"H.M. The King's Priesthood Chronicle in Pictures" will serve as a memento of the eventful days of H.M. King Phumiphol Adulyadej during His priesthood, which is regarded as a traditional convention and which is recorded on the pages of our national history.

Although several of our Kings were ordained priests, the younger generations will rarely have a chance to witness the royal solemn functions. This illustrated book is mainly published for the benefits of the generations to come, in order to have a vivid view of this auspicious Royal Ceremony.

This compilation work was made possible amidst various difficulties, by the extensive cooperation of our friends and Press photographers. We wish to humbly express our heartfelt thanks for the generous assistance rendered to us.

We have tried our best in doing it as an expression of our loyalty and high respect for H.M. the King. It is our intention to have this illustrated book available to readers abroad; therefore English captions are also given underneath every illustration. If some of the pictures are not so clear as they should be, we offer our apology.
