Chapter XIV—Production and Marketing Administration (School Lunch Program)

PART 1800—REGULATIONS AND PROCEDURES MINIMUM NUTRITIONAL REQUIREMENTS UNDER THE NATIONAL SCHOOL LUNCH ACT

Sec.	
1800.1	Statutory authority and policy.
1800.2	Definitions.

Sec.	
1800.3	Type A lunch.
1800.4	Type B lunch.
1800.5	Type C lunch.
1800.6	General requirements.
1800.7	Effective date.

AUTHORITY: §§ 1800.1 to 1800.7, inclusive, issued under Pub. Law 396, 79th Cong., 2d Sess.

§ 1800.1 *Statutory authority and policy.* In the National School Lunch Act, approved June 4, 1946, Pub. L. 396, 79th Cong., 2d Sess., hereinafter referred to as the "act", it is declared to be the policy of Congress, as a measure of national security, to safeguard the health and well-being of the Nation's children and to encourage the domestic consumption of nutritious agricultural commodities and other food, by assisting the States, through grants-in-aid and other means, in providing an adequate supply of foods and other facilities for the establishment, maintenance, operation, and expansion of nonprofit school lunch programs; and, in connection therewith, it is provided in section 9 of the act that lunches served by schools participating in the school lunch program under the act shall meet minimum nutritional requirements prescribed by the Secretary of Agriculture on the basis of tested nutritional research; and it is also provided by the act that the rate of disbursement for food to the participating schools shall not exceed the maximum Federal food-cost contribution rate (hereinafter referred to as the "maximum rate of reimbursement") prescribed by the Secretary for the type of lunch served. The types of lunches, minimum nutritional requirements for each type, and maximum rates of reimbursement therefor, pursuant to the foregoing authority, are prescribed below;

§ 1800.2 *Definitions.* (a) Words in this part in the singular shall be deemed to import the plural, and vice versa, as the case may demand.

(b) Unless otherwise defined or manifestly incompatible with the intent thereof, words used in this part shall have the same meaning as that accorded to such words for the purposes of the act.

§ 1800.3 *Type A lunch.* The Type A lunch shall consist of a complete lunch, hot or cold, providing one-third to one-half of one day's nutritive requirements for a child. The maximum rate of reimbursement to participating schools with respect to the Type A lunch is nine cents. The Type A lunch must contain at least:

(a) One-half pint of whole milk, which meets the minimum butterfat and sanitation requirements of State and local laws, as a beverage;

(b) Two ounces of fresh or processed meat, poultry meat, cooked or canned fish, or cheese; or, one-half cup of cooked dry peas, beans, or soybeans; or four tablespoons of peanut butter; or one egg;

(c) Six ounces (three-fourths cup) of raw, cooked, or canned vegetables and/or fruit;

(d) One portion of bread, muffins, or other hot bread made of whole-grain cereal or enriched flour; and

(e) Two teaspoons of butter or fortified margarine.

The requirements of the Type A lunch are best adapted to a plate or tray service. The protein requirements in § 1800.3 (b) may be met by serving one-half the required quantities of each of two of the items listed therein. One-half cup of fruit juice may be served in meeting one-half of the requirements of § 1800.3 (c).

§ 1800.4 *Type B lunch.* The Type B lunch shall consist of an incomplete lunch, hot or cold, which is less adequate nutritionally than Type A. The maximum rate of reimbursement to participating schools with respect to the Type B lunch is six cents. The Type B lunch must contain at least:

(a) One-half pint of whole milk, which meets the minimum butterfat and sanitation requirements of State and local laws, as a beverage;

(b) One ounce of fresh or processed meat, poultry meat, cooked or canned fish, or cheese; or one-half egg; or one-fourth cup of cooked dry peas, beans, or soybeans; or two tablespoons of peanut butter;

(c) Four ounces (one-half cup) of raw, cooked, or canned vegetables, and/or fruit;

(d) One portion of bread, muffins, or other hot bread made of whole-grain cereal or enriched flour; and

(e) One teaspoon of butter or fortified margarine.

The requirements of the Type B lunch are designed to fit the limited facilities of some schools and may be supplemented by food brought from home. The lunch may be built around a main dish (i. e., thick soup, chowder, stew, casserole, or salad) including items specified in §§ 1800.4 (b) and (c) and served with milk and bread and butter or margarine. As an alternative, items specified in §§ 1800.4 (b), (d) and (e) may be used as a sandwich and served with milk and fruit and/or vegetables.

§ 1800.5 *Type C lunch.* The Type C lunch shall consist of one-half pint of whole milk, which meets the minimum butterfat and sanitation requirements of State and local laws, as a beverage. The maximum rate of reimbursement to participating schools with respect to the Type C lunch is two cents.

§ 1800.6 *General requirements.* (a) If sufficient milk of acceptable quality and sanitary standards cannot be secured, a Type A lunch or Type B lunch without milk may be served, but, in such case, the maximum rate of reimbursement in connection therewith shall be reduced two cents per lunch. Payments to any school shall not be made for both Type A and Type B lunches served in the same school on the same day. No reimbursement for a Type C lunch shall be made to any school in which food is sold during lunch periods, except to a school serving a lunch meeting the requirements of the Type A or a Type B lunch and where the lunch is offered to all children regardless of ability to pay the full cost thereof.

(b) Two types of lunches, such as Type A and Type C, or Type B and Type C (but not Type A and Type B), may be served on the same day in any one school, but not alternately nor to the same child on the same day. A school may change

from a higher type lunch to a lower type lunch upon notice thereof to the State educational agency or the United States Department of Agriculture, whichever has entered into a school lunch agreement with the school pursuant to the act; but, after making such change, such school may not return to the higher type lunch without the prior approval of the State educational agency or the Department of Agriculture, as the case may be. Each school must offer to all children in attendance the highest type of lunch which it serves.

§ 1800.7 *Effective date.* The types of lunches, the minimum nutritional requirements for each type, and the maximum rate of reimbursement with respect to each type, as prescribed herein, shall remain in effect until changed. (Pub. Law 396, 79th Cong., 2d Sess.)

Issued at Washington, D. C. this 14th day of August 1946.

COMBED YARNS

Table with columns for Yarn Nos., Singles, and Plied, showing prices per pound and increases since March 1942.

TABLE A—Continued CARDED YARNS—continued [Cents per pound]

Table with columns for Yarn Nos., Band A (Column 1, 2), and Band B (Column 3, 4), showing prices per pound and increases since March 1942.

1 If you are a producer qualified under SO 131 to charge Band A prices for carded or combed yarn, or if you are a producer, commission dyer, jobber or other seller of dyed yarn who pays Band A prices for the carded or combed grey yarn used in the dyed yarn you are pricing, use the applicable columns under Band A. All other sellers must use the Band B columns.

2 Any seller of dyed yarn, who normally purchased the major portion of grey yarn used in his dyed sales yarn, may include in the August 5 ceiling price, the 5% producers' premium, if such premium was actually charged for the grey yarn used in the dyed yarn being priced. Producers pricing dyed sales yarn may not include the 5% producers' premium for grey yarn, whether spun or purchased, in their computation of dyed yarn maximum prices. In all case, the cents per pound increase factors in columns 2 and 4 will be used as set forth.

This amendment shall become effective August 15, 1946.

Issued this 15th day of August 1946.

PAUL A. PORTER, Administrator.

(2) No seller of foreign cotton crib blankets shall discontinue or alter to the prejudice of a purchaser any discount or

9. Section 7 is added to read as follows:

SEC. 7. The maximum price for a fabric² established prior to August 5, 1946, by authorization or in-lining in accordance with § 1400.101 (b) (1) (ii) or (iii) or § 1400.101 (b) (2) (ii) or (iii) of Maximum Price Regulation No. 118, but which price has not heretofore been increased by any other provisions of this Supplementary Order 131, shall be increased by the same percentage increase set forth in Amendment 30 to Supplementary Order 131, issued August 5, 1946, for the major item to which the fabric is most nearly comparable: Provided, that the producer of each such fabric shall submit to the Textile Branch of the Office of Price Administration, Washington 25, D. C., a statement which shall include (1) the reference docket number and the date of the original authorization or of the letter approving the in-line price, (2) the selected comparable major item and the applicable percentage increase, and (3) the new ceiling price obtained by applying the applicable percentage increase. A producer may use his proposed new maximum price as his tentative maximum price until it is approved, or a different major item designated by the Office of Price Administration and thus a different new maximum price established. The producer's maximum price is automatically approved if 20 days elapse after this statement has been received, unless within that time the Office of Price Administration has designated a different major item as the most nearly comparable, or has indicated any other error in the new ceiling determination. If the maximum price approved within the 20 days is less than the proposed price at which any shipment has been made, a refund equal to the excess shall be promptly made by the seller to the buyer. If the refund is not made within 30 days, the transaction shall be deemed an over-ceiling delivery. At any time subsequent to the 20 days after receipt of the statement by OPA, any change in price shall be made by letter-order, but such letter order shall not have any retroactive effect.

This amendment shall become effective August 14, 1946, except that Section 3b (w) shall be effective as of August 5, 1946.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 14th day of August 1946.

Administrator.

² In the case of a fabric containing less than 95% of cotton by weight, 2% of the otherwise applicable percentage increase is subtracted for each 10% or major fraction thereof of the cotton content less than 100%.

Section 3a is added to read as follows:

SEC. 3a. *Special provisions covering certain sales of processed dry edible beans of the 1945 crop.* This section applies to sales of processed dry edible beans of the 1945 crop in the hands of processors and dealers on and after July 29, 1946 and on which no subsidy has been paid or is payable.

The maximum price for sales of such dry edible beans by processors or dealers is, in each case, the maximum price established by section 3 or section 4, as the case may be, except that the former support price established by the United States Department of Agriculture for the particular variety being priced shall be used if it is higher than the appropriate f. o. b. price named in section 3.

With each delivery of dry edible beans for which maximum prices are figured under this section, sellers (except processors) must supply their purchaser with the appropriate notice required by section 11 of this regulation. Upon receipt of a shipment accompanied by such a notice, any seller covered by this regulation shall figure his maximum price for that particular lot of dry edible beans accordingly.

This amendment shall become effective August 14, 1946.

Issued this 14th day of August 1946.

Revised Price Schedule 50 is amended in the following respects:

1. Section 1351.1 (a) is amended to read as follows:

(a) On and after December 11, 1941, or the effective date thereof as to any amendment to this schedule, regardless of any contract or obligation:

No person shall sell, offer to sell, attempt to sell, deliver, or transfer green coffee at higher prices than the maximum prices hereinafter established by this schedule, and

This addition may be made only when such commissions are actually paid and shall be based upon the net maximum price before the addition of charges permitted by paragraphs (b) (1), (e), (f) and (g) of § 1351.1 of the schedule. No addition may be made to such maximum prices of commissions on sales negotiated by a broker or brokers, either in a port of entry or in a secondary market for the account of a foreign principal.

PART 1499—COMMODITIES AND SERVICES
[SR 14C; Amdt. 21]
ROASTED COFFEE

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Supplementary Regulation 14C is amended in the following respects:

Section 1.7 is added to read as follows:

Sec. 1.7 *Maximum prices for coffee products*—(a) *Sales by processors*. On and after August 14, 1946 a processor's maximum price to each class of purchaser for any item of roasted coffee, roasted coffee compounds, soluble coffee, or soluble coffee products, shall be:

(1) His maximum price for each such item to each such class of purchaser as determined under § 1499.2 or § 1499.3 of the General Maximum Price Regulation; plus

(2) The sum of \$0.1025 per pound for each pound or fraction thereof of pure roasted coffee contained in the item.

(b) *Sales at wholesale and retail which are not subject to Maximum Price Regulations 421, 422 or 423*. On and after August 14, 1946, the maximum prices for sales at wholesale and retail (except sales subject to Maximum Price Regulations 421, 422 or 423) of any item of roasted coffee, roasted coffee compounds, soluble coffee or soluble coffee products shall be determined as follows:

(1) Each seller shall take his maximum price for each item to each class of purchaser as of March 31, 1946;

(2) Divide this price by the "net delivered cost" of his last purchase of the item prior to March 31, 1946; and

(3) Multiply the percentage so obtained by the "net delivered cost" of his first purchase of that item on or after August 14, 1946. The resulting figure shall be his maximum price for the item to that class of purchaser.

"Net delivered cost" means the amount he pays for the item not in excess of the supplier's maximum price delivered at his customary receiving point less all discounts allowed him except the discount for prompt payment.

(c) *Notification of new maximum price*. With the first delivery of any item of roasted coffee, roasted coffee compounds, soluble coffee or soluble coffee products in any case where a seller determines his maximum price pursuant to this section, he shall supply each wholesaler and retailer who purchases from him with written notice, reading as follows:

(Insert date)

NOTICE TO WHOLESALERS AND RETAILERS

Our OPA ceiling price for (describe item by kind, variety, grade, brand, style of pack, and container type and size) has been changed by the Office of Price Administration. We are authorized to inform you that if you are a wholesaler or retailer pricing this item under Maximum Price Regulation 421, 422 or 423, you must refigure your ceiling price for this item on the first delivery of it to you from your customary type of supplier with this notification. You must refigure your ceiling price following the rules in section 6 of Maximum Price Regulation No. 421, 422, 423, whichever is applicable to you.

For a period of 60 days after determining the new maximum price for the item, and with the first shipment after the 60-day period to each person who has not made a purchase within that time, each processor or repacker shall include in each case, carton, or other receptacle containing the item, the written notice set forth above, or securely attach it to the outside. However, for sales direct to any retailer, the seller may supply the notice by attaching it to, or stating it on, the invoice covering the shipment, instead of providing it with the goods.

This amendment shall become effective August 14, 1946.

SWISS FRANCS

APPRAISEMENT OF MERCHANDISE

AUGUST 13, 1946.

Reference is made to T. D. 51398, approved January 28, 1946, containing instructions relative to the conversion of Swiss francs for the purpose of assessing duties on merchandise imported into the United States from Switzerland.

It is understood that, in certain cases which involve importations of Swiss clocks, watches, or parts, movements, or cases thereof included within the provisions of T. D. 51398, the importers wish to amend the entered value pursuant to section 487 of the Tariff Act of 1930, and to request that appraisement of the merchandise be withheld pending decision in certain test cases, filed or to be filed, involving the issues in controversy, under the authority of T. D. 49888.

The Bureau is of the opinion that the provisions of T. D. 49888 may properly be applied to such importations of Swiss clocks, watches, or parts, movements, or cases thereof. Therefore appraisement may be withheld at the request of the importer in any case involving such importations, provided all the conditions of T. D. 49888 are satisfied.

The notice of appraisement provided for in § 17.6, Customs Regulations of 1943, shall be transmitted promptly in any case in which appraisement has been completed pursuant to the instructions contained in numbered paragraphs 1, 3 and 4 of T. D. 51398, in order that importers who so desire will be enabled to file appeals to reappraisal on issues raised by that Treasury decision. The first reason set out in the notice of appraisement shall be checked and shall be amended to read, "The merchandise has been appraised on the basis of free Swiss francs."

[Docket No. G-754]

NORTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

AUGUST 13, 1946.

Notice is hereby given that on July 15, 1946, Northern Natural Gas Company

(Applicant), a Delaware corporation having its principal place of business in the Aquila Court Building, Omaha, Nebraska, filed with the Federal Power Commission an application for a certificate of public convenience and necessity under section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of certain facilities hereinafter described.

The proposed facilities are to be constructed and operated in connection with Applicant's David City, Nebraska, branch transmission pipeline extending from its 24-inch main gas transmission pipeline at Beatrice compressor station and an integral part of a gas transmission system extending from Texas into and across Oklahoma, Kansas, Nebraska, Iowa, Minnesota and South Dakota. The proposed facilities are as follows:

(1) Approximately 12.27 miles of 8 $\frac{3}{8}$ -inch O.D. pipeline, from a point of interconnection with Applicant's 24-inch pipeline in the Southeast Quarter of Section 24, Township 6 North, Range 7 East, Gage County, Nebraska, and extending in a northwesterly direction to a point of connection with Applicant's 6-inch branch line in the Southeast Quarter of Section 30, Township 7 North, Range 6 East, Lancaster County, Nebraska.

(2) Approximately 11.5 miles of 6 $\frac{5}{8}$ -inch O. D. gas pipeline, from a point of connection with Applicant's 6-inch pipeline in the Northeast Quarter of Section 25, Township 15 North, Range 2 East, Butler County, Nebraska, and extending in a northeasterly direction and paralleling an existing 4-inch branch line of Applicant to a point of connection with Applicant's 6-inch branch line in the Northeast Quarter of Section 3, Township 16 North, Range 3 East, Butler County, Nebraska.

Applicant states that Item 1 is a replacement of 12.27 miles of 6 $\frac{5}{8}$ -inch O. D. lateral pipeline and that Item 2 is a relaying of 11.5 miles of the replaced 6 $\frac{5}{8}$ -inch O. D. pipeline described in Item 1 as a loop or parallel pipeline on the David City branch line system.

Applicant further states that the proposed service to be rendered by the Applicant is the delivery of increased volumes of natural gas to meet estimates of firm gas demands in the area served by the David City, Nebraska, branch line system for the 1946-47 heating season, together with demands for such gas in future years. In this connection the application recites estimates of maximum day demand for 1946 through 1950 heating seasons in the David City branch line area and the areas served by the branch line to be as follows: 1946, 7,497 Mcf; 1947, 8,416 Mcf; 1948, 9,166 Mcf; 1949, 10,134 Mcf; and 1950, 10,464 Mcf. Applicant further estimates that the sum total of firm gas and interruptible gas demands will be increased from a demand requirement of 948,031 Mcf in 1946 to 1,124,395 Mcf in 1947 and to 1,331,327 Mcf in 1950. Applicant states that the replacement, relaying and looping of the David City, Nebraska branch lateral lines will have the effect of increasing the delivery capacity of the David City branch line system to meet the increased

and increasing firm gas requirements of communities served from the said branch line system.

Applicant states that its gas reserves as of December 31, 1945, were estimated to approximate 2.9 trillion cubic feet on the measurement basis of 16.4 lbs. absolute pressure per square inch; that the requirements of gas for the year ended on said date approximated 81 billion cubic feet on the stated measurement basis; and that at such rate of consumption the indicated life of the Applicant's gas reserves will be approximately 35 years.

Applicant estimates that the total over-all capital cost of the proposed construction will be \$205,000.

Applicant states that no change in Applicant's FPC rate schedules on file with the Commission is contemplated in connection with the operation of facilities proposed in this application.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, as amended, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Northern Natural Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's Provisional Rules of practice and Regulations under the Natural Gas Act.

By the Commission.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Berger Manufacturing Division of Republic Steel Corporation, Canton, Ohio, may compute its adjusted ceiling prices for its sales of the fabricated steel office furniture and steel lockers which it manufactures, as follows:

highest price charged during that month to each class of purchaser increased by 17.7%.

(3) For an article not in its line during October 1941, but which has a properly established ceiling price, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

GENERAL ELECTRIC COMPANY

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 14 and 21 of Revised Maximum Price Regulation No. 86, it is ordered:

(a) This order establishes ceiling prices for sales of two models of ironing machines listed in subparagraphs (1) and (2) below, manufactured for sale by the General Electric Company, 1285 Boston Avenue, Bridgeport, Connecticut.

(1) For sales by distributors to dealers the ceiling prices are those set forth below:

Article and model:	Ceiling prices for sales by distributors to dealers
Electric ironing machine—AR 18	\$34.05
Electric ironing machine—AR 19	67.07

These prices are f. o. b. seller's warehouse. When, however, shipment is made directly from factory to dealer pursuant to the distributor's order the above prices are f. o. b. the dealer's city. In the case of sales by a distributor to a non-serving dealer the seller may add to the ceiling price shown above his customary differential or \$5.00 which ever is lower. For the purposes of this order a non-serving dealer is one who relies on the distributor to supply the consumer with delivery and any services necessary to fulfill the one year warranty on the ironing machines covered by this order. In all other respects these prices are subject to each seller's customary terms, discounts, allowances and other price differentials in effect on sales of similar articles.

(2) For sales by dealers to ultimate consumers the ceiling prices are those set forth below:

Article and model:	Ceiling prices for sales to ultimate consumers by dealers
Electric ironing machine—AR 18	\$49.95
Electric ironing machine—AR 19	99.95

These ceiling prices are subject to each seller's customary terms, discounts, allowance and other price differentials in effect on sales of similar articles.

(b) At the time of, or prior to, the first invoice to each distributor the manufacturer shall notify the distributor of the ceiling prices established by this order for his resales.

(c) All provisions of Revised Maximum Price Regulation No. 86 continue to apply to all sales and deliveries of machines covered by this order except to the extent that those provisions are modified by this order.

(d) Unless the context requires otherwise the definitions set forth in the various sections of Revised Maximum Price Regulation No. 86 apply to the terms used herein.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 14th day of August, 1946.

Issued this 14th day of August, 1946.

[RMPR 136, Order 671]

TRUCK TRAILERS

INCREASE OF MANUFACTURERS MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the provisions of section 31 of Revised Maximum Price Regulation 136, it is ordered:

(a) *Definition.* As used in this order, a "truck trailer" means a complete semi or full trailer having a cargo carrying capacity of five tons or more, and sold exclusively for the transportation of property.

(b) *Maximum prices.* (1) A manufacturer of truck trailers whose maximum price for each of his trailers in effect on June 30, 1946, was a "base date price" authorized under section 7 of Revised Maximum Price Regulation 136 or a "modified price" under section 8 of Revised Maximum Price Regulation 136 or a "formula price" under sections 9 and 10 of said regulation, is authorized to increase such a maximum price by a percentage not to exceed 8.6 per cent.

(2) A manufacturer who had maximum prices for truck trailers in effect on June 30, 1946, which were adjusted maximum prices received by individual adjustment under Revised Maximum Price Regulation 136 or under Supplementary Order 142 is authorized to charge for each truck trailer the maximum price received by individual adjustment or the maximum price he could have charged under subparagraph (1) above if he were qualified to price under that subparagraph.

(c) *Resellers' maximum prices—(1) List price items.* A reseller who sells on the basis of a manufacturer's list price is authorized to continue to sell on the

basis of the manufacturer's new list price. Manufacturers shall adjust resale list prices in effect on June 30, 1946 to reflect percentage wise the increase granted the manufacturer under this order. The adjustment shall be made by multiplying the previously established suggested resale list prices by a percentage to be determined by dividing the manufacturer's applicable adjusted net maximum price by his net maximum price prior to the adjustment.

(2) *Non-list price items.* In the case of maximum prices for non-list sales by resellers, the manufacturer shall notify resellers of the dollar and cents amounts of adjustments in his (the manufacturer's) maximum non-list prices. Resellers shall determine adjusted maximum non-list prices by increasing the maximum price, exclusive of incidental charges, which were in effect to a purchaser for a trailer on June 30, 1946, by the same percentage amount by which his current invoice cost of such item, exclusive of incidental charges, exceeds such invoice cost for the same trailer last charged to him prior to July 1, 1946. Incidental charges are the charges the reseller pays for delivery of the trailer from the factory, taxes and factory handling and delivery expense, if any.

(d) This order may be amended or revoked by the Administrator at any time.

This order shall be effective August 17, 1946.

Issued this 15th day of August 1946.

Administrator.

[Region II Basic Order 1 Under Rev. Gen. Order 65]

LUMBER PRODUCTS IN NEW YORK REGION

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of the Office of Price Administration, Region II, by the Emergency Price Control Act of 1942 as amended, and by Revised General Order No. 65, it is hereby ordered:

(a) *What this order does.* This basic order puts into one document the provisions which will be common to all fu-

ture orders establishing flat (dollars and cents) maximum prices for sales and deliveries of lumber products for which maximum prices are established under Second Revised Maximum Price Regulation 215, out of distribution yard stock by any lumber distribution yard located in any area or locality in Region II, such orders to be issued by the New York Regional Office, Region II, or by District Directors within Region II, pursuant to the authority contained in Revised General Order 65. The orders to be issued under this basic order are referred to herein, as adopting orders, and when issued, will expressly adopt the provisions of this basic order. The provisions of Second Revised Maximum Price Regulation 215, remain unaffected by this basic order, unless and until adopting orders are issued under this basic order. When such adopting orders are issued, the maximum prices fixed by such adopting orders will supersede the maximum prices or pricing methods previously fixed by Second Revised Maximum Price Regulation 215, as to the commodities covered by such adopting order on sales by yards located in the area covered by such adopting order. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of Second Revised Maximum Price Regulation 215 applicable to the commodity or commodities covered by adopting orders shall apply to sales covered by such adopting orders.

(b) *Transactions covered by this order.* This order covers all sales and deliveries of lumber products for which maximum prices are established under Second Revised Maximum Price Regulation 215, out of distribution yard stock by any lumber distribution yard located in any area or locality in Region II.

(c) *Relationship of this order and all adopting orders under this basic order to Second Revised Maximum Price Regulation 215.* Adopting orders issued under this basic order, fixing maximum prices for sales of commodities named therein in areas described therein, shall supersede maximum prices or pricing methods previously established under Second Revised Maximum Price Regulation 215. All other provisions of Second Revised Maximum Price Regulation 215, shall continue to apply to sales covered by this order and by such adopting orders, except as provided in said orders.

(d) *Posting of maximum prices.* Every seller making sales or offering to make sales covered by any adopting order under this basic order, must obtain at least two copies of such adopting order, and of the appendices, schedules, or price tables contained therein or annexed thereto. One copy of such appendices, schedules or price tables, must be posted and maintained in a prominent place in the office of the distribution yard making the sale, so that it may easily be read by any purchaser, and one copy of such adopting order, including the appendices, schedules or price tables together with a copy of this basic order, shall be kept and made available in said office for inspection by any person.

(e) *Invoicing.* Every person making a sale covered by any adopting order, issued under this basic order, must provide

the purchaser, whether he requests it or not, with an invoice, sales slip, or other evidence of sale, of which an exact copy shall be retained by the seller so long as the Emergency Price Control Act of 1942 remains in effect. Such invoice or sales slip shall contain at least the following:

1. Date of sale.
2. Name and address of seller.
3. Name and address of purchaser.
4. Complete description of items sold, including quantity, grade, length, size condition, special treatment, workings, or other features which may affect the price.
5. Charges for extras, workings or delivery listed separately.
6. The total price.

(f) *Maximum prices for lumber improperly invoiced.* Where an invoice or sales slip for a sale covered by any adopting order under this basic order, does not contain a sufficiently complete description to identify the exact nature, type, grade, length, size or condition of the commodity, or any special treatment, workings, or other feature affecting the price and thus determine the maximum price fixed by such adopting order, the maximum price applicable to such sale shall be the lowest maximum price which can be computed under such adopting order in accordance with the incomplete description. In the absence of any description, the maximum price shall be the lowest maximum price fixed by the schedules or price tables of the adopting order.

(g) *Records.* Each seller making sales covered by any adopting order issued under this basic order shall keep, in addition to the copies of invoices, sales slips, or other evidences of sale as heretofore set forth, all records required by Second Revised Maximum Price Regulation 215, and make the same available for inspection by representatives of the Office of Price Administration so long as the Emergency Price Control Act of 1942 as amended, remains in effect.

(h) This basic order may be revised, amended, revoked, or modified at any time by the Office of Price Administration.

This order shall become effective immediately.

Issued this 14th day of June 1946.

JAMES L. MEADER,
Regional Administrator.

CITIES SERVICE POWER & LIGHT CO. AND KNOXVILLE GAS CO.

MEMORANDUM, OPINION, AND ORDER GRANTING DECLARATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 13th day of August 1946.

Cities Service Power & Light Company (Power & Light), a registered holding company, and The Knoxville Gas Company (Knoxville), its subsidiary, has filed an amendment in this matter, pursuant to sections 12 (c) and 12 (f) of the Public Utility Holding Company Act of 1935 (the act) and Rules U-42 and U-44 promulgated thereunder, requesting an order authorizing the dissolution of Knoxville and approving the distribution of its only remaining asset, consisting of \$87,269 in cash, to its parent, Power &

Light. Power & Light proposes to use such proceeds in partial prepayment of its Bank Loan Notes in accordance with the terms thereof.

Knoxville was engaged in the manufacture and distribution of gas in and about the city of Knoxville, Tennessee, until July 30, 1945, when it sold to the city of Knoxville all its assets (except its cash and ten shares of Electric Advisers, Inc. common stock), subject to current liabilities, for a base price of \$450,000. The proceeds of the sale amounted to \$458,927 after closing adjustments. Subsequently, Knoxville disposed of its interest in Electric Advisers, Inc. for \$1,000 in cash.

At July 31, 1945, Power & Light owned \$1,168,000 (100%) of Knoxville's 6% demand notes, 355 shares (40.9%) of its 6% preferred stock, \$100 par value per share, and 3,000 shares (100%) of its common stock, 513 shares (59.1%) of the 6% preferred stock were held by public owners. Dividend arrears on the preferred stock amounted to \$85,064 at that date.

On May 1, 1945, a representative action was instituted in the United States District Court for the Northern Division of the Eastern District of Tennessee, on behalf of the public preferred stockholders against Knoxville, Power & Light and others (Alphonse Salomone, Plaintiff, vs. The Knoxville Gas Company, et al., Defendants, Civil Action No. 667), seeking, among other things, subordination of Power & Light's investment in Knoxville and participation in the distribution of the assets of Knoxville on the part of public preferred stockholders. The Court, by decree dated June 28, 1945, provided that the proceeds of the sale of Knoxville be paid into Court. Knoxville also deposited with the Court its remaining cash funds, making a total of \$570,867 so deposited.

On October 4, 1945, the Court entered a decree, pursuant to the agreement of the parties, directing the Clerk of the Court to pay over to Knoxville the sum of \$420,867 and to retain the sum of \$150,000 which sum was estimated to be sufficient to pay the maximum amount of the claim, if any, of the public holders of 513 shares of preferred stock.

On March 8, 1946, the Commission approved the request of Power & Light and Knoxville for an interim order (Holding Company Act Release No. 6459) permitting Knoxville to pay over to Power & Light the \$420,867 released by the Court to Knoxville but reserved jurisdiction with respect to a proposed final distribution of Knoxville's assets and its ultimate dissolution, pending determination of the claims asserted on behalf of the public holders of the preferred stock.

Since the Commission entered its interim order on March 8, 1946 in this proceeding, authorizing the payment of \$420,867 by Knoxville on account of its indebtedness to Power & Light, a settlement of the representative action on behalf of the public preferred stockholders of Knoxville was approved by decree of the District Court entered on May 6, 1946. The decree provided for payment of \$25,000, of which \$5,000 was for attorney's fees of the plaintiff, to the public preferred stockholders and payment

of costs in full settlement of all claims on behalf of the public preferred stockholders. The decree directed the Clerk of the Court to pay the funds remaining in his hands, after the deduction of the sum of \$25,000 and the costs in the case, to the defendant, Knoxville.

Knoxville, after paying its remaining obligations, except those to Power & Light, including fees and expenses of its own attorneys in the above action, has remaining the sum of \$87,269, which constitutes its entire assets.

Power & Light and Knoxville now propose the dissolution of Knoxville, the distribution of Knoxville's only remaining asset to Power & Light, and final dissolution of Knoxville and the surrender by Power & Light, for retirement, of all the securities of Knoxville held by Power & Light.

It is stated that the estimated attorneys fees and expenses in connection with this proposal are \$3,500.

Power & Light, by order dated August 17, 1943 (Cities Service Power & Light Company, Holding Company Act Release No. 4489), has been directed, among other things, to dispose of its interest in Knoxville. The proposed transactions will effectuate such disposition.

We have considered the proposed transactions under the applicable provisions of the act and the rules promulgated thereunder and make no adverse findings with respect thereto, but will reserve jurisdiction respecting the accounting entries to be made by Power & Light in recording such transactions.

It is therefore ordered, That the amended declaration be, and the same hereby is, granted forthwith, subject to the reservation of jurisdiction noted above and to the terms and conditions contained in Rule U-24.

Secretary.
