The branch bank of the United States in this city will not crase its own operations or the transaction of business with the parent bank at Philadelphia, or the branch at New York; although orders have been issued that it shall forth. with cease all transactions with the branch banks discontinued in Daltimore and elsewhere. 'As remarked in this gazette of Wednesday last, it and the branch bank in New York are expected to be continued till the U S bank charter shall have expired in March next.

The Cashier of the Union bank of this tity has gone to S Louis, to establish there a branch of that bank. This is right; and must be highly advantageous to the interests and credit of that bank to have its notes redeemable in different

Every circumstance presents flattering prospects for the city of New Orleans, in its march to successful greatness.

· MURDER.-Two persons of color having had a quarrel on the morning of Saturday last, in consequence of some dis bute that had previously becurred between them, when one named Joseph Terlugan had threated to kill Mitchell Araous the latter having met the former, asked concerning the threat; and the other defield him to strike. Arabus did strike, and Teriugan immediately diew his dirk, and drove it in the coroner's inquest having boot held on his body, the jury gave a verdict of "wifful murder' against Terlagan, who shad excaped, but against whom warrants have been issued.

The coroner also informs us that a dead Lody having been

the civil and restrict at the gate of the old senerty, in a coffin, it was suspected that the deceased had did a violent death; and the civil authorities had called on him to hold an inquest. It had been sent to be deceased that it was suspected that it was steeped of a youth of about 10 years of age, who had ded from a linguing illness; and had been sent to be busined by a negro, and from leziness test to be busined by a negro, and from leziness test there by.

## WAR IN TEXAS.

We stiffein two documents politely furnished by a friend containing the fatest advices from Texas-which is daily assuming a more interesting attitude for those of our citizens who are connected with it by property or friends, by the declines of liberty and generous enthusiasm in the course of independence and prosperity.

We need only state that most of the departments br juriedictions of Texas have elected deputies to the general consultation to be held in Washington - a good name us a Temembrancer and inciter in the cause of revolutionary independence-on the 15th met; and that their objects hing be of a more decisive and determined kind than they had been led to suspect. With Zavala and Austin at their head, the Mexicans and Americans in Texas need apprehend fittle danger in their struggle for freedom and independence.

But shall the citizens of the United States, in their individual capacity, remain listless spectators of eventful efforts like those almost certain to occur in Texas before a few months shall have clapsed ?
