NASHUA, N.H.

(See next page.)

You are reminded

THAT THE REPUTATION OF

# Londonderry ▪ Lithia ▪ Water

Is based upon CLINICAL RESULTS AND Scientific Data.

PROF. CLARKE's report to the Geological Survey proves that the surroundings of the Spring are richer in the minerals that produce a natural lithia water than any in the United States.

PROF. PEALE, in charge of Mineral Water Department, Geological Survey, says **LONDONDERRY** is entitled to a "distinct classification" because of its richness in the products of this formation.

The Government Report for 1894 shows that we received more money for water than all the springs in any State combined. These facts we stand upon, and we believe we have a right to claim that our great popularity with physicians is **BASED UPON MERIT.**

# **SAPO OLIVÆ PRÆPARATUS**

*A SUPERIOR QUALITY OF GREEN SOAP,*

For the Local Treatment of

*Chronic Skin and Scalp Affections.*

Has been prescribed by almost every prominent Dermatologist since 1880. Unlike the more or less offensive and unreliable varieties of German green soap, it is made from cold-pressed Olive Oil, and owes its green color entirely to the chlorophyll of the Olive, is of unvarying alkalinity, wholly free from unpleasant odor, homogeneous, and entirely soluble in strong or dilute alcohol.

A 50 per cent. solution in alcohol forms an elegant and widely prescribed shampoo for Dandruff and chronic dry eruptions of the scalp.

DISEASES, DEFORMITIES,  
AND  
*Weaknesses of the Spine.*

**ADVANTAGES:**

1. It gives thorough support, which can be regulated to suit any case.
2. It is elegant and absolutely clean.
3. It permits perfect ventilation.
4. It is durable and not affected by perspiration.
5. It yields to respiratory function without impairing its supporting quality.
6. It is easily removed from the body and re-applied.
7. Patients can be accurately fitted with the wire corset at any distance whatsoever from the seat of manufacture.

Further information given upon application.

OUR Sterilized Catgut is first rendered sterile by a special process of boiling in alcohol under pressure. It is put up in glass stoppered bottles, each containing 50 feet on a glass reel in absolute alcohol, itself a good antiseptic. This Catgut we warrant to be perfectly aseptic.

GENTLEMEN:—I consider BORINE an excellent ANTISEPTIC and can heartily recommend it to the profession.

Very truly yours,

E. T. DUKE, M.D.,

Secretary Board of Health.

SEND FOR LITERATURE.

I consider BORINE THE BEST MOUTH WASH, GARGLE, AND SPRAY in inflammations of the nose and throat that I know of. I can heartily recommend it to the profession.

## QUEEN CASTOR OIL. ABSOLUTELY TASTELESS.

Queen Castor Oil is prepared from the purest English Castor Oil by separating the disagreeable and nauseating principles without destroying its medicinal action.

These principles are extracted by an improved process and are not covered by added flavors.

Queen Castor Oil is pure, tasteless, does not become rancid, and is devoid of all griping action; otherwise its properties and dose are the same as the ordinary Castor Oil.

PREPARED BY THE QUEEN CASTOR OIL CO.  
MEDICAL NOVELTY CO., NEW YORK, SOLE AGENTS.

# Eye-Strain A PREVALENT CAUSE OF Nervous Derangements

So firmly convinced am I that our treatment of "eye-strain" will often accomplish what drugs cannot do, that I invite any physician, wherever a possibility of eye-strain is suspected in a patient, to avail themselves of our offer to examine and report to them.

Our object is to second the efforts of the regular practitioner by correcting with glasses errors of "refraction" and "muscular maladjustment," and leaving whatever other treatment is needed to him.

Over 70 physicians can attest to the success of our methods.

**Miss Alston's  
HOUSE,  
106 East Thirty-eighth Street,  
New York.**

MISS A. L. ALSTON, for nearly eight years Superintendent of Mount Sinai Training School for Nurses, opened, on September First, a house for the reception of private patients. All classes of patients, male and female (including maternity cases), will be received, except patients suffering from contagious diseases or insanity in any form.

Miss ALSTON's long and thorough experience will insure the best of nursing and general supervision for those who are in her charge. Great attention will be paid to the careful and appetizing preparation and serving of the food. The table will be much like that of a first-class metropolitan household. As the number of rooms in the house is limited, meals will be served in the patient's room.

The house will be open to the patients of any reputable physician and will remain entirely in his charge, no house officer being in attendance.

Telephone number 1842 38th Street.

For circulars and information inquire at above address.

The house will be open the entire year.

# THE IDEAL PULMONARY INSPIRATOR

## SOLD ONLY ON PRESCRIPTIONS FROM PHYSICIANS.

A perfected apparatus for the treatment of diseases of the Respiratory Organs by the inhalation of antiseptic remedies in **dry** or **moist heated air**. The volume of medication set free in the heated current is under perfect control of the operator, by means of which **perfect pulmonary tolerance** is immediately established.

**Remarkable results** are being realized by the use of this instrument in Tuberculosis, Bronchitis, Asthma, Emphysema, Catarrh, Laryngitis, Pharyngitis, and "La Grippe," also in all forms of chronic disease dependent in part, or in whole, on the want of oxygen in the vital fluids.

In an average case of Phthisis the tubercle bacilli *usually disappear from the sputa in from three to six months.*

A complete list of formulæ of antiseptic remedies is furnished—to the physician only—with the instrument.

This apparatus is used and prescribed by eminent physicians, among whom are the following well-known names:

PROF. CLARENCE C. RICE, 123 East 19th Street, of the N. Y. Post-Graduate School, and Bellevue Hospital, Outdoor Department.

PROF. GEORGE B. HLOWER, 56 West 30th Street, of the N. Y. Post-Graduate School and Bellevue Hospital.

PROF. O. B. DOUGLAS, 123 East 26th Street, of the New York Post-Graduate School and Manhattan Eye and Ear Hospital.

PROF. ROBERT C. MYLES, 25 West 36th Street, of the N. Y. Polyclinic and Hospital, the Episcopal Church Dispensary, and the New Amsterdam Eye and Ear Infirmary.

PROF. R. C. M. PAGE, 31 West 33rd Street, of the New York Polyclinic and Hospital, St. Elizabeth Hospital, and Northwestern Dispensary.

PROF. J. E. STILLWELL, 151 East 21st Street, New York City.

Physicians are cautioned against the use of inhalers professing to be identical with "THE IDEAL PULMONARY INSPIRATOR," and are warned against advertisements made to appear as similar to ours as possible.

SIZE OF INSTRUMENT, 8½x16 inches.

## UNIVERSAL PULMONARY INSPIRATOR.

Experience is proving that **heated oxygen gas** is approximately a **specific remedy** in both the early and advanced stages of Pneumonia, administered by means of this INSPIRATOR, in conjunction with certain stimulating antiseptic remedies.

In view of the surprising results realized by the use of this remedy, no physician can afford to treat a case of this disease without it.

# MARKS' PATENT ARTIFICIAL LIMBS

**WITH RUBBER HANDS AND FEET,**  
**ARE NATURAL IN ACTION, NOISELESS IN MOTION,**  
**AND THE MOST DURABLE IN CONSTRUCTION.**

**NOTE:** This cut was made from a photograph of Prof. Jacoby while performing on a tight rope. He is balancing entirely on his artificial leg. His natural foot is off the rope and is in the act of passing forward to take the next step.

Endorsed and purchased by the U. S. Government and many foreign Governments.

A treatise, containing 430 pages, with 300 illustrations, sent FREE; also a formula for taking measurements, by which limbs can be made and sent to all parts of the world, with fit guaranteed.

To A. A. MARKS:

DEAR SIR:—I was a professional tight-rope walker and aeronaut before I lost my leg, and I do not allow the loss of a leg to compel me to seek another occupation. With your patent artificial leg I can walk a tight rope nearly as well as I ever could. I feel safe and sure on my rubber foot, no matter where I place it. I consider your invention of the rubber foot the most valuable and important to persons who have lost their natural limbs.

Respectfully yours,

PROF. F. E. JACOBY,  
 Waterbury, Conn.

Over 16,000 in use, scattered in all parts of the world. Eminent surgeons and competent judges commend the Rubber Foot and Hand for their many advantages.

CONTAINING BEST QUALITY OF

## **EXTRACT OF BEEF.**

With all choice flavors, produced by solely pure vegetable matter, the production of which has been brought about successfully after long years of study by some of the most eminent scientists of Europe, it stands now unrivalled by anything ever heard of in medical science, for sustaining strength and giving tone to the human system. It is a nourishment as well as a tonic for the healthy or the convalescent; it will build up the system better and more thoroughly than any medical preparation. One capsule contains sufficient Extract to produce a cupful of excellent Beef Tea or Bouillon, and guaranteed to be equal to the soup drawn from the average pound of fresh meat; there are different flavors added to the various capsules, so as to be palatable as well as nutritious. Salt and pepper in the proper proportions is already contained in the flavors.

DIRECTIONS FOR USE:—Dissolve one capsule in a cup of boiling water, stir up thoroughly and your dish is ready.

These capsules are put up ready for use in boxes, and contain 10 capsules; will keep good for any length of time, if kept in a dry and cool place.

# PROTONUCLEIN

Produces leucocytosis as soon as taken into the organism.

The normal Tissue-builder and antitoxic principle of the animal organism, obtained from the lymphoid structures of the body by direct mechanical and physiological processes. All other methods of isolating nucleins, by the use of chemicals, destroy their physiological and proliferating functions.

The power of Protonuclein to support the organism and resist toxic germs seems unlimited. This has been proven by most careful experiments made under the direction of the highest authorities in the Hospitals of New York and other parts of the country.

Preparations of nuclein made from plant life are not directly assimilable in the organism.

## THERAPEUTIC USES OF PROTONUCLEIN.

**Protonuclein** is indicated in all conditions where there are toxic germs to be destroyed and where the organism is below the normal physiological standard. It rapidly restores the vitality of all the tissues by stimulating and supporting assimilative nutrition.

**Important Note.**—If given in time it will act as a reliable preventive or prophylactic, protecting those exposed to contagion or infection, or greatly modify the virulence of the disease if attacked.

**UNIVERSALLY PRESCRIBED.**

It is sought to introduce this invaluable therapeutic agent exclusively on its merits, and for that reason the Profession is appealed to only through the columns of Medical Journals.

**Hydroleine** is a purely *scientific preparation* for the cure of *incipient consumption* and all forms of *wasting disease*. Its formula is well known and it has the endorsement of LEADING PHYSICIANS throughout the United States. The therapeutic value of this *invaluable curative agent*; its unquestionable success and its *perfect reliability* in cases of *emaciation* occasioned by a *decay of the vital tissues*, makes the prescribing of **Hydroleine** one of the necessary requisites of the successful practitioner. This great remedial agent is *thoroughly palatable*, is *easily digested*: it produces rapid increase in *flesh and strength*, and at once inspires the patient with a *substantial hope of recovery*. This is assured by the fact that the *vitalizing principle* underlying **Hydroleine** is to *arrest decomposition in all its stages*.

**HYDROLEINE** has for the basis of its formula pure Norwegian Cod Liver Oil. One teaspoonful of this preparation will give more satisfaction than three teaspoonfuls of the many usually prescribed emulsions. Sold by druggists generally.

## PREFACE.

---

It has been the aim of the Editor of this volume to furnish the most comprehensive and useful medical directory possible of this city and vicinity.

To this end the Comitia Minora has decided to publish the office hours of those who are not members of the Medical Society of the County of New York, also a verified list of physicians in New York State, New Jersey, and Connecticut.

It would greatly facilitate the work of future editors if any changes of residence or other items regarding practitioners in these three States should be promptly forwarded, by the parties most interested.

In view of the rapid increase of medical societies and associations, it will soon be necessary to limit the publication of membership in societies to such as are incorporated, and membership in which is possible for any reputable member of the profession.

It is not intended to publish hospital appointments which are only to service in the dispensary departments, or the teaching staff of medical schools, which are to a large degree private enterprises.

We beg to gratefully acknowledge the continuation of the cordial co-operation of members of the County Society and others in the preparation of these lists for publication.

# The Requisites of A PERFECT PILL

**S**OME of the first objects of the skilful manufacturer is so to prepare the pill as to secure its prompt and complete solution in the stomach. Without solubility no therapeutic effect can be obtained, but gastric disturbances, together with toxic effects from accumulation, are liable to occur. To insure uniformly good results the excipient must be carefully chosen; it should be compatible to the other ingredients of the pill, unalterable, and should tend to preserve the activity of the medicaments. A certain degree of firmness is necessary, but in a properly prepared pill this is not incompatible with ready and complete solubility in the stomach. The coating of the pill is a very important matter. The coating of the "W. H. S. & Co." pill is thin, transparent, smooth, readily soluble, and impervious to atmospheric influences. The pill mass shows its color through the coating, which, while it affords a certain amount of protection against accidents, also enhances the beauty of the pill. But the "W. H. S. & Co." pill has a higher claim for recognition than any thus far stated; only the purest materials, in the exact quantities demanded by the formula, are ever employed. No component is omitted or substituted either for the sake of economy or on account of difficulty in manipulation. The high reputation enjoyed by the "W. H. S. & Co." pills is due to the fact that they possess all the characteristics of a perfect preparation of this kind, namely, PURITY of medicaments and excipients, PRECISION as to weight and division, UNIFORMITY as to activity and identity, SOLUBILITY of mass and coating, PALATABILITY, and ELEGANCE of appearance.

## EXTRACTS FROM THE BY-LAWS OF THE COUNTY MEDICAL SOCIETY.

“The annual meeting of the Society shall be held on the fourth Monday in October.

“Stated meetings shall be held on the fourth Monday of every month except in the months of June, July, August, and October.

“Nominations for the officers, censors, and delegates, to be elected at the annual meeting, shall be made at the stated meeting in September.

“Members whose dues are unpaid shall not be candidates for any official position in the Society, nor shall they be entitled to vote.

“Every candidate, before signing the By-Laws, shall be required to pay an initiation fee of two dollars, together with the current dues, within three months from the date of his election.

“No person shall be eligible for membership in this Society who is a member of a County Society not entitled to representation in the Medical Society of the State of New York.

“The Comitia Minora shall recommend no applicant for admission to membership unless he be a graduate from a medical college in good standing or a licentiate of a regular unsectarian State or County Medical Society of this or any other State; or, if his diploma or license be of sectarian character, unless the applicant declares in writing his or her abnegation of sectarian principles and practice.”

*Resolution adopted October 28th, 1889.*

*Resolved*, That, hereafter, members two years or more in arrears of dues shall have their names omitted from the published list of the Society; and that while thus in arrears such members shall receive neither the notices of the Society’s meetings nor its publications.”

# AMMONOL

(Ammoniated—Phenylacetamide.)

## THE STIMULANT, ANTIPYRETIC, AND ANALGESIC.

Ammonol is a product of the Amido-benzene series ( $C_6H_5NH_2$ ). It differs essentially from the other medicinal coal-tar products, especially in that it contains ammonia in an active form, and has a stimulating action on all the vital functions.

It occurs in amorphous micro-crystals, having a pale yellowish color, is strongly alkaline in reaction, and has a pungent ammoniacal taste and odor.

### MEDICAL PROPERTIES.

Ammonol is a powerful antipyretic and analgesic. It has no depressant effects, but on the contrary stimulates the heart and circulatory system. It is the only coal-tar derivative that has stimulating and expectorant properties. It appears to have a selective action on the liver, since it greatly increases the excretion of urea. It induces sleep. It removes quickly the effect of alcoholic intoxication. It affords immediate relief in dysmenorrhœa. It is not a secret remedy. It is advertised to the medical profession only.

# Battle Creek Sanitarium Health Foods.

---

In their endeavor to meet the demands of the patrons of a large Sanitarium, for special food preparations, the undersigned have produced, within the last twenty years, a number of health foods, the permanent and increasing popularity of which are ample evidence of their merits.

The following, among other preparations, are in constant use at the Battle Creek Sanitarium, and are also supplied, at moderate prices, to those who, becoming acquainted with their intrinsic worth, desire to make use of them:—

## Granose.

### A NEW FOOD-CURE FOR CONSTIPATION.

Represents the entire constituents of wheat. Acceptable to the most capricious palate; rich in phosphates, nerve and blood building elements: **the best health food yet produced.** Acceptable to many stomachs which refuse other food.

## Granola.

An invalid food prepared by a combination of grains so treated as to retain in the preparation the **Highest Degree of Nutrient Qualities**, while eliminating every element of an irritating character. **Thoroughly cooked and partially digested.**

This food preparation is admirably adapted to the use of all persons with weak digestion, defective assimilation, general or nervous debility, brain workers, feeble children and invalids generally, as well as travelers and excursionists, who often need to carry the largest amount of nutriment in the smallest bulk, which is afforded by Granola in a pre-eminent degree.

## Kumysoon.

A new article prepared by a new process; differs from ordinary kumyss as cream differs from the bluest of skimmed milk. Uniform quality. Acceptable to the most delicate stomach; made from thoroughly sterilized milk; keeps well for months.

For catalogue and price-list of the above and other foods, address—

# QUININE CHOCOLATES

(REGISTERED IN U. S. PATENT OFFICE.)

---

**T**HE Chocolate used in the preparation of these tablets disguises the bitter taste of the Quinine without in the least impairing its therapeutic value.

They are suitable in the entire range of conditions where Quinine is indicated, but are especially recommended in the subacute and chronic forms of malaria, characterized by headache, neuralgia, loss of appetite, and general *malaise*. They are quite palatable to children, and, for this reason, will be found invaluable in entero-colitis, and other spring and summer complaints; or as a restorative tonic in all cases of debility. The Chocolates are unequalled as an elegant and reliable prophylactic for persons residing in or passing through malarial districts. Each tablet contains one grain of tannate of quinine; the dose, therefore, ranges from one or two daily, to a dozen or more, repeated as often as necessary according to circumstances, or as directed by a physician. Retail price, 50 cents per box.

## MEDICAL STUDENT EXAMINATIONS.

FROM LAWS OF 1893, CH. 651, AS AMENDED BY LAWS OF 1895.

*To provide for the preliminary education of medical students.*

The degree of bachelor or doctor of medicine shall not be conferred in this State before the candidate has filed with the institution conferring it the certificate of the regents that three years before the date of the degree he has either graduated from a registered college or satisfactorily completed a full course in

a registered academy or high school; or had a preliminary education considered and accepted by the regents as fully equivalent; or had passed regents' examinations representing for degrees conferred in eighteen hundred and ninety-eight one year of academic work, for degrees conferred in eighteen hundred and ninety-nine two years of academic work, and for degrees conferred in nineteen hundred a full high school course.

#### NOTES ON THE LAW.

1. The medical student certificate must be obtained three years before the date of the degree.
2. The regents will accept as fully equivalent to the required academic course any one of the following :
  - (a) A certificate of having successfully completed at least one full year's course of study in the collegiate department of any college or university, registered by the regents as maintaining a satisfactory standard.
  - (b) A certificate of having passed in a registered institution examinations equivalent to the full collegiate course of the freshman year or to a completed academic course.
  - (c) A regent's diploma.
  - (d) A certificate of graduation from any registered gymnasium in Germany, Austria, or Russia.
  - (e) A certificate of the successful completion of a course of five years in a registered Italian *ginnasio* and three years in a *liceo*.

NOTE.—Students matriculated in a registered medical school before May 9th, 1893, may offer regents' pass cards for the six preliminaries and any ten academic counts; before May 13th, 1895, may offer regents' pass cards for spelling, elementary English, English composition, arithmetic, physics (part 1), geography, United States history, or any thirty-six academic counts.

- (f) The bachelor's degree in arts or science, or substantial equivalents from any registered institution in France or Spain.
- (g) Any credential from a registered institution or from the government in any foreign state or country which represents the completion of a course of study equivalent to graduation from a registered New York high school or academy or from a registered Prussian gymnasium,

#### EXTRACTS FROM RULES.

*Order of Studies.*—There is no restriction in the order in which studies may be taken. Advanced students who have come from other States, or who, for other reasons, have not passed in elementary subjects, may take them at any time—*e.g.*, arithmetic after algebra or geometry; English composition after rhetoric, etc.

*Time Limit.*—There is no limit of time, but all credentials issued by the University are good till cancelled for cause. Studies neces-

sary to obtain any credential may be passed at different examinations.

Seventy-five per cent of correct answers is required in all subjects.

Answer papers will be reviewed in the regents' office, and all papers below standard will be returned to the candidates. For those accepted, pass cards will be issued.

Candidates not attending schools in which regents' examinations are held should send notice at least ten days in advance, stating at what time and in what studies they wish to be examined, that required desk room may be provided at the most convenient place.

Candidates who fail to send this advance notice can be admitted only so far as there are unoccupied seats.

*Certificates without Examinations.*—Candidates having credentials which can be accepted in place of an examination should send them to the Examination Department. They will be returned as soon as verified, and if accepted the proper certificate will be sent with them.

*Sample Papers.*—Calls for sample examination papers grew so burdensome that further free distribution became impracticable. All the papers for the year are mailed in paper covers for 25 cents, or bound for 50 cents. Unbound sample papers can be had for 10 cents for not exceeding ten subjects.

The exact ground covered by these examinations is shown in the *Regents' Academic Syllabus*, which is mailed, prepaid, for 25 cents.

*Medical Student Certificate.*—When all requirements are fulfilled the regents grant a medical student certificate.

On receiving this certificate, the candidate must send it to the secretary or recording officer of the university or college at which he intends to study medicine.

Address all communications, Examination Department, University of the State of New York, Albany, N. Y.

#### CALENDAR OF REGENTS' EXAMINATIONS.

*For the academic years 1895-1896.*

1895.

September 24-26.

1896.

January 27-31.  
March 23-27.  
June 15-19.

NOTE.—September examinations will be held in Albany for medical and law students only, and also in New York, Syracuse, and Buffalo. Other examinations will be held at different points throughout the State. Particulars concerning these examinations may be obtained by addressing Examination Department, University of the State of New York, Albany, N. Y.

## REQUIREMENTS FOR LICENSE TO PRACTISE MEDICINE IN NEW YORK STATE.

*All requirements for admission should be completed at least one week before examinations. They are as follows:*

1. Evidence that applicant is more than 21 years of age.
2. Certificates of moral character from not less than two physicians in good standing. (Form 2.)
3. Evidence that applicant has the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State (medical student certificate).

*First exemption:* "Students who had matriculated in a New York medical school before June 5th, 1890, shall be exempt from this preliminary education requirement, provided the degree be conferred before August 1st, 1895." (Form for exemption certificate furnished on application.)

4. Evidence that applicant "has studied medicine not less than three full years, including three satisfactory courses, in three different academic years, in a medical school registered as maintaining at the time a satisfactory standard."

*Second exemption:* "The regents may in their discretion accept as the equivalent for any part of the 3d and 4th requirements evidence of five or more years' reputable practice of medicine, provided that such substitution be specified in the license."

5. Evidence that applicant "has received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practise medicine in some foreign country."

6. The candidate must pass examinations in anatomy, physiology and hygiene, chemistry, surgery, obstetrics, pathology and diagnosis, and therapeutics, practice and *materia medica*. The questions "shall be the same for all candidates, except that in therapeutics, practice, and *materia medica* all the questions submitted to any candidate shall be chosen from those prepared by the board selected by that candidate, and shall be in harmony with the tenets of that school as determined by its State board of medical examiners."

*Third exemption:* "Applicants examined and licensed by other State examining boards registered by the regents as maintaining standards not lower than those provided by this article, and applicants who matriculated in a New York State medical school before June 5th, 1890, and who receive the degree M.D. from a registered medical school before August 1st, 1895, may without further examination, on payment of \$10 to the regents and on submitting such evidence as they may require, receive from them an indorsement of their licenses or diplomas conferring all rights and privileges of a regents' license issued after examination."

7. A fee of \$25, payable in advance.

## NOTES ON THE LAW.

1. Seventy-five per cent of correct answers is required in all subjects.

2. All subjects must be passed at the same examination.

NOTE.—When a candidate for license has been rejected in but *one* topic and his total average is at least 80, at subsequent examinations he shall be examined only in the topic in which he originally failed to receive the required (75) percentage.

3. All examinations must be conducted in the English language.

4. Medical preparatory courses, as such courses are now taught in various scientific schools and colleges, cannot be accepted for one year of the three years' medical study required by the law.

## POWERS AND DUTIES OF COUNTY CLERKS IN REGISTERING LICENSES TO PRACTISE MEDICINE IN NEW YORK STATE.

The laws relating to registration of physicians by county clerks were repealed May 9th, 1893, when the new law took effect. The law forbids the registration of any authority to practise medicine except a license or diploma issued or indorsed as a license under seal by the University of the State of New York, or (in case of

removal to another county of a physician already licensed) a certificate clearly showing that the original registration was of an authority issued or indorsed under seal by the regents.

To provide against penalties for illegal registration all other cases should be referred to the University of the State of New York, the only authority by which licenses can be issued after September 1st, 1891.

Address all communications, Examination Department, University of the State of New York, Albany.

**Charity Organization Society of the City of New York.** Offices in United Charities Building, 105 E. 22d st. Organized 1882. Objects: To be a centre of intercommunication between the various churches and charitable agencies in this city. To foster harmonious co-operation between them, and to check the evils of the overlapping of relief. To investigate thoroughly and without charge the cases of all applicants for relief which are referred to the Society for inquiry, and to send the persons having a legitimate interest in such cases full reports of the results of investigation. To provide visitors who shall personally attend cases needing counsel and advice. To obtain from the proper charities and charitable individuals suitable and adequate relief for deserving cases. To procure work for poor persons who are capable of being wholly or partially self-supporting. To repress mendicity by the above means and by the prosecution of impostors. To promote the general welfare of the poor by social and sanitary reforms, and by the inculcation of habits of providence and self-dependence. It is not an almsgiving society, and its work is completely severed from all questions of religion, politics, and nationality. It is a clearing house of registration and experience for all the charitable activities of the metropolis. It has already instituted its system of exchange of information between its constituent societies (which includes all which will avail themselves of its services), and returns are received from the Department of Public Charities and Correction, sixty-four of the leading relief societies, fifty-five prominent institutions, and two hundred and three church societies, while other societies are being frequently added. It has records of 175,000 families who have applied for relief during the last ten years. ## MEDICAL PRIZES.

### PRIZE OF THE MEDICAL SOCIETY OF THE COUNTY OF NEW YORK.

#### *Rules Governing the Award of the Prize.*

1st. The prize shall consist of a gold medal 150 grammes in weight (or \$100 in cash), which shall bear upon one side the seal of the Society, and on the other the following: Awarded as the annual prize, by the Medical Society of the County of New York, to \_\_\_\_\_ for an essay on \_\_\_\_\_.

2d. The essays shall be handed to the Committee on Prize Essays on or before the 1st of October in each year.

3d. Each essay shall be accompanied by a sealed envelope containing the name and address of the author and bearing on the outside the motto which is inscribed upon the essay.

4th. The writer of each essay is expected to present his dissertation in a plain and distinct handwriting, and with the pages bound in book form.

5th. Any clue by which the authorship of an essay is made known to the committee will debar such an essay from competition.

6th. Other things being equal, preference will be given to essays which exhibit original work on the part of the author.

7th. The Society does not consider itself as approving the doctrines contained in any of the essays to which the prize may be adjudged, and, in case of publication of a successful essay, the author shall be considered bound to print the above in connection therewith.

8th. The selection of the subject upon which to write will be left open to the competitors, but will be restricted to the field of what are called the departments of medical study.

9th. The Society will return to unsuccessful competitors their essays, if called for within six months after the award has been made.

10th. The committee is empowered not to award a prize in case none of the essays are worthy thereof.

11th. The prize is restricted to members of the Medical Society of the County of New York.

12th. The Society reserves to itself the right to require that the essay, for which a prize is awarded, shall be read before the Society previous to being placed at the disposal of the author (*vide Committee on Prize Essays*).

## STEVENS TRIENNIAL PRIZE.

The prize is open for universal competition. Established by the late Alexander H. Stevens, M.D. Awarded triennially. Amount, \$200. The administration of the prize is entrusted to a commission consisting of the President of the College of Physicians and Surgeons (ex officio), the President of the Alumni Association (ex-officio), and the Prof. of Physiology in the same institution.

The prize is awarded to no essay unless it includes the results of original research by the writer upon the subject chosen.

The next award of this prize will be at the Commencement of the College in May, 1897. Essays must be sent to the President of the College before January 1st of that year.

## PRIZE OF THE MEDICAL SOCIETY OF THE STATE OF NEW YORK.

Merritt H. Cash Prize of \$100 is offered for the best essay on any subject pertaining to the science or practice of medicine ; the essay to be sent on or before December 1st of any year to any member of the Prize Committee, who are empowered to reject all judged unworthy of the award.

By vote of the Society this prize will be awarded only to members of the various County Medical Societies (*vide* Committee on Prize Essays of State Society)

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined. As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year. Find the date of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

## CONTAGIOUS DISEASES.

### REGULATIONS OF THE BOARD OF HEALTH.

SECTION 98.—1. Whenever it becomes known to the principal or teacher in charge of a school that a contagious disease prevails in a house, other than a tenement, in which a child or children attending the school lives or live, such child or children shall be immediately excluded from the school, and shall not be readmitted except as elsewhere in this section provided.

2. Whenever the principal or teacher in charge ascertains that a contagious disease other than small-pox or typhus fever exists in a tenement house, but on one floor only, a child or children living on another floor of the same house need not for this reason be excluded, but children thus situated must be questioned daily about their health and that of their respective families, and must be sent home at the first symptom of illness or the first intelligence of contagion in their families.

3. But if a contagious disease of any description exists on more than one floor of a tenement house, or if the disease existing on only one floor be small-pox or typhus fever, all children living in the house must be promptly excluded from the school.

4. Children excluded in pursuance of the above rules shall not be again permitted to attend school—

In case of scarlet fever, until three weeks after the *beginning* of the last case, on the floor or in the house, according to whether the exclusion has applied to the floor or an entire house under the above rules.

In case of measles, until two weeks after the *beginning* of the last case, on the floor or in the house, according to the extent of exclusion.

In case of diphtheria, until one week after the *termination* of the last case, on the floor or in the house, according to the exclusion.

In case of scarlet fever, measles, or diphtheria, until a certificate of the Board of Health is produced, stating that the apartments, bedding, and clothing affected by contagion have been properly disinfected.

If the disease be small-pox or typhus fever, children who have been in such a case excluded must not resume their attendance without producing a certificate from the Board of Health stating it is safe for them to do so.

5. New scholars applying for admission, living in houses or on floors where a contagious disease prevails, must be admitted or excluded in compliance with the above rules.

6. Principals and teachers in charge are required to communicate to the Clerk of the Board of Education any information received by them relevant to this subject not known to be in his possession.

7. Hereafter all children attending the schools under the control of this Board, and residing in orphan asylums, infirmaries, homes, nurseries, or other institutions, shall regularly furnish to their respective principals weekly certificates signed by a duly licensed and competent physician of good standing, to the effect that during the week preceding the date of such certificate there were no contagious or infectious diseases of any kind in such asylum, infirmary, home, nursery, or institution, and no principal shall allow the attendance at school of any such children unless such certificate herein required is furnished as aforesaid ; and all such certificates shall be preserved by said principals for one year.

8. If the certificate should show that there was any such disease in such orphan asylum, infirmary, home, nursery, or institution, or if any principal should, from any other source, ascertain the existence of any such disease in any such orphan asylum, infirmary, home, nursery, or institution, such principal shall forthwith dismiss from attendance all pupils residing in such orphan asylum, infirmary, home, nursery, or institution, and such pupils shall not be allowed to attend until authorized by the committee on By-Laws, Elections, and Qualifications of the Board of Education.

## *"Perfection" Clinical Thermometer.*

We have, after long experimenting, finally succeeded in producing lens front tubing which will magnify fully as well as that of which the Hicks' Clinical Thermometers are made. We are the only American manufacturers who have been successful in so doing. Our best workmen have used their utmost care to manufacture this tubing into the

**MOST PERFECT CLINICAL THERMOMETERS**  
which can be produced, and these we are offering under the name  
**"Perfection."** This name, as also our Trade Mark,

etched on every thermometer, whether bearing our name or that of our customers. This is the only American made Clinical which can take the place of Hicks' in every respect.

**Price, each in Hard Rubber Case, with Certificate, \$1.25 each.**

If your supply house does not keep them, send \$1.25 to us and we will mail same to you.

Creosote has been so highly lauded as a remedy for pulmonary disorders that its great efficacy in gastro-intestinal troubles has been almost overshadowed and forgotten.

Liquid Peptonoids with Creosote occupies a distinctly valuable field in the treatment of gastric fermentation, as the Creosote

destroys those lower organisms which produce fermentation without unfavorably affecting the process of digestion, while the Peptonoids assist in its retention and assimilation by reason of the peptogenic power which they impart to the combination. The unpleasant taste of the Creosote is almost entirely eliminated. Two minims of pure Beechwood Creosote and one minim of Guaiacol, to the tablespoonful.

LONG DISTANCE TELEPHONE CALL: 922 BROOKLYN.

The Chesebrough Manufacturing Company, Consolidated, in the interest of the medical profession has obtained permission to print the following letter, which was addressed by Dr. Wilcox to one of our factory Superintendents, without being asked for by him. It seems that Dr. Wilcox had been using substitutes for Vaseline as a spray, in his practice, with poor results, and Mr. McGeorge suggested that it was hardly fair to blame Vaseline for the shortcoming of Petrolatum, and to try the genuine article. Dr. Wilcox's letter shows that he followed this suggestion, and his experience in doing so :—

*Dear Mr. McGeorge:*

*I followed your suggestions and procured some of the Chesebrough Vaseline from Hegeman. I threw away all my old stock, cleaned out my tubes and prepared the new mixtures. I am delighted to say that everything now works satisfactorily. You do not know how much I thank you for helping me out of what was getting to be a very serious difficulty, for that part of my work is important, and I was not doing so much good to my patients as I should have done.*

*Again thanking you, I am,*

*Sincerely yours,*

# DITMAN'S SEA SALT

*IS THE NATURAL SALT OF PURE SEA WATER.*

By the aid of "*Ditman's Sea Salt*," which is now furnished in large or small packages and at very moderate price, the benefits of the ocean bath can be brought to our homes. By dissolving this article in water we have exactly the fluid in which we immerse ourselves when we take a surf bath. The tonic and remedial effects of true sea water on many varieties of disease are so well known that it is unnecessary here to enlarge on them. For all who are weak, rheumatic, nervous or dyspeptic the salt bath at home possesses qualities so excellent that its use should be universal. This preparation, "Sea Salt," has not only attained universal popularity, but is so thoroughly endorsed by the medical profession that no family need for a moment hesitate to give it a cordial home welcome.

# PANOPEPTON

## *Bread and Beef Peptone*

Panopepton is the entire edible substance of prime, lean beef and best wheat flour, thoroughly cooked, properly digested, sterilised and concentrated in vacuo.

Panopepton is the food par excellence in all conditions where a fluid, quickly assimilable, agreeable and comprehensive nutriment is required.

## **FAIRCHILD'S ESSENCE OF PEPSINE**

Is the most active, most agreeable, most successful of all fluid pepsin preparations.

As a pharmaceutical product and as a remedy, it is far superior, more skillfully made and more effective than the whole class of "elixirs, wines," and similar fluid preparations.

It contains the peptic and the rennet ferments in an exceedingly active form and in a combination so agreeable and grateful to the stomach as to render it often immediately effective in extreme cases of dyspepsia, with intolerance of food, flatulence, etc.

In many cases it is found far more effective than pepsin in any other form.
