PHILADELPHIA

3195 Three Maule Quality Vegetables

No vegetable garden is complete without these three outstanding Maule vegetables. Their quality has made them famous everywhere. We will send one packet each (a value of 35¢), postpaid, for **20¢**

Carrot
145 Maule's Golden Rod

A most popular Carrot, with tasty, sweet, and fine grained flesh. A very productive variety of the greatest uniformity. See page 21.

Pkt. 10¢; oz. 20¢.

VEGETABLE SEED TRIALS HORTICULTURE

FEB 18 1933

Sweet Corn
205 Maule's Colossal Early

Perfect ears produced 70 days after planting. Of a quality that cannot be excelled. Large, sweet, delicious kernels. Fully described on page 27.

Pkt. 15¢; ½ lb. 25¢; lb. 45¢.

Beet
66 Maule's Blood Turnip

Perfectly round, large roots of deepest crimson-red color. Fine grained, tender, sweet, deep red flesh, retaining its color well after cooking. See page 14.

Pkt. 10¢; oz. 20¢.

The illustration shows several green pea pods, some open to reveal the peas inside, and a large, vibrant red tomato with a green stem and leaves. A slice of the tomato is shown above the whole one, revealing its internal structure.

Tomato
652 Maule's Success

Beautiful bright red fruits with a smooth, evenly colored skin. Matures in 110 days. Exceptionally meaty, with few seeds, and of choice eating quality. Firm without being hard. See page 51.

Pkt. 10¢; ½ oz. 25¢; oz. 40¢;
¼ lb. \$1.20; ½ lb. \$2.20; lb. \$4.00.

Pea

488 Earliest of All

An extra-early, smooth-seeded Pea of unusual quality. Ready for picking in 45 days. Grows 30 in. tall. See page 42.

Pkt. 10¢; ½ lb. 25¢; lb. 35¢; 2 lbs. 65¢;
5 lbs. \$1.30.

The illustration shows a whole yellow onion with a green leaf and a sliced cucumber showing its internal seeds and green flesh.

Cucumber

252 Maule's Early White Spine

Beautiful dark green fruits with white, icy, crisp flesh. Matures in 58 days. Productive, and of highest quality. See page 28 for a complete description.

Pkt. 10¢; oz. 15¢; ¼ lb. 45¢;
½ lb. 70¢; lb. \$1.15.

Onion

441 Maule's Prizetaker

Handsome large Onions with bright clear strawy yellow skin and pure white, sweet flesh. Matures in 100 days. It is fully described on page 38.

Pkt. 10¢; oz. 25¢; ¼ lb. 70¢;
½ lb. \$1.10; lb. \$1.90.

**3197 Collection of Four
Maule Specialties**

One packet each of the four specialties on this page (value 40¢) for **25¢**

1877 This is the Fifty-Sixth Annual Issue 1933
of the

Maule Seed Book

We know that you want to economize this year and that is the very reason why you should plant Maule's Seeds. They will give you bumper crops. If you have planted Maule's Seeds before you know that there are none better, and you also know that your order will have our best attention and will be shipped promptly—within 24 hours after it has been received.

There are many improvements in this Maule Catalog that will help you to select the best varieties suited for your purpose. Thanking you for the orders sent us in 1932, and assuring you that we are as anxious as ever to serve you in 1933, we are always yours to command.

If you grow for market you will be interested in our special wholesale price list. Send a postcard for your copy.

Wm. H. Maule

New Low Prices for 1933

Seed prices are lower this year than they have ever been before. Maule's Seeds are just as reliable as always. We spend a lot of money testing our seeds and selecting the right strains. Our prices are as low as it is possible to make them. Quality has never been sacrificed for price.

You can, of course, buy cheaper inferior seeds, but no matter how much you pay, you cannot buy better seeds than Maule's.

We Pay the Postage

Maule pays the postage on practically everything the home gardener requires. All flower seeds are postpaid in any quantity. So are vegetable seeds in any quantity up to 10 pounds of a kind. Postage is also paid on other merchandise in average quantities. On larger quantities listed "Not Prepaid" the purchaser pays the transportation charges.

Seed Value

There are few, if any, other commodities that you can buy from which you will get, dollar for dollar, more value and satisfaction than from seeds. This is especially true of Maule's Seeds at their new low prices.

Save More Money

Take advantage of these special offers.

For \$1.00 you may select any

- 25 five-cent packets, or
- 13 ten-cent packets.

For 50c you may select any

- 12 five-cent packets, or
- 6 ten-cent packets.

Your selection may be either flowers or vegetables, or both.

A Gift to All Our Friends and Customers

**Maule gives you
FREE
Giant Strawflowers**
(Helichrysum monstrosum)
1378 All Colors Mixed

We are going to make you a present of one of our best Everlasting flowers—Maule's Giant Strawflowers, All Colors Mixed. Even if you don't buy a thing, we want to give you a

**Regular Full-Size
10¢ Packet—FREE**

Strawflowers are easy to grow and make a wonderful display in the garden from mid-summer until frost. They are excellent for winter bouquets. The large double blooms retain their bright colors for years, and the glossy surface of the flower petals always looks neat and clean. For winter use, cut the blooms before they reach full size, and hang them heads down in a cool, airy, shady place until thoroughly dry. Maule's Giant Strawflowers contain many lovely colors, such as copper, crimson, golden yellow, pink, rose, salmon, violet, and also pure white.

**Maule Also Gives You
Free Gladiolus Bulbs**

*if your order amounts to
\$1.00 or more*

We want to show our appreciation to the many Maule customers who order large quantities of Vegetable and Flower Seeds from us.

With every order for \$1.00 or more, we will also send, entirely free, 2 big Bulbs of the lovely lavender Gladiolus, Berty Snow, worth 20c each—the famous prize-winning Gold Medal Gladiolus. If your order amounts to \$2.00, we give you 4 big Berty Snow Gladiolus free. If it amounts to \$3.00, we give you 6 big bulbs free, and so on. 2 big Berty Snow Gladiolus Bulbs free with each dollar's worth of Seeds or Bulbs you buy from Maule.

If our supply becomes exhausted later in the season, we will send another variety just as nice. Think of these long spikes of giant lavender blooms in your flower garden, and in bouquets, and the bulbs will multiply to give you added pleasure from year to year.

Make out your order NOW!

How to Order

Write plain, or better print your full name and address in the space provided for on the order sheet, giving us all information asked. This is important to insure prompt service. Write in the space "Amount Enclosed" the exact amount you remitted. See to it that it corresponds with the total value of your order, or, in case of C. O. D. shipments, that it represents one-fourth of the total value. Write down the number or name of the kind of goods desired or, better yet, give both. Be sure to write plainly the quantity of each item ordered. We pay the postage on everything in this catalog except where quoted "Not Prepaid."

Our terms are cash with order, but if you want the goods sent by parcel post C. O. D. or express C. O. D., or freight, sight draft, bill of lading attached, one-fourth of the amount should accompany the order. Plants and nursery stock cannot be sent C. O. D. All C. O. D. charges must be assumed by the customer. We cannot accept Canadian and foreign postage stamps. If you send cash or U. S. postage stamps, be sure to register your letter.

*Use the Order Blank
in the back of this catalog*

Maule's Famous Lawn Grass Mixtures

891 Maule's "Extra Quality" Lawn Grass Mixture

Unsurpassed for a velvety green, deep sod that will be permanent and showy throughout the spring, summer, and fall. Contains only the finest grasses suited for making a beautiful lawn.

No matter how beautiful your borders or shrubs, the general appearance of your home grounds depends primarily upon the condition of your lawn. We know that this special mixture, which has been carefully compounded, will give the kind of lawn which every home owner is proud to have. It contains the very finest grasses for lawn making and is free from common grasses which make tough blades or are inclined to form unsightly clumps. It also contains a small quantity of white clover which is desirable to have in the lawn because it helps thicken the sod and grows well together with the lawn grasses we have included. The experience of thousands of our customers is definite proof that Maule's "Extra Quality" Lawn Grass seed is as good a mixture as can be had anywhere at any price.

½ lb. 30c; 1 lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid.

Not prepaid: 15 lbs. \$4.50; 25 lbs. \$7.25; 50 lbs. \$14.25; 100 lbs. \$28.00; 250 lbs. \$67.50; 500 lbs. \$125.00.

884 Quick Results Lawn Grass Mixture A Rapid Growing, Velvety Grass

We recommend this mixture to all gardeners who want a beautiful effect in the shortest time possible. Besides the grasses which are suited for this purpose, we have included enough seed of others to insure permanent results to last as long as you take care of the lawn. You may expect to cut your lawn for the first time about 2 weeks earlier from this than from any other grass seed mixture. It is particularly adapted for late spring and summer sowing.

½ lb. 25c; 1 lb. 35c; 2 lbs. 65c; 5 lbs. \$1.50; 10 lbs. \$2.75, postpaid.
Not prepaid: 15 lbs. \$3.60; 25 lbs. \$5.75; 50 lbs. \$11.25; 100 lbs. \$22.00; 250 lbs. \$52.50; 500 lbs. \$100.00.

886 Maule's "Steep Slope" Lawn Grass Mixture A Lasting Grass, Specially Adapted for Embankments and Terraces

In order to establish a good sod on slopes, embankments, and terraces it is most essential that the grasses sown are deep rooting in order to hold the soil in place. This mixture has been compounded with this point in view. It contains only typical lawn grasses which have long, spreading root growth and will withstand considerable heat and dry weather. To prevent washing after the seed is sown, cover the bank with burlap or cloth until the young seedlings have taken hold of the soil. ½ lb. 30c; 1 lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. Not prepaid: 15 lbs. \$4.50; 25 lbs. \$7.25; 50 lbs. \$14.25; 100 lbs. \$28.00; 250 lbs. \$67.50; 500 lbs. \$125.00.

885 Maule's "Shady Lawn" Grass Mixture Flourishes under Trees or in Shady Nooks

Nothing spoils the good effect of an otherwise fine green lawn than bare spots in shaded corners or under trees. Using this grass mixture will help you considerably to do away with these unsightly sections as the grasses we have included in this mixture are naturally adapted for growing in semi-shaded positions. Proper preparation of the soil, an ample supply of plant food, and regular watering may be needed if natural rains do not reach the shaded spots in abundance.

½ lb. 30c; 1 lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid.
Not prepaid: 15 lbs. \$4.50; 25 lbs. \$7.25; 50 lbs. \$14.25; 100 lbs. \$28.00; 250 lbs. \$67.50; 500 lbs. \$125.00.

887 Maule's "Sunny South" Grass Mixture Especially Suited to Hot Climates

This mixture is adapted to our southern states where the ordinary lawn grass mixtures will not succeed sufficiently well to provide an even, smooth, rich green lawn. It is suited for growing in the South only as it contains southern grasses that will give a good sod even during the hot summer weather provided the lawn is watered liberally.

½ lb. 25c; 1 lb. 35c; 2 lbs. 65c; 5 lbs. \$1.50; 10 lbs. \$2.75, postpaid.
Not prepaid: 15 lbs. \$3.60; 25 lbs. \$5.75; 50 lbs. \$11.25; 100 lbs. \$22.00; 250 lbs. \$52.50; 500 lbs. \$100.00.

The Best New Vegetables for 1933

48 Bush Bean Stringless Tendergreen

(42 days) We highly recommend to you this most delicious new string bean which has proved to be of exceptional fine quality and most delightful, mild bean flavor. The pods are very attractive. They are long, fully round and exceptionally meaty. They are six inches long, always stringless and of a bright green color. Very productive. Pkt. 15c; 1/2 lb. 25c; 1 lb. 40c; 2 lbs. 70c; 5 lbs. \$1.30; 10 lbs. \$2.40, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

121 Cabbage—Marion Market

(85 days) This new early cabbage is not unlike the popular Copenhagen Market but matures about 10 days later. The heads also are of larger size. Beside its usefulness for growing in any good soil, it will be found of exceptional value on land which is infected with the "cabbage yellows," because Marion Market is exceptionally resistant to the "cabbage yellows." The large heads are round and extremely solid. They will yield as much as 26 tons per acre. Pkt. 15c; oz. 55c; 1/4 lb. \$1.70; 1/2 lb. \$3.15; 1 lb. \$5.75; 2 lbs. \$10.70; 5 lbs. \$25.85; 10 lbs. \$48.85.

640 Squash—Zucchini

(55 days) This new squash has already become very popular. It produces a great quantity of short, blocky fruits of the Cocozelle type. The fruits measure 13 to 14 in. in length. They have a dark green skin which shows lighter markings and stripes of green when fully matured. Of delicious sweet flavor. Pkt. 10c; oz. 15c; 1/4 lb. 45c; 1/2 lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

233 Sweet Corn—"Burbank" World Wonder (59 days)

Mr. Burbank worked for many years on this excellent sweet corn which has the quality of Burpee's Golden Bantam but excels it by having ears which measure close to 7 1/2 in. in length. The kernels are deep and broad leaving only little room for the small cob in the center. Burbank's World Wonder sweet corn will mature in 59 days and is therefore an extra early variety. The deep golden kernels are very sweet. Pkt. 20c; 1/2 lb. 40c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.00, postpaid.

170 Cauliflower—Super Snowball

(90 days) If you want to have the finest cauliflower that can be had anywhere, select Super Snowball which represents the latest word in quality cauliflower. Praised everywhere for its extreme earliness, most attractive appearance, and dependability to form well-rounded, solid, white heads composed of a compact, smooth, even, pure white curd. It is so superior to all other varieties of cauliflower that in our trials visitors picked it out from all others and admired it for its splendid appearance and uniformity. The quality is truly superb. Pkt. 25c; 1/4 oz. \$1.10; 1/2 oz. \$1.80; oz. \$3.30; 1/4 lb. \$10.00; 1/2 lb. \$18.25; 1 lb. \$33.00.

Sweet Corn 232 Gill's Early Market

(60-day-Make-Good) You will be very much impressed with this early white sweet corn which has ears 8 in. long, closely set with 12 or 14 rows of large, pure white kernels of most superb sweet and rich flavor. No other early sweet corn can compare with this in size and quality. Its earliness will appeal particularly to those who grow for market though home gardeners benefit equally as well from this great advantage. Pkt. 10c; 1/2 lb. 25c; 1 lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

230 Whipple's Early Yellow

(70 days) Here is a new early yellow sweet corn of exceptional merit. The plants will grow about 6 ft. tall and produce large attractive ears which measure 7 to 8 in. in length. They are closely set with broad, deep, golden yellow kernels which contain a large quantity of luscious sweet pulp. Matures about 3 days after Golden Bantam. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

231 Whipple's Early White

(70 days) Strong, sturdy plants 5 to 6 ft. tall often producing 2 fine ears per plant. The ears are 8 in. long and are thickly set with 16, 18, and often 20 rows of rather narrow wedge-shaped grains which are pure white and exceptionally sweet. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

231 Sweet Corn Whipple's Early White

48 Bush Bean
Stringless
Tendergreen

72 Beet
Ohio Canner

170 Cauliflower
Super Snowball

72 Beet—Ohio Canner

(60 days) While this variety has been improved principally for the purpose of canning, it nevertheless represents a most valuable variety for home gardeners and market growers who cater to a select market. The shape of the beets is round or slightly flattened. The foliage is reddish green and somewhat smaller than that of Detroit Dark Red. The very dark red skin is exceptionally smooth. The color of the flesh is the darkest of any beet of this type showing hardly any zones at all. It is a late beet maturing 10 days after Detroit Dark Red. Pkt. 15c; oz. 25c; 1/4 lb. 70c; 1/2 lb. \$1.10; 1 lb. \$1.90; 2 lbs. \$3.50; 5 lbs. \$8.35; 10 lbs. \$15.20.

The Best New Vegetables for 1933

518 Pea—Onward

(68 days) Few new peas ever introduced have shown such a decided improvement over the older varieties than this marvelous new second-early variety which will mature just a few days ahead of Telephone. It is an exceedingly heavy cropper making a vigorous vine growth, 3 ft. tall. The foliage is a bright medium green whereas the pods are a very dark green. The pods measure 4 in. long. They are broad and distinctly blunt ended as shown in the illustration below. Each pod contains 6 to 8 beautiful large, round, deep green peas of most attractive appearance. They are deliciously sweet. Pkt. 10c; ½ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

518 Pea, Onward

248 Cucumber—Longfellow

(70 days) Every grower knows how much attractiveness means in a cucumber but that is only one of the reasons why Longfellow will become very popular as soon as it is better known. The other reasons are to be found in its excellent quality. The fruits measure 12 to 14 in. in length and they are about 2½ in. in diameter. They are therefore long and slender. The color of the skin is a beautiful and uniform rich dark green so much desired by those who send their cucumbers to market. It is suited for the home garden, for market growing, and also has proved of value for growing in the greenhouse. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; 1 lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

333 Lettuce—New York No. 12

(60 days) This selection from the original New York Lettuce represents a marked improvement over the popular older type. It makes very large heads of a beautiful dark rich green color. Under favorable conditions the heads become extremely solid and heavy. This variety has shown to be well adapted for growing successfully along the Atlantic coast and in the eastern portion of the United States generally. It is remarkable for its uniformity, large size, sureness of heading, and attractive appearance. The heart of the tightly folded head is a beautiful white. White seeded. Pkt. 10c; oz. 30c; ¼ lb. 80c; ½ lb. \$1.20; 1 lb. \$2.15; 2 lbs. \$4.00; 5 lbs. \$9.65; 10 lbs. \$18.25.

671 Tomato—Oxheart

(120 days) Size is one of the most important factors in tomatoes and that accounts for the popularity which Oxheart has obtained since it was introduced. It is positively the largest of all tomatoes, bearing a truly enormous crop of solid, fleshy, juicy fruits which have a beautiful purple-pink skin. Grown under good conditions the individual fruits will weigh a pound and a half each. Oxheart tomatoes are easily recognized by their shape which is distinctly that of an ox-heart. The fruits show very few small seed cells and are all meat throughout. We highly recommend it for home gardeners and for market sale. Pkt. 15c; ½ oz. 50c; oz. 90c; ¼ lb. \$2.90; ½ lb. \$5.35; 1 lb. \$9.75; 2 lbs. \$18.15; 5 lbs. \$43.85; 10 lbs. \$82.85.

524 Sugar Pea—Maule's Giant Sugar Pod

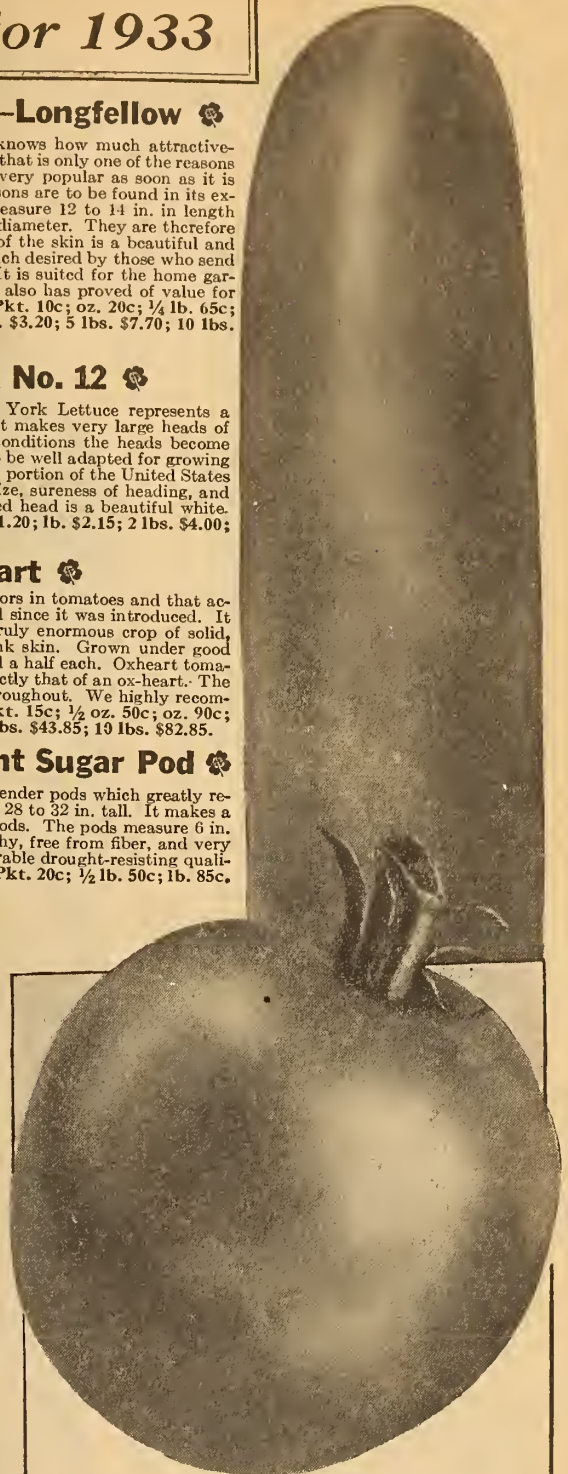

(65 days) This belongs to the type of peas with tender pods which greatly resemble string beans in flavor. This new variety grows 28 to 32 in. tall. It makes a vigorous growth carrying a great quantity of paired pods. The pods measure 6 in. long and are about 1¼ in. broad. They are very fleshy, free from fiber, and very tender. It is a productive variety which has most desirable drought-resisting qualities. Matures 15 days earlier than any other variety. Pkt. 20c; ½ lb. 50c; 1 lb. 85c.

376 Muskmelon—Delicious

(70 days) This is an entirely new melon and should not be confused with an older melon carrying the same name. The fruits are not unlike Bender's Surprise but they mature considerably earlier. The thick, luscious, and sweet flesh is of a beautiful salmon color. The rind is greenish yellow when ripe. Pkt. 10c; oz. 25c; ¼ lb. 70c; ½ lb. \$1.10; 1 lb. \$1.90; 2 lbs. \$3.50; 5 lbs. \$8.35; 10 lbs. \$15.20.

376 Muskmelon, Delicious

Tomato

681 Pritchard or Scarlet Topper

(110 days) When a new tomato receives as much comment as this variety there must be something about it that places it in a class by itself. This variety was bred by the late Mr. Pritchard of the Department of Agriculture in Washington who succeeded most admirably in developing a prolific strain which produces large, solid fruits of an intense scarlet-red color. The tomatoes are round, perfectly smooth, and of handsome appearance. Pkt. 15c; ½ oz. 30c; oz. 55c; ¼ lb. \$1.65; ½ lb. \$3.00; 1 lb. \$5.50; 2 lbs. \$10.25; 5 lbs. \$24.75; 10 lbs. \$46.75.

Artichoke

2 Green Globe

Large, Productive, Choice Quality

This is the standard variety grown extensively for its buds or flower-heads which are highly esteemed in all the better class markets. They are a decided delicacy. Seed may be sown indoors, setting the plants outdoors, after all danger of frost is past, in rows 4 ft. apart and allowing 2 ft. between the plants. The plants are hardy, requiring winter protection in colder sections. They begin to produce with the second season and yield heaviest during the first two or three years. Cut the old plants back to the ground in the fall and mulch with 5 or 6 in. of coarse manure. For heavy crops it should be planted in a rich, moderately moist but well drained soil where it will yield throughout the season. Pkt. 15c; 1/2 oz. 30c; oz. 45c; 1/4 lb. \$1.40; 1/2 lb. \$2.60; lb. \$4.75.

Asparagus

CULTURE—Sow the seed early in the spring in drills an inch apart in the row and 2 to 3 ft. apart between the rows. Firmly cover the seed with one inch of fine soil. As soon as the young plants appear, begin shallow cultivation and keep free from weeds at all times. A packet will produce about 200 plants; one ounce about 750 plants; 4 to 5 lbs. of seed is needed per acre.

Asparagus roots should be planted in rows not less than 2 1/2 ft. apart, therefore requiring 100 roots for a patch 20 by 20 feet; 5,000 to 7,000 roots are needed to plant one acre. Asparagus does best in a deep rich moist sandy loam with good drainage, thoroughly enriched with well rotted manure and with repeated top dressings of fertilizers during the year.

4 Mary Washington Rust Resistant

The Newest Creation in Asparagus

A most remarkable Asparagus that has replaced all other varieties because it is practically free from rust and other diseases, yet it makes larger, thicker, and more uniform shoots of a beautiful rich green color with a heavy shading of rich purple at the tips. The tips or buds are pointed and tightly folded and do not branch out until well beyond market height. Makes a clean sturdy growth and produces the finest kind of green asparagus for both home use or market. Our strain of this foremost asparagus is unequalled in every way. Pkt. 10c; oz. 15c; 1/4 lb. 40c; 1/2 lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

69B56 One-year-old Roots of Mary Washington Asparagus. Highly recommended where high yield and permanency are the main object. 25 for 60c; 50 for \$1.00; 100 for \$1.75, postpaid. Not prepaid: 1,000 for \$9.00; 5,000 for \$40.00.

69B58 Two-year-old Roots of Mary Washington. These will stand cutting sooner than the one-year-old roots. 25 for 85c; 50 for \$1.50; 100 for \$2.50, postpaid. Not prepaid: 1,000 for \$10.00; 5,000 for \$45.00.

Asparagus Roots are out of season from June to October

50
Burpee's
Giant
Podded

Pole Lima Beans

CULTURE: Pole Lima Beans prefer a warm sandy loam soil enriched with well-rotted stable manure. Seed must not be sown until the ground is warm and moderately dry and the weather quite settled. The poles should be set not less than 4 ft. apart each way. Plant 4 to 6 beans around each pole, placing them with the eye downward to encourage quick germination. Cover the seed 2 in. deep with fine soil. When well started thin out the plants, leaving the two strongest ones to each pole. Cultivate freely. Keep free from weeds. Use a packet to 15 poles; 1 lb. to 50 poles; 40 lbs. per acre.

52 Maule's Evergreen

Retains its Rich Green Color (90 days)

This is a development made by a market gardener who had in mind a Lima Bean which would retain the rich green color of the seed when dry. We were the first to offer seed of this splendid variety to other growers. It makes a strong, robust, and vigorous vine which is very productive and has dry beans retaining the green color longer than any other variety we have ever seen. It is of superb quality and is as near perfection as ever obtained. Pkt. 10c; 1/2 lb. 25c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

50 Burpee's Giant Podded

Heaviest Cropping; Mammoth Pods (90 days)

Vigorous, quick-growing vines, producing an abundant supply of tender, tasty, buttery beans of extra large size. The mammoth pods measure 7 to 8 in. long and contain on the average five large, tender beans. Its vigorous growth and uniform productiveness makes stout, deeply set poles necessary. Pkt. 10c; 1/2 lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

53 King of the Garden

The Gardener's Favorite (90 days)

Large, numerous pods, well filled with mammoth size beans of excellent flavor. It is an old market sort of vigorous growth and immensely productive. The vines begin bearing near the ground and continue uninterrupted until frost. The well-filled pods are 5 to 7 in. long. Pkt. 10c; 1/2 lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

49 Burpee's Sunnybrook

The Earliest, Large-Podded Pole Lima (80 days)

Its extreme earliness and tremendous yield are the main features of this fine new Pole Lima Bean. Its quality is unsurpassed and its earliness will appeal to both the home gardener and market grower. Each pod contains 4 or 5 large, thick, meaty, light green beans. Pkt. 10c; 1/2 lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

57 Carolina or Sieva

Baby Lima or Butter Bean of the South (75 days)

Grows quickly, matures early, and is immensely productive. It is particularly adapted for planting in the South; also it does equally well in the North, especially in sections where early frosts will not permit other Lima Beans to mature a crop. An outstanding and most desirable characteristic is the continuity with which the pods are borne until frost. Pkt. 10c; 1/2 lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

Any thirteen	10-cent Packets for	\$1.00

Bush Lima Beans

CULTURE: Sow in drills 3 ft. apart, placing the seeds, eye downward, 18 to 24 in. apart in the row, or plant in hills 3 ft. apart each way, later thinning to allow one or two plants to each hill. A packet will plant about 25 ft. of row. One lb. is enough for 100 ft. of row. 25 to 30 lbs. of seed are needed per acre. Depending upon the variety, the pods will be ready for picking in 65 to 85 days after sowing. Lima Beans must not be planted until the soil is quite warm and moderately dry. In most sections they are planted about two weeks after the first sowing of string beans. The soil for Limas should be rich, well drained, and porous.

60 Improved Fordhook Bush Lima

Larger and Thicker Pods than the Famous Fordhook Bush Lima. Of True Bush Form (75 days)

Strong, erect, bushy plants with an abundance of large, rich green foliage protecting the blossoms and pods from direct sun. The mammoth pods contain 4 to 5 thick, meaty, plump, green beans of excellent flavor. The beans retain their green color for a long time. Very early. Pkt. 15c; ½ lb. 30c; 1 lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.10; 10 lbs. \$3.95, postpaid. Not prepaid: 15 lbs. \$5.25; 25 lbs. \$8.50; 50 lbs. \$16.50; 100 lbs. \$32.00.

58 Fordhook Bush

A true Bush Potato Lima. Thick, Meaty. Very Productive (75 days)

Strong, erect bushes bearing a large crop of pods 4 to 5½ in. long, 1¼ in. wide, and ¾ in. thick. Each pod contains 3 to 5 large, luscious, green beans. The pods are borne in clusters. Pkt. 10c; ½ lb. 30c; 1 lb. 50c; 2 lbs. 95c; 5 lbs. \$2.00; 10 lbs. \$3.75, postpaid. Not prepaid: 15 lbs. \$4.95; 25 lbs. \$8.00; 50 lbs. \$15.50; 100 lbs. \$30.00.

61 Wood's Prolific

The Earliest of All (65 days)

Extremely prolific, of true bush form, and very early. Small pods, each containing 3 to 4 small delicious beans. Valuable for use when fresh or dried for winter. Pkt. 10c; ½ lb. 25c; 1 lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

62 Burpee's Bush

Beans as Large as Pole Limas. Luscious Quality. Very Productive (85 days)

The first large true Bush Lima ever developed. Bushes grow 18 to 20 in. tall and bear an abundance of erect, branching stems. Literally covered with large pods. The beans are large, attractive, and of very fine flavor. It is an immense yielder though the pods and individual beans are not quite so large as Burpee's Improved Bush Lima. Pkt. 10c; ½ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

64 Burpee's Improved Bush

Enormous Pods Filled with Luscious Sweet Beans (80 days)

Produces a magnificent crop of attractive large pods measuring 5 to 6 in. long and 1¼ in. wide. Compared with Burpee's Bush Lima, the pods are considerably larger and the individual beans—either green or dry—are nearly twice as thick. The sturdy bushes are loaded with pods. Well protected by the vigorous and heavy foliage. It also matures 5 to 10 days ahead of Burpee's Bush Lima Beans. The pods are borne in clusters of from 5 to 8 each. In fertile soil the individual bushes will grow to a height of nearly 30 in. and will spread as much as 2 ft. This vigorous growth should be taken into consideration when the seed is planted. We have an excellent strain of this most desirable Bush Lima Bean which we know will give an enormous yield of large, luscious beans. Excellent for the home or market garden. Pkt. 15c; ½ lb. 25c; 1 lb. 45c; 2 lbs. 85c; 5 lbs. \$1.60; 10 lbs. \$3.05, postpaid. Not prepaid: 15 lbs. \$3.75; 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

60 Improved Fordhook

Maule's Four-Leaf Clover

For Good Luck

A helpful Guide to New and Old Gardeners

We are using in this catalog the Maule Four-Leaf Clover Mark on all varieties of Vegetable seeds which we consider best. All are standard or new varieties proven for their merit. If you are in doubt as to which to choose, we suggest that you make your selection from the varieties which we have marked with the Four-Leaf Clover.

Dwarf Shell or Field Beans

CULTURE: Sow the seed anytime from May until July 10 in drills 2 to 3 ft. apart, placing the beans 2 to 3 in. apart. Cover 2 in. deep. The dry beans will reach maturity in about 60 to 65 days. A packet of seed will sow about 25 ft. of row. Use 1 lb. for 200 ft. of row; 30 to 45 lbs. per acre. Field beans often show a tendency to send out runners or trailers.

21 Robust Pea Bean

(60 days) A standard variety for winter use. An improved white field bean which has completely taken the place of the Boston Pea and Burlingame Medium. A heavy yielder, disease resistant, strong growing, and most productive. The pods are carried well above the ground ripening into dry, pearly white beans. Pkt. 10c; ½ lb. 25c; 1 lb. 30c; 2 lbs. 50c; 5 lbs. \$1.00; 10 lbs. \$1.75, postpaid. Not prepaid: 15 lbs. \$1.80; 25 lbs. \$2.75; 50 lbs. \$5.00; 100 lbs. \$9.00.

15 Red Kidney

(60 days) A good, old-fashioned baking bean. Produces large flat green pods well filled with large red kidney-shaped beans of rich flavor. A heavy yielder. It is one of the largest of all baking beans. Splendid for home use and for sale. Pkt. 10c; ½ lb. 25c; 1 lb. 30c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95, postpaid. Not prepaid: 15 lbs. \$2.10; 25 lbs. \$3.25; 50 lbs. \$6.00; 100 lbs. \$11.00.

24 White Marrowfat

(65 days) The most popular large white shell bean. Matures quickly and produces an enormous crop of large white beans of excellent quality. A most reliable variety. Pkt. 10c; ½ lb. 25c; 1 lb. 30c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95, postpaid. Not prepaid: 15 lbs. \$2.10; 25 lbs. \$3.25; 50 lbs. \$6.00; 100 lbs. \$11.00.

24 White Marrowfat

Bush Beans

with Green Pods

CULTURE: Seed of these beans must not be sown until the ground has warmed up and all danger of frost is past. Sow in drills 18 to 30 in. apart and cover the seed with 1 to 2 in. of fine soil. Within the rows the seeds should be placed 2 to 3 in. apart. For a succession of tender flavorful pods, sow every two weeks until early September. One packet will sow about 25 ft. of row. Use one lb. to 100 ft. of drill or 60 lbs. per acre. The dwarf string beans are among the easiest crops to grow, requiring little care beyond good tillage. Give frequent and shallow cultivation to preserve the soil moisture but never touch the foliage while wet with dew to prevent the spread of disease germs. For the Mexican Bean Beetle, dust or spray with Slug Shot or Mexogen.

14 Burpee's Stringless

14 Burpee's Stringless Green-Pod

One of the Earliest, Round-Podded, Always Stringless (42 days)

No other bean in existence has gained such world-wide recognition as this outstanding green-podded variety. Excelled by none in quality and productiveness. The large, round pods are slightly curved, extremely fleshy, and substantial. Under average conditions the pods grow 5 in. long. They are a rich green color, very tender, altogether free from fiber or strings, and of a most delicious flavor. Unexcelled for home use or for market. The seeds are of medium size and brown in color. Pkt. 10c; 1/2 lb. 25c; 1b. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.00; 100 lbs. \$13.00.

16 Fordhook Favorite

16 Fordhook Favorite

A Superb Stringless Tender Snap Bean with Pure White Seeds;

Excellent for Winter Use (42 days)

This is a most popular, absolutely stringless, green-podded bush bean with white seeds that can also be used for baking or for soup during the winter months. The bushes grow from 18, to 20 in. high and are covered with rich green foliage. They produce an enormous yield of beautiful stringless pods. The meat is brittle, tender, and very juicy. The pods measure 5 1/2 to 6 in. in length and they are so fleshy as to be nearly round, measuring 1/2 in. wide and 1/2 in. thick. If the pods are kept picked continuously before they reach full size, the plants will continue bearing for a long period. Like most white-seeded beans, the seeds should not be planted until the ground has warmed up. Pkt. 15c; 1/2 lb. 25c; 1b. 45c; 2 lbs. 80c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

12 Bountiful

A Continuous Cropper; Tender and Stringless (42 days)

This is the best of all flat-podded stringless varieties, and is unexcelled for growing on lighter types of soil. It is a hardy, extremely early, and very prolific bean which will bear continuously for many weeks. The green pods are large, flat, solid, meaty, stringless, and of a delicious mild bean flavor. Pkt. 10c; 1/2 lb. 25c; 1b. 40c; 2 lbs. 65c; 5 lbs. \$1.20; 10 lbs. \$2.15, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.00; 100 lbs. \$13.00.

11 Black Valentine

(42 days) Early, hardy, long, straight, round pods. A heavy yielder that can withstand light early and late frosts which would kill most other varieties. Stringy, fibrous pods of dark green color. Popular in the South. A fine, blight resistant, long distance shipper. Black, medium size seeds. Pkt. 10c; 1/2 lb. 25c; 1b. 35c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95, postpaid. Not prepaid: 15 lbs. \$2.10; 25 lbs. \$3.25; 50 lbs. \$6.00; 100 lbs. \$11.00.

8 Stringless Black Valentine

A Beautiful, Perfectly Stringless Strain; Exceptional Quality (42 days)

This new variety completely eliminates the undesirable feature of the old Black Valentine because the handsome, deep green pods are absolutely stringless and free from any fiber. It will quickly replace the old variety and we urge you to give it a trial to convince yourself of its merits. Its hardiness, good appearance, and prolificness have not been impaired in any way by the elimination of the strings. Pkt. 15c; 1/2 lb. 25c; 1b. 40c; 2 lbs. 70c; 5 lbs. \$1.30; 10 lbs. \$2.40, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

19 Maule's King of the Earlies

Very Early, Hardy, and Attractive (42 days)

This is a most excellent variety in every way. Its quick maturity is a most desirable feature of particular value to market growers. The plants are hardy and productive, being simply covered with large, handsome beans of excellent quality, but having slight strings. It withstands light frosts exceptionally well and is, therefore, particularly valuable for early as well as for late planting in all sections of the country. Its attractiveness makes it most desirable for market sale and it also is an excellent long distance shipper. The seeds are black. Pkt. 10c; 1/2 lb. 25c; 1b. 35c; 2 lbs. 55c; 5 lbs. \$1.15; 10 lbs. \$2.05, postpaid. Not prepaid: 15 lbs. \$2.25; 25 lbs. \$3.50; 50 lbs. \$6.50; 100 lbs. \$12.00.

6 Dwarf Horticultural

Excellent Either as a Snap or Shell Bean (60 days)

This is also known as Cranberry or Italian Bean. It is a splendid, true bush variety with large green pods which are splashed with carmine as they reach maturity. When at the snap bean stage, the pods are almost stringless and have an excellent mild bean flavor. Shell beans are ready for use about 10 days after the snap pods have passed their prime. Pale buff seeds mottled with pink. Pkt. 10c; 1/2 lb. 25c; 1b. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

12 Bountiful

13 Earliest Improved Valentine

13 Earliest Improved Valentine

An Excellent Early Standard Variety of Quick Maturity (40 days)

Our perfected strain of this famous, green-podded bush bean has been a great favorite with gardeners everywhere for many years. It has full, meaty, round pods which are as attractive as they are tender and tasty. It is an ideal snap bean which sells well in the market. The plants grow 15 in. tall, and bear a great abundance of large attractive pods. The seeds are purplish pink, splashed pale buff. Though excellent, we believe that the stringless variety offered below will gradually replace it. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95, postpaid. Not prepaid: 15 lbs. \$2.10; 25 lbs. \$3.25; 50 lbs. \$6.00; 100 lbs. \$11.00.

36 Stringless Red Valentine

Perfectly Stringless at all Stages of Growth; Productive, Early, and Delicious (40 days)

This new bean has all the splendid characteristics of the Earliest Improved Valentine variety but is absolutely stringless at all stages of growth. The strong compact bushes bear an enormous crop of attractive round pods of the greatest uniformity. The pods are 4 1/2 to 5 in. long and about 3/8 inch thick. They are fine-grained, tender, and full of rich mild bean flavor. Its complete freedom from strings is a decided improvement. A desirable home garden variety, and also a basket filler for the market gardener. Pkt. 15c; 1/2 lb. 25c; 1 lb. 45c; 2 lbs. 70c; 5 lbs. \$1.30; 10 lbs. \$2.40, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

20 Keeney's Stringless Refugee

Attractive Brittle Pods; Perfectly Stringless (60 days)

A foremost green-podded bush bean of handsome appearance with round, green pods measuring 5 to 5 1/2 in. long and about 3/8 inch thick. They are brittle, tender, fleshy, and stringless at all stages of growth. Splendid for main-crop growing. For canning it has no equal, and it is grown extensively for pickling whole. The plants are large and consequently bear a tremendous crop of attractive pods. It differs mainly from the Round-Pod Refugee in being absolutely stringless. Medium-small seeds of light drab color mottled with dark violet-purple. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.00; 100 lbs. \$13.00.

20 Keeney's Stringless Refugee

5 Tennessee Green-Pod

(42 days) Sometimes called Dwarf Kentucky Wonder. Very early with remarkably large pods. This well-flavored snap bean is quite popular in the South and in other sections where it is grown widely for home use. The plants make a well-branched growth, carrying an enormous crop of large, dark green pods measuring 6 to 7 in. in length. They are about 3/4 inch wide and, therefore, quite flat. The pods are fleshy, brittle, and of fine flavor. As they reach full size they show signs of slight strings. The moderately large seeds are of a yellowish brown color. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 55c; 5 lbs. \$1.15; 10 lbs. \$2.05, postpaid. Not prepaid: 15 lbs. \$2.25; 25 lbs. \$3.50; 50 lbs. \$6.50; 100 lbs. \$12.00.

7 Round-Pod Refugee or 1000 to 1

An Enormous Yielder for Main Crop; Valued for Canning and Pickling (65 days)

A beautiful bean sometimes called Late Refugee, Round-Pod Refugee, and Improved Refugee. It is most popular with canning factories and for pickling. The plants are large, well branched and extremely prolific. The pods are round, almost straight, and of a medium green color. They are very uniform in size and shape, measuring 5 to 5 1/2 in. in length and about 3/8 inch thick. While young they are perfectly stringless but as they reach full size they develop slight strings. The flesh is thick, brittle, and fine grained. A favorite with many gardeners. The small seeds are light drab mottled with purple. Pkt. 10c; 1/2 lb. 25c; 1 lb. 30c; 2 lbs. 50c; 5 lbs. \$1.05; 10 lbs. \$1.85, postpaid. Not prepaid: 15 lbs. \$1.95; 25 lbs. \$3.00; 50 lbs. \$5.50; 100 lbs. \$10.00.

9 Full Measure

Handsome Long Straight Stringless Pods (45 days)

This magnificent bush bean produces long, round, dark green pods averaging 6 to 6 1/2 in. in length. They are quite round, measuring about 3/8 inch thick. Their complete freedom from strings places them in a class together with the finest bush beans in cultivation. Their rich, medium green color is most attractive, so that it sells well, particularly in all the better class markets. The flesh is thick, brittle, fine grained, tender, and juicy. The pods remain usable many days after they have reached maturity. Its blight resistant characteristic adds another most important feature. Brown seeds mottled with light yellowish drab. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.00; 100 lbs. \$13.00.

18 Longfellow

or French Stringless

(45 days) Perfectly round, green pods of fine quality. The flesh is tender, almost stringless, and of good color. The rich green pods measure 7 to 8 in. long and are borne on plants 14 to 16 in. high. Purplish pink seeds, mottled pale ochre-red. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95, postpaid. Not prepaid: 15 lbs. \$2.10; 25 lbs. \$3.25; 50 lbs. \$6.00; 100 lbs. \$11.00.

10 Mammoth Stringless Green-Pod

10 Mammoth Stringless Green-Pod

A Stringless Round-Podded Bush Bean, also known as Giant Stringless (45 days)

Handsome dark green, round pods measuring 6 to 6 1/2 in. in length and being so fleshy as to be almost double barreled. The plants make an erect and abundant growth, bearing a truly enormous crop of attractive beans. A quick basket filler suited for both market sale and home use. It is also a favorite with many canning factories. The flesh is brittle, juicy, and absolutely stringless. The seeds are a dark brownish yellow color. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95, postpaid. Not prepaid: 15 lbs. \$2.10; 25 lbs. \$3.25; 50 lbs. \$6.00; 100 lbs. \$11.00.

27 Maule's Improved Butter Wax

27 Maule's Improved Butter Wax Bush Bean

The Best Yellow Round-Podded Bush Bean for the Home Garden or for Market (40 days)

This is universally considered one of the very best "general purpose" beans and it is our best selling wax-podded bush bean. You will be delighted with its prolificness and quality. The yellow snap pods are medium to long, quite straight, round, and most attractive. They are straighter, more uniform in color and size, and more attractive than any other wax variety. There is no need for growing any of the old-fashioned beans with strings since Maule's Improved Butter Wax embodies all the good qualities of the older varieties combined with absolute freedom from strings or hard fiber. The luscious, yellow pods are borne prolifically all over the bushes. The plant has a marked resistance to rust and other diseases often affecting the yield of snap beans. White seeds with black eye.
Pkt. 15c; 1/2 lb. 25c; 1 lb. 45c; 2 lbs. 70c; 5 lbs. \$1.30; 10 lbs. \$2.40, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

52x10 Mexogen
KILLS AND REPELS MEXICAN BEAN BEETLES

Kills Mexican Bean Beetles

Certain sections of the country have, within late years, felt the ravages of the Mexican Bean Beetle which attacks the bean plants and eats away the fleshy parts of the plant, thereby ruining the crop. Both the soft, hairy larvae as well as the full-grown beetles can do a lot of damage. Mexogen will completely rid the plants of this pest. It is non-poisonous, and 1 quart makes 11 quarts of spray.
1/2-pt. can 85c; 1-qt. can \$2.15, postpaid. Not prepaid: By express or freight, 1-gal. can \$6.00.

Wax or Yellow-Podded Bush Beans

The culture of wax podded bush beans is the same as for the green-podded varieties. There are many markets where wax beans are great favorites and our list of varieties includes flat-podded as well as round-podded kinds. As a general rule, the flavor of wax beans is somewhat milder than that of the green-podded varieties. Their rich light yellow color also has a special appeal usually associated with the idea of tenderness and flavor. One packet will sow 25 ft. of row. One lb. for 100 ft.; 60 lbs. per acre.

33 Unrivalled Wax

Extremely Early with Creamy Yellow Wax Pods (38 days)

This attractive, wax-podded bean is the earliest maturing variety of bush beans. The plants are strong and sturdy. They are well branched and produce an enormous crop of beautiful, semi-transparent, pale yellow pods. They are almost straight, rather narrow, somewhat flattened but fleshy, and measure 5 to 5 1/2 in. long, maturing a very heavy first crop. The pods remain in tender condition for a long period and their flavor is excellent. The small flat kidney-shaped seeds are of an ochre-brown color.
Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

34 Admiral Togo Wax

The Greatest Rust-Resistant Yellow-Podded Bean (38 days)

This extremely early wax-podded bean produces handsome, light yellow pods 6 in. long. The plants are vigorous, hardy, and productive. The large oval-shaped pods are free from rust and other diseases. The snap beans are inclined to show some fiber and strings, but its extra-early maturity and resistance to rust makes it desirable for home and market use. Does well in all sections. Stands extremes of weather wonderfully. The seeds are glossy black. **Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.**

35 Improved Rust-Proof Golden Wax

A Strong Grower, Remarkably Productive (40 days)

This is an improved, early-maturing variety valued because of its freedom from rust and other diseases. The pods are of medium length, 4 to 5 in. long, nearly straight, flat, and of a beautiful, golden yellow color. The flesh is brittle, stringless, and of excellent quality. The plants are somewhat more compact and perhaps not quite as productive as the old Golden Wax but its disease resistance more than offsets this characteristic. The white seeds are mottled with fawn and magenta. **Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.**

31 Round-Pod Kidney Wax

Also Known as Brittle Wax. Beautiful Round Yellow Pods (42 days)

This desirable and superb wax bean ranks supreme amongst beans of this class. The plants grow quickly and bear a prolific crop of attractive pods. The beans measure 5 to 6 in. in length. They are thick, fleshy, very meaty, always brittle, tender, and never show even the slightest signs of any strings. The color is a beautiful, waxy, light yellow. It is truly unsurpassed, having a delicious mild bean flavor. The seeds are white with dark markings about the eye. **Pkt. 10c; 1/2 lb. 25c; 1 lb. 40c; 2 lbs. 70c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.**

31 Round-Pod Kidney Wax

Wax or Yellow-Podded Beans—Continued

29 Maule's Cracker Jack Wax Productive; Excellent Quality (45 days) The strong upright plants hold the pods well off the ground, protecting them from discoloration. The long, bright yellow pods resemble Wardwell's Kidney Wax in shape but they are somewhat thicker and more meaty though they are still flat. This prolific variety is valuable both for the home garden and for market use. The plants are large and thrifty. Pkt. 10c; ½ lb. 25c; 1b. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.00; 100 lbs. \$13.00.

30 Currie's Rust-Proof Wax Early, Hardy; Grown for Market (40 days) This is an early and very productive variety with pods measuring 5½ to 6 in. long and ½ in. wide. They are flat and straight. Their bright yellow color gives them an attractive appearance which helps them considerably as a market variety, though it is somewhat fibrous and stringy. An excellent long distance shipper. The seeds are black. Pkt. 10c; ½ lb. 25c; 1b. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

32 Maule's Profusion Wax Attractive, Round, Yellow Pods (60 days) A strictly stringless variety of unusual merit. Grown extensively in the home garden and for canning. The plants are literally covered with round beans of good size. If the pods are picked before they reach full size the plants will continue bearing for a long time. The abundant meat of the beans is brittle, juicy, and of a moderately fine flavor. It is an excellent stringless bean of the choicest quality, highly valued for canning. Seeds, yellow-dab, mottled purple. Pkt. 10c; ½ lb. 25c; 1b. 40c; 2 lbs. 70c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

37 Pencil-Pod Black Wax

Excellent Quality, Solid, Brittle Pods,
Entirely Stringless (45 days)

The plants are large and vigorous. They bear a tremendous crop of round pods and continue to do so if the beans are picked before they have reached full size. The beautiful yellow pods are 5½ to 6 in. long and ¾ inch thick. They are deeply saddle-backed, very fleshy, solid, juicy, and always entirely stringless. The flesh is fine grained, tender, and has an excellent mild bean flavor. The plants grow about 15 in. tall and fully as broad. The shiny black seeds are quite small. Pkt. 10c; ½ lb. 25c; 1b. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.00; 100 lbs. \$13.00.

22 Burpee's Kidney Wax

Early, Productive (42 days)

Quality makes this superb fleshy flat-podded wax bean an outstanding variety. The pods are not unlike Wardwell's Kidney Wax but longer and thicker, though perhaps not quite as broad. It is entirely stringless, with the pods measuring 6 to 7 in. long. They are brittle, meaty, and considered by many the finest flavored bean in existence. White seeds with dark eye. Pkt. 10c; ½ lb. 25c; 1b. 40c; 2 lbs. 70c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

28 Golden Queen or Hodson Wax

Hardy, Productive (50 days)

Resistant to rust and blight, producing large, thick, slightly curved, flat pods 6 to 6½ in. in length. The beans show strings and the flesh is moderately fibrous but it is a good variety for shipping to distant markets. Seed, purplish pink mottled with fawn. Pkt. 10c; ½ lb. 25c; 1b. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

23 Surecrop Stringless Wax

A Sure Cropper (45 days)

Here is a bean that has proven of tremendous value to both market growers and home gardeners. It is a splendid shipping variety holding up well during transit. It has proven highly satisfactory in every way not only for yield but also in quality. The deep yellow pods are 6 to 6½ in. long, about ½ inch wide, and quite thick. They are meaty and entirely stringless, brittle, fine grained, and of good flavor. It is becoming very popular in all sections. Purplish black seeds. Pkt. 10c; ½ lb. 25c; 1b. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.00; 100 lbs. \$13.00.

17 Maule's Golden Carmine Wax

17 Maule's Golden Carmine Wax

Large Yellow Stringless Pods
(50 days)

A splendid, yellow-podded bush bean of the Dwarf Horticultural type. The plants are strong, of upright growth, and highly productive. The large, flat pods are of a golden yellow color, attractively splashed with bright carmine. The pods are ready for the table in about 50 days and 10 additional days are required if used as shell beans. The stringless pods are valued as snap beans and the kidney-shaped, buff-yellow seeds are splendid for baking. An exceptionally fine variety for the home garden. Pkt. 10c; ½ lb. 25c; 1b. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

26 Davis Kidney Wax

Yellow-Podded with White Seeds
(40 days)

An early, productive wax bean with large, thick, flat pods measuring 6½ to 7 in. in length. They are uniform in size and shape, being perfectly straight and of a bright yellow color. The quality of the beans is fair, being moderately fibrous and stringy. It is a market gardeners' variety, filling the basket quickly though often grown in the home garden as the white kidney-shaped beans may be used for baking. It is grown quite extensively in certain sections. Pkt. 10c; ½ lb. 25c; 1b. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

37 Pencil-Pod Black Wax

23 Surecrop Stringless Wax

Favorite Varieties of Pole Beans

CULTURE: Sow the seed of Pole Beans after all danger of frost has passed and the ground has warmed up and is moderately dry. If poles are used for support, set them 4 to 5 ft. apart each way, placing 6 to 8 beans in a circle around each pole and cover them 2 in. deep. When well started, thin to four plants per pole. Use one packet of seed to about 20 poles; one lb. plants 100 poles; 20 to 30 lbs. are needed to plant one acre.

43
Kentucky
Wonder
or Old
Homestead

43 Kentucky Wonder or Old Homestead

The Most Popular of all Green-Pod Pole Beans (65 days)

This enjoys the greatest popularity because it is easy to grow, productive, and of excellent quality. We believe it is the most useful of all the green-pod corn-hill or pole beans. The pods are 8 to 9 in. long, nearly round, very slender, quite curved, and slightly stringy. Dun-colored seeds. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 55c; 5 lbs. \$1.15; 10 lbs. \$2.05, postpaid. Not prepaid: 15 lbs. \$2.25; 25 lbs. \$3.50; 50 lbs. \$6.50; 100 lbs. \$12.00.

46 Maule's Noxall A Sure Cropper (65 days)

The earliest green-podded pole or corn-bill bean with long, round pods of a bright green color. Its earliness is a valuable feature, yet still more important is its reliability as it often produces a good heavy crop when others fail. Putty-colored seeds with brown stripes.

Pkt. 10c; 1/2 lb. 25c; 1 lb. 45c; 2 lbs. 80c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

40 Horticultural Pole, Cranberry, or Wren's Egg

(75 days) Some people call this Egg Bean. It is an old, well known, standard variety with attractive green pods measuring 8 to 9 in. long. They are nearly round, quite slender, stringless, and have a good flavor. Its bardiness and productiveness are not to be overlooked. Besides its use for snap beans, the large oval flesh-colored red-spotted seeds are fine for baking.

Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.00; 100 lbs. \$13.00.

41 McCaslan (65 days)

A White Seeded,
Kentucky Wonder

Few pole beans enjoy as great a popularity in some of our southern states as the McCaslan Pole Bean. It is indeed the most prolific variety, bearing a splendid crop of rich green, slightly flattened, fleshy pods, measuring 8 in. long. Climbs well. The white seeds are delicious for dry shell use. Pkt. 10c; 1/2 lb. 25c; 1 lb. 40c; 2 lbs. 70c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

45 Lazy Wives

One of the Best Varieties for
Snaps and for Dry Beans (70 days)

Green, thick, fleshy, stringless pods, 6 to 6 1/2 in. long and 3/4 in. wide. They are straight and very attractive. An excellent variety for snap beans, green shell, and dry shell use. White seeds. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

39 Scotia or Striped Creaseback

Especially Suited for Growing on
Corn for Snaps (70 days)

A good climber and heavy producer with fine grained pods 6 in. long and 1/2 in. wide. The pods are almost round, very fleshy, practically stringless, brittle, and tender. The kidney-shaped seeds are of medium size. They are greenish brown and striped with purple. Pkt. 10c; 1/2 lb. 25c; 1 lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

47 Scarlet Runner

(75 days) This is often grown as an ornamental climber for which purpose it is well adapted since the large, rich green leaves give ample shade to porches and garden houses, and the bright scarlet flowers, borne in clusters, are very attractive. While still young, the pods are tender and tasty. 6 in. long. Thick, flat, and fleshy. Large, kidney-shaped, flat seeds of lima bean size. Dark purple, spotted buff. Pkt. 10c; 1/2 lb. 25c; 1 lb. 45c; 2 lbs. 80c; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. Not prepaid: 15 lbs. \$3.00; 25 lbs. \$4.75; 50 lbs. \$9.00; 100 lbs. \$17.00.

38
Golden
Cluster

44 French Asparagus Bean

Also Known as
Yard Long
Long Green Pods
(80 days)

This is a most unusual green-podded snap bean often called Yard Long, though the pods usually do not grow more than 2 ft. in length. It is a rampant grower requiring a moderately long season to come into bearing. The yield from these plants is truly astonishing. The beans are palatable and tasty and should be picked while still young. The seeds are brown. Pkt. 15c; 1/2 lb. 45c; 1 lb. 75c; 2 lbs. \$1.40; 5 lbs. \$3.50; 10 lbs. \$5.40, postpaid. Not prepaid: 15 lbs. \$7.95; 25 lbs. \$13.00; 50 lbs. \$25.50; 100 lbs. \$50.00.

44 French
Asparagus
Bean

Wax-Podded Pole Beans

38 Golden Cluster

Large, Light Waxy Yellow, Fleshy Pods
of Good Quality (70 days)

An excellent, freely climbing, wax-podded pole bean with pods measuring 6 1/2 to 7 in. long. They are straight, broad, flat, very fleshy, fine grained, but somewhat stringy. The pods are borne in distinct clusters from the bottom to the top of the pole. The white beans are of oval shape. Pkt. 10c; 1/2 lb. 25c; 1 lb. 40c; 2 lbs. 70c; 5 lbs. \$1.30; 10 lbs. \$2.40, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

42 Kentucky Wonder Wax

Large, Golden Yellow Pods, Tender and Tasty (65 days)

Kentucky Wonder Wax is a popular Wax-Podded pole bean of vigorous growth and free climbing habit. It is of choice quality if picked just before the pods have reached full size, when they are tender, brittle, tasty, and practically free from strings and fiber. As they increase in size they develop slight strings. It is one of the earliest of the pole wax beans. The pods are thick and meaty, 7 to 8 in. long, and decidedly creasebacked. A continuous bearer of large and handsome pods; wonderfully productive. The color of the pods is an attractive light yellow. The seeds are of medium size and a chocolate-brown color. Pkt. 10c; 1/2 lb. 25c; 1 lb. 40c; 2 lbs. 70c; 5 lbs. \$1.30; 10 lbs. \$2.40, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

Broccoli

103 Early Angiers

Known as Winter Cauliflower
(150 days)

This Broccoli is the old heading type which can hardly be distinguished from Cauliflower though it requires considerably longer time to come to maturity. It is more hardy than Cauliflower, and is grown in the Northwest for shipping to our eastern markets. It is the most popular home and market variety and is planted on the West Coast during July and August so that the crop will come in from November until May when there is no cauliflower available in the eastern markets. Very productive and of choice quality. In sections where cauliflower does well, we advise planting cauliflower only. Pkt. 15c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50; ½ lb. \$2.75; lb. \$5.00.

105 Calabrese

105 Calabrese

Italian Green Heading
or Sprouting

(90 days) This vegetable has become extremely popular within recent years. The variety which we offer forms a good size, rich green head during June or July, and after it is cut side-branches will develop, each carrying smaller size heads of choice quality. This type has proven decidedly more popular than the open spreading varieties which are not nearly so tender nor as tasty as our special strain of Calabrese. It is a splendid vegetable for the home garden, market growing, and for shipping. Even better flavored than cauliflower. One packet produces 250 plants; 3000 plants to the ounce. Pkt. 15c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35; ½ lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25.

Brussels Sprouts

Known as Miniature Cabbage

108 Danish Prize

Solid Miniature Cabbages, Closely Set
Along the Tall Stem (125 days)

Brussels Sprouts is a delicious vegetable belonging to the cabbage family but it excels cabbage in mildness and sweetness. It should be more largely grown in the home gardens as it supplies the table with fresh green sprouts in the late fall and winter. The plants are medium-tall, producing an abundance of large yet solid dark green, tightly folded sprouts of choicest quality. Grow it in moderately rich soil to avoid an excess of leaves. Sow the seed in April or May in the open ground. Transplant in rows 3 ft. apart and 15 in. in the row. Break off the leaves along the stem to aid the formation of the small heads. A packet gives about 300 plants and an ounce is sufficient for 3000 plants. Brussels Sprouts is mostly grown for winter use, and as the plants are quite hardy they are allowed to remain in the garden until after frost. In fact, the flavor of the young sprouts is greatly improved after they have been frosted. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70.

Sugar Beets & Mangels for Stock Feeding

CULTURE: Sow the seed in May or early June in drills 2 to 3 ft. apart and cover one inch deep. Thin to stand about 8 to 12 in. apart in the row. Use one packet for 25 ft. of drill; one lb. for 100 ft.; and 5 to 6 lbs. per acre.

92 Imperial Sugar Splendid for Stock Feeding (65 days) Thick oval-shaped roots of large size, yielding as much as 30 tons per acre. Easy and inexpensive to grow. Has a rich sugar quality. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 60c; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50.

93 Klein Wanzleben Sugar High Sugar Content. Fine for Sugar Making (60 days) Large smooth white roots with broad shoulder, gradually tapering toward the base. An enormous yielder widely grown in many sections for sugar production and stock feeding. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 60c; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50.

101 Giant Half Sugar

(90 days) This is mostly used for stock feeding. It is tremendously productive and highly nutritious. The roots are light rose above the ground and grayish white below. The firm juicy flesh is pure white. The large oval-shaped roots mature quickly and are highly relished by livestock. Pkt. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 30c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.80; 10 lbs. \$3.35.

96 Yellow Tankard (95 days) A sweet and productive mangel or feeding beet with large roots having a broad shoulder and a broad base. The skin is light gray above ground and deep orange below. The flesh is yellow, zoned with white. Its productiveness and nutritive value have made it a great favorite with stock farmers in many sections. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

102 Champion Yellow Globe

This variety is particularly suited for shallow soil due to the globe shape of the roots. Grows to enormous size and has a clear orange skin. The flesh is white with yellow rings. Easily grown and easily harvested. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

95 Maule's Gate Post

A Heavy Yielder (90 days)

The name refers to the desirable habit of the roots which grow halfway above the ground and halfway below. This makes harvesting much easier compared with varieties which grow mostly below the soil surface. Maule's Gate Post produces attractive oval roots of a golden yellow color. The flesh is white, sometimes showing a tinge of yellow in the rings. The steadily growing demand for this splendid mangel is a sure sign of its popularity. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

94 The Jumbo

A Long Red Mangel (110 days)

We consider this the finest of all mangels or stock beets. The roots grow to a truly enormous size. They are uniformly straight and even, and comparatively thicker than most other varieties. The flesh is white tinged with rose. It requires a well prepared top soil of moderate fertility and a good long season to reach full size. A great favorite in many stock farming sections. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

94 The Jumbo

70 Maule's Early Wonder Table Beet

Extremely Early, Deep
Red Roots; Tender
and Sweet (40 days)

Also Known
as
Boston
Crosby

This early beet is the result of yearly selection made over a long period of time. As we offer it today it seems almost impossible to still further improve its appearance and excellent quality. The roots are of turnip shape, of a beautiful deep red color, and of medium size. This characteristic makes it possible to grow them quite close and thereby increase the yield from a given area. Equally desirable for home garden planting as for market. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

70 Maule's Early Wonder

Maule's Table Beets

CULTURE: Sow the seed thinly in drills 18 in. apart and carefully thin the plants to stand 3 to 4 in. in the row. The round and turnip-shaped varieties are grown mostly for spring and summer use, though they are also excellent for fall and winter storing. The half-long kinds require a longer growing season and are known as good winter keepers. For a continuous supply of fresh roots, sow repeatedly from spring until mid-summer. A packet of seed is enough for 25 ft. of row; one ounce for 100 ft.; 5 to 6 lbs. per acre.

The Biggest Seller of Them All

66 Maule's Blood Turnip Beet

The Most Uniform, Deepest Red Beet in Existence. Tender, Productive, and Exceedingly Sweet (50 days)

This beet is miles ahead of any other variety ever offered anywhere. That is a strong claim, but thousands of market growers and home gardeners will substantiate this claim, and consider our enthusiasm mild in comparison to the outstanding features of this beet. It is an early variety with a rich dark red skin. The uniformity in size and shape is truly remarkable. They are perfectly globe-shaped and always smooth. The flesh is deep red with hardly any zone. It retains the deep red color when cooked. The flesh is fine grained, tender, and most agreeably sweet. *It may be grown for early spring use, for summer, fall, or winter storing, or for canning.* It has our unqualified endorsement for all purposes. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 80c; 1 lb. \$1.35; 2 lbs. \$2.50; 5 lbs. \$5.95; 10 lbs. \$10.80.

81 Maule's Dark Red Egyptian Beet

81 Maule's Dark Red Egyptian

A Wonderful Extra-Early Table Beet (35 days)

No other beet can replace this well established variety for earliness. Under favorable conditions the roots grow quickly and reach full size within the astonishingly short period of 35 days. This characteristic of quick growth has made Maule's Dark Red Egyptian a favorite variety with many market growers who plant it extensively for forcing to supply the early market. As the roots are of medium size and have only a limited amount of foliage they can stand quite close planting which, in turn, means increased yields from the land available.

The compactness of the plant is only one of the features that has made it valuable for growing under glass. Its quality, attractiveness, uniformity, and the dark red color of the flesh are characteristics that will appeal to many gardeners. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

71 Maule's Market King

(65 days) The best half-long beet for winter keeping. A remarkable main-crop beet of a solidity, fineness, and firmness that is outstanding. These characteristics give it its excellent keeping qualities. The bright red flesh has a great appetite appeal. Can be used either when still small or fully grown. Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

76 Philadelphia Early Turnip (50 days) An attractive beet with light red flesh zoned with pinkish white. The tops are light green and quite small. It is suited for growing under glass due to its compact growth. Particularly rich in sugar, remaining tender for a long time. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

78 Crimson Globe Tender and Delicious (41 days) A handsome beet of medium size which received its name from the uniform globe shape of the roots. It is entirely free from rootlets which enhances the good appearance of the roots. For a second early variety it is hard to beat. The foliage is small which makes it suitable for forcing under glass. The flesh is rich blood-red with somewhat lighter zones. Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. 95c; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10.

82 Maule's Market Gardeners

A Good Half-Long Tender Beet (55 days)

The popularity of this splendid beet is well deserved. It is always good during any season. Never past its prime. The roots are of a uniform even half-long shape. They grow rapidly into a solid firm-fleshed root that is particularly suited for winter storing. It is valuable alike to market growers and home gardeners. Sweet, tender, fine grained, and of good color. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

82 Maule's Market Gardener's Beet

Maule's Early Wonder Table Beet is listed on the previous page

77 Crosby's Egyptian Beet

A Standard Beet, Popular Everywhere (42 days)

Our strain of this quality beet is a decided improvement on the older forms of Egyptian beet. The roots are larger and more globular though still somewhat flattened at the top, representing more or less of a turnip shape. The skin is a very deep red and the flesh is somewhat lighter in color. The foliage is quite short so that by close planting the yield from a given area can be considerably increased. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

91 Edmand's Early Turnip Beet

A Good Main Crop Variety (42 days)

Certain gardeners swear by this excellent, quickly maturing variety. It is indeed a most desirable turnip-shaped beet with deep blood-red skin and flesh. It has a short top which makes close planting possible. The roots are almost round and at times taper off at the base into more of a turnip shape. The flesh is bright purplish red showing a little zoning of a somewhat lighter color. It has established itself firmly in certain market-growing sections, and it is also highly valued by many home gardeners who appreciate its fine, tender-grained flesh and rich sweetness. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

91
Edmand's
Early Turnip Beet

74 Eclipse

74 Eclipse

A Good Home Garden Beet (45 days)

A splendid early variety grown extensively in the home garden and a favorite in certain market growing sections. Its early maturity represents a desirable factor for both classes of gardeners. As it grows quickly, the flesh is fine grained and tender. The roots are a flattened globe shape with smooth, evenly colored skin, and free from rootlets. The tops are small and of a bright red color. The medium size roots are of attractive appearance and look very well when prepared for the table. The flesh is bright red showing zones of a pinkish white color. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. 95c; 2 lbs. \$1.70; 5 lbs. \$4.05; 10 lbs. \$7.10.

67 Maule's Alpha Beet

Known as the Best
Early Beet For the
Table or Market
(40 days)

We regard this as an exceptionally fine beet with large roots of even size and splendid quality. Its shape is that of a turnip; just a little deeper than Crosby's Egyptian. The flesh is dark crimson with slightly lighter zones or rings. As the top growth is small it stands close planting very well. Its attractiveness and earliness have made it a great favorite with many.

When cooked it has a rich sweet flavor and it is entirely free from any fiber or toughness. Equally fine for immediate use or for canning. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; 1 lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

84
Detroit
Dark Red

84 Detroit Dark Red

A Highly Bred, Globe Shaped Beet for Home or Market (50 days)

We offer a special strain of this famous home garden and market growers' beet. It excels in uniformity of size, shape, and color, being suited for home use, market sales, storing, shipping, and canning. The roots are of medium size, smooth, perfectly globe shaped, and of generally good appearance. The color of the flesh is a most intense deep red, showing no signs of any zones after cooking. It remains tender throughout and free from fiber until fully grown. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

86 Improved Long Red

(65 days) Though long beets have never met with the favor the round varieties have, Maule's Improved Long Red has enjoyed over a period of years great popularity with many growers who were able to produce a heavy crop of fine roots on a deep, well tilled soil. It is unexcelled for table use or stock feeding, yielding as much as twelve tons per acre. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 80c; 2 lbs. \$1.45; 5 lbs. \$3.40; 10 lbs. \$6.00.

75 Early Bassano (43 days)

This is a European beet which still is grown quite extensively by some market gardeners and also finds favor with some home gardeners who appreciate its sweet and tender texture. The roots are of typical turnip shape. They are smooth, free from rootlets, and uniform in size and shape. The flesh is pink, showing rings of an almost white color. Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. 100; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

90 Mixed Table Beets

One Planting Will Give an Ample Supply All Summer (35 to 65 days)

Those who want just a row or two of beets for their own use and want their crops spread over as long a period as possible will find this mixture ideal for their purpose. It contains all varieties of table beets we offer. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

New Beet!

72 Ohio Canner (60 days)

A wonderful new Beet, primarily bred for canning purposes but equally as valuable to the home gardener and market grower who is interested in a deep red Beet of choicest quality. The roots are round or sometimes slightly flattened. They have a very dark red skin. The fine grained, tender, sweet flesh is a uniform shade of rich crimson. Developed by the Ohio Agricultural Experiment Station. Pkt. 15c; oz. 25c; ¼ lb. 70c; ½ lb. \$1.10; 1 lb. \$1.90; 2 lbs. \$3.50; 5 lbs. \$8.35; 10 lbs. \$15.20.

Maule's Cabbage

119 Copenhagen Market

CULTURE: For an early crop sow the seed in a frame or seed-bed early in the spring. Transplant to the garden or field when the plants are large enough to be handled. For a main or fall crop, sow the seed in a specially prepared bed in May or early June, to be set out about 4 to 5 weeks later. One packet of seed will produce about 250 plants; one ounce about 3000 plants; $\frac{1}{4}$ lb. per acre. Set the plants $1\frac{1}{2}$ by 3 ft. apart.

Early Varieties

110 Golden Acre

110 Golden Acre

The Earliest Round-Headed Variety (70 days)

Thousands of gardeners will turn this year to our special strain of Golden Acre, for it is positively the finest early cabbage we have ever seen. Whether you grow for market or for home use, you must not overlook this important variety with its large solid heads measuring 9 in. in diameter and weighing about 5 lbs. each. Compact, dwarf plants with few outer leaves. Very uniform in size and maturity. Pkt. 10c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; $\frac{1}{2}$ lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

111 Maule's First Early

111 Maule's First Early

A Splendid and Profitable Extra Early Cabbage (80 days)

A sure header than can be planted as closely as Wakefield but excels it in solidity and good appearance. Its habit of growth and the shape of the heads are best seen from the above illustration. The heads are as hard as stone yet the leaves are of tender texture and good flavor. Its attractive appearance makes purchasers pick out these heads from all others when displayed in the markets. It is in every way a choice cabbage. Pkt. 15c; oz. 40c; $\frac{1}{4}$ lb. \$1.20; $\frac{1}{2}$ lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00; 10 lbs. \$34.00.

119 Copenhagen Market

A Splendid Early Round-Head Cabbage. (75 days)

You can depend upon Maule's to get the true, short-stem, round-head, early-maturing strain or Copenhagen Market which, when introduced a few years ago, took all cabbage growers by storm. The large, solid, round heads weigh ten pounds or more each. They have a small core and are always of the highest quality. The few light green outer leaves are saucer-shaped and the head is always tightly folded. Their compact growth permits planting them closer together than most other varieties. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. 95c; $\frac{1}{2}$ lb. \$1.50; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

113 Maule's Prize Jersey Wakefield

113 Maule's Prize Jersey Wakefield

Very Early, Solid, Pointed Heads (75 days)

Gardeners will appreciate the splendid qualities of our special strain of Jersey Wakefield cabbage which represents a general improvement in earliness, uniformity, and quality. It has few outer leaves and makes a compact plant. The conical heads form quickly and are tightly folded. It is of finest flavor. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; $\frac{1}{2}$ lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

120 Maule's Early Baby Ball-Head

Extremely Early, Round, Solid Head (68 days)

A desirable cabbage for forcing or for the garden, producing firm, well-shaped, solid, round, white heads which are of crisp and delicious quality. The particular advantage of this extremely early cabbage is that it requires very little space to grow due to the limited quantity of outer leaves and their quite small size. A splendid variety for those who have limited space. Pkt. 15c; oz. 45c; $\frac{1}{4}$ lb. \$1.35; $\frac{1}{2}$ lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25; 10 lbs. \$38.25.

112 Maule's Earliest Express (70 days)

This is a French variety of cabbage which has been holding its place among other early cabbages for a long time. The firm, tightly folded heads are of a typical pointed shape so they seem less desirable than Maule's Jersey Wakefield. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

Midseason Varieties of Maule's Quality Cabbage

118 Charleston Wakefield

Larger and Later Than Prize Jersey Wakefield (90 days)

Charleston Wakefield cabbage is a valuable variety in certain cabbage-growing sections of this country. Its great importance lies in the size of the heads, which grow larger and yield fully twice the crop of the original Wakefield cabbage. It comes along in a close succession to the earliest cabbage crop, being one of the first midseason varieties ready for barvesting. Our strain should not be overlooked by any gardener, whether it is intended for a private garden or to be sent to market. The heads are about 8 in. long and 7 in. wide at the base. Pkt. 10c; oz. 25c; ¼ lb. 75c; ½ lb. \$1.15; 1 lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

116 All Head Early

116 All Head Early

An All Year Round Cabbage (90 days)

There is one point that recommends All Head Early particularly and that is its adaptability to a wide range of both soil and climate. It is an American variety well worthy of the recognition it has received everywhere and, too, there are many who can tell you about All Head Early as a money maker because it is the earliest of the large headed cabbages. The deep flat heads are remarkably uniform in size, shape, and color. They are globular, flattened at the top, and extremely solid. The average weight per head is around ten pounds. Its origin is interesting in that the market grower who originated it would not sow any other seed during his lifetime. Pkt. 10c; oz. 25c; ¼ lb. 75c; ½ lb. \$1.15; 1 lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

127 Glory of Enkhuizen

127 Glory of Enkhuizen

Round Solid Heads of Superior Quality (90 days)

A splendid, medium-early cabbage with fine, solid beads frequently weighing 8 to 10 lbs. each. The heads are large, round, firm, and heavy. The leaves are finely ribbed and exceedingly tender. It is a very famous variety for kraut, and because it has few outer leaves it may be planted closely. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; 1 lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

126 Maule's Midsummer

Controls the Garden or Market from Spring to Fall (95 days)

This comes in right after the early cabbages are done and takes the market quickly because the heads are considerably larger than any of the earlier varieties. They are truly beautiful in appearance and of a solidity and weight that is astonishing. It has noteworthy compactness of growth which permits close planting. Altogether, it is a truly fine summer cabbage in every respect, producing from June until October, depending on the planting season. Maule's mid-summer cabbage has met with wide appreciation and hearty endorsement. We do not know of any other mid-season variety that is as important. Pkt. 5c; oz. 25c; ¼ lb. 75c; ½ lb. \$1.15; 1 lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

132 Maule's Succession

(100 days) This is a sure cropper, doing well in all kinds of seasons. The heads are large, nearly round, but somewhat flattened at the top. The leaves are finely ribbed. Succession is a quality cabbage of remarkable uniformity. It can be depended upon to head up solidly no matter what the season. Keeps well in storage. Pkt. 5c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; 1 lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

115 Maule's Winnigstadt

Cone Shaped, Large Heads. Very Solid (100 days)

The heads are slightly larger than Wakefield cabbage but they have a similar cone shape form. It is a sure heading variety doing well even when others fail completely. It is less liable to attacks by the cabbage worms than other varieties. Heads weigh 5 lbs. each. Pkt. 5c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; 1 lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

117 Maule's Early Flat Dutch

Large, Solid, Short-Stemmed Heads (100 days)

The short-stemmed cabbages by reason of their shape always have a smaller core than most round or pointed heads. Early Flat Dutch is no exception to this rule. Fully developed heads often measure 10 to 12 in. across and weigh as much as 12 to 15 lbs. each. The leaves are tightly folded, free from fiber, and of a delightful flavor. The heads are borne on short stout stems. Pkt. 5c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; 1 lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

138 Volga or Stonehead

A Splendid Drought-Resister and Good Keeper (100 days)

A highly bred strain of cabbage with large heads of uniform size and shape. They are as round as a ball and due to their solidity weigh about 10 lbs. each. They stand a long time before bursting and are fine for home garden and market growing. Pkt. 5c; oz. 25c; ¼ lb. 75c; ½ lb. \$1.15; 1 lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

Three Valuable Yellows-Resistant Cabbages

121 Marion Market

A Splendid Early "Yellows-Resistant" Cabbage (85 days)

This "Yellows-resistant" cabbage was originally bred from Copenhagen Market. It has retained many of the valuable features found in that splendid early cabbage. It matures about 10 days later and makes a considerably larger plant than Copenhagen Market. The heads are practically round, very hard, and ship well. Highly resistant to "yellows" and a favorite for early kraut. Pkt. 15c; oz. 55c; ¼ lb. \$1.70; ½ lb. \$3.15; 1 lb. \$5.75; 2 lbs. \$10.70; 5 lbs. \$25.85; 10 lbs. \$48.85.

Early

128 Wisconsin All Seasons

The Best Mid-season "Yellows-Resistant" Cabbage (105 days)

A selection from All Seasons, maturing at about the same time. It is the hardiest of all the flat head varieties and enjoys the greatest popularity for kraut. It will stand unfavorable conditions of drought and hot weather unusually well. Heads up solidly and remains in perfect condition for a long time. A choice variety for late summer and early fall use. Pkt. 15c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$1.90; 1 lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75; 10 lbs. \$29.75.

Mid-Season

123 Disease-Resistant Wisconsin Hollander

A Popular Late "Yellows-Resistant" Variety of Cabbage (120 days)

A selection from Danish Ballhead, heading about 10 days later but forming larger plants which yield more heavily under favorable conditions. Almost round, inclined to flatten slightly at the top. A splendid late fall and storage variety. Pkt. 15c; oz. 40c; ¼ lb. \$1.25; ½ lb. \$2.35; 1 lb. \$4.25; 2 lbs. \$7.90; 5 lbs. \$19.10; 10 lbs. \$36.10.

Late

Late or Winter Varieties of Maule's Quality Cabbage

122 Penn State Ball Head

A Splendid Selection of Ball Head Cabbage (120 days)

This special selection of Danish Ball Head Cabbage was made by Professor C. E. Myers of the Pennsylvania State College. Its unusual tonnage record is due to the painstaking selection for hard, tight heads weighing at least $\frac{1}{3}$ more than Danish Ball Head heads of equal size. Has produced an average yield of 12 tons per acre in New York State, with a record of over 20 tons per acre. A perfect winter keeper. Pkt. 15c; oz. 45c; $\frac{1}{4}$ lb. \$1.40; $\frac{1}{2}$ lb. \$2.60; lb. \$4.75; 2 lbs. \$8.85; 5 lbs. \$21.35; 10 lbs. \$40.35.

133 Maule's Prize Drumhead

Large Solid Flat Heads. A Splendid Keeper (120 days)

Here is a cabbage that has gained great popularity with many growers on account of its excellent outstanding qualities. The heads grow to extra large size. They are hard, solid, flattened, uniform in shape, and of a most handsome general appearance. Maule's Prize Drumhead is a compact grower supporting the extra-large heads on a short, stout, stem. It is a sure header that can be depended upon to make an immense size head no matter what the conditions of weather or soil. Splendid for fall and winter storing. Grown extensively for kraut. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

125 Danish Ball Head

125 Danish Ball Head

Middle Stem. The Greatest Cabbage ever Introduced.

A Big Money Maker (120 days)

No other Cabbage ever introduced has been acclaimed by so many growers in such widely different sections of the world as Danish Ball Head Cabbage. Its solid round heads are extremely heavy. Can be grown closely on account of its compact habit. Comes out of winter storage as fresh and crisp as when put away. Very popular for supplying the fall, winter, and early spring demand everywhere. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 90c; $\frac{1}{2}$ lb. \$1.40; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25; 10 lbs. \$21.25.

131 Maule's Genuine Surehead

131 Maule's Genuine Surehead

A Most Remarkable Cabbage Always Sure to Head.

A Splendid Keeper and Fine for Kraut (110 days)

Sales for this splendid variety have been climbing with every year, and that is a sure sign that the variety is of outstanding merit and makes more money for the growers than others. Maule's Genuine Surehead is a late variety, as large as Maule's Prize Flat Dutch. Ready for cutting at about the same time. The heads are firm and hard, weighing from 10 to 15 lbs. each. They are round with a distinctly flattened top. A row of Surehead Cabbage is a wonderful sight on account of the uniformity of the large heads. An excellent shipper. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; $\frac{1}{2}$ lb. \$1.15; lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

134 Maule's Prize Flat Dutch

134 Maule's Prize Flat Dutch

Well Known and Widely Grown (110 days)

The heads of our Prize Flat Dutch are very large, heavy, and solid. They are flattened on the top and the color of the leaves is a bright bluish green. Our strain is low-growing with a short stem and comparatively few outer leaves. A favorite on many markets and for kraut. Of excellent quality, solid, and most dependable. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

Maule's Seeds Are Sent POSTPAID

In order to get fresh seeds, full of vitality and true to name, send your order to Wm Henry Maule of Philadelphia. All Maule's Vegetable Seeds are sent to you postpaid at the prices quoted up to 10 lbs of

each kind. This will make it easy for you to buy from us.

On a number of Vegetable and Farm Seeds we have quoted prices for quantities larger than 10 lbs as "Not Prepaid." This means that the customer pays the transportation charges for these quantities.

Late or Winter Cabbage—continued

124 Danish Round Head

124 Danish Round Head—Short Stem

Heaviest Yields. Produces 12 to 15 Tons per Acre (110 days)

Very large, extremely solid, short stemmed cabbage, having the same remarkable qualities as the original strain of Danish Ball Head from which it has been originated. It is, however, 10 to 20 days earlier and produces a larger yield than any of the so-called Danish cabbages. Of special value on high dry land where other varieties are inclined to remain small. Splendid for fall and winter storage. Pkt. 10c; oz. 30c; ¼ lb. 90c; ½ lb. \$1.40; 1b. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25; 10 lbs. \$21.25.

135 The Houser

135 The Houser

The Latest Cabbage of Them All (130 days)

This will average about 12 lbs. at maturity. The heads are large and handsome. They are perfectly round and, therefore, as deep as broad. Entirely free from coarse ribs as found in many other late varieties. A strong grower with the ability to withstand drought exceedingly well. Pkt. 15c; oz. 40c; ¼ lb. \$1.20; ½ lb. \$2.20; 1b. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00; 10 lbs. \$34.00.

Red Cabbage 143 Mammoth Red Rock

(120 days) The best of the large-heading red cabbages. Extremely hardy and of enormous size. The heads are perfectly round, solid as a rock, and of a deep red color. Individual heads often weigh as much as 12 lbs. each. It is a sure cropper used extensively for pickling. The solid heads are borne on medium-long stems. They are extremely dark red throughout. Pkt. 10c; oz. 30c; ¼ lb. 85c; ½ lb. \$1.25; 1b. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10; 10 lbs. \$19.20.

140 Red Danish Round Head

(110 days) Round, solid, dark red heads of a solidity that is truly astonishing. The plants make a strong and compact growth. The heads are of medium size, of a rich dark color which extends into the very center. It requires a full season to come to maturity but may be used as soon as fully grown or stored for winter and spring use. It is a splendid variety for the home garden, market, and for pickling. Pkt. 10c; oz. 35c; ¼ lb. 95c; ½ lb. \$1.50; 1b. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

Savoy Cabbage

141 Improved Drumhead Savoy

141 Improved Drumhead Savoy

The Best Crumpled Leaved Cabbage (110 days)

Savoy Cabbage is of a milder, more pleasing flavor than the regular cabbages. The plants are vigorous, of medium size, and sure heading. The leaves are attractively wrinkled and crumpled. It is a splendid winter keeper. Pkt. 10c; oz. 30c; ¼ lb. 85c; ½ lb. \$1.25; 1b. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10; 10 lbs. \$19.20.

Chinese or Celery Cabbage

129 Chihli

Chinese cabbage is easy to grow. It may be sown early in the spring where the weather remains cool. In warmer sections, like around Philadelphia, a sowing August 1 will produce large, solid, and tasty heads before frost sets in.

130 Pe-Tsai (60 days)

This is often called celery cabbage. The heads are tall and resemble cos lettuce. The leaves are tightly folded around the heart which is well blanched and tender. Splendid for eating raw like lettuce or prepared like ordinary cabbage. Pkt. 5c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; 1b. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

129 Chihli (55 days)

A very early, sure heading Chinese or celery cabbage, producing long white solid heads. The leaves are broad, smooth, and fringed at the edge. Mostly grown for its large, celery-like, white mid-ribs which have a delicious, slightly pungent, refreshing flavor. Pkt. 10c; oz. 30c; ¼ lb. 85c; ½ lb. \$1.25; 1b. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10; 10 lbs. \$19.10.

Table Carrots

CULTURE: Sow the seed in drills any time from early Spring to July. Cover seeds $\frac{1}{2}$ to 1 in. deep, and press soil about seeds. Thin plants so they will be 2 to 6 in. apart. Make the rows 12 to 30 in. apart. Use a packet to 60 ft. of drill; 1 oz. to 400 ft.; 2 to 3 lbs. to the acre. Ready for use in 45 to 75 days.

152 Maule's Danvers Half-Long

The Most Popular Carrot for the Home Garden and For Market (70 days)

Here is a foremost carrot that is hard to beat. It is adapted to all kinds of tillable soil and will grow well under various climatic conditions. Its demand exceeds that of all other carrots combined. The roots are distinctly handsome. They are half long, almost cylindrical, and somewhat stump rooted. The color of the skin is a uniform rich dark orange from the top to the bottom of the roots. Its yield is enormous. 25 to 30 tons per acre is not uncommon on moderately rich soil. If grown in deeply prepared ground, the roots will measure 7 to 7 $\frac{1}{2}$ in. long and 2 to 2 $\frac{1}{2}$ in. at the shoulder. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

152 Maule's Danvers Half-Long

154 Amsterdam Forcing

A Remarkably Early Quality Carrot (65 days)

This is a splendid table carrot with roots measuring about 4 $\frac{1}{2}$ in. long and an inch thick. They are decidedly cylindrical and produce a short top-growth of leaves. The color of the skin and flesh is bright orange-red. It is practically coreless and of choice quality. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 55c; $\frac{1}{2}$ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

148 Early Scarlet Horn

A Splendid Small Choice Variety (55 days)

This carrot is an old favorite with many market gardeners in this country and abroad. The roots are 3 to 3 $\frac{1}{2}$ in. long and measure 1 $\frac{1}{2}$ to 1 $\frac{1}{2}$ in. thick at the shoulder. They are decidedly stump-rooted. Of a bright orange-scarlet color. Sweet, tasty, and tender. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

144 Extra-Early Parisian Forcing

The Earliest of all Carrots (45 days)

This is a splendid small carrot, particularly suited for growing in frames to supply tender, sweet, new carrots early in the season. It is a quick grower with small foliage and a rather hollow crown. The roots are round but slightly flattened, and have a fine thin tail. Besides its usefulness for growing under glass, it also is splendid for the garden. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; $\frac{1}{2}$ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

149 Nantes Half-Long

Stump-Rooted. An Extra-Choice Variety (65 days)

This is the most popular of all carrots grown in France and there is no question that it has a delightful delicate flavor unsurpassed by any other variety. The roots grow 6 $\frac{1}{2}$ to 7 in. long and are from 1 to 1 $\frac{1}{2}$ in. thick. They hold their thickness throughout the entire length of the almost coreless root, ending abruptly into a small thin tail. Of a beautiful pure orange-scarlet. Pkt. 5c; oz. 20c; $\frac{1}{4}$ lb. 55c; $\frac{1}{2}$ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

149 Nantes Half-Long

151 Chantenay or Model

Of Remarkable Quality (60 days)

This choice table carrot has an extra-large, broad shoulder, 2 to 2 $\frac{1}{2}$ in. thick, tapering gradually down to a diameter of 1 to 1 $\frac{1}{2}$ in. The carrots are distinctly stump-rooted with a small thin tail. The bright orange skin is smooth and clean. The rich orange flesh is fine grained, tender, and sweet. It is one of the three most popular carrots used in America both for table and stock feeding purposes. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

148 Oxheart or Guerande

146 Oxheart or Guerande

Very Productive; Easy to Store (65 days)

You will find this to be a splendid, second-early carrot, maturing between Early Scarlet Horn and Danvers Half-Long. The roots are 5 $\frac{1}{2}$ to 6 in. long, measuring at the top 3 $\frac{1}{2}$ to 4 in. and at the base 2 to 2 $\frac{1}{2}$ in. They are very stump-rooted and have a small fine thin tail. The crown is cup-shaped and the foliage, though long, is decidedly thin and sparse. A dependable and productive variety of choice quality. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

151 Chantenay or Model

147 Burpee's Goldinhardt

A Great Improvement (60 days)

For years plant breeders have been working on a coreless carrot with a uniform, bright orange color extending all the way through the entire root. In Goldinhardt this objective has well been attained. Besides being more tender, the roots look very much more attractive when served. The roots are 6 in. long and 2½ in. thick at the shoulder. They have a smooth skin, are free from rootlets, and carry their thickness well down, being abruptly stump-rooted at the base. The flesh is a beautiful bright golden orange. It is free from fiber, tender, tasty, and of an unsurpassed sweet flavor. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; 1 lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

163 Mixed Table Carrots

One Sowing Produces Carrots to Last All Season (45 to 75 days)

Home gardeners who like to have fresh, tender and tasty carrots all season long will find this mixture ideally suited for their purpose. We have included in it all the best varieties from the earliest maturing to those which will provide large roots for fall and winter storing. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

163 Maule's Improved Long Orange

153 Maule's Improved Long Orange

An Extra Heavy Cropper and Splendid Winter Keeper (75 days)

Gardeners who have a deep rich mellow soil will do well to select this extra fine, large carrot for their purpose because, under such conditions, the roots will penetrate deeply into the soil and produce a magnificent crop of splendid carrots. The roots grow 10 to 12 in. long. They are 1¼ to 2 in. thick at the shoulder and gradually taper down into a fine point. As the crown grows underground, the entire roots are a beautiful bright orange color. Though the core is rather large and of a bright yellow shade, it, nevertheless, is tender, tasty, and sweet. Of superb quality. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

155 Touchon

The Favorite on the Paris Markets (65 days)

Here is a new carrot which has impressed us most favorably everytime we have examined it in our trials during recent years. In France, where they perhaps appreciate good carrots more than we do, it has become one of the most popular varieties. It is a quick-growing variety, forming roots which measure 6 in. in length and 1½ in. in diameter. They are cylindrical in shape, holding their thickness well from the crown to the stump-rooted base. The bright orange skin is smooth and free from rootlets. The flesh is bright orange-red, tender, fine grained, and of a sweetness that is delicate yet rich. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; 1 lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

155 Touchon

145 Maule's Golden Rod

A Handsome, Sweet, Tender, Tasty Carrot (68 days)

The popularity enjoyed by Maule's Golden Rod Carrot is indeed well deserved. Every year more and more gardeners turn to this variety to supply their own table needs and other market demands due to the fine qualities which have made Maule's Golden Rod such a big seller in all the better class markets. The roots are half-long, distinctly stump-rooted, measuring 7 to 8 in. in length. The shoulder is 2 to 2½ in. thick. The skin is bright orange and the flesh is a beautiful deep orange with a lighter colored, tender, well defined core. The flesh is fine grained, tender, sweet, and very tasty. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; 1 lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

145 Maule's Golden Rod

Carrots for Stock Feeding

CULTURE: Sow the seed anytime before July 1, and cover with ½ inch of fine soil. Space the rows 24 to 36 in. apart and thin the seedlings as soon as they can be handled to stand 6 in. apart in the row. One packet sows 60 ft. of drill; one oz. 400 ft. of drill, and 2 lbs. per acre.

162 Large Yellow Belgian

The Most Popular of the Stock Feeding Carrots (90 days)

For years this has been a best seller with us, no doubt, due to the fact that it is an extra heavy yielder of a sweetness which is relished by all kinds of stock. Produces a truly enormous crop of large, long, thick roots of a pale orange-yellow color. The roots grow to an average size of 12 in. in length and are 2 in. thick at the shoulder. In rich deep soil the carrots grow considerably larger. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

156 Long Lemon Stump-Rooted

(90 days) Considered the best yellow carrot ever offered to American farmers. It is also known as Lobberichs Agricultural. The carrots are stump-rooted and of a rich yellow color. It is the earliest of the stock carrots to come to maturity. Grows very large. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

161 Large White Belgian

(90 days) An enormous yielder—truly the giant among carrots. Produces an immense crop of roots one foot or more in length and 2 in. across at the crown. Grows entirely underground. The flesh and skin are pure white. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

158 Improved Short White

(85 days) A half-long stock-feeding carrot, 7 to 9 in. long. Smooth, very heavy, and gradually tapering from the broad shoulder. White crisp flesh. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

164 Maule's Prize Earliest

164 Maule's Prize Earliest

The Earliest, Largest, and Surest Header of any Cauliflower we have Tested (90 days)

We consider this at the top of the list as the earliest, finest, and most attractive cauliflower. Every plant produces a head. It is a sure header whether planted for forcing in frames or grown outdoors for either early or late crop. The heads mature all at about the same time. The growth of the plants is dwarf and compact so that the plants can be set as close as 18 in. apart in the frame or field. Such close planting naturally means a greatly increased yield from a given space of ground. It is particularly desirable for forcing under glass. The compact, perfectly white, closely formed heads are most attractive and are sure to bring a high price in the market. Pkt. 25c; 1/4 oz. 90c; 1/2 oz. \$1.50; oz. \$2.70; 1/4 lb. \$8.10; 1/2 lb. \$14.85; lb. \$27.00.

172 Early Favorite

Early; Heat and Drought Resistant (115 days)

Early Favorite forms large, solid heads of remarkable attractiveness. It is classed as one of the best early varieties, producing a splendid crop of pure white heads composed of a fine grained, closely formed curd. Though it is best if grown in a moderately cool climate, it has proven to be quite resistant to heat and drought. Considering all its splendid qualities, it is no wonder that it has become a great favorite with both home gardeners and market growers. Its season of maturity places it in the class of second-early varieties which are ready for cutting about 20 days later than the very earliest sorts. A highly desirable variety. Pkt. 10c; 1/4 oz. 40c; 1/2 oz. 65c; oz. \$1.00; 1/4 lb. \$3.00; 1/2 lb. \$5.50; lb. \$10.00.

173 Autumn Giant

A Splendid Late Variety (130 days)

This is the largest and finest of all late cauliflower. The heads grow to truly enormous size. They are firm, very white, and are composed of closely formed curd. The quality is superb. The plants make a large quantity of foliage and therefore require ample room for growing. The foliage incurves over the head and serves as a protection against discoloration of the heads. Pkt. 10c; 1/4 oz. 15c; 1/2 oz. 25c; oz. 45c; 1/4 lb. \$1.40; 1/2 lb. \$2.60; lb. \$4.75.

New Cauliflower!

170 Super Snowball

Beautiful, Snow White, Solid Heads (90 days)

This is the finest early cauliflower we have ever seen. The plants are most attractive, showing a uniformity of size, shape, and type that is most impressive. Of compact growth with ample rich green foliage which serves as a protection for the pure white, smooth curd. Presents a most attractive appearance before and after cooking. Pkt. 25c; 1/4 oz. \$1.10; 1/2 oz. \$1.80; oz. \$3.30; 1/4 lb. \$10.00; 1/2 lb. \$18.25; lb. \$33.00.

Quality Cauliflower

CULTURE: For extra early cauliflower start the seed of the early, quick maturing varieties in the fall in a coldframe or in early spring in a hothed. When large enough, transplant to the garden or field. For a main crop, to harvest during summer and autumn, sow the seed in May or early June. A packet will produce about 150 plants. One ounce will give 3000 plants. For one acre 1/4 lb. is required. When transplanting, set the plants 2 to 3 ft. apart each way. Ready in 90 to 130 days.

165 Dry Weather

165 Dry Weather

Forms Perfect Heads When All Other Varieties Fail to Produce a Crop (105 days)

This foremost cauliflower originated in Denmark and is truly most outstanding since it will produce attractive, remarkably large heads during dry seasons when all other varieties of cauliflower will be a complete failure. It is a quality cauliflower in all respects. The closely formed, pure white curd is attractive and very tender. Though it grows well in dry seasons, moist or wet seasons do not in any way harm it. It is an excellent home garden and market variety which we are sure will please you particularly well. Pkt. 15c; 1/4 oz. 75c; 1/2 oz. \$1.25; oz. \$2.30; 1/4 lb. \$6.90; 1/2 lb. \$12.65; lb. \$23.00.

168 Early Snowball

168 Early Snowball

Large, Solid, White Heads. A Sure Cropper (95 days)

This standard cauliflower is known everywhere. It is a great favorite in the home garden and with market growers. Produces large, solid, white heads and does best in a moderately cool climate. The individual heads average about 9 in. in diameter though they will grow as much as 12 in. across under favorable conditions. Its earliness makes it also desirable for forcing under glass during winter and spring. Pkt. 10c; 1/4 oz. 75c; 1/2 oz. \$1.25; oz. \$2.30; 1/4 lb. \$6.90; 1/2 lb. \$12.65; lb. \$23.00.

Blue Ribbon Celery

CULTURE: Sow the seed thinly anytime from March 1 on in either boxes, coldframes, or in a specially prepared bed. Cover thinly but firmly with fine soil. Keep evenly and moderately moist until the seeds sprout. One packet of seed will provide about 400 plants; one oz. will give 7500 plants. Most gardeners figure on 1/4 lb. of seed being needed per acre. Keep the plants growing vigorously at all times and transplant once or twice before setting them into the garden or field where they are to stand in rows spaced 4 ft. apart. Allow about 6 in. between the plants in the row. For a late fall crop and winter storing, sow the seed in the open early in the spring when the ground can be prepared. Celery requires ample animal fertilizer and humus. It does best on muck soil due to its moisture retentive quality.

181 Perfected White Plume

The Most Delicious Celery in Cultivation (120 days)

A remarkable early quick-growing celery which is easy to grow and makes a beautiful appearance. The foliage is a bright light green and the stalks are a pure silvery white. The heart is a clear waxy white color. It is essentially a variety for early use and not recommended for winter storing. Always demands the highest prices in early markets. Because the plants blanch easily and on account of their compact growth they always present a most attractive appearance. White Plume is as tasty as it looks. The stalks are crisp, free from fiber, juicy, and have a refreshing celery flavor. Pkt. 10c; 1/2 oz. 20c; oz. 35c; 1/4 lb. 95c; 1/2 lb. \$1.50; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

176 Golden Plume or Wonderful

An Early, Choice, Blight-Resistant Celery of Fine Nutty Flavor (110 days)

A new type developed from the famous Golden Self Blanching Celery. The plants are semi-dwarf and have thicker stalks than those of the original Golden Self Blanching. The heart is particularly thick and full and the stalks are wider and more substantial. When blanched the stalks are a beautiful light golden yellow which suggests their choice quality. The flavor is distinctly nutty and rich. Besides the remarkable qualities already mentioned, Golden Plume or Wonderful has exhibited a decided resistance to blight and rust. This feature is bound to appeal to many growers who have been troubled with these handicaps in other varieties. We can highly recommend it to everybody. Pkt. 10c; 1/2 oz. 35c; oz. 55c; 1/4 lb. \$1.65; 1/2 lb. \$3.00; lb. \$5.50; 2 lbs. \$10.25; 5 lbs. \$24.75; 10 lbs. \$46.75.

176 Golden Plume or Wonderful

To have good Celery you must plant good seed

186 Easy Blanching

186 Easy Blanching

A Beautiful Green Leaved Celery resembling Golden Self Blanching in Excellence (115 days)

Easy Blanching is a foremost keeper, and besides being grown for early use it has become a great favorite for winter storing. It resembles Golden Self Blanching in rich juicy flavor but the plants are somewhat taller though they are the same form and have hearts which are of equally large size. It is about two weeks later than Golden Self Blanching and the foliage blanches to a beautiful white instead of being yellow. As the name implies, it is a variety decidedly easy to blanch, and we know that this feature will appeal to many home gardeners and market growers. Always tender, brittle, and sweet. Pkt. 10c; 1/2 oz. 25c; oz. 45c; 1/4 lb. \$1.35; 1/2 lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25; 10 lbs. \$38.25.

175 Maule's Golden Self Blanching

We Offer an XX Selected French-Grown Dwarf Strain, Universally Acclaimed as Unsurpassed (110 days)

The distinctive feature of this wonderful variety is that it is literally self blanching. In quality it ranks with the highest and has not been excelled by even some very recent introductions. It is a universal favorite with both market gardeners and the amateur. The plants grow 18 to 20 in. tall. They are remarkably solid and ready for the table in about 110 days. Though it is essentially an early seller it will store quite well until about Christmas or New Year. The foliage of the growing plants is a greenish yellow but when blanched it is an appealing waxy yellow color. The thick solid stalks blanch to a beautiful golden yellow. They are extremely solid, free from strings, and have a remarkably rich nutty flavor. Pkt. 15c; 1/2 oz. 55c; oz. 95c; 1/4 lb. \$2.85; 1/2 lb. \$5.20; lb. \$9.50; 2 lbs. \$17.65; 5 lbs. \$42.75; 10 lbs. \$80.75.

177 Emperor

Has Thicker Stalks Than Any Other Celery And Surpasses All Others in Nutty Flavor (135 days)

This follows Golden Self Blanching in season of maturity but it surpasses it as a variety for fall use and winter storing. The plants make a compact dwarf growth measuring about 15 to 18 in. in height. This makes it very easy to blanch the stalks. The individual stalks are short and stocky. They are broad and unusually thick yet they are free from fiber or strings. The nutty flavored, crisp heart has a light yellow tinge. Pkt. 10c; 1/2 oz. 35c; oz. 60c; 1/4 lb. \$1.80; 1/2 lb. \$3.30; lb. \$6.00; 2 lbs. \$11.15; 5 lbs. \$27.00; 10 lbs. \$51.00.

185 Winter Queen

A Splendid Winter Variety and a Good Money Maker (140 days)

This variety is hard to excel where a celery for winter keeping is wanted. The plants are short, stout, thick, and heavy, containing almost double the quantity of heart than any other celery. The stalks are light green blanching to a beautiful pure white. They are juicy, crisp, and refreshing. Pkt. 5c; 1/2 oz. 20c; oz. 30c; 1/4 lb. 85c; 1/2 lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10; 10 lbs. \$19.10.

182
Giant
Pascal

Celery—continued

182 Giant Pascal or Winter King

The Largest Ribbed Celery (140 days)
The most outstanding feature of this splendid winter celery is its enormous productivity. Yet it compares very favorably in tenderness, crispness, as well as in sweet nutty flavor with Golden Self Blanching from which it was originated. The stalks grow about 2 ft. high. They are thick, solid, entirely stringless, and as brittle as glass. When properly blanched the stalks are a beautiful yellowish white. They are very broad and quite prominently ribbed without, however, showing any signs of fiber or strings. Whether grown for home use or market, Giant Pascal is bound to give entire satisfaction. It is easy to grow, reasonably quick in blanching, and can be kept throughout the winter if properly stored. Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 85c; ½ lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10; 10 lbs. \$19.10.

180 Columbia

An Old Favorite Recommended For Fall Or Early Winter Use (115 days)

Broad thick stalks which are solid, almost round, and of excellent quality. Of attractive appearance with beautiful light green foliage and well blanched stalks. Because the plants are of medium height they are easy to blanch. Pkt. 5c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.20; ½ lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00; 10 lbs. \$34.00.

189 Maule's American Yellow

A Favorite Self-Blanching Variety for Both Home and Market (110 days)

An early self-blanching variety similar in many ways to our special French-grown strain of Golden Self-Blanching except that it has a larger stalk and, therefore, fills a standard crate more quickly. Pkt. 5c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25; ½ lb. \$2.35; lb. \$4.25; 2 lbs. \$7.90; 5 lbs. \$19.10; 10 lbs. \$36.10.

194 Witloof Chicory

(150 days) This is also known as **French Endive**. Highly valued as a winter salad. The roots are grown outdoors during the summer, and replanted into boxes covered with sand to force the growth of the tender crisp shoots indoors. It is easy to force in any cellar or bome near the heater or on the radiator. Pkt. 10c; oz. 25c; ¼ lb. 70c; ½ lb. \$1.10; lb. \$1.85; 2 lbs. \$3.40; 5 lbs. \$8.15; 10 lbs. \$14.80.

193 LARGE-ROOTED Chicory

(120 days) The roots are taken up in the fall, cut into small pieces, dried, roasted, and ground. Sometimes used as an adulterant for coffee, but if used in small quantities it adds color and brings out the flavor of the coffee. Does best in a moderately rich, deeply prepared soil. Pkt. 5c; oz. 20c; ¼ lb. 60c; ½ lb. 85c; lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00.

Celeriac

188 Turnip-Rooted Celery

(120 days) Here is a vegetable which is entirely too little appreciated by American cooks. The plants form a thick edible root and require no blanching. The flesh is pure white and tender. The flavor is not unlike that of the blanching type of celery. It may be either cooked and creamed or served cold with vinegar as a salad. Its main use, however, consists in adding flavor to soups and stews. Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 85c; ½ lb. \$1.25; lb. \$2.25; 2 lbs. \$4.20; 5 lbs. \$10.10; 10 lbs. \$19.10.

Collards

201 True Georgia

Used Exclusively for Greens (80 days)

Splendid wholesome cabbage-like greens enjoying great popularity in the South. The plants grow 2 to 3 ft. tall, forming a cluster of tender, wavy leaves at the end of a rather long stem. Deserves to be grown more widely. Pkt. 5c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.20; 10 lbs. \$4.10.

Corn Salad

203 Round Leaved (42 days)

Some gardeners know this as Lamb's Lettuce. It is a hardy plant, producing early in the spring an abundance of rich green leaves which are excellent for salads. Sometimes they are cooked like spinach. Sow the seed early in the spring thinly in drills and thin to stand 2 in. apart. For winter and early spring sow during August and September. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

POP CORN

CULTURE: Plant in hills or in blocks of several rows after all danger of frost is over. 3 to 4 ft. between hills or rows is the usual distance. Leave 3 or 4 plants in each hill or by the row method let the plants stand about a foot apart. A packet of seed will give about 150 ft. of row. 4 lbs. are needed to drill one acre. Every home garden should include a good size patch of pop corn.

234 Queen's Golden

Golden Yellow Kernels (130 days)

Handsome large ears of a beautiful rich golden yellow color, popping into extra large, fluffy white balls measuring nearly one inch across. It is a remarkably productive pop corn, bearing as many as 3 to 4 ears on each stalk. Plant the seed early so that the kernels will ripen fully before cold weather sets in. They must be thoroughly dried before being used for popping. Pkt. 10c; ½ lb. 25c; lb. 30c; 2 lbs. 50c; 5 lbs. \$1.05; 10 lbs. \$1.85, postpaid. Not prepaid: 15 lbs. \$1.95; 25 lbs. \$3.00; 50 lbs. \$5.50; 100 lbs. \$10.00.

235 Tom Thumb

(130 days)

This variety is also called **Japanese Hulless or Dwarf Baby Rice**. It is a heavy yielder with handsome ears closely set with pure white, rice-like kernels. The ears are nearly as broad as they are long. They are free from hulls or shells. A tender delicious pop corn without any hard flinty substance. Grows 5 ft. tall with 2 or 3 ears per plant. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.15; 10 lbs. \$2.05, postpaid. Not prepaid: 15 lbs. \$2.25; 25 lbs. \$3.50; 50 lbs. \$6.50; 100 lbs. \$12.00.

237 Monarch White Rice

(140 days) Everybody knows this old favorite which has been grown for generations because it is one of the best for home use and commercial purposes. Our strain is an improvement of the older type with larger ears containing considerably more kernels. Three ears per plant is not unusual. The white grains are sharply pointed but pop into fluffy round white balls. Pkt. 10c; ½ lb. 25c; lb. 30c; 2 lbs. 50c; 5 lbs. \$1.05; 10 lbs. \$1.85; postpaid. Not prepaid: 15 lbs. \$1.95; 25 lbs. \$3.00; 50 lbs. \$5.50; 100 lbs. \$10.00.

Sweet or Sugar Corn

CULTURE: Plant the seed after all danger of frost is over and the ground has warmed up. Sow in rows 3 to 4 ft. apart. Cover the seeds about one inch deep. Space the seed 8 in. apart in the rows. The most popular method, however, for field planting is to drop 3 to 4 seeds in hills spaced either 3 by 4 ft. or 4 by 4 ft. Allow 2 to 3 plants to remain in each hill. In order to provide a continuous supply of good fresh corn make succession plantings until about July 10. The final date of planting, of course, depends entirely upon your climatic condition. A packet of seed will plant four rows, each 25 ft. long; $\frac{1}{2}$ lb. for 200 hills; $12\frac{1}{2}$ lbs. per acre.

Golden or Yellow Varieties

223 The Burpee The Earliest Yellow Sweet Corn (53 days)

This is the earliest, choice yellow Sweet Corn in existence. The ears measure about 7 in. in length. They are closely set with twelve rows of large, broad, golden yellow kernels. Though it resembles the famous Golden Bantam corn in quality and flavor, the ears are considerably larger and are produced about a week sooner. The plants average from 5 to $7\frac{1}{2}$ ft. in height and produce on the average two good ears per plant. It is a remarkable variety for the home gardener who appreciates quality, and most profitable to market growers who benefit greatly from its earliness and outstanding qualities. **Pkt. 15c; $\frac{1}{2}$ lb. 30c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.60; 10 lbs. \$3.05, postpaid. Not prepaid: 15 lbs. \$3.75; 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.**

207 Golden Bantam The Most Famous Sweet Corn (60 days)

No other Sweet Corn in existence has become as well known and as popular as Golden Bantam. It is an early variety with a honey-like sweetness and a rich buttery flavor which for years had no equal. The eight rows of broad, bright golden yellow kernels are covered with a fine tender skin enclosing a most delectable sweet pulp. The plants grow 5 ft. tall, each bearing 2 to 3 perfect ears about 6 in. long. A splendid variety for both the home gardener and market. **Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.00; 100 lbs. \$13.00.**

213 Barden's Wonder Bantam Large Yellow Ears (60 days)

A newer yellow-grained Sweet Corn of the same height, season, and quality as Golden Bantam. It differs from it by having larger ears measuring 8 to 10 in. in length and being closely set with eight rows of rich golden yellow kernels. The plants grow from 5 to 6 ft. tall. This variety will appeal to both the home gardener and market grower who must have the Golden Bantam quality but prefers a somewhat larger ear. We highly recommend it. **Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.**

217 Burpee's Sunnybrook Luscious Golden Yellow (65 days)

This follows Golden Bantam very closely in season of maturity. The handy, well shaped ears measure about 7 in. in length and are closely set with ten rows of medium size, bright rich creamy yellow, tender skinned grains of a sweetness and tastiness that places it among Sweet Corns of the highest quality. The plants make a strong growth, 5 to 6 ft. tall, and bear an abundance of ears well protected by a thick husk. **Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.**

211 Golden Giant Large Yellow Ears. Very Sweet (65 days)

This is a cross between Golden Bantam and Howling Mob. It combines the distinct buttery flavor of Golden Bantam with the size of Howling Mob—a combination representing the most desirable characteristics for a good home garden and market variety. The plants grow $4\frac{1}{2}$ to 6 ft. tall, each one producing 2 to 3 good ears which measure 7 to 9 in. in length. The kernels are arranged in 12 or 14 even rows. It has thoroughly established itself in many sections. **Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.**

229 Bantam Evergreen Late and Productive (70 days)

As the name implies, this splendid variety is a cross between the famous Golden Bantam and the no less popular White Evergreen. In combining the characteristics of these two varieties, the breeder succeeded exceptionally well in retaining not only much of the luscious, sweet and buttery flavor of Golden Bantam but also the size and prolificness of the Evergreen variety. The plants are vigorous, growing 6 to 7 ft. tall. Each plant produces two large perfect ears measuring about 8 in. in length and closely set with 12 or 14 well rounded, rather broad, deep grains of a rich golden yellow color. **Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.15; 10 lbs. \$2.05, postpaid. Not prepaid: 15 lbs. \$2.25; 25 lbs. \$3.50; 50 lbs. \$6.50; 100 lbs. \$12.00.**

The New Whipple's Early Yellow Sweet Corn is offered on page 4

227 Golden Sunshine

Beautiful Golden Yellow Ears Maturing a Week to Ten Days Earlier Than Golden Bantam (53 days)

We would like to see every grower of Sweet Corn plant a good size plot of this splendid variety to convince himself of its remarkable qualities. Its earliness alone is a factor that should appeal to everyone whether he grows Sweet Corn for market or for home use. When we say that it has the Golden Bantam flavor we know that thousands of growers will realize that it has a sweet and buttery flavor of exceptional lusciousness. Its limited habit of growth, the plants are only $4\frac{1}{2}$ ft. tall, makes it possible to grow the rows closely together and therefore increase the yield from a given area. Most plants produce two perfectly-formed large ears about $6\frac{1}{2}$ to 7 in. in length. There are twelve rows of bright yellow, sweet grains to the ear. There are already thousands of gardeners who grow this excellent variety and we know that many thousands more will grow it this season. **Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.**

Maule's Four-Leaf Clover

This mark has been used throughout the vegetable section of this catalog to identify varieties which are particularly valuable to every grower. If you are in doubt which varieties to select choose those which have the Maule Clover Mark.

Maule's Sweet or

Earliest and Second-Early White Varieties

206 Maule's Ideal Early

If you want delicious corn on your table on July 4th, plant this extremely hardy, early, large-eared variety. In this early corn we have a variety which has a sweetness equal to most true Sweet or Sugar Corns. It will germinate satisfactorily under conditions which would spell failure to the regular Sweet Corn and can safely be planted much earlier. It adapts itself to any kind of soil, either sandy or heavy. The stalks grow 6 ft. tall, a characteristic that will appeal to the gardener who is interested in securing a crop of fodder besides a heavy yield of ears. Our own claims for this variety could be based on prejudice but when grower after grower comes back to us year after year usually for an increased quantity of Maule's Ideal Early Sweet Corn, even the skeptical must realize that it must have desirable characteristics. The 12 rows of pearly white grains are exceedingly sweet and tasty. Pkt. 10c; ½ lb. 20c; 1b. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

214 Maule's First of All

An Extra Early, Large Eared, True Sweet Corn (55 days)

A handsome variety of extra early maturity and a quality that will appeal to those who appreciate the delicate, sweet and fine flavor found in the best of Sweet Corns. It produces 8 or 10 rows of pearly white grains on a large pink cob, and carries more ears per plant than any other early variety. It is especially desirable for gardeners who wish to benefit from the high prices obtained by being the first on the market with home-grown Sweet Corn. It is likely to bring double the price that other varieties command later. The plants make a growth of moderate height which makes it possible to plant them more closely than the taller growing varieties. If this is done the yield from a given area is increased quite a bit, making this variety particularly profitable. Pkt. 10c; ½ lb. 25c; 1b. 40c; 2 lbs. 75c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

219 Howling Mob Early, Large, Thick, Sweet Ears (65 days)

It is interesting to know how this splendid early variety came to be named Howling Moh. The originator, a market grower, used to take it to market where it was sold in competition against other varieties. Customers soon came to recognize its outstanding sweetness and delicious flavor, and soon after opening his stand crowds gathered about it clamoring to get a supply. It was truly a "Howling Moh" that besieged the grower day after day. Nothing else is as much proof of quality in a vegetable than popular demand. We fully agree that it is an excellent, early white sweet corn for both market use and home growing. The ears are 7 to 9 in. long and have 12 to 16 rows of pearly white grains. The plants grow about 5 ft. tall, bearing two ears each. Pkt. 10c; ½ lb. 25c; 1b. 35c; 2 lbs. 55c; 5 lbs. \$1.20; 10 lbs. \$2.15, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.00; 100 lbs. \$13.00.

212 Maule's XX

Possesses a Most Delicious Sugary Flavor (68 days)

This is one of our great specialties and we have carefully guarded its outstanding qualities to protect growers in getting, year after year, a corn of the same high quality. We have customers who have bought it from us in quantities ever since it was introduced many years ago. It has won national fame for itself on the merits it possesses. Again and again customers have written us that they consider it the most delicious, sugary Sweet Corn they have ever tasted. This opinion is likely based upon the fact that it retains its rich sugary flavor over a long period. Even after the time when it is at its best has passed, it still is as sweet and delectable as many other varieties when at the height of perfection. The stalks grow 5 to 6 ft. high, producing large 12 to 16 rowed ears measuring 9 to 10 in. in length. Will produce a good crop sown as late as July 5 to 10. Pkt. 10c; ½ lb. 25c; 1b. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

220 Early Evergreen Earlier than Stowell's (70 days)

This is a special strain which resembles Stowell's Evergreen in every way, except that it will mature full-size edible ears in 70 days, whereas Stowell's Evergreen requires fully 80 days to mature a crop. The plants grow 7 ft. tall and are very vigorous. Many of them bear two ears to the plant. The ears are 7 to 8 in. long. They are closely set with 16 rows or more of pearly white, deep, moderately narrow grains of excellent flavor. Pkt. 10c; ½ lb. 25c; 1b. 35c; 2 lbs. 55c; 5 lbs. \$1.15; 10 lbs. \$2.05, postpaid. Not prepaid: 15 lbs. \$2.25; 25 lbs. \$3.50; 50 lbs. \$6.50; 100 lbs. \$12.00.

210 Burpee's Delicious Sweet Flavored (70 days)

Upon seeing the ears of this variety one is immediately impressed with their resemblance to those of Golden Bantam Sweet Corn, though the ears are considerably larger and the grains are of a beautiful pearly white color. This resemblance is not just superficial but due to the fact that it has been derived from Golden Bantam and has inherited not only the depth and breadth of the kernels but also a good amount of the wonderful flavor of the famous Golden Bantam. It makes a strong growth, 5 to 7 ft. high. Well protected by a strong firm husk is an ear measuring close to 8 in. in length with 12 or 14 rows of broad deep white luscious buttery kernels. Pkt. 10c; ½ lb. 25c; 1b. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

214 Maule's First of All

Sugar Corn—continued

Second-Early and Main Crop White Varieties

205 Maule's Colossal Early

We Claim That This is the Finest Large Eared
Sugar Corn in Existence (70 days)

When a variety of Sweet Corn not only holds its own for a period of over 22 years but its sales increase with every season, it simply must be good. While its days to mature have been given above as 70, we know of many instances where, due to favorable conditions, it has produced its first ears within 58 to 62 days after planting. That, of course, is most unusual for a corn of this size and character. Quality in Sweet Corn is, however, more important for its popularity than season of maturity. You must taste freshly-picked Maule's Colossal before you can realize just how good it is. With most people quantity must go hand in hand with quality, and Maule's Colossal Early combines the two in a most generous measure. The ears are 7 to 9 in. long and frequently 2 to 3 in. thick with 12 or 14 rows of large sweet kernels that fairly melt in your mouth. The plants are 6 to 7 ft. tall, many of them carrying 2 to 3 ears on a stalk. Pkt. 15c; ½ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

218 Black Mexican A Real Quality Corn (70 days)

This is a Sweet Corn of the choicest quality. When ready for the table the kernels show just a faint attractive tinge of light purple. The ripe seeds are deep bluish purple. You will be surprised how delicious it is though its color makes it less desirable for market. 8-rowed. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

216 Country Gentleman or Improved Shoe Peg

The Best Known and Most Widely Planted Sweet Corn (80 days)

The variety is easily recognized by the irregular arrangement of the kernels. The seeds also are quite distinct. Being long and narrow the variety has earned the byname Shoe Peg Corn. The ears are quite large, 7 to 8 in. long, with a small white cob thickly covered with long slender white grains of exceptional sweetness. The plants carry as many as three ears each. Splendid for home, market, and canning. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

221 Stowell's Evergreen

This is a Standard Main-Crop Variety (80 days)

Many new varieties have come into existence since the day Stowell's Evergreen was first offered for sale, yet it is more popular today than it has been ever before. The answer to this is quality, exceptional quality! The ears are 8 to 9 in. long. They are set with 16 or 18 rows of very deep, sweet kernels. Continued selection year after year has given our strain a uniformity which was lacking in former years. It has an enviable reputation for home growing, market, and canning. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.15; 10 lbs. \$2.05, postpaid. Not prepaid: 15 lbs. \$2.25; 25 lbs. \$3.50; 50 lbs. \$6.50; 100 lbs. \$12.00.

222 Maule's "Lead All" Evergreen

A Most Productive Late Type of Evergreen Sweet Corn
with Extra Large-Size Ears of Superb Quality (85 days)

In introducing this corn some years ago we realized that increased size linked with superior quality were most important features that would appeal to home gardeners and market growers. Maule's "Lead All" Evergreen combines extra large size with the superb quality found in other sweet corns of the Evergreen type. It produces truly handsome ears which are sweeter and larger than either Country Gentleman or Stowell's Evergreen. The plants grow 8 to 9 ft. tall, an indication of their vigorous habit and productiveness. Most of the plants produce two fine well-developed ears measuring anywhere from 8 to 10 in. in length. They are thick and heavy, closely set with 16 or 18 rows of large, white, sweet grains. Noted for its drought-resistant qualities. Retains its fine flavor better than most other varieties. Its late maturity helps considerably to prolong the corn season. Pkt. 15c; ½ lb. 30c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.60; 10 lbs. \$3.05, postpaid. Not prepaid: 15 lbs. \$3.75; 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

228 Maule's Late Mammoth (90 days)

Late varieties of Sweet Corn, while perhaps not as valuable as extra early varieties, nevertheless fill an important place and make it possible to provide for a continuous supply of good fresh corn from plantings made all at one time. Maule's Late Mammoth requires fully 90 days to come to maturity. It is of tall growth, bearing large, thick, heavy ears completely covered with 16 rows of large, deep, luscious, sweet, pearly white kernels. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$2.55; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$14.00.

225 Maule's Improved Giant

The Best of the Large Eared Late Sweet Corn (90 days)

This variety will appeal to those who realize the importance of growing some late Sweet Corn and we endorse it as the finest for this purpose. It is hard to beat for sweetness, succulence, size of grain, and fine table quality. The plants make a strong, upright growth supported by an abundance of roots which give good stability to the plants. While ears 10 in. long are considered already very large, Maule's Improved Giant often produces ears which measure as much as 12 in. in length with 14 or 16 rows of kernels of the highest quality. Pkt. 10c; ½ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

205
Maule's
Colossal
Early

222 Maule's "Lead All" Evergreen

Big Crop-Cucumbers

CULTURE: Sow the seed, after all danger of frost is over, in hills spaced 4 to 5 ft. each way. Place 8 to 10 seeds in each hill and cover $\frac{1}{2}$ in. deep. Later, thin to 3 or 4 plants per hill. For pickles plant during June and July. One pkt. is enough for 15 hills; one oz. for 75 hills; 2 to 3 lbs. per acre.

254 Maule's Earliest Black Diamond

254 Maule's Earliest Black Diamond

Earliest White Spine Type. It "Stays Green" (50 days)

This excellent, white spine cucumber is adapted to all sections and all soils, and we highly recommend it to both small and large growers. Whether used for pickling when small or for slicing when fully grown, it is a valuable variety for the home garden, for local markets, and for distant shipping. The fruits grow 7 to 8 in. long, are cylindrical in shape, perfectly smooth, and of handsome appearance. Their even dark green color, extending from one end of the fruit to the other with small white rays at the blossom-end, will sell them on sight. Firm white crisp flesh. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

244 Maule's Extra Early

First For the Table, Market, and for Pickling (50 days)

This widely popular, white spine cucumber is an attractive dark green. When of a size suitable for pickling, the cucumbers are straight, square-ended, and firm. When ready for slicing they measure 6 to 7 in. in length. Maule's Extra Early is a quality variety. It has a crispness and delicious flavor that will appeal to all who are fond of cucumbers. The vines make an extra heavy growth and produce an abundance of fruits. In season of maturity it is classed together with the early varieties, yet it also is grouped among the heaviest yielding cucumbers in existence. Its quality is such as to make it of value to both the home gardener and market grower. It also is a valued variety in certain sections where pic ling cucumbers are grown. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; $\frac{1}{2}$ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

264 Cool and Crisp

(55 days) An exceedingly prolific and handsome cucumber with fruits which are straight, long, even, and slim when they have reached the size when best for pickling purposes. At that stage of growth and until they reach full size, the fruits are an exceptionally dark green color. The knobs bearing the spines are prominent at all stages of growth. Tasty and pure white flesh. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

270 Burpee's White Wonder

Pearly White Skin and Flesh (58 days)

A quality cucumber of good appearance and by no means just a freak or a curiosity. The fruits are 8 in. long and about $2\frac{1}{2}$ in. thick. Both the skin and flesh are a beautiful pearly white. It is known for the exceptional brittleness of its flesh. Remains solid and crisp over an unusually long period of time. The vine growth is heavy and luxurious, particularly on soil of good fertility, where fruits are borne abundantly. Well adapted to the home garden. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. 95c; lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

246 Davis Perfect

Resembles the High Priced Hot-house Varieties in Size, Form, and Quality (60 days)

This has become a most popular cucumber almost everywhere. It is ideal for shape, color, and quality; just about perfect in size. It does not change its rich dark green color when grown outdoors. In fact, it always greatly resembles the handsome large smooth hot-house cucumbers offered at high prices in all the better markets. There are many growers who have found out that it is one of the best money-making crops they can grow. Its eating qualities are superb, claimed by many to be superior to all other cucumbers in existence. Vigorous, sturdy, and very productive vines. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 65c; lb. \$1.10; 2 lbs. \$2.00; 5 lbs. \$4.80; 10 lbs. \$8.80.

251 Maule's Earliest Klondike

Holds Its Dark Green Color Particularly Well After Picking (60 days)

An excellent strain of cucumbers belonging to the White Spine class. Remarkable for its good shape and uniform dark green skin. It is medium-early, bearing a large crop of attractive, rather thick, short, stocky fruits which taper abruptly at both ends. The fruits retain their fine deep color for a remarkably long period. The vigorous vines support a good crop of fruits, measuring about $7\frac{1}{2}$ in. long and $2\frac{1}{4}$ in. in the center where they are thickest. Our strain is especially fine. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; $\frac{1}{2}$ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

245 Fordhook Famous

The Largest of the White Spines (60 days)

Long thick fruits tapering at both ends. Of an attractive and appetizing light green color with a thin tender skin. The flesh is very solid and crisp. It is a foremost variety for slicing and a great cropper. Of attractive appearance. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

For Longfellow, a fine new outstanding Cucumber, see Novelties page 5.

252 Maule's Early White Spine

The Finest for Slicing. Splendid for the Home, Garden, or Market (58 days)

When we gave the Maule name to this special strain of White Spine cucumber, we realized that it had to be extra good to deserve this distinction. Ever-increasing sales since we introduced it are ample proof that we have not misjudged the exceptional qualities of this splendid table and market variety. Dark green fruits, 5 to 7 in. long and 2 to 3 in. thick. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

257 Maule's Improved Long Green

Long, Dark Green Cucumbers. Very Popular (70 days)

This fine fruit grows from 12 to 16 in. long and measures 3 in. across. It is more slender and shows less warting or irregularities of the surface than most other varieties. The fruits gradually taper at the stem-end. The color of the skin is a beautiful dark green. When young, the fruits are highly valued for pickling and full size cucumbers are splendid for sweet pickles or for slicing. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

268 Maule's Early Fortune

A Great Favorite For The Table (60 days)

A most attractive and very popular cucumber grown widely by market gardeners and shippers both North and South. The fruits are a rich deep green and retain their color for an exceptionally long time. It is early, very productive, and decidedly disease resistant. The fruits measure 9 in. long and have beautiful white firm crisp flesh with very few seeds. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 65c; 1 lb. \$1.10; 2 lbs. \$2.00; 5 lbs. \$4.80; 10 lbs. \$8.80.

250 Arlington White Spine

Long, Attractive, Dark Green Fruits (62 days)

A very early, productive variety, bearing an abundance of short, square-ended, somewhat three-cornered fruits which measure 7 to 8 in. in length and 2½ in. in diameter. The skin is a moderately deep green with solid white markings at the blossom-end. The flesh is white, crisp, and solid. Very productive and splendid for slicing or for dill pickles. Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

247 Maule's Shamrock (60 days)

Our own strain of this desirable variety of cucumber produces vines which are hardy and prolific. It is a reliable cropper, producing a great quantity of attractive rich shamrock-green fruits measuring 7 to 8 in. in length. Holds its color well. Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

272 Japanese Climbing (60 days)

This can be grown on poles or on a trellis due to the climbing habit of the vines. Produces a great mass of dark green fruits with pure white flesh. Of excellent quality. Never bitter. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

274 Mixed Cucumbers (50 to 80 days)

One planting of this mixture will provide a great quantity of cucumbers from early until late in the season. It includes varieties both for slicing and for pickling. Splendid for the home gardener. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; 1 lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

257 Maule's Improved Long Green

Pickling Cucumbers

263 Early Green Cluster

Bears in Twos and Threes (50 days)

A light green variety bearing a tremendous crop of short, decidedly prickly fruits highly valued for pickling purposes. It has the distinctive habit of forming its fruit in clusters of 2 to 3 each and this characteristic is responsible for its heavy yielding quality. It is an extra early variety with fruits reaching a length of 6 in. and measuring 2¾ in. across. The fruits contain very few seeds. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 80c; 2 lbs. \$1.45; 5 lbs. \$3.40; 10 lbs. \$6.00.

267 Danish Pickling (65 days)

A remarkable grower producing a fine crop of handsome fruits thickly set with small spines. The thin skin is rich green and retains its color for a long time. The flesh is solid, firm, crisp, and of excellent quality. Suited for slicing and pickling. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; 1 lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

273 Small Gherkin (80 days)

This is used exclusively for pickling, producing an abundance of small oval fruits 2 to 3 in. in length and completely covered with spines. It is of splendid flavor and one of the most popular pickling sorts. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. 95c; 1 lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

266 Everbearing

Especially Desirable for Pickling (50 days)

A general favorite because of its fine quality and ability to go right on bearing throughout the entire season. It is uniformly productive from early in the season over a period of months. The fruits may be used at any stage of their development—from the time they just begin until they have reached their full size. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 80c; 2 lbs. \$1.45; 5 lbs. \$3.40; 10 lbs. \$6.00.

256 Green Prolific or Boston Pickling

Early and Highly Valued for Pickling (50 days)

One of the most popular of all pickling cucumbers, of splendid form and highest quality. Has yielded as many as 200,000 pickles per acre, thereby proving its enormous ability to produce fruits. The bright green cucumbers are short, smooth, and regular, measuring about 6½ in. in length and being close to 2½ in. in diameter when they have reached full size. Gives a splendid stubby pickle. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 80c; 2 lbs. \$1.45; 5 lbs. \$3.40; 10 lbs. \$6.00.

261 Chicago Pickling

Green With Prominent Spines (53 days)

Preferred above all others by some of the largest pickling establishments around Chicago and other pickling centers. Very uniform, productive, and of rich color. About 7 in. long and 3 in. thick. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 80c; 2 lbs. \$1.45; 5 lbs. \$3.40; 10 lbs. \$6.00.

258 Nichol's Medium Green

(50 days) A handsome straight and smooth cucumber with a shape in between Early White Spine and Long Green. Worth a high place as a pickling variety and splendid for slicing when mature. Dark green skin and crisp, pure white, tender flesh. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 80c; 2 lbs. \$1.45; 5 lbs. \$3.40; 10 lbs. \$6.00.

259 Snow Pickling (55 days)

Beautiful dark green, cylindrical, square-ended cucumbers of just the right size for bottling. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 80c; 2 lbs. \$1.45; 5 lbs. \$3.40; 10 lbs. \$6.00.

290 Garden Lemon (55 days)

Also known as Lemon cucumber, forming nearly round, smooth fruits. Tender and sweet flesh of melon flavor. Yellow with green markings when ripe. Makes fine preserves. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; 1 lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

266 Everbearing

271 Snake Cucumber (75 days)

Delicious for slicing and splendid for pickling when young. The fruits often grow 6 ft. in length, coiling like a serpent. It is more of a curiosity and for exhibition than a practical variety, though it is of good quality. Pkt. 15c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$1.90; 1 lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75; 10 lbs. \$29.75.

Cress or Peppergrass

238 Extra Curled

For Garnishing

(20 days) The leaves are used when young. As a salad, either alone or with lettuce, they have an agreeably pungent taste. The seed is sown outdoors thinly in rows as early in the spring as the ground can be prepared. Space the rows 1 ft. apart and cover the seed $\frac{1}{4}$ in. deep. One pkt. for 40 ft. of drill; one oz. for 200 ft. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; 1 lb. 65c; 2 lbs. \$1.15; 5 lbs. \$2.60.

242 Water Cress

(40 days) A tasty wholesome salad plant which grows luxuriantly in shallow running water or in cool moist soil. Start the seed in pots, keeping it moist by placing it in a pan with water. When large enough, set into a shallow stream. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; $\frac{1}{2}$ lb. \$2.05; 1 lb. \$3.75.

Dandelion

275 Large Leaved (55 days)

A quick-growing variety with large broad thick leaves which make delicious greens during the spring and summer. Sow the seed early in the spring in drills $\frac{1}{2}$ in. deep, and thin to stand 4 in. apart. One pkt. for 25 ft. and one oz. for 300 ft. of drill. Pkt. 15c; $\frac{1}{2}$ oz. 25c; oz. 45c; $\frac{1}{4}$ lb. \$1.40; $\frac{1}{2}$ lb. \$2.60; 1 lb. \$4.75; 2 lbs. \$8.85; 5 lbs. \$21.35; 10 lbs. \$40.35.

Endive

CULTURE: Sow the seed in the open ground in April or for a main-crop in June or July. Cover about $\frac{1}{2}$ in. deep. When the plants have reached full size tie the leaves together for blanching or place boards over them to whiten the center and eliminate the bitter taste of the unblanched leaves. One pkt. for 25 ft. of drill; one oz. for 250 ft.; 4 to 5 lbs. per acre.

284 Green Curled

284 Green Curled

(40 days) This is also called Moss Curled Giant Fringed Oyster. Before blanching the finely cut and lacinated leaves are a rich green color. When blanched they are a beautiful creamy white, being crisp, tender, and of an agreeably pungent flavor. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

285 Ever White Curled

(35 days) This often is called Self Blanching as the curled or moss leaves are an attractive light color. They blanch easily and have a most delicious, crisp, refreshing flavor. Makes a wholesome and appetizing salad. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

287 Broad-Leaved Batavian

(45 days) This is also known as Escarolle. Large broad leaves forming enormous, well rounded heads often measuring 16 in. across. Can be blanched like other endive or cooked like spinach. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

Egg Plant

CULTURE: Sow the seed in a hotbed or greenhouse, or indoors in a warm sunny window anytime during March or April and transplant into small pots or shallow boxes. Place into the open after all danger of frost has passed and the soil has become moderately warm. Set the plants 3 ft. apart each way. A pkt. will produce about 150 plants; one oz. about 2000 plants, and $\frac{1}{4}$ lb. per acre. They do best in rich sandy soil.

282 Black Beauty

The Earliest of all Large Egg Plants (120 days)

No other large egg plant produces fruits as early as this remarkable variety. The eggs grow to really enormous size but may be used while still quite small. They are tender and tasty at all stages of growth. When fully developed they weigh 2 to 3 lbs. each. The color of the fruits is an extremely dark uniform purple with no lighter or greenish spots on any part of them. Their attractiveness makes them sell quickly in all markets and they may be kept for some time before being used, losing neither any of their quality nor good looks. The plants are of distinct, compact growth, bearing very heavily. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c; $\frac{1}{4}$ lb. \$1.25; $\frac{1}{2}$ lb. \$2.35; 1 lb. \$4.25; 2 lbs. \$7.90; 5 lbs. \$19.10; 10 lbs. \$36.10.

281 New York Improved Purple

A Favorite Home Garden and Market Variety (130 days)

An entirely spineless large purple egg plant of oblong shape. The plants are large, make a spreading growth, and are entirely free from spines. Each plant will produce from 4 to 6 large eggs of a fine dark purple color. New York Improved Purple has proven to be a favorite market variety but it is just as desirable for home garden growing. For best results enrich the soil with lots of well-rotted manure. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c; $\frac{1}{4}$ lb. \$1.25; $\frac{1}{2}$ lb. \$2.35; 1 lb. \$4.25; 2 lbs. \$7.90; 5 lbs. \$19.10; 10 lbs. \$36.10.

277 Maule's Excelsior

277 Maule's Excelsior

The Largest of all Varieties and Exceedingly Blight Proof (140 days)

This remarkable egg plant has made a "hit" with many growers, particularly in the South for which section it has proven of unusual value because of its blight resistance and endurance to drought and bad weather. The eggs are of large size and even, oblong shape and therefore more easily packed for shipping than the thicker varieties. They measure 6 to 8 in. in diameter. The plants grow 4 ft. tall and keep the fruits well off the ground. A splendid shipper grown extensively in the South, particularly in Florida and Louisiana. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 45c; $\frac{1}{4}$ lb. \$1.35; $\frac{1}{2}$ lb. \$2.45; 1 lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25; 10 lbs. \$38.25.

Kitchen Herbs

745 Chives or Schnittlauch

These belong to the onion family and their dark green, onion flavored tops are used extensively for flavoring. Perfectly hardy plants lasting for many years. More delicate in flavor than onions. Pkt. 10c; $\frac{1}{2}$ oz. 30c; oz. 50c.

750 Dill

Annual. The green herbage is used extensively in pickling cucumbers, and dill tea is good for colic and is said to prevent hiccoughs. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; $\frac{1}{2}$ lb. 45c; 1 lb. 75c.

770 Sage

Perennial. One of the most popular herbs. Used extensively for seasoning soups and dressings. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 85c; $\frac{1}{2}$ lb. \$1.25; 1 lb. \$2.25.

758 Sweet Marjoram

Annual. Very valuable for seasonings, imparting a very agreeable and pleasant flavor. The tops of branches should be picked off while quite young and dried for use in the winter. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. \$1.00; 1 lb. \$1.75.

778 Thyme

Perennial. The leaves and young shoots are used fresh or dried for seasoning. Thyme is an old fashioned remedy against headaches. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; $\frac{1}{2}$ lb. \$2.05; 1 lb. \$3.75.

Herbs marked (A) after the name are Annuals. Those marked (P) are Perennials.

Leeks—313 Giant Italian

(80 days) A great favorite and the largest of all. The stems are very thick. When well grown the stalks often are 3 in. in diameter. After blanching they are pure white, tender and extremely mild in flavor. Sow the seed in early spring in drills 12 to 18 in. apart and cover one inch deep. One pkt. 25 ft.; one oz. 150 ft.; 4 to 5 lbs. per acre. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 55c; $\frac{1}{2}$ lb. 80c; 1 lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

313 Giant Italian

69B84 Maliner Kren

Horse Radish

69B84 Maliner Kren

The roots are considerably larger and heavier than the common Horse Radish so that they yield fully twice as much. Matures very quickly and has pure white flesh. Plant the roots 15 to 18 in. apart vertically, thick end up, in rows 2 to 3 ft. apart. Cover 2 in. deep. 6 for 25c; 12 for 35c; 100 for \$2.00, postpaid.

Not prepaid: 250 for \$2.50;
500 for \$4.50 1000 for \$8.00.

Kohl-Rabi

Culture: Sow the seed thinly in drills spaced 12 to 18 in. and thin the plants to stand 6 in. in the row. One packet for 40 ft. of drill; one oz. for 300 ft.; 2 lbs. per acre.

312 Early Purple Vienna

(60 days) One of the earliest and best for the home garden. Light purple skin and pure white, tender, fine grained flesh. The young tender thickened stem has a delicious sweet flavor. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. 95c; lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

310 Improved Imperial

Also Known as White Vienna (50 days)

Well shaped, round roots with light green skin and beautiful creamy white flesh. It is extremely early in maturing and has a short top. These characteristics make it a valuable variety for growing in frames or under glass. The thickened stems are of choicest quality when about the size of an apple. Their flavor is not unlike that of Cauliflower. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. 95c; lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

310

Improved Imperial

All Vegetable Seeds up to 10 lbs. of each variety are sent POSTPAID

Mustard

CULTURE: Sow the seed broadcast or in drills 1 to 1½ ft. apart and ½ in. deep. Thin out to stand 1 to 2 in. apart in the row. A packet will sow 50 ft. of drill; one oz. about 200 ft.; 3 to 5 lbs. in drills, or 25 lbs. broadcast per acre.

424 Tendergreen or Spinach

A New Oriental Strain. Popular in the South (30 days)

An interesting new Oriental type of mustard sold in the South under many different names. It is quick growing, very tender, and has long, broad leaves with quite smooth surface and a white mid-rib. Tasty, delicious, and wholesome, standing long before shooting to seed. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 65c; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85.

421 Southern Giant Curled

Kale or Borecole

CULTURE: For late fall or early winter use, sow the seed early in June and transplant about the middle of July in rows 18 to 24 in. apart. Set the plants 8 to 10 in. apart in the row. For spring use, sow in August or September. A packet will produce about 300 plants; one oz. gives 3000 plants, and ¼ lb. is enough for one acre. Cover the tall-sown seed for spring use with hay or coarse litter during the winter.

304 Hardy Dwarf Siberian

(60 days) This is often called Spring Sprouts. An extremely hardy, well spreading variety with large plain leaves of a grayish green color. The edges are slightly curled. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; lb. 65c; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85.

306 Dwarf Green Curled Scotch

(55 days) An extremely hardy variety known in some sections as Norfolk. The plants make a low and compact growth. They are formed by rich dark green, densely curled leaves. A splendid and productive variety with a delicious flavor. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

307 Tall Green Curled Scotch

(65 days) This variety grows about 2 ft. tall and produces an abundance of deeply curled, intense rich green leaves of a plume-like appearance. The plants are quite hardy and are best for the table after being frosted. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

422 Elephant Ear

Large, Smooth, Rich Green Leaves. A Quick Grower (30 days)

A very popular variety, particularly in the South. The light green leaves look very appetizing and are tender and delicious. Elephant Ear is so vigorous that a single plant will be enough for a mess. The individual leaves measure 10 in. long and are about 6½ in. broad. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.20; 10 lbs. \$4.10.

423 Burpee's Fordhook Fancy

Curled Ostrich-Plume-Like Leaves (30 days)

An extra-early, dark green variety, splendid for cooking as greens. The leaves are a bright green, intensely curled and fringed on the edges. Has a mild flavor and is splendid for salad and garnishing. The plants stand a long time before seeding. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 65c; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85.

421 Southern Giant Curled

A Popular, Much Curled Variety (30 days)

Large, dark green leaves with intensely curled edges. Very popular in all sections of the South. Of upright spreading growth with leaves 5 in. long and 3 in. wide. Vigorous, hardy, and productive, with a delicious, mildly pungent flavor when cooked. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.20; 10 lbs. \$4.10.

303 Maule's Emerald Isle

303 Maule's Emerald Isle

An Attractive, Wholesome, Curled, Half-Dwarf Kale. Quite Hardy (60 days)

This is a distinct variety of kale which we believe surpasses all others in many ways. The plants are quite hardy and make an immense bush-like half-dwarf growth. The individual leaves are large and contain an enormous amount of substance, as they are heavily savoyed and curled. They possess a most desirable rich deep green color. The flavor of the leaves is best after the plants have been allowed to be frosted, when the texture becomes more brittle and the flavor is distinctly sweet and delicious. Kale is very easy to grow and provides luscious fresh greens during the winter when other green vegetables are off the market or available at high prices only. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

Okra or Gumbo

CULTURE: Sow the seed in May or early June, after the weather has become quite warm, in drills 3 ft. apart and cover with one inch of fine soil. Thin the plants when large enough to be handled to stand 12 to 18 in. apart in the row. One packet gives 25 ft. of drill; one oz. for 100 ft. of drill, and 8 lbs. for one acre.

431 Perkins' Perfected Long-Pod

(60 days) A splendid large okra growing 4 to 5 ft. tall and bearing a magnificent crop of bright green, straight, slender, pointed, and slightly corrugated pods measuring 7½ in. in length. Very early and productive. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 60c; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50.

434 White Velvet (55 days)

Creamy white pods 7 in. long. Smooth, tender, slightly curved, and pointed. Early. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 60c; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50.

433 Dwarf Georgia Favorite

(50 days)

A dwarf okra bearing an abundant crop of long, dark green pods on bushes growing about 2 ft. high. Of excellent quality. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 60c; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50.

431 Perkins' Long-Pod

The Best Lettuce

CULTURE: Sow the seed in the open ground, as soon as the soil can be worked. Space the rows 1 ft. apart and cover the seed $\frac{1}{2}$ in. deep with fine soil. Thin the plants to stand 6 to 8 in. apart in the row. To have fresh lettuce all season long, make succession sowings every two weeks until June. For fall use, sow in August and September. For an extra early supply, use a hotbed or cold frame to start the seed or grow the plants entirely in frames. A packet will give about 30 ft. of drill; one oz. gives a row 300 ft. long; 4 to 5 lbs. are needed to sow one acre. Lettuce does best if grown on moderately moist soil.

334
Big Boston

334 Big Boston

A Wonderful Butterhead Lettuce (50 days)

Whether grown in the open ground, in frames, or for forcing in the greenhouse, Big Boston always makes good. It has large, compact, bright green, tightly folded heads slightly tinged with brown. Of even size, color, and form. The plant makes few outer leaves, enclosing a beautiful light golden yellow heart. Its quality is superb. It is juicy, crisp, tender, and has a good rich flavor. An excellent variety for long distance shipping. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

332 White Big Boston

(48 days)

An unrivaled summer lettuce with large uniform solid heads of medium size. The heads are tightly folded so that the large solid heart blanches to a bright creamy yellow. The outer leaves are light green. It is an excellent variety for summer and also well suited for forcing. It does not have the brownish tinge as found in Big Boston. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. 95c; lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

318 May King Hardy and Quick Growing

(45 days)

A splendid, quick growing, and hardy lettuce with beautiful light green outer leaves slightly tinged with brown. The inner leaves are bright yellow and the heart is blanched to a beautiful rich golden yellow. It is essentially a quality variety with a flavor that is truly outstanding—buttery and rich. The heads are of medium size, compact growth, and tightly folded. It is, therefore, valuable for growing in the house or in frames, in addition to being a foremost spring lettuce for the garden. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

330 California Cream Butter

(50 days)

A round crisp lettuce of large size belonging to the Butterhead type. The bright green leaves are spotted with brown. Tightly folded hearts of excellent flavor. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; $\frac{1}{2}$ lb. 65c; lb. \$1.05; 2 lbs. \$1.95; 5 lbs. \$4.60; 10 lbs. \$8.40.

328 Maule's Improved
Hanson

340 Burpee's Earliest Wayahead

The Earliest Of All Head Lettuce (40 days)

A splendid lettuce with attractive, tightly folded heads. The inner leaves blanch to a beautiful rich buttery yellow. Has a fine firm heart of excellent quality and sweet crisp flavor. Highly valued for sowing in frames early in the spring, or for growing in the garden for an early crop. Its attractiveness makes it a good market growers' variety. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. 95c; lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

331 Crisp-As-Ice

331 Crisp-As-Ice

Compact, Solid Heads of Medium Size (50 days)

Fine solid heads of medium size with leaves so tender and brittle that the name Crisp-As-Ice suggested itself. The thick and glossy, slightly curled outer-leaves are rich green, somewhat shaded with bronze. The heart is solid and heavy. It is of a beautiful creamy yellow color. In some sections this is known as Hartford Bronzehead. It is a splendid lettuce of foremost quality with a rich buttery flavor and a crispness that is truly surprising. Splendid for the home garden and for market. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

328 Maule's Improved Hanson

Withstands Extreme Weather Better Than Most Other Varieties (50 days)

This lettuce represents the height of perfection, excelling all others with its fine table qualities. It is entirely free from any bitter taste with a rich and sweet flavor not only in the heart but also in the heavier outer leaves. Its reliability for sure heading is widely known and has given it much of its deserved popularity. The heads are large and almost round. The outer leaves are a bright green and the center is well blanched. It has proven particularly valuable for mid-summer growing as it withstands hot weather better than most other sorts. After it has formed its large size heads it will stand for a long time before bolting to seed. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; $\frac{1}{2}$ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

316 Maule's Immensity

Very Large and a Good Heat Resister (50 days)

This grand lettuce is, without exception, the very choicest lettuce in cultivation. It is a cabbage or butterhead of a dark green color, with the outer leaves shaded and spotted brown at the edges. The outer leaves are very large. The heart or center blanches to a beautiful creamy yellow color. It is tender, sweet, and very crisp. We can highly recommend it for planting as a late crop, though it is slow to run to seed at any season. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

321 Burpee's Butterhead (50 days)

A splendid large Butterhead lettuce of a beautiful medium green color. The entire plant is large, often measuring 12 in. in diameter. It has a compact large heart which blanches to a rich buttery yellow color. Its flavor is truly outstanding, being crisp, tender, and exceptionally sweet. It has proven to do well under various conditions of soil and climate, and has become a great favorite. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. 95c; lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

323 Iceberg Known as Ice Head (50 days)

This is the original Iceberg lettuce and should not be confused by growers with New York or Wonderful lettuce which is grown widely in certain sections of the country under the name Iceberg. The original Iceberg as we offer it here makes large handsome heads of a light green color with curly outside leaves and reddish edges. The inside leaves are strongly arched, exceptionally juicy, crisp, and tender. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

346 All the Year Round Solid Heads (50 days)

A splendid lettuce that has proven exceptionally valuable to withstand heat. The heads are large and solid. They are of a light green color and have a well blanched, large, solid, tender heart. The outer leaves are a beautiful green color. We recommend it highly for either spring planting or for a fall crop. Pkt. 5c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.50; 5 lbs. \$5.95; 10 lbs. \$10.80.

345 New York or Wonderful

Loose-Leaf or Cutting Lettuce

344 Black-Seeded Simpson

344 Black-Seeded Simpson

The Best Cut-and-Come-Again Variety (40 days)

Superior to other Loose-Leaf or Cutting lettuces with beautiful light green leaves with the center leaves blanched an almost white. Grows quickly, is of splendid quality, with leaves of a fine texture. It will yield a tremendous amount of wholesome fresh green salad. Superior in flavor to the heading varieties. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

342 Grand Rapids

A Home Garden and Market Favorite (38 days)

This is one of the best and most popular of all American varieties of lettuce. It is of the non-heading type with large leaves which are intensely waved, fringed, and curled. It has proven to do particularly well under glass and is grown extensively for both winter use and an early supply of tender fresh greens from the garden. It may be used while still very small or may be allowed to grow to full size. During all stages of growth it is tender, sweet, brittle, and most appetizing. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

326 Early Prize Head

A Crisp and Tender Loosehead Variety (45 days)

This is another of America's favorite lettuces. It forms large, tender, crisp, loose heads of a bright green color with an overlay of brownish red. The leaves are attractively curled and crimped. They have a decidedly sweet flavor which is retained for an unusually long period after the heads have reached marketable size. Pkt. 5c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

345 New York or Wonderful

Also Known as Los Angeles, Imperial Valley Iceberg, and Mountain Iceberg. A Great Heat Resister (60 days)

A very popular variety, sometimes called Iceberg, but widely different from the original Iceberg lettuce as offered above. It is a splendid heat resister with rich dark green outer leaves and a well blanched, tender, crisp, and hearty heart. A very popular variety for summer planting, doing well under various conditions of soil and climate. Pkt. 10c; oz. 25c; ¼ lb. 70c; ½ lb. \$1.10; lb. \$1.90; 2 lbs. \$3.50; 5 lbs. \$8.35; 10 lbs. \$15.20.

New Lettuce—New York No. 12 is described and offered on page 5

339 Mixed Lettuce

One Sowing Sufficient For Any Season (38 to 60 days)

There are many gardeners who prefer to have a row of lettuce containing all varieties for early, mid-season, and late use, so that one sowing will provide lettuce for the table over a long season. Our Mixed Lettuce contains only the standard varieties we list, providing cutting lettuce for early use and head lettuce for summer and fall. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

Romaine or Cos Lettuce

343 White Cos Crisp, Tender, and Sweet (55 days)

This is a distinct type of lettuce. The plants are medium-large, of a pronounced upright growth with long tender leaves enclosing a well-blanched elongated heart. This Cos lettuce is self-closing so that it does not need tying up in order to blanch the center leaves or heart. It will stand more hot summer weather than other lettuces and is considered a great delicacy. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

341 Chicken Lettuce

All Kinds of Poultry Eat it Greedily (45 days)

This lettuce will yield more feed for your poultry or rabbits than any other plant you could sow for greens. The plants will grow 4 ft. high at which time they begin to form seed. It is ready to cut in about 45 days after sowing and will start out again to make new shoots which will give a splendid succession crop. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

Muskmelons or Cantaloupes

350 Lake Champlain

350 Lake Champlain

The Earliest Orange-Flesh Melon to Ripen. Does well in all sections and soils (57 days)

Also known as Golden Champlain. This very early maturing muskmelon produces almost round, medium sized melons, which are well netted and moderately ribbed. The thick golden orange flesh is sweet and melting. The plants are hardy and vigorous. They produce a large crop of excellent fruits. The value of this melon lies primarily in its earliness. It can be raised farther north than most other varieties and does well in all sections and soils. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

Culture: Plant the seed in hills 4 to 6 ft. apart each way, after all danger of frost is over. Use well rotted manure in the hills. Insert seeds just under surface of soil. Use a packet to 15 hills; 1 oz. to 60 hills; 2 to 3 lbs. to an acre. Thin out, leaving only 4 plants to a hill. Cultivation should be kept up as long as possible. Ready to use in 57 to 85 days. Honey Dew requires about 120 days.

Salmon and Orange-Flesh Varieties

357 Hearts of Gold

Extremely Thick, Sweet, Orange Flesh (70 days)

This is an ideal basket or crate melon. The fruits are of medium size, almost perfectly round, and heavily netted. The rich orange flesh is very thick, of handsome appearance, and of the sweetest flavor. The fruits weigh about 2 pounds each. The seed cavity is small and the rind is very tough, making it a good shipper. It is a vigorous grower and a heavy cropper. A good, medium sized melon of attractive size and shape, and luscious flavor. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

357 Hearts of Gold

358 Burpee's Fordhook

An Orange-Fleshed Jenny Lind (70 days)

This melon resembles the Prize Jenny Lind in shape, but is much larger. The vines are strong and vigorous, branching freely and frequently setting five to nine melons close to the hill. The melons grow remarkably uniform in shape and size. They are of attractive appearance, slightly flattened at both the stem and the blossom end. They are roughly netted. The attractive deep orange flesh is very thick and deliciously sweet. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

348 Maule's Gold Coin

One of the Largest and Sweetest of the Salmon-Fleshed Sorts (70 days)

Maule's Gold Coin is a cross between Emerald Gem and Osage. It is earlier than the Osage by 10 days, as large, and a great deal more netted. The flesh is thicker and of better quality; the skin lighter in color and wider ribbed. The specimens run from round to oblong, often both on the same vine, some of them weighing 6 to 7 pounds. Sweet and luscious. Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

368 Hale's Best

368 Hale's Best

The Earliest Orange-Fleshed Rocky Ford Melon (70 days)

This remarkably early Rocky Ford Melon is of fine flavor. The salmon flesh is exceptionally thick with very small seed cavity. The fruits are oval, about 6 by 4½ inches, with a heavy netting and ribs hardly apparent. This is one of the best melons for shipping to distant markets. It has become a very popular melon in all markets, and is grown in many widely different locations. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

All Vegetable Seeds up to 10 lbs. of each variety are sent POSTPAID

371 Maule's Perfection

371 Maule's Perfection

Most Delicious (75 days)

You will notice the fine shape of this variety from the illustration shown above. The color of the skin is a rich deep green. The fruits are well ribbed and thickly netted, while the flesh is a rich salmon. The large melons are nearly all flesh, the seed cavity being very small, hardly large enough to accommodate the seeds. In flavor it is simply unexcelled, and certainly justifies its name. Unsurpassed for the home garden and for market. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

365 Extra Early Grand Rapids

A Delicious Home Garden Melon (75 days)

This extremely early variety produces extra large melons. They are of oblong shape, pale green, turning to yellow when ripe. An excellent large melon for the home garden with sweet orange flesh. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

374 Osage or Miller's Cream

Does Well on Heavy Soils (75 days)

(Improved strain) This is an excellent melon for the home garden, for long distance shipping, and for market. The melons are of medium size and nearly round. They have a dark green skin which is ribbed and somewhat netted. The deep salmon flesh is of luscious flavor. Very thick, sweet, and a prolific bearer with a small seed cavity. The melons are of uniformly high quality. This strain is one of the earliest to ripen, producing in any soil or climate luscious melons of high quality. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

373 Emerald Gem

(75 days) A melon that can be grown in any garden. While the fruits are not large, they ripen very early. Each vine produces a large number of melons of good quality. The dark green melons are almost round, 4 to 5 in. in diameter. They are slightly ribbed and netted. The orange flesh is thick, sweet, and of very high flavor. Emerald Gem can be relied upon to produce a good crop of fruit even in unfavorable seasons when others would not do well. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

353 Edward's Perfecto

(75 days) The uniform, nearly round fruits are densely covered with a gray netting. Very thick, beautiful salmon colored flesh. Has the smallest seed cells of any Rocky Ford Melon. Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

367 Bender's Surprise

A Very Popular, High Class, Quality Variety; Large Size, Deliciously Sweet (80 days)

A very popular, large muskmelon for all sections, often producing melons weighing 10 to 15 pounds each. Oval in shape. Light green skin, turning a golden tint when ripe. Has a coarse netting. The very thick, deep orange colored flesh is deliciously sweet and of rich flavor. The vines bear a splendid crop of fruits. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

366 Tip Top

The Largest and Sweetest Can't-Be-Beat Melon (80 days)

This is a fine large melon, nearly round in shape. It is sweet, juicy, and delicious. The flesh is firm but not hard, and is edible almost to the rind. A heavy yielder of handsome appearance. Resembles Bender's Surprise in many respects but does not keep as well. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 65c; lb. \$1.05; 2 lbs. \$1.95; 5 lbs. \$4.60; 10 lbs. \$8.40.

383 Banana

Shaped Like a Banana (85 days)

This curious melon attains a length of 18 to 30 in. and a diameter of 2 to 4 in. The flesh is deep and of exquisite flavor. This sort is not a mere curiosity, but of the choicest quality. It commands good prices in choice city markets. You should grow this melon in your garden and surprise your friends with their unusual shape. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

378 Orange Honey Dew

The Famous Long Keeping Melon (120 days)

This is a cross between a Cantaloupe and a Casaba melon. The fruits are oval and weigh 8 to 10 lbs. each. They require a long growing season. The smooth skin is dull white when ripe. The rind is thin but tough. The flesh is thick, of a rich orange color. Pkt. 5c; oz. 20c; ¼ lb. 50c; ½ lb. 80c; lb. \$1.35; 2 lbs. \$2.50; 5 lbs. \$5.95; 10 lbs. \$10.80.

385 Melon Peach

For Preserves or Pickles (80 days)

This is also known as Mango Melon. It is cultivated the same as a Muskmelon, and is used for salads, preserving, pies, or pickling. The fruits have the size, shape, and golden yellow color of a lemon and are also referred to as Garden Lemons. The flesh is snow white, and makes excellent preserves. It is a tremendous yielder. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

360 Honey Rock

360 Honey Rock

Also Called Sugar Rock (85 days)

This new quality melon is strikingly attractive. It has won high favor chiefly because of its wonderful sweetness. The orange flesh has an aroma all its own. The fruits are nearly round and of medium size. The light golden yellow skin has a coarse gray netting. A profitable market melon that commands the highest prices. It is very productive and stands handling and shipping well. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

For "New Delicious Muskmelon" see page 5

384 Mixed Muskmelons

(57 to 120 days)

By planting this mixture one is sure to secure a continuous supply of luscious melons. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

351 Maule's Model

351 Maule's Model

Spicy Green Flesh. A Prodigious Cropper (70 days)

The vines are hardy, vigorous, and productive. Maule's Model is a large oval-shaped melon with a delicacy and quality of flavor that is unexcelled by any variety. The green flesh is deep and firm, extending from the rind almost to the center of the melon. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

347 Maule's Select Rocky Ford or Netted Gem

The Popular Melon for Market or Home Garden (75 days)

(Specially Selected) In this Rocky Ford melon we offer our customers a strain grown for us in Rocky Ford, Colo. The melons are slightly oval in shape and finely netted. The flesh is light green in color, very thick and firm, ripening close to the rind. The flavor is luscious and sweet. The vines are vigorous and productive. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

Green Flesh Muskmelons

382 Maule's Prize Jenny Lind (60 days)

This is the earliest of all green-fleshed sorts and one of the sweetest. The light green flesh is deep and thick. It has a luscious sweet flavor. A heavy cropper. Excellent for the home garden. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

364 Watter's Solid Net Earliest Rocky Ford (70 days)

Watter's produces melons of even size and shape with a closely laced gray-green netting. The thick light green flesh is spicy and sweet. Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

362 Extra Early Knight or Maryland (70 days)

The melons are oval, of regular size and form, covered with a gray netting, and distinctly ribbed. The green flesh is thick and sweet. Pkt. 5c; oz. 15c; ¼ lb. 45c; ½ lb. 65c; lb. \$1.05; 2 lbs. \$1.95; 5 lbs. \$4.60; 10 lbs. \$8.40.

370 Gold Lined Rocky Ford The Sweetest (75 days)

The oval-shaped melons are covered with a heavy grayish netting. The green flesh is thick and firm. Has a small seed cavity. Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

372 Extra Early Hackensack Large Melon (75 days)

A round Melon, flattened at the top and bottom and well ribbed. The skin is netted, and the green flesh is rich and sugary. The vines make a good strong growth and bear abundantly. Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

375 Montreal (80 days)

This celebrated melon is in universal esteem and is also known as the Canadian Melon. The skin is green and the flesh is light green in color. Has a delicious flavor. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

363 Honey Ball (100 days)

The melons are as round as a ball. They are smaller than Honey Dew and have delicious thick green flesh which is sweet to the rind. The rind is greenish white until fully ripe when it turns to a creamy white, slightly netted. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

380 Honey Dew (120 days)

These melons bring good prices in all markets. The thin, creamy white rind is very tough. The fruits keep in fine condition for several weeks after they are ripe. The rich green flesh is very sweet and possesses a delightful honey-like flavor. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

397 Harris' Earliest

397 Harris' Earliest

The Melon for Home Gardens (75 days)

The general shape and appearance of this fine melon is shown in the illustration. The skin is mottled with green and white. The flesh is red, sweet, juicy, and crisp. The seeds are black. The weight varies all the way from 12 to 40 pounds, the average being 15 to 20 pounds. Its table quality is first-class. Due to its extreme earliness, and its adaptability to grow in heavy soils, it is planted considerably in the northern states. Pkt. 10c; oz. 15c; 1/4 lb. 30c; 1/2 lb. 50c; 1 lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

391 Fordhook Early (75 days)

One of the largest of the extra-early varieties, and claimed to be the earliest of all. The nearly round melons are a medium shade of green. The bright red flesh has a deliciously sweet flavor. The rind is sufficiently hard to make it a good shipper. This variety always matures first in competitive trials with other sorts. Pkt. 10c; oz. 15c; 1/4 lb. 25c; 1/2 lb. 40c; 1 lb. 65c; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85.

418 Mixed Watermelons (75 to 100 days)

All different sorts in a grand mixture, producing delicious flavored melons of many different shapes, from the earliest sorts to those maturing as a main crop. Pkt. 10c; oz. 15c; 1/4 lb. 40c; 1/2 lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

Luscious Watermelons

Culture: Watermelons do best on light, well drained soils, but there also are varieties adapted to heavy loams. The hills should be 8 ft. apart each way, with some well rotted manure in each hill, thoroughly incorporated with the soil. Plant the seed as soon as the weather is really warm and settled. A packet will plant about 10 hills, an ounce about 30 hills; 3 or 4 pounds of seed to the acre. Allow two or three plants to remain in each hill. Ready to use in 60 to 100 days. Fight insects with Evergreen, Bug Death, or Slug Shot.

414 Baby's Delight

For the Home Garden (75 days)

The melons are of small size, weighing 3 to 6 lbs. Dark green rind and carmine flesh of most attractive appearance. This melon will mature fruits with delicious sweet flesh in sections where watermelons usually cannot be grown due to the limited growing season. It is primarily a home garden melon on account of its small size which is not much larger than a good size cantaloupe. Its quality is very fine. Pkt. 10c; oz. 20c; 1/4 lb. 65c; 1/2 lb. 95c; 1 lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

401 Angel's Kiss

A Delicious Watermelon. Novel and Attractive (80 days)

Angel's Kiss originated with one of the largest Southern melon growers. It is a handsome melon of large, oblong shape. The flesh is bright red, solid, firm, and of melting flavor. The vine is remarkably strong and vigorous, bearing a heavy crop of large, mottled, silvery gray melons with very tough thin rind. The melons measure from 20 to 30 in. in length, and weigh from 30 to 40 pounds each. Pkt. 10c; oz. 15c; 1/4 lb. 30c; 1/2 lb. 50c; 1 lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

403 Florida Favorite

A Reliable Keeper. An Excellent Shipper (80 days)

This splendid large oblong melon has a tough, very dark green skin with still darker stripes. The flesh is a beautiful deep red, fine grained, and entirely free of stringiness. Florida Favorite has become very popular primarily because of its deliciously sweet and luscious flavor. A first class shipper. Under good cultivation the melons grow very large, weighing from 30 to 60 pounds. Makes a strong, healthy vine and is very productive. Pkt. 5c; oz. 10c; 1/4 lb. 30c; 1/2 lb. 50c; 1 lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

416 Perfection

A Great and Important New Watermelon (85 days)

Although a comparatively new melon it has quickly become a great success in some of the very best watermelon growing sections of the country. Perfection grows to enormous size. The fruits weigh from 35 to 50 pounds. The rind is a glossy dark green, thin, but unusually tough, making it a good shipping variety. The flesh is of a dark red color. It is sweet and free from fiber or strings, yet of firm texture. Pkt. 10c; oz. 15c; 1/4 lb. 45c; 1/2 lb. 65c; 1 lb. \$1.05; 2 lbs. \$1.95; 5 lbs. \$4.60; 10 lbs. \$8.40.

387 Maule's Panmure All-Heart

387 Maule's Panmure All-Heart

The Sweetest of All Watermelons. A Good Shipper. (80 days)

Here we have an entirely distinct variety that is sure to excite the admiration of all lovers of fine watermelons. It is not only of superb flavor, but is all its name implies. Solid as a cannon ball, and while it has a thin rind, the skin is firm, consequently making it a good shipper. The seeds are about the size of apple seeds; but, notwithstanding this fact, the average weight of the melon is 30 to 40 pounds. The shape, which runs uniform, is well shown in illustration. Every one of our customers who grows watermelons should make a trial of Panmure All-Heart this season. Pkt. 10c; oz. 20c; 1/4 lb. 60c; 1/2 lb. 85c; 1 lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00.

Though maturity dates vary according to weather conditions, the dates we give will help you considerably with your selection.

This will make it easy for you to order from Maule, as you do not have to add any postage to your order.

404 Maule's Improved Kleckley Sweet

393 Kleckley Sweet

The Monte Cristo Melon (85 days)

One of the most popular, early, large watermelons grown. It is of handsome appearance, oblong in shape, with a dark green rind. The flesh is scarlet, very firm, crisp, and of luscious quality. It is very popular and gives satisfaction almost everywhere. We can recommend it for use both North and South, as the large fruits grow quickly even in heavier soil. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

399 Stone Mountain

404 Maule's Improved Kleckley Sweet

A New and Improved Type, Known as Wondermelon (85 days)

This improved strain of Kleckley Sweet produces uniformly large, dark green melons of the finest quality and of handsome appearance. It is a splendid table melon with a heavy, tough rind which makes it a good shipper to distant markets. The seeds are all creamy white. The flesh is scarlet, very firm, and of superb flavor. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

392 Thurmond Gray

Distinct, Wilt-Resistant, and Sunproof Melon (85 days)

This distinct watermelon has strong healthy vines, stands wet weather well, and is a good producer. The fruits are long and thick. The rind is rich greenish gray and not subject to sunburn. The melons grow to a very large size. The sweet solid flesh is bright red and it has a superb flavor. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

409 Golden Sweet

Delicious Yellow Flesh (85 days)

A large melon with yellow flesh of delicious flavor. The rind is dark green, striped darker green. The oblong melons grow to large size. The flesh is a beautiful yellow, solid, crisp, smooth, and has a sugary sweet flavor. It is equally as good as any of the red fleshed varieties. Planted quite extensively. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

407 Irish Gray

(85 days) This large, long melon is equally as good for shipping as for home use and has attained great popularity on its merits. The flesh is rich red, sweet, crisp, and free from stringiness. The thin but tough rind is a mottled greenish gray. The vines are vigorous and produce fine melons through a long season. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

389 Excel

(90 days) The large oblong melons are dark green and have faint stripes. The tough rind permits rough handling in transit, making it a good long distance shipper. The red flesh is very solid, crisp, and of excellent flavor. The vines produce an enormous crop of large, uniform, handsome fruits. This melon has black seeds. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

399 Stone Mountain

The Famous Melon From Dixie-Land Known as "Dixie Bell" (85 days)

Popular throughout the South. The rind is light green in color. Beautiful deep crimson flesh of excellent quality without any white hearts or stringiness. The average fruit weighs about 40 pounds. The rind is too tender for long distance shipping, but for the garden or local market it has no equal. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

395 Tom Watson

(90 days) Tom Watson is a long, dark green, mottled melon, which will grow exceptionally large, often weighing from 60 to 70 pounds. At the same time it is one of the most prolific melons in cultivation. Although the rind is thin, it is very tough, making it a most excellent shipper for long distances. The red flesh is of the most superb quality. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

413 Halbert Honey

411 Winter Watermelon

(100 days) A melon adapted to all sections of the country with rind of a light gray color. Quite solid, tasty pink flesh, entirely stringless, of sweet flavor, crisp, and surprisingly delicious. This melon should not be eaten right off the vine, but be allowed to ripen slowly after being picked. It will keep as late as Christmas. Small shiny black seeds. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; 1 lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

420 Colorado Preserving Citron

(100 days) A productive Citron with medium-sized, round fruits having very solid, white flesh. Used exclusively for preserving or pickling. The rind is dark green, distinctly striped with light green. Seeds red. The fruit will keep in good condition for some time after picking. It requires a long growing season to reach full size. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

413 Halbert Honey

Delicious Large Melons (85 days)

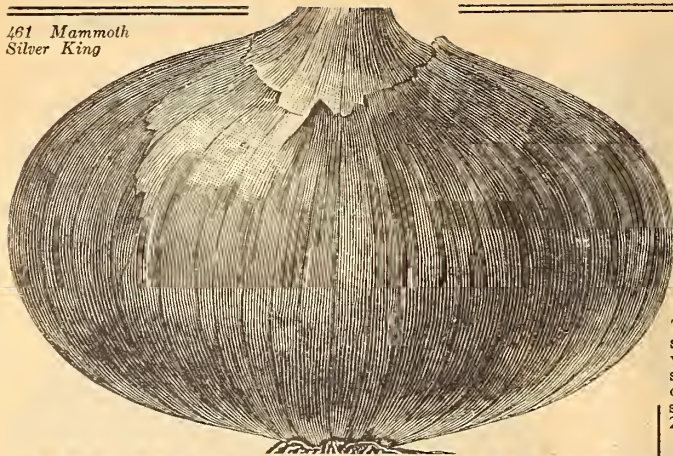

Halbert Honey produces melons as long as the Kleckley Sweet. The fruits are blunt at both the stem and blossom ends, usually free from any appearance of neck. They average 18 to 20 in. in length, and 10 to 12 in. in diameter. The color of the rind is a clear, glossy deep green. The flesh is a beautiful crimson, extending to within less than half an inch of the rind. It is essentially a home garden melon and also fine for local markets. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

Golden Sweet is a Tasty Sweet Watermelon with Icy-Crisp Golden Flesh

461 Mammoth Silver King

Earliest Giant White Mild Onion (85 days)

This onion, introduced by us some years ago, has a beautiful, silvery white skin. The flesh is so sweet that it may be eaten raw like an apple. No other white onion attains such mammoth size. The bulbs are of an attractive shape, flattened, but thick. The average diameter of fully grown Mammoth Silver King onions is from 5 to 7½ in. Matures large sized white onions in less than three months. An excellent keeper. Pkt. 10c; oz. 30c; ¼ lb. 80c; ½ lb. \$1.20; 1 lb. \$2.15; 2 lbs. \$4.00; 5 lbs. \$9.65; 10 lbs. \$18.25.

450 Maule's

Australian Brown

Remarkable for its Uniform Size, Shape, and Keeping Quality (95 days)

The onions are of medium size and of good quality. They are very early, rather flattened in shape, of a brown color, and wonderfully hard and solid. Begins to form bulbs at an early period of growth, when only a few inches high, and quickly reaches maturity. Its leading and most valuable feature, aside from appearance and flavor, is its long keeping quality. It is widely known and very popular wherever onions are grown. Pkt. 5c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; 1 lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

436 Maule's Large Red Wethersfield

A Heavy Yielder and a Good Keeper (100 days)

This popular onion has been one of our leading specialties for years. Grown from hand-sorted bulbs, it is sure to produce uniformly large onions. Specimens of Maule's Large Red Wethersfield grow to an immense size. They are solid, and decidedly flattened. The skin is a deep purplish red. The flesh is white, tinged with pink near the skin. Many strains of Red Wethersfield are offered to the American public, but our tests convince us that none surpass our special Maule strain here described. It is a perfect red onion of rich flavor unexcelled for both home and market. An excellent keeper. Pkt. 5c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; 1 lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

Onion Seed

Culture: Sow in drills 12 to 18 in. apart as early in the spring as possible and cover one-half inch deep. When large enough, thin to 3 in. apart. If sets are wanted, sow seed thickly and do not thin out; use 60 to 80 pounds of seed per acre. A packet will sow about 50 feet of drill, an ounce about 300 feet, 4 to 5 pounds of seed per acre. Fine marketable size onions are easily produced the first year from early spring sown seed.

463 White Barletta For Pickling (65 days)

This is the earliest ripening onion in cultivation, growing with the rapidity of a summer radish. The bulbs are pearly white, waxy, translucent, and are generally very small, averaging only 1½ in. in diameter. They are uniform in size and shape, and so mild and sweet that they can be eaten raw with almost the freedom of an apple. Chiefly grown for pickling and bunching; the best of all for small pickles. Pkt. 13c; oz. 25c; ¼ lb. 75c; ½ lb. \$1.15; 1 lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

466 Extra Early Pearl

(70 days) An extra-early, medium sized, white onion of mild flavor. The bulbs will grow 5 to 6 in. in diameter. The handsome white bulbs, which are flat in shape, are very attractive. The white flesh is exceptionally sweet. This variety does well in all sections and is extensively grown in the South for our northern markets. A desirable early onion for the home garden or market. It keeps well. Pkt. 5c; oz. 25c; ¼ lb. 75c; ½ lb. \$1.15; 1 lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

456 Silver Skin or White Portugal

(95 days) A mild onion of pleasant flavor. Somewhat flattened shape. It is very popular for family use and one of the best for pickling; also splendid for slicing or boiling. A favorite when young as a salad or bunching onion and a good winter keeper. Onion Sets are extensively grown from this sort, and from these sets full size onions are grown as early as June or July. An excellent variety to sow in August for early spring "green" or bunching onions. Pkt. 10c; oz. 30c; ¼ lb. 80c; ½ lb. \$1.20; 1 lb. \$2.15; 2 lbs. \$4.00; 5 lbs. \$9.65; 10 lbs. \$18.25.

451 Ebenezer or Japanese

An Enormous Cropper and a Good Keeper (100 days)

This onion is remarkably mild, tender, and of very delicate flavor. It has such a reputation for quality in some localities that it commands much higher prices. The flesh is white, firm, and of a decidedly sweet flavor. In fact, it is the mildest flavored yellow onion grown. The handsome bulbs are large. They are somewhat flattened and have a thin yellow skin. The tops are very small. Keeps in good, hard, and sound condition all winter. Anyone wanting a nice mild onion for table should plant Ebenezer. Pkt. 5c; oz. 20c; ¼ lb. 65c; ½ lb. 95c; 1 lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

The Most Wonderful Onion We Have Ever Grown

441 Maule's Prizetaker

Large Attractive Onion of Sweet Mild Flavor. Productive (100 days)

By far the most handsome, finest flavored, most productive, and best of all the Yellow Globe onions, excepting not even Large Sweet Spanish. Bright clear straw-colored skin. Grows to a uniform globe shape and has a very small neck. Ripens firm and solid. It never fails to attract attention on account of its rare beauty, and it can be depended upon to bring a better price than any other onion. Superior as to size, shape, flavor, color, and appearance, for either the home garden or market. Pkt. 10c; oz. 25c; ¼ lb. 70c; ½ lb. \$1.10; 1 lb. \$1.90; 2 lbs. \$3.50; 5 lbs. \$8.35; 10 lbs. \$15.20.

50X53

Onion Culture

By T. GREINER

This splendid book tells you every detail about the new and highly valuable methods for growing onions of the largest size and yield for home or market. It will help you to get the highest yields possible and make your onion crop very valuable.

Illustrated, 114 Pages, Cloth Bound Book Postpaid, \$1.20

Three Famous Southport Globe Onions

446 Southport Yellow Globe 🌱

(110 days) The most popular of the Southport Globe onions. Perfectly globe-shaped, with rather full shoulder, rich yellow skin, and fine-grained, mild, creamy white flesh. Very productive and a good keeper. The most largely grown yellow market onion, and the most profitable under all conditions. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. 95c; 1 lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

445 Southport White Globe 🌱

(120 days) These onions, because of their handsome appearance, always bring top prices in the city markets. The silvery white, globe-shaped onions have a delicious flavor. They are fine keepers. This main crop variety is planted extensively by those who want fancy onions. Also excellent for the home garden. Pkt. 10c; oz. 30c; ¼ lb. 85c; ½ lb. \$1.35; 1 lb. \$2.40; 2 lbs. \$4.45; 5 lbs. \$10.80; 10 lbs. \$20.40.

444 Southport Red Globe 🌱

(120 days) The Standard Red Globe Onion. Southport Red Globe is a perfect globe with rich glossy red skin. The flesh is fine grained, white, and always mild and pleasant. It is very hardy and a splendid keeper. It is the most popular red onion with all growers. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. 95c; 1 lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

446 Southport Yellow Globe

437 Maule's Yellow Globe Danvers

437 Maule's Yellow Globe Danvers 🌱

The Old Reliable Yellow Globe Onion. Good Keeper (110 days)

Our strain of Yellow Globe Danvers onion is unsurpassed. It always attains a good size. The bulbs are deep and have a small neck. It is of choice flavor, rather mild, and invariably a market favorite at prices above average quotations. It is early and profitable, and a splendid keeper. Our strain of Yellow Globe Danvers has been famous for the past quarter century in every onion growing district of the United States. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. 95c; 1 lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

470 Mixed Onions

(65 to 120 days) This mixture contains a grand assortment of all colors and all shapes, maturing at intervals. It will provide onions for the table all through the summer and fall, besides those that may be saved for winter. Pkt. 10c; oz. 25c; ¼ lb. 75c; ½ lb. \$1.15; 1 lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

439 Maule's Large Sweet Spanish

A Worldbeater for Size, Sweetness, and Shipping Qualities

439 Maule's Large Sweet Spanish 🌱

Largest Yellow Globe-Shaped (110 days)

This large onion is one of the best all-round sorts. Maule's Large Sweet Spanish produces handsome, extra large, light yellow, globe-shaped onions. The pure white flesh is fine grained and exceptionally sweet. Its sweetness makes it a splendid sort to use in salads or other ways without cooking. It is extensively grown for market. Also a great favorite with home gardeners. The onions will keep for quite some time in storage. Pkt. 15c; oz. 35c; ¼ lb. \$1.00; ½ lb. \$1.65; 1 lb. \$2.90; 2 lbs. \$5.40; 5 lbs. \$13.05; 10 lbs. \$24.65.

442 White Welsh

442 White Welsh Onion

The Hardy Salad or Bunching Onion
(100 days)

A very hardy, perennial variety of onions used only for bunching or for early green onions. The plants do not form any bulbs. The thick, pearly white shoots are mild in flavor. They attain marketable size very quickly and sell at top prices before the green onions grown from sets are brought to the market. Much superior to the Egyptian onion. Seed may be sown in the early spring, but not later than the latter part of July for early spring onions; further south it may be sown as late as September. Market gardeners will find the White Welsh onion an exceedingly profitable crop. Pkt. 10c; oz. 30c; ¼ lb. 75c; ½ lb. \$1.15; 1 lb. \$2.00; 2 lbs. \$3.70; 5 lbs. \$9.00; 10 lbs. \$17.00.

Mushroom Spawn

69B68 Pure Culture Brand

This is the earliest strain you can obtain anywhere. It has been grown from Mushrooms selected with the utmost care to insure a culture of perfect uniformity. It will give an enormous yield of splendid mushrooms noted for their size, good color, and form. Brick (about 1 lb.) 50c; 5 bricks \$2.25; 10 bricks \$4.00.

69B66 Pure Spore Culture

A specially prepared culture of pure spawn which will yield an excellent strain of Mushrooms. You can grow fine mushrooms in a cellar with a temperature of 55 to 65 degrees. A carton will plant 40 square feet. Per carton \$1.30; 5 cartons for \$6.00; 10 cartons for \$11.00.

Choice, Clean, Vigorous

Onion Sets

Culture: Onion sets should be planted as early in the spring as the ground can be worked. Press the onions into the surface lightly (do not cover) in furrows, 12 to 18 in. apart and about 2 in. apart in the row. Young onions may be had in five weeks. By planting sets, onions can be produced for market or household use four to six weeks earlier than can be had from seed. Onions from sets are usually harvested in the locality of Philadelphia in July, which allows the sowing of quick maturing crops on the same ground the same season. A pound of onion sets will plant a row about 100 feet long. Use 250 to 325 lbs. to an acre.

69B70 Maule's Yellow Globe Danvers

These sets will give good green onions early, or if left to mature will produce large, bright golden yellow-skin onions later. Good keepers. A most popular variety for the home garden. Does well in all sections. Lb. 30c; 2 lbs. 50c; 5 lbs. \$1.05; 10 lbs. \$1.85, postpaid. Not prepaid: 15 lbs. \$1.95; 25 lbs. \$3.00; 50 lbs. \$5.50; 100 lbs. \$10.00.

69B76 Ebenezer or "Japanese"

By planting Ebenezer or Japanese sets large golden yellow ripe onions of the finest quality can be easily raised. The quality of the onions is far superior to other kinds and the yield is also larger. If planted in the spring they ripen in July.

Lb. 30c; 2 lbs. 50c; 5 lbs. \$1.05; 10 lbs. \$1.85, postpaid. Not prepaid: 15 lbs. \$1.95; 25 lbs. \$3.00; 50 lbs. \$5.50; 100 lbs. \$10.00.

69B72 Maule's White Silver Skin

These sets will produce beautiful, silvery white, mild flavored bunch onions very early in the season. They will also produce beautiful large onions if left to mature. A favorite sort for home and market.

Lb. 30c; 2 lbs. 50c; 5 lbs. \$1.10; 10 lbs. \$1.95, postpaid. Not prepaid: 15 lbs. \$2.10; 25 lbs. \$3.25; 50 lbs. \$6.00; 100 lbs. \$11.00.

69B74 Maule's Red Wethersfield

These sets produce large, deep red onions that mature early and succeed well everywhere. The bulbs are flattened, solid, and of fine quality. A good keeper. One of the best red onions for home use or market.

Lb. 30c; 2 lbs. 50c; 5 lbs. \$1.05; 10 lbs. \$1.85, postpaid. Not prepaid: 15 lbs. \$1.95; 25 lbs. \$3.00; 50 lbs. \$5.50; 100 lbs. \$10.00.

69B64 Garlic Sets

69B64 Garlic Sets

Used for Flavoring (150 days)

The bulbs have a pungent flavor highly esteemed for flavoring soups, stews, and sausages. Also used in salad dressings. A fertile, well-drained, sandy loam or muck soil is suited for growing this crop. The bulbs (sets) are composed of several parts, which should be divided and planted in rows 1 foot apart, allowing 4 in. between the bulbs in the rows. Cover the bulbs with 1 in. of fine soil. When the tops turn yellow, take up and dry in the shade. To keep for winter, store in a cool place away from frost. Lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

Maine-Grown Seed Potatoes

(Certified Stock) Culture: Cut the tubers to one or two eyes. Plant in rows 3 feet apart, and drop 15 to 18 in. apart in row. Eight to ten pounds of potatoes should be sufficient for 100 feet of row. Use 10 to 12 bushels per acre. Cultivate constantly and thoroughly. They mature in 80 to 140 days, according to variety and are ready for digging when the foliage turns yellow.

69B90 Irish Cobbler

(80 days) An early variety, producing good sized tubers of excellent quality. The flesh is pure white. Has a clean, smooth, white skin with strong, slightly indented, well-developed eyes. Lb. 35c; 3 lbs. 75c; 5 lbs. \$1.00; 10 lbs. \$1.85, postpaid. Not prepaid: 15 lbs. (peck) 65c; 30 lbs. (½ bu.) \$1.10; 60 lbs. (bu.) \$1.85; 150 lbs. (bag) \$4.25.

69B91 Burpee's Extra Early

(85 days) A remarkably early sort with pale brown skin. Produces large smooth oblong potatoes with few shallow eyes. The flesh is pure white, of good flavor, and very mealy. Lb. 35c; 3 lbs. 80c; 5 lbs. \$1.10; 10 lbs. \$2.00, postpaid. Not prepaid: 15 lbs. (peck) 75c; 30 lbs. (½ bu.) \$1.25; 60 lbs. (bu.) \$2.00; 150 lbs. (bag) \$4.50.

69B92 Pure Early Rose

(100 days) This standard variety has been a great favorite for years on account of its high yield and quality. The large, light pink tubers are long in shape. Lb. 35c; 3 lbs. 80c; 5 lbs. \$1.10; 10 lbs. \$2.00, postpaid. Not prepaid: 15 lbs. (peck) 75c; 30 lbs. (½ bu.) \$1.25; 60 lbs. (bu.) \$2.00; 150 lbs. (bag) \$4.50.

69B94 Early Thoroughbred

(100 days) Large, light pink tubers running very uniform as to size so that practically all are marketable. Excellent yielder. Cooks perfectly white, dry, and floury. A good winter keeper. Lb. 35c; 3 lbs. 80c; 5 lbs. \$1.10; 10 lbs. \$2.00, postpaid. Not prepaid: 15 lbs. (peck) 75c; 30 lbs. (½ bu.) \$1.25; 60 lbs. (bu.) \$2.00; 150 lbs. (bag) \$4.50.

69B96 The Snow

(135 days) Roundish in shape, slightly flattened, eyes on the surface, skin well netted. It is very fine-grained and flaky. Grows a large crop of handsome tubers. Lb. 35c; 3 lbs. 80c; 5 lbs. \$1.10; 10 lbs. \$2.00, postpaid. Not prepaid: 15 lbs. (peck) 75c; 30 lbs. (½ bu.) \$1.25; 60 lbs. (bu.) \$2.00; 150 lbs. (bag) \$4.50.

69B98 Green Mountain

(140 days) Produces white fleshed tubers of large size and attractive appearance with shallow eyes. It is a good keeper, and when put away in the fall will keep well until spring. Lb. 35c; 3 lbs. 75c; 5 lbs. \$1.00; 10 lbs. \$1.85, postpaid. Not prepaid: 15 lbs. (peck) 65c; 30 lbs. (½ bu.) \$1.10; 60 lbs. (bu.) \$1.85; 150 lbs. (bag) \$4.25.

Please state on your order when potatoes are to be shipped.

Parsnip

478 Maule's Improved Half-Long

Culture: Sow early in the spring in rows 2 to 3 ft. apart; thin to 4 to 6 in. in the row. A packet will sow about 40 ft. of drill; an oz. about 200 ft.; 4 to 5 lbs. per acre in drills 2½ ft. apart. Cover the seed ½ inch. Ready to use in 95 to 110 days. For winter use, they may be stored in the cellar or left in the ground and dug when the weather permits. They will keep in the ground for spring use.

477 Maule's White Lisbon

Of Uniform Size and Shape (100 days)

A highly improved type producing uniformly large and handsome snow-white roots of stocky form. They are heavy at the shoulder, well rounded, and gradually taper toward the base. The white sweet flesh is of fine texture, free from core and stringiness. It cooks tender, and has a fine rich flavor. Enormously productive and exceptionally smooth. An excellent winter keeper. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

478 Maule's Improved Half-Long

Roots Smooth, Easy to Harvest (95 Days)

The roots grow to a good length, but not too long. They are smooth, snow-white, and have practically no side roots. Their whiteness is quite remarkable and gives the roots a very attractive appearance. This is by far the best strain of parsnip we have ever seen. The roots are very uniform and of good shape. They are white, smooth, and handsome. A desirable home garden and market sort and a good basket filler that is easy to harvest. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

483 Maule's Improved Long Smooth

Straight, Smooth, and Handsome (110 days)

This is also called Hollow Crown or Improved Long Sugar. A strikingly attractive white parsnip. It is remarkably free from side roots; in fact, in this respect it is about the cleanest of all parsnips. Its shape and size make it a desirable market sort, selling on sight on account of its attractive appearance. The flesh is fine grained and of superior flavor. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 65c; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85.

Parsley

Culture: Sow the seed any time from early spring until mid-summer right where the plants are to remain, or start them indoors in boxes. Cover the seed with ¼ in. of fine soil and keep moist until the plants appear above ground. When large enough, transplant to other boxes, pots, or outdoors in the flower border or in the vegetable garden. Some gardeners soak the seed in luke-warm water for a day before planting to hasten germination. One packet for 25 ft.; 1 oz. for 50 ft.; 5 lbs. per acre.

472 Plain Parsley

Known as Hardy Italian (75 days)

Plain leaves of excellent flavor, grown very extensively for soup bunches. Yields an enormous quantity throughout the season. In great demand in all large cities and towns, especially by people from foreign countries, as it is used as a vegetable as well as for flavoring. Not as attractive for garnishing as the Double Curled. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

474 Double Curled

474 Double Curled

Fine Moss-Curled Strain, Everybody's Favorite (70 days)

This is, without doubt, the finest Parsley grown. The plants are of semi-dwarf compact habit. The beautiful bright green leaves are very finely cut and exquisitely curled. Its superior flavor makes it one of the best sorts to be used for soups, stews etc. And its attractive appearance makes it ideal for garnishing. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

475 Hamburg or Turnip-Rooted

Large Edible Roots, Known as German Parsley (100 days)

The leaves as well as the roots are used. The roots are boiled and served like parsnips and have a very pleasing flavor. They can be stored in sand for use during the winter. We offer an improved strain which has nice, smooth roots of medium length (5-6 in.). They are thick and of fine quality; esteemed for flavoring soups, stews etc. Tied in bunches, they are sold in all the better markets. There is always a demand for this variety. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 65c; 1 lb. \$1.05; 2 lbs. \$1.95; 5 lbs. \$4.60; 10 lbs. \$8.40.

Peanuts

Culture: These grow best in a warm sandy soil rich in lime. Mark out rows 2½ to 3 ft. apart, plant the shelled nuts in May or June, 8 to 10 in. apart in the rows, or if in the hulls, 16 to 18 in. apart. Cover with 2 in. of soil. Cultivate and hoe freely. In the fall before frost, dig and hang them under a shed or in an airy room to cure. A packet will sow from 15 to 25 ft. of row; a pound from 100 to 200 ft., according to the variety and method planted. Use 35 or 40 lbs. of seed per acre.

485 Improved Virginia

The Popular Commercial Peanut. Very Productive (120 days)

Early, large, and prolific, yielding fewer imperfect pods than any other kind and producing 100 bushels per acre on medium land. Produces 2 or 3 large, richly flavored kernels to the pod. The vines average 3½ to 4 ft. across, making valuable fodder for stock. This large-podded sort is in great demand everywhere and is known as Jumbo Peanut. An excellent home garden and market sort, selling well in all large cities and towns; very popular everywhere. Pkt. 10c; ½ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70; postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

485 Improved Virginia

- Any 6 five-cent packets for 25c
- Any 3 ten-cent packets for 25c
- Any 6 ten-cent packets for 50c
- Any 13 ten-cent packets for \$1.00

We guarantee everything we sell to the full amount of the purchase price

488 Maule's Earliest of All

488 Maule's Earliest of All

Bright Green Peas of Excellent Flavor
Hardy and Prolific (45 days)

This extra-early fine pea has become the main choice of thousands of truckers and market growers on account of its extreme earliness. Grows 30 in. tall and produces a truly enormous crop of good sized pods filled with luscious green peas. Extremely hardy and therefore fine for first sowing. Pkt. 10c; 1/2 lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.30; 10 lbs. \$2.40, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

506 Maule's Radio

An Extra-Early Dwarf Pea of Choice Quality
(45 days)

Maule's Radio is a comparatively new variety but it already has become famous as the earliest dwarf pea of choice quality. The vines grow from 12 to 15 in. tall which permits closer planting than with most other varieties. It is so tremendously prolific that visitors to our trial grounds picked this out from all others and inquired about its name. The pods are of medium size and contain on the average six large, round, bright green peas. The flavor of the peas is outstandingly rich and sweet. The seeds are smooth, showing slight dimples. Pkt. 10c; 1/2 lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

506 Maule's Radio

487 Early Bird

Maule's Succession Collections of Peas

These collections contain the following four varieties which will mature in perfect succession.

- 488 Maule's Earliest of All (*Extremely Early*)
- 504 Maule's World Record (*Second Early*)
- 512 Sutton's Excelsior (*Mid-Season*)
- 515 Improved Stratagem (*Late*)
- 3189 One packet each
(4 pkts in all) value 40c for **30¢**
- 3191 1/2 lb. of each
(2 lbs. in all) value \$1.00 for **80¢**
- 3193 One pound of each
(4 lbs. in all) value \$1.55 for **\$1.25**

Quality Peas

Culture: Sow the seed of the smooth-seeded varieties as early in the spring as possible. Wrinkled-seeded varieties are more susceptible to cold weather and the seed should not be planted until all danger of frost has passed. To insure a continuous supply of fresh, sweet peas make succession sowings every 10 days until June 1. Sow again late in August for a fall crop. Place the rows 2 1/2 to 4 ft. apart and cover the seed 1 to 1 1/2 in. deep. A packet will sow 20 ft.; a pound 100 ft.; 90 to 120 lbs. of seed are needed to sow one acre.

Early Smooth-Seeded & Semi-Wrinkled Varieties

501 Alaska Popular Extra-Early Green-Seeded (45 days)

A favorite, extra-early smooth-seeded pea with dark green pods borne profusely on vines 2 1/2 ft. tall. The pods measure 2 1/2 in. long. They are round, straight, square ended, and thickly filled with large attractive light green peas of good flavor. Matures its crop all at one time. Pkt. 10c; 1/2 lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.30; 10 lbs. \$2.40, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

489 Early Morning Star Prolific & Hardy (45 days)

This hardy early pea produces a heavy crop of attractive pods on vigorous vines growing 2 to 2 1/2 ft. tall. They do not require brush as the dwarf plants are of vigorous upright habit. The pods are not only large but they are also well filled with attractive, well rounded, sweet and delicious peas. This has become a leading variety. Pkt. 10c; 1/2 lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.30; 10 lbs. \$2.40, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

505 Maule's Improved Extra Early

(45 days) This fine smooth pea is surpassed in point of earliness only by Maule's Earliest of All. The plants grow 2 ft. tall and bear an enormous crop of attractive pods closely filled with four, five, and even six round peas of a bright light green color. Very productive. Pkt. 10c; 1/2 lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.30; 10 lbs. \$2.40, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.00; 100 lbs. \$15.00.

487 Early Bird

The Largest-Podded Hardy
Early Pea (60 days)

A hardy, robust, and attractive pea of extreme earliness. Grows 2 ft. tall and bears a magnificent crop of beautiful, bright deep green pods measuring 4 in. in length and containing eight to nine very large green peas each. It is nearly as early as Alaska though the seeds are semi-wrinkled. The flavor is good and choice. Pkt. 10c; 1/2 lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

529 Market Surprise

529 Market Surprise

Early Giant-Podded for
Home or Market (65 days)

A robust, highly productive early variety with vines growing 2 1/2 ft. tall. Large showy pods containing eight to nine fine rich green peas of excellent flavor. It is very productive and of the choicest quality. Pkt. 10c; 1/2 lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

All Vegetable Seeds upto 10 lbs. of each variety are sent POSTPAID

Maule's Quality Peas—Wrinkled Seeded Varieties

493 Surprise (50 days) This is one of the earliest wrinkled-seeded varieties. The vines grow 20 in. tall and produce a good crop of sweet peas. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

491 American Wonder Esteemed for Earliness (50 days) This is an excellent dwarf variety particularly suited for the home garden. The vines grow 12 to 14 in. tall and bear an excellent crop of straight blunt-ended pods measuring 3 in. long, filled with large, sweet, sugary peas. Pkt. 10c; ½ lb. 25c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

504 Maule's World Record

An Improved Type of Gradus, but Earlier (52 days)

This improved type of Gradus is the earliest of this class. The plants grow 2½ ft. tall, making a vigorous plant which supports an excellent crop of pods. The individual pods are about 4 in. long. They are very broad, have a pointed tip, and contain seven or eight very large, dark green peas. The flavor of the peas is unsurpassed. It is sweet and tasty. They retain their rich dark green color well after cooking and present a very appetizing appearance on the table. The large size and good color of the pods make it a desirable market pea. Pkt. 10c; ½ lb. 25c; 2 lbs. 85c; 5 lbs. \$1.50; 10 lbs. \$2.80, postpaid. Not prepaid: 15 lbs. \$3.30; 25 lbs. \$5.25; 50 lbs. \$10.00; 100 lbs. \$19.00.

502 Laxton's Progress

Dark Green Peas, Sweet and Luscious (53 days)

This is the finest of the Laxtonian type of peas. It produces large pods which are 4 in. long, very broad, and pointed. The color of the pods is a rich green. Inside of them you will find eight, very large, dark green peas of most superb flavor. The vines of this splendid variety grow about 18 in. tall and they produce their first picking about 4 days earlier than Laxtonian. This excellent pea is equally as fine for the home gardener as for market growers. Pkt. 10c; ½ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.50; 10 lbs. \$2.80, postpaid. Not prepaid: 15 lbs. \$3.30; 25 lbs. \$5.25; 50 lbs. \$10.00; 100 lbs. \$19.00.

499 Burpee's Blue Bantam

All Vegetable Seeds up to 10 lbs. of each variety are sent **POSTPAID**

Please note that prices quoted "Not prepaid" do not include delivery charges. If you wish such items sent by Parcel Post, please enclose postage with your order.

499 Burpee's Blue Bantam

The Best, First Early, Dwarf Wrinkled Pea (55 days)

Burpee's Blue Bantam is unequalled for its combination of extreme earliness, superb quality, and unusual productiveness. The dwarf vigorous vines average 15 in. in height and carry a really enormous crop of large, deep bluish green pods which measure 4 to 4½ in. long. They are tightly packed with eight to ten very large, deep blue-green peas of most delicious flavor. Pkt. 10c; ½ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

496 Thomas Laxton

One of the Largest Podded, Dwarf Peas (53 days)

Similar to Gradus, growing 30 in. tall, and bearing a magnificent crop of very large, deep green pods which have square ends. Some consider this even finer in flavor than the popular Gradus. It is a quick basket filler. Popular with many market growers. Its adaptability to grow under widely different conditions is marvelous. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. Not prepaid: 15 lbs. \$3.00; 25 lbs. \$4.75; 50 lbs. \$9.00; 100 lbs. \$17.00.

496 Thomas Laxton

510 Little Marvel (55 days) A dwarf early pea growing 15 in. tall, bearing a truly enormous crop of pods 2½ in. long. Filled with six or seven large dark green peas of most luscious sweetness. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50; 10 lbs. \$2.80, postpaid. Not prepaid: 15 lbs. \$3.30; 25 lbs. \$5.25; 50 lbs. \$10.00; 100 lbs. \$19.00.

494 Prosperity or Gradus

An Early, Large Podded, Wrinkled Pea (55 days)

This is a foremost dwarf pea the vines of which grow 30 in. tall. They are covered with a great quantity of dark green, pointed pods measuring 4 in. or more in length. Each pod contains eight to ten large, tasty peas which retain their beautiful deep green color long after they have been picked. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

509 Laxtonian

Known as Dwarf Gradus (55 days)

This is one of the largest podded of all early dwarf varieties and it is a great variety for the home garden and for market. The vines are vigorous, growing about 16 in. tall. They produce a large crop of good sized pods averaging from nine to ten peas to a pod. The peas are not only very attractive but they are also of the choicest quality. It comes into bearing a few days ahead of Gradus. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50; 10 lbs. \$2.80, postpaid. Not prepaid: 15 lbs. \$3.30; 25 lbs. \$5.25; 50 lbs. \$10.00; 100 lbs. \$19.00.

494 Prosperity or Gradus

512 Sutton's Excelsior

(60 days) Sutton's Excelsior is an improvement on Nott's Excelsior. It produces very large, broad pods of a dark green color. The pods are square ended and contain six to eight large peas crammed into a pod 3½ in. long. The vines grow 15 to 20 in. tall. Vigorous, prolific, and sturdy. The quality of Sutton's Excelsior is of the finest which accounts for its immense popularity. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. Not prepaid: 15 lbs. \$3.00; 25 lbs. \$4.75; 50 lbs. \$9.00; 100 lbs. \$17.00.

492 Nott's Excelsior

Excellent for the Home Garden (60 days)

A fine extra-early dwarf variety with vines growing only 1½ ft. tall. The bright green foliage is stout and heavy. The pods are a fine light green color. They are about 3 in. long, quite round, straight, and have a blunt end. Each pod contains six or seven large, round, rich green peas of excellent appearance and choice sweet flavor. A productive variety. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

498 Dwarf Champion

Also Known as Juno (65 days)

This pea is one of the finest we have ever grown for size of the pods and quality. It is a robust, hardy, and vigorous grower producing a great abundance of uniformly large, dark green pods, 3½ in. long, straight, broad, and square ended. The vines grow 2 to 2½ ft. tall and are most productive. It is a splendid main crop variety. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

Whether you grow your vegetables to supply your family demand only, or to send them to markets either near or far away, you will find that Maule's Quality Seed will serve your purpose in every way. Maule's Seeds are carefully tested for both vitality and quality. You can fully depend upon them.

Maule's Quality Peas - Continued

497 Dwarf Telephone A Heavy Cropper (65 days)

This excellent dwarf pea is also known as Carter's Daisy. The plants make a strong vigorous growth 2 ft. tall and bear a great abundance of attractive, rich green pods measuring 5 in. long. There are eight to ten large round peas, closely packed, in each pod. Dwarf Telephone is a splendid home garden and market variety of fine quality. Pkt. 10c; 1/2 lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

503 Bliss Everbearing

Continuous Long Season Bearer (65 days)

A well-known and justly popular main crop pea growing about 2 1/2 ft. tall. The pods, usually borne in pairs, are 3 in. long and contain 4 to 5 rich green peas of luscious, sweet flavor. Pkt. 10c; 1/2 lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

507 Maule's Potlach or Big Dinner

Decidedly the Best of All Large Podded Semi-Dwarf Peas (68 days)

Potlach or Big Dinner, also known as Dwarf Defiance, is one of our most popular main crop peas. The vines grow from 2 to 3 ft. tall and are clothed with unusually dark green leaves. The pods are 4 1/2 in. long. They are rich green and contain eight or nine very large, luscious peas. Pkt. 10c; 1/2 lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. Not prepaid: 15 lbs. \$3.00; 25 lbs. \$4.75; 50 lbs. \$9.00; 100 lbs. \$17.00.

518 Onward (68 days) A new, distinct, mid-season variety of outstanding merit.

It matures just before Alderman and bears a prolific crop of long, broad, blunt ended, deep green pods. Each pod contains six to eight attractive bright green peas of splendid quality. It is without question the best of the newer peas. Pkt. 10c; 1/2 lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

495 Maule's Perpetual Bears Large Pods (70 days)

The name of this excellent large-podded variety points to the fact that this is a pea which will produce perpetually. It yields a tremendous crop in 70 days and continues to produce large, well shaped pods for some time. The vines grow 2 to 2 1/2 ft. tall and are simply covered with large showy pods which are filled with luscious peas. Pkt. 10c; 1/2 lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

517 Maule's Telephone The Standard Pea (70 days)

A fine wrinkled pea growing about 4 ft. tall. The pods are large, of a dark green color, containing eight to ten attractive, round, dark green peas of a sweetness that is surprising. It is a robust grower and great bearer which has become very popular with home gardeners and is also grown extensively for the market though it requires staking of the vines. Pkt. 10c; 1/2 lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. Not prepaid: 15 lbs. \$3.00; 25 lbs. \$4.75; 50 lbs. \$9.00; 100 lbs. \$17.00.

495 Maule's Perpetual

513 Maule's Prodigious or Prince Edward

The Giant of the Pea Family. The Heaviest Cropper (70 days)

There are few varieties of peas which can compare with this splendid main crop sort in quality and there is none that excels it in productiveness. This is partly due to the large number of pods produced on the vine but also to the fact that the pods will grow 7 in. or more in length and contain eleven to thirteen extra large, dark green, tender peas of unsurpassed flavor. Pkt. 10c; 1/2 lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

511 Alderman (70 days) A large main-crop pea growing 5 ft. tall and bearing a heavy crop of long straight pods.

The color of the pods is a rich green and inside of them you will find nine large tasty peas. Pkt. 10c; 1/2 lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. Not prepaid: 15 lbs. \$3.00; 25 lbs. \$4.75; 50 lbs. \$9.00; 100 lbs. \$17.00.

515 Improved Stratagem (70 days) An excellent wrinkled pea with a sturdy vine growth reaching the height of about 2 ft.

It is a vigorous and productive variety with pods measuring 5 in. long, well filled with eight to ten attractive, tender peas. Pkt. 10c; 1/2 lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.40; 10 lbs. \$2.60, postpaid. Not prepaid: 15 lbs. \$3.00; 25 lbs. \$4.75; 50 lbs. \$9.00; 100 lbs. \$17.00.

Three Luscious Sugar Peas

These peas differ from others listed in this catalog in that the entire pod, that means peas as well as the shell, are cooked like string beans. They are tender and have a delicious, sweet, tasty flavor.

525 Dwarf Gray Sugar (60 days) A distinct variety with edible pods. The plants grow 2 ft. tall and bear an abundance of medium size, sweet and tender pods of good flavor.

Pkt. 10c; 1/2 lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.85; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

514 Maule's Mammoth Luscious Sugar

The perfect giant-podded sugar pea, 6 ft. tall with broad, fleshy pods 7 in. long. Pkt. 15c; 1/2 lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

526 Melting Sugar (70 days) A great favorite with white seeds. The plants grow 5 ft. tall and produce a handsome crop of large, tender podded peas which greatly resemble wax beans in flavor though they are more delicate and decidedly sweeter in taste.

Pkt. 10c; 1/2 lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

514 Maule's Mammoth Luscious Sugar

513 Maule's Prodigious

Maule's Pumpkins — for Cooking and Pies

555 Small Sugar

555 Small Sugar

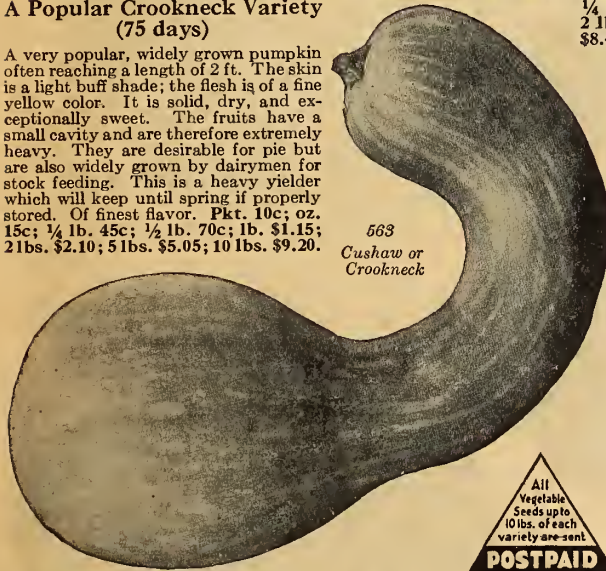

The Yankee Pie Pumpkin (65 days)

Attractive deep orange skin and fine-grained orange flesh of extra fine flavor. This is without question the best pumpkin for general use. Size, color, and sweetness make it very desirable for canning, for market, or for the home garden. Also splendid for dairymen wanting a sweet pumpkin for feeding to stock. It is an excellent keeper and very prolific. This is the pumpkin from which the celebrated Yankee pumpkin pie is made. We offer a very select strain of this splendid and productive variety. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

563 Cushaw or Crookneck

A Popular Crookneck Variety (75 days)

A very popular, widely grown pumpkin often reaching a length of 2 ft. The skin is a light buff shade; the flesh is of a fine yellow color. It is solid, dry, and exceptionally sweet. The fruits have a small cavity and are therefore extremely heavy. They are desirable for pie but are also widely grown by dairymen for stock feeding. This is a heavy yielder which will keep until spring if properly stored. Of finest flavor. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

563 Cushaw or Crookneck

559 Green Striped Cushaw (Improved Strain)

(75 days) An improved strain of beautiful appearance. They are distinctly crooknecked and have a creamy white, attractively mottled skin with irregular stripes and tracings of green. The fruits grow to very large size. They are solid, averaging 15 to 25 lbs. each. Rich yellow, solid, fine grained flesh which is thick and sweet. Fine for pies and an excellent winter keeper. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

562 Tennessee Sweet Potato

(90 days) Pear shaped, slightly ribbed, creamy white pumpkins sometimes showing light stripes of green. Attractive, light colored, fine grained, dry flesh of superior flavor which resembles sweet potatoes to a marked degree. It will keep all winter long. Pkt. 5c; oz. 10c; ¼ lb. 40c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

567 Mixed Pumpkins

(65 to 100 days) This mixture is especially offered to those who wish to grow all the different varieties of pumpkins. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

Culture: Plant the seed in hills 6 by 8 ft. apart or drop 3 or 4 seeds in every fourth hill in the corn field. Plant the seed in May or June using one packet to about 5 hills or one ounce for 25 hills. 3 to 4 lbs. are needed to plant one acre. Thin each hill to 2 or 3 plants. For winter use gather the fruits before frost and store in a warm, dry place.

557 Connecticut Field

The Best Corn Field Variety (70 days)

Also known as Big Boston. It is a large, round or slightly oval fruit with beautiful rich reddish orange skin and orange-yellow flesh. Extensively grown for stock feeding and widely planted with corn. Highly valued for making pies. Very productive. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.20; 10 lbs. \$4.10.

558 Large Cheese

(90 days) Large, round, somewhat flattened pumpkins with broad ribs. Often grows 2 ft. across. Has creamy buff skin and fine grained yellow flesh. It does well among corn. Fine for stock feeding and also highly valued for pies. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

564 Japanese Pie

(90 days) A large, early, and very productive pumpkin with dark green skin having lighter stripes. Very thick, rich salmon, fine grained, dry, sweet flesh. An excellent variety for pies and a very fine keeper. Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

566 Winter Luxury or Pie

(90 days) A nearly round, light yellow pumpkin of medium size having a fine gray netting. The light yellow flesh is very thick and sweet. It has a most delicious tasty flavor. Pkt. 5c; oz. 15c; ¼ lb. 45c; ½ lb. 65c; lb. \$1.05; 2 lbs. \$1.95; 5 lbs. \$4.60; 10 lbs. \$8.40.

554 Maule's Yellow Sweet Potato Pie

554 Maule's Yellow Sweet Potato Pie

A Well Known Variety (90 days)

Maule's Yellow Sweet Potato Pie Pumpkin is a handsome variety of exceptional merit, famed as a pie-maker. The flesh is very thick, fine grained, and of a beautiful golden yellow color. Its texture and flavor is particularly adapted for pies. It is a fine winter keeper which will remain in good condition until spring. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

556 Maule's Prize Potiron

(100 days) This grows to immense size. It has bright yellow, fine grained flesh of good quality. The skin is an attractive salmon color. Notwithstanding its great size, it is excellent for making into pies and fine for winter storing. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. \$1.00; lb. \$1.75; 2 lbs. \$3.20; 5 lbs. \$7.70; 10 lbs. \$14.00.

561 Maule's Hundred-Weight

The Largest of All Pumpkins. A Prize Winner (100 days)

A selected strain of our Prize Potiron. The seed saved represents a careful selection of fruits weighing 100 lbs. each. This is a pumpkin for show purposes, not infrequently attaining a weight of 200 lbs. each. In spite of its large size, it is one of the best table varieties and splendid for pies. The skin is dark salmon and the flesh is bright yellow. Fine grained, sweet, and tender. Though large, it is a shy seeder. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; ½ lb. \$1.65; lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50; 10 lbs. \$25.50.

561 Maule's Hundred-Weight

541 Sunnybrook

541 Burpee's Sunnybrook
An Improved Tomato Pepper (110 days)

A most remarkable squash-shaped pepper for the home garden as well as for market. The plants grow 15 in. tall and measure about 22 in. in diameter. The branches, laden with clusters of fruits, bend down under the heavy weight of the peppers. The individual fruits run from 2½ to 3 in. in diameter and are from 2 to 2½ in. deep from the stem to blossom-end. The beautiful smooth glossy scarlet skin has unusually thick flesh of the sweetest mild flavor. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$2.05; 1 lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

539 Maule's Early Giant

539 Maule's Early Giant
A Large Sweet Pepper (120 days)

Maule's Early Giant is the largest Sweet Pepper grown. The plants are about 2 ft. tall and bear a wonderful crop of fruit. The skin is a rich deep green turning to uniform brilliant red when the fruits are fully ripe. The flesh is thick, very sweet, and of remarkably pleasant flavor. Because it is a quick grower, Maule's Early Giant is a favorite variety of pepper with growers in the northern states where other large, late maturing varieties fail to produce a good crop of fruit. Pkt. 15c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50; ½ lb. \$2.75; 1 lb. \$5.00; 2 lbs. \$9.30; 5 lbs. \$22.50; 10 lbs. \$42.50.

545 Large Bell or Bull Nose

(120 days) One of the hardiest and earliest of all peppers with beautiful bright red fruits when ripe. The young fruits are a rich deep green. The flesh is quite thick, usually sweet but occasionally a plant will produce peppers which are hot. It is a popular pickling and table variety measuring about 2 in. thick and fully as long. A standard home garden and market variety. Pkt. 5c; ½ oz. 25c; oz. 35c; ¼ lb. \$1.00; ½ lb. \$1.65; 1 lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50; 10 lbs. \$25.50.

Peppers of All Kinds

Sweet and Hot

Culture: Sow the seed ½ in. deep in the hot bed, greenhouse, or in a box placed in a warm window during March or April. After all danger of frost has passed, set the young seedlings into the open ground spacing the rows 2 to 3 ft. apart and setting the plants 18 in. apart in the row.

A packet will produce about 100 plants; one ounce for 1500 plants; ¼ lb. for transplanting an acre.

531 Maule's Neapolitan
The Earliest Large Sweet Pepper (110 days)

Neapolitan has proved itself to be earlier than any other large, sweet, mild pepper in existence. It is wonderfully productive carrying as many as 40 fruits on a single plant. Three-lobed fruits 4 in. long and 2 in. thick turning from light green to brilliant red when fully ripe. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$1.80; 1 lb. \$3.25; 2 lbs. \$6.05; 5 lbs. \$14.60; 10 lbs. \$27.60.

536 Golden Queen

(125 days) The best of all large yellow peppers, with fruits growing 6 to 8 in. long and 4 to 5 in. thick. The flavor is mild and pleasant. The beautiful golden yellow skin contrasts well with the green and red color of other varieties. Sweet and tasty. Pkt. 15c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25; ½ lb. \$2.35; 1 lb. \$4.25; 2 lbs. \$7.90; 5 lbs. \$19.10; 10 lbs. \$36.10.

546 California Wonder
Thick, Sweet Flesh (130 days)

A wonderful pepper not unlike Chinese Giant in size and blocky form. It is one of the largest peppers grown, having extremely thick flesh of mild and sweet flavor. The glossy dark green skin turns to bright crimson when the fruits are ripe. Pkt. 15c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.55; ½ lb. \$2.90; 1 lb. \$5.25; 2 lbs. \$9.75; 5 lbs. \$23.60; 10 lbs. \$44.60.

533 Maule's Improved Ruby King

533 Maule's Improved Ruby King

A Standard Shipper, Home, and Market Pepper (130 days)

This splendid pepper was introduced to the American public more than a decade ago and it has since acquired a conspicuous place and became the leader of all the sweet red varieties. The fruits grow 5 to 6 in. long and 3 to 4 in. thick. The flesh is extremely thick and sweet. It is so mild that often it is sliced for salad. Also excellent for stuffing. We have furnished this seed to tens of thousands of gardeners with the most satisfactory results, and our strain of Ruby King of today is better than ever before. Of perfect form, largest size, brilliant red color, very sweet, tasty, and always mild. Pkt. 10c; ½ oz. 25c; oz. 35c; ¼ lb. \$1.00; ½ lb. \$1.65; 1 lb. \$3.00; 2 lbs. \$5.60; 5 lbs. \$13.50; 10 lbs. \$25.50.

540 Pimiento

540 Pimiento or Sweet Salad

Mildest Flavored of All Peppers (130 days)

This pepper has unusually thick flesh. The fruits are about 3½ in. long and measure 2¼ in. across at the stem end. Their shape is distinctly conical as shown in the illustration above. Besides having a most attractive shape, it also is of an appealing rich deep crimson color. Its productiveness makes it a most desirable variety for the home garden or for market. The thick flesh is always strictly mild and sweet besides being remarkably tender due to its fine grained texture. Belongs in every garden. Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 90c; ½ lb. \$1.40; 1 lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25; 10 lbs. \$21.25.

544 Worldbeater

Larger than Ruby King (130 days)

This wonderful large, mild pepper resembles Ruby King in shape though it is broader at the pointed end and reaches a size similar to that of Chinese Giant. It can be sliced or eaten raw without fear of burning since its flesh is entirely mild. Dark green turning to a beautiful scarlet. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$1.80; 1 lb. \$3.25; 2 lbs. \$6.05; 5 lbs. \$14.60; 10 lbs. \$27.60.

544 Worldbeater

530 Maule's
Giant Crimson

530 Maule's Giant Crimson

A Large, Early, Sweet Pepper (130 days)

This is a remarkable large early variety with exceptionally thick and sweet flesh. The color of the young peppers is a beautiful deep green. When ripe, the skin is a uniform rich crimson-scarlet. Maule's Giant Crimson is a great favorite with many growers because the plants are both vigorous and productive. They reach a height of 2 to 3 ft. and carry a large quantity of attractive fruits. Splendid for the home garden and ideal for the market grower. Of most delicious flavor. Pkt. 15c; 1/2 oz. 25c; oz. 45c; 1/4 lb. \$1.40; 1/2 lb. \$2.60; lb. \$4.75; 2 lbs. \$8.85; 5 lbs. \$21.35; 10 lbs. \$40.35.

532 Chinese Giant

The Largest and Most Handsome of All Mild Pepper (140 days)

Chinese Giant is certainly a wonder. The plants make a strong, stocky growth. They are of bush form, erect, 18 in. tall, and about 2 ft. in diameter. The plants are therefore very compact. The peppers are very large, almost square in outline and present a most attractive appearance either while young when they are rich green or when fully matured when their glossy skin is a beautiful deep red color. Chinese Giant, without exception, is the finest and largest of all large peppers. It has exceedingly thick flesh of a tasty, mild, and sweet flavor. Pkt. 15c; 1/2 oz. 35c; oz. 65c; 1/4 lb. \$2.00; 1/2 lb. \$3.70; lb. \$6.75; 2 lbs. \$12.55; 5 lbs. \$30.35; 10 lbs. \$57.35.

550 Mixed Peppers (110 to 145 days) This mixture contains a grand assortment of many varieties of peppers including both hot and sweet fruits. By planting this mixture gardeners have an opportunity to provide peppers for all purposes. The sweet ones for table use and the hot ones for pepper sauce, seasoning, pickling, or to be dried for winter use. It contains both yellow and red varieties. Pkt. 15c; 1/2 oz. 30c; oz. 50c; 1/4 lb. \$1.50; 1/2 lb. \$2.75; lb. \$5.00; 2 lbs. \$9.30; 5 lbs. \$22.50; 10 lbs. \$42.50.

Peppers with Hot Fruits

The varieties of peppers listed below all bear a great abundance of larger or smaller fruits of exceedingly hot flavor. They are fine for sauces and flavoring, and may be strung up and dried for winter use.

547 Long Red Cayenne

(125 days) Conical slender fruits measuring 2 to 4 in. long. They are produced in great profusion. Bright red skin and deep red flesh that is hot and biting. A favorite for bunching with pot herbs and for winter use. Pkt. 10c; 1/2 oz. 25c; oz. 40c; 1/4 lb. \$1.15; 1/2 lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

538 Tom Thumb

(135 days) Dwarf, well branched plants with globular fruits about the size of a cherry. The red fruits are hot and pungent. It is so attractive that it may be grown in the flower garden. The quality of the peppers is of the very finest. Pkt. 10c; 1/2 oz. 25c; oz. 40c; 1/4 lb. \$1.25; 1/2 lb. \$2.35; lb. \$4.25; 2 lbs. \$7.90; 5 lbs. \$19.10; 10 lbs. \$36.10.

537 Tabasco

(140 days) This is the variety which is grown extensively to make the famous Tabasco Sauce which is indispensable for flavoring various dishes. Makes a strong bush and carries a truly enormous quantity of long, slender, bright red peppers which are always hot. Pkt. 15c; 1/2 oz. 25c; oz. 45c; 1/4 lb. \$1.40; 1/2 lb. \$2.60; lb. \$4.75; 2 lbs. \$8.85; 5 lbs. \$21.35; 10 lbs. \$40.35.

543 Small Red Chili

Small, Hot Peppers (145 days)

Attractive plants growing 18 in. tall, bearing a great quantity of small, hot, cone-shaped fruit 1 1/2 in. long. Both the skin and flesh is a rich deep red. Very productive and fine for pepper sauce, pickling, or drying. Pkt. 5c; 1/2 oz. 25c; oz. 40c; 1/4 lb. \$1.15; 1/2 lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

535
Maule's
Red Hot

535 Maule's Red Hot

The Hottest of All (120 days)

Handsome, bright red peppers growing 5 to 7 in. long and about 1 in. thick at the shoulder, gradually tapering toward the point as shown in the illustration. Their bright red skin is most attractive and makes them a valuable market variety. The thick flesh is exceedingly hot and pungent. Of splendid quality either fresh or when dried. The sturdy plants are enormously productive. Pkt. 10c; 1/2 oz. 25c; oz. 40c; 1/4 lb. \$1.20; 1/2 lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00; 10 lbs. \$34.00.

Radishes for Spring, Summer, Fall, and Winter

585 Maule's Earliest White

585 Maule's Earliest White

The Earliest of All Radishes (18 days)

A splendid, olive-shaped radish of pure white color. It is distinctly earlier than any other radish grown no matter what its color, as will be understood when we say that good sized radishes may be pulled in about 18 days after sowing the seed. It has a small top, is solid and crisp, of good flavor, and first-class in every respect. Should be in every garden. Its size and shape are accurately shown in the illustration. An elegant home garden sort. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

580 Maule's Sparkler

580 Maule's Sparkler

Best of the Red, White Tips (20 days)

Crisp and sweet, remaining fit for use longer than most of the other globe-shaped sorts. The color is very vivid and attractive. The roots are rich carmine-scarlet with a large tip of the purest white. An excellent forcing sort and highly recommended for growing in the open ground. A very attractive radish for bunching or market. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 70c; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25.

We list three distinct classes of Radishes, Spring, Summer, and Winter Sorts. Your garden will not be complete unless you plant some of each class.

Culture: Sow in ground enriched with well-rotted manure. Quality depends on quickness of growth. Sow seed ½ inch deep in the early spring in rows 12 to 18 in. apart; for a succession sow every 10 days. Cultivate frequently. A packet will sow about 20 feet of drill, an ounce about 100 feet, or use 8 to 10 pounds per acre. Thin to one inch apart for small varieties and 2 to 4 in. for the large varieties.

582 Maule's Scarlet Turnip, White Tipped

Attractive and Handsome (20 days)

Rich carmine-scarlet radishes tipped with white. It is extremely quick to mature, being ready for the table in 20 days from the time of sowing the seed. It is invaluable for forcing under glass, as well as for growing in the open air. Its flavor is excellent and its qualities high in all respects. Market gardeners find it a quick selling sort at good prices. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

583 Maule's Earliest Scarlet

583 Maule's Earliest Scarlet

Best Early Red Round Radish (20 days)

If you wish to have the finest first red radishes sow Maule's Earliest Scarlet. They are crisp and brittle. The skin is a rich scarlet color, and the pure white flesh is always tender, mild, and sweet. It has a small, short top, and is well adapted to open air growing or to forcing under glass. This popular radish should find a place in every garden. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

590 Rapid Red or Saxa

Quickest Growing Round Red (20 days)

This desirable, quick growing, red button radish grows exceedingly quickly. The roots are round as marbles, having a very small top and a small tap root. The skin is bright scarlet. The firm white flesh is crisp, brittle, and juicy. Adapted for forcing or outdoor planting. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

597 Vick's Early Scarlet Globe

The Popular Round Red Sort (20 days)

This remarkable Radish has established for itself a reputation as a forcing variety. It has the unique characteristic of bearing the heat required for forcing without becoming pithy in the heart or suffering injury to its flavor. The thin skin is a rich scarlet. It has a small top and is a high bred radish. Also excellent for sowing outdoors. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 70c; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25.

592 French Breakfast

Ideal Early Olive-Shaped Radish (20 days)

A pretty radish of bright red color tipped with white. It is oblong in shape, and the quality is crisp and tender. It is a quick grower. It is well suited for sowing in the open ground, and equally fine grown in the hotbed or in frames. Exceedingly popular. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; lb. 70c; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25.

575 Burpee's Relish

(25 days) Burpee's Relish is an excellent, crisp, bright carmine radish. A joy to the eye and a treat to the palate. It has an appetizing appearance. Pure white flesh. Regular in size and shape, forming superb round roots of surprising crispness and a delightful, snappy radish flavor. A foremost variety which retains its good qualities until fully grown. Pkt. 10c; oz. 20c; ¼ lb. 45c; ½ lb. 70c; lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

569 The Maule

569 The Maule Radish

The Largest Round Red Early Sort of Quality (30 days)

This Giant Radish is early, crisp, and long standing. It is perfectly globular in shape. No early variety we know of retains its firmness of flesh so long after attaining full size. It is undoubtedly a marvel in this respect. Beautifully shaped, with a bright shining scarlet skin. When cut the flesh is pure white and of great solidity. In addition to its crispness it has the true full radish flavor. The tops are of good size to allow for easy bunching. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

573 Maule's Just So

The Best White Globe-Shaped Radish for Home and Market (30 days)

Maule's Just So is the best all around white radish ever offered to the American public. It is splendid either for forcing in the greenhouse or in frames and not less desirable for growing in the garden. The round, white radishes have a thin skin and are of attractive appearance. The flesh is firm, crisp, juicy, and agreeably pungent. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

572 *Crimson Giant*

572 Crimson Giant

Fine Large Radishes (30 days)

A large, early maturing, turnip-shaped variety growing almost double the size of any of the other turnip-shaped radishes. It grows quickly and has a most attractive deep crimson skin. The roots vary from round to almost oval and measure often 6 to 7 in. in circumference. The flesh is pure white, of fine flavor, firm, crisp, and never shows any hollow or pithy center. It grows best in a moderately moist, fertile, and deeply prepared soil. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

3155 Collection of Four Choice Radishes

This collection contains one packet each of Earliest Scarlet, Sparkler, Maule's Just So, and All Year Round. **25¢**

One packet each (value 40c) for

584 *Icicle*

Three Delicious Long Radishes

These Spring Radishes are particularly fine for growing in deeply prepared, rich soil where the roots can develop freely without any interference from stones or any hard sub-soil. They are grown in the same manner as other Spring Radishes and are all of excellent quality.

584 Icicle

The Finest Early Long White Radish (30 days)

Most attractive long roots shaped like icicles. They have a pure white thin and tender skin enclosing flesh of most delicious quality. The texture of the icy white flesh is crisp and brittle. It is perfectly mild and of delightfully sweet flavor with just enough pungency to appeal to the appetite. Icicle Radish remains tender during the entire growing season and it is fully as good when 1 in. in diameter as when only ½ an inch. It has proven to be a great favorite with many home gardeners who consider it the finest radish in existence. Also unsurpassed for marketing. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

581 Maule's Improved

Long Scarlet Short Top

Beautiful long red roots (30 days)

A splendid and most attractive long spring radish of the finest quality. The roots are thick and hold their shape well until they abruptly end in a fine tap-root. The thin and tender skin is a beautiful deep carmine-red whereas the flesh is pure white, crisp, and juicy. The flavor of the flesh is delightfully pungent and stimulating to the appetite. We consider this the best of the long red radishes for both market grower and home gardener. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

591 Long Cardinal

Long Brightest Scarlet, White Tipped

(25 days)

Attractively long roots measuring 4 to 5 in. in length and ¾ in. thick at the shoulder. They are bright red at the top shading to pure white at the tip. A splendid quality variety for both market growers and home gardeners. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; lb. 70c; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25.

581 *Long Scarlet*

610 Mixed Radishes

All Kinds, Colors, and Shapes (18 to 42 days)

We have included in this mixture all varieties of radishes so that the home gardener may sow a row and harvest from it a continuous supply of fresh, tender, crisp roots from late spring until late fall. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

Growing Bumper Crops from Maule's Seeds

Nothing is of greater importance to the grower of vegetables than the quality of the seed he sows. Even the most skeptical must realize that no house could exist for over 50 years unless it was giving full satisfaction to its customers. You know that we guarantee "your money back if not satisfied." This has been our slogan for years. The reason why we are able to make this guarantee is because "no better seeds than Maule's can be had at any price."

We know this to be the fact through the trials we make every year. Few people have any idea of what these trials mean to them. There is no other way of insuring our customers of the highest quality seeds but by actual tests. Each strain is carefully compared with all other leading strains of the same variety in existence.

Though we recommend that you stick to the good old sort with which you are acquainted, we nevertheless suggest that you try some of the newer varieties which, in almost every case, represent an improvement in one way or another. In this way you will become acquainted with what is new and determine for yourself whether it fills your needs.

To help you in selecting the varieties best suited for your purpose we not only give full description but we also indicate the number of days required by the crop from the time the seed is sown until it is ready for use. These dates must necessarily be approximate since weather and soil conditions have a great influence upon this factor. As the dates are all relative you can easily determine which varieties are early and which are of late maturity.

Summer Radishes

571 Maule's 1834

Summer radishes require a longer season to mature than the spring radishes. They are adapted for sowing early in the spring to mature during the summer, or they may be planted later to be ready for the table any time before frost. For a continuous supply sow every two weeks until September. One packet for 20 ft. of drill, 1 oz. for 100 ft.; 8 to 10 lbs. per acre.

587 Improved Chartiers A Large Handsome and Crisp Radish (35 days)

One of the best long summer radishes. The roots grow 6 to 7 in. long and are about 1 in. in diameter. They are perfectly smooth with thin skin of a bright red color at the top and pure white toward the tip. The flesh is tender, brittle, and agreeably snappy. The radishes remain in good condition for a long time without getting pithy. It is an extra popular choice summer radish. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; lb. 70c; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25.

601 White Lady Finger Snow White, Brittle, and Crisp (35 days)

This is also called Long White Vienna. It is an extremely popular summer radish with beautiful pure white flesh. The thin skin is also white. The roots grow 6 to 7 in. long and taper slightly from a broad shoulder to a fine tap-root. The roots grow ½ or more above ground and the neck, therefore, is slightly tinged with green. The quality of the flesh is superb. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; lb. 70c; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25.

571 Maule's 1834 or All Year Round

A Radish Adapted to Every Season (40 days)

This high-bred white summer radish is well known under the name 1834. The skin is a beautiful ivory-white. It is thin and encloses the icy white flesh which is extremely crisp and brittle. The shape of this excellent radish is well shown in the illustration given above. Though almost 100 years old, it is still a leading quality variety. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

593 White Strassburg

A Popular White Summer Variety (40 days)

A handsome white radish of oblong shape and large size, broad at the shoulder and gradually tapering toward a fine thin tap-root. Both the skin and the flesh are pure white. The roots grow 4 to 5 in. long and are 4 in. thick at the shoulder. The flesh is crisp, tender, and of an icy transparent texture. A valuable variety which will keep in excellent condition for a long time. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

Rhubarb or Pie Plant

Culture: Sow early in the spring in drills spaced about 18 in. apart. Thin the seedlings when large enough to be handled to stand 7 to 12 in. apart in the row. One packet for 10 ft.; 1 oz. for 75 ft. of drill.

611 Victoria Rhubarb

611 Seeds of Victoria Rhubarb

A productive variety for home use and for market. Sow the seed early in the spring and transplant the seedlings when of good size. Set the roots 2 to 4 ft. apart in rich soil. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

69B88 Roots of Victoria Rhubarb

These will give a good crop within a minimum of time. They require rich fertile soil to produce an abundance of large, thick, crimson stalks of the finest flavor. Set the roots 4 ft. apart. 20c each; 3 for 50c; 6 for 85c; 12 for \$1.50, postpaid. Not prepaid: 25 for \$2.00; 50 for \$3.50; 100 for \$6.50.

Winter Radishes

Winter radishes require cool weather at the end of their growing season and for that reason they are planted during the summer. They thrive in a light sandy soil of moderate fertility. Sow the seed ½ in. deep in rows spaced 15 to 24 in. apart any time during June, July, or early August. Thin the seedlings to stand 4 to 6 in. apart when they are large enough to be handled. Cultivate the crop frequently to preserve soil moisture and keep down the weeds. One packet will sow 20 ft. of row; 1 oz. 100 ft.; 8 to 10 lbs. per acre.

607 China Rose

607 China Rose (60 days)

A large oval-shaped radish growing 4 to 6 in. long and 2 in. in diameter. It is a quick grower with bright rose skin and pure white mild flesh. Of attractive appearance. Pkt. 5c; oz. 10c; ¼ lb. 40c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

603 Maule's Winter

Best Large White Winter Radish (65 days)

Attractive, smooth, pure white roots growing about 8 in. long and 2 to 3 in. in diameter. The flesh is pure icy white and of mild flavor. This is the mildest and least pungent of all winter radishes. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. \$1.00; 2 lbs. \$1.85; 5 lbs. \$4.40; 10 lbs. \$8.00.

603 Maule's Winter

605 Long Black Spanish (70 days)

Long smooth radishes with black skin and pure white fine-grained solid flesh. The flesh of this variety is more solid than any of the others and will therefore keep way into spring. The roots grow 8 to 9 in. long and 2½ in. thick. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

604 Japanese Colossal

Very Large, Solid, Crisp, and Mild (80 days)

A beautiful large winter radish of attractive appearance. The roots grow to truly enormous size, yet they are tender, crisp, and delicious. The shape of the roots is oval. Both flesh and skin are pure white. Retains its crisp choice flavor for a long time. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

604 Japanese Colossal

Salsify or Oyster Plant

Culture: Sow the seed early in the Spring in drills spacing the rows 1 to 2 ft. apart. Sow thinly. When the seedlings are large enough to be handled thin them to stand 4 to 6 in. apart. Salsify is an excellent winter and early spring vegetable. The roots are perfectly hardy and may remain outdoors all winter long. For winter use dig in the fall and store in a cool cellar. One packet of seed will give about 20 ft. of row; 1 oz. is needed for 75 ft. of row; 8 to 10 lbs. are required per acre.

614 Mammoth Sandwich Island

The Most Popular and Most Valuable Variety (140 days)

Since this improved variety has made its appearance it has completely replaced the older large white Salsify. Mammoth Sandwich Island has thicker and larger roots than any other variety. The flesh is pure white and has a delicious oyster-like flavor. Easy to grow and easy to store for winter use. Pkt. 10c; oz. 30c; ¼ lb. 80c; ½ lb. \$1.20; lb. \$2.10; 2 lbs. \$3.90; 5 lbs. \$9.45; 10 lbs. \$17.85.

614 Mammoth Sandwich Island

Maule's Spinach

Culture: Sow the seed in good rich soil early in the spring and cover 1 in. deep. Space the rows 1 ft. apart or broadcast the seed. For a succession, sow every two weeks until June 15, and again from August 10 to September 15. For early spring use, sow in September and cover with a few inches of hay, leaves, or litter during the winter. One packet for 25 ft.; 1 oz. for 100 ft.; 8 to 10 lbs. per acre in drills; 12 to 15 lbs. broadcast.

621 Bloomsdale

For Spring or Fall (45 days)

A favorite with home gardeners and market growers. Also called Norfolk Savoy Leaved. Has thick, dark green, crumpled leaves of heavy texture. It is perfectly hardy and excellent for early spring sowing or for planting in the fall. Pkt. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 25c; 1 lb. 45c; 2 lbs. 80c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

620 Giant Fillbasket

The Largest of All Spinaches (45 days)

The glossy dark green foliage is attractively crumpled and of heavy thick texture. The numerous leaves are extra large. They are broad, round, and will stand a long time before bolting to seed. The vigorous plants will yield an enormous crop of attractive leaves. Pkt. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 25c; 1 lb. 45c; 2 lbs. 80c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

618 Victoria

(45 days) An old favorite, producing very large, thick, dark green leaves which are slightly crumpled in the center. The leaves are usually blunt or rounded on the end but sometimes they are arrow-shaped. Unexcelled for spring or fall planting. Pkt. 10c; oz. 15c; ¼ lb. 20c; ½ lb. 25c; 1 lb. 45c; 2 lbs. 80c; 5 lbs. \$1.45; 10 lbs. \$2.70, postpaid. Not prepaid: 15 lbs. \$3.15; 25 lbs. \$5.00; 50 lbs. \$9.50; 100 lbs. \$18.00.

617 Princess Juliana

All Vegetable Seeds up to 10 lbs. of each variety are sent **POSTPAID**

All Vegetable Seeds up to 10 lbs. of each variety are sent **POSTPAID**

617 Princess Juliana

Remains in Good Condition After Others Have Gone to Seed (45 days)

This spinach is one of the long season type but the leaves are more crumpled and of a darker green color. They are large, thick, and of excellent quality. Although it is ready to cut as soon as the medium-early sort, it will not bolt for a long time. Pkt. 10c; oz. 15c; ¼ lb. 20c; ½ lb. 25c; 1 lb. 45c; 2 lbs. 80c; 5 lbs. \$1.50; 10 lbs. \$2.80, postpaid. Not prepaid: 15 lbs. \$3.30; 25 lbs. \$5.25; 50 lbs. \$10.00; 100 lbs. \$19.00.

622 Maule's New Zealand

622 Maule's New Zealand Spinach

Endures Heat. Fine for Summer Use (55 days)

Maule's Everlasting or New Zealand Spinach is an entirely different plant botanically from the regular spinach, yet the leaves when prepared for the table not only greatly resemble the garden spinach but they have an even finer and richer flavor. Grows vigorously during the hot summer and fall when other spinach fails but it is not hardy. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.85, postpaid. Not prepaid: 15 lbs. \$7.95; 25 lbs. \$13.00; 50 lbs. \$25.50; 100 lbs. \$50.00.

626 Savoy Leaved

Blight-Resistant

(45 days) An excellent, blight-resistant selection of Bloomsdale Spinach. The leaves are darker green and more heavily crumpled. It will also stand ten days longer before bolting to seed. Fine for early spring or late fall planting to winter over. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; 1 lb. 50c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

623 Long Standing

(45 days) An improved round-seeded strain of excellent quality. Reaches maturity quickly but will stand a long time before it will bolt to seed. The plants are very large, becoming rather procumbent as they grow older. Broad, arrow-shaped, smooth green foliage. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; 1 lb. 50c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

624 King of Denmark

(45 days) Its principal advantage is the fact that it will stand two weeks longer before running to seed than any other variety except Princess Juliana. The deep green leaves are large, round, heavily savoyed or crumpled. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; 1 lb. 50c; 2 lbs. 85c; 5 lbs. \$1.55; 10 lbs. \$2.90, postpaid. Not prepaid: 15 lbs. \$3.45; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

Swiss Chard

Culture: This vegetable is becoming more popular every year. It should be in every garden. Beside the rich succulent green foliage which is cooked like spinach, the tender white leaf-stalks may be prepared like asparagus, and in that way two entirely different dishes may be had from the same plant. Sow the seed as soon as the ground can be worked in drills 18 to 24 in. apart. Cover with 1 in. of fine soil. Thin the young plants carefully to stand 8 to 12 in. apart in the row. One packet for 25 ft.; ounce per 100 ft.; 5 to 6 lbs. per acre.

89 Lucullus

89 Lucullus

The Cut and Come Again Spinach Beet (25 days)

In less than a month after sowing you will be able to use the thinnings for a most delicious dish of greens and in another three weeks you may start to gather the outer leaves of the remaining plants and in doing so you will be able to continuously cut some leaves until late in the fall. Lucullus grows 2 to 2½ ft. tall and has rich green, savoyed or crumpled leaves which are tender and tasty. The white thick stems may be prepared separately and give a most appetizing dish. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

87 Burpee's Fordhook Giant

Extremely Large Plants Which Yield All Summer Long (25 days)

This Swiss Chard or Spinach Beet forms plants which are truly of giant size. They will grow 3 ft. tall in good soil and give a continued crop of rich dark green foliage to take the place of spinach during the summer and long thick white spikes which replaces asparagus during the summer and fall. The heavily savoyed and crumpled deep green foliage makes an attractive dish of good rich flavor which will be eaten by most people as regular garden spinach on account of its color and similarity in taste. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

88 Large Ribbed White

Provides "Greens" from Early Spring Until Frost (25 days)

This variety is primarily grown for its broad, deep white stems though the plants produce sufficient leaves to make it worth while to cut them for cooking like spinach. The leaf part is of a light green color and has a particularly fine and delicate flavor. Besides its desirability for kitchen use you will find that chickens are very fond of this. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 45c; 1 lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

Squash—For Summer and Winter

628 Earliest White Bush

(50 days) This splendid bush squash is also known under the name of Patty Pan. It has white skin and beautiful light greenish white flesh of delicious flavor. An attractive vigorous bush variety bearing a great crop of fruit. Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 60c; 1 lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

For Summer and Winter

647 Fordhook Bush (55 days)

This is an excellent squash for summer and winter use. The plant makes a compact bushy growth bearing a great quantity of oblong, thick, fleshy cream-colored fruits containing a large quantity of light creamy yellow, lusciously sweet flesh. The fruits may be used while the skin is still tender or they may be stored after the shell has hardened. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

Quality Winter Squashes

The winter squashes require a longer growing season to mature their fruits and they must remain on the vine until they have fully matured. Because the plants make a vigorous, rampant growth, place the seed in hills 8 ft. apart after all danger of frost has passed. An extra heavy crop can be raised by placing a shovelful of well rotted manure under each hill. Sow after all danger of frost has passed barely covering the seed. One packet for 8 hills; 1 oz. for 40 hills; 4 lbs. per acre.

641 Blue Hubbard

Splendid for Pies. A Good Keeper (110 days)

This resembles the Chicago Warty Hubbard in size and shape but the color of the skin is a deep blue-gray. The flesh is attractive bright yellow. It is fine grained, very dry, and exceptionally sweet. In quality it is as good, if not better, than the original Hubbard. Very productive and easily stored for winter use. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. 95c; 1 lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.25; 10 lbs. \$13.20.

642 Boston Marrow

Rich, Sweet Flavor. Makes Good Pies (100 days)

This is a popular squash for autumn and winter use. Matures early and has a bright orange skin. The flesh is rich salmon-yellow. It is sweet, dry, fine grained, and very luscious. A favorite home garden variety and one for which there is a great market demand. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 80c; 2 lbs. \$1.45; 5 lbs. \$3.40; 10 lbs. \$6.00.

645 Red or Golden Hubbard

Golden Yellow Flesh (110 days)

A valuable squash similar to the old Hubbard in size and shape, but differing from it in having deep orange-yellow colored skin. This makes the squashes particularly attractive. The flesh is richer in color than Hubbard but of the same fine grained, sweet, and luscious flavor. Red or Golden Hubbard is easily stored throughout the winter for use during spring. Pkt. 5c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; 1 lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

Squashes are easy to grow in any well drained fertile soil. They are usually grouped as Summer Squashes and Winter Squashes. The first class includes those which are ready for the table while the skin is still tender, whereas in the Winter Squashes the shell is allowed to harden which makes the fruit suitable for storing. A packet of seed will plant 8 hills; 1 oz. 40 hills; and 3 to 4 lbs. are needed per acre. Plant the seed after all danger of frost has passed.

The Best Summer Squashes

632 Mammoth Golden Crookneck

The Largest Golden Crookneck (55 days)

This variety is an improved strain of the old Yellow Summer Crookneck squash. Though it is fully twice as large it nevertheless matures equally as early. The fruits have a beautiful deep golden yellow skin and are much warted. They are about 18 in. long and have a thick fleshy neck filled with fine grained flesh of luscious flavor. Compact, productive plants. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

629 Giant Summer Straightneck

A Straightneck Strain of Crookneck (55 days)

This new variety has become very popular. The squashes are of the same size and color as those of the Mammoth Golden Summer Crookneck but the thick neck is perfectly straight. This makes it considerably easier to pack the fruits for shipment to distant markets. The fruits are 18 to 20 in. long and have a thick meaty neck filled with beautiful light yellow sweet meat. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; 1 lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

631 Early Yellow Bush

(55 days) A very early, flat, scalloped squash of largest size. The fruits have a deep orange skin and pale yellow flesh which is sweet and very tasty. It is a splendid home garden and market variety. Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. 90c; 2 lbs. \$1.60; 5 lbs. \$3.80; 10 lbs. \$6.75.

639 Cocozelle Bush

(60 days) This is a favorite squash also known as Italian Vegetable Marrow. The fruits are large, oblong in shape, and have a dark green skin which later shows yellow and light green stripes. Fine grained, sweet, and tender flesh. Pkt. 10c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; 1 lb. \$1.15; 2 lbs. \$2.10; 5 lbs. \$5.05; 10 lbs. \$9.20.

630 Acorn or Table Queen

(80 days) The fruits are just the right size for cutting in half and baking. The hard, dark green shell is smooth and keeps as well as the Hubbard winter squashes. The orange-yellow flesh cooks dry and sweet like a sweet potato. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; 1 lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

650 Mixed Squashes

(50 to 115 days) In this mixture you will find all types of squashes, small, medium, large, summer and winter varieties. Thus one packet of seed will give you a great assortment to serve every purpose for which squashes are grown. Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 75c; 1 lb. \$1.25; 2 lbs. \$2.30; 5 lbs. \$5.50; 10 lbs. \$10.00.

635 Maule's Improved Hubbard

633 Banana Squash

(110 days) This is the most delicious of all squashes. It has a tough shell which is grayish green in color. The beautiful orange-yellow flesh is firm and solid, always free from fiber and stringiness. It cooks smooth and has a delicious sweet flavor. A productive variety, the fruits of which are shaped like Bananas. Pkt. 10c; oz. 20c; ¼ lb. 65c; ½ lb. 95c; 1 lb. \$1.65; 2 lbs. \$3.05; 5 lbs. \$7.05; 10 lbs. \$12.80.

648 Chicago Warty Hubbard

Best of the Winter Keepers (110 days)

This strain of Hubbard Squash produces large dark green fruits prominently covered with warts. They sell well in all markets as the fruits are not only handsome but they are also known to be of the finest quality. The golden yellow flesh is dry and sweet. It cooks mealy and is unsurpassed for pies. We have a particularly fine strain of this excellent variety. Pkt. 5c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; 1 lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

637 Essex Hybrid

(115 days) This strain is also known under the name of Warren or Hard-Spell Turban. The fruits are very large, smooth, round, flattened, and show distinct ribs. The skin and flesh are rich orange-red. A squash of excellent sweet flavor. Keeps all winter long. Pkt. 5c; oz. 20c; ¼ lb. 60c; ½ lb. 85c; 1 lb. \$1.50; 2 lbs. \$2.75; 5 lbs. \$6.60; 10 lbs. \$12.00.

635 Maule's Improved Hubbard Squash

The Acknowledged Standard of Quality. Also the Popular Winter Squash (110 days)

Maule's Improved Hubbard Squash represents the perfection of all winter squashes. It is the choicest type of the Hubbards grown. The flesh is rich orange-yellow. It is fine grained, solid, dry, and lusciously sweet. It bakes equally as dry as a Sweet Potato. The toughness of the dark olive green rind or shell makes this squash a favorite for keeping throughout the winter. It is, without question, the most popular variety with market growers, home gardeners, or for roadside sale. Its yield on fertile soil is truly enormous. Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 80c; 1 lb. \$1.40; 2 lbs. \$2.55; 5 lbs. \$6.15; 10 lbs. \$11.20.

Maule's Tomatoes

651 Maule's Earliest of All

No other vegetable is as indispensable in the home garden or on the farm as Tomatoes. In order to provide for a continuous supply of fresh luscious fruits, gardeners should plant varieties which will mature in succession. A moderately rich soil is best suited for growing tomatoes. Sow the seed in February or March in a hot bed, greenhouse, or in shallow boxes placed in a sunny window. Cover the seed $\frac{1}{2}$ in. deep and when the young seedlings are about 2 in. tall, transplant to boxes or other parts of the frame. They are ready for setting into the field after all danger of frost has passed. One packet gives 100 plants; an ounce 3,500 plants for an acre.

Early Varieties

651 Maule's Earliest of All

The Greatest of All Early Tomatoes
Four Days to a Week Earlier than Any Other (85 days)

Maule's Earliest is the best of all bright red extra-early tomatoes for home gardens and for market. Its extreme earliness is not its only virtue for the fruits are large, of good rich color, and extremely meaty. They do not crack, neither do they have a hard core. While they are a trifle irregular in shape, they are not rough. When we say that it is the earliest tomato we are fully aware of the claims made for June Pink, Earliana, King of the Earlies, and others. Pkt. 15c; $\frac{1}{2}$ oz. 25c; oz. 45c; $\frac{1}{4}$ lb. \$1.35; $\frac{1}{2}$ lb. \$2.45; 1 lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25; 10 lbs. \$38.25.

660 John Baer Early and Solid (95 days)

There are many gardeners who prefer John Baer to any other bright red early tomato. It is indeed a most attractive fruit with clean, unblemished skin of a most intense rich color. The fruits are extremely solid, all flesh, with small seed cavities, and free from stringiness or fiber. They ripen early and produce a tremendous crop of beautiful fruits which are evenly colored from the stem to the blossom end. It is an unexcelled variety for the home garden and for market use. Pkt. 10c; $\frac{1}{2}$ oz. 20c; oz. 35c; $\frac{1}{4}$ lb. 95c; $\frac{1}{2}$ lb. \$1.50; 1 lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

661 Break O'Day

661 Break O'Day

The Earliest Red Globe-Shaped Tomato (95 days)

A new tomato resulting from a cross between Marglobe and Marvana. It is the earliest disease-resistant scarlet-red globe-shaped tomato ever introduced. The fruits are handsome in appearance. They are large, extremely solid, meaty, agreeably juicy, and contain very few seeds. The vines are strong and of medium length. Very fine for market and the home garden. Pkt. 15c; $\frac{1}{2}$ oz. 25c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; $\frac{1}{2}$ lb. \$2.05; 1 lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

683 Bonny Best

Early, Large, and Smooth; A Heavy Cropper (100 days)

Beautiful large scarlet-red tomatoes of slightly flattened shape but thicker than most others of the same class. The rich scarlet-red skin is evenly colored and helps to sell the fruits in all markets. Bonny Best is a vigorous variety yielding an enormous crop of attractive fruit of uniformly large size. It is grown widely in many different sections of the country by many home gardeners and market growers. It has also proven to do well in the greenhouse during the winter months. Pkt. 10c; $\frac{1}{2}$ oz. 20c; oz. 35c; $\frac{1}{4}$ lb. 95c; $\frac{1}{2}$ lb. \$1.50; 1 lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

658 Spark's Earliana (90 days)

Through careful plant breeding and selection, we have perfected this strain so that it not only ripens as early as other tomatoes but has fruits which are much smoother and more regular in size and shape. Another great improvement is the uniformity of color from the stem to blossom end. A very productive variety with large, bright scarlet, heavy fruits with lovely mild, fine grained, juicy, and tender flesh. Pkt. 10c; $\frac{1}{2}$ oz. 20c; oz. 35c; $\frac{1}{4}$ lb. 95c; $\frac{1}{2}$ lb. \$1.50; 1 lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

663 Chalk's Early Jewel (95 days)

Chalk's Jewel is known and appreciated wherever tomatoes are grown. It is a week later than Spark's Earliana but is also a considerably heavier cropper. The fruits are larger than Spark's Earliana and of somewhat sweeter flavor while its robust growth supports a greater number of large fruits. The color of the ripe fruits is a beautiful bright scarlet. Full of luscious, sweet, juicy, and fine grained flesh. Pkt. 5c; $\frac{1}{2}$ oz. 20c; oz. 35c; $\frac{1}{4}$ lb. 95c; $\frac{1}{2}$ lb. \$1.50; 1 lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

662 June Pink A Pink Earliana (95 days)

June Pink ripens at the same time as Earliana but the fruits have a bright purplish pink skin so much preferred in certain markets. The vines make a compact, vigorous growth and carry a great quantity of handsome, good sized fruits which are borne in clusters of 6 to 8 tomatoes. Very popular in many sections. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; $\frac{1}{2}$ lb. \$2.05; 1 lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

As a further inducement for you to plant Maule's Seeds this year we are glad to make the following offer. Any three 10c packets for 25c; any six 10c packets for 50c; or any thirteen 10c packets for \$1.00. This offer applies to both vegetable and flower seeds.

Main - Crop Varieties of Maule's

652 Maule's Success

The Best All-Around Red Tomato (110 days)

Maule's Success is a bright red, smooth, well formed tomato. The flesh is extremely deep from the stem to the blossom end. The color of the skin is an intense brilliant red of most attractive appearance. The fruits ripen evenly and are free from ridges or cracks. This splendid tomato makes a strong and vigorous compact growth of vine. It is the heaviest tomato of its size and has most luscious, firm flesh free from any hard core. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.20; ½ lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00; 10 lbs. \$34.00.

679 Livingston's Globe

Distinct Globe-Shape, Firm, and Blight-Proof (100 days)

This purplish pink tomato has become a leader with many prominent and successful tomato growers. Its form is a distinct globe shape. The fruits are of large size, smooth, firm, and contain very few seeds. The skin is an attractive glossy pink, tinged with purple. Bears a large crop of fruits in clusters of from 3 to 7. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$1.80; lb. \$3.25; 2 lbs. \$6.05; 5 lbs. \$14.60; 10 lbs. \$27.60.

657

Maule's Imperial

657 Maule's Imperial

Beautiful Purple Fruits. The Trucker's Favorite

A handsome pinkish purple tomato of superb flavor. The fruits ripen evenly to the stem end and are very attractive. It is indeed surprising to see the enormous crop produced by the vigorous vines. They start into bearing early and continue to produce large showy fruits until frost. Fine for market and home gardens. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35; ½ lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25; 10 lbs. \$38.25.

Yellow & Orange Tomatoes

675 Golden Ponderosa (110 days)

Attractive, large, golden yellow tomatoes of uniform size and shape. It is the largest and heaviest of the yellow varieties, with luscious yellow flesh free from any acid. The flesh is fine grained, agreeably firm, and very delicious. Pkt. 15c; ½ oz. 35c; oz. 60c; ¼ lb. \$1.80; ½ lb. \$3.30; lb. \$6.00; 2 lbs. \$11.15; 5 lbs. \$27.00; 10 lbs. \$51.00.

674 Golden Queen (110 days)

Large, bright golden yellow tomatoes sometimes with a slight blush of pink. They are produced very early and greatly resemble Matchless in size and shape excepting their color only. The fruits are always smooth, solid, and have small seed cavities. The flavor of these fine fruits is delightfully sub-acid. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

684 Burpee's Tangerine

Beautiful, Large, Tangerine-Orange Fruits (110 days)
This tomato is entirely distinct from either the yellow or red fruited varieties because the color of the large handsome fruits is a most intense bright orange—the color of a well-ripened Tangerine. The flesh is a mellow golden shade suggestive of the mild and rich flavor it has. Its sub-acid piquancy will appeal to all who are susceptible to the acid found in the red varieties. Of very vigorous growth. Pkt. 30c; ½ oz. 70c; oz. \$1.15; ¼ lb. \$3.50; ½ lb. \$6.45; lb. \$11.75; 2 lbs. \$21.85; 5 lbs. \$52.85; 10 lbs. \$99.85.

669
Marglobe

669 Marglobe

The Popular Wilt and Rust-Resistant Tomato (100 days)

Few tomatoes have become as popular in such a short time as Marglobe. It is the result of most careful breeding and plant selection carried on over a number of years by the U. S. Department of Agriculture. If you have met with disappointment in growing tomatoes on account of wilt or rust, you will be particularly interested in this tomato which produces large, smooth, round, sometimes slightly egg-shaped, meaty, bright red fruits of luscious sweet flesh. Suited for all purposes. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$1.80; lb. \$3.25; 2 lbs. \$6.05; 5 lbs. \$14.60; 10 lbs. \$27.60.

655 Red Head Fine, Large, Bright Red Fruits (100 days)

The most productive variety with medium vine growth but bearing an enormous crop of attractive, bright red tomatoes which are large, smooth, nearly globe-shaped, meaty, and contain very few seeds. The thick, solid flesh is free from stringiness or fiber and has a luscious, appetizing flavor. It is a splendid variety for the home garden, market, and also is a great favorite for canning. Pkt. 5c; ½ oz. 125c; oz. 40c; ¼ lb. \$1.20; ½ lb. \$2.20; lb. \$4.00; 2 lbs. \$7.45; 5 lbs. \$18.00; 10 lbs. \$34.00.

668 Gulf State Market Pink, Round Fruits (100 days)

Gardeners who prefer the pink or purple fruited varieties will be much interested in this extremely productive variety. It is a selection from Early Detroit retaining the earliness of that splendid variety but the fruits are larger, deeper, and considerably more productive. They are solid and do not show any cracks or hlemishes about the blossom end. The color of the skin is a deep purplish pink. The flesh is somewhat lighter in color. It is juicy, moderately solid, and tasty. Pkt. 5c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$1.90; lb. \$3.50; 2 lbs. \$6.50; 5 lbs. \$15.75; 10 lbs. \$29.75.

678 Dwarf Champion Tree Tomato (100 days)

This tomato makes a very distinct dwarf tree-like, upright growth carrying its large purplish pink fruits well above the soil. It is an early tomato with smooth solid fruits of quite large size. May be grown closely together as the plants are of compact habit. It is a splendid variety particularly for the home garden. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25; ½ lb. \$2.35; lb. \$4.25; 2 lbs. \$7.90; 5 lbs. \$19.10; 10 lbs. \$36.10.

673 Burpee's Dwarf Giant

The Largest Purple, Dwarf Tree Tomato (110 days)

Truly gigantic purple-crimson fruits borne profusely throughout the season. The flesh is solid, fine grained, juicy, and of a most attractive rich crimson-red color. It has a flavor that is distinctly superior to most other tomatoes, being milder yet rich and delectable. The plants grow 2 ft. tall and bear profusely. Pkt. 15c; ½ oz. 40c; oz. 70c; ¼ lb. \$2.15; ½ lb. \$4.00; lb. \$7.25; 2 lbs. \$13.50; 5 lbs. \$32.60; 10 lbs. \$61.60.

MAULE'S TESTED SEEDS

Luscious Tomatoes for All

682
Giant Ponderosa

682 Giant Ponderosa

Nearly Seedless and as Solid as Beefsteak. (110 days)

This most attractive large fruited purple-crimson tomato enjoys the greatest popularity wherever tomatoes are grown. Though introduced quite some time ago, no other tomato has yet surpassed the genuine Ponderosa in size or delicious flavor. It is not only the largest but also the heaviest of all tomatoes grown. The color is a glowing purple-crimson. Considering its enormous size, the shape of the fruit is quite regular. It is considered by many the best table variety in existence, having but few seeds and hardly any seed cavity.

Pkt. 15c; ½ oz. 30c; oz. 55c; ¼ lb. \$1.70; ½ lb. \$3.15; lb. \$5.75; 2 lbs. \$10.70; 5 lbs. \$25.85; 10 lbs. \$48.85.

659 Greater Baltimore Firm and Meaty (110 days)

You will be most favorably impressed with these large, brilliant red tomatoes which are borne in clusters on strong, vigorous, but compact vines. Greater Baltimore is a very productive variety bearing large, smooth, well formed tomatoes which are firm and exceptionally meaty. The fruits are free from ridges, cracks, and do not blight. A remarkable variety for the home garden and for canning. Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. 95c; ½ lb. \$1.50; lb. \$2.75; 2 lbs. \$5.10; 5 lbs. \$12.35; 10 lbs. \$23.35.

665 Norton Wilt-Resistant (120 days)

Bright scarlet tomatoes somewhat larger than Stone. We highly recommend it because it is decidedly wilt-resistant and will produce a heavy crop of large attractive fruits where non-resistant varieties are a complete failure. It is an excellent, tasty fruit of attractive appearance suited for growing in the home garden, for market, and for shipping. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$1.80; lb. \$3.25; 2 lbs. \$6.05; 5 lbs. \$14.60; 10 lbs. \$27.60.

For the New Tomatoes Pritchard or Scarlet Topper, and Oxheart, see Novelties, page 5

670 Redfield Beauty (100 days) Glossy purple-red fruits of perfect shape. Very solid and attractive. Of choice flavor and very meaty. Pkt. 5c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$2.10; lb. \$3.85; 2 lbs. \$7.15; 5 lbs. \$17.30; 10 lbs. \$32.70.

667 Cooper's Special (100 days) Large, purplish pink tomatoes set in clusters on moderately long and very vigorous vines. Very desirable. Pkt. 15c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35; ½ lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25; 10 lbs. \$38.25.

666 Dwarf Stone (100 days) This splendid strain bears a great quantity of large bright red, exceedingly meaty and attractive fruits. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25; ½ lb. \$2.35; lb. \$4.25; 2 lbs. \$7.90; 5 lbs. \$19.10; 10 lbs. \$36.10.

680 Maule's Columbia Wiltproof (101 days) Bright red, large, smooth, deep fruits. Very productive. Pkt. 15c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35; ½ lb. \$2.45; lb. \$4.50; 2 lbs. \$8.35; 5 lbs. \$20.25; 10 lbs. \$38.25.

672 Improved Stone Standard Variety (120 days)

Few other tomatoes have enjoyed such universal popularity over so long a period as our Improved Stone tomato. It bears very heavily and the large bright red fruits of our strain are considerably more attractive than those grown years ago. They are solid, meaty, free from any core, and do not crack. A favorite tomato for slicing and for canning. Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 90c; ½ lb. \$1.40; lb. \$2.50; 2 lbs. \$4.65; 5 lbs. \$11.25; 10 lbs. \$21.25.

664 Matchless Choicest Quality (120 days)

One of the best and most popular for general planting. The color of the skin is a beautiful uniform deep red that gives the fruit a most attractive appearance and helps to sell them on sight. The fruits are large, perfectly smooth, and very solid. The interior is full of flesh, free from any core, and delightfully juicy. The sub-acid flavor of the fruits is most appetizing. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; ½ lb. \$2.05; lb. \$3.75; 2 lbs. \$6.95; 5 lbs. \$16.85; 10 lbs. \$31.85.

656
Maule's Enormous

656 Maule's Enormous

The Largest Red Tomato, Sweetest of All (110 days)

Truly enormous, deep red tomatoes originally bred by Mr. Miesse and introduced to the public by us. Maule's Enormous has made a record for both quality and quantity, while the beauty of the fruit makes it an easy and quick seller in all markets. The tomatoes are remarkably solid and firm. They have delicious sub-acid flesh of moderate firmness that will appeal to home gardeners, market growers, and canners. Its productiveness is another striking feature. Pkt. 15c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50; ½ lb. \$2.75; lb. \$5.00; 2 lbs. \$9.30; 5 lbs. \$22.50; 10 lbs. \$42.50.

Small-Fruited Tomatoes

301 Improved Ground Cherry (120 days)

The small yellow fruits are exceedingly sweet, mild in flavor, and are therefore very desirable for making preserves. The plants make a strong spreading growth and are very productive. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50; ½ lb. \$2.75; lb. \$5.00; 2 lbs. \$9.30; 5 lbs. \$22.50; 10 lbs. \$42.50.

300 Mammoth Purple-Fruited Ground Cherry

(120 days) This is also known as the Purple Husk Tomato. It is a prolific bearer of lantern-like pods each of which contains a round purplish fruit with bright green flesh of a delicious flavor when made into preserves. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50; ½ lb. \$2.75; lb. \$5.00; 2 lbs. \$9.30; 5 lbs. \$22.50; 10 lbs. \$42.50.

676 Pear-Shaped Red Productive (95 days)

Though slender, the vines bear a remarkable crop of small pear-shaped fruits the size of a plum. The flesh is tender, sweet, and of extremely fine flavor. Excellent for preserves and for canning. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; ½ lb. \$2.60; lb. \$4.75; 2 lbs. \$8.85; 5 lbs. \$21.35; 10 lbs. \$40.35.

677 Pear-Shaped Yellow A Great Favorite (95 days)

Small, bright yellow tomatoes borne with the greatest profusion on long slender vines. Has rich orange-yellow skin and bright yellow flesh which is sweet, mild, and unexcelled for preserves. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; ½ lb. \$2.60; lb. \$4.75; 2 lbs. \$8.85; 5 lbs. \$21.35; 10 lbs. \$40.35.

ONCE GROWN - ALWAYS GROWN

Turnips

Culture: Sow early flat varieties in April, in drills 12 to 18 in. apart. Cover seed $\frac{1}{2}$ inch and thin out to 4 to 6 in. in the row. Cultivate frequently. For succession, sow at intervals until the last week in May. For fall and winter crop, sow in July or August in drills or broadcast. A packet will sow about 50 feet of drill, an ounce about 250 feet; $1\frac{1}{2}$ pounds to acre in drills, or $2\frac{1}{2}$ pounds broadcast. Ready to use in 45 to 75 days.

686 Red or Purple Top White Globe

686 Red or Purple
Top White Globe

A Popular Variety for
General Planting
(65 days)

One of the handsomest and most salable of all turnips. Adapted to any soil or section. It is a large, rapid growing turnip. It has globular roots of attractive appearance. The flesh is pure white, fine grained, and tender. It is the best flavored of all turnips, raw or cooked. The skin is white on the lower portion, with a purple to dark red top. This variety keeps well for so early a variety and is one of the best all-purpose white turnips for the kitchen garden, or for market use. The most desirable sort.
Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

695 Early White Flat Dutch

A Favorite Variety (50 days)

A very quick-growing turnip, flat in shape. Has smooth white skin and flesh. One of the best for the family garden in the spring, also grown for a fall crop. Attractive medium sized roots with clean clear white skin and juicy flesh of excellent, mild flavor. A good keeper. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 35c; lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.20; 10 lbs. \$4.10.

694 Extra Early
White Milan

694 Extra Early White Milan

Extremely Early, Sweet, and Tender
(45 days)

An excellent extra-early white flat turnip of quick growth. This is the earliest pure white turnip in cultivation. The bulbs are clear white, smooth, flattened, and much resemble the Early White Flat Dutch, but grow faster than that variety. The flesh is mild flavored and fine grained. This variety is grown extensively on account of its quick maturity. Anyone wishing a pure white turnip for market or home use will find this a good variety. Desirable for spring or fall sowing. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; lb. 70c; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25.

701 White Egg

Solid, Good Keeper (50 days)

Produces oval or egg-shaped root with white skin. The pure white flesh is always firm, solid, sweet, and of fine grained texture. A quick growing turnip of attractive appearance. A good keeper, popular in market and excellent for home use. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

703 White Globe

Large, Round, Pure White (70 days)

This is one of the most productive of all turnips. In good rich soil the globe-shaped roots grow extra large. The skin is white and smooth. The flesh is white and sweet. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

696 White
Six Weeks

696 White Six Weeks

Known as Early Snowball (55 days)

Globe-shaped, large, white turnips with white flesh of mild flavor and handsome appearance. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

687 Red or Purple Top Strap-Leaf

A Very Quick Grower (55 days)

Red or Purple Top Strap-Leaf is an old favorite for summer and autumn use for planting in all parts of the country. It is one of the best table and stock turnips and is also excellent for marketing. The roots grow quickly and are remarkably uniform in size, shape, and coloring. The fine grained flesh is sweet and tender. The upper portion of the roots is a deep purplish red and the lower portion is white. The roots are quite flat, measuring 4 to 6 in. in diameter. This turnip will outyield all varieties with the exception of Purple Top White Globe, and the roots will keep in perfect condition all winter. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

700 White Norfolk

Excellent for Table or Winter Salad
(75 days)

A popular variety for winter. Makes large, round, white roots. Beautiful white, solid, sweet, and fine grained flesh of good tasty flavor. Excellent for table or stock; also used quite largely for winter salad. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

693 Extra Early
Purple Top Milan

693 Extra Early Purple Top Milan

Earliest for Spring or Fall Sowing (45 days)

The earliest purple-top, white, flat shaped turnip grown, producing quickly good sized, smooth turnips with bright purple top and few leaves. The roots are of perfect shape and color. The white flesh is choice, sweet, and fine grained. They are without equal for the table and for early or late market. It is one of the best for bunching. A popular variety for the market gardener who has a sale for quality turnips with their tops on. Often sold as a bunch turnip. Adapted to spring and fall planting outdoors, and is especially desirable for forcing under glass. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; lb. 70c; 2 lbs. \$1.25; 5 lbs. \$2.80; 10 lbs. \$5.25.

Turnips and Rutabagas for Fall, Winter, and Spring

698
Golden Ball

698 Golden Ball

The Best for Family Gardens
(65 days)

One of the best and quickest of all turnips with beautiful bright yellow skin and rich golden orange flesh. The texture of the flesh is fine grained. The flavor is exceptionally sweet and tasty. The roots are almost round and have a smooth, clean skin. It is a rapid grower and fine for winter storing. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

702 Large Yellow Globe

Fine for the Table (70 days)

The best large late turnip of globular shape. The skin is light yellow and the flesh is rich yellow. Equally as fine for table use as for stock feeding. The fine-grained flesh is agreeably sweet and keeps in perfect condition throughout the winter until late spring. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

692 Yellow Aberdeen

Long Keeping, Sweet Yellow Flesh
(75 days)

A large globe-shaped yellow turnip of excellent quality. The flesh is tender, sugary, and very solid. The skin is purple above the soil and deep yellow below the soil. It is a quick growing variety forming large roots of excellent quality for table use and for stock feeding. Market growers who want a yellow turnip resembling a ruta baga for early market should plant this variety. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

704
Shogoin

704 Shogoin Japanese

Edible Tops and Roots (70 days)

This turnip serves a double purpose. It originated in Japan where it has become extremely popular. Forms large flattened globe-shaped roots with pure white skin and flesh. These turnips are fine grained and of excellent flavor. As it is a large turnip it has correspondingly large and vigorous leaves which are gathered for greens at any time during the growing season. The foliage has a delicate flavor and is crisp and tender. Gardeners who like turnips will find the double purpose of this variety an added attraction. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.20; 10 lbs. \$4.10.

697 Cow Horn

Excellent for Table or Stock (75 days)

A long white turnip growing 12 to 15 in. in length and 3 in. across. It has white skin tinted with green near the top. Grows partly above the soil. The white flesh is sweet, fine grained, and well flavored. The roots are produced quickly and greatly resemble carrots in shape. They are slender and slightly crooked. It is a fine-grained variety suited for the table and for stock feeding. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

691 Southern Seven Top

691 Southern Seven Top

Known as the Salad Turnip (30 days)

This variety of turnip is grown exclusively for its large green top-leaves which are excellent for salads or boiling greens. It can be cut at all times and will produce its rich green foliage throughout the winter. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 50c; 2 lbs. 90c; 5 lbs. \$2.00; 10 lbs. \$3.75.

689 Mixed Table Turnips

A mixture of all varieties with yellow as well as white flesh maturing in 45 to 75 days. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 35c; lb. 60c; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50.

Ruta Bagas or Swede Turnips

Culture: Ruta Bagas or Swede Turnips require a longer season to mature than turnips, and should be sown earlier. Sow the seed from the latter part of June until August in drills 15 to 24 in. apart. Cover with ½ in. of fine soil and thin the seedlings to stand 6 to 8 in. apart in the row. One packet for 50 ft.; one ounce for 250 ft.; 1 ½ lbs. per acre in drills; 2 ½ lbs. broadcast.

710 Maule's Golden Heart

The Quickest Growing Ruta Baga. A Sure Cropper (80 days)

This is a beautiful and most prolific variety of Ruta Baga forming large perfectly sound roots of uniform size within an astonishingly short time. The roots are globe-shaped. They have a smooth yellow skin. The flesh is also yellow. It is fine grained, solid, tender, and agreeably sweet. Maule's Golden Heart is a sure cropper and a perfect winter keeper. Can be planted as late as August 15 in the vicinity of Philadelphia, and will produce a crop when all others fail. An excellent home garden and early market variety. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 50c; lb. 85c; 2 lbs. \$1.55; 5 lbs. \$3.60; 10 lbs. \$6.35.

708 Improved Purple Top or Long Island

Very Richly Colored, Fine Grained, and Sweet (90 days)

Next in yield and value after our Heavy Cropping Swede comes this widely grown quality variety which will keep all winter long. It is hardy, productive, sweet, solid, and satisfactory in every way. The roots are globe-shaped. The skin is yellow tinted with purple at the top. The flesh is a bright yellow shade indicative of the mild and sweet flavor. It is a desirable market growers' variety which has proved very popular in all sections. Fine for table use and for stock feeding. Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 35c; lb. 60c; 2 lbs. \$1.10; 5 lbs. \$2.40; 10 lbs. \$4.50.

713 White Rock

Known as Breadstone. A Reliable Keeper (90 days)

A most desirable American Ruta Baga with attractive white, fine grained, sweet flesh. This has the reputation of being an extra good cropper and a most reliable winter keeper. The large, nearly globe-shaped roots have a small neck tinted with bright green or bronze. The lower part of the root is white. The white flesh is firm and sweet. A favorite variety in the New England States where it is grown for table purposes as well as for stock feeding. Keeps exceptionally well. Pkt. 10c; oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 65c; 2 lbs. \$1.15; 5 lbs. \$2.60; 10 lbs. \$4.85.

707 Maule's
Heavy Cropping

707 Maule's Heavy Cropping

The Perfect Ruta Baga with Firm Yellow Flesh
(85 days)

Maule's Heavy Cropping Ruta Baga is more largely grown than any other variety because it is the most profitable to any grower. It also is the hardest, heaviest, and most productive with large well-shaped roots. The roots have a purple top with yellow skin below the soil. Beautiful yellow flesh. Pkt. 10c; oz. 15c; ¼ lb. 30c; ½ lb. 45c; lb. 75c; 2 lbs. \$1.35; 5 lbs. \$3.20; 10 lbs. \$5.60.

MAULE'S FARM AND GRAIN SEEDS

Clover Seed

791 Alfalfa (*American Grown*) Can be cut 3 to 5 times a year, and produces from 3 to 7 tons of hay per acre. Sow from 15 to 25 lbs. per acre. Pkt. 10c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.75; 10 lbs. \$3.00, postpaid. Not prepaid: 15 lbs. \$3.00; 25 lbs. \$4.75; 50 lbs. \$9.25; 100 lbs. \$18.00.

798 Grimm or Everlasting Alfalfa Extremely hardy and cold resistant. Grows good crops on almost all soils. Sow 15 to 25 lbs. per acre. Pkt. 15c; lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.25; 10 lbs. \$4.00, postpaid. Not prepaid: 15 lbs. \$4.20; 25 lbs. \$6.75; 50 lbs. \$13.25; 100 lbs. \$26.00.

792 Alsike or Swedish One of the best Clovers for cow pasturage or for a hay crop. Highly nutritious. Sow 8 to 10 lbs. per acre. Pkt. 10c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.75; 10 lbs. \$3.00, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.25; 100 lbs. \$16.00.

793 Bokhara or Sweet The plants grow 4 to 6 ft. high and produce small white flowers. Valuable for pasturage and hay. Sow 15 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$1.35; 25 lbs. \$2.00; 50 lbs. \$3.75; 100 lbs. \$7.00.

794 *Crimson Clover*

794 Crimson or Scarlet A favorite winter cover crop and soil improver. Provides early forage. Use 15 lbs. per acre. Pkt. 10c; lb. 35c; 2 lbs. 65c; 5 lbs. \$1.50; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.40; 25 lbs. \$3.75; 50 lbs. \$7.25; 100 lbs. \$14.00.

796 Red (*American Grown*) Valuable as a hay crop for dairy cows. Sow 8 to 12 lbs. per acre. Pkt. 10c; lb. 45c; 2 lbs. 80c; 5 lbs. \$1.75; 10 lbs. \$3.00, postpaid. Not prepaid: 15 lbs. \$2.70; 25 lbs. \$4.25; 50 lbs. \$8.25; 100 lbs. \$16.00.

797 White Dutch Does well in all soils. Excellent for pasturage. Also used in grass mixtures. Sow 3 lbs. per acre with other grasses or 6 lbs. if used alone. Pkt. 15c; 1/4 lb. 25c; lb. 65c; 2 lbs. \$1.20; 5 lbs. \$2.85; 10 lbs. \$5.50, postpaid. Not prepaid: 15 lbs. \$7.00; 25 lbs. \$11.25; 50 lbs. \$22.75; 100 lbs. \$45.00.

Maule's 3 Permanent Grass Pasture Mixtures

(Sow 40 lbs. per acre)

888A Maule's Permanent Pasture Mixture—For Average Soils.

888B Maule's Permanent Pasture Mixture—For Light Soils.

889C Maule's Permanent Pasture Mixture—For Heavy Soils.

Any of the above mixtures:

Lb. 35c; 2 lbs. 65c; 5 lbs. \$1.50; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.25; 25 lbs. \$4.00; 50 lbs. \$7.75; 100 lbs. \$15.00

Grass Seed

We offer seed of highest quality only—thoroughly cleaned and free from chaff and weed seeds.

882 Bermuda Used extensively in the South for lawns and pasturage. Will not stand winters north of Virginia. Sow 6 to 8 lbs. per acre. Lb. 45c; 2 lbs. 80c; 5 lbs. \$1.75; 10 lbs. \$3.25, postpaid. Not prepaid: 15 lbs. \$3.60; 25 lbs. \$5.75; 50 lbs. \$11.25; 100 lbs. \$22.00.

882C English or Perennial Rye (*Imported Seed*) Used in lawn and pasture mixtures. Sow 25 to 30 lbs. per acre. Lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$1.80; 25 lbs. \$2.75; 50 lbs. \$5.25; 100 lbs. \$10.00.

882D Italian Rye (*Imported Seed*) A rapid grower ready to cut in 5 weeks. Sow 35 lbs. per acre. Lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$1.50; 25 lbs. \$2.25; 50 lbs. \$4.25; 100 lbs. \$8.00.

882F Red Top, or Herd's Grass (*Fancy Recleaned*) Succeeds in either moist or dry soil. Valuable to use with Timothy and Clover. Used alone, sow 15 lbs. per acre. Lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$1.50; 25 lbs. \$2.25; 50 lbs. \$4.25; 100 lbs. \$8.00.

882G Wood Meadow Makes a compact, green sod in shady places. Use 30 lbs. per acre. Lb. 55c; 2 lbs. \$1.00; 5 lbs. \$2.25; 10 lbs. \$4.00, postpaid. Not prepaid: 15 lbs. \$4.50; 25 lbs. \$7.25; 50 lbs. \$14.25; 100 lbs. \$28.00.

883 Kentucky Blue A hardy grass of cold and heat resistant qualities. Sow 30 lbs. per acre. Lb. 40c; 2 lbs. 70c; 5 lbs. \$1.50; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. \$2.10; 25 lbs. \$3.25; 50 lbs. \$6.25; 100 lbs. \$12.00.

883A Creeping Bent Excellent for lawns, putting greens, tennis courts, etc. Of low growth. Sow 15 lbs. per acre. Lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.75; 10 lbs. \$11.00, postpaid. Not prepaid: 15 lbs. \$15.30; 25 lbs. \$25.75; 50 lbs. \$50.25; 100 lbs. \$100.00.

888 Sudan Grows 3 to 5 ft. high. Fine for hay, ready for cutting within 90 days. Sow 15 to 25 lbs. per acre. Lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. 90c; 25 lbs. \$1.25; 50 lbs. \$2.25; 100 lbs. \$4.00.

889 Orchard Fine for stock feeding and a fine hay crop. Furnishes a nice green grass from early spring until fall. Sow 25 to 30 lbs. per acre. Lb. 40c; 2 lbs. 70c; 5 lbs. \$1.50; 10 lbs. \$2.50; postpaid. Not prepaid: 15 lbs. \$2.10; 25 lbs. \$3.25; 50 lbs. \$6.25; 100 lbs. \$12.00.

890 *Timothy*

890 Timothy Unexcelled for a hay crop. Relished by all stock. Sow in early spring or fall at the rate of 15 lbs. per acre. Sown together with Clover, use 10 lbs. Timothy and 3 lbs. Alsike, or 5 lbs. Red Clover. Lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$1.35; 25 lbs. \$2.00; 50 lbs. \$3.75; 100 lbs. \$7.00.

783 White Swiss Barley

A heavy yielder of the bearded type, with 6 rows of grains. The straw is strong and stiff. Produces 50 to 68 bu. to an acre. Sow 96 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 12 lbs. (peck) 65c; 24 lbs. (1/2 bu.) \$1.00; 48 lbs. (bu.) \$1.75.

Broom Corn

787 Improved Evergreen The plants are of firm growth and good length. The color is light green. Sow in drills, using 10 to 12 lbs. per acre. Pkt. 10c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 11 1/2 lbs. (peck) \$1.10; 23 lbs. (1/2 bu.) \$2.00; 46 lbs. (bu.) \$3.65.

789 Japanese Buckwheat

The best and most profitable variety. From 1/2 bushel of seed sown a crop of 40 bushels has been harvested. The flower is superior to that from any other variety.

If planted in drills, sow 36 lbs. per acre; broadcast 48 lbs. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 12 lbs. (peck) 50c; 24 lbs. (1/2 bu.) 85c; 48 lbs. (bu.) \$1.50.

Cow Peas

823 Era A heavy yielding variety of upright, compact growth. Matures in 60 days. Easily cured. Sow 60 to 90 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. (peck) 70c; 30 lbs. (1/2 bu.) \$1.20; 60 lbs. (bu.) \$2.10; 2 bu. or over at \$2.00 per bu.

824 Extra Early Black Eye A strong grower, trailing moderately. Matures here in about 65 days. Sow 60 to 90 lbs. per acre. Pkt. 10c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. (peck) \$1.00; 30 lbs. (1/2 bu.) \$1.75; 60 lbs. (bu.) \$3.25; 2 bu. or over at \$3.15 per bu.

827 Whip-poor-will A very productive variety maturing in about 70 days. Sow 60 to 90 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. (peck) 65c; 30 lbs. (1/2 bu.) \$1.00; 60 lbs. (bu.) \$1.75; 2 bu. or over at \$1.65 per bu.

828 Mixed Very satisfactory for soil improving, ensilage, or as a hay crop. Sow 60 to 90 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. (peck) 65c; 30 lbs. (1/2 bu.) \$1.00; 60 lbs. (bu.) \$1.75; 2 bu. or over at \$1.65 per bu.

830 Feterita

Earlier than Kaffir Corn. Grows about 5 ft. tall. Excellent food for chickens or other stock. For grain crop, sow 5 lbs. per acre in hills or drills. For fodder, sow 28 to 56 lbs. either broadcast or in rows. Pkt. 10c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.35; 10 lbs. \$2.50, postpaid. Not prepaid: 14 lbs. (peck) 85c; 28 lbs. (1/2 bu.) \$1.50; 56 lbs. (bu.) \$2.75.

819 White Kaffir Corn

The stalks make excellent fodder. The corn is fine for poultry and stock feed. For grain crop sow 5 lbs. per acre; for fodder 28 to 56 lbs. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 70c; 28 lbs. (1/2 bu.) \$1.20; 56 lbs. (bu.) \$2.10.

831 Thousand Headed Kale

Particularly liked by fowl, hogs, and sheep which eat it greedily. The plants grow 3 to 4 ft. tall forming large rosettes of leaves on the stems. Sow in rows, using 3 lbs. per acre, or 5 lbs. for broadcasting. Pkt. 10c; lb. 60c; 2 lbs. \$1.10; 5 lbs. \$2.50; 10 lbs. \$4.50, postpaid. Not prepaid: 15 lbs. \$5.70; 25 lbs. \$9.25; 50 lbs. \$18.00; 100 lbs. \$35.00.

839 Yellow Milo Maize

Of vigorous growth, attaining a height of 10 ft. The grain is extensively used for chicken feed. Matures in 100 days. Drought resistant. Sow 5 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 70c; 28 lbs. (1/2 bu.) \$1.20; 56 lbs. (bu.) \$2.10.

MAULE'S FARM AND GRAIN SEEDS

Millet

833 German or Golden Excellent for hay. Cut as it begins to head, before blooming. Ready for use in 65 days. Sow 48 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 12 lbs. (peck) 65c; 24 lbs. (½ bu.) \$1.00; 48 lbs. (bu.) \$1.75.

834 Hungarian Much favored for summer forage or as a hay crop because it can be sown in June and cut after 60 days. Sow broadcast, using 48 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 12 lbs. (peck) 65c; 24 lbs. (½ bu.) \$1.00; 48 lbs. (bu.) \$1.75.

835 Japanese Widely known as the Billion Dollar or Barnyard Grass. Grows about 7 ft. tall, and yields from 6 to 8 tons of cured hay. Excellent for forage or silo. Sow 12 to 15 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 7½ lbs. (peck) 50c; 15 lbs. (½ bu.) 75c; 30 lbs. (bu.) \$1.35.

836 Pearl, or East Indian Also called *Pencilaria* or *Cat-tail Millet*. Grows 6 to 10 ft. tall. Sow in drills 3 ft. apart, using 5 lbs. per acre. Sown broadcast, 8 lbs. are required. Pkt. 10c; lb. 35c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 12½ lbs. (peck) \$1.50; 25 lbs. (½ bu.) \$2.75; 50 lbs. (bu.) \$5.00.

Oats

841 Improved Swedish A heavy yielding, early variety for spring sowing. Has almost white seed. Ranks first in weight, stiffness of straw, and thin hulling qualities. Grows 4 to 5 ft. tall, with panicles measuring 8 to 11½ in. long. The grain weighs from 36 to 40 lbs. per measured bushel. Practically disease proof. Sow 64 to 96 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 8 lbs. (peck) 40c; 16 lbs. (½ bu.) 65c; 32 lbs. (bu.) \$1.15; 320 lbs. (10 bu.) \$10.50.

829 Canada Field Peas

One of the very best soiling crops and fine for green manure. Sow in the spring, using 120 lbs. per acre alone, or for mixed planting, 60 lbs. of peas mixed with 48 lbs. of oats. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. (peck) \$1.35; 30 lbs. (½ bu.) \$2.40; 60 lbs. (bu.) \$4.50; 2 bu. or over at \$4.25 per bu.

Rape

847 Dwarf Essex The best early summer or autumn forage plant known. It is relished by sheep, hogs, cows, etc. Ready for use as early as 6 weeks after sowing. Sow 3 lbs. per acre in drills, or 5 lbs. broadcast. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$1.35; 25 lbs. \$2.00; 50 lbs. \$3.50; 100 lbs. \$6.00.

849 Spring Rye

Used profitably as a catch crop. Sow 84 to 112 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 65c; 28 lbs. (½ bu.) \$1.00; 56 lbs. (bu.) \$1.75.

850 Shallu, or Egyptian Wheat

An excellent feed for all stock, with white grain. Sown in hills, use 5 lbs. per acre, for fodder sow 25 to 50 lbs. per acre. Pkt. 10c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.40; 10 lbs. \$2.50, postpaid. Not prepaid: 14 lbs. (peck) \$1.50; 28 lbs. (½ bu.) \$2.75; 56 lbs. (bu.) \$5.00.

Soy Beans

784 Black Wilson A well branching, heavy cropping variety with plants 3 ft. tall. Sow 60 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. (peck) 50c; 30 lbs. (½ bu.) 85c; 60 lbs. (bu.) \$1.50; 2 bu. or over at \$1.40 per bu.

786 Mammoth Yellow Desirable for forage, hay, and green manure. Sow 60 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. (peck) 50c; 30 lbs. (½ bu.) 85c; 60 lbs. (bu.) \$1.50; 2 bu. or over at \$1.40 per bu.

851 Speltz or Emmer

Will grow on soil which is too poor for growing any other grain crop. The chaff adheres to the grain when threshed and is fed in that condition to stock. Also adapted for milling purposes. Sow 80 lbs. per acre in either spring or fall. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 10 lbs. (peck) 65c; 20 lbs. (½ bu.) \$1.15; 40 lbs. (bu.) \$2.00.

Sugar Cane

852 Early Amber An early variety for forage, sown either alone or broadcast with peas. Sow 50 lbs. per acre, or 25 lbs. together with 60 lbs. of peas. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 12½ lbs. (peck) 65c; 25 lbs. (½ bu.) \$1.15; 50 lbs. (bu.) \$2.00.

854 Texas Seeded Ribbon One of the best early varieties for making syrup. 12 to 16 ft. tall. Sow broadcast 50 lbs. per acre, or in drills 12½ lbs. Pkt. 10c; lb. 35c; 2 lbs. 60c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 12½ lbs. (peck) \$1.00; 25 lbs. (½ bu.) \$1.75; 30 lbs. (bu.) \$3.00.

856 Sunflower, Mammoth Russian

Sunflower

856 Mammoth Russian Flowers 18 to 20 in. across, yielding an abundance of seed highly valued as food for fowl. The plants grow up to 10 ft. tall. Sow 5 lbs. per acre. Pkt. 10c; ½ lb. 20c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 6¼ lbs. (peck) 75c; 12½ lbs. (½ bu.) \$1.35; 25 lbs. (bu.) \$2.40.

Vetch

860 Hairy or Winter Used for winter cover crop, for grazing, hay, and soil improvement. Sow 90 lbs. per acre. Pkt. 10c; lb. 40c; 2 lbs. 70c; 5 lbs. \$1.50; 10 lbs. \$2.50, postpaid. Not prepaid: 15 lbs. (peck) \$2.00; 30 lbs. (½ bu.) \$3.75; 60 lbs. (bu.) \$7.20.

861 Spring or Tares Excellent for grazing, hay, and plowing under for soil improvement. Relished by all kinds of stock. Sow in May or June at the rate of 90 lbs. per acre. May also be sown with oats, using 40 lbs. of vetch, and 60 lbs. of oats. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. (peck) 90c; 30 lbs. (½ bu.) \$1.65; 60 lbs. (bu.) \$3.00.

Spring Wheat

863 Marquis A very productive, beardless variety with pale red grains. Unusually early and heavy yielding. 3 to 4 ft. tall. Matures within 98 to 120 days. Sow 90 to 120 lbs. per acre. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. (peck) 75c; 30 lbs. (½ bu.) \$1.25; 60 lbs. (bu.) \$2.25.

"Not Prepaid" means that customer pays transportation charges. Bags, boxes, and packing are free of charge.

Tobacco

Select a location with a southern exposure, if possible, to give the plants the benefit of the warm rays of the sun in early spring, so that they will make a speedy growth. The soil should be a rich and friable loam preferably containing some leaf-mold. Prepare it thoroughly until it is entirely pulverized. Rocks, roots, etc., should be carefully removed. Sow the seed quite thinly in a frame or well prepared seed bed. To effect a more even distribution, mix the seed with a quantity of ashes or land plaster many times its own bulk. Do not cover the seed but merely press it into the soil with a smooth board or a hand roller.

716 Big Havana An Americanized Havana with large long leaves. Of fine texture and delightful flavor. One of the earliest varieties. Pkt. 15c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35; ½ lb. \$2.45; lb. \$4.50.

718 Improved Gold Leaf The most popular bright tobacco with long broad leaves, tapering to sharp tips. Filled out well to the tip. Easy to cure. Pkt. 15c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.55; ½ lb. \$2.90; lb. \$5.25.

724 Connecticut Seed Leaf A very desirable variety with broad leaves of medium length. Ripens very uniformly. Fine texture and rich flavor. Pkt. 15c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.55; ½ lb. \$2.90; lb. \$5.25.

725 Sweet Oronoko Long narrow leaves, curing a rich red. Finest plug filler. Makes best natural chewing leaf. Pkt. 15c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; ½ lb. \$2.60; lb. \$4.75.

726 Primus Large leaves of silky texture and superior flavor. Makes a fine smoking tobacco for cigars and pipe. Pkt. 15c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.20; ½ lb. \$2.20; lb. \$4.00.

727 Improved White Burley A heavy yielding variety with rich broad leaves. Easy to cure. Desirable for cut or plug tobacco. Often used for wrappers. Pkt. 15c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; ½ lb. \$2.60; lb. \$4.75.

Tree Seeds

Sow seeds of deciduous trees in boxes with clean moist sand, subjecting the planting to freezing to hasten germination. Evergreens may be sown in a shaded greenhouse or outdoors in a carefully prepared bed covered with burlap to retain the moisture.

866 American Arbor Vitae Beautiful evergreen trees of erect growth and pyramidal form. Pkt. 15c; ½ oz. 40c; oz. 75c; ¼ lb. \$2.25; lb. \$7.50.

872 Norway Spruce A popular evergreen tree, extensively used in groups, hedges, or lawns. Fine for Christmas trees. Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

873 Osage Orange Valuable for hedges. Fern-like leaves on heavily thorned branches. Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. 90c; lb. \$2.50.

877 Colorado Blue Spruce The most beautiful of all our native evergreen trees. Fine for specimen planting on the lawn. Pkt. 15c; ½ oz. 40c; oz. 75c; ¼ lb. \$2.25; lb. \$7.50.

878 Douglas Fir A rapid growing evergreen tree especially attractive when used for planting on the lawn. Pkt. 15c; ½ oz. 40c; oz. 75c; ¼ lb. \$2.25; lb. \$7.50.

879 White Pine Produces rapid-growing evergreen trees valuable for timber and garden decoration. Pkt. 15c; ½ oz. 35c; oz. 60c; ¼ lb. \$1.80; lb. \$6.00.

880 Yellow Locust Produces trees of large size. Excellent for shade trees or timber. A rapid grower. Pkt. 10c; oz. 25c; ¼ lb. 65c; ½ lb. \$1.00; lb. \$1.75.

881 Yellow Pine A heavy-needed evergreen tree of quick and strong growth. Fine for planting the home grounds, and valuable for timber. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.15; lb. \$3.25.

Maule's Heavy Cropping FIELD CORN

809 Maule's Improved Mastodon Yellow Dent (100 days)

The largest eared, yellow dent corn. The ears measure 9 to 12 in. in length and have 16 to 22 rows of grain. Matures in about 100 days. The plants are of strong, vigorous growth, attaining a height of 9 to 10 ft. The large foliage is fine for fodder. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 75c; 28 lbs. (½ bu.) \$1.35; 56 lbs. (bu.) \$2.50; 2 bu. or over at \$2.25 per bu.

802 Maule's Droughtproof Yellow Dent (90 days)

Handsome ears of good size with large, wedge-shaped grains on cobs so small that it is not unusual to obtain 64 lbs. of shelled corn from 70 lbs. of grain on the ear. It yields heavily and matures in about 90 days. Remarkably drought and heat resistant. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 75c; 28 lbs. (½ bu.) \$1.35; 56 lbs. (bu.) \$2.50; 2 bu. or over at \$2.25 per bu.

799 Maule's Earliest of All Dent (75 days)

The heaviest yielder of any extra-early dent corn, often producing 100 bu. of corn per acre. Maule's Earliest of All Dent will mature in New York state and all of the New England states, also Wisconsin, Michigan, and Canada. Its leafy stalks average 8 ft. tall, and often produce 2 ears measuring 8 to 10 in. in length. The grain is dark red, tipped white. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 75c; 28 lbs. (½ bu.) \$1.25; 56 lbs. (bu.) \$2.50; 2 bu. or over at \$2.25 per bu.

805 Maule's Earliest Yellow Dent (85 days)

An exceedingly early Yellow Dent corn, maturing anywhere south of the Canadian border. It produces good size stalks, 7 to 10 ft. tall, with large ears 8 to 10 in. long. The grains are produced in 16 rows on a red cob. Often produces two fine ears on a stalk. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 70c; 28 lbs. (½ bu.) \$1.25; 56 lbs. (bu.) \$2.25; 2 bu. or over at \$2.00 per bu.

806 Improved Leaming Yellow Dent (100 days)

An early, long eared corn, averaging 10 in. in length, with 18 or 20 rows of wedge-shaped, deep golden yellow grains. A good ensilage or silo variety grown extensively everywhere. The ears are uniform, have a medium sized cob, and husk easily. Improved Leaming grows 8 to 10 ft. tall, is very productive, and will do well under widely different growing conditions. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 65c; 28 lbs. (½ bu.) \$1.15; 56 lbs. (bu.) \$2.00; 2 bu. or over at \$1.85 per bu.

812 Reid's Yellow Dent (110 days)

A true dent corn of a beautiful golden yellow color with an unusually small cob. The ears measure frequently 9 to 11 in. in length, and from 7 to 8 in. in circumference. It is easily shelled, yielding a fine crop of kernels. Very popular in the middle West. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 65c; 28 lbs. (½ bu.) \$1.15; 56 lbs. (bu.) \$2.00; 2 bu. or over at \$1.85 per bu.

801 Canada Early Yellow Flint (85 days)

The most popular of all Flint varieties. The ears are of medium length and have 8 rows of large, deep yellow grains which fill out to the extreme tip. Excellent for fodder. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 75c; 28 lbs. (½ bu.) \$1.35; 56 lbs. (bu.) \$2.50; 2 bu. or over at \$2.25 per bu.

803 Hickory King (115 days)

The largest grained, white corn in cultivation, extra fine for corn meal. The stalks often produce 2 to 3 ears, and will outyield many other white varieties. Excellent for fodder and ensilage. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 75c; 28 lbs. (½ bu.) \$1.35; 56 lbs. (bu.) \$2.50; 2 bu. or over at \$2.25 per bu.

807 Johnson County White Dent (120 days)

The most popular and heaviest cropping white corn known. The large, almost cylindrical ears average 10 in. in length, and produce 18 to 24 rows of long wedge-shaped kernels to a cob. They are well filled to the tip. The stalks grow from 10 to 12 ft. tall. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 70c; 28 lbs. (½ bu.) \$1.25; 56 lbs. (bu.) \$2.25; 2 bu. or over at \$2.00 per bu.

810 Lancaster County Sure Crop (100 days)

A newer variety, adapted to thin soils. It has quickly become a favorite with many farmers. The stalks grow 8 to 14 ft. high, and produce ears 10 to 14 in. long, with 14 or 16 rows of broad deep yellow kernels on a red cob. A good cropper, excellent for silos. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 75c; 28 lbs. (½ bu.) \$1.35; 56 lbs. (bu.) \$2.50; 2 bu. or over at \$2.00 per bu.

814 Red Cob Ensilage (110 days)

A pure white corn yielding as much as 45 tons of fodder per acre. It is sweet, tender, and juicy, and more nutritious than any other variety. Short jointed, stocky plants. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 14 lbs. (peck) 70c; 28 lbs. (½ bu.) \$1.25; 56 lbs. (bu.) \$2.25; 2 bu. or over at \$2.00 per bu.

815 Sugar Corn for Green Forage

This is the best corn for fodder purposes. Whether treated for ensilage or fodder, it contains a large amount of sugar which is fattening and is relished by live stock. Sow in drills, using 40 to 60 lbs. per acre. Ready to cut in about 50 days. Pkt. 10c; lb. 30c; 2 lbs. 55c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid. Not prepaid: 15 lbs. \$1.65; 25 lbs. \$2.50; 50 lbs. \$4.75; 100 lbs. \$9.00.

Sow in hills at the rate of 14 lbs. per acre for ears. For fodder, sow thickly in drills, using 56 to 84 lbs. per acre

Maule's Superior Flower Seeds

A Planting Calendar of Flowers—

For Better and Brighter Gardens

Including the Newest Introductions and All the Old Favorites

This planting calendar of flowers will help you to determine what you can plant every month during the growing season. There are many gardeners who do not realize that flower seeds can be planted all during the spring, summer, and fall. Take advantage of the opportunity to provide for a continuous display of a wide variety of flowers from early spring until late in the fall. For an extra early display, quite a few of the annual flowers may be started indoors during February, March, or April in boxes filled with fine soil.

Naturally, the planting dates which we have given will vary somewhat with different locations. Those recommended for planting outdoors during April are all hardy annuals or perennials which may be sown as early in the spring as the ground can be dug and prepared for planting. The list of classes given for planting during May represent tender plants which cannot be sown until all danger of frost has passed and the nights have become moderately balmy. And you will likely be surprised to see how many annual seeds can be sown in late fall.

February, March, or April

Sow indoors or in a frame

Abutilon	Gloxinia
Ageratum	Heliotrope
Amaryllis Bulbs	Ice Plant
Angel's Trumpet	Impatiens
Asters	Japanese Hop
Balsam	Kudzu Vine
Begonias	Lantana
Blue Lace Flower	Lobelia
Browallia	Marigold
Calla Roots	Mimulus
Canary Bird Flower	Moonflower
Candytuft	Perennial Seeds
Canna Seed	Petunia
Cardinal Climber	Ricinus
Carnation	Salpiglossis
Celosia	Salvia
Climbing Foxglove	Schizanthus
Cobaea	Snapdragon
Cockscomb	Statice
Coleus	Stocks
Cosmos	Swan River Daisy
Cypress Vine	Sweet Alyssum
Dahlia Seed	Sweet Peas
Datura	Thunbergia
Ferns	Tithonia
Flowering Tobacco	Tritoma
Flowers for the House	Venidium
Forget-Me-Not	Verbena
Geranium	Wallflower

Sow During April

—as soon as the ground can be worked into a satisfactory condition, all perennial seeds, plants, roots, shrubs, hardy vines, small fruits, etc. Also sow the following as soon as there is no more danger of heavy frost.

Abronia	Cleome
African Daisy	Cornflower
Ageratum	Cosmos
Alyssum	Cynoglossum
Anchusa	Euphorbia
Anemone	Forget-Me-Not
Arctotis	Four O'Clock
Asters	Gaillardia
Baby's Breath	Gladiolus Bulbs
Blue Lace Flower	Golden African Daisy
Browallia	Impatiens
Calendula	Larkspur
California Poppies	Lawn Grass
Calliopsis	Lilies
Candytuft	Lobelia
Carnation	Love-in-a-Mist
Centaurea	Mignonette
Chrysanthemum	Montbretia Bulbs

April—continued

Morning Glory	Snapdragon
Nasturtium	Spider Plant
Oxalis	Statice
Pansies	Stocks
Petunia	Sunflower
Perennial Seeds	Schizanthus
Phlox	Sweet Peas
Poppies	Sweet Sultan
Portulaca	Ursinia
Salpiglossis	Verbena
Sand Verbena	Wallflower
Scabiosa	Zinnias

Sow During May

In addition to all seeds, plants, and bulbs mentioned for starting during April, which may still be planted during May, the following more tender flowers may be planted as soon as the nights have become reasonably warm:

Abutilon	Dusty Miller
Amaranthus	Everlastings
Angel's Trumpet	Fairy Lilies
Arctotis	Feverfew
Balloon Vine	Flowering Tobacco
Balsam	Globe Amaranth
Blue Lace Flower	Hop, Japanese
Brachycome	Ice Plant
Browallia	Ipomoea
Caladium	Kochia
Calla	Lupines
Canary Bird Flower	Marigold
Canna	Momordica
Cardinal Climber	Ornamental Gourds
Castor Oil Bean	Ornamental Grasses
Celosia	Oxalis
Cinnamon Vine	Perennial Seeds
Cleome	Salvia
Climbing Foxglove	Strawflowers
Cobaea	Swan River Daisy
Cockscomb	Thunbergia
Coleus	Tithonia
Cypress Vine	Tuberose
Dahlias	Venidium
Datura	Vinca
Dolichos	Water Lilies

Sow During June

Nearly all flowers listed for April and May planting will give satisfactory results if sown during this month. June is ideal also for sowing perennial seeds in a special seed bed. The plants will be of good size for setting in a permanent place the latter part of August or September. You can also still start your lawn during June providing you can water it regularly during the hot summer months.

Sow During July

Quick growing annuals may be sown during July and still make a fine show later in the season. They include Ageratum, Sweet Alyssum, California Poppies, Larkspur, Petunias, Phlox, and others. Of course, care must be taken to water them thoroughly while the weather remains dry. It is still a good time to start perennials in a specially prepared seed bed in a half-shaded location.

Sow During August

In sections where summers are relatively long, seeds of perennials can still be sown for plants which will be strong enough to live through the winter and produce their flowers the following year. They should be given a light winter protection of long straw or other materials which will not pack down heavily. It is now time to consider your planting of fall bulbs. Therefore, apply for a copy of Maule's Bulb Book which will be sent you free of charge as soon as it is ready in August.

Plant During September

Dutch bulbs, such as Tulips, Hyacinths, Narcissus, Crocus, and others. Also prepare your ground for Lily bulbs, many of which should be planted now and up to the middle of December. It is a good time now to start a lawn in sections with long growing seasons and mild winters.

Plant During October

All the bulbs mentioned for planting in September as well as perennial plants, hardy climbers, etc., may be planted to advantage during this month. Fall sowing of hardy annuals should be made the latter part of October or early in November. These will bloom early the following year.

Annuals for Fall Sowing

Alyssum	Cosmos	Phlox
Baby's Breath	Euphorbia	Poppies
Blue Lace Flower	Four O'Clock	Portulaca
California Poppies	Gaillardia	Santa Barbara
Calliopsis	Kochia	Poppy
Candytuft	Larkspur	Schizanthus
Carnation	Lupines	Snapdragon
Centaurea	Nigella	Sweet Peas
Chrysanthemum	Pansies	Verbena
	Petunia	

Beautiful New Flowers for 1933

1040
Aster, Giant
Mammoth,
Peony-Flowered
Azure Fairy

Aster, Giant Mammoth Peony-Flowered

This is a glorious new type of Aster with elegant long-stemmed flowers measuring 5 to 6 in. in diameter. They are fully double, carried on strong stems and are therefore fine for cutting. The plants grow 2½ ft. tall and bloom freely.

1040 Azure Fairy This will be a very popular variety on account of the clear azure-blue flowers.

1041 Maiden's Blush What a lovely, delicate color! A light flesh-pink with a faint suffusion of pink.

1042 Peachblossom This color is composed of a warm cream shade with a general shading of bright rose.

1043 Swansdown The large, double, pure white flowers appear like balls of fluffy pure white snow.

Any of the above: Pkt. 30c; ¼ oz. 65c; ½ oz. \$1.20.

1044 Mixed Colors This includes the above and some other fine shades. Pkt. 25c; ¼ oz. 60c; ½ oz. \$1.10.

1073 Aster, Apricot

Here is an Aster which we know will please you immensely. It is a late-flowering variety of the Beauty type with large, round, fully double blooms carried on extra long and graceful stems. The color is a deep cream with a shading of light salmon. The general effect is that of a rich apricot color. Pkt. 50c; ¼ oz. \$1.10; ½ oz. \$2.00.

1001 Giant Crego Aster, Indian Summer

Not for years have we seen a new Aster which has as great an appeal as this splendid new Giant Crego variety with its magnificent, large Chrysanthemum-like blooms of rich cinnabar-red. It is a strong grower and profuse bloomer. Pkt. 15c; ¼ oz. 45c; ½ oz. 80c.

1071 Aster, Peerless Yellow

Plant breeders have been trying hard for many decades now to produce a really fine yellow Aster. In Peerless Yellow we have the finest so far obtained. The flowers are extra large, remarkably full, and of perfectly round form. The center is deeply covered with curved and twisted petals. The color of the blooms is a beautiful light clear yellow. Pkt. 20c; ¼ oz. 95c; ½ oz. \$1.75.

A Gift to All Our Friends and Customers

In appreciation of the loyal support given us by our old friends and customers, and as an expression of good will toward the many new ones, we are going to make you a present of one of our best Everlastings:—

Maule's Giant Strawflowers

All Colors Mixed Read about this free gift on page 2.

Make your garden more interesting this year by planting some of the new flowers which are still rare. We have carefully tested these and find that they are not difficult to grow. Never before have we been able to show as many outstanding new varieties that can be grown in any ordinary garden soil and need no other particular care than that which you ordinarily give to the flowers in your garden.

Arctotis 965 Scapigera

This is closely related to the popular Blue-Eyed African Daisy and has the same kind of large daisy-like flowers, but excels it considerably in its wide range of beautiful, rich colors—orange, copper-red, yellow, cream, salmon, carmine, etc. Besides solid colors many of the blooms are richer toward the ends of the petals. It is a half-hardy annual of vigorous growth with blooms measuring 2½ to 3 in. across. Pkt. 35c; 1/16 oz. \$1.35; ¼ oz. \$2.50.

1272 Dahlia,
Unwin's Dwarf
Hybrids

Dahlia

1272 Unwin's Dwarf Hybrids These bedding Dahlias are as easy to grow from seed as Asters or Zinnias and therefore are unlike the type of Dahlia with which you are acquainted. They are, though quite different, fully as desirable because they make splendid round bushes covered with large single and semi-double blooms in a magnificent and wide range of rich, bright colors. Because of their compact growth they do not require staking, rarely exceeding a height of 24 in. This makes them particularly suitable for beds and borders. Planted early in the spring indoors, they will begin blooming in July and continue until severe frost. Pkt. 35c; ¼ oz. 85c; ½ oz. \$1.50.

African Daisy Dimorphotheca

1319 Lemon Queen This is a special color derived from the Golden African Daisy and consequently resembles it in every way except color. The large daisy-like blooms measure 2 to 2½ in. in diameter. They are borne profusely on short stocky plants about 12 to 15 in. tall. Like many of the other flowers which have come to our gardens from South Africa the blooms will close up during late afternoon and open again the following morning. They are brilliant lemon-yellow with a blue-black zone. Pkt. 35c; ¼ oz. 75c; ½ oz. \$1.25.

Calendula

1163 Golden Beam This is one of the new flowers everybody is talking about because it is a splendid counterpart to the favorite Calendula Radio introduced a few years ago. It has bright golden yellow, quilled petals forming a large round fluffy double flower. Pkt. 35c; ¼ oz. 75c; ½ oz. \$1.25.

Giant Imperial Larkspur

1433 Gloria The Giant Imperial type of Larkspur is by far the most popular because the stately plants branch freely at the base so that the individual flower spikes are exceptionally long-stemmed. Beautiful deep rose blooms. Pkt. 30c; ¼ oz. 60c; ½ oz. \$1.10.

1434 Peachblossom Of the same splendid habit as Gloria but the flowers are a delicate peachblossom-pink color. The double blooms are closely set on a fine long and graceful stem. Pkt. 30c; ¼ oz. 60c; ½ oz. \$1.10.

Lupinus—Lupine

1443 Hartwegii, New Giants Mixed

If you are interested in growing the finest Lupines in your garden let this splendid new strain be your choice. The plants grow 3 to 4 ft. tall which makes them about a foot taller than any others. The branches start close to the ground and carry from 25 to 50 large colorful blooms in many bright colors. Pkt. 35c; ¼ oz. \$1.00; ½ oz. \$1.75.

1455 Marigold, Guinea Gold

Marigold—Tagetes

1455 Guinea Gold There is no other flower which has such brilliant rich golden orange blooms as this exceedingly showy and free-flowering Marigold. Grows 3 ft. tall. Pkt. 15c; ¼ oz. 60c; ½ oz. \$1.00.

1447 Tall African, Orange Alldouble A new strain with all double flowers. Blooms most profusely. Pkt. 25c; ¼ oz. 50c; ½ oz. 85c.

1449 Tall African, Lemon Alldouble Produces only fully double blooms on all plants. Pkt. 25c; ¼ oz. 55c; ½ oz. \$1.00.

Some more Beautiful New Flowers

New Nasturtium

Dwarf Double Sweet-Scented

1526 Golden Gleam Everybody is talking about this magnificent new dwarf double Nasturtium which comes true from seed and has the most intense golden yellow blooms imaginable. In addition to the lovely color, the flowers have a distinct and most agreeable, sweet fragrance. Blooms freely from mid-summer until frost. Pkt. 15c; ½ oz. 60c; oz. \$1.00.

Nicotiana—Flowering Tobacco

1573 Affinis, Dwarf Crimson Bedder

This new Flowering Tobacco grows only 15 in. tall and is therefore excellent for beds and borders. The pyramidal plants are completely covered with large trusses of rich deep crimson blooms. Whether planted alone or in groups, it gives a striking effect. Pkt. 35c; ½ oz. 55c; ¼ oz. \$1.00.

Lovely New Petunias Bedding Varieties

1629 Alderman

We believe you will like the dwarf, compact growth of this new Petunia and its lovely, small, dark violet blooms which are borne with the greatest profusion from mid-summer until frost. Pkt. 25c; 1/16 oz. 40c; ½ oz. 70c.

1630 Cockatoo

The plants grow only 8 in. tall but carry a great profusion of small blooms of a deep violet-purple irregularly marked with white spots and stars. Makes a fine show. Pkt. 25c; 1/16 oz. 45c; ½ oz. 80c.

1633 Senator

In this splendid dwarf bedding Petunia we have a particularly showy variety with small colorful blooms of a purplish violet color shading to clear white in the throat. Blooms most profusely from mid-summer until frost and makes a fine display in beds or borders. Pkt. 15c; 1/16 oz. 30c; ½ oz. 50c.

Giant Ruffled Varieties

1625 Giant Copper Red

Gorgeous huge blooms most attractively ruffled and fringed. The color is a bright terra-cotta-rose shading to bronze-pink in the throat. The blooms measure often 5 in. across. Pkt. 35c; 1/128 oz. 85c; 1/64 oz. \$1.50.

1626 Giant Evening Star

This is an extra-fine new giant Petunia which will appeal to those gardeners who admire lighter shades. The large wide-open blooms are white at the edge shading to rich yellow toward the center and in the tube. Pkt. 35c; 1/128 oz. 85c; 1/64 oz. \$1.50.

Poppy—Papaver

1670 Begonia-Flowered, Mixed This is a most remarkable improvement of the double flowered Shirley Poppy with large, well-rounded blooms which resemble double Begonias in form and coloring. Includes a beautiful range of colors in white, shades of pink, red, rose, salmon, crimson, and intermediate tones. Also lovely edged ones. Pkt. 20c; ¼ oz. 50c; ½ oz. 85c.

Rudbeckia—Coneflower

1717 My Joy This is an annual Rudbeckia also known under the name of Black Eyed Susan. The plants make a compact, well-branched growth and bear a fine profusion of large flowers measuring 4 in. or more in diameter. The ray petals are rich orange yellow. Pkt. 25c; ½ oz. 55c; ¼ oz. \$1.00.

Salvia—Sage

1725 Farinacea, Blue Bedder A showy blue-flowering Sage forming compact, well-branched plants with long flower-stems which are closely set with rich deep blue blooms. It is an excellent bedding variety and fine for cutting. Pkt. 35c; ½ oz. 90c; ¼ oz. \$1.50.

Dwarf Double Scabiosa Pincushion Flower

1741 Coral Rose These dwarf double Scabiosas are becoming more and more popular because they lend themselves exceptionally well to beds and borders. This new coral-rose color is also most outstanding because it is a clear, rich, and appealing shade. The plants grow 8 in. tall. Pkt. 25c; ¼ oz. 75c; ½ oz. \$1.25.

1745 Fiery Scarlet Of the same neat and compact growth, not exceeding 8 in. in height, as the preceding variety. It is a very free-flowering plant making a magnificent display in beds or borders from mid-summer until after the first light frost. The well-rounded, double blooms are a bright and rich shade of fiery scarlet. Pkt. 25c; ¼ oz. 75c; ½ oz. \$1.25.

Sweet Pea

1805 Lady Ruffles Just picture the flowers shown in the illustration above, each measuring 2¼ in. across, in a coloring that combines a lovely soft warm pink shade on a white ground. It is a most lovely, graceful variety belonging to the new ruffled type. Pkt. 25c; ½ oz. \$1.35; oz. \$2.50.

Tithonia—Mexican Sunflower

1943 Speciosa This is known as the Golden Flower of the Incas or Mexican Sunflower. The plants grow as much as 10 ft. tall and 3 ft. across. They carry fine, large, brilliant orange, single flowers. Pkt. 25c; ½ oz. 45c; ¼ oz. 80c.

Ursinia—Jewel of the Veldt

1951 Anethoides This is very valuable because it is easy to grow and blooms continuously from mid-summer until frost. It has fine golden yellow, star-shaped blooms and graceful, feathery foliage. The plants grow 2 ft. tall. Pkt. 25c; 1/16 oz. 50c; ½ oz. 85c.

Venidium—Monarch of the Veldt

1981 Fastuosum From far off South Africa comes to us this glorious annual with large Daisy-like flowers having golden orange outer petals and a black center. 2 ft. tall. Pkt. 35c; 1/16 oz. 90c; ½ oz. \$1.50.

Three New Hardy Perennial Flowers

Delphinium—Hardy Larkspur

1291 Belladonna, Blue Grotto This belongs to the Belladonna type having large graceful spikes closely set with elegant single blooms of a deep indigo-blue color. Blooms profusely and is fine for bedding and cutting. Pkt. 50c; 1/16 oz. \$1.10; ½ oz. \$2.00.

Gaillardia—Blanket Flower

1340 Torchlight As brilliant as a torch, with golden yellow blooms having a rich maroon center. They often measure 5 in. across. Grows 2 ft. tall and blooms profusely. Pkt. 30c; 1/16 oz. 55c; ½ oz. \$1.00.

Hollyhock

1393 Triumph Majestic plants 4 to 5 ft. tall branching freely at the base. Each stem is covered with attractively waved and fringed blooms coming in a particularly wide range of unusual and rich colors. Includes flesh, lilac, purple, rose, red, crimson, and many others. Pkt. 25c; ½ oz. 60c; ¼ oz. \$1.00.

1627 Petunia, Giant Robin Hood

1627 Giant Robin Hood

Just picture these immense blooms, 6 in. across, combining a rich intense red on the margin and a deep coal-black in the center of the blooms. Free-flowering and exceptionally showy. Pkt. 35c; 1/128 oz. 85c; 1/64 oz. \$1.50.

Every Garden - Large or Small - Should Include Maule's Beautiful Asters

1033 Aster, Maule's
Earliest Blooming,
Mixed

Asters, or China Asters as they are often called, are easy to grow and give a wonderful display of large showy blooms which are suitable for beds, borders, and for cutting. There are quite a few types to choose from, according to the arrangement and shape of the petals which compose the large double blooms, and there is also quite some difference in the blooming season. You may select early, mid-season, or late varieties to suit your particular purpose, or better still, plant some of each.

For early blooming start Aster seed indoors in boxes during March and set the young plants into the garden after all danger of frost has passed, or you may sow the seed outdoors when the nights have become balmy. You may start the seed outdoors either in a special seed bed or sow where they are to bloom.

Maule's Earliest Blooming

This is the earliest-blooming type of all Asters with lovely, large, rounded blooms composed of moderately long, broad petals. The blooms are carried on medium stems, sufficiently long for cutting. Also very valuable for bedding. The plants grow 15 to 18 in. tall and bloom during June. Start the seed indoors during February or March.

1026	Crimson	1029	Rose Pink
1027	Lavender	1030	Purple
1028	Flesh Pink	1032	White

Any of the above six colors:
Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

1033 Mixed, All Colors This is a fine mixture of the above six splendid clear colors. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

4125 Collection of

Maule's Earliest Blooming Asters

This splendid collection contains one packet each of the six showy and rich colors described and offered above. The value is 60c and it will be mailed to you, postpaid, for

40¢

King Asters

The King Asters represent a mid-season type with flowers which are distinct in every way. They have long narrow petals which are rolled lengthwise, giving the petals a needle-like appearance and the entire flower a somewhat porcupine resemblance. The plants make an upright growth about 2 ft. tall. They branch close to the ground which accounts for the long flower-stems. We have selected the four best colors and are offering them here together with a mixture.

1063	Lavender-Pink
1065	Rose
1066	Violet
1067	White

Any of the above four colors:
Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 60c.

1068 Mixed Colors Though we consider the above four the best colors available, we have added others to the mixture for greater color variety. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

Special Offer

You may select any three 10c packets for 25c, or six 10c packets for 50c, or thirteen 10c packets for \$1.00, of either flower seeds or vegetable seeds, or both if you wish.

Improved Giant California Sunshine

1089 Mixed These Asters represent a decided departure from the conventional form of all other Asters offered by us. The blooms are very large and have long graceful outer ray petals. The center of the blooms is filled with smaller tubular petals which end in a small four-pointed star. This combination gives a lovely effect as shown in the illustration above. The plants grow 1 1/2 ft. tall and bloom during mid-season. Includes light and deep rose, light and deep blue, purple, and other colors. Pkt. 25c; 1/8 oz. 65c; 1/4 oz. \$1.20.

Early Branching Royal

1100 Mixed Colors The Royal Asters come into bloom just after Maule's Earliest Blooming have passed their prime. The plants are of somewhat taller growth, reaching a height of 2 to 2 1/2 ft. They carry their large, well rounded blooms on extra long stems which makes them desirable for larger beds, borders, and for cutting. The fine double flowers measure 3 1/2 in. across and are composed of broad, medium-long flower petals which curve inward. Toward the center the smaller petals completely cover the center and often show a whorl-like formation. This is a very free-blooming and large-flowered Aster which enjoys the greatest popularity with all kinds of gardeners. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

California Giants

This is of recent introduction and represents one of the largest-flowering types of Asters with beautiful, mammoth Chrysanthemum-like blooms carried on fine long stems.

993	Light Blue
994	Peach Blossom
995	Dark Purple
996	Deep Rose
997	White

Any of the above five colors:
Pkt. 15c; 1/8 oz. 45c; 1/4 oz. 80c.

998 Mixed Colors These will give a bright, colorful bed all during mid-season. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 75c.

4130 Collection of California Giant Asters

This collection contains one packet each of the five splendid colors offered above. Purchased separately it would cost 75c. Mailed, postpaid, for

50¢

Wm. Henry Maule, Philadelphia, Pa.

Giant Astermum

These Asters are extremely popular with many gardeners. The blooms are not only extremely large but they are heavy, well rounded, and supported by fine long and strong stems. The name Astermum refers to the similarity of the elegantly formed blooms to those of a choice Japanese Chrysanthemum. The individual petals of Astermums are long, narrow, and artistically curled and twisted, which gives the blooms particular charm and grace. Giant Astermum Asters bloom during mid-season and form strong growing, well branched plants 2 to 2½ ft. tall. The branches start from the base each ending in a large flower on a long stem which gives them their value for cutting. The individual blooms measure 4 in. across.

984 Lavender }
 985 Rose-Pink } Any of these colors:
 989 Pure White } Pkt. 10c; ½ oz. 30c; ¼ oz. 50c.

990 Mixed Colors You will be delighted with this splendid mixture of Giant Astermum Asters which includes all colors described above. Pkt. 10c; ½ oz. 30c; ¼ oz. 50c.

4117 Collection of Giant Astermums

This assortment contains one packet each of the following three showy and large flowering varieties: Lavender, Rose-Pink, and Pure White. Purchased separately these would cost 30c, mailed postpaid for. . . . **25¢**

984 Giant Astermum
Lavender

1102 Aster
Giant Branching
Azure Blue

Maule's Giant Branching Asters

A free-flowering tall class of Asters blooming profusely from mid-season until frost. The plants grow 2 to 3 ft. tall and have large, round, long stemmed blooms.

- 1102 Azure Blue
- 1103 Crimson
- 1104 Lavender
- 1105 Invincible Pink
- 1106 Shell-Pink
- 1107 Purple
- 1109 Pure White
- 1113 Peach Blossom

Any of the above eight colors:
 Pkt. 10c; ½ oz. 30c; ¼ oz. 50c.

1110 All Colors Mixed Splendid for beds or borders, yielding a great many cut flowers. Pkt. 10c; ½ oz. 25c; ¼ oz. 40c.

4121

Collection of Maule's Giant Branching Asters

To give every gardener a chance to grow separately all the eight splendid colors we offer in this class, we have made up this collection which has a value of 80c. It will be **50¢** mailed, postpaid, for

American Beauty

This is a magnificent true American strain of Asters which excels all others in vigorous habit, size of bloom, free blooming character, and sturdy growth. They are a mid-season type which will continue to flower freely until cut down by frost. The plants grow 2 to 2½ ft. tall and make a graceful, round, well branched bush. Due to the fact that the stems all start near the base of the plants the flowers are extremely long stemmed, which gives them particular value for cutting. The blooms are well rounded and always fully double. They are made up of broad incurved petals gracefully arranged in an orderly but by no means stiff arrangement.

- 982 American Beauty (Carmine Rose)
- 1013 Azure Blue
- 1014 Shell Pink
- 1015 Crimson
- 1016 White
- 1017 Purple

Any of the above six colors:
 Pkt. 15c; ½ oz. 35c; ¼ oz. 60c.

1020 Mixed Colors A fine range of beautiful colors including many not listed above. Very showy. Pkt. 10c; ½ oz. 30c; ¼ oz. 50c.

4126 Collection of American Beauty Asters

Every one of the six colors offered above is so beautiful and outstanding that we are sure many gardeners will want to have a display of all the separate colors listed. The collection contains one packet **50¢** of each, a value of 90c, for

1111 Heart of France

This is a beautiful American Aster of a gloriously rich and brilliant color that surpasses anything else ever seen in this popular annual. The blooms are a pure rich red unlike any other red Aster in existence. It has a freshness and vivacity that makes it stand out from all other flowers in the garden. The blooms are large and well formed. They are round and have medium long, incurved, broad petals that cover the center well. The plants grow 15 to 18 in. tall and are therefore well suited for beds and borders and excellent for cutting. Pkt. 15c; ½ oz. 35c; ¼ oz. 65c.

1002 Aster,
Giant Crego
Azure Blue

Giant Crego Asters

Few other classes of Asters have become as popular as the Giant Crego type. They are of American origin and represent a highly developed large flowering Aster with blooms of the popular Chrysanthemum-like form. These blooms are very large, measuring 4 or 5 in. in diameter. They are carried on elegant long stems which makes them ideal for cutting. The plants begin to bloom during mid-season and continue to flower until way late into the fall. The bushes grow 2 ft. tall and are very much branched. We recommend them for borders, beds, and for cutting.

|-----------------|--------------------------|
| 1002 Azure Blue | 1005 Rose |
| 1003 Crimson | 1005 Shell Pink |
| 1004 Lavender | 1007 Purple or Dark Blue |
| 1009 White | |

Any of the above seven colors:
Pkt. 10c; ½ oz. 30c; ¼ oz. 50c.

1010 Mixed Colors This will make a beautiful display in beds or borders. Includes many beautiful colors. Pkt. 10c; ½ oz. 25c; ¼ oz. 45c.

4124 Four Lovely Giant Crego Asters

This collection contains one packet each of Crimson, Lavender, Purple or Dark Blue, and White. Value 40c, postpaid for . . . **25c**

1080 Peerless Pink

This is an Aster which takes its place alongside of the finest of the American introductions. It is a vigorous growing variety forming well rounded, much branched plants 2½ ft. tall. Each of the long, flexible stems carries a large, globular, round flower of a beautiful shell-pink shade. The branches start from the base of the plant making the individual flower stems extra long which, in turn, makes Peerless Pink a splendid variety for cutting. It is classed as a late blooming variety. Pkt. 10c; ½ oz. 35c; ¼ oz. 60c.

1012 Crimson Giant

The lover of fine Asters will turn to this beautiful variety for an extra large double flower of a deep rich crimson color. The plants make an upright growth and carry their blooms on fine long and strong stems. Grows 2 ft. tall. Pkt. 10c; ½ oz. 35c; ¼ oz. 60c.

1112 Sensation

There are many gardeners who consider this outstanding variety the best of all. Yet, knowing Asters as well as we do, we realize that there are others perhaps as beautiful. Nevertheless, Sensation is one of the very finest, with magnificent deep ruby-red blooms of lovely well-rounded form and large size. The plants grow 18 to 24 in. tall and are covered with flowers from mid-season until late in the fall. Its rich color is showy in beds and borders, and cannot be surpassed for a rich and colorful cut flower bouquet. Pkt. 10c; ½ oz. 30c; ¼ oz. 50c.

1118 Maule's Choice Varieties Mixed

This mixture gives every gardener an opportunity to create a colorful display of Asters that will provide blooms from mid-summer until frost. It includes all varieties and all colors listed, and there are over 75 of them. Just picture what a bed of this lovely mixture will look like!
Pkt. 5c; ½ oz. 30c; ¼ oz. 50c.

1120 Single Flowering Mixed Colors

The single flowering Asters, though less often seen, are most desirable and have a charm all their own. The blooms are of Daisy-like formation, measuring 3 to 3½ in. across. They have a small, round, yellow center and gracefully curved, broad ray petals of various colors. They are strong growing, free blooming, and have long flower stems.
Pkt. 5c; ½ oz. 25c; ¼ oz. 40c.

4116 Collection of Maule's Giant American Asters

This collection contains one packet each of the following: Maule's Giant Branching, White; Maule's Giant Branching, Improved Invincible Pink; King, Mixed Colors; Peerless Pink; Asterum, Lavender; Sensation; and Crego, Purple. Purchased separately these would cost 80c. Mailed, post-paid, for . . . **50c**

Special Offer

As a special inducement to have you plant Maule's Seeds this year we are making this special offer: Any three 10c pkts. for 25c; any six 10c pkts. for 50c; any thirteen 10c pkts. for \$1.00.

980 Maule's Anniversary Mixture Giant American Asters

There are thousands and thousands of Maule customers who include this unexcelled mixture of American Asters in their garden year after year because they know from experience that it will give a bed or border that will be the envy of all their neighbors. We have included in this the largest and finest Asters originated in America. Careful attention has also been paid to the color range and color balance. Pkt. 10c; ½ oz. 35c; ¼ oz. 60c.

Maule's General List of Annual Flower Seeds

Abutilon—Flowering Maple

892 Choicest Hybrids A stately plant of easiest culture, with light green, maple-like foliage. It succeeds in a sunny location and in fairly rich, somewhat sandy, moderately moist soil. The bright, bell-shaped flowers, produced on slender, thread-like stems, are of satiny or crepe-like appearance. The colors are white, salmon, rose, scarlet, crimson, and yellow. Excellent for blooming indoors during the winter. Pkt. 20c; 1/64 oz. 50c; 1/32 oz. 75c.

Abronia, see *Sand Verbena*, page 76

African Daisy—*Dimorphotheca*

A desirable annual of dwarf growth which can well be used to furnish a splash of color in the border or rock garden. 1 ft.

1312 Pluvialis Rings Pure glistening white flowers with a blue band around the center. Free flowering. Pkt. 10c; 1/8 oz. 55c; 1/4 oz. \$1.00.

1313 African Gold Daisy Large flowering; of a terra cotta-orange with a dark disk surrounded by a black zone. Very suitable for edgings or planting in the rock garden where it will make a wonderful show. Blooms profusely and continuously. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1314 Hybrids, Mixed A colorful assortment including white and various shades of yellow, orange, salmon, etc. Gives a fine showy bed or border. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

902 *Ageratum*, Dwarf Imperial Blue

Ageratum—Floss Flower

Profuse blooming plants of dwarf or tall growth bearing throughout the summer and fall clusters of showy flowers. The tall varieties are ideal for cut flowers, while the dwarf ones may be used to advantage for edgings, bedding, or planting in the rock garden.

902 Dwarf Imperial Blue An outstanding and showy variety for the border, and particularly valuable for edgings. The compact little bushes, growing 6 to 8 in. tall, are covered with fine blue flowers during the summer and fall. Pkt. 10c; 1/8 oz. 20c; 1/4 oz. 30c.

903 Mexicanum, Blue Well branched plants, growing about 2 ft. tall, with clusters of bright azure blue flowers. Fine for garden display and cutting. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 45c.

904 Little Blue Star One of the finest dwarf Ageratums ever introduced. The compact plants are covered with a mass of small blue flowers. Pkt. 15c; 1/16 oz. 25c; 1/8 oz. 45c.

906 Blue Ball Attractive, compact, well rounded plants, 6 in. tall, covered completely with small, ball-shaped flowers of a clear blue. The best blue Ageratum. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 45c.

908 Finest Varieties, Mixed A well blended mixture of the finest varieties for the border where a variety of colors is desired or for cutting. Pkt. 5c; 1/4 oz. 25c; 1/2 oz. 40c.

Sweet Alyssum

An easily grown annual succeeding in any ordinary garden soil in full sun. The plants bloom freely for many months, particularly where the summers remain reasonably cool. Sweet Alyssum is unsurpassed for edging, planting in the rock garden, and as a ground cover.

912 Lilac Queen The plants are of dwarf, compact, upright growth, 4 to 5 in. tall. The flower clusters are composed of small, pale lilac florets which change to white as they age. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 35c.

914 Little Gem This is without question the best pure white dwarf Alyssum. The plants make a dense growth spreading but slightly, attaining a height of only 3 to 4 in. They bloom so profusely that they merit their surname "Carpet of Snow." Pkt. 10c; 1/4 oz. 25c. 1/2 oz. 40c.

918 *Alyssum*, Sweet

918 Sweet (*Maritimum*) This is the old-fashioned Sweet Alyssum which was a favorite generations ago yet has retained its popularity to this date. A garden without this lovely sweet-scented flower is not complete. The plants are of dwarf, spreading growth about 10 in. tall. The small white flowers are produced in masses on innumerable spikes. Fine for the rock garden and for edgings. Pkt. 5c; 1/2 oz. 20c; oz. 35c.

Amaranthus—Joseph's Coat

920 Tricolor splendens An interesting foliage plant which will be found of great value for planting in the border or in connection with other tall foliage plants. The beautiful variegated foliage is climaxed by brilliant rich crimson top-leaves. The plants grow 3 to 5 ft. tall. Pkt. 5c; 1/4 oz. 25c.

Anchusa—Cape Forget-Me-Not

928 Capensis Easily grown from seed succeeding in ordinary garden soil. The plants grow from 1 to 2 ft. tall, and produce a wealth of beautiful clear deep blue, Forget-Me-Not like flowers from late spring until fall. Very attractive. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c; oz. 65c.

Antirrhinum, see *Snapdragons*, page 77

Arctotis—Blue-Eyed African Daisy

966 Grandis Beautiful large Daisy-like flowers on plants 2 ft. tall. The flowers are silvery white with a sky-blue eye surrounded by a yellow halo. Of easiest culture, growing to perfection in an ordinary garden soil in full sun. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 45c.

Balsam—Lady's Slipper

1127 Maule's Double Superb Strain, Finest Mixed We pride ourselves to offer to our customers one of the finest strains of this old-fashioned flower. The individual blooms measure 2 1/2 in. across, and are double to the very center. Our mixture contains the very finest colors in proper proportions. Extra fine. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1368 *Baby's Breath*, Giant White

Baby's Breath—*Gypsophila*

Baby's Breath represents one of the most important annuals, as it cannot be dispensed with wherever cut flower bouquets are to be made. The dainty flowers which are born in great profusion on slender, wiry stems give a charming finishing touch to bouquets. Of easiest culture. 15 in. tall.

1368 Giant White Pure white star-like flowers of good size from mid-summer to fall. The most popular of all. Pkt. 5c; 1/2 oz. 20c; oz. 30c.

1370 Rose Dainty, bright rose flowers similar in shape and size to Giant White offered above. Excellent. Pkt. 10c; 1/2 oz. 20c; oz. 30c.

1369 Carmine An excellent cut flower with numerous, bright carmine, star-like flowers on well branched plants. Pkt. 10c; 1/2 oz. 20c; oz. 30c.

Bedding Begonia

Bedding Begonias are in great demand not only for the fine effect they give in beds, but also as pot plants for which there is always a ready market. Their excellent everblooming qualities make Begonias a favorite with florists and home gardeners.

1135 Luminosa Bright scarlet-red flowers which are in wonderful contrast to the bronzy red foliage. 1 ft. Pkt. 20c; 1/128 oz. 80c.

1136 Prima Donna An abundantly blooming variety with rich coral-pink flowers against a background of bright green foliage. 1 ft. tall. Pkt. 20c; 1/128 oz. \$1.00.

1138 Semperflorens, Mixed A lovely mixture of all everblooming varieties containing many fine shades of pink, salmon, blood-red, scarlet, and also white. Pkt. 10c; 1/64 oz. 45c.

Blue Lace Flower—*Didiscus*

1151 Coeruleus A valuable flower for garden display and cutting which has staged a remarkable comeback after having been practically forgotten for many years. The plants which average 18 in. in height produce continuously throughout the summer and fall large lace-like flowers of a clear cerulean blue. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 45c.

Brachycome, see *Swan River Daisy*

Browallia—*Amethyst*

1149 Elata, Mixed Beautiful blue and white flowers born freely throughout the summer on neat bushy plants about 15 in. tall. Ideal for edgings, rock gardens, and also cut flower bouquets. Pkt. 5c; 1/8 oz. 25c; 1/4 oz. 40c.

Butterfly Flower—*Schizanthus*

1152 Wisetonensis, Mixed Dainty small orchid-like flowers which are produced in such masses as to completely cover the plants. It is known also as "Poor Man's Orchid." For outdoors and growing in pots. Very beautiful particularly in cooler sections. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

1158 *Calendula* Ball's Orange

Calendula

Cape, Scorchi, or Pot Marigold

Wonderful for garden display, blooming freely all during the summer and fall. Also excellent for cutting. The plants grow 12 to 18 in. tall.

1156 Ball's Gold Large, double, golden yellow flowers borne profusely on strong plants. A newer variety of unusual merit. Excellent for forcing during the winter. Pkt. 10c; 1/8 oz. 45c; 1/4 oz. 75c.

1157 Lemon Queen Well-rounded double flowers of a beautiful rich lemon-yellow. The individual petals are neatly arranged in shingle-like fashion. Long stems. Pkt. 5c; 1/2 oz. 25c; oz. 40c.

1158 Ball's Orange The finest rich orange *Calendula* ever introduced. The flowers are large and fully double. Fine for the garden and for forcing. Pkt. 10c; 1/8 oz. 45c; 1/4 oz. 75c.

1159 Radio Medium-sized double flowers with attractively quilled petals. The color is a dazzling clear orange of great intensity. Very appealing and desirable. Pkt. 10c; 1/8 oz. 45c; 1/4 oz. 75c.

1160 Orange King Very large double blooms, measuring often 3 in. in diameter. The color is dark orange-red. Blooms abundantly on sturdy, compact plants. Pkt. 5c; 1/4 oz. 30c; oz. 90c.

1162 Sensation Long-stemmed, fully double, brilliant orange flowers with a decided crimson or scarlet sheen. A charming variety which is sure to please. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 75c.

1161 Mixed This mixture includes all the above varieties and a few others in order to increase the color effect. Pkt. 10c; 1/2 oz. 20c; oz. 30c.

4133 Collection of Three Showy *Calendulas*
 One Pkt. each of Ball's Gold, Ball's Orange, and Sensation. **25¢**
 (Value 30c) for only.....

California Poppy—*Eschscholtzia*

1322 Sunlight Deep canary-yellow flowers produced freely all during the growing season. 1 ft. Pkt. 10c; 1/4 oz. 35c; 1/2 oz. 60c.

1324 Enchantress Fine double flowers of a soft carmine-rose shade. Very showy. 1 ft. Pkt. 10c; 1/4 oz. 35c; 1/2 oz. 60c.

1321 Orange Flame Beautiful bright orange flowers borne freely. Pkt. 10c; 1/4 oz. 40c; 1/2 oz. 70c.

1325 Scarlet Beauty Bright scarlet flowers contrasting well with the fine green foliage. 1 ft. Pkt. 10c; 1/4 oz. 35c; 1/2 oz. 60c.

1326 New Hybrids, Mixed Contains a large variety of gorgeous colors and exquisite shades. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 30c.

4146 Collection of California Poppies
 One Pkt. each of the above four separate varieties (value 40c.) for only..... **25¢**

Calliopsis—*Tickseed*

A showy plant with graceful foliage producing a great profusion of brilliant flowers from June until frost. Excellent for beds, borders, and cutting.

1165 Tall Mixed Many brilliant hues of crimson, maroon, and gold as well as combinations of these rich colors. The plants grow 2 1/2 ft. tall. Pkt. 5c; 1/4 oz. 15c; oz. 50c.

1168 Dwarf Mixed A fine mixture of all dwarf varieties. Desirable for garden display, yielding a large crop of flowers from midsummer until frost. Pkt. 5c; 1/4 oz. 20c; oz. 60c.

Candytuft—*Iberis*

Because of its dwarf, rather compact growth, Candytuft is well adapted to massing in beds, borders, and for edgings. Grows best in full sun particularly where the summers remain reasonably cool.

1182 Rose Cardinal Large showy flower clusters composed of light rose florets, shading to deep rose. Blooms abundantly, yielding masses of cut flowers. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 30c.

1183 Giant Hyacinth Flowered Massive white flower spikes not unlike small *Hyacinths*, produced freely. Unsurpassed for carpet bedding, edging, and cutting. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 35c.

1185 Mixed All Colors A well blended mixture containing the above and many other colors, making a gorgeous display in the garden. Very effective. Pkt. 5c; 1/2 oz. 20c; oz. 30c.

Canna—*Indian Shot*

1187 Large Flowering French and American Tall attractive plants of tropical appearance with long spikes composed of huge flowers in many brilliant colors, ranging through all shades of yellow, orange, crimson, scarlet, and vermilion. While some will show plain colors, others are beautifully spotted and tigered. Plants with both green and dark bronzy red foliage will be found in this mixture. *Cannas* are of easiest culture if planted in rich, well drained soil, and if given plenty of water during periods of drought. Pkt. 10c; 1/2 oz. 25c; oz. 40c.

Cape Forget-Me-Not—see *Anchusa*

Cape Marigold—see *Calendula*

**Carnation Marguerite
 Maule's Mammoth Flowering**

1198 Finest Mixed Few flowers are more universally known and liked than these delightfully fragrant *Carnations* with their daintily colored blooms. They are easy to grow from seed and should be given a place in every garden where they will make a fine show. They also will provide a generous supply of exquisite cut flowers. Our mixture contains all the most desirable colors including rose, white, scarlet, yellow, and striped. *Marguerite Carnations* come into bloom within five months after sowing. Started indoors during February and March, blooming plants can be had from midsummer on. Where winters are mild, the plants will live outdoors with slight protection. If lifted and potted before frost they will flower in the house all winter long. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 70c.

ALL FLOWER SEEDS are sent POSTPAID

Castor Oil Bean—*Ricinus*

1713 Red Spire This is the most attractive of all *Castor Oil Beans* although growing but 6 ft. tall. The foliage and stems are bronzy green. The seed pods are brilliant rosy crimson. Pkt. 10c; oz. 35c.

1714 Zanzibarensis The tallest growing *Castor Oil Bean*, reaching an average height of 12 ft. The large palmate leaves often measure 2 ft. or more across. A stately plant for a background. Pkt. 10c; oz. 20c; 1/4 lb. 65c.

1715 Mixed A grand mixture comprising all the best and most attractive varieties. Where a massive planting is desired, this mixture is sure to answer the purpose. Excellent for background or in the border. Pkt. 10c; oz. 15c; 1/4 lb. 50c.

Centaura—see *Cornflower, Sweet Sultan*

Cherry Pie—see *Heliotrope*

China Asters—see *Asters*

Chinese Forget-Me-Not—*Cynoglossum*

Of easiest culture, growing to perfection in any ordinary garden soil in a sunny location. The plants average 18 in. in height, and produce their dainty flowers freely from midsummer until frost.

1252 Pink Strong spikes, studded with large *Forget-Me-Not* like flowers of a rich pink color. Pkt. 15c; 1/8 oz. 45c; 1/4 oz. 75c.

1253 Amabile Exquisite, large, clear ultramarine blue flowers on well branched plants. Wonderful for the border and fine as cut flowers, lasting well in water. Pkt. 15c; 1/8 oz. 25c; 1/4 oz. 40c.

Chinese Woolflower—see *Celosia Childsii*

Chrysanthemum

No matter how small a garden, there will always be a place where to plant some of these old-fashioned *Chrysanthemums* which are strictly annual. Whether planted in the border or for cutting, they always will give a showy colorful display from midsummer until fall. They delight in cool weather.

1226 Nivellii Attractive plants, 2 1/2 ft. tall, producing a wealth of pure yellow, daisy-like flowers, 3 to 4 in. across on fine long stems for cutting. Pkt. 15c; 1/4 oz. 50c; 1/2 oz. 85c.

1223 Coronarium, Finest Double Mixed Fine large flowers, 1 1/2 in. across, produced freely on compact, bushy plants 18 in. tall. The colors grade from rich yellow to pure white. Finely cut foliage. Pkt. 5c; 1/4 oz. 20c; oz. 55c.

1227 Single Finest Mixed Our mixture is sure to please the most discriminating gardener. The large flowers, which usually are bandsomely marked with bands or rings around the center, are a fine addition to the border. Pkt. 5c; 1/4 oz. 20c; oz. 50c.

1231 *Chrysanthemum Baby Golden Glow*

1231 Baby Golden Glow (*Golden Queen*) A very free-flowering variety, unexcelled for bedding and cutting. The fine, double, bright yellow flowers literally cover the plants from early summer until fall. 18 in. tall. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c; oz. 75c.

Cleome—see *Spider Plant*

Cockscomb—see *Celosia Cristata*

Celosia—Cockscomb and Woolflower

1209 *Pride of Castle Gould*

To dry Celosias for winter bouquets, hang the stems upside down in a dry, cool place until properly cured.

Celosias belong to the brightest, most fascinating of all annual flowers because of their truly gorgeous flower heads. They are of easiest culture, growing to perfection in a fairly rich, moderately moist soil in full sun. For early blooms start the seed indoors, or sow outdoors where to bloom when the soil is workable and the nights have become warm. Thin or transplant to stand 18 in. apart.

Plumed Cockscomb

Celosia plumosa

Plumed Cockscomb enjoys great popularity due to its stately growth and the brilliance of its large silky plumes in colors which are truly unique in the kingdom of plants. The plants average 3 ft. in height and make a wonderful display either if planted in the mixed border or if used for bedding. Combines well with other tall flowering plants and also ornamental grasses.

1209 Pride of Castle Gould A particularly fine strain with enormous plumes which are attractively curled in much the same way as ostrich feathers to which they could be likened. Colors include brilliant shades of yellow, pink, orange, scarlet, red, and crimson. Pkt. 15c; 1/8 oz. 50c; 1/4 oz. 85c.

1207 Thompson's Magnifica, Mixed Colors This blend includes all the exquisite colors that are found in Celosias, ranging from clear yellow to dark purple-red. Ideal where a riot of color is desired. Pkt. 5c; 1/8 oz. 25c; 1/4 oz. 35c.

Crested Cockscomb

Celosia cristata

This is without question the most interesting type of Celosia. The massive flower heads, often measuring a foot or more in width with a diameter of 6 in., are of a velvety texture but of straw touch. The well formed heads remind one of a mass of soft, fluffy, silky wool. The plants will make a wonderful display in beds or borders. For perfect development of the main head, all small combs which may develop in the leaf axils should be pinched off. When full grown, the combs may be cut and dried, as they keep perfectly well for many months.

1205 Empress A beautiful variety with enormous combs of dark crimson which combines well with the bronzy red foliage. The plants grow 1 ft. tall. Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 60c.

1204 Dwarf, Mixed Colors Magnificent shades, including light and dark yellow, pink, rose, salmon, copper-red, and crimson in a grand mixture. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 55c.

1205 *Cockscomb Empress*

Chinese Woolflower

Celosia Childsii

Chinese Woolflower has become a favorite with many as it lends itself admirably to bedding. It is also valuable for cutting. As the flowers keep well in water for a week or 10 days. The well branched, neatly rounded, and symmetrical plants average 2 1/2 ft. in height. The interesting, fluffy flower heads which resemble a large loose ball of wool, are rather iridescent, changing their color depending on how the light strikes them. They are produced freely at the terminal of each individual branch. The flowers may also be used for winter bouquets if dried when fully developed. They retain their color and beauty for a long time.

1201 Crimson A magnificent variety with large flower heads from midsummer until frost. The color is a rich bright crimson. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 55c; oz. \$1.75.

1210 Mixed Colors A gorgeous mixture for a beautiful color effect. Crimson, pink, rose, and yellow shades in proper proportion. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1201 *Chinese Woolflower, Crimson*

1208 *Celosia spicata*

1208 Celosia spicata The silvery lilac-pink flowers are born in elongated heads on long and substantial stems. The plants are of strictly upright growth, attaining a height of 3 ft. Fine for garden display and for cut-flowers. Easily dried for winter bouquets. Pkt. 10c; 1/8 oz. 45c; 1/4 oz. 80c.

1244 *Briar Crest Mammoth Rainbow*

Coleus—Flame Nettle

Coleus is highly valued as a bedding and pot-plant because of its brilliantly colored foliage. It is of easiest culture and succeeds in rich, well drained soil which contains some leaf-mold. The plants do not develop their best coloring unless exposed to the full sun.

1244 Briar Crest Mammoth Rainbow Mixed Untiring efforts on our part to still further improve the foremost strain of Coleus that can be had—Maule's Briar Crest Mammoth Rainbow Mixture—have been crowned with unbounded success and we are justly proud of it. The remarkable color combinations, the beautiful new forms of foliage, and the richness of the colors are magnificent. Comparative trials with many other strains show that our latest developments are truly unique. We consider our strain as perfect as can be and, no doubt, you will too. Pkt. 25c; 1/32 oz. \$1.15; 1/16 oz. \$2.00.

1246 Choicest Hybrids This fine strain contains many different types and still further improved. The tall, strong growing plants are very attractive with their exceptionally brightly colored leaves. Pkt. 15c; 1/32 oz. 65c.

1247 Finest Mixed A rather tall growing strain with smaller leaves all of which show fine color combinations. Pkt. 10c; 1/32 oz. 60c; 1/16 oz. \$1.10.

Centaurea—Cornflower

This old-fashioned flower has been greatly improved in recent years in size of the flowers and the richness of the colors. Fine for garden display and cutting. Grows in any well drained garden soil which contains lime. Prefers a sunny location.

1213 *Centaurea, Double Blue*

1213 Double Blue Very large, fully double flowers of clear ultramarine blue. Blooms freely and continuously. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1218 Double Mixed A magnificent mixture including white, blue, pink, rose, and red. Blooms throughout the summer and fall. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 35c.

1217 Americana Large, bright lilac flowers 3 to 4 in. across on stately plants 3 ft. tall. Blooms profusely in ordinary garden soil during July and August. Give it a sunny location and protect against strong winds. Pkt. 5c; 1/8 oz. 15c; 1/4 oz. 25c; 1/2 oz. 45c; oz. 80c.

Centaurea imperialis, see Sweet Sultan

1256 Late Mammoth Flowering Mixed Colors

Late Mammoth Flowering

The late flowering strain of Cosmos is best suited for sections where heavy frosts do not occur until late in the fall. The flowers average 4 in. in diameter, and are carried on long wiry stems. 5 to 6 ft. tall. Of sturdy upright growth.

1256 Mixed Colors A carefully composed mixture of white, pink, and crimson Mammoth Flowering varieties. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 35c.

Extra Early Double Crested

Comes into bloom as early as the Early Mammoth Flowering varieties, bearing masses of bright flowers on long stems. The blooms are composed of a row of large guard petals and a cushion-like center in place of the yellow disk. Produces singles.

1248 Crimson 1249 Pink 1250 White
Any of the three separate colors: Pkt. 15c; 1/8 oz. 50c; 1/4 oz. 90c.

1251 Mixed Colors A fine mixture of the three double varieties offered above. Pkt. 15c; 1/8 oz. 35c; 1/4 oz. 65c.

4141 Collection of Early Double Crested Cosmos

One Pkt. each of Crimson, Pink, and White. (Value 15c) for only **35c**

Late Blooming Double Crested

1266 Finest Mixed Large crested flowers on long stems during fall. The stately plants grow 5 to 6 ft. tall. White, pink, and crimson in proper proportion. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1261 Special Mixture of Single and Double Cosmos

Early and late, single Mammoth Flowering and Double Crested varieties for garden display and cutting in a grand mixture. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

Cosmos

Early Mammoth Flowering

Early-flowering Cosmos is very valuable for localities where the seasons are short. It comes into bloom 2 to 3 weeks before the late flowering varieties begin to open up. The plants grow 5 to 6 ft. tall, and are covered with a mass of magnificent flowers, 3 in. across, all during the fall until killed by frost.

1262 Pink 1264 White 1263 Crimson

Any of the three separate colors:
Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 35c.

1265 Mixed Colors White, pink, and crimson carefully blended. Pkt. 10c; 1/4 oz. 25c; 1 oz. 70c.

4140 Collection of

Early Mammoth Flowering Cosmos

One Pkt. each of Pink, Crimson, and White. (value 30c) for only **25c**

1251 Double Crested, Mixed

Feverfew—*Marricaria*

1336 Improved Double White Free flowering plants which produce their handsome, pure white, double flowers throughout the summer and fall. The plants average 15 in. in height and are ideal for edgings and cutting. Grows to perfection in ordinary soil. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

Flowering Maple, see Abutilon, page 67

Flowering Tobacco—*Nicotiana*

Flowering Tobacco is becoming more popular every year because of its wealth of flowers which are brought forth continuously from early summer until the ground begins to freeze. The plants, while not hardy while young, can stand light frosts in the fall.

1572 Affinis A profuse flowering variety with large tubular blooms of purest white. They are highly sweet-scented, emitting their fragrance chiefly in the evening. Succeeds in ordinary soil in full sun. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 35c.

1574 Sanderae Hybrids The well branched plants grow about 3 ft tall and are literally ablaze with brilliantly hued flowers of various pink and red shades. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

Forget-Me-Not—*Myosotis*

Few other flowers are as well known as the lovely Forget-Me-Not, with its charming star-like flowers of purest blue. Being of easiest culture, it should be included in every garden. Its dwarf growth makes it suitable for edging, pot-culture, growing in beds, and rock gardens.

1490 Palustris semperflorens This is the true Marsh Forget-Me-Not which blooms continuously throughout the blooming season. The purity of its blue flowers is amazing. For moist soil. Pkt. 15c; 1/8 oz. 50c. 1/4 oz. 85c.

1491 Royal Blue A fine variety of the alpine Forget-Me-Not, with deep indigo-blue flowers. The plants are of upright growth, about 1 ft. tall. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

1492 Alpestris Blue Lovely light blue flowers completely covering the plants during the spring; 1 ft. tall. Succeeds both in sun and semi-shade. Does best in a cool, moist soil. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

Four O'Clock—*Marvel of Peru*

A free blooming annual which may be used for bedding, for a temporary foundation planting, or for a low hedge. The flowers open in the early afternoon, and remain open throughout the night.

1457 Tom Thumb Varieties Mixed Dwarf, compact, bushy plants with many brilliantly colored blooms. Pkt. 10c; 1/2 oz. 20c; 1 oz. 30c.

1458 Hybrids, Finest Mixed Crimson, violet, yellow, and white flowers during summer and fall. Pkt. 5c; oz. 20c; 2 oz. 35c.

- Datura, see Trumpet Flower**
- Dianthus, see Pinks**
- Didiscus, see Blue Lace Flower**
- Dimorphotheca, see African Daisy**

Dusty Miller—*Centaurea*

1215 Gymnocarpa Attractive plants with finely divided silvery foliage and light lavender flowers during summer and fall. Especially fine for edgings, beds, rockeries, window boxes, and urns. Pkt. 10c; 1/4 oz. 30c.

Eschscholtzia, see California Poppy

Euphorbia

Ornamental foliage plants, desirable for beds and borders. Sow where to bloom as it does not transplant satisfactorily.

1328 Heterophylla (Fire on the Mountain) This resembles Poinsettia, having top-leaves marked with brilliant scarlet. 2 1/2 to 3 ft. tall. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

1329 Variegata (Snow on the Mountain) The top-leaves are attractively marked with broad white bands. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 35c.

Dahlias from Seed

Growing Dahlias from seed is a most fascinating and interesting hobby. You will enjoy the surprise of new colors and forms, many of which may represent true exhibition varieties. Of easiest culture.

1274 Extra Choice Large Double Flowering Dahlias, Mixed A fine assortment of giant Dahlias, the seed of which has been saved from choice specimens of the standard and leading varieties. All the various types known among Dahlias are represented. Pkt. 15c; 1/16 oz. 40c; 1/8 oz. 75c.

1275 Double Cactus Dahlias, Mixed Large, graceful flowers with pointed, somewhat twisted petals carried on slender, wiry stems well above the rich green foliage. Pkt. 20c; 1/16 oz. 55c; 1/8 oz. \$1.00.

1277 Decorative Dahlias, Mixed Massive blooms composed of broad, loosely arranged petals. This type has a tendency to vary slightly. An ideal Dahlia. Pkt. 15c; 1/16 oz. 40c; 1/8 oz. 75c.

1276 Extra Fine Double Flowering Dahlias, Mixed This is a splendid mixture comprising many fine varieties. The seed has been collected from only perfectly double flowers. Pkt. 10c; 1/16 oz. 35c; 1/8 oz. 60c.

1278 Exhibition Strain The seeds offered in this mixture have been obtained by hand pollination from the best giant-flowering named varieties. Unequaled by any other strain. Pkt. \$1.00; 3 Pkts. \$2.50.

1279 Pompon Dahlias, Mixed Medium tall plants, covered with small button-like flowers in many colors. Pkt. 20c; 1/16 oz. 55c; 1/8 oz. \$1.00.

Gaillardia—Blanket Flower

A gay bedding plant with large, colorful flowers in yellow, orange, red, mahogany, and also bi-colors. They are carried on long stems excellent for cutting. Blooms during summer and fall.

1338 Lorenziana, Mixed Ball-shaped flowers composed of innumerable tubular florets in many artistic shades of yellow, orange, and claret. Furnishes a constant supply of fine blooms. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

1339 Single, Fine Mixed Charming large Daisy-like flowers. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 30c.

Gladiolus

1355 Large Flowering Hybrids, Finest Mixed Mammoth flowers on long substantial spikes in fine shades of creamy white, lemon, yellow, salmon, red, crimson, and lavender. Many will bloom from seed the first year if sown early in the spring. Pkt. 10c; 1/2 oz. 30c; 1/4 oz. 50c.

Gladiolus Bulbs, see page 94

Globe Amaranth, see Everlastings

Gypsophila, see Baby's Breath

Helianthus, see Sunflowers

Helichrysum, see Everlastings

1380 Heliotrope, Choice Mixed

Heliotrope—Cherry Pie

The delightful fragrance and the beauty of Heliotrope have made it one of our foremost bedding and pot-plants. It is easy to grow and thrives in a rich, deeply worked soil, and where it gets sunlight all day long.

1375 Lemoine's Giant Hybrids Sturdy plants with immense fragrant flower heads and rich green foliage. The colors range from white, through many shades of violet and purple. Pkt. 15c; 1/8 oz. 45c; 1/4 oz. 75c.

1380 Choice Mixed Large flower-trusses borne on strong stems well above the foliage. A fine assortment of lavender, blue, and violet tones. Pkt. 10c; 1/8 oz. 45c; 1/4 oz. 75c.

Annual Hollyhock

1385 Everblooming, All Colors Mixed The outstanding feature of this lovely Hollyhock is that the plants if sown early will bloom the first year from seed. The flowers are produced on long sturdy spikes 5 to 6 ft. tall. They come in many artistic shades, and single, semi-double, and double forms. If given protection, the plants will survive the hardships of the winter. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 45c.

Hunnemannia,

See Santa Barbara Poppy, page 76.

Ice Plant

1400 Mesembryanthemum crystallinum A remarkable plant of dwarf spreading growth suitable for growing in pots and outdoors. It is grown for its interesting foliage which appears as if covered with a coating of ice. The small flowers are either white, or light pink. Fine for the rockery. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1401 Impatiens, Large Flowering Hybrids

Impatiens—Sultan's Balsam

1401 Large Flowering Hybrids A remarkably free blooming and charming annual for both pot culture and bedding. Exquisite shades of pink, salmon, orange, crimson, violet, and also white. Thrives in sun or semi-shade. Height 18 in. Pkt. 15c; 1/32 oz. 85c; 1/16 oz. \$1.50.

1417 Kochia, Giant Christmas

Kochia

Burning Bush, Summer Cypress

1417 Giant Christmas An ornamental foliage plant, forming well-rounded oval bushes of perfect regularity. Unsurpassed for annual hedges, specimen plantings, centerpieces of beds, etc. Turns crimson-purple late in the fall. Height 3 ft. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 30c.

Lantana

1418 Finest Hybrids, Mixed Attractive plants with Verbena-like clusters in yellow and orange shades. For beds, pots, and baskets. 18 in. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

Lobelia

Neat, dwarf plants for edgings, beds, and window boxes. 4 to 6 in. tall.

1430 Crystal Palace Compacta Deep blue flowers, bronzy purple foliage. Pkt. 10c; 1/8 oz. 45c; 1/4 oz. 75c.

1432 Mixed Varieles Light and dark blue shades. Very pretty. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

Larkspur

Few other flowers are better adapted to give a rich color effect than Larkspur with its long spikes of fine double flowers. Splendid for mass planting in the garden and cutting. Prefers full sun.

1419 Dark Blue Large double blooms of a rich pure blue color closely set on long spikes. Combines well with the other colors offered. Very showy. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1420 Exquisite Tall majestic spikes on fine upright growing plants studded with large double flowers of an unusually soft yet rich pink shade. Pkt. 15c; 1/4 oz. 35c; 1/2 oz. 60c.

1421 Carmine Attractive, well branched plants, sending forth a large number of long substantial spikes of rich carmine double flowers. Often combined with Dark Blue and White Spire to represent our national colors. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1422 Light Blue Blue shades are always welcome in the garden and this excellent variety with its perfect long spikes of large double flowers is indispensable. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1426 Rose An intense shade of rich rose. The massive spikes of fine double blooms are produced freely and abundantly. One of the best. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1428 La France Immense long trusses of dainty salmon-pink flowers which are fully double. Should be included in every order. Very free blooming. Pkt. 15c; 1/4 oz. 30c; 1/2 oz. 50c.

1424 Mixed Colors This mixture has been prepared with the utmost care so as to give a harmonious color effect. All imaginable shades and hues ranging from pure white, through pink, rose, salmon, to deep blue. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1435 Giant Imperial, White Spire Gorgeous large spikes of pure white flowers. Pkt. 15c; 1/4 oz. 35c; 1/2 oz. 60c.

1433 Giant Imperial, Gloria New! Rich deep rose blooms forming huge flower spikes on strictly upright growing plants of base branching habit. Pkt. 30c; 1/4 oz. 60c; 1/2 oz. \$1.10.

1434 Giant Imperial, Peach Blossom A novelty which is sure to become a leader among Larkspur. Massive spikes of rich peach-blossom-pink. Pkt. 30c; 1/4 oz. 60c; 1/2 oz. \$1.10.

1423 Giant Hyacinth Flowered, Mixed An interesting type of Larkspur, producing large tapering spikes closely set with fine double flowers. It is ideal for bedding and cutting. Succeeds in any well-drained garden loam exposed to full sun. The colors include white, and various shades of pink, rose, blue, lavender, and striped. Pkt. 10c; 1/4 oz. 35c; 1/2 oz. 60c.

1420 Larkspur, Exquisite

4150 Collection of

Four Beautiful Larkspurs

One Pkt. each of Carmine, Dark Blue, Light Blue, and White Spire. (value 40c) for only **25c**

Love in a Mist, see *Nigella*, page 72

Annual Lupine

Lupines are unexcelled for a glorious garden display. The plants grow well in a neutral soil, producing masses of long spikes studded during July and August with pea-like flowers. Fine for cutting. Height 1 1/2 to 2 ft.

1444 Annual Mixed Lovely spikes with white, pink, rose, and blue flowers. Pkt. 10c; 1/2 oz. 25c; oz. 45c.

1443 Hartwegii, New Giants Mixed New! Larger, more beautiful flowers on strong plants, 3 to 4 ft. tall. Pkt. 35c; 1/4 oz. \$1.00; 1/2 oz. \$1.75.

Marvel of Peru, see Four O'Clock

Mignonette—Reseda

A well known, delightfully scented flower, recalling to us the gardens of our childhood days. Thrives in moderately moist, sandy soil in full sun.

1465 Red Gollath Glorious massive spikes of sweet-scented, rich red florets in great profusion. Height, 1 ft. Pkt. 10c; 1/4 oz. 40c; 1/2 oz. 70c.

1474 Finest Mixed Large flower spikes produced freely. Fine colors. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 30c.

Mimulus—Monkey Flower

1478 Tigridus Grandiflorus Large spotted and tigered flowers of tubular form on compact bushes, 6 in. tall. Fine for borders and a good pot-plant. Pkt. 10c; 1/16 oz. 25c; 1/8 oz. 40c.

Myosotis, see Forget-Me-Not

Nicotiana, see Flowering Tobacco

Marigold—Tagetes

1456 Marigold, Tall African, Double Mixed

For a garden display from early summer until late in the fall and an unlimited supply of cut flowers Marigold cannot be excelled. It is quite modest in its requirements, growing to perfection in any well drained garden soil exposed to the sun. The tall sorts are effective in the border; the dwarf varieties lend themselves admirably to bedding and edging.

Tall African

1453 Lemon Ball Large ball-shaped double flowers on plants 2½ ft. tall. The color is a rich lemon-yellow which contrasts beautifully with the dark green foliage. Pkt. 10c; ½ oz. 25c; ¼ oz. 45c.

1454 Orange Ball Huge double well-rounded flowers of a bright orange borne on long stiff stems well above the beautiful foliage. Pkt. 10c; ½ oz. 25c; ¼ oz. 45c.

1456 Double Mixed A well blended mixture of orange and yellow varieties. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

1455 Guinea Gold

Carnation Flowered Marigold

1455 Guinea Gold This outstanding novelty is a worthy addition to the assortment of Marigolds. It is quite a departure from the old type with large flowers composed of loosely arranged, broad, somewhat frilled petals not unlike those of Carnations. The color is a bright rich golden orange. When in full bloom, the compact well-rounded bushes, growing 2 to 2½ ft. tall, appear like overcast with gold. A plant in full bloom is a sight not easily forgotten. Pkt. 15c; ¼ oz. 60c.

Dwarf African

1448 Pride of the Garden Similar to the Tall African type, but of dwarf growth with fine double flowers measuring 2 in. across. Whether used for bedding or for cut flowers it will always be found satisfactory. Yellow and orange shades. 15 in. Pkt. 10c; ¼ oz. 35c; ½ oz. 60c.

Dwarf French

1450 Golden Ball Neat compact round bushes, 1 ft. tall, producing a wealth of bright golden yellow double flowers during the summer and fall. Highly valued for bedding, edgings, and pot-growing. Pkt. 10c; ¼ oz. 25c.

1451 Legion of Honor (Little Brownie) Rich golden yellow single flowers attractively marked mahogany-brown toward the center. One of the finest for borders because of its wealth of blooms. 12 in. Pkt. 10c; ¼ oz. 25c.

1452 Double Mixed

Here is a mixture of Dwarf French Marigolds which has been blended for a rich color effect. We believe it will please you. It contains beautiful shades of yellow, orange, mahogany, brown, and combinations of these. The neat, compact plants are of even height and habit, growing but 1 ft. tall. Pkt. 5c; ¼ oz. 20c; ½ oz. 30c.

1452 Dwarf French Double Mixed

4151 Collection of Three Magnificent Marigolds

This collection contains one Pkt. each of Lemon Ball, Orange Ball, and Guinea Gold, (value 40c) for only... **25c**

Nasturtium

Nasturtiums are annuals of the easiest culture. They develop to perfection in any well-drained soil even if quite poor. They are free and continuous bloomers and come in a great variety of colors. Sow the seeds as early in the spring as the ground can be worked into a mellow condition, choosing an open, sunny location.

1565 Maule's Champion Dwarf Mixture

Dwarf Varieties (1 ft.)

Of attractive growth, forming neat well-rounded mounds which are covered with brightly colored blooms from mid-summer until fall.

1531 Dwarf Beauty Glowing orange flowers beautifully marked with scarlet. Pkt. 10c; oz. 20c; ¼ lb. 65c.

1532 Cherry Rose A gorgeous variety with rich cherry-rose blooms. Very lovely. Pkt. 10c; oz. 20c; ¼ lb. 65c.

1533 King Theodore Crimson flowers produced freely in masses on compact plants. Pkt. 10c; oz. 20c; ¼ lb. 65c.

1534 Pearl Large flowers of a dainty light lemon-yellow shade. Pkt. 10c; oz. 20c; ¼ lb. 65c.

1558 Dwarf or Tom Thumb, Finest Mixed Beautiful, rich colors. Pkt. 5c; oz. 20c; ¼ lb. 65c.

1565 Maule's Champion Dwarf Mixture Extra large flowers. Pkt. 10c; oz. 25c; 2 ozs. 40c.

4153 Collection of Dwarf Nasturtiums

One Pkt. each of the above four named varieties (value 40c) for only... **25c**

Tall Varieties

The robust growing plants are effective in the border and will prove most satisfactory if used as a ground cover.

1527 Midnight Deep, mahogany-red flowers of unusual size and beauty. Pkt. 10c; oz. 20c; ¼ lb. 60c.

1528 Spiffire Large, well formed flowers of a luminous scarlet-red. Pkt. 10c; oz. 20c; ¼ lb. 60c.

1529 Sunlight Golden yellow flowers of largest size, well formed. Pkt. 10c; oz. 20c; ¼ lb. 60c.

1530 Twilight One of the finest with delicate salmon blooms. Pkt. 10c; oz. 20c; ¼ lb. 60c.

1535 Tall Climbing, Choice Mixed Many fine colors properly blended. Pkt. 5c; oz. 15c; ¼ lb. 45c.

4152 Collection of Tall Nasturtiums

One Pkt. each of the above four named varieties, (value 40c) for only... **25c**

Nigella—Love in a Mist

1577 Miss Jekyll Sky-blue double flowers nestled among finely-cut foliage. Pkt. 10c; ¼ oz. 20c; ½ oz. 30c.

1575 Hispanica, Mixed Large single flowers in white and violet-red. Pkt. 5c; ¼ oz. 15c; ½ oz. 25c.

Oxalis—Wood Sorrel

1583 Mixed Beautiful bright little plants with attractive leaves and flowers. Half trailing in habit. Suitable for hanging baskets, vases, etc. Pkt. 10c; 1/16 oz. 40c; ½ oz. 70c.

Maule's Giant Pansies

1614 Maule's
Prize Mixed
Giant Pansies

1614 Maule's Prize Mixed Giant Pansies

Mammoth size flowers, 2½ to 3 in. in diameter, of perfect form, heavy substance, and borne on long stems—these, in brief, are the main features of this extraordinary mixture. It embraces an endless variety of the most beautiful colors in both soft and rich shades. You will find the finest self colors including, white, yellow, pink, rose, blue, purple, and the rare, desirable red shades. Others have clearly defined mahogany-brown eyes, and still others are attractively veined and bordered with contrasting colors. While some flowers are wide and flaring, others have attractively waved petals of graceful appearance. Each year we follow closely the new creations introduced by Pansy specialists from all over the world and secure everything truly meritorious, disregarding cost, for adding into this mixture. This insures our customers of obtaining the very best Pansies in existence. Pkt. 25c; 1/16 oz. 85c; ½ oz. \$1.60.

1600 Maule's Giant Phenomenal This lovely mixture has not lost its appeal ever since we introduced it to the American public years ago. We have continually improved upon it, and thousands of our friends now know and greatly admire these lovely flowers. The strain originated in France, and consists of only the largest, choicest, and most "phenomenal" specimens that could be selected. Phenomenal Pansies come in a wide range of most exquisite colors and color combinations, including those captivating wine-red shades so rare among Pansies. We urge everyone to include a packet or two in his order. Pkt. 15c; 1/16 oz. 40c; ½ oz. 70c.

1600
Maule's
Giant
Phenomenal

1594 Oregon Giants, Mixed As implied in the name, this strain is of American origin. It has truly giant flowers of a size heretofore unknown in Pansies. The fine broad petals are somewhat more flattened than those of most other strains, which accounts for the large size of the blooms. Specimen flowers, 4 in. across, carried upright on strong stems, are not unusual. A wide range of charming colors. Pkt. 40c; 1/16 oz. \$1.00; ½ oz. \$1.85.

1595 Giant Ruffled Masterpiece Each flower is a masterpiece in itself. While not extremely large, they are of very lovely form and should be grown still more extensively. The petals are of good heavy substance and so heavily ruffled as to appear almost double. The colors are marvelous, and come in as fine shades as can be found in Pansies only. A profuse blooming type. Pkt. 10c; 1/16 oz. 50c; ½ oz. 75c.

1610 Swiss Giant Mixed (Roggli Hybrids) These magnificent giant Pansies created a sensation when first offered. They are the result of most careful single plant selection made by a foremost Pansy grower in Switzerland. The blooms are extremely large and contain so much substance as to be crinkled and fluted in a most artistic manner. The colors run towards the deeper, richer, and rarer shades. A magnificent everblooming variety. Pkt. 35c; 1/16 oz. \$1.00; ½ oz. \$1.85.

1602 Giant Trimardeau, Finest Mixed In addition to the beautiful blotched, eyed, and edged varieties, you will find in this splendid mixture a greater number of self colored blooms than in any other strain. Pkt. 10c; 1/16 oz. 20c; ½ oz. 35c.

1634 Extra Fine Mixed For those who do not particularly care for the newest and most expensive strains, we have prepared a mixture which is not only exceptionally colorful but contains fine large flowering specimens. If planted in beds or borders it will make a fine show and provide many cut flowers. Pkt. 10c; ½ oz. 30c; ¼ oz. 50c.

1612 Giant King of the Blacks Black is a most unusual color with flowers. Our strain of this variety has been carefully re-selected for flowers of rich satiny black. Pkt. 10c; ½ oz. 35c; ¼ oz. 60c.

1623 Giant Golden Yellow Pure golden yellow flowers without even the faintest trace of markings. The substantial flowers are of large size. Combines well with King of the Blacks and Snow Queen offered here. Pkt. 10c; ½ oz. 35c; ¼ oz. 60c.

1631 Giant Snow Queen A fine giant-flowered pure white variety. It blooms profusely and makes a wonderful display in solid beds. The rich green foliage provides a fine background for the flowers. Pkt. 10c; ½ oz. 35c; ¼ oz. 60c.

1598 Giant Madame Perret One of the finest Pansies, comprising lovely soft and rich apple blossom shades, and also wine-red colors in varying degrees. Some blooms show attractive markings of a light purple. Broad, well rounded flowers. Pkt. 10c; ½ oz. 35c; ¼ oz. 60c.

4156 Collection of Four Giant Pansies

The four varieties which we have selected for this collection are all extremely beautiful. Their colors harmonize exceptionally well.

1612 Giant King of the Blacks 1631 Giant Snow Queen
1623 Giant Golden Yellow 1598 Giant Madame Perret

One Pkt. each of the four above separate varieties, (value 40c) for only

25¢

Maule's Superb Petunias

A garden without Petunias is hard to conceive. The brilliant colors and beautiful forms found in this outstanding annual have given it a foremost place everywhere. They are of easy culture and bloom very freely even without receiving much attention when once established. Petunias are ideal, not only for garden display, but also for growing in pots, window boxes, or urns. They produce a mass of flowers from early summer until killed by frost.

1638 Ruffled Giants

For size and beauty this giant ruffled type is unequalled. The flowers measure often 5 in. or more across. They are attractively ruffled or fringed and come in the most superb colors and shades, ranging from pure white through pink, salmon, rose, crimson, carmine, lavender, and blue, to deep purple. All have deep, wide, light or dark throats attractively veined with contrasting colors. Pkt. 25c; 1/128 oz. 70c; 1/64 oz. \$1.25.

1636 Extra Large Double Flowering Mixed For many years we have made a specialty of this double flowering strain, constantly improving it by selection and hybridizing. The seed which we offer for sale has been obtained by hand pollination, and produces a high percentage of gorgeous, plain-edged or fringed double flowers, the small balance being choice, large, single flowers of extra fine quality. We suggest to carefully save apparently weak looking plants with crumpled foliage as these usually produce the best double flowers. Pkt. 35c; 1/128 oz. \$2.50; 1/64 oz. \$4.75.

1638 Petunia Ruffled Giants

1644 Petunia, Balcony Rose

Balcony Petunias

Balcony Petunias make a grand display in beds, borders, and window or porch boxes. They develop long branches with large, brilliantly colored flowers, 3 in. in diameter. When in full bloom the plants are so heavily loaded with flowers as to completely hide the foliage

- 1641 Balcony Blue
- 1643 Balcony Crimson
- 1644 Balcony Rose
- 1659 Balcony White

Any of the above colors:

Pkt. 10c; 1/32 oz. 35c; 1/16 oz. 60c.

1660 Balcony Mixed An excellent mixture of the above four pleasing colors which we know will give a fine effect. Pkt. 10c; 1/16 oz. 45c; 1/8 oz. 75c.

1639 Star of California A magnificent new Petunia of the Balcony type. The strong-growing plants form extra long branches which are covered with large well-rounded flowers. The color is a velvety violet relieved by a large five-pointed white star which gives a glorious contrast to the flowers. Very showy. Pkt. 15c; 1/32 oz. 45c; 1/16 oz. 75c.

4159 Collection of

Balcony or Large Bedding Petunias

One Pkt. each of Balcony Blue, Balcony Crimson, Balcony Rose, and Balcony White, (value 40c) for only **25c**

1649 Single Large Flowered, Mixed

This is an exceptionally fine strain with exquisite large well-rounded flowers which average 3 to 4 in. in diameter. The color range is really amazing, including, besides many self-colors, blotched and veined varieties as well as many showy color combinations. The flower petals are plain edged. Profuse bloom ing. Pkt. 20c; 1/32 oz. 70c; 1/16 oz. \$1.25.

1645 Single Fringed Varieties, Mixed

While not quite so large or fluted as "Ruffled Giants," this lovely type is not less desirable. The fine flowers, which are of striking beauty, are produced freely. They have daintily fringed petals. This strain includes many fine and rich colors. May be used in beds and borders, but also makes fine pot plants. Pkt. 15c; 1/128 oz. 70c; 1/64 oz. \$1.25.

1632 Giant Elk's Purple

The rich deep velvety purple flowers which give a wonderful contrast to the attractive green foliage are of such beauty that we decided to add this variety to our catalog. The individual flowers are of extra large size and heavy texture. We consider this the finest purple Petunia ever introduced. It should be in every garden. Pkt. 25c; 1/128 oz. 70c; 1/64 oz. \$1.25.

Bedding Petunias

1635 Rosy Morn Small, light rose-pink flowers with a white throat produced in masses on upright plants, 18 in. tall. Pkt. 10c; 1/16 oz. 35c; 1/8 oz. 60c.

1646 Belle Etoile A showy, freely blooming variety. The flowers are beautifully starred and blotched. Exceptionally fine for beds. 18 in. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 70c.

1642 General Dodds Velvety dark crimson flowers on well branched plants. An unusual color with Petunias. Height, 18 in. Pkt. 10c; 1/16 oz. 30c; 1/8 oz. 50c.

1648 Best Hybrids, Mixed A rich all-around mixture containing a large number of striped and blotched flowers. 18 in. Pkt. 5c; 1/8 oz. 30c; 1/4 oz. 50c.

1640 Dwarf Bedding

Mixed Contains a wide range of fine rich colors. The attractive plants are very effective in beds. 12 in. tall. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 70c.

1637 Rose of Heaven Deep rose flowers borne freely on compact, erect-growing plants, 12 in. tall. This is considered one of the finest bedding Petunias ever introduced. Of great beauty. Pkt. 10c; 1/16 oz. 30c; 1/8 oz. 50c.

1647 Howard's Star For those who give preference to starred varieties, we heartily recommend this outstanding Petunia. The large flowers are deep crimson, many of them showing a clearly defined five-pointed white star. Varies slightly. 18 in. tall. Pkt. 10c; 1/16 oz. 30c; 1/8 oz. 50c.

1663 Burpee's Blue A rich clear ultramarine-blue, free from any purplish cast or pink tint. The flowers measure 2 1/2 to 3 1/2 in. across. They are borne with the greatest freedom on strong plants. Pkt. 15c; 1/32 oz. 40c; 1/16 oz. 70c.

1640 Petunia, Dwarf Bedding Mixed

4160 Collection of Four Lovely Bedding Petunias

One Pkt. each of General Dodds, Rose of Heaven, Rosy Morn, and Howard's Star, (value 40c) for only **25c**

1650 Phlox, Rose

Annual Phlox

Texan Pride

The brilliance of its colorful blooms which are produced all during the summer and fall have made Phlox one of the most popular flowers. It is of attractive, bushy growth, well suited for bedding. The plants are literally covered with blooms which are carried in large heads on stems just fine for cutting. Height 1 ft.

4161
Collection of
Annual Phlox
Contains one pkt. each
of Scarlet, Apricot
Violet and White
(value 40c) **25¢**
for only.....

1650 Rose A rich, appealing color of unusual beauty. The individual blooms measure about an inch across, and show a well defined, star-like center which adds considerably to their charm. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1651 Scarlet A solid bed of this variety is sure to arouse the envy of your neighbors. The color is a dazzling scarlet which stands out prominently in the garden. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1652 White Large globular heads composed of masses of glistening pure white flowers. At our growing stations, a field of this variety in full bloom appears like covered with freshly fallen snow. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1655 Apricot This is one of the loveliest colors found in annual Phlox. The flowers are bright chamois-rose, with a white eye in the center. Blooms profusely. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1656 Primrose Immense trusses of light primrose-yellow flowers with a faint trace of buff. A color which may be used to advantage in connection with violet described below. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1657 Violet The richness and the purity of color, as well as the large size of the flower heads and individual blooms, make this one of the finest varieties in this class. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1654 Finest Mixed, Large Flowering The above colors, and many fine others carefully blended. Pkt. 10c; 1/8 oz. 20c; 1/4 oz. 35c.

1658 Star of Quedinburg, Finest Mixed An unusually fine variety with starred and fringed flowers. It includes pink, rose, deep red, and scarlet flowers all of which are more or less bordered with white. Attractive in beds and borders, and quite unique as cut flowers. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

Poppy—Papaver

The colorful blooms of Poppies will greatly add to the appearance of your garden, either grown in beds or in the border. They are also suitable for vases if cut when the buds just begin to open. Sow early in the spring, as soon as the ground can be worked, in an open sunny location in fairly rich soil which must not contain fresh manure. When large enough, thin to stand 1 ft. apart in the row.

1673 Poppy Double Carnation. Flowered, Mixed

1673 Double Carnation Flowered, Mixed Colors Includes white, pink, rose, salmon, scarlet, slate-blue, and purple. 3 ft. Pkt. 10c; 1/4 oz. 15c; oz. 40c.

1677 Maule's Hybrid Poppy Double flowers in white, pink, salmon, orange, scarlet, and crimson, some edged white. 18 in. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1672 Improved Shirley, Mixed Colors White, pink, salmon, rose, and scarlet flowers with yellow stamens. 18 in. Pkt. 5c; 1/4 oz. 20c; oz. 50c.

1688 Feather Ball, Mixed Colors Large globular double flowers with feathery petals in many exquisite shades. 2 ft. Pkt. 10c; 1/4 oz. 25c; oz. 70c.

25c Will Buy
any 6 five-cent packets; or any 3 ten-cent packets; or any 2 fifteen-cent packets of either flower or vegetable seeds, or both if you wish.

Portulaca—Rock Rose, Sun Plant, Rose Moss

1696 Portulaca, Single Mixed

What could be prettier in a bed, border, or rock garden than this lovely attractive plant with its fine large flowers and gay colors? It is so easy to grow and modest in its requirements. Give it full sun and a well drained, rather dry, or even stony soil, and it will unfold its masses of flowers anew every day throughout the summer and fall. 4 in. tall.

1696 Single Large Flowered, All Colors Mixed Extra large flowers in white, buff, salmon, orange, red, and other fine shades. The fleshy plants have light green, needle-like foliage. Pkt. 5c; 1/8 oz. 15c; 1/4 oz. 25c.

1697 Double Large Flowered Mixed, All Colors A wonderful strain producing masses of fine double flowers not unlike small Roses, in most brilliant colors. A bed of this mixture will add great charm to your garden. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 70c.

1307 Pinks, Lucifer

Pinks—Dianthus

1305 Heddwigii, Single Mixed A profusion of large single flowers, 2 or 3 in. across, borne singly on strong stems during the summer and fall. The individual flower petals are either plain or laciniated. A splendid assortment comprising many fine colors and color-combinations. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

1294 Heddwigii, Double Mixed Contains many marvelous shades, ranging from white to rich crimson, some laced or striped. The flowers are borne singly on stiff stems. For bedding and cutting. 12 in. Pkt. 10c; 1/8 oz. 20c; 1/4 oz. 30c.

1307 Lucifer (Double Fringed) Beautiful brilliant orange-scarlet flowers, nearly 2 in. across, on long stems. Used for either bedding or cutting. It is very showy. Height 12 in. Pkt. 10c; 1/4 oz. 40c; 1/2 oz. 70c.

1306 Mourning Cloak Large double flowers, composed of dark mahogany-red, fringed petals all of which are attractively edged white. A variety sure to appeal to everybody. 12 in. tall. Pkt. 10c; 1/4 oz. 35c; 1/2 oz. 60c.

Salvia—Flowering Sage

Few other flowers are so extensively used for bedding and general garden display than the colorful Scarlet Sage. Its long showy spikes of bright dazzling scarlet flowers are borne with the greatest freedom well above the rich dark green, leathery foliage. They are beautiful beyond description. The dwarf varieties are particularly fine for beds and pot growing.

1722 *Salvia, Drooping Spikes*

1722 Drooping Spikes This splendid *Salvia* is distinct from the other varieties we offer. The flower spikes are extra long and heavily loaded with flowers. They bend under their own weight, as shown in the illustration above. This gives the spikes a graceful arching appearance. The color of the flowers is a brilliant scarlet-red. 2½ ft. Pkt. 15c; ¼ oz. 75c; ½ oz. \$1.35.

1723 Bonfire Where a bold effect is desired, Bonfire surely will answer the purpose. The sturdy plants grow 2 ft. tall, forming well rounded, rather compact bushes of even height. The long, stately spikes carry clear above the foliage large and showy flowers of glowing scarlet-red. When in full bloom the dark green foliage is completely hidden. Pkt. 10c; ½ oz. 50c.

1724 America or Globe of Fire An attractive variety, not over 15 in. tall, which makes it a foremost bedding plant. The shining scarlet flower spikes come into bloom very early in the season. Pkt. 15c; ½ oz. 75c; ¼ oz. \$1.35.

1733 Mixed, All Colors Most gardeners are acquainted only with the scarlet varieties of Sage, but there are also some interesting other colors such as flesh-pink, salmon, carmine, purple, etc. These, together with some scarlet varieties, have been carefully blended for a wonderful color effect. Pkt. 10c; ½ oz. 50c; ¼ oz. 90c.

1727 Farinacea This is the so-called "Mealy-Sage." It forms sturdy well-branched plants 2½ ft. tall, towered by slender spikes of frosted appearance, set with rich lavender-blue flowers. Fine for cutting. The plants will live over winter if covered with strawy manure or litter. Pkt. 10c; ¼ oz. 50c.

Santa Barbara Poppy
Hunnemannia

1682 Fumariaefolia A beautiful flower with crinkled petals, combining so many good features that it should be given a place in every garden. The intense yellow flowers are 2½ in. across. They are produced incessantly from early summer until frost. The long horn-like seed pods add an interesting touch to the plants and never will you find a wilted flower to mar the beauty of the bed. Pkt. 5c; ¼ oz. 25c; ½ oz. 40c.

1682 *Santa Barbara Poppy*

4193 Collection for Porch and Window Boxes

This collection contains one Pkt. each of the four varieties:

Impatiens	value
Balcony Petunias, Mixed	40c
Thunbergia	25c
Vinca, Mixed	

Scabiosa—Pincushion Flower

1742 *Scabiosa, Double Mixed*

Scabiosa furnishes an endless supply of cut flowers from midsummer until fall. You can cut masses of them every day; and the more you cut the more freely they will bloom. Do not allow seed pods to form as the plants will cease flowering. Our strains represent the finest that can be had anywhere, producing large round flowers 2½ in. across. The plants average 3½ ft. in height and are fine for beds and borders.

1736 Shasta A grand white Scabiosa of recent introduction. The enormous, well rounded flowers are carried on long wiry stems. We consider this the finest pure white Scabiosa ever introduced. Very showy. Pkt. 10c; ¼ oz. 35c; ½ oz. 60c.

1735 Black This is a particularly good variety with enormous, globular flowers. The color is deep mahogany-red with a velvety black cast. The contrasting white pistils create a pin-cushion-like effect. Pkt. 10c; ¼ oz. 30c.

1737 Peachblossom Immense double flowers of a rich clear peach blossom pink. They are produced in great profusion and are unsurpassed for cutting, lasting a long time in water. Pkt. 10c; ¼ oz. 35c; ½ oz. 60c.

1739 Red This is an old standby. Our improved strain produces flowers of largest size and exquisite form. The color is a wonderful rich red of great appeal. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

1740 Azure Fairy A favorite variety with both professional and home gardeners. The immense clear azure blue flowers of our re-selected strain are well rounded and measure 2 to 2½ in. across. Very desirable. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

1730 Loveliness A charming Scabiosa of recent introduction. The color is a beautiful shade of salmon-rose, a color quite new in Scabiosa. The large flowers make an attractive show wherever planted. Pkt. 15c; ½ oz. 35c; ¼ oz. 60c.

1732 Sulphur Yellow Clear sulphur-yellow flowers borne profusely on sturdy plants. The flowers do not quite reach the size of those of the other varieties offered, but they are an exceptionally fine color. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

1734 Rose The large flowers are a rich warm shade of rose. They measure 2 in. or more in diameter and are produced with the greatest freedom. The plants are well branched and of even height. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

4163 Collection of Four Brilliant Scabiosas

This collection contains one Pkt. each of Shasta, Peachblossom, Azure Fairy, and Black, (value 40c) for only **25c**

1742 Mixed, Large Flowered Double A very pleasing mixture of all the wonderful varieties of Scabiosa offered on this page, and many others, to give a riot of color. This mixture will give you joy throughout the summer and fall. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

Salpiglossis
Velvet Flower

1721 *Salpiglossis, Mixed*

1721 Emperor, Mixed Colors The decorative value of this exquisite flower should not be underestimated. Whether planted in the border or used for cut flowers, it always will arouse admiration. The beautiful large trumpet-shaped flowers are of a velvety texture and come in most beautiful colors which neither artists hush nor pen could adequately portray. Many of them are showily veined with contrasting colors. They are produced on tall slender stems just fine for cutting. Used alone or in connection with other summer flowers it will give lovely bouquets. Start the seeds indoors early in the spring or outdoors when the nights have become warm. Transplant to stand not less than 1 ft. apart. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

Sand Verbena—Abronia

894 Umbellata Trailing plants with fragrant Verbena-like rosy pink flowers. For borders and rockeries. Likes dry soil. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

Schizanthus—see *Butterfly Flower*, page 67
Scotch Marigold—see *Calendula*, page 68

Maule's Exquisite Snapdragons—*Antirrhinum*

Maximum—New Giants

Within recent years Snapdragons have been greatly improved in regard to size of the flowers, beauty of color, and length of the stems. This new giant type with its tall massive spikes of exquisite large blooms is the finest that can be had today. Unsurpassed for growing in beds and borders, or for cutting. Suited for growing under glass. 3 ft. tall.

933 Giant Snapdragon, The Rose

927 Apple Blossom Long sturdy spikes closely set with large flowers of a delicate apple-blossom pink, relieved by a yellow lip. The plants are of vigorous growth, producing their flower spikes freely. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c.

931 Fire Flame Bright fiery red with a suffusion of deep orange and a scarlet glow. The flowers are of largest size and are gracefully placed on the long stems. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c.

933 The Rose A pleasing shade of rose-pink and yellow, blending into a beautiful rose. The blooms are large, well formed, and make a massive spike. An excellent variety for cutting. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c.

934 Snowflake Enormous spikes of large, creamy white flowers with a soft yellow throat. The plants are of strong growth and make a wonderful garden display. Unequaled for cutting. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c.

4110 Collection of New Giant Snapdragons

This collection contains one Pkt. each of the above nine separate varieties, **85c.** (value \$1.35) for only.....

938 Orchid This lovely variety must be seen to be appreciated. The heavy spikes are closely set with large flowers of a beautiful rich mauve-pink. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c.

943 Canary Bird Elegant spikes of stately appearance. The color of the flowers is rich canary-yellow. The blooms are very large. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c.

947 Sunnybrook A charming variety of great appeal. The bright flowers are a blend of deep golden yellow, salmon, and light orange. Giant blooms in massive spikes. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c.

951 Ruby A distinct shade of deep glowing ruby-red with a velvety finish. The tube is shaded with deep purple-carmine. Excellent for bedding and cutting. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c.

956 Wallflower Tall spikes of a rich deep coppery crimson color not unlike that of Wallflower. Although a rather dark shade, the blooms show life and vivacity. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c.

935 Choicest Mixed Colors This mixture will be found most suitable for a colorful bed or border. It includes the above and some other fine colors, all in a grand mixture. Fine for a generous supply of cut-flowers. Pkt. 15c; 1/16 oz. 30c; 1/8 oz. 50c.

Semi-Tall Varieties

This superb class of semi-tall Snapdragons is unsurpassed for bedding and cutting. The plants average 18 in. in height and are of strong, rather bushy growth. The large flower spikes are closely set with fine blooms.

937 Climax A most attractive variety with rich brilliant orange flowers set off by a contrasting yellow lip. The flowers are of good substance and borne freely. Pkt. 10c; 1/8 oz. 40c.

939 Brilliant Rose Bright rose flowers on elegant long stems. Admirably adapted for bedding and cutting. Strong plants with rich green foliage. Free blooming. Pkt. 10c; 1/8 oz. 40c.

941 Purity An old favorite with lovely glistening pure white flowers on sturdy stems. Combines well with all other varieties offered on this page. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 60c.

944 Firebrand A rich deep scarlet red variety with a distinct fiery glow. The large, well formed flowers are of noble appearance. Fine bedder. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 60c.

949 Philadelphia Pink Considered by many gardeners the finest pure pink Snapdragon in existence. The large blooms are produced freely on sturdy spikes. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 60c.

954 Golden Monarch The foremost yellow Snapdragon in this class. It does not fade with age, always retaining its golden yellow color. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 60c.

940 Snapdragon Semi-Tall Fancy Mixed

940 Semi-Tall Fancy Mixed A well blended mixture containing all of the above and many other fine colors for a complete color range. Fine for bedding and cutting. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

4114 Collection of Four Semi-Tall Snapdragons
One Pkt. each of Climax, Brilliant Rose, Firebrand, and Golden Monarch, (value 40c) for only..... **25c.**

948 Giant Tall Mixed This is a fine mixture of tall Snapdragons with long spikes set with well formed flowers. Though not quite so large as the new giant varieties it will give good satisfaction. For garden display and cutting. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

Maule's Giant Spencer or Orchid-Flowered SWEET PEAS

4 Exquisite New Sweet Peas

1845 Ambition

A remarkably attractive, new variety. The large flowers are well placed in fours on long substantial stems. The color is bright lavender, becoming more intense toward the base of the standard and wings. Pkt. 20c; ½ oz. 50c; oz. 85c.

1858 Fire

Rich flaming red flowers enhanced by a glow of scarlet-cerise. They always are of largest size. Of heavy substance, and remarkably sun-proof. Pkt. 15c; ½ oz. 25c; oz. 45c.

1863 Floradale

Beautiful large and massive flowers of a superb rich salmon-pink on creamy ground. Well frilled, with extra long stems. A vigorous grower. Free blooming. Pkt. 20c; ½ oz. 50c; oz. 85c.

1822 Lompoc

An exceptionally fine new variety for 1933. The color is rich La France pink with a suspicion of salmon. Extra large flowers of good substance. Pkt. 20c; ½ oz. 50c; oz. 85c.

4171 Collection of 4 Exquisite New Sweet Peas

One Pkt. each of the above 4 named varieties (value 75c) for only **50c**

Maule's Extra Fine Sweet Pea Mixtures

1922 Giant Spencer Mixed

For those who do not have the space to grow separate varieties, we have prepared a mixture of the very best, largest flowering Spencer Sweet Peas in existence. The colors range from pure white through all shades of cream, pink, salmon, rose, scarlet, crimson, cerise, lavender, light and dark blue, mauve, and purple to deep mahogany-brown. Each color is represented in such proportion as to give a most gorgeous and complete color effect. Pkt. 10c; ½ oz. 20c; oz. 30c.

1919 Ruffled Giant Spencer Mixture

This mixture is composed of the largest and finest ruffled Sweet Peas, both named varieties and seedlings. It represents the grandest mixture of Sweet Peas to be had. Neither the beauty of the flowers nor their colors can be excelled. You will find many lovely mellow shades vying with the brilliance of the richer colors in a wider range than found in any other class of flowers. Truly beautiful. Pkt. 15c; ½ oz. 45c; oz. 80c.

1899 Grandiflora, Choice Mixed

Although not so large flowered as the Giant Ruffled and Spencer Sweet Peas this type is desired by some gardeners. We offer a complete mixture of all colors and hues. Fine for garden display and cutting. Pkt. 5c; oz. 15c; ¼ lb. 50c.

1805 Lady Ruffles

Five Giant Ruffled Sweet Peas

The latest and most lovely creations

A new type, quite distinct from all other Sweet Peas. The flower petals are so heavily frilled and ruffled as to make the flowers appear almost double. The giant fragrant flowers are produced mostly in fours, well placed on long sturdy stems.

1805 Lady Ruffles

This is new this year. The large, beautifully ruffled flowers are well rounded and of heavy texture. The color is a very appealing shade of soft pink on a white ground. Exceedingly showy. Pkt. 25c; ½ oz. \$1.35; oz. \$2.50.

1846 Fluffy Ruffles

Giant flowers of a lovely rich rose-pink on a creamy ground with a gleam of soft salmon, blending into a charming cream-pink. The petals are heavily ruffled. Pkt. 15c; ½ oz. 30c; oz. 50c.

1906 Ruffled Beauty

An exquisite shade of lilac-pink over an amber ground. The large, massive flowers are borne freely on strong healthy plants. Long stemmed, and well ruffled. Pkt. 15c; ½ oz. 45c; oz. 80c.

1911 Ruffled Orchid

Rich lavender-pink—a shade typical of Cattleya Orchids. The immense flowers are daintily frilled and ruffled; they are gracefully arranged on long stems. A very attractive, free blooming variety. Pkt. 15c; ½ oz. 45c; oz. 80c.

1900 Ruffled Rose

The color of this outstanding ruffled variety is a rich shade of rose overlaid with a salmon sheen, which adds greatly to its beauty. The flowers are of heavy substance. Pkt. 15c; ½ oz. 45c; oz. 80c.

4170 Collection of Five Giant Ruffled Sweet Peas

One Pkt. each of the above 5 finest Giant Ruffled varieties (value 85c) for only **50c**

10 Superb Giant Orchid-Flowered Sweet Peas

1823 Beatal

4172 Collection of 10 Superb Giant Orchid-Flowered Sweet Peas

This collection contains one Pkt. each of the above 10 Giant Orchid-Flowered Sweet Peas (value \$1.00) for only **70c**

1823 Beatal A gorgeous variety with large, exquisitely waved flowers. The color is a glowing pink overcast with salmon. Of vigorous growth. Pkt. 10c; ½ oz. 20c; oz. 30c.

1783 Ascot Beautiful large and well frilled flowers borne freely and abundantly. The color is a pleasing shade of light pink. One of the finest. Pkt. 10c; ½ oz. 20c; oz. 30c.

1785 Avalanche A remarkable variety with lovely pure white flowers of fine texture. The blooms are well placed on long stiff stems; produced in fours. Pkt. 10c; ½ oz. 20c; oz. 30c.

1787 Glen Eagles Large, well waved flowers on long stems excellent for cutting. The color is an appealing shade of light blue. Pkt. 10c; ½ oz. 20c; oz. 30c.

1789 Honour A beautiful bright crimson variety of remarkable richness and exquisite texture. The flowers are large, well waved, and gracefully placed on long stems. Pkt. 10c; ½ oz. 20c; oz. 30c.

1791 Huntsman A luminous shade of rich scarlet. The large blooms are well built and make up into fine bunches. Excellent. Pkt. 10c; ½ oz. 20c; oz. 30c.

1793 Idyll An outstanding variety of a fine creamy pink shade, overlaid with salmon. The flowers are of good substance. Pkt. 10c; ½ oz. 20c; oz. 30c.

1795 Pinkie A lovely clear deep pink variety with huge, well waved flowers of great charm. Produced freely on substantial stems. Fine for bunching. Pkt. 10c; ½ oz. 20c; oz. 30c.

1797 Sunkist This is a splendid picotee variety with large waved flowers of a rich creamy shade edged with pink. Truly magnificent. Pkt. 10c; ½ oz. 20c; oz. 30c.

1799 Tom Webster A clear mid-blue Sweet Pea of outstanding beauty with flowers of splendid form and good substance. One of the finest blues for the garden and bouquets. Pkt. 10c; ½ oz. 25c; oz. 35c.

12 of the Best Giant Sweet Peas

Summer Flowering

1781 America Large flowers of an old-ivory tint, beautifully striped with brilliant crimson-red. The blooms are of superb texture and attractively placed in fours on long strong stems. A first class cutting variety. Pkt. 10c; ½ oz. 20c; oz. 30c.

1849 Brilliant Rose Glowing bright tyrian rose with a suffusion of bronzy red. The flowers are of enormous size and are borne freely on long stems. Distinct and more desirable than any other in this color class. Pkt. 10c; ½ oz. 20c; oz. 30c.

1862 Fordhook Orange Considered by many the finest pure orange Sweet Pea of the summer-flowering type. The color is rich and of great intensity. Will stand a large degree of sunshine without scalding. Exquisite. Pkt. 10c; ½ oz. 25c; oz. 35c.

1882 Mammoth Appropriately named, producing well-formed flowers of true mammoth size. The color is a blazing orange-scarlet. The plants are of vigorous growth, yielding an abundance of fine blooms. Excellent for cutting. Pkt. 10c; ½ oz. 20c; oz. 30c.

1886 Mary Pickford A favorite variety with very large flowers combining extreme size with exquisite texture. The color is an appealing shade of cream-pink slightly suffused with salmon. Long stemmed and free blooming. Pkt. 10c; ½ oz. 20c; oz. 30c.

1887 Model Wonderful glistening white flowers of magnificent proportions. Although a black seeded variety, the blooms are free from any trace of pink or blue. Easy to germinate because it has black seed. Of recent introduction but already much in demand. Pkt. 10c; ½ oz. 20c; oz. 30c.

1904 Powerscourt For beauty of color, size of the flowers, and length of stems, this lovely variety is unrivaled. The magnificent blooms are of a rich yet warm lavender of extraordinary purity. They are produced in fours on stems of remarkable length. Pkt. 10c; ½ oz. 20c; oz. 30c.

1905 Royal Scot Brilliant lustrous orange-scarlet with deep cerise sheen. The flowers are produced in sprays of four on long substantial stems. They combine remarkable size and substance with an ideal form. Of vigorous growth, free blooming, and furnishing a large supply of cut flowers. Pkt. 10c; ½ oz. 20c; oz. 30c.

1913 What Joy This is, without question, one of the finest cream varieties ever introduced. The flowers are extremely large, daintily filled, and of remarkable substance. They are borne freely on strong stems. The color is a rich deep primrose-yellow shade, deeper than that of any other cream variety ever introduced. Combines well with all other colors. Pkt. 10c; ½ oz. 20c; oz. 30c.

1924 Tangerine A novel variety with beautiful, large, well rounded flowers of heavy texture. They are borne abundantly and continuously if not allowed to form seed. Most of the sprays produce four blooms to a stem. The color is glistening deep orange, not unlike a fully ripened tangerine. Very effective in bunches. Pkt. 10c; ½ oz. 20c; oz. 30c.

1825 *Boy Blue*

1825 Boy Blue This is a splendid, large flowering, bright blue Sweet Pea—brighter and richer than any other in this color class. The blooms are borne in fours on elegant long stems. Makes a vigorous growth and blooms freely and continuously. Pkt. 15c; ½ oz. 25c; oz. 35c.

1824 Bridesmaid One of the finest cream-pink varieties ever offered. The magnificent large flowers are well formed and attractively waved. They are carried in fours on long flexible stems, excellent for bunching. The plants are of vigorous growth, and exceedingly free flowering. Pkt. 10c; ½ oz. 20c; oz. 30c.

4174 Collection of Twelve of the best Giant Sweet Peas

One Pkt. each of the above twelve separate varieties, (value \$1.25) for only **75¢**

4178 Collection of Four Giant Sweet Peas

One Pkt. each: Brilliant Rose, Powerscourt, Mary Pickford, and Royal Scot, (value 40c) for only **25¢**

1838 *Snowstorm Improved Bird*

Early or Winter-Flowering SWEET PEAS 12 Magnificent Varieties

This excellent type of Sweet Peas is valuable for greenhouse culture and for growing outdoors during the winter months in sections where the temperature does not drop below the freezing point. Where summers are short and cool, this type will come into bloom two weeks before the late flowering varieties. Fragrant flowers of true Spencer type.

1813 Blue Bird A charming shade of blue. Fine large flowers. Pkt. 15c; ½ oz. 30c; oz. 50c.

1814 Burpee's Orange Exquisite blooms of largest size. A clear pure orange self of great beauty. Pkt. 20c; ½ oz. 35c; oz. 60c.

1815 Gilda Gray Lovely blooms with salmon-cerise standards; hermosa-pink wings. Free flowering. Pkt. 15c; ½ oz. 30c; oz. 50c.

1816 Early King One of the finest early-flowering crimson varieties. Bold massive flowers of elegant size. Pkt. 15c; ½ oz. 30c; oz. 50c.

1826 Chevalier Large flowers of a pure rose changing to rose-pink. Pkt. 15c; ½ oz. 30c; oz. 50c.

1833 Mrs. Calvin Coolidge Mammoth salmon-pink flowers with a suffusion of bronzy orange. Very lovely. Pkt. 15c; ½ oz. 30c; oz. 50c.

1834 Mrs. Kerr The finest early-flowering variety of rich pure salmon. Pkt. 15c; ½ oz. 35c; oz. 60c.

1836 Lavender King Rich deep lavender flowers borne in fours on long, strong stems. It is a charming variety. Pkt. 15c; ½ oz. 30c; oz. 50c.

1837 Pink Profusion Rich rose-pink flowers of good proportion and large size. Unexcelled for cutting. Pkt. 15c; ½ oz. 30c; oz. 55c.

1838 Snowstorm, Improved The finest early-flowering white Sweet Pea. Large flowered and elegantly displayed. Pkt. 15c; ½ oz. 30c; oz. 50c.

1827 Illumination Glowing salmon-cerise, suffused orange. One of the best. Pkt. 15c; ½ oz. 30c; oz. 50c.

1841 Sunburst, Improved A lovely combination of cream, bright pink, and amber, all well blended together. Pkt. 15c; ½ oz. 30c; oz. 50c.

1844 Mixed The above and many other varieties properly blended for a harmonious color effect. Pkt. 10c; ½ oz. 20c; oz. 35c.

4169 Collection of 12 Magnificent Early Flowering Sweet Peas

One Pkt. each of the above twelve separate varieties, (value \$1.85) for only **\$1.00**

1824 *Bridesmaid*

1752 Stocks, Finest Mixed

Stocks—Gilliflower

Stocks are adapted for many purposes. They are suitable for bedding, edgings, pot culture, house or conservatory use, and for cutting. They come in a wide range of fine colors, including white, yellow, pink, rose, crimson, lavender, light and dark blue, purple, and coppery shades. Their flowers are highly fragrant and are excellent for cutting. For early flowers sow indoors before freezing weather is past, transplanting the seedlings when about 1 in. tall to pots or boxes, finally transferring them to the garden. Stocks require a rich, porous loam of medium heavy texture. For late blooms, sow into the open a little before the last spring frosts may be expected, choosing a warm sunny location.

1752 Cut and Come Again, Finest Mixed An early-flowering strain with perpetual blooming qualities, producing fine spikes closely set with fragrant double flowers. Our mixture contains all colors found in this class. 18 in. Pkt. 10c; 1/16 oz. 30c; 1/8 oz. 50c.

1753 Early Double Giant Imperial, Mixed This is a very fine early-flowering strain producing a large number of double flowering plants. The compact flower spikes are produced freely and come in many exquisite colors. Fine for cutting and bedding. 2 ft. tall. Pkt. 15c; 1/8 oz. 75c; 1/4 oz. \$1.25.

Snow on the Mountain

—see *Euphorbia*, page 70

Spider Plant—Cleome

1238 Giant Rose An attractive plant for garden decoration. The bush-like rounded plants grow about 3 ft. tall and produce large spikes of feathery, loose petaled, pink flowers, followed by long narrow seed pods on slender stems. The effect is that of a long-legged Spider. Pkt. 5c; 1/4 oz. 30c; 1/2 oz. 50c.

Strawflower - see *Everlastings*
Sultan's Balsam - see *Impatiens*
Summer Cypress - see *Kochia*
Summer Forget-Me-Not - see *Anchusa*

1762 Sunflower, Chrysanthemum-Flowered

Sunflower—Helianthus

Showy, stately plants of good decorative value. Suitable for planting in the border or for hiding unsightly places. Succeeds anywhere in a sunny location.

1762 Chrysanthemum-Flowered Large flowers of rich golden yellow color, 8 in. in diameter. Double to the very center. 7 ft. Pkt. 10c; 1/2 oz. 25c; oz. 40c.

1766 Red Stately plants, 6 ft. tall, with large single reddish flowers. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1764 Miniature, Mixed Hundreds of small single yellow flowers, 3 in. across, in varied forms on well branched, bushy plants. 4 ft. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

Sun Plant—see *Portulaca*, page 75

Swan River Daisy—Brachycome

1148 Mixed Colors A charming, free blooming plant of dwarf compact growth about 10 in. tall. The small daisy-like flowers come in various shades of blue, rosy lilac, and also white. Excellent for edgings, borders, and the rock garden. Pkt. 5c; 1/8 oz. 25c; 1/4 oz. 40c.

Sweet Alyssum—see *Alyssum*, page 67

Sweet Sultan
Centaurea imperialis
 1211 Mixed

Also called "Imperial Cornflower." Has large, agreeably sweet-scented flowers in white, lilac, rose, and amaranth-red. Very decorative in the garden. Furnishes excellent cut flowers of long keeping quality. Height 2 1/2 to 3 ft. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1211 Sweet Sultan, Mixed

Annual Sweet William

1928 Finest Mixed Blooms the first year from seed if sown early in the spring. Has large flower heads in white, rose, pink, crimson, and also starred, mottled, and eyed variations. 15 in. tall. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

25c
 will buy
 any 6 five-cent packets; or
 any 3 ten-cent packets; or
 any 2 fifteen-cent packets of
 either flower or vegetable
 seeds, or both
 if you wish.

1928 Annual Sweet William

Trumpet Flower—Datura

1287 Mixed Colors A strong-growing plant with prickly foliage suitable for planting in the border and for group or specimen plantings on lawns. The large flowers are trumpet-shaped and come in white, yellow, and purple. Both single and double flowers will be found in this mixture. Highly fragrant. 3 ft. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 30c.

Ursinia—Jewel of the Veldt

1951 Anethoides Unusually decorative blooms with rich orange-yellow petals, each with a small glossy black blotch at the base. The flowers are borne on long stems, and contrast well with the light green, lace-like foliage. Blooms freely from midsummer until frost. Fine for cutting. Of easy culture. Pkt. 10c; 1/16 oz. 45c; 1/8 oz. 80c.

Venidium—Monarch of the Veldt

1981 Fastuosum An easily grown flower with bright orange blooms with a blackish green, somewhat raised center and a dark purple-maroon zone near the base of the petals. The downy, light green foliage sets off well the brilliant color of the flowers. Pkt. 25c; 1/16 oz. 90c; 1/8 oz. \$1.50.

1963 Verbena, Mammoth Rose-Pink

Verbena—Mammoth Show

Splendid for color effect in beds and borders. The dwarf, spreading plants soon cover the ground with their rich green foliage, which gives good contrast to the brilliant flower heads. Blooms profusely from July until frost. 1 ft.

1953 Rose-Pink Large showy flower trusses of rose-pink blooms with a large white eye. Very effective. Fine cut flowers. Pkt. 10c; 1/8 oz. 45c; 1/4 oz. 75c.

1956 Lucifer Deep cardinal-red flowers in large flower-heads of bold appearance. A very appealing color. Pkt. 10c; 1/8 oz. 45c; 1/4 oz. 75c.

1957 Blue, White Eye An extra large-flowering variety with massive flower heads. The color is rich and showy. Pkt. 10c; 1/8 oz. 45c; 1/4 oz. 75c.

1958 Luminosa Luminous flame-pink flowers of largest size forming broad flower heads. One of the finest Verbenas. Pkt. 10c; 1/8 oz. 45c; 1/4 oz. 75c.

1978 All Colors Mixed A colorful mixture of the above and some other Giant Verbenas for bedding and cutting. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 65c.

1979 Compacta, Royal Bouquet Mixed Of compact erect growth with large heads of fine flowers. 15 in. Pkt. 15c; 1/16 oz. 40c; 1/8 oz. 70c.

4181 Collection of Mammoth Show Verbenas
 One Pkt. each of the above four separate colors (value 40c) for only **25c**

Vinca—Periwinkle, Old Maid

1992 Mixed Colors Flowers in white, pink, rose, and rose with a white eye, on plants 18 in. tall. The foliage is dark green and glossy. Blooms profusely all summer long. Pkt. 5c; 1/8 oz. 20c; 1/4 oz. 35c.

Wallflower—Cheiranthus

2020 Single, Mixed Colors Long spikes of exquisitely fragrant flowers produced from midsummer until frost. Includes yellow, light brown, and blood-red. Fine in the border and for cutting. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 35c.

Wood Sorrel—see *Oxalis*, page 72

Maule's Zinnias - Youth and Old Age

A garden without Zinnias is incomplete. Their beautiful flowers, which come in both rich colors and lovely light shades, and in various sizes and types on tall and dwarf plants, make them adaptable for many purposes. Used either for a bold color effect in the border or for bedding, they never fail to elicit admiration. In addition to this, the individual flowers last exceptionally long though new ones unfold as long as the growing season lasts. The dwarf varieties are unexcelled for borders or small beds. The tall large-flowered ones give showy beds planted either alone or in the massed border. Zinnias begin to bloom early in summer and continue to flower until frost, requiring little attention and succeeding in any open, sunny location. For best results, sow outdoors where to bloom when danger of heavy frost is past, later thinning to stand 1 to 2 ft. apart, depending on whether dwarf or tall types are used.

Double Lilliput or Pompon

2076 Mixed For dwarf beds and borders no other Zinnia is better adapted than this handsome small-flowering type. The plants grow 15 in. tall and bear a wealth of Pompon-like blooms throughout the summer and fall. Very colorful. Pkt. 10c; 1/4 oz. 35c; 1/2 oz. 60c.

Improved Large-Flowering Dwarf Double

2040 Mixed Colors The old-fashioned Cut-and-Come-Again Zinnia which has been used for garden decoration for many years past. While the flowers are not so large as those of most other types offered here they are, nevertheless, very desirable for decorative purposes. Includes a wide range of colors. 2 ft. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

Double Picotee

2070 All Colors Mixed Picotee Zinnias give a charming effect in the border or when used as cut-flowers. The large blooms come in a wide assortment of fine colors, particularly shades of pink, yellow, orange, rose, etc. Nearly all of the flowers are attractively tipped or edged with a contrasting color at the end of each individual petal. The light shades usually show a dark edging, while the dark ones exhibit light markings. The tips of the petals are neatly notched or toothed. Strong plants, 2 to 3 ft. tall. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

Double Quilled or Cactus Flowered

2066 Mixed Colors One of the finest and most attractive variations found in this wonderful class. The large substantial flowers are of artistic appearance. They are composed of long straight quilled petals of almost tubular form. The handsome flowers are not unlike the well-known Cactus-flowered Dahlias in appearance. They are borne with the greatest freedom throughout the summer and fall and come in a wide range of fine colors. The strong plants are well branched, and free blooming, producing excellent cut-flowers. Give a unique effect in the border. 3 ft. tall. Pkt. 15c; 1/8 oz. 30c; 1/4 oz. 50c.

Double Curled and Crested

2036 Mixed Colors Fully double flowers of large size. The broad, loose petals are curled, twisted, and crested in a most fantastic manner. The colors range from white through many shades of yellow, rose, pink, and salmon, to deep rich crimson. The strong plants average 2 ft. in height and bloom freely throughout the summer and fall. Those who look for something out of the ordinary should not fail to include this variety in their garden. We have given this type particular attention, having selected it for several years to obtain a strain which produces a large percentage of true curled and crested Zinnias. Pkt. 5c; 1/4 oz. 30c; 1/2 oz. 50c.

2045 California Giant Double Flowering, Rose Queen

California Giant Double Flowering

The characteristics of this fine type of Zinnia are full, round, double flowers of perfect form and large size, measuring often 5 in. across. They are borne abundantly on long strong stems. The well branched plants are of robust, bushy growth. They average 3 ft. in height. The color assortment is quite remarkable, including white and many fine shades ranging from yellow, pink, and scarlet to deep purple with the rich colors predominating. A general favorite enjoying a wide popularity. Very desirable for garden use, and especially fine for cutting.

- | | |
|---|---|
| 2037 Brightness Bright deep rose flowers of excellent form and substance | 2045 Rose Queen Rich bright rose |
| 2038 Grenadier Glowing deep red | 2046 Scarlet Bright and attractive |
| 2039 Lavender Gem Lavender, shaded purple | 2047 Flesh Pink Soft pale pink |
| 2041 Burnt Orange Rich deep orange | 2048 White Giant, pure white flowers |
| 2042 Crimson Bright red blooms | 2049 Deep Salmon-Rose Exquisite |
| 2043 Lemon Queen Pure yellow | 2050 Golden Yellow Very rich |
| 2044 Purple Fine deep purple | 2052 Sulphur Yellow Pale yellow |
| | 2053 Orange King Glistening orange |

Any of the above fifteen varieties: Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

2054 California Giant Double Flowering, Mixed Colors

This splendid mixture includes all the fine separate colors offered above, besides some others. It has been carefully blended to give a colorful effect not unlike that found in a rare oriental rug. All colors are represented in the right proportions as needed to give a harmonious display. Fine for the border and cutting. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

4184 Collection of California Giant Double Flowering Zinnias
This collection contains one Pkt. each of the fifteen named varieties listed above, (value \$1.50) for only **\$1.00**

4188 Collection of California Giant Double Flowering Zinnias
One Pkt. each: Crimson, White, Brightness, and Golden Yellow, (value 40c) for only **25c**

Mammoth Dahlia-Flowered Zinnias

*Large, Massive Plants
and Glorious Mammoth
Blooms in Many Colors*

What could be prettier and more impressive than a bed of these stately Zinnias with their glorious blooms. Words are inadequate to depict their beauty and charm. The illustration to the left gives an idea of their marvelous size. The flowers measure 5 in. or more in diameter. They are carried on long stems on massive plants, and are borne continuously from midsummer until frost. The plants are 3½ ft. tall and fully as broad. The colors found in this type are gorgeous. They include many magnificent shades ranging from pure white, through yellow, old gold, lavender, pink, rose, salmon, and orange, to deep crimson.

Six Mammoth Dahlia-Flowered Zinnias

This collection contains the following six varieties: Polar Bear, Buttercup, Oriole, Illumination, Dream, and Crimson Monarch. Though everyone of these is most beautiful, the combination of these six colors gives a colorful display. They will delight you for many months.

4197 One Pkt. each of the six showy varieties (value 90c) for **50¢**

4198 ¼ oz. each of these six varieties (value \$2.70) for **\$2.00**

2065 Maule's Special Mixture of Dahlia-Flowered Zinnias

Many flower lovers with smaller gardens give preference to mixtures over separate colors. To meet with their wishes we have prepared a mixture which we know is up to the Maule standard. The colors included are those offered here as separate varieties, besides some others—all charming and desirable—to make a blend that cannot be outdone by any other mixture of Dahlia-Flowered Zinnias. If you saw a bed grown from this mixture in full bloom you would be surprised at the richness of the color range and the beauty of the gorgeous flowers. Pkt. 15c; ½ oz. 35c; ¼ oz. 60c.

2057 Illumination

2055 Crimson Monarch

Exquisite large flowers of a rich and warm crimson shade which is sure to appeal to everyone. It is a profuse blooming variety with excellent bedding qualities, forming immense well-branched bushes. Whether planted in beds or in the mixed border, it will be found to be outstanding. Of great merit. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2056 Buttercup

This is a particularly fine variety of a deep creamy yellow shade which will make a wonderful display whether planted by itself or together with other colors of this class, in particular pink, salmon, or lavender. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2057 Illumination

A most attractive variety which combines beauty of color with size of blooms. It is a rich warm tyrian rose—a splendid light color of exceptional brilliance. By far the most luminous color of them all. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2058 Dream

Huge flowers of heavy substance borne profusely on sturdy plants. The color is a distinct shade of deep lavender changing to a beautiful purple tint as the flowers age. Suitable alike for bedding and cutting. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2059 Golden State

A very pleasing shade of golden yellow, changing to pure bright orange as the flowers reach their full size. The truly magnificent blooms are large, well rounded, and of perfect Dahlia-Flowered form. Very desirable. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2060 Old Rose

As implied in the name, the color is a lovely old rose shade, appropriate for all decorative purposes. It is a sturdy flower of extreme size and of heavy substance. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2061 Oriole

Attractive flowers of immense proportions and a color that appeals to the eye—a bright glistening orange, shaded with liquid gold towards the outer edge, changing to a mellow old gold tone. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2062 Golden Dawn

Of recent introduction, with large massive flowers of a beautiful golden yellow. The richness of its shade is bound to make it very popular once it is better known. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2063 Polar Bear

White cannot be dispensed with in gardening, as it is needed to separate clashing colors. In Polar Bear we offer to our friends the finest pure white Zinnia ever introduced. Immense flowers. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2064 El Dorado

For those who like well blended colors, we heartily recommend this outstanding variety. The gorgeous blooms are a beautiful shade of salmon, overcast with rose. Perfectly sun-fast. Excellent for cutting. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2067 Luminosa

An entirely new shade in Zinnias—bright pink suffused with salmon. The well proportioned flowers are borne on long stems well above the foliage. A free blooming variety of good qualities. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

2068 Old Gold

The wonderful rich shades of light and deep old gold make it one of the foremost varieties in this color class. Goes well with other varieties for a colorful effect. Bold flowers. Pkt. 15c; ½ oz. 45c; ¼ oz. 75c.

Maule's Zinnia Seed will give you superb results

Your Garden will be made Brighter with

2024 Maule's Wonder Garden Mixture

A lovely surprise mixture of easily grown flower seeds to be sown broadcast. It contains mostly annuals, but everlasting and ornamental grasses and a few perennials are also included. There also are a few climbers. With little care you will obtain results which will be a most delightful surprise. On account of the various seasons of bloom, an abundance of flowers will be had from early summer until frost. Many of these beautiful flowers will be suitable for cutting. Many gardeners include an extra packet of this to give their children an opportunity to grow their own flowers. Pkt. 5c; oz. 25c; 1/4 lb. 75c.

Beautiful Vines - Annual & Perennial - Seeds & Plants

93N10 Bittersweet—Celastrus

Bittersweet—Celastrus

93N10 Scandens (Plants) A handsome, perennial climbing plant with small yellow flowers followed by large clusters of attractive scarlet-red berries in the fall. After the first heavy frost the fruits burst open exposing the seeds. Unexcelled for winter bouquets, the berries clinging firmly to the branches after cutting. Perennial. 40c each; 3 for \$1.10; 6 for \$1.90; 12 for \$3.35.

Balsam Apple—see Momordica, page 85

Balsam Pear—see Momordica, page 85

926 Ampelopsis—Boston Ivy

Ampelopsis

Japanese or Boston Ivy

926 Veitchii One of our most beautiful perennial climbers, resembling the well known English Ivy. It is of unusually rapid growth, and clings firmly to any rough surface, such as brick, stone, stucco, etc., and is truly unsurpassed for covering house-walls. The three-pointed leaves are rich dark green. They are arranged in shingle-like fashion, forming a solid sheet within a short time. With the approach of cool weather in the fall, the foliage turns a rich bright crimson. Perfectly hardy everywhere. Of slow germination. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 30c.

93N02 Ampelopsis Veitchii (Plants) Extra strong, well rooted specimens. 40c each; 3 for \$1.10; 6 for \$1.90; 12 for \$3.35.

1175 Canary Bird Flower

Tropeolum canariense

A graceful annual climber with rich golden yellow flowers composed of oddly fringed and notched petals. The fresh green foliage is of rather delicate texture. Succeeds best where summers are not too hot. Pkt. 5c; 1/2 oz. 20c; oz. 30c.

Climbers play an important part in planting the home grounds, for they are grown not only for their attractive flowers but also to provide shade for porches or garden houses. While some lend themselves admirably for ground covers, others are used for training upon tree trunks, to screen off unsightly places, or to give privacy to the porch or arbor. All of the kinds offered on this and the following page are of easy culture.

1190 Cardinal Climber

Closely related to the Morning Glory family. This graceful annual plant is of rapid growth, attaining a height of 20 ft. or more. The fine rich green leaves are deeply cut not unlike those of the Japanese Maple. From midsummer until frost, the plants are literally covered with a mass of intense cardinal-red flowers borne in small clusters. The blooms are of trumpet shape, and measure about an inch in diameter. Of fine decorative value. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

Clematis

Clematis belong to the showiest of all hardy perennial climbers. They are of easy culture and are unsurpassed for porches, arbors, and walls. They thrive best in a sunny location in a rich, well drained lime soil, and require plenty of water while in growth.

93N13 Clematis Jackmani

93N13 Jackmani (Plants) Sure to attract attention wherever grown. The large star-shaped flowers are a fine shade of rich purple. They measure fully 4 in. across and are produced freely from July until frost. The plants are of vigorous growth. 70c each; 3 for \$2.00; 6 for \$3.70; 12 for \$6.95.

93N15 Paniculata (Plants) (Sweet Scented Japan) Very sweet scented, with masses of small white flowers during August and September, covering the vines completely. Very hardy and of easiest culture. Height 15 to 20 ft. 40c each; 3 for \$1.10; 6 for \$1.90; 12 for \$3.35.

Cobaea—Cathedral Bells

1243 Scandens, Blue A vigorous annual climber of rapid growth, attaining a height of 10 to 20 ft. The flowers are large, bell-shaped, and produced abundantly. The color is light green in the early stage, gradually changing to a rich purplish blue as they age. As the plants climb by means of tendrils, string or wire should be used. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 30c;

4145 Collection of

Five Beautiful Annual Climbers

One Pkt. each of the following:
 1243 Cobaea scandens
 1409 Moonflowers, Mixed All Varieties
 1175 Canary Bird Flower
 1273 Cypress Vine, Mixed
 1483 Rochester Morning Glory
 (value 35c) for only **25c**

Cypress Vine

Annual. Very showy trained upon trellises, poles, string, or wire. The vines bear masses of beautiful star-shaped flowers, 1 in. across, which together with the finely cut, feathery foliage make a particularly fine display. Blooms continuously until frost.

1271 Scarlet Rich scarlet flowers with a crimson glow, produced freely on tall slender ornamental plants. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 30c.

1273 Mixed Scarlet and white properly blended. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 30c.

Various types of Gourds

Gourds—Ornamental

Useful annual vines for covering fences, slopes, or unsightly places because of their dense foliage. They are strong, fast growers with large substantial flowers. The attractive, oddly shaped fruits are very decorative. Children like them as toys.

1357 Spoon Small spoon-shaped fruits attractively mottled green, red, and white.

1360 Dish Cloth or Luffa Elongated fruits with fibrous interior used as a sponge.

1361 Dipper Large fruits with a handle-like neck. Will hold about 1 qt. of water.

1362 Nest Egg White egg-shaped fruits. Dried for use as nest or darning eggs.

1365 Sugar Trough Long club-like fruits with thick, lasting rind. Easily dried; very showy.

1366 Mixed, Small Varieties Contains a wide assortment of small fruited varieties. Very pretty.

1367 Mixed, Large Varieties Many fine large-fruited varieties in a well blended mixture.

Any of the above varieties:
 Pkt. 5c; 1/2 oz. 20c; oz. 30c.

Japanese Honeysuckle—Lonicera

93N23 Halleana (Plants) A perfectly hardy, almost evergreen climber with attractive glossy foliage. The flowers are produced abundantly, opening almost white, changing to a soft yellow as they expand fully. Fine for covering fences. Sweet-scented. 35c each; 3 for 90c; 6 for \$1.70; 12 for \$3.10.

Japanese Hop—Humulus

1408 Variegated An attractive annual climber of rapid growth, with dark green leaves beautifully marked with yellow and silvery white. It succeeds in any moderately moist soil, both in sun and semi-shade. Ideal for ground cover or for screening unsightly places. Provides fine shade. Self-sows readily. Pkt. 5c; 1/4 oz. 20c; oz. 50c.

Beautiful Vines - continued

Japanese Kudzu Vine *Pueraria*

1412 Thunbergiana A luxuriant perennial vine, attaining a height of 40 to 50 ft. in a single season from established roots. The rosy purple flowers are borne in clusters not unlike *Wisteria*. The leaves afford excellent shade. Dies down to the root in the winter. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

Moonflower - *Ipomoea*

Known for its fine large flowers and vigorous growth. The blooms open in the afternoon, lasting until the following morning. Each night brings a new set of fragrant flowers.

1403 Setosa Showy, rose-colored flowers, often 3 in. across, borne freely in clusters throughout the summer and fall. Each flower shows a five pointed star of satiny pink. Pkt. 10c; 1/2 oz. 25c; oz. 45c.

1404 Grandiflora Giant white blooms 6 in. across, emitting a rich fragrance. They are open from 5 p. m. till late the next morning. Pkt. 10c; 1/2 oz. 30c; oz. 50c.

1405 Heavenly Blue Large showy blooms 3 1/2 in. across, shading from bright azure blue at the margin to pure white in the throat. Pkt. 10c; 1/4 oz. 50c; 1/2 oz. 85c.

1406 Giant Pink Hybrid A lovely variety bearing masses of bright pink flowers of enormous size. Large green leaves of tropical appearance. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 30c.

1405 Moonflower, Heavenly Blue

1409 Moonflower, All Varieties, Mixed A rich blend of all varieties. Very effective. Pkt. 5c; 1/2 oz. 25c; oz. 45c.

Momordica

Balsam Apple and Pear

1481 Balsamina Creamy white flowers, spotted brown, followed by round, golden yellow fruits with red pulp. Annual. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 30c.

1482 Charantia Oblong golden yellow fruits with black seeds surrounded by a carmine pulp. Annual. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 30c.

Morning Glory *Convolvulus*

1483 Rochester A splendid Annual with large, light blue flowers with a broad silvery white edge. Pkt. 10c; 1/2 oz. 25c; oz. 45c.

1436 Imperial Japanese, Single Mixed Very large. Rich and showy colors. Pkt. 5c; 1/2 oz. 20c; oz. 30c.

1485 Imperial Japanese, Double Mixed Annual. Elegant double blooms in a wide range of colors. Pkt. 10c; 1/4 oz. 40c; 1/2 oz. 75c.

1484 Mixed This annual climber produces an abundance of flowers from July until frost. A wonderful blend of rich and soft shades. Pkt. 10c; 1/2 oz. 20c; oz. 30c.

Mountain Fringe *Allegheny Vine—Adlumia*

900 Cirrhosa Flesh-pink blooms resembling Bleeding Heart. The graceful fern-like foliage is excellent for bouquets. Re-seeds itself readily. Biennial. Pkt. 10c; 1/16 oz. 35c.

Perennial Peas — *Lathyrus*

A fine perennial vine producing large clusters of pea-like flowers. Climbs readily. Fine as ground cover.

1332 White Pure white flower-clusters produced throughout the summer. A vigorous grower. Pkt. 10c; 1/4 oz. 50c; 1/2 oz. 85c.

1333 Splendens The flowers are a lovely shade of rich rose-pink. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

1334 Mixed Colors White, pink, and red or purple in proper proportions. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

Climbing Roses, see page 97

Thunbergia

Black-Eyed Susan Vine

1942 Fine Mixed Well adapted for ground-covers and hanging baskets. Yellow, orange, buff, and white flowers, some with velvety black eye. Annual. Pkt. 10c; 1/4 oz. 30c.

93N57 Wisteria, Blue

Wisteria

2026 Mixed Colors The well-known Chinese Wisteria with massive bunches of pea-like flowers. Includes white, and various lavender shades. Perennial. Pkt. 10c; 1/2 oz. 30c.

93N57 Sinensis Blue (Plants) Large clusters of lavender-blue flowers. 45c each; 3 for \$1.20; 6 for \$2.15; 12 for \$4.05.

Everlasting Flowers

for Garden Display
and Winter Bouquets

Everlastings should be in every garden. They are charming, of easiest culture, and always find a ready market. You may cut plenty of the flowers during the summer and still have many left to be used for winter bouquets.

Chinese Lantern *Physalis*

1220 Franchetti A most attractive and widely used Everlasting. The plants grow about 18 in. tall, and bear masses of rich bright scarlet-red lanterns which are easily dried. The plants are perennial. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

70N52 Franchetti (Plants) Strong healthy stock sure to give satisfactory results. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Everlasting Flowers

1331 Mixed, All Varieties While most Everlastings are attractive if used by themselves, mixed bouquets are still more desirable because of the varied forms and colors of the flowers. We have prepared a mixture of the finest kinds, sure to bring about a harmonious effect. For winter bouquets, cut the flowers as soon as fully developed, hanging them up in bunches in a cool, airy place until thoroughly dried. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

Globe Amaranth *Gomphrena*

1356 Fine Mixed Fine clover-like blooms in white, flesh-pink, orange, and purplish red. The plants average 18 in. in height, and make a fine show in beds and borders. Globe Amaranth succeeds in any well drained garden loam exposed to the full sun. Easily dried. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

Honesty — *Lunaria*

1436 Biennis Widely known for the attractive, round, seed pods with silvery white tissue-like partition, borne in large bunches on long stems. It is one of our finest Everlastings, extensively used by florists and home gardeners. Well grown plants invariably bring a good price. Should be grown in masses for commercial purposes. The plants are of biennial character, producing small purple or white flowers as well as the seed pods the second year. Of easiest culture. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

Statice — *Sea Lavender*

1757 Sinuata, Mixed A colorful Everlasting with deeply cut foliage produced close to the ground. The flowers are borne in clusters on upright angular stalks. The colors include white, yellow, rose, and blue. Annual. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 30c.

1758 Latifolia (*Limonium*) Large spreading flower heads composed of innumerable small lavender blooms. Strictly perennial. Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 60c.

74N08 Latifolia (Plants) Extra strong roots sure to grow. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

In addition to the Everlastings mentioned here, all *Celosias* are fine for winter bouquets. They are easily dried by hanging the flower stalks upside down in a cool, airy place. Bitter Sweet and the large panicles of the "Peegee" Hydrangeas too, make fine indoor decorations for the winter.

Strawflowers *Helichrysum*

The best known of all Everlastings. The plants grow 3 1/2 ft. tall, and are of upright bushy growth. The flowers are produced freely on long stems, well above the foliage. They are fully double and come in many fine colors. The individual blooms average 2 in. across. Excellent for fresh bouquets and also easily dried for winter bouquets.

1372 Fireball Large, globular, bright crimson flowers.

1377 Golden Ball Magnificent rich golden yellow blooms.

1376 Violet Queen An attractive variety. Deep violet.

1379 Silvery Pink Silvery petals suffused cameo-pink.

Any of the above varieties:
Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1374 Tall Double Mixed A lovely mixture containing the above four exquisite colors, as well as bronzy yellow, dark brown, rose, salmon-red, and yellow. Very rich. Pkt. 10c; 1/8 oz. 20c; 1/4 oz. 30c.

1374 Strawflower, Double Mixed

4147 Collection of Strawflowers

One Pkt. each: Fireball, Golden Ball, Violet Queen, and Silvery Pink, (value 40c) for
only **25c**

Ornamental Grasses

1584 Pampas Grass Very effective in the border, along ponds or streams, or as specimens in the lawn, with large silvery plumes on stems 6 ft. tall. Perennial. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

1582 Mixed Annual Varieties Contains all of the finest annual grasses for cutting. Sown early in the spring a continuous supply can be had from summer until fall. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1710 Purple Feather Grass Graceful feathery plumes of a silvery purple, on stems 3 ft. long, borne above narrow, drooping leaves. One of the finest for bedding and cutting. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

Hardy Perennials - Seeds and Plants

Achillea—Miffoil, Yarrow

896 The Pearl Bushy, well branched plants 2 to 2½ ft. tall, with small, pure white, double flowers about ½ in. across produced in loose bunches. Makes a fine addition to the perennial border and is excellent for cutting. The branches are slightly drooping, giving the plants a very graceful appearance. Blooms during summer. Pkt. 15c; 1/16 oz. 50c; ¼ oz. 85c.

Alyssum—Basket of Gold, Gold Dust

916 Saxatile compactum Alyssum is unexcelled for edging and borders, or for use in the rock garden. The round little bushes average 10 in. in height and bear masses of bright golden yellow flowers from early spring to the latter part of June. The foliage is grayish green and contrasts well with the flowers. It is of neat appearance throughout the year. Pkt. 10c; ¼ oz. 40c; ½ oz. 70c.

Anchusa—Bugloss, Alkanet

930 Italica, Dropmore Stately plants, 3 to 5 ft. tall, with large Forget-Me-Not like flowers of a rich turquoise-blue. Planted in clumps in the border, the effect is amazing. The flowers are produced during June and July. The foliage is heavy, dark green, and hairy. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c.

Anemone—Windflower

932 St. Brigid A bulbous plant, easily grown from seed. The flowers are semi-double and double, 2 in. across, and come in many fine bright colors. Spring blooming. 1 ft. Pkt. 15c; ¼ oz. 50c; ½ oz. 85c.

958 Aquilegia, Long-Spurred Hybrids

Aquilegia—Columbine

Attractive plants with large long-spurred flowers borne on slender, wiry stems during May and June. Excellent for garden display and cutting. 3 ft.

958 Long-Spurred Hybrids, Mixed Extra long-spurred varieties in many fine colors. Pkt. 10c; ⅓ oz. 45c; ¼ oz. 80c.

960 Finest Double Flowering Mixed A grand mixture. Pkt. 10c; ¼ oz. 40c; ½ oz. 75c.

70N18 Mrs. Scott Elliott's Hybrids (Plants) The finest long-spurred Aquilegia. The beautiful large flowers come in many remarkably fine colors. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Arabis—Rock Cress

964 Alpina A profuse blooming plant of dwarf spreading growth forming attractive clumps 6 in. tall. Masses of small white flowers very early in the spring. Fine with Golden Alyssum and Aubrietia. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

Armeria—Sea Pink, Thrift

971 Formosa Compact ball-shaped little bushes with grass-like foliage studded with clover-like rich rose blooms on stems 12 in. long. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

Artemisia

70N19 Silver King (Ghost Plant) (Plants) Attractive plants, 3 ft. tall, with glistening silvery white foliage, giving a ghost-like effect on moonlit nights. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

979 Aster Novi-Belgii Hybrids

Hardy Aster

Invaluable for borders and cutting, coming into flower during the fall when most other perennials have finished blooming. Succeeds in any good soil.

979 Novi-Belgii Hybrids A choice strain of many delicate colors and shades. 5 ft. tall. Pkt. 15c; 1/16 oz. 40c; ⅓ oz. 75c.

70N21 Mrs. Raynor (Plants) The darkest red among the Hardy Asters. Exceedingly beautiful. 4 ft. tall.

70N22 Blue Gem (Plants) Large, bright blue, semi-double flowers produced in clusters. Very pretty.

70N23 Climax (Plants) Stately plants, 5 ft. tall, with light lavender-blue flowers in large clusters.

Any of the above plants:
20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Aubrietia—Rainbow Rock Cress

1121 Large Flowering Hybrids Quite early in the spring these lovely little plants bring color to the garden with their blue, lilac, and rosy purple flowers. The plants grow but 4 in. tall, and thrive in any well drained lime soil. Pkt. 15c; 1/16 oz. 50c; ¼ oz. 85c.

1371 Baby's Breath, Paniculata

Baby's Breath—Gypsophila

1371 Paniculata Large panicles of small white flowers of mist-like appearance. Excellent for bouquets and the border. The plants grow 3 ft. tall. Pkt. 10c; ¼ oz. 30c; ½ oz. 50c.

1383 Paniculata fl. pl. Small double flowers borne abundantly in well branched panicles. 3½ ft. tall. Pkt. 15c; 1/16 oz. 60c; ⅓ oz. \$1.00.

71N22 Bristol Fairy (Plants) The foremost variety with large panicles of small white double flowers. 50c each; 3 for \$1.40; 6 for \$2.70; 12 for \$5.30.

Balloon Flower—see *Platycodon*, page 90

Bellis—see *English Daisy*, page 88

Blanket Flower—see *Gaillardia*, page 88

Campanula—Canterbury Bells

1173 Cup and Saucer, Mixed Colors An old favorite. Large cup-and-saucer-shaped flowers in white, rose, lilac, and blue during May and June. Pkt. 10c; ⅓ oz. 40c; ¼ oz. 70c.

1174 Medium Single and Double, Mixed Large bell-shaped blooms in white, rose, lilac, blue and striped. 3 ft. tall. Pkt. 10c; ⅓ oz. 25c; ¼ oz. 40c.

1172 Hardy Perennial, Choicest Mixed A well-blended mixture of many fine hardy perennial "Hare Bells", both dwarf and tall varieties. Fine for garden display and cutting. Pkt. 10c; ⅓ oz. 30c; ¼ oz. 50c.

Astilbe—Spiraea

Large showy plants with attractive foliage crowned by very trusses of deep crimson flowers borne well above the reddish green foliage. It is a particularly colorful variety for the garden and for forcing.

69N95 Gladstone (Plants) Immense plumes of snow-white flowers borne on strong erect stalks. Excellent for the border and one of the finest white Astilbes for forcing under glass. Sure to attract attention.

69N97 Granat (Plants) A beautiful variety with large airy trusses of deep crimson flowers borne well above the reddish green foliage. It is a particularly colorful variety for the garden and for forcing.

69N99 Kriemhilde (Plants) A much admired variety and one of the finest ever introduced. The massive feathery flower spikes are of beautiful salmon-pink color with a pearly sheen. Extra fine.

Any of the above plants:
35c each; 3 for 90c; 6 for \$1.70; 12 for \$3.10.

69N95 Astilbe Gladstone

70N17 Collection of Three Outstanding Astilbes

This collection contains one strong plant each of the three beautiful hardy Astilbes described above: Gladstone, Granat, 90c and Kriemhilde (value \$1.05) for only

Candytuft—*Iberis*

1186 Sempervirens An attractive evergreen plant of shrubby, somewhat spreading habit, 8 in. tall. The leaves are narrow, rich dark green and glossy. The pure white flowers are produced in trusses well above the foliage, almost completely covering the plants throughout the spring. For rockeries and borders. Pkt. 10c; 1/16 oz. 30c; 1/4 oz. 50c.

Carnation—*Dianthus*

Of easiest culture, succeeding in a rich, well drained lime soil and an open sunny location. The fine long-stemmed double flowers come in many exquisite colors and are excellent for cutting. 15 in. tall.

Chabaud's Giant Improved

1192 White Pure white flowers, 2 1/2 in. across.

1193 Rose Exquisite blooms of largest size.

1194 Scarlet Large, glowing scarlet blooms.

1195 Deep Yellow Mammoth blooms of pure yellow, borne upright on strong sturdy stems.

Any of the above: Pkt. 20c; 1/8 oz. 75c; 1/4 oz. \$1.35.

1191 Chabaud's Giant Improved, Mixed Colors A prize-winning mixture containing the above and many other fine colors of this pretty improved strain. Pkt. 15c; 1/8 oz. 60c; 1/4 oz. \$1.00.

4132 Collection of Chabaud's Giant Improved Carnations

This collection contains one Pkt. each of the above four exquisite colors (value 80c) for only... **65¢**

1199 Hardy Border, Finest Double Mixed A wonderful strain of hardy Carnations for the border and cutting. Double flowers in many colors. Pkt. 10c; 1/8 oz. 50c; 1/4 oz. 85c.

70N54 Grenadin, Mixed (Plants) Attractive plants of rather compact growth producing masses of highly fragrant flowers throughout the summer. The blooms are borne freely on slender wiry stems 15 in. long. Fine for bedding and cutting. 3 for 45c; 6 for 80c; 12 for \$1.40; 25 for \$2.60.

Centaurea—Perennial Cornflower

1206 Montana Large blue blooms during the spring and early summer on plants 2 ft. tall. Thrives in a sandy lime soil in sun or in the half-shade. Fine for the perennial border. Pkt. 10c; 1/4 oz. 40c; 1/2 oz. 70c.

Cerastium—Snow-in-Summer

1219 Tomentosum A low-growing plant with silvery white, downy foliage, producing masses of white flowers in May. It is especially suited for rock gardens or edgings, forming broad solid mats which completely cover the ground. Grows in any well drained loam. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

Chinese Lantern—*Physalis*

1220 Franchetti This is a plant which always attracts attention. It produces masses of Japanese Lantern-like seed pods which turn a bright scarlet in the fall. After the foliage has dropped, the stems may be cut and dried in a cool, airy place for use in winter bouquets. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

70N52 Franchetti (Plants) Strong plants sure to produce fine lanterns the first season. Plant in full sun. Water during prolonged drought. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Chrysanthemum

The latest blooming of all flowers, unfolding its blooms after all others have finished blooming. Excellent for cutting.

1221 Chinese and Japanese, Finest Mixed Includes single and double varieties in many fine colors. Will bloom the first year if sown early. Pkt. 25c; 1/64 oz. 40c; 1/32 oz. 60c.

70N91 White Doty (Plants) A fine pompon variety with well formed, white flowers. Late.

70N95 Summer Gold (Plants) Medium-sized yellow flowers produced freely on long stems. Early.

70N96 Leilah (Plants) A free blooming variety with large, rose-pink blooms. Very desirable.

70N97 Ouray (Plants) An early flowering variety with large dark scarlet blooms suffused copper-red.

70N98 Adironda (Plants) Bronze flowers produced in masses on strong sturdy plants. Early.

Any of the above Chrysanthemum Plants: 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

71N00 Collection of Chrysanthemum Plants

Contains one plant each of the five outstanding varieties described above (value \$1.00) for only **75¢**

Clove Pink—see *Dianthus*, page 88

Columbine—see *Aquilegia*, page 86

Coral Bells—*Heuchera*

1381 Sanguinea Hybrids Small bell-shaped flowers of a rich coral-red, borne on slender stems during the summer and fall. 18 in. Pkt. 20c; 1/16 oz. 85c; 1/8 oz. \$1.50.

Coreopsis—Golden Wave

1254 Harvest Moon Rich golden yellow blooms, 2 1/2 in. across, borne abundantly on fine stems, 2 1/2 ft. tall. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1255 Lanceolata grandiflora fl. pl. (Double Flowering Coreopsis) Golden yellow, double flowers. Pkt. 15c; 1/8 oz. 25c; 1/4 oz. 40c.

Cornflower Aster—see *Stokesia*, page 91

Daisy, English—see *English Daisy*, page 88

“ **Persian**—see *Pyrethrum*, page 90

“ **Shasta**—see *Shasta Daisy*, page 90

Delphinium—Hardy Larkspur

One of the most beautiful of all perennial plants. Due to the continuous efforts of plant hybridizers, strains of untold beauty have been raised and we are glad to offer some of the very finest to our friends. There are no better strains available.

1288 Gold Medal Hybrids An excellent strain producing attractive plants with spikes of large flowers in every shade found in Delphinium. Very effective in the border and fine for cutting. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

1297 Art Shades Immense single, semi-double, and double flowers produced on stalks 4 to 6 ft. tall. Includes the very finest art shades only. Pkt. 50c; 1/16 oz. \$1.00; 1/8 oz. \$1.85.

1298 Deep Blue Perfect spikes with mammoth blooms. Pkt. 50c; 1/16 oz. \$1.00; 1/8 oz. \$1.85.

1299 Light Blue A wonderful shade. Very lovely. Pkt. 50c; 1/16 oz. \$1.00; 1/8 oz. \$1.85.

1300 Wrexham Strain Enormous single, semi-double, and double flowers closely set on spikes 6 ft. tall. Comprises exquisite lavender and blue shades. Pkt. 50c; 1/16 oz. \$1.00; 1/8 oz. \$1.85.

1301 Choice Mixed A good mixture of all colors. Pkt. 15c; 1/8 oz. 35c; 1/4 oz. 60c.

1289 Delphinium, Mammoth Prize Exhibition Mixture

1289 Maule's Mammoth Prize Exhibition Mixture Truly a magnificent blend—the finest that can be had anywhere. It includes all colors from light lavender through many shades of blue, mauve, and heliotrope to deep purple. The flowers are of gigantic size, and come single, semi-double, and double—some with attractive centers or “bees”. Pkt. 25c; 1/16 oz. 75c; 1/8 oz. \$1.25.

70N72 Mammoth Prize Exhibition Mixture (Plants) Extra strong plants of this finest strain. 30c each; 3 for 75c; 6 for \$1.40; 12 for \$2.60.

1290 Belladonna Single flowers of clear turquoise-blue. The finest for cutting, 3 ft. tall. Pkt. 15c; 1/16 oz. 40c; 1/8 oz. 70c.

70N66 Belladonna (Plants) Well rooted plants to bloom the first year. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

1292 Bellamosum Dark blue, single flowers on large sprays. Height 3 ft. Pkt. 15c; 1/16 oz. 40c; 1/8 oz. 70c.

70N68 Bellamosum (Plants) For immediate effect in the bed or border. Strong plants. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Dianthus—Grass, Clove, or Spice Pinks

1308 Plumarius, Double Mixed Dwarf, compact plants with bluish green foliage. Fine sweet-scented flowers in many colors. Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 60c.

1309 Plumarius, Single Mixed Exquisitely fragrant flowers in various shades. Very showy. Height 1 ft. Pkt. 5c; 1/4 oz. 25c; 1/2 oz. 40c.

1310 Plumarius, Double and Single Mixed Fine for the rock garden or border. Contains many bright colors. Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 60c.

1303 Allwoodii Large blooms in many fine colors excepting yellow. Excellent for cutting, but not hardy where winters are severe. Produces 75% doubles. 15 in. Pkt. 35c; 3 pkts. \$1.00; 1/32 oz. \$1.60.

Dianthus barbatus

see *Sweet William*, pages 80 and 91

English Daisy—Bellis

Effective for edgings and in rockeries. The dwarf plants, 6 in. tall, produce large double daisy-like flowers on stiff stems early in the spring.

1280 Giant Flowered, Rose Large rich rose blooms 1 1/2 to 2 in. across. A fine variety. Pkt. 10c; 1/8 oz. 60c; 1/4 oz. \$1.00.

1281 Giant Flowered, White Pure white double blossoms. Pkt. 10c; 1/8 oz. 60c; 1/4 oz. \$1.00.

1282 Giant Flowered, Mixed All varieties well blended. Pkt. 10c; 1/8 oz. 60c; 1/4 oz. \$1.00.

Dicentra—Bleeding Heart

70N76 Spectabilis (Plants) The charming heart-shaped flowers, borne on long, gracefully arching branches, are rich pink. The leaves are light transparent green and of fern-like appearance. Blooms during April-May. 2 to 3 ft. Prefers a light soil in either sun or semi-shade. 40c each; 3 for \$1.10; 6 for \$2.15; 12 for \$4.10.

1315 Foxglove, Giant Shirley

Foxglove—Digitalis

Planted among low shrubs or in the border, Foxglove always will make a beautiful display. The tall heavy spikes, borne high above the clumps of green downy foliage, are closely set with elegant bell-shaped flowers. Does well in full sun but prefers semi-shade and a moderately moist soil.

1311 Gloxiniaeflora, Mixed Colors A fine variety with large flowers in pink, rose, and purple, borne on stalks 3 ft. long. Their beauty is enhanced by mahogany-brown spots in the throat. The stately plants grow to a height of 6 ft. Blooms the second year from seed. Often self-sows. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1315 Giant Shirley, Mixed Colors Enormous flowers in many fine colors. Very desirable. Pkt. 15c; 1/8 oz. 35c; 1/4 oz. 60c.

70N80 Giant Shirley, Mixed Colors (Plants) Fine strong healthy plants, well-rooted. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Gaillardia—Blanket Flower

The gaily colored blooms of Gaillardia are always a welcome addition to the border. They are carried on long strong stems from June until fall, and are excellent for cutting. Gaillardia thrives in any ordinary well-drained soil and does not require special winter protection.

1341 Fine Mixed Large single daisy-like flowers with crimson petals, tipped yellow. Grows 2 ft. tall. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

1342 Portola Hybrids Sturdy plants with immense flowers of bronzy scarlet, tipped with golden yellow. Pkt. 10c; 1/16 oz. 30c; 1/8 oz. 50c.

71N08 Mixed Colors (Plants) Strong plants producing many fine flowers the first year. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Geum

1351 Mrs. Bradshaw (Chiloense) Fiery scarlet double flowers on plants 1 1/2 ft. tall. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 55c.

1352 Lady Stratheden Fine double flowers of a rich golden yellow throughout the summer. Pkt. 15c; 1/16 oz. 40c; 1/8 oz. 60c.

Golden Wave—see *Coreopsis*, page 87

Grass Pink—see *Dianthus*, this page

Gypsophila—see *Baby's Breath*, page 86

Hardy Larkspur—see *Delphinium*, page 87

Hare Bells—see *Campanula*, page 86

Hesperis—see *Sweet Rocket*, page 91

Heuchera—see *Coral Bells*, page 87

1390 Hollyhock, Double Mixed

Hollyhock

1391 Allegheny Tall stalks covered with immense single and semi-double fringed flowers of great beauty. 6 ft. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1396 Single Mixed Colors Includes many fine shades. Pkt. 5c; 1/8 oz. 20c; 1/4 oz. 30c.

1392 Newport Pink

1386 Double White

1387 Double Yellow

1388 Double Rose

1389 Double Scarlet

Any of the above varieties:

Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

1390 Double Fine Mixed, All Colors A splendid mixture including many lovely varieties. Large blooms. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 45c.

4148 Collection of Double Flowering Hollyhocks

This collection contains one Pkt. each of the above five separate colors (value 50c) for only **35¢**

71N59 Double Flowering, Mixed Colors (Plants) Comes in an assortment of pleasing colors. Strong, well developed plants of blooming size. 20c each; 3 for 45c; 6 for 80c; 12 for \$1.40.

Hibiscus—Mallow Marvels

1382 Marvel, Mixed Colors Beautiful flowers 6 in. across in white, pink, and red. 6 ft. tall. Pkt. 10c; 1/4 oz. 25c; 1/2 oz. 40c.

71N46 Mixed Colors (Plants) For immediate effect in the border. Does well in moist or dry soil. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Honesty—Lunaria

1436 Biennis Grown for its attractive silvery white seed pods so much esteemed for winter bouquets. The plants grow 3 ft. tall, and bear purple or white flowers the second year from seed. The seed pods last almost indefinitely. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

Bearded Iris—Flag (Plants)

Iris delight in a warm soil in full sun. Water abundantly while the plants are in bud and full bloom.

71N74 Her Majesty Hazy rose-pink standards and pastel crimson falls. A very appealing variety. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

71N84 Ambassadeur Smoky lavender standards and deep violet falls. Orange beard. 30c each; 3 for 85c; 6 for \$1.55; 12 for \$2.95.

71N86 Lent. A. Williamson Soft lavender standards and rich velvety purple falls. Exquisite flowers. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

72N00 Collection of

Bearded Iris

One plant each of the three lovely varieties described above; **60¢** (value 70c) for only.....

Japanese Iris

Bright flowers of mammoth size produced freely during June-July, following the bearded varieties. Gorgeous for the border or at the edge of ponds or streams. 4 ft. tall.

1411 Mixed Colors Many fine varieties and colors. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

72N02 Mixed Colors (Plants) Contains both soft colored and veined varieties in a large assortment. 3 for 50c; 6 for 95c; 12 for \$1.70; 25 for \$3.00.

Japanese Bellflower

see *Platycodon*, page 90

Lavender—Lavandula

1425 Vera (True) An attractive border plant with grayish green narrow foliage, and spikes of small lavender blooms. Grown for its highly fragrant flowers. 2 ft. Pkt. 10c; 1/4 oz. 35c; 1/2 oz. 60c.

Lily-of-the-Valley—Convallaria

72N46 Majalis (Plants) Too well known to need description. The plants thrive in half-shade, and are at their best if planted in a rich leaf soil which is moderately moist but well drained. Increases rapidly. 30c each; 3 for 85c; 6 for \$1.55; 12 for \$2.95.

1445 *Lupinus, Perennial Mixed*

Lupinus—Lupine

Showy border plants of stately growth with large spikes of pea-shaped flowers. July to September.

1445 **Perennial, Mixed** Lovely spikes closely set with large blooms. Many fine colors. 3 ft. tall. Pkt. 10c; ½ oz. 20c; oz. 35c.

72N48 **Lupinus, Blue (Plants)**

72N49 **Lupinus, Rose (Plants)**

Either variety:

25c each; 3 for 65c; 6 for \$1.20; 12 for \$2.15.

72N51 **Lupinus, Mixed (Plants)** 3 for 60c; 6 for \$1.10; 12 for \$2.00; 25 for \$3.80.

Lychnis—Campion

1461 **Chalcedonica (Burning Star)** Bright scarlet blooms borne in clusters on plants 2 ft. tall during early summer. A popular perennial border plant. Pkt. 10c; ½ oz. 20c; ¼ oz. 30c.

1462 **Haageana Hybrids, Mixed** The individual flowers measure 1 in. across. Many fine colors. Grows 18 in. tall. Pkt. 10c; 1/16 oz. 30c; ¼ oz. 50c.

25c will buy any 3 ten-cent packets or any 2 fifteen-cent packets of either flower or vegetable seeds, or both if you wish.

73N36 *Phlox, Elizabeth Campbell*

1653 **All Colors, Mixed** Phlox seed is sown by amateur and professional gardeners to obtain new varieties. It is fascinating, and worth while to make a trial planting. Our mixture contains seeds saved from finest named varieties only. Of slow germination. Keep plantings evenly moist. Pkt. 20c; ½ oz. 45c; ¼ oz. 75c.

Maule's Showy Peonies

The Queen of Spring Flowers

Attractive, bushy plants with beautiful massive blooms borne lavishly during the spring well above the foliage. They are perfectly hardy and grow to perfection in any rich well-drained sunny position. Unsurpassed for the border, cutting, or for specimen plantings in the lawn.

73N00 **Baroness Schroeder (Roots)**

A late blooming variety with large, well rounded, double flowers of fine form. The color is a beautiful delicate pink of unusual softness, shading to white. The plants are free blooming and of splendid habit. The flowers are sweet-scented, making them very desirable for cutting. 80c each; 3 for \$2.30; 6 for \$4.55; 12 for \$8.80.

72N90 *Peony, Edulis Superba*

72N90 **Edulis Superba (Roots)**

One of the fine early varieties coming into bloom soon after variety *Officinalis fl. pl.* The beautiful double flowers are of fine substance, delicately perfumed, and borne freely on long stiff stems. The color is a rich but warm mauve-pink with a silvery reflex. Fine for the border and cutting. 35c each; 3 for 90c; 6 for \$1.70; 12 for \$3.10.

72N94 **Felix Crousse (Roots)**

Immense ball-shaped blooms of a brilliant dazzling red with a ruby flamed center. They are quite double, of heavy substance, and borne in great profusion on sturdy, well rounded plants. Comes into bloom in late mid-season. A fine variety for garden display and not less desirable for cutting. 50c each; 3 for \$1.45; 6 for \$2.75; 12 for \$5.30.

72N98 **Karl Rosefield (Roots)**

A newer Peony of great merit, originated in this country. It possesses nearly everything a really good Peony should have. The plants are of magnificent, strong, upright growth holding their flowers well up to the last. The large, massive blooms are very double and of a deep rich crimson. 60c each; 3 for \$1.70; 6 for \$3.35; 12 for \$6.50.

73N03 **Officinalis Rubra fl. pl. (Roots)** The well-known red herbaceous Peony of old-time gardens—but still very popular. The medium-sized double flowers are of good substance, and well formed. They are borne freely on rather dwarf plants about 20 in. tall. The color is a brilliant deep red. Blooms around Memorial Day. 70c each; 3 for \$2.05; 6 for \$3.95; 12 for \$7.70.

73N05 **Sarah Bernhardt (Roots)** A magnificent Peony introduced only a few years ago. The color is a very fine soft shade of pink with a satiny finish. The flowers are double to the very center, of fine form, and produced freely. Late midseason. 80c each; 3 for \$2.30; 6 for \$4.55; 12 for \$8.80.

73N25 Collection of Maule's Showy Peonies

This collection contains one plant each of *Baroness Schroeder, Edulis Superba, Felix Crousse, Karl Rosefield, Officinalis Rubra fl. pl.,* and *Sarah Bernhardt* (value \$3.75) for only **\$3.40**

Magnificent and Colorful

Hardy Perennial Phlox

Phlox belongs to the showiest perennial plants for beds and borders. They make a gorgeous display from midsummer until early in the fall. The large flower trusses, composed of fine individual blooms, are produced freely and come in many pleasing colors. Phlox delights in a rich soil in an open sunny location.

73N34 **Beacon (Plants)** Immense trusses of brilliant cherry-red blooms borne on long sturdy stems. A magnificent large-flowering variety sure to attract attention wherever displayed. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

73N38 **Commander (von Hindenburg) (Plants)** A splendid variety of recent introduction. The well formed flower heads are composed of large crimson-red flowers with a dark eye. 25c each; 3 for 65c; 6 for \$1.20; 12 for \$2.15.

73N36 **Elizabeth Campbell (Plants)** Large blooms of a light salmon-pink with a pronounced rich pink center, borne in large trusses. A very appealing color. 35c each; 3 for \$1.00; 6 for \$1.90; 12 for \$3.60.

73N40 **Firebrand (Plants)** Flaming orange-cerise blooms of unusual luminosity. The flower heads are large and well formed. Should have a place in every garden. 25c each; 3 for 65c; 6 for \$1.20; 12 for \$2.15.

73N48 **Mrs. William Jenkins (Plants)** This is the finest pure white perennial Phlox introduced to date. The large, massive clusters contrast well with the rich green foliage. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

73N56 **Thor (Plants)** The blooms are a pleasing shade of rich salmon-pink relieved by a dark red eye—a color combination which is sure to appeal to everyone. Large round trusses of fine appearance. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

73N60 Collection of Hardy Perennial Phlox

Contains one plant each of the above six outstanding varieties: *Beacon, Commander, Elizabeth Campbell, Firebrand, Mrs. William Jenkins, and Thor.* (value \$1.45) for only **\$1.25**

Pampas Grass—*Gynerium*

1584 Argenteum One of the most attractive of the ornamental grasses. The plants form massive clumps towered by graceful, purplish violet plumes which turn silvery white with age. Ideal for specimen plantings or for a background to the perennial border. 8 ft. tall. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

Physostegia—*American Heather*

1661 Virginica Beautiful spikes of small Snapdragon-like blossoms in rosy pink, lilac, and white, from July through September—a period of time when few other perennials are in bloom. Succeeds in moist soil in either sun or shade. Of easiest culture. 3 1/2 ft. tall. Pkt. 10c; 1/16 oz. 25c.

Pinks—see *Dianthus*, page 88.

1662 *Platycodon Mariesii*

Platycodon

Balloon Flower—Japanese Bell Flower

1662 Mariesii Magnificent large bell-shaped flowers on plants 12 to 15 in. tall. The rich deep blue flowers are produced freely from July until September. Excellent for cutting. Pkt. 10c; 1/16 oz. 50c; 1/8 oz. 85c.

Primula—*Primrose*

1703 Vulgaris The true "English Primrose" with clusters of bright yellow blooms with a touch or orange-yellow in the center. The plants are of tufted growth and have rich green crumpled leaves. Fine for edging, cutting, borders, and naturalizing. Prefers half-shade. 6 in. tall. Pkt. 15c; 1/16 oz. 50c; 1/8 oz. 85c.

1704 Veris, Large Flowered Mixed

(*Polyanthus*) Large clusters of showy flowers produced early in the spring on stems 8 in. long. The color range is truly magnificent, including creamy white, yellow, crimson, copper-red, purple, etc. Perfectly hardy. Prefers moderately moist soil in either sun or shade. Very pretty for edging. Pkt. 15c; 1/16 oz. 45c; 1/8 oz. 80c.

1706 Auricula A charming variety for the semi-shade and moist rich soil. The plants have rather fleshy, grayish green leaves contrasting well with the velvety flowers borne in clusters on sturdy stems. Unusually attractive colors. 5 in. tall. Pkt. 10c; 1/16 oz. 60c; 1/8 oz. \$1.00.

4194 Perennial Rock Garden Collection

Contains one Pkt. each:

- | | |
|----------------|----------------|
| 971 Armeria | 916 Alyssum |
| 1121 Aubrietia | 1186 Candytuft |
| 1308 Dianthus | 1219 Cerastium |

(value 65c) for only... **50c**

1710 Purple Feather Grass

Stately plants, 3 ft. tall, forming large clumps of narrow gracefully drooping leaves and long feathery purplish plumes on thin wiry stems. Combines well with other tall growing plants as Cannas, Salvia, etc. Delights in full sun and a rich, moderately moist soil. Fine for cutting, mixed beds, borders, and at the edge of streams or ponds. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

1710 Purple Feather Grass

Pyrethrum—*Persian Daisy*

For garden display and cutting, this lovely perennial will be found most-satisfactory. The plants grow 2 1/2 to 3 ft. tall, producing fine large flowers in many colors.

1711 Roseum, Single Mixed Large single blooms on long stems borne during the spring and fall. Many colors. Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 60c.

1712 Roseum, Double Mixed Fine double flowers on long stems. All colors. Pkt. 20c; 1/16 oz. 55c; 1/8 oz. \$1.00.

73N82 Single, Mixed (Plants) Strong healthy plants, well rooted, sure to give satisfactory results. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Red Hot Poker—see *Tritoma*, page 91

Rock Cross—see *Arabis* and *Aubrietia*, page 96

Rudbeckia—*Coneflower*

1716 Purpurea Large flowers with a dark cone-shaped center surrounded by long reddish purple petals. Borne freely on long stems from July to September. Succeeds anywhere in full sun. 3 1/2 ft. tall. Fine for the border. Pkt. 15c; 1/8 oz. 40c; 1/4 oz. 70c.

Scabiosa—*Blue Bonnet*

1743 Caucasica Lavender-blue flowers borne on long flexible stems from June to September. Perfectly hardy and succeeding in any well drained soil. 18 in. tall. Pkt. 10c; 1/16 oz. 30c; 1/8 oz. 55c.

No Garden is complete without some of these
Hardy Perennial Poppies—*Papaver*

The graceful habit of the Iceland Poppies and the stately appearance of the Oriental varieties make both types most desirable for garden display and cutting. Their brilliantly colored blooms are beautiful and impressive. They last well when cut.

Iceland Poppies

Dwarf tufted plants with attractive light green foliage from which rise thin flexible stems each being crowned by a beautiful flower of silky texture. Succeeds in any well drained garden soil in a sunny location. Fine for rockeries.

1666 El Monte Large dazzling tangerine-orange blooms made up of lovely silky petals. Height 1 ft. Pkt. 15c; 1/8 oz. 60c; 1/4 oz. \$1.00.

1667 New Hybrids, Mixed Colors A showy strain including rich and also delicate shades of apricot, cameo-pink, buff, mauve, and others. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

Oriental Poppies

Bushy plants with deeply cut, hairy leaves of a rich green color. The huge blooms, often 6 in. across, are borne upright on stiff stems and come in most brilliant colors. No garden is complete without some of these Poppies. 3 ft. tall. Blooms during May and June.

1624 Princess Victoria Louise Enormous salmon-pink flowers with attractive satiny petals showing a large black blotch at the base. Very free blooming and unusually fine for cutting. Pkt. 15c; 1/16 oz. 40c; 1/8 oz. 70c.

1664 Oriental Hybrids, Mixed Contains a wonderful assortment of colors ranging from almost white through many fine pink and salmon shades to scarlet and deep crimson. Extra fine, handsome flowers. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

1664 Oriental Hybrids, Mixed

Shasta Daisy—*Chrysanthemum*

1283 Maximum Glistening white flowers with a contrasting golden yellow center. Very free blooming and fine for cutting. Pkt. 10c; 1/16 oz. 30c; 1/8 oz. 50c.

70N64 Mrs. C. Lothian Bell (Plants) Compact plants of even height with huge white blooms on long graceful stems. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Snow-in-Summer

Statice—Sea Lavender

Makes a fine show in the border and is excellent as a cut-flower. Easily dried.

1758 Latifolia (*Limonium*) Large loose flower heads composed of innumerable small lavender-blue blooms, borne upright on strong stalks. 18 in. Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 60c.

74N08 Latifolia (Plants) For an early supply of flowers, plants should be used. Our stock is healthy and of blooming size. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

25c will buy any 6 five-cent packets, or any 3 ten-cent packets or any 2 fifteen-cent packets of either flower or vegetable seeds, or both, if you wish.

1759 *Stokesia cyanea*, Mixed

Stokesia—Cornflower Aster

1759 Cyanea, Mixed Colors This lovely perennial is becoming more popular every year. The large Cornflower-like blooms make a fine show wherever planted. They are produced on good size stems during July and August. Height 2 ft. Pkt. 10c; 1/8 oz. 40c; 1/4 oz. 70c.

Sweet Rocket—Hesperis

1941 Matronalis, Mixed Colors Showy plants, 3 ft. tall, with large loose panicles of sweet-scented flowers in white and purple. Blooms all during the summer. Succeeds in full sun and half-shade. Fine for the border, among low shrubs, and for cutting. Pkt. 5c; 1/4 oz. 20c; 1/2 oz. 30c.

4191

Perennial Garden Collection

Six choice varieties for a gorgeous display. Contains one Pkt. each:

- 958 Aquilegia
- 1254 Coreopsis
- 1301 Delphinium
- 1341 Gaillardia
- 1711 Pyrethrum
- 1664 Oriental Poppy

1940 Sweet William
Maule's Special Mixture

Sweet William—London Tufts

An old favorite which is not likely to lose its popularity as long as gardens are made. The rich colors and the well-shaped round flower heads are very appealing. It is of easiest culture, succeeding almost anywhere. 15 in.

1931 Newport Pink A newer variety known and prized for its large globular heads composed of clear salmon-pink single flowers. The plants are of even height which makes them valuable for bedding and edging. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

1935 Scarlet Beauty Where a striking effect is desired in the border or rock garden, this charming variety is the right one to use. It is truly a "beauty" with rich deep scarlet blooms. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1936 Double Mixed A colorful mixture of all double flowering varieties. Large, well rounded flower heads on strong, erect stems. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1938 Single Mixed Finest single varieties in a well-blended mixture. Pkt. 5c; 1/4 oz. 25c; 1/2 oz. 40c.

1940 Maule's Special Mixture Contains the best double and single flowering varieties of all colors. Planted in solid beds or in the border or rock garden, the effect will be unique. Extra. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

1927 Sweet Wivelsfield
Dianthus barbatus X Allwoodii

Combines the characteristics of Sweet William with those of *Dianthus Allwoodii*. The habit of the plants and the flower formation are similar to Sweet William; the flowers, however, are far larger and come in a wider color range. For wealth of bloom and beauty of color, few other flowers can approach it. Pkt. 15c; 1/8 oz. 60c; 1/4 oz. \$1.00.

Tritoma

Red Hot Poker-Torch Flower

1946 Hybrida, Express An impressive plant with narrow grass-like leaves and massive spikes of orange-scarlet flowers during the summer. Does best in a rich sandy soil. Requires a protective cover where winters are severe. Pkt. 15c; 1/8 oz. 40c; 1/4 oz. 60c.

74N12 Pfizeri (Plants) Mammoth spikes with burning orange-scarlet flowers. 25c each; 3 for 65c; 6 for \$1.20; 12 for \$2.15.

1946 *Tritoma Hybrida, Express*

2002 Tufted Pansy, Finest Mixed

Tufted Pansy—Viola cornuta

2002 Improved, Finest Mixed Of easiest culture, succeeding anywhere in full sun or half-shade. The small, gayly colored blooms are borne profusely from May to October. Pkt. 10c; 1/16 oz. 20c; 1/8 oz. 35c.

74N30 Jersey's Gem (Plants) The finest Tufted Pansy ever introduced. The large, violet-blue flowers are of heavy substance. They are produced in masses on strong stems. Unequaled for edging, cutting, or for use in the rock garden. Requires full sun. 6 in. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Valeriana—Hardy Heliotrope

1952 Mixed Colors Large flower heads composed of small fragrant blooms in red and white. The plants average 2 ft. in height, and are very showy if planted in clumps in the border. Bluish green foliage. Pkt. 10c; 1/4 oz. 30c; 1/2 oz. 50c.

Veronica—Speedwell

1982 Spicata Mixed Erect bushy plants with large flower spikes in various shades of blue, and also white. Succeeds in any dry, or moderately moist soil. Give it full sun. Fine for garden display and cutting. 1 1/2 ft. tall. Pkt. 15c; 1/8 oz. 50c; 1/4 oz. 85c.

74N24 Longifolia subsessilis (Plants) Large spikes of bright blue flowers. Height 2 ft. 25c each; 3 for 65c; 6 for \$1.20; 12 for \$2.15.

2006 *Viola Odorata, Dark Blue*

Violet—Viola Odorata

The well-known sweet-scented Violet with large flowers on long substantial stems. Fine for cut flowers.

2006 Odorata, Dark Blue Highly fragrant single blue flowers. Pkt. 10c; 1/16 oz. 50c; 1/8 oz. 85c.

74N28 Prince of Wales (Plants) Rich dark blue. 20c each; 3 for 50c; 6 for 95c; 12 for \$1.70.

Maule's Select Flowers for the House

Abutilon—see page 67

Asparagus

Lace Fern-Emerald Feather

974 Plumosus nanus Emerald green fronds of lace-like appearance. Fine for cutting. Pkt. 15c; 100 seed 35c; 500 seed \$1.50.

976 Sprengeri Large drooping branches with rich green needle-like leaves. Very popular. Pkt. 10c; 100 seed 30c; 500 seed \$1.25.

1134 Begonia, Double Mixed

Begonia—Tuberous Rooted

1134 Double Mixed Large double flowers in many fine colors, including white, yellow, pink, salmon, scarlet, etc. Of easiest culture. Pkt. 50c; 1/128 oz. \$2.75; 1/64 oz. \$5.00.

Begonia Bulbs—see page 93

Cactus

1154 Mixture of all Kinds and Varieties A surprise mixture containing a large variety of interesting types and forms. Pkt. 25c; 100 seed 50c; 1000 seed \$4.00.

1155 Calceolaria, Fine Mixed

Calceolaria—Pouch Flower

1155 Hybrid, Fine Mixed Interesting plants for pot culture producing masses of pouch-like blooms in many colors, all being more or less spotted or tigered. Pkt. 20c; 1/128 oz. \$1.90; 1/64 oz. \$3.50.

1235 Cineraria, Dwarf Mixed

Cineraria—Cape Aster

1235 Dwarf, Finest Mixed Large daisy-like single flowers in many fine self-colors and color combinations. 12 in. Pkt. 35c; 1/128 oz. \$1.00; 1/64 oz. \$1.75.

1234 Tall, Finest Mixed Large flowers in unusually fine colors. Height 18 in. Pkt. 35c; 1/128 oz. 90c; 1/64 oz. \$1.60.

1268 Cyclamen, Mixed

Cyclamen—Alpine Violet

1268 Large Flowering, Mixed This is the giganteum type, producing the largest and most perfect flowers of all. The colors include white, and many fine shades of pink, salmon, scarlet, and red, also white with dark eye. Pkt. 25c; 100 seed \$1.50; 500 seed \$7.25.

Ferns

1335 Choicest Mixed A valuable mixture of the finest varieties for indoor culture or garden decoration during the summer. The seeds should be sown in pans on top of peatmoss and kept in a temperature of 60° F. Pkt. 25c.

Annuals

Adapted for growing indoors in pots

Ageratum — Alyssum — Bedding Begonia — Browallia — Calendula — Candytuft — Coleus — Didiscus — Forget-Me-Not — Dwarf Marigold — Mignonette — Pansy — Schizanthus — Snapdragon — Stocks.

Fuchsia—Lady's Ear Drops

1337 Choice Mixed Hybrids Easily raised from seed, blooming freely the first year if sown early. The flowers are of graceful form, and come single and double, embracing many fine colors and color combinations. Pkt. 25c; 50 seed 75c; 100 seed \$1.25.

Geranium

Pelargonium

This is the most popular and widely used of all house-plants. The large flowers are borne in well rounded clusters on strong stems well above the attractive foliage. It blooms freely the first year from seed if sown during February or March. As fine for pot culture as for bedding during the summer.

1344 Apple Scented This species is grown for its fragrant foliage rather than the flowers. Excellent for pot culture. Pkt. 20c; 3 pkts. 50c.

1345 Lady Washington (Pansy Geranium) The sturdy plants bear immense clusters of large flowers each with a contrasting eye in the center. Comes in many fine colors. Pkt. 20c; 5 pkts. 90c.

1347 Double Mixed Finest double flowering varieties in many showy colors. Will produce some singles which, however, are not less desirable. Pkt. 25c; 5 pkts. \$1.00.

1348 Zonale, Mixed Large flower clusters of single blooms borne on sturdy plants. Includes white, pink, rose, salmon, and red shades. Pkt. 15c; 1/16 oz. 40c; 1/8 oz. 65c.

Gloxinia

1358 Choicest Hybrids Beautiful plants with velvety green foliage and large bell-shaped flowers in many colors. Pkt. 35c; 1/128 oz. 95c.

Gloxinia Bulbs—see page 93

Heliotrope—see page 71

Impatiens—see page 71

Lantana—see page 71

1950 Umbrella Plant or Palm

Umbrella Plant—Cyperus

1950 Alternifolius Attractive plants of umbrella or palm-like appearance, easily grown in water or damp soil. Very showy in pots or in the aquarium. Must never suffer from lack of water. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 45c.

Jerusalem Cherry

Solanum

1413 Capsicastrum Pretty shrub-like plants grown for their bright scarlet-red cherry-like berries. Much desired for indoor decoration around Christmas time. Easily grown from seed. Requires a rich moist soil. A fine market plant which sells well. Pkt. 10c; 1/8 oz. 2c; 1/4 oz. 40c.

1346 Geranium, Finest Mixed

1346 Finest Varieties, Mixed A complete mixture including both single and double flowering varieties in many colors. The seed has been saved from the finest large flowering varieties. Includes plain and fancy leaved plants. Pkt. 20c; 3 pkts. 55c.

Primula—Primrose

1699 Obconica, Mixed Colors

Large, well-rounded flowers borne in clusters on substantial stems well above the light green foliage. Many fine colors including white, pink, rose, salmon, carmine, and others. Pkt. 15c; 1/128 oz. 60c; 1/64 oz. \$1.00.

1709 Chinensis, Finest Mixed The seed which we offer in this mixture has been saved from the finest plants, and is sure to give wonderful results. The large, attractively fringed flowers are borne in clusters and come in many fine colors. Pkt. 20c; 1/128 oz. 75c; 1/64 oz. \$1.25.

1709 Primula chinensis, Mixed

For **Atamasco or Fairy Lilies** see *Zephyranthes*, page 96

Bulbs and Roots for House and Garden

Bulbs and roots give us the quickest means to raise beautiful flowers and foliage plants for garden display and house decoration. They are easy to grow and never fail to give good results. All bulbs and roots supplied by Maule are first class in every respect.

70B04 *Amaryllis*
Giant American Hybrids

Amaryllis

70B02 Equestris Large, fiery scarlet blooms with a green and white throat. They are borne on grayish green stems which rise amid the narrow, rich green leaves. For indoor culture only. 25c each; 3 for 65c; 12 for \$2.50.

70B04 Giant American Hybrids A gorgeous strain with huge flowers carried on strong stems. The color range is marvelous, including white, pink, salmon, rose, scarlet, and crimson. Often 5 or more blooms are open at one time. For indoors. 65c each; 3 for \$1.85; 12 for \$7.00.

70B05 Johnsoni Immense blooms often measuring 6 in. across. They are deep velvety crimson, with broad white stripes. For indoor culture only. 55c each; 3 for \$1.50; 12 for \$6.00.

Tuberous Rooted Begonias

Excellent for growing in pots indoors, or outdoors during the summer in sheltered beds in half-shade.

Double Begonias

70B45 Rose-Pink **70B46 Salmon**
70B47 Orange-Yellow **70B48 Scarlet**

Any of the above colors:
35c each; 3 for 95c; 12 for \$3.50

70B44 Double, Mixed Fine double blooms in white and shades of pink, salmon, yellow, orange, scarlet, and crimson. Very free blooming. 35c each; 3 for 95c; 12 for \$3.50.

70B49 Collection of Tuberous Rooted Begonias

One bulb each of the above four lovely colors, (value \$1.40) for only **\$1.00**

70B43 *Begonia*, Single Mixed

70B50 Frilled Mixed

Flowers of largest size in many exquisite colors with petals of a satiny finish, attractively frilled and ruffled at the edges. They are borne well above the beautiful foliage. One of the finest house plants. 30c each; 3 for 80c; 12 for \$3.00.

70B43 Single, Mixed

A carefully blended mixture which will please even the most critical gardener. It includes the finest colors, as yellow, rose, pink, salmon, orange, scarlet, and also white, in proper proportion. The flowers are of good substance and often measure 3 to 4 in. across. 30c each; 3 for 80c; 12 for \$3.00.

Caladium

Attractive foliage plants of fine decorative value. While the fancy-leaved type is for both indoors and outdoors, *Esculentum* is for garden display only.

70B38 Fancy Leaved Few other plants have as richly colored and marked foliage as the Fancy Leaved *Caladium*. The combinations of red, green, and white are most varied and beautiful. In many plants the leaf-veins are of a contrasting color in an almost endless variation of shadings. 35c each; 3 for 95c; 12 for \$3.50.

70B36 *Caladium esculentum*

70B36 Esculentum (Elephant's Ear) For specimen plantings or center pieces to large beds, this stately plant has few equals. The enormous leaves are produced on strong stems and often measure 2 1/4 to 3 ft. long and 2 ft. wide. Succeeds in deeply spaded rich garden soil exposed to the full sun, but will amply repay for any additional care. Requires plenty of water during the summer; occasional applications of liquid manure will be greatly beneficial to the plants. 25c each; 3 for 70c; 12 for \$2.50.

70B40 *White Calla*

Calla

70B40 White (Ethiopica) Large white flowers of cornucopia form. The foliage is dark green, often attractively spotted silvery white. Being not quite hardy this variety should be grown indoors. Plant in a rich soil and water abundantly while in active growth. Fine for cutting. 40c each; 3 for \$1.10; 12 for \$4.00.

70B42 Yellow (Elliottiana) Bright golden yellow flowers, produced freely on long sturdy stems. Although not quite as large flowering as *Ethiopica*, this variety will be found of great decorative value in the garden. Planted in the border or near streams, ponds, or fountains, it will make a wonderful display throughout the summer. Succeeds in any moderately moist soil. Height 3 ft. 50c each; 3 for \$1.40; 12 for \$5.00.

Cooperia—Evening Star

70B58 Pedunculata A showy plant with large white flowers tinted red on the outside. The fragrant blooms make a wonderful display when massed in beds or borders. Each bulb produces a number of flowers throughout the season. The bulbs must be stored frost-proof during the winter. 10c each; 3 for 25c; 12 for 85c.

Crinum—Zanzibar Lily

70B62 Kirkii A very attractive *Amaryllis*-like plant producing usually two flower stalks, each bearing a dozen large fragrant flowers. The petals are white with a deep reddish purple stripe through the center of each. It is suitable for pot growing and outdoor planting. Large bulbs. 40c each; 3 for \$1.10; 12 for \$4.00.

70B55 Cinnamon Vine

A hardy climber of vigorous growth easily attaining a height of from 10 to 15 ft. during the growing season. The sturdy vines are covered with handsome dark green leaves. The white flowers are produced freely and are highly fragrant. 15c each; 3 for 35c; 12 for \$1.10.

Gloxinia

71B24 Mixed Colors Large bell-shaped flowers in many fine colors. Plant the bulbs in a mixture of loam, leafmold, and sand, used in equal parts. Provide proper drainage and keep the soil evenly moist at all times. A splendid pot-plant. 40c each; 3 for \$1.10; 12 for \$4.00.

Hyacinthus

71B60 Candicans Stately flower spikes, 3 to 4 ft. tall, bearing from 20 to 30 large creamy-white bell-shaped blooms. The plants produce flowers all during the summer. Whether planted singly or in groups, it will make a fine display. Hardy around Philadelphia. 20c each; 3 for 50c; 12 for \$1.75.

Ismene—Peruvian Daffodil

72B06 Calathina Showy white *Amaryllis*-like blooms produced freely during the summer. They are fragrant and of artistic appearance. The bulbs should be planted in the spring after all danger of frost is past. May be used for flowering indoors. 25c each; 3 for 70c; 12 for \$2.50.

72B52 Madeira Vine

Mignonette Vine

An old favorite vine growing 10 to 20 ft. high. It is of rapid growth, covering a large area within a short time. The fleshy, heart-shaped leaves are of a light green color. During the late summer and fall the plants bear clusters of white fragrant flowers. Madeira Vine is excellent for trellises, porches, etc. Not hardy unless protected. 15c each; 3 for 35c; 12 for \$1.25.

Maule's Exhibition Gladiolus

75B89 Canna, Yellow King Humbert

Stately Cannas

Cannas are most showy flowering plants. Their tall, stately growth and their bold colorful blooms make them a foremost bedding plant for tall groups. Of easiest culture, thriving in an average garden soil and a sunny location.

75B12 Cheerfulness Large trusses of deep orange flowers with golden yellow bordered petals and crimson-carmine markings in the throat. Begins to bloom early and continues until frost. Height, 3½ ft. 20c each; 3 for 55c; 12 for \$2.00.

75B15 City of Portland Exquisite large blooms borne in immense clusters on strong stalks from early summer until frost. The color is a beautiful rich pink. 3½ ft. tall. Very showy. 25c each; 3 for 70c; 12 for \$2.50.

75B87 Copper Giant Attractive plants of sturdy growth surmounted by bold flower heads of bright coppery red blooms with a cast of rose. Height, 4 ft. 25c each; 3 for 70c; 12 for \$2.50.

75B29 Eureka Large, creamy white flowers of heavy texture, produced in large trusses. They contrast well with the fine green foliage. 4½ ft. tall. Combines very well with other varieties. 25c each; 3 for 70c; 12 for \$2.50.

75B50 King Humbert This variety has attractive bronzy red leaves with a metallic iridescence. The blooms are a velvety orange-scarlet, tinted rose. Height 4½ ft. 20c each; 3 for 55c; 12 for \$2.00.

75B60 Mrs. Alfred F. Conard A very appealing variety with flowers of largest size borne in abundance on robust, upright stalks. The color is an exquisite salmon-pink. Height, 4½ ft. 25c each; 3 for 70c; 12 for \$2.50.

75B75 The President The finest, largest, and most wonderful red Canna ever offered. The rich glowing red flowers measure up to 7 in. across, and are of unusually heavy substance. 4 ft. tall. 25c each; 3 for 70c; 12 for \$2.50.

75B89 Yellow King Humbert Excellent, deep golden yellow flowers attractively blotched, striped, or dotted bright scarlet. They are of largest size, good texture, and produced freely on strong stalks. 4 ft. 20c each; 3 for 55c; 12 for \$2.00.

75B90 Giant Flowering Mixed Every season we grow a large number of finest named and unnamed large-flowering Cannas in our trial grounds for comparison with standard varieties. These embrace the finest types and colors, all producing exquisite flowers on stately plants. We offer these in a grand mixture at real bargain prices. 3 for 50c; 12 for \$1.50; 25 for \$2.50.

79B01 Collection of Eight Stately Cannas

This collection contains one root each of the above eight named varieties. **\$1.50** (value \$1.85) for only.....

Few other flowers have undergone such a marked change in recent years as Gladiolus. From the old-time Gladiolus have originated the finest, large flowering varieties due to the continuous efforts of plant breeders. There are now many beautiful types and a color range that is truly amazing. The varieties which we offer represent some of the finest ever introduced; and we know they will give satisfaction in every respect. When cut they will last a long time, every bud opening into a beautiful flower.

79B22 Collection of Maule's Exhibition Gladiolus

Contains one bulb each of all the wonderful named varieties offered below—22 in all—(value \$1.47) for **\$1.00** only.....

78B67 Mrs. F. C. Peters

78B00 Alice Tiplady An early variety with good sized flowers of a striking orange-yellow. 3 for 15c; 12 for 45c; 100 for \$3.00.

78B01 America Exquisite lavender-pink blooms of largest size, borne on stately stems. 3 ft. tall. 3 for 15c; 12 for 50c; 100 for \$3.50.

78B07 Baron Hulot Large, dark blue flowers of heavy substance, closely set on long spikes. 10c each; 3 for 25c; 12 for 70c.

78B05 Berty Snow Enormous, rosy lavender blooms with a white blotch in the throat. 20c each; 3 for 50c; 12 for \$1.50.

78B13 Cowee's Scarlet Wonder Immense flaming scarlet-red blooms on strong stems. 3 for 15c; 12 for 50c; 100 for \$3.50.

76B70 Jean Kerr A most profuse blooming variety with moderate sized, pure white flowers. Comes into bloom early; excellent for cutting. 35c each; 3 for 90c.

76B73 Jersey's Beacon Enormous flowers on strong stems. Dazzling Chinese scarlet changing to a lighter shade on the reverse of the petals. 50c each; 3 for \$1.30.

76B74 Jersey's Beauty Flowers of good size and substance on long stems. Exquisite luminous pink, heavily suffused chamois. Remarkable for cutting. 35c each; 3 for 90c.

76B87 Margaret Masson Lovely silvery rose-pink flowers borne freely on sturdy plants. 35c each; 3 for 90c.

77B35 New Jersey Glowing velvety crimson flowers with short, pointed petals borne profusely on extra long stems. The blooms are large and well formed. One of the finest dark red varieties for garden display and cutting. 75c each; 3 for \$1.90.

77B49 Porthos An old standby which has never lost its popularity. The perfectly rounded flowers are rich deep red. 25c each; 3 for 65c.

77B69 Rose Fallon Flowers of largest size carried on strong stems well above the attractive deep green foliage. A wonderful old gold shade. 35c each; 3 for 90c.

77B70 Sagamore A charming combination of amber-yellow, salmon, rose, and orange-buff. The large substantial flowers are very artistic. 35c each; 3 for 90c.

77B75 Trentonian One of the finest autumn shades—a blend of old gold, yellow, and coppery-bronze. Magnificent large blooms. Very effective. 35c each; 3 for 90c.

77B41 Queen of the Garden Beautiful Large, massive flowers on strong erect stems. The color is a rich deep yellow of unusual appeal. 75c each; 3 for \$1.90.

77B45 Yellow Beauty A newer variety with fine shapely blooms of pure yellow. They are produced freely on extra fine stems. \$1.00 each; 3 for \$2.70.

76B74 Jersey's Beauty

COPYRIGHT 1934
BY W. A. S. B. Co.

77B94 Collection of Six Extra Fine Decorative Dahlias
Contains one vigorous division each: Elite Glory, Fordhook Erecta, Jean Kerr, Jersey's Beauty, Sagamore, and Queen of the Garden Beautiful. **\$1.75** (value \$3.55) for only.....

Pompon or Lilliput

76B45 Dee Dee Small, button-like blooms produced in masses on bushy plants, 3 ft. tall. They are carried on thin wiry stems; unexcelled for cutting. A lovely lavender color. 50c each; 3 for \$1.30.

76B68 Golden Queen An appealing variety with fine, well rounded blooms of a beautiful rich deep yellow. Much favored for garden display and cutting. Blooms very profusely. 25c each; 3 for 65c.

76B79 Joe Fette Pure white flowers, about 1½ in. in diameter, set against a background of rich green foliage. Always admired and much used for florists' work. Combines well with other varieties. 35c each; 3 for 90c.

77B32 Neatness This is one of the most attractive of all Pompon Dahlias—pale salmon with a cream center. The small ball-shaped flowers are borne profusely on fine strong stems. Should have a place in every garden. 50c each; 3 for \$1.30.

77B46 Pink Perfection A splendid variety bearing masses of attractive lavender-pink blooms. The vigorous growing plants are of bushy growth and lend themselves admirably for bedding. Planted in the border the effect will be most gratifying. 50c each; 3 for \$1.30.

77B32
Neatness

77B95 Collection of Pompon or Lilliput Dahlias

Cactus and Semi-Cactus

76B35 Cigarette A very popular Semi-Cactus variety with twisted, somewhat quilled, creamy white petals tipped with brilliant orange, creating the effect of a lighted cigarette. 35c each; 3 for 90c.

76B36 Emma Marie Enormous Semi-Cactus blooms, often measuring 6 to 8 in. across. Clear pink with a cream center. 50c each; 3 for \$1.30.

76B66 Garden Glow Giant flowers of striking orange-red over chrome-yellow, with the tips and base shaded soft yellow. 75c each; 3 for \$1.90.

76B38 Soleil d'Or A prize-winning variety with heavy, well formed blooms of a rich golden yellow color. Extra large. 75c each; 3 for \$1.90.

77B43 Sunnyside Extra large flowers of a grenadine-red shade, enhanced by a metallic luster. Truly a grand variety. 35c each; 3 for 90c.

77B98 Collection of Cactus and Semi-Cactus Dahlias
For a wonderful garden display we offer one tuber each of the above five varieties, (value \$2.70) for only..... **\$1.60**

76B38 Soleil d'Or

Informal Decorative

76B12 Barbara Redfern Immense blooms carried on strong erect stems. The color is a harmonious blend of old-rose and gold—neither color dominating. A truly magnificent combination. 75c each; 3 for \$1.90.

77B39 City of Trenton This is one of the most gorgeous autumn shades found in any class of Dahlias—bronzey red with a beautiful salmon cast. The substantial petals are attractively twisted. Of exceptionally good form. \$1.00 each; 3 for \$2.70.

76B31 Copper King Well formed, heavy, copper-red flowers enhanced by a golden yellow luster. The reverse of the petals is bright red. Long sturdy flower stems. 65c each; 3 for \$1.75.

76B69 Jane Cowl Considered the finest Dahlia introduced to date. The huge, bold flowers are a blend of bronzy buff and salmon shades. Of strong, vigorous growth. 75c each; 3 for \$1.90.

76B84 Kitty Dunlap The same beautiful shade of rose as that of the American Beauty Rose. Large blooms. 25c each; 3 for 65c.

77B40 Margaret Woodrow Wilson Creamy white flowers shaded pink. The reverse of the petals is deep pink. 35c each; 3 for 90c.

76B88 Marmion Magnificent golden yellow, heavily suffused bronze in the center. They are large, substantial, and well formed. Of vigorous growth. 50c each; 3 for \$1.30.

77B22 Mrs. Elinor Martin Deep rose and violet blending into a warm Mulberry shade. The large flowers are carried on fine strong stems. They keep a long time in water. 35c each; 3 for 90c.

77B24 Mrs. I. de Ver Warner A robust variety bearing large, rich mauve-pink flowers of heavy substance. Very attractive and desirable. 35c each; 3 for 90c.

77B42 Rapallo Not of largest size, but an exceptionally beautiful color—an exquisite blend of dark velvety red and gold. A free blooming variety of outstanding merit. 50c each; 3 for \$1.30.

77B44 Yankee King Coppery rose blooms of great beauty, enhanced by a glistening suffusion of old gold. The flowers are of good size and sure to cause favorable comment. 75c each; 3 for \$1.90.

We supply strong, vigorous planting-size tubers of Dahlias—They are sent "POSTPAID"

Beautiful Hardy Lilies

72B36 Collection of Four Showy Lilies

The four varieties of Lilies which we have combined here will give a particularly fine display in the garden. They are all perfectly hardy and will increase in size and number with each succeeding year. The collection contains one large blooming-size bulb each of Crimson Show Lily, Double Tiger Lily, Golden Banded Lily of Japan, and Regal Lily. Purchased separately these four bulbs would cost \$1.45. Mailed post-paid for..... **\$1.20**

72B33 Crimson Show Lily

(*Speciosum Melpomene*) A magnificent, large flowered Lily with rich carmine-crimson flowers spotted with mahogany-red, and edged with white. Grows 2 to 3 ft. tall and does well in either partial shade or full sunshine. Cover the bulb 10 in. deep with sandy soil. Easy to grow, flowering profusely during August and September. This is a native of Korea. Also forced for winter blooming. 40c each; 3 for \$1.10; 6 for \$2.00.

72B28 Double Tiger Lily

(*Tigrinum flore pleno*) This is a showy double flowering Lily with large blooms of a rich bright orange color with purple black spots. The plants grow 3 to 4 ft. tall and give a splendid display during August and September. Cover the bulbs 8 to 10 in. deep with moderately rich soil. They do well in full sunshine but will also stand a little shade. 25c each; 3 for 70c; 6 for \$1.25.

72B40 Giant Tiger Lily

(*Tigrinum fortunei giganteum*) Few other Lilies are as well known and as widely grown as this stately variety. The plants grow 4 ft. tall and make a fine display during August and September. Cover the bulbs with 8 to 10 in. of rich soil and plant them in a sunny position with some low growing plants covering the ground around them. They are rich orange and have purple spots. Exceedingly easy to grow and very hardy. 25c each; 3 for 70c; 6 for \$1.25.

72B32 Regal Lily

72B32 Regal Lily

(*Regale*) A new Lily brought to us from the mountains of Tibet in China. The large, wide open blooms are pure white inside and have a yellow throat. The outside is marked with rose. Grows 3 to 5 ft. tall and flowers during June and July. Cover the bulbs 10 in. deep with sandy soil mixed with a small quantity of coal ashes. 40c each; 3 for \$1.10; 6 for \$2.00.

Lilies are easy to grow in any average garden soil. They require good drainage and will live for many years as they are hardy and permanent. The varieties which we list are particularly showy and vigorous. It is important, however, that you follow the suggestions given as to the depth of planting to insure a fine display of flowers for many years to come. We offer sound, well graded bulbs of large blooming size, though some of the varieties have smaller bulbs than others. All are guaranteed to give satisfaction.

72B26 Golden Banded Lily of Japan

72B26 Golden Banded Lily of Japan

(*Auratum platyphyllum*) This is a great favorite of all gardeners. It is a wonderful variety, first found on sacred Mt. Fuji in Japan. It has large white flowers attractively splashed with bright crimson. The beauty of the flowers is enhanced by a broad golden band running through the midrib of each flower petal. It blooms from July until September and will grow from 3 to 6 ft. tall. Cover the bulb with 12 in. of fine soil. Does well in sun or in semi shade. Needs perfect drainage and cannot stand manure or lime. Place the bulb upon a handful of sand and mix a little leaf mold with the soil used in covering the bulb. Delightfully fragrant. 40c each; 3 for \$1.10; 6 for \$2.00.

72B27 Coral Lily

(*Tenuifolium*) A graceful variety often planted in the rock garden. Grows 18 in. tall and flowers during June. Has bright orange-scarlet blooms spotted with mahogany red. Cover the bulbs with 7 in. of fine loamy soil. Plant in partial shade or in the woodland garden. Can be grown in any light soil. It looks particularly lovely planted with ferns. 30c each; 3 for 80c; 6 for \$1.50.

72B25 Leopard Lily

(*Pardalinum*) This Lily has small bulbs produced in clusters and creeping under ground. Cover the bulbs about 5 in. deep and be sure they are planted above the water line. The plants grow 3 to 7 ft. tall and bloom during June and July. They have bright yellow petals attractively spotted with purple and tipped with orange-scarlet. It requires a sunny position and cannot endure lime. Plant it in rich, heavy loam soil to which has been added leaf mold or peat moss. A western variety. 30c each; 3 for 80c; 6 for \$1.50.

72B35 Yellow Japanese Lily

(*Hansonii*) This is also called Japanese Turk's Cap Lily. It was brought to us from Korea. The plants grow 3 to 5 ft. tall and bloom during June. The Yellow Japanese Lily is, therefore, one of the earliest to flower. Cover the bulb 8 to 10 in. deep with moderately heavy garden loam. It seems to be indifferent toward lime. The flowers are bright orange attractively spotted with brown. This splendid Lily looks exceedingly well planted in the foreground of Rhododendrons or amid Azaleas where it receives a little shade and is protected against wind and storms. 45c each; 3 for \$1.25; 6 for \$2.25.

72B55 Montbretia

An easy-to-grow bulbous plant with showy flowers not unlike small Gladiolus blooms. Includes colorful shades of yellow, salmon, orange, and scarlet. Grows 2 ft. tall and is splendid for cutting. Requires winter protection or, may be stored frostproof 3 for 25c; 6 for 40c; 12 for 75c.

Oxalis

72B66 Pink (Shamrock) Shamrock foliage and lovely pink blooms all during the summer. Not hardy. Splendid for borders and baskets.

72B64 White (Deppei) Shamrock-like foliage and graceful white blooms on long slender stems.

72B62 Lasiandra Rich rosy crimson flowers in large heads borne upon fine long stems. Has graceful palm-shaped foliage.

Any of the above:

6 for 15c; 12 for 25c; 25 for 45c.

73B94 Spider Lily, Giant White

A splendid large plant unexcelled for pot culture or planting outdoors during the summer. It is not hardy. It has graceful, pure white, fragrant blooms of oddly shaped form. Does best in a night temperature of 60 to 70 degrees and requires plenty of water while in full growth. During the winter the bulbs should be rested and kept dry to be repotted early in the following spring. 25c each; 3 for 70c; 6 for \$1.30.

74B18

Tuberose Excelsior Dwarf Double Pearl

The plants grow 25 to 30 in. tall and have fine long spikes closely set with richly fragrant, creamy white blooms which resemble a small Gardenia in form and texture. The flowers are closely arranged on a stout stem which is excellent for cutting. As Tuberose bulbs are not hardy, plant them after all danger of frost has passed and cover the bulbs with about 2 in. of fine soil. They require a sunny, well-drained location. 10c each; 3 for 25c; 6 for 45c; 12 for 75c.

74B18 Tuberose Dwarf Double Pearl

72B58 Water Lily

Nymphaea

This is the popular white pond Lily which is so easy to grow and perfectly hardy in all ponds which do not freeze through and through during the winter. The pure white flowers have a lovely fragrance. Plant the roots in the mud of a sluggish stream or pond. The roots are ready for delivery in April. 50c each; 3 for \$1.35; 6 for \$2.50; 12 for \$4.75.

Zephyranthes Atamasco or Fairy Lily

Showy plants with large blooms borne on stems 8 to 10 in. long. Fine for the garden or as a pot plant. Not hardy.

70B14 Rose Lovely large blooms of a beautiful clear rich rose color. Showy grass-like foliage. 15c each; 3 for 35c; 6 for 60c; 12 for \$1.10.

70B16 White Each flower stem carries a large, funnel-shaped, white flower. Easy to grow. 10c each; 3 for 25c; 6 for 45c; 12 for 60c.

74B99

Hardy Roses

Whether you intend to have a special bed of Roses or just a few plants scattered in your border here and there, it will pay you to start with our extra-strong two-year-old field-grown plants. They will give you a beautiful display during the coming summer and every year thereafter. Our roses—like all nursery stock—are shipped directly from our nursery in Ohio at your proper planting time transportation charges "PREPAID".

Hybrid Tea or Everblooming Roses Widely Known as "Monthly Roses"

This class comprises the finest varieties for outdoor culture. The well-formed flowers are produced continuously from June until frost. They give particular charm to your garden and are unsurpassed for cutting. Where winters are severe, the plants require protection of leaves, straw, evergreen boughs, etc.

90N11 Betty Uprichard Large semi-double flowers with beautifully ruffled petals. Coppery pink upon opening and changing to soft salmon when they fully expand. Makes a sturdy grower.

90N53 Mme. Jules Bouche A most desirable variety with large, fully double flowers. The color is a beautiful white with a delicate blush tint in the center. Free blooming; moderately fragrant.

90N71 Radiance Large double flowers of a rich carmine-pink. Blooms abundantly from spring until late fall on strong plants. The large, well rounded blooms are carried on strong, vigorous plants.

Any of the above six varieties: 60c each; any 3 for \$1.70; any 6 for \$3.10; any 12 for \$5.75; any 25 for \$11.00.

90N12 Etoile de Hollande A very hardy variety with glowing deep red flowers of perfect form in bud as well as when fully opened. Considered the finest red Rose.

90N75 John Russell Fragrant blooms of a deep velvety crimson shade. The flowers are produced freely and are of exquisite form and texture. The plants are of robust growth.

Any of the above four varieties: 80c each; any 3 for \$2.30; any 6 for \$4.30; any 12 for \$8.15; any 25 for \$15.60.

90N79 Red Radiance Highly sweet-scented blooms of a glowing cerise-red. They are large, fully double, and of excellent form. Exceptionally hardy and a strong grower.

90N85 Souv. de Claudius Pernet A gorgeous variety with deep canary-yellow blooms of truly magnificent form which contrast well with the dark green, glossy foliage. The finest yellow Rose.

90N44 Willowmere (Los Angeles Improved) Long, well shaped buds opening into attractive double blooms of a rich shrimp-pink, shaded golden yellow in the center. Very fragrant.

90N76 Rev. F. Page Roberts Lovely ovoid buds opening into large, fully double flowers of a deep golden yellow shaded with carmine-red. Of beautiful form. One of the finest.

90N91 Talisman This Rose must be seen to be appreciated. The lovely flowers are a brilliant orange-yellow shaded apricot, with the outer petals heavily suffused coppery crimson.

90N12 Hybrid Tea Rose
Etoile de Hollande

90N99 Collection of Six Hybrid Tea or Everblooming Roses
Contains one plant each: Betty Uprichard, Mme. Jules Bouche, Radiance, Red Radiance, Souv. de Claudius Pernet, and Willowmere (value \$3.60) for only **\$3.00**

91N72 Hybrid Perpetual Rose
Paul Neyron

Hybrid Perpetual Roses

Of vigorous growth and extremely hardy. They can stand considerably more cold than the Hybrid Tea varieties. Beautiful large double flowers borne profusely during June and July.

91N24 Frau Karl Druschki (White American Beauty) This is considered one of the finest white Hybrid Perpetual Roses. The flowers are large, well formed, and of wax-like appearance.

91N36 General Jacqueminot (Jack Rose) The buds and flowers of this attractive variety are considered models of perfection. The brilliant crimson color is rich, and impressive. Delightfully sweet-scented, very durable blooms.

91N60 Magna Charta Extra large, double flowers of a rich pink, shaded carmine. They keep in perfect condition for a long time both on the plants and when cut. Admired for its rich fragrance.

91N72 Paul Neyron Strong, upright growing plants with large, rich green foliage. The blooms are of truly enormous size and fully double. They are produced freely on strong canes. The color is a beautiful deep rose.

Any of the above, strong, two-year-old, field-grown plants: 50c each; any 3 for \$1.40; any 6 for \$2.50; any 12 for \$4.55; any 25 for \$8.50.

91N87 Collection of Four Hybrid Perpetual Roses
Contains one plant each of the four lovely varieties described here, (value \$2.00) for only **\$1.60**

Climbing and Rambler Roses

These lovely Climbing Roses are unexcelled for planting on porches, pergolas, arbors, walls, and fences.

92N14 Climbing American Beauty A strong, sturdy grower with large double flowers of a rich rosy crimson color. Early and free blooming.

92N28 Dr. W. Van Fleet Delicate flesh-pink blooms, 3 in. in diameter, borne profusely on vigorous plants. Long stemmed; excellent for cutting.

92N42 Mary Wallace Beautiful semi-double flowers of bright rose-pink attractively shaded salmon at the base of the petals. Blooms profusely.

92N56 Paul's Scarlet Climber Glowing scarlet-red blooms of excellent shape and moderate size produced freely in small clusters. Of good growth.

92N70 Silver Moon Large creamy white buds produced in large sprays, opening into very large, single blooms with golden yellow anthers.

Any of the above, strong, two-year-old, field-grown plants: 50c each; any 3 for \$1.40; any 6 for \$2.50; any 12 for \$4.55; any 25 for \$8.50.

62N74 Collection of Five Climbing Roses
One plant each of the above five varieties (Value \$2.50) for only **\$2.00**

Luscious Fruits

98N18
Raspberry
St. Regis
Everbearing

Raspberries

98N12 Cumberland A medium-early variety of strong growth, producing a large crop of black, luscious berries of excellent flavor.

98N15 Cuthbert Beautiful large crimson-red fruits of rich, sweet flavor, produced late in the season. A heavy cropper.

98N18 St. Regis Everbearing A popular variety with large berries of superior quality, borne continually from June to October. They are of an attractive bright crimson color. Very delicious.

Any of the above Raspberries:

6 for 40c; 12 for 70c; 25 for \$1.25; 50 for \$2.30; 100 for \$4.25, delivered. Not prepaid: 250 for \$8.50; 500 for \$16.00; 1000 for \$30.00.

Blackberries

98N04 Blowers Extra large, black berries of rich flavor. The plants are of strong upright growth and produce an enormous crop. Very hardy. 6 for 50c; 12 for 85c; 25 for \$1.55; 50 for \$2.90; 100 for \$5.50, delivered. Not prepaid: 250 for \$11.00; 500 for \$21.00; 1000 for \$40.00.

98N08 Eldorado A very productive variety bearing a large crop of luscious jet-black berries of extra fine quality. Mildew and rust resistant. 6 for 50c; 12 for 85c; 25 for \$1.55; 50 for \$2.90; 100 for \$5.50, delivered. Not prepaid: 250 for \$11.00; 500 for \$21.00; 1000 for \$40.00.

Grapes

Extra strong, 2-year-old plants

97N08 Catawba Medium-large, red berries of delicious flavor borne in large broad bunches.

97N34 Diamond Attractive clusters of large greenish white berries of extra quality. Early.

97N63 Moore's Early Jet-black berries covered with a purple bloom. Sweet, early, and productive.

97N70 Worden Luscious berries in large bunches. A strong grower. Quite early.

Any of the above:

25c each; 3 for 65c; 6 for \$1.20; 12 for \$2.25; 25 for \$4.30; 50 for \$8.25; 100 for \$16.00.

97N12 Concord Compact bunches of large purple berries produced abundantly on vigorous plants. Sweet and moderately juicy. 20c each; 3 for 55c; 6 for \$1.00; 12 for \$1.80; 25 for \$3.40; 50 for \$6.50; 100 for \$12.50.

97N06 Caco Considered the finest of all Grapes, with large bunches of red berries covered with an amber bloom. Sweet, juicy, and early. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00; 25 for \$13.25; 50 for \$25.65; 100 for \$50.00.

97N98 Collection of Four Delicious Grapes

Contains one strong plant each of Catawba, Diamond, Moore's Early, and Concord, (value 95c) for only **85c**

Beautiful Flowering Shrubs

for Permanent Effects

94N21 Butterfly Bush

Butterfly Bush

Buddleia

94N21 Variabilis magnifica Long slender stems terminating in tapering panicles composed of small lilac-colored florets, not unlike Lilacs. Of bushy growth, flowering freely throughout the summer. 40c each; 3 for \$1.10; 6 for \$1.90; 12 for \$3.35; 25 for \$6.00.

Japanese Snowball

Viburnum

94N87 Plicatum Of upright bushy growth, 6 to 8 ft. tall, with peculiarly crimped and crinkled leaves. The large ball-shaped flower heads are produced profusely during May and June. 70c each; 3 for \$2.00; 6 for \$3.70; 12 for \$6.95; 25 for \$13.40.

Weigela

94N93 Eva Rathke A most beautiful flowering shrub for sun or half-shade, with large tubular flowers of deep garnet-red color. Blooms profusely throughout the summer and autumn. The plants grow 5 to 6 ft. tall. Requires protection where winters are severe. 45c each; 3 for \$1.20; 6 for \$2.15; 12 for \$4.05; 25 for \$8.00.

Flowering Shrubs play a most important part in landscaping the home grounds. They are permanent with average care and will grow more beautiful as the years go by. The plants which we offer are strong, two-year-old field-grown specimens that will give a good effect quickly. They are guaranteed to the full amount of the purchase price.

Shipped direct from nursery at planting time.

Forsythia—Golden Bell

94N36 Fortunei The earliest shrub to bloom in the spring, with graceful drooping branches closely set with large star-like flowers of a rich golden yellow color. The fresh green foliage does not appear until blooming time is nearly over. Attractive wherever planted, particularly near ponds or streams. 45c each; 3 for \$1.20; 6 for \$2.15; 12 for \$4.05; 25 for \$8.00.

Hydrangea

"Peegee"

94N45 Paniculata grandiflora Few other shrubs are more effective for specimen plantings, hedges, or screens than a Hydrangea "Peegee". The large pyramidal panicles are produced from July on for several months. They are composed of hundreds of white flowers which gradually change to rich coppery pink as they age. Extremely hardy. 5 to 7 ft. tall. 50c each; 3 for \$1.40; 6 for \$2.50; 12 for \$4.55; 25 for \$8.50.

94N45 Hydrangea "Peegee"

Spiraea

94N75 Van Houttei

(Weeping Bridal Wreath)

One of the choicest flowering shrubs which has few equals as regards habit of growth and abundance of blooms. The long slender branches are gracefully arching and appear like a fountain of white when in full bloom during May and early June. Very effective as specimen plants in the lawn or when used for hedges, along driveways, etc. 45c each; 3 for \$1.20; 6 for \$2.15; 12 for \$4.05; 25 for \$8.00.

94N75 Spiraea Van Houttei

California Privet

95N22 Size 1 to 1 1/2 ft. Attractive plants with dark green, glossy foliage. Easily sheared to any height or desired form. Of robust growth and absolutely free from diseases. 12 for 85c; 25 for \$1.55; 50 for \$2.90; 100 for \$5.50, delivered. Not prepaid: 250 for \$11.00; 500 for \$21.00; 1000 for \$40.00.

95N24 Size 1 1/2 to 2 ft. For quicker results. 12 for \$1.00; 25 for \$1.85; 50 for \$3.45; 100 for \$6.50, delivered. Not prepaid: 250 for \$13.50; 500 for \$26.00; 1000 for \$50.00.

Amor River Privet—(North)

95N36 Size 1 1/2 to 2 ft. Of similar growth and vigor as California Privet, but still hardier. The plants with their olive-green foliage form a dense, handsome hedge. 12 for \$1.20; 25 for \$2.15; 50 for \$4.00; 100 for \$7.50, delivered. Not prepaid: 250 for \$13.50; 500 for \$26.00; 1000 for \$50.00.

Attractive Hedge Plants

Plant Japanese Barberry 1 1/2 ft. apart for hedges. Privet for that purpose should stand 8 in. apart.

Japanese Barberry

Very popular for low dense hedges. The small, light green leaves, turn to rich crimson in the fall, and its charming scarlet berries render it very attractive. Thorny branches.

95N74 Size 1 to 1 1/2 ft.—25c each; 3 for 65c; 6 for \$1.15; 12 for \$2.15; 25 for \$4.05; 50 for \$7.75; 100 for \$15.00, delivered.

95N75 Size 1 1/2 to 2 ft.—30c each; 3 for 80c; 6 for \$1.50; 12 for \$2.85; 25 for \$5.45; 50 for \$10.50; 100 for \$20.00, delivered.

95N87 Red Leaved Barberry

Copper red changing to vivid orange and crimson in the autumn. The plants must be given a sunny location. Strong one-year-old plants only. 45c each; 3 for \$1.25; 6 for \$2.35; 12 for \$4.45; 25 for \$8.50; 50 for \$16.50; 100 for \$32.00, delivered.

A LIST OF FERTILIZERS AND GARDEN SUPPLIES

Insecticides and Fungicides

52x36 Hammond's Slug Shot

Will destroy many kinds of insects attacking

vegetables and flowers. It is non-poisonous to man. Very economical. 1 lb. sifter-top carton 40c; 5 lb. package \$1.00, postpaid.

52x10 Mexogen

A special preparation that will kill the Mexican bean beetle, its eggs, and its larvae. It is a very effective repellent and should be used freely. ½ pt. can 85c; 1 qt. can \$2.15, postpaid. Not prepaid, 1 gal. can \$6.00.

52x32 Ever Green

Kills most plant-pests yet is harmless to man, birds, and animals. It does not injure tender plants even when in flower. It is economical and perfectly safe in every way. Pests which are readily destroyed are: Cabbage worms, green flies, white flies, thrips, leafhoppers, aphids, rose chafers, rose slugs, mites, red spiders, Japanese beetle, potato beetle, and many others. 1 oz. bottle 40c; 6 oz. bottle \$1.15; 16 oz. bottle \$2.15; 32 oz. bottle \$3.75, postpaid.

52x06 Bug Death

Easy to apply and harmless to man and pets. Because it is non-poisonous, it is largely replacing Paris green and arsenate of lead for destroying insect pests. It can be used on all vegetable and flowering plants either dry or in liquid form. 10 oz. sifter-top can 35c; 5 lb. package \$1.00, postpaid.

52x20 Aphistrogen

This destroys aphids or plant lice in 2 or 3 applications. Fine for Roses, Chrysanthemums, and all other plants attacked by these pests. 2 oz. bottle 60c; ½ lb. can \$1.35; 2 lb. can \$3.75, postpaid.

52x12 Key Brand Ansect

A very popular insecticide which kills rose bugs, aster beetles, mealy bugs, red spider, aphids, and other greenhouse and outdoor pests. It is used greatly diluted, 1 part to 30 parts of water. If diluted at the rate of 1 part to 150 parts of water it may be used for grubs in the soil. 4 oz. can 40c; 1 pt. can \$1.15; 1 qt. can \$1.75, postpaid.

52x34 Key Insect Household Spray

Destroys ants, bedbugs, flies, mosquitoes, moths, roaches, poultry lice, mites, fleas on dogs and cats, and keeps flies and mosquitoes away from horses and cows. Non-poisonous to man, pets, and larger animals. 8 oz. can 60c; 1 pt. can 85c; 1 qt. can \$1.40, postpaid.

52x14 Key Brand Fish Oil Soap

A non-poisonous sticky soap which is diluted with water and thoroughly stirred into a foamy liquid. It is sprayed upon plants to kill soft bodied insects, such as plant lice or aphids, red spiders, thrips, mealy bugs, green flies, white flies, and others. One pound will give from 6 to 10 gallons of spraying material. 1 lb. package 35c; 5 lb. package \$1.60, postpaid.

52x08 Sulpho Tobacco Soap

Sure death to all animal pests and plant insects indoors and outdoors. Of special value for spraying shrubs, fruit trees, vines, roses, etc. 3 oz. cake (makes 1½ gallons) 20c; 8 oz. cake (makes 4 gallons) 35c, postpaid.

52x15 RED ARROW

A most effective non-poisonous solution deadly to all insects. Will not burn, blight, or stain the most tender foliage. Use against caterpillars, Mexican bean beetle, cucumber beetle, rose aphids, leafhoppers, aster beetles, cut worms, etc. Most economical as it is highly concentrated. Full instructions with every bottle. 1 oz. glass 35c; ¼ pt. tin \$1.15; ½ pt. tin \$1.90; 1 pt. tin \$3.50, postpaid.

52x22 Fungitrogen

A highly concentrated fungicide used extensively to control mildew and black spot on roses, hollyhocks, geraniums, carnations, and delphinium. It is used greatly diluted. Very effective and satisfactory. Full directions are given with each can. ½ pt. can 85c; 1 pt. can \$1.40; 1 qt. can \$2.15, postpaid.

52x26 Mologen

A non-poisonous powdered bait which eliminates moles within a few days. Harmless to grass and soil; odorless and perfectly safe. ½ lb. can 60c; 1½ lb. can \$1.40; 5 lb. can \$4.35, postpaid.

Fertilizers and Plant Food

52x04 Oyama Plant Food

A remarkable Japanese discovery which makes plants thrive and bloom profusely. Use Oyama plant food on your house plants and keep them in bloom throughout the year and make them as green and luxuriant as if grown outdoors. It will make your flower and vegetable gardens wonderfully productive and attractive. Oyama plant food contains 17% nitrogen. Complete directions are given with every package. Do not fail to include this in your order. House size (makes 6 gallons) 30c; 3 for 85c; Garden size (makes 32 gallons) \$1.10; 3 for \$3.00, postpaid.

52x21 Floranid

Contains 55.9% of ammonia. It makes your plants grow and thrive. Excellent for all flowers, shrubs, lawns, vegetables, trees, etc. One level teaspoonful makes 1 gallon of liquid fertilizer. Floranid is odorless and stainless. 1 lb. 35c; 5 lbs. \$1.15, postpaid. Not prepaid: 10 lbs. \$1.50; 25 lbs. \$2.75.

52x25 Nitrophoska

An ideal, complete fertilizer containing 15% nitrogen, 30% phosphoric acid, and 15% potash. It is practically water soluble and shows wonderful results on vegetables, flowers, potted plants, lawns, shrubs, and trees. It is clean, odorless, stainless, highly concentrated, quickly available, and very economical. For potted plants, take as much as a dime will hold, mixing it thoroughly with the soil for each pot. 1 lb. 35c; 5 lbs. \$1.15, postpaid. Not prepaid, 10 lbs. \$1.50; 25 lbs. \$2.75.

52x30 PlanTabbs

A complete fertilizer in tablet form, guaranteed to make your plants grow and thrive. Clean, odorless, and perfectly safe if used in accordance with directions. For house plants, use one tablet diluted in 1 qt. of water. Excellent for flowers, vegetables, shrubs, fruits, etc. Contains 11% nitrogen, 15% phosphoric acid, and 20% potash. 30 tablets 25c; 75 tablets 50c; 200 tablets \$1.00; 1,000 tablets \$3.50, postpaid.

52x24 Fergen

A remarkable plant food and soil stabilizer for your roses. It supplies vital chemical elements and stimulates vigorous root action. 1 lb. can 85c; 2 lb. can. \$1.40; 5 lb. can \$3.00, postpaid.

52x27 Bone Meal

This is a particularly high-grade material, finely ground, and valuable for lawns, flowers, vegetables, shrubs, and trees. Of long lasting quality. 5 lbs. 70c, postpaid. Not prepaid: 25 lbs. \$1.25; 50 lbs. \$2.00; 100 lbs. \$3.50.

52x29 Pulverized Sheep Manure

Useful for lawns, vegetables, flowers, shrubs, and trees. It is easily handled and will not burn the foliage. It gives remarkably quick results. 5 lbs. 70c, postpaid. Not prepaid: 25 lbs. \$1.25; 50 lbs. \$2.00; 100 lbs. \$3.50.

52x28 Sacco Fertilizer

This has many times more plant food per pound than the highest grade manure. It is popular with gardeners, being entirely free from offensive odors. Fine for house plants, lawns, flowers, vegetables, shrubs, etc. 1 lb. can 40c; 5 lb. bag 75c; 10 lb. bag \$1.40, postpaid. Not prepaid: 25 lb. bag \$1.75; 50 lb. bag \$3.00; 100 lb. bag \$5.00.

Miscellaneous Garden Supplies

52x37

Germão
Hotkaps
New Method of
Plant Protection

Gives excellent protection to early plants against frost, rain, wind, and insects. Manufactured from wax paper. The 100 and 250 packages contain a papiermache setter and a tamper. 100 for \$2.75; 250 for \$4.50, postpaid. Not prepaid: 1000 for \$11.50; 5000 for \$50.00.

52x38 Hotkap Metal Setter with Tamper

This metal setter and tamper are best where a larger number of caps are to be set. With them, one man can set 2500 caps a day. \$2.75, postpaid.

Eezy
Wear
Garden
Gloves

Washable, dirt-proof, leather gloves made from select hides.

52x39 Medium Size for Women

52x40 Large Size for Women

52x41 Medium Size for Men

52x42 Large Size for Men

Per pair, any size 75c, postpaid.

52x02 Misty Sprayer

Throws a fine misty spray with every forward stroke. Made of heavy tin, and holds 1 qt. of liquid. For spraying in the garden and around the house. 75c, postpaid.
