<sup>1</sup> There is issued annually by the Navy Department, as of Jan. 1, the "Register of Commissioned and Warrant Officers of the United States Navy and Marine Corps." It gives complete information concerning the rank, service, place and date of birth, and date of entry into the service of every commissioned and warrant officer of the Navy and Marine Corps on both the active and retired lists. Pay tables are included, and a name index closes the Register. In addition, there is issued every quarter a Navy Directory which lists alphabetically "Officers of the United States Navy and Marine Corps; also including officers of the U. S. Naval Reserve (Active), Marine Corps Reserve (Active), and Foreign Officers Serving with the Navy." This Directory gives complete information concerning the organization of the Navy Department and of the Naval Establishment, including ships and shore stations. Copies of the Register can be secured by purchase, at \$1.25 a copy, from the Superintendent of Public Documents, Washington, D. C., and copies of the Directory at 25 cents a copy.

<sup>2</sup> The legal residence of civilian officials and employees only is given.

<sup>8</sup> Freedmen's Hospital is an institution placed by law under the supervision of the Secretary of the Interior. It is maintained by receipts from the District of Columbia for indigent residents, appropriations by the Federal Government, and by receipts from pay patients. The cost of construction of buildings has been borne in part by the Federal Government.

<sup>9</sup> Howard University is not a part of the Interior Department: the Secretary of the Interior merely supervises the expenditure of appropriations made by Congress for the institution. University funds are expended under direction of its officers.

<sup>10</sup> Serves without compensation.

<sup>11</sup> This institution is managed by a board of trustees, but certain duties in connection with the administration are under the supervision of the Secretary of the Interior. (See p. 181.)

<sup>12</sup> The governors and secretaries of the Territories are presidential appointees. The reports of the governors are made to the Secretary of the Interior. The organization of the courts of Alaska, Hawaii, and Virgin Islands are shown on pp. 187, 189, 196. (See under U. S. District Courts.)

NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS

(Corrected to Aug. 13, 1936)

The National Advisory Committee for Aeronautics was established by act of Congress approved March 3, 1915 (U. S. C., title 50, sec. 151), and the membership increased from 12 to 15 members by act approved March 2, 1929 (U. S. C., Supp. V, title 50, sec. 151 (a)). Its membership is appointed by the President and consists of two representatives each of the War and Navy Departments from the offices in charge of military and naval aeronautics, one representative each of the Smithsonian Institution, the United States Weather Bureau, and the United States National Bureau of Standards, together with eight additional persons (including a representative of the Bureau of Air Commerce) who are "acquainted with the needs of aeronautical science, either civil or military, or skilled in aeronautical engineering or its allied sciences." All the members, as such, serve without compensation. The law provides that this committee shall "supervise and direct the scientific study of the problems of flight, with a view to their practical solution, \* \* \*" and also "direct and conduct research and experiment in aeronautics." Under the rules and regulations formulated by the committee and approved by the President, there are technical subcommittees organized along lines similar to the main committee and including specially appointed representatives of the War, Navy, and Commerce air organizations, with all members serving as such without compensation. The major subcommittees are those dealing with aerodynamics, power plants for aircraft, and materials for aircraft. The aeronautical research needs of the War, Navy, and Commerce Departments are referred to and coordinated by these subcommittees, and programs of fundamental research as agreed upon to meet the needs of all governmental agencies are executed under the centralized and direct control of the main committee at its research station, known as the Langley Memorial Aeronautical Laboratory, at Langley Field, Va. The committee also conducts in Washington the Office of Aeronautical Intelligence, for the collection, classification, and dissemination of scientific and technical data on aeronautics obtained from all parts of the world, and passes upon the merits of aeronautical inventions and designs submitted to any branch of the Government.

The Pan American Union (formerly International Bureau of the American Republics) is the official international organization of all the republics of the Western Hemisphere, founded and maintained by them for the purpose of exchanging mutually useful information and fostering commerce, intercourse, friendship, and peace. It is supported through their joint contributions, each nation annually paying that part of the budget of expenses which its population bears to the total population of all the republics. Its general control is vested in a governing board made up of the representatives in Washington of all the Latin-American governments and the Secretary of State of the United States. It is strictly international in its scope, purpose, and control, and each nation has equal authority in its administration. The Pan American Union occupies and owns a monumental building on extensive grounds in Washington, D. C., overlooking the White House park.

The Fifth International American Conference, held in Chile in 1923, changed the name to Pan American Sanitary Bureau. It was established upon a treaty basis by the Seventh Pan American Sanitary Conference, which met in Habana, Cuba, in 1924. The Bureau works in close cooperation with the Pan American Union, health authorities of the American Republics and international sanitary bodies and acts as a clearing house for sanitary information and as a central coordinating sanitary agency for the Western Hemisphere. The Bureau publishes a monthly bulletin containing sections in Spanish, Portuguese, and French, as well as other publications in those languages, and occasionally in English, copies of which can be had on application.

The salaries of the Director, Dr. Hugh S. Cumming, Surgeon General, Retired, Medical Director Bolivar J. Lloyd, and Traveling Representatives John D. Long, M. A. Columbia Institution for the Deaf is a corporation established in 1857 by private enterprise. It is now maintained by direct appropriations by Congress, by tuition fees, and by endowment. The act of Congress in 1857 incorporating the institution allowed \$150 per annum from the United States Treasury for each indigent pupil from the District of Columbia. In 1858 Congress granted \$3,000 a year for five years for salaries and incidental expenses of the institution, and authorized free admission of deaf and dumb or blind children of men in the military or naval service of the United States. In 1865 Congress provided for the transfer of the blind children and removed the words "and the blind" from the corporate name of the institution. In 1864 Congress authorized the institution to confer collegiate degrees. With this new departure Congress made a considerable increase in its annual grants and provided that a limited number of students be admitted to the collegiate department from the several States and Territories free of charge. The number of students thus admitted free was at first 10; the number has been increased by acts of Congress until now it is 145. In 1887 the college was opened to young women and in 1891 a department for the training of hearing teachers of the deaf was established.
