5. a. Does the school curriculum include a study of actual current problems which exist in the community? Yes

b. In what subject fields are these problems studied? Social studies

c. List two community problems now being studied by the school. Land reform

B. COMMENTS AND SUGGESTIONS:

Although the faculty makes the claims as stated in paragraph 2, there is no evidence to support their claims. Refuse heaps were scattered over the school ground, one benjo, which is no longer used, was caved in, and in general the school presented an extremely unsightly appearance and unhealthy atmosphere. The faculty was urged to go all out in their efforts to clean up their school.

3-c. Play-ground for children. Economic aids to the school.

PROGRESS REPORT ON ADULT SCHOOLS

Iwate Prefecture

Four Cities - - Kamaishi, Miyako, Morioka and Ichinoseki - - are preparing for establishment of the adult school type of program. Surveys are being conducted in the four cities. Kamaishi is most positive among the four. They have sent people to observe the adult schools in the Kanto Region.

From Mr. Sasaki,
Social Education Section Chief,
Iwate Ken B/E

****

Akita Prefecture

Akita City is planning for an Adult School in this school year.
During April the city had a conference for studying the Adult School plan. It was attended by the city education officials, educators, organization representatives and influential persons in the city.
They are now engaging in a public opinion survey in each school district.

From Mr. Ohira,
Social Education Section
Akita Ken B/E

****

Aomori Prefecture

Hirosaki City is reexamining their original plans made during January. They will start from the new stand point because new mayor was elected. The city council shall decide the budget after June. (Former council passed just the temporary budget draft for April and May.)

From Mr. Fujisawa,
Social Education Section Chief,
Hirosaki City

No information has been received from Aomori City or Hachinohe.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

Yamagata Prefecture

Tsuruoka City has finished all the preparations for opening an Adult School program.

Opening Date - Middle of May
No. of Terms - 2 times a year.
Subjects - About 12 or 15

Yamagata City has finished the survey work about the Adult School. It will open at the end of June. It was delayed by the election of Mayor and City Assembly-men.

From Mr. Ito
Social Education Section Chief,
Yamagata B/Education.

Citizens' University To Be Opened In Wakamatsu.
Constitution, Infant Nursing To Be Taught. (complete translation)

Wakamatsu city, Fukushima Pref. The Wakamatsu Municipality will shortly set up Citizens' University to be opened for educating adults at large. This institution is aimed at "elevating culture and education" and "lifting up their desire to work for more productivity" in an easy way choosing and learning optional subjects for those citizens who are busy working in their working places in the daytime or engaging in home jobs. Tuition fee is free, entrance examination not necessary; it's surely a happy institution to study in: Let us have a glimpse of the curriculum.

The comprehensive subjects slated follow; general culture: Easy comment on constitution, civil law, labor laws, comment on current topics, politics, economics, literature, fine arts appreciating, religion, grownups' "community course", culture and sanitation. Business guidance: English conversation, abacus doing, book-keeping, short-hand writing, mimeography, repairing of electric appliances, radio sets and watches; car-driving, management of stores.
Home science: Tailoring in foreign and Japanese way, handi-craft and knitting, infant nursing, birth control, dietitics, dwelling and kitchen installation, cooking, etiquette and tea ceremony, flower arrangement, home-nursing, fashion and make-up, household book-keeping.
Recreation and hobbies: Square dance, music, movie, "Go and Chess," photography, angling, "Utai", appreciation of Japanese ballet, rudimental ballet, appreciation of theatrical plays, choice of books, home horticulture, playing of foreign musical instruments.

Meanwhile, the city authorities concerned have decided to look into citizens' opinions as to the details of the program by means of circulating public opinion survey questionnaire among the citizens.

Tohoku's No. 1 Adult School Opens. (Full translation)

Koriyama, Fukushima Pref. - An adult school was opened from 15 in Koriyama which can be held as Tohoku's No. 1 such type school in its having conducive curriculum; viz., subjects comprised therein are ranging from "cultural ones such as law, literature and comment on current topics" to "those deemed necessary for community members such as "car-driving, shorthand writing, abacus doing" and what not; period of the course is slated to last from Apr. 15th through June 24th (viz., 10 weeks) in every week-day night-school plan, the sites being the CPH and Hozan PS.

Already averagely 500 pupils including bald headed middle agers are zealously attending the school every night; So far citizens tended to welcome well-noted lecturers procured from outside the city; whereas, this time, lecturers, with an exception of one or two, were almost all picked out from among the city circles, and they are being warmly welcomed. This state of things now stands was nevery found among pre-war days; maybe, it symbolizes the mind of post-war citizens who are seen seeking after something to feed up their brain. In this respect, Koriyama city can boast of its having a hope of creating "cultural Koriyama community" and this chant phrase will never die away as a mere vain sutra.

So far the political circles in this city have been smeared with not a small number of scandals. When I see genuine-hearter young people studying at their desks in such type lyceum enthusiastically lending no ear to outside election campaign fuss, I cannot help cherishing such an idea that time is approaching when the streets are cleared of these ugly shadows and the seeds of culture now being sewed will be reared up to see their bumper crops.
