ANNOUNCEMENTS FOR 1912-1913

Issued Four Times a Year
Entered as Second-Class Matter at the Post Office in
Boone, N. C.

## Calendar for Tenth Year

1912.

August 20—Fall Term begins.

September 21—Literary Societies' Anniversary.

October .. - Mountain Day.

November 30—Social Evening.

December 21—Fall Term closes.

December 31—Spring Term begins.

## 1913.

January 25—Programme by piano students.

February 22—Exercises for Washington's Birthday.

March 22—Special exercises.

April 28—Field Day.

May 2—Spring Term closes.

## **Board of Trustees**

State Superintendent J. Y. Joyner, ex officio.

W. C. Fields, Sparta, Alleghany County.

A. S. Carson, Sparta, Alleghany County.

J. D. Thomas, Creston, Ashe County.

T. C. Bowie, Jefferson, Ashe County.

Adolphus Taylor, Maple Springs, Wilkes County.

W. P. Horton, Wilkesboro, Wilkes County.

F. P. Moore, Globe, Caldwell County.

J. M. Bernhardt, Lenoir, Caldwell County.

Mrs. Moses H. Cone, Blowing Rock, Watauga County.

E. F. Lovill, Boone, Watauga County.

J. R. Pritchard, Elk Park, Mitchell County.

T. A. Love, Saginaw, Mitchell County.

J. B. Ray, Burnsville, Yancey County.

E. F. Watson, Burnsville, Yancey County.

T. P. Adams, Silverstone.

C. D. Taylor, Valle Crucis.

Thomas L. Day, Blowing Rock.

M. B. Blackburn, Boone.

B. J. Councill, Boone.

E. S. Coffey, Boone.

## **Executive Committee**

E. F. Lovill, Chairman; J. R. Pritchard, Mrs. Moses H. Cone, T. C. Bowie, and F. P. Moore.

## Faculty

#### BLANFORD B. DOUGHERTY,

Superintendent.

B.S., Carson-Newman; Ph.B., University of North Carolina.

#### DAUPHIN D. DOUGHERTY,

Principal and Teacher of Science.

A.B., Wake Forest.

#### ROY M. BROWN,

Teacher of English.

A.B., University of North Carolina.

#### J. M. DOWNUM.

Teacher of Latin.

A.B., Trinity College.

#### ISAAC G. GREER,

Teacher of History.

Student in University of North Carolina.

#### MRS. MARY G. REITZEL,

Preparatory Department and care of women in Lovill Home.

Student in Elon College.

#### CARRIE M. MICHAEL,

Instrumental Music.

Mus.B., Oxford College; Cincinnati College of Music.

#### REBECCA SENTER.

Teacher of Mathematics.

Student in Peabody Normal College.

#### ANNIE HAWKINS.

Second Preparatory Department.

Student in State Normal College, Greensboro, N. C.

## BESSIE McPHERSON, Teacher of Modern Languages.

A.B., Elon College.

MATTIE L. SLIGH,

Domestic Science

Graduate of Normal and Collegiate Institute, Asheville, N. C.

MRS. EMMA H. MOORE, Matron Lovill Home.

LONA MORETZ,
Matron Newland Hall.

The following are added for the Summer Term:

E. E. RANDOLPH,

Ph.D., University of North Carolina; Professor of Latin in Erskine College, S. C.

MRS. E. E. RANDOLPH,

Vocal Music.

Cincinnati Conservatory of Music.

JOSEPHINE PRITCHARD,

Drawing.

New York Art School.

MARY ELEANOR PRITCHARD,

Ph.B., Elon College.

CARRIE BOYD,

Ph.B., Elon College.

## DORA ATKINSON, Supervisor of Model School. State Normal and Industrial College.

## JOSEPH ROBINSON,

A.M., Harvard; Professor of English in Carson and Newman College, Tenn.

SALLIE KIRBY,

Winthrop College; teacher in Goldsboro School.

JENNIE TAYLOR,
Matron Lovill Home.

Digitized by the Internet Archive in 2013

## General Information

The Appalachian Training School was established by the North Carolina Legislature during the session of 1903.

A bill authorizing the school was introduced in the lower house by Hon. W. C. Newland, of Caldwell County. Little opposition developed against the measure until it reached the Senate Committee on Education and was reported unfavorably by a majority vote. Senator R. B. White, of Franklin County, made a minority report. By the help of Senators Hoey, of Cleveland County, and Justice, of McDowell County, Senator White secured its passage in the Senate.

The act provided that the trustees from Alleghany, Ashe, Wilkes, Watauga, Caldwell, Mitchell, Yancey and the County Superintendents of said counties, should meet at Blowing Rock within the month of May and select a location and begin the school. The meeting was called and presided over by State Superintendent J. Y. Joyner. Boone was selected as the location and the free use of Watauga Academy secured until a building could be erected.

#### Location

Boone is in Watauga County, in the northwestern part of North Carolina. There are mountains in every direction—Blue Ridge on east, Grandfather on south, Stone Mountain on west and Elk Knob on the north. The town is 3,333 feet above tide water. This elevation insures an excellent summer climate. Many enjoy the climate in winter better than the warmer and rainy weather of lower sections. There are few cases of serious sickness. About 400 quiet, industrious people live here. They welcome students into their homes and appreciate their presence in their social circles. Merchandise is sold at reasonable prices. Mails reach here from all the adjoining counties. A good telephone system connects

us with all the important business towns and many country places. Good country roads lead to the railway stations. We are 33 miles from Lenoir, 40 miles from Wilkesboro, 23 miles from Elk Park, and 25 miles from Mountain City, Tenn

#### Grounds

The campus contains seven acres of land, covered for the most part with young white pines. Little has been done to beautify the grounds. The property joins the town boundary and lies between Boone and Blowing Rock turnpike and Hardin street.

#### Lands

The school campus contains seven acres. The school owns six acres on the south side of the Boone and Blowing Rock turnpike adjoining the campus. The Newland Hall is built on a six-acre lot; the McNeil Cottage lot contains three acres. The Coffey farm adjoining the Newland Hall lot contains nearly two hundred acres of pasture, forest, and orchard lands. The Edminsten farm on New River, two miles east, has sixty acres of meadow land and one hundred and forty acres of timber land. These farms aid much towards keeping down expenses of board.

## Buildings

Watauga Academy was built in 1899 by the people of Watauga County and generous friends elsewhere. On the first floor are three recitation rooms. On the second floor, a printing office, library room, two recitation rooms, and a teachers' room. The building is of wood.

The Main Building is a two-story brick structure 96 feet long and 64 feet wide. There are three recitation rooms, an office, and a museum on the first floor. On the second floor, two music rooms and an auditorium.

The Lovill Home is a frame structure used for a woman's boarding house. There are accommodations for eighty-five women. There are two society halls, two sitting rooms, and two study rooms in the building.

Newland Hall accommodates forty young men. There are sitting rooms and a study room in the building.

The McNeil Cottage has rooms for about ten girls who board themselves.

Science Hall, containing a laboratory, lecture room, and four recitation rooms on first floor, and an Alumni Hall and four recitation rooms on second floor. This is a modern brick structure with closets and bath rooms and will be heated by jacket stoves. In addition to these buildings the school has control over two boarding houses and four cottages.

## Equipment

The recitation rooms are furnished with comfortable desks and seats. There are maps, globes, and charts where needed. A small collection of rocks, minerals, Indian relics, shells, marine animals, etc., is being made. A compound microscope with four dozen sections of the human body help in the study of physiology. The physical apparatus consists of thermometers, barometers, a hygrometer, an air pump, electric motors, magnets, electro-magnets, telescope, and various other things.

## Library

Several friends have donated books to the library. The Church Periodical Club has given a number of boxes of books and magazines and a small number have been purchased. There are about four thousand volumes accessible to students. Thirty of the leading magazines and papers are received. The library is opened four hours each school day. Students can borrow books under certain rules.

#### Games

For young men there is an excellent ball ground. No games are allowed during the regular school hours. The baseball team can not leave the neighborhood to play match games without permission from the faculty.

The young women will in the near future have grounds for croquet, tennis, and other games.

Students are urged to be in the open air as much as possible. There are many interesting walks near the school. Young women do not leave the school grounds for walks without a teacher.

## A Regulation

Young women and young men are not expected to board at the same places or to associate together on any occasion. There may be a few times when this regulation is suspended. At these times the suspension is announced at the chapel.

#### Government

Students who enter the school are supposed to be able to govern themselves and act with propriety. Recognizing this fact there are but few rules and these are easily obeyed. When necessary the faculty will reprimend or punish students. Seldom has it been necessary to use harsh means.

#### Visiting

No student is expected to leave the neighborhood without permission. Young women must show written permission from their parents before they will be allowed to spend the night from their regular boarding places.

Requests for permission to be absent must be granted by some member of the faculty before a student can leave the neighborhood.

### Religious Influences

The morning exercises are opened by reading the Scriptures and prayer. The young women have a prayer meeting on Wednesday evenings. The young men meet Sunday afternoons and hold religious exercises.

The pastors of the town churches often open the school and give talks on religious subjects. Students are requested to attend Sunday School and preaching in the different churches.

#### Literary Societies

The young men have two well-organized and conducted literary societies, the Watauga and the Appalachian. These societies aid very much in training their members in debate, declamation, and composition work. They have weekly sessions in their halls.

There are also two societies for young women, the Euterpean and the Calliopean. The sessions of these societies are held in their halls in the Lovill Home. The culture these four societies give their members is highly appreciated by friends of the school.

The following rules apply to each society.

- 1. None but members can attend.
- 2. No one can join until they have been in school two weeks.
- 3. The membership of each of the young men's society must be less than three-fifths of the young men enrolled.
  - 4. Rule 3 applies to the young women's society.
- 5. Members must get signed excuses from a member of the faculty for all absences.
- 6. Every student is requested to join one of the societies. In addition to the above rules the following were added during the year:
  - 1. All the societies shall meet on Saturday evening, one

hour after the supper bell rings. This meeting shall be for literary exercises only.

- 2. Regular or call meetings for business may be held on any afternoon after school.
- 3. That in as much as the school has furnished halls, it is thought wise that in the future each society furnish its own wood and lights, and care for its hall.
- 4. Members of the faculty will from time to time visit the literary meetings of the societies for the purpose of rendering them aid in their work.
- 5. No teacher shall take part in any debate or literary programme.
- 6. Each society shall have a representative whose name shall be reported to the superintendent on whom the faculty may call at any time for information concerning the society and its work.
- 7. The sessions of the societies must not interfere with the retiring hour at either Lovill Home or Newland Hall.

#### **Public School Teachers**

Special attention is given to public school teachers and those preparing to teach. Courses will be given to suit their needs. No tuition will be charged in the courses for teachers. At the close of the summer term an examination is held on each study in the public school course and certificates given to those who pass the examination. These certificates are issued by the County Superintendent of Watauga County and are recognized by the Superintendents of many counties.

In order to receive free tuition the following pledge must be signed:

I, ....., am .. years old. My object in obtaining free tuition in the Appalachian Training School, Boone, N. C., is to qualify myself for teaching; and I hereby promise to teach after leaving it, at least two years in the

public schools of North Carolina, if I have opportunity. I further promise to attend regularly and faithfully upon the exercises required and to conform cheerfully to the rules that may be prescribed. Should I for any reason fail to teach, as agreed, I promise to refund to the school the amount of tuition which I have received.

Applicant must be 16 years of age and of irreproachable character.

When the teacher teaches the two years a report, signed by the county superintendent in the county or counties where the school was taught, should be sent to the Superintendent.

#### School Year

The year is divided into three terms: the fall term begins in August and continues four and one-half months; the spring term opens after the Christmas holidays and continues four and one-half months, and the summer term is taught during June and July.

## The School Day

The school opens at 8:45 for five days during the week. The day is divided into ten periods of thirty minutes each. During the fall and summer term a noon recess of one hour is given. No session is held on Monday.

#### Recitations

- 1. Students who miss recitations will be held responsible for them. The teacher in charge of the class will require the student to prepare and recite the missed recitations. If this is not done within one week something will be taken from the grade of the student.
- 2. No student will be passed on a subject who has missed more than one-fourth of the recitations during any month, unless he is able to pass an examination on the work gone over during the month.

#### Examinations

At the close of each term examinations are held on each study pursued during the term. The grading includes the class work, the deportment, and the examination. Figures are used in making the report as to the standing of a student in a certain branch as follows: A figure 1, 2, 3, or 4 indicates that the student passes the work gone over; a figure 5 indicates that a new examination must be taken; and a figure 6 indicates that the work has not been satisfactory and must be gone over again.

A record of the standing of each pupil is kept in the office.

#### Tuition

Public school teachers are charged no tuition for the teachers' course. In the advanced grades arrangements will be made to give work in teaching to pay tuition. Those who are not teachers will pay a small tuition fee according to the work taken.

#### Fees

Every student on registering pays a fee of one dollar. No other fees are charged by the school.

## Scholarships

Through the kindness of the authorities a scholarship granting free tuition is given by the University of North Carolina, and by Trinity College. These scholarships are given to the most worthy students.

#### **Board**

All young women are expected to board in Lovill Home. If for any good reason another boarding place is desired, permission must be obtained from the faculty. Young men may choose their boarding places.

It is earnestly requested that the boarding house keepers will coöperate with the faculty in helping to control their

boarders and in helping to carry out the few simple regulations that are so necessary for a co-educational institution.

The price of board at Lovill Home will remain \$6.50 when paid in advance. The other boarding houses charge \$10.00 per month. The charges in private families will be from \$7.50 to \$10.00 per month.

Young men at Lovill Home must furnish their own bedding. This will include for each, a pillow, sheet, blanket, and quilt. Also towels and napkins. There will be required from each student a small amount of dining room work.

There are many simple regulations at the Home, which are rigidly enforced. These regulations are easily obeyed.

Seven dollars per month will be charged for board in Newland Hall. Each young man must furnish a pillow, a sheet, a blanket, and a quilt. Students keep their rooms and do some extra sweeping. More will be charged if not paid in advance.

Young men desiring to board themselves can usually rent a room and do their own work.

A small number of young women can find rooms to board themselves in the cottage near the Lovill Home.

## Expenses

For the fall term or the spring term the necessary expenses are about as follows:

### FOR A YOUNG MAN:

Board in Newland Hall	\$31.50 1.00
Books (estimated)	4.00
Incidentals	2.00
	\$38.50
Tuition—For those who pay	10.00
Total cost for 4½ months	\$48.50

## FOR A YOUNG WOMAN:

Books (estimated) 4	.00
Tuition—For those who pay	

#### Text-Books

Below is given the name of the author and the cost of the text-books for each year:

## FIRST YEAR.

Webster-Cooley, Book II	80 70 50 60 15
SECOND YEAR. \$3.5	25
Lippincott's Elementary Algebra \$0.8	50
Rolfe and Dennison's Junior Latin 1.2	25
Overton's Advanced Physiology	80
Gannett, Garrison and Houston's Commercial Geography 1.2	25
Benson and Glenn's Speller and Definer	30
THIRD YEAR. \$4,7	10
Slaught and Lennes' Advanced Algebra \$0.6	60
Bennett's Cicero 1.0	00
Lewis's Second Manual	90
Colton's Zoology 1.0	00
Young's Lessons in Astronomy 1.2	20
Myer's General History 1.5	50
High School Speller	40

\$6.60

#### FOURTH YEAR.

Wentworth's Plane and Solid Geometry	\$1.25
Bennett's Virgil	1.20
Heydrick's One Year Course in Literature	1.00
Gorton's Elementary Physics	1.00
Painter's History of Education	1.25
Hamilton's Recitation	1.00
Alderman's History of North Carolina	.25
Wentworth's Plane Trigonometry	.90
Bowen's English Words	.20
Bergen's Botany	1.00
Seeman's Mythology	.60

\$9.65

A course in Teller and Brown's Business Methods was given in the first year.

Harris's German Lessons was given instead of Latin to a section of the first year.

A French class used Edgren's Grammar.

Hewett's Psychology was given twice a week in the second year.

No books were used in the Domestic Science and the Domestic Arts courses.

Supplementary Literature will, for the most part, be taken from the "Riverside Literature Series."

These books can be purchased from the school.

Books for the preparatory department can be purchased from the store of M. B. Blackburn.

Often second-hand books can be purchased from the students.

In the special departments the teachers arrange for purchase of books.

The recently adopted text-books will be used during the next year in the preparatory department.

# Course of Study ADVANCED DEPARTMENT

#### Mathematics

First Year—Fall Term.

Beginning with Powers and Roots in Milne's Progressive Arithmetic, Book III, the class will be taught the most important subjects through the book during the fall term. Special attention will be given to analysis. Little work will be done on the board. Students are expected to read carefully the problems and then to state clearly the part or parts required, and then find by mental process the solution.

Spring Term.

Pains will be taken to make clear the transition from Arithmetic to Algebra. The students will be expected to master the fundamental principles of Addition, Subtraction, Multiplication, Division, and Factoring. Lippincott's Elementary Algebra will be used.

Second Year—Fall Term.

Fractions and Equations will be taught carefully and thoroughly. The class will study to page 135 in Lippincott's Elementary Algebra.

Spring Term.

Work will continue in the same book to quadratic equations.

Third Year—Fall Term.

The greater part of the term will be given to Quadratic Equations as found in Slaught and Lennes' Advanced Algebra.

Spring Term.

The same Algebra will be finished and reviewed during the spring term.

Fourth Year-Fall Term.

Plane Geometry (Slaught and Lennes') will be studied. Special attention will be given to the exercises. Attention will constantly be called to the practical application of the theorems.

Spring Term.

During the spring term solid Geometry will be taught by the same methods.

Summer Term.

A short course in Plane Trigonometry (Wentworth's) will be given.

#### Latin

First Year-Fall Term.

Work will begin with Bennett's Foundations of Latin. Special drill will be given in pronunciations according to the Roman method. Paradigms must be mastered, vocabularies memorized, and construction carefully studied.

Spring Term.

Foundations of Latin will be continued and finished.

Second Year-Fall Term.

The fables, stories, and biographical sketches found in Rolfe & Dennison's Junior Latin.

Spring Term.

The first and the second books of Cæsar's Gallic War will be read.

Exercises in turning English into Latin will be given each week.

Third Year-Fall Term.

Two orations of Cicero against Catiline with composition based on Latin read.

Spring Term.

Third and fourth orations against Catiline with composition based on Latin read.

Fourth Year-Fall Term.

Three books of Virgil's Æneid with a study of Latin verse. One original exercise each week.

Spring Term.

Fourth, fifth, and sixth books of Virgil's Æneid with a study of mythology. One original exercise each week.

#### History

First Year.

Southworth's Builders of America. Book I, Book II.

Second Year.

Montgomery's English History. Both terms.

Third Year.

Myer's General History. Both terms.

Fourth Year-Fall Term.

Painter's History of Education.

Spring Term.

Hamilton's Recitation.

Summer Term.

A special study of North Carolina History.

#### Science

First Year.

Holden's Real Things in Nature—both terms. Many of the simple experiments will be performed by the class.

Second Year—Fall Term.

Overton's Advanced Physiology. Emphasis will be laid on the action of the organs of the human system. The cell and tissues will be studied with the aid of a compound microscope. Spring Term.

Gannett, Garrison & Houston's Commercial Geography.

Third Year—Fall Term.

Colton's Zoölogy will be used more as a reference book than to be studied. Each member of the class is expected to make a small collection of insects. The animals easiest collected will be studied during the different months. Special attention will be paid to types.

Spring Term.

Young's Lessons in Astronomy will be used. Observations of the stars are made on suitable nights. Many of the most important constellations are observed.

Fourth Year.

The school is able to give the greater part of the experiments in Gorton's Elementary Physics. Each member of the class is required to make from material furnished an electric motor. Fall and Spring.

Summer Term.

Bergen's Botany will be used. The structure and growth of plants are studied briefly and some time given to identifying common plants.

## Spelling

First Year.

Hunt's Progressive Course in Spelling. Part II.

Second Year.

Benson & Glenn's Speller and Definer.

Third Year.

Sandwick and Bacon's The High School Word Book.

Fourth Year.

Bowen's English Word.

The above makes an extensive study of etymology, diacritical marks, uses and history of words.

### English

First Year.

Text, Webster-Cooley—Book II. Frequent themes supplemented by oral composition. The aim of the composition work in this course is to encourage in the student free and spontaneous expression of thought. Besides the shorter poems in the texts, the following pieces of literature referred to are studied: "The Building of the Ship" and "The Courtship of Miles Standish," Longfellow; "Snowbound," Whittier; "The First Snowfall," and "The Vision of Sir Launfal," Lowell; "The Snow Storm," Emerson; "The Song of the Chattachoochee," Lanier; "Rip Van Winkle," Irving; "A Christmas Carol," Dickens.

#### Second Year.

Text, High School English, Lockwood & Emerson. Special attention is given to the paragraph. Frequent themes. Literature studied: Fall Term—"Silas Marner," Eliot; "Henry Esmond," Thackeray. Spring Term—"The Deserted Village," Goldsmith; "The Ancient Mariner," Coleridge; "The Idylls of the King," Tennyson.

## Third Year.

Text, Lewis's Second Manual of Composition. The kinds of Writing, Narration, Description, Argument, and Exposition. Frequent themes. Both terms.

Literature Studied: Fall—"The Sir Roger De Coverley Papers;" "Heroes and Hero Worship," Carlyle; "Life of Johnson," Macaulay. Spring—"Washington's Farewell Address," "Webster's First Bunker Hill Oration."

## Fourth Year.

Text, One Year Course in English and American Literature, Heydrick.

Literature Studied: Fall—"As You Like It," "Julius Cæsar," and "Macbeth," Shakespeare. Spring—"L'Allegro," "Il Penseroso," "Comus," and "Lycidas," Milton; "Poe's Poems (Selections). Summer—Short Stories from Hawthorne, Poe, Bret Harte, and Kipling. One theme a week.

## Special Courses

#### INSTRUMENTAL MUSIC

The courses of study here prescribed are for earnest students who want to attain real excellence. A careful study of the requirements and capabilities of each pupil is made. A thorough training in the fundamental principles of technique is given. Recitals are given in which all pupils participate. These furnish incentives to study and give experience in public performances. The aim of the department is threefold: To make practical musicians; to make thorough and efficient music teachers; and to help the student to a better appreciation of the beautiful in music.

#### COURSE FOR PIANOFORTE

#### Preparatory

Etudes by Kohler and Burgmuller. Pieces by Gurlitt, Lichner, Clementi and others. Technical exercises throughout the course.

First Year.

Etudes by Czerney and Bertini. First Studies in Bach. Easy Pieces and Sonatinas by Clementi, Kuhlau, Dussek, etc.

Second Year.

Etudes by Heller, Bach's Preludes, Mendelssohn's Songs Without Words, Sonatas of Haydn and Mozart. Pieces by modern composers.

Third Year.

Cramer's Etudes, Bach's Inventions, Sonatas by Mozart and Beethoven, Selections from Chopin, Schubert, Schumann and others. Elements of Harmony.

Fourth Year.

Kullak's Octaves Clementi's Gradus ad Parnassum; Selections from Beethoven, Mendelssohn, Chopin, Bach, Weber, Rubinstein and others. Theory and History of Music.

#### Art

Students are given instruction in Oil, Pastel, Crayon, and Water Colors. As all the students were first year students no grades have been made for this work.

## Bookkeeping

A short course in Bookkeeping will be offered to those who have made proper preparation. Instruction in short-hand and typewriting will also be offered.

## Modern Languages

Classes may be organized in the French and German Languages if the demand is sufficient. These subjects may under special conditions be substituted for the third and fourth years of Latin.

## Vocal Music, Drawing, and Penmanship

Two lessons in Drawing and two lessons in Vocal Music are given each week. Frequent instruction in Penmanship is also given. These subjects are taught in each year. In the preparatory and the first year instruction will be given in Elementary Bookkeeping. Some instruction in Vocal Culture will be given during the year.

## Tuition in Extra Branches

Instrumental Music will be given at twenty-five cents per lesson. Use of piano for one hour daily will be fifty cents per month.

Art is twenty-five cents per lesson. For those who paint

in the Art Room a charge of fifty cents per month will be made.

Announcements will be made for the Business Course.

## Preparatory

Many students are not prepared to begin the first year and pursue with profit the work of that year. A course of about two years has been made to meet the need of such students. The first year is the work of the seventh year in an ordinary public school. The second year is given to supplement the studies of the common schools. So varied has this course been that no schedule can be given. The work is suited to those who desire to better prepare for teaching.

#### **Domestic Science**

A kitchen has been fitted up in Watauga Academy for instruction in cooking and general house work. Exercises are given in the compositions, uses, and preparation of foods. Students are divided into groups of about twelve. Each group prepares a supper each week and eats it.

The sewing room is in Science Hall. The room has three sewing machines, scissors, needles, patterns, etc. The different stitches for hand sewing and the use of the machine are taught. Each girls is expected to make several garments during the year.

Small fees are charged to defray the expense of materials.

#### Uniforms for Women

All women boarding in Lovill Home purchase a hat to cost about \$1.25. A regular uniform will be decided on for next year. On commencement occasions women must wear simple white dresses.

## Summer Term, 1912

#### JUNE 4 TO JULY 19

## Courses of Study

The summer work is planned to meet the conditions of several classes of teachers and the work has been grouped to that end.

## Group I.

For those who have never taught: This room will give instruction in each of the public school branches required for a one-teacher school. Drills will be given in Phonics, Vocal Singing, and Drawing.

Second Grade certificates are awarded in this group.

## Group II.

For those who have taught: This room will give instruction in all the branches of study required to be taught in the public schools. The adopted text-books will be used. Special attention will be given to the Methods of teaching each subject. Phonics, Vocal Music, and Drawing will be given.

First Grade certificates will be given in this group.

## Group III.

This group will include those who desire to pursue more thoroughly some line of work. Classes will be organized in Algebra, Latin, Rhetoric, History, and other stubjects if desired. Each student in addition to a special subject or two must take one or more professional subjects on the art of teaching.

## Group IV.

This will be the work required of the graduating class. In Latin Virgil will be studied, Plane Trigonometry in mathematics. In History, special attention will be given to the History of North Carolina. The English course will be short literary productions from Hawthorne, Poe, Bret Harte, Kipling and others. A brief course in Botany will be given. Students who are prepared may join the class in either of these subjects.

A primary class will be conducted for observation work. Students are expected to attend this class as often as permission is given.

## Other Information

At the close of the Summer School a number of County Superintendents will be present and assist in making out the examinations and granting certificates. These certificates are generally made good in all counties of the State. Those who take the advanced work may have their grades recorded on a permanent record, kept by this institution, and their grades may be counted towards their graduation.

Aside from the faculty, selected for high scholarship and successful experience as teachers, a number of distinguished visitors will be present and deliver addresses from time to time. The Summer School is inviting, we trust. It offers a rare opportunity for study and coming in contact with the best educational thought of the country. If you intend teaching, you will lose much to be away.

## **Closing Exercises**

No exercises were given at the close of the Fall Term. The Spring Term closed with four programmes.

#### THURSDAY NIGHT.

#### DEBATE.

Resolved, That every person over the age of sixty-five who has not \$500.00 or an annual income of \$100.00 should receive from the Federal Government \$150.00 a year.

Affirmative was represented by the Watauga Literary Society and the negative by the Appalachian Literary Society.

Δ	Trib.	TDT	JE A	TIVI	7

#### NEGATIVE:

W. B. Austin.

W. S. Tatum.

J. L. Segraves.

Alonzo Payne.

#### FRIDAY MORNING.

Literary Address by Hon. J. Y. Joyner, Superintendent of Public Instruction.

#### FRIDAY EVENING.

ENTERTAINMENT BY CALLIOPEAN AND EUTERPEAN SOCIETIES.

- 2. Essay—Education of Woman.....Pearl Story
- 4. Essay—Truth Alone is Strong..... Eugenia Watson
- 6. Reading—The Old Clock on the Stairs.....Laura Pennell
- 7. Recitation—Naughty Zell......Fay Greer

- 11. Recitation—Piller Fight......Zella Anderson

#### FRIDAY NIGHT.

# PLAY FOR BENEFIT OF ATHLETIC ASSOCIATION. "OUT IN THE STREETS."

J. Thomas Miller, assistant cashier Watauga County Bank
E. Glenn Salmsons, student in Dental College, Vanderbilt Univ.
Nora South, teacherAshe County
,

## Announcements for 1912-1913

The catalogue is meant to give an account of the session from August, 1911, to July, 1912.

The new year will see many changes. The price of board must be raised in order the keep the boarding houses out of debt. Hitherto the farm helped materially. Now the farm charges the boarding houses for everything furnished them. This is as it should have been before.

The faculty has undergone a change. Several members will not return. Each place, however, will be filled with as good a teacher as can be employed.

The Science Hall has been fitted up so as to give laboratory work in Physics, Chemistry, Botany, Physiology, Zoölogy, and Astronomy. Small fees will be charged in each class to pay for materials.

The library will be better cared for than ever before. It is hoped that reading will be a good part of the training here.

Teacher-training will be taught during each term of the year. Examinations on the public school studies will be held at the close of each term. This will enable students who so desire to get certificates without attending the summer term. It is hoped that the County Superintendents will give the same credit for this work as they have done for the summer term's work.

The School will add to the courses in Latin and Mathematics.
