DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Statement of Details

1. State of things at the time of missing

The travelling picture show with the object of disseminating the purport of the Visual Education Advancement Society and of giving comfort to the citizens after their farming season, to stage in 10 localities in Omura City, was scheduled on Saturday, July 23, 1949 within the campus of the Omura Municipal Nishi-Omura Primary School at Inno-baba-go, Omura City for the Citizens centering around this locality, as the performances in Matsubara and Takematsu localities and finished.

As a primary plan it had been scheduled to carry out performance at the dining hall of the Kyosai Hospital nearby but later it was decided to stage somewhere in the campus of the Nishi-Omura Primary School in conformity with the recommendation of the Nishi-Omura Women's Society.

In view of the inconvenience and confusion in the open-air performance, it was hoped that the picture be showed in the class-room, but the pit was on an adverse slant against the screen, and taking into consideration the heat on that day it was decided to have the performance somewhere in the open air.

Originally we had been taking every possible care for the prevention against theft and loss of films, cameras and other accessories, and the Visual Education Officials had also been paying special attention against the mishap. For that reason they put the films and other things together under the projecting stand (which was substituted by setting tables) with three sides enclosed.

On the appointed day Mr. Yukawa, "shuji" Official of Education Section, Omura Municipality and Mr. Yamamoto, Official of Visual Education Sub-section, the same Municipality, took on the work carrying with them six films --good tempered Nelly, Urguay Republic, UNO Fete, Wrestler Futaba-yama's Era, Sung Wu Kun, and American Musical Film.

At 21.00 hours, two "American Musical Films" were staged before 500 spectators, followed by an intermission of 10 minute, during which a lecture was given in an effort to disseminate the object of the Visual Education Advancement Society, then proceeded to the cartoon picture "Western Trip" which had been borrowed from the Prefectural Social Education Section, when suddenly the electric current was cut off after elapse

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

of about 15 minute performance. Such interruption having hitherto been continuously taken place just at that time of the day the above two persons stood near the apparatus waiting for a recurrent charge of the electricity for about 15 minutes, but there was no sign of lighting again.

Then the Social Education "Shuji" official went to the Nishi-Omura Primary School Janitor's Box at about 70 metres distant, to communicate with the Power Distribution Company on the telephone and was told that something was srong with the service lines but the cause of accident was unknown and the company was making efforts to find out what was wrong. Seeing still the electric current was not supplied and in order to examine the extent of interruption the official walked about 100 metres along the road and came across the main road, whence he looked out over the surrounding scene but as far as the eye could reach there was nothing to be seen except darkness.

Returning to the place where the apparatus stood he again rang up the Power Distribution Co. on the telephone after some minutes' interval and was told that still 20-30 minute duration would be necessary before the lines could be recovered.

The watch pointed at 23.10.

Considering that if further performance be enforced it would reach the midnight, the two persons finally called off the performance. As the spectators retired the officials immediately began to remove the apparatus and found the film was missing. One of the officials had been standing near the apparatus all the while, and moreover the officials observed that the said film had exactly been placed on the spot just before the interruption of the electric current. The time that the film was lost is supposed to be from 22.30 to 23.15.

2. Measures to be taken hereafter.

In consideration of the event as aforesaid we warned these officials for the future to exercise more stains and watchfulness, and at the same time to make further inquires on the costody and care-taking of the apparatus and accessories. We further advised them to separate the apparatus and accessories from the spectators on the future occasion, thereby rooting out any further mishap.

SUBJECT: Trial on Charge of Illegal Exit

THRU : Commanding General, I Corps, APO 301
Attn: Civil Affairs Section

4001

TO : Commanding General, Eighth Army, APO 343
Attn: Civil Affairs Section

1. A search has been made but this office has been unable to find a directive to the Japanese Government prohibiting residents of Japan from leaving the country without prior permission from the Supreme Commander for the Allied Powers. Despite the lack of a directive the Japanese appear to be firmly convinced of the illegality of such an act and try to punish it under Ordinance 311.

2. The Japanese courts understand Ordinance 311 to authorize them to try and punish "acts prejudicial to the policy of the occupation." They understand such acts to include any act which is "opposed to the spirit of any SCAP directive or implementing order." The foregoing interpretation was arrived at in a conference of Judges held more than a year ago. The judges further state that their interpretation is supported by a letter from the Attorney' General's Office which letter was written more than a year ago, a copy of which is hereto attached.

3. Request information concerning the concurrence of SCAP in the above stated interpretation.

Notice-Kenmu No. 9288 13 May 1948

TO : Chief, Yamaguchi District Procurators' Office

FROM : Sakae Kunimune, Director of Prosecution Bureau, Attorney Generals' Office

SUBJECT: Control over illegal exit of Koreans.

Concerning the subject matter on which an inquiry was made in your letter Kenhatsu No. 3203 dated 23 April, replies are made as hereunder:

It is added for caution's sake that the memorandum titled "reparation" of SCAP, dated 16 March 1946 was entirely revised by Item I of the memorandum on the same subject, dated 7 May 1946, and that the latter memorandum was also partially revised or supplemented by memorandums which were subsequently issued on June, 2 July and 11 July.

1) It is construed that the above-mentioned memorandum is based on the idea that exits from Japan are all illegal except personnel who are authorized in special cases by the Supreme Commander for the Allied Powers, unless exits are made according to the reparation program. Otherwise, the establishment of repatriation programs on the basis of that memorandum would become meaningless.

2) Accordingly, it is construed that illegal exits of Koreans for their homeland by means other than the reparation program can be prosecuted for violation of Imperial Ordinance No. 311, in the light of each provision of the said memorandum.

Applicable provisions, for example, are as follows:

(1) Item 6, Annex I
.....

(2) Item 1c, Chapter I, Annex III
etc, etc, ...

However, caution should be used as it is considered difficult to accuse for violations of Imperial Order, unless acts of exit are apparent (for example, cases where persons concerned boarded a ship for illegal exit.) Therefore, it is doubtful whether we can prosecute immediately acts of preparations made on shore.

I have consulted the Legal Section, GHQ, in making the above reply.

in China, Korea, and the Ryukyus, subject to other directives of SCAP. In the absence of such other directives, any individual who attempts to depart from Japan in contravention of the instructions set forth in the annexes to SCAPIN 927/17 has committed an illegal act in violation of this directive and is triable in the appropriate courts. In the case of non-United Nations Nationals, Japanese courts have jurisdiction under the provisions of Imperial Ordinance 311.

3. Such illegal act constitutes a direct violation of SCAPIN 927/17 and the letter of instruction issued by the Prosecution Bureau of the Japanese Attorney General's office reiterates this conclusion. It does not constitute any authority to try and punish acts "opposed to the spirit of any SCAP directive or implementing order".

Violations of Laws and Regulations by United Nations Nationals

1. In accordance with the suggestion on the subject given on 13 May 1949 by the I Corps Civil Affairs Section, this Office notified, through respective LCO's, the responsible law enforcing agencies of the vigorous execution of investigation into the violations of Japanese laws and regulations by the United Nations nationals.

2. Summary of the reports obtained in reply thereto is as follows:

a. Investigations of the violation cases by UN nationals have been carried out without fail.

b. All violation cases have been reported forthwith to the Occupation authorities on the spot, mostly to the respective Civil Affairs Teams.

c. The Japanese agencies wish to be informed of the action taken by the Occupation authorities or resultant military court decision on the cases reported thereto so that their similar investigation in future might be expedited.

3. A table showing the number of violation cases during the period from March 1948 to May 1949 is attached hereto for your information.

SUBJECT: Smuggling Blacklist

TO : See Distribution.

1. Attached hereto as Inclosure 1 is a "Smuggling Blacklist" prepared by the Card File Section of the Assistant Chief of Staff, G-2, Headquarters, 24th Infantry Division, APO 24.

2. The attached Smuggling Blacklist is not considered to include all smuggling boats now in operation, nor is it intended to prove that all boats and individuals listed therein are engaged in smuggling at the present time. It does show, however, those vessels which in the past have been:

a. Picked up for Smuggling Personnel or Goods.

b. Picked up for evading economic regulations or violating fishing laws.

c. Reported as being smuggling boats by captured Koreans and/or informants.

Due to the above, a large portion of the vessels listed herein may have been returned to the smuggling trade after being picked up for their past illegal activities.

3. It is requested that apprehension agencies in the operating area of the addresses be given a copy of this smuggling Blacklist with instruction that a thorough search and check be given all vessels listed therein whenever such vessels are encountered by patrol boats or at harbor check points to insure that subject vessels are not again engaged in illegal activities.

4. All personnel, both Occupation Forces and Japanese, are to be informed that this Smuggling Blacklist is for OFFICIAL USE ONLY and that it is not to be released to the press nor are any Japanese personnel to have access to this publication, unless required by their duties;, i.e., certain Japanese Police, Maritime Bureau and Customs Officials who are engaged in the control of illegal entry and exodus are authorized to use this publication in the conduct of their Anti-Smuggling duties based on the discretion of the local addressee. Distribution to the Japanese Maritime Bureau throughout KYUSHU and Southern HONSHU will be made by this office.

5. If any addressee has information on additional vessels which should be included on the Smuggling Blacklist it is requested that he forward such information to the Assistant Chief of Staff, G-2, Headquarters 24th Infantry Division, APO 24 for inclusion in future additions thereto.

SUBJECT: Request for Clemency of Japanese National

TO : Commanding Officer, Kyushu Military Government Region, APO 24-5

1. Transmitted is a petition asking clemency be considered for Hiroshi Wada, Japanese national. Petition was submitted to this headquarters by Mrs. Wada, wife of the prisoner, and is being transmitted through channels.

2. That portion of the petition in which Mrs. Wada describes her condition as one of "hovering between life and death" is a gross exaggeration as Mrs. Wada was interviewed on 2 June 1949 and appeared in excellent health.

3. It is recommended that clemency be considered on 4 July 1949.

FROM : Mrs. Kiyoko Wada, sei 36, Yoka-machi, Saga City.
TO : The Commander of the 24th Division in Kokura.
DATE :
SUBJECT: Petition for Prompt Liberations.

The generous and mercyful

Your Excellency the Commander;

In order to appeal to your commander, I humbly beg to submit this letter and ask your pardon for intruding on your precious time. I am the wife of Mr. Hiroshi Wada, who was condemned to one year imprisonment with heavy labor and a fine of 400,000 yen at the Saga Provost Court on 7th, March, 1949, and now he is serving his time in the jail in Fukuoka. I am very sorry that my husband troubled the staffs of the Occupation Forces here, so much.

Ah! Your Commander! Would you kindly listen to this painful appeal of mine? If so, how I feel happy and blessed!

My dear husband has not returned to home since that snow-falling day in early spring; it was 7th March. Since then, the merry light in our home has gone out. When granted an interview in the jail, he gazed upon me with tearful eye, perhaps thinking of pityful baby and my bodily feebleness.

Needless to say, I love my husband and bereft of him, the hard difficulty of living pressed upon the poor mother and her child.

We were so poor that, even my husband lived with us, we scarcely could make both ends meet. Be that as it is, what shall I do now? I have managed to get a job in Fukuoka, but the pay is very small. When I go to my work I have to leave my poor child alone in my home helplessly. And when I think of my husband in jail my heart is really torn off. Holding back my tears, I am waiting for the return of my husband day in day out.

As I am naturally delicate the doctor advised me to take care of my health if I took to a job, and owing to the unaccustomed work I have injured my health and I have a slight fever every evening. Now I am hovering between life and death. Starve to death? or death from disease? The future is dark and uncertain. My dear baby who is longing to see his father cries papa! papa! and now miserably depressed in spirit. As a mother how I can see it without tears and I feel responsible for this pathetic condition.

Your Excellency the Commander!

Again I solicit your excellency, would you kindly save these piteous mother and her child by your generosity. If my husband were released and came back home I take an oath that he will never commit a fault again.

I know my imploring for relief will intrude on your precious time, but I can not help.

Hoping you will enjoy health and happiness,

Yours respecyfully.

HEADQUARTERS
NATIONAL REGIONAL POLICE
Fukuoka Prefecture

19 April 1949

TO : Commanding Officer, Kyushu Military Government Region

Subject: Report on a case of viloent act caused by Occupation soldiers.

I beg to inform you that nine Japanese and five Koreans were more or less seriously injured in an act of violence caused by Occup tion soldiers in Beppu city, Oita prefecture, on April 16th.

Further, for your referance I beg to let you know that one of the nine wounded Japanese died afterward and that the residents of the city are entertaining a feeling of aversion for the soldiers involved, who are now under examination at MP HQs, Beppu City.

Following is the information as to the incident:

On April 16, at 9 p.m. occupation soldiers, five or so in number, then under the influence of liquor, who were wandering about the neighbourhood of Noguchimachi, Beppu city, went so far as, by resorting to fists, to inflict wounds upon"innocent" Japanese and Koreans who also had been pedestrians near the said place, with the result that Uchida Michio ( ) 15, Noguchimachi, one of the victims, died on the morning of the day after the incident. The body of the dead person was dissected in the presance of MP the following day!

Among the wounded persons were Yano Wataru ( ), 37, of Fujimi-dori and Kajiwara Tsumoru ( ), 31, of Higashinoguchi-machi, both of whom proved afterward to be in a critical condition. Korean nationals were five out of the ten wounded persons who were comparatively slightly wounded.

SUBJECT: Supervising the Illegal Brewery

TO : Chief of Economic Section,
Nagasaki Military Government Team

Sir,

Submitted herewith the result of the supervision on Illegal Brewery in Nanko District as under mentioned.

NRP and the Nagasaki Taxation Office shortly cooperated us to arrest the violators and confiscated the brewing materials concerned from the source of their secret operation, Minamiarima-machi and Obamamachi, Minamitakagigun.

The confiscated "Sake" and materials were comparatively few, but the confiscation of brewing instruments will undoubtfully bring forth the difficulty to the violators thereof, we think.

Report, "Kawaminami Shipyard Violation of Art 40 of Labor Relations Adjustment Law".

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Opinion concerning "Kawaminami Shipyard violation of Article 40 of Labor Relations Adjustment Law"

1. The strike of the three branches of the Kawaminami in September 1947, hoisting the three great demands decided by the National Shipyard Labor Union lasted for the length of 75 days and was settled at last on 25th November but during that time, we learned that it was both sides that suffered. When it was settled, the valuable lesson we learned from it was that "strikes are swords that wound both the capitalist and the laborers." With this in mind, our union realized the value of prudence and resolved that we would build a co-operative system in which both capital and labor have equal rights and enhance production serving for the welfare of the world and the community. The settlement of the strike being a turning point we have begun a new start.

But this strike was involved in the August attack and was imbarked on the usual capital and labor strife. The fact that this strife lasted so long and that even after settlement, incidents such as, our former president being suspected of violating the government decree, wartime materials being exposed, and persistent voices calling our new Union "a company union" happened; all these seem to be a plan to utilize us in a class struggle. This "Article 40 violation" incident also seems to be a manifestation of this plan.

In January, 1948, the local union committee requested a trial for the violation of article 40 and the company was prosecuted on March 30th. The first hearing was held on 8th April and the verdict of two months imprisonment given on 15th July. The defendant immediately appealed, and this second trial has been brought up at the Fukuoka Prosecutor's Office. During this last year we, as members of the union silently observed the outcome but at this second trial we, as the persons concerned in the strike, thought that we should relate in what way we have moved and what we think of this trial in order to have a fair and just trial.

2. Grasping of the actual facts of the Kawaminami strike.

"The Chuo Rodo Jiho" (The Central Labor Times) No. 76 has an article under the title "Kawaminami Shipyard, Violation of Article 40 incident" with a sub-title reading "This incident is very significant for its large scale and the first violation of Article 40". It relates from the beginning of the strike to the settlement, proceedings of the trial and the verdict, and this probably is the most authorized and reliable report as it is supervised by the Central Labor Committee Office.

This strike has been made more of a problem at the capital than at the local district. This is probably because the National Shipyard Union mobilized all its power in propaganding,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

therefor the impressions of the strike given by them, seems very one-sided to us, concerned.

This article in the Central Labor Times also does not seem to reveal the true facts. One of the reason is that it deals with the strike formally and in an abstract way which may be bacause it is centered on the violation of article 40.

This may also be said of the trial, both the judges, and the defendants seem to discuss this abstracted side, that is building up logic on a fleshless skeleton.

But a strike as a living fact, is a jumble of various hue and smell. Because of the action and the mass involved, there are "spur of the moment," "emotion", and "chance". We can easily guess how misunderstanding, opposition of emotions, instigation from others, or spur of the moment effects the movement of people.

To pick up only logical matters from these facts and build-up a factual problem is very difficult and misleading.

For instance, the provision inserted in the memorandum "Provided, will voluntarily resign in tacit agreement" is a very queer existence. We cannot understand why this "Ichiriki conference" in which words which can clearly be understood to be a violation of Article 40 has been taken up in this open meeting presided by Nanjo Labor Committee member, and the settlement rejoiced over with mutual greatings. Moreover, there must have been complications before this 15 itemed memorandum was completed but it has not been made clear at the trial.

Of course, when the report of this conference was given, no one made a problem of these facts. We had faith in the publicity of the Ichiriki conference and the independence of both sides and it was only when this was taken up as a violation of Article 40 that we thought something was queer. These points, we fear cannot be given a just decision without the progress and the subject of the conference.

We think that without reference to the strike, there could be no basis of judgement on this article 40 violation case. Of course, as the prosecutor has decided that unlawful labor strikes are those violating the labor relation law, Chapter V, restriction or prohibition, this would be out of the question.

But on the other hand, the union members had admitted unlawful acts such as, violence, attacks, trespassing homes that should be clarified whether we look on it as unlawful strike actions or as a criminal offense in which each person should take responsibility.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

In regards manifestation of physical force, the company had used a tough gang and the union in turn had plans to occupy the factory but these have not been mentioned.

Moreover whether the strike was carried on according to the general opinion of the union members has been discussed only by the formalities of the vote, lacking actual facts.

"The bargaining situation" which was the impulse to go on strike was only looked on from the conclusion of the bargaining.

We, as union members at the time were surprised at the early rupture of the bargaining and as to the progress, we were always only told the conclusions and the situation is not clear.

These are only examples and though we may not know the interpretation of the law. We feel that these should always be clarified with the actual facts of the strike as a background or it would be unjust and we are afraid this strike would be misreported.

We hope this trial would be a lesson to all future labor campaign and we feel uneasiness to think this 75 days strike will be reported wrongly in the history of labor.

3. Beware of Political Utilization.

This incident must be considered together with the strike, and the union since the strike, but we believe it must be separated from other political reasons.

The truthfully accepted facts about this incident is that it has become a problem by the request of the Labor Committee, therefore, we should not be taken advantage of for the benefit of others.

We have recently heard that the National Shipyard Union has sent over one hundred thousand yen of campaign money to the Kyushu Local Association in order to put guilt on the defendants. If this is true and if the Management League opposes, this incident involving only one company would eventually be a class struggle between laborers and capitalists.

Probably those who look on labor campaign as a step toward class struggle may think this is only natural and may assert that it really should be brought to this point. If this is so, all strikes would be brought to general strikes and all disputes extended to class struggle which is the same as the Communists' labor campaign, there being no place left for any decision, all being a strife between force and force. Would not this in itself be a denial of trials and labor committees? If this

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

campaign of the National Shipyard is true, we must defiantly oppose it. This, we believe is the true strife for the benefit of the laborers.

The trial is nearing. It may be gathering nation-wide interest and we are the persons concerned, listening intently to see and hear the right.

1. Since the return of this correspondence by the 3rd Indorsement, this case has been subject to mediation by the Kyushu Central Liaison and Coordination Office. Efforts to affect a solution to the problem by mediation have been totally unsuccessful.

2. It is the opinion of this office that Mr. Graham did manufacture an alcoholic product which required prior authority of the Japanese Government. The evidence which would support such charges however was obtained by the Kumamoto Finance Bureau without warrant for search and seizure. Although the technical branch of law exists, it is not believed that the evidence now available would be admissable in Provost Court.

3. It is recommended therefore that the case be not tried and that the Kumamoto Finance Bureau be directed to return the property obtained from the Tobata Plant of Mr. Graham.

SUBJECT: Illegal Production of Sake

TO : Commanding Officer, Nagasaki Mil Govt Team, APO 929

It has come to the attention of this Headquarters that persons unknown are manufacturing considerable quantities of sake at Shima Baru, Nagasaki Ken. The illegally manufactured sake is being sent to Omuta, Fukuoka Ken for sale and is a constant source of irritation to the authorities in that area. While much of the said sake is intercepted in transit, it is believed that the law would be enforced more efficiently if the illegality were attacked at its source. It is therefore requested that your headquarters take proper steps to terminate the illegal manufacture and shipment of sake and report the results of your action to this Headquarters.
