HAVANA UNIVERSITY SCANDAL.

(Associated Press.)

Havana, June 22.—The postal frauds
have rather swamped the scandal exist-
ing in the university which has been the
milking ground for some of the best men
in Cuba, who, as under professors, re-
ceived \$24,000 a year. There were 72
of these professors who drew other gov-
ernment salaries. When this was called
to General Wood's attention he immedi-
ately inaugurated reforms which result-
ed in cutting down the list to 46, includ-
ing assistants, who seem enough, con-
sidering that there are only 450 students.

BOMBARDMENT OF TIEN TSIN

Reported Attack on the City by Regulars
Has Been Confirmed—Shelled
For Two Days.

THE CHINESE CAPITAL NOW BESIEGED

Shanghai Dispatch Says That Fifteen Hundred Foreigners
Have Been Massacred—Allied Commanders at
Taku Preparing to Send Relief.

(Associated Press.)
London, June 22.—Lord Salisbury
presided this morning at a meeting of
the cabinet specially summoned to con-
sider the Far Eastern crisis.
Prior to the meeting the French am-
bassador, M. Paul Cambon, and the
Chinese minister, paid a lengthy visit
to the officials of the foreign office, and
it is reported that important develop-
ments will be the outcome of the cabinet
meeting, as Lord Salisbury proceeded to
Windor after the meeting.
The apprehensions as to the fate of the
Europeans cut off at Tien Tsin have
been sharpened by Admiral Kempf's
message, which was the first definite in-
formation of the bombardment and des-
truction of the foreign concessions. But
in spite of Shanghai's grim statement
that the Chinese used forty pounders
and that 1,500 foreigners were massacred,
there is no reason to conclude that the
foreign colony has been unable to protect
itself.
Shanghai also reports that Tien Tsin
was bombarded for two days, adds that
the casualties were 100, estimates that
5,000 international troops are there, and
says that now the allied commanders at
Taku are hastily pushing forward a re-
lief column, it is hoped the worst ap-
prehensions will soon be dispelled.
Another dispatch announces that all
the members of the foreign community
of Pei Tai Ho have arrived at Chee Foo
on board the Nashville, but that they
left all their possessions behind them.
A dispatch to the Associated Press
from Shanghai, under this afternoon's
date, says five Chinese warships passed
Woo Sang today, and that the officers
of the British armored cruiser Un-
dashed visited the Chinese commanding
officer and received an assurance that
the ships were under orders to act
against any Boxer rising.
The superintendent of foreign tele-
graphs has started for Chee Foo to or-
ganize a service thence to Shanghai.
It is understood the admiralty has re-
ceived a dispatch from the British
naval commander in Chinese waters on
the subject of the heavy damage done
to the foreign concessions at Tien Tsin
and the casualties of the international
forces. This has yet been published.
The admiralty sent orders to Port-
smouth and Plymouth this morning to
hold detachments of—marine, artillery
and infantry in instant readiness for
service in China.
It is thought in some quarters that
Li Hung Chang's failure to go to Peking
indicates he is aware the situation is so
bad that it is impossible for him to
overcome the difficulties.
Japanese Report.
London, June 22.—A special from
Shanghai says that it is reported from
Japanese sources that 1,500 foreigners
have been massacred at Tien Tsin.
Russians Hard Pressed.
Chee Foo, June 22.—It is officially re-
ported that the bombardment of Tien
Tsin, with large guns, continues incess-
antly.
The foreign concessions have all been
burned, and the American consulate has
been razed to the ground.
The Russians are occupying the rail-
road station, but are hard pressed, the
casualties are heavy.
The railroad is open from Tong Tau
to Ching Liang Chung, half way to Tien
Tsin.
Official Statement.
London, June 22.—In the House of
Commons today Mr. Wm. St. John
Broderick, the under secretary of state
for foreign affairs, said the foreign of-
fice had no news from Peking or Vice-
Admiral Seymour.
He added that news, by runner on
June 18th, from Tien Tsin, arriving at
Taku on June 21st, announced that sev-
eral attacks had been made and repul-
sed.
Continuing, Mr. Broderick said that
on June 17th the Chinese shelled the
foreign settlement and the Chinese mili-
tary college was attacked by a mixed
force of 150 Russians, British, Germans
and Italians. They destroyed the guns
and burned the college, which contained
a considerable store of ammunition, and
killed its defenders.
The Russians, with four heavy field
guns, did excellent service. The British
lost one man killed and five men
wounded. The Germans had one man
killed, the Italians had five men wound-
ed and the Russians had seven men
killed and five men wounded.
During the night of June 17th the
Chinese tried to seize the Bridge of
Bois, but were repulsed with loss; in-

Hamilton En Route to Heidelberg
Where He Will Join Na-
tional Forces,

And Prevent Joint Action Be-
tween Transvaalers and
People to the South.

(Associated Press.)

London, June 22.—Lord Roberts re-
ports that Gen. Ian Hamilton reached
the Springs yesterday en route for Hei-
delburg to join hands with Gen. Bul-
ler, who is expected to reach Standerton
to-morrow.

Otherwise there is no news of impor-
tance from Africa.

The dispatch of Lord Roberts in full
is as follows:

"Victoria, June 22.—Ian Hamilton's
column reached the Springs yesterday en-
route to Heidelberg, where they will
join hands with Buller's troops, who
reached Paarde Koop yesterday and will
be at Standerton to-morrow, thus open-
ing an communication between Pretoria
and Natal, and preventing any joint re-
sistance between the Transvaalers and
the people of the Orange River Colony."

"Raden-Powell reports from Rusten-
burg that he found the leading Boers
very pacific and cordial on his return
journey hence. Commandant Steyn and
two actively hostile field cornets had
been captured during his absence."

"Lord Edward Cecil, the administra-
tor of the Rustenburg district, has to-
date collected 3,000 rifles."

"The commissioner at Kroonstad re-
ports that 341 rifles have been handed in
at Wolmarans."

The New Governor

Sir Henri Joly Sworn in as Suc-
cessor to Hon. T. R. Mc-
Innes.

His Honor Will Leave Ottawa for
Victoria on Monday
Next

(Special to the Times.)

Ottawa, June 22.—M. E. Bernier, M.
P., St. Hyacinthe, was sworn in Min-
ister of Inland Revenue at 12:30 p.m.
today in place of Sir Henri Joly. Jus-
Tachereau, who is deputy-governor,
in place of Lord Minto, administered the
oath of office. The Governor-General is
on the Restigouche enjoying a few days'
fishing.

Sir Henri Joly, who has been appointed
Lieut.-Governor of British Columbia,
will leave for Victoria on Monday next.
Lieut.-Governor McInnes, who has
been Lieut.-Governor of the province for
two years, and who has nearly three
years of term to run, has been notified
that his commission has been revoked.
The order-in-council removing Lieut.-
Governor McInnes, and the order ap-
pointing Sir Henri Joly have been ap-
proved by Lord Minto.

Sir Wilfrid Laurier will make an ap-
pearance this afternoon in the Court
rooms on the above charges.

The salary of the Lieut.-Governor of
British Columbia is \$9,000 per year. Sir
Henri will make a popular Governor,
and Mr. Bernier's appointment to the
Inland Revenue department is equally
well received.

The writ for an election in St. Hy-
acinthe will be issued at once. Mr. Ber-
nier will have to be re-elected before
taking office.

Later—Sir Henri Joly has been
sworn in Lieut.-Governor of British Co-
lumbia.

The writ for the election at St. Hy-
acinthe has been issued. The nomination
is fixed for the 4th July and the election
for the 11th.

Administrator Appointed.

Ottawa, June 22.—Chief Justice Mc-
Coll has been appointed administrator
for Lieut.-Governor Joly until such
time as the latter arrives in the pro-
vince. Chief Justice McColl was ap-
pointed at a meeting of the cabinet this
afternoon.

Statement by Premier.

Ottawa, June 22.—In the House to-
day Sir Wilfrid Laurier announced the
removal of Lieut.-Governor McInnes
and the appointment of Sir Henri Joly
and also M. E. Bernier, all of which
were received with applause.

Buller's Move Westward

May Cut Off Communication Between Boers in Transvaal and O. R. G. Colony.

Many Burghers Surrender Arms - Kruger's Government Short of Cash.

London, June 22.—On Wednesday General Buller followed the Johannesburg railway to Paarde Kop, 41 miles from Standerton. About 300 Boers, singly or in small parties, have surrendered.

The war office has issued a list of casualties in engagements around Heilbron, previously undisclosed.

Lord Roberts has adopted the Transvaal mining regulations for military administration.

A dispatch from Lorenzo Marquez says: "The Boers have printed and posted at every corner the following: 'Machodorp, Monday—The Paris' expedition has closed and France has declared war against England. Fifty miles of railway has been destroyed in the Free State and 3000 British have surrendered.'

Five miles of telegraph between Kompoort and Koopland are down, and native runners traverse the distance. The Boers continue to assert that they have had successes east of Pretoria.

The colonial office publishes a notification by the military governor of Johannesburg of the stoppage of a cheque for £4,000 drawn for the French Bank in South Africa upon the National Bank of the South African Republic.

The Transvaal government, according to the Lorenzo Marquez correspondent of the Times, is reduced to severe financial straits, and is endeavoring to meet the emergency with treasury bills, but the people refuse to accept them.

The first train for Pretoria left Cape Town yesterday.

Sailed For Europe. London, June 21.—It is hoped in London that Gen. Buller's advance westward will hasten the conclusion of hostilities by cutting off all communication between President Steyn and General Dewet's force in the Orange River Gorge.

At Paarde Kop. Paarde Kop, Transvaal, June 21.—The British column arrived here to-day. The presence of the army has induced many burghers to lay down their arms.

The retreating Boers have destroyed a bridge and culvert, but the Sandpspruit bridge is little damaged.

Reported Death of Seymour Is Not Credited—Japan's War Preparations.

London, June 22.—United States gunboat Menominee was wrecked upon the Pei Ho river when the international fleet began the bombardment of the Taku forts. According to the Shanghai correspondent of the Daily Express, she was shot through the bow.

The scantiness of authentic news with reference to the situation continues.

The British admiralty does not believe the report of the death of Admiral Seymour, commander of the international relief column, and semi-official assurances are given that there seems to be not the slightest evidence to believe that Admiral Seymour had sufficient supplies to enable him to get to Pekin or to get back.

We are hopeful, says the semi-official announcement, "that since he has not done the latter, he has done the former of a Shanghai dispatch to the Associated Press, dated yesterday says: "The consuls met to-day to consider the situation, which, in the absence of news from Pekin, is looked upon as particularly threatening. Grave fears still exist as to the safety of the Europeans in Pekin."

It was agreed to wire to the senior consul at Chee Poo to communicate with the senior officer at Taku, asking for immediate assistance in communicating direct with Pekin, which they believe can be brought about through Sheng, director of telegraphs. They advise that Sheng be asked to explain the interruptions of communications.

The stoppage of trade has thrown ten thousand coolies out of work at Shanghai. All the English ladies at Tien Tsin left there Saturday by train for Taku.

Shanghai wires—they had some exciting experiences and would not have got through except for the assistance of the Chinese troops. The Boxers made several attempts to attack the train. Taking advantage of political disorders, bands of robbers are pillaging in the vicinity of Sam Chen. The Chinese authorities are powerless.

The explanation given in Hongkong of the failure of Li Hung Chang to go to Pekin is that there is a rising on the border of the Kow Loon Hinterland.

The Singapore correspondent of the Daily Telegraph telegraphing yesterday, says: "Kang Yu Wei, the reformer, asserts that the Russian agents precipitated if they did not entirely organize the present disturbances for purely Russian purposes."

A dispatch to the Daily Telegraph from Shanghai says that the missionaries from Tsang Chow have safely arrived at Wei Hei Wei.

The Shanghai correspondent of the Times says: "Great destruction was caused by the Boxers in the native quarter of Tien Tsin on June 15th, but the presence of the foreign troops in the foreign settlement protected that. The native press asserts that there were no deaths among the Manchus party. A field post service from Taku to Pekin is being organized here and will proceed immediately. Chinese military students are leaving Japan."

The Daily Mail published the following from Yokohama, dated Wednesday: "Great secrecy is maintained regarding Japan's military preparations. Fifteen large transports have already been chartered and 15 warships are mobilizing."

To Visit This Province

The Dominion Live Stock Commissioner Will Be Here in August.

His Assistance Likely to Be of Great Benefit to Stock Breeders.

During J. R. Anderson's recent tour on the Mainland he most fortunately fell in with F. W. Hodson, Dominion Live Stock Commissioner, who was on his way to Victoria for the purpose of meeting Mr. Anderson and discussing means by which his (Mr. Hodson's) services could be made available in the interests of the farmers of the province.

In consequence of the meeting Mr. Hodson did not come on to Victoria, but travelled eastward for a time in company with Mr. Anderson.

Mr. Hodson, before he was selected for his present position, occupied that of superintendent of institutes in Ontario, and in which he was most successful, raising the system in a few years from a very small beginning to its present flourishing condition.

The Dominion government was not slow in recognizing his abilities, and he was therefore asked to accept the position which he now fills, and for which he is so well qualified.

Mr. Hodson's wish is to concentrate the efforts of our government in making ap-

propriations for benefit of the farmers, so that the best results may be obtained, and to that end he has asked Mr. Anderson to furnish him with such particulars of the various acts, appropriations and other material, so that he may be in a position to make suggestions for a future policy.

He quite recognizes that the average farmer of this province is unable to obtain the best results single handed, and that it is only through co-operation with each other that they can possibly hope to obtain that which appear beyond their reach.

He is of opinion it is through the Farmers' Institutes that these results can be best attained, and he therefore suggests that a scheme be evolved, so that all may join as members, that the appropriations be directed in one channel, that an effort should be made to induce the Dominion government to give assistance in the same direction, and that the services of himself and other Dominion officers be given, so that those who are unable to import-bred stock on their own account, may, through the medium of co-operation have the benefit of such stock as may be obtained in that manner.

Mr. Hodson, from his position, is thoroughly acquainted with all the breeders of pure stock, and the value of such stock, he is therefore eminently qualified to act as purchaser, and inasmuch as there are no attendant expenses such as commission, etc. it will readily be seen that the advantage of such an agent is beyond question.

He is also in a position to command the lowest freight rates, being in touch with all the authorities of transportation lines.

It had been Mr. Hodson's intention to proceed to England after his visit to this province, but after his interview with Mr. Anderson he has relinquished the idea and will return to the province whenever it can be arranged for him to make the tour of the country and take in all the institutes. This Mr. Anderson thought had better be done during August, and Mr. Hodson is therefore prepared to come at that time and will in such case address meetings of Farmers' Institutes wherever they are arranged.

It is Mr. Hodson's earnest desire that Mr. Anderson should attend, on the part of the province, the annual meeting of stock breeders, which is to take place during the autumn, in order that the province may come in closer touch with Eastern breeders and methods.

It is noteworthy in connection with this matter that the districts of Kamloops and Okanagan, although two of the rich-

DO YOU FEAR HEART FAILURE?

No death comes so suddenly and unexpectedly as that caused by heart failure, but the trouble had its beginning months or perhaps years before when the blood became thin and watery and the nerves exhausted.

Gradually the waste has become more rapid than the process of repair, the tissues of the heart have become diseased and finally some over exertion or nervous shock has caused the beating to cease and life to depart.

Dr. Chase's Nerve Food prevents heart failure and all similar diseases by creating new, rich blood and nerve force, and building up the system.

Interview With Minister Wu on the Situation in China.

Washington D.C., June 21.—Minister Wu was seen to-day after his visit to the state department.

He said Secretary Hay had expressed his gratification at the news the minister had brought from Viceroy Liu of three great Yang Tse Kiang provinces, Kiang Su, Kiang Si, and An Hui, to the effect that he, in conjunction with his colleague, Viceroy Chan, of the province of Hunan and Hu Pei, were fully competent to maintain order and ensure protection to all foreigners within their jurisdiction, and asking that no foreign powers be landed within the provinces.

Minister Wu said he would reply to Viceroy Liu and repeat Secretary Hay's assurances that no foreign troops, or more specifically, that no United States forces would invade his territory so long as peace and order are preserved therein.

The appearance of alien forces in these provinces, said Wu, far from having a subduing effect on any disorder

Mrs. Pemberton, of Gonzales, has issued invitations for an "At Home" on Tuesday, the 26th.

Mr. and Mrs. C. E. Baxter, of Leighton road, have as their guest Mr. Baxter's mother, who has recently arrived from the East.

Mrs. Ormond Fletcher, of Portland, Ore., who formerly resided in Victoria, is the guest of Mrs. E. H. Fletcher, of Rockland Avenue.

Mrs. Spratt, of the Gorge road, gave a most enjoyable luncheon party on Friday last in honor of the charming California girl who is making her a visit.

Mr. and Mrs. Mara, of Kamboos, who are well known in Victoria, have come here to reside and are temporarily at Roccebella while their new home is being prepared.

Mr. and Mrs. Griffith, who for some time have occupied the charming bungalow on Terrace avenue, are about to move into a very fine new house on Rockland avenue.

Lady Taylor, of Toronto, is coming out to visit friends in July and will be here for the meeting of the National Council of Women. Lady Taylor is president of the National Council of Women.

The return of the Bishop of Columbia and Miss Perrin to Victoria after an extended visit to England, is greatly welcomed. Miss Perrin was for a time the guest of Lady Aberdeen at Haddy's Home, the charming home of Lord and Lady Aberdeen in Scotland.

The news of Mr. Kalns's serious illness caused great anxiety amongst his many friends, who will be greatly relieved to learn that he is much better. The suspense in which Mrs. Kalns was kept for some days was very trying and every sympathy was extended to her.

Another very sad touch of the war has fallen upon Victoria in the news of Captain Blanchard's death, which every one was grieved to hear. It is but a few short months since with prayers and best wishes we said goodbye to this brave young officer who has answered the roll-call of death. Sincerest sym-

pathy is expressed for his relatives and friends.

The almost constant drizzle this week has, with the plan of many fair hostesses and caused the postponement of the "At Home" on the Warespite, but society is anticipating a most delightful affair when it does come off, which it will on Wednesday next, when all the dainty gowns which are the result of many shopping expeditions and visits to the dressmakers shall appear in all their loveliness and freshness, giving happiness to the wearers and exciting general admiration.

The ladies' committee of the British Columbia Protestant Orphan's Home have sent out invitations for a garden party to be given at the home, Hillside avenue, on Tuesday, the 26th. Some of the patrons are the Mayor and Mrs. Hayward, Sir Henry and Lady Crease, Bishop and Mrs. Cridge, Lieut.-Col. Benson, R.C.A., and Mrs. Benson, Rear-Admiral Beaumont, C.I.C., P.S., and Mrs. Beaumont, Hon. W. J. and Mrs. Macdonald, Bishop and Miss Perrin, Col. Grant, R.E., Mrs. Grant and Lieut.-Col. Gregory. The idea of making the event a "Fund Party" is somewhat novel and yet enables all to exercise their charity. It is a cause which appeals to the heart of every one when once attention is drawn to the needs of this institution. A very pleasant afternoon is anticipated, judging from the ladies who are on the entertainment committee and there will be as well the happy consciousness of having contributed to the worthy cause.

FRIVOLITY.
John Hallam, of Toronto, died last night. Mr. Hallam was a Lanesshire lad who came to Toronto and made his fortune in business so successfully that for many years he had been the largest leather merchant in Toronto. THE AMERICAN PAVILION.

Paris Correspondent of New York Tribune Says It Is Unworthy of the Nation.

New York, June 22.—The Paris correspondent of the Tribune says: "This is the sixty-seventh day since the exposition was opened and the patriotic Americans have so far refrained from caustic criticism of their national pavilion in hope that something would be placed in it to put it on an even footing with other countries. But after President Loubet's visit to-day it is impossible to conceal the fact that in the opinion of 99 out of a 100 Americans who have seen it, the United States pavilion as far as its contents are concerned, is unworthy of America and causes unpleasant impressions when compared with the German pavilion, with its art collection of Frederick the Great, with the British pavilion containing canvases by Van-dyke, Reynolds, Gainsborough and Burne-Jones, with the pavilions of Italy, Spain, Russia, Hungary and Austria admirably displaying their respective industries. The American pavilion is not only far inferior to the national pavilions of first-class countries, but discreditable even when compared to the pavilion of microscopic states like Monaco or the Republic of San Marino. Under the pavilion is a third-class 'American' restaurant with French waiters and a soda water fountain, but where one cannot obtain American wines or porter house steaks or terrapin or buck-wheat cakes."

Symptoms Disappear When Drug Is Abandoned.

"Tea and coffee were forbidden by my physician, for I had symptoms of paralysis and it was plain that the coffee was the cause of the trouble. I began using Postum Food Coffee and am now a steady advertiser for Postum. The old symptoms of paralysis disappeared in a very brief time after I began the use of Postum and quit the use of coffee. Do not use my name publicly, if you please."—Morrow, O. The above name can be given by the Postum Cereal Co., Ltd., Battle Creek, Mich.

Eager For Service

Officers, Non-Coms., and Men of "A" Co. Volunteer For China.

Importance of Esquimaux as a Base of Supplies in the Present War.

"A" Co. 3rd R. C. E., stationed at Hospital Point, has demonstrated that it is willing to assume more serious duties than those of sentry go. The progress of the war in China has been watched with special interest by the men here, owing to the fact that this city is only about ten days from the Orient, and would be one of the points from which the home government would throw in men and munitions of war should British interests become suddenly imperilled. But all these things which sound promising enough for service to the regular troops, held out little prospect to the Canadian detachment here, who were raised as part of a special service regiment to garrison Imperial posts in Canada in order to allow the regular troops to proceed to South Africa. The duties of this regiment when raised were strictly those of a garrison corps, with the option to the men of dropping out at the end of a year's service. The surprise of Colonel McKay and his pride in his command may therefore be judged when yesterday a petition was placed in his hands for transmission to the proper authorities asking that the company be permitted to serve Her Majesty the Queen in China, or wherever the British government might require their service.

The petition, which was signed by every member of the corps from the color sergeant to the bugler boys, was properly endorsed by Colonels McKay and Benson, D.O.C., the former incorporating his own offer of service, and sent forward yesterday to Ottawa.

"A" Co. has the distinction of being the first company in Canada to offer its services to the home authorities, and all will hope that should necessity arise the desire of the brave fellows for active campaigning in the East may be gratified.

Wornout Nerves

So Weak She Couldn't Sleep or Work—Hands Trembled—Could Scarcely Walk—Restored by Dr. Chase's Nerve Food.

Mrs. Margaret Iron, Tower Hill, N. B., writes: "Dr. Chase's Nerve Food has done me a world of good. I was so weak that I could not walk twice the length of the house. My hands trembled so that I could not carry a pint of water. I was too nervous to sleep, and unable to do work of any kind. Since using Dr. Chase's Nerve Food I have been completely restored. I can walk a mile without any inconvenience. Though 76 years old, and quite fleshy, I do my own housework, and consider myself sewing, knitting and reading besides. Dr. Chase's Nerve Food has proved of inestimable value to me." Dr. Chase's Nerve Food is the world's greatest restorative for pale, weak, nervous men, women and children. In pill form, 50 cents a box, at all druggists, or Edmondson, Bates & Co., Toronto. Don't cough, use Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle.

Distressing Diarrhoea

Can be promptly relieved and cured by Dr. Fowler's Extract of Wild Strawberry.

The pain and suffering, the weakness and oftentimes collapse associated with an attack of Diarrhoea, make it a disease to be dreaded and for which prompt relief and a ready cure are greatly to be desired. The salutary action of Dr. Fowler's Extract of Wild Strawberry in giving almost instant relief from the pain, checking the too frequent and irritating stools, settling the stomach and bracing up the weakened heart, render it without a peer for the treatment of bowel complaints of young or old. Mrs. Peter Christensen, Parry Sound, in speaking of this remedy, says: "I have been very much troubled with Diarrhoea for the last three summers, and have always had to have the doctor before I could get it stopped. This summer I used Dr. Fowler's Extract of Wild Strawberry, and it cured the Cramps and Diarrhoea promptly. I have given it to my little girl for the Colic and she got relief at once. I can highly recommend this most valuable remedy." Always ask for Dr. Fowler's Extract of Wild Strawberry and refuse substitutes or imitations, many of which are worthless and some of them highly dangerous.

THE GOVERNOR'S DISMISSAL. We do not know that the letter of Mr. McInnes in another column is worthy of notice. He probably understood, as no doubt all of our readers understood, that in the article published last night we were dealing with the specific case now occupying the attention of the public in British Columbia.

He probably understood, as no doubt all of our readers understood, that in the article published last night we were dealing with the specific case now occupying the attention of the public in British Columbia.

THE NEW CABINET. The majority of the people of British Columbia may not be satisfied with the Premier's choice of colleagues, but they will cordially welcome the relief he has brought them from the unsettled and unsatisfactory conditions of the past few months.

we have had enough of political turmoil and unrest and is anxious to see order permanently restored and the wheels of state and commerce once more running smoothly and easily. The unanimous cry is for peace.

THE NEXT PRESIDENT. McKinley and Roosevelt have been nominated as Republican candidates for President and Vice-President of the United States, the highest positions in the world, as our American friends grandiloquently term them. The Republicans are reasonably sure of electing their men, as Bryan, notwithstanding his great oratorical gifts, has antagonized the best elements of his country by his demagogic appeals to the lowest classes in the community.

ANNEXING THE STATES. The Republican candidates for President and Vice-President of the United States have been nominated and we have heard nothing of that plank in their platform calling for the annexation of Canada. Is it possible that this is an oversight, or has the part relating thereto been eliminated by the press censor?

He probably understood, as no doubt all of our readers understood, that in the article published last night we were dealing with the specific case now occupying the attention of the public in British Columbia.

Sir Wilfrid Laurier: "Happily, as I said, the end of the war is in sight, though we cannot hope that the war is finished. Many battles have doubtless yet to be fought, and, indeed, we may say that when the war is terminated greater problems will face the British authorities. But even though the campaign is not finished, we today utter the hope and the prayer that the long reign of Her Majesty may never more be disturbed by war, and that what remains to her of her natural life may now flow in peace.

They have been having troublous times politically in Cape Colony also of late. The Dutch are largely in the majority there, and Mr. Schreiner, the late Premier, appears to have tried hard to hold the balance evenly between the contending factions. He did not give satisfaction to the Bondites, however, and had to resign with his cabinet, being succeeded by a Premier of British extraction and sympathies.

ME CHINOISE NABORS. Another letter—O! tuk a walk thro' the Chinoise quarter, a few months ago, was disgusted intirely at the way me competitors in the hod carryin' binsla comport themselves. There a dirty crowd, an' they take rates, O! in toud they look up there wotives in the upper flats, an' they thiminate an' square there feet in moulds made in the foundry, to privit' them from seein' on the foire lathin'. Whin O! loked in on the notice lookin' cools, smokin' poppy seed in one of them fifty dils, a pie-faced Mongolian said, "You blue," an' troid to enduce me to take a smoke. Stival at the dilsa were in a drama, an' if the gabordud would not make a man take pisen, to separate a snap, thin me name is not Larrikin. O! was accompanied by Pennerly, an' we wotud up the situation in a few words. I thimame an' disgrace to the community at large to have the Chinoise cooks at me respectable nabors' slampin' in that quarter. O! don't blame them for havin' Chinoise cooks; the only reason whop O! don't have one meself is becase O! am a labrin' man, an' it takes all me spare money to support the cooks at me such tress. O! kept me eye on one of me nabors' cooks an' the way he lode down on a hook, in a din full at haythins, an' cast his eyes at me, an' he was sayin' "calla, made me think at me wotives across the Atlantic. Thin he put a little pace at black tar on a long pace at stake an' tolled it roin, an' roin, over a dirtye the lamp. Thin he stink the stiver in a pace at wood, wid a hole in the top, an' they placed the other lid in his mouth. He pulled an' drawed away for a minit, an' a cloud at smoke thirged from his eyes, now an' month. He repeated the operation several tolmes, an' thin whin he dramed out, O! can amugn his fallin, whin a atchral bloom at the poppy seed parmitid his brane dils. Shure he forgits that he was a cook in a flepethaid household. Flathin' away to the Flurry kingdom, he realizes that the whole barbarian no longer controls his distillies, an' he wares paceck fithris until further others. "Me wotives, an' an' equations askid, he is monarch at all his supere. It's a folne folme he laid in the slaps, an' what it I did, he got farth to carry to me fren's house the rimulats at the smell at the dram. O! loked in every din fer an' anal lode. O! loked in every din fer an' anal lode. In those places; only the cockrocks an' bugs. They ate nothin', an' have do an' selection towards destruction from the dram. Man an' yarain throve on the stuff. We all have our wakemists; but O! dare any white man to later the alley ladin' to the Chinoise thater an' live fer one hour in the smoke. It's painted out in rakin', an' ye allow yer cooks to visit such places nightly. If ye'd only call on yer cooks whin they have there thraly dramas, ye'd cook fer yealives. If ye must have a Choinman lit him play the piano. Spind a few hours makin' the ac-bouther, an' yer grub will smell awter washhouse, an' saw the operation at wash in me clousin' at the Flurry kingdom. It's a folne job they made wid Flannigin's, an' Pennerly's, an' Mahoney's. Thin they bate the dirt out wid a stick, an' bate Mahoney's dirt in wid the same stick. O! don't moled that, fer we're all at the same race, an' wather is a grate privitizid at dress; but whin the haythas makes a street sprinkler at his mouth, an' squirts some splintin' over me soles shirt, O! draw the joine. O! no no no, particular ragardin' me grub, fer O! alver see it cookin' an' whin O! can stan' on the street an' see an animal, wid a tale on his hid, squirch-shin, thin knows what, me bosom at me blood thins. At ye lukin' fer the pinge. Shure it's here, an' ye fergit the greatest pinge that iver thatered ye, whole man's country. Yer tacin' thin to rakin' an' wotives, an' cook, an' wotives, iver the sun. Ye can't do without "dear John" an' yer fergit that future glintations will cure ye fer kaptin' the pinge here. Ye may be rich now, but thin dipid on one another, an' iver, dipid on a Choinman whin they're loked in, becase it paze, did ye iver see an' houist man wid a conscience, an' did ye iver fold a Choin-

he has done."—House of Commons, Hansard, vol. L, 1870, page 327. Now, Mr. Editor, I am not even yet prepared to believe that our leader, Sir Wilfrid Laurier, will fly in the face of his own declaration in defiance to a pitiful and cowardly resolution of a Tory caucus. I may say that when the war is terminated greater problems will face the British authorities. But even though the campaign is not finished, we today utter the hope and the prayer that the long reign of Her Majesty may never more be disturbed by war, and that what remains to her of her natural life may now flow in peace.

PARTYISM AND PLASTERING. To the Editor:—The evil influence of party has already displayed itself to the injury of several workmen, fathers of families, in this city, who, it is alleged, by their outspoken advocacy of the other government, have since its defeat been made to quit their employment. If this principle is going to prevail, it will be "vote as we think, or lose your bread and butter."

Wages of coal miners in Great Britain within the last year have been increased about 25 per cent, while the price of the article they mine has been advanced from 50 to 100 per cent.

The public debt of the Dominion was decreased by considerably over a million and a-half at the end of May as compared with the same period of last year.

The Egyptian government has asked the powers of Europe to consent to the issue of about £1,750,000 sterling of new debt bonds.

DISMISSAL OF HIS HONOR. To the Editor:—I wish to congratulate you, sir, as an exponent of downright assiduity and ignorance in respect to constitutional reasons for the dismissal of a Governor, your editorial of last night was a masterpiece. British Columbia appears to be richly blessed with "constitutional editors" of your type, but among them all you now shine as the bright particular star. You say: "We are governed by majority, and if a resolution signed by the larger number of the members of the legislature had been presented to the authorities at Ottawa, asking for the removal of the Governor he would have had to go in any event, no matter whether the signatories professed to be Liberals or Conservatives."

ORIGIN OF TRADE MARKS

Trade marks were used as far back as the 16th Century.

They originated from the signs that, in the early ages, were hung over the shops, telling of the wares inside.

To-day the trade mark is branded on the goods themselves, enabling the purchaser to identify the good from the bad and indifferent.

On a Slater Shoe the name and price appear on the sole in a slate frame, \$4.00 and \$5.50. Every pair Goodyear welted.

Prisoners Of War

How Soldiers Were Treated by Their Captains in Days Gone By

The Exchange of Captured Men Was Introduced During 17th Century.

General Cronje is now the prisoner of war of Lord Roberts, but whatever happens to him, neither he nor any of his men will be decapitated and thrown into the Orange River; nor will they be sewn up in sacks and sunk in Table Bay; nor will they be kept in dungeons until ransomed for any sum which Lord Roberts considers their market value, or which their surviving friends and relations may be able to pay. Yet in bygone times any of these things, or worse might have happened. At the present time the captive has ceased to be regarded as a chattel.

The Spoil of War, and is now looked upon as a fighting asset of whose services the enemy is deprived by his captivity, of which that alone is the object.

The ancient Irish cannibals, it is said, cooked their captives, having a preference for certain joints. The Druids, a more religious folk, enclosed their prisoners in bags, wicker idols and burned them as sacrifices. Among the Romans it was recognized both by the Romans and their enemies that a soldier once a prisoner was lost for ever to his country. It was forbidden by law to ransom from a barbarian foe. After fighting in

The General's Triumphal Progress through the streets of Rome, one of the band of fettered warriors who followed his chariot, the captive was dealt with as a slave, a mere piece of goods, handing down to his posterity an inheritance of serfdom. A cultured person or one of a good personal appearance would probably be assigned a household post, while one more distinguished for brute force than intellect or grace, would become one of the beasts of his master's field, passing from hand to hand with every transfer of the farm to which he was attached.

So for ages throughout Europe it continued to be the custom to treat prisoners as belonging absolutely to their individual captors. In many cases it was impossible to call any person individually a captor, for example, where large bodies surrendered to superior numbers. In this case they would be at the mercy of the king, who often made short work of them.

Charlemagne, after slaying in battle the bulk of the Saxon army, had 4,500 Saxon prisoners beheaded in cool blood. Henry V, after Agincourt, fearing an attack on his camp, put to the sword a large number of French prisoners whom he had with him. Again, Marcellus, when he invaded Sicily at the end of the 12th century, thought fit to deal somewhat summarily with his prisoners. Most of them he buried alive. The ecclesiastical he burned.

But the most interesting episodes of the history of this subject are those dealing with the prisoners taken by the personal valor of knights or their followers. It was always the object of the warrior to secure as his prisoners the most influential among his opponents, for they commanded the greatest ransoms. Indeed, many little medieval wars were mere prisoner hunting expeditions fomented by adventurous and greedy knights who found their prowess in the field their most profitable qualification. Ransom, however, was not always accepted, it sometimes being considered more politic to take the prisoner's life. Thus Sir William Wallace when taken captive in 1305 was, after a kind of trial it is true, hung and disembowelled while yet alive.

There was no fixed tariff of ransoms, a conqueror getting all he could, whether accepting what he offered forthwith or detaining his prisoner in captivity until a good sum was raised, or selling him at a valuation to a third party who was willing to indulge in a speculation. The king, however, reserved the right to buy at a certain price any important captive taken by his followers. When Denis de Moche took John of France prisoner at Poitiers Edward III claimed him and paid Denis 10,000 livres. Edward made a handsome profit, receiving a sum of three million crowns as John's ultimate ransom. David, King of Scotland, was also taken prisoner by an English soldier, and was in like manner claimed by the king. He was reluctantly given up by his captor, who received from the king 5,000 a year and was made a knight banneret. David was kept eleven years in captivity and was then ransomed.

for 100,000 marks. Sometimes no ransom was forthcoming, and then the prisoner died in captivity. In other cases very heavy pressure, not infrequently of a physical kind, was put upon him in order to aid his efforts and encourage his friends. In 1441 Charles VII had all his prisoners chained and exposed naked with a view to producing ransoms. In some instances he was successful, and a certain number of prisoners were freed. Those for whom no ransom was offered were thrown into the Seine.

All this ancient barbarity has long since died away. The only thing that can be said in its favor is that it to some extent reduced the bloodshed of war, it being each man's object to take his man alive. The more recent practice of

Exchange of Prisoners, and their surrender upon the termination of war, dates probably from the 45th century—when they were a common custom—devising to be wished on every consideration.

It was reported from the procession committee that some 20 firms and soci-

ments of treaties or "articles" stipulating for the mutual exchange of prisoners during the continuance of war upon pre-arranged terms. As an instance, a treaty of March 12th, 1793, between France and England, provided for the exchange of prisoners rank for rank. When one power has exhausted its stock of prisoners available for exchange payments were fixed, e.g., 600 would release an admiral, while 11 would suffice for a common mariner. This payment differed from the ancient ransom in that it passed from the national coffers of the one state to those of the other, and did not affect the pocket of the prisoner or his captor. During

The Peninsular War negotiations for an exchange of prisoners fell through owing to a failure to agree upon the relative value of the Spanish prisoners as compared with the French and English, the former being apparently somewhat of a drug in the market. At the present day the lot of a prisoner of war is one rather of indignity than danger. It is agreed that his restraint should not be more stringent than is necessary to prevent actual escape, and that subject to this he should be provided with comforts suitable to his station in life so far as circumstances permit.—London Globe.

G. H. MUMM'S "EXTRA DRY" CHAMPAGNE

See that Metal Cap as shown in this Cut is on each bottle.

THIS FAMOUS WINE

Is more than ever the popular Champagne of American Wine drinkers, as shown by the increase in imports over 1898 of over 25 per cent. and the fact that three times as much "Extra Dry" was imported as the next highest in the list. Mumm's "Extra Dry" forms two-fifths of the total imports of Champagne into the United States. These figures do not include the large direct imports of Mumm's "Extra Dry" into British Columbia by Pither & Leiser.

NEW WESTMINSTER.

The funeral of the late Sam Huff took place on Wednesday afternoon at 2:30 o'clock from the residence of F. R. B. corner of Fourth street and Third avenue. There was a large turnout of friends of the deceased. The services at the house were conducted by Rev. Thos. Souler, and at the grave the ritual of the Knights of Pythias was followed, the service being read by the Prelate, Mr. J. B. Kennedy.

VANCOUVER.

A pretty wedding took place on Wednesday evening, when Miss J. W. Chase, eldest daughter of J. Chase, of Mount Pleasant, was united in marriage to W. A. Brown, plumber of Westminster avenue. The bride, handsomely costumed in white duchesse satin, was attended by Miss E. Green, who was prettily dressed in white organdy. The little Misses May Chase and Mamie Brown acted as maids of honor. W. P. Chase, brother of the bride, was best man. The bride was given away by her father, the ceremony being performed by Rev. G. A. Wilson.

A more is on foot among the promoters of the recently formed Veterans' Association to open the doors of that organization to permit it to attain a more useful and vigorous growth in membership than is possible under its present constitution. As at present constituted, the membership is confined to persons who have put in twenty years in the militia service in the Old Country, or Canadians who have served during the Fenian raids, the Northwest rebellion in the Sudan. The membership of the society under these restrictions is very limited, there being at present only about 60 names on the roll, while it is considered that there are at least 300 men in Vancouver, who could be admitted without interfering with the distinctive character of the organization, and who would be willing to join if admission were open to them.

ties had already signified their intention to be represented in the parade.

ROSSLAND.

James Devine, secretary of the Miners' Union, has sent in his resignation, to take effect on July 1st. Nominations will be made at the next two meetings of the union, and the election of a new secretary will take place later on.

QUEBEC.

Archibald McNaughton, postmaster, died yesterday morning after a lingering illness. He was the youngest of that company of pioneers who crossed the plains of British North America in 1862. He followed mining for a number of years in Carleton, and was also assessor and collector for that district. He was manager for the Hudson's Bay Company for many years, but left their service in 1894, being afflicted with paralysis. He has also held the position of postmaster since 1887. Much sympathy is felt for his devoted widow, Mr. McNaughton was 57 years of age and the eldest son of Archibald McNaughton, of Montreal.

NELSON.

The Maxim gun instructor for the Nelson Rifles arrived on Tuesday night in the person of Sergeant H. J. Knight of the Royal Garrison Artillery in garrison at Esquimaux. He will remain here until July 1st, when his orders are to proceed to Rossland to instruct the militia company there.

WITHOUT A DOCTOR'S EXAMINATION

You can find out if the kidneys are clogged, deranged and diseased. Have you backache or a weak, lame back? Do you have pain or difficulty in urinating or a too frequent desire to urinate? Are there deposits like brick dust in the urine after it has stood for 24 hours? If you have any of these symptoms not a moment should be lost in obtaining Dr. Chase's Kidney-Liver Pills, the world's greatest kidney cure. One pill a dose, 25 cents a box.

SUPERIOR MERIT.

Remarkable Curative Properties of a Remedy for Indigestion and Stomach Weakness.

Stuart's Dyspepsia Tablets, a preparation for the cure of dyspepsia and the various forms of indigestion and stomach trouble, owes its great success as a cure for these troubles to the fact that it is prepared for diseases and weakness of the stomach and digestive organs only, and is not recommended or advised for any other disease.

THE GUYANA PLACERS.

After a careful investigation, I am of the opinion that it is not advisable at present to invest in Dutch Guiana, although unquestionably, sooner or later, some rich lodes will be discovered near the mountains, which at present it is impossible to prospect.

Groundless Charges

Brought by Sir Hibbert Tupper
Against Minister of the
Interior.

Hon. Clifford Sifton Declined to
Grant Any Concessions to
His Friends.

Determined That All Comers
Should Be Treated Without
Fear or Favor.

(Special to the Times.)

Ottawa, June 22.—In the House to-day Sir Wilfrid Laurier stated that morning sittings would begin on Monday of next week and the adjournment was expected in the following week.

The Premier then made a statement in regard to an attack on Hon. C. Sifton by Sir Hibbert Tupper. He explained that when the charges were made against Mr. Sifton by Frank Barnett to the western newspapers they were forwarded to him, and he communicated with Mr. Sifton and afterwards wrote to a friend, who sent him an interview with Barnett, telling his friend there was nothing in it. The interview was not published. The result of his conversation with Mr. Sifton at that time was that Mr. Sifton showed him the following two letters:

"Vancouver, Feb. 1st, 1898.
"A. E. Philp, Brandon, Man.

"My Dear Philp: I duly received your two letters of the 15th and 25th inst., and while thanking you for what you have done regarding mining concessions in the Yukon district, I may say that such concessions have come too late, as it appears now that anyone can obtain the same on payment of one hundred dollars (\$100) per mile. If our mutual friend had had the decency to grant this at the time we first made application it might have been of some use to us. As it is, he granting us now no more than anyone else can get, I might also say that I am not in a mood to accept anything from Sifton on account of the way he is treating my other requests, which treatment I understand is about on a par with that meted out to others of his old friends. Thanking you for the trouble you have taken in the matter and with kind regards,
"I am truly yours,
"Signed FRANK BARNETT."

The above letter was sent by Philp to Mr. Sifton, and the latter replies as follows:
"Ottawa, Feb. 9th, 1898.
"My Dear Philp: I have your letter, enclosing one from Barnett. I may just as well say, without any circumlocution or hesitation, that my friends cannot get any better treatment in regard to mining claims than anyone else. I did not grant the application when Barnett first wrote me, because we had that time no regulations adopted. When they were adopted your application came in on the same basis as others. I do not want to get your friendship or Barnett's on any false representations, therefore I feel it is my duty to say that do not think my friends will be of any advantage to you in mining matters.
"Yours faithfully,
"Signed CLIFFORD SIFTON."

London, June 22.—The Anglican Synod of Huron has adopted the report of the temperance committee, urging that the government take means to restrict the sale of liquor. It also urges members of the church to discourage, both by precept and example, the habit of treating, etc.

Belleville, June 22.—West Hastings Conservatives have nominated Henry Corby, M. P., as a candidate at the next general elections.

Hamilton, June 22.—Rev. J. L. Gilmore, pastor of a James street Baptist church, has declined a call to Olivet Baptist church, Montreal.

Kingston, June 22.—The authorities are looking for John Young, the companion of Wm. Scott, of Bedford Mills, near here, both of whom went to Jayville, N. Y., a few days ago, because intoxicated, and while on the way home, it is alleged, Young either pushed Scott out of the rig or the latter fell out while the horse was going at a good pace. Scott was found in a critical condition some hours afterwards and removed to the hospital, where he died. Since his death Young has disappeared.

Abbas Hilmi, the Khedive of Egypt, arrived in English waters yesterday, on his first official visit. The royal yacht Osborne brought him from Plymouth to Port Victoria, where he was received with a salute from the fleet. The Duke of Cambridge, the Turkish ambassador, Antipaulo Pasha, and a number of other distinguished persons, with a guard of honor, assembled at the Chertsey-Cross station to welcome the Khedive, but they received the information, after a tiresome wait, that His Highness was suffering from sickness, and would in consequence postpone his departure from Port Victoria for London.

The Cabinet Complete

Premier Dunsmuir Adds Three
More Ministers to the
Administration.

By-Elections Set for July 2nd—
Opening of Legislature
Probably Deferred.

The by-elections for the city of Victoria and for South Victoria are set for the 2nd of July, the nominations being held on June 30th. An order-in-council to that effect was passed yesterday, and although at first, as stated in the Times yesterday, His Honor declined to sign the writs, he subsequently did so.

As announced in last night's Times, three new ministers were added to the cabinet yesterday, but as their appointment was almost a foregone conclusion, the matter excited little comment. The appointees, however, were the recipients of hearty congratulations in the corridors of the Driad last night, that hotel having an almost "sessional" appearance from the number of members and politicians who were in evidence.

Richard McBride, who becomes Minister of Mines, is one of the youngest members of the House, but, especially during the last session, occupied a prominent part in the debates of the legislature. He was the peer of any member on the opposition benches last session, and was equalled only by one or two, including Mr. Martin himself. Mr. McBride is a son of ex-Warden Arthur H. McBride, formerly warden of the British Columbia penitentiary, and was born at the Royal City in 1870. He was educated at the public and high schools there, and subsequently attended Dalhousie University, from which he took the degree of LL.B. He was called to the bar in 1892, joining the firm of Cookson, McNeil, Wilson & Campbell. He afterwards withdrew from the firm and formed a law partnership with J. D. Kendall. He was defeated by Anlay Morrison in the contest for New Westminster at the federal elections in 1896, but two years later was returned for the local House as a Turnerite. He married Margaret, youngest daughter of Neill McGillivray, of New Westminster, in 1896.

W. C. Wells, Chief Commissioner of Lands and Works, was returned at the last election for Northeast Kootenay, and is regarded as one of the veterans of the House. He is 43 years of age and was born 43 years ago at Yankeet Hill, Ont., being a son of the late Sheriff Well, of Prescott and Russell, and a brother of ex-Speaker R. M. Wells of the Ontario House. He came to British Columbia in 1886, being engaged in business previously in Montreal. He is now in the lumber trade.

J. D. Prentice, who takes the portfolio of Provincial Secretary and Minister of Education, is a Lanarkshire man, born in 1863, and was educated at Pettes College, Edinburgh. He married Miss Mabel C. Galpin, daughter of T. D. Galpin, of Southampton, Surrey, Eng. He is at present managing director of the Western Canadian Lumbering Company, although making his home in Victoria.

Mr. McBride is a Conservative and Mr. Wells a Liberal. Mr. Prentice supported Mr. Eastock at the last general elections. The Premier himself is a Liberal, while at the close of the session it is altogether probable that Mr.

Turner will go to London and a Liberal be appointed in his place.
R. E. Gosnell, who was provincial librarian up to the time of the advent of the Semlin-Martin government, is in town to-day, and his name is associated by common report with the post of private secretary to the Premier, an office he held during the Turner administration, in addition to his duties as librarian.

It is the intention of the government to ask for a further prorogation of the House to allow the new ministers appealing to their constituents before the legislature meets.

EMERGENCY FOOD ENQUIRY.
(Special to the Times.)

Ottawa, June 22.—The emergency ration committee resumed its sittings this morning. Mr. Clax moved that the analysis of food sent by Hatch was similar to what was at Kingston. A motion was also made by Mr. Monk that an analysis of the Devlin food be brought up from Montreal custom house. The motion passed.

Dr. Nelson, recalled, said in his mind there was no necessity of the food containing too high a percentage, that sixteen per cent of proteid in this food was very useful ration. He declared that the argument that the food should be kept in sterilized tins was all "hoax," and that the sample tins before the committee had already been kept for more than six months and left open to air and were still perfectly sweet.

Continuing, Dr. Nelson said unless the tins were left in a stream of water it would be impossible for such moisture to penetrate. He also declared that double the precautions were taken with this food than any ordinary dealer of foods would take when handling them.

He stuck to his opinion, despite severe cross-examination, that the samples supplied compared identically with the sample tested and found to be all right at Kingston.

Prof. Rulan, McGill College, gave evidence to show that the Devlin food contained sufficient vitality for a man to live on 1 1/2 pounds per day.

THE CURE OF MALARIA.
(Associated Press.)

Berlin, June 22.—Dr. Koch, reporting from German New Guinea, under the date of April 28th, regarding his investigations respecting the origin and cure of malaria, says: "We have already established beyond doubt that by prophylactic and subsequent treatment with quinine, even the worst infected districts can be cleared of malaria infection."

CANADIAN SECURITIES.

BASEBALL.
TO-MORROW'S BIG MATCH.

Everything is now in readiness for the great match to-morrow afternoon at the Cascadia grounds, in which two teams, each of which has attained a marked degree of proficiency and local renown, will struggle for the mastery in perhaps the first contest of importance between two Victorian sides that will have been witnessed here for a long time. The Amities are well known to lovers of the game in Victoria, having in days gone by lowered the colors of rival teams from Seattle. Post-Townsend, Tacoma and Portland, and the long list of victories induced the belief in many of their adherents that they were invincible. Since their reorganization they have devoted great attention to careful practice and will undoubtedly put up a splendid game. The Victoria represent through many and efficient play their right to the name they bear—Victoria. The grounds have been placed in good condition, but it is desired that members of both clubs be on hand to-night to place the finishing touches on the arrangements. George Smith, another "old reliable," will act as umpire to-morrow, and this choice will undoubtedly prove very satisfactory, as Mr. Smith is not only thoroughly conversant with the rules, but has been actively associated with local baseball clubs for many years. The teams will be as follows:

Amities. Positions. Victoria.
J. Huxtable... Catcher... J. H. Smith
W. Leafesty... Pitcher... J. Holmes
J. Scott... 1st Base... D. McLeod
F. J. Widdowson... 2nd Base... Geo. Burnes
J. Ricket... 3rd Base... W. Wrightworth
A. N. Otter... Short Stop... F. McConnell
Gus. Gowen... Centre Field... C. Copeland
S. D. Schultz... Left Field... W. Bourke
H. Holmes... Right Field... W. Harrison

The match commences at 3 o'clock, and the admission will be 25 cents.

EASTERN LEAGUE.
At Philadelphia—Brooklyn, 4; Philadelphia, 5.
At Indianapolis—Indianapolis, 5; Buffalo, 2.
At Springfield—Springfield, 6; Rochester, 1.
At Chicago—Chicago, 1; Pittsburg, 8.
At Minneapolis—Minneapolis, 8; Kansas City, 5.
At New York—Boston, 12; New York, 2.
At Chicago—Chicago, 7; Milwaukee, 2.
At Detroit—Detroit, 14; Cleveland, 6.
At Hartford—Hartford, 4; Syracuse, 9.

LEAGUE DIRECTORS IN SESSION.

Directors of the Eastern League, at a meeting at Worcester, Mass., on Wednesday, approved the present staff of umpires and refused to make changes. The protest of Hartford, over the game of May 17th, was refused. It was claimed that a ball which was hit over the bicycle track on the Rochester grounds was a home run. The directors ruled that a ball must go over the fence to be a home run, unless the player makes the circuit of the bases, or a special ground rule is agreed upon by the contesting clubs.

Toronto's protest, of a game with Providence, on May 11th, was left to a mail vote of the directors. A decision will be given after more information has been secured. It is alleged that a Toronto runner was blocked on the third base line. The game on June 6th, between Montreal and Rochester, was thrown out and will be played over. The second game played by Rochester, at Montreal, on June 7th, was approved. Hereafter no game

arranged without the consent of President Powers, will count.
League umpires will be instructed to enter into no conversation with players after a decision has been rendered.

THE GUN.
THE EVENTS YESTERDAY.

The shooting tournament which commenced at the Oak-Bay traps so successfully yesterday morning was resumed in the afternoon, the favorable weather and the splendid condition of the grounds being factors alone sufficient to contribute vastly toward the success of sporting events of this description, but when to these circumstances is added an excellent system and style of arrangement, the complete success of the day, and that which was productive of the greatest amount of interest and excitement, was for the trophy, consisting of a 25 bird watch at unknown angles, two barrels being allowed. This was won by T. B. Ware, of Spokane, with 21 birds; W. N. Leafesty pushing him very closely with 20 birds. The various events throughout the afternoon resulted as follows:

Fourth event—15 birds; entrance \$2, and \$55 added.
Birds.
P. J. Holohan... 15 \$40.00

THIS MORNING'S SHOOT.
Beautiful weather again favored the shooters at the traps today, proceedings commencing at 8 o'clock this morning in order that events eight and nine of yesterday's programme could be shot. Some excellent scores were made, and among the shooters was Mrs. Sheard, who distinguished herself in one of the events, leading many of her male competitors. She did not, however, enter for any of the prizes. This afternoon the matches for the Globe trophy and the individual championship are taking place. The results this morning were as follows:
Event No. 8—15 birds; entrance \$2, and \$40 added; number of entries, 44.
