1 October 1949

SUBJECT: Application for Permission to Remove Machines.

TO: Headquarters,
Shizuoka Civil Affairs Team.

THRU: Reparations Section, Economics Department,
Shizuoka Prefectural Government.

1. Name and location of plant from which machines are to be removed:-
Kokura Seiko KK, Hamamatsu Kojo (Former No. 2 Plant),
1600 Nakajima-cho, Hamamatsu-shi.

2. Name and location of plant to which machines are to be removed:-
Onoda Seisakusho,
388 Kamata-haginaka-cho, Ota-ku, Tokyo-to.

3. Reason for removal:-
To obtain capital for operation and repair by selling to the above company.

4. List of machines to be removed:-

Name of Machine	Specification	Maker	Quantity
Lathe	Motor-driven, 12 ft.	Asano Jukogyo KK	1
Lathe	Motor-driven, 16 ft.	"	1
Lathe	Belt-driven, 20 ft.	Matsuda Tekkosho	1

26 February 1947

SUBJECT: Recommendation for release from custody of dispersed munitions plant of Company whose machine tool plant was designated for reparations under SCAPIN 1133 (Kokura Seiko K.K. (Asano Jukogyo), 2400 Nakajima-cho, Hamamatsu-shi)(Inventory number 37-30)(Dispersed number 37-30(a))

TO : Commanding General Eighth Army
Hq 8th Army, APO 343

THRU : CHANNELS

1. Reference:

(a) I Corps Mem, AG004-BA "Review of Reparations Plants" 21 Nov 46

(b) I Corps Mem. AG004 (Rep) - BA "Clarification of Directives Selecting Chemical Plants for Reparations" 15 Feb 47: quoted paragraph #1.

(c) Preliminary Catalog of Machine Tools Industry for the Interim Reparations Program: GHQ, SCAP, 26 Dec 46 (Plant definition)

2. Reports and recommendations on a dispersed plant, of subject firm, located at Fukuoka, Akaho-cho, Kamiina-Gun, Nagano Prefecture were made in October and November 1946.

3. The first report, 22 October 46 covered the status of the plant at Hamamatsu, (selected for reparations as a machine tool plant under SCAPIN 1133) in relation to the adjoining former munitions plant, and recommended that the dispersed munitions plant in Nagano Prefecture be listed under SCAPIN 1134 (munitions) (should there be interest in the plant) copy of this letter is attached as inclosure No. 1 hereto.

4. Subsequently more information regarding the selection of machine tool plants became available. Reference 1. (a) is noted in this connection. About 26 November 46 there was a telephone request from Nagano Military Government Team to assign number 37-30 (a) to the Akaho dispersed plant. No communication had been received to letter from this Hq regarding the dispersed plant and as it appeared that the criteria for selection of machine tool plants did not include the dispersed munitions plant this Hq reported further on this plant on 27 November 46 and recommended that the plant not be inventoried unless it were designated for listing as a munitions plant. Copy of this letter is attached as inclosure No. 2.

Incl #1

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Ltr Hq Shizuoka Mil Govt Team, APO 1007, dtd 26 Feb 47 Subj: "Recommendation for release from custody of dispersed munitions plant of Company whose machine tool plant was designated for reparations under SCAPIN 1133 (Kokura Seiko K.K. (Asano Jukogyo), 2400 Nakajima-cho, Hamamatsu-shi(Inventory number 37-30) (Dispersed number 37-30(a))

5. Extract from reference 1. (c) made available to this Hq by letter subject "Reparations Catalogs from Tokai-Hokuriku Military Government Region defines a machine tool plant as: "a plant primarily engaged in the manufacture of non-portable, power-driven machines designed to shape metal by progressive cutting away of stock in the form of chips or shavings or by abrasive action", and further, a plant as: "an establishment operating as a unit under one management and confined to one geographical location."

6. This Hq has been informed by the plant management that the Nagano Military Government Team has ordered inventory of the Akaho plant as a dispersed machine tool plant of subject installation as plant number 37-30 (a). This Hq further feels that none of the criteria for selection of subject plant apply to the dispersed plant and recommends that the Nagano Military Government Team be instructed not to inventory the plant and that it be released as there is no basis for custody under the criteria for selection of the Hamamatsu Plant.

BASIC: Ltr Hq Shizuoka Mil Govt Team, APO 1007, dtd 26 Feb 47 Subj: "Recommendation for release from custody of dispersed munitions plant of Company whose machine tool plant was designated for reparations under SCAPIN 1133 (Kokura Seiko K.K. (Asano Jukogyo), 2400 Nakajima-cho, Hamamatsu-shi(Inventory number 37-30) (Dispersed number 37-30(a))

5. Extract from reference 1. (c) made available to this Hq by letter subject "Reparations Catalogs from Tokai-Hokuriku Military Government Region defines a machine tool plant as: "a plant primarily engaged in the manufacture of non-portable, power-driven machines designed to shape metal by progressive cutting away of stock in the form of chips or shavings or by abrasive action", and further, a plant as: "an establishment operating as a unit under one management and confined to one geographical location."

6. This Hq has been informed by the plant management that the Nagano Military Government Team has ordered inventory of the Akaho plant as a dispersed machine tool plant of subject installation as plant number 37-30 (a). This Hq further feels that none of the criteria for selection of subject plant apply to the dispersed plant and recommends that the Nagano Military Government Team be instructed not to inventory the plant and that it be released as there is no basis for custody under the criteria for selection of the Hamamatsu Plant.

Headquarters Eighth Army, APO 343 15 Dec 1948

TO: Commanding General, IX Corps, APO 309

1. The problem of the Kokura Seiko K.K., Akaho Kojo, Code No. 37-30(a), was presented to General Headquarters, Supreme Commander for the Allied Powers in a basic letter from this Headquarters dated 16 May 1947.

2. Recent information received by this headquarters from General Headquarters, Supreme Commander for the Allied Powers, indicates that no decision can be made at this time regarding the Kokura Seiko K.K. and other "local Custody" facilities pending a clarification of the entire reparations situation.

(c) Preliminary Catalog of Machine Tools Industry for the Interim Reparations Program: GHQ, SCAP, 26 Dec 46 (Plant definition)

2. Reports and recommendations on a dispersed plant, of subject firm, located at Fukuoka, Akaho-cho, Kamiina-Gun, Nagano Prefecture were made in October and November 1946.

3. The first report, 22 October 46 covered the status of the plant at Hamamatsu, (selected for reparations as a machine tool plant under SCAPIN 1133) in relation to the adjoining former munitions plant, and recommended that the dispersed munitions plant in Nagano Prefecture be listed under SCAPIN 1134 (munitions) (should there be interest in the plant) copy of this letter is attached as inclosure No. 1 hereto.

4. Subsequently more information regarding the selection of machine tool plants became available. Reference 1. (a) is noted in this connection. About 26 November 46 there was a telephone request from Nagano Military Government Team to assign number 37-30 (a) to the Akaho dispersed plant. No communication had been received to letter from this hq regarding the dispersed plant and as it appeared that the criteria for selection of machine tool plants did not include the dispersed munitions plant this Hq reported further on this plant on 27 November 46 and recommended that the plant not be inventoried unless it were designated for listing as a munitions plant. Copy of this letter is attached as inclosure No. 2.

6th Ind.

Headquarters Nagano Mil Govt Team, APO 181, 1 April 1947.

TO: Commanding Officer, Kanto Mil Govt Region, APO 201

The following information submitted in compliance with 3rd Indorsement.

a. The Addition and Corrections to Plant Code No., Hqs IX Corps, dated 13 November 1947 listed the Kokura Steel Manuf. Co. as Plant 39, Osaka Mil Arsenal, previously listed as the Toyo Valve Co. This error prompted as investigation of the subject plant.

b. Investigation revealed that the plant would fall in the criteria established for Reparations selection of Privately Owned Munitions Plant and that the Parent Company, formed from a munition plant and a machine tool plant, had been designated for Reparations under Code No. 37-30. Whereupon the addition of Kokura Steel Manufacturing Co., Fukuoka, Akaho on the list of 13 November 46 was construed to mean a Munitions Plant listed under incorrect Code No. Thus the Code No. 37-30 (a) was requested and approved.

c. Since the equipment has already been inventoried, this Headquarters requests that the subject plant be designated as a munitions plant under the approved code no. 37-30 (A).

TO: CG, Eighth Army, APO 343

1. The Kokura Seiko K.K. was designated for reparations as a machine tool plant by SCAPIN 1133. Code No. 37-30 was later assigned this plant for purpose of inventory. The Kokura Seiko K.K. consisted of two factories, a machine tool plant and a munition factory. The two factories were separate indentities although located near each other. The machine tool plant, 2400 Nakajima-cho, Shizuoka Prefecture, was undamaged as a result of the war, and remained in continuous operation. No application for removal of this plant from the reparations list has been received as yet.

2. During the war, the Asano Jukogyo K.K. erected a plant at 1600 Nakajima-cho for the special purpose of manufacture of munitions. This plant meets the criteria for munition plants as given in paragraph 1c. (1)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Ltr, Shizuoka Mil Govt Team, subj: "Recommendation for release from Custody of dispersed munitions plant of Company whose machine tool plant was designated for reparations under SCAPIN 1133 (Kokura Seiko K.K. (Asano Jukogyo,) 2400 Nakajima-cho, Hamamatsu-shi)(Inventory number 37-30)(Dispersed number 37-30 (a)", dtd 26 Feb 47.

and (2), Section III, Operational Directive No. 5/5, Headquarters Eighth Army, dated 24 September 1946. The Asano Jukogyo K.K. was distinctly a Kokura Seiko K.K. and assumed control and operation of both plants. As the factory which was erected by the Asano Jukogyo K.K. was distinctly a munition plant and had no connection with the machine tool plant which the company purchased, it has been considered to be a separate identity. Inventory of the equipment of the munition plant has not been made.

3. The Asano Jukogyo K.K. was almost totally destroyed by air raids during the period of war, and as a result two-thirds of its equipment has been dispersed to Nagano Prefecture. A total of 73 machines remain at the munition plant site in Shizuoka. Of the 73 machines, 38 have been moved into a specially constructed shelter, but due to the large size of the balance, 35 machines (mainly SP Units), still remain in the open. These machines are preserved by a pint and grease. The general category of all machines in this plant is approximately Class 2.

4. This headquarters has been informed that the Nagano Military Government Team has taken the 147 machines which are located in Nagano Prefecture under custody and control, and marked them under Code No. 37-30 (a). This Code number was not assigned either by this headquarters or by the Shizuoka Military Government Team. It is the opinion of this headquarters that the machines of the munition plant should not be included under the code number of the machine tool plant. In the event that inventory forms for these machines have been forwarded to higher headquarters under Code No. 37-30(a), it is recommended that these forms be withdrawn. The Kokura Seiko K.K. appears to qualify as a privately owned munition plant as well as a machine tool plant. It is the recommendation of this headquarters that the Kokura Seiko K.K. be designated as a munition plant in both Nagano and Shizuoka Prefecture, and separate code numbers assigned the two plants for purpose of inventory.

SHIZUOKA MIL GOVT TEAM
APO 710 (SHIZUOKA, HONSHU)

27 November 1946

SUBJECT: Kokura Seiko K.K. (formerly Asano Jukogyo K.K.) (SCAPIN 1133 - Inventory number 37-30) - Dispersed Factory at Fukuoka, Akaho-cho, Nagano Pref.

TO : Commanding Officer, Tokai-Hokuriku Mil Govt Region, APO 710

1. Reference letter this Hq dated 22 October 46 "Report on Reparations Installation and Recommendation for Additional Listing on Dispersed Plant (Kokura Seiko K.K. - formerly Asano Jukogyo K.K. Dai Ichi Hamamatsu Kojo and Dai Ni Hamamatsu Kojo - 2400 and 1600 Nakajima-cho, Hamamatsu-shi) Scapin 1133, inventory number 37-30)" addressed to Commanding General Eighth Army, HQ 8th Army, APO 343 US Army.

2. Subject plant is under custody as a machine tool plant, SCAPIN 1133. This Hq recommended the listing be maintained as the munitions portion of the plant has been largely destroyed and the greater part of the machinery dispersed to Nagano Prefecture (paragraph 2.a. reference letter).

3. The machinery located at Fukuoka, Akaho-cho, Kamiina-gun, Nagano Prefecture served as a dispersed factory. For this reason, and because the dispersed machinery amounts to 75% of the number of machines at the listed factory this Hq recommended that the dispersed factory be assigned a number under SCAPIN 1134 (munitions) in Nagano Prefecture so that the inventory be accomplished under a "26" (Nagano Prefecture) number. This would conform with the procedure outlines in OD 5/4, Sec. III, par. B3(c).

4. This Hq had a telephone communication from the Nagano Mil Govt Team requesting authorization to inventory the machinery under OD 5/4, Sec.III, par B3(b) as "37-30(a). It is felt that this plant should not be inventoried unless interest has been expressed in listing it as a munitions factory. The reasons for including the remaining machinery of the former munitions plant in Hamamatsu in the inventory of the machine tool plant were covered in the reference letter.

SUBJECT: Report on Reparations Installation and Recommendation for Additional Listing on Dispersed Plant (Kokura Seiko K.K. - formerly Asano Jukogyo K.K. Dai Ichi Hamamatsu Kojo and Dai Ni Hamamatsu Kojo - 2400 and 1600 Nakajima-cho, Hamamatsu-shi) (SCAPIN - 1133, inventory number 37-30)

TO : Commanding General Eighth Army
HQ 8th Army, APO 343 (U.S.Army)

THRU : CHANNELS

1. Only July 29 prior to the selection of this plant for reparations inventory under SCAPIN-1133 an application for reconversion was forwarded from this office. This application stated that the two former branch plants of Asano Jukogyo K.K. adjacently located at 2400 and 1600 under the name of Kokura Seiko K.K. The 2nd indorsement to the letter of this HQ (application to Reconvert to Peacetime Industry - Kokura Seiko K.K. dated 29 July) by HQ eighth Army 29 August refused reconversion permit because of listing under SCAPIN-1133 but authorized continued operation of the plant.

2. Although the former number 2 plant at 1600 Nakajima-cho was a munitions plant (anti aircraft guns) this office recommends that the listing under machine tools - SCAPIN-1133, be continued for the following reasons:

a. The former main plant at 2400 Nakajima-cho - a machine tool factory - was undamaged and has remained in continuous operation.

b. The former munitions plant was almost totally destroyed by shell-fire and two-thirds of its equipment (147 machines) was dispersed to Nagano Prefecture.

c. Of the 73 machines remaining in the plant, all were exposed to the elements for over a year and may be of little value. Of these 38 have been moved into shelter expecially reconsturcted, but 35 very large (mainly "SP" units) must continue to remain outdoors protected by paint and grease.

d. This location also contains 79 machines dispersed from the machine tool factory collected from dispersed point at Shikiji-mura. The result is that 50% of the machines in the former munitions branch are from the machine tool plant, and of the 50% belonging to the former munitions, the 25% that are under shelter and over hauled are largely stanard machine tools, while of the remaining 25% that cannot be housed, though heavily painted and greased.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Ltr. Hq. Shizuoka Mil Govt Team, APO 710 dtd 22 Oct. 46
Subj: "Report on Reparations Installation and Recommendation for Additional Listing on Dispersed Plant (Kokura Seiko K.K. formerly Asano Jukogyo K.K. Dai Ichi Hamamatsu Kojo and Dai Ni Hamamatsu Kojo- 2400 and 1600 Nakajima-cho, Hamamatsu-shi) (SCAPIN-1133, inventory Number 37-30)

many have already suffered from exposure, and many are "3P" machines of no reparations value.

3. A saltmaking installation located at Shinohara-mura set up after the war has been place under custody as it contains machines belonging to the former main plant.

4. The plant has 22 machines borrowed from Aichi Tokei Denki K.K. (SCAPIN - 1134), Nagoya, Aichi Prefecture which it has been instructed to carry on its own inventory.

5. There 147 machines dispersed from the former munitions factory now located at Fukuoka Akaho-cho, Kamiina-gun, Nagano Prefecture. This installation functioned as a dispersed plant for the munitions plant. It is recommended that this plant be listed under SCAPIN-1134 in Nagano Prefecture and inventoried separately from the subject installation.

SUBJECT: "Petition for Exemption from Reparations of Designated Machine Tool Plant (Kokura Seiko KK (formerly Asano Jukogyo KK) 2400 Nakajima-cho, Hamamatsu-shi, Inventory Number 37-30)."

THRU : Commanding Officer
Tokai-Hokuriku Military Government Region
APO 710

TO : Commanding General
Headquarters Eighth Army
APO 343
ATTN: Military Government Section

1. Forwarded for your consideration is petition for exemption of subject company dated 10 February 1946.

2. Petitions requesting exemption were previously forwarded from this Headquarters on 22 October 1946 and 27 March 1947. This Headquarters has not been advised of any action on previous petitions to date.

3. Continued operation of this plant was authorized by Headquarters 8th Army on 29 August 1946. Current production consists of semi-diesel engines, woodworking machinery, mining and milling machinery. The plant employs 272 people with a monthly payroll of ¥ 800,000. The operation of the plant contributes directly to the livelihood of over 1500 people, and indirectly to an additional 1000 (subcontractors employees) (refer to inclosure # 3).

4. The machine tool plant operates a total of 222 tallied items.

5. In Hamamatsu there are 93 machines of the former Asano Jukogyo KK munitions company. A dispersed munitions location of the Hamamatsu plant in Nagano Prefecture has 166 machines. The latter have been inventoried under number 37-30(a) on undetermined authority (refer to letter Headquarters I Corps AG 604-BA subject: "Present Status of Reparation Plant - Asano Jukogyo KK (Kokura

9/7 phoned Capt Jones 1st army to see if weapons machines released - (ODC) 2-p

9/28 Lt Braxton Nagano says this plant listed by SCAP order - can not release as dispersed location

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Seiko KK) Hammatsu Kojo (37-30 Machine Tool). These machines are itemized and classified in inclosure # 3.

6. This Headquarters recommends that the designated machine tool plant of Kokura Seiko KK, # 37-30, be released from reparations custody to continue its contribution to the Japanese economy and that the undesignated munitions machinery be designated for custody in lieu of the machine tool plant. If this be given favorable consideration approximately 222 items will be freed and 261 items newly designated.

FOR THE COMMANDING OFFICER:

3 Incl:
1. Recommendation of Prefectural Government - 5.
2. Petition of Kokura Seiko - 5.
3. Special report by Kokura Seiko - 5.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

SHIZUOKA PREFECTURAL GOVERNMENT

14 February 1948

SUBJECT : Recommendation on Application for Exemption of Machine-tool Factory from Reparations List

TO : Headquarters,
Shizuoka Military Government Team

THRU : Shizuoka Liaison Office

We beg hereby to submit you our recommendation on the application of Kokura Seiko K.K. for exemption of it's Hamamatsu Machine-tool Factory (#37-30) from the designation for Reparations purpose.

We wish this application will be favored with your authorization after the consideration that this factory, as shown on the following items, is one of the most important factories throughout the country for the rehabilitation of the present national economy.

1. This factory has been now engaged in production of coal mining machinery which is considered most essential to the coal production increase.

It goes without saying that the coal production increase is the requisites for the rehabilitation of post-war national economy of Japan, and that, as widely known, the long strides on the production increase cannot be obtained but by the mechanization of the means of mining. Here, the Government now strongly spurs the production of mining machinery.

a. As shown on the attached application, this factory had manufactured the parts of the belt conveyor for mine since the termination of war and had begun from April, 1947, to produce the complete sets of conveyor which had made the bottle-neck in way of the production of mining machinery. In January, 1948, the factory accomplished finally the marked result of 14 sets production per a month surpassing the present production difficulties with the enormous efforts.

b. This factory is the only one for manufacturing belt conveyor for mine in the Tokai-Hokuriku six prefectures area, so that the Nagoya Commerce & Industry Board designated the factory as a national important production facility and has made every efforts backing the factory for that production.

This Government has also supported the activity of this factory with the whole cooperation in recognition of it's vital importance.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

c. Furthermore, this factory is now planning the production of coal washing machine which is considered at the present mining states the important mining machine as well as the belt conveyor from it's effects on the rise of coal utilization value.

d. The following orders for mining machinery are made now to this factory.

belt conveyor,	750 mm	¥ 2,438,000
"	900 mm	¥ 3,280,000
"	1000 mm	¥ 2,750,000
Machinery for Coal Washing Plant,	50t-2 sets	¥17,000,000
"	30t-3 sets	¥25,468,000

Even in order to accomplish these ordered machines, the whole equipments of this factory are necessitated, and many efforts have been made to overcome the existing production difficulties.

2. In addition to the above, this factory has still been engaged in production of the oil engines for fishing boats and the large type band saw machine under your authorization for reconversion to the civilian industry. And even this production has been making the upward stride steadily and plays now an important role for the rehabilitation of industries in this prefecture.

By the above reasons, we shall be much obliged if you will give your favorable considerations to the application for exemption of this factory from Reparations list.

T. Kobayashi

T. Kobayashi
Governor
Shizuoka Prefecture

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TO : Shizuoka Military Government Team

FROM : Kokura Seiko Kabushiki Kaisha

SUBJECT : APPLICATION FOR THE EXEMPTION OF HAMAMATSU MACHINE-TOOL FACTORY FROM THE LISTING OF REPARATION CONTROLS

DATE : 10 February 1948

A. Name of the Company : Kokura Seiko Kabushiki Kaisha

B. Name of the Factory : Hamamatsu Machine-Tool Factory

C. Location of the Company and factory

1. Head Office, No.2, 1-chome, Marunouchi, Chiyoda-ku, Tokyo-to.

2. Factory, No.2400, Nakajima-cho, Hamamatsu-shi.

D. Date of the Company established and the factory operated :

1. Company established 7 Dec. 1918

2. Plant operated May, 1913

Note ; The operation of the Factory at the present site commenced in Jan. 1935.

E. Historical Data :

(1) In 1913, Kumasaburo Nishikawa established Nishikawa Iron Works at Maisaka-machi, Hamana-gun, Shizuoka Prefecture, and started to make and repair oil engines for fishing boats as well as other land-types. This is the antecedent of our Hamamatsu Factory.

(2) In 1916, Nishikawa Iron Works changed its form from the personal management to a limited partnership, and again in 1932 into a joint stock company.

In 1934 the factory was built at the present site located at No.2400, Nakajima-cho, Hamamatsu-shi, were the main office was moved from the former place in 1935.

During the period mentioned above, the main business items were the manufacture and repair of oil engines for fishing boats and other land-types. Besides they started to produce machine-tools and enlarged the factory for that purpose.

(3) In May, 1940, the company was purchased by "Asano Kikai Kogyo Kabushiki Kaisha".

In March, 1941, the company was analgamated by "Asano Jukogyo Kabushiki Kaisha", and at the same time the name of the factory was changed as "Hamamatsu Factory".

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Since then Hamamatsu Factory, by the order of the government, has been especially engaged in the manufacture of machine-tools.

(4) In Dec. 1945, all members of the Asano family retired, the company had no connection with the "Asano Zaibatsu" and changed its name as "Kokura Seiko Kabushiki Kaisha".

(5) On 31 Jan. 1946, by the permission of the Military Government of the 25th Division, Allied Force (Permission granted through Shizuoka Prefecture on 20 Feb. 1946), the business items were altered as following :

1. Marine oil engines
2. Machinery for lumber mills
3. Machinery for provisions
4. Pumps
5. Macninery for mining, chemical and civil industries
6. Salt manufactory

Note: For reference, 5 graphs are attached showing (1) Company system during the war (2) Company system at present (3) Number of machine-tools equipped (4) Machine-Tools equipped, increased number at every stage (5) Amount of production.

F. Annual Production from 1930 to 1936.

	Engines for Fishing boats	Machine-Tools
1930	46 set	0 set
1931	35	0
1932	35	0
1933	30	41
1934	28	49
1935	21	58
1936	14	60

G. Annual Production from 1937 to 1945.

	Engines for Fishing boats	Machine-Tools
1937	6 set	75 set
1938	8	106
1939	5	117
1940	6	139
1941	0	141
1942	0	123
1943	0	160
1944	0	174
1945	0	25

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

H. Production after the War :

(1) Actual Production

(Conversion granted in Jan. 1946 and started production since Feb. 1946)

(a) Actual Production in 1946.

Food stuff Mill Mach.	Lumber Mill Machinery	Oil Engines	Mining Machinery Pumps and others
2833 set	107 set	420 H.P.	¥ 419,000

(b) Actual Production per month since Jan. 1947.

	Oil Engines	Lumber Mill Machinery	Mining, civil & chemical Mach.	Pumps, Food stuff mill Mach. & Others
1947				
Jan.	50 HP.	1 set	277 each	¥ 102,000
Feb.	80	17	126	¥ 45,000
Mar.	80	4	193	¥ 75,000
Apr.	120	7	3 set	¥ 124,000
May	80	7	1	¥ 15,000
Jun.	180	3	2	¥ 94,000
Jul.	100	6	5	¥ 368,000
Aug.	100	3	4	¥ 29,000
Sept.	160	2	6	¥ 21,000
Oct.	60	2	6	¥ 71,000
Nov.	80	2	5	¥ 118,000
Dec.	240	3	7	¥ 122,000
1948				
Jan.	320	1	14	¥ 105,000

(2) Potential Production per Month.

Oil Engines	400 HP.	50,40,20 and 6 HP. Engines.
Lumber Mill Machinery	3 set	48" Band Sawing Machine
Mining Machinery	100 set	Belt Conveyer, coal washing machinery, coal pick hammer and sand pumps.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

I. Maonine-Tools and Other Equipments in Need for Potential Production (Item H. (2) above).

	Required	Surplus
Lathes	81 set	4 set
Shaping Machines	9	0
Planing Machines	6	0
Slotting Machines	3	0
Milling Machines	5	0
Upright Drilling Machines	17	0
Radial Drilling Machines	3	0
Boring Machines	6	0
Gear Cutting Machines	7	5
Grinding Machines	8	1
Bite Grinder	8	0
Metal Sawing Machines	2	0
Centering Machine	1	0
Total Machine-Tools	156	10 (Total 166)
Industrial Machinery	23	0
Electrical Machinery	11	0
Total Equipments	34	0
Sum Total	190	10 (Total 200)

Note : In addition to the above machine-tools, there are 22 sets of machines leased from Aichi Tokei Denki K.K., Nagoya (See page 16 and 17 of the attached list of machines).

The above lists do not include any equipment of the former munition factory, "No.2" Plant - 93 sets(include 1 C class machine and exclude 4 destructed SP.Machines) in Hamamatsu Munition Plant, and 168 sets in the dispersed munitions plant at Fukuoka, Akaho-machi, Kamiina-gun, Nagano Prefecture.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

J. Reasons applied for the Whole Exemption of Machine-Tools and Equipments installed in Hamamatsu Machine-Tool Factory :

(1) The history of this factory is traced far back to more than 30 years in the past. The Oil Engines for fishing boats, manufactured by us since 1913 with years' experience and talent, have been closely connected with the local industries. The recent conversion into the manufacture of oil engines that was our primary industry, met with a warm welcome among the fishermen in the surrounding districts.

Further we would mention that in February 1947 we were granted by the request of The Fisheries Bureau of The Ministry of Agriculture and Forestry to make annual production of 400 sets of 6 H.P. oil engines for fishing boats; and the due formalities applied to G.H.Q. for putting into the governmental production scheme has already been taken through The Ministry of Commerce and Industry and The Ministry of Foreign Affairs.

(2) Hamamatsu and its vicinity are noted for producing the so-called "Tenryu" timber. Consequently, the mass production of the larger-type band saw, we believe, will render valuable services upon the reconstruction of the country, especially under the present circumstance of the great shortage of these machines.

(3) In accordance with the earnest desire of The Ministry of Commerce and Industry, we attempted to make a mass production of mining machineries - Belt Conveyer, Coal Washing Machinery and Coal Pick Hammer. Of these 3 items, the manufacture of Belt Conveyer is in need of great requirement under the present circumstance.

We have already made preparations for the mass production, and are capable of realizing the greatest production under the present equipment within a few months.

(In December last year, our factory was designated as one of the most important factories for manufacturing mining machineries by the Nagoya Commercial and Industrial Bureau.)

To-day, the coal production is the most essential problem for industrial rehabilitation of our country. It is regretable, however, not to see the increase as expected , despite of every effort made by the government as well as the public in general.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

This delay may be counted to the bottleneck in various labour questions, but it is mainly due to the sluggish production of mining machines. We, therefore, are doing our best efforts for the aim of promoting industrial rehabilitation of our country.

Fortunately, the factory manager who was the former professor of Akita Mining Engineering College has years' practical experience as an engineer at the specialized plant in the manufacture of mining machineries. We are looking forward in hopes, therefore, that we will surely be able to meet with the demand of our customers.

(4) Here in Hamamatsu and its locality such a factory as ours is scarcely found. So, the expectation of the Chamber of Commerce and Industry and the people in General upon the industrial developement of our factory for producing mining machineries is considerably great.

Signed Kaichi Tohara

Kaichi Iohara

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TO : Shizuoka Military Government Team.
FROM : Kokura Seiko K.K. Hamamatsu Factory.
SUBJECT : REPORT FOR YOUR QUESTIONING ON 30TH JAN.
DATE : 10 Feb. 1948

A. Number of employees : 272

B.

1. Number of people suported by employees(Total number of family) : 1384
2. Amount of payroll : ¥ 880,000 per Month.

C. Inventory list of standard machines, class of former munitions machines in Hamamatsu :

Please inspect the attached Table A.

D. Same list of machines in Nagano Pref.:(Akaho-machi, Kamiina-gun, Nagano Pref.)

Please inspect the attached Table B.

E. List of SP Machine in Hamamatsu and Nagano Pref. :

1. Hamamatsu plant : None

Note: We had 4 sets of SP Machines and have destroyed them on 1 Feb. 1948 by your order.

2. Akaho plant (Nagano Pref.): None

F. Number of sub-contractors for Hamamatsu Factory : 11

No.	Name	Address	Part supplied
1	Mizutani Tekkosho	Tenjin-machi, Hamamatsu-shi.	Belt conveyer parts (Roller,spindle,etc.)

5	Tenryu Seiki Seisakusho	Noguchi-cho, Hamamatsu-shi	Belt conveyer parts (Spindle,cover,etc.) Engine parts (Fuel pump,etc.)
6	Sugimoto Seisakusho	Higashita-machi, Hamamatsu-shi	Belt conveyer parts (Spindle,cover,etc.)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

No.	Name	Address	Part supplied
7	Fujita Kigata Seisakusho	Terajima-cho, Hamamatsu-shi	Order parts patern.
8	Asahina Tekkosho	Sukenobu-cho, Hamamatsu-shi	Bronze castings.
9	Enomoto Chuzosho	Sukenobu-cho, Hamamatsu-shi	Cast Iron castings.
10	Imamura Chuzosho	Sukenobu-cho, Hamamatsu-shi	Bronze castings.
11	Shimmura Chuzosho	Ohkaba-cho, Hamamatsu-shi	Cast Iron castings.

Note:-

1. Total number of employees of all sub-contractors : 161 (Mentioned above)

2. Total number of families of all sub-contractors : 923

N. Yoshimura.
Nobutake Yoshimura
Factory Manager

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TO : Shizuoka Military Government Team.
FROM : Kokura Seiko K.K. Hamamatsu Factory
SUBJECT : REPORT FOR YOUR QUESTIONING ON 30TH JAN.
DATE : 10 Feb. 1948

A. Number of employees : 272

B.
1. Number of people suported by employees(total number of family) : 1384
2. Amount of payroll : ¥ 880,000 per Month.

C. Inventory list of standard machines, class of former munitions machines in Hamamatsu :

Please inspect the attached Table A.

D. Same list of machines in Nagano Pref.:(Akaho-machi, Kamiina-gun, Nagano Pref.)

Please inspect the attached Table B.

E. List of SP Machine in Hamamatsu and Nagano Pref. :
1. Hamamatsu plant : None
Note: We had 4 sets of SP Machines and have destroyed them on 1 Feb. 1948 by your order.
2. Akaho plant (Nagano Pref.): None

F. Number of sub-contractors for Hamamatsu Factory : 11

No.	Name	Address	Part supplied
1	Mizutani Tekkosho	Tenjin-machi, Hamamatsu-shi.	Belt conveyer parts (Roller,spindle,etc.)
