SUBJECT: Application for Reconsideration for the Transfer of Noborito Paper Making Equipment.

Dear Sir,

An application is herewith submitted in conjunction with the above subject.

An approval was received for the transfer of above equipment which is lying dormant at the,

9th Japanese Army Technical Laboratory,
No. 5,158 Ikuta, Kawasaki City, Kanagawa Pref.,

from the Economics Section, Tokyo-Kanagawa Military Government, Yokohama Detachment, dated 2nd November. However, due to errors on my part, the approval has been rescinded.

Thus an earnest request for the reconsideration of the subject is desired. In order to put this application thru proper channel, the same is herewith submitted to your good office for your kind consideration and transmission to the aforementioned authority for their reconsideration and reapproval.

I trust that the application will be forwarded to authorities concerned at your earliest convenience.

SUBJECT: Application for Reconsideration for the Transfer of Noborito Paper Making Equipment.

Dear Sir,

I herewith submit a written apology for the errors I have committed in connection with the Noborito paper making equipment, which consequently led to the rescinding of an approval dated 2nd November.

With a keen desire towards having the subject reconsidered, I earnestly solicit your good office for reconsideration and reapproval.

Since there isn't any toilet paper and tissue paper making mill in Kanagawa Prefecture, the populace of Yokosuka and other cities ~~within~~ within the prefecture are looking forward towards the development of the paper mill which is being contemplated in Yokosuka with the equipment from the Noborito mill.

Report on Status of Machinery in Ninth Military Laboratory

1	2 Jan 1947	Economics Section, TKMGD	District Commander, TKMGD	1. Commander Higgins requested release of a paper mill in the First Naval Technical Arsenal to be used by the Yokosuka Paper Mill. It was found, however, that this mill was in operation and an idle mill in the Ninth Military Laboratory was suggested in its place. 2. The Yokosuka Paper Mill Company was given permission to remove the paper mill machinery from the Ninth Military Lab. This installation also contained items of reparation machinery under custody of a representative of the Finance Ministry. About a week after permission was given for removal of machinery custodian reported to this section that paper mill representatives had removed existing signs from grounds and buildings and replaced them with others reading "Keep off - Navy property". They had also broken into buildings and placed their own locks on the doors. Machinery including that being held for reparation was being marked "U. S. Navy". 3. Custodian was told to notify mill representative to report to this office. A few days later custodian reported that upon being notified to report to this office mill representatives had informed him that this Headquarters had nothing to do with them and that they took orders from the Navy only. Mr. Hayashi, Finance Ministry representative for Kanagawa-Ken, was then told to get in touch with the paper mill office in Yokosuka and have one of the company officials contact this Headquarters. This request was ignored and a third notice to contact this office made through the Ninth Military Lab. custodian was also ignored.

TO : Tokyo-Kanagawa, Mil. Govn't District
Allocation Section

The Kawasaki Repatriates' Welfare Association was established for the purposes of looking after the needs of Japanese repatriated from overseas. We endeavour to give these unfortunate people sufficient amount of food, clothing, money, adequate housing and the like. Under present circumstances, however, we find it extremely difficult to provide them with these necessities, especially housing.

With winter approaching, we are urgently pressed upon to provide shelter for these people. We find that certain buildings which have been taken over by the U.S. Army, to wit, buildings No. 86 and 89, are not being used. If these buildings, as indicated below, could be temporarily released to us for housing these repatriates, we would indeed appreciate it. And to the repatriates, it would mean warmth, security, less sickness and lower death rate during the winter months.

We have already consulted the Governor of Kanagawa Prefecture, and the Chief of Financial Bureau and have received their approval, provided we get the buildings released by the Army.

We hereby respectfully submit the above petition, for your favorable consideration.

30 October, 1946

From: Masaji Oseki,
Adviser & Mill Manager,
U.S.N., Yokosuka Base Paper Mill.

To: Yokohama Liaison Office,
Yokohama.

Subject: Application for the Transfer of a Complete Set of Paper Making Equipment.

Dear Sir,

The manufacture of toilet papers by putting into operation the mill which is located within the precinct of the former Japanese Navy Yokosuka Base, was ordered by Captains Decker and Corbin on the 15th of July, 1946. Since then, adjustments and repairs were carried out and the mill was put into operating condition on the 16th of September. Toilet paper is now being produced.

However, with the present paper making equipment the maximum daily production, working on a 24-hour basis, is only 1,500 to 1,600 lbs. Thus, it is extremely difficult to realize production increase which is being anticipated for the near future. Furthermore, the demand for wrapping papers and news-print papers by the U.S.N., Yokosuka Base Commissary cannot be met due to the fact that our present equipment is unable to manufacture same.

To overcome the aforementioned obstacles, the transfer of a complete set of paper making equipment, as per the separate inventory list, which is now lying idle at the,

9th Japanese Army Technical Laboratory,
No. 5,158 Ikuta, Kawasaki City, Kanagawa Pref.,

is urgently desired and, in this connection, Commander Wallace Higgins has verbally requested the Tokyo-Kanagawa District Military Government, Economics Section, to give this matter favorable consideration. However, in order to put this

YLO NO: 940

MEMORANDUM: To Commanding-Officer of Kanagawa Military Government District.

SUBJECT: Request for Release of Damaged Photostats at Noborido Branch of Ninth Army Laboratory.

1. This office has received from Tsurumi Factory of Tokyo Shibaura Electric Co.,Ltd. an application for release of the two damaged photostats without lens now stored at Noborido Branch of Ninth Army Laboratory.

2. Said factory, having lost their photostats by war damage is now in dire need of these instruments for reproducing catalogues of different manufacturing processes at the plant. Although they lost their photostats as mentioned above, they have rescued the lenses. Therefore, they can utilize very well above-mentioned damaged photostats at Noborido after applying these lenses and other repairs to them.

3. Such being the case your kind consideration is hereby cordially requested for release of the above mentioned photostats to the Home Ministry.
