Explanation of the Articles in the Calendar.

These pages are calculated for Toronto, Quebec, Fredericton and Halifax, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto, Quebec, Fredericton, Halifax and Fort Garry.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec, Fredericton, Halifax and Fort Garry.

The column, SUN ON MERIDIAN, gives the time that a watch should show when the shadow of a sun dial is on the noon mark.

Moon's AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the Moon's centre passes the meridian of longitude 4h. 46m. W. When in the column headed Moon's rising or setting, or Moon on meridian, the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for a point in latitude 45° and longitude 4h. 46m. W. They are not corrected for parallax or refraction.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian in the morning from April 10 to October 9. It passes the meridian twice on October 10; and in the afternoon during the rest of the year.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 53m. 2s. to the time of its preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

MOON'S PHASES.—This Table gives the times for the four meridians when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this Table are given the times at which twilight begins in the morning and ends in the evening, i. e., the times when the Sun's centre is 15° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	-5' 38"	-3' 51"	-1' 59"	0' 00"	+ 2' 4"	+4' 16"	+6' 35"	+ 9' 2"	+11' 37"
2nd Correction for each minute of latitude.....	+ 1.8"	+ 1.9"	+ 2.0"	+ 2.1"	+ 2.2"	+ 2.3"	+ 2.4"	+ 2.6"	+ 2.7"

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20'...1st correction = -3' 51"	2nd correction +1.9×20 = +0' 38"
“ “ 47° 40'... “ “ = +1' 16"	“ “ +2.3×40 = +1' 32"
“ “ 45° 10'... “ “ = +0' 0"	“ “ +2.1×10 = +0' 21"

If the altitude of Polaris above the horizontal plane observed at the time of its meridian transit be corrected for refraction, the latitude of the place of observation will be found by subtracting the polar distance from the altitude so corrected, for the upper transit, and by adding the polar distance to the corrected altitude, for lower transit.

By observing Polaris with a horizon: l circle at the time of its upper or lower meridian transit, the direction of the meridian may also be found; but as its motion in azimuth at these instants is more rapid than at other points of its course, any error in the time will then produce the greatest possible effect on the azimuth. Near the time of greatest elongation, on the other hand, the change of azimuth is very slow; so that an error in the supposed time of observation will occasion a comparatively small error in the azimuth. On this account the instant of greatest elongation east or west of the meridian is the time most favourable for the determination of the meridian.

Again, as the point of greatest elongation is the one at which the change of altitude is most rapid, any error in the time will produce a comparatively large error in the altitude. Hence this point of the star's path is the worst that could be taken for finding the latitude.

As the transits of Polaris and the times of its greatest elongation often take place when the sky is clouded, or during daylight, several days may sometimes pass without the occurrence of an opportunity favourable for these observations with Polaris.

To remedy to some extent this inconvenience, Tables are herewith given which contain the times of transit of two other circumpolar stars, with the intervals between the times of transit and of greatest elongation; and also the azimuths at the same instant.

In order to harmonize with the rest of the Calendar, where the times of transit of Polaris are placed, the transits of that star are given in civil time; for greater convenience, however, the transit of δ and ε Ursæ Minoris in the following Tables are in astronomical time. For the sake of brevity the times are given for the 1st, 11th and 21st of each month, and also on those days when two transits take place.

The times of meridian passage on any intermediate day may be found with sufficient accuracy by subtracting the following numbers from the recorded time which next precedes it in the Table.

The following Table gives approximately the intervals in time between the instant of the Upper Transit of δ and ϵ Ursæ Minoris, and the instant of their greatest elongations, with the azimuths of these Stars at greatest elongation.

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45°.

Star Table.

From the times of the Upper Transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (...) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Eclipses.

In the year 1875 there will be two eclipses, both of the Sun.

I.—A total eclipse of the Sun, April 5, invisible in Canada.

II.—An annular eclipse of the Sun, September 23, visible as a partial eclipse in those portions of the Dominion which lie to the east of longitude 93° west.

The eclipse begins before sunrise at all Canadian stations, except in the extreme east of Nova Scotia and in the island of Cape Breton, where the first contact takes place at or soon after sunrise, according to the position of the place.

At Toronto, the greatest phase occurs before sunrise. At sunrise, the magnitude of the eclipse (Sun's diameter = 1) is .828.

Eclipse ends 6h. 56.3m. a.m., Toronto civil time. Angle of last contact from North Pole 122° towards the east for direct image.

The Greenwich mean time of last contact for places near Toronto may be found from the following formulae:

$$* \cos \omega = 0.38371 - [0.17421] \sin l + [0.98617] \cos l \cos (99^\circ 1' 37'' - \lambda)$$

$$t = 1h. 3m. 23s. + [3.62182] \sin \omega - [3.60725] \sin l - [3.79645] \cos l \cos (94^\circ 42' 36'' - \lambda)$$

Contact on the Sun's limb, $\omega + 32^\circ 55'$ from north towards the east.

At Quebec, the magnitude of the eclipse at sunrise is .603. The greatest phase occurs at 6h. 24.2m. a.m., Quebec civil time—magnitude, .871. Time of last contact, 7h. 33.3m., Quebec time. Angle from North Pole, 123° towards the east for direct image.

The Greenwich mean time of last contact for places near Quebec may be found from the following formulae:

$$* \cos \omega = 0.37050 - [0.16687] \sin l + [0.00349] \cos l \cos (99^\circ 51' 15'' - \lambda)$$

$$t = 1h. 5m. 50s. + [3.64041] \sin \omega - [3.64318] \sin l - [3.80772] \cos l \cos (35^\circ 53' 43'' - \lambda)$$

Contact on the Sun's limb, $\omega + 34^\circ 25'$ from north towards the east.

At Halifax, the magnitude of the eclipse at sunrise is 0.169. The greatest phase occurs at 6h. 55.4m. a.m., Halifax civil time. Magnitude of greatest phase, .590. Time of last contact, 8h. 8m. Angle from North Pole, 123° towards the east for direct image.

The Greenwich mean time of last contact for places near Halifax may be found from the following formulae:

$$* \cos \omega = 0.35774 - [0.15715] \sin l + [0.02396] \cos l \cos (100^\circ 54' 5'' - \lambda)$$

$$t = 1h. 8m. 13s. + [3.66156] \sin \omega - [3.68185] \sin l - [3.81918] \cos l \cos (93^\circ 39' 44'' - \lambda)$$

* In these formulae the coefficients of the terms are the numbers whose logarithms are the numbers within the brackets []; also, l denotes the geocentric latitude, and λ the longitude west of Greenwich.

FISHERIES OF THE DOMINION.

The whole value of fish products, 1873, amounts to \$11,794,975. This sum exhibits the value of fish products in the Provinces of Nova Scotia, New Brunswick, Quebec, Ontario, and Prince Edward Island, but does not include the catch of British Columbia, Manitoba and the North-west Territories. In addition to the above

mentioned value, it is computed that American fishermen have also caught on the coast of Canada between six and eight millions of dollars worth of merchantable fish. The whole value of the yield from these fisheries last year, therefore, exceeds eighteen millions of dollars.

Statement of the Yield and Value of the Fisheries of the undermentioned Provinces for the season 1873.

INCREMENT OF POPULATION.

This table represents accurately the increase in the commerce and population of the Christian world during the last 17 yrs. It is of great interest on account of its bear-

ing upon the questions whether the population multiplies too fast for the good of the race, and whether the general comfort of the individual is being increased or decreased:

	FOREIGN COMMERCE.		POPULATION.	
	1855.	1872.	1855.	1872.

Increase in seventeen years (commerce).....	118.5 %		Foreign commerce in 1855 per head of population... £3.13	
Increase in seventeen years (population).....	14.8 %		Foreign commerce in 1872 per head of population... £5.98

The most striking deduction to be made from this table is that while there has been a slow growth in the number of the people, there has been a rapid growth in the con-

merce. Commerce is an index of wealth, and increase of wealth means, in the highest degree, augmentation of physical comforts and well-being.

(a) Letters can be registered to Shanghai, in China, and to Yokohama, in Japan, by San Francisco, but to no other place in either country.

(b) Printed Prices Current and Mercantile Circulars can, where this letter is prefixed, be forwarded as Newspapers. (c) The postage to be collected on Newspapers for the Sandwich Islands is two cents for each paper, and an additional charge of one cent for each two ounces weight or fraction thereof; thus, on a single paper weighing three ounces, collect four cents

* Where an asterisk is prefixed, an additional charge of one cent per two ounces weight on Newspapers and one cent per ounce on printed matter must be collected.

Registration can be effected on correspondence for those places only to which the fee is given.

POSTAGE RATES, ETC., ON PATTERNS AND SAMPLES WITHIN THE DOMINION.

Patterns or samples of merchandise and goods for sale, not exceeding 24 oz. in weight, may be posted in Canada to be forwarded to any place within the Dominion, on prepayment by postage stamp of a rate of 1 cent per 2 oz., under the following regulations:

If such rate be not fully provided by the stamps affixed, the packet is to be rated with the deficient postage and a fine of five cents in addition.

Packets of samples and patterns may be registered on prepayment by postage stamp of a registration fee of 5 cents in addition to the postage rate, and provided such packet be handed in to the Post Office for registration.

Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; also a trade mark and numbers, and the price of the article enclosed; *inside*, there must be no enclosure but the samples or patterns themselves; the particulars, however, of the trade marks, numbers, and price, may be marked on the articles themselves, instead of on the outside of the packet, at the option of the sender.

Patterns or samples of merchandise cannot be forwarded by mail between Canada and the United States.

POSTAGE RATES, ETC., ON PATTERNS AND SAMPLES TO UNITED KINGDOM AND FOREIGN PARTS.

Patterns of merchandise, and samples, may be forwarded between Canada and the United Kingdom, France, Italy, German Empire, Netherlands, Portugal, Switzerland, and Denmark, by the Canadian Packet mails, at book post rates, and subject to the following conditions:

There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

Samples of seeds, drugs, and similar articles intended for delivery within the United Kingdom, may be sent in bags entirely closed, provided such bags be transparent. Bags entirely closed must not be used for the transmission of seeds to foreign parts.

Scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like articles, are now allowed to be forwarded by the post as samples, provided they are packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the persons of the officers of the Post Office. Such articles, however, must be so packed that they may be easily examined; and any packet containing such articles, which may be found to be insufficiently guarded, will not be forwarded by post.

None of the articles named in the next preceding paragraph may be sent as patterns or samples to any place abroad, except Germany, Belgium, and the British Colonies, and not to these places when addressed *via* France.

List of Post Offices in Canada on the 1st July, 1874.

The Offices printed in *Italics* are authorized to grant and pay Money Orders. The Offices marked * are Savings Bank Offices. The letters "W. O." following the name of a Post Office, signify "Way Office." The capital letters on the right of the County column indicate the several Provinces of the Dominion.

To meet the wishes of many of our friends in Ontario, we have, though only in the case of that Province, substituted the name of the Township in which the Post Office is situated for that of the Electoral Division. Should the name of the County also be required, reference may be made to the list of Township Municipalities (see Index).

LEGAL AND JUDICIARY.

THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the a 27 Geo. III. c. 13, which enabled the then practitioners of the law to form themselves into a society and make rules for its government. By the act of 1822, 2 Geo. IV. c. 5, "the Treasurer and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By the act 34 Vic. c. 15, the Benchers theretofore appointed from time to time by their own body, are made, exclusive of *ex officio* members, elective by the Bar, the *ex officio* consisting of the Attorney General for the time being, and all members of the Bar of Ontario who have at any time held the office of Attorney or solicitor General of the former province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term to be filled by the remaining Benchers. The Judges of the Superior Courts are Visitors of the Society, and, on the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to practise, and of Students to enter the Society, the fees paid by whom form the revenue of the Society, Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head quarters of the Society, in which is provided accommodation for the Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these Courts is sufficiently indicated in their title. The Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term, and severally select, by a majority of votes, a Judge of their respective Courts to be placed on the rota for the trial of election petitions. The Judges so selected preside singly at such trials. In the case of death or illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge.

COUNTY COURTS.—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crime, or seduction. An appeal lies to either of the Superior Courts of Law.

COUNTY COURT SITTINGS AND COURTS OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said court is held four times, commencing on the second Tuesday in March, May, September and December, the latter Courts for the trial of cases of felony and misdemeanour, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedito business, but only for the trial of issues of fact without a jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed to jail for trial, on charges of being guilty of any offences for which they may be tried at a Court of General Sessions, may, with their own consent, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted be sentenced by the said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists, being equivalent to the Courts held by Revising Barristers in England.

INSOLVENT DEBTORS' COURTS.—These courts, which now have reference to traders only, are regulated by the Act 32 & 33 Vic. cap. 16, known as "the Insolvent Act of 1869," which repealed all former statutes and consolidated and assimilated the practice in Bankruptcy and Insolvency in the several Provinces of the Dominion. The County Judges in the several counties preside, and official assignees are nominated by the Board of Trade at any place, or the council thereof, within the county or district in which such Board of Trade exists, or in any county or district adjacent thereto in which there is no Board of Trade.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart.

DIVISION COURTS.—For the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crime, seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each judicial district is divided into court divisions, and courts are held once in two months in each division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

POST OFFICE SAVINGS BANK, CANADA.

Post Office Savings Banks at the principal Cities and Towns in Ontario and Quebec are open daily for the receipt and payment of deposits, during the ordinary hours of Post Office business.

The direct security of the Dominion is given by the Statute for all deposits made.

Any person may have a deposit account, and may deposit yearly any number of dollars, from \$1 up to \$300, or more, with the permission of the Postmaster General.

Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

As respects children under ten years of age, money may be deposited—

Firstly—By a parent or friend as trustee for the child, in which case the deposits can be withdrawn by the trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipts of both trustee and child.

Secondly—In the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

A depositor in any of the Savings Bank Post Offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office which is most convenient to him. For instance, if he makes his first deposit at the Savings Bank at Cobourg, he may make further deposits at, or withdraw his money through, the Post Office Bank at Collingwood or Quebec, Sarnia, Brockville, or any place which may be convenient to him, whether he continue to reside at Cobourg or remove to some other place.

Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor

pays in or withdraws money, and the sums paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

Each depositor's account is kept in the Postmaster General's Office, in Ottawa, and in addition to the Postmaster's receipt in the pass book, a direct acknowledgment from the Postmaster General for each sum paid in is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he should apply immediately to the Postmaster General, by letter, being careful to give his address, and, if necessary, renew his application until he receives a satisfactory reply.

When a depositor wishes to withdraw money, he can do so by applying to the Postmaster General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post Office the depositor may have named in his application.

Interest at the rate of 4 per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th of June in each year.

Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

No charge is made to depositors on paying in or drawing out money, nor for Pass Books, nor for postage or communications with the Postmaster General in relation to their deposits.

The Postmaster General is always ready to receive and attend to all applications, complaints or other communications addressed to him by depositors or others, relative to Post Office Savings Bank business.

A full statement of the Regulations of the Post Office Savings Bank may be seen at any of the Post Offices appointed for that purpose.

Is now being used in all the largest Manufacturing factories in the Dominion, with general satisfaction. Its being a pure oil, free from offensive smell, and never congealing in cold weather, we guarantee our EXTRA OIL to give satisfaction or have it returned at our expense. Parties ordering should state what kinds of machinery they wish to use it on, as we adapt it for different kinds of machinery. We can save 50 per cent. in Oil and gain 7 per cent. in Power over any other oil.

HEINTZMAN & CO.—PIANOFORTES.

In issuing our Annual Circular for 1874, we have again to express our most grateful acknowledgments for the liberal and increasing patronage which we have received, and for the numerous Testimonials as to the superiority of our Pianos which have reached us. With increased facilities, proportionate to the growth of our business, and with a staff of the most skilled workmen which the highest wages can command, we shall use every effort to maintain the high reputation we have now established. It is a matter of great satisfaction to us, as Canadians, that our Pianos are pronounced in every respect equal to the best and costliest from the United States.

OUR IMPROVED BRIDGE.—Extraordinary Brilliancy in Treble.

Our Mr. HEINTZMAN, after much experiment, has discovered an application, by means of an Improved Bridge, patented December, 1873, by which the whole Instrument is strengthened and a brilliancy given to the UPPER NOTES heretofore unequalled. Some of the best performers in the Dominion have examined our new Pianos with the Improved Bridge, and they have expressed their highest admiration of the improvement. It would be very gratifying to us to receive a call from connoisseurs in music, for the purpose of their hearing the marvellous clearness and singing properties of our Patent.

Explanation of the Articles in the Calendar.

These pages are calculated for Toronto, Quebec, Fredericton and Halifax, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto, Quebec, Fredericton, Halifax and Fort Garry.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec, Fredericton, Halifax and Fort Garry.

The column, SUN ON MERIDIAN, gives the time that a watch should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the Moon's centre passes the meridian of long'tude 4h. 46m. W. When in the column headed Moon's rising or setting, or Moon on meridian, the letters A.M. occur' unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning and those for the preceding days to the afternoon, and that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for a point in latitude 45° and longitude 4h. 46m. W. They are not corrected for parallax or refraction.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian in the morning from April 9 to October 8. It passes the meridian twice on October 9; and in the afternoon during the rest of the year.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of its preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Latitude	42°		43°		44°		45°		46°		47°		48°		49°		50°

MOON'S PHASES.—This Table gives the times for the four meridians when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this Table are given the times at which twilight begins in the morning and ends in the evening, i.e., the times when the Sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20'...1st correction = -3' 51"	2nd correction +1.9 × 20 = +0' 38"
" " 47° 40'... " = +1' 16"	" " +2.3 × 40 = +1' 32"
" " 45° 10'... " = +0' 0"	" " +2.1 × 10 = +0' 21"

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45°.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude. To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (...) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Magnitude of the eclipse (Moon's diameter = 1) 0.295.

The first contact with the shadow occurs at 176° from the northernmost point of the Moon's limb towards the east. The last contact is at 118° towards the west.

II.—An annular eclipse of the Sun, March 25, 1876, visible as a partial eclipse throughout the Dominion of Canada. At Toronto, the first contact occurs at 3h. 25.4m. p.m.; angle of first contact from North Pole, 86° towards the west for direct image. The greatest phase is at 4h. 22.9m., and the magnitude of the eclipse (Sun's diameter = 1) is 0.377. The last contact is at 5h. 16.3m. p.m.; angle from the North Pole 20° towards the east.

The Greenwich mean times of first and last contacts for places near Toronto may be found from the following formulæ:—

First contact.

$$* \cos \omega = 1.02851 - [0.16888] \sin l + [0.02737] \cos l \cos (43^\circ 19' 28'' - \lambda)$$

$$t = 7h. 46m. 44s. - [3.64959] \sin \omega + [3.67549] \sin l - [3.81939] \cos l \cos (217^\circ 14' 8'' - \lambda)$$

Contact on the Sun's limb, $\omega + 35^\circ 45'$ from the north towards the west.

Last contact.

$$* \cos \omega = 1.04982 - [0.19368] \sin l + [0.96578] \cos l \cos (71^\circ 54' 18'' - \lambda)$$

$$t = 7h. 51m. 11s. + [3.59207] \sin \omega + [3.55515] \sin l - [3.78656] \cos l \cos (244^\circ 9' 23'' - \lambda)$$

Contact on the Sun's limb, $\omega - 30^\circ 27'$ from the north towards the east.

At QUEBEC, the first contact occurs at 4h. 2.2m. p.m.; angle of contact from the North Pole, 89° towards the west. The greatest phase is at 4h. 59.7m.; magnitude of eclipse (Sun's diameter = 1) is 0.442. The last contact is at 5h. 53.4m. p.m.; angle of contact from the North Pole, 26° towards the east.

The Greenwich mean times of first and last contact for places near Quebec may be found from the following formulæ:—

First contact.

$$* \cos \omega = 1.05104 - [0.17931] \sin l + [0.00421] \cos l \cos (44^\circ 28' 40'' - \lambda)$$

$$t = 7h. 51m. 35s. - [3.62681] \sin \omega + [3.62337] \sin l - [3.80701] \cos l \cos (218^\circ 20' 53'' - \lambda)$$

Contact on the Sun's limb, $\omega + 38^\circ 39'$ from the north towards the west.

Last contact.

$$* \cos \omega = 1.12001 - [0.20003] \sin l + [0.91440] \cos l \cos (73^\circ 21' 3'' - \lambda)$$

$$t = 8h. 0m. 52s. + [3.56993] \sin \omega + [3.51131] \sin l - [3.37274] \cos l \cos (245^\circ 18' 0'' - \lambda)$$

Contact on the Sun's limb, $\omega - 28^\circ 47'$ from the north towards the east.

At HALIFAX, the first contact occurs at 4h. 42.9m. p.m.; angle of contact from the North Pole, 82° towards the west. The greatest phase is at 5h. 34.3m. p.m.; magnitude of eclipse (Sun's diameter = 1) is 0.367. At sunset the magnitude of the eclipse is 0.096.

The Greenwich mean times of first contact for places near Halifax may be found from the following formulæ:—

$$* \cos \omega = 1.06635 - [0.18731] \sin l + [0.95883] \cos l \cos (47^\circ 26' 10'' - \lambda)$$

$$t = 7h. 54m. 51s. - [3.60796] \sin \omega + [3.59014] \sin l - [3.79623] \cos l \cos (220^\circ 51' 56'' - \lambda)$$

NOVEMBER.

Now a rude trumpet sounds upon the ear,
 And boldly speaks of winter coming near.
 With all his bitter stoms ;
 The rancour of his army is at hand,
 And nothing can resist the arrow band
 That with his banner forms !

SEPTEMBER.

Romona now prefers her welcome suit,
 And brings her offering of incense fruit,
 The magnify our debt ;
 The rosy apple bends the yielding twig ;
 The downy peach, the apricot, and fig,
 In tempting order set.

OCTOBER.

This is the month when Canada displays
 A beauty unequalled, to the gaze
 Of all who beauty prize.
 The forest now assumes a gorgeous dress,
 Composed of every form of loveliness,
 And steeped in richest dyes.

Now pile the hearth, and let the ruddy light
 To thoughts of joy and merriment invite,
 For Christmas time is near.
 Let every breast with warmer feelings fill,
 To meet the coldness of the icy chill
 That marks the dying year.

 With ardent beam proclaims the God of day,
 Oppressive in his might,
 The panting cattle seek the grateful shade,
 The tender flowers of morning droop and fade,
 To bloom again at night.

MAY.

Now Nature in her gayest robe is dressed,
 And hail the gentle breathing of the West,
 With all her charms displayed,
 The fathered songster scatters his mate;
 The bachelors resolve to try his mate,
 And woo some pretty maid.

AUGUST.

Now harvest calls the reaper to the field,
 The products of his former toil to yield,
 And flits his bars with food,
 The faithful earth is not a nigard friend,
 But pays with ample interest what we lend,
 And proves his credit good.

FISHERIES OF THE DOMINION.

The following tabular statement exhibits the yield of our fisheries last year as exceeding considerably that of the preceding year. Their money value, in 1873, amounted to \$10,754,998. It amounts, in 1874, to \$11,681,886. An increase of nearly one million of dollars.

These figures comprise chiefly fish produced for exportation. It is computed that about ten per cent. more should be added for domestic supply. The produce of British Columbia, Manitoba and the North-West Territories, is not at present accounted in these returns.

POPULATION OF THE UNITED KINGDOM.

Previous to 1801 there existed no official return of the population of either England or Scotland; nor was it till 1813 that statisticians had anything more than surmise to guide them respecting Ireland, and the census then taken of that country was far from correct. The estimate formed of the English population at various periods, calculated from the numbers of baptisms, burials, and marriages, was, in the year 1570, 4,160,221; 1600, 4,811,718; 1630, 5,600,517; 1670, 5,773,646; 1700, 6,045,008; 1750, 6,517,035.

No. 1.—*Rates of Postage on Letters within the Dominion of Canada including the Province of Ontario, Quebec, New Brunswick, Nova Scotia, Manitoba, British Columbia, and Prince Edward Island.*

WEIGHT.	Posted Prepaid.	Postage insufficiently paid.
Not more than $\frac{1}{2}$ an oz.	3 cents.	Double the deficient postage.
More than $\frac{1}{2}$ oz. to 1 oz.	6 "	
More than 1 oz. to $1\frac{1}{2}$ oz.	9 "	
More than $1\frac{1}{2}$ oz. to 2 oz.	12 "	
More than 2 oz. to $2\frac{1}{2}$ oz.	15 "	

and so on, 3 cents being charged for every additional $\frac{1}{2}$ oz., or fraction of a $\frac{1}{2}$ oz.

The rate of postage on a letter posted within the Dominion of Canada for transmission by mail to any place in Canada, 3 cents per half ounce weight; but the Statute provides that this rate must be prepaid by postage stamp at the time of posting the letter.

Any such letter posted wholly unpaid cannot be forwarded to its destination, but will be sent to the Dead Letter Office, with the reason plainly written or marked upon it—"postage not prepaid."

Letters as aforesaid posted in Canada, and addressed to places in Canada, when weighing more than half an ounce, and liable therefore to two or more rates of post-

age, will be transmitted by mail to destination, though not fully prepaid, if as much as one full rate of 3 cents has been prepaid thereon by postage stamp; and in such cases will be forwarded charged with double the amount of deficient postage not prepaid; Thus, if such a letter weighing more than $\frac{1}{2}$ ounce and not exceeding 1 ounce in weight, be posted prepaid 3 cents only, it will be rated 6 cents unpaid—"more to pay"—and forwarded to its address.

On letters posted at an Office to be delivered from it, commonly known as "drop letters," the rate is 1 cent per $\frac{1}{2}$ ounce; to be in all cases prepaid by postage stamp affixed to such letters when posted.

The charge for the Registration of a letter is 2 cents, to be prepaid by stamp.

CANADA AND NEWFOUNDLAND.

Letters for Newfoundland are charged at the rate of 6 cents per half ounce, and must in all cases be prepaid.

The registration fee to Newfoundland is the same as to places within the Dominion, viz., 2 cents.

British Colonies and Foreign Countries are not forwarded by the above Steamers.

Book Packets, and Packets of Patterns and Samples addressed to British Colonies and Foreign Countries are not forwarded by the above Steamers.

LEGAL AND JUDICIARY.

SUPREME COURT OF THE DOMINION AND COURT OF EXCHEQUER.

The Supreme Court, as a high Court of Appeal, constituted by Dominion Statute, 38 Vic. cap. 2, assented to 8th April, 1875, is composed of a Chief Justice and five Puisne Judges, and has appellate civil and criminal jurisdiction within and throughout the Dominion of Canada. The Judges reside at Ottawa, where the Supreme Court holds annually two Sessions, beginning respectively on the third Monday in January and June. The Exchequer Court, presided over by the same Judges, possesses concurrent original jurisdiction in the Dominion in all cases in which it is sought to enforce any law relating to the revenue, and exclusive original jurisdiction in all cases in which demand is made or relief sought in respect of any matter which might in England be the subject of a suit or action in the Court of Exchequer on its revenue side against the Crown, or any officer of the Crown.

Hon. William Buell Richards, Chief Justice.
 Hon. William Johnston Ritchie, Puisne Judge.
 Hon. Samuel Henry Strong, Puisne Judge.
 Hon. Jean Thomas Taschereau, Puisne Judge.
 Hon. Telephore Fournier, Puisne Judge.
 Hon. William Alexander Henry, Puisne Judge.
 R. Cassells, jun., Registrar.

THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the act 37 Geo. III. c. 13, which enabled the then practitioners of the law to form themselves into a society and make rules for its government. By the act of 1822, 2 Geo. IV. c. 5, "the Treasurer and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By the act 34 Vic. c. 15, the Benchers theretofore appointed from time to time by their own body, are made, exclusive of *ex officio* members, elective by the Bar, the *ex officio* consisting of the Attorney General for the time being, and all members of the Bar of Ontario who have at any time held the office of Attorney or Solicitor General of the former province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term to be filled by the remaining Benchers. The Judges of the Superior Courts are Visitors of the Society, and, on the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to practise, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society, in which is provided accommodation for the Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

Chambers are held each day in Common Law and Chancery by one of the judges of the said courts, and under recent statutes by the clerk of the Crown and Pleas in common law, and by the referee in chambers in chancery, for such business relating to suits therein as may be transacted by a single judge out of court. *Clerk, Common Law Chambers*—W. COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these Courts is sufficiently indicated in their title. The Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term, and severally select, by a majority of votes, a Judge of their respective Courts to be placed on the rota for the trial of election petitions. The Judges so selected preside singly at such trials. In the case of death or illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. In cases referring to the Dominion Parliament, appeals lie to the Supreme Court at Ottawa. In those relating to the Legislature of Ontario, to the Court of Error and Appeal of that Province.

COUNTY COURTS.—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or con-

tract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to either of the Superior Courts of Law.

COUNTY COURT SITTINGS AND COURTS OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said court is held four times, commencing on the second Tuesday in March, May, September and December, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions, may, with their own consent, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted be sentenced by the said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists, being equivalent to the Courts held by Revising Barristers in England.

INSOLVENT DEBTORS' COURTS.—These courts, which have reference to traders only, are regulated by the Act known as "the Insolvent Act of 1875," which consolidated and assimilated the practice in Bankruptcy and Insolvency in the several Provinces of the Dominion. The County Judges in the several counties preside, and official assignees are nominated by the Governor in Council, and are officers of the Court having jurisdiction in the County or District for which they are appointed.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart.

DIVISION COURTS.—For the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each judicial district is divided into court divisions, and courts are held once in two months in each division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

POST OFFICE SAVINGS BANK, CANADA.

Post Office Savings Banks at the principal Cities and Towns in Ontario and Quebec are open daily for the receipt and payment of deposits, during the ordinary hours of Post Office business.

The direct security of the Dominion is given by the Statute for all deposits made.

Any person may have a deposit account, and may deposit yearly any number of dollars, from \$1 up to \$300, or more, with the permission of the Postmaster General.

Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

As respects children under ten years of age, money may be deposited—

Firstly—By a parent or friend as trustee for the child in which case the deposits can be withdrawn by the trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipts of both trustee and child.

Secondly—In the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

A depositor in any of the Savings Bank Post Offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office which is most convenient to him. For instance, if he makes his first deposit at the Savings Bank of Cobourg, he may make further deposits at, or withdraw his money through, the Post Office Bank at Collingwood or Quebec, Sarnia, Brockville, or any place which may be convenient to him, whether he continue to reside at Cobourg or remove to some other place.

Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the

depositor pays in or withdraws money, and the sums paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

Each depositor's account is kept in the Postmaster General's Office, in Ottawa, and in addition to the Postmaster's receipt in the pass book, a direct acknowledgment from the Postmaster General for each sum paid in is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he should apply immediately to the Postmaster General, by letter, being careful to give his address, and, if necessary, renew his application until he receives a satisfactory reply.

When a depositor wishes to withdraw money, he can do so by applying to the Postmaster General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post Office the depositor may have named in his application.

Interest at the rate of 4 per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th of June in each year.

Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

No charge is made to depositors on paying in or drawing out money, nor for Pass Books, nor for postage or communications with the Postmaster General in relation to their deposits.

The Postmaster General is always ready to receive and attend to all applications, complaints or other communications addressed to him by depositors or others, relative to Post Office Savings Bank business.

A full statement of the Regulations of the Post Office Savings Bank may be seen at any of the Post Offices appointed for that purpose.

COLLEGIATE INSTITUTES AND HIGH SCHOOLS.—Each
 of the High Schools (which form the intermediate link
 between the Public Schools and the Universities) is
 managed by a Board of Trustees appointed jointly by
 the County and Town Councils. In cities the Trustees
 are all appointed by the City Council except where
 there is only one School in the County. The head
 master must be a graduate of a British or Colonial Uni-
 versity, unless certified and appointed before 18th Sep-
 tember, 1865. Besides fees, local rates to the extent
 of half the Government grant must be raised for the
 master's salary. The grant is payable to those schools
 only which attain a certain standard, and is based on
 the average attendance of pupils in the prescribed
 studies. High Schools which have an average atten-
 dance of 60 male classical pupils, may be made Col-
 legiate Institutes and receive \$750 additional grant.
 An extra grant is provided for masters taking certain meteor-
 ological observations and giving scientific knowledge pre-
 paratory to military instruction. Pupils attending these
 Schools are prepared for matriculation in the Universi-
 ties. There were 100 High Schools and 8 Collegiate In-
 stitutes, with 7,871 pupils, in Ontario, in 1874. James

PUBLIC SCHOOLS.—Each Township is divided into
 School Sections of a suitable extent for one School; and
 in each of these Sections three Trustees are elected to
 manage its School affairs. In Cities, Towns and Villages
 the Schools are managed by a Board of School Trustees,
 elected from the Municipality. There were 4,758 Public
 Schools, with 464,047 pupils, in Ontario, in 1874.

PUBLIC SCHOOL LIBRARIES.—Each School and Municipal
 Corporation, desirous of establishing Free Public
 Libraries, is aided by the Educational Department grant-
 ing 100 per cent. on local appropriations, and supplying
 books from the Depository in connection with the De-
 partment. Up to the end of December, 1874, about
 1,334 Libraries had been thus established, with 266,046
 volumes.

EDUCATIONAL MUSEUM.—Connected with the Educa-
 tional Department is a Museum, containing specimens

of School apparatus and furniture, a valuable collection
 of Italian, Dutch and Flemish Oil Paintings and Statuary
 casts and busts. The Museum is freely open to the
 public from 9 a.m. to 5 p.m.

THE TOTAL NUMBER OF EDUCATIONAL INSTITUTIONS OF
 all kinds reported by the Educational Department as in
 operation in the Province of Ontario during 1874, was
 5,165, attended by 483,861 pupils, and expending \$3,974,-

MEDICAL INSTITUTIONS AND SCHOOLS.

COUNCIL OF THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO.—"The College of Physicians and Surgeons of Ontario" is the name adopted in its corporate capacity by the Medical Profession of the Province of Ontario. Every legally qualified Medical Practitioner in the Province being a member of this College, it will at once be understood that it is not an Institution for the teaching of medicine. The Medical Profession in Ontario was first incorporated under this name by an Act of the Parliament of Canada passed in 1866. This Act was subsequently repealed by the Legislature of Ontario in 1869, and now the affairs of the Profession in this Province are regulated by an Act passed in 1874 (37 Vic. cap. 30), which is commonly known as the "Ontario Medical Act." By this Act, the "Council of the College of Physicians and Surgeons of Ontario" is empowered and directed to enact By-laws: for the regulation of all matters connected with Medical Education; for the admission and enrolment of Students of Medicine; for determining from time to time the Curriculum of the Studies to be pursued by them; and to appoint a Board of Examiners, before whom they must pass a satisfactory examination before they can be enrolled as Members of the College, and thus be legally qualified to practise their profession in Ontario. The Council, moreover, has power and authority conferred upon it by this Act to fix the terms upon which Practitioners of Medicine, duly qualified in other countries, may be admitted as Members of the College of Physicians and Surgeons of Ontario; this being the only mode in which they can become legally entitled to practise their profession in this Province.

THE

MATHUSHEK PIANO-FORTES

ARE FAST GAINING IN POPULARITY THROUGHOUT THE DOMINION.

Our trade in them has extended to Prince Edward Island, New Brunswick, and Nova Scotia, where they are to-day the most popular Piano in the market. No Piano has as many strong points as it; none the volume and voice-like quality of tone. None keep in tune as well, or retain their new quality, and, with use, improve as do the MATHUSHEK. The secret of all this excellence is in their peculiar scale and construction—unlike any other; which is made clear and explained in descriptive catalogue, with testimonials of noted Artists, sent free to any address.

THE FISCHER PIANO.

The *American Trade Journal*, writing up the Piano trade, says: * * * "Messrs. J. & C. Fischer are, as we have said, not only the oldest and most experienced makers of fine instruments for the trade, but sell hundreds of their Pianos to good judges." * * * About 17,000 of them are now in use. They are certainly the best medium-priced Piano in the country.

ALL HAVE AGRAFFE TREBLE.

We are not aware that this complete system of

We succeed in developing and

WHEELER & WILSON'S LIGHT AND QUIET SEWING MACHINES.

A LONG TEST.

These celebrated Machines have been manufactured

A QUARTER OF A CENTURY,

During which time have been seen numerous Machines, with high-sounding pretensions, rise with a flourish, and vanish. So will it be while credulity lasts.

The WHEELER & WILSON through all these years has steadily gained in popularity, the constant aim of the Company being to produce the *simplest* Machine consistent with the requirements of great range of work, and

to manufacture it the best. How far they have succeeded, nearly a million purchasers, and the opinions of the best practical mechanics, can answer.

Every improvement is on the *simplest* and most substantial plan, and *thoroughly* made and *tested*. The hundreds of cheap-made Machines laid aside every year, from being worn out, or some imperfection or another, is the best proof that these points cannot be too highly valued.

In buying the "*time-tried*" "*Wheeler & Wilson*," you are safe, and have at the same time the latest improvements that mechanical genius and trial have proved worth having.

OUT OF BARREL THAT WE WERE USING, 12 DAYS. The above samples were from the leading oil dealers of Canada. I may also say that we are using your oil on our cylinder instead of tallow, and find it does as well and is much cheaper, and better for the boiler. I think we can truly say that we are saving fifty per cent. in Oils since we commenced using Stock's Extra.

Respectfully yours,

THE THALBERG PIANO.

\$290.00.

The want has long been felt of a good, useful family Piano, which combined the clearness of tone and the beauty of finish of the most celebrated make, with a moderate price. To meet this want "The Thalberg" is now introduced into this market, and the patronage of the general public is confidently solicited. If it be asked how it is possible to supply a good Piano at about half the price frequently charged, the answer is plain. There is no "Red Tape" in the making or sale of these instruments, there are no large show rooms to keep up, no grand Music Halls to maintain, or no expensive travelling agents to pay. The Piano can, therefore, be offered to the public at bottom prices, with a fair commission to agents for their trouble. These instruments are all made of a uniform standard, full seven octave, solid iron frame, overstrung bass, carved legs, round front corners, serpentine mouldings, and double-veneered Rosewood cases. Purchasers may, therefore, order these instruments with confidence, as each is fully warranted. The mottos with the Thalberg Piano are—"A Piano for every family," "Small profits and large sales," and "Cheap for cash against dear on credit." In order to put this Piano within the reach of the public generally, it has been decided to offer it at the extremely low price of two hundred and ninety dollars (\$290) each, for prompt cash. Believing that this instrument will be largely used in schools and convents, an extra discount of 10 per cent. will be allowed for such uses, and also to clergymen and teachers for the use of their families.

Full particulars can be obtained from the agents of "The Thalberg" Piano, in all the cities and leading towns of the Dominion, with whom samples of the Piano may be seen. Parties desiring agencies apply to

WALTHAM WATCHES.

These watches are now before the public for over fifteen years, and, considering the large number sold, have given very general satisfaction. When first introduced the prices were high, but now they are in the various grades so cheap as to be within the reach of all classes. The popularity of these watches led to the introduction of sundry worthless Swiss imitations, with Trade Marks somewhat resembling those on the genuine Watches. No doubt in some instances this has injured the reputation of the genuine Watches, but every buyer should demand the Printed Guarantee Card of the Company. In this there is every protection against imposition by unprincipled dealers. The brands of American Watch Company, Appleton, Tracy & Co., Waltham Watch Co., P. S. Bartlett, Wm. Ellery, Home Watch Company, and the Broadway, are now universally known by the trade and by the public. The lowest of them will keep better time than almost any watch for the price. Those Watches, in Coin Silver Cases made by the Company, from 2 to 6 ounces, may be had through all watch dealers in the Dominion; we supply none to private parties. Also in Gold Cases, 14 and 18 carats, for ladies and gents, of all weights. The cases we supply are all of guaranteed quality. We are now offering to the trade the largest supply of those Movements ever offered in Canada; and to buyers of fair lines we offer greater inducements than were ever offered in the United States or Canada. Dealers should send to us for the Company's new reduced price lists, and should forward their orders at once.

ELECTRO-SILVER PLATE.

The almost universal use of our Electro Plate makes it needless to specify it very particularly. The line of SPOONS, FORKS and KNIVES alone embraces an immense variety, from the finest 16 oz. to the lowest-priced "star" quality, and all of them give undoubted satisfaction for the price. TRAYS and WAITERS are of our best Sheffield Plate, and being plated on German Silver are both strong and durable. CRUET FRAMES, TEA SERVICES, URNS, PITCHERS, BASKETS, PICKLES, EPERGNEs, NAPKIN RINGS, BUTTERS, CARD STANDS, COMMUNION SERVICES, &c., &c., are all plated either on White Metal or German Silver, and are triple or quadruple plate. Persons purchasing our wares, stamped with the Trade Mark, R. W. & Co., from dealers in any part of the Dominion, may depend on the quality of the goods being reliable. Styles are unsurpassed, and assortment is the largest in the world.

ROBERT WILKES, Wholesale Agent, Toronto and Montreal.

SHEFFIELD CUTLERY.

Good quality is, after all, the only permanent condition of extensive demand. The mark of R. W. & Co., has been successful on this principle—whether high-priced ivory or cheap bone handled, the steel has been good stuff. The public can depend on this reputation being maintained. The assortment consists of Dessert Knives, Table Knives, Plated Knives, Carvers, Pocket Knives, Hunter's Knives, Butcher Knives, Scissors, Shears, Razors, &c., &c.

ROBERT WILKES, Toronto and Montreal.

GOLD CHAINS

Of reliable fineness, may be secured by purchasers asking for these stamped R. W. & Co., whether in bright or coloured gold, the quality of all such being fully guaranteed. No greater delusion can prevail than the purchase of cheap chains. Goods of that class are often imported from Britain, the net value of gold in which is not over eighteen pence per pennyweight. Those desiring reliable chains must pay a fair price, and rely upon the character of the makers to get value for their money. Guaranteed Chains in GUARDS, VESTS, OPERAS, LEONTINES, NECKLETS, &c.
