Red-Headed Teachers Best, Says State Chief

SACRAMENTO, Feb. 20.—Justifying a preference for Titian-haired school teachers, State Superintendent of Public Instruction Will C. Wood, today said he unreservedly endorsed the findings of Professor Karl Pearson, famous transatlantic scientist, that red locks almost invariably are the outward and visible sign of brain-power, conscientiousness and physical strength.

Mountain Lioness Is Captured by Hunters

FRESNO, Feb. 20.—Jay Bruce, state lion hunter, and Guy Hoppling, chief ranger, report the capturing of a mountain lioness and four cubs near Clough's cave, in the Sequoia national park. One cub was taken alive. Bruce is now trailing a huge male believed to be the mate of the slain lioness.

Dispute May Hold Up Opening of Tut's Tomb

LUXOR, Feb. 20.—Further exploration of the tomb of Tut-Ankh-Amen, in the valley of kings, may be postponed until winter, owing to the dispute between Howard Carter and the Egyptian government. Government officials said they were hopeful Carter would accept their terms and return to work. If he refuses, his excavation license will be cancelled and the government will employ its own workers to re-open the tomb.

Claims County Jails Are Schools of Crime

SAN FRANCISCO, Feb. 20.—Church people are discussing with interest here the startling assertion made by Dr. Zane Batten at the first meeting of the Church Federation conference that county jails throughout the nation were "high schools of crime."

Older criminals teach the more youthful ones the various tricks of their trades and society losses. Farms, where all criminals could work in the open air were recommended as a substitute. Politics was blamed for the conditions by Dr. Batten.

A big turtle soup factory has been started in Australia, much to the disgust of the turtles.—West Palm Beach Times.

THE GLENDALE

Gladys Walton in "The Near Lady," now showing at the Glendale Theatre, offers picture-goers something in the way of a celluloid kick. It is a lesson in love at top speed. Because of the wiles of the plot, Miss Walton comes within an ace of not being a lady. Dizzy, whizzy is the pace she sets.

Former Deputy Faces Charge of Extortion

SAN FRANCISCO, Feb. 20.—Police are investigating the alleged activities of Morris L. Scharfe, former deputy sheriff of Solano county, who is held here in jail, charged with extorting money from four women. Scharfe's arrest followed an attempt, police claim, he made to

THE GATEWAY

Colleen Moore in "The Huntress" is seen today only at the Gateway Theatre. The picture is directed by Lynn Reynolds and released by First National. It is a comedy-drama of western flavor and exceedingly funny. Lloyd Hughes, Russell Simpson and Lila Leslie support the star.

VALLEY NEWS

LEASE SITE FOR NEW FIRE HOUSE

Quarters for Six Men Will Be Provided in Branch At Lankershim

A lease has been closed between the Los Angeles fire commissioners and the Weddington Investment Co., Lankershim, by the terms of which a 35x50 foot one-story brick fire house will be erected, the building to be so arranged that living rooms will be provided for the men.

A modern pumper and other fire-fighting equipment will be provided, along with the new building, states Captain William H. Bryden of the fire department. Six men will be maintained.

Construction will start within sixty days, reports Guy Weddington. The building will be erected on Weddington avenue, just east of the new school house.

Sherman Ranch Sold

The General M. H. Sherman ranch of 121 acres, located on Leesdale street, west of Reseda boulevard, has been sold for \$75,000, the buyers being F. D. Warner and associate, of Glendale. It is understood that subdivision of the property is contemplated. The transaction was handled through the office of Goldsworthy & Grimes.

To Conserve Water

Though it is not believed there is any reason to fear a drought, the dry weather has reached the stage where no parallel to the condition has been seen for forty years and consequently the order has gone out to conserve the water.

"Sell no water for irrigation of open farm lands for new crops and limit the water for orchards and gardens, is the order issued by board of public works to the valley water department.

It is believed that the mild weather of the last few days presages rain. Wednesday, February 13, was the hottest February day in the history of the Los Angeles weather bureau, the mercury rising to 89 degrees, Fahrenheit, in its indignation.

A cesspool dug last week on Fourth street, Lankershim, struck water at twenty-three feet, so it is seen that the situation, though serious, is not critical.

Bread Profiteering in State Is Uncovered

SACRAMENTO, Feb. 20.—Investigation by the state department of agriculture discloses that between the price of wheat in the sack and the price at the time it reaches the consumer in the form of bread there is a jump of 300 per cent, according to a report just forwarded to the federal government by G. H. Hecke, director.

"The wheat raiser receives \$35 per ton for his product at present," said Hecke. Our records show that the consumer pays for bread at a rate ranging from \$150 to \$180 per ton, a price increase in excess of 300 per cent."

Residents Don't Admire Spunky Canyon Name

LOS ANGELES, Feb. 20.—Residents of Spunky canyon are seeking a new name for the section.

Many years ago a hardy pioneer invaded the mountain fastness and settled there. Someone said he was "spunky," so the place was called "Spunky canyon."

Sensational Divorce Thrown Out of Court

CHICAGO, Feb. 20.—The Leland-Case divorce suit, which for more than a month has run the gamut of sensations here and in Buffalo, late yesterday was thrown out of court by Judge Charles M. Foell for "want of equity."

The decision came suddenly while the closing arguments were being made after a topsy-turvy day during which the court continually remonstrated with attorneys for attempts to introduce irrelevant testimony.

COMMENT

That's All

Traffic Cops' Troubles
Health Plants Here
Race Track Gamblers
California Farms Pay

By Gil A. Cowan

Two Kern county traffic officers have pleaded guilty to bribery while on official duty. They have asked for probation. It likely will be given for one can readily believe that the officers likely felt justified in accepting proffered gifts.

There are some peculiar things about the motor vehicle law and its enforcement, if a person only stops to think a minute. In the first place, it is the most hopeless-law we have. Of good intent it seldom accomplishes any purpose whatever other than to make people fearful of driving.

Provision should be made whereby a motorcycle policeman would collect and receipt for a certain stipulated penalty for speeding and only in case of appeal should the case come before a judge. Under no circumstances should jail sentences be pronounced except where charges of recklessness, intoxication or criminal carelessness enter into the complaint.

Also, no officer should be hired for the purpose of revenue, as that is nothing more or less than legalized banditry. Neither should he be judged by the number of arrests nor should he be expected to live on a salary less than what his precarious vocation is worth. We sometimes wonder how a man can keep respectable and keep his job as a cop. And when they fail the censure should fall on others' shoulders.

Glendale soon will boast of the best sanitarium facilities in the west, if not in the nation. The new Glendale Sanitarium and Hospital plant, which is being rushed to completion, is an institution which any city would envy, but in addition Glendale will have two surgical hospitals, several rest home establishments and climatic conditions in the vicinity for practically any and all ailments.

Race horses, oil stock and politics seem to feature the Washington news these days in connection with "slush funds," not to use the bald term of "graft."

We have seen "hoss races" in our day—had to cover a track for a news service at one time—and outside of the opportunity for gambling there is little or nothing in the performance of the ponies. And our judgment is backed by the Culver City fiasco and the losses taken on Tanforan track.

Indeed, the best of authority declares that wealthy men are trying to bring back horse racing in California with the possibility that the next legislature will permit the "mutuels" betting system to operate, but it is unlikely.

Stock market gambling is another sport found in the best of society which this old world would do well without—among other things. List a few for yourself.

California farms are profitable, according to the Riverside Press, which says:

"Boom figures have been published from time to time showing returns from California farms and orchards to be larger than in other states of the Union. Some of these figures have been questioned as not being fairly representative, and perhaps rightly so."

Reports made by a national farm bureau organization must be conceded to be fair and unbiased and really representative. Such a report was recently made public by the American Farm Bureau federation, whose department of research has been collating figures for every state in the Union. The result is most convincing as showing that California farmers are enjoying a greater degree of prosperity than those in the majority of the states in the Union.

"The cash income per farm in California is very large, amounting to \$4456 in 1922-1923. The ratio of sales to fix capital investment is slightly higher than the average for the country, being 21.8 per cent in 1919 as compared with 21.1 per cent for the United States. The income is distributed among a considerable number of individual products, and a very large proportion is of those commodities which are sold chiefly on the domestic market and go direct to the consumer in their original form."

"As a result, farm income is relatively stable in California. In the slump between 1919 and 1921 the total sales income declined but some 30 per cent whereas the average for all states was 50 per cent. Last year the total gross cash income of California farms was \$524,000,000. Of this amount crops brought in \$322,000,000, equal to 63.5 per cent, livestock \$75,000,000, equal to 14 per cent, and animal products \$117,000,000, or 22.5 per cent."

"Although crops in the aggregate outranked other products, the greatest single item of farm income was represented by dairy products. The most important commercial products are grapes, orchard fruits, subtropical fruits, cattle, poultry products, vegetables, barley, wheat, hay, beans, rice, potatoes and hogs."

MOVING A BUILDING

Running water and telephone and electric light service were maintained without interruption in a seven-story building in Chicago recently while it was being moved a distance of eighty-five feet to make way for a street widening. The building was moved at the rate of four feet an hour.

SOCIAL EVENTS

(Continued from page 2)

Dinner Dance

An enjoyable affair of the week was the dinner party and dance given on Monday night by Mr. and Mrs. J. B. Hall of 604 West Alexander street.

During the evening Jack Powell gave several selections on the banjo, Dr. R. A. Homes and Miss Edna Alexander gave an exhibition dance, Miss Ruth Randall rendered several vocal selections and F. W. Brown gave an interesting reading.

Those present included Dr. and Mrs. R. A. Holmes, Mr. and Mrs. F. W. Brown, Fred Brown, Jr., Worth Alexander, Miss Edna Alexander, Miss Ruth Randall, Jack Powell, Miss Grace Mannel of Boston, Mass., Mrs. Fay Brown, Peter McMahon, Mrs. Mable Mergenber and Miss Bertha Wicke of New York City.

Club Hostesses

Mrs. H. W. Hull and daughter, Mrs. Joseph Billingsley, were hostesses yesterday to the members of the Nimble Finger club, auxiliary of the Daughters of Veterans, at the Hall residence, 227 North Louise street.

This was the regular all-day session of the club. A delicious luncheon was served at 1 o'clock to the twenty-one members present.

During the afternoon considerable sewing was finished and plans made for future work.

The next meeting will be held Thursday, March 13, at the home of Mrs. James Lyons, 619 North Howard street.

Gives Luncheon

Mrs. Julia Hoopes of 1300 South Central avenue entertained a group of friends yesterday at an informal luncheon affair.

She had as guests Mrs. William Booth, Mrs. Herbert Cunningham, Mrs. Mabel Douglas and Benjamin Stine of Los Angeles; Mrs. George Hibben and Mrs. Leon Bowen and daughter, Norine of Glendale.

Guest At Club

Mrs. Loren B. Curtis, president of the Opera Reading club, of Hollywood, an organization of 700 members, was a guest yesterday at the Tuesday Afternoon club luncheon. She was introduced to the club women during the luncheon hour by Mrs. A. H. Montgomery.

St. Mark's Guild

St. Mark's Guild women are to meet at 2:30 o'clock tomorrow afternoon in the Guild hall, Mrs. W. J. Farber, president, will be in charge, and the afternoon will be devoted to quilting.

Canadian Club

C. M. Munro is chairman of the committee arranging the dance of the Canadian club tomorrow night in the K. P. hall on South Brand boulevard.

ENGINE IN REAR

A German airplane builder has designed an automobile with the engine in the rear, directly connected to the wheels, and with the front projected to lessen air resistance.

MONTROSE RUSH WORK ON MONTROSE HOTEL

Building to Include Stores
On Ground Floor With
Large Basement

S. Meyers, capitalist, reports the construction of the new hotel in Montrose is going along splendidly. This building will have a cement-lined basement, the floor on the street level will be stores, and the second story will be an up-to-date hotel, which is very badly needed in Montrose. The interior of stores and hotel are to be strictly modern in every detail, as Mr. Meyers is an optimist in seeing ahead in the years, knows Montrose has a glorious future; therefore, he is anxious to have a building which will be considered modern five years from now. The new theatre building, in which Mr. Meyers is the heaviest stock owner, is also under construction. The exterior is to be early English. The interior is to consist of a main hall with an up-to-the-minute stage, orchestral pit and lighting arrangements. The gentlemen are being furnished with a smoking room complete in every detail, while the gentler sex are to have a daintily-appointed rest room. A buffet lounge will be a distinctly new feature of the theatre, in that any guest may be served with lunch without leaving his seat. The interior decorations will be wrought metal and heavy beams.

Booster All the Time
Mr. Meyers was so enthusiastic over the project that he sold the lot to the amusement company for very little more than what it cost him a few months ago. As Mr. Meyers says, he is "a booster all the time."

Mr. Green, of the Green & Clark realty office, entertained an exceptionally large crowd at his real estate office on Sunday, where he has a line radio installed, and invites the public to listen in at 10 a. m., 2 and 8 p. m., when he connects with the Albee Temple in Los Angeles. These radio sermons are very popular, and make a great hit with the Sunday autoists.

Mrs. Fuhr of Grass Valley has returned home after visiting her daughter, Mrs. L. R. Miller, at her home on Florencia drive.

1988 NURSES IN STATE
SACRAMENTO, Feb. 20.—A total of 1988 nurses were granted certificates as registered nurses by the State Board of Health last year, as compared with 970 for the year 1922. It was announced today by the Bureau of Registration.

LA CRESCENTA STAGE DANCE TO AID CLUB FUNDS

Women Realize Over \$60
From Brilliant Valentine
Affair at School

In a beautifully decorated hall the Women's Club, with Mrs. A. W. Brown as hostess, gave a charming Valentine dance on Saturday night. The school auditorium was a bower of green ferns in which valentine hearts were cunningly placed. The large overhead lights were softly shaded in red, while the footlights of the stage were concealed in masses of asparagus fern.

The exceptionally fine music was furnished by Stanley's orchestra of Pasadena.

Mrs. Brown was assisted in serving by Mesdames Mark Collins and George Aiken at the refreshment table, while Mrs. Rose Nettleton had charge of the candy booth.

A sum of over \$60 was realized for the Women's club fund. Mrs. Brown is to be congratulated on the amount her dance raised for the fund.

Mr. May, who recently moved into the Gould property on Montrose avenue, has been called to Bakersfield, by the death of his sister. Mr. May will return after the funeral.

On account of the glorious weather the services at Amananda Ashrama (Peace Retreat) were held out of doors, and after taking a vote of those present it was decided to hold all services hereafter out on the terrace, weather permitting, every Sunday.

Mrs. Daniel Smith rendered the beautiful solo, "Oh! Gate's Ajar," in an exquisite manner yesterday at the Episcopal service. Mrs. Smith is a newcomer to the valley, and, possessing a wonderful voice, will be a great acquisition to all affairs, particularly the community sing.

Open Thirty-Acre Tract
Mr. Wibel is opening his thirty-acre tract just south of the Harvey Bissell estate. Mr. Wibel is an enthusiastic booster for the new city of Verdugo and states he intends working to carry the boundary to include his property.

T. Voorhees, accompanied by Mr. and Mrs. Knowles and baby, motored down to San Diego over the week-end, in the new Studer-baker sedan recently purchased by Mr. Voorhees. Mr. Voorhees also warns tourists that the speed cops in Orange county are on the job again.

Mr. Roscoe, realty broker, has added Mr. White of Toronto, Canada, to his list of salesmen. Mr. White recently purchased a home here through Mr. Roscoe. H. Fowler is erecting a real es-

BURBANK NEW ARTERY FOR TRAFFIC PLANNED

Burbank Boulevard Will Be
Advocated by Special
Road Committee

A new traffic artery, to be called Burbank boulevard, has been outlined by a special road committee of the Chamber of Commerce, reports Gustav Rasmus, who states that another meeting will be held at 7:30 o'clock tonight, February 20, at the office of W. D. Wickline, 236 West San Fernando boulevard. The public will be invited to come at 8:30 o'clock and join in the discussion.

"This will make possible a twenty-minute trip to Los Angeles, via Riverside drive," says Mr. Rasmus. "Crossing the prospective Crescent street bridge will make close connection with Ventura boulevard, and, most important of all, will create a business highway comparable with San Fernando boulevard and have the added desirability that it will carry the name of Burbank, and so be a road that will attract outsiders and naturally lead them to the city of Burbank."

C. of C. Directors Meet
The advisory council of the Burbank Chamber of Commerce will meet tonight with the directors of the organization, at the Chamber of Commerce rooms, reports Manager J. W. Charleville, who last night attended the meeting of the associated chambers, held at Lankershim.

The permanent improvement of Chatsworth drive, the paving of Victory boulevard and Riverside drive will be among the matters discussed. It is expected that the various clubs and organizations of the city, through their representatives, will make known to the chamber their recommendations on a number of pending matters.

The Civic Betterment Association will meet tomorrow night, February 21, in Horne's hall, in conjunction with a meeting of the Goodfellows' Club. It is announced, when plans will be made for the meeting at the Thomas A. Edison school on February 29, when both sides of the

tate office on his ten-acre tract at the corner of Los Angeles and Honolulu avenues.

Mrs. C. A. Hoskins is convalescing from her recent attack of the flu. Hickey is able to be back in her real estate office again after a severe nervous breakdown. Mrs. Seymour Thomas is convalescing from her attack of the flu, which has extended over a period of about ten days.

Directors For Chamber Of Commerce Discuss Plans to Advertise Glendale Abroad

Advertising plans for the coming year formed the principal subject of discussion at the regular weekly board meeting of the Glendale Chamber of Commerce, following the report of Paul E. Stillman, chairman of the advertising committee, who outlined a tentative plan that had been discussed at the meeting of his committee by which it is hoped to raise a service fund that will amount to at least \$25,000 for this work.

F. P. Newport, well known realtor, declared that \$25,000 was too small a sum for a city this size to devote to advertising its advantages, and urged that the aim of the organization be set at double that sum. Relating his own activity in advertising Verdugo Woodlands, Mr. Newport stated that, with his advertising cut to the minimum, his firm is spending \$18,000 annually advertising his property adjacent to Glendale, and added that the present year will see the Verdugo Woodlands advertising budget materially increased.

All Owners Should Aid
The source of the fund that is necessary to advertise the city was discussed at length by Earle C. Pendroy, who stated that the bulk of it should come from the property owners, and especially the owners of business property, who are, he contended, the greatest beneficiaries of any growth in the prosperity of the city or from the influx of new residents and new industries.

"We must build a better and a healthier main street," he asserted, "and it is unjust to pile all the burden on the merchants, who have done more than their share in every drive that has been held in Glendale."

Mr. Pendroy instanced the course adopted by the advertising committee of an adjacent city, by which every property owner is asked to contribute a certain amount to the service fund, and he declared that a definite schedule, based on facts and figures showing the increase in values of property resulting from the growth of the population, should form the basis of any plan for the city charter question will be discussed.

Autos "Go Loco"
A certain number of automobiles continue to meet with poor results en route through Burbank. It is seen from a survey of the docket at the police department.

The most serious mishap of recent date was when a car driven by R. Myers of Villa Vista met one driven by Antonio Marietta of San Fernando, resulting in damages of \$250 to Myers' car and loss of equipage to himself.

Minor damages by the dozens attest the operation of the law of averages along San Fernando boulevard, where so many vehicles constantly go by that mere impatience over the congestion, it is argued, causes some to "go loco."

EAGLE ROCK WOULD WIPE OUT BOUNDARY LINES

Closer Union of Eagle Rock
With Other Districts
Is Campaign Plan

A move to erase the imaginary boundary line between Eagle Rock and York Valley and unite these sections with Annandale and Rockdale into a great and powerful district of Los Angeles, one in interests and ambitions, inaugurated last Friday night, February 15, at the Arroyo Seco clubhouse on Pasadena avenue, has already borne fruit in a closer sympathy and understanding between the "friendly valleys."

"We feel that Eagle Rock is part and parcel of the great northeast section of Los Angeles, and that the whole district should feel a unity of spirit in the promotion of any movement for the general good," states Mrs. H. R. Collins, president of the York Valley Parent-Teacher association, and holding that executive position with the York Valley Improvement association. "We are glad to see the way Eagle Rock people responded to this get-together meeting."

"We want to erase that imaginary boundary line that exists between York Valley and Eagle Rock. While Eagle Rock has become a part of Los Angeles, there seems to be that sub-conscious feeling of a boundary where the old corporate limits once existed, and we hope that through closer association in our wants and our protests, we can erase that line and become one great and powerful district of Los Angeles, people who first decide what they want, and then go after it and get it."

Resume City Hall Work
Construction is once more under way at the City Hall on East Colorado boulevard and the original plan of reserving the additional space for the firemen is being adhered to.

No plan has yet been evolved for housing the police department in the manner they desire but the local Chamber of Commerce has been notified by the board of public works that a survey of conditions will be made when the annex is completed, states Donnell G. Montgomery, secretary.

Until further notice, he states, Occidental college students were given an opportunity to look at a check for \$71,373.85 last Monday when President R. D. Bird showed the assembly the large check which had just been received from the general board of the Presbyterian church in New York, as the first payment on \$166,000 which that board agreed to give to the Occidental institution as their share of the \$500,000 endowment fund which the college has completed.

Occidental was allowed until January 1, 1924, to raise the total sum and without any organized campaign or committee the college succeeded in obtaining gifts which aggregated over \$720,000. President Bird was able to announce to the student body last June that the fund was complete.

REPLACES LITTLE COAL
The present production of fuel oil in the world is only sufficient to replace about 11 per cent of the coal.

Debating Contests Enter Second Round

The second round of the Southern California conference series of forensic contests will be held Thursday night, February 21. Occidental's experienced debaters are ready to repeat their performances of the last two victorious contests against the University of Southern California and Whittier college debating teams. The Oxy word battlers will meet the University of Redlands and the Southern Branch teams.

The Tiger negative team, Edward Jones and Francis Henshaw, travel to Redlands and the affirmative team, Robert Stevenson and Verne Mantel, meet the S. B. U. C. debaters on the home platform.

DIES IN CAR CRASH
SAN FRANCISCO, Feb. 20.—Frank Walker, carpenter, is dead today and Robert Good is severely injured following an automobile accident here.

the building, police and water departments, and the Chamber of Commerce will be found in their accustomed place.

No longer will motorists use Yosemite drive as a speedway. Motorcycle officers have been placed on duty there, following complaints of residents, and the maximum speed of twenty miles per hour will be rigidly enforced, according to state law, reports Sergeant J. D. Cornwell of the local police department.

Ariz. Pastor Tells Of Navajo Indians

Dr. James R. Smith, pastor of the First Presbyterian church at Fort Defiance, Ariz., was the guest of Occidental college yesterday. Dr. Smith has been associated with the Navajo Indians for many years on the northern reservation near Flagstaff. During the chapel hour he gave the students a very interesting lecture on the American Navajo Indian, bringing with him a Navajo rug of extraordinary beauty.

Dr. Smith described the view of the northern reservation, situated on the edge of the Great Painted Desert, bordering on the boundaries of Utah and Colorado, 7000 feet high. The reservation covers some twenty-five square miles, and upon this land dwell 37,000 full-blooded Navajo Indians, the last and largest remaining tribe of the true American Indian.

Miss Grace Smith, a freshman at Occidental college, is the daughter of Dr. Smith. Occidental college has as one of its students this year, Allen Gardner, one of the few Navajo Indians to be found in Southern California. He has the distinction of being the first and only Indian ever attending the Tiger institution. He plays basketball, baseball, track and football. He is a member of the freshman class and the Cosmopolitan club.

Children of all ages can enjoy a see-saw designed by an eastern man, for it can be adjusted to any height.

Why "The None Better"

and WHY we want YOU for a partner

Since adopting the above slogan nine years ago, it has been the earnest endeavor of the Fanset Dye Works to make the name FANSET mean just what that slogan implies. We do not claim that we are better than ANYONE else, but we are as good as the best in any city in the United States, and this is why:

We have the latest and best equipment that we can obtain, and use the very best materials that the market affords. That in itself means nothing unless one has the proper kind of help; and this we have in a marked degree. We consider our help our best investment, and use great care in selecting them, and then we take them in as partners. Each regular employee of the Fanset Dye Works is a stockholder in the concern. The driver who picks up your order, the marker who marks it in, the cleaner, spotter, finisher, sorter, inspector—all own stock. It is natural

that they should take a greater interest in turning out work that will bring repeat orders than if they were merely working for their weekly wage.

Now, we want as many of our patrons as our limited amount of Capital Stock will permit, to come in with us. You may subscribe for as little as 25 shares at \$1.00 par value. Even this small investment, we believe, is worth while in an enterprise with the wonderful possibilities that we foresee.

500 Shares is the most you can buy.

This stock participates in the full earnings of the company, including increase in Real Estate and Buildings soon to be erected. Our property is at the corner of Glendale Boulevard and Valleybrink, 125 feet facing the boulevard.

Diet and Health

By Lulu Hunt Peters, M.D.
Author of "Diet and Health, with Keys to the Calories"

ANSWERS TO CORRESPONDENTS

Mrs. B.:—You say that you are 38 and weigh 252 pounds. You have three children who are also enormously fat; the eldest, who is 15, weighs 210; a boy of 11 weighs over 165, and a girl of 6 weighs 120.

I advise you all to go on a strict reducing diet and stick to it for a long period, and it is not only possible but probable that you will reduce. It may be possible that there is some glandular trouble in your family. However, it is found, even in the rare cases where there is a disturbance of the internal secretory glands, that an enormous appetite usually accompanies it. This overeating contributes further to the disturbances in the glands. Thus a vicious circle is formed.

Have you our instructions on reducing? If not, certainly send for them. Enclose a fully self-addressed, stamped envelope (the s. a. s. e.), and 4 cents in stamps. Meanwhile go to your library or book store and get a good book on the subject.

You must include at least three glasses of milk in the children's diet each day. Teach your children the energy food values—calories. You can have lots of fun counting them. Do not buy any sugar for your family. That means you will not make any cakes, candies or sweet desserts, nor serve sugar with the cereals or in the drinks. Get the whole wheat bread or bran bread and do not take more than one slice with one-fourth level tablespoon of butter at each meal.

Cook with very little fat and serve your salads with lemon juice instead of oil, or use the mineral oil mayonnaise. No fat meats and no fat gravies.

I agree with you that the children's happiness and health, and your own, are at stake. If, after rigid dieting and vigorous exercising, you do not reduce, you all should be under the care of a specialist in internal disorders.

Mrs. G.:—We have an article on colic in babies which you may have by sending a fully self-addressed stamped envelope (the s. a. s. e.) to me in care of this paper. Meanwhile be sure the abdominal binder is not too tight, that you are not feeding too little or too much, or irregularly.

Me:—Have you had a physical examination to see that there is no organic basis for your trouble? If there is no organic disorder, I imagine that some daily vigorous physical exercise, systematically taken, for at least ten or fifteen minutes, would be a determining factor in improving your health.

Efficient Housekeeping

By Laura A. Kirkman

SOME GOOD MEXICAN DISHES

TOMORROW'S MENU

Breakfast
Dried Stewed Peaches
Creamed Dried Beef
Coffee Pop-overs

Luncheon
Omelet
Fruit Salad
Wholewheat Bread
Tea

Dinner
Cream of Celery Soup
Cold Sliced Beef with Tomato Sauce
Baked Potatoes
Spinach
Lettuce, French Dressing
Coffee Custard Pie

One of our Reader Friends, "Mrs. C. M.," has kindly sent in the following excellent Mexican recipes:

Home-Made Chili Con Carne: Put into a saucepan one-fourth cup of chopped suet. When it is sizzling add two pounds of round steak cut in small pieces and sprinkled with one-half teaspoon of salt and two tablespoons of flour. Also add one small garlic button minced. When the meat is browned add two tablespoons of chili powder and two quarts of cold water. Simmer from two to three hours, then add one pound of red Mexican beans which have been cooked separately, till tender, in salted water, then drained. Serve very hot in small soup bowls or in deep dishes. Corn-

bread or hot rolls go well with this dish.

Mexican Baked Beans: Soak two cups of white Navy beans in cold water overnight, and in the morning drain. Add fresh water to cover well and cook at the boiling point till they burst slightly. Drain again and place the cooked beans in a baking dish or a crock. Add to them the following mixture: Stir together one cup of molasses, one-half cup of sugar, one teaspoon of salt, four teaspoons of chili powder, one large peeled onion put through the food chopper and one-half pound of salt pork cut in small pieces. Add to this mixture enough water to cover the beans in the baking dish. After combining the two mixtures slip the dish into a medium oven and bake covered for two hours and then uncovered for two hours more, adding small amounts of water from time to time, to keep the mixture from drying. As the top beans brown, stir them under so as to give the lower ones a chance to brown as well.

Mexican Salad: Cut in small chunks one large green sweet pepper (seeds removed) one medium-sized onion and 4 ripe red tomatoes. Now cut four slices of bacon in short strips and fry till crisp in a hot frying pan; add to this fried bacon one teaspoon of chili powder and one-half cup of vinegar, and when the mixture boils up, pour it over the prepared uncooked vegetables. Heart and Home Problems

By MRS. ELIZABETH THOMPSON

KISSES

We have had a number of letters from girls lately about the part of kissing in association with young men. Here is an interesting letter on the subject:

Dear Mrs. Thompson: I know some facts about the kissing problem. "The modern pastime" as one up-to-date gallant gentleman terms it.

There are two sides to this thing or it wouldn't be under debate, and one side is right.

To love is to experience the highest emotion known. To kiss is to manifest that emotion. So how can self-respecting people trifle and trade in such sacred things? The very word "petting party" is nauseating.

Promiscuous kissing is but a degree from free love. "Big Jim" put it right when he said the only difference in pink and red is in the hue.

Because kissing is becoming a common practice does not justify its misuse. And getting engaged just to be within the law of the moral conservative doesn't shed the guilt.

There is many a girl who flouts her invitation to be kissed, and bristles with the "insult-the-lady" stuff, and there is many another of the sweet, pure type who yields the first kiss sincerely, thinking it is the seal of a lifetime love. Both types need teaching. There is another type far too few, who knows. And she all on crisp lettuce and, when cool, serve.

BEAUTY CHATS

EDNA KENT FORBES

MANICURE IMPLEMENTS

Keeping the nails attractive is a very hard task if you haven't the proper implements, and a very easy one if you have. You need not spend much money on these little tools; \$2 is enough for a whole set, and then I am allowing \$1 for the curved scissors, which are useless if they are not of the first quality. You need a flexible steel nail file, and had better pay at least 35 cents for a good one that will last you years. After that your only requirements are emery boards at a few pennies a package and a polisher, which can be bought for as little as 10 cents, or even made at home by sewing together pieces of old chamois to make a flat pad.

Polishing powder or paste can be purchased in the 10-cent stores, cuticle creams are not necessary, ordinary cold cream will do, orangewood sticks are a penny each, and the amount of absorbent cotton you will use costs practically nothing. You can, of course, spend as much as you like. It is very pleasant to have all sorts of expensive pastes and pomades and perfumes, but it isn't a bit necessary.

You want a small bowl of warm soapy water within reach when you manicure, and if your hands are stained, a slice of lemon as well. File your nails to the proper shape, soak them in the water, clean them and smooth the edges with the emery board. Clip off the two edges of the nail where the file will not go, nip off all ragged cuticle, cut the cuticle if you must, but if possible simply push it back with the orangewood stick. Rub the finger nails with the lemon. This is asstringent and often is all that is needed to make the cuticle around the nail smooth. Wash it off and rub with cream and then polish with a buffer. You may have to go over the nails again for ragged bits that show up after the polishing, and you will have to wash off the cream. All this is very easy and does not need an expensive equipment.

A Working Girl—The marks on your skin are whiteheads, a trouble similar to blackheads, as they are coarsened and impacted pores. Use hot, damp cloths to open the pores, after which scrub

with a complexion brush; close the pores after rinsing by changing to very cold water.

Gene F.—I am sorry but I am unable to tell you anything about

Have you the proper tools? The article mentioned, as it is a trade preparation.

Thillie—The fact that at times the pupils of your eyes are large would not mean that you were straining them; this is likely just something natural to your eyes. Dorothy—A few minutes' daily massage of the scalp will keep it in a healthy condition.

Tomorrow—Beauty Naps

All inquiries addressed to Miss Forbes, in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however. So, if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

Who's Who in the Day's News

ELKUTHERIOS VENIZELOS

The most heroic figure in Greece today is Eleutherios Venizelos, "grand old man" of that nation, and premier since the recent departure, by request, of King George.

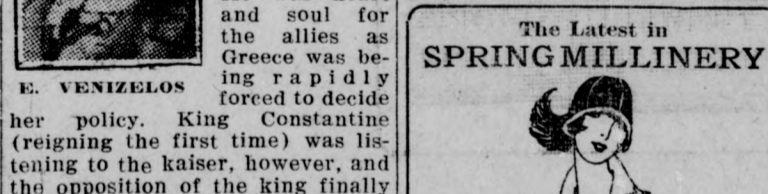

Venizelos, an outstanding figure in politics in his country for over a quarter of a century, is once more trying to place the government on a firm basis.

Venizelos was prime minister of Greece early in 1915. He was heart and soul for the allies as Greece was being forced to decide her policy. King Constantine (reigning the first time) was listening to the kaiser, however, and the opposition of the king finally led to an open break between himself and Venizelos and the resignation of the noted statesman. In 1917, following the overthrow of the Constantine government, Venizelos became head of the provisional government, and Constantine's second son, Alexander, became king.

In 1920, at a general election, Venizelos' government was repudiated and Constantine returned to the throne. Alexander died from the effects of a monkey bite. Venizelos represented his country at the Versailles conference and was one of the dominating figures at that historic gathering of statesmen. He visited the United States in the fall of 1921 with his wife to study political conditions here.

Since then he had been practically in retirement until the recent action of the Nationalists. Now, called into power again, Venizelos, despite his age and an illness which overcame him as he became premier, is acting with the fearlessness and precision which has long characterized his actions.

Venizelos has been head of the Nationalist party. One of his first acts on taking over the premiership was to demand that the party choose a new leader.

Faith Healing Issue In Church of England

LONDON, Feb. 20.—"Faith healing" promises to become a subject of controversy in the Church of England, following the report of a committee appointed by the Archbishop of Canterbury to investigate the subject. The report urged sick persons' not to look to clergymen to go the duty of physicians and surgeons," and advised the church "not to apply its means of restoration when no higher end than the recovery of bodily health is sought." The report, which also criticized amateur healers, is said to be opposed by certain factions in the church.

Daily News Letter

General News and Gossip from Staff Writers at Home and Abroad

By EDNA LEE BOOKER For International News Service.

FOOCHOW, Feb. 20.—America may think she invented the ouija board, but she is all wrong.

I first heard of the mystic board in Foochow from some young Chinese friends who had learned of the American ouija board.

We set off for the Black Rock temple in the hills of Foochow one afternoon—for the Chinese ouija board is connected with the religion of the people.

We watched the worshippers—dainty little ladies in brocaded satin costumes; field women in the blue coolie cloth coat and trousers of the worker; the pompous merchant, the slim scholar—men and women of all classes drawn to this mountain temple.

The priest led us to a rear temple. Here a large group crowded around two priests who were in charge of a long, sand-covered table.

Silently we watched the mystic brush form the characters until the question asked was answered.

A farmer presented his red ticket and took the brush, asking if he should rent a large farm and leave his present small holding where he had prospered.

The deal was off. Next came a middle class woman who asked if she would be able to give her husband sons.

It was my turn. I wondered if the pen would write for a foreigner. I did not know how to write the Buddha or light the red candles, but I did give the priest a generous "cum-sha."

The practice of prophecy is very common in northern and southern China, although little known in the central part of the republic.

YOUNG HARRIMAN TO WED MODEL

Marriage Scheduled When Decree Is Final

A sketch of Miss Harriet Hewitt by Harrison Fisher and (inset) a recent photograph of her.

Scarcely was the ink dry on the interlocutory decree of divorce obtained by the wife of Oliver Carley Harriman, eldest son of the millionaire banker, Oliver Harriman, before New York began hearing that he would be married to Miss Harriet Hewitt, former mannequin in an ultra-fashionable Fifth avenue shop, as soon as the decree is final.

Uncle Wiggily Bedtime Stories

BY HOWARD R. GARIS

UNCLE WIGGILY AND THE CHEESE

"Wait a minute, Uncle Wiggily! Wait a minute!" called Nurse Jane Fuzzy Wuzzy to the rabbit gentleman one day.

"What's the matter?" asked Uncle Wiggily, turning back. "Have I forgotten something? Did I leave the pink twinkle from my nose on the bath room shelf?"

So Uncle Wiggily hopped over the fields and through the woods, looking for an adventure. He did not have a very exciting one.

"Hello, Uncle Wiggily!" called Mr. Woodchuck. "Do you think it is warm enough for me to end my winter's sleep and come out?"

"That wasn't much of an adventure, thought the bunny. "If I can't meet with a better one than that, I may as well go to the cheese store."

"How much cheese do you wish?" asked the grocery cat. "Well, Mr. and Mrs. Longtail and their two children are coming to tea," answered the rabbit gentleman.

"Then I'll take a whole one," said Uncle Wiggily. But when he saw the cat bring out a cheese as large around as a wheel on a baby carriage and thicker than a hundred pancakes—well, Uncle Wiggily just opened his eyes wide.

"How ever am I going to get that home?" he asked. "It's too heavy for me to carry. "Roll it," said the grocery cat.

"The cheese is round and it has a thick crust on it. Just roll it along like a hoop." So Uncle Wiggily started to roll the cheese along, thinking to himself what a lot there was of it, and how happy the mouse family would be when eating it.

"Puff! Puff! Uff!" went the bunny, and the cheese was near the top when it almost slipped and rolled back.

"Gracious!" cried the rabbit. "If that cheese had rolled over me—that an adventure it would have been!"

However it was easier when he started down hill—too easy, in fact, for Uncle Wiggily could not hold the cheese back. It rolled so fast that it rolled away from him and bumped into Uncle Butter, the goat gentleman.

"Hi, there! What are you trying to do?" bleated the goat when the cheese had knocked him down.

"Oh, excuse me!" begged the rabbit, as the cheese rolled against a tree and came to a stop. "Excuse me, Uncle Butter, I am having a lot of trouble with this cheese."

"Yes, and you will have more trouble when you come to the path that leads down hill to your hollow stump bungalow," said the goat.

"What had I better do?" asked Uncle Wiggily, anxious like.

Timely Views on World Topics

The conception of marriage as a relation essentially secular lies at the basis of modern divorce legislation.

Dr. Thwing, famous educator. "It does not in the least recognize any peculiarly sacred character in the institution. The growth of atheistic and socialistic principles in society has weakened in the popular mind the conception of marriage as a Divine ordinance, and therefore as a tie of permanently binding force.

To those who eliminate God from the world it becomes an easy task to rob marriage of its sacred character. The institution of marriage rests upon a triangular base. It is founded upon the interest of the individual, upon the interest of the state and upon the Divine ordinance. To weaken this foundation upon any side causes the structure to totter."

On the Spur of the Moment

By ROY K. MOULTON

NOT TILL EASTER Dear Roy (writes anxious reader): Are you now in the Moulting Age?

THIS DAY IN HISTORY KANSAS CITY, Mo.—William Dorsey was fined \$50 all because he insisted on the principle of drinking his coffee out of a saucer.

Noon patrons in a restaurant complained to J. B. Morris, proprietor, because Dorsey made a whistling noise cooling his coffee after he had poured it in the saucer. Morris told Dorsey to stop and after an argument, Dorsey was removed to the street. There he tossed a brick through a window.

The controversy in the church reminds us of the story about the artist who was employed to renovate and retouch some oil paintings in an old church somewhere in Europe. When he presented his composite bill for \$67.28 he was informed an itemized statement would be necessary. So the following was duly presented:

For correcting the Ten Commandments \$ 5.12 For renewing heaven and every city. About \$3,300,000,000 raised to pay the yearly tax bills is coming from taxes on real estate.

"It is well to remember that labor itself is in the grip of the same vicious circle of high taxes, high rents and high cost of living. The high cost of living results from a multitude of factors in addition to taxation. But somewhere and somehow every dollar of the billions paid in taxes tends to increase the prices of the commodities of commerce and consequently is reflected in living costs."

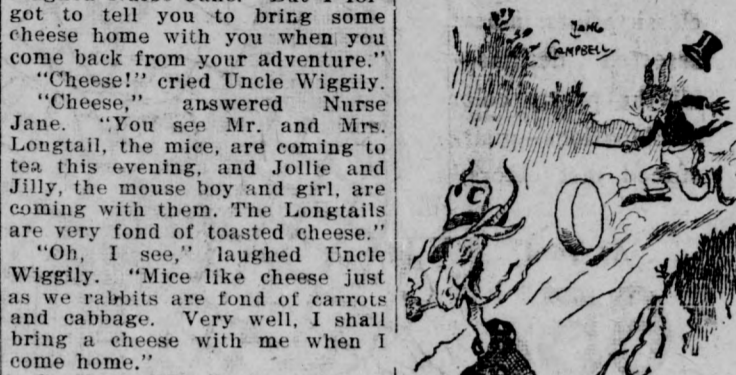

"Our present high surtax rates are diverting capital from industry and into tax exempt bonds. The net effect on the workers is that their government not only is making them pay excessive prices for everything they buy with their wages but, in addition, by imposts on industry is making present jobs less secure and future jobs less certain."

FOR THE KIDDIES What we will see advertised in 1935: Handsome Bridge Tables—Your little eight-year-old need no longer be ashamed to invite his boy or girl friend in for a rubber of bridge. These handsome tables with clever nursery rhymes painted on them are just the thing for an after school "session."

Safety First—Beautiful children's model .44 caliber revolver is a sensible gift. Just read the evening newspaper and you will be convinced he is not safe without one.

Maybe He Likes to Read—A subscription to "Nation," or "Poet Lore" might interest him, or many books like "A Murderer's Diary," children six to eight; "Cavemen of History," children ten to twelve.

For Girls—We have dolls that say "Oh, Boy!" when you squeeze them. Real flapper dolls with rouged lips and sawdust stuffed heads. Sure to please.

It rolled away from him.

Then Uncle Butter started the rabbit gentleman, inside the cheese, rolling down the hill.

Over and over, down, down, down, rolled the bunny in the cheese. And, just as Nurse Jane and the mouse family were getting hungry for supper, along at the bottom of the hill bounded Uncle Wiggily.

"Here I am and here's your cheese!" he cried in his jolly voice. "Welcome, Mr. and Mrs. Longtail, and you two little mouse children!" Then they all sat down to supper, the mice eating cheese, Uncle Wiggily eating carrots and Nurse Jane eating strawberry pie.

10 Years Ago Today

From Evening News Files

North Glendale residents using Stocker street west of Brand to Pacific will be very glad when some provision is made to make traffic possible as the street is impassable and very dangerous as well.

The Burbank Chamber of Commerce is going at the matter of street tree planting in a systematic way. The park and boulevard committees have appointed sub-committees from residents of each street, who will decide what trees are wanted.

J. P. Alexander, a tall Texan, living at 642 Acacia street, Tropic, is a famous turnip raiser. He has one in his garden now, saving for seed, that measures twenty-five inches in circumference.

OFFERS BARGAIN IN TAVERN SITE

L. H. Wilson to Sell Premises On San Fernando at Attractive Price

L. H. Wilson, 1034 South San Fernando road, is offering for sale this week at a rare bargain the beautiful and commodious structure at 1120 South San Fernando road, formerly used by the Glendale Tavern.

The building is fully equipped for hotel, club or tavern purposes. It has two large dining rooms, large halls and reception rooms, four small party dining rooms, a wonderful kitchen with mammoth range, large steam table, two large refrigerators, big cement basement.

All parts of the building are beautifully furnished, no expense having been spared in fitting the place thoroughly for hotel purposes. The site is located on one of the most traveled roads in Southern California, at a point where land values are sure to rise. Mr. Wilson, owner of the place, is offering it this week at a bargain price and the easiest kind of terms. He said he would carry two-thirds of the price at 7 percent interest for five years.

Orphan Boy Hunts Uncle In Glendale, Police Aid Search

There is an exceptionally bright little boy at police headquarters, 10 years old, who is looking for his uncle in Glendale.

He left the coast town yesterday on a bicycle to find his uncle in Glendale. He was not able to locate him yesterday.

Today Chief Fraser is to assist him in his search. He says the uncle works in a hardware store and is a member of the Holy Name society of the Catholic church, but does not know his name.

SAFETY PLAN TO GO INTO EFFECT

Council and Police Working On Scheme to Protect School Children

Plans for the better protection of children in the neighborhood of the schools are under consideration by the City Council and the police authorities and will be put in force within a few days, according to a statement made by H. M. Butts, chairman of the Chamber of Commerce civics committee at the weekly meeting of the directors last night, President W. E. Hewitt in the chair. A letter from F. M. Runyon, 223 South Brand boulevard, urged the establishment of a wide safety zone around all schools and a speed limit of ten miles per hour for cars.

City Manager Stone also advised Mr. Butts, the latter reported, that, if the City Council can prevent the operation of private auto camps within the city limits, under any of the three suits that are now pending, he will recommend the establishment of a municipal auto camp.

Planning Commission

The need for a city planning commission was pointed out in the report of T. W. Watson, chairman of the city planning committee, who declared that a large volume of improvements is now being carried out in all parts of the city that could be better harmonized through the workings of such a commission, and he stated that an ordinance providing for its appointment is to be prepared by the city attorney.

Fire hazards that menace Glendale during the dry season were emphasized, and it was decided to appoint a committee of three members to secure fire-fighting equipment and to plan for training an organization that would fight any outbreaks that may occur in the hills surrounding the city. F. P. Newport, owner of Verdugo Woodlands, related the preparations that he has made on his property to combat the fire menace, including the cutting of firebreaks and trails and the installation of water hydrants and other equipment for the fire-fighting gangs.

Delay on Sewers

Chester A. Smith, engineer for Burns & McDonnell, reported that progress on the sewers has been slightly delayed through negotiations for several rights of way, and stated that, unless some agreement in these cases is reached at once, the city will be advised to start condemnation proceedings.

The directors endorsed the

TELL-TALE TIRES LEAD TO ARREST

Owner of Stolen Auto Spots 'Rubber' on Car Driven Along Boulevard

On February 11 a Ford touring car belonging to LeRoy Perkins, 1009 East Elk street, was stolen. It was later located by the police, but the tires were missing. Perkins made the statement at the time that he could identify the tires if he ever saw them.

Yesterday afternoon he was standing at the corner of Brand boulevard and Broadway talking to Officer R. Baugh, when two boys drove by in a "bug."

"There are my tires," shouted Perkins.

Officer Baugh stopped the car, and arrested the two boys. At the police station they gave their names as Arley Ward, 2001 Eucalyptus street, and Mitchell Eller, 4031 Eucalyptus street, both of Los Angeles.

Later in the evening Albert Hill of 4132 Park Dale avenue came to the police station and gave himself up, saying he was implicated in the theft with the two boys already arrested.

All three of them, who are 16 years of age, are being held pending further investigation to determine if they are connected with auto thefts in Glendale.

ADVENTISTS WILL HEAR MISSIONARY

Prof. P. A. Webber to Relate Experiences of Ten Years In Japan

Professor P. A. Webber, for ten years a missionary in Japan, will speak Saturday night at the Seventh Day Adventist academy in Sycamore Glen on "In Old Nippon With the Nipponese."

He had the experience of being in the recent earthquake, and his illustrated lecture Saturday night will be of wide interest.

Japanese costumes will be shown during the evening.

Proceeds are to go to buy equipment and to beautify the academy grounds. Admission charges will be 25 cents for adults and 15 cents for children, on the payroll have not.

Press Luncheon Will Feature Club Meet

A press luncheon is to be one of the feature affairs of the convention April 8, 9 and 10 of the Los Angeles District, California Federation of Women's clubs, in Glendale, and Miss Eva Daniels, publicity chairman of the Tuesday Afternoon club, has been named by Mrs. Charles H. Toil, president of the federation, as in charge of the luncheon plans.

Harold Lloyd In Hilarious Comedy

(Continued From Page 1)

cent. Two or three of the titles are masterpieces of humor, but for the plot and editing of the film only the work of the star saves it from mediocrity.

Some new stunts in photography are revealed and the Glendale audience, which is quite critical, proclaimed "Girl Shy" to be the best comedy seen in many a moon. On the surface it would appear that Lloyd has put his best into the work, but some of his friends on the payroll have not.

Previews Get City Good Publicity

Previews bring valuable publicity to Glendale. In a recent sheet from the Ince studios we note a paragraph pertaining to the enjoyment registered by patrons of the Glendale theatre when "Galloping Fish" was shown. Syd Chaplin is the star of that release. He suffered from "too much story." So it seems that nothing is ever perfect, but always near enough to be interesting.

CURRENT NEWS PATHE REVIEW

It Gets On My Nerves!

Investigation has shown an interdependent relationship between Health and Crime. Murder or Suicide are finished products of overtaxed nerves. The rash acts which in more sober moments would never occur—WHY?—Well they answer "It just got on my nerves." A statement which is 100% pure CHIROPRACTIC philosophy.

Now what really gets on the nerves? It is pressure from muscular contraction overlying the bony segments of your SPINE. This may be caused by worry, excitement, accumulated poison within the body or injury from without, until you are helpless of yourselves, but CHIROPRACTIC stands ready to relieve you as it has millions of others.

CHURCH WORKERS LEARN OF CHINA

Medical Missionary Speaks To Presbyterian Women At Combined Meet

The regular monthly all-day meeting of the combined Women's societies was held yesterday at the First Presbyterian church, with a large number of workers present. The missionary meeting opened at 10:30 o'clock, with the president, Mrs. George McDill, in the chair. The program was in charge of Circle 1, of which Mrs. D. B. Pingree is chairman. Mrs. Ray L. Morrow led the devotionals.

The leading feature of the program was a talk on foreign missionary work, by Dr. Mand Mackey, head of the hospital work under the Presbyterian board in China. Dr. Mackey has spent approximately twenty years in the Orient, and gave many interesting facts connected with the medical work, speaking particularly of the Hodge Memorial hospital in Peking, which was established by the members of the Hodge family, in memory of a sister who was killed in the Boxer uprising in 1900. She gave some interesting lights on the character of the natives, their eagerness for knowledge and enlightenment of any kind.

High Prices Are Barrier

The missionaries are feeling the high prices of commodities in that country, and are beginning to feel handicapped. Funds available are inadequate and stations are being closed in some localities, while salaries have been cut 5 per cent.

Dr. Mackey has been spending a year's furlough in the States, and will leave March 4 to return to her work in China.

The women of the missionary society have been observing "sacred week" and, as a result of one week's saving, they turned in a generous collection yesterday of \$97.46. In addition, a special collection amounted to \$27, which will be added to the missionary fund.

Mrs. Fife read a letter for the home mission society, which acknowledged the Christmas box, sent by the women to the Indian school at Tucson, Ariz. The letter contained many notes of interest in connection with the work among the Indians, as well as heartfelt appreciation of the generous gifts.

Luncheon was enjoyed at 12:30 o'clock, with Mrs. Stadt in charge of general arrangements. This was followed by a meeting of the executive board and election of officers. Mrs. J. C. Newton, president of the women's society; Mrs. J. C. Newton, vice-president; Mrs. A. D. Smith, president of missionary society; Mrs. George McDill, vice-president. Mrs. J. J. Davis was elected chairman of the work department. Remaining officers and chairmen of standing committees will be announced following the next executive board meeting.

Natural gas subjected to a tremendous pressure by a secret process, turns to liquid at 317 degrees below zero, and from it helium then is drawn off.
