

D. M. & N. ORE EARNINGS 240 PER CENT OF ITS CAPITAL, SAYS FREER

Traffic Expert Testifies Before the House Steel Trust Probers.

Strict Party Vote in Committee Determines Line of Questions.

Transportation Lines Basis of Advantage Over Competitors.

Washington, March 11.—Guy M. Freer, a traffic expert, told the Stanley steel investigating committee today that the Duluth, Missabe & Northern railroad, a subsidiary of the United States Steel corporation, made a return on its ore charges in 1910 of 240 per cent on its capital stock.

Asked what he thought would be a reasonable rate, Mr. Freer made no suggestion. The 50 per cent rate in 1910 gave the railroads a return of 240 per cent on their capital stock after paying all expenses.

M. & I. PASSENGER TRAIN OFF TRACK Nearly All Cars Hit Ties Near Blackduck—One Injured.

Brainerd, Minn., March 11.—Special to The Herald.—Minnesota & International passenger train No. 33 jumped the track a mile and a half south of Blackduck and all the cars except the engine and sleeper left the track. A train had to be ordered from St. Paul to take its place. No one was killed or injured.

SNOW BLANKET ON MISSOURI

Thirty-Six Hour Storm Has Made Roads Impassable.

St. Joseph, Mo., March 11.—The third snow storm of March has been raging thirty-six hours and country roads are impassable. Farmers say spring work will be delayed at least a month.

BIG DOINGS FOR KNOX

San Salvador Gives Secretary an Enthusiastic Reception.

Americans Go Ashore in Baskets—Machine Gun on Train.

San Salvador, Republic of Salvador, March 11.—It was the turn today of the Salvadorans to extend a welcome to Philander C. Knox, United States secretary of state. The foreign minister, at the head of a reception committee, met the state secretary's party on its arrival at Acapulco, where the police band played the national anthems of the two republics.

Guards of Honor. Guards of honor saluted Mr. Knox and then accompanied his motor car to the residence. Deputy Carl Melendez, which has been placed at the disposal of Mr. and Mrs. Knox during their stay in San Salvador, where another committee, headed by the finance minister, greeted the American secretary.

AUTHOR'S WIFE SENT UP TO HARD LABOR

MRS. W. W. JACOBS. London, March 11.—W. W. Jacobs, a story writer of international reputation, went into court in London last week to plead for his wife, who had been arrested for smashing things during the recent campaign of the militant suffragettes. Mr. Jacobs pleaded that his wife believed it her duty to her daughters to act as she had done, so that they might have the rights which are denied her, but the court sentenced Mrs. Jacobs to a month at hard labor.

WHO WOULD FINANCE IT?

Proposal for Nation-Wide Presidential Primary Discussed by Abbot.

McKinley Failed to Ask Dixon Who Would Supply Funds.

Washington, March 11.—(Special to The Herald.)—The cleverest politician today in the United States is Theodore Roosevelt. Being himself the smoothest and slickest of all politicians, he is wise enough to pick men of his own type to handle his campaign for the presidential nomination.

Patentee's Rights Upheld. Washington, March 11.—The supreme court of the United States today upheld the rights of holders of patents to make license restrictions as to the way the articles they sell may be used.

TODAY IN CONGRESS

SENATE. In session, 2 p. m. Immigration committee considered protest of American Federation of Labor against Dillingham bill for revision of immigration laws. Senate works advocated a constitutional amendment providing a single presidential term of six years. HOUSE. Met at noon. Resumed discussion of agricultural appropriation bill. Agricultural department expenditure committee continued Florida Everglades investigation. Senator Fletcher testifying to what he knew of suppressed report. Steel trust investigation committee resumed its hearing, the transportation phase of the Steel corporation's affairs, being the subject of testimony. Representative Aikin apologized for language used in speech printed in Congressional record, but not delivered in house, in which he assailed President Taft and others. Secretary Stimson urged military affairs committee to recommend legislation to increase the efficiency of the militia. Interior department expenditure committee practically decided to investigate the Indian administration. Amendment to agricultural appropriation bill increasing from \$250,000 to \$500,000 amount for protection of national forests was adopted.

TAFT GIVEN MUCH PRAISE

Receives Many Congratulations on Toledo and Chicago Visits.

Primary Agitation Is Begun By Roosevelt Men in Missouri.

Pittsburg, Pa., March 11.—With more congratulations in the form of messages stowed away in White House portfolios than he has received on any recent trip, President Taft passed through Pittsburg today on his way East from Chicago and Toledo. Most of the messages of praise referred to his Toledo speech of Friday night, in which he denounced the recall of judges and the recall of judicial decisions. Discussing the trip, the president said: "The reception accorded me by the people of Toledo and Chicago puts me under a deep sense of obligation to them. The discussion of questions of government brought forth many sympathetic assurances and the American citizens of foreign birth or descent, of whom several great audiences were composed, seemed especially interested and concerned in the outlines of constitutional problems. The spirit of optimism, of faith in our institutions, of confidence in one another, is as strongly in evidence today as at any time in the history of our country."

Want Missouri Primary. Jefferson City, Mo., March 11.—Officers of the Missouri Roosevelt club last night asked President Taft's state manager to join them in requesting a presidential primary for the same day throughout the state, some time before the Roosevelt managers requested an agreement that delegates to the national convention be instructed to vote in accordance with the result of the primary in the several districts, and that the delegates at large be instructed to vote in accordance with the total majority vote of the state.

ROOSEVELT NOT IN COURT

New York, March 11.—Col. Theodore Roosevelt came to his office in town today, having found that his services as a juror were not needed in the house in Mineola, L. I.

FIFTEEN FISHING CRAFT MISSING

Hulls of Two Are Seen Pounding in the Surf Off La Jolla.

San Diego, Cal., March 11.—Hulls of two schooners of the San Diego fishing fleet which left port yesterday were sighted today pounding in the surf off La Jolla. None of the other vessels of the fleet has been seen and it is feared all may have been engulfed by the sudden storm which struck this coast late yesterday.

No bodies have come ashore, but one is tossing in the breakers off La Jolla.

IF RICH, HE WOULD "BUY MR. MILLER"

Chairman Graham Says Duluth Member of Congress Amuses Him.

Judge Burch Also Takes Fling at Critic of His Work.

Calls Congressman a "Producer of Stage Thunder."

Washington, March 11.—(Special to The Herald.)—Neither Judge M. C. Burch, attorney for the department of justice, nor Chairman James M. Graham of the White Earth investigating committee would make an extended reply to Representative Miller's interview printed in The Duluth Herald last Friday, in which he describes Judge Burch as a "retifogger" and attacks the authority of the Graham committee to make an investigation such as it is now doing.

WANT TO RECALL EVERY OFFICER

Socialists Plan Sweeping Action Against Oakland Government.

Oakland, Cal., March 11.—Resolutions demanding the recall of Mayor Mott and the entire city administration were introduced at a Socialist meeting here today.

Socialists of Oakland, Alameda and Berkeley attended the gathering. Selig Schubert represented the Socialists of San Francisco and the San Francisco labor council, and J. Elitt Wilson, Socialist mayor of Berkeley, led the attack on the Mott administration. Recall petitions, it was announced, would be started immediately.

Seven reasons were stated in the resolution for the recall of Mott and his subordinates. Among them were charges that the waterfront had been turned over to corporate interests and that contracts for work on the new city hall, amounting to \$500,000, had been let illegally.

SNOWSLIDES BURY COLORADO RAILROAD.

Durango, Colo., March 11.—Hundreds of snowslides in the last twenty-four hours have cut off the city of Silverton from telegraphic, telephonic and railroad communication. Along the line of the Silverton railroad, connecting Durango and the marmoset town, the slides have covered the tracks with snow from two to thirty feet in depth for a distance of ten miles. It is believed here that it will be a week before railroad service possibly can be restored.

STEAMER IS GOING DOWN

Flora M. Hill Sinking Two Miles Off Chicago Harbor.

Thirty-Three Persons Make Thrilling Escape Over Ice Floes.

Chicago, March 11.—The steamer Flora M. Hill is reported sinking in the lake two miles off the Chicago avenue pier. The captain and crew of thirty-two persons, one a woman, are said to have reached the two-mile crib in safety, walking over the ice. The trip to the crib took more than an hour, and many narrow escapes from crevices were experienced in the journey over the ice floes. The steamer left Kenosha Sunday morning on one of its regular trips. Early in the evening it became lodged in the ice southwest of the two-mile crib off Chicago harbor. A high wind and the ice to press against its side and it careened and sprung a leak. When the crew left the decks were at an angle of 45 deg. The boat is a freighter owned by the Northern Michigan Transportation company. The cargo is principally machinery and automobile parts.

STOCK DABBLER SHOOTS BROKER

Spencer R. Hill Wounded in Breast By Customer's Bullet.

Boston, Mass., March 11.—Spencer R. Hill, a well-known stockbroker, was shot and seriously wounded, while in his office here today, by a customer. Mr. Hill is a member of the brokerage firm of Richardson, Hill & Co. The customer, it is reported, was overpowered by clerks in the office and handed over to the police. The police decided that stock market losses had unbalanced Lewinski's mind. Lewinski had arrived at the office previous to the opening of the board room. Soon after his arrival, he is alleged, he drew a revolver and threatened to shoot up the office, but caught the sight of Mr. Hill, leveled his revolver at the broker and fired. The bullet struck Mr. Hill in the right breast and ranged upwards toward the shoulder. Mr. Hill was able to walk to the ambulance which came from the relief hospital.

Mr. Hill is the junior partner of the firm. He is 41 years old and married. He is also president and director of the following corporations: Keweenaw Copper company, Phoenix Consolidated Copper company, and Washington Copper Mining company.

WORLD-WIDE STRIKE OF COAL MINERS MAY GROW FROM DEMANDS

Negotiations in United States Are Prepared for By Operators.

Over 1,000,000 Non-Strikers Forced Into Idleness in the British Isles.

Food Prices Are Going Up and Much Traffic Is Being Suspended.

New York, March 11.—A world-wide strike of coal miners is regarded by the coal trade as more than a likelihood if the present negotiations between the anthracite and bituminous workers and their employers in this country do not result in a settlement of working conditions. With more than 1,000,000 coal miners on strike in Great Britain and 150,000 miners in Germany voting to quit work to force higher wages, a severe coal shortage in Europe is feared. The anthracite coal operators are drafting their reply to the hard coal workers here for presentation to the miners Wednesday, and next week at Cleveland, the bituminous operators and their employees will confer to try to bring about an adjustment of conditions in the soft coal fields. Meanwhile coal is being loaded on the Atlantic seaboard for South American and European ports usually supplied by English firms. The reply which the committee of anthracite coal operators proposes to draft regarding the demand for a 28 per cent increase in wages, recognition (Continued on page 6, third column.)

SUGAR TRUST MEN ON TRIAL

Face Possible Fourteen-Year Sentences and \$70,000 Fine Each.

Mayer's Indictment Severed From Others Because of Illness.

New York, March 11.—The trial of Washington E. Thomas, chairman of the American Sugar Refining company; John E. Parson, former counsel and member of the executive committee; Arthur Donner and John Mayer, former directors; George H. Frazier, a director, and Thomas E. Harned, a Philadelphia lawyer, was begun here today in the United States district court.

All are under indictment charged with conspiracy to violate the Sherman law, through the company's acquisition of the Pennsylvania Sugar Refining company. There are fourteen counts in the indictment and the maximum penalty is one year's imprisonment and a \$5,000 fine on each count.

Two Defendants Dead. The indictments against Charles Senff, director, and Gustave E. Kissel, agent of the company, who have died since the finding of the indictments, were nolle.

John Haver, a former director, was unable to appear because of illness, and in his case the court ordered a severance of the indictment from those of the remaining defendants, necessitating his separate trial.

The reading of the indictment was waived and the selection of a jury began. It was believed that several days would elapse before the jury box would be filled.

FINE ELK FOR OREGON FOREST

Herd of Fifteen Is Taken Across the Mountains on Sleds.

St. Anthony, Ida., March 11.—Fifteen head of the finest elk ever taken out of the Jackson Hole country arrived today in the Wallawa county forest in Oregon. The elk were transported over the Peon Pass on sleds, and owing to the severe storms in the mountains it took four days to traverse the first twenty-eight miles. Three animals were lost when one of the sleds turned over on a slide.

The government delivered the elk free of charge to the Oregon authorities here. This herd will be used to restock the forests of Oregon.

WOMEN TO ARGUE FOR THE BALLOT

Washington, March 11.—Women's suffrage will be advocated before the senate suffrage committee next Wednesday by a delegation of the most prominent women in American public life. Arrangements have been made for an open hearing, and addresses will be made by Mrs. Anna Shaw, Miss Jane Addams, Sophonoba Breckenridge of the University of Chicago, Susan W. Fitzgerald, Mrs. Alice Stone Blackwell, Mrs. Mary Ware Bennett, Miss Beesie Ashley, Mrs. Harriet Burton Leland and Miss Inez Milholland.

MINNESOTA HISTORICAL SOCIETY

Lawrence, Mass., March 11.—A demonstration early today in front of the police station by several hundred strikers and sympathizers, including many women, threatened for a time to develop into a serious disturbance. The crowd assembled after the arrest of a woman striker and became so mad, convinced that the officials of the club, the police claim that the woman displayed a revolver while engaged in picketing. On the way to the station house with their captive the officers were followed by a mob of several hundred persons.

Looked Like Attempted Rescue. Just before the station was reached the crowd surged in on the police and it seemed for a time that an attempt to rescue the prisoner was to be made. The police succeeded in driving back the crowd. Six of the leaders in the demonstration were arrested and four of them were wounded.

The strikers today made the biggest demonstration of picketing since the strike began. It was estimated that more than 5,000 persons paraded.

The conference committee of the strikers expected to go to Boston today for a conference with officials of the American Woolen company and the committee on conciliation settlement with the American Woolen company was looked on as likely.

FEARS FRAUD AT CASS LAKE

Mayor Dumas' Rival Appeals to Governor for Election Guard.

Says Present Official Is Fighting Hard for Re-election.

St. Paul, Minn., March 11.—(Special to The Herald.)—Threat of impending trouble at Cass Lake, Minn., where a city election is to be held tomorrow, caused Governor Eberhart and Attorney General Lyndon A. Smith hurriedly to get into communication with county officers there this morning, and warn them to be on the watch for election frauds.

Information reached the state's executive officers that Dr. D. F. Dumas, present mayor of the city, convicted of being a member of and aiding a gang of firebugs, and who is making the race for re-election, is preparing to "buy" the election by means of enough votes to put him back in office.

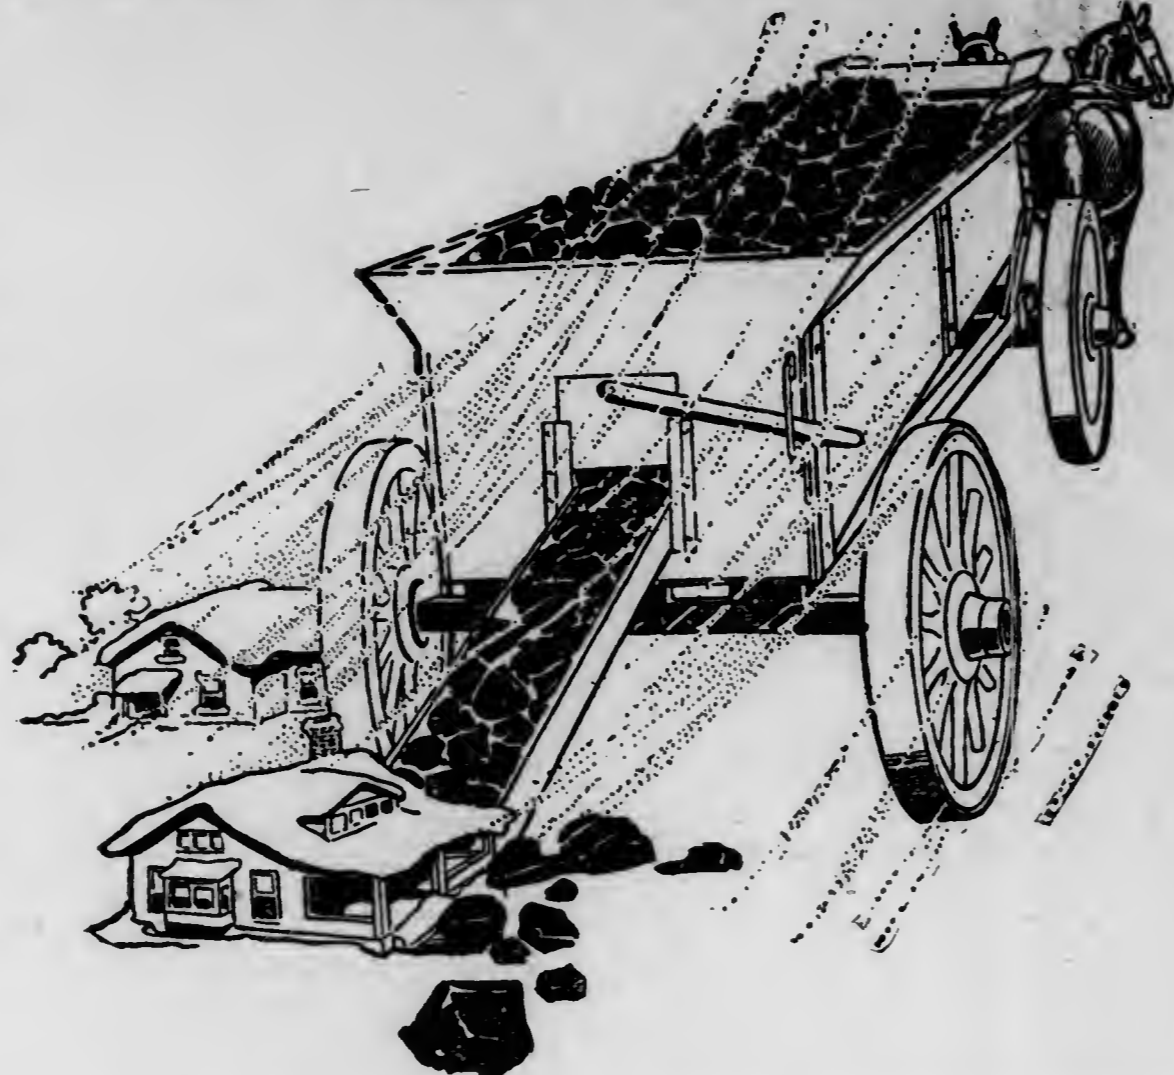

Andy W. Johnson sent a special delivery letter to the attorney general which arrived this morning, and said: "Our village election takes place here next Tuesday, the 12th inst., and I am a candidate for village president, running against Dr. D. F. Dumas, our present president."

"Dr. Dumas is making a hard fight (Continued on page 6, fourth column.)

So much for so little

Suppose you could have delivered in one giant wagon all the coal you burned in the last 15 years in striving to warm your cottage by old-fashioned heating. Then, if you could see alongside of it a wagon to contain the far smaller amount of coal you would burn in the next 15 years by use of our ideal heating, the contrast in fuel-saving would be so great that you would gladly put in at once an outfit of

AMERICAN & IDEAL RADIATORS & BOILERS

IDEAL Boilers are unqualifiedly the best in design, construction and operation that a world-wide experience and capital can produce. The most exhaustive tests in our Laboratories in the U. S., Germany and France conclusively show IDEAL Boilers make every ounce of fuel yield utmost heating results—they shut off all fuel waste. We take pardonable pride in saying, further, that in the many thousands of instances in which IDEAL Boilers have been installed in place of other heating methods or apparatus, they have proved far more economical in fuel than the heaters which they replaced—often reducing fuel bills one-half. Thus fuel-savings, plus health-protection, lessened house-cleaning,

A No. 1-15 IDEAL Boiler and \$40 sq. ft. of 35-in. AMERICAN Radiators, costing the owner \$115, were used to heat this cottage. At this price the goods can be bought of any reputable, competent fitter. This did not include cost of labor, pipe, valves, freight, etc., which are extra and vary according to climatic and other conditions.

We also supply the ARCO WAND Vacuum Cleaner, which has iron suction pipes running to various floors of houses, flats, schools, churches, hotels, hospitals, banks, theaters, etc. A turn of an electric button in any room starts the machine in basement, and with the magical ARCO WAND and a lightweight daisy hose ALL the dirt, dust, cobwebs, lint, threads, moths, insect eggs, etc., are drawn with lightning rapidity down the iron piping into the big, sealed dust-bucket in cellar. Costs little monthly for electricity to run. No dragging around a clumsy, inefficient portable vacuum cleaner—instead, you have a correct, enduring outfit that is part of the building—like heating or plumbing. Ask for catalog of the ARCO WAND.

No exclusive agents. Sold by all dealers.

AMERICAN RADIATOR COMPANY

AVENUES ARE VERY SLIPPERY

The weather conditions of the last few days have put the walks in bad condition in several parts of the city, especially on the avenues. One of the worst avenues in the city is Fourth avenue west, which is in dangerous condition, especially between First street and Superior street. As the Commercial club is situated on that avenue, the condition of the walk is particularly noticeable. People going from First street to Superior street on the west side of Fourth avenue today

REMORSE DRIVES HIM TO SUICIDE

Pittsburg Plumber Drinks Acid in Room With Stenographer.

Pittsburg, Pa., March 11.—James J. Johnson, proprietor of a plumbing company, is dead at a north side hotel

had to be particularly careful to avoid bone-breaking falls. from carbolic acid poisoning. Miss Helen Notroth, aged 19, employed by Johnson as a stenographer, was found in the room in a dazed condition from chloroform, and is detained by the police. Johnson and the young woman went to the hotel last night. Today Johnson, according to Miss Notroth, became remorseful over having remained away from his wife and three children all night.

LOOK OVER PLANT.

Warren Officials Inspect Thief River Falls Concern.

Thief River Falls, Minn., March 11.—(Special to The Herald.)—The mayor and city council of Warren spent Saturday here inspecting the municipal lighting and water plant. This visit

was the result of the success which has attended the enterprise of lighting the city and giving water service by municipal action. The annual net gain of from \$4,500 to \$5,000 for a long term of years has convinced all persons interested in lighting plants that a city of 5,000 people can give excellent service and at the same time secure to itself a good net gain over and above the expense of maintenance, extension and interest.

FLIES 261 MILES IN TWO AND A HALF HOURS.

Pottiers, France, March 11.—Maurice Tabuteau, the holder of a number of flying records, reached here today from Pau, a distance of about 261 miles, whence he traveled in his monoplane in 2 hours and 35 minutes at the rate of approximately 10 1/4 miles an hour.

BATTLE OF THE SEXES

Two Women Attorneys in Legal Skirmish With Brothers of the Law.

Women Seek to Have J. De La Motte Removed as Attorney in Several Suits.

The gentler and the stronger sexes matched wits in district court before Judge Cant Saturday afternoon. Two women attorneys, Mrs. J. C. Buell of this city and Miss E. Williams of St. Paul, appeared against J. De La Motte and A. T. Rock.

The issue involved was a motion made by Mrs. Buell to have Mr. De La Motte removed as attorney in seven of the White Iron Lake cases in which Miss Williams represented Mrs. Buell's interest and A. T. Rock appeared for Mr. De La Motte.

All seven of the cases involved are similar and only one of them, the case of Alex Marby, was taken as an example. Mrs. Buell's motion, made on behalf of Marby, was to have Mr. De La Motte's power of attorney set aside on the grounds of delay, inducing his client to enter unknowingly into an unfair contract of "selling away" the rights of his client and for not properly accounting for money received for settlement purposes.

Miss Williams, who argued in support of the motion, declared that several months of valuable time had elapsed before Mr. De La Motte had finally instituted the suit; that he induced his client, a poor and ignorant foreigner, to enter into an unfair contract which virtually gave Mr. De La Motte 75 per cent of the net recovery if won, and thirdly, he had sold away the rights of his client to the Adriatic Mining company by giving a covenant not to sue for about \$25.

Judge Cant took the matter under advisement. He will probably file his decision some time next week. Mr. De La Motte today filed a libel suit against the Finnish American Publishing company, publishers of Sintonainen, issued weekly from Duluth, and asks for \$50,000 damages to his reputation and business as a result of an article published in the paper. The article referred to the White Iron Lake fire cases and of the litigation which is pending in court to have Mr. De La Motte dismissed as attorney in some of the cases.

ADDITIONAL SPORTS

ATELL WANTED TO FIX FIGHT

San Francisco Paper Says Abe Made Proposition to Murphy.

San Francisco, March 11.—The Call today prints an account of an alleged proposal for a "fake" knockout said to have been made by Abe Atell to "Harlem Tommy" Murphy last Saturday before their 20-round fight.

Atell denies the accusation, and says he knows of no understanding regarding the fight and made no proposition to Murphy or his manager. According to Louis Buckley, Murphy's manager, as he is quoted in the Call, the first suggestion as to "fixing" the fight was made by Atell Feb. 16. He was not told positively that no agreement would be made, it is alleged.

"Another meeting was arranged, said the newspaper account, and this time Murphy accompanied his manager. Murphy was asked if he would agree to fall to the mat after receiving a certain blow and pretend to be unable to rise. He said he refused.

Last Wednesday or Thursday night, in response to a telegram from Buckley, Atell and again listened to the fighter's proposition. Atell refused Buckley again just before the two men went into the ring. Buckley was called from Murphy's dressing room by Atell and asked if the Harlem boy was ready to play the part Atell wished to assign to him. Buckley says that even then he did not give a definite answer, and that at no time had Atell received a definite reply.

Murphy with Buckley left early today for the East to prepare for his fight with Packer McParland at Genoa, Wis. "Gunboat" Smith accompanied him in search of matches with heavyweights now appearing in short distance bouts in the East. Promoter James Coffroth announced yesterday he had secured Eddie McGoorty to meet the winner of the Dillon-Kiang fight to be held here on March 25.

HIGH SPEED IN ICE GLIDER

Fritz Erickson Travels at Nearly a Mile a Minute.

Fritz Erickson had his 60-horse power gasoline ice auto out on the bay yesterday afternoon and the test of the new invention, which was built by Mr. Erickson with the assistance of Mr. Isachia, the Inter-state Auto company, was highly satisfactory.

At one smooth stretch in the bay a speed of fifty-eight miles an hour was reached. Mr. Erickson is of the opinion that he can get the speed of the auto up to seventy-five miles an hour. The machine is propelled by a propeller about seven feet in length, at the rear of the chassis. It works on the same plan as the motive power of a flying machine. The propeller is capable of making 2,000 revolutions a minute. The first trial of the new machine shows that ice auto speeding is going to become one of the popular winter sports.

Trials of the machine will be made until the ice becomes too thin for safety. Mr. Erickson believes that he will hang up some high speed marks before the thaw of March render the speed trials dangerous.

Dry Farmers to Meet. Mandan, N. D., March 11.—(Special to The Herald.)—Wednesday the annual meeting of the Norton County

ARGUES AGAINST PACKERS' RELEASE

Sheean Opens the Talk in Behalf of the Government.

Chicago, March 11.—Government counsel today vigorously attacked the motion of the defense in the packers' trial to have the case taken from the jury and the ten defendants discharged.

They argued that the government had conclusively proved its case against the packers charged with criminal violation of the Sherman anti-trust law, and urged Judge Carpenter to deny the motion presented by the defendants.

Special counsel James M. Sheean began the argument in behalf of the government.

Brainerd Beats Attkin. Brainerd, Minn., March 11.—(Special to The Herald.)—In a fast, exciting game of basket ball Brainerd high school won from the Attkin high by the score of 24 to 17. In the first half the score stood 10 to 5 in favor of Attkin. Alderman of Brainerd played a star game.

"HOUN' DAWG" EINER HUND.

Song Is Old German Ditty Instead of Missourian.

New York, March 11.—The houn' dog song which Missouri minstrels have nominated for chief Democratic honors as a campaign hymn was not born in the Ozark mountains, as the followers of Champ Clark have asserted. According to musicians here, it is an old German cradle song written prior to 1499. Here are the words in the original German:

Jedes mal ich ins Doerfchen komm Stossen die Jungens mein Hund herum. Mir ist egal was sonst sie thun. Sie duerfen nicht stossen mein Hund herum.

The literal translation is as follows: Every time I come into the little village The boys knock my dog around. It's all the same to me what else they do. They must not knock my dog around.

In a German scrapbook of the fifteenth century the song is entitled "The Lay of the Dog" and contains several stanzas, the lines sung in the Ozarks being merely the refrain. Beneath the last stanza in the scrapbook are the initials "M. L. 1499."

A Story for the People Who Appreciate "The Best"

WE never have laid claim to being a "cheap" store in the sense of selling "cheap" merchandise at "cheap" prices. Our aim has always been to see how good we could buy our merchandise whether it sells for a few cents or a few dollars. This has been our standard for forty-two years and it is that standard that has made us known as Duluth's "Best" Store and Duluth's "Safe" Store.

Ask yourself what clothes have given you the best service and most delight in the wearing, and the answer will always be the S. & B. kind. Take our suit at \$25, for instance, and it is as superior to the usual \$25 suit offered as two garments can possibly be. The reason? We pay more for it, to begin with. Then it is made by the same people who make our higher priced suits, in clean, sanitary workshops, by fine tailors, who pay unusual attention to material and finish.

We are going to surprise you, too, in the vast assortment of popular priced garments we have to offer this spring. You don't have to go to a "cheap" store to get what you want, for whether it be a child's dress at \$1.00 or an elaborate evening gown, you will find its highest and best example in this, Duluth's "Best" Store.

NEW ARRIVALS AT THE COLUMBIA

The togs that fly the true colors are arriving here every day. Among last week's new arrivals were the following:

- More Manhattan Shirts.
- Full Dress Shirts.
- Barker 2 for 25c Collars.
- Arrow Brand Collars.
- Gray Flannel Shirts, with military collars.
- Walters' Coats from Ruben.
- Union Label Suits for Men.
- Ladies' Everwear Hose.
- Ladies' Flannel Shirts.
- Schoble Hats for Young Men.
- Society Brand Clothes, for young men.
- Medium Weight Underwear.
- Carter & Holmes' Neckwear.
- Haws' Union Label Hats.
- Stein-Block Suits and Spring Coats.

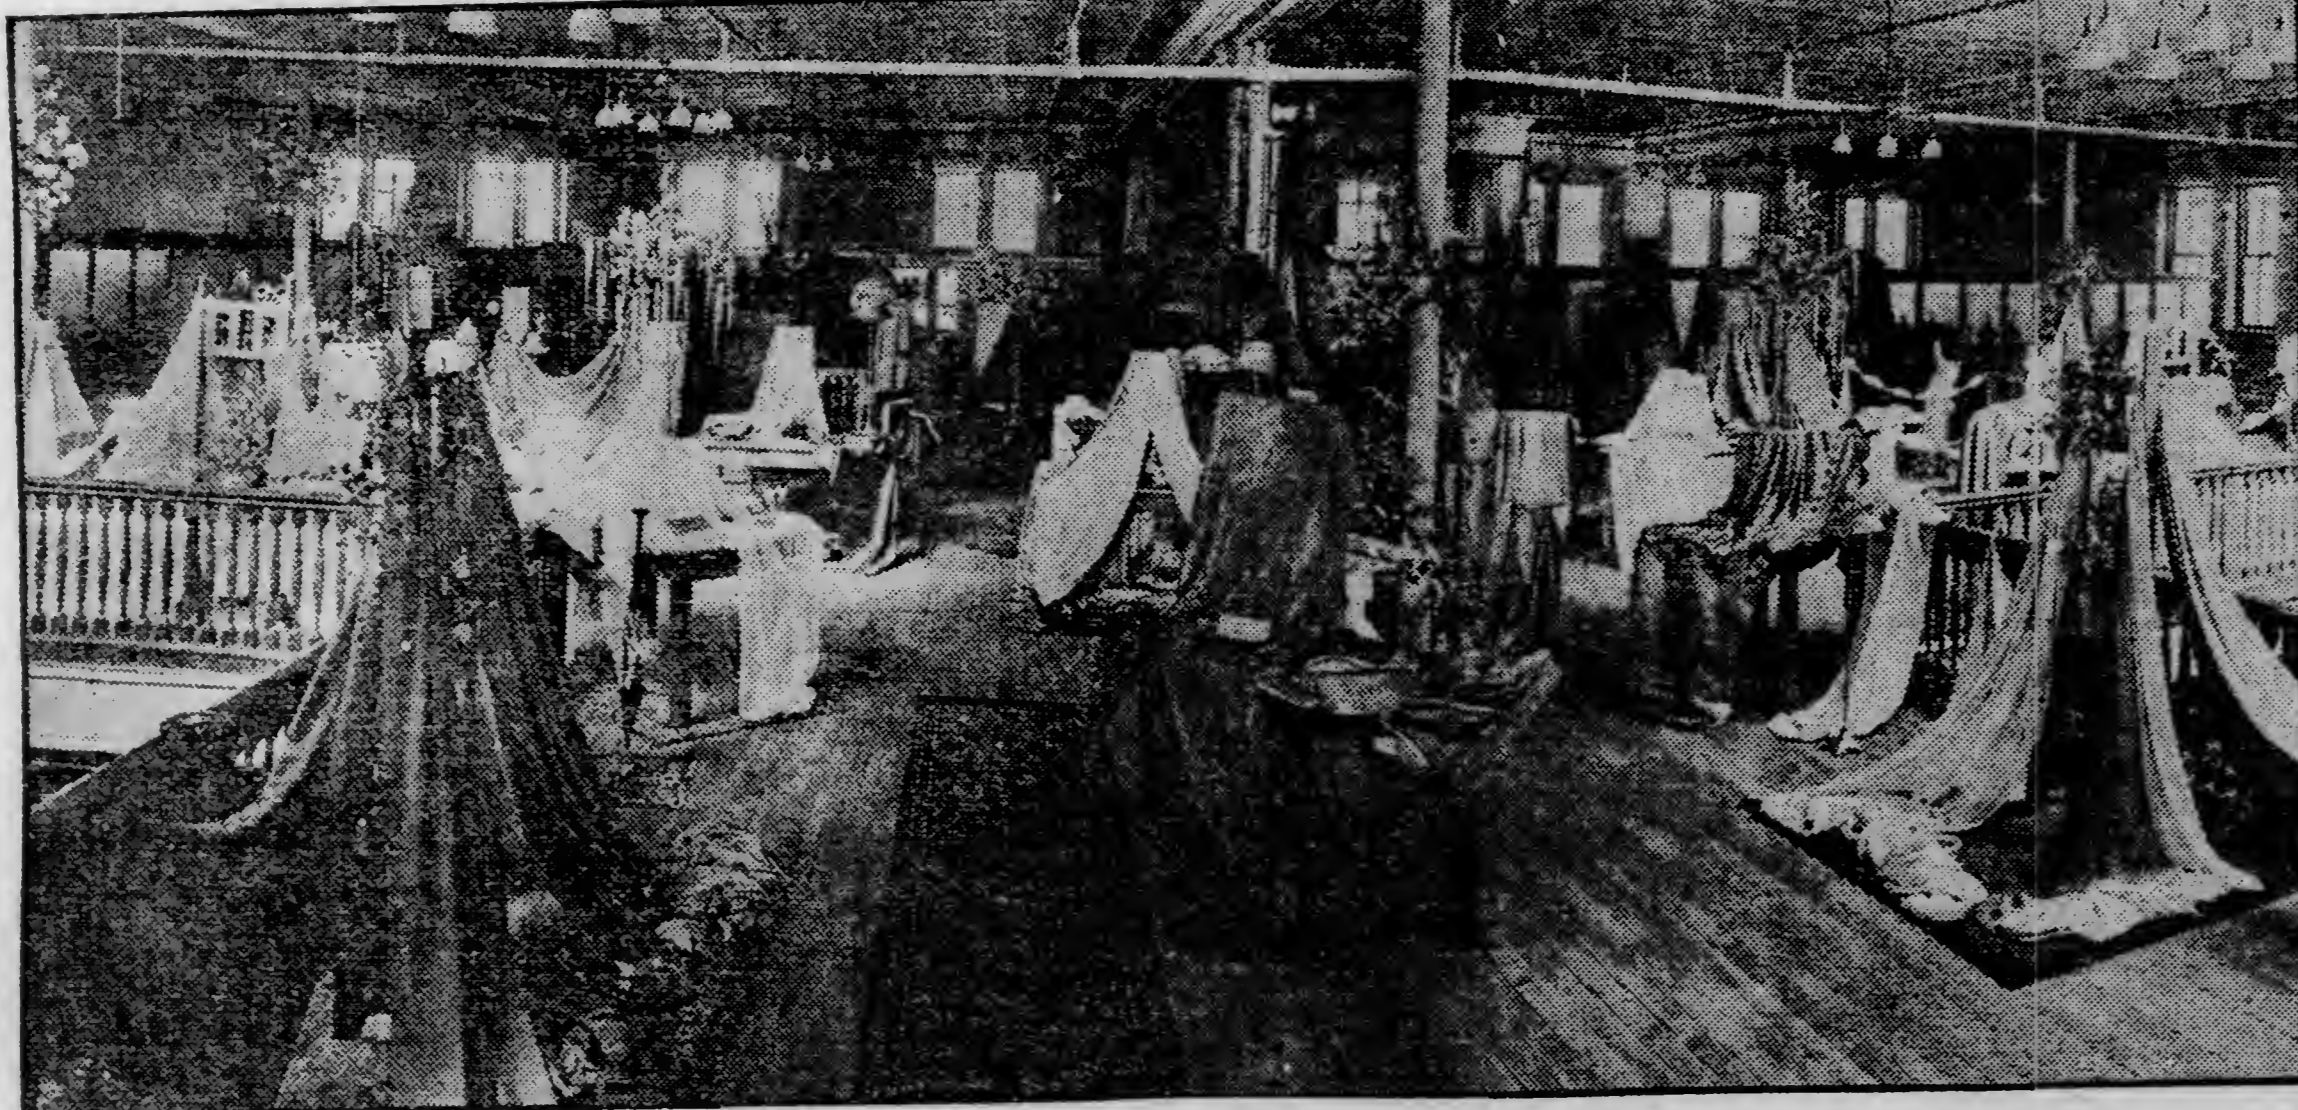

If you come early this week you will still have a chance to buy one of these fine

SWEATERS AT HALF.

That's about the price at which we are selling a big line of sample sweaters purchased from Geo. F. Webber. As they are all sorts of qualities, the prices are all different, but we bought them at about half and are selling them in exactly the same proportion.

At Third Ave. W. **Columbia** Clothing Co. At Third Ave. W.

FOOT NOTE: New Hahan Shoes for Men and Women.

Partial View of the Fabric Show on the Third Floor of the George A. Gray Co.

The above picture gives some idea of the beauty of the display, though even a Herald press cannot reproduce the exquisite colorings of the fabrics. The display formally opened today. Carnations will be given to visitors tomorrow.

In addition to the fabrics there is a rich display of trimmings and laces, as well as parasols and footwear to match the fabrics. The display will continue for several days and it will prove a revelation to many women who will be glad of the opportunity to see the new fabrics of which the fashion books are talking.

CASCARETS FOR SLUGGISH BOWELS, BILIOUS HEADACHE, SALLOW SKIN

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow with dark rings under your eyes, your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Remember that disorders of the stomach, liver and intestines are cured by morning with gentle, thorough Cascarets—a 10-cent box will keep you and the entire family feeling good for months. Don't forget the children.

10 Cents. Never gripe or sicken. "CASCARETS WORK WHILE YOU SLEEP."

SAYS HUSBY MARRIED HER TO SPITE ANOTHER.

Sadie Schwartz, 33 years old, who started suit in district court Saturday against Arvid Schwartz, 42, claims that her husband married her to spite another girl. She asks for a divorce after twenty years of wedded life. She also wants the custody of their three children and alimony. Mrs. Schwartz charges her husband with infidelity and cruelty.

SCORE TO DATE IN THE PRESIDENTIAL CONTEST.

Washington, March 11.—Up to today delegates pledged to rival aspirants for the presidential nomination were as follows: Republicans: Number of delegates

in convention, 1,076; necessary to choice, 539; delegates so far selected, 107; pledged for Taft, 95; pledged for Roosevelt, 12; contested delegates, 4. Democrats: Number of delegates in convention, 1,092; necessary to choice, 728; delegates selected, 14; pledged for Clark, 4; pledged for Wilson, 10.

BODY MAY BE THAT OF JACKSON, MICH., MAN.

San Diego, Cal., March 11.—The body of an American was found by fishermen bobbing against the foot of a cliff at La Jolla yesterday. It corresponds to the description of Charles Williams, son of A. H. Williams, a prominent resident of Jackson, Mich., who was swept from the British coast steamer Elough off Point Loma, about a week ago.

CATHOLIC AS A CITIZEN

OHIOANS ASK BIG CHANGES

Duties and Responsibilities Emphasized by Speakers at Banquet.

Duluth Council, Knights of Columbus, Has Initiation Festivities.

The need of maintaining a high type of citizenship by the Catholics of the nation was emphasized by speakers at a banquet of the Knights of Columbus at the St. Louis hotel last evening. The Catholic's duty of taking a part in the affairs of the nation and of giving that part to the side of good government and to all projects having for their end the greatest good to the whole people was the keynote of the addresses.

Over 300 members of Duluth Council, No. 47, and many visitors attended the banquet, which was served in the big cafe of the hotel. American flags and Knights of Columbus pennants were used in effective decorations. Jess Travolta, orchestra leader, led a well-arranged musical program during the banquet.

The banquet followed the initiation of a class of forty-two candidates into Duluth council, which now has a membership of nearly 500. The initiation work was conducted during the afternoon in Knights of Columbus hall, 210 West First street, and at its completion the crowd adjourned to the St. Louis.

Edwin J. Kenny acted as toastmaster. Rev. Father Floyd, in making the opening remarks touched the keynote of the speeches that followed. He stressed upon his hearers that their duty to their country demanded that they take a part in civic affairs. He urged them to give their support to those movements which their consciences dictate as right and to be unselfish in their civil life. Citizenship carries with it duties and responsibilities and no true citizen should shrink from them, he said.

F. E. Dowling also spoke on citizenship and the Catholic's conception of it. The highest citizenship, he said, is that which fearlessly stands for right in government, without considering favor, reward or punishment.

District Deputy J. Nolan of Braintree talked on the Knights of Columbus and the work of the organization. He called attention to the great growth of the order and declared that it is a potent auxiliary of the Catholic church in promoting high ideals of life. Leo A. Hall and Dr. E. W. Pabey also gave short talks on the work of the order.

John Dwan of Two Harbors gave a brilliant and eloquent address. "Civilization carries with it duties and responsibilities, for which license of savagery must be sacrificed," he said. "Catholicity carries with it duties and responsibilities and entails sacrifice. The compensation is far greater than the sacrifice and every man should embrace the opportunity given him to be a citizen to his church and his fellow-man."

J. Fred Wolf gave the toast to the Knights of Columbus and the Knights of Columbus and the work of the organization. He called attention to the great growth of the order and declared that it is a potent auxiliary of the Catholic church in promoting high ideals of life. Leo A. Hall and Dr. E. W. Pabey also gave short talks on the work of the order.

DIFFICULTIES OF UNBELIEF

Men Strain at a Gnat and Swallow Camel, Says Pastor.

"The Difficulties of Unbelief," was the subject of a sermon by Rev. George R. Gebauer, at the Unitarian church, yesterday.

"Men will often strain at a gnat and swallow a camel," he said. "They will accept some intellectual difficulties and reject others which are not half as difficult."

"This is especially true of the denier of God. He has worked out for himself what he thinks is a plausible theory of the universe without a God. He will accept the most rational of the rational beliefs, but he will not accept the rational belief in the existence of God. He will accept the rational belief in the immortality of the soul, but he will not accept the rational belief in the immortality of the soul. He will accept the rational belief in the immortality of the soul, but he will not accept the rational belief in the immortality of the soul."

ISLANDS WANT ANNEXATION

Cuba and Isle of Pines Would Join the United States.

There is a strong sentiment among the inhabitants of both Cuba and the Isle of Pines for annexation to the United States, according to Attorney John A. Keyes, who has just returned from a visit to these islands and Florida. Mr. Keyes says that he will undoubtedly be some opposition to this move, but he says he was informed by men who seemed to be in a position to know what they were talking about, that the present trend of events points to annexation of both islands within the next two years.

Mr. Keyes says the Isle of Pines is a delightful place. He states that winter gardening and fruit raising are industries that are rapidly developing on the island, and that another source of wealth on the island is the mineral springs, whose waters have many curative properties. He says about 80 per cent of the inhabitants are from the United States. He was greatly impressed with the growth and general improvement of Havana.

Mr. Keyes also took note of a big land boom in the city of Miami on the east coast of Florida, where the value of lots increased 50 per cent within the last year, and where a great deal of building has been going on. While there he met former Auditor Selden of the United States Steel company, who usually resides at Duluth and who is now interested in real estate at Miami and that vicinity.

Glass Block Store Talks

—This is the eighth of a series that will appear in this space each Monday evening. In these columns the general policy and fundamental principles upon which this institution is operated will be discussed. Laws and customs of modern retailing will be disseminated, we believe, to the benefit and for the information of an interested public.

Shopkeeping and Retailing

—SHOPKEEPING and RETAILING are terms of commerce highly significant of EVOLUTION and PROGRESS.

—SHOPKEEPING properly defined applies to the primitive method of merchandising when traders "just kept store," though in the best way, perhaps, that they then knew how. The institution was, in effect, what we know today as a commissary.

—Successful shopkeepers were artful and cunning, and thrived by their crafty bartering and trading with townspeople and country folk.

—Each shop had its own limited line of wares "displayed under cover." Price tickets had not yet been invented; prices were so much today to one and so much to another; exchanges or refunds were unknown in their present meaning.

—But these methods belong to the DARK AGES OF MERCHANDISING.

—EVOLUTION and the LIGHT OF PROGRESS have developed higher and better methods and with these the trade term RETAILING.

—RETAILING is a modern SCIENCE. It has the adamant stones of SERVICE, HONESTY, CONFIDENCE and HONORABLE COMMERCE to rest upon.

—RETAILING has effected the application of MUTUALITY to MERCHANDISING. It has marked the economy of time and the elimination of trouble through the union of many shops under one roof; has developed the modern SERVICE and has dispelled all uncertainty from buying through the system of PLAIN FIGURES, EXCHANGES and REFUNDS.

—As SHOPKEEPING was correlative to the primitive store, so RETAILING in its highest form is inherent in the modern DEPARTMENT STORE of today.

The Glass Block Store

IRON AND STEEL REVIEW

New York, March 11.—The structural steel trade was more animated last week, with contracts closed for over 30,000 tons of steel shapes, the railroads being responsible for more than one-third of the tonnage. The principal Milliken brothers are to fabricate 1,800 tons of the Alliance left building.

The Northern Pacific ordered 1,705 cars, the Vandavia 285 cars and the Rutland of Vermont 500 cars. The Western Maryland has closed for 25 locomotives and the St. Paul for 50 engines. The latter company is still in the market for 50 locomotives.

The largest interests made a more determined stand on prices for finished products and were supported by several of the larger independent companies, all of which suffered from destructive competition recently.

Subsidiary companies of the United States Steel corporation reported a gain of 74,749 tons in unfinished orders in February; new business having been booked at about the rate of 26,000 tons per day.

There was greater activity in pig iron and old material, the principal feature of interest being the purchase of 15,000 tons of Bessemer iron and 20,000 tons of heavy melting scrap by the United States Steel corporation for Pittsburgh and Chicago delivery. The Jones & Laughlin and the Pittsburg Steel company bought 25,000 tons of basic and smaller concerns took up an aggregate of 10,000 tons.

Cleveland, Ohio, March 11.—Fire that started early Sunday morning in the store of the Union Paper & Twine company here, raged all day, causing a loss estimated at \$250,000. An explosion gave the flames great headway. No lives were lost. The explosion blew out the rear of the four-story building.

Prisoners in the county jail, seeing what they thought their imminent personal release, began praying. The fire chief advised the police to be ready to transport the prisoners and every available police conveyance was brought to the scene. Danger to the jail, however, did not threaten long and the transfer was not made. The cause of the fire is not known.

Boston, Mass., March 11.—Miss Sarah Calmy, one of the principal witnesses in the famous Russell will litigation, died suddenly in Melrose Sunday of heart failure. Her testimony is believed to have had much to do with the adverse decision on the claims of "Daniel Blake Russell" of Dickinson, N. D., for a share in the estate of the late Daniel Russell of Melrose.

Miss Calmy had been housekeeper at the Russell mansion for a quarter of a century, first when Daniel Russell was head of the house and more recently with the reclusive son, William C. Russell, and "Daniel Blake Russell" of Fresno, Cal., who now has been accepted by the family as the long missing son and heir.

PERCY REFUSES TO VACATE SEAT

Charges Cowardice and Falseness to Opponents in Mississippi.

Washington, March 11.—Senator Le Roy Percy has replied to the Mississippi legislature's demand that he resign by flatly declining to do so. He has sent his answer in a spirited letter which rings with allegations of cowardice, falsehood and malignant factional hatred.

Senator Percy replies that when, just after his election, he offered to resign his unexpired term if a primary were held in 1910 to name his successor, he limited his proposition to that year and not 1911, the year in which a primary finally was held.

Senator Percy begins by stating that the legislature has not questioned his election nor his acts in the senate, but has negatively admitted their validity. He brands as false the statement that he had promised to resign if not elected in primaries which elected Vandaman and grotesquely absurd the contention that, having been defeated in the primary which elected his successor, he should resign.

Deceen May Call Extra Session.

Chicago, March 11.—Governor Deceen has authorized a statement that he would call an extra session of the legislature to enact a direct presidential primary law, provided that prior to the issuance of the call, a pledge is signed by two-thirds of the members of the senate and house that they will pass a bill with the necessary emergency clause.

PETE THE FRESH 'AIR FIEND

By C. L. SHERMAN

SAY PETE—AN ENGLISHMAN HAS OPENED UP A WIG STORE DOWN THE STREET.

IM ON.

CAN YOU FIT ME OUT WITH A CRANIUM COVER?

SURE HANNO, MI AVE AIR-HIK HALL SHAPES HAND SIZES.

THAT AIR BELONGED TO CHARLES THE FIRST, VERY BECOMING TO THE BLOCK.

MI BELIEVE 'S MIADE 'S MIADE.

WHAT DID YOU TEAR IT FOR?

DONT YOU KNOW THAT CHARLEY FIRST GOT HIS IN 1645, WAS TOO OLD, WHAT YOU NEED IS FRESH 'AIR.

CLEARED ALONG THE POLICE RUN

Two young women who had been made the dupes of men were at police headquarters yesterday. One was Hazel Brown, who confessed to having seen twenty summers, and the other was Mary Cross, a few years her senior.

Hazel was grief-stricken and red-eyed with weeping, the man's duplicity weighing heavily on her mind. Her trouble was so recent that she had not healed the wound. Mary was calm and apparently reconciled to her fate. It was over a year ago that she had been abandoned in much the same manner as the other.

Both had been won by a face which appealed to them and a love of good clothes and a good time. This was true of Hazel more than of Mary, as the latter already saw visions of the comfortable little home for two when she left to take her chance away from the scene of her childhood.

Hazel said that she had been enticed from her home by a man named Homer, a traveling man. She explained that she had been attending business college at the time she met him and that he induced her to go on the road with him, living his life as they went from one town to the other. Yesterday, during her absence from their room in a local hotel, he packed his grip and left for parts unknown. She was left practically penniless, friendless and alone with her sorrow and her disgrace.

The women in charge there learned her story and took her in charge. Yesterday she was placed in a private family where she will be cared until some other arrangement can be made.

Two years ago Mary left her home in Virginia with a man in whom she placed all her confidence. He took her to Ladysmith, Wis. There he dropped her and she has been seeking for herself and her child a precarious existence since. This morning she was sent to a police office by the police and it is believed that work can be found for her.

Isabelle Gillespie, one of the two girls arrested, is the daughter of Percy W. Sumner, who claimed that she and her companion had relieved him of \$24, in still at headquarters. Efforts are being made to arrange for her reception at the home of her father. As for Percy, he has not been seen since Saturday.

Victor Maki and Frank Aho were arrested Saturday night on charges of having robbed Frank Korhonen in a lodging house on First street. First avenue east. It is claimed that they knocked Korhonen down while the other went through his clothes, getting some money. Korhonen had \$30 in his sock, which was overlooked. The prisoners were taken to court today on charges of petty larceny. They will be tried tomorrow at 10 o'clock. Bail in each case was fixed at \$150.

Rose Williams, whose true name is said to be Mrs. Harry Earl, is in the custody of Immigration Officer J. McDonald and is being held on a discretionary charge of being a woman of ill repute. She has been in the country six years, according to her own statement. She was caught in the federal office at the border, where she had her trunk in bond. Her case was investigated by Officer McDonald and it was ascertained that she had been residing in a house of ill repute. She is not a citizen of the United States and she stands in danger of being deported. She is married to a citizen of the United States, in which case she would be allowed to send her husband across the water. She says that although she cannot afford the cost of her husband's return, she will endeavor to get him across the water. She was arrested on a charge of being a woman of ill repute and she was held in the police office until she could be removed to the immigration office.

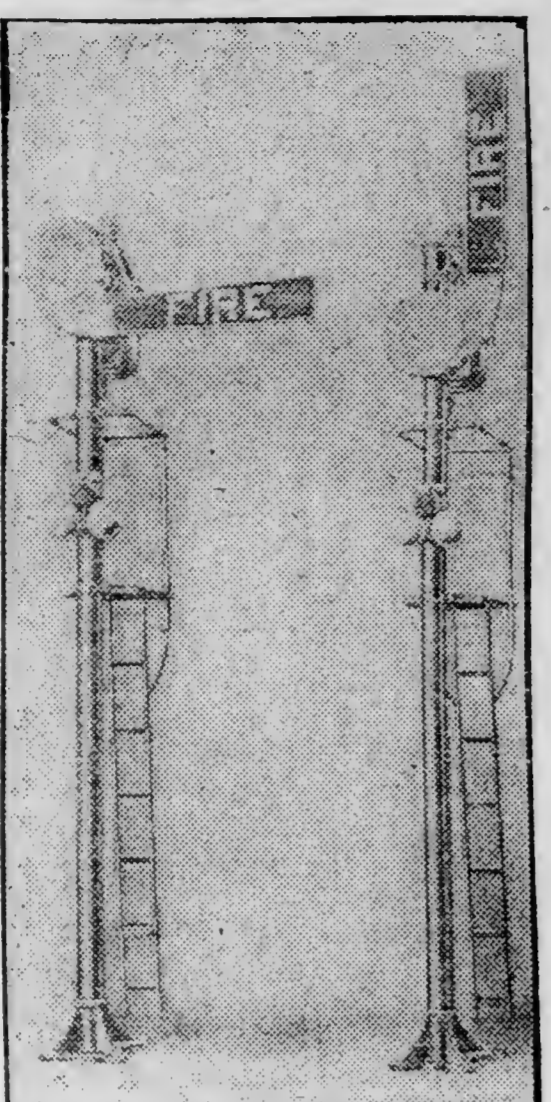

Ole Thorsen, bartender at the "B" & "I" saloon on West Michigan street between Fifth and Sixth streets, arrested yesterday on a charge of keeping the saloon open on Sunday. He pleaded guilty in police court today and paid a fine of \$100, of the regulation tax in the majority of such cases. If the maximum assessment, which can be levied in police court.

Lea Peterson, who has the boarding house in which Frank Korhonen claims he was robbed Saturday night, was arrested this morning on a charge of selling liquor without a license. She will be arraigned in police court this afternoon. Korhonen asserts that he bought beer in the place before he was "touched."

The police have been asked to try to locate Alex McLean, who is supposed to be in the vicinity of Duluth or Superior, probably working in a lumber camp. There will be a big family reunion at Karles, N. D., and his presence is earnestly desired. When young it is stated that McLean badly burned the palms of both hands, so that the cords are drawn up enough to be conspicuous. He is about 42 years old and left home about twelve years ago.

The new fire semaphores which will be installed at Third avenue west and First street by the fire department, will undoubtedly be the object of much attention when it is in operation. It will stand about twelve feet high, it will be connected with the signal system at headquarters. Whenever an alarm is received from the downtown section the arm, labeled "fire," will drop automatically, the red light will be lighted and the big bells will start.

THE NEW SEMAPHORE.

to sound. The device is to prevent collisions with street cars and other accidents at the crossing, which is considered one of the most dangerous in the city.

James B. Cavanaugh is anxious to ascertain the whereabouts of John B. Cavanaugh of Emmet, Mich. The missing boy is about 20 years old and his name has not been heard from him since early in January. At that time he was working for Swallow & Hopkins in Winton, Minn. From there it is stated that he came to Duluth. His continued failure to write is greatly worrying his mother.

Clinton Thorpe paid a fine of \$5 and costs in police court this morning for having reported that there is a suspicion as to his honesty. He has a sentence of thirty days hanging over his head.

John McDonald, a typical beggar, about 60 years old, was arraigned in police court this morning on a charge of having solicited alms in the Soo depot. He did not know whether or not he was guilty and his case was set for a hearing this afternoon.

William Nelson was given until 6 o'clock tonight to make himself scarce. He pleaded guilty to vagrancy and the police reported that there is a suspicion as to his honesty. He has a sentence of thirty days hanging over his head.

(Successor to Gray-Tallant Co.)

113-115-117-119 WEST SUPERIOR STREET, DULUTH, MINN.

NOW OPEN TO THE PUBLIC ON OUR SPACIOUS THIRD FLOOR

A GORGEOUS FABRIC SHOW

A Brilliant Pageant of fashion fabrics for Spring! In settings that are rich in palms and flowers of the Southland. A collection of newly imported silks, satins, brocades and other fashionable fabrics, such as has not heretofore been seen in the Northwest. Velvets and Satin Brocades on Chiffons. Satins of Wonderful Richness, yet not in the least stiff. Shimmering Chiffon Taffetas, soft and drapable. Ombre Charmeuse—London Voices and filmy Marquisettes, and mist-like Jouy Chiffons in which flowers seem to float. And then, too, there are superb suitings, rich tailoring cloths, handsome Monotone Effects, in beauty as varied as the looms of many lands can create!

Above we have only hinted at what you will see—the imagination cannot conceive the magnificence of the display, though the photographer has made a picture of it which is printed on page 3 of this paper.

All Are Welcome to See! None Will Be Asked to Buy.

This display is planned as an informative event. We want you to see that right here in Duluth are gathered Fashion's newest and finest fabrics in assortments unsurpassed in the land! There's nothing too good for our trade—the display proves that. Will you come and enjoy it?

This Will Be a Glorious Lace Season

The pronounced feature of spring fashions is the lavish use of laces of all sorts. Sometimes even two or three different kinds of laces are used on one gown!

The New and Exquisite Shadow Laces

Shadow laces in white, cream and ecru are here in such a bewildering assortment of patterns that it is hard to make a choice. There are matched sets, including bands and edges in 2 to 12-inch widths, and single laces, in 27 to 64-inch widths. These laces range in price from 25c to \$5.00 the yard.

Cluny Laces Are of Course Very Desirable

There are bands and edges in new patterns in matched sets from 2 to 12 inches wide, at 50c to \$1.50 the yard. These are excellent values and are just the thing for summer gowns.

Lace Allovers of Every Description Will Be Liberally Used

White, cream and ecru all-overs in Cluny, Irish, Venice, Carrickmacross and shadow laces, priced at from 50c to \$10.00 the yard.

Bohemian Laces Are Charming

Matched sets in the new Bohemian Lace in cream and ecru are here in varying widths, in some unusually exquisite patterns.

Bewitching Veilings

Black, white and the new flesh tints are here. New meshes, correct widths, very becoming.

Black and white. New Jack Daw effects in beaded bands are fashionable, yet so often they are not effective. We have been careful to select some exceptionally pretty designs which will be most effective.

BOHEMIAN BANDS

Bohemian beaded bands are also of exceptional attractiveness. Various colored beaded bands embellished with white embroidery or chenille embroidery will certainly add to the charm of your summer gowns.

ROSES! ROSES! ROSES!

Metal Roses very cleverly fashioned of gold or silver ribbons and fastened to the fabric with a very effective trim. Bands with clusters of tiny roses of varied colored chiffon are also charming.

Delightful chiffon roses cleverly arranged on bands of gold beads are very effective when used on the new summer fabrics.

BLACK AND WHITE

New Jack Daw effects in beaded bands are fashionable, yet so often they are not effective. We have been careful to select some exceptionally pretty designs which will be most effective.

DANISH FARMERS' CO-OPERATION

Dr. Maurice Egan Invited to Discuss the Subject Before Southern Chambers of Commerce of the United States.

Copenhagen, March 11.—Dr. Maurice Egan, the United States minister to Denmark, has been invited by the Southern Commercial Society to make a series of talks on "Danish Agricultural Cooperation and Conservation" before the Southern Chambers of Commerce of the United States.

The position of Denmark as a school for the study of scientific agriculture is becoming more important every year and Dr. Egan has made a close study of the methods which have made Denmark a leader in co-operative agriculture, especially the effect of the plan on the cost of living. This feature will be considered at length by the lecturer in America.

When questioned in regard to the invitation to speak on this subject in the United States, Dr. Egan declared that such a request was not only due to their perfect co-operation but also to the fact that they received the hearty support of the national, provincial and provincial governments.

"In effecting this," he said, "it was necessary to insure the success of a co-operative agricultural venture that the state should have a permanent examination over the products sent to market. In moving the opinion of the farming population here, the government has the valuable aid of the high schools and winter sessions for the students of mature years of both sexes. These schools, by encouraging national and provincial pride, are at the very root of the feeling which induces the Dane to make every sacrifice to raise his own products rather than to import them from elsewhere. The emigration which takes place from some Western states to Canada would be regarded as very unpatriotic by Danish people. In the Southern United States what might be called a provincial love of home exists to a larger extent than elsewhere in the world, and therefore the South seems to be the place where a modified form of the Danish system would meet with the most successful results.

"The Danish national government keeps a jealous eye upon the quality of its exports. Recently Denmark was much aroused on the ground of a complaint as to the standard of butter. An immediate investigation was ordered and the authorities in Denmark restoring the usual standard.

"The country are cattle diseases better controlled in Denmark than in any other country, and the cause of foot and mouth disease the

The Danger of Imitations.

An Ohio druggist writes to "The Practical Druggist," a prominent New York Drug Journal, as follows: "Please furnish formula for Castoria. All the formulas I have worked with are either ineffective or disagreeable to administer."

To this "The Practical Druggist" replies: "We do not supply formulas for proprietary articles. We couldn't if we wanted to. His experience with imitative formulas is not surprising, but just what is to be expected. When Castoria is wanted, why not supply the genuine. If you make a substitute, it is not fair or right to label it Castoria. We can give you all sorts of laxative preparations for Children, but not Castoria, and we think a mother who asks for Castoria would not feel kindly toward you if you gave her your own product under such a name."

No mother with a spark of affection for her child will overlook the signature of Chas. H. Fletcher when buying Castoria.

Children Cry For

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Fletcher and has been made under his personal supervision since its infancy. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—the Mother's Friend.

GENUINE CASTORIA ALWAYS BEARS

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

LACK OF BUSINESS METHODS

Committee of Inquiry of the Duma Reports Gross Shortcomings in Various Branches of Russian State Management.

St. Petersburg, March 11.—A rather strong indictment of state ownership, as far as Russia is concerned, was made recently in the duma, when the shortcomings in various branches of the Russian state management were illustrated in the report of a committee of inquiry read by Deputy Godnet.

The navy headed the list for ruinous neglect of the interests of the treasury as well as those of the service. One flagrant instance was the loss of the icebreaker Yermak in England, one of its engines, costing \$100,000, was removed. An offer to buy the discarded engine for \$15,000 was made, but the Russian naval officers thought the price low, and shipped the engine to Revel at a cost of \$4,500. There it lay in the open for seven years and was finally sold for \$600. Excessive allowances and inaccurate bookkeeping on voyages of Russian war vessels abroad were very frequent. The committee discovered that on the same day in the same port different vessels purchased coal at prices varying from \$5.40 to \$9.60 per ton.

The army showed similar mismanagement. In one case the treasury was the gainer because of the irregularity. At the time the purchase of horseshoes were inscribed in the books, while the committee discovered by counting that the actual supply stored was 1,357,000. The supply of nails to the army was also short. The usual experience, however, was to find the actual stocks far short of the amount recorded in the budget of the ministry of railways, next largest after the ministry of finance with its spirits monopoly, there was a deficit of \$1,000,000 for the year 1908 on a budget of \$200,000,000. This chronic deficit is due to the greater cost of construction over that prevailing on private railroads and to other causes. On an average the state spent \$10,101.00 more per versta than private railroads. The Amur railroad is costing 10 to 15 per cent more than the estimates. The cost around Lake Baikal cost \$5,000,000 more than the estimates, that being 20 per cent of the entire cost.

The state iron works on the Urals showed a deficit totalling \$5,000,000 for the last ten years. Deputy Godnet reviewed the membership of these works which he said was an unacceptably high level of prices, which is not the province of the government to encourage. Naphtalene-bearing lands in the Caucasus established a precedent for the payment of the land-rent to the state. The sum now due from them amounted to \$100,000.

A particular cause of grievance was the ineradicable habit of most ministers to obtain appropriations under one head and expend the money for other purposes. The committee estimated a good deal of it ineffective control on the budget. Sums totalling \$35,000,000 were thus transferred from one head to another in one year's budget alone.

Scarcity of supply of the precious metals has forced the government to undertake the retail sale of gold and silver. This so-called "gold famine" has caused heavy inroads to be made on the specie in circulation. The Russian law threatens the reconversion of gold into metal by private individuals as well as the clipping of gold or its reduction in weight. Nevertheless gold coins have recently been melting in large quantities, particularly at points distant from the principal government mints. This is done especially in the "taiga," a great part of Siberia. Hitherto, gold bars could be bought only at the mints in St. Petersburg, Moscow and Odessa. To meet the legitimate demands of the trade the ministry of finance will hereafter sell gold in bars, planchets and sheets, 999 per thousand pure, at a fixed price, and allow the mint at St. Petersburg to sell pure metal in pieces of 100, 50 and 25 pounds of gold and 50 pounds of silver per applicant, to private individuals and government officials at points conveniently situated throughout the empire is now being organized.

COLONNA'S DEATH STIRS ITALY

Interest Excited Over Question Whether Prince's Valuable Art Collection Will Be Kept Intact or Sold By New Owners.

Rome, March 11.—Public interest in the history of medieval and renaissance Rome and that it has been made hereditary, and therefore inalienable to the house of Colonna, should be a degree in the question whether the virtually inestimable art collection of the late Prince Marcantonio Colonna, the head of the historic house, is to be kept intact or sold by the four members of the family to whom it has been bequeathed.

If the four owners transport their respective residences, it is, of course, lost to all except intimates of the owners, and that this should happen would be considered a public calamity.

No one who has ever visited the Colonna palace can forget the magnificent hall where the pictures hang, and which was the seat, unique and memorable, of the post-war congress. It is decorated with painted mirrors by Mario de Fiori and cupids by Carlo Maratta. There are several Titians and Palma Vecchio's "Paul Veronese's 'Portrait of a Man,'" some Titians, with many lesser, though well-known, works of art. The most precious and interesting are twelve water color landscapes of inestimable value by the Venetian school.

The palace itself is one of the most attractive, historically, in Rome. Architecturally, outside, it is plain and hideous, but inside gorgeous in the extreme. It was left to his brother, as the bearer of the name of Colonna, Prince Marcantonio leaving no sons.

The history of the Colonna palace

MUST RETURN TO ST. CLOUD.
Prisoner From Duluth to Be Extradited From Alabama.

Governor Eberhart has issued requisition papers on the state of Alabama for Charles Schultz, who is wanted in Minnesota for breaking parole after serving two years in the St. Cloud reformatory for larceny. D. H. Knickerbocker will go to Fort Morgan, Ala. for the prisoner.

Schultz was committed to St. Cloud from Duluth in 1904 charged with grand larceny. He was paroled later and in 1906 ran away from the farm for whom he was working and left the state. He joined the army and is now serving time for some military offenses. Schultz was released March 19 and the Minnesota authorities will be on hand to take him as soon as he comes out of the federal prison.

OSZARK MOUNTAINS YIELD QUANTITIES OF RADIUM.

Rogers, Ark., March 11.—True to the prediction made ten years ago by Thomas A. Edison, radium has been discovered in large quantities in the Ozark mountains near the Missouri-Arkansas boundary. Logan G. B. Perdue, president of the Farmers' Union of Benton county, and a geologist of state-wide reputation, has made the discovery. John P. Nagle, New York capitalist, has been interested and has purchased 800 acres of the radium land in Benton county along the Missouri border. Entrance was gained through a great cavern, and already thousands of tons of ore containing radioactivity have been blocked out. Every known test has been made by Estate Geologist Perdue.

NEWS OF THE NORTHWEST

HEAR KICKS OF SHIPPERS

North Dakota Railroad Commission to Listen to Plaints in April.

Plan Meetings in Various Parts of State for That Purpose.

Bismarck, N. D., March 11.—(Special to The Herald.)—There will be a series of hearings conducted by the North Dakota board of railroad commissioners at various points in this state for the purpose of giving shippers an opportunity of airing their grievances against the proposed new classification of freight rates. The hearings will be held in April, and there probably will be about twelve sessions all told.

During the same hearings the board will receive from shippers of cream their viewpoints of the existing rates on cream, against which there has been a complaint.

SAYS WRONG MAN WAS CONVICTED

Religious Convert Confesses He Committed Crime Fastened Upon Another.

Fergus Falls, Minn., March 11.—Sam J. Copeland of South Cassadaga, Cal., a convert to the Gipsy Smith meetings, has confessed to a crime for which another man was convicted in this city in 1892.

The confession was received by County Attorney Anton Thompson and was to the effect that Copeland was guilty of an act of robbery committed in Otter Tail county in 1892 for which George Lyons was arrested and convicted. Lyons afterwards committed suicide in the prison.

(Going to Minnesota.)

Copeland's confession Copeland says:

"This confession is made in full view of all the consequences for the sake of George Lyons and with the hope that other poor and frightened men, unjustly accused of crime, may also be benefited thereby. This liberty I now enjoy is very dear to me. Having been in prison, I know what freedom is. I am not at all anxious to return to prison, but if the law demands it, I am ready to suffer justly for the crime of which George Lyons was justly convicted. Before many days I will deliver myself into the hands of the law and to await your pleasure in the matter.

The confession is believed to be genuine, as Lyons was convicted of robbing the porter on the Northern Pacific Pullman between Perham and Valerda at the time stated, the porter identifying him as the man who had been convicted. He committed suicide in the Fergus Falls jail.

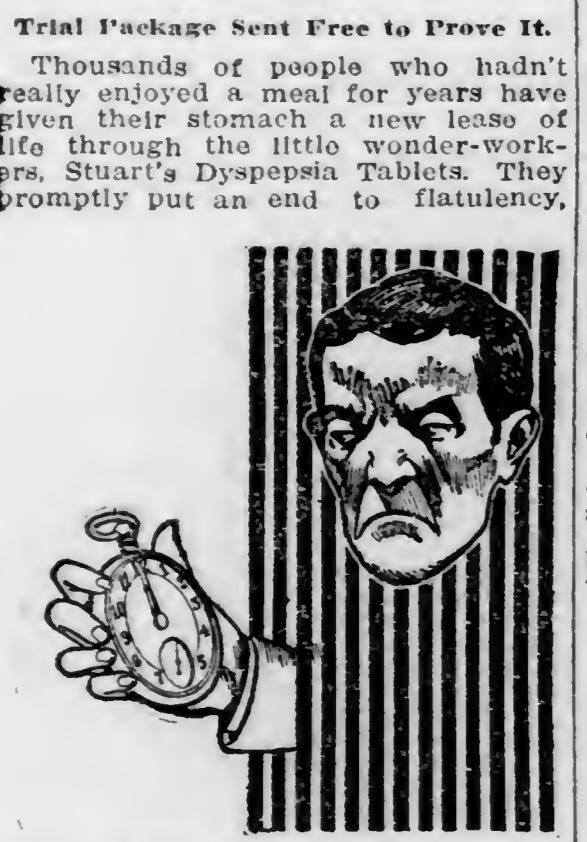

High Menominee Industry.—(Special to The Herald.)—Employing nearly 200 men and turning out one million boxes annually, the Peninsula Box & Lumber company of Menominee is operating one of the busiest manufacturing industries in Upper Michigan.

"O, I Can't Eat a Thing!"

Don't Never Say So Again After You Read This, and Buy Stuart's Dyspepsia Tablets at the Open Secret.

Trial Package Sent Free to Prove It.

Thousands of people who hadn't really enjoyed a meal for years have given their stomach a new lease on life through the little water-works, Stuart's Dyspepsia Tablets. They promptly put an end to flatulency,

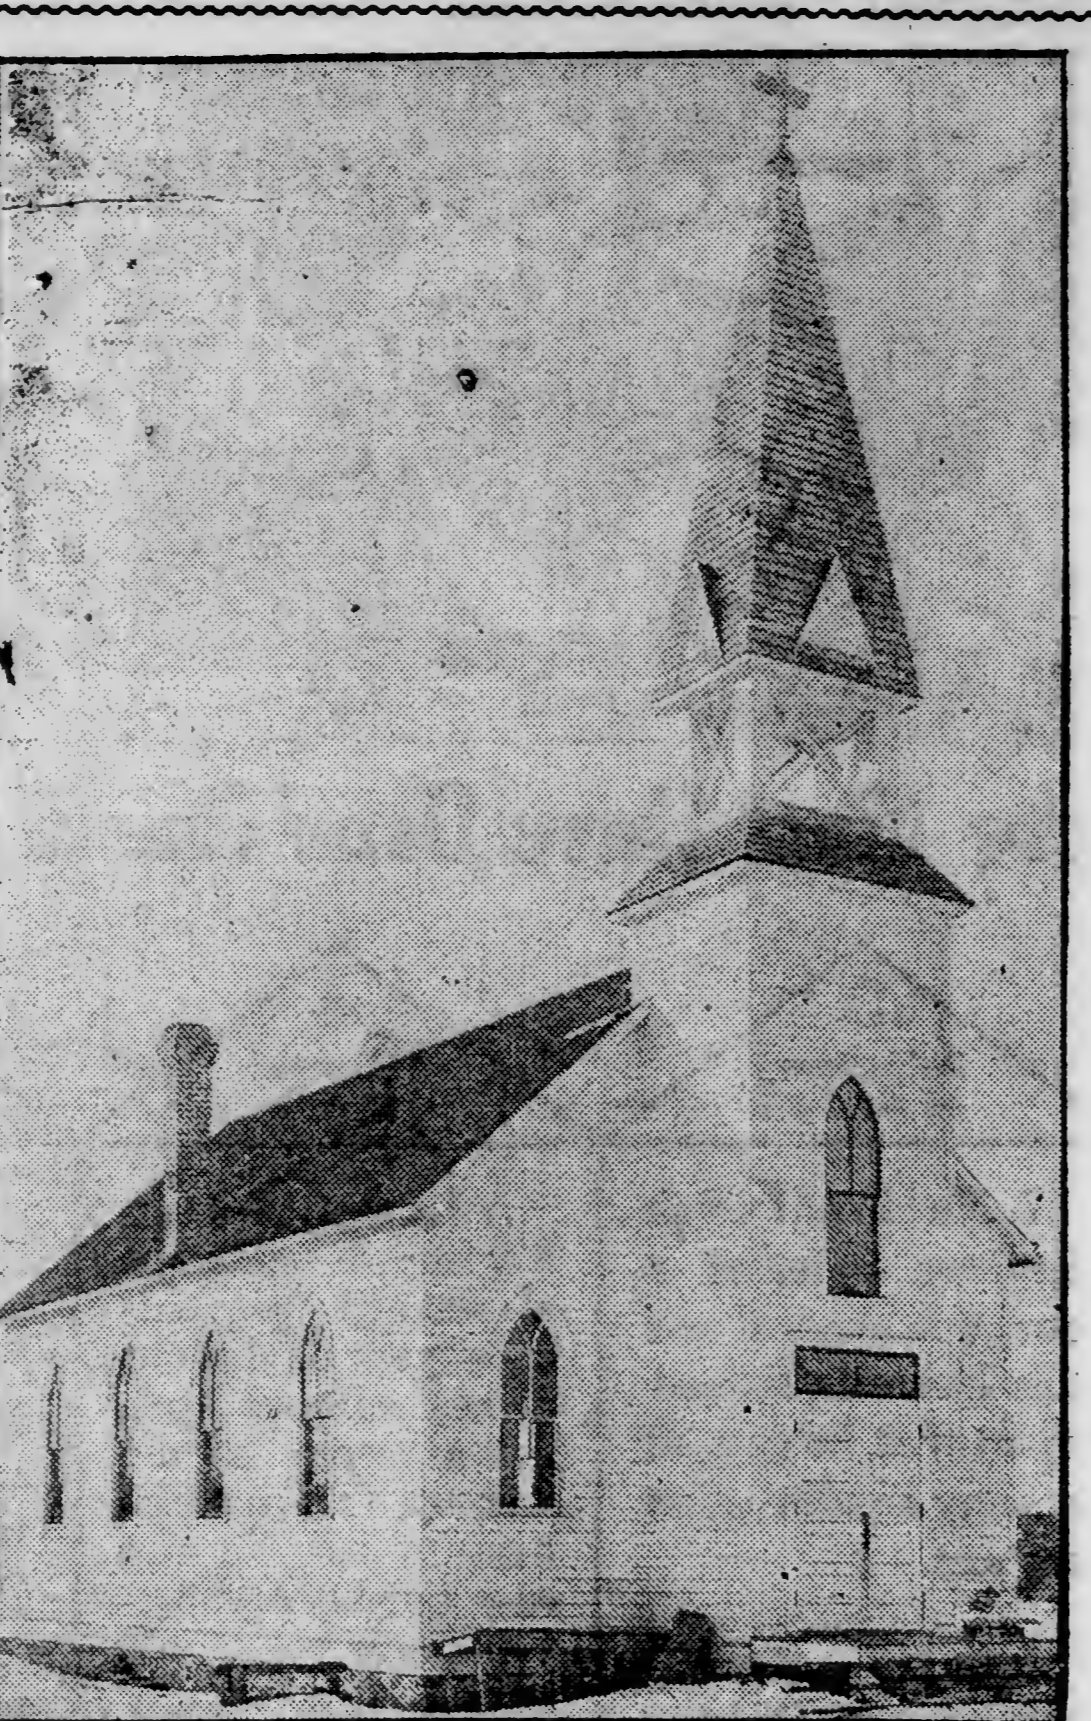

Heartburn, dizziness, sick headache, dyspepsia, burning sensation, brash, fermentation and the other ills attendant upon a disordered stomach.

Stuart's Dyspepsia Tablets are composed of potent, and always going on elements that help out the gastric juices of the stomach. They are Nature's digestive, the same kind the stomach uses when it is in good health.

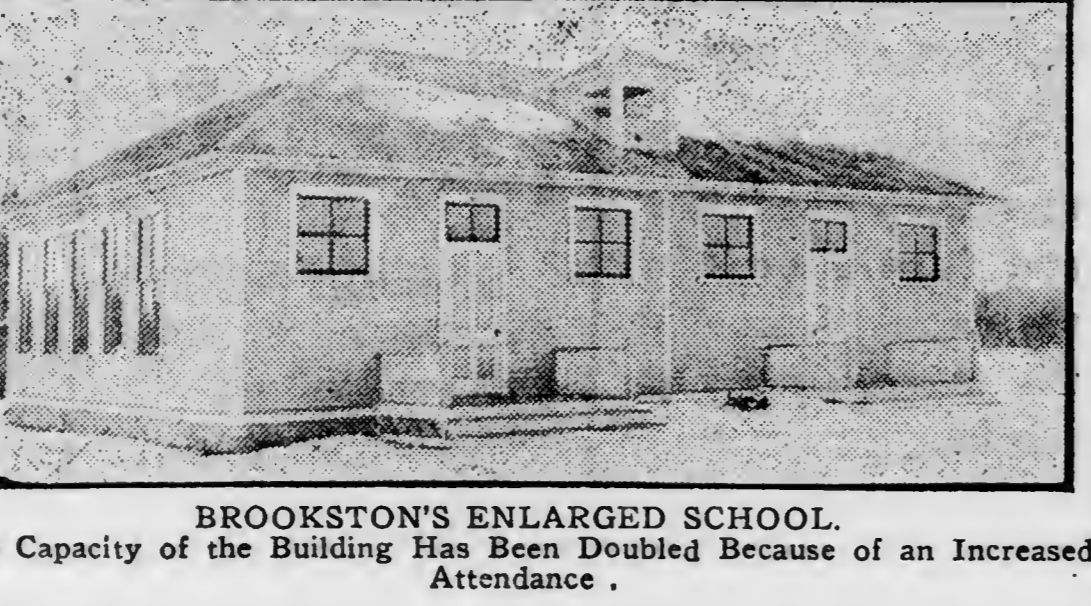

Stuart's Dyspepsia Tablets do not merely aid digestion—they actually digest the food themselves. All the hard work is thus taken off the stomach and it gets a chance to rest and recuperate. The undigested food which formerly produced nauseating gases in the stomach becomes thoroughly digested and as a result provides new brain and drawn and nerve cells to replace natural waste always going on.

Stuart's Dyspepsia Tablets act quickly, safely and naturally. Just like Nature herself. They are an essential part of the stock of every drug store and are sold at 50c a box. You can get a trial package of them free by writing to F. A. Stuart Co., 150 Stuart Building, Marshall, Mich.

BROOKSTON'S NEW CATHOLIC CHURCH

BROOKSTON'S ENLARGED SCHOOL. The Capacity of the Building Has Been Doubled Because of an Increased Attendance.

200 men and turning out one million boxes annually, the Peninsula Box & Lumber company of Menominee is operating one of the busiest manufacturing industries in Upper Michigan.

SECURE OPTION UPON TOWNSITE OF BARROWS.

Brainerd, Minn., March 11.—(Special to The Herald.)—Russell & Barron are representing Eastern capitalists, prominent men of Milwaukee, Wis., and Chicago, who have taken an option to purchase the stock and holdings of the Iron Range Townsite company, which owns the townsite of Barrows and numerous buildings, improvements and other interests in that place. The townsite embraces 155 acres. To the original addition has been added also a first addition. The Eastern men have a certain period in which to exercise their right to purchase at a given price and until that time is up no definite information can be given out.

BREWERY ORDINANCE TEST IS COMING UP

East Grand Forks, Minn., March 11.—(Special to The Herald.)—Tomorrow the third East Grand Forks ordinance to be placed under judicial scrutiny will be presented to Judge Watts of the district court for an opinion as to whether it is constitutional. The measure provides for a \$1,000 license for brewing agencies established here and in arresting one of the local agents the fight was opened, the agent having applied for a writ of habeas corpus.

MISSOURI PAROLE BREAKER CAPTURED.

Williston, N. D., March 11.—(Special to The Herald.)—John Munday, wanted at St. Joseph, Mo., on a charge of breaking his parole, has been taken back to that city by Sheriff J. J. Connors of Missouri. Munday was captured near Buford, after giving his pursuers a merry chase.

Munday was convicted in Missouri of burglary, and had broken his parole.

PROMINENT MENOMINEE WOMAN IS CALLED.

Menominee, Mich., March 11.—(Special to The Herald.)—Mrs. Emma Margaret Somerville, widow of the late Judge William Somerville, one of the founders of the Carpenter-Cook whole-saler, has died at the home of her daughter, Mrs. Harry E. McGraw, at Superior, Wis., from gallstones.

Mrs. Somerville was formerly Miss Emma Margaret Moulis of London, Ont., and was married in 1861 to Judge Somerville.

Mrs. Somerville was one of the most prominent women of Menominee. She is survived by one son and five daughters. Her funeral will be held at 10 o'clock Friday at St. Joseph's church. Burial will be in the cemetery.

Brewery Workers' Strike Averted.

Milwaukee, Wis., March 11.—After ten days of negotiations, the United Brewery workers of the city came to terms with their employers, after a series of mutual compromises and all danger of a strike was averted. A referendum during the day showed the men dissatisfied with the compromise then offered, but opposed to

Warmth and Strength

on a cold day come from foods that are easily digested and are rich in heat-making elements. For the out-door man or the in-door man, for children to study on, to grow on, to play on, there's nothing so nourishing and satisfying as

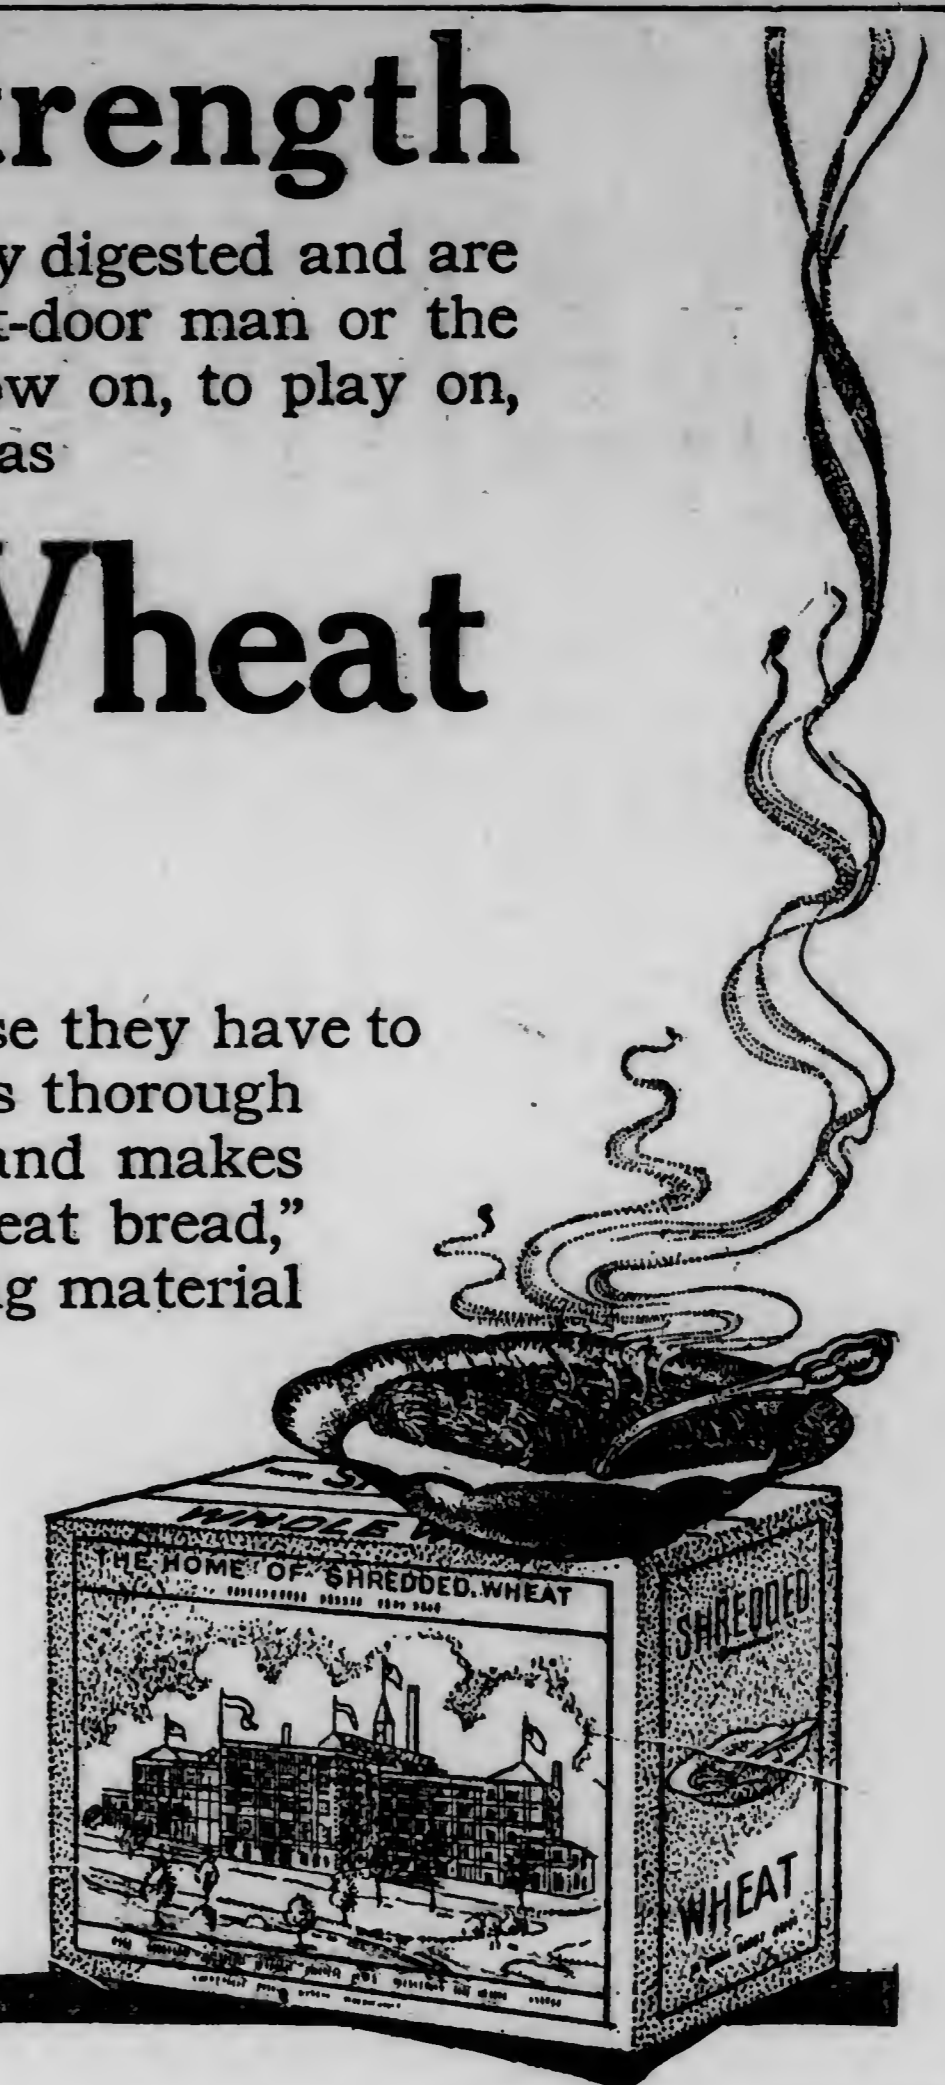

Shredded Wheat Biscuit

It is better than porridges for children because they have to chew it. The crispness of the shreds induces thorough mastication which develops sound teeth and makes digestion perfect. It is the best "whole wheat bread," because it contains all the rich body-building material in the whole wheat prepared in a digestible form. Delicious and nourishing when served with hot milk or canned fruits.

THE SHREDDED WHEAT COMPANY, NIAGARA FALLS, N. Y.

GRAIN SEED LAW TEST.

Kenmare, N. D., March 11.—(Special to The Herald.)—On the ground that the seed law of the state, under which several counties have issued bonds, is unconstitutional, H. E. Peck will bring a test action. The case grows out of a seed lien on property in Burke county owned by the company of which Mr. Peck is president, and he refuses to pay the seed lien, claiming that the law is unconstitutional.

The proposition has been submitted to the attorney general for a ruling, as a preliminary step.

Will Speak at Falls.

Brainerd, Minn., March 11.—Attorney W. W. Barron will deliver the St. Patrick day oration at International Falls, appearing under the auspices of the Catholic church.

WISCONSIN BRIEFS

Ashland—Plans are being made for the summer camps for the Boy Scouts. An invitation has been extended by the Scouts to camp on his land at the dynamite works on Madeline.

La Crosse—Dennis Harrington has returned to Eau Claire after nearly thirty years of absence. He could not at first believe this was Eau Claire. On his return he found the city had changed its name to the Eau Claire.

Madison—The contract for the remodeling of the State Capitol building was awarded to the firm of J. J. & J. J. Engstrom, of Chicago.

DAKOTA BRIEFS

Mitchell, S. D.—At a conference held and by representatives of commercial and other business of various south

MINNESOTA BRIEFS

International Falls—The young people of the Baptist church have organized a young people's society, to be open for all the many young people who come oftentimes to the service. The officers elected were: Harry Grindley, president; Bernice Schultz, vice president; Miss Bloomfield, treasurer; Miss Dunphy, secretary.

St. Hilaire—The marriage of Miss Mary Elizabeth Just, daughter of Emil Just of St. Hilaire, and Arthur Steele, son of Mr. and Mrs. M. Steele of Red Lake Falls, took place at the home of the bride's father, here, March 5.

Red Lake Falls—Edward Bedard's house in the western part of the city was burned to the ground a few days ago. The fire started in the kitchen from an over-heated stove. The house was a small one and by the time Mr. and Mrs. Bedard and thirteen children got outside, there was time to get out only a part of the household goods before the house was a mass of flames.

St. Cloud—Announcement has been received of an examination for rural carriers to be held in this city on April 8. There is a vacancy on the new route between Belgrade and Brooten to fill, and other positions are liable to be vacated.

Mora—A farmers' institute will be held at Mora on Friday and Saturday, March 15 and 16. The meeting will be conducted by W. A. Henry, who will have a copy of valuable assistants to aid him. The two days will be devoted to interesting discussions and lectures upon topics of interest to farmers. Farming methods adapted to this section of the state will receive special attention by the speakers.

Bemidji—Bemidji high school athletes have organized a track team, which will begin work immediately in the local gymnasium. Harry Grindley was elected captain and manager for the coming season.

Crookston—At the meeting of the board of directors of the Crookston Commercial club, it was decided to have a big meeting on Thursday evening, March 14, and Secretary Newbery has prepared the call.

Pine City—Genevieve Lambert and Jessie Steinhilber will spend the Easter vacation at their respective homes, Owatonna and George Stanley, for

NO MORE DRINKING CUPS.

Helena, Mont., March 11.—Public drinking cups will be abolished at all railroad stations and all trains in five states comprising the Northwestern Sanitary association. The association was formed here Saturday at a meeting of representatives of Idaho, Washington, Montana, Minnesota and North Dakota, the railroad commissions of those states and railroads traversing that place. The townsites embraced 155 acres. To the original addition has been added also a first addition. The Eastern men have a certain period in which to exercise their right to purchase at a given price and until that time is up no definite information can be given out.

Rugby Telephone War.

Rugby, N. D., March 11.—(Special to The Herald.)—Failure of local telephone companies operating rural telephone lines and the application of the Northern Pacific Telephone company, under the terms of the proposed franchise of which would re-

THE MANY USES OF GOLD DUST

If you were to use, for each kind of washing, cleaning, scouring and scrubbing, one of the so-called special preparations which are made, you would have an imposing and expensive array of chemicals, washing compounds, cleaning pastes, etc.

There is one cleaner that has the virtues of all and the faults of none. Use Gold Dust and you have no need of borax, ammonia, kerosene or naphtha.

WE COOK H-O Oatmeal.

It is thoroughly cooked for two hours in the mill, so you need only cook it twenty minutes.

Less cooking than this is insufficient.

H-O, therefore, is the only oatmeal that is properly cooked.

Get H-O today. Fine for the health and strength of growing children; fine for everybody.

A package makes 36 dishes.

PENINSULA BRIEFS

Negaunee—Lying face downward in a refuse pile near the farm house of John Barneo at North Lake, the body of John Lemmink was found Friday.

Coroner William Pein of Ishpeming was summoned and decided that no inquest was necessary.

Crystal Falls—Mayor Bjork re-appointed M. Brown assessor for the city of Crystal Falls for the ensuing year. Mr. Brown has served three terms as assessor of this city with satisfaction.

Crystal Falls—Plans are completed for the celebration of St. Patrick's day. Bishop Muldoon, one of the leading Catholic clergymen of the state will

Whooping Cough

GROUP ASTHMA COUGHS BRONCHITIS CATARRH COLDS

Vapo-Cresolene

ESTABLISHED 1876

A simple, effective treatment for bronchial troubles, avoiding drugs. Vapo-Cresolene cures the paroxysms of Whooping Cough and relieves Croup at once. It is safe for infants from Asthma. The air rendered strongly antiseptic, inspired with every breath, makes breathing easy; soothes the sore throat and stops the cough, preventing further attack. It is invaluable to mothers with young children.

Send us postal for descriptive booklet.

ARGUES ON ELWELL LAW

Good Roads Bill Being Tested in Ramsey County Court.

Duluth Attorney Represents Interests of Good Roads Committee.

Charles E. Adams, special counsel to the county board, has returned from St. Paul, where he appeared before Judge Lewis of the Ramsey county district court, Saturday afternoon, in a case involving the constitutionality of the recently enacted Elwell bill. The new law is the one under which all large rural road projects will be built.

Mr. Adams appeared as usual for the good roads committee of the development association and argued in favor of the law's constitutionality. W. J. Stephenson, assistant attorney general, appeared for the state in support of the law, and Thomas J. McDermott, attorney for the plaintiff, attacked its constitutionality.

The case is known as that of Murray vs. W. J. Smith, state treasurer; S. G. Iverson, state auditor, and the Highway commission, and is a friendly suit brought to test the validity of the bill. It involves an application made by Murray for an injunction restraining the state officers from taking any further action under the Elwell law.

Attorney McDermott argued that the law was unconstitutional under a holding in the case of Speary vs. Finagaro 50, Minn. The court held in this case that the building of rural highways could not be considered a local improvement to the benefit of a particular tract of land, and that costs could not be assessed against the benefited property.

Under the Elwell law, it is proposed to tax one-fourth of the costs on the benefited property. If the holding in Speary vs. Finagaro stands, the law will probably be knocked out within a few days. The matter is of considerable interest to Northern Minnesota people.

CITY BRIEFS

Printing and Bookbinding. Thwing-Stewart Co. Both phones, 114.

Loggers About Through.
Most of the winter cut of logs in Northern Minnesota will be completed this week, according to W. T. Bailey, who is at the Spalding. He says that his own firm is through logging for the winter; that "Paddy" Green and other loggers around Cloquet, Minn., have completed their winter cuts; that O'Brien & Callahan will be through tomorrow, and that many other logging camps are about to break up. He says that the winter has been an ideal one for logging. At the same time, he declares that the fine logging weather is not over, and that it looks as if good hauling conditions would continue up to April 1. He is of the opinion that there will be an improved demand for lumber at higher prices during the coming spring and summer.

A Benefit Card
party will be given at Macabee hall Tuesday afternoon, March 12.

Meeting of Woodmen.
The regular meeting of the Zenth Camp No. 1 Woodmen of the World, will be held Wednesday evening, March 13.

Undergoes Operation.
Miss Olga Zuck of 223 East Fifth street, who was taken to St. Mary's hospital yesterday was operated on this morning for appendicitis and is on the road to recovery.

New Mercantile Firm.
Articles of incorporation were filed this morning with the register of deeds for the Wall Mercantile company. The new concern is capitalized at \$20,000 and is organized to do a general mercantile business. The incorporators are: James J. Wall, A. M. Wall, E. Wall and L. T. Surratt.

Meeting of Credit Men.
There will be a meeting of the Duluth Association of Credit men at the Duluth hotel tomorrow evening at 8:30. Julius H. Barnes will speak on the traffic situation in the Heart of the Lakes. Dr. L. W. Klein of the normal school will also be on of speaking. The meeting is expected to be one of the most important that has been held by the association.

Will Organize Club.
A meeting will be held Friday evening, March 15, at 8 o'clock, in the Unitarian church for the purpose of organizing a young people's club.

PERSONAL

J. D. O'Connell, who has been quite ill at St. Mary's hospital, is reported as better today.

D. T. Cushman of Grand Rapids, Minn., was in the city yesterday registered at the Lenox.

F. N. Jackson has left on a business trip to Cloquet, Minn.

Howard Johnson now of Seattle, formerly with the Oliver Iron Mining company and the Carnegie Steel company, is at the Holland today en route to Washington, where he is to appear before the Stanley investigating committee.

Dr. W. H. Magie was summoned to Port Arthur this afternoon, to operate on the sister of James Whalen, the well known vessel and dredge owner of that city.

"MINNESOTA RADIATORS"

Made in Minnesota From Minnesota Iron By Zenith Furnace Company.

There is on display at the city office of the Zenith Furnace company, 312 West First street, samples of "Minnesota Radiators," which are certainly very handsome radiators. The ornamentation is light and artistic, and they are exceptionally smooth castings.

The samples displayed are of the one-two, three and four column and are being made in all the standard heights. They are produced by the Northwestern Radiator corporation at Sauk Centre, Minn.

The radiators are being installed extensively in the Twin Cities and throughout the state and adjoining states. We understand they are being specified on all state buildings.

We understand there is an opportunity for Duluth builders and heating men to install a first-class radiator made from iron produced in our own territory. We understand that a large amount of radiators is used in Duluth every year which is shipped here from the East. In view of the fact that we are furnishing the iron for "Minnesota Radiators" which are in every way the equal of any other, we could well afford to encourage a Northwestern industry by installing "Minnesota Radiators" in Duluth buildings.

Architects, engineers, heating men and plumbers are invited to call at the downtown office of the Zenith Furnace company and inspect these samples of "Minnesota Radiators."

OBITUARY

Robert a member of a prominent Milwaukee family, with large interests in the mail and express business, died at his home in Milwaukee, April 1, 1912. His father was Jacob Nunnenmacher, a native of Basel, Switzerland. His education was received at the German-English academy and Notre Dame college and at Stuttgart, Germany. Mr. Nunnenmacher was married Feb. 7, 1884, to Louise Avers.

Dan Martin, founder and director of the Dan Martin mission and one of the best known street missionaries in Chicago, is dead as the result of an ailment due to overwork. He was born in Ireland in 1860 and came to this country when 18 years old. Before going to Chicago, he lived in St. Louis where he was converted to the life of a missionary by a child's singing in the streets. Physicians who attended Mr. Martin said his death was brought on through overwork during the cold weather when he was trying to feed, clothe and find work for hundreds of derelicts who applied to his mission for aid.

UNKNOWN MAN FROZEN ON THE CUYUNA RANGE.

Brainerd, Minn., March 11.—(Special to the Herald.)—The body of an unknown man frozen to death was found in the woods between Klondike and Crosby. The coroner has taken charge of the body, so far, is unknown.

Advertise in The Herald.

A Customer Leaving Your Store Must Have Done One of Five Things

1 Bought Goods for Cash	2 Bought Goods on Credit	3 Paid Money on Account	4 Collected Money	5 Changed a Coin or Bill
A National Cash Register insures the merchant that all cash will be accounted for and handled correctly.	A National Cash Register benefits the merchant by preventing loss through failure to charge goods sold on credit or through lost charge slips.	A National Cash Register enforces a correct record and this insures the merchant that he gets all money received on account.	A National Cash Register benefits the merchant, by preventing anyone paying out money without leaving a record of the amount. This enables him to balance the cash quickly and prevents bills being paid twice.	A National Cash Register protects the merchant against loss in making change and furnishes the means of advertising to those who ask to be accommodated.
It prevents lost customers through misunderstandings over change.	It benefits the customer because it prevents annoyance and loss through disputes, and enables him to prove prices paid.	It furnishes the customer proof of having paid and enables him to know that he receives proper credit.	It benefits the one to whom money is paid because it precludes the possibility of dispute in the future.	The customer is benefited because the merchant is willing to extend the favor of billing when he can do so without the chance of loss.
It benefits clerks by removing temptation, preventing unjust suspicion, and enabling them to prove their worth.	It benefits the clerk by furnishing evidence that he has entered the proper charge and handled the transaction correctly.	It removes temptation from the clerk and furnishes him the means of proving his carefulness in handling money.	It benefits the clerk by showing evidence that he paid out the correct amount.	It guides the clerk in counting money, and furnishes evidence of his accuracy.

A National Cash Register benefits Merchant, Customer and Clerk on all of these Transactions

We have always guaranteed to furnish a better cash register for less money than any other concern in the world

We can do this because:

1. We created the industry and have devoted thirty years to its development.
2. Expert inventions departments have always been making valuable improvements to meet the merchants' needs.
3. Improved machinery, well arranged factory and organization, have reduced cost of manufacturing.
4. Improved working conditions have resulted in co-operation which meant a better product.
5. We have always maintained a field force of thoroughly trained business experts capable of offering valuable suggestions to merchants.
6. We have for years held schools and conventions where employees are trained in their work.
7. The demands of merchants have always been our guide in building machines.
8. We have extended the cash register business to every civilized country in the world. By doing a large foreign business, we are able to manufacture in large quantities and sell at lowest prices.
9. In 1911 we sold 136,016 Cash Registers. 41% of this business was sold in foreign countries.
10. More than one million National Cash Registers have been sold.

WOMAN HELD FOR GRAND LARCENY

Eleanor Torrence was arraigned before Judge Engstrom this afternoon on a charge of grand larceny in the second degree. She was indicted on two counts by the last grand jury and she will enter her plea in court tomorrow morning. She was released on cash bail of \$350.

STEELE COUNTY LAND ALL UNDER LEASE.

Blismarck, N. D., March 11.—(Special to the Herald.)—Thousands of acres of school and university lands will be leased during April by one county land department.

POISONED BY ANTIDIPHTERIA

Miss Anna Ednar Grennier of Chisholm Has Suffered Much From a Dose of Diphtheria Antitoxin.

She Gradually Faded Away—Electro Medical Treatments Restored Health Again.

Accidents like a case of poisoning from Diphtheria Antitoxin may happen to the best of physicians. However, to cure cases who are thus poisoned, is a task which has never been performed several years ago. The poison once in the body, is as difficult to get out as it is to remove ptomaine or even blood-poison. Miss Grennier's friends feared that the poison would get the best of her, and that she would be forced to go to the newly established Electro Medical Doctors, who have performed wonderful cures in many fatal cases like Bright's Disease, Gallstones, Cancer, Heart-disease as well as Stomach troubles, Catarrh and many other diseases which were thought to be incurable. The reason why grave diseases like these could be cured, was the recognition of the tremendous power of the Electro Medical Doctors have cured more people in Duluth than all the other advertising doctors combined.

Miss Grennier writes:
Chisholm, Minn., March 3, 1912.
"I suffered terribly, and have been so weak and my blood so thin that I thought I soon had to part from this world. My condition has been caused by Diphtheria Antitoxin. I have treated with various doctors before, but went gradually down in health, though every doctor, so I firmly believe, has done his best to help me. I am only treating for five weeks with the Electro Medical Doctors and I am regaining my former health very rapidly. I am getting well and am glad to say that life is very sweet after one has been so near the end."

"ANNA EDNAR GRENNIER."

How did the Doctors cure Miss Grennier's case? The answer is very simple; they did not use poison nor poisonous medicine to drive out the poison with. The secret of success in the case of Miss Grennier has been due to case of a bio-chemical process. All poisons are very complex bodies chemically, the carbons can be made to combine with some other element, the poisons will then be poisonous to longer. If you burn coal the carbon is taken from the coal and only ashes are left, and fire will do no nourishment. That is exactly what the Electro Medical Doctors are doing in any disease, they break up the poison and the patient gets well.

How do they break up the poisons with their powerful machines by which the remedies are introduced into the diseased tissues. They extract the poison through the skin, the lungs, the liver, the bowels, the many forms of diseases vanish if treated by Electro Medical Doctors. The offices are only newly established at No. 26 West Superior street. They have a nurse attending to the ladies. Their hours are from 8 to 12, 1 to 5, 6 to 9 every day, and Sundays, 10 to 1. They welcome everybody to a free consultation.

THE HOMECROFTERS' CORNER

Some Advance Tips to the Backyard Gardeners of Duluth and Vicinity.

Duluth backyard farmers are busy. Tomatoes, celery, cabbage and cauliflower are being planted and reared with care indoors, to be later transplanted and grown in the outdoor gardens.

Mr. Hostetter, superintendent of agriculture of the Commercial club, says that these plants can be planted in the house and later transplanted to the garden with success.

Mr. Hostetter states that last fall he planted a large number of radishes in November, to be explicit—in his backyard garden, and he expects that they will be very early this year. He says that this is one of the best methods of planting early garden stuff for the next year. He worked up the soil in good shape just before the frost came. He left the seed so that it would not sprout. The seed, he expects, will be among the first to come up this spring.

Mr. Hostetter states that the plants do much better when transplanted from one to three times. For all the plants grown indoors, Mr. Hostetter says that the more often they are transplanted, the more rapidly they grow.

Just as soon as the ground can be worked it will be time to plant radishes. Seed for this vegetable should be planted about every two weeks during the summer to insure fresh radishes at every time of the year.

The housewife at this season of the year can plant asters in the house successfully. They can be later transplanted to the garden. In planting them in the house, they will blossom at least four weeks in advance of those planted in the gardens when weather conditions permit.

Garden peas this year are scarce.

CHIEF POWER IN ASSEMBLY

All Acts of Chinese President Require Approval of That Body.

Yuan Takes Oath of Office With Solemn Ceremonies.

Nanking, China, March 11.—(Special to the Herald.)—The Men and Religion Forward Movement convention week here was formally opened yesterday afternoon at a big mass meeting for men, addressed by local leaders of the movement. R. B. Griffith, chairman of the committee, Secretary Kirk E. Wallace and Prof. W. N. Stearns were the principal speakers, explaining the purpose of the movement.

In the churches yesterday the pastors read their sermons to the movement.
