Carmel Goes "Over the Top"

On Wednesday, October 2, the fourth day of the Liberty Loan drive, at bank closing time, the City of Carmel-by-the-Sea had subscribed its \$20,000 quota of Fourth Liberty Loan Bonds.

Since then a large number of subscriptions have been received, and we are now close to the \$30,000 mark. Wouldn't it be great if we doubled our quota!

There are nine working days of the drive remaining, and during that period many perhaps will find and devise means to buy a bond—or another bond.

A Booster in Town

Edward J. Sullivan, of Los Angeles, newspaper and magazine writer, who was here two years ago, spent a few days at Carmel Highlands last week. He is enthusiastic about the place, and will return shortly for a lengthy stay. He said:

"In my world travels I have not seen such a unique hostelry. The scenic surroundings are truly magnificent, and it is a monument to those who planned and constructed it."

Touching upon the coming election, Mr. Sullivan remarked, "I am much interested in the success of Appellate Judge Thos. J. Lennon, who is a candidate for Justice of the Supreme Court. Judge Lennon is one of the ablest jurists in the State, and is in the prime of his vigor and manhood. I hope he will be elected by double the splendid majority he received in the primary election."

ANNUAL MEETING NOTICE

THE ANNUAL MEETING of Carmel Chapter A. R. C. will be held on Wednesday, October 23, at 2 o'clock p.m., in the City Hall, for the election of a Board of Directors, consideration of and action upon reports, and transaction of such other business as may properly come before the Chapter.

MILL FEED SHORTAGE

Farmers Urged by Hoover to Conserve Supply as Vital War Measure

Issued by U. S. Food Administration for California

In order to protect dairy and poultry production from a serious shortage of wheat mill feeds, farmers throughout the nation are urgently requested to co-operate with the Food Administration by using these feeds only for dairy cattle, poultry and young pigs, limiting themselves at all times to a sixty days' supply.

The situation is fully explained in the following statement by United States Food Administrator Herbert Hoover:

Owing to the extension of the drought area, the shortening of the corn crop, the larger animal population in the country, and the Allied demands upon us for feeding stuffs for their own animals because of their own shortage in production of feed grain, it is necessary that we should exert every effort in the proper conservation of feeding stuffs during the next twelve months; yet we must maintain our own animal production. It is necessary that we should ship a larger proportion of wheat as compared with flour during the next twelve months than during the last twelve months to the Allied countries, because their own shortage of feeding stuffs is such that if they are to keep alive their dairy herds, they must have a larger supply of grain wheat from which to make mill feeds.

Already the milk supply in the Allied countries has been limited practically to the supply of children and other vitally necessary national uses, and any failure on our part to supply them with necessary feed stuffs for their dairy herds means that we shall cut into the actual safety of the children amongst the Allies. On the other hand, both our own population and the Allies are dependent upon our production of animal products, and we do not in any way wish to stifle this production. What we must secure is the utmost elimination of waste by the careful feeding of animals and the use of all the roughage available.

One of the difficult problems is the distribution of wheat mill feeds, and this is made more difficult by the fact that the Food Administration, in an endeavor to protect the farmer, is maintaining an artificially low price on these feeds. One consequence is that a great deal of mill feeds are now going unnecessarily into work animals or beef production.

Every farmer will recognize that the wheat mill feeds are vitally necessary for the dairy cattle, to some extent for the poultry, and for young pigs. Owing to the absorption of mill feeds at local points near the mill, considerable sections of the dairy industry are practically without mill feeds and our dairy production is thereby in danger. With view to correcting this, so far as possible, the Food Administration desires to appeal for the assistance of the farmers of the country in the use and distribution of wheat mill feeds. In this view, we are asking every buyer of wheat mill feeds, outside of the acute drought area, to sign a pledge of honor not to use the wheat mill feeds for any purpose except the essential use in dairy, young pig and poultry production, and not to purchase or hold at any one time more than 60 days' supply. Unless we can

secure this careful and specialized

use of our daily production in the central and Eastern areas of the United States is bound to fail and to jeopardize the food supply of our people in that section. Otherwise it will be necessary to release the price restrictions on mill feeds and allow them to take their natural course.

With a view to securing this co-operation from the farmers all over the country in the interest of their industry as a whole, we are instructing the mills and all dealers in feeds to secure from the buyer of wheat mill feeds the following pledge:

"In order to assist the Food Administration in the distribution of mill feeds, I hereby undertake on honor not to use wheat mill feeds for any other purpose than the feeding of dairy cattle, poultry, young pigs or young calves, or the preparation of a weekly bran mash for work animals. I will not feed any more wheat mill feeds than is customarily fed to such animals and I further agree not to have at any one time more than a 60-day supply of wheat feeds on hand."

Does Pershing Speak for You?

"The German army can be beaten; the German army will be beaten; the German army must be beaten."

Pershing counted on every man, woman and child in America to back him up when he said that—back him up with their souls, their flesh, their pocketbooks—to the last drop of blood, to the last dollar.

Our young men are backing him with their blood. Every one of us at home must back him with our dollars—our last dollars—our future dollars.

Our Carmel Musician

Frederick Preston Search has been advanced to the rank of Bandmaster, the highest musical rating in the Navy, and more than equivalent, because of the responsibilities and duties involved, to the civic title of music director.

Given great credit for the way he has lifted the musical service at Mare Island, both by enlistments and stand for better music, he was offered the leadership of several bands, but he transferred these favors to his first musicians, keeping to himself the Naval Training Band, where he can do more good for the thousands of men passing through the training stations.

At the end of his six months' service, Mr. Search transferred over from the Naval Reserve to the United States Navy, re-enlisting for the period of the war, and subject to assignment anywhere.

WEEKLY GREETING

The democracy of the future will not be one of wealth or of birth, but of the man who does something for his fellow men and his country. It will be a truer life of democracy than in the past.

Red Cross Notes

Eighty-one per cent of the wounded American soldiers are able to return to service, eighteen per cent are discharged and about five per cent die of injuries. How is that for a testimonial to American surgeons and physicians?

A rancher in southern California recently brought fifty pairs of socks to his Red Cross headquarters. They had been knitted by his cowboys. And he said seventeen sweaters were under construction.

The "Linen Shower for France" has been postponed for the immediate present, but has not been abandoned. Have your contribution ready when the call comes. The Greatest Mother needs it.

The division superintendent of the Associated Press heeded the slogan "Turn Trash into Cash." The office in San Francisco is conserving typewriter ribbon spools, and suggestion is made that other offices do the same. One chapter recently sold 6000 spools at 1 1/2 cents each.

In a crowd that waited for a second movie show was a soldier with an empty sleeve. "I see you have lost an arm," said a sympathetic bystander. "No, I only gave an arm," replied the soldier. What have you given.

Red Cross men did not stop work as long as fighting went on in the battle of St. Mihiel, but moved ahead with the troops close up to the lines. Hot drinks were sent to the front lines in the ambulances that went after wounded.

If you read it in the Pine Cone you may safely repeat it.

Douglas Fairbanks Again

As a special attraction at the Manzanita Theatre Saturday evening, Manager Curtis announces Douglas Fairbanks in the new Artercraft picture "Down to Earth." The triumphs of the energetic star are again piloted by the master producer, John Emerson. The play is undoubtedly the best Fairbanks screen production yet given the public, owing to the fact, perhaps, that he wrote it himself.

IT ECHOES IN BERLIN

Every steel steamship turned out in our hundred and more shipyards has more than a million rivets, and the rat-tat-tat of the riveters' "guns" scolds in chorus with the clinking of the machine guns in France to drown the dying German cheers over their submarine exploits.

The clinking dollars of the Fourth Liberty Loan will add a shriller voice to that chorus and further lower German morale.

It's easy to cheer for our boys in France. Make your dollars shout in the Fourth Liberty Loan. Germany will understand their voice without translation.

A Soldier's Letter

Just prior to her departure for Berkeley, where she will make her home, Miss Marguerite Cacicco received a letter from an Italian soldier friend. The following extracts are taken from the missive:

"I have been wondering about you many a time, and now more especially that the American troops are spreading in France and in Italy in generous flow. They have been doing wonders in the recent battles in France, distinguishing themselves beyond hope this very day.

"I have been through the last Austrian offensive and have had a very hard time indeed. I spent a full week of trepidation till our forces succeeded in breaking completely our treacherous foe. Thank God! things seem to turn in our favor at last, and our hearts expand with a long nursed hope for freedom and peace. We are not fretting, though a long fight awaits us still. We are going in with renewed confidence. The idea that a mighty, gallant nation like America, with tangible forces, is backing our cause, imparts us a moral force apt to be the most dangerous weapon against our imperial enemy."

A Musical Treat

Lovers of music will be glad to know that arrangements have been completed for the appearance of the celebrated Russian pianist, Isia Seligman, in a piano recital, at Arts and Crafts Hall, Carmel, on Friday evening, October 18.

When this young artist appeared in San Francisco he won the unanimous praise of the press. Redfern Mason pronounced him "the finest pianist this side of the Rockies."

Before coming to America Mr. Seligman played forty-nine Red Cross concerts in Siberia. It will be remembered that he, with others, gave his services this summer for the benefit of the Red Cross and for the Arts and Crafts Piano Fund, so that he may confidently look for the hearty support of the members of these organizations.

Tickets will be on sale at the Book Shop. Adults 75 cents, children 50 cents. War tax extra.
