same criteria as that specified for elementary students in section 15.1-29-06, except that subsection 2 of section 15.1-29-06 does not apply to an appeal for out-of-state attendance and payment of tuition.~~ Notwithstanding the provisions of this section, if a student's school district of residence does not provide for the education of kindergarten students, the district may not pay tuition for a kindergarten student to attend school in a bordering state.

The committee shall consult with the boards of the affected districts and with the student's parent. OUT-OF-STATE TUITION AGREEMENTS

AN ACT to amend and reenact section 15-40.2-10 of the North Dakota Century Code or in the alternative to amend and reenact section 15.1-29-02 of the North Dakota Century Code, relating to tuition agreements for students attending school in bordering states.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. If House Bill No. 1045 does not become effective, section 15-40.2-10 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-40.2-10. Reciprocal master agreements for student Student attendance in other states - School district agreements - Procedure when bordering state does not enter into reciprocal master agreement - Contract - Tuition.

1. The superintendent of public instruction shall enter into reciprocal master agreements with the appropriate state educational agencies or officers of bordering states in regard to the cost of educating elementary and high school students in the public schools or institutions in such bordering states. A school district may either comply with the terms of the reciprocal master agreement or, upon notification to the superintendent of public instruction, may enter into an agreement contract with a school district in a bordering state for the education of elementary and high school students. The agreement, which replaces the provisions of the master reciprocal agreement, must provide for the payment of tuition at an amount agreed upon by the school district of residence and the school district of the bordering state. However, the tuition may not exceed the amount established under the reciprocal master agreement, nor may it be less than the per student foundation aid plus tuition apportionment in the student's school district of residence. For purposes of foundation state aid distribution, a student attending who attends school in a bordering state under such an agreement a contract as provided by this section is deemed to be in attendance in the student's school district of residence. The student's school district of residence is liable to the school district in the bordering state for payments as provided in the agreement contract.
2. If the state educational agency or officer of the bordering state is not authorized to or declines to enter into a reciprocal master agreement with the superintendent of public instruction, a school district may negotiate with a school district of that bordering state an amount of tuition it is willing to pay to that other state's school district for the education of pupils in that state. The school district of residence is liable to the school district in the bordering state for the payments it agrees to make under this subsection. However, if the school district accepts

students from ~~that~~ a bordering state, it may not agree to accept ~~these nonresident~~ the students for an amount of tuition that is less than the foundation aid amount of the per student payment plus the tuition apportionment it would have received from this state for one of its students in the same grade if its student had been attending in that bordering state.

¹⁰¹ **SECTION 2. AMENDMENT.** Section 15.1-29-02 of the North Dakota Century Code as created by House Bill No. 1045, as approved by the fifty-seventh legislative assembly, is amended and reenacted as follows:

15.1-29-02. Education of students in bordering states - Reciprocal ~~contract~~ Contract - Tuition.

1. ~~The superintendent of public instruction shall pursue a reciprocal contract with the education agency of each bordering state. The contract must address the cost of educating students in the public schools of the bordering state.~~
2. ~~A school district may comply with the terms of the superintendent's reciprocal contract or, upon providing notice to the superintendent of public instruction, may contract with a school district in a bordering state for the education of students. A contract between school districts supersedes the terms of the superintendent's reciprocal contract. A contract between school districts must provide for the payment of tuition at an agreed-upon amount. The amount of tuition payable per student may not exceed the amount set by the superintendent's reciprocal contract nor may it be less than the per student payment plus tuition apportionment in the North Dakota school district.~~
3. 2. For purposes of per student payments and tuition apportionment payments, a student who attends school in a bordering state under a contract provided for by this section is deemed to be in attendance in the student's school district of residence. The student's school district of residence is liable to the school district of the bordering state for payments as provided in the contract.
4. 3. If the education agency of a bordering state is not authorized to or refuses to enter into a reciprocal contract with the superintendent of public instruction, a school district in this state may enter into its own contract with a school district in a bordering state for the education of students. A school district in this state may not agree to accept students from a bordering state unless the tuition payable equals or exceeds the per student payment plus the tuition apportionment payment that the district would have received from this state for a student in the same grade if its student had been attending school in the bordering state.

OPEN ENROLLMENT

AN ACT to amend and reenact sections 15-40.3-01, 15-40.3-06, and 15-40.3-07 of the North Dakota Century Code or in the alternative to amend and reenact sections 15.1-31-01, 15.1-31-06, and 15.1-31-07 of the North Dakota Century Code, relating to open enrollment between school districts.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. If House Bill No. 1045 does not become effective, section 15-40.3-01 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-40.3-01. Open enrollment - Procedure. A student's parent or legal guardian who wishes to enroll the student in a North Dakota school district other than the student's district of residence shall, not later than February first of the school year preceding the year of enrollment, apply to the school board of the student's district of residence, on forms provided by the superintendent of public instruction, for approval to enroll the student in a district other than the student's district of residence. By March first of the school year preceding the year of enrollment, the school board of the district of residence shall act on the application, notify the parent or legal guardian of the board's decision within five days, and if the application is approved, immediately transmit the application to the admitting district. By April first, the board of the admitting district shall approve or disapprove the application. The board of the admitting district shall notify the board of the district of residence and the student's parent or legal guardian within five days regarding its decision. Notice of intent to enroll in the admitting district obligates the student to attend the admitting district during the following school year, unless the school boards of the resident and the admitting districts agree in writing to allow the student to transfer back to the resident district, or the student's parents or guardians change residence to another district. All applications must be reviewed in the order that they are received. A student whose school district of residence does not offer the grade level in which the student requires enrollment may not participate in open enrollment. For purposes of determining whether the grade level in which a student requires enrollment is offered, the several school districts cooperating with each other for the joint provision of educational services under a plan approved by the superintendent of public instruction must be considered to be a single district. A child placed at a group or residential care facility or a residential treatment center in accordance with section 15-40.2-08 is not eligible for open enrollment under this section. The school board of a school district of residence and of an admitting district shall waive the application, consideration, and approval dates in this section for any student who, together with the student's parent or legal guardian, moves from the student's school district of residence to another school district and who wishes to enroll in a school district, other than the district to which the student moved. The school board of a school district of residence and of an admitting district shall waive the application, consideration, and approval dates in this section for any student who, together with the student's parent or legal guardian, moves into this state from out of state and who wishes to enroll in a school district other than the district to which the student moved.

SECTION 2. AMENDMENT. If House Bill No. 1045 does not become effective, section 15-40.3-06 of the North Dakota Century Code is amended and reenacted as follows:

15-40.3-06. Local school boards - Standards.

1. Each school board shall adopt standards for the acceptance and rejection of applications for open enrollment as provided in section 15-40.3-01. The standards may include the capacity of a program, class, grade level, or school building. The standards may not include previous academic achievement, participation in extracurricular activities, disabilities, English language proficiency, or previous disciplinary proceedings.
2. The school board of the admitting district may determine that the district may not accept applications for open enrollment under this chapter.
3. a. A school district participating in an open enrollment program may not give or offer to give a student remuneration, or directly or indirectly exert influence upon the student or the student's family, in order to encourage participation in the open enrollment program for the purpose of having the student participate in varsity athletic activities. However, any student who participated in varsity athletic activities during the 1992-93 school year, at a school in a district other than the student's district of residence or at a school outside the boundary within which the student would normally attend school may continue to participate in varsity athletics at that school for the duration of the student's high school career.

b. For purposes of this subsection, directly exerting influence means providing information about the school district to individuals who are not residents of that district unless the information is requested.

c. If the members of the board of a school district believe that another school district has violated this subsection, the board may file a complaint with the superintendent of public instruction. Upon receipt of a complaint alleging a violation of this subsection, the superintendent of public instruction shall hold a hearing and accept testimony and evidence regarding the complaint. If the superintendent finds that a school district has violated this subsection, the superintendent may withhold some or all of the transportation aid payments to which the district would be otherwise entitled for a period of one year from the date of the finding. A decision by the superintendent under this subsection is appealable to the state board of public school education. A decision by the state board of public school education is final.

SECTION 3. AMENDMENT. If House Bill No. 1045 does not become effective, section 15-40.3-07 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

15-40.3-07. Students not subject to this chapter. A student, who, as the result of dissolution or reorganization, resides in a district other than the one the student chooses to attend at the time of the dissolution or reorganization, is not subject to the provisions of this chapter and may attend school in the chosen school district if that district participates in open enrollment. The student may not be

considered a student in average daily membership in the student's school district of residence for purposes of section 15-40.3-02.

¹⁰² **SECTION 4. AMENDMENT.** Section 15.1-31-01 of the North Dakota Century Code as created by House Bill No. 1045, as approved by the fifty-seventh legislative assembly, is amended and reenacted as follows:

15.1-31-01. Open enrollment - Procedure.

1. By February first of the school year preceding the year of enrollment, a parent who wishes to enroll a student in a North Dakota school district other than the student's district of residence shall file an application for approval with the board of the student's district of residence. The superintendent of public instruction shall make the application forms available in each school district.
2. 5. All applications must be reviewed in the order they are received.
6. A student whose school district of residence does not offer the grade level in which the student requires enrollment may not participate in open enrollment. For purposes of determining whether the grade level in which the student requires enrollment is offered, the several school districts cooperating with each other for the joint provision of education services under a plan approved by the superintendent of public instruction must be considered to be a single district.
7. A child placed for purposes other than education in a group or residential care facility or in a residential treatment center is not eligible for open enrollment under this section.

ALTERNATE FIREFIGHTERS RELIEF ASSOCIATION BENEFITS

AN ACT to amend and reenact section 18-11-26 of the North Dakota Century Code, relating to alternate firefighters relief association plan benefits.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 18-11-26 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

18-11-26. Service pensions - Formulation of optional plan. With the consent of the governing body of the city involved, and in substitution for a pension payment schedule provided in section 18-11-15, a firefighters relief association may adopt a monthly service pension plan for members of the association as provided in this section.

1. Retirement date is the first day of the month next following the month in which the member attains the age of fifty-five years.
2. Retirement benefits for members reaching the retirement date equal an annual amount, payable monthly, comprised of a service benefit that equals two and ~~thirty-three~~ fifty hundredths percent of a ~~first-class firefighter's~~ firefighter's final salary at the time of the member's retirement multiplied by the number of years of service employment up to a maximum of thirty years. For purposes of this subsection, final salary for a first-class firefighter is the final salary at the time of the member's retirement and for officers or members of higher rank is the average salary for the last five years of employment. As used in this subsection, salary does not include overtime or longevity payments.
3. Upon termination of employment after completing ten years of eligible employment but before the retirement date, a member is eligible to receive deferred vested retirement benefits payable commencing on the retirement date equal to one hundred percent of the member's accrued benefits.
4. Members participating in a firefighters relief association paying a monthly service pension to members of the association under this section must serve ten years before they are eligible for a service pension.
5. Members participating in a firefighters relief association who have been active members for at least one year, and who are not receiving salary or accumulated sick leave from the city and who are unable, because of physical or mental disability, to perform the duties of a firefighter, are eligible to receive a disability pension from the association. Disability

benefits are not payable for a disability that occurs in a firefighter's first year of membership in the association. The disability pension amount is equal to a percentage of the monthly salary of a first-class firefighter on January 31 of the year that the pension is paid, unless the member is eligible for a larger service pension, in which case the member is entitled to draw an annual pension amount equal to the member's service pension. The percentage of the monthly salary of a first-class firefighter which is payable as a disability pension is dependent upon the member's years of service as follows:

<u>Years of Completed Service</u>	<u>Maximum Percentage</u>
<u>0</u>	<u>0%</u>
<u>1</u>	<u>10%</u>
<u>2</u>	<u>20%</u>
<u>3</u>	<u>30%</u>
<u>4</u>	<u>40%</u>
<u>5</u>	<u>50%</u>

Benefits may not be increased by reason of increases in salary of a first-class firefighter occurring after the initial calculation of pension benefits. The payments must remain fixed, except the benefit earned by years of service computation. If a member is receiving workers' compensation benefits or other similar benefits, the sum of the member's disability pension payable from the association and amounts received in workers' compensation benefits or other similar benefits may not be greater than one hundred percent of the monthly salary of the member at the time the member's disability began. However, when a member is no longer receiving workers' compensation benefits or other similar benefits, the member's disability pension is payable in the amount as determined under this subsection without regard to workers' compensation benefits or other similar benefits, including the greater of the amount of the disability pension or the service pension, if applicable.

6. Upon the recommendation of the association's actuary, a firefighters relief association may provide a thirteenth check to pensioners and beneficiaries under the plan. Payment of the thirteenth check is contingent upon portfolio performance as determined by the association's actuary and may not be issued without approval of the actuary.

INTERSTATE WILDLIFE VIOLATOR COMPACT

AN ACT to enter the interstate wildlife violator compact; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Interstate wildlife violator compact. The interstate wildlife violator compact is entered with all states legally joining the compact, in the form substantially as follows:

ARTICLE 1. FINDINGS, DECLARATION OF POLICY, AND PURPOSE

1. The participating states find that the following provisions apply:
 - a. Wildlife resources are managed in trust by the respective states for the benefit of all residents and visitors.
 - b. The protection of the wildlife resources of a state is materially affected by the degree of compliance with state statutes, laws, ordinances, regulations, and administrative rules relating to the management of such resources.
 - c. The preservation, protection, management, and restoration of wildlife contributes immeasurably to the aesthetic, recreational, and economic aspects of such natural resources.
 - d. Wildlife resources are valuable without regard to political boundaries; therefore, every person should be required to comply with wildlife preservation, protection, management and restoration laws, ordinances, regulations, and administrative rules of the participating states as a condition precedent to the continuance or issuance of any license to hunt, fish, trap, or possess wildlife.
 - e. Violation of wildlife laws interferes with the management of wildlife resources and may endanger the safety of persons and property.
 - f. The mobility of many wildlife law violators necessitates the maintenance of channels of communication among the various states.
 - g. In most instances, a person who is cited for a wildlife violation in a state other than that person's own state:
 - (1) Is required to post collateral or a bond to secure appearance for a trial at a later date;
 - (2) Is taken into custody until the collateral or bond is posted; or

- (3) Is taken directly to court for an immediate appearance.
 - h. The purpose of the enforcement practices set forth in subdivision g is to ensure compliance with the terms of a wildlife citation by the cited person who, if permitted to proceed after receiving the citation, could return to the person's home state and disregard the person's duty under the terms of the citation.
 - i. In most instances, a person receiving a wildlife citation in that person's home state is permitted to accept the citation from the officer at the scene of the violation and immediately proceed after agreeing or being instructed to comply with the terms of the citation.
 - j. The practices described in subdivision g cause unnecessary inconvenience and, at times, a hardship for the person who is unable at the time to post collateral, furnish a bond, stand trial, or pay a fine and is thus compelled to remain in custody until some alternative arrangement is made.
 - k. The enforcement practices described in subdivision g consume an undue amount of law enforcement time.
2. It is the policy of the participating states to:
 - a. Promote compliance with the statutes, laws, ordinances, regulations, and administrative rules relating to management of wildlife resources in their respective states;
 - b. Recognize the suspension of wildlife license privileges of any person whose license privileges have been suspended by a participating state and may treat such suspension as if it had occurred in their state;
 - c. Allow a violator, except as provided in subsection 2 of article 3, to accept a wildlife citation and proceed without delay, whether or not a resident of the state in which the citation was issued, provided that the violator's home state is party to this compact;
 - d. Report to the appropriate participating state, as provided in the compact manual, any conviction recorded against any person whose home state was not the issuing state;
 - e. Allow the home state to recognize and treat convictions recorded against its residents, which convictions occurred in a participating state, as though they occurred in the home state;
 - f. Extend cooperation to its fullest extent among the participating states for enforcing compliance with the terms of a wildlife citation issued in one participating state to a resident of another participating state;
 - g. Maximize effective use of law enforcement personnel and information; and
 - h. Assist court systems in the efficient disposition of wildlife violations.

3. The purpose of this compact is to:
 - a. Provide a means through which participating states may join in a reciprocal program to effectuate the policies enumerated in subsection 2 in a uniform and orderly manner; and
 - b. Provide for the fair and impartial treatment of wildlife violators operating within participating states in recognition of the violator's right to due process and the sovereign status of a participating state.

ARTICLE 3. PROCEDURES FOR ISSUING STATE

1. 3. The licensing authority of the home state shall maintain a record of actions taken and shall make reports to issuing states as provided in the compact manual.

HAZARDOUS WASTE LIMITED LIABILITY

AN ACT to create and enact a new section to chapter 23-20.3 of the North Dakota Century Code, relating to liability of property owners for hazardous waste on their property; and to amend and reenact section 23-31-01 of the North Dakota Century Code, relating to the recovery of costs of environmental emergencies.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 23-20.3 of the North Dakota Century Code is created and enacted as follows:

Limited liability for subsequent owners of property.

1. Notwithstanding any other provision of law and except as expressly provided by federal law, a person who acquires property is not liable for any existing hazardous waste or substance on the property if (a) the person acquired the property after the disposal or placement of the hazardous waste or substance on, in, or at the property, and at the time the person acquired the property that person did not know and had no reason to know that any hazardous waste or substance was disposed of on, in, or at the property, (b) the person is a governmental entity that acquired the property by escheat, by tax sale, foreclosure, or through any other involuntary transfer or acquisition, or through the exercise of eminent domain authority by purchase or condemnation, or (c) the person acquired the property by inheritance or bequest and that person did not know and had no reason to know that any hazardous waste or substance was disposed of on, in, or at the property.
2. To establish that the person had no reason to know, the person must have undertaken, at the time of acquisition, all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice in an effort to minimize liability. For purposes of this requirement, a court shall take into account any specialized knowledge or experience on the part of the person, the relationship of the purchase price to the value of the property as uncontaminated, commonly known or reasonably ascertainable information about the property, the obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate inspection.
3. A person who has acquired real property may establish a rebuttable presumption that that person has made all appropriate inquiry if that person establishes that, immediately before or at the time of acquisition, that person performed an investigation of the property, conducted by an environmental professional, to determine or discover the obviousness of

the presence or likely presence of a release or threatened release of hazardous waste or substances on the property.

4. The presumption does not arise unless the person has maintained a compilation of the information reviewed in the course of the investigation.
5. This section does not diminish the liability of any previous owner or operator of the property who would otherwise be liable under this chapter and nothing in this section affects the liability under this chapter of a person who, by any act or omission, caused or contributed to the release or threatened release of a hazardous waste or substance that is the subject of the action relating to the property.
6. As used in this section, environmental professional means an individual, or entity managed or controlled by an individual, who, through academic training, occupational experience, and reputation, such as engineers, environmental consultants, and attorneys, can objectively conduct one or more aspects of an environmental investigation.

SECTION 2. AMENDMENT. Section 23-31-01 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

23-31-01. Environmental emergency cost recovery. ~~The~~ Except as provided in section 1 of this Act, the state department of health may recover from the parties responsible for an environmental emergency the reasonable and necessary state costs incurred in assessment, removal, corrective action, or monitoring as a result of an environmental emergency in violation of chapters 23-20.1, 23-20.3, 23-25, 23-29, 61-28, or 61-28.1. If assessment, removal, monitoring, or corrective action must be initiated prior to identification of the responsible parties, the department may assess those prior costs to the responsible parties at the time they are identified.
