SUBJECT: Application for Permission of Partially Use of Reparations Facilities

THRU : Kyoto Liaison Office

TO : Commanding Officer of Kyoto M.G.T.

Tango Seiki K.K., Amino Plant and Tango Textile Industrial Association (T.T.I.A.) have submitted to us their application for permission to use partially buildings of Amino Plant, as attached sheets.

As land and buildings of Tango Seki K.K. Amino Plant belong to T.T.I.A. and the buildings which they want to use it are no difficulty to keep up the reparations equipment, we recognize it is no objection to custody and control the facilities. Besides we make them separate the zone of T.T.I.A. from Tango Seiki K.K. by the fence as attached plan, and the administrator of all facilities is E. Takino, representatives of Tango Seiki K.K. And so we hope you'll kindly give us the permission to use it.

Moreover we'll be glad if you release the zone applicated to use it.

Director and Administrator,
Eiichi Takino

Subject: Application for permission to remove the arrangement of a part of the facilities designated as reparation among Amino Plant (22-30) of Tango Seiki K.K., and use the vacant buildings.

.....

I would sincerely tender you the application of the above item, of which descriptions are as per mentioned below.

Amino refining factory, the predecessor of Tango Seiki K.K., Amino Plant, was established in 1936 year at the present place by the Tango Industrial Association.

Although the purpose was refining of silk textiles, to keep regulation and inspection upon silk woven in this district, following the advance of the Pacific War in the Second World War, the manufacturing of silk fabrics was readjusted on its enterprises and naturally 60% over of the followers were forced to give up or change their job.

For the purpose to rescue these followers and employees who had been working in that plant, having been advanced the arrangement of enterprise established Tango Seiki K.K. on Jan. 8, 1943, and Amino Plant has been reorganized as to be a metal plate factory and kept the enterprise until the surrender of war.

After the end of war, we have got the permission on Sept. 22, 1945 to convert the enterprise into the peace industry, and our factory (22-30) have been designated as reparation factory on Aug. 28, 1946.

In the early days converted into the peace industry, the factory has been making farming instruments required by every house and to the next, making foot locker which have been purchased by the U.S.Occupation Forces. On July 10,1948, we have got the permission to manufacture the parts of bicycles from the Maizuru Detachment of Kyoto Military Government Team, and since then we have made a great effort in the manufacture, as the result of which we have obtained the good name in the point of quality and quantity.

However the revival of the textile circle has become remarkable postwar, and in this district, too, with the increase of production, longing for a part of the building of this factory (22-30) to use as textile finishing factory, has been raised among the textile followers of this district.

I think the request of the followers are reasonable, but they should work, at least, in the limit not to give any obstacles upon reparation facilities in regards to keeping good administration, and furthermore should not occur any difficulties upon keeping the operation.

Under the fundamental idea to act in concert with between us, and to execute completely the keeping administration of the reparation facilities together with the safety handling of the both enterprises, I would hereby request you to permit the above application.

As I have attached the separate plan sheet, you would kindly acknowledge our application.

To: The Commanding Officer of Maizuru Military
Government Team Detachment

From: Tango Orimono Kogyo Kyodo Kumiai (Tango Textile Industries
Cooperative Association)
691, Aza Sugitani, Mineyamacho, Nakagun,
Kyoto Prefecture

Subject: Petition for permission to use vacant buildings of
Tango Seiki Plant (22-30) as a textile processing
plant.

Sir,

We beg to respectfully submit to you the petition applying for permission to use vacant buildings of Tango Seiki Plant (22-30) as our textile processing plant, the details of which are as follows:

Since we were granted your permission to use part of vacant buildings of Tango Seiki Plant (22-30) on 18 June 1948, we have been exploiting the said part extending to the area of about 746 M2.

However, of late, we are being felt with pressing need to further expand the area to meet with ever increasing demand for the processing of the weaved fabrics i.e. scouring, bleaching, dyeing and printing.

In view of the enunciation of nine principles for Economic Recovery Programme of post war Japan by the Supreme Commander for the Allied Powers, we realize that it's our duty to have to share contribution toward rehabilitating economically self-supporting Japan by promoting textile industry in Tango districts which constitutes integral part of the industries in Japan.

The production amount during 1948 is as follows:

Production in 1948	Pieces	572,278
	Quantity	7,088,230 Sq.Yards (1,563,474 pounds)

P. T. O.

41

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Whereas the finishing capacities of our both finishing plants at Mineyama and Kaya which are now in operation are as follows:

Mineyama Plant	4,000,000	square yards
Kaya Plant	1,700,000	"
T o t a l	5,700,000	"

Consequently, the finishing processes of the balance 1,380,000 square yards fabrics have been forcibly carried out by extra operation.

However, regulations of Labor Standard Law, adjustment of electric supply etc., make it hardly possible to continue the present enforced operation hereafter.

For the year 1949 we are aiming at the following production goal:

1,000,000 pieces

12,500,000 square yards (2,700,000 pounds)

In order to enable the finishing processes of the fabrics exceeding the finishing capacities of the above-mentioned plants and elevate the finishing techniques, we intend to undergo the finishing processes in the textile processing plant using the vacant buildings of Tango Seiki Plant (22-30).

On reviewing the history of the buildings, the following facts revive in our memory:

The whole buildings of Tango Seiki Co.,Ltd. had been employed for years as textile processing plant of Tango Orimono Kogyo Kyodo Kumiai, the latter being the rightful owner of the Tango Seiki Plant buildings.

In view of the passing of 3½ years after the termination of war and the urgent desire for the rehabilitation of Tango textile industries, we notice steady growth of public opinion among weavers expressing earnest hope to restore the buildings to be used as a textile processing plant.

P. T. O.

4/12

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

At the general meeting of shareholders of Tango Seiki Co.,Ltd. which was recently convened, a resolution was adopted to the effect that the rehabilitation of the plant be prompted.

Such being the case, we earnestly beseech you will kindly take our petition into your special consideration and grant us the permission to use vacant buildings of Tango Seiki Plant (vide attached sketch) as our textile processing plant.

We remain, Sir,

Yours most obediently,

Tango Orimono Kogyo Kyodo Kumiai
