Chapter I—Civil Service Commission

PART 20—WAR OVERTIME PAY REGULATIONS

The regulations issued May 8, 1943 (8 F.R. 6149), are hereby designated Subpart A—Payment of Overtime Compensation.

The following regulation is to be added as § 20.8a:

§ 20.8a *Department, independent establishment, and agency.* The term "Department, independent establishment, and agency" as used in § 20.2 (b) means a governmental establishment in the executive branch which is not a component part of any other such establishment.

The following regulations are added as Subpart B:

SUBPART B—ESTABLISHMENT OF NEW RATES OF PAY WITHIN THE RANGE OF PAY FIXED BY THE CLASSIFICATION ACT OF 1923 AS AMENDED

- Sec.
- 20.51 Authority of the Commission.
 - 20.52 Conditions required for Commission's action.
 - 20.53 Action to be taken when required conditions are found to exist.
 - 20.54 Review of action upon change in conditions.
 - 20.55 Requests from departments or agencies.

AUTHORITY: §§ 20.51 to 20.55 inclusive issued under sections 8 and 9 of the War Overtime Pay Act of 1943 (Public Law 49, May 7, 1943).

§ 20.51 *Authority of the Commission.* Whenever, in specific situations in the executive branch of the Government affecting classes of positions under the Classification Act of 1923, as amended, the Commission finds that existing conditions in a given organization and in a given locality are those set forth in § 20.52 of this chapter, it is authorized to establish as the minimum rate of pay for any such class of positions any rate within the range of pay fixed by the

Classification Act of 1923, as amended, for the grade to which such class of positions is allocated under such act.

§ 20.52 *Conditions required for Commission's action.* In order that the authority described in § 20.51 of this chapter may be exercised by the Commission, the following conditions must be found by the Commission to exist:

(a) The positions whose minimum rates are sought to be raised:

(1) Are subject to the pay scales of the Classification Act of 1923, as amended;

(2) Are properly allocated to service, grade, and class;

(3) Exist in close relation to other positions within the same government organization and at the same location whose basic pay rates are fixed by wage boards or similar administrative authority serving the same purpose.

(b) The basic pay scales for the Classification Act positions concerned are sufficiently below basic pay rates fixed by wage boards or similar administrative authority for other positions to give rise to gross inequities in basic pay rates within the same organization and at the same location.

(c) In the light of a close relationship found to exist between the positions concerned under the Classification Act and the positions under the wage board procedures, these gross inequities in basic pay rates cause a definite interference with the conduct of activities directly connected with the war program.

§ 20.53 *Action to be taken when required conditions are found to exist.* When the Commission finds that the conditions stated in § 20.52 of this chapter exist in a given government organization and location, it will by administrative order effective upon a date stated:

(a) Identify the classes under the Classification Act of 1923, as amended, and the organizations and geographic locations, to which the order is applicable;

(b) Establish standards under which the positions concerned are to be allocated to their appropriate services, grades, and classes;

(c) Require of the agency concerned adherence to these allocation standards as a legal prerequisite to the applicability of the other provisions of the order;

(d) Establish a new minimum rate for each such class, which new minimum rate shall have the same force and effect as if established directly by statute; that is to say:

(1) All employees who on the effective date of the order occupy positions in a class to which the order applies and who receive basic salary rates less than the new minimum for such class will be entitled to such minimum rate effective on the date stated in the order.

(2) All new (original) appointments made on and after the effective date of the order shall be made at the minimum rate stated in the order for the

class of positions to which appointment is made.

(3) No employee shall be paid less than such minimum rate nor more than the maximum rate of the grade to which the class of position he occupies is allocated.

(4) The pay of employees who are already receiving basic rates at or above the new minimums for their respective classes and not above the maximum of the appropriate grade will not be affected by such administrative order.

§ 20.54 *Review of action upon change in conditions.* If, subsequently, the Commission finds that conditions have materially changed since the establishment of the new salary minimums for specific classes of positions, it may review the current facts, and if it deems proper may increase or decrease such minimums within the range of pay fixed by the Classification Act of 1923, as amended, for the grade to which such classes of positions are allocated under that act.

§ 20.55 *Requests from departments or agencies.* Any request made by a department or agency for action by the Commission under section 8 of the War Overtime Pay Act of 1943, shall be accompanied or supplemented by such information and data as the Commission may require.

Chapter VII—Agricultural Adjustment Agency

[ACP-1943-11]

PART 701—AGRICULTURAL CONSERVATION PROGRAM¹

PRODUCTION ADJUSTMENT ALLOWANCE AND DEDUCTIONS

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, and in the War Food Administrator by Executive Order No. 9322 as amended by Executive Order No. 9334, the 1943 Agricultural Conservation Program, as amended, is further amended as follows:

Section 701.403 (b) is amended to read as follows:

§701.403 *Production adjustment allowance and deductions.* * * *

(b) *Deduction for failure to achieve 90 percent of the sum of the war crop goals.* The deduction for failure to achieve 90 percent of the sum of the war crop goals shall be made only from the farm production adjustment allowance. No deduction shall be made where the county

¹Subpart E-1943.

committee finds, in accordance with instructions issued by the Agricultural Adjustment Agency, that the failure to achieve 90 percent of the sum of the war crop goals is due to flood or drought. On any farm on which the county committee determines that the war crop goal for grain sorghums cannot be met without using an acreage of protected summer fallow or without destroying a stand of volunteer wheat which is likely to produce a substantial quantity of grain, an acreage of volunteer wheat equal to the difference between the acreage planted to grain sorghums and the farm grain sorghum goal may be substituted acre for acre for grain sorghums in meeting the farm grain sorghum goal. The deduction will be \$15.00 for each acre by which the sum of the acreage planted to war crops on the farm is less than 90 percent of the sum of the war crop goals for the farm.

PART 802—SUGAR DETERMINATIONS

COMMERCIALLY RECOVERABLE SUGAR IN PUERTO RICO

MAY 25, 1943.

Determination of (1) normal yield of commercially recoverable sugar per acre and (2) eligibility for payment with respect to abandonment and crop deficiency for sugarcane farms in Puerto Rico, pursuant to the Sugar Act of 1937, as amended (revised).

Pursuant to the provisions of section 303 of the Sugar Act of 1937, as amended, and Executive Order No. 9322, issued

March 26, 1943, as amended by Executive Order No. 9334, issued April 19, 1943, the following determination is hereby issued:

§ 802.45 *Normal yield of commercially recoverable sugar per acre and eligibility for payment with respect to abandonment and crop deficiency for sugarcane farms in Puerto Rico—(a) Normal yield calculation.* (1) The normal yield of commercially recoverable sugar per acre for any farm in Puerto Rico on which sugarcane is grown and marketed (or processed by the producer) for the extraction of sugar during all three of the 1938-39, 1939-40 and 1940-41 crop years shall be the product of:

(i) The average number of hundred-weights of sugar, raw value, recovered per short ton of sugarcane processed during such crop years for the extraction of sugar by the mill, or mills, where such sugarcane was ground, and

(ii) The average number of short tons of sugarcane per acre harvested on the farm for the extraction of sugar during the said three crop years.

(2) The normal yield of commercially recoverable sugar per acre for any farm on which sugarcane was not grown and marketed (or processed by the producer) for the extraction of sugar during all three of the 1938-39, 1939-40, and 1940-41 crop years, shall be the average of such yields for all farms, within the same municipality, on which sugarcane was harvested for the extraction of sugar during all three of the 1938-39, 1939-40, and 1940-41 crop years.

(b) *Eligibility for abandonment and deficiency payments.* Any farm located in a municipality in which the actual yields of commercially recoverable sugar per acre from the sugarcane for farms comprising 10 percent or more of the acreage of such sugarcane were 80% or less of the normal yields therefor, because of drought, flood, storm, freeze, disease or insects, shall be eligible for abandonment and deficiency payments: *Provided, however,* That any farm which is located outside of but adjacent to, a municipality in which the foregoing requirement is met, and in which conditions affecting sugarcane culture are similar to conditions prevailing in such municipality, as certified by the Officer or Acting Officer in Charge of the Agricultural Adjustment Agency, shall be eligible for abandonment and deficiency payments.

This determination supersedes the "Determination of (1) Normal Yield of Commercially Recoverable Sugar per Acre and (2) Eligibility for Payment with Respect to Abandonment and Crop Deficiency for Farms in Puerto Rico, Pursuant to section 303 of the Sugar Act of 1937, issued June 21, 1938."

ance with the classifications and minimum prices set forth in a schedule marked Supplement R annexed thereto. These adjustments of minimum prices were made to conform to freight rate changes based upon an increase effective March 18, 1942, in railway rates, fares and charges authorized by order of the Interstate Commerce Commission in Ex Parte No. 148 titled "Increased Railway Rates, Fares, and Charges, 1942." On April 12, 1943, the Interstate Commerce Commission issued a suspension order in said docket suspending from and after May 15, 1943, until January 1, 1944, the increases in railway rates, fares and charges previously authorized in said docket. Accordingly, I find that it is necessary that the order previously issued in this docket should be adjusted to conform to the rates which will become effective May 15, 1943, by virtue of the suspension order of the Interstate Commerce Commission issued April 12, 1943. It is further necessary, and I so find, that such an adjustment should be made in order to effectuate the purposes of sections 4 II (a) and 4 II (b) of the Act and to comply in all respects with the standards thereof.

Now, therefore, it is ordered, That effective thirty days from the date hereof, subject to further Order, § 335.7 (General prices; domestic, commercial and industrial coal schedule) is amended by adding thereto Supplements R-I and R-II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the aforesaid order and applications to stay, terminate or modify said order may be filed with the Division within twenty-five (25) days from the date hereof, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: May 13, 1943.

Notice correcting error in copies of supplement to order dated April 28, 1943, in the matter of the petition of District Board No. 23 for the establishment of price classifications and minimum prices for the coals of the Wilkeson Mine, and for other relief.

Copies of the schedule designated as Supplement R, § 343.5 (*General prices; minimum prices for shipment via rail transportation*), annexed to and made a part of an Order Granting Temporary Relief and Conditionally Providing for Final Relief entered in the above-entitled matter on April 28, 1943, 8 F.R. 6594, erroneously indicate that the minimum prices set forth in Line 7 thereof under the subheading "Market Areas" apply for shipment by rail transportation to Market Areas 217, 232, 236 and 244-246 whereas the original order in this matter provides that such prices shall apply for shipment by rail transportation to Market Areas 217-232, 236 and 244-246.

Accordingly, notice is hereby given that "217-232, 236 and 244-246" is the proper designation of the market areas set forth in Line 7 of Supplement R, § 343.5 (*General prices; minimum prices for shipment via rail transportation*), annexed to and made a part of the Order Granting Temporary Relief and Conditionally Providing for Final Relief

entered in this matter on April 28, 1943, 8 F.R. 6594.

PART 1001—TIN

[General Preference Order M-43, as Amended May 25, 1943]

Section 1001.1 *General Preference Order M-43* is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of tin for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1001.1 *General Preference Order M-43—(a) Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(b) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply to the use of material in all items or articles hereafter manufactured irrespective of whether such items or articles are manufactured pursuant to a contract made prior or subsequent to January 9, 1943, or pursuant to a contract supported by an allotment symbol or a preference rating. Insofar as any other order of the War Production Board may have the effect of limiting or curtailing to a greater extent than herein provided the use of tin in the production of any item or article, the limitations of such other order shall be observed.

(c) *Definitions.* For the purposes of this order:

(1) "Tin" means and includes both pig tin and secondary tin.

(2) "Pig tin" means metal containing 98% or more by weight of the element tin, in shapes current in the trade (including anodes, small bars, and ingots) produced from ores, residues or scrap.

(3) "Secondary tin" means any metal (except tin plate and terne plate as those terms are defined in Supplementary Order M-21-e) which contains less than 98% but not less than 1.5% by weight of the element tin.

(4) "Manufacture" means to fabricate, assemble, melt, cast, extrude, roll, turn, spin, produce, coat, or process in any way, but does not include the processing of tin ore, concentrates, residues or scrap into metallic tin.

(5) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with, or available for the use of such person.

(6) "Implements of war" means combat end-products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weap-

ons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(7) "Base period" means the corresponding calendar quarter of 1940.

(8) "Distributor" means any person regularly engaged in the business of buying and selling tin, and includes warehousemen and jobbers.

(d) *General restrictions on use of tin.* (1) No product or article or part thereof shall be manufactured of pig tin if it is possible to use secondary tin for such purpose.

(2) No tin in any form shall be used in the manufacture of any item or in any process appearing on List A of this order; nor shall tin be used for any purpose except to manufacture the items or for the purposes listed in Schedule 1 of this order, and then, only within the limitations and restrictions specified in Schedule 1 with respect to such item or purpose.

(e) *Restrictions on the use of certain tin products.* Except with the specific permission in writing of the War Production Board granted pursuant to appeal under paragraph (k), no person shall use any of the tin-bearing products on List B of this order in the manufacture or treating of any other product or article; provided, That when any such tin-bearing product is listed in Schedule 1, it may be used for the purposes for which it is permitted to be manufactured as specified in Schedule 1.

(f) *Restrictions on deliveries.* (1) No person shall deliver or accept delivery of pig tin without the specific authorization in writing of the War Production Board; provided, however, that in the absence of a contrary direction by the War Production Board, pig tin may be delivered without specific authorization:

(i) To the Metals Reserve Company or to any other corporation organized under section 5(d) of the Reconstruction Finance Corporation Act as amended (15 U. S. C., sec. 606 (b)), or to any duly authorized agent of any such corporation.

(ii) By any distributor in lots of three long tons or less up to but not exceeding a total of five long tons to any one customer in the same calendar month; provided, That the aggregate of such deliveries which any person may receive from all distributors pursuant to the authority of this paragraph shall in no event exceed five long tons in any calendar month; and provided further, that any person seeking such a delivery shall, at the time of placing his purchase order, file with the distributor a statement substantially in the following form, signed manually or as provided in Priorities Regulation No. 7 by an official duly authorized for such purpose:

The undersigned hereby certifies:

(a) That no allocation of pig tin has been made to the undersigned by the War Production Board during the calendar month in

which delivery of the pig tin covered by the accompanying purchase order is specified;

(b) That such pig tin if delivered will not cause the undersigned's total receipts of pig tin from all distributors during the same calendar month pursuant to the authorization of paragraph (f) of General Preference Order M-43, as amended, to exceed five long tons; and

(c) That such pig tin will not be used or disposed of by the undersigned in violation of any order or regulation of the War Production Board.

(Name of purchaser)

By-----
(Duly authorized official)

(2) On or before the 10th day of each calendar month, each distributor shall report to the War Production Board in such form and detail as said Board may from time to time prescribe, (subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942) his transactions in all pig tin during the previous month.

(g) *Allocations.* The War Production Board will from time to time allocate the supply of pig tin, including all pig tin released by the Metals Reserve Company, and issue specific directions as to the source, destination, and the amount of pig tin to be delivered or acquired. The War Production Board may also specifically direct the purposes and end products for which any person may convert, process or fabricate pig tin allocated to him.

(h) *Applications for, and reports of pig tin.* Application for allocations of pig tin or for specific authorization to accept delivery thereof under paragraph (f) shall be made to the War Production Board not later than the 20th day of the month next preceding the month in which delivery is desired, on Form PD-213 or such other form as the War Production Board may from time to time prescribe. Any person who on the first day of a calendar month has in his possession or under his control two long tons or more of pig tin shall, not later than the 20th day of such month, report to the War Production Board on Form PD-213 in accordance with the instructions accompanying such form, regardless of whether or not he seeks an allocation of pig tin or specific authorization to accept delivery thereof during the next succeeding month.

(i) *Prohibitions against sales or deliveries with knowledge of intended misuse.* Notwithstanding the authorization by the War Production Board of a sale or delivery of tin, no person shall sell or deliver any tin or tin-bearing material or product thereof in the form of raw materials, semi-processed materials, finished parts or sub-assemblies to any person if he knows or has reason to believe such material or any product thereof is to be used in violation of the terms of this order. A supplier may rely upon the written statement of the customer seeking delivery of any such material, as to the purposes for which it will be used, unless the supplier knows or has reason to believe such statement to be false, and any such statement shall constitute on the part of the person making the same, a representation to the

War Production Board within the meaning of section 35 (A) of the United States Criminal Code, 18 U. S. C. Sec. 80.

(j) *Limitation on inventories.* No person shall receive delivery of tin, or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies nor shall he put into process any raw material, in quantities which in either case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of tin products by this order. In the absence of special permission to acquire or hold a greater supply of pig tin, forty-five days' inventory of such tin shall, for the purposes of this order, be deemed a practicable working inventory for any person except a manufacturer of tin plate as tin plate is defined in Supplementary Order M-21-e, as from time to time amended. Application for such special permission shall be made by letter to the War Production Board setting forth fully the facts upon which the applicant relies.

(k) *Appeals and communications.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. Appeals, reports and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Tin and Lead Division, Washington, D. C., reference: M-43.

(l) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 25th day of May 1943.

(iii) For use in the manufacture of industrial instruments (as defined in Conservation Order L-134) and their associated control valves—50% tin by weight: Provided, that solder of a lower tin content shall be used whenever its use will not cause damage or change the physical or electrical properties of the part soldered;

(iv) For the installation and repair of water service pipes connecting the piping of a structure with the outside water main—not more than 38% tin by weight.

(v) For all other purposes, not more than 21% tin by weight.

(i) Repair, maintenance or replacement in existing diesel engines, turbines, locomotive connecting rods or coupling rod bearings;

provided in any such case that the design of the machine or equipment makes the substitution of lead base babbitt impossible.

(1) Repair, maintenance or replacement in vessels or shipping facilities pursuant to a preference rating duly established or assigned by the United States Maritime Commission.

The total quantity of tin which any person may use in the manufacture of babbitt metal, or other similar alloys used as babbitt, during any calendar quarter, beginning January 1, 1943, shall be limited to 40% of the quantity used by him for such purposes during the base period.

PART 3225—CALCIUM METAL

[General Preference Order M-303 as Amended May 25, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of calcium metal for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3225.1 General Preference Order M-303—(a) Definitions. (1) "Calcium metal" means any product containing the element calcium not in chemical combination, and in which any metallic constituents other than calcium do not

constitute more than 15 per cent, by weight.

(2) "Producer" means any person engaged in the production of calcium metal, and includes any person who imports calcium metal or has calcium metal produced for him pursuant to toll agreement.

(3) "Distributor" means any person (other than an importer) who purchases calcium metal for the purpose of resale.

(b) Restrictions on deliveries and use. (1) On and after April 1, 1943, no person shall deliver, accept delivery of, or use calcium metal, except as specifically authorized or directed by the War Production Board.

(2) Authorizations or directions with respect to deliveries or use in each calendar month will so far as practicable be issued by the War Production Board prior to the commencement of such month, but the War Production Board may at any time at its discretion issue directions with respect to deliveries to be made or accepted, or with respect to use or uses which may or may not be made of calcium metal to be delivered or then on hand. Such authorizations or directions may be made by the War Production Board without regard to preference ratings applicable to particular orders.

(3) Each person specifically authorized to use or accept delivery of calcium metal shall use such material for the purpose authorized, and only for such purpose, except as otherwise specifically directed by the War Production Board. Calcium metal allocated for inventory shall not be used except as specifically directed by the War Production Board.

(4) Calcium metal allocated to fill a specified order or class of orders shall, where and to the extent that such order or class of orders is not for any reason filled, revert to inventory as though allocated therefor.

(c) Exceptions to requirement for specific authorization. (1) Notwithstanding the provisions of paragraph (b) (1) hereof, specific authorization of War Production Board shall not be required for:

(ii) Acceptance of delivery by any person from any supplier in any calendar month of not more than 3 lbs. of calcium metal where in the form of carrots, or of not more than 2 lbs. of calcium metal where in any other form.

(iii) The use by any person in any calendar month of not more than 3 lbs. of calcium metal where in the form of carrots, or of not more than 2 lbs. of calcium metal where in any other form.

(2) No supplier shall make any delivery pursuant to paragraph (c) (1) if such delivery will prevent the completion of any delivery which he has been

specifically authorized or directed to make.

NOTE: Former paragraphs (c), (d) redesignated (d), (e) May 25, 1943.

(d) *Application and reports.* (1) Each person seeking authorization to accept delivery of, or to use calcium metal during any calendar month beginning with May, 1943, whether for his own consumption or resale, shall file application therefor on or before the 15th day of the preceding month. Applications respecting acceptance of delivery or use in April, 1943, shall be filed as many days as possible in advance of the desired date of acceptance or use. In any case, such application shall be made on Form PD-600, in the manner prescribed therein, subject to the following special instructions:

(i) Copies of Form PD-600 may be obtained at local field offices of the War Production Board.

(ii) Five copies shall be prepared, of which three shall be forwarded to War Production Board, Chemicals Division, Washington, D. C., Ref: M-303, one forwarded to the producer or distributor with whom applicant's order is placed, and the fifth retained for applicant's file. At least one of the copies filed with War Production Board shall be signed by applicant by a duly authorized official. Where the application is solely for authorization to use, no copy will be sent to the producer or distributor.

(iii) In the heading, under "Name of chemical", specify "Calcium metal"; under "WPB Order No.", specify "M-303"; under "Indicate unit of measure", specify "pounds".

(iv) In heading at top of Table I, specify the month and year for which authorization for acceptance of delivery or use is sought.

(v) In Columns 1, 11 and 19, specify grades; for example, carrots, castings, turnings, sublimed.

(vi) In Columns 3, 20 and 22 (Primary product), applicant will specify the product or products in the manufacture or preparation of which he will use calcium metal in terms of the following:

Magnesium castings.
Stainless steel alloys.
Special alloys.
Zirconium
Other metals (specify).
Chemicals (specify).
Other products (specify).
Resale (as calcium metal).
Inventory (as calcium metal).

(vii) In Column 4 (Product end use), applicant will specify with respect to each primary product the ultimate use to which such primary product will be put. For example, if the "primary product" called for in Column 3 is "magnesium castings", the ultimate use might be "airplane engines". Applicant will also specify in each case whether his customer is Army, Navy, other government agency, Lend-Lease, or commercial customer. If application is for calcium metal for resale or for inventory, leave Column 4 blank.

(2) Each producer or distributor seeking authorization to make delivery of calcium metal during any month, begin-

ning with May, 1943, shall file application therefor on or before the 20th day of the preceding month. Applications respecting delivery in April, 1943, shall be filed as many days as possible in advance of the desired delivery date. (e) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(2) *Notification of customers.* Each supplier shall notify his regular customers as soon as possible of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(3) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. Article 1—Purpose and Scope of Regulation.

SECTION 1 *What this regulation does.* This regulation fixes dollar-and-cents ceiling prices on all sales other than at retail of fresh and processed variety meats and edible by-products derived from hog, cattle, calf, sheep and lamb slaughter. On and after April 1943, the date this regulation takes effect, no person may sell, or deliver, except at retail, and no person in the course of trade or business, may buy or receive any variety meat or edible by-product at prices higher than the prices permitted by this regulation. But lower prices may be charged or paid.

SEC. 2 *How maximum prices are fixed—(a) General instructions.* The ceiling prices for any sale are found by looking at paragraph (a) of section 13 which lists the base price per hundred-weight in dollars, for each kind of variety meat and edible by-product. To this price should be added the amount specified in paragraph (b) of that section for the zone in which the point of delivery is located. Section 14 should then be examined to determine whether any additions may be made to these prices and section 15, to determine whether any deductions are required. The base price, plus the zone differential, plus the permitted additions, and minus the required deductions is the ceiling price.

(b) *Determining the zone in which the point of delivery is located—(1) Point of delivery.* The point of delivery is either the point at which local delivery begins, if local delivery is made, or the point at which the product is delivered to the buyer, if no local delivery is made.

(i) Local delivery means delivery by any vehicle, other than a rail carrier, made by the seller to the place of business of the buyer, or made to a point designated by a war procurement or government agency. A truck is not a place of business.

(ii) If no local delivery is made, the point at which the product is delivered to the buyer is the point where actual physical possession is taken by the buyer or where the product consigned to the buyer

(a) Is received by a rail carrier for shipment at the railroad carload rate, or for shipment to an agency of the United States government; or

(b) Is received by a common or contract carrier, other than a railroad; or

(c) Is received by an express company for shipment by express to a purveyor of meals, the charges of such carrier in all three instances being paid directly to such carrier by the buyer.

(2) *Determining the zone.* Having determined the point of delivery, the zone of which such point is located can

be found by reference to section 17 of this regulation in which all the zones are described by counties.

SEC. 3 *Quality and labeling requirements—(a) What variety meats and edible by-products may be sold as food.* After this regulation takes effect, the only variety meats and edible by-products which may be sold for ultimate consumption as food, either in their original form or in sausage, are those variety meats and edible by-products for which dollar-and-cents prices are fixed by this regulation and which satisfy whatever definitions may appear in section 16.

(b) *Labeling requirements.* No variety meat or edible by-product may be offered for sale, or sold, or bought in the course of trade or business, unless it bears a label in accordance with the provisions of this paragraph.

(1) Wherever more than one price is established for any variety meat or edible by-product depending upon the quality of the product, the carton or other immediate container shall have stamped or printed on it the kind of variety meat or edible by-product and the grade or type to which it belongs.

(2) The carton or other immediate container shall have stamped or printed on it the word "kosher" wherever kosher products are packed therein, and, whenever sterilized products are, the word "sterilized".

(3) The name of the variety meat or edible by-products and, when there is more than one type, the type to which it belongs must appear on the seller's invoice. Kosher and sterilized meat shall be invoiced as such.

SEC. 4 *Where this regulation applies.* The provisions of this regulation shall apply to the forty-eight states of the United States, and to the District of Columbia.

SEC. 5 *Sales to which this regulation does not apply.* (a) The provisions of this regulation shall not apply to sales of variety meats or edible by-products, if prior to June 1, 1943, such variety meats or edible by-products have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to the purchaser.

(b) The provisions of this regulation shall not apply to any sales at retail. A sale at retail is a sale to an ultimate consumer other than an industrial or commercial user. Sales to hotels, restaurants, institutions and other eating places selling or furnishing meals will be considered sales at retail if made by anyone who made 80% of his total sales of meat during the previous calendar months to consumers, that is to persons who bought meat to be eaten by themselves or their families.

(c) The provisions of this regulation with the exception of section 7 covering records and reports shall not apply to sales or deliveries of variety meats or edible by-products to industrial or pharmaceutical users who purchase such products for use in paints, chemicals or other manufactures, or in medicines or other pharmaceuticals, and who do not purchase such products for the purpose of consuming or reselling them as food,

either in their original form, or in sausage.

ANTI-FREEZE

Section 1412.1 (c), 1412.4, 1412.6 (a) (1), (b) (1) and (2), 1412.12 (a) (2), (7), (8), and (16), and 1412.13 (a), (c), (e), and (g) (2) are amended; and § 1412.13 (i) and (j) are added by Amendment 4, effective May 22, 1943, so that Maximum Price Regulation No. 170 shall read as follows:

In the judgment of the Price Administrator, seasonal and other factors affect-

ing the sale of anti-freeze by manufacturers and distributors thereof have resulted in the establishment, under the General Maximum Price Regulation,³ of maximum prices for such sales which are not generally representative and which are not best calculated to assist in securing adequate distribution of such anti-freeze.

In the judgment of the Price Administrator, the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations⁴ involved in the issuance of this Regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1⁵ issued by the Office of Price Administration, Maximum Price Regulation No. 170 is hereby issued.

When used in this § 1412.9, the terms "selling at wholesale" and "selling at retail" have the definitions given to them by §§ 1499.20 (p) and 1499.20 (o), respectively, of the General Maximum Price Regulation.

§ 1412.10 *Federal and state taxes.* Any tax upon, or incident to, the sale, delivery, processing, or use of anti-freeze imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such anti-freeze and in preparing the records of such seller with respect thereto:

(a) *As to a tax in effect during any part of the six-month period ending March 31, 1942.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during any part of the six-month period ending March 31, 1942, the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 170.

(2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 170.

(b) *As to a tax or increase in a tax which becomes effective after March 31, 1942.* If the statute or ordinance imposing such tax or increase does not prohibit

the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

[NOTE: Supplementary Order No. 31 (7 F.R. 9894; 8 F.R. 1312, 3702) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."]

§ 1412.11 *Applicability of General Maximum Price Regulation.* Except as provided in § 1412.9 hereof, the provisions of this Maximum Price Regulation No. 170 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this Regulation.

(iv) Containers less than 1 gallon.....	.99	.66

In the case of sales to retailers by sellers other than manufacturers, transportation costs in excess of five cents per gallon may be charged to buyer's account. Any such charges shall be separately stated on an invoice, which shall be furnished the buyer by the seller.

(3) *Sales at retail.* Delivered, including installation in automobile cooling system where buyer so requests and where anti-freeze was customarily so installed without charge during the six month period ending March 31, 1942 by the seller or, if the seller did not sell anti-freeze during such period, by like sellers.

	Type N	Type S
(i) In quantities of 1 gallon or more.....	Per gal. \$1.40	Per gal. \$1.00
(ii) In quantities of less than 1 gallon.....	Per qt. .35	Per qt. .25

(b) *Sub-standard anti-freeze, Type N and Type S.* For sales covered by subparagraphs (1), (2), and (3) of paragraph (a) of this section, the maximum price for any quantity of substandard anti-freeze of Type N or Type S, in any kind of container, shall be the maximum price, as determined under whichever one of said subparagraphs (1), (2), or (3) is applicable, for that quantity of standard anti-freeze of the same type, in the same kind of container, which would produce an anti-freeze effect equal to that produced by the quantity of substandard anti-freeze being priced. Such maximum price shall not exceed the price determined by computation under the following formula: Subtract 25% from the maximum price for a quantity of standard anti-freeze of the same type

(in like containers) equal to the quantity of substandard anti-freeze being priced, and divide the result by the number of gallons of such substandard anti-freeze which must be added to 1 gallon of water to reduce the freezing point of the resulting mixture to 10 degrees below zero Fahrenheit.

(c) *Standard anti-freeze, Type P.* (1) The maximum price which any seller may charge for standard Type P anti-freeze shall be the highest price which such seller charged on a delivery of standard Type P anti-freeze in like containers in similar amounts to a purchaser of the same class during that month of the six month period ending March 31, 1942, in which such seller delivered the largest amount of Type P anti-freeze. This maximum price in the case of sales at retail shall not exceed \$2.65 per gallon on sales in quantities of 1 gallon or more or \$.70 per quart on sales in quantities of less than one gallon. Such maximum prices include installation in automobile cooling systems where the buyer so requests, and where anti-freeze was customarily so installed without charge during the six month period ending March 31, 1942 by the seller or, if the seller did not sell anti-freeze during such period, by like sellers.

[Paragraph (1) as amended by Amendment 1, 7 F.R. 5717, effective 7-28-42]

(2) If a seller cannot determine a maximum price for standard Type P anti-freeze under subparagraph (1), he shall take as his maximum price the maximum price to a purchaser of the same class as established under subparagraph (1) for the seller's most closely competitive seller of the same class for whom such a maximum price has been established under subparagraph (1).

(d) *Sub-standard anti-freeze, Type P.* The maximum price for any quantity of sub-standard Type P anti-freeze, in any kind of container and to any class of purchaser, shall be the maximum price for that quantity of standard Type P anti-freeze, in like containers and to the same class of purchaser, which would produce an anti-freeze effect equal to that produced by the quantity of sub-standard Type P anti-freeze being priced. Such maximum price shall not exceed the price determined by computation under the following formula: subtract 25% from the maximum price (to the same class of purchasers) for a quantity of standard Type P anti-freeze (in like containers) equal to the quantity of sub-standard Type P anti-freeze being priced, and divide the result by the number of gallons of such sub-standard Type P anti-freeze which must be added to one gallon of water to reduce the freezing point of the resulting mixture to 10 degrees below zero Fahrenheit.

(e) The maximum prices established by this regulation shall not be increased by any charges for containers. The seller may, however, require the return of containers, but in such case the maximum prices which may be charged are the maximum prices specifically set forth

in this regulation less \$.025 per gallon. The same deduction shall be made in those cases where the buyer furnishes drums. Transportation costs with respect to the return or furnishing of containers shall, in all cases, be borne by the seller.

(f) *Credit charges.* The maximum prices established by this Maximum Price Regulation No. 170 shall not be increased by any charges for the extension of credit.

(g) *Standard strength anti-freeze, Type C.* Maximum prices for standard strength Type C anti-freeze are established as follows:

(1) *Sales to retailers by any person.*

[Per gallon delivered, containers included]

	Calcium chloride, sodium chloride, or mixed salt base	Magnesium chloride base
Over 5 gallons.....	\$.40	\$.47
1-5 gallons.....	.46	.53
Less than 1 gallon.....	.51	.58

(2) *Sales at retail.* Delivered, including installation in automobile cooling system where buyer so requests and where anti-freeze was customarily so installed without charge during the six month period ending March 31, 1942 by the seller or, if the seller did not sell anti-freeze during such period, by like sellers.

	Calcium chloride, sodium chloride, or mixed salt base	Magnesium chloride base
In quantities of 1 gallon or more.....	Per gallon \$.75	Per gallon \$.85
In quantities of less than 1 gallon.....	Per quart .20	Per quart .23

Provided, That until and including March 15, 1943, any seller of Type C anti-freeze other than a manufacturer or retailer, who prior to February 1, 1943 had purchased Type C anti-freeze and had it in his possession or in the custody of a carrier or warehouse other than a carrier or warehouse owned or controlled by the person from whom such anti-freeze was acquired, may sell such anti-freeze at a price not to exceed the maximum price established in this section or at his cost of acquisition, whichever is higher. *And provided further,* That until and including March 15, 1943, any retailer may sell Type C anti-freeze at a price not to exceed the maximum price established in this section or at his cost of acquisition plus \$.25 per gallon, whichever is higher.

[Paragraph (g) added by Amendment 2, 8 F.R. 1232, effective 2-1-43. Proviso as amended by Amendment 3, 8 F.R. 1813, effective 2-1-43]

(h) *Substandard strength anti-freeze, Type C.* For sales covered by subpara-

graphs (1) and (2) of paragraph (g) above, the maximum price for any quantity of substandard strength Type C anti-freeze in any kind of container shall be the maximum price, as determined under whichever one of said subparagraphs (1) or (2) is applicable, for that quantity of standard strength Type C anti-freeze, in like containers, which would produce an anti-freeze effect equal to that produced by the quantity of substandard strength Type C anti-freeze being priced. Such maximum price shall not exceed the price determined by computation under the following formula: subtract 25% from the maximum price for a quantity of standard strength Type C anti-freeze (in like containers) equal to the quantity of substandard strength Type C anti-freeze being priced, and divide the result by the number of gallons of such substandard strength Type C anti-freeze which must be added to one gallon of water to reduce the freezing point of the resulting mixture to ten degrees below zero Fahrenheit.

[Paragraph (h) added by Amendment 2, 8 F.R. 1232, effective 2-1-43]

(i) *Wood distilled methyl alcohol base anti-freeze containing less than 95% by volume of wood distilled methyl alcohol—*

(1) *Maximum prices.* The maximum price for any sale of wood distilled methyl alcohol base anti-freeze containing less than 95% by volume of wood distilled methyl alcohol shall be the maximum price established in paragraph (a) above for like sales of Type N anti-freeze multiplied by the figure obtained by dividing by 95 the number of percent by volume of wood distilled methyl alcohol contained in the anti-freeze.

(2) *Marking and posting.* The marking and posting requirements of § 1412.6 which are applicable to Type N anti-freeze shall apply to wood distilled methyl alcohol base anti-freeze containing less than 95% by volume of wood distilled methyl alcohol, except that, such anti-freeze shall be designated as "Type W (---%)". The blank in the quoted phrase shall be filled in by the number of percent by volume of wood distilled methyl alcohol contained in such anti-freeze.

(2) Prior to first offering such an anti-freeze for sale, the manufacturer shall submit by registered mail to the Office of Price Administration in Washington, D. C., an application for specific authorization of maximum prices. Such application shall contain the following information:

(i) Statement as to the geographical area in which and the types of reseller through which it is proposed to distribute the anti-freeze.

(ii) Proposed maximum prices for sales in each size and type of container for sales at retail and for sales to and by each type of reseller who will handle the anti-freeze, with a detailed explanation of how such prices were calculated and a full explanation of the reasons why the manufacturer considers the proposed prices to be in line with the level of maximum prices established by this regulation.

(iii) The quantitative formula of the anti-freeze; ceiling or actual purchase price, whichever is lower of each material in such formula, per unit of material; corresponding material cost for each material per gallon of anti-freeze; name and address of the supplier of each material whose ceiling price or actual selling price was used.

PART 1305—ADMINISTRATION

[Gen. RO 5, Amdt. 22]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

General Ration Order No. 5 is amended in the following respect:

1. Section 27.2 is added to read as follows:

SEC. 27.2 Certain Group III users may get special allotments of meat and fats.

(a) A Group III institutional user may apply for a special allotment of foods covered by Ration Order 16 if he needs additional amounts of such foods to feed his employees, or to feed employees of another person pursuant to a contract, if he cannot get enough fresh fish, poultry or eggs to meet the nutritional needs of such employees because:

(1) The place where he feeds such employees is so located, or the employer's business or occupation is of such a nature that a source of supply of fresh fish, poultry and eggs is not reasonably accessible, except at infrequent intervals; and

(2) He has no facilities for preserving such foods long enough, and in the quantities required, to meet such needs. (A Group I institutional user may not apply for a special allotment under this section. Consumers eating in Group I establishments are permitted, under similar circumstances, to apply for additional points under Ration Order 16.)

(b) Application shall be made to the Board on OPA Form R-315, in person or by mail. A separate application must be made for each allotment period for which the special allotment is needed. The application must state in detail:

(1) The number of employees, the period of time covered by the application, and the place where such employees will be fed;

(2) The nearest source of supply of fresh fish, poultry and eggs;

(3) A description of the facilities he has for preserving these foods;

(4) The number of pounds of fresh fish and poultry and the number of dozens of eggs which the applicant can get and use during the period covered by the application; and

(5) The amount of his allotment (in points) of foods covered by Ration Order 16 for the current allotment period.

(c) The regional administrator may authorize boards, district offices and State offices in his region to rule on applications. If the board has not been given such authority, it shall forward the application, with its recommendation, to the district office (or, where there is none, to the State office). If the district (or State) office has not been authorized to act on such application, it shall transmit the file to the regional office.

(d) If the regional office or an authorized board, district or State office finds that the applicant meets the tests set out in paragraph (a), it shall grant a special allotment in the amount required. In determining the amount of the allotment, consideration shall be given to the amount of fresh fish, poultry and eggs which will be available to the applicant during the period covered by the application. Boards, district and State offices shall be governed by any further instructions issued by the regional or Washington offices.

(e) Any board which grants an allotment under this section shall keep a record of the number of points issued each month. It shall, within five (5) days after the end of each month, send to the district (or State) office a statement of the total number of points issued each month. The district (or State) office shall forward such statement to the regional office along with a statement of the number of points it has issued, if any. The regional office shall forward such statements to the Washington Office along with a statement of the number of points it has issued, if any.

If the excess inventory is less than the allotment, a certificate for the difference shall be issued.

This amendment shall become effective May 29, 1943.

SECTION 1 *What this regulation does.* This regulation fixes dollar-and-cents ceiling prices on pork or breakfast sausage, frankfurters and bologna. On and after May 24, 1943, the date this regulation takes effect, no person may sell or deliver, except at retail or to a war procurement agency, and no person in the course of trade or business may buy or receive pork sausage, frankfurters or bologna at prices higher than the prices permitted by this regulation. But lower prices may be charged or paid.

The label may be a band or a tag securely affixed to the sausage or printed upon the casing or bag. The kind of sausage, the grade and casing shall also be stamped or printed upon the carton or other immediate container in which the sausage is placed.

3. Section 11 is amended to read as follows:

SEC. 11 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[RO 16, Amdt. 27]

MEATS, FATS, FISH AND CHEESES

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 2.7 is added, to read as follows:

SEC. 2.7 *Consumers who must have more foods covered by this order for their subsistence may apply for more points.*

(a) Consumers (including those who eat in Group I institutional user establishments, as defined in General Ration Order 5) may apply for additional points if they cannot get enough fresh fish, poultry or eggs to meet their nutritional needs, because (1) the place where they live or work is so located, or their business or occupation is of such a nature that a source of supply of such foods is not reasonably accessible, except at infrequent intervals, and (2) they have no facilities for storing such foods long enough and in the quantities required to supply such needs.

(b) Any consumer who needs more foods covered by this order for the reasons set forth in paragraph (a) of this section, may apply to his board, in person or by mail, on OPA Form R-315. One application may be made covering more than one consumer, but the name of each shall be listed on the application. The application must state in detail:

(1) Where the consumers included in the application will live and work during the period covered by the application;

(2) The nearest source of supply of fresh fish, poultry and eggs;

(3) A description of the facilities they have for storing fresh fish, poultry and eggs;

(4) How many pounds of foods covered by this order they will need;

(5) For how long a period;

(6) How many pounds of foods covered by this order they have, at the time of application;

¹ 8 F.R. 3591, 3715, 3949, 4137, 4350, 4423, 4721, 4784, 4893, 4967, 5172, 5318, 5679, 5567, 5739, 5819, 6046, 6138, 6181.

(7) How many pounds of fresh fish and poultry or dozens of eggs will be available to them during this period;

(8) How many pounds of foods covered by this order will be available to them during this period, point-free, under the provisions of sections 3.1 or 3.4.

The applicant must also give any other information that the board may request.

(c) All regional offices are authorized to rule on applications under this section, and to authorize boards or district offices (or, where there are none, state offices) to rule on them. A board or district (or state) office may rule on such an application only if the regional office for the area where it is located has given it such authority. If the board has not been given such authority, it shall forward the application with its recommendation to the district (or State) office. If the district (or State) office has been given such authority, it shall indicate what action is to be taken, and return the file to the board. If the district (or State) office has not been given such authority, it shall forward the file to the regional office. The regional office shall then indicate what action is to be taken, and return the file to the board. All certificates to be issued under this section shall be issued by boards.

(d) The regional office, or board or district (or State) office which is authorized to rule on such applications, may issue or authorize the issuance of one or more certificates for the number of points that it finds should be allowed. No board or district (or State) or regional office shall issue or authorize the issuance of a certificate unless it finds that the applicants meet the tests set out in paragraph (a). In determining how many points to allow, consideration shall be given to the amount of foods covered by this order, fresh fish, poultry or eggs, which will be available to the applicants during the period covered by the application. In addition, the board or district (or State) office shall be governed by any further instructions issued by the regional or Washington office.

(e) Any board which issues certificates under this section shall keep a record of the number of points which it has issued. It shall, within five (5) days after the end of each month, send to the district (or state) office a statement of the total number of points issued that month. The district (or state) office shall forward such statements to the regional office. The regional office shall forward such statements to the Washington office.

This amendment shall become effective May 29, 1943.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

¹ 8 F.R. 3591, 3715, 3949, 4137, 4350, 4423, 4721, 4784, 4893, 4967, 5172, 5318, 5679, 5567, 5739, 5819, 6046, 6138, 6181.

² 8 F.R. 5909, 5846, 6135, 6442.

Rationing Order No. 3 is amended in the following respect:

Section 1407.71 is amended to read as follows:

SEC. 1407.71 *Home processing and preserving for use.* (a) A person registered as a consumer in conformity with Rationing Order No. 3 may obtain sugar for the purpose of producing processed foods from fresh fruits for use, in accordance with sections 26.2, 26.5, and 26.6 of Ration Order 13 (or for making the gifts permitted by those sections), or for making jams, jellies, preserves, or fruit butters.

(b) Sugar for the purpose of producing processed foods from fresh fruits, for such use, may be obtained and used at the rate of not more than one pound of sugar per four quarts (or eight pounds) of finished processed foods. Sugar for the purpose of making jams, jellies, preserves, or fruit butters may be obtained and used by a consumer in an amount not to exceed five pounds. However, the total amount of sugar which may be obtained by a consumer for both these purposes, for the period from March 1, 1943, to February 29, 1944, inclusive, shall not exceed 25 pounds.

(c) Notwithstanding anything to the contrary contained in Rationing Order No. 3, Stamps Nos. 15 and 16 each authorizes a consumer to obtain sugar on or before October 31, 1943, to be used solely for the purposes stated in paragraphs (a) and (b) of this section in an amount not to exceed five pounds. However, in no event shall a consumer use either such stamp to obtain sugar in an amount which, when added to the amount of sugar otherwise obtained by such consumer for such purposes between March 1, 1943, and February 29, 1944, inclusive, would exceed 25 pounds. The use of such stamps by a consumer to obtain sugar shall constitute a representation by the consumer to the Office of Price Administration that he is entitled to obtain such sugar under the provisions of this section.

(d) Applications for sugar needed for the purposes covered by this section, in addition to that which may be obtained on or before October 31, 1943 under paragraph (c) of this section, shall be made, in writing, to the board for the place where he lives, by one adult member of a family unit for all members of the unit (or, if there is no adult member, by the oldest member or by a responsible person) or by a consumer not a member of a family unit for himself (or, if a minor, not self-supporting, by his parent or guardian or by a responsible adult). The applicant shall either in person or by mail present to the board the books issued to the persons on whose behalf the application is made. In addition, the applicant shall in his application state (1) the number of quarts (or pounds) of processed foods the applicant, and the members of the family unit of which he is a member for whom application is made, has produced since March 1, 1943, or intends to produce from fresh fruits, for use; (2) the amount of sugar obtained pursuant to this section used or

to be used in the making of jams, jellies, preserves, and fruit butters; (3) that he has used or will use any sugar obtained pursuant to paragraph (c) of this section in accordance with this section; and (4) such other information as the board may require. The board shall determine the total requirements of sugar of the applicant, for the period from March 1, 1943, to February 29, 1944, for the purposes covered by this section, and shall, to the extent permitted under the provisions of paragraph (b) of this section, issue coupons or a certificate to the consumer in weight value equal to such requirements less ten pounds (since the consumer will be able to obtain ten pounds of sugar for the purposes covered by this section by the use of stamps 15 and 16, as set forth in paragraph (c) of this section). The weight value of the coupons or certificate issued by the board, however, shall in no event exceed 15 pounds. However, if the board acts on the application after October 31, 1943, the board shall determine the total requirements of sugar of the applicant, for the period from March 1, 1943, to February 29, 1944, for the purposes covered by this section, and shall, to the extent permitted under the provisions of paragraph (b) of this section, issue coupons or a certificate to the consumer in weight value equal to such requirements, less five pounds for each Stamp 15 or 16 that is not attached to the consumer's book. The weight value of the coupons or certificates issued, however, shall in no event exceed 25 pounds. The board shall note on the cover of the book of each person for whom application is made the weight value of the coupons or certificate issued to such person under this paragraph and the date of issuance.

(e) Notwithstanding anything to the contrary contained in this section, a consumer whose total requirements of sugar for the purposes covered by this section are from one to four pounds, inclusive, or from six to nine pounds, inclusive, shall apply to the board pursuant to paragraph (d) of this section. If the total requirements of the applicant, determined by the board, are from one to four pounds, inclusive, the board shall detach from the book of the applicant Stamps Nos. 15 and 16; if they are from six to nine pounds, inclusive, the board shall so detach Stamp No. 15 or 16. The board shall issue coupons or a certificate for the amount of such requirements less the weight value of any such stamp not so detached. Such issuance shall be noted on the cover of the book, in accordance with paragraph (d) of this section. This paragraph shall not apply to applications acted on by the board after October 31, 1943.

(f) Sugar obtained pursuant to this section shall be used only in the quantities and for the purposes permitted by this section and the processed foods produced therewith shall be used only as permitted by sections 26.2, 26.5, and 26.6 of Ration Order 13.

This amendment shall become effective May 24, 1943.

NOTE: All reporting and record-keeping requirements of this amendment have been

approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1499—COMMODITIES AND SERVICES
[Amdt. 54 to GMPR¹]

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

The General Maximum Price Regulation is amended in the following respects:

1. Section 1499.3 (b) is amended to read as follows:

§ 1499.3 *Maximum prices for commodities and services which cannot be priced under § 1499.2* The seller's maximum price for a commodity or service which cannot be priced under § 1499.2 of this General Maximum Price Regulation shall be a maximum price in line with the level of maximum prices established by this General Maximum Price Regulation. Such price shall be determined by the seller in accordance with the following procedures * * *

(b) In the case of a sale, other than at wholesale or retail, of a commodity for which a maximum price or pricing method has not been specifically authorized by the Office of Price Administration,²

(1) The seller (i) shall select a comparable commodity for which a maximum price has been established under § 1499.2 (a) (1) of this regulation; (ii) shall divide his maximum price for the comparable commodity by its current direct cost; and (iii) multiply the percentage so obtained by the current direct cost of the commodity being priced. All customary discounts, trade practices, and practices relating to the payment of transportation charges in effect with respect to the sale of the comparable commodity shall apply to such maximum price.

*Copies may be obtained from the Office of Price Administration.

¹ 8 F.R. 3096.

² Prices or pricing methods established for certain commodities by orders issued under this paragraph (b) prior to May 29, 1943, are not affected by this amendment and shall continue to apply to such commodities. This paragraph (b) is not to be used for pricing new commodities which are covered by other price regulations, for example, MPR 188 (Building Materials and Consumers Goods Other Than Apparel), MPR 220 (Certain Rubber Commodities), MPR 300 (Rubber Drug Sundries), MPR 118 (Cotton Products), MPR 136, as amended (Machines and Parts), and others.

"Comparable commodity" as used in this subparagraph (1) means a commodity which is made by the same seller, has the same general use and is recognized in the trade or industry as being of the same general type, even though different materials or construction are used, and has a current direct cost varying by not more than 50% from the current direct cost of the commodity being priced. If more than one commodity can be regarded as comparable, the one whose current direct cost is closest to the current direct cost of the commodity being priced shall be regarded as the "comparable commodity."

"Direct cost" means the sum of direct labor and direct material costs. Direct labor costs shall in no event be computed on wage rates higher than those permitted by law, and direct material costs shall in no event be computed on prices higher than the maximum prices established by the applicable maximum price regulations.

Within ten days after determining a maximum price under this subparagraph (1), the seller shall report such price to the appropriate field office of the Office of Price Administration upon a form, duly filled out, copied from the form contained in Appendix C of this regulation. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

(2) If the seller is unable to determine a maximum price for a commodity under subparagraph (1) above or if he cannot determine a maximum price under sub-

paragraph (1) without undue hardship, he shall, at least twenty days before offering such commodity for sale, file an application for a maximum price with the appropriate field office of the Office of Price Administration. The application shall set forth (i) a description of the commodity for which a maximum price is sought; (ii) the reasons why such commodity cannot be priced under § 1499.2 or subparagraph (1) above; (iii) the maximum price proposed by the seller together with a detailed explanation of the method by which the seller calculated such price; and (iv) the reasons why the seller believes the proposed price to be in line with the level of maximum prices established by this regulation. The seller shall also submit such additional pertinent information as the field office may require. The proposed price shall be the seller's maximum price, unless the Office of Price Administration specifically disapproves it within twenty days after the application is mailed. Any maximum price established under this subparagraph (2) shall be subject to adjustment by the Office of Price Administration at any time after such twenty day period.

(3) Any regional office of the Office of Price Administration, or such other offices as may be authorized by order issued by the appropriate regional offices, may approve, disapprove, and make adjustments in prices reported under this paragraph (b).

2. Appendix C is added to read as follows:

Rubber drug sundries, which are priced under MPR 300, Cotton products, which are priced under MPR 118, Machines and parts, which are priced under MPR 136, Packaged drugs, which are priced under MPR 392, Packaged cosmetics, which are priced under MPR 393, Mixed fertilizers, which are priced under MPR 135, or other articles the manufacturers' prices of which are covered by specific Maximum Price Regulations (other than the General Maximum Price Regulation). Furthermore, this form is not to be used in the pricing of new commodities whose prices or pricing methods were established prior to May 29, 1943, by orders issued under the old form of section 3 (b) of the General Maximum Price Regulation, such as Order No. 260 (Insecticides and Fungicides) and Order No. 375 (Processed Foods).

Answer all questions. Your report must be formally complete before the price can legally be considered for authorization. Read the instructions below before filling out the form. Numbers at the left correspond to item numbers in the form.

3. Give physical name of the new article (hair tonic, men's shoes, etc.) and model or list name or number.
5. Give the unit of production used in the calculations (one, one dozen, one gross, etc.). Must be the same for both articles.
6. List the information required for all raw materials which, combined, make up a minimum of 90 percent of the total materials cost of the new article. List the same information for the remainder in (g). If additional space is necessary, attach a supplementary sheet to the report.
7. Give the total of all entries under Item 6. If semifinished or finished parts purchased from other firms are used, the numbers of parts included in each unit of the article, the price paid per part and the names of the suppliers are to be attached to the report. All material costs are to be your supplier's maximum prices unless current prices charged by your supplier to purchasers of your class are lower, in which case these shall apply.
8. Give the total wage bill paid per unit of product for manual labor expended directly in the production of the article. This total must not include inspection, instruction, or other indirect labor, or factory burden. If necessary for a clear understanding, a breakdown of this item should be attached to the report. In computing unit direct labor cost, use the current wage rates for each class of labor. Wage rates may not be higher than those of Oct. 3, 1942 unless approved by the War Labor Board.
10. Select from the comparable articles being produced by you, and for which maximum prices have already been established, that comparable article whose direct unit cost is nearest that of the article being priced.
11. Give catalog or list number and model name or number. If a catalog is not now on file with the OPA containing a full description of the article, such a catalog or description of the article must accompany the report.
16. Same instructions as 6. above.
17. Give the total of all entries under Item 16. Costs shall be determined as under instruction 7 above.

15. Same instructions as 8. above.
20. State here the maximum price now charged that class of customer to which you expect to sell the largest volume of the new article. This may be lower than the highest price you are now permitted to charge some customers. If the comparable article now has an established maximum price based on a different class of customer, this price must be appropriately adjusted to the class of customer for which the price of the new article is being determined.

This amendment shall become effective May 29, 1943.

NOTE: The reporting and record keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Bituminous Coal Division.

[Docket No. A-1986]

DISTRICT BOARD 10

MEMORANDUM OPINION AND ORDER GRANTING TEMPORARY RELIEF

In the matter of the petition of District Board No. 10 for the establishment of price classifications and minimum prices for coals of Southwestern Illinois Coal Corporation.

An original petition pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 was filed with this Division by the above-named party, requesting the establishment of temporary price classi-

fications and minimum prices for the coals of the Streamline Mine Fifth Vein, Mine Index No. 1628 of the Southwestern Illinois Coal Corporation for shipment by both rail and truck.

Petitioner requests the temporary establishment of the price classifications and minimum prices set forth in its petition stating the Streamline Mine Fifth Vein is a new mine now being developed in the Fifth Vein Seam and until petitioner has had an opportunity to sample and analyze and properly evaluate the coal in the Fifth Vein Seam it will be unable to obtain sufficient factual data to propose permanent price classifications and minimum prices for the coals of that mine.

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth, no petitions of intervention having been filed with the Division in the above-entitled matter, and the following action being deemed necessary in order to effectuate the purposes of the act;

It is ordered, That, pending further order, temporary relief is granted as follows: Commencing forthwith, the Schedules of Effective Minimum Prices for District No. 10 for all Shipments Except Truck and for Truck Shipments are supplemented to include the price classifications and minimum prices set forth in the schedules marked "Supplement R" and "Supplement T" annexed hereto and made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

The original petition in this matter requests the assignment of Percy, Illinois, on the Gulf, Mobile and Ohio Railroad, and Steelville, Illinois, on the Missouri Pacific Railroad, Freight Origin Group No. 33 as the shipping points for the Streamline Mine Fifth Vein using the loading facilities of Mine Index No. 165. However, the Missouri Pacific Railroad Company's Freight Tariff No. 896-Q I.C.C. No. A-9487, shows the shipping point for Mine Index No. 165 as Streamline Mine, instead of Steelville, Illinois. Accordingly, Streamline Mine, Illinois, or the Missouri Pacific Railroad, Freight Origin Group No. 33 is assigned Streamline Mine Fifth Vein, Mine Index No. 1628 rather than Steelville, Illinois, as proposed by petitioner.

[Docket No. B-54]

SILVER CREEK COAL COMPANY

MEMORANDUM OPINION AND ORDER TO CEASE
AND DESIST

In the matter of Silver Creek Coal Company, registered distributor, Registration No. 8397, respondent.

On September 15, 1942, after notice and hearing, Joseph D. Dermody, a duly designated examiner of the Division submitted a report in which he found that respondent, Silver Creek Coal Company, a registered distributor (Registration No. 8397), wilfully violated:

a. Rule 1 (J) of section VII of the Marketing Rules and Regulations and paragraph (e) of its "Distributor's Agreement" by prepaying the transportation charges on a total of 790.20 tons of coal purchased from code members in Districts 9 and 11 at the established minimum prices less discounts of 12 cents per ton and reselling and delivering the same to Carson, Pirie, Scott & Company at Chicago, Illinois.

b. Paragraph (d) of the "Distributor's Agreement" by physically handling such coal purchased from code members in Districts 9 and 10 at the established minimum prices less the discounts of 12 cents per ton delivered to Carson, Pirie, Scott & Company at Chicago, Illinois.

The Examiner recommended that an order be entered requiring respondent to cease and desist from the above violations, or from otherwise violating the Act, the Marketing Rules and Regulations, Distributor's Rules and Distributor's Agreement.

Opportunity was offered to all parties to file exception to the Examiner's report. No exceptions have been filed.

The Examiner rejected respondent's contention that Rule 1 (J) of section VII of the Marketing Rules prohibits only the payment of transportation charges in advance of transportation or sale. The rule categorically provides that "transportation charges on all rail shipments or on ex-river shipments of coal from the lifting point shall not be paid by a Code Member, his Sales Agent, or as a Distributor * * *". A special proviso to the rule permits prepayment of transportation charges where shipments are made to recognized prepay charges. It is not claimed that the exception is here applicable and for this reason, I believe the Examiner correctly refused to discuss the rather hypertechnical distinction which respondent seeks to make between the words "payment" and "prepayment." It is sufficient to indicate that Rule 1 (J) of section VII of the Marketing Rules and Regulations promulgated to implement various provisions of the Act, would govern payment of transportation charges in the interest of prescribing reasonable marketing procedures. In establishing a violation of this rule, it is not necessary to show that freight charges were prepaid with an intent to grant a discriminatory credit allowance. Cf. section 4 II (i) 3 of the Act which makes "the prepayment of freight charges with intent to or having the effect of granting discriminatory credit allowance" an unfair method of competition.¹

As the Examiner found, respondent arranged to have coal unloaded into the

¹ It is not necessary, under the Examiner's view of the evidence, with which I agree, to pass on the applicability of this section of the Act. It is by no means clear, however, that the transactions engaged in by respondent were not prohibited by this section.

bins of the purchaser, Carson, Pirie, Scott & Company, by workers who do not appear to be regular employees. There is no question, however, that such employees were acting in behalf of respondent in physically handling the coal, and, accordingly, respondent must be held responsible for their activities.

I believe that the Report of the Examiner adequately and accurately reflects the evidence disclosed in the Record and, save where inconsistent with this opinion, should be adopted. Upon the basis of the Report and upon the entire record in this proceeding,

It is hereby ordered, That the proposed findings of fact and the proposed conclusions of law of the Examiner, as modified herein, are approved and adopted as the findings of fact and conclusions of law of the Director.

It is further ordered, That Silver Creek Coal Company, a registered distributor, Registration No. 8397, its agents, employees, representatives, successors and assigns, and all persons acting or claiming to act on its behalf or interest, cease and desist from violating Rule 1 (J) of section VII of the Marketing Rules and Regulations; paragraphs (d) and (e) of its "Agreement by Registered Distributor" executed on July 5, 1940 and approved by the Division on July 12, 1940, and § 304.12 (b) (4) and 304.12 (now § 317.12) (b) (5) of the Rules and Regulations for the Registration of Distributors or from otherwise violating the provisions of the Act, or orders, rules and regulations issued thereunder.

Notice is hereby given that upon failure or refusal to comply with this order, the Division may apply to United States Circuit Court of Appeals for the enforcement thereof, or may otherwise proceed as authorized by the Act.

In the matter of Charles J. Ferro and M. P. Trosello, individually and as co-partners, doing business under the name and style of C. J. Ferro and M. P. Trosello, code member.

Upon the basis of findings of fact and conclusions of law set forth in the opinion of the Director, filed simultaneously herewith, wherein it appears that code member wilfully violated section 4 II (e) of the Act and the corresponding section of the Code by selling and delivering to various purchasers, by truck, during the period from December 1 to December 30, 1940, both dates inclusive, 117.69 tons of 1½" x 3/16" coal at \$1.90 per ton f. o. b. the mine, which coal was priced at \$3.00 per ton f. o. b. the mine in the Schedule of Effective Minimum Prices for District No. 18 for All Shipments and pursuant to sections 4 II (j), 5 (b) and other

ROCK CREEK COAL COMPANY

ORDER GRANTING TEMPORARY RELIEF

In the matter of the petition of Rock Creek Coal Company for the establishment of minimum prices and price classifications for the coals of Mine Index No. 1214 in District No. 10.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of its New Era Coal Mine, Mine Index No. 1214, located in District No. 10, for rail shipments; and District Board No. 10 having filed with the Division a petition of intervention in support of the original petition except as to the establishment of price exceptions with respect to locomotive fuel sold to off-line railroads; and

Sufficient facts to justify the granting of permanent relief not having been set forth; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith the Schedule of Effective Minimum Prices for District No. 10 for All Shipments Except Truck is hereby amended to include the price classifications and minimum prices set forth in the schedule marked Supplement R annexed hereto and made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in

the above entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

District Board No. 10 in its petition of intervention requested that no price exceptions be allowed with respect to locomotive fuel sold to off-line railroads. The original petitioner, however, requested that the minimum prices applicable to the coals of mines in Price Group No. 5 be established for its coals for all shipments except truck to all market areas. Since railroad locomotive fuel Price Exceptions 2-H, 61 and 64 established by order of the Director in Dockets Nos. A-98, A-125 and A-420, respectively, are applicable to the coals of all mines in Price Group No. 5 of District No. 10, for which minimum prices have heretofore been established for all shipments except truck, and since no sufficient reason has been advanced for excluding the application of these price exceptions to the coals of Mine Index No. 1214, the relief granted herein affords the Rock Creek Coal Company the same competitive opportunity available to all other producers similarly situated by making these price exceptions applicable to the coals of Mine Index No. 1214.

An order scheduling a hearing in the above-entitled matter for the purpose of adducing facts upon which final relief may be predicated will be issued in due course.

E. H. WASSON

ORDER REVOKING AND CANCELLING REGISTRATION OF DISTRIBUTOR

In the matter of E. H. Wasson, registered distributor, Registration No. 9455, respondent.

Upon the basis of the findings of fact and conclusions of law set forth in the opinion of the Director, filed simultaneously herewith, wherein it appears that respondent willfully violated sections 4 II (e) and 4 II (i) 11 and 12 of the Bituminous Coal Act of 1937; Rules 11 and 12 of section XIII of the Marketing Rules and Regulations Incidental to the Sale and Distribution of Coal; §§ 304.11 (c) (6) and 304.19 (c) (now renumbered §§ 317.11 (c) (6) and 317.19 (c)) of the Rules and Regulations for Distributors; and paragraphs (c), (d), (e), (f), (g), and (h) of the Agreement by Registered Distributor, and pursuant to sections 4 II (h) of the Act and § 304.14 (c) (now renumbered § 317.14 (c)) of the Distributors' Rules and other provisions of the Act and rules and regulations thereunder;

It is ordered, That the registration of E. H. Wasson as a registered distributor (Registration No. 9455) is revoked and cancelled, and that for a period of at least two (2) years from the date of this order, no petition by E. H. Wasson for registration as a distributor shall be considered.

It is further ordered, That any application for registration subsequently filed by respondent shall be accompanied by an affidavit verifying that from and after the date of this order, respondent neither directly nor indirectly transacted business as a registered distributor nor received nor was promised any discounts which distributors are entitled to receive by virtue of registration, and that respondent has returned or secured the return, to the code member producers, of all distributors' discounts allowed her, in the amount of \$2,323.42, on coal sold to her retailer-employer, Goodrich Brothers Company, its divisions and affiliates, and that satisfactory proof of the facts set forth in such affidavit is hereby made a further condition to the acceptance of respondent as a registered distributor.

DISTRICT BOARD 10

ORDER GRANTING TEMPORARY RELIEF

In the matter of the petition of District Board No. 10 for the establishment of price classifications and minimum prices for Mine Index No. A-1173.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, has been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of Blue Hill Coal Company No. 2 Mine, Mine Index No. 1173, of Blue Hill Coal Company; although this petition did not set forth sufficient facts upon which permanent relief may be based, reasonable necessity appears for the granting of temporary relief in the manner herein-after set forth.

No petitions of intervention having been filed with the Division in the above-entitled matter; and the following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith the Schedule of Effective Minimum Prices for District No. 10 for All Shipments Except Truck is supplemented to include the price classifications and minimum prices set forth in the schedule marked "Supplement R" annexed hereto and made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed

with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

The original petition in this matter requests that no exceptions be allowed with respect to locomotive fuel sold to off-line railroads. Nevertheless, since railroad locomotive fuel Price Exceptions Nos. 2-H, 61, and 64 established by the Order of the Director in Dockets Nos. A-98, A-125, and A-420, respectively, are applicable to the coals of all other mines in Price Group No. 5, of District No. 10 for which minimum prices have been established for all shipments except truck, and since no reason has been advanced for denying the application of these price exceptions to the coals of Mine Index No. 1173, the relief granted herein affords this producer the same competitive opportunity available to all other producers similarly situated by making said price exceptions applicable to the coals of Mine Index No. 1173.

The original petition in this matter also requests that the loading facilities of Mine Index No. 92, at Pittsburg, Illinois, on the Missouri Pacific Railroad, be assigned as the shipping point for Mine Index No. 1173. However, the Missouri Pacific Railroad Company's Freight Tariff No. 896-Q, I. C. C. No. A-9487, shows the shipping point for Mine Index No. 92 is Marvel Mine, Illinois, instead of Pittsburg, Illinois. Accordingly, Marvel Mine, Illinois, on the Missouri Pacific Railroad, is assigned as the shipping point for Mine Index No. 1173 rather than Pittsburg, Illinois as proposed by petitioner.

An order scheduling a hearing for the purpose of adducing facts upon which final relief in this matter may be based will be issued in due course.

DISTRICT BOARD 13

MEMORANDUM OPINION AND ORDER

In the matter of the Petition of District Board No. 13 for establishment of price classifications and minimum prices and for other relief for the coals of certain mines, Docket No. A-1989; in the matter of the petition of District Board No. 13 for establishment of price classifications and minimum prices for Mine Index Nos. 38, 1526, 1527, 1641, 1760, 1766, 1776 and 1780, Docket No. A-1989, Part II.

Memorandum opinion and order severing Docket No. A-1989, Part II from Docket No. A-1989, and granting temporary relief in Docket No. A-1989, Part II.

The original petition in the above-entitled matter, which was filed with the Division by District Board No. 13 pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requests, among other things, the establishment of temporary and permanent price classifications and minimum prices for the coals in certain size groups produced by Mine Index Nos. 38, 1526, 1527, 1641, 1760, 1766, 1776 and 1780 for shipment by railroad, applicable for all uses except railroad locomotive fuel, steamship bunker fuel, and blacksmithing. Sufficient facts are not set forth in the petition, however, to justify the granting of the relief as requested.

The original petition also requests the establishment of a minimum price of \$3.20 per net ton for the coals of Mine Index No. 1780, in Size Groups 24, 25, and 26, for shipment by truck. These prices are 10 cents per net ton less than the minimum prices heretofore established for analogous coals in the same size groups produced at other mines in the vicinity, and no reasons are advanced in justification of this disparity.

Nevertheless, an adequate showing of necessity having been made for the granting of temporary relief in the manner hereinafter set forth and the following action being deemed necessary in order to effectuate the purposes of the Act;

Now, therefore, *it is ordered*, That the portion of Docket No. A-1989 relating to the establishment of price classifications and minimum prices for the coals of Radiant Strip Mine, Mine Index No. 1780, of McWilliams Dredging Company for shipment by truck and to the coals of the Sayreton Mine, Mine Index No. 38, of the Republic Steel Corporation; Virginia Mine, Mine Index No. 1526, of the Republic Steel Corporation; Sayre Mine, Mine Index No. 1527, of the Re-

public Steel Corporation; Holcomb Hill No. 4 Mine, Mine Index No. 1641, of Dickerson & McGuire (Leon Dickerson); Powhatan No. 2 Mine, Mine Index No. 1760, of Franklin Coal Mining Company; Powhatan No. 6 Mine, Mine Index No. 1766, of Franklin Coal Mining Company; Abeel No. 2 Mine, Mine Index No. 1776, of Grant & Mayes (Joe Grant) and Radiant Strip Mine, Mine Index No. 1780, of McWilliams Dredging Company, in District No. 13, for shipment by railroad, applicable for all uses except railroad locomotive fuel, steamship bunker fuel and blacksmithing, be, and it hereby is, severed from the remainder of Docket No. 1989, and designated as Docket No. 1989, Part II.

It is further ordered, That, pending further order, temporary relief is granted as follows: Commencing forthwith, the Schedules of Effective Minimum Prices for District No. 13 for All Shipments Except Truck and for Truck Shipments are supplemented to include the price classifications and minimum prices set forth in schedules marked Temporary Supplement R and Temporary Supplement T annexed hereto and made a part hereof.

An order scheduling a hearing for the purpose of adducing facts upon which final relief in this matter may be based will be issued in due course.

Dated: May 23, 1943.

Director.

[Service Order 125]

REROUTING OF FREIGHT TRAFFIC IN FLOOD AREAS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 23rd day of May, A. D. 1943.

It appearing, that flood conditions existing in the following river valleys: Ohio, Missouri, Mississippi Rivers, and Arkansas, Grand, Illinois, Verdigris, Wabash, White and other tributaries, are interrupting transportation service upon the lines of common carriers by railroad reaching such rivers and tributaries affected by the floods so that such carriers are unable properly to serve the public; in the opinion of the Commission an emergency exists requiring immediate action to avoid congestion of traffic, and in order to best promote the service in the interest of the public and the commerce of the people;

It is ordered, That:

SECTION 1 Flood conditions—(a) Rerouting of freight traffic. Effective at once and until the further order of the Commission all common carriers by railroad subject to the Interstate Commerce Act operating within the following river valleys: Ohio, Missouri, Mississippi Rivers, and Arkansas, Grand, Illinois, Verdigris, Wabash, White and other tributaries, where tracks are not usable due to floods, are hereby directed to forward freight traffic having origin or destination in, or ordinarily moving through such territory via routes most available to expedite its movement and prevent congestion, without regard to the routing thereof made by shippers or by carriers from which the traffic is received, or to the ownership of cars: *Provided*, That the billing covering all cars rerouted will carry a reference to this order as authority for the rerouting. All rules, regulations, and practices of said carriers with respect to car service are hereby suspended and superseded insofar only as conflicting with the directions hereby made.

(b) *Rates to be applied.* That inasmuch as such disregard of routing is deemed to be due to carriers' disability, the rates applicable to traffic so forwarded by routes other than those designated by shippers, or by carriers from which the traffic is received, shall be the rates which were applicable at date of shipment over the routes so designated.

(c) *Divisions.* In executing the orders and directions of the Commission provided for in this order, common carriers affected shall proceed, even though no division agreements are in effect, over the routes authorized; divisions shall be, during the time this order remains in force, voluntarily agreed upon by and between said carriers; and upon failure of said carriers to so agree, the divisions

shall be hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act. If division agreements now exist on the traffic affected, over the routes herein authorized, they shall not be changed or affected by this order.

(40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, That copies of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register, The National Archives.

By the Commission, Division 3.

Region IV.
[Memphis Order 2 Under Gen. Order 51]
COMMUNITY CEILING PRICES IN MEMPHIS AREA

SECTION 1 *What this order does.* In accordance with the provisions of General Order No. 51, this order establishes in section 7, dollars-and-cents ceiling prices for certain food items sold at retail in the following areas:

The City of Memphis and the County of Shelby, in the State of Tennessee.

SEC. 2 *Applicability.* No seller, except a "retail route seller", may charge more than the ceiling prices fixed herein for his particular class of retailers, as defined in section 4 hereof. Retail route sellers may continue to charge their present ceiling prices. The ceiling prices fixed herein for a class of retailers shall be the only ceiling prices for such food items for all sellers in that class.

SEC. 3 *Posting*—(a) *Selling prices.* All retail stores must post their selling prices for the food items listed below on the item or at or near the place where such food item is offered for sale.

(b) *Ceiling prices.* All retail stores must post, in a conspicuous place in the store, a list of the ceiling prices for such food items, when such list is supplied by the Office of Price Administration.

(c) *Class of store.* All retail stores selling any of the food items listed below must post a sign showing the appropriate class of retailers, which sign will read "OPA-1", "OPA-2", "OPA-3", or "OPA-4", whichever applies, so that it can be clearly seen by their customers.

SEC. 4. *Definitions of classes of retailers.* For the purpose of this regulation, retailers are divided into the following four classes:

(a) *Class 1.* "Independent" retail stores with "annual gross sales" of less than \$50,000. A retail store shall be an "independent" retail store if it is not one of a group of 4 or more stores under one ownership whose combined "annual gross sales" are \$500,000, or more.

(b) *Class 2.* "Independent" retail stores with "annual gross sales" of \$50,000, or more, but less than \$250,000.

(c) *Class 3.* Retail stores, other than "independent" retail stores, with "annual gross sales" of less than \$250,000.

(d) *Class 4.* Any retail store with "annual gross sales" of \$250,000 or more.

(e) *Farmers and other sellers.* Farmers shall be considered class 1 retailers for retail sales. Other sellers not retail stores shall find their class according to their 1942 volume of retail sales of all foods. (See section 21 of Revised MPR 238 for the meaning and method of determining "annual gross sales.")

SEC. 5 *Applicability of General Order No. 51.* This order is subject to all the provisions of General Order No. 51, which are hereby made a part of this order.

SEC. 6 *Effective date.* This order becomes effective at 12:01 A. M. on May 17, 1943.

SEC. 7 *The dollars-and-cents ceiling prices established.* The following is a list of the food items and the ceiling prices thereof:

[Peoria Order 2 Under Gen. Order 51]

COMMUNITY CEILING PRICES FOR GREATER PEORIA AREA, ILLINOIS

SECTION 1 *What this order does.* In accordance with the provisions of General Order No. 51, this order establishes in section 7, dollars-and-cents ceiling prices for certain food items sold at retail in the following area: within the area known as "Greater Peoria", including Peoria, Peoria Heights, East Peoria, Bartonville, and the immediate adjacent residential and business areas.

SEC. 2 *Applicability.* No seller, except a "retail route seller", may charge more than the ceiling prices fixed herein for his particular class of retailers, as defined in section 4, hereof. Retail route sellers may continue to charge their present ceiling prices. The ceiling prices fixed herein for a class of retailers shall be the only ceiling prices for such food items for all sellers in that class.

SEC. 3 *Posting—(a) Selling prices.* All retail stores must post their selling prices for the food items listed below on the item or at or near the place where such food item is offered for sale.

(b) *Ceiling prices.* All retail stores must post, in a conspicuous place in the store, a list of the ceiling prices for such food items, when such list is supplied by the Office of Price Administration.

(c) *Class of store.* All retail stores selling any of the food items listed below must post a sign showing the appropriate class of retailers, which sign will read "OPA-1", "OPA-2", "OPA-3", or "OPA-4", whichever applies, so that it can be clearly seen by their customers.

SEC. 4 *Definitions of classes of retailers.* For the purpose of this regulation, retailers are divided into the following four classes:

(a) *Class 1.* "Independent" retail stores with "annual gross sales" of less than \$50,000. A retail store shall be an "independent" retail store if it is not one of a group of 4 or more stores under one ownership whose combined "annual gross sales" are \$500,000 or more.

(b) *Class 2.* "Independent" retail stores with "annual gross sales" of \$50,000 or more, but less than \$250,000.

(c) *Class 3.* Retail stores, other than "independent" retail stores, with "annual gross sales" of less than \$250,000.

(d) *Class 4.* Any retail store with "annual gross sales" of \$250,000 or more.

(e) *Farmers and other sellers.* Farmers shall be considered class 1 retailers for retail sales. Other sellers not retail stores shall find their class according to their 1942 volume of retail sales of all foods.

SEC. 5 *Applicability of General Order No. 51.* This order is subject to all the provisions of General Order No. 51, which are hereby made a part of this order.

SEC. 6 *Effective date.* This order becomes effective on May 17, 1943.

[Los Angeles Order 1, Under Gen. Order 51 as Corrected¹]

COMMUNITY CEILING PRICES IN LOS ANGELES METROPOLITAN DISTRICT

SECTION 1 What this order does. In accordance with the provisions of General Order No. 51, this order establishes in section 7, community (dollars-and-cents) ceiling prices for certain food items sold in the "Los Angeles Metropolitan Market District" by "class 1 retail stores", and by such other sellers as are designated in section 2.

The "Los Angeles Metropolitan Market District" consists of the following portions of Los Angeles, San Bernardino and Orange counties:

The communities located in unincorporated areas within the "Los Angeles Metropolitan Market District" are covered by this order although not listed herein by name.

Sec. 2 Application to other sellers. No seller, except a "retail route seller", may charge more than these community (dollars-and-cents) ceiling prices. The community ceiling prices shall be the only ceiling prices for such food items for "class 1 retail stores". For some food items listed in section 7, ceiling prices are fixed for certain sellers other than "class 1 retail stores". In such cases, the listed prices are the highest prices which those sellers can charge for such food items. All other sellers must continue to charge any lower ceiling prices established by any other applicable price regulation.

All items, brands, sizes and container types not mentioned in section 7 shall continue to be sold at prices no higher than those permitted by applicable regulations of the Office of Price Administration.

Sec. 3 Posting—(a) Selling prices. All retail stores, regardless of class, must

post their selling prices for the food items listed in section 7, either on the item, or at the place or near the place where such food item is offered for sale.

(b) *Ceiling prices.* In addition, all sellers, whose prices are fixed by this order, must post in a conspicuous place in the store, a list of the community ceiling prices for food items listed in section 7, when such list is supplied by the Office of Price Administration. They must continue to post ceiling prices on items not covered herein when required to do so by other applicable regulations. (All other retailers must continue to post ceiling prices as required by any applicable regulation of the Office of Price Administration.)

(c) *Class of store.* All retail stores selling any of the food items listed in section 7 must post a sign indicating the class of store, such as "OPA-1", "OPA-2", "OPA-3", or "OPA-4", whichever applies, in such manner that the sign can be clearly seen by the customers. The definitions of classes of retailers are given in section 4 hereof.

Sec. 4 Definitions. "Class 1 retail store" (OPA-1) is an independent retail store with an annual gross sales volume of less than \$50,000.

"Class 2 retail store" (OPA-2) is an independent retail store with an annual gross sales volume of \$50,000 or more, but less than \$250,000.

"Class 3 retail store" (OPA-3) is a chain retail outlet with an annual gross sales volume for that outlet of less than \$250,000.

"Class 4 retail store" (OPA-4) is a chain retail outlet or an independent retail store with an annual gross sales volume for each outlet or store of \$250,000 or more.

"Independent retail store" shall mean any retail store or outlet which is not one of a group of four or more stores under one ownership whose combined "annual gross sales volume" is \$500,000 or more.

"Chain retail outlet" is a retail outlet which is one of a group of four or more stores under one ownership, whose combined annual gross sales volume is \$500,000 or more.

"Sale at retail" means a sale to an ultimate consumer other than to a commercial, industrial, or institutional user.

"Retail route seller" shall mean a retailer who sells food at retail from an inventory stocked in trucks or other conveyances operated by driver-salesmen over regular routes. A retailer is a "retail route seller" only for the foods he sells in this way.

Sec. 4a What is meant by the term retailer. (1) If a seller makes sales through more than one retail store or outlet, than each retail store or outlet is a separate retailer in figuring annual gross sales volume.

(2) The total annual sales of all food departments in each retail store or outlet shall be included, whether or not all such departments are owned or oper-

ated by the retailer who is seeking to determine his annual sales volume. (For example, a retailer who operates a grocery department in a retail store or outlet, must include the annual gross sales volume of the butcher, the fruit and vegetable dealer, the baker, the delicatessen, etc., even though such departments are owned or operated by other persons.) If, however, two or more retailers operate departments selling a complete line of the same food commodities in the same retail store or outlet, then each such retailer shall determine his annual gross sales volume by the total sales of his own department alone. (For example, if there are two grocery departments in a public market, then each grocer shall use only his own total sales.)

Sec. 4b How to find annual gross sales volume. (1) To find annual gross sales volume, the retailer uses the total sales shown on his 1941 Federal Income Tax return. If a 1941 return was not filed separately for each retail store or outlet, then the total sales of each retail store or outlet, as shown by the retailer's records for the taxable year 1941, shall be used.

(2) A retailer who filed no return for 1941 or who started in business in 1942 (or in 1943), shall use the total sales as shown by his records for the period in operation in 1942 (or in 1943 if not in operation in 1942).

(3) If a retailer was in business during a fraction of a year only, (as where a retailer has started in business during 1943) he shall divide the total sales for the period of operation by the number of weeks in operation during that year and multiply the result by 52.

Sec. 4c Applicability of General Order No. 51. This order incorporates all the provisions of General Order No. 51, issued by the Office of Price Administration, Washington, D. C.

Sec. 5 Revocation. This order may be revoked, modified or amended by any subsequent order issued by the Los Angeles District Office of the Office of Price Administration. This order supersedes any order or regulation heretofore issued, which is inconsistent with the provisions hereof.

Sec. 6 Effective date. This order becomes effective on Monday, May 10, 1943.

Sec. 7 Appendix A: List of community (dollars-and-cents) ceiling prices established by this order. The following is a list of the food items and the community ceiling prices thereof:

[Los Angeles Order 2, Under Gen. Order 51]

COMMUNITY CEILING PRICES IN LOS ANGELES METROPOLITAN DISTRICT

SECTION 1 Scope of this order—(a) What this order does. In accordance with the provisions of General Order No. 51, this Order No. 2 establishes in section 7, community (dollars-and-cents) ceiling prices for certain food items when sold in the "Los Angeles Metropolitan Market District." That district is defined in paragraph (d) of this section 1. This order governs only the food products, grades, brands, sizes or container types specifically named in section 7. It governs any retailer, of any class for which a specific price is given in section 7, who sells any food product, grade, brand, size or container type named in this order.

For each item named, this order fixes the exact and permanent ceiling prices

for each class of retail store listed after that item. These will be the only ceiling prices on each item for the classes listed. This order supersedes, for the items and sellers covered hereby, the provisions of Maximum Price Regulations No. 238 and No. 268, under which regulations a seller might have been obliged to recalculate periodically certain ceiling prices. Since these community (dollars-and-cents) ceiling prices replace the former maximum prices so computed, no recalculation of a ceiling price established by this order, is now permitted.

Furthermore, the highest price fixed for any food item named in this order, is the absolute maximum price which any retailer, (whether listed herein or not) may charge for that product.

A retailer, who sells an item named herein, may belong to a class of seller for which this order does not give a price on that particular product. In such a case, that retailer must calculate his ceiling price for that commodity under the applicable regulations of the Office of Price Administration. He may not charge more than his ceiling price so computed, and in any event, he may not charge more than the highest price quoted in this order for that item.

(b) *Application to retail route-sellers.* This order shall not apply to retail route-sellers.

(c) *Food items not covered.* All food items, grades, brands, sizes and container types not mentioned in section 7 shall be sold at prices no higher than the ceiling prices permitted under applicable regulations of the Office of Price Administration.

(d) *Area covered by this order.* This order shall apply only to sellers within the "Los Angeles Metropolitan Market District."

The "Los Angeles Metropolitan Market District" consists of the following portions of Los Angeles, San Bernardino and Orange counties:

(1) That portion of Los Angeles County bounded on the south by the Pacific Ocean, on the west by the city limits of the City of Los Angeles, on the north by the city limits of the City of Los Angeles and the southern boundary of Angeles National Forest, and on the east by the western boundaries of San Bernardino and Orange counties, (but not including Santa Catalina Island);

(2) That portion of San Bernardino County included in the Township of Ontario, the City of Upland and the community of Chino;

(3) That portion of Orange County included in the Townships of Seal Beach, Huntington Beach, Newport Beach, Anaheim, Fullerton and Brea, and that portion of the Townships of Santa Ana and Tustin lying west of Newport Avenue and that portion of Orange Township lying west of a line running due north and south through the intersection of Newport Avenue and Crawford Canyon Road.

The "Los Angeles Metropolitan Market District" includes all the unincorporated areas as well as all the incorporated cities lying within the area described above. The incorporated cities are as follows:

Chino.	Newport Beach.
Claremont.	Ontario.
Compton.	Orange.
Covina.	Palos Verdes Estates.
Culver City.	Pasadena.

The communities located in unincorporated areas within the "Los Angeles Metropolitan Market District" are covered by this order although not listed herein by name.

SEC. 2 *Relation of this order to other orders and regulations.* (a) This order incorporates all the provisions of General Order No. 51 issued May 6, 1943 by the Office of Price Administration, Washington, D. C.

(b) This order incorporates by reference all prices listed for the food products named in Order No. 1, issued May 8, 1943, as corrected May 14, 1943, which order was effective on May 10, 1943. But this Order No. 2 replaces and amends all terms and provisions of order No. 1 other than the prices listed therein, which prices are hereby reissued as a part of this order.

(c) This order may be revoked or changed by any later order or regulation issued by the Office of Price Administration. This order replaces any order or regulation already issued which is inconsistent with its provisions.

SEC. 3 *Posting—(a) Selling prices.* All retail stores, regardless of class, and regardless of whether their prices are fixed by this order, must post their selling prices for each food item listed in section 7, either on the item itself, or at the place, or near the place, where such food item is offered for sale.

(b) *Ceiling prices.* In addition, all sellers, whose prices are fixed by this order, must post in a conspicuous place in the store, the full list of ceiling prices given in section 7, as soon as such list can be secured from the Office of Price Administration. A copy of this order, containing that list, must be secured by each retailer from his own War Price and Rationing Board.

The ceiling prices of items not covered by this order must be posted by all sellers whenever required by other applicable regulations. Sellers of a class whose price for any item is not specified by this order must continue to post the ceiling price for that item when required to do so by any applicable regulation.

(c) *Class of store.* All retail stores selling any of the food items listed in section 7 must post a sign indicating the class of store, such as "OPA-1", "OPA-2",

"OPA-3", or "OPA-4", whichever applies, in such manner that the sign can be clearly seen by the customers.

SEC. 4 *Definitions—(a) Classes of retail stores.* "Class 1" (OPA-1): Independent retail stores with annual gross sales of less than \$50,000.

"Class 2" (OPA-2): Independent retail stores with annual gross sales of \$50,000 or more, but less than \$250,000.

"Class 3" (OPA-3): Chain retail stores with annual gross sales of less than \$250,000.

"Class 4" (OPA-4): Any retail store (independent or chain) with annual gross sales of \$250,000 or more.

(b) "Independent retail store" means a retail store which is not one of a group of four or more stores under one ownership whose combined annual gross sales are \$500,000 or more. Thus, "independent retail stores" includes each unit in a group of two or three retail stores regardless of the annual gross sales for the group. It also includes each unit in a group of four or more retail stores, provided the gross annual sales of the group do not exceed \$500,000.

(c) "Chain retail store" is a retail outlet which belongs to a group meeting both of the following requirements: (1) the group consists of four or more stores under one ownership, and (2) the group had combined annual gross sales of \$500,000 or more.

(d) "Sale at retail" means a sale to an ultimate consumer other than to a commercial, industrial or institutional user.

(e) "Retail route seller" means a retailer who sells food products from an inventory stocked in trucks or other conveyances operated by driver-salesmen over regular routes. A retailer is a "retail route-seller" only of the food products he sells in this way.

SEC. 5 *How to find annual gross sales.* (a) A retailer's annual gross sales shall be his total sales for the calendar year 1942. A retailer may use his Federal Income Tax Return to get his total sales for 1942.

(b) If a retailer was not in operation during the entire year 1942, he must divide his total sales for the period between the date he started operations and May 10, 1943, by the number of weeks in that period. This will give the retailer his average weekly sales. He then multiplies that figure by 52; the result is his annual gross sales.

(c) A retailer who started business during 1943 (but before May 10, 1943), shall divide his total gross sales for the period prior to May 10th by the number of weeks actually operated before May 10th. He then multiplies this weekly average by 52; the result will be his annual gross sales.

(d) If a retailer makes sales through more than one store, then each individual store is a separate retailer for the purposes of figuring annual gross sales.

(e) In determining annual gross sales, the total annual sales of all food departments in each retail store shall be included, whether or not all such departments are owned or operated by the same person. (For example, a retailer who operates a grocery department in a retail store must include the annual

All interested persons are referred to the said declaration which is on file in the office of the said Commission for a statement of the transaction therein proposed, which is summarized below:

General Gas & Electric Corporation, a subsidiary of Denis J. Driscoll and Wil- lard L. (3) Whether the proposed action to be taken complies with the provisions of the Public Utility Holding Company Act of 1935 and all rules and regulations promulgated thereunder and is not detrimental to the public interest or the interest of investors and consumers.
