Directions for Ordering

Nomenclature
1923 Edition Standardized Plant Names

Give explicit directions as to address and mode of shipment. Shipments will be forwarded exactly as directed, but when without instructions, we will use our judgment in forwarding.

ALL ORDERS ARE ACCEPTED SUBJECT TO prior sale, and to conditions of stock at delivery date, under the following terms and conditions:

PRICES in this catalog cancel all previous lists and quotations and are subject to change without notice. **Prices include packing, except on special bulky pieces,** for which cost of packing will be extra, and are **f. o. b. our shipping station,** or for local delivery on our regular routes.

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged according to the value of the trees chosen, irrespective of catalog list price.

RATES.—Lots of 5 and 50 of a variety will be furnished at the 10 and 100 rates respectively.

TERMS, CASH WITH ORDER, except to persons who satisfy us as to their responsibility, when for your convenience **accounts will be opened due in 30 days from date of invoice.**

OVERDUE ACCOUNTS subject to interest at 6 per cent.

Forwarding and Shipping

SHIPPING SEASON opens about March 1st in the Spring and August 15th in the Fall.

WE WARRANT all goods to be true to name, full count, up to grade, and in good condition when shipped.

GUARANTEE.—We give no guarantee on the life of stock, as we have no control after it leaves our hands, and we will not replace stock without charge.

CLAIMS must be made within **five days** after receipt of goods. Stock delivered as per order and in good condition is not returnable.

GOODS IN TRANSIT.—All goods are at purchaser's risk after they are delivered to the forwarding companies and we receive their receipt for the shipment in good condition.

CLAIM FOR DAMAGE WHILE IN TRANSIT MUST BE MADE AGAINST THE DELIVERY COMPANY. Have delivery agent note the damaged condition on the freight bill, and present your claim promptly to the transportation company.

The Planting Plans are as Important as the Building Plans

There is no doubt that the pleasure we derive from the contemplation or possession of living plants is increased a hundred-fold by skill in their arrangement in the places where they are finally to grow.

The greatest value that a plant can have is certainly not that of a museum specimen, but lies rather in its power to add comfort and attractiveness to the places where we live, work and play.

To all who have planting to do, from the simplest bit to the development of a large place, Andorra Nurseries strongly recommends the advice of a trained Landscape Architect.

From his experience in the use of plant material he can suggest those combinations and arrangements which will be fitting and wise to prevent costly and discouraging mistakes. Planning ahead is a guarantee of success.

An Invitation to Andorra

Those interested in trees and plants out-of-doors are always cordially welcome at Andorra. Excellent highways through this beautiful rolling section of Pennsylvania, with its charm of Colonial manor house and country-place, offer inviting roads from every direction to visitors in motor cars

BY MOTOR from Philadelphia, go out the Parkway; along the East River Drive, continuing up the Wissahickon and Lincoln Drives to McCallum Street, turn left and follow through to dead end, turning right on Mermaid Lane and follow good road, turning left on St. Martins Lane, follow through turning right over bridge at Highland Station, continuing three blocks to Germantown Avenue. Turn left to City Line and then left one square to the Nursery.

TRAIN CONNECTIONS over the Chestnut Hill branches of both the Pennsylvania and Reading Railroads make Andorra a two-hour run out of New York and a half hour from the heart of Philadelphia to Chestnut Hill Stations; from Chestnut Hill a ten-minute ride on the City Line motor bus to City Line brings you within one block of the office.

EVERGREEN TREES

All Prices are for Stock of Our Selection. Customer's Selection
Will be Charged at Value of Stock Selected

ABIES concolor.

WHITE FIR. Tall, rapid growing; hardy rich silvery needles. For specimen or groups.

2½ to 3 ft.Each \$12 50
3 to 3½ ft. 15 00

Specimens. 10 to 12 ft..Each \$75 00 to 100 00

A. nordmanniana.

NORDMAN FIR. Tall; dark, glossy green foliage. Most useful as a specimen.

2½ to 3 ft.Each \$15 00

3 to 3½ ft. 17 50

3½ to 4 ft. 20 00

4 to 5 ft. 25 00

5 to 6 ft. 35 00

6 to 7 ft. 50 00

7 to 8 ft. 100 00

Specimens. Broad, spreading trees,
from 10 to 16 ft. in height.\$125 00 to 250 00

A. veitchi.

VEITCH. FIR. Tall slender growth. Foliage deep green—the under side glaucous, giving a bluish effect. Distinct and handsome.

2½ to 3 ft.Each \$15 00

3 to 3½ ft. 17 50

CEDRUS atlantica.

MOUNT ATLAS CEDAR. Airy pyramidal tree with dark green foliage. Splendid as a specimen.

2½ to 3 ft.Each \$12 50

3 to 3½ ft. 15 00

4 to 4½ ft. 17 50

Specimens. 14 to 25 ft. Each \$125 00 to 350 00

C. atlantica glauca.

BLUE MOUNT ATLAS CEDAR. Airy pyramidal tree with silvery-green needles. Use as specimen.

Specimens. 8 to 20 ft..Each \$75 00 to 350 00

CRYPTOMERIA japonica, drachioides.

JAPANESE TEMPLE CEDAR. Oriental in effect. As specimen or in groups.

Specimens. 16 to 25 ft. Each \$175 00 to 250 00

C. japonica lobbi. See page 10.

LU LU TEMPLE COUNTRY CLUB.

ANDORRA SERVICE DEPT.

CHAMAECYPARIS. (See Retinospora.)

CRYPTOMERIA japonica lobbi.

LOBB CRYPTOMERIA. Tall and slender. Splendid for formal effects of dark bronzed foliage. The beauty-loving Japanese use this stately evergreen especially for setting off their temples.

4	to 4½ ft.	Each	\$15 00
4½	to 5 ft.		17 50
5	to 6 ft.		20 00
6	to 7 ft.		30 00
Specimens.	12 to 14 ft.		100 00
Specimens.	14 to 16 ft.		150 00
Specimens.	16 to 18 ft.		200 00
Specimens.	20 to 22 ft.		350 00

CUPRESSUS (Chamaecyparis).

C. lawsoniana.

Tall growth; feathery effect. Dark green flat foliage. A handsome lawn tree.

7 to 10 ft.	Each	\$20 00 to 35 00
-------------	-------	------	------------------

ILEX. (See also pages 37, 38—81.)

I. aquifolium.

ENGLISH HOLLY. Bright and cheery in Winter landscapes in protected corners.

3½	to 4 ft.	Each	\$12 50
4	to 5 ft.		15 00
5	to 6 ft.		17 50
6	to 7 ft.		25 00

I. opaca.

AMERICAN HOLLY. Well known and hardier than the English Holly. Effective in border groups or as specimens. Red Berries.

3½	to 4 ft.	Each	\$7 50	Per 10	\$60 00
4½	to 5 ft.		10 00		80 00
5	to 6 ft.		15 00		
6	to 7 ft.		20 00		

Extra Specimens. Price on application.

JUNIPERUS chinensis.

CHINESE JUNIPER. Precise columnar form; grayish-green foliage. For formal effects or mixed evergreen planting.

7 to 8 ft.	Each \$25 00
8 to 9 ft.	30 00
Specimens. 10 to 12 ft.	Each \$35 00 to 50 00

J. chinensis, albo-variegata.

WHITELEAF CHINESE JUNIPER. Tall pointed pyramid with attractive colored needles. For formal use.

4 to 4½ ft.	Each \$15 00
4½ to 5 ft.	20 00
5 to 6 ft.	25 00
6 to 7 ft.	30 00
8 to 9 ft.	\$50 00 to 60 00
Specimens. 10 to 12 ft.	\$75 00 to 100 00

J. chinensis columnaris.

NEW. COLUMNAR JUNIPER. Tall, slim growth. Steel-blue color. Hardy and a splendid formal specimen.

7 to 8 ft.	Each \$25 00
8 to 9 ft.	35 00
9 to 10 ft.	40 00

J. chinensis, femina reevesi.

REEVES JUNIPER. Of free-growing form more valued in mixed planting than formal use. Spreading upright branches.

4 to 5 ft.	Each \$15 00
5 to 6 ft.	20 00
6 to 7 ft.	25 00
7 to 8 ft.	35 00
8 to 9 ft.	\$40 00 to 50 00

Specimens. 10 to 14 ft. Prices on application.

J. chinensis mas.

UPRIGHT CHINESE JUNIPER.

3 to 3½ ft.	Each \$7 50	Per 10	\$65 00
------------------	-------------	--------	---------

J. chinensis neaboriensis.

CONICAL CHINESE JUNIPER. Of broad pyramidal habit, and rich foliage. Distinct and handsome.

5 to 6 ft.	Each \$20 00
6 to 7 ft.	25 00

J. chinensis pfitzeriana.

PFITZER JUNIPER. Its sweeping gray-green branchlets give this broad, bushy type value for mixed planting.

1½ to 2 ft. spread	Each \$2 50	20 00
2 to 2½ ft. spread	3 50	30 00
2½ to 3 ft. spread	5 00	45 00
3 to 3½ ft. spread	6 00	50 00
3½ to 4 ft. spread	10 00	85 00
4 to 4½ ft. spread	12 50	100 00
4½ to 5 ft. spread	20 00	175 00

JUNIPERUS chinensis sargentii.

SARGENT JUNIPER. Spreading form similar to "Waukegan" but foliage rich green.

	Each	Per 10
12 to 15 in.	\$4 00	\$38 50
15 to 18 in.	5 00	47 50
18 to 20 in.	6 50	60 00

J. chinensis virginalis.

GLOBE CHINESE JUNIPER. Very low-growing; use in masses in low border planting.

3 to 3½ ft. spreadEach \$20 00

J. communis.

COMMON JUNIPER. Dense fastigiate form; grayish-green foliage. Valuable for formal effects.

3 to 3½ ft.	Each \$3 50	32 50
3½ to 4 ft.	4 00	37 50
4 to 4½ ft.	4 50	42 50
4½ to 5 ft.	5 00	47 50

J. communis depressa.

SPREADING JUNIPER. Flat spreading growth; compact.

18 to 24 in. spread	Each \$2 50	22 50
24 to 30 in. spread	3 50	30 00
30 to 36 in. spread	4 00	35 00
36 to 42 in. spread	4 50	42 50

J. communis depressa aurea.

GOLDEN SPREADING JUNIPER.

30 to 36 in. spreadEach \$4 00 35 00

J. communis, depressa plumosa.

ANDORRA'S PURPLE SPREADING JUNIPER. New introduction. Invaluable in Fall and Winter when foliage is tinged with rich purple.

12 to 15 in. spread	Each \$2 50	17 50
15 to 18 in. spread	3 00	20 00
18 to 20 in. spread	3 50	25 00
20 to 24 in. spread	4 00	30 00
24 to 30 in. spread	4 50	40 00
30 to 36 in. spread	6 00	50 00
Specimens. 4 to 5 ft. spread..	\$7.50 to 12 50	

J. communis hibernica.

IRISH JUNIPER. Slim growth—columnar habit. Brownish twigs and silvery grey foliage. Useful for formal plantings.

3 to 3½ ft.Each \$4 00 37 50

3½ to 4 ft. 4 50 40 00

J. communis, horizontalis douglasi.

WAUKEGAN JUNIPER. Dark green foliage.

Low growing, spreading; of exceptional merit.

12 to 15 in. spread	Each \$2 50	20 00	
15 to 18 in. spread	3 00	25 00	
18 to 24 in. spread	4 00	30 00	
24 to 30 in. spread	4 50	40 00	Per 100
3 to 3½ ft. spread	6 00	50 00	\$325 00
3½ to 4 ft. spread	7 50	60 00	375 00
4 to 4½ ft. spread	10 00	85 00	

JUNIPERUS communis, suecica.

SWEDISH JUNIPER. For formal use. Slow-growing; gray-green needles. Tall columnar. Per 10

2 to 2½ ft.	Each \$3 50	\$30 00
2½ to 3 ft.	4 00	35 00
3 to 3½ ft.	4 50	40 00
3½ to 4 ft.	5 00	45 00

J. excelsa, stricta.

SPINEY GREEK JUNIPER. Close-growing, pyramidal form with gray-green foliage. Excellent in the formal garden.

3 to 3½ ft.	Each \$10 00	90 00
3½ to 4 ft.	12 50	115 00
4 to 4½ ft.	15 00	135 00
4½ to 5 ft.	17 50	165 00
5 to 6 ft.	20 00	
6 to 7 ft.	25 00	
7 to 8 ft.	35 00	

J. japonica.

JAPANESE JUNIPER. Medium growth—fronded form—a loose pyramidal type of great charm.

2½ to 3 ft.	Each \$12 50	110 00
Specimens. 8 to 10 ft.	Each \$50 00 to 85 00	

J. japonica, aurea.

GOLDEN JAPANESE JUNIPER. A golden-yellow form of J. Japonica.

3 to 3½ ft.	Each \$7 50	65 00
3½ to 4 ft.	10 00	80 00
4 to 4½ ft.	12 50	100 00
4½ to 5 ft.	15 00	135 00

J. procumbens.

TRAILING JUNIPER. Similar to "Douglasi" but of flat growth, trailing close to the earth.

Specimens. 2½ to 3 ft.	Each \$6 00	50 00
Specimens. 3 to 3½ ft.	7 50	60 00

J. sabina.

SAVIN JUNIPER. Dark green foliage. Suitable for rockery work.

1½ to 2 ft.	Each \$2 50	22 50
2 to 2½ ft.	3 00	28 50
2½ to 3 ft.	3 75	35 00

J. sabina cupressifolia.

1½ to 2 ft. spread	Each \$5 00	
-------------------------	-------------	--

J. sabina, tamariscifolia.

TAMARIX SAVIN. Grayish-green foliage, suited for rockery work. Low, spreading.

10 to 12 in. spread	Each \$2 50	20 00
15 to 18 in. spread	3 50	28 00
24 to 30 in. spread	7 50	60 00
30 to 36 in. spread	10 00	85 00

ANDORRA LANDSCAPE DEPT.

CEDARS WELL PLACED.

JUNIPERUS squamata.

SCALEY LEAVED JUNIPER. Prostrate trailing habit; glaucous foliage. Per 10
 1½ to 2 ft. spreadEach \$4 50 \$40 00
 2 to 2½ ft. spread 6 00 55 00

J. squamata, var. myeri.

MYERS JUNIPER. An upright synamata type—dense growth—terminals of branches tipped with bronzy red. Unique and desirable for rock gardens.
 1 ft.Each \$5 00 40 00

J. virginiana.

REDCEDAR. Tall and slender, resembling the Italian Cypress in form and rich, dark green color. All these Cedars should be used more in deciduous plantings, where they give an enlivening note in color and form. All the tall varieties are excellent for formal work.
 3½ to 4 ft.Each \$4 50 40 00
 4 to 5 ft. 6 00 47 50
 5 to 6 ft. 7 50 60 00
 6 to 7 ft. 12 50
 7 to 8 ft. 15 00
 8 to 10 ft.\$17 50 to 20 00
 12 to 14 ft. 35 00 to 40 00

J. virginiana, elegantissima.

GOLDTIP REDCEDAR. Like Redcedar in form, with attractive golden tipped growth. Habit compact and columnar. An unusual and beautiful tree.
 4½ to 5 ft.Each \$12 50
 5 to 6 ft. 15 00
 6 to 7 ft. 20 00
 7 to 8 ft. 25 00
 8 to 10 ft.Each \$30 00 to 40 00

JUNIPERUS virginiana, glauca.

SILVER REDCEDAR. A bluish gray. For garden or border. Tall and slender. Per 10

4½ to 5 ft.	Each	\$15 00	\$140 00
5 to 6 ft.		20 00	185 00
6 to 7 ft.		25 00	235 00
Specimens. 7 to 8 ft.		35 00	
Specimens. 8 to 9 ft.		40 00

4 to 4½ ft.	35 00
4½ to 5 ft.	40 00

Specimens. 6 to 7 ft. 50 00

Specimens. 7 to 8 ft. 75 00

Specimens. 8 to 9 ft. 100 00

Specimens. up to 25 ft. Price on application.

ANDORRA LANDSCAPE DEPT.

WHAT A SATISFACTION to have a definite planting plan to work with and up to. What a saving in money and time when planting follows a definite thought, and how much more satisfactory the results.

PINUS cembra.

SWISS STONE PINE. Very slow-growing conical tree. Attractive silvery-green needles.

3 ft.	Each \$15 00
4 ft.	17 50
5 ft.	20 00
7 to 8 ft.	35 00
8 to 10 ft.	50 00

P. densiflora.

JAPANESE RED PINE. Of rapid growth. Picturesque when matured, with broad irregular head. Foliage bluish green.

		Per 10
4½ to 5 ft.	Each \$10 00	\$80 00
5 to 6 ft.	12 50	115 00
6 to 7 ft.	15 00	135 00
7 to 8 ft.	20 00	

P. densiflora umbraculifera.

JAPANESE TABLE PINE. (Tanyosho.) So named because it forms a wide, soft green table-top. Lavender-candled buds in Spring.

Specimens rich in form and color.
8 to 10 x 8 to 10 ft..Each \$50 00 to \$100 00

P. excelsa.

BHOTAN PINE.

Specimens. 12 to 25 ft. Price on application.

P. montana.

MOUNTAIN PINE. A rugged picturesque grower, broad spreading—more upright and open than the dwarfer "mugho."

3½ to 4½ ft.	Each \$20 00 to 25 00
6 to 8 ft. Specimens	40 00 to 50 00
10 to 14 ft. Specimens ...	60 00 to 100 00

P. montana, mughus.

MUGHO PINE. Dwarf, slow, compact and neat in habit; very hardy. Its compact form makes it desirable for formal planting.

15 to 18 in. spread	Each \$4 00	35 00
18 to 24 in. spread	5 00	45 00
24 to 30 in. spread	8 50	75 00

Specimens. 30 to 36 in. spread 15 00

Specimens in larger sizes. Price on application.

P. nigra.

AUSTRIAN PINE. One of the best for border or mass planting, or as shelter or screen. Its glossy, dark green needles and rugged branches will stand the smoke of cities.

2½ to 3 ft.	Each \$5 00	45 00
3 to 3½ ft.	6 00	50 00
3½ to 4 ft.	7 50	60 00
4 to 5 ft.	8 50	70 00

4½ to 5 ft.Each	\$17 50
5 to 6 ft.	25 00
6 to 7 ft.	30 00
7 to 8 ft.	40 00

HEMLOCKS are without question the most standard evergreen in general use. Best effects are secured when these are planted in groups or masses, particularly when native flowering small trees, or shrubs are used in connection with them, as they form a splendid background for Flowering Dogwood, Thorns, Native Rhododendrons and Azaleas give a pleasing effect when so used. As a hedge they are unexcelled. Hemlocks should not be planted as isolated specimens except in very protected positions.

EVERGREEN SHRUBS

18 to 24 in.	4 50	40 00	
24 to 30 in.	6 00	50 00	

RICH PLANTING EFFECTS can be secured by the use of Evergreen Shrubs and they are to-day general favorites for all types of planting. For foundation plantings about buildings, for massing as a background in the garden and for planting in shaded positions in the borders and under trees they fill a position which cannot be successfully occupied by any other class of plant material. Care should be used in the Winter protection of this material if in exposed positions. Nothing is better than a leaf mulch covering the ground for six inches deep to be removed in the Spring leaving only the refuse of the mulch to be forked into the soil about the plant for a Summer mulch.

For Border Planting in the Full Sunshine or in Partial Shade

**HYBRID RHODODENDRONS—ANDORRA-GROWN
OWN ROOT PLANTS**

Andorra's Hybrids, in sizes 3 feet and under, are Andorra-grown from layers. This places *every plant on its own roots*, and every bud and shoot, no matter how low it may come on the stem, is the true variety. We believe this is the only stock of layer-grown plants offered.

AMUR MAPLE. Medium height, low-branched. Brilliant autumnal coloring.

Specimens. Wide spreading; branched low 12 to 18 ft. in height...Each \$50 00 to 150 00

A. negundo.

BOXELDER. Rapid growing, medium height. For quick screen or windbreak.

8 to 10 ft.; 1½ to 2 in.	Each \$3 50	30 00
10 to 12 ft.; 2 to 2¼ in.	4 00	35 00

THE NORWAY MAPLE is a most valuable tree for lawn or street planting, where quick results are desired. It is of rugged constitution giving good results in positions where other trees will not thrive, and carrying broad, heavy, foliage, it is most useful either for shade or for screen purposes.

We offer the following sizes in trees which have been thoroughly root pruned so that they carry an abundance of fibrous feeding roots.

The tops have been cut back and thoroughly pruned, thus developing heavy stems and bushy tops, making a tree which we term **extra heavy**, as compared with the average Norway Maple.

The stock in the smaller sizes is limited, but in the grades from 3½-inch caliper up, we can supply large quantities. We will be glad to make special prices for quantity lots, or for carload shipments.

ACER platanoides.

NORWAY MAPLE. Rapid growing; symmetrical; valuable for lawn, street and avenue planting; holds its rich green leaves till late in Fall taking on rich yellow tones.

	Each	Per 10
10 to 12 ft.; 2 to 2¼ in.	\$6 50	\$55 00

2 to 2½ ft.	Each \$15 00	
3 to 3½ ft.	20 00	

THE SWEET MAGNOLIA

MAGNOLIA GLAUCA

A BEAUTIFUL, small, shrubby tree, thriving in any good soil or situation, and useful for positions too damp for many trees. The rich, glossy green foliage is glaucous beneath, giving the whole a silvery sheen. The cream-white, waxlike flowers are highly fragrant, and the seed-pods which follow open to show brilliant coral seeds.

Used in masses with evergreens, in the shrub border, as hedges or for specimens, it gives added pleasure to any planting.

*Recently Transplanted Stock
Dug and Shipped with a Ball of Soil*

Old English Boxwood

A Specimen 8 feet high, 10 feet spread

At Andorra We have a limited number of superb specimens from 4 ft. in height with a 4 ft. spread, to patriarchs of the Boxwood world 7 to 9 ft. in height and from 14 to 18 ft. spread. You are invited to inspect these specimens.

The Old English Boxwood Co. on the

York Road at Cockeysville, Maryland

OFFER the largest and we believe the finest collection of Dwarf Boxwood ever assembled. Over 7000 plants; *and every plant transplanted within the past three years insuring good roots.*

SPECIMENS in all sizes, from two and three foot dense pieces, up to regular and billowy pieces ten feet in height and twenty feet in spread.

SPECIMENS with all the charming character that is found in century old plants in superb condition.

ALSO HEDGES ready for your grounds in varying heights and widths.

A WELL PLANTED APPROACH.

ANDORRA LANDSCAPE DEPT.

THE CHARM of informal small shrub planting is shown here. The pendulous form, softness of outline and richness of color of *Abelia*, *Azalea* and *Barberry* massed under an occasional *Pine* and flowering tree, make this walk delightful and full of surprises at all seasons of the year. An unimportant and unattractive side of the house may thus be turned into a spot of beauty.

DECIDUOUS SHRUBS

This List Conforms with 1923 Edition Standardized Plant Names
 All Prices are for Stock of Our Selection. Customer's
 Selection will be Charged at Value of Stock Selected

RUBUS odoratus.

FLOWERING RASPBERRY. Medium height; flowers rosy purple in Summer. Excellent for shady places.

2 to 3 ft.	Each \$0 50	3 50	
-----------------	-------------	------	--

SAMBUCUS canadensis.

AMERICAN ELDERBERRY. Quick growing; white flowers in flat panicles in mid-Summer followed by black fruit.

1½ to 2 ft.	Each \$0 75	3 50	20 00
------------------	-------------	------	-------

S. nigra aurea.

GOLDEN EUROPEAN ELDER. Upright, with golden foliage. All will thrive in moist places.

3 to 4 ft.	Each \$1 00	7 50	50 00
4 to 5 ft.	1 25	10 00	

SORBARIA sorbifolia.

URAL FALSE SPIRAEA. Vigorous shrub, large compound leaves; white flowers in Summer.

	Each	Per 10	Per 100
3 to 4 ft.	\$1 00	\$6 50	\$50 00
4 to 5 ft.	1 50	8 50	65 00

SPIRAEA.

A species of shrubs useful in every place—in garden, or singly and massed in border plantings. They include medium and dwarf varieties, blooming from early Spring to mid-Summer.

S. bumaldi.

BUMALDA SPIRAEA. Dense broad growth; rosy pink flowers in July.

2½ to 3 ft.	Each \$1 50	7 50	50 00
3 to 4 ft. Heavy	2 00	10 00	65 00

S. bumaldi Anthony Waterer.

WATERER SPIRAEA. A medium grower; rose-pink flowers in Summer; for garden or borders.

2 to 2½ ft. Heavy	Each \$1 00	6 50	40 00
2½ to 3 ft. Heavy	1 25	7 50	50 00
3 to 3½ ft. Heavy	1 50	10 00	60 00

S. frobelli.

FROBEL SPIRAEA. A stronger grower than "Anthony Waterer;" blooms of same color in July and August.

3 to 4 ft.	Each \$1 50	10 00	60 00
-----------------	-------------	-------	-------

S. prunifolia.

BRIDAL WREATH. Tall grower; shining green foliage; white blossoms in May.

4 to 5 ft.	Each \$1 00	7 50	40 00
5 to 6 ft.	1 50	10 00	60 00

S. reevesiana fl. pl.

REEVES DOUBLE SPIRAEA. Pure white double blooms in May and June.

4 to 5 ft.	Each \$1 00	6 50	45 00
5 to 6 ft.	1 50	10 00	85 00

S. thunbergi.

THUNBERG SPIRAEA. Medium shrub; spreading branches; light green foliage; pure white flowers in earliest Spring.

2 to 3 ft. Heavy	Each \$1 00	7 50	40 00
3 to 4 ft. Heavy	1 50	10 00	50 00

SPIRAEA van houttei.

VAN HOUTTE SPIRAEA. Medium height; of merit for lawn specimen or massing; white flowers in May.

		Per 10	Per 100
3 to 4 ft. HeavyEach \$1 00	\$6 00	\$35 00
4 to 5 ft. Heavy 1 50	10 00	50 00
5 to 6 ft. Heavy 2 50	20 00	60 00

STAPHYLEA colchica.

COLCHIS BLADDER NUT. Tall growing; fragrant white flowers in late Spring; attractive seed pods.

4 to 5 ft.Each \$1 00	8 50
------------	------------------	------

STEPHANANDRA flexuosa.

CUTLEAF STEPHANANDRA. Of great value for its fine cut, lacy foliage, where daintiness is desired.

2 to 3 ft.Each \$1 00	7 50
3 to 4 ft. 1 50	10 00

STYRAX japonica. (See page 68.)

SYMPHORICARPUS chenaulti. NEW.

RED FRUITED. Arching branches giving fountain-like effect, slender twigs, fruit red and pink.

3 to 4 ft.Each \$1 00	4 50	40 00
4 to 5 ft. 1 25	5 00	45 00

S. mollis.

SPREADING SNOWBERRY. Spreading habit; large white fruit.

2 to 3 ft.Each \$0 75	3 50	30 00
3 to 4 ft. 1 00	4 00	35 00

ANDORRA LANDSCAPE DEPT.

HARDY HERBACEOUS PERENNIALS

This List Conforms with 1923 Edition Standardized Plant Names

N. B. Quantities of 5 and 50 OF A VARIETY will be furnished at the 10 and 100 rates, respectively.

LESS THAN FIVE PLANTS OF ONE SORT ARE SOLD AT THE TEN-RATE, PLUS 50%.

THERE is a strong appeal in the gardens of old farmhouse and cottage, with the glowing yellow and orange Day-lilies, bright flowered Phlox and Peonies, and their show of hardy Chrysanthemums; a demonstration of the ease with which these plants are grown and the little care they require when one thinks how little time the busy country housewife can spend in gardening. The old-fashioned perennials have been enriched with many improved varieties and species, and every corner of the grounds can be kept bright throughout the whole growing season; the tall growing varieties can be effectively planted in the shrubberies, their flowers showing

against the background of evergreen or shrub, and the lower sorts blending the edge of shrubbery and lawn in naturalesque borders, or the wood edge made gay with some of the Asters, Foxgloves, Ferns and many others.

Of flowering plants, two things are demanded—Varieties which will brighten our lawns and gardens, and which can be cut for house decoration—these hardy herbaceous plants reward us bounteously in both requirements. The height, color and flowering season of each variety are given in the following list.

SINGLE PLANTS 50c. EACH

	Per 10	Per 100
ACHILLEA millefolium roseum, var. Cerise Queen. June to September. Amaranth-red. 1½ ft. . .	\$2 50	\$12 00
A. ptarmica (Sneezewort). All Summer. White. 2 ft.	2 50	12 00

- PHEGOPTERIS hexagonoptera**. For shade. 1 ft.
- POLYPODIUM vulgare** (Polybody). For rock work. 4 to 10 in.
- WOODSIA obtusa**. 6 to 12 in. Shady places, in moist soil.
- WOODWARDIA angustifolia** (Chain Fern). 1 ft. Open or shaded positions, in moist soils.

FLOWER GARDEN—ALDEN PARK MANOR.

HARDY CHRYSANTHEMUMS

When frost has browned the other flowers of the garden, these hardy plants burst forth in a profusion of bloom, in colors which seem to catch the most delicate tints and shades of bronzing leaf and gorgeous Autumn sunset, while some foretell the purest white of coming snow, and pink of purpling shadows.

Planted in the hardy garden, border or lawn at edge of shrubbery, they will yield a wealth of bright flowers in late Autumn, and fill the house with cut flowers.

50c each; \$2.50 per 10; \$15 00 per 100

A JAPANESE IRIS GARDEN.

A Very Satisfactory Way to Utilize an Old Pond Bed or Bog

JAPANESE IRIS

IRIS KAEMPFERI

75c. each; \$4.00 per 10 OF ONE VARIETY

\$35.00 per 100 in not less than 10 of a Variety

Of all the Iris family none equal the Japanese. The large blooms, carried well above the foliage, are gorgeous in their coloring, which ranges from purest white to deep purples, indigo blues and mahogany red, between which there is a wonderful array of tints and mottlings. To see our collection a visit to Andorra in June is worth while; or, better, buy a full set.

Dinah. Reddish purple, flaked with white.

Gold Bound. White.

Hannibal. White veined with purple.

Mahogany. Deep, velvety, mahogany red.

Neptune. Rosy purple.

Prince Camille de Rohan. Deep rich dark blue.

Princess Clothilde. Ash gray blushed with purple.

Pyramid. Deep violet-purple veined with white.

Snow Bound. White.

Templeton. Six-petaled, violet-purple, marbled with white.

Zenobia. Light ground suffused with reddish purple.

Medusa. Rosy lilac	75	5 00

PHLOX

PHLOX PANICULATA—HYBRID PERENNIAL PHLOX

A succession of flowers of greatest beauty from early July until frost, in softest tones of pink and rose, salmon, mauve and silvery white in great paniced blooms, will brighten the hardy border of mixed varieties of Phlox. Easy of culture, and perfectly hardy, the plants can be used at the edge of shrub border or in the garden, spaced about eighteen inches apart.

THE FOLLOWING CHOICE VARIETIES

50c each; \$2.00 per 10 of a variety; \$15.00 per 100, not less than 10 of a variety at the 10 rate

- Anna Cook.** Soft lilac pink.
- Argon.** Salmon rose. Early. Dwarf.

- Rynstrom.** Pink. wide
- ✓ **Thor.** Deep salmon pink, with scarlet glow.
- Widar.** Reddish-violet. White centre.
- PHLOX.** See also page 107.

INSECTICIDES

All prices are subject to change without notice.

Sunoco Spray Oil

A heavy oil which readily gives a permanent and uniform emulsion when mixed with water. For all scale insects, mealy bugs, woolly aphids, mix at strength of one part oil to twenty parts of water (1 qt. to 5 gallons). This also kills the eggs and prevents Summer infestations of red spider, aphids and many other insects. January, February and March are favorable months for this treatment, but the late Fall, just after the leaves drop, is just as good. It is also used as a Summer spray and as a spreader for Bordeaux, lead arsenate or nicotine sulphate. Do not use with lime sulphur.

½ gallon cans @ \$0.85	1 gallon cans @ \$1.50
5 gallon cans @ 5.75	
15 gallon drums @ .70	per gallon
30 gallon drums @ .60	per gallon
50 gallon drums @ .50	per gallon

COATED ARSENATE OF LEAD. Patented. A thorough protection against JAPANESE BEETLES. One thorough spraying will protect the foliage during the Beetle season. Coated Arsenate of Lead has great sticking qualities, one spraying will be sufficient protection during the season. Use at the rate of five (5) pounds to fifty (50) gallons of water, or, one-half (½) pound to five (5) gallons.

1 lb. jar @ \$0.60	25 lb. package @ \$6.25
2½ lb. jar @ 1.10	100 lb. package @ 17.00

Place your orders now for next Spring's delivery as the demand will be heavy.

LEAD ARSENATE. A powder. An internal poison for destruction of leaf-chewing insects and fruit feeders, such as codling moth, curculio, bag worms, walnut caterpillars, tent caterpillars, tussock moth, potato bugs and many others. Use 2 to 3 lbs. per fifty gallons of water.

4 lb. bags @ \$1.50	48 lb. cartons @ \$14.00
---------------------	--------------------------

PARADICHLOROBENZENE (P. T. B.). Small crystals. Apply these about base of trees for control of borers in peach and cherry (not apple). Use from ½ to 1 ounce per tree. It may be used with perfect safety on very young (2-year-old trees) if raked from about trunk at end of three weeks. Directions on cans.

5 lbs. @ \$2.50	25 lbs. @ \$11.00
10 lbs. @ 4.50	100 lbs. @ 33.00

Eclat. POTINE SULPHATE (40%). A liquid. Aphids and all kinds of scale insects and some midges and some larvæ which do not come in this category are most effectively destroyed by this contact poison when used one part to 800 of water (1 or 2 teaspoonfuls per gallon). Makes a fine combination with Sunoco Spray Oil for control of box leaf miner and lace bugs. Roses, chrysanthemums, nasturtiums and other flowers should be sprayed with it regularly throughout the summer. Full directions on can.

½ lb can. @ \$1.25	2 lb. can. @ \$3.50	10 lb. can. @ \$13.50
--------------------	---------------------	-----------------------

FERTILIZERS

FINE GROUND RAW BONE. For lawns apply 1000 lbs. per acre. Bag of 200 lbs.....@ \$7.50
Per ton (2000 lbs.)@ 65.00

F. & I. TOBACCO. Fine ground, excellent as a grass fertilizer. Bag of 100 lbs.....@ \$4.50
Per ton (2000 lbs.)@ 45.00

PEAT (Holland Peat). This is very finely ground. Excellent for potted plants or for Azaleas, Rhododendrons and similar plants. **The Brand** we offer is also used by us in our propagating department and for our small azaleas, etc.

Do not confuse Holland with German Peat.

Per bale@ \$5.00
5 bales@ 4.50 per bale
10 bales@ 4.00 per bale

Car load lots price on application.

PLANT FOOD. A plant food which furnishes in correct proportions and available form, the three necessary elements which sustain the plant in all stages of its growth—potash, phosphorus and nitrogen. For grasses, flowers, vegetables, shrubbery, roses. Fine for lawns and golf greens. One pound treats 50 square feet of lawn. Full directions with each package.

1 lb. can.....@ \$0.25	25 lb. bag.....@ \$2.50
5 lb. can.....@ .75	50 lb. bag.....@ 4.00
10 lb. can.....@ 1.25	100 lb. bag.....@ 7.50

For the proper watering of trees—

THE HYDROSPEAR

The importance of properly watering newly planted trees and shrubs is often neglected or very inadequately done because of the lack of a proper method of getting the water down to the roots where it will be readily absorbed.

The HYDROSPEAR is a very handy implement for meeting this problem. By attaching it to the hose and inserting the spear pointed end into the ground, the water can be placed at from one to three feet beneath the surface where it will not only be readily available for the roots, but will require less watering. It is a splendid insurance for all new plantings. In the case of large trees where a wide area has to be covered, it can be inserted at different points 6 or 8 ft. apart and the whole soil area beneath the tree thoroughly watered.

We recommend these very highly.

THE PRICE IS ONLY FIVE DOLLARS.
