(1) "The cigar manufacturing branch of the Cigar Industry" means the manufacture of cigars, from any types of tobacco.

The term "cigar" wherever used in this definition comprehends all types of cigars, including cheroots, stogies, and little cigars.

The manufacture of cigars from non-cigar types of leaf tobacco and the scrap tobacco therefrom includes the preliminary processing of such tobacco which is performed in the manufacturing plant as an integral part of the manufacturing operation; and

Whereas all persons who appeared at the hearing were given leave to file briefs on or before March 11, 1942, and to present oral argument before me on March 17, 1942; and

Whereas the Administrator, upon reviewing all the evidence adduced in this proceeding and giving consideration to the provisions of the Act with special reference to sections 5 and 8, has concluded that the Committee's recommendations for the Tobacco Industry as defined by Administrative Order No. 132, are made in accordance with law, are supported by the evidence adduced at the hearing, and taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of the Act; and

(b) the manufacture of cigarettes, snuff, chewing tobacco, and smoking tobacco from cigar types of leaf tobacco and scrap tobacco therefrom includes the preliminary processing of such tobacco which is performed at the manufacturing plant as an integral part of the manufacturing operation.

(c) The term "preparation" as used herein includes all operations involved in making non-cigar leaf tobacco and the scrap tobacco therefrom suitable for sale or for use in the manufacture of all types of tobacco products including cigars whether performed by employees of warehousemen, manufacturers, leaf dealers, or others. It does not include sales operations that are customarily performed on the sales floor of loose leaf tobacco auction warehouses or the direct loading of tobacco off the floor of such warehouses for shipment. PART 1210—INDUSTRIAL POWER TRUCKS

[General Limitation Order L-112]

The fulfillment of the requirements of the defense of the United States has created a shortage in the supply of certain critical materials for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1210.1 *General Limitation Order L-112—(a) Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Industrial power truck" means any self-power-propelled industrial truck or wheel tractor designed primarily for handling material (either by carrying or towing) on floors or paved surfaces in and around industrial plants, warehouses, docks, airports or depots. The term shall not include automotive tractors, trucks, or wheeltypes industrial tractors designed for use on tax-built highways, or in such operations as construction, earth-moving, mining, logging, industrial yard work, or petroleum development.

(3) "Manufacturer" means any person who manufactures or assembles industrial power trucks.

(4) "Parts producer" means any person, other than a manufacturer, who manufactures parts to be incorporated in industrial power trucks.

(5) "Standard model" as applied to a manufacturer, means one model only of each type and capacity of industrial power truck listed in List A attached hereto, described in such manufacturer's catalogue or bulletin on the date of issuance of this order.

(6) "Approved standard model" means a standard model listed hereafter and from time to time by supplementary order or orders, as provided in paragraph (d) (2).

(b) *Restriction on placing of orders and deliveries.* No manufacturer shall hereafter accept any order for an industrial power truck except an order rated A-9 or better on Preference Rating Certificate PD-1A or PD-3A. No manufacturer shall deliver, and no person shall

accept delivery of, any industrial power truck except to fill an order (1) placed prior to the date of issuance of this order, rated A-1-K or better, or (2) placed on or after the date of issuance of this order, rated A-9 or better on PD-1A or PD-3A: *Provided, however,* That the terms of this order shall not apply to any industrial power truck placed in the hands of a common or contract carrier, before the date of this order, for shipment to a purchaser.

(c) *Conservation of material—(1) Restrictions upon use of copper.* Parts producers and manufacturers shall be governed by the provisions of paragraph (b) of Limitation Order L-106, (§ 933.9) as amended, in their use of copper products or copper base alloy products (as defined in that order) in the production of parts for industrial power trucks.

(2) No manufacturer shall begin the manufacture of any industrial power truck if such truck contains any of the following materials, or accept delivery of any of the following materials for use in the manufacture of any industrial power truck:

(i) Rubber in any form, except in tires, storage batteries, radiator hose or wire or cable insulation.

(ii) Protective plating in any form, except when necessary to the operation of functional parts.

(iii) Steel plate, where substitution of a less critical material is practicable.

(iv) Lead for counter weights, except that reclaimed lead may be used when required by space limitations.

(v) Steel battery trays, where steel battery boxes are provided.

Provided, however, That the restrictions of this subparagraph (2) shall not apply to parts in the manufacturer's stock which, as of the date of issue of this order, were completed, or processed to the point where other use is impracticable: *And provided further,* That the restrictions of this subparagraph (2) shall not apply to the manufacture or delivery of repair and maintenance parts.

(3) *Other regulations.* Nothing in this paragraph (c) shall be construed to permit any manufacturer to sell, deliver or otherwise transfer, or any person to purchase, receive delivery of, or otherwise acquire any raw materials, semi-processed parts or finished parts or products in contravention of the terms of any

regulation or order of the War Production Board.

(d) *Standardization of models.* (1) No manufacturer shall hereafter begin the manufacture of any industrial power truck which is not a standard model. The design and structure of any standard model shall be only as specified or described in such manufacturer's catalogue or bulletin; except that electric fork trucks with capacities from 2,000 pounds to 6,000 pounds may be built in both center and end control types; and that alterations may be made in counter weights, die pullers (power winch), height of lift, voltage, battery capacity, explosion or fire prevention features, and the length or width or type of fork or ram: *Provided, however,* That nothing herein shall be construed to prevent any change required by the limitations of paragraphs (c) (1) and (c) (2) hereof, or any change which results in further conservation of critical materials.

(2) On and after August 15, 1942, no manufacturer shall begin the manufacture of any standard model which is not an approved standard model. Approved standard models for each manufacturer shall be only those industrial power trucks listed hereafter and from time to time by order or orders supplementary to this order. The provisions of subparagraph (d) (1) hereof relative to changes in design and structure shall be applicable to approved standard models.

(3) On or before August 31, 1942 and on or before the 15th day of each month thereafter, each manufacturer shall submit to the Director of Industry Operations, on Form PD-385, his proposed production schedule for the third month after the month in which such Form PD-385 is filed. The Director of Industry Operations may thereupon approve such production schedule or may make modifications therein. Unless authorized by the Director of Industry Operations, no manufacturer shall alter such production schedule after approval by the Director of Industry Operations.

(e) *Ninety-day exemption of Army, Navy and Maritime Commission.* Until ninety days after the date of issuance of this order, this order shall not apply to deliveries to and for the use of the Army, Navy, Maritime Commission, or War Shipping Administration to the extent that industrial power trucks of a design or structure prohibited by the terms of this order are required by any applicable specifications of the Army, Navy, Maritime Commission, or War Shipping Administration. As used in this paragraph, the terms "Army," "Navy," "Maritime Commission," and "War Shipping Administration" shall not include any privately operated plant or shipyard, financed or controlled by any of those agencies, or operated on a cost-plus-fixed-fee basis.

(f) *Miscellaneous provisions—(1) Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(2) *Existing contracts.* Fulfillment of contracts in violation of this order is prohibited regardless of whether such contracts are entered into before or after the effective date of this order. No person shall be held liable for damages or penalties for default, under any contract or order, which shall result directly or indirectly from his compliances with the terms of this order.

(3) *Records and reports.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales. All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as the War Production Board shall from time to time request.

(4) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(5) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the Director of Industry Operations in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director of Industry Operations.

(6) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the Director of Industry Operations, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(7) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, General Industrial Equipment Branch, Washington, D. C.; Ref.: L-112. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Section 1216.1 is hereby amended as follows:

1. The portion of paragraph (a) (4) of Limitation Order L-117 following paragraph (a) (4) (ii) is hereby amended to read as follows:

(iii) Any order for heavy power and steam equipment bearing a preference rating of A-9 or higher assigned by Preference Rating Certificate PD-2; PD-3, PD-3A, PD-4, PD-5 or Preference Rating Order P-5b issued prior to May 18, 1942, or by Preference Rating Certificates PD-1, PD-1A, certificates of the PD-25 series, preference rating orders of the P-19 series, or a specific rating assigned by the Director of Industry Operations for repair and maintenance (when and only when there has been an actual breakdown or suspension of operations because of damage, wear and tear, destruction or failure of parts or the like, and the needed equipment is not otherwise available) issued at any time.

Any preference rating certificate or order of any of the kinds enumerated in paragraphs (i), (ii), or (iii) above may be used to secure heavy power and steam equipment only by or for the actual use of the person to whom it was originally issued and only when such heavy power and steam equipment is expressly specified in the certificate or order (or its Form PD-200 or 200A), except that in the case of preference rating orders of the P-19 series other than P-19h, such equipment need not be expressly specified. Any person placing an approved order for heavy power and steam equipment bearing a rating assigned by such certificate or order who does not deliver the certificate or order but retains the same as permitted by Priorities Regulation No. 3, as amended from time to time, shall, in addition to furnishing the endorsement required by such Priorities Regulation No. 3 certify to the person from whom the heavy power and steam equipment is to be acquired that the certificate or order was originally issued to him or to a person for whose actual use he is constructing a plant or other facilities and (except in the case of preference rating orders of the P-19 series other than P-19h) that the particular heavy power and steam equipment was expressly specified in the certificate or order (or its Form PD-200 or 200A).

2. Paragraphs (b) (1) and (b) (2) are hereby amended to read as follows:

(1) From and after May 18, 1942, no person shall, except pursuant to specific directions by the Director of Industry Operations, accept any order for heavy power and steam equipment or manufacture, deliver or sell any heavy power and steam equipment in fulfillment of any order, whether accepted or not, unless such order is an approved order.

(2) From and after May 18, 1942, no person shall, except pursuant to specific directions by the Director of Industry Operations, contract for, purchase, lease or accept delivery of any heavy power and steam equipment except pursuant to an approved order.

PART 1272—MACHINE TOOL ELECTRICAL SPECIFICATIONS

[Limitation Order L-147]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of machine tools for defense, for private account and for export; customers' requests for special electrical equipment and for special methods of application of electrical equipment to machine tools prevent producers of machine tools from obtaining maximum production; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1272.1 *Limitation Order L-147—(a) Definitions.* For the purposes of this order:

(1) "Producer" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not, engaged in producing machine tools.

(2) "Machine tool" means any power driven machine for the cutting, abrading, grinding, shaping or forming of metals, excluding machines which are portable by hand.

(3) "Special electrical specifications" means:

(i) Any electrical control, motor, wiring, or other electrical device or feature used in the electrification of machine tools not customarily or usually supplied by a producer on machine tools produced by him and not required by the American War Standard—Machine Tool Electrical Standards—C74-1942, approved by the American Standards Association June 8, 1942; or

(ii) Any method of application to a machine tool of any electrical control, motor, wiring, or other electrical device or feature not customarily or usually employed by a producer and not required by the American War Standard—Machine Tool Electrical Standards—C74-1942, approved by the American Standards Association June 8, 1942.

(b) *Electrical specifications for machine tools ordered after July 15, 1942.* After July 15, 1942, no person shall place and no producer shall accept any purchase order for any machine tool calling for special electrical specifications unless permission to place and accept such order has been granted by the Director of Industry Operations or his duly authorized representative.

Application for such permission will be entertained only upon receipt of a letter from the person desiring to place a purchase order with special electrical specifications, in triplicate, addressed to the Tools Branch, Ref.: L-147, War Production Board; such letter must set forth the specific circumstances and reasons why special electrical specifications are necessary.

(c) *Electrical specifications in orders for machine tools placed prior to July 15, 1942.* No machine tool ordered prior to July 15, 1942 shall be made up accord-

ing to special electrical specifications notwithstanding the purchase order therefor contained special electrical specifications except in the following cases:

(1) In any case where the special electrical specifications have been approved for production by the producer's engineering department prior to the date of this order.

(2) In any case where the motor, control, wiring, or other electrical device called for by the special electrical specifications for a specific machine tool:

(i) Has been received by the producer of the machine tool prior to the date of this order, or

(ii) Is received within thirty days after the date of this order, and the machine tool has not already been transferred to another purchaser pursuant to paragraph (d) of this order.

(d) *Machine tools awaiting delivery of motors and controls.* Whenever any machine tool ordered prior to July 15, 1942 has been completed except for the application of any motor, control or other electrical device or feature called for by special electrical specifications permitted by paragraph (c) of this order and its completion is delayed only because of nondelivery to the producer of such motor, control or other electrical device, the producer shall request the purchaser of such machine tool to accept delivery with such motor, control or other electrical device as is available to the producer, provided this meets the American War Standard—Machine Tool Electrical Standards—C74-1942 referred to in paragraph (a) (3) of this order.

In the event that the purchaser refuses to accept the machine tool under such terms, the producer shall nevertheless complete such tool with the available motor, control or other electrical device and deliver the same in fulfillment of the next order scheduled under General Preference Order No. E-1-b for a purchaser in the same group which such machine tool is suitable to fill: *Provided, however,* Where good and sufficient reason is furnished to the Director of Industry Operations or his duly authorized representative, he may authorize the holding of such machine tool for the original purchaser until receipt of the motor, control or other electrical device called for in the special electrical specifications.

(e) *Governmental orders containing special electrical specifications.* The limitations contained in this order shall not apply to machine tools ordered by the Army, Navy, or Maritime Commission for their own use.

(f) *Other limitation and conservation orders.* Nothing in this order shall excuse any producer from complying with such further orders conserving and limiting the use of specific materials which the War Production Board may have heretofore issued or may hereafter issue.

(g) *Reports.* Each person to whom this order applies shall execute and file with the War Production Board such

reports and questionnaires as said Board shall from time to time require.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(i) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of material conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director of Industry Operations by addressing a letter to the War Production Board, Washington, D. C., Ref: L-147, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(j) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Tools Branch, Washington, D. C. Ref.: L-147.

(k) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this order shall govern. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. PART 1499—COMMODITIES AND SERVICES

[Maximum Prices Authorized Under § 1499.3 (b) of the General Maximum Price Regulation—Order No. 23]

FILTROS, INC.

AUTHORIZATION TO DETERMINE PRICES FOR UNFINISHED PLATE

On May 14, 1942, Filtros, Inc. of East Rochester, New York filed application with the Office of Price Administration seeking specific authorization pursuant to § 1499.3 (b) of the General Maximum Price Regulation to determine maximum prices for unfinished Filtros plates and for instructions as to the method to be used in determining such prices. Due consideration has been given to the application and an Opinion in support of this Order has been issued simultaneously herewith and has been filed with the Division of the Federal Register. For the reasons set forth in the Opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with § 1499.3 (b) of the General Maximum Price Regulation issued by the Office of Price Administration, it is hereby ordered:

§ 1499.60 *Authorization for Filtros Inc. to determine maximum prices for unfinished Filtros plate.* (a) The maximum prices which may be charged for unfinished Filtros plates by Filtros Inc. shall be prices determined in accordance with the following formula: From the average platform cost (cost of raw materials, direct labor, factory overhead, packing and loading) of a finished Filtros plate in March 1942 deduct the total cost of the machining and packing involved in the production of a finished plate which cost does not enter into the production of an unfinished plate. To the figure thus derived, add the commercial burden (general, administrative, and selling expenses) on a percentage basis at the same rate as that used in March, 1942 in arriving at the total cost of finished plates. To this figure there may be added a margin of profit in an amount

¹ 7 F.R. 3153, 3330, 3666, 3990, 3991, 4339.

not to exceed the average percentage of profit in relation to sales realized during March 1942 on finished plates.

(b) Any discounts applicable to the sale of finished Filtros plates whether based on quantity, class of purchaser or any other cause shall be applicable to sales of unfinished Filtros plates.

(c) Within ten days after a maximum price has been determined in accordance with this order, Filtros Inc. shall report that price to the Office of Price Administration, stating that the price was determined in accordance with the formula set forth in paragraph (a) hereof and setting forth in detail the calculations made in determining that price. This report shall be filed under oath or affirmation and shall be filed in triplicate.

(d) Any selling price determined under this order shall be subject to adjustment at any time by the Office of Price Administration.

(e) This Order No. 23 may be revoked or amended by the Office of Price Administration at any time.

(f) This Order No. 23 (§ 1499.60) shall become effective July 11, 1942. (Pub. Law 421, 77th Cong.)

Issued this 10th day of July, 1942.

Chapter I—Veterans' Administration

PART 2—ADJUDICATION: VETERANS' CLAIMS¹

MISCELLANEOUS AMENDMENTS

JURISDICTION

§ 2.1003 *Jurisdiction of Adjudication Division.* The adjudication division in each regional office or facility, under the direction of an adjudication officer, will be responsible for the preparation and adjudication of claims for disability and death compensation or pension and burial allowance within the jurisdiction of field adjudication activities. (July 10, 1942)

§ 2.1005 *Jurisdiction of rating board.*

* * *

(b) The rating boards will have original jurisdiction to rate claims involving disability and death compensation or pension under the jurisdiction of the field office, and will have authority to make recommendatory ratings under section 31, Title III, Public No. 141, 73d Congress, as amended. (July 10, 1942)

§ 2.1009 *Revision of rating board decisions.* (a) No rating board will reverse or amend, except upon new and material evidence, a decision rendered by the same or any other rating board, or by any appellate authority, except where such reversal or amendment is clearly warranted by a change in law or by a specific change in interpretation thereof specifically provided for in a Veterans' Administration issue: *Provided*, That a rating board may reverse or amend a decision by the same or any other rating board where such reversal or amendment is obviously warranted by a clear and unmistakable error shown by the evidence in file at the time the prior decision was rendered, but in each such case there shall be attached to each copy of the rating a signed statement by the rating board definitely fixing the responsibility for the erroneous decision. (See also § 3.1201.) *Provided, further*, That where the severance of service connection is considered warranted on the facts of record the case file will be forwarded without rating to the director of the service concerned in central office, for

¹ Revision of §§ 2.1003, 2.1005, 2.1009, 2.1013, 2.1023, 2.1027, 2.1041, 2.1045, 2.1057, 2.1069, 2.1094, 2.1130, 2.1137-38, 2.1141-43, 2.1148-49, 2.1166, 2.1170, 2.1185 and new sections 2.1110, 2.1150, 2.1171-72.

review, accompanied by a full and clear statement of the underlying reasons and facts. Where the submission with recommendation for severance of service connection is based upon a change of diagnosis it is essential that the requisite medical certificate accepted as showing that the previous diagnosis was not correct be of record in the case file.

(b) Whenever a rating board may be of the opinion that a revision or an amendment of a previous decision is warranted on the facts of record in the case at the time the decision in question was rendered, a severance of service connection not being involved, the complete file will be forwarded to the director of the service concerned in central office, accompanied by a complete and comprehensive statement of the facts in the case and a detailed explanation of the matters supporting the conclusion that a revision or amendment of the prior decision is in order. A rating decision will not be effected in any such case pending the return of the case file following central office consideration. The effective date of the rating authorizing benefits in such cases will be the date of administrative determination, except where otherwise provided. (See currently effective adjudication procedure)

(c) Determinations in effect on March 19, 1933 will not be reversed in those cases comprehended within the provisions of sections 27 and 28, Public No. 141, 73d Congress, except as provided in these sections. These cases, therefore, will not be referred to central office under paragraph (b) above upon a difference of opinion. In the event clear and unmistakable error is discovered the rating board will take action as provided in paragraph (a) of this section.

(d) In those instances wherein the severance of service connection is involved (the burden of proof being on the Government), and the case file upon submission to the central office under paragraph (a) hereof has been returned for appropriate action hereunder, the claimant will be immediately notified in writing of the contemplated action and the detailed reasons therefor and will be given a reasonable period, not to exceed 60 days, from the date on which such notice is mailed to his last address of record, for the presentation of additional evidence pertinent to the question. This procedure is for application except (1) in case of fraud; (2) in case of a change in law; (3) in case of a change of interpretation of law specifically provided in a Veterans Administration issue; or (4) where the evidence establishes the service connection to be clearly illegal.

(e) When a reduction of an award for a service-connected disability is considered warranted by reason of a change in the physical condition, the claimant will be notified in writing of the proposed action and the detailed reasons therefor and will be informed that sixty days from the date on which such notice is mailed to him his case will be reviewed upon the basis of any evidence that he may desire to submit in the meantime

as to why such reduction should not be effectuated. The claimant will also be given the opportunity to appear before the rating agency which reviews his case at the expiration of the sixty day period. The rating agency, after consideration of the representations made by the veteran at the hearing or of any additional evidence submitted, will take such action as may be indicated to develop the evidence further, if necessary, but if it is considered that the available evidence warrants a reduction, an appropriate rating will be rendered, and the provisions of § 35.021 (c) (2) will be applied as to the effective date of reduction upon the basis of such rating. (July 10, 1942)

§ 2.1013 *Adjudication of applications of veterans residing in Washington, D. C.* Applications for disability compensation or pension submitted by veterans residing in Washington, D. C., will be adjudicated in the claims division, veterans claims service, central office, functioning as a field office within the meaning of the term as used in Regulations and Procedure. (July 10, 1942)

§ 2.1023 *Jurisdiction in death claims.* (a) Applications for death compensation or pension, accrued disability and death compensation or pension (except when all or a part thereof has been deposited to the credit of the veteran in funds due incompetent beneficiaries), and burial allowance, will be adjudicated by the appropriate field station, regardless of the date of death of the veteran, when all service rendered by the deceased veteran in the military or naval forces was subsequent to July 15, 1903, and prior to October 8, 1940, except when:

(1) The veteran at time of death was, or the claimant for death benefits is, a Veterans Administration employee.

(2) Any claimant for death benefits resides without the continental limits of the United States. (Alaska cases are under jurisdiction of Seattle office.)

(3) The veteran's (or dependent's) burial expenses were paid, or are payable, in foreign currency, or when rates of foreign exchange would be involved in payment.

(4) A widow, child or parent claimant for death compensation or pension is already receiving, or has previously applied for such benefit on account of the death of another person.

(5) A widow claimant for death compensation or pension had a former husband who is or was also a veteran.

(6) A child claimant for death compensation or pension has or had more than one parent (natural, adoptive or step-parent) who is or was a veteran.

(7) Rights have been forfeited under any act.

(8) There is entitlement pursuant to special acts.

(9) Insurance or Adjusted Compensation is involved. (Insurance will not be considered to be involved in any case where all allowable insurance benefits have been paid.)

(10) Jurisdiction is otherwise vested in or assumed by central office. (July 10, 1942.)

FILING OF CLAIMS AND SUPPORTING EVIDENCE

§ 2.1027 *Informal claims.* Any communication from or action by a claimant or his duly authorized representative, which clearly indicates an intent to apply for benefits under Public No. 2, No. 141, No. 484, 73d Congress, as amended, or Public No. 196, 76th Congress, as amended by sections 7 and 8, Public No. 866, 76th Congress, may be considered an informal claim for compensation or pension, or an informal claim under section 31, Public No. 141, 73d Congress, as amended by section 12, Public No. 866, 76th Congress. When an informal claim is received and a formal application is forwarded for execution by the claimant, such application shall be considered as evidence necessary to complete the initial application, and unless a formal application is received within one year from the date it was transmitted for execution by the claimant, no award shall be made by virtue of such informal claim. If received within one year in such instances it will be considered filed as of the date of receipt of the informal claim by the Veterans Administration. However, a communication received from a service organization, pension attorney, or pension agent may not be accepted as an informal claim, if a power of attorney was not executed at the time the communication was written. In cases not covered by this rule, where the probability of an informal claim appears to be indicated, but the facts are too obscure or complicated for determination, the file will be referred to the director of the service concerned for decision upon the facts in the particular case. (July 10, 1942) (54 Stat. 1196, 1197; 38 U.S.C. 501a, 703b)

PROOF OF RELATIONSHIP AND DEPENDENCY

§ 2.1041 *Definition of natural mother or father under Public No. 2, 73d Congress.* These terms mean a natural mother or father of a veteran, or mother or father of a veteran through legal adoption. The phrase "natural mother" means the biological female parent, whether the veteran was legitimate or illegitimate. In establishing relationship where the dependency of a mother is for consideration the submission of evidence of birth will suffice, as evidence of the mother's marriage in establishing relationship under these circumstances would serve no useful purpose. Where the dependency of a father, as defined in § 35.10 (g) (A. D. 284) is involved, evidence establishing the parentage, through marriage or otherwise, will be required. (July 10, 1942)

§ 2.1045 *Illegitimate children; parents of.* (a) For the purposes of Public No. 141, 73d Congress, as amended, the mother of an illegitimate child will be considered to be within the meaning of the word "mother" and "parent" as used in the War Risk Insurance Act, or World War Veterans Act, 1924, as amended.

(b) The father of an illegitimate child will be considered to be within the meaning of the word "father" as used in the foregoing acts upon proof of the existence of the family relationship usual between

parent and child at the time the latter entered the service. (July 10, 1942)

§ 2.1057 *Conditions which determine dependency.* * * *

(b) In determining the amount of income in a given case, account will be taken of the net income from property of every character owned by the mother or father or other members of the family under legal age, and of the earnings received by such father or mother or such other members of the family under legal age. Account will not be taken of the incomes of other members of the family of legal age, but only of the actual contributions made by such members of the family. Amounts received under State and Federal laws in the form of old age assistance are to be considered as income for the purpose of determining the dependency of parents. If it is considered that the parent is dependent, notwithstanding the income from this or other source, an appropriate determination may be made to that effect. The entire corpus of the estate of the claimant as well as income will be considered in determining dependency. (July 10, 1942)

DETERMINATIONS AS TO BASIC ENTITLEMENT

§ 2.1069 *Forfeiture—*(a) *Public No. 2, 73d Congress.* Section 15 of this Act, and section 9, Public 304, 75th Congress, provide for the forfeiture of pension or compensation to a person who knowingly makes false statements in connection with a claim.

(b) *Prior forfeiture bars payment under Public No. 2, 73d Congress, as amended.* By reason of section 11, Public No. 2, 73d Congress, and paragraph 2, section 14 of the Act of August 9, 1921, a claimant whose rights were forfeited under section 504, World War Veterans Act, is not entitled to benefits under Public No. 2, 73d Congress, as amended. However, when disability compensation or pension based upon service connected disability has been forfeited by a veteran because of submission of false or fraudulent evidence, compensation or pension payable except for the forfeiture, from and after the date of suspension of payments to the veteran, shall be paid to his wife, child or children, and/or dependent parents, such payments not to exceed the amount payable in case such veteran had died from such service connected disability. Payment in such case may not be made for any period prior to October 17, 1940, as provided in section 9 of Public No. 866, 76th Congress. No compensation or pension shall be paid to any dependent who has participated in the fraud for which the forfeiture was imposed. Where payments were suspended prior to October 17, 1940, because of forfeiture, a claim, which may be informal, for benefits under section 9, Public No. 866, 76th Congress, will be necessary. In those cases where payments are suspended on or subsequent to October 17, 1940, because of forfeiture of rights by a veteran because of submission of false or fraudulent evidence, action to determine the rights of the veteran's dependents of record will be taken without the

requirement of an application by the veteran's wife, child or children, and/or dependent parents.

(c) *No forfeiture of pensions for violation of hospital rules.* Pension benefits, including those termed "compensation" by section 33, Public No. 141, 73d Congress, are not subject to deductions because of violations of hospital rules. (A. D. 258) (July 10, 1942) 54 Stat. 1196; 38 U.S.C. 535a, 715a)

SERVICE CONNECTION FOR NEUROPSYCHIATRIC DISEASES

§ 2.1094 *Neuropsychiatric diseases included.* The neuropsychiatric diseases included in the second proviso, section 200, World War Veterans Act, 1924, as amended, include the following:

(a) *Psychoses.* Manic-depressive, dementia praecox, paranoid, associated with organic diseases or injuries.

(b) *Psychoneuroses and neuroses.* Neurasthenia, psychasthenia, hysteria, anxiety neurosis, occupational neurosis, compulsion neurosis, tics.

(c) *Vaso-motor and trophic disorders.* Raynaud's disease, angio-neurotic oedema, erythro-melalgia, Buerger's disease (thromboangiitis obliterans, endarteritis obliterans).

(d) *Neurological diseases.* Diseases of the cranial and peripheral nerves, diseases of the spinal cord, diseases of the pons, medulla and basal ganglia, diseases of the cerebellum, diseases of the meninges, diseases of the brain (embolism, hemorrhage into the brain, thrombosis, hydrocephalus, tumors, abscess, muscular dystrophies and myopathies, chorea, athetosis, tremors, paralysis agitans, multiple sclerosis). (See § 2.1139 in considerations under Public No. 196 and No. 866, 76th Congress)

(e) *Endocrinopathies.* Diseases of the thyroid gland (except neoplasms, simple enlargements and abscesses), diseases of the parathyroid glands, diseases of the pituitary (hypopituitarism, Froehlich's syndrome, dystrophia adiposogenitalis; hyperpituitarism-acromegaly), diseases of the gonads, diseases of the adrenal glands, polyglandular syndromes.

(f) *The epilepsies.* (July 10, 1942)

SERVICE CONNECTION FOR DENTAL DISABILITIES

§ 2.1110 *Protection of service connection in dental cases.* When service connection for a dental condition, compensable or non-compensable under present rating schedules, which was granted under Veterans Bureau Regulation No. 17, effective February 23, 1922, or subsequent regulations, is considered clearly and unmistakably erroneous, the procedure provided in § 2.1009 (a) will be for application as in any other case wherein severance of service connection is involved. However, service connection for a dental condition, non-compensable under present rating schedules, granted prior to February 23, 1922, the date of promulgation of Veterans Bureau Regulation No. 17, is subject to reconsideration under the provisions of existing laws and regulations and may be severed, when warranted by the facts, without

submission to central office. (July 10, 1942)

NOTE: See § 2.1104 for provisions formerly contained in Veterans Bureau Regulation No. 17.

PRINCIPLES GOVERNING STATUTORY RATINGS

§ 2.1130 *Statutory award for loss of use of creative organ, or one or more feet or hands.* Under the last paragraph of section 202 (3) of the World War Veterans Act, as amended July 3, 1930, as reenacted by Public No. 141, 73d Congress, any veteran shown to have suffered the loss or the use of a creative organ or one or more feet or hands as the result of an injury received in the active service in line of duty between April 6, 1917, and November 11, 1918, shall be entitled to a statutory award of \$25.00 per month, independently of any other compensation which may be payable under said Act: *Provided, however,* That if such disability was incurred while the veteran was serving with the United States military forces in Russia, the dates herein stated shall extend from April 6, 1917 to April 1, 1920. This statutory award shall be payable from the date the loss of the use of the creative organ or one or more feet or hands is shown to exist, subject to the provisions of § 35.021 and when payable shall be added to any other compensation payable to the veteran. Section 6 of Public No. 866, 76th Congress, amended the last paragraph of section 202 (3), World War Veterans Act, 1924, as amended, Public No. 141, 73d Congress, by increasing to \$35.00 monthly the compensation payable for the loss of the use of one or more feet or hands. The effective date of the award in such case, if otherwise in order, will be October 17, 1940, the date of the enactment of Public No. 866, 76th Congress. (July 10, 1942) (54 Stat. 1196; 38 U.S.C. 473a)

§ 2.1137 *Rating of reactivation in cases of arrested tuberculosis.* In rating tuberculous disabilities to which the statutory award is not applicable, as when the diagnosis for the period of the disability upon which the rating is based is expressed in terms reflecting activity, the rating of the disability for such period shall be made in accordance with the Schedule of Disability Ratings, 1925, and Extensions thereto and/or the Schedule for Rating Disabilities, 1933, and Extensions. If a period of complete arrest is interrupted by activity, the payment for arrested tuberculosis will cover only the period of arrest and will be terminated as of the date of determined reactivation, from which a rating will be made consistent with the physical findings pending reattainment of complete arrest. (July 10, 1942)

RESTORATION OR GRANT OF BENEFITS FOR CLAIMANTS SUFFERING FROM PARALYSIS, PARESIS, OR BLINDNESS, OR WHO ARE HELPLESS OR BEDRIDDEN DUE TO MISCONDUCT

§ 2.1138 *Application of Public No. 196 and 866, 76th Congress.* (a) On and after July 19, 1939, the date of enactment of Public No. 196, 76th Congress, any World War veteran suffering from paralysis, paresis, or blindness, or who is helpless

or bedridden, as the result of any disability, and who was in receipt of compensation therefor on March 19, 1933, and on or after October 17, 1940, the date of enactment of Public No. 866, 76th Congress, any World War veteran suffering from paralysis, paresis, or blindness, or who is helpless or bedridden as the result of any disability may be awarded compensation under the Laws and interpretations governing this class of cases prior to the enactment of Public No. 2, 73d Congress, subject to the limitations, except as to misconduct or wilful misconduct, contained in sections 27 and 28 of Public No. 141, 73d Congress, as amended: *Provided,* That compensation authorized under section 26 of Public No. 141, 73d Congress, will not be reduced or discontinued as a result of the application of the enactment: *And provided further,* That no payment of disability compensation under Public No. 866, 76th Congress, will be made for any period prior to the date of application therefor, which may be informal where there is of record a formal application, Form 526.

(b) In the application of the limitations contained in sections 27 and 28 of Public No. 141, 73d Congress, except as to misconduct or wilful misconduct, it will be borne in mind that all reasonable doubts will be resolved in favor of the veteran. The delimiting dates of the World War under existing legislation will be applied; for the purposes of Public No. 196 and 866, 76th Congress, the ending date of the World War will, therefore, be April 1, 1920, for those who served with the United States military forces in Russia.

(c) The compensation award or disability rating in the case of any World War veteran restored to the rolls or determinable under Public No. 196, 76th Congress, or granted disability benefits under section 7 of Public No. 866, 76th Congress, will be adjusted at any time upon the happening of a change in any of the contingencies upon which the current status is predicated, such as a change in family relationship, a change in physical condition, etc., as disclosed by competent evidence or a report of physical examination, and the effective date of the adjustment will be in accordance with the applicable regulations. (July 10, 1942) [54 Stat. 1196; 38 U.S.C. 703b]

APPLICATION OF RATING SCHEDULE

§ 2.1141 *Use of 1925 and 1933 schedules.* (a) Disability ratings will conform to the 1925 schedule in effect March 19, 1933, known as the Schedule of Disability Ratings, 1925, and Extensions thereto, continued under section 28, Title III, Public No. 141, 73d Congress, and/or the current edition of the 1933 schedule authorized by § 35.03, pursuant to Public No. 2, 73d Congress, known as the Schedule for Rating Disabilities, 1933, and Extensions, according to the facts in each case. (July 10, 1942)

§ 2.1142 *Special action where evaluations provided under rating schedules are*

considered inadequate or excessive. Exceptional cases to which the application of either schedule is not understood, or with regard to which the 1933 schedule evaluation is considered inadequate or excessive, may be submitted for advisory opinion or for reevaluation to the director, veterans claims service, central office. Severe disabilities considered total, but for which current procedure does not authorize a total rating, questionable special monthly pension cases, and questionable double total and permanent disability cases, will be similarly submitted. Where total disability is claimed and a submission hereunder is contemplated a Form 527, Employment Affidavit, will be obtained and other indicated development of the evidence accomplished prior to the release of the records by the custodial office. The submission in any case comprehended by this section will include the case file, a recent medical examination, and definite recommendation from the submitting agency concerning service connection and evaluation of every disability, under the applicable schedule or schedules as interpreted by the submitting agency, and concerning scheduler changes deemed advisable by reason of the particular situation encountered. (§ 35.03) (July 10, 1942)

§ 2.1143 *Protected ratings, 1925 schedule.* Evaluations under the 1925 rating schedule, including the percentage rating, the occupational determination and variant thereunder, and the occupational analogy, are to be continued without reduction in the absence of clear and unmistakable error, or as regards percentage ratings, in the absence of subsequent medical examinations adequately covering the specified disabilities and showing a material change in the physical condition. When the record shows that an extension to the 1925 rating schedule has not been applied, the rating will be brought under the extensions, but a reduction will not be effected in the absence of an examination fully adequate for the purpose of the extension. Differences of opinion as to classification between adjacent severity grades, or as to the rating applicable within a prescribed flexible range, or as to the analysis of disabilities into several factors, the ratings for which have been in the past combined, or mere differences in description or diagnosis of substantially the same degree of disability, will not warrant correction of the evaluation on the ground of clear and unmistakable error unless the rating exceeds a prescribed limit, or is grossly disproportionate to the degree of disability sustained. The protective provisions of section 28, Public No. 141, 73d Congress, are for application in all appropriate instances within the purview of section 5, Public No. 304, 75th Congress, wherein the disease or injury was incurred prior to July 2, 1921, in a reenlistment entered into subsequent to November 11, 1918, where there was prior service between April 6, 1917 and November 11, 1918. (July 10, 1942)

§ 2.1148 *Effective dates of evaluations, 1925 and 1933 schedules in original rat-*

ings. (a) Evaluations under the 1933 schedule will be effective as of the date of receipt of the application by the Veterans Administration under Title I, Public No. 2, 73d Congress, and regulations issued pursuant thereto, or the date the evidence shows a compensable or pensionable degree of disability to have existed, whichever is the later, but in no event prior to March 20, 1933; except that changed evaluations due to amendment of the rating schedule will be effective from the date of the receipt of the claim (original, reopening or increase), or the date the evidence shows entitlement, whichever is the later, but in no event prior to the effective date of the amendment to the schedule: *Provided, however,* That where the claim was in a pending or appellate status as of that date the evaluation will be made effective as of the date of administrative determination (date rating or decision is signed) by the original or appellate rating agency. The effective date of the evaluation will not, however, necessarily control award action.

(b) Evaluations under the 1925 schedule and extensions thereto will be effective as of the date of receipt of the application by the Veterans Administration under Title III, Public No. 141, 73d Congress, or the date the evidence shows entitlement, whichever is the later, but in no event prior to March 28, 1934. (July 10, 1942)

§ 2.1149 *Effective dates of evaluations, 1925 and 1933 schedules, in claims for increase.* Evaluations under the 1933 schedule and extensions and the 1925 schedule and extensions thereto, in claims for increase, will be effective from the date of the receipt of the evidence, i. e., affidavits of physicians or other evidence submitted by the veteran showing an additional disability, or an increase in the condition for which he is receiving compensation or pension; or the date of the official report of physical examination made in a Veterans Administration facility, or by a designated examiner in connection with compensation, pension, or treatment pursuant to proper authority. The effective date of the evaluation will not, however, necessarily control award action (See § 3.1216). (July 10, 1942)

§ 2.1150 *General principles as to effective disability evaluations under governing schedules.* Within the limits mentioned in the preceding §§ 2.1148 and 2.1149, the question of evaluating disabilities based on applications for monetary benefits must be determined on the facts in the individual case for consideration. If the disability is static in nature and the information in connection therewith furnished in the Form 526 is substantiated by a subsequent examination, the percentage evaluations in accordance with the terms of the rating schedules will be applicable from the date of claim. Where the disease or injury is not static in nature but is disclosed on examination within such a reasonable time after the filing of the claim that the exercise of sound medical judgment would permit a determination that the condition was existent at the time the claim was filed,

the effective date of the evaluations assigned in accordance with the terms of the rating schedules will be the date of claim. Accordingly, when in the exercise of sound medical judgment the evidence is considered sufficient to establish an evaluation of the disability from the date of application, original or for increase, an appropriate rating will be made and payments authorized effective from the date of application, if otherwise in order. (July 10, 1942)

PERMANENT TOTAL DISABILITY RATINGS UNDER THE WORLD WAR VETERANS ACT, 1924, AS AMENDED, AND THE SCHEDULE OF DISABILITY RATINGS, 1925, AS REINSTATED BY SECTION 28, PUBLIC NO. 141, 73D CONGRESS

§ 2.1166 *Total disability ratings under Public No. 2, 73d Congress, and the 1933 Schedule.* * * *

(f) See Extension No. 4 to the 1933 Rating Schedule for changes in the requirements and procedure relating to total disability generally. (July 10, 1942)

§ 2.1170 *Continuance of total disability ratings.* Total disability ratings made pursuant to the criteria established under the prior general and service pension laws, the War Risk Insurance Act, as amended, or the World War Veterans' Act, 1924, as amended, for pension, disability allowance, or disability compensation purposes, when warranted by the severity of the condition, and not granted purely because of hospitalization or home-treatment, and total ratings made pursuant to existing legislation will not be reduced, in the absence of clear error, without physical examination showing material improvement in physical condition. Examination reports showing material improvement must be evaluated in conjunction with all the facts of record and consideration must be given particularly to whether the veteran attained improvement under the ordinary conditions of life, i. e., while actually at work, or whether the symptoms have been brought under control by prolonged rest, or generally, by following a regimen which precludes work, and if the latter, reduction from total disability rating will not be considered pending reexamination after a period of employment (three to six months). (July 10, 1942)

§ 2.1171 *Continuance of total disability ratings in tuberculosis cases.* Total ratings of long standing for active tuberculosis will not be reduced pending attainment of definite arrest, or at least the subsidence of any marked symptoms under the ordinary conditions of life, i. e., while employed. The fact of attaining inactivity or arrest following prolonged total disability on account of active tuberculosis will not in itself be taken as establishing that the improvement can be maintained under the ordinary conditions of life. (July 10, 1942.)

§ 2.1172 *Stabilization of disability evaluations.* (a) The approved policy of the Veterans Administration requires that all rating agencies handle cases affected by change of medical findings or diagnosis, wherein service connection or entitlement is in effect, including claims under § 35.013, so as to produce the great-

est degree of stability of disability evaluations consistent with the laws and regulations governing disability compensation and pension. In pursuance of this vital policy it is essential that the entire record of examinations and the medical-industrial history be reviewed to ascertain whether the recent examination is full and complete, including all special examinations indicated as a result of general examination and the entire case history. This applies especially to hospital examinations incident to treatment of intercurrent diseases and exacerbations, including bedside examinations, examinations by designated physicians, and examinations in the absence of, or without taking full advantage of, laboratory facilities and the cooperation of specialists in related lines. Examinations less full and complete than those on which payments were authorized or continued, will not be used as the basis of reduction. The type of disease, and the relationship between the former diagnosis and findings and the new diagnosis and findings must be closely examined. Ratings on account of diseases subject to temporary or episodic improvement, e. g., manic-depressive or other psychosis, epilepsy, psychoneurosis, coronary sclerosis (coronary occlusion or the anginal syndrome), bronchial asthma, gastric or duodenal ulcer, many skin diseases, etc., will not be reduced on any one examination except in those instances where all the evidence of record clearly warrants the conclusion that permanent improvement of physical or mental condition has been demonstrated. Ratings on account of diseases which became comparatively symptom free (findings absent) after prolonged rest, e. g., phlebitis, myocardial or coronary insufficiency, active pulmonary tuberculosis, etc., will not be reduced on examinations reflecting the results of bed rest. When the new diagnosis reflects mental deficiency or psychopathic inferiority only, the possibility of only temporary remission of the psychosis, psychoneurosis, or other superimposed disease will be borne in mind. When syphilis of the central nervous system or alcoholic deterioration are diagnosed following a long prior history of psychosis, psychoneurosis, epilepsy, or the like it is rarely possible to exclude persistence, in masked form, of the preceding innocently acquired manifestations. With new diagnosis or findings reflecting change from organic etiology to functional etiology, as organic disease of the heart, to neuro-circulatory asthenia, vaso-motor instability, or psychoneurosis, or as arthritis to psychoneurosis under similar circumstances, substantially the same degree of disability may persist under the new diagnosis as under the old one. Even though material improvement in the physical or mental condition is clearly reflected, the rating agency will consider whether the evidence makes it reasonably certain that the improvement will be permanent and can be maintained under the ordinary conditions of life, i. e., while employed, or, if unemployed, while actively seeking employment. This instruction does not alter the long established

policy of the Veterans Administration of placing disability ratings on a permanent basis whenever existing conditions will permit.

(b) If, after according due consideration to all the evidence developed by the several items discussed in the preceding paragraph, doubt remains, the rating agency will continue the rating in effect, citing the former diagnosis with the new diagnosis in parenthesis and following the appropriate code there will be added the reference "rating continued pending reexamination ----- months from this date, § 2.1172." The rating board will determine upon the basis of the facts in each individual case whether 18, 24 or 30 months will be allowed to elapse before the reexamination is made. (July 10, 1942)

§ 2.1185 *Reexaminations to be requested when necessary.* * * *

(c) In nonservice-connected cases under § 35.013, wherein a permanent total rating may be in effect, or be hereafter granted, based on other than obviously static disabilities, reexamination will be conducted within thirty months of the date the permanent total rating was first granted. Further examination will not be requested routinely and will only be accomplished if considered necessary based upon the particular facts of the individual case. In cases in which the permanent total disability is confirmed by reexamination or by the history of the case, or with obviously static disabilities, future reexaminations will not be requested. (July 10, 1942)

PART 3—ADJUDICATION: VETERANS' CLAIMS
DISALLOWANCE AND AWARDS

§ 3.1214 *Effective dates of awards of increased disability compensation or pension by reason of amendments to the rating schedule.* * * *

(b) *By reason of increased disability.*
(1) The effective date of an award based upon an increased disability rating under an amendment to the rating schedule or governing regulation, as the case may require, will be the date of receipt of the claim (original, reopening or increased) by the Veterans Administration, or the date the evidence establishes the existence of the increased disability, whichever is the later, but in no event prior to the date of the amendment or regulation involved, *Provided, however*, That where the claim was in a pending or appellate status as of that date the effective date of the award will be the date of administrative determination by the original or appellate rating agency. (July 10, 1942)

* * * * *
§ 3.1218 *Award where identical amounts are involved.* In order to avoid unnecessary awards action where the monetary benefits under existing legislation are the same in the amounts payable the monetary benefit previously awarded will be continued. (July 10, 1942)

§ 3.1235 *Statutory awards, section 202, World War Veterans Act, 1924, as amended, as reenacted by Public No. 141,*

73d Congress. The statutory awards provided in section 202 of the World War Veterans Act, 1924, as amended, are payable under sections 27 or 28, Title III, Public No. 141, 73d Congress, as follows:

(a) Under section 202 (2), compensation under a rating of temporary total disability for a period of six months following discharge from a hospital after treatment therein for a period of one year for tubercular disease of a compensable degree and after a condition of complete arrest thereof has been reached.

(b) Under section 202 (3):

(1) First paragraph, the statutory rates for specified conditions as provided therein.

(2) Second paragraph, compensation under a temporary total rating for a period of three years following discharge from a hospital after treatment therein for a tuberculous disease of a compensable degree for a period of one year and after it has been determined that a condition of arrest will not be reached by further hospitalization.

(3) Third paragraph, the additional compensation of \$25.00 monthly independent of any other compensation, for the loss of the use of a creative organ or one or more feet or hands. Effective October 17, 1940, the additional compensation for loss of use of one or more feet or hands is \$35.00 monthly (Public No. 866, 76th Congress). (July 10, 1942) (54 Stat. 1196; 38 U.S.C. 473a)

* * * * *

473a)
§ 3.1236 *Special monthly pension or compensation under Public No. 2, 73d Congress.* The special monthly pension or compensation provided by paragraphs (k), §§ 35.011 and 35.012 is applicable but once in any one case. In other words, if the veteran has suffered the anatomical loss of one eye and one hand his monthly pension or compensation under Public No. 2, 73d Congress, will be increased by \$25 and not by \$50. Effective July 19, 1939, the amount of increased compensation for the anatomical loss or loss of use of an eye, one or more feet or hands, is \$35 monthly (Public No. 198, 76th Congress.) (July 10, 1942) (53 Stat. 1070; 38 U.S.C. Ch. 12a)

§ 3.1237 *Additional allowance for nurse or attendant.* If and while a veteran is so helpless on account of a service connected compensable condition as to be in need of a nurse or attendant, (see §§ 2.1176, 2.1177, and 2.1178), there will be allowed in addition to the compensation payable under Title III, Public No. 141, 73d Congress, the sum of \$50.00 per month on and after March 28, 1934: *Provided, however*, Where a veteran in receipt of additional compensation or pension based upon the need for a nurse or attendant, regular aid or attendance, or frequent and periodical aid or attendance is being furnished hospital treatment, institutional or domiciliary care by the United States or a political subdivision thereof and is being furnished with nursing or attendant's service, the award of compensation or pension will be the amount authorized by the rating decision exclusive of any

additional amount on account of the need for a nurse or attendant, regular aid and attendance, or frequent and periodical aid and attendance. The reduced rate of compensation or pension in such instances will be effective as of the beginning of the maintenance of the disabled veteran in an institution by the United States or a political subdivision thereof. The compensation or pension in all cases contemplated herein is subject to the limitations contained in § 35.06. In every case where a beneficiary who is receiving an allowance for a nurse or attendant enters the hospital a report will be forwarded to the rating board, field office, or the central disability board, claims division, veterans claims service, showing the inclusive dates of hospital treatment. (A. D. 201.) Where the additional allowance for a nurse or attendant has been properly authorized to patients with amputations, or in those cases wherein the basic condition requiring a nurse or attendant is essentially permanent as defined in currently effective adjudication procedure, or in terminal cases, a redetermination by the rating board following dehospitalization is not required for reinstatement of this benefit. Upon receipt of the necessary notice that such veteran is no longer being maintained in an institution by the United States or a political subdivision thereof appropriate awards action for the purpose stated above will be accomplished at once and in such instances it will not be necessary to await receipt of the hospital report prior to resuming the additional allowance. In other cases not involving amputations or conditions essentially permanent the additional allowance for a nurse or attendant may be reawarded only upon a determination by the rating board that the veteran concerned is in further need of such services. The additional allowance for nurse or attendant is not to be reinstated for the purpose of applying the provisions of § 2.1009, paragraph (e), which are applicable only to the proper running award. Where the veteran is not hospitalized and evidence is received indicating there is no further need for nurse or attendant, the provisions of § 2.1009, paragraph (e) are for application. (July 10, 1942)

§ 3.1248 *Continuance of award to child pursuing a course of instruction after it reaches the age of eighteen years.* When an unmarried child of a veteran entitled to disability compensation, pension, or emergency officers retired pay under Public No. 2 or Public No. 78, 73d Congress, as amended, is or may hereafter be pursuing a course of instruction within the purview of § 35.10 (a), payment of an apportioned share of compensation, pension, or emergency officers retired pay may be continued or made to, for, or on behalf of the child after it has reached the age of eighteen years, but not after it reaches the age of twenty-one years. (July 10, 1942)

§ 3.1299 *Action where veteran returns to active duty status.* Compensation or pension may not be paid concurrently with the receipt of active service pay, and where any person in receipt of com-

penation or pension returns to active duty status with any of the armed forces of the United States, or active service in the United States Coast Guard, benefits will be suspended effective the day preceding reentrance. Payments may be resumed the day following release from active duty, provided the person is otherwise entitled. The period of active service must be verified by Form 3101 series. (July 10, 1942)

§ 3.1302 *Naval pension allowance.* The naval pension allowance (sections 4756-4757, Revised Statutes) may not be paid concurrently with disability compensation awarded under section 28, Public No. 141, 73d Congress, as section 28 thereof does not grant to veterans of the World War rights to benefits which did not exist under the World War Veterans Act, 1924, as amended, as interpreted by the Comptroller General (7 Comp. Decision 556) and the Attorney General (February 28, 1933). However, all persons in receipt of compensation or pension under Public No. 2, 73d Congress, as amended, will be entitled to receive a naval pension allowance in addition to and concurrently with such compensation or pension payable thereunder, provided entitlement thereto is otherwise established. (A. D. 81-B) (July 10, 1942)

§ 3.1303 *Right of election between disability compensation or pension and emergency officers retirement pay.* A veteran who elected to receive emergency officers retirement pay in lieu of disability compensation is not estopped from exercising the right of election between compensation or pension and emergency officers retirement pay under Public No. 2, 73d Congress, or Public No. 141, 73d Congress, as amended. However, when a claimant elects to receive compensation or pension under Public No. 2, 73d Congress, or Public No. 141, 73d Congress, as amended, rather than emergency officers retirement pay, or emergency officers retirement pay in lieu of compensation or pension under Public No. 2, 73d Congress, or Public No. 141, 73d Congress, as amended, he has not thereafter, without further changes in the law which would authorize such action, any right to reverse his election and accept the other benefit. (A. D. 226) (July 10, 1942)

Bituminous Coal Division.

[Docket No. B-204]

HERMAN J. MORRISON, CODE MEMBER

CEASE AND DESIST ORDER, ETC.

Order approving and adopting proposed findings of fact, proposed conclusions of law of the Examiner and cease and desist order.

A complaint having been filed with the Bituminous Coal Division, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board No. 1, alleging that Herman J. Morrison, a code member in District No. 1, has wilfully violated the Bituminous Coal Act of 1937, the Code, and the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments as follows:

By selling and delivering (in his own trucks) to the Brockway Clay Products Company, Brockway, Pennsylvania, between October 1940 and July 1941, approximately 8,547 tons of run of mine coal (Size Group 3) produced at the code member's Morrison Mine (Mine Index No. 1803) at \$2.15 per net ton delivered to the purchaser's plant at Brockway, whereas the effective minimum price set forth for such coal in the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments is \$2.15 per net ton f. o. b. the mine, thus failing to add to the f. o. b. mine price an amount at least equal, as nearly as may be, to the actual transportation charges from the mine to the purchaser;

By failing to comply with the provisions of Orders Nos. 296, 297, 307, 308, and 312 during the period of their applicability, in that code member failed to maintain and file with the Division the various records, sales slips, memoranda and reports as prescribed in said orders;

Pursuant to Orders of the Acting Director and after due notice to all interested persons, a hearing in this matter having been held on March 27, 1942, before Joseph A. Huston, a duly designated Examiner of the Division, at a hearing room thereof in Altoona, Pennsylvania, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

On May 29, 1942, the Examiner having filed his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations in which he found that the code member between October 1940 and July 1941 had violated the provisions of sections 4 II (e) and 4 II (g)

of the Act and Price Instruction No. 6 of the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments by selling and delivering to the Brockway Clay Products Company 8,547 tons of run of mine coal produced at his Morrison Mine at prices below the minimum established for coal so sold and delivered, and in addition had violated Orders Nos. 296, 297, 307, 308 and 312; and the Examiner having further found that upon being informed of the illegality of his conduct, code member immediately rectified it by demanding and receiving from Brockway Clay Products Company \$1,282.26 representing transportation charges on the coal sold thereto, has made arrangements to comply in the future with the orders referred to;

The Examiner having recommended that the code member be ordered to cease and desist from further violations;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs, and no such exceptions or supporting briefs having been filed;

The undersigned having determined after consideration of the record that the proposed findings of fact and proposed conclusions of law of the Examiner be and the same are hereby approved and adopted as the findings of fact and conclusions of law of the undersigned;

Now, therefore, it is ordered, That the proposed findings of fact and proposed conclusions of law of the Examiner be and the same are hereby approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is further ordered, That code member Herman J. Morrison, his representatives, agents, servants, employees, attorneys, successors, or assigns, and all persons acting or claiming to act in his behalf or interest, cease and desist, and they hereby are permanently enjoined and restrained from selling or offering to sell coal produced by them at prices below the applicable effective minimum prices established therefor in the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments, or otherwise violating the Bituminous Coal Act of 1937, the Code, and rules and regulations thereunder.

It is further ordered, That if code member fails or refuses to comply with this order, the Division may forthwith apply to a Circuit Court of Appeals of the United States, within the circuit wherein code member resides or carries on business, for the enforcement thereof, or take other appropriate action for the enforcement of this Order.

Dated: July 9, 1942.

Herman Sanders wilfully violated sections 4 II (e) and 4 II (g) of the Act and of the Code by selling and delivering during the period January 1, 1941, to June 30, 1941, a total of 637.83 tons of coal produced at his Sanders Mine (Mine Index No. 1070) at a price below the minimum established therefor in the Schedule of Effective Minimum Prices for District 13 for Truck Shipments, plus the cost of transporting such coal from the transportation facilities at the mine to the point from which all such charges were assumed and directly paid by the purchaser;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs and no such exceptions or briefs having been filed;

The undersigned having determined after consideration of the record that the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendation of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

Now, therefore, it is ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner be and the same are hereby approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

(d) That if Pennsylvania Electric Company shall desire, it may require that in addition to receiving approvals from public holders of 75% of the stock, the certificates representing the stock of each such approving holder shall be deposited with an escrow agent who shall receive payment on behalf of such holders in the pro rata share allocable thereto against delivery to the company of such certificates of stock and a release in favor of The Clarion River Power Company and the Pennsylvania Electric Company signed by such holder;
