GERMAN NATIONAL ASSEMBLY IS WAVERING

TRIALS IN WINNIPEG PROBABLY WILL START MIDDLE OF NEXT WEEK

Six English-Speaking Strike Leaders, Let Out on Bail, Return to Winnipeg; They Will Appear in the Civil Court; Others Before Board

Winnipeg, June 20.—The six English-speaking strike leaders who were arrested and to-day returned to Winnipeg after having been allowed out on bail will be tried in the civil court here. The date of the trial probably will be June 25, but this depends upon whether counsel for the crown and the accused are quite prepared to proceed with the cases at that time.

In the case of the five men of alien birth who are being detained at Stony Mountain Penitentiary, they probably will come before an Immigration Board of Inquiry, of which Thomas Gealley, Acting Commissioner of Immigration in Winnipeg for the Dominion Government, has been appointed chairman. This Board will not institute proceedings just yet, it is officially stated, as it is the desire of the

authorities to get such evidence submitted as to show why the accused should be deported that the Minister of Immigration, Hon. J. A. Calder, will have no occasion for upsetting the decision of the Board.

Statement by Andrews.
The following statement was issued over the signature of A. J. Andrews, K. C., representative of the Department of Justice:

"As representing the Department of Justice, in order that no citizen should have any cause to complain that the Government is taking any action against the following persons, namely: R. B. Russell, W. Ivens, John Queen, A. A. Heaps, George Armstrong and E. E. Bray, a fair trial by jury if they so desire, have been decided upon. Any proceedings for their deportation until the charges against them have been heard. Having so decided, and as each of these persons have undertaken to refrain from taking any part, directly or indirectly, in the strikes now in progress, and in view of the fact that there is a strong possibility in view of the statement on collective bargaining issued by the metal trades employers, of the sympathetic strike being immediately called off, I see no reason why the accused until they are tried should be detained in custody, and accordingly I am consenting to their being admitted to bail in sureties of \$2,000 each.

It is understood by these persons quite definitely that if they should fall in their undertakings they would be immediately re-arrested and placed in custody."
(Signed) "A. J. ANDREWS."

Back in Winnipeg.
Winnipeg, June 20.—Following their release on bail of \$2,000 each, R. B. Russell, William Ivens, Alderman John Queen, Alderman A. A. Heaps, George Armstrong and E. E. Bray, arrested in a spectacular raid last Tuesday, reached Winnipeg from Stony Mountain Penitentiary this morning. So far they have declined to make any statement.

The possibility of the sympathetic strike being called off during the next twenty-four hours was generally discussed in union circles as a result of the statement issued by Alderman Ernest Robinson regarding the Winnipeg Trades and Labor Council, last night. It was inferred that the plan of collective bargaining as outlined by the metal trades employers and endorsed by Senator Robertson, Minister of Labor, and the executives of the railway brotherhoods, would prove acceptable to the Central Strike Committee.

More Street Cars.
There was little change in the strike situation this morning. It was stated that several more street cars had been put into service. Many employers declared that the back to work movement continued steadily.

Montreal Men's Attitudes.
Montreal, June 20.—Strong resentment at the summary arrest and proposed method of trial of the Winnipeg strike leaders was evinced by the Montreal Trades and Labor Council at its meeting last night. The subject of these events consumed the

Street Railway Men of Toronto to Strike on Tuesday Next
Toronto, June 20.—Apparently nothing can prevent a strike of the street railway men here next Tuesday morning. Even if the Government should appoint a board of conciliation it could not avoid the strike, the men's leaders say.

60,000 More French Prisoners in Germany Than Were Reported
Paris, June 20.—(Havas).—Leon Ambram, Under-Secretary in the Ministry of War, announced to-day that more than 60,000 French prisoners in excess of the figures given by Germany were found in Germany. The number of French soldiers missing in action has reached 213,000, the Under-Secretary said.

Allied Leaders Discuss German Situation; Also Italian Cabinet Crisis
Paris, June 20.—The Council of Three, composed of Premiers Lloyd George and Clemenceau and President Wilson, met this afternoon and it is understood discussed the German situation and the Italian Cabinet crisis. The Council also was expected to take up the uncompleted sections of the Austrian peace treaty.

Paris, June 20.—(Associated Press).—The alterations and amendments incorporated by the Council of Four in the revised treaty with Germany make it a somewhat longer document than the draft originally submitted to the Germans and published. It now comprises 214 pages, five more than the original, and even this was effected by closer paragraphing. At various points the draft

FOOD RAIDS IN AREA OF HAMBURG LEAD TO MARTIAL LAW

Copenhagen, June 20.—Martial law has been proclaimed in the entire zone of Hamburg harbor as a consequence of an increase in the raids upon food depots.

CHINA WILL SIGN WITH RESERVATIONS

No Endorsement of Shantung Settlement in Treaty With Germany

Paris, June 20.—The Chinese delegation to the Peace Conference remains firm in its resolve to sign the German peace treaty with reservations. When the German rights in Shantung were awarded to Japan, instructions were received by the delegation from the President of China and the Chinese Cabinet not to accept this settlement. These instructions have not been altered.

Members of the Chinese Mission say they are constantly receiving messages from China which show that the feeling there is so bitter against the Shantung clause in the treaty that the delegation could not sign the document unreservedly.

AMERICAN PACIFIC CABLE RATES LOWERED

New York, June 20.—A reduction in rates on the Pacific cable from San Francisco to the Philippines, China and Japan effective September 1, was announced today by Clarence H. Mackay, president of the Postal Commercial Cable System. The rate from San Francisco to Manila will be reduced from \$1 a word to eighty cents; to China from \$1.10 to eighty-eight cents; to Japan from \$1.21 to eighty-eight cents. The new rates to China and Japan will be contingent on proportionate reductions in the terminal charges by the Chinese and Japanese Governments, concerning which no objection is expected. President Mackay said he believed trade between the United States and the Far East would develop sufficiently to justify the decrease.

ABLE TO GO DOWN TOWN FOR FIRST TIME IN MONTHS

Mrs. Smith Had Rheumatism So Bad She Could Hardly Move; Praises Tanlac

"I don't know any better way to help people suffering like I did, than by getting them to take Tanlac," said Mrs. C. M. Smith, proprietor of the Picton Rooms at 410 1st Street, East, Calgary, while talking to a Tanlac representative a few days ago.

"About five months ago," continued Mrs. Smith, "I commenced to suffer with inflammation, rheumatism, and I just can't begin to tell you all the suffering I have gone through since that time. This trouble first started in my right leg, and almost before I knew it had spread all over my body. I just had to take to my bed and stay there. Why, I was simply helpless, and had to be waited on just like a baby. I laid there for weeks and suffered agonies, and it was out of the question for me to get a night's sleep. I had the very best of attention, but I just seemed to get worse all the time.

"One day a gentleman who roomed at my house, sent me word to take it would give me some relief, so I got my daughter to go out and get a bottle. Well, when I had finished my first bottle of Tanlac, I could see that my condition was better, and that I was getting a little more sleep than I had been getting. This encouraged me very much, and when I had finished my fourth bottle I was able to go down town. Why, I am almost entirely free from that rheumatism now, and I can get around here and do my part of the work without the least bit of trouble, and that is certainly a big contrast to the condition I was in a month ago. I lost a lot of weight during the months I was held up, but I have about gotten it all back. Tanlac has built my entire system up, and I am getting stronger every day. I tell you, I know what it means to suffer from rheumatism, and that is why I say that the very best advice I can give others who suffer as I did is to get them to take Tanlac. Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas Avenues."

BELGIAN MESSAGE.

Brussels, June 20.—The general council of the Belgian Labor Party has addressed a message to President Wilson, who is here, in which it says: "The labor party repudiates any peace violence, and awaits the reign of a definite peace assuring the sovereignty of labor and the triumph of President Wilson's principles." The message was adopted by the Peace Conference Belgium would have obtained complete reparation for the losses she suffered.

RIOT AT EPSOM TO BE INVESTIGATED

Canadian Camp Commander Says There Will Be Immediate Inquiry

London, June 20.—In an interview with The Daily Mail on the Epsom disturbances, Colonel Guest, the camp commander, said:

"There will be a court of inquiry immediately. The police asked to be allowed to question any witnesses as a result of being implicated in the affair and we consented.

"I do not attempt to defend the attack. The men's grievance was that the police had unfairly arrested one of them. I tried to head off the men as they left camp. Several of our men who obviously had nothing to do with the disturbances at the station returned with injuries received from civilians in the town."

The newspaper comments express regret at the splendid record of the Canadians being tarnished by untoward incidents like that at Epsom. Some declare the outbreaks are due to the spirit of revolt everywhere observable and make excuses on the ground of the vicious effects of enforced idleness, but The Daily Chronicle says bluntly that the outrages are intolerable and that the Canadian authorities should shirk no effort to end them forthwith.

Official Statement.

London, June 20.—Canadian General Headquarters have given the following official statement regarding the Epsom disturbances: "The incident preceding the disturbance at Epsom, which is deeply deplored by the Canadian authorities, appears to have been due to the feeling of hostility which has been steadily growing between Canadian troops and demobilized Imperial soldiers, which recently came to a head at Guildford. Since civilians were fined as a consequence of that affair, Canadians have complained that when they went out alone or in small parties they were attacked by gangs of civilians.

"It has not yet been possible to ascertain the reason for the occurrence, but according to a Canadian soldier, walking with his wife, was assaulted by a gang of civilians. A disturbance ensued, several Canadians being placed in the police station. Several more Canadians returned to camp with this news, and a large number, resenting the treatment of their comrades, went to Epsom with the idea of securing the release of the prisoners.

Station Was Rushed.

"The officer of the day, having failed to prevent the men from leaving so seriously hurt a Canadian soldier, went to town with them in the hope of averting a disturbance. He entered the police station to make inquiries, and as he did not appear for some time, the Canadian soldiers, being under the impression that he also had been arrested, rushed the station. Considerable damage was done the premises, one policeman being seriously injured, and another cumbered subsequently to his injuries. Several other policemen were injured, together with five or six Canadian ones. Afterward the men returned in small groups to camp quietly, and went to bed.

Complete order prevails at the camp but the Canadian authorities have taken the most drastic measures to prevent a recurrence of disturbances."

The Canadian Associated Press learns that the dead policeman was a sergeant, who has left an invalid widow and two young daughters. The whole business at the police station lasted exactly one hour. It is admitted that the police made the freest possible use of their truncheons, the wonder to many spectators being that the casualties among the soldiers were really trifling, as it was alleged both sides lost control of themselves completely.

A large rough element remained at Epsom after the recent race meeting, and it is alleged that this class made the rioting particularly objectionable to the Canadians.

The Manchester Guardian's London correspondent, discussing the Witley disturbances, says it is undoubtedly a fact that the Canadians felt strongly that British shopkeepers were profiteering in the most barefaced manner. The riots in any case do not mean any punishment to the shopkeepers, for they will get full compensation for their stocks and be able to begin work elsewhere afresh.

REHABILITATION OF DEVASTATED REGIONS OF FRENCH REPUBLIC

Paris, June 20.—In discussing the proposed budget for the coming year in the Chamber of Deputies yesterday, Raoul Peret, head of the Budget Committee, said it was possible to expect Germany to meet the cost of rehabilitating the regions devastated during the war. "We do not know and shall not know for a long time the exact sum the enemy must pay to victorious France," he said. "The treaty of peace gives no definite information on that point. As it is the Reparations Commission has the right even to remit part or all of Germany's debt."

PRESIDENT MASARYK REPLIES TO BELA KUN

Czechs Will Cease Hostilities When Hungarians Meet Allies' Demands

Zurich, June 20.—Professor Masaryk, President of Czechoslovakia, has replied to a message from Bela Kun, Foreign Minister of the Hungarian Soviet Government, pointing out that Hungarian troops repeatedly took the offensive after the note of the Council of Four had been sent to Budapest, and declaring that when the Hungarian troops have complied with the demands of the Entente, the Czechoslovak forces will cease hostilities. Latest reports show that the Hungarians attacked the Czechoslovaks as recently as June 17, making an assault upon the right wing of the Czechoslovak army, which put up a stubborn resistance.

NATIONAL COUNCIL OF WOMEN AND THE LIQUOR QUESTION

Ottawa, June 20.—The National Council of Women, in annual convention here, yesterday passed the following resolution dealing with the situation brought about by the Senate's action in amending the Prohibition Bill passed by the Commons:

"The National Council of Women of Canada, in annual meeting assembled, desires to express its unqualified indignation at the action of the Senate in defeating the will of the people of Canada, as expressed by their elected representatives in the House of Commons. Not for the first time is the Senate showing its contempt for the people of Canada. But now in its decision on prohibition, it has done so in a way injurious to the highest interests of our country. This Council believes in government of the people, by the people, for the people, and calls upon the Prime Minister of Canada to secure proper recognition of the will of the majority of the men and women, citizens of Canada."

Every woman at the convention arose and voted for the resolution, and again arose and voted in favor of copies of the resolution being wired to Sir Robert Borden and the Senate of Canada.

GRAND FORKS SMELTER TO CLOSE TO-MORROW

Grand Forks, B. C., June 20.—With the closing down of the Granby Consolidated Mining, Smelting and Power Company's smelter here, to-morrow from lack of coke on account of the strike in the Crow's Nest Pass coal mines, the Granby Company announces that it will cease operations permanently both at the smelter here and at the Phoenix mines. The employees at both plants are being given the opportunity of being transferred to the company's Anxoy plant. Only two or three of the eight furnaces at the smelter here have been operated, and it has been expected that the Granby Company would discontinue about the end of the year and concentrate all its energies on their Northern British Columbia properties, where the making of coke and coke by-products recently has been added to that of making copper.

PREMIER SPEAKS OF CONTRACT WORK ON P.G.E. RAILWAY

Vancouver, June 20.—Passing through this city last night, Premier Oliver made a reply to the complaints of the South Vancouver branch of the Great War Veterans' Association that certain men employed on construction work on the P. G. E. Railway were receiving less than union pay, and that the food supplied was poor.

"We have had no trouble with the men employed on the P. G. E. or with the contractors," said the Premier, when asked if the "unrest" had yet spread to the work which was under his charge as Minister of Railways. "The only thing that is suggestive of trouble is that I had a complaint from a branch of the Great War Veterans' Association in South Vancouver to the effect that the P. G. E. contractors were not paying union wages to their workmen. The position is that the contract for the work was let on a percentage basis, and the question of the amount paid to the men never comes before me at all. The contract is on a percentage basis, and it is to the contractor's interest to get the work done as economically as he can."

With regard to the general strike situation, the Premier was non-committal as to how much it was engaging his attention as acting Minister of Labor, but he said it had not yet been brought to his notice how the Provincial Government could do anything which would contribute to a smoothing out of the present situation.

With the Premier was Mrs. Oliver, and when they left the boat, they motored out to the Delta, to attend the funeral of the late John Woodward, of Mud Bay, who was a brother-in-law of the Premier.

SENATE FIRM ON LIQUOR QUESTION

Ottawa, June 20.—The position of the Senate on the prohibition measure was reaffirmed yesterday.

The Government leader, Sir James Loughheed, moved that the amendment of Wednesday, cutting off the provision that the measure shall continue for twelve months after the termination of the war, should not be concurred in. This was defeated by 23 to 25.

The bill as amended was read the third time, and will go to the Commons, that it may consider the amendment.

GOMPERS TO SPEAK

Calgary, June 20.—It now seems quite certain that Samuel Gompers, the great labor leader, will attend and address the Alberta Industrial Congress at Calgary on either August 13 or 14. A communication just received at the Congress headquarters here declares that Mr. Gompers will attend unless something unforeseen prevents it. In Western Canada Mr. Gompers is looked upon as the foremost labor man in the world, and his very ardent support of the cause of the Allies in the Great War when many labor leaders were lukewarm in their public declarations on the subject, will add to the interest of his public expressions at Calgary should he address the Congress here.

Local labor leaders declare that if Mr. Gompers addresses the industrial convention, labor men will come as far as the Dominion is wide to hear him speak. Mr. Gompers has not been in the west for a long time now, and this, too, gives importance to his prospective visit to the Calgary Convention. The present unsettled state of labor conditions in Western Canada, too, make Mr. Gompers' proposed visit to the Congress of vital interest to industry and trade.

THE SENATE KICKS OVER.

By amending two important measures which came to it from the House of Commons in such a way as to involve their virtual rejection, the Canadian Senate has made itself the centre of a storm such as it never has encountered before.

The first of these two measures was the amendment of the Railway Act adopted by the Commons with the object of preserving for municipalities the control of their streets against electric power and railway companies.

Now comes the amendment of the Prohibition Bill in such a way as to make the Orders-in-Council prohibiting the importation, manufacture and transportation of intoxicating liquors in Canada expire with the declaration of peace.

Justification of the Senate's action is claimed by some of the Senators on the ground that the Orders-in-Council and the Bill which is designed to ratify them are unconstitutional because they conflict with Section 121 of the B. N. A. Act.

We doubt if the Senate majority is very much concerned over the constitutional issue. In any case it is supposed to accept the advice of the Department of Justice in such matters.

CLOSE THE DEAL.

Mayor Porter is on safe ground in pointing out that the Federal housing scheme is not perfect. Very few people will disagree with him.

Presumably, however, it is too late in the day to persist in advocating this as a condition of the plan's acceptance in Victoria or in British Columbia generally.

The fact that there have been but few applications for houses under the terms of the national scheme need be no deterrent to the city authorities. It may be taken for granted that those desirous of obtaining the advantages of the scheme have been merely waiting for the municipality to give its decision.

AN OLD PLANK.

Senate reform is one of our most ancient political planks. It has had a prominent place in the platform of every political party since Confederation.

Governments have come and gone and the Senate remains unreformed. More than that, alas, it is in the Senate that many of the most eloquent advocates of Senatorial reform on the hustings find a last political resting place.

ber, for in the fullness of time, they, too, are to be found in the placid and soporific atmosphere "over the way." And once there they become the most indefatigable opponents of Senate reform.

The Senate surely needs reforming. It has had that need, although unrealized by itself, for fifty years. Whether it should be elective or appointed, or abolished altogether, is a matter for consideration and discussion, but assuredly the senatorial term should be limited to a certain number of years.

NOT LETTING IT DROP.

To reject the proposal for supervised recreation on the grounds of expense is not a very convincing argument for the Council to set against the wishes of so large and representative a delegation as that which waited upon it recently.

We do not mean to infer that youthful Canadians in future should be translated into a state of nabby-pambyism; the harum-scarum boy or girl quite often develops a strength of character by sheer natural instinct that no amount of direction either by force or persuasion could hope to accomplish.

But what is required is a general oversight of the school children's leisure hours in the playgrounds and in the parks of the city, so that visible tendencies, good and bad, may be detected and developed or cured in the right sort of environment and by the proper method.

MUST BENEFIT THE CONSUMER.

It is satisfactory to note that the Province has retained the services of so eminent a geologist as Professor Gillin to conduct an examination into oil possibilities in the Peace River country.

A substantial "strike" in the Peace River country would advance the development of the northern central section of British Columbia very considerably. It will be realized, however, that the Province cannot afford to adopt a policy that creates a monopoly of any of its natural wealth, and no blanket concessions should be given.

COME OUT AND SEE.

It often has been said that good service would be rendered to the whole country, and especially to British Columbia, if Dominion Cabinet Ministers arranged a trip to the Pacific Coast at least once a year.

In a recent speech in the House of Commons in connection with the Government's shipbuilding policy Mr. Ballantyne observed: "I suppose members noticed in the press some weeks ago that the famous firm of Yarrow and Company said that it was going to establish a shipyard in British Columbia."

It may be a far cry to attempt to link up the Patton Manufacturing Company's huge profits in tweed with a remark made by the City Engineer of Victoria yesterday.

THE HAWKERS ALWAYS "GO LIGHT."

When Harry Hawker, with Lieutenant Commander Grieve, taking off at St. Johns on his Atlantic flight, dropped the under carriage of his airplane, he was but living up to a tradition of his curiously interesting family.

MUST UPHOLD LAW, DECLARES BORDEN

Government Must Be Supreme, He Says, Dealing With Winnipeg Arrests

Ottawa, June 20.—In reply to a telegram from Secretary Hamilton, of the Toronto Metal Trades Council, with regard to the arrest of the Winnipeg strike leaders, Sir Robert Borden sent the following message:

"The persons arrested in Winnipeg have been charged with acts which under the laws of this country are serious offences. The Government intends to maintain the law and to prevent and punish any attempt to subvert the authority of the people as established by their representatives in Parliament."

DUTY ON PLOUGHS IS NOT REDUCED

Tariff Motion Moved by Maharg Defeated in the Commons

Ottawa, June 20.—The committee stage of the budget resolutions was completed in the Commons last night and the finance bills based thereon were given first reading.

The following Western members voted against the Government: H. H. Halliday, Bow River; J. F. Reid, Macleod; J. E. Armit, Swift Current; E. T. Myers, Kindersley; Andrew Knox, Prince Albert; J. F. Johnston, Lost Mountain; Robert Cruise, Dauphin; J. Campbell, Nelson; Dr. Michael Clark, Red Deer, and Hon. T. A. Creer, Marquette.

In connection with the resolution regarding the profits war tax, D. D. McKenzie, leader of the Opposition, asked why there should be an increase in business profits as well as on income.

The Minister of Finance replied that the total assessments up to June had been 46,176, the total amount of these assessments being approximately \$11,000,000.

The expenditure for collecting it and the business war profits tax combined had been about \$40,000.

Incidentally, Sir Thomas White stated that if business profits war taxes were repealed and the income tax alone left in force, there would be on the basis of last year, an increase in revenue of approximately \$10,000,000.

The Finance Minister explained that an agreement embodied in the Judges' Act had been made with the judges. This provided that they were to receive the whole of their salary without deduction. He thought it would not be advisable to break this agreement.

EIGHT-HOUR DAY FOR FRENCH MINERS

Paris, June 20.—The Government's opposition to the bill applying the eight-hour day to the mines, which led to its rejection in the Chamber of Deputies, and resulted in the general strike of miners was due to a misunderstanding, it is announced.

ORLANDO SATISFIED WITH THE TREATIES

But Italian Chamber Voted Adversely and Cabinet Gave Resignation

Rome, June 20.—Italy's peace with Germany and Austria has been solved in a manner with which, on the whole, I feel satisfied, said Premier Orlando in addressing the Chamber yesterday prior to the vote on which the Government was defeated and which led to its resignation being tendered to the King.

After the Speech. The Chamber of Deputies by a vote of 259 to 70, rejected Premier Orlando's motion in favor of discussing at a secret session the question of confidence which related to the foreign policy of the Government.

Insisting on the necessity of a secret session, the Premier declared the Government needed greater confidence and would treat the motion for a secret session as a question of confidence.

Internal Situation. Signor Orlando urged Parliament to separate the discussion of foreign affairs from the internal policy of the country, the latter being virtually absorbed in the grave question of the high cost of living.

The deep unrest throughout the world leads to pessimism such as was never experienced during the war. Immediately after the armistice was signed the peoples in general, and Italy in particular, went through such dark days.

Business Profits. The income tax resolution prompted Frank S. Cahill, Pontiac, to ask what amount has been collected so far this year under this tax.

The Minister of Finance replied that the total assessments up to June had been 46,176, the total amount of these assessments being approximately \$11,000,000.

Incidentally, Sir Thomas White stated that if business profits war taxes were repealed and the income tax alone left in force, there would be on the basis of last year, an increase in revenue of approximately \$10,000,000.

The Finance Minister explained that an agreement embodied in the Judges' Act had been made with the judges. This provided that they were to receive the whole of their salary without deduction.

COAL MINERS WANT COMMISSION NAMED. Strikers in Fernie District Make Request of Provincial Government. Fernie, June 20.—After nearly four weeks of strike in coal mines here and throughout District 18 of the United Mine Workers of America with apparently no outward attempt towards settlement, miners' headquarters have applied to Premier Oliver for appointment of a commission to investigate wages and working conditions within the mines, and have undertaken that upon this request being granted the strike will be declared off within twenty-four hours.

The Path to Health

For many thousands of women the Path to Health has certainly been through Lydia E. Pinkham's Vegetable Compound. When this great remedy was first introduced, and for many years after, skeptics frowned upon its curative claims, but as year after year has rolled by and the little group of women who had been cured by it has since grown into a vast army of hundreds of thousands—doubt and skepticism have been swept away as by a mighty tidal wave, until today this purely vegetable medicine is recognized as the greatest remedy for woman's special ills in the world. This is because it is a wonderful tonic and reconstructor which acts directly and favorably upon the feminine organization and is a specific for that purpose.

EXAMINATIONS TO START NEXT WEEK

Most Arduous Matriculation Year—Concluded To-day; Much Time Lost

One of the most arduous courses for many years past will be completed at the end of this week, for the matriculation examinations of the British Columbia University will commence on Monday. While the matriculation or last High School year is recognized as one of the most difficult to a student's career, it has been made particularly trying by the influenza epidemic and the consequent disruption of the school system.

From Victoria High School there will be ninety-six students try the examinations for entry into the Provincial University, while twenty-one students will write the tests, success in which entitles the winner to start work in the second year of the University course. A large percentage of the Victoria students were successful at both these examinations last year.

Third of Year Lost.
The High and public schools of Victoria were closed for almost three months during the influenza epidemic. In other words, a third of the school year was lost. Moreover, it was necessary for the teachers to go all over the work covered until the beginning of the epidemic, for during the long absence from the class room much of it had been forgotten by the students. Even when the schools resumed their normal course work was greatly retarded by the continued absence of many students who were suffering with influenza.

The Vancouver schools, on the other hand, were only closed for about a month, and consequently had a considerable advantage over the schools of this city. However, it is hoped by the local school authorities that in spite of these set-backs the Island students will continue to maintain the high standing they have achieved among the schools of the Province in other years in the matriculation examinations.

PROHIBITIONISTS AND ACTION OF SENATE

Local Party Sends Strongly-Worded Telegram of Protest to Ottawa

The People's Prohibition Association has sent the following strongly-worded telegram of protest to Sir Robert Borden, Prime Minister:
"The People's Prohibition Association of Victoria and Vancouver Island most strongly protests against the action of the Senate in voting against continuance of prohibition until one year after peace is signed, as entirely adverse to the overwhelming majority of the sentiment of the country as expressed at the polls, and earnestly appeals to the Government to stand by the will of the people against the autocratic and unjustifiable action of the Senate. The social and economic interests of the country are vitally involved and demand serious consideration."

APPROVE ACTION OF ARRESTING LEADERS

British Campaigners Want Seditious Literature Suppressed As Well

Approval of the action taken by the Dominion authorities in arresting a number of Winnipeg strike-leaders on charges of making seditious utterances, was expressed at the regular meeting of the British Campaigners' Association, held last night. Considerable discussion was heard on the matter, resulting in the Association dispatching a wire to Ottawa requesting that further action be taken for the suppression of Bolshevistic propaganda.

Anticipating trouble from the distribution of this literature the Campaigners took action last January and requested the Government to step in and suppress it. In view of this the members believed themselves in a firm position to once again urge the Federal Government to further action and to express their approval of what had been done in connection with the Winnipeg leaders.

The members found a little difficulty in determining exactly what was meant by a "Campaigner." They were not quite certain as to what wars and qualifications were necessary for membership. Accordingly a committee was appointed, consisting of Col. G. Chalmers-Johnston, Campaigners A. H. Henry, J. A. Andrew and J. Cooney. They will consider the matter and report at the next meeting.

Campaigner, Bagshawe made a report on the progress made by the Co-operative Association and stated that ten societies had affiliated with it. The meeting voted a grant for the purpose of registering the Campaigners. Members were anxious to know when the shares would be on the market.

Bode Case Again.—The application by Frank Higgins, K. C., for a habeas corpus order in the Bode case which came before Chief Justice Hunter again this morning in Supreme Court Chambers, has been adjourned until Monday and in the meantime it is expected that Mr. Higgins and C. L. Harrison, solicitor for the other side, may reach some satisfactory agreement in the meantime. Bode first made his appearance in local courts when the State of Washington sought to extradite him in connection with a claim that he had illegally brought a vessel here from Seattle. Failing in this contention a man named Sherman who had a claim of \$1,100 against Bode, secured judgment in the Superior Court and Mr. Harrison followed it up by getting judgment in the local courts. Bode was then arrested on a writ of capias and it was from this that Mr. Higgins has sought to relieve Bode, who, however, is still in custody.

A BEDTIME STORY

UNCLE WIGGILY AND LULU'S CABBAGE

Copyright, 1918, by McClure Newspaper Syndicate. (By Howard R. Garis.)

"Uncle Wiggily, I wish you would go to the store for me, and bring back a jug of vinegar," said Nurse Jane Fuzzy Wuzzy one morning.

"I shall be very glad to," answered the rabbit gentleman, as he gave his automobile a drink of gasoline. "But, speaking of vinegar, I hope you are not going to make pickled onions. I can stand almost anything except onions."

"I know it!" laughed Nurse Jane. "But don't worry! I am not going to pickle any onions. I want to make some pickled beets."

"Then it's all right," spoke Uncle Wiggily, with a sigh of relief. "I'll hurry right down to the three and seven cent store and get the vinegar for you, Nurse Jane."

In a little while Uncle Wiggily was ready, and away he started in his automobile, which had a turnip for a steering wheel, and big bologna sausages for tires.

As he rode through the woods Uncle Wiggily saw a hopped lady trying to jump over a fence that was quite too high for her. Every time she jumped she would drop her toadstool umbrella.

"Oh, allow me to help you, Mrs. Hippity," spoke Uncle Wiggily to the hopped lady. "Don't try to jump the fence. Why don't you go around by the gate?"

"It's so far," answered Mrs. Hippity. "And I am in a hurry."

"Then hop in my auto, Mrs. Hippity," invited Uncle Wiggily, "and I'll ride you around to the gate."

So the hopped lady did this and she had no more trouble, and she was very thankful to Uncle Wiggily, and said so, as he stopped at the fence gate to let her out.

"Oh, I am always glad when I can do any one a favor," spoke Uncle Wiggily. Then he rode away in his auto once more, and soon he was at the vinegar store.

It was while he was on his way home to his hollow stump bungalow, with the vinegar for Nurse Jane to use on

the pickled beets, that the rabbit gentleman had an adventure.

All of a sudden, as he was riding along, he heard from behind a doodle-berry bush the voice of some one sadly saying:

"Oh, dear! I cannot carry it a step farther! My feet are so tired and my feathers are all ruffled up. If I could only swim the rest of the way it would be all right; but I have to walk! Oh, dear!"

"That's trouble, all right," said Uncle Wiggily, as he stopped his auto and listened. "Yes, it's trouble; but who is it in it I don't know. I don't believe it can be the Bazooka, for he hasn't any feathers, even if his white nose is so fluffy. I'll take a peep, and be ready to hurry away if it's the Pipsisewah, or any one like that."

Uncle Wiggily looked through the bushes, and, to his surprise, he saw Lulu Wibblewobble, the nice duck girl, sitting beside a large head of cabbage.

"Why, Lulu! What's the matter?" asked the rabbit.

"The matter is that this cabbage head is too heavy for me to carry any farther," answered Lulu. "Mother sent me to the store to get it, and I thought I could roll it home, when I saw how large and heavy it was. But, when I tried that way, a lot of the leaves were cut off on sharp stones, and I knew mother wouldn't like that. So, I tried to carry the cabbage, only it's so heavy I can't."

"I could swim, and float it in the water ahead of me if the duck pond were here. But it isn't and I don't know what to do," sighed poor Lulu.

"Well, I know what to do!" laughed Uncle Wiggily. "Just get in my auto and I'll ride you, and the cabbage head, also, to your house."

"Oh, thank you so much!" quacked Lulu.

Soon she was sitting back in a soft seat and the hard head of cabbage was on the floor of the auto, both of them having a nice ride.

"Here is a loose leaf of cabbage, if you would like to nibble it, Uncle Wig-

gily," said Lulu, as she took off one of the outside ones.

"I'll eat it a little later, thank you," replied Mr. Longears. "I can't very well nibble cabbage and steer my auto. A little later, Lulu!"

"No, not a little later!" Right now is when I am going to have some off your ears," cried a sudden, sharp, harsh voice from beside the road, and out popped the bad old Pipsisewah.

"You got away from the Bazooka, but you ain't smart enough to get away from me!" boasted the Pipsisewah. "I shall have my mouse!"

"You shall not!" suddenly quacked Lulu. "You think you aren't smart enough to get away from you, eh? Well three heads are better than two, even if one is only a cabbage head!"

With that the duck girl picked up the hard head of cabbage and threw it at the Pipsisewah. I struck him full and plenty on his broad nose.

"Oh, wow! Oh, wow! Oh, wow!" cried the Pip three times, just like "You have too many heads for me!"

Away he ran, and Uncle Wiggily got up and picked up the cabbage, which was none the worse for being thrown at the Pipsisewah. Then the rabbit gentleman took Lulu home and went home himself with a vinegar, and he was very glad he had met the duck girl.

And if the peanut butter isn't too proud to sit beside the strawberry shortcake, when they take a long ride on the clothes horse, I'll tell you next about Uncle Wiggily and Alice's potatoes.

MRS. RALPH SMITH ON WOMEN'S VOTES

Regina, June 19.—When asked on Tuesday night what she thought about the position of Canadian women with regard to the vote for the Dominion elections, Mrs. Ralph Smith, M. P. of Vancouver, who is here for the National Council of Women convention, said that she regarded the situation with alarm.

The women of Canada had been promised the vote immediately after the election of 1917, but up to the present there was no indication of the Government bringing down a measure to enfranchise the women.

In fact, said Mrs. Smith, the War Time Election Act is rescinded the same women who voted in 1917 will be the only women to vote at a forthcoming election, the rest of the women of Canada being deprived of the right.

Mrs. Smith considers this unfair as she wants to see all women exercising the same prerogatives at the highest tribunal in the land—the polls. She likes to think the time is coming when all women will be made equal in this respect.

THE FREEMAN FUND

Some time ago The Times raised a fund by subscription to defray the travelling expenses of Mrs. C. Freeman and her two children to England. The total sum raised was \$442.85, of which various amounts, aggregating altogether \$309, were released to Mrs. Freeman to meet urgent expenses pending the time of her departure. Subsequently she informed The Times that circumstances had arisen which would prevent her returning to England. In view of the fact that the money was raised for the specific purpose of defraying the cost of Mrs. Freeman's prospective journey, The Times does not consider that the remainder of the fund, amounting to \$142.85, could be devoted to any other object without involving a breach of faith with the subscribers. It asks, therefore, that those who subscribed will kindly call for, or send for, their contributions subject to the diversion already referred to as having been made to Mrs. Freeman, before July 15.

HELP! HELP! WHO WANTS HELP?

Are you having "servant" troubles? Foolish question isn't it? Who isn't having them? It's like an epidemic spreading all over the country. They come. They stay about a day. Something displeases them and off they flit. There's hardly a family from coast to coast that hasn't had the experience. Kathleen Norris describes in Pictorial Review for July. But there is a remedy according to this gifted writer. There is a cure for the ills of the household and in plain language she gives it to a waiting army of housewives. In her practical article in Pictorial Review for July entitled "Help! Help! Who Wants Help?"

FLAMES GUTTED A STORE IN SAANICH

Second Conflagration in Two Days Does \$3,000 Damage to Building and Stock

The second large fire in two days occurred in Saanich this morning when Dwyer's grocery store, at the corner of Burnside Road and Wascana Street suffered damage estimated at \$3,000. The fire started from an unknown cause at about half-past five this morning in the pantry or kitchen of the upper storey, which is occupied by Charles Dowling, the owner of the building. Mr. Dowling was not at home at the time, and his wife and three children were asleep. Awakened by the crackling of flames and the smell of smoke, they sent in an alarm to the Saanich Fire Department and removed what valuables they could from the rear portion of the building, where the fire was rapidly gaining headway. James Dryden, Chief of the Saanich Police, and Fireman Little were quickly on the scene, and using the Saanich fire wagon they immediately started to combat the flames. Assisted by Dwyer's fire finally they were able to control the blaze, but not until a large part of the upper storey had been gutted. The front portion, however, was saved, and the ground floor suffered damage only from the water used to fight the flames. The stock in the grocery store below was badly damaged by the water. It is estimated that \$1,000 damage was done to the building and \$1,500 to \$2,000 to the grocery stock.

A few congratulations from the visitors to the happy and jovial party commenced the concert. Bro. Geo. Gardner, P. M., presided at the piano, and a number of Old Country songs were sung with great spirit. The party later sat down to supper, which was greatly enjoyed.

FOR BRONCHITIS

A Coal Miner Thinks There is No Remedy Like Vinol
Belleville, Ill.—"I am a coal miner, I doctored for months for a chronic case of bronchitis with a terrible cough, sore chest, throat and lungs, so I could not work. I could get no relief until I tried Vinol. It stopped my cough and built up my strength and I feel better in every way."—Andrew J. Gray.
It is the healing, tissue building property of fresh cod liver oils aided by the strength blood building elements of tonic iron contained in Vinol which makes it so successful in overcoming chronic cough, colds and bronchitis.

ALEX SANDER Answers Questions

Although I cannot quite compare with him who has such talents rare, Still, Alex Sander is my name And why shouldn't I exploit the same?
Alex Sander, "the man who blows," possessor of a world-wide reputation, has at last consented to import to the world some of his wonderful knowledge by answering daily through this column, during his appearance at the Royal Victoria Theatre, a number of baffling and puzzling queries, selected at random from a wagon load of thoughts. If you have a perplexing problem don't write it and don't send it to Alex Sander, or it will not be answered.

Here is to-day's amazing queries, and Alex Sander's answers, which are frank and embarrassing:
C.P.R.—When will the Johnson St. bridge be built?
Answer—Some day.
Henry H.—Is there any chance of the Parliament Buildings being removed to Vancouver?
Answer—Not at present, but you had better get your petition forms ready in case of emergency.
Gordon J.—I am troubled with heartburn. can you suggest a reason?
Answer—Stop drinking coffee.
W.H.W.—How can I get rid of that tired feeling?
Answer—Try going to bed at night. Mark W.G.—I understand that McLean, of New Method fame, was going to England to revolutionize the laundry industry in that country. What has happened?
Answer—McLean is going to remain right here in good old Victoria and remodel the New Method, put in new and modern equipment, and give a laundry service never before attempted by any one in this section of the country. Keep your eyes on him.
Kenneth F.—Why is Saturday doughnut day?
Answer—To commemorate the occasion when the Salvation Army, filled to the neck with dough-nuts, stormed and captured the German trenches.

TO AID CIVIL RE-ESTABLISHMENT

The announcement that a business and professional men's branch of the Information and Service Bureau in the Soldiers' Civil Re-establishment in Vancouver has been established will be received with a good deal of satisfaction. All branches of employment have been looked after pretty carefully in the civil re-establishment, but it has been felt for some time that a special department should be started to take care of the very numerous enquiries that has been placed in charge of the branch, while C. C. Kernahan has been appointed chief scout.
The re-establishment of accountants, clerks, lawyers, architects, medical men, dentists, civil and construction engineers, in fact men of every professional or technical avocation will be the particular care of this department. Employers will be canvassed and every possible effort made to place men of these classes who have not yet succeeded in getting back into civil life, or who desire to get into some other line.

NOW SATISFIED WITH NEW STAND OF GOVERNMENT

Labor Leaders Here Cancel Meeting on Hearing Developments

Declaring that the Government's decision to try the British born Winnipeg strike leaders in the civil courts has demonstrated clearly the strength and adequacy of the present system of craft unionism, local labor leaders have decided to cancel the mass meeting which was to be held here on Sunday afternoon to protest against "star chamber" trials in the Prairie Capital. As a reply to his telegram protesting against these alleged "star chamber" proceedings, for S. Woodward, president of the Victoria Trades and Labor Council, last night received the following wire from Tom Moore, president of the Trades and Labor Congress:

"Congress demands public trial by jury for Winnipeg accused. Wired Winnipeg for authentic information before deciding further action." This morning Mr. Woodward heard of the Government's determination to try the British born strike leaders in the civil courts. He thereupon decided that the mass meeting as called by him was unnecessary. If no announcement is made regarding the trial of the non-British born strikers, Mr. Woodward intends to wire to Mr. Moore again asking that trial by jury be demanded for them also.

Conservative labor leaders here declare that the decision of the Government following the representations of the Trades and Labor Congress, to allow trial in the civil courts is a clear proof of the efficacy and strength of trades unionism as at present constituted in Canada. They observe further that these events prove that new and more radical forms of industrial organization, such as the One Big Union scheme, are unnecessary.

VICTORIA TO HAVE COMMUNITY KITCHEN

Apartment Block Will Be Built By Englishman Captivated By Scenic Beauty

An Englishman with capital to invest has spent the last few months on the Pacific Coast looking for a business opening. He is greatly impressed with Vancouver Island, and is most enthusiastic over the prospects of Victoria as a great tourist resort. He is returning to England to arrange his affairs and is moving his family here to live. It is his intention to build a large apartment house on the service plan so much in favor in England and which has proved so popular in California. This plan does away with the problem of domestic labor. There is a large community dining room where meals may be partaken of or meals will be served privately in the apartments. All of the work is done by the domestic service branch of the apartment.

LARGE SUM NETTED BY RECENT CABARET

Navy League Funds Enriched by \$321; a Missing Pump

As a result of the cabaret held at the Empress Hotel on June 3 the funds of the Victoria branch of the Navy League have been enriched by \$321.09. The balance sheet submitted by those in charge of the undertaking is as follows: Door takings, \$284.00; supper, etc., \$147.50; sale of balloons, \$7.55; tickets, \$182.00; total, \$569.85. Empress rent and supper supplied, \$23; advertising and printing, \$55.66; decoration and sundries, \$42.00; orchestra, \$60.00; Hall & Gullie, from

Pantages, \$40.00; Pimley, for pump, \$3.00; entertainment of Boys' Brigade at Terry's, \$11.90; profit, \$321.09; total, \$569.85. In explanation of the item of \$3.00 for pump, it is stated that the pump loaned by Mr. Pimley for the purpose of filling the balloons was taken away by mistake from the hotel. If returned to 222 Pemberton Building, the money paid to Mr. Pimley will be returned to the Navy League.

MEAT INVESTIGATION HAS NOT COMMENCED

Speculation Arises As to Inactivity of Board of Trade Committee

Inquiry at the Board of Trade offices this morning as to what progress had been made by the special committee appointed some time ago to investigate the alleged unjust price of meat here in comparison with the prices in Vancouver and Seattle, elicited the information that no action had been taken and that the committee was in a lethargic state. C. T. Cross instigated the inquiry.

At the annual meeting of the board early in April he introduced the following notice of motion: "That whereas figures published recently show considerable differences exist between the prices charged for meat in this city and those prevailing in Seattle and Vancouver, always to Victoria's disadvantage;—

"Be it resolved that a committee of this board be appointed to make as full as possible an investigation into the reasons for this discrimination, if discrimination exists, and that the said committee be authorized to give all possible publicity to its findings, as well as to make a recommendation to the board, if such is necessary, as to what further action should be taken." At a subsequent meeting the motion was unanimously passed and a committee of five was appointed to investigate the matter. The appointment of the committee appears to have been the first and last act. For some unknown reason the committee never met.

ARTILLERY MEETING

All members of the 58th and 62nd Batteries and the 15th Brigade Ammunition Column are reminded of the meeting to be held to-morrow evening at 8 o'clock in the Commodore of the Great War club-rooms, corner of Douglas and Courtney Streets. HAR DAYAL, REBEL, RECANTS HIS VIEWS

Remarkable Effect of a Forced Sojourn in Berlin Upon an Indian Revolutionist

Har Dayal, for years one of the most influential of the agitators who have sought to foment revolution in India with the object of severing the great Indian Empire from British rule, who founded the powerful Indian Revolutionary Party on the Pacific Coast, and was publisher and editor of the paper known as "Revolution" and subsequently in Berlin was the official guest of the German Government and was put in charge of the German-inspired plans for an Indian insurrection, has undergone a change of heart. In his own words he now believes "that the consolidation of the British Empire in the East is necessary in the best interests of the people of India, Burma, Egypt and Mesopotamia."

In the opinion of many Englishmen the conversion of Har Dayal is one of the important events of the last few months, as affecting the peace of the British Empire. He was not only probably the brainiest man in the Indian revolutionary party, but also the most highly cultured. He is an honor graduate of Punjab University and a post-graduate of Oxford, where he won a scholarship. It was while there that he became a revolutionist, his sentiments becoming so radical that he surrendered the last instalment of his Oxford emoluments.

That was twelve years ago. After leaving Oxford he came to the United States and toured the Pacific Coast, and subsequently British Columbia. While on the Pacific Coast he organized the Indian Revolutionary Party, with headquarters in San Francisco, and in 1913 he began at San Francisco the publication of "Ghadr." In their written articles and speeches Har Dayal and his followers advocated armed revolt in India before the war started in 1914, and he was current that he and his followers had a secret understanding with Germany.

In 1914 the German Government, realizing the possibilities there were in Har Dayal's movement, invited him to Berlin, and for the twelve months that followed he was in charge of the Berlin hatched Indian plots. From Berlin he went to Constantinople as the representative of the Berlin-India Committee. His particular mission to Constantinople was to precipitate a "holy war" of the Mohammedans against Great Britain, and by any other possible means to stir up discontent, mutiny, and trouble generally among the British-Indian troops then operating in Palestine and other parts of the Near East.

Why He Changed.

Har Dayal's present change of front, so to speak, is mainly due, it is said, to the first-hand views he had of German methods, particularly in Turkey, Palestine and other Near Eastern lands. The Germans became cognizant of his change in attitude and he was practically interned in Germany until October last, when he was permitted to go to Stockholm. He is still there. In Stockholm he wrote over his own signature two articles which have appeared in recent issues of The New Statesman of London. In these he tells why his attitude changed from that of one of Great Britain's bitterest enemies to a supporter of British control in India and other eastern countries under the British flag.

"I propose," says Har Dayal in The New Statesman, "to offer some suggestions and reflections with regard to the future of the British Empire in Asia from the standpoint of a patriotic Indian, who has been, during many years, a consistent and consistent opponent of British imperialism, but who has been led to modify his views on account of the tremendous events of the great world war. No thinking man can be the same after this war as he was before it."

"I now believe that the consolidation of the British Empire in the East is necessary in the best interests of the people of India, Burma, Egypt and Mesopotamia. These countries contain more than one-fifth of the population of the whole world. The progress and welfare of these ancient and gifted peoples must be an object of solicitude for all lovers of humanity. Our attitude toward the British Empire as a political institution, therefore, involves moral principles of the highest order. If the Empire is based on the tyranny, exploitation, race hatred, brute force, and fraud, and if it cannot be mended in any way, why then we must end it and say: 'Down with this abomination of abominations.' I myself maintained this attitude for a long time. If, on the contrary, it can be shown that the Empire has grown up through historical necessity, and that it does serve a useful purpose in the social evolution of the human race, we may decide to accept it as a fundamentally sound and beneficent institution, which should be improved and developed rather than undermined and destroyed."

Wants No More Change of Masters.

The breaking up now of the British Empire in Asia, Har Dayal asserts, would lead "only to change of masters for the peoples of India and Egypt." These nations, he says, in such an event would be unable to defend themselves against other sturdy European nations that may harbor ambitious designs of world empire.

"They will be too weak," Har Dayal adds, "even to keep out the Asiatic barbarians who have overrun and devastated their fertile plains so often in the past. And the causes of this weakness are manifold. These nations are patriotic in their own way, but their patriotism is lukewarm and passive. They are not capable of sacrificing much for freedom; if they were keenly patriotic they could not have been conquered by England. Their ancient history is indeed noble and interesting but it is rather moldy with age and lacks the inspiring power of recent achievement. The climate of India and Egypt is enervating and disposes men's minds to repose and contentment rather than to sustained activity."

"History seems to prove that warm countries produce superior intelligence while cold regions breed strong and courageous races. However that may be, it is certain that the Indians and Egyptians cannot prevail in battle against the Germans, the Russians, the Kurds, the Afghans and the Japanese, even if they are determined to fight for their countries with the courage of desperation. Thus it is foolish for Southern races to imagine that they can, in the long run, hold their own against the Northerners if it comes to a trial of strength between them."

Berlin-Bagdad Awakening.

Of his German experiences, which led to his change of view regarding

British control in India, Har Dayal writes:

"These reflections suggested themselves to me with greater force than ever before as I watched from Berlin the course of events in the Near East in the winter of 1918-19. Serbia was crushed and occupied about that time, and the famous 'Balkanzug' began to run between Berlin and Constantinople. Huge placards, with the words 'Hamburg-Bagdad,' could be seen in the windows of the newspaper offices in Berlin. All this set me thinking."

"The Germans were supposed to be the allies of the Turks against the other European Powers, but now the Turks found that they had got taskmasters instead of friends. Germany poured men and material into Turkey. 'Bagdad' was the goal of German ambition. All barriers that had stood between Teutonic imperialism and the much-coveted treasures of old Asia had disappeared. A German empire in Asia was well-nigh within the range of practical politics. That spectre frightened all thinking Orientals, who had hitherto looked upon Germany as their champion against British imperialism. The cry 'Berlin-Bagdad' was ominous in our ears. Turkey had really been conquered without a blow. The foolish Turks had themselves opened the doors to their masters."

"The Prussian rules over all the Germans, and the Prussian is perhaps the most detestable based on earth. He is selfish, arrogant, heartless, arrogant, unscrupulous and servile. A slave and a bully, he is cruel to the weak and obsequious to the strong. He understands only the law of force, and worships power and rank. He is an upstart, and has all the vices of the parvenu. He suffers from incurable megalomania, to which political disorders have been added during the last thirty years."

"He may be a patriot, a poet or a pedant, but he is never a gentleman. He wishes to exploit every one he meets and his word cannot be trusted. All who know him despise and hate him. There is a good reason for this universal verdict against him. We should rejoice with exceeding joy that he has been humbled and thrown down from his high pedestal. I have lived in Prussia for two years during the war and know what I am talking about. 'India,' he observes, 'cannot afford the perilous luxury of an Indian bourgeois corps of officers. This is my deliberate opinion on this vital question. And as the world is infested with imperialists of every nationality, it is the part of wisdom for us not

to tempt fate, but to stay under the protection of the British fleet and army in our quiet, sunny home of Hindustan, and to make the best of our position in the Empire. We are not equipped for the deadly rivalries and fierce struggles of this age of iron imperialism."

"Others will not leave us alone, if we once lose the name and aegis of Great Britain. Exposed to the buffetings of chance and force, we shall have to suffer worse evils than those that now afflict us. Partition, forced conversion to other creeds and similar calamities have befallen weak peoples in Asia and Europe, even in the nineteenth and twentieth centuries. Let us not jump out of the frying pan of British imperialism into the fire of who knows what?"

Hopes of Speedy Autonomy.

Regarding the relations that should exist between the Indians and the British, Har Dayal says that the first principle should be that "all provinces of the Empire should manage their internal affairs without mutual interference," and that "autonomy is the only possible basis of amity and co-operation." Education must "unify and cement the empire from within" because "a State which neglects the education of its citizens cannot last long."

English literature must be "interpreted to the Eastern peoples" as must also English law and history. "English history," Har Dayal adds, "beginning with Magna Charta and ending with the decree granting suffrage to women, is the most complete record of Freedom slowly broadening from precedent to precedent in the annals of human evolution."

The American Declaration of Independence, he says, is also an immortal document of English history. It has well been said "you cannot argue a man into slavery in the English language." Therefore, he argues, "we must live in England, learn from England, work with Englishmen and Englishwomen, and study English and American history till we catch a breath of that spirit which has made England free and great."

"To sum up: Asia needs Britain's strong arm for her safety and progress. The Empire will endure only if three conditions are fulfilled. First, all citizens of the British Empire must be granted equal political rights in course of time. Secondly, England must not

inflict economic injustice on the other nations. The Empire is rich enough for all, and we need not exploit one another. Thirdly, all British subjects must love and revere England as their spiritual mother and Greece as their spiritual grandmother. Thus, the 'British Empire' of to-day will be converted into the 'British-Oriental-African Commonwealth' of the future. And that is our goal and ideal."

The annual sum paid by the London County Council in salaries and wages to its staff of 44,000 persons is £3,370,000.

VICTORIA THE NORTHWEST AND THE WORLD

Victoria Lacrosse Men Kings of Gutted Stick Game, Says Observer

United States Visitor Is Considerably Impressed After Seeing Shipbuilders Practice

After seeing the Foundation team working out for the big game against New Westminster in the Mann Cup race at Royal Athletic Park Saturday, P. J. Morgan, a former Harvard player, and a keen supporter of the Canadian national game, gives some interesting impressions and reminiscences on lacrosse. Local fans will read with satisfaction his comments on the Foundation team. "In all the games I have seen in the States I have never encountered such energy and team work as the Victoria men have shown," he states. Rain prevented many fans from attending the first home tilt, but in view of this statement they will quickly judge that lacrosse is being revived in the Northwest on the same scale it was before the war, when thousands of spectators were thrilled at the strenuous battles made by the old Victoria team.

A Treat in Store.

After working out with the Foundation players at one of their practices, Mr. Morgan remarked: "Saturday afternoon is going to be an opportunity that should not be missed. All those who delight in fast play, in swift running and dodging, in the merrily shots that flash with baffling rapidity from player to player, in the scrimmage and fray of eager spectators determined to score, in the clash of body-checking and the unbelievable stops made by the goal keeper, those who delight in this kind of clean and manly sport certainly have a treat in store."

A Sportsman's Game.

"I have been very fortunate in being allowed by Mr. Christopher and the players of the Foundation team to take out my old stick and exercise a few forgotten muscles, while I catch a few looks at the skill and pep of the Victoria players. I know of no game that combines so admirably all the excellent points of sport as this game of lacrosse, for from the beginning to the end of a scrimmage it is a com-

body checking, stick whacking and at giving the hip.

Made It a Tie.
"At the end of the first half of the game the score was 4 to 1 in their favor and in addition we had our captain put out of commission and had another with a broken nose. I well remember the words of our leader during that intermission: 'Go in there now, fellows and play them at their own game. If they want to play football, go to it. Even though they are still, if we have to bury the whole bunch afterward.' And we did. At the end of the game the score was a tie at 4 to 4."

Won on Extra Time.
"We played an extra period. Covered with blood from nose to ankle, all of us wild Redskins for the moment, we played desperately and madly. Some 3,000 spectators were ballyhooing and shrieking for more. And when the whistle blew and we all flopped upon the field the score was ours by 7 to 4. That was hardly a good game of lacrosse, however, and in our subsequent encounters with those gallant Indians our behavior was much less truculent. Lacrosse is always at its best when the casualties are limited to an occasional nose-bleed!"

A Battle Royal.

"I recall one game in particular that we played with the Carlisle Indians. The Indians had a pretty good team and played a very hard game, a game from which the ladylike amenities had been completely eliminated. We had always relied on open play, fast running and good individual stick work for our success, and we were completely upset by the business-like smashing of the Indians. They were perfectly clean players, but they were adepts at

The U. S. Centre.

"Baltimore, in the state of Maryland, is the centre of lacrosse in the United States. Johns Hopkins University in that city has for many years turned out some of the fastest individual players and the best teams below the Canadian line. I do not know how the game started down there, but I imagine some enthusiasts like myself were unable to get along without the game and surreptitiously inoculated some local neophytes. Anyway for a long time no team from Baltimore had a chance to claim any lacrosse honors."

An Inter-Collegiate League.

"There is an inter-collegiate lacrosse league which embraces in the North such colleges as Harvard, Yale, Cornell, Columbia and Hobart; and in the South the teams of Johns Hopkins, Mount Washington, Annapolis, Lehigh, West Point, Stevens and Swarthmore. On the whole I think the Southern players put up a better game, although on several occasions the Harvard

OAK BAY WINS

Game With Beacon Hill Won by Score of Fourteen to Six.

The Intermediate League leaders' standing of 1,000 per cent, was maintained last evening at Oak Bay, when the Hills were defeated, the game never being in doubt. Rose Miller, for Oak Bay, pitched a faultless game and was supported well by Goodacre behind the bat, and Calvert, Brynjolfsson and Emery in the field.

Forbes, who pitched for the Hills, did excellent work, as did Davie behind the bat, but the fielding at times was faulty. S. Bowers was umpire.

PIGEONS

In Flight and Fancy

The Victoria Racing Pigeon Club was to have held the race from Sissons, California, an air line of 500 miles, last Saturday, but owing to delay in shipping, the birds were not liberated until Sunday. No birds arrived home on the day of liberation on account of stormy weather through Oregon, and the race was kept open until Monday. Mr. Donagan had first bird home, and Mr. Simpson second, these being the only two birds to get through Monday. No official time of arrival is given as both men were at that time the birds homed. There will be another race from Sissons, also one from Oakland—an air line of 750 miles—in the near future.

WILL RECEIVE ENTRIES UNTIL TO-MORROW NIGHT

Entries for the Victoria Lawn Tennis Club's handicap tournament will be received up to Saturday night, the time for receipt of entries having been extended. The draw will take place immediately after that time, and the tournament will commence on Monday instead of to-morrow, as was originally intended.

Jole Ray, in his failure to break Tabor's mile record, ran the quarter-mile in 58 seconds; 2, 64; 3, 65, and 4, 67 3/5. He planned to shatter the mark by running in 58, 61, 64 and 66.

San Francisco, June 18—Rowing on the Pacific Coast is enjoying the same measure of rejuvenation that other sports have been experiencing since the close of the war and the coming summer promises to be a particularly active one.

The Pacific Coast championships will be rowed on Independence Day on San Francisco Bay and early indications are that the entry list will be the largest ever received for this regatta. Crews from up and down the Coast will compete and word is to the effect that active training already is in force.

A Diagram Picture

Note the Pointed Corn

Why Corns Hurt

Note this diagram picture of a corn. Note its conical shape. The cause of the corn is pressure. And pressure makes it hurt. The point of the corn is pushed into the nerves. Applying a Blue-jay plaster instantly removes the pressure. Note the felt ring (A) in the picture below. The ring gives barefoot comfort in the tightest shoe.

But that is temporary. One should not continue a ring. The corn should be quickly ended.

The bit of B&B wax in the center of the ring does that (marked B in illustration below). In two days, usually, the whole corn disappears. It stops the pain, then ends the corn. And it wraps the corn so the action is undisturbed.

Then the action of the B&B wax is centered on the corn. Held there by the rubber coated adhesive tape (C) which wraps comfortably around the toe. Healthy tissue is not affected.

These are the reasons why millions of people have adopted the Blue-jay method. Keeping corns is folly when this easy way can end them. Treating them in cruder ways is inexcusable.

For your own sake, convince yourself by applying Blue-jay to one corn.

FORTY CARS TOOK OUT CANVASSERS

Red Shield Envelopes Go Into Every Home of City

Over Forty Cars, supplied by members of the Rotary Club, fell into line outside the Red Shield headquarters at the corner of Government Street and Yates Street last evening for the house doors, so that the occupants may have an opportunity of helping out the Salvation Army drive for \$20,000. The envelopes are to be collected on Monday next, and it is confidently expected that there will be a most liberal response. The distributors received a splendid reception, for everybody appeared to be in full sympathy with the Army and its objects.

Collegiate School Helps

This morning the pupils of the Collegiate School sent in their envelopes, consisting of forty-four subscriptions aggregating \$18.92.

All day on Saturday there will be a great Doughnut selling match, and it is expected that there will be keen competition between the various teams. There will be two teams, composed of society ladies, each team being supplied with a big truck to carry the doughnuts.

There should be a good many hundred pounds of doughnuts for sale, judging by the amount promised by the ladies of Victoria, and it is hoped that some record prices will be fetched by these dainty eatables sold by dainty women. Why in New York there was keen competition for the doughnuts, the average price per doughnut being one dollar.

Children Helping

It is wonderful what a keen interest is being shown throughout the city in the Red Shield campaign. The kiddies are responding nobly, as is evidenced

ALMOST BLIND FROM HEADACHES

It is hard to struggle along with a head that aches and pains all the time. Headache seems habitual with many people; indeed, some are seldom, if ever, free from it, suffering continually, and wondering why they can get no relief.

In nine cases out of ten, persistent headaches are due to poisoned blood, the blood being rendered impure through some derangement of the stomach, liver or bowels.

The reason Burdock Blood Bitters makes permanent cures of all cases of headaches, is because it starts the organs of elimination acting freely, and the poisons and impurities are carried out from the system, purified blood circulates in the brain cells, and instead of pains and aches there is revived manliness and bodily vigor.

Mrs. Geo. Monek, Arden, Ont., writes: "I have been troubled a great deal with sick headaches, and at times would almost go blind, and have to go to bed. I tried different kinds of medicine without any benefit until I was advised to use Burdock Blood Bitters. After taking it, I have not been troubled since."

B. B. B. is a purely vegetable remedy, and has been manufactured for the last forty years by The T. Milburn Co., Limited, Toronto, Ont.

by the number of envelopes which are pouring in from Jackie 5 cents, Arthur 5 cents, Marie 10 cents, and so on, in sums varying from 5 to 25 cents. The Salvation Army wishes to thank these children, because these few cents represent possibly every bit of pocket money they have, and if every citizen were to give as much in proportion as the little boys and girls are giving, the campaign would be oversubscribed many thousands.

This morning a large number of High School students promised to be on hand to help out the drive by distributing envelopes.

OLD BOYS REUNION

To the Editor.—An effort approved by the School Authorities is being made to hold a reunion of Bishop's College School, Old Boys, on a large scale, for the School closing the 23rd and 24th of this month.

In view of the fact that the members of the old school who have been overseas will nearly all be back, and that we have every reason to be proud of the record the School has made in the war, and also that most of us have not had an opportunity of seeing the splendid new school buildings erected through the generosity of Commander J. K. L. Ross, himself an old boy of the school, we consider that this summer is the summer in which to have a large reunion of this nature.

We feel moreover, that the Esprit de Corps which has always existed between old B. C. S. boys the World-over, should not be allowed to wane, and we therefore trust that you will fill out and return the enclosed addressed post card immediately and we hope in the affirmative, as we wish to be able to advise Mr. Tyson Williams, the Headmaster, as soon as possible, how many of us to expect.

We would suggest that the old boys in each District who intend being present, should get together with a view to arranging for a special car on the train to Lennoxville. We regret that owing to short notice we have been unable to appoint someone in each district to attend to this matter.

It is further suggested that some sort of memorial service might be held in the School Chapel for all old boys who have been killed in action.

Trusting that you will make every effort to be present at this June closing.
W. S. ATKINSON,
For Old Boys Association,
Pont Etchemin, P. Q., June 7th, 1919.

SAME AS ALSACE-LORRAINE.

To the Editor.—We wish to congratulate you on your editorial of June 4, in which you wisely take a position against granting a plebiscite to Alsace-Lorraine. "Prussia," you say, "applied to these provinces a policy that was calculated to drive the French inhabitants away and replace them with Germans. The French language, French customs and French laws were proscribed and every form of repression practised. The result was that thousands of Alsacians and Lorrainers left their homes and Germans took their places. The wrong done forty-eight years ago cannot be righted by a plebiscite."

Now what was done to Alsace-Lorraine by Germany has been done for a longer period of time, and with much more spirit of barbarism, by Austria to the different Italian provinces under her yoke. This is not the proper opportunity, nor you would perhaps allow us sufficient space, for a complete enumeration of the long list of the means Austria, with the Croats as her docile instruments, used to denationalize Trentino, Trieste, Istria, Fiume and Dalmatia. She did not succeed everywhere with the same result, however, Trentino and Trieste were, nevertheless, quite able to resist this unbelievable work against the most sacred right of human beings, because these provinces and cities were contiguous to Italy. But poor Dalmatia being isolated from her mother country, was unable to resist successfully, and during the last fifty-two years (beginning in 1848, when the plebiscite trials, which included the destruction of the Italian nationality, was inaugurated by Austria-Hungary) she

saw all her Italian schools, except in Zara, closed up and violently replaced with Slav schools; she saw all her Italian priests banished and imposed Slav priests only, whose watchword was "Slavize" Dalmatia; she saw the compulsory Slavization of Italian names at baptism, marriage, or funeral; she saw only Croatian soldiers sent there, who never returned to Croatia; she saw hordes of Croat scabs during strikes, sent there on purpose, and who were never sent back to their homes; she saw so many incredible injuries that one needs not to be astonished if to-day the Italian people are the minority in Dalmatia (although not in the proportion of three per cent, as you, according to Austrian statistics, say.

Don't you think, sir, that after all this it would be foolish and unjust, exactly as it would be foolish and unjust for Alsace-Lorraine to base the right of nationality for Dalmatia upon the majority of the race prevalent there at present? Italy does not work for any privilege. But if it is just that France oppose Germany's claims upon Alsace-Lorraine, it must be hundred times just that Italy also oppose Slav claims on Dalmatia, because the Austro-Croat oppression and work of denationalization made on that, and on all Italian provinces under Austrian yoke, is (and this is not an exaggeration, believe us) not less than a hundred times worse than the Germans. In the light of these facts the article from The New York Times on Dalmatia you reprint in your same issue of June 4, seems to us too much one-sided, because it does not take at all account of the "Slav" policy of denationalization, upon which—when Alsace-Lorraine is concerned—you justly put very much stress.

Thanking you for publication we remain sincerely yours,
THE COMMITTEE FOR THE DEFENCE OF REDEEMED ITALY OF MONTREAL.

AGITATOR AND PROFITEER.

To the Editor.—It is well that where economic questions are in the ascendant minister of religion should keep in the background in a period of industrial strife. Experience has shown that a clergyman who takes part in political instincts, and are as likely as not to back the wrong horse. We have our own work to do, and are content to leave economics to the economists. But now and again in the conflict moral issues become dominant, and then it is not only our privilege but our duty to speak out.

Some weeks since I wrote, following up a letter by Archbishop du Verney, pointing out the essential and necessary connection between revolutionary socialism on the one hand and wholesale profiteering—the abuse of capitalism—on the other. Current events are casting a lurid light on what I said; witness the stirring appeal quoted from The Winnipeg Labor News on page 5 of to-night's issue. A thing may be true even if spoken by a red revolutionary; the present strike agitation would have the better knock out of it at once but for the horrible treason against humanity that is just now being uncovered in the nation's investigations into war profits.

The strike agitation will fall, and must fall; for in the last resort Canada is ruled by her farmers and small business men; that is to say, she is ruled by small capitalists who work harder than any of their employees, and whose average returns per hour are far less than those of the skilled mechanic. These men have no patience with strikes; in the long run they have ample resources to keep the country going in spite of any industrial agitation.

But if Canada were to crush or deport her strike agitators and fail to deal with her wealthy offenders, she would simply be rid of the lesser evil and lay up untold trouble for future days. These men with their huge accumulations of wealth will soon be in a position to do in our country what the Rockefeller, Armour and Morgans have done for the United States. When that time comes let the small capitalists who are the strength and glory of Canada look out! Their businesses and holdings will topple like

DIPLOMATIC PARTY LEFT ABOARD SUWA

Viscount Kikujiro Ishii, Japanese Ambassador to States, Proposes to Return Shortly

Viscount Kikujiro Ishii, Japanese ambassador to the United States, accompanied by Mme. Ishii, and C. Yada, consul-general for Japan at New York, and Mme. Yada, left here last evening on board the Nippon Yusen Kasha liner Suwa Maru to confer with his government at Tokyo.

On the arrival of the Suwa Maru from Seattle, Viscount Ishii and party was met by a delegation from the local Japanese colony and taken on an automobile drive and returning to the ship shortly before her departure for the Orient. Viscount Ishii came to the United States about a year ago to represent His Imperial Japanese Majesty at Washington, D. C.

Referring to the peace conference, Ambassador Ishii expressed firm faith that all of its transactions and accomplishments, when finally settled, will meet with the approval of the world at large.

Formerly at Vancouver. Mr. Yada's position in the United States is second to Ambassador Ishii's. Accompanied by his wife, two daughters and one son, Mr. Yada is also en route to Japan for a brief absence.

THINKS TROUBLE WAS EXAGGERATED Edwin Orrett, of Tacoma, Unable to Confirm Serious Disturbances at Seoul

Despite the alleged atrocities in Korea, Edwin Orrett, formerly manager of the Osaka Shosen Kaisha at Tacoma, who was in Seoul at the time of the outbreak, and who returned here yesterday afternoon aboard the liner Africa Maru, was unable to give corroboration to the stories emanating from the Orient.

Longshoremen here worked the Victoria cargo but declined to handle a shipment of raw silk routed via Victoria to the mainland. This was put ashore by the ship's crew.

STOWAWAYS BELIEVED TO BE BOLSHEVIK AGENTS

Eight Russians Succeeded in Boarding Transport Monteaige at Vladivostok, Effectively Disguised as Canadian Soldiers — Systematic Search Was Conducted

Disguised as Canadian soldiers, the eight Russian stowaways who succeeded in boarding the transport Monteaige at Vladivostok are believed to be Bolshevnik emissaries sent out to this country with the object of spreading Bolshevnik propaganda.

As they were full Canadian uniforms the Russians experienced no difficulty in getting aboard the transport at the Siberian port. They filed up the gangway with the Canadian soldiers and but for the vigilance of the military and ship's officers the prospects of their entry into this country without being suspected appeared to be extremely bright.

How they managed to get hold of the Canadian uniforms is a complete mystery. Without some assistance, it is contended by military officers, it would have been impossible for them to carry out the deception so effectively.

Dramatic Discovery. The discovery of the stowaways was the dramatic feature of the voyage. It came to the knowledge of the officers that men other than Canadians were in the ranks and the first day out a muster of troops was ordered and a close inspection conducted.

Mixed Freely. Prior to discovery the Russians mixed freely with the Canadian troops and but for the Sherlock Holmes instincts of some of the officers the stowaways would undoubtedly have succeeded in getting ashore at the conclusion of the passage.

LONGSHOREMEN HAVE DECLARED WALK-OUT Members of Local Union, Favorably Inclined, to Decide Course

At a meeting of the local longshoremen held last night it was decided to call a strike in sympathy with the coastwise seamen and the mainland longshoremen. As a result of this decision all work has been stopped, and the longshoremen are taking a self-inflicted rest.

CHARTER GRANTED BY GOVERNMENT Canadian Merchant Service Guild Becomes Corporate Body Throughout Dominion

The Canadian Merchant Service Guild has been granted a charter of incorporation by Dominion Parliament. Application was made to the Federal Parliament some time ago for the creation of a body corporate under the title of the Canadian Merchant Service Guild with the object of uniting in one body all masters, pilots and mates operating out of any port in Canada.

TO REMAIN ON DUTY. The constitution of the Canadian Merchant Service Guild forbids participation in sympathetic strikes and the Guild proposes to remain aloof from the present seamen's dispute on the B. C. coast.

TO-DAY'S AMUSEMENTS

Royal Victoria—Alexander in his performance of mystical and magic feats.

Pantages—Vaudeville.

Columbia—Charlie Chaplin in "Chase Me, Charlie," and serial, "The Lure of the Circus."

Dominion—Pauline Frederick in "Paid in Full."

Variety—Mabel Normand in "Mickey."

Romano—Kitty Gordon in "Mandarin's Gold."

ROYAL VICTORIA

Alexander's power to astonish mystify and amuse seems to grow with each performance at the Royal Victoria Theatre, and this engagement promises to eclipse in its popular success any hitherto played in this city. To-night and to-morrow night and to-morrow matinee will positively bring the engagement to a close as Alexander will leave Sunday for Vancouver, where he will appear for two weeks.

As hitherto, the central interest excited by this individual rests in his Simla Seance, the mystery which appears as deep and his demonstrator as inscrutable as ever. His answers to the sealed questions addressed to him by the anxious ones to the number of thousands, are as quick, spontaneous and apparently as correct and infallible as ever.

Preceding the Simla Seance is a series of astonishing exhibitions of magic, in which not the least interesting is the conjuring of portraits from blank canvases set securely and in full view of the audience in an innocent appearing frame; the portraits being of individuals asked for by members of the audience. Alexander's comedy and serenely imprudent man-

sors of natural history would begin to shriek "nature fake!" But they will have to believe what their eyes see. This old fellow ragamuffin sneaks out to the water's edge. A paw suddenly flashes out with the speed of a snake striking, and the frog is hooked.

ROMANO

A new World Picture, "Mandarin's Gold," starring Kitty Gordon, is showing at the Romano Theatre. This production is one of the very best in which this famous star has ever appeared. The story is a modern one, and is jammed with surprises and thrills. It presents Miss Gordon in the role of Betty Cardon, one of the most effective and interesting parts she has ever had. Supporting Miss Gordon are a notably cast, headed by Irving Cummings, who plays opposite Miss Gordon in the role of Blair Cardon, Betty Cardon's husband. "Mandarin's Gold" is a thoroughly interesting picture from start to finish, and you will certainly enjoy it.

PRINCESS

Lovers of good music are assured of a rich treat in The Pantomime Rehearsal, the great musical comedy success which will be produced at the Princess theatre for an extended run commencing to-morrow, Saturday evening. Musical comedies are always popular with the general public and "The Pantomime Rehearsal" is bound to please inasmuch as it abounds with the funniest situations, local references, catchy music and is splendidly produced and acted by a most excellent company.

Early application for tickets for to-morrow evening's performance is advised as it is anticipated a large crowd will gather to give a hearty send-off to one of the most delightful plays that the Princess Dramatic Society have yet appeared in.

PANTAGES

Leading the bill at Pantages this week is a wonder worker of the highest type. Tameo Kajiyama, the son of Nippon who does several things at the same time and does them well, is why psychologists call the acme of perfection in combined motor impulses, which means, probably, that his mind is so developed that it can give attention to more than one thing at a time. At any rate, that is what he does. He writes simultaneously with both hands, he reads and writes newspaper headlines on an immense blackboard while explaining Japanese figures to the audience and further astonishes his watchers and listeners by combining names dictated by the audience in a veritable maze of topsyturvy characters, and by a series of erasures picks them out singly and lightly written. Other good acts on the bill are the offerings of Hauer and Goodwin, singing comedians who put over their programme so as to delight all; Cecilia Rhoda and George Crompton, former opera stars who present a charming song fantasy; Fay and Jack Smith, a boy-and-girl team presenting musical comedy odds and ends; Helen Jackley, a girl-gymnast; and the Krazy Kate Revue, a girl-and-music revue with up-to-minute songs and dances.

Mack Bennett likes to use animals in pictures, and in "Mickey," featuring Mabel Normand, to be shown at the Variety again to-day, two cats are used to bring out a strikingly dramatic contrast in the story, which will attract attention not only as a picture, but as a nature study. One is a lean, scrawny frog-hunter, who rustles for his grub in the mountain cabin where little Mickey lives with her foster father. One of the "close-ups" of the picture show this cat actually fishing for frogs in a mountain stream. If anyone were to write a magazine story about a cat that went fishing, some profes-

Emile Chautard, who directed Pauline Frederick in her splendid new Paramount photoplay, "Paid in Full," which is the screen magnet that is drawing big business to the Dominion Theatre this week, is one of the ablest directors in the film. He has done excellent work in this picture as the evenness of the performance and splendor of production indicate.

Those feelings of faintness, those weak, "all gone" sinking sensations, which come over some people from time to time, are warnings that must not go unheeded. They mean an extremely weakened condition of the heart and a disordered nervous system.

When the system is in this condition there is no time for delay. One fainting spell may be recovered from, will the next? One dizzy spell may pass off, but the next may be more serious. Those who are wise will start taking Milburn's Heart and Nerve Pills, before their case becomes deep rooted and perhaps hopeless.

They will act directly on the disordered heart and weakened nervous system and restore them to full strength and vigor.

Miss Mary McCoy, Algoma Mills, Ont., writes: "I was awfully troubled with fainting and weak spells, and I could never get any doctor's medicines to help me. One day a friend of mine was at the house when I took one of those spells, and she got me a box of Milburn's Heart and Nerve Pills. That was six years ago, and from that day to this I have never had any of those spells. I would not be without your pills for any money, and can highly recommend them to any one."

THIN, NERVOUS PEOPLE NEED BITRO-PHOSPHATE

What It Is and How It Increases Weight, Strength and Nerve Force In Two Weeks' Time In Many Instances

SHOULD BE PRESCRIBED BY EVERY DOCTOR AND USED IN EVERY HOSPITAL

Says Editor of "Physicians' Who's Who."

Take plain bitro-phosphate is the advice of physicians to thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless prescriptions and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern diets. Physicians claim there is nothing that will supply this deficiency so well as the drug bitro-phosphate, which is inexpensive and is sold by Cyrus H. Bowes in Victoria and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-

phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Clinical tests made in St. Catherine's Hospital, N. Y. C., showed that two patients gained in weight 23 and 27 pounds, respectively, through the administration of this organic phosphate; both patients claim they have not felt as strong and well for the past twelve years.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright and pale cheeks glow with the bloom of perfect health.

Physicians and hospitals everywhere are now recognizing its merits by its use in ever increasing quantities. Frederick Kolbe, M. D., editor of New York Physicians' "Who's Who," says: "Bitro-phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood."

Joseph D. Harrigan, Former Victim, Specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anaemic, or run-down, take a natural, unadulterated substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance."

Bitro-phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensary as being an excellent tonic and nerve and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-phosphate tablet is manufactured in strict accordance with the U. S. Pharmacopoeia test requirements. Bitro-phosphate is therefore not a patent medicine and should not be confused with any of the secret nostrums, so-called tonics or widely advertised "cure-alls."

CAUTION.—Although Bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its remarkable flesh-growing properties it should not be used by anyone who does not desire to put on flesh.

The Constructive Policy Of a Great Province

From The Canadian Municipal Journal. If conservation has any meaning—and it is a word that is conjured with by our nation builders—it can surely be applied to the administration of the Province of Quebec. Conservation in the great French province means preservation and construction. Right from the great timber limits to the magnificent and interesting fisheries, are tangible records of the governmental policy as practised during the last twelve years.

Still another example of the modernness of the Quebec administration is the statistical bureau under Mr. G. E. Marquis, which department compiles and publishes from time to time statistics including vital statistics, that cover every phase of progress in the province. This bureau is probably the most up-to-date record of provincial activities that we have in Canada, and is invaluable to students and administrators.

Those who have to deal with governments know to their cost the time wasted in completing their business, but the Quebec Government is a pleasure in giving quick decisions in any question of business, and his example is followed by his colleagues and subordinates. The result is satisfaction.

If space allowed, one would like to take up the natural resources of the province and their development, people's co-operative banks, farmers' clubs, public health department, and by a vigilant and progressive administration. This is the more remarkable when it is understood that there is practically no opposition. In ninety-nine out of a hundred cases, leaders with such majorities as Sir Lomer Gouin always had since he came into power in 1905, would have got into a state of "dry rot" at least, but this great French-Canadian has, throughout his leadership shown a statesmanship worthy of the best traditions of the British Empire. He has never lost his head, and he is to-day the apostle of commonsense. He has the ability, given to few leaders, to surround himself with the right kind of colleagues and subordinates.

The reason for this appraisal of the Premier of Quebec is not just to give adulation to a politician, but to give our readers an idea of the personality of the man who has been the principal factor in the introduction and the carrying out of the reforms that have placed the province of Quebec in the vanguard of public progress.

Good Roads As an example of this progress, one should give the good road policy of the Government, which has made the province the easiest one in Canada to travel over, and has already placed many hundreds of thousands of dollars in the pockets of the inhabitants from visiting tourists alone. In the year 1911 legislation was passed to spend \$15,000,000 on main road construction, to be spread over a period of years. When the war broke out the work went almost to a standstill. In 1916 the \$15,000,000 was supplemented by another \$5,000,000 for maintenance. Every dollar of the \$20,000,000 when fully used will have been properly spent. Beyond spending money to aid to good roads Quebec has, to-day, besides its splendid mountain highways (aggregating 1,300 miles) running through the principal urban centres, about 35,000 miles of good public roads connecting every part of the province. The result is that every city, town and hamlet are linked up to one another, the farmers have easy access to the markets and city people can readily get in personal touch with the country life of the province. As an investment the \$20,000,000

CANADIAN VOLUNTEER ARRIVES FOR LUMBER

First Government Ship to Be Completed on Coast to Load in Upper Harbor. The Canadian Government Merchant Marine fleet to be completed on the British Columbia coast, the 4,200-ton steel steamship Canadian Volunteer, built by the Wallace Shipyard, Ltd., arrived in port last night from Vancouver and berthed at Ogden Point. The new steamship is to load a cargo of lumber to be supplied by the Cameron Lumber Company and put aboard at the Canadian-Puget Sound mill in the Upper Harbor.

The vessel will remain at the Government wharf at Ogden Point pending the issuance of instructions to shift to her loading berth. The indications are that the ship will be further delayed by the longshoremen's strike which was declared this morning.

P. McCain, commander of Camp Devens.

He disappeared from Camp Devens in May, 1918, and on October 16 reported to the military authorities at Fort Storey, Va. In the interim, he who sought to obtain aeroplane secrets from him. He was finally freed about two miles off Cape Henry, Va., and swam ashore from the submarine according to his testimony.

For Biliousness. Biliousness is a common form of indigestion. It is brought on by food-waste which the stomach, intestines and bowels fail to expel. If you will take a few doses of Beecham's Pills, when bilious, you will soon rid yourself of the impurities, relieve sick headache, stimulate the liver and bile and tone the stomach. Healthy conditions are quickly re-established by using BEECHAM'S PILLS. Directions of Special Value to Women are with Every Box. Prepared only by Thomas Beecham, St. Helens, Lancashire, England. ROCKSIDE POULTRY FARM STORE. 640 YATES STREET. PHONE 2164. The Finest Creamery Butter in the land. 60c. Another Answer to our question "Which Came First the Chicken or the Eggs?" Jos. Rylands asks a question that is very hard to tell. As to which came first upon this earth, the chicken or its shell. I rang up "information," but she didn't seem to know; Then consulted "Alexander," but he only said "no go." So I looked into a little book that was written by old man Noah. The first known chicken breeder to keep birds within his door. Noah says the chicken came here first, and then was learnt to lay. That man might have eggs fried or boiled to start the working day. NOTE: They're all fresh from ROCKSIDE.

MAJOR HARVEY WILL BE MADE INSTRUCTOR

Major Barnett Harvey will be re-appointed to his position as cadet instructor at the High School, it was learned to-day.

In March, 1916, he accepted the adjutancy of the 224th Forestry Battalion and after much overseas service he returned to the city this spring. His appointment as instructor at the High School will be made so that he can assume that position at the beginning of the fall term.

Appointed Matron. — Friends of Nurse E. Wilkinson, daughter of Rev. and Mrs. R. Wilkinson, of Gladstone Avenue, will be pleased to learn that she has been appointed matron at the King's Daughters' Hospital, Duncan.

LILY WHITE Corn Syrup

For Preserving

Thousands of the best house-keepers have discovered that using half sugar and half Lily White Corn Syrup makes preserving more uniformly successful.

To start with, the consistency is bound to be just right from the very nature of the syrup; there is no danger of the preserves crystallizing; the syrup brings out the natural flavour of the fruit; the keeping quality is excellent; and the preserves do not have the cloying sweetness of all sugar.

For better preserves, use Lily White Corn Syrup.

Sold by grocers everywhere in 2, 5, 10 and 20 lb. tins.

PROMINENT PLAYERS NOW ON WAY HOME

Bobby Ross and Haley Jackson Will Re-inforce Local Ball Teams on Return

The ranks of the Amateur Baseball League will soon be increased by the return from overseas of Bobby Ross and Haley Jackson. Both are with the 58th Battery, C. F. A., which is on board the troopship Scotian. They will be welcome as additions to the players here, as from reports brought back by their chums they are playing good ball. In fact the last word received from Jackson stated that he had been selected as first baseman of a Canadian team to make a three-week tour of England, Scotland and Ireland, but had turned the offer down in order to get home.

Ross and Jackson left Victoria in May, 1916, with the 52nd Battery, and were transferred to the 51st on going to France. Before going overseas Bobby Ross was sporting editor of The Times, while Jackson quit school to get a chance in the big game.

Their return is anxiously awaited by some of the local clubs who are eager to sign them, and there is little doubt but that they will receive a great welcome from the fans when they make their first appearance on the local diamond.
