New York, Aug. 23.—Herbert C. Hoover, United States Food Administrator, returned to-day from his trip abroad.

#### HAIG'S THIRD AND FOURTH ARMIES SMASH THEIR WAY FORWARD AND ADD TO THEIR BAG OF CAPTIVES

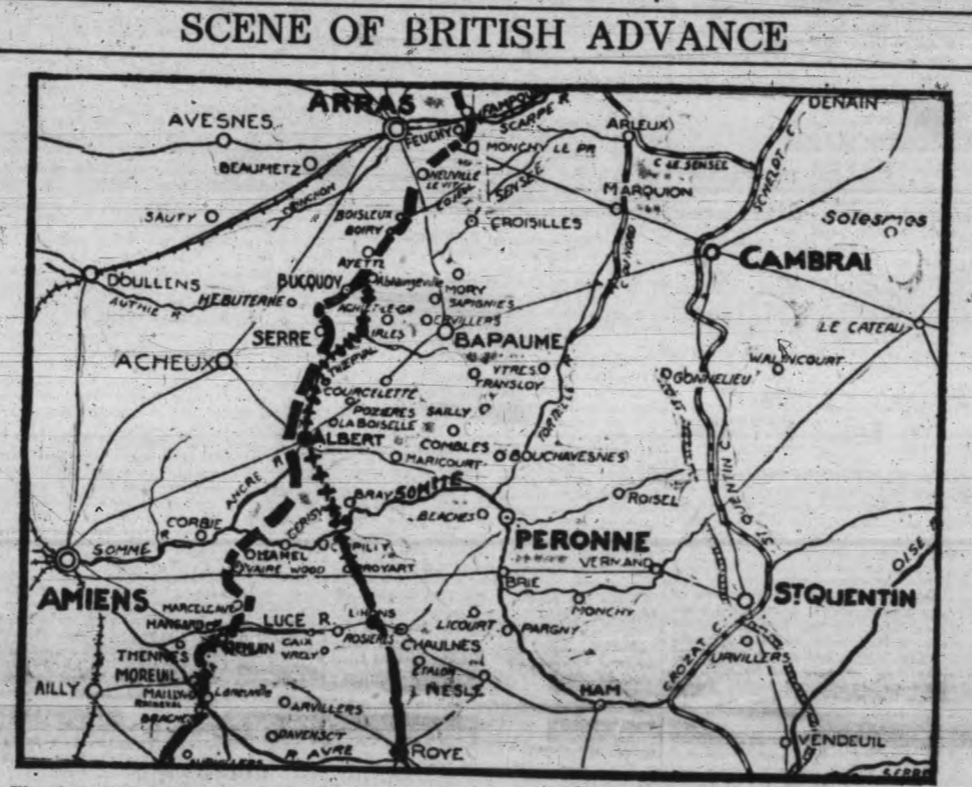

#### Dispatches From British Front Say Tide of Battle Is Setting Increasingly Against Teutons, Who Are Desperately Throwing in Masses of Men

London, Aug. 23.—Along the front in Northern Picardy a battle which seems to be one of the greatest of the war has developed. Disaster is reported to be threatening the whole German army on this front and the Germans are throwing great masses of men into the struggle in the hope of checking the tide of battle, which dispatches from British headquarters say is setting increasingly against them.

From the north end of the battleline, at Boiry-Becquerelle, Boyelles and Gommecourt, come tidings of a British advance. Meaulte, near Albert, was wrested from the Germans. Happy Valley, south of Meaulte and north of Bray, also was taken by British troops.

South of the Somme, Chuignolles and Herleville are said to have been captured.

The latest reports from the battleline say that the British are reaching out in the direction of Tara Hill, which is a thousand yards beyond Albert.

The above map gives an impression of how the British line from near Roye to the region south of Arras is being pushed forward. The broken line indicates the maximum westward advance of the enemy before the Allies started to drive him back. The line to the eastward composed of crosses indicates the front of the present great battle. The latest reports state that this line is being driven forward steadily. The British hold the line from near Roye northward. South of Roye the French are operating.

#### Third Army Gains More Than Mile on Front of Over Seven Miles; Fourth Army Advances Over Two Miles on a Front of Similar Length

London, Aug. 23.—A battle is raging to-day in France on one of the widest fronts of the war. It extends about fifty miles north from Soissons. Everywhere, according to news received here this afternoon from the battlefield, the battle has been going successfully for the Allies.

The British Third Army has gained more than a mile on a front of more than seven miles.

The British Fourth Army has gained more than two miles on a front of seven miles. The Fourth Army has taken more than 1,500 prisoners to-day.

The third Army captured more than 500 Germans in the town of Gommecourt alone.

#### British Headquarters in France, Aug. 23.—(By Reuter's.)—The British offensive, so vigorously resumed on Wednesday morning, has spread so rapidly that it is difficult to keep pace with the developments of it. What now is being witnessed is the unfolding of a brilliant tactical scheme which must be causing the deepest concern to the German high command.

#### Send Eliminated.

With the British Armies in France, Aug. 23.—British troops this morning are reported to have captured Chuignolles and Herleville, south of the Somme. More than a thousand prisoners were taken in this operation, which eliminates the bend in the line.

Field-Marshal Haig's forces also are reported to have taken Boyelles and Boiry-Becquerelle and to be still pushing forward. They are piling up prisoners and guns.

British troops have reached Gommecourt (north of the Ancre), which is considered to be the chief point of the German defence position.

South of Gommecourt, British troops were attacking and pushing forward all along the line.

The battle seems to be one of the greatest of the war.

#### Toward Bapaume.

London, Aug. 23.—Boiry-Becquerelle, Boyelles and Hamillour are now held by the British Third Army, according to a report.

The British are pushing their attack toward the southeast from Gommecourt, in the direction of Bapaume.

#### Report From Haig.

London, Aug. 23.—A battle is being fought on the line between Lihons, south of the Somme, and the Coteul River, south of Arras, a front of more than twenty-five miles, according to a statement issued at the War Office to-day.

The British troops are making progress at a number of points. Two enemy attacks east of Beaucourt were repulsed during the night.

The text of the statement follows: "Fighting is taking place along virtually the whole front between Lihons, south of the Somme, and the Coteul River. Our troops are reported making progress at a number of points. "During the night enemy troops twice attacked our positions in the neighborhood of the Baillecourt Farm, east of Beaucourt. They were repulsed."

#### COAST SHIPPING WILL BE TIED UP

#### General Isolation of Cities to Follow Resignation of Steamship Officers

Victoria is threatened with complete isolation by the wholesale resignations of master mariners and officers of the British Columbia coastwise steamship services as transportation connections with the mainland will be completely severed by the impending cancellation of sailings.

The shipping companies have made certain concessions before the Royal Commission sitting at Vancouver in the matter of wages, but absolutely refuse to recognize the Canadian Merchant Service Guild. On the other hand the masters and mates are determined to accept no compromise which does not involve the recognition of the Guild by the shipowners.

That is the situation as it stands to-day. The resignations of the ships' officers are now becoming effective, and by to-morrow the indications are that practically all the passenger and freight steamers plying in the Gulf and northern coast services will be tied up. Steamship companies have already announced cancellation of sailings in the event of a strike.

#### C. P. R. Situation.

It was announced at the local offices of the B. C. Coast Steamship Service this morning that the steamship Princess Victoria would leave for Vancouver at 2:15 this afternoon. She will probably lay up on arrival at Vancouver, as the sailing from Vancouver to Seattle scheduled for to-night, has been cancelled.

The Princess Charlotte is leaving at 11:45 this afternoon for Seattle, and will likely continue on to Vancouver. The Princess Victoria is scheduled to leave at 11:45 o'clock to-night for Vancouver. Beyond this the C. P. R. sailings are very indefinite.

#### G. T. P. Position.

The G. T. P. office announces that the steamship Prince Rupert will not make the trip south of Vancouver this week, but this is attributed to delays due to fog on the voyage south from Prince Rupert. This will mean that the sailing from Victoria to Seattle Sunday midnight will be cancelled. Also there (Concluded on page 4.)

#### ALLIES REAP FRUITS OF TWO VICTORIES

#### Gains of July 18 and August 8 Have Put Enemy in Critical Position

Paris, Aug. 23.—The Allies are reaping the fruits of the victories of July 18 and August 8 in the critical situation in which the German command now finds itself.

The German retirement around Noyon, it is said here, is the logical consequence of those victories. The French and British are pressing the enemy so closely that he is obliged to throw in his best troops to save himself from disaster. In the north and in the south the Allied forces are dashing upon the Germans and snapping up prisoners and booty, sometimes getting into the main enemy defences.

General Mangin's pressure between August 18 and 20 resulted in the capture of more than 10,000 prisoners, and on August 22 he forced the enemy to go beyond the Ailette. The army of General von Eben is in such a predicament, it is believed, that he is bound to make a strong counter-attack to halt General Mangin or be obliged to withdraw from the Aisne and Vesle to the Chemin-des-Dames. If the enemy does not counter-attack along the Ailette it probably will mean that General von Eben is in a sadder plight than is thought here.

#### Near Bapaume.

In the north the British Third Army has pushed the Germans so dangerously near Bapaume that the German counter-attack in force. The loss of Bapaume to the Allies in the present circumstance would amount to disaster, according to opinion here.

The front from Lassigny to the Somme remains stationary. The expected fall of Roye has not yet occurred, but there is no hurry about that, as Roye has lost its importance now that all the roads leading to it are under the fire of the French artillery and useless to the enemy.

#### Attempts on Lives of Army Officers in Austria Increasing

Washington, Aug. 23.—An official dispatch received here from Switzerland to-day says that attempts against the lives of officers are increasing in Austria. It is reported that several commanders of Austrian corps have advised officers in the rear to have revolvers with them always.

#### Germans Rush Fresh Troops to Try to Stop the British

With the British Army in France, Aug. 23.—(By the Associated Press.)—Several new German divisions have been identified. They were rushed up in the hope of saving something from the disaster which threatens the whole German army on this front.

#### FRENCH STEADILY DRIVE THE GERMAN FORCES BACK IN OISE-AILLETTE REGION

Paris, Aug. 23.—French troops have occupied the southern bank of the Oise and the Ailette between Sempigny, south of Noyon, and the railroad bridge west of Coucy-le-Chateau. South of Coucy-le-Chateau they have reached the outskirts of Gony and Pont St. Mar. This progress brings them farther toward the rear of the German forces holding the hills north of Soissons and within three miles of the German positions north of the Chemin-des-Dames as they stood before the offensive of May 27.

The following official report was issued here this afternoon: "During the night there was a violent bombardment between the region of Beuvraignes (south of Roye) and the Oise, notably at Piemont, Pasquel and Chiry-Ourscamp.

"We hold the southern bank of the Oise and the Ailette from Sempigny to the railroad at Coucy-le-Chateau.

"East of Soissons French troops carried their line as far as the outskirts of Coucy-le-Chateau. The night was calm on the rest of the front."

#### Under French Fire.

Paris, Aug. 23.—Noyon, a pivot of the German lines in Picardy, still holds out, but the town and the surrounding French cannon.

French cavalry and aeroplanes are harassing the retreating enemy and over the German positions of yesterday French guns and infantry are rushing northward.

Except west of the Oise and along the sharp salient north of Soissons the Germans show little signs of holding and probably will retire to beyond the Oise Canal, which parallels the river to the north.

#### Mangin's Men Took 5,000 Prisoners in Two Days' Fighting

Paris, Aug. 23.—(Havas Agency.)—Between the Oise and the Aisne during the advances of Wednesday and Thursday, General Mangin's army took 5,000 prisoners, according to advices received here.

#### Three Headquarters of Enemy Battalions Captured by British

With the British Army in France, Aug. 23.—(By the Associated Press.)—Three German battalion headquarters have been taken in the locality of Happy Valley, north of Bray. Additional guns also have fallen into the hands of the British.

#### BRITISH SHIP SUNK EAST OF NEW YORK

#### Sailors of Diomed Landed in States; Some Severely Injured

An Atlantic Port of the United States, Aug. 23.—The British steamship Diomed was torpedoed and sunk on Wednesday about 125 miles east of New York. More than 100 of her crew, many of them Chinese, some severely injured, were rescued and brought here to-day by another British steamship.

A Swedish steamship which arrived here to-day reported that yesterday morning she was held up by a German submarine, but that after a parley with the U boat commander, was allowed to proceed.

The Diomed was a steel vessel of 4,700 tons gross.

#### A GERMAN STATEMENT.

Stockholm, Aug. 23.—The Berlin Lokal Anzeiger asserts that it has learned on good authority that the Soviet Government in Russia has formally declared its disinterestedness in former Baltic provinces.

#### Advancing British Troops Drive Across Bray-Albert Road

With the British Army in France, Aug. 23.—(By the Associated Press.)—The town of Mesnil, southeast of Albert, fell early in the British drive. The British troops pressing on here are crossing the Bray-Albert road.

Happy Valley, north of Bray, was taken by Field-Marshal Haig's troops after hard fighting. (Bray is just north of the Somme).

#### Sir Robert Borden Is Back in Canada

An Atlantic Port, Aug. 23.—Sir Robert Borden, Minister of the Interior, after an extended trip abroad during which he attended the session of the Imperial War Conference and the Imperial War Cabinet in France. The Prime Minister is in excellent health and enjoyed an uneventful voyage.

Included in his party were Major-General Mewburn, Minister of Militia, and Hon. C. C. Ballantyne, Minister of Marine and of the Naval Service. They were met here by Hon. J. D. Reid, Minister of Railways.

#### British Plane Takes Nine Persons From France to England

London, Aug. 23.—A large British aeroplane carrying nine passengers has just completed a successful trip from France to England, it is announced here. The whole journey, from an aerodrome in the interior of France to one in the interior of England, occupied but little more than half an hour. The test was made under routine conditions with an ordinary service aeroplane of the largest type. The passengers carried the normal amount of baggage they would have had they been traveling by train or boat.

#### SOME FURTHER PROGRESS ON THE LYS SALIENT IS REPORTED TO-DAY BY HAIG

London, Aug. 23.—Dealing with the operations on the Lys salient, Field-Marshal Haig reported to-day: "On the Lys front our line has been advanced slightly east of Le Touret, northwest of Neuf-Berquin and east of Outtersteen. A hostile attack northwest of Bailleuil broke down before our positions."

#### STREET FIGHTING IN ALBERT DID NOT LAST LONG; GERMANS TAKEN

British Headquarters in France, Aug. 23.—(Canadian Press Dispatch from Reuter's.)—Street fighting in Albert was desperate but short-lived. We took prisoner 1,400 men, including a battalion commander and his staff. We advanced during the day more than 3,000 yards northward. The British losses have been relatively light.

#### FIVE TOWNS IN GERMANY, INCLUDING COLOGNE AND FRANKFORT, WERE BOMBED

London, Aug. 23.—Five important towns in Germany and five hostile aerodromes were heavily bombed by British aerial squadrons on the night of August 21-22, according to a statement issued to-day by the air ministry here.

Military objectives at Frankfort and Cologne were heavily attacked and good results were observed.

A WITHDRAWAL ON USSURI RIVER FRONT Allied Troops North of Vladivostok Were Outnumbered by Enemy

London, Aug. 23.—The Allied troops on the Ussuri River front, north of Vladivostok, outnumbered by the enemy, have been forced to withdraw after heavy fighting, says a dispatch to The Daily Mail from Harbin dated Wednesday. British and French troops were engaged in the battle but the brunt of the fighting fell on the Cosack and Czecho-Slovak troops, Japanese units aided in the retirement. Bolshevik monitors, operating on Lake Hangka, are harassing the Allied left and have detained additional Czecho-Slovak forces. Commands are being given by the Bolsheviks in German. The Ussuri River forms the eastern boundary of Manchuria. Petapoff Captured. Amsterdam, Aug. 23.—General Peta-

poft, commander-in-chief of the Red Guard army in the Murmansk region, is a prisoner in the hands of the Allied forces, says a Petrograd dispatch to the Weiser Zeitung, of Bremen. He was captured by peasants while attempting to flee south and handed over to the British. HINDENBURG, BEING BEATEN, SPEAKS OF FORTUNES OF WAR Amsterdam, Aug. 23.—Field-Marshal von Hindenburg, addressing the Third Regiment of Guards, is quoted by the Tages Zeitung, of Berlin, as saying: "Let us look into the future. Our position is favorable, but we lately have happened to be set back. But this is a fortune of war with which we must reckon."

SMALL LOSSES. London, Aug. 23.—In connection with the advances which the Allied forces have made during the last month east of Amiens it is stated in London that this ground has been gained at a small cost, smaller than any victory in the entire history of the fighting on the Western front. The number of Allied casualties is actually less than the number of prisoners taken. This is a situation which is unparalleled in a large scale battle.

SAYS 300 HANGED BY BOLSHEVIKI TROOPS Hamburg Paper States Czecho-Slovaks Were Executed at Simbirsk

Amsterdam, Aug. 23.—Russian Red Guards, after the capture of Simbirsk, from the Volga, according to a Moscow dispatch to The Hamburg Nachrichten, "publicly hanged" in the market place 300 Czecho-Slovaks. The hangings, it is declared, were a reprisal for "atrocities" committed in the town during its occupation by the Czecho-Slovaks. Nicholas's Diary. Amsterdam, Aug. 23.—The Moscow Lavestia, a copy of which has been received here, contains further extracts from the diary of former Emperor Nicholas. One of the extracts, dated April 5, 1911, mentions the preparations that had been made for his journey to England, information of which had been communicated to him by the order of Premier Kerensky. On July 8 Nicholas wrote: "It is now precisely three months since we left Mohilev and I have been kept here as prisoner. It is hard to be without news from dear Mamma. As for the rest, it is all the same to me."

Referring to the manifesto of Grand Duke Michael, in which the Grand Duke favored the election of a Constituent Assembly in six months, Nicholas wrote: "God knows what caused him to write such balderdash." In the same entry Nicholas made this note: "In Petrograd the riots have ceased. I wish they could have continued."

A TORONTO MAJOR KILLED IN ACTION

Toronto, Aug. 23.—Major Jeffrey Bull, D. S. O., has been killed in action, according to a cablegram received here yesterday, by his mother, Mrs. B. H. Bull. While Major Bull was in England getting his decoration about a month ago he was offered a colonelcy in the American army, but refused. In England he became the Liberal candidate in the constituency of Weston-Super-Mar.

BERNHARDI'S CORPS BADLY BATTERED

London, Aug. 23.—The present series of defeats has involved a German officer who is perhaps better known to the reading public of the Allied nations than almost any of the other German generals. He is General von Bernhardt, author of famous books in which he frankly revealed Germany's war aims. He commands the 51st Corps of the Sixth Army, which has been steadily driven back by the British across the plain of the Lys toward Arras. The corps has been badly hit in endeavoring to hold the salient. It lost many prisoners and was badly shaken by enfilading fire of the British batteries as it retired.

FOREIGN POLICY OF ITALY IS DISCUSSED Italian Papers Engage in Controversy; Claims of Jugo-Slavs

Rome, Aug. 23.—The newspapers of Italy are having a rather bitter controversy over Italy's foreign policy. The Corriere della Sera, of Milan, leads a portion of the press in attacking Baron Sonnino, the Foreign Minister, asserting that he has not been sufficiently liberal and open-minded in recognizing the claims of the Jugo-Slavs on the eastern Adriatic. The opposing group is led by the Giornale d'Italia, of Rome. It argues that Baron Sonnino must adhere to the agreement made in London in September, 1914, with the understanding that once Austria, beaten, Italy will be generous in dealing with her eastern neighbors.

FRENCH TROOPS MOVED FORWARD RAPIDLY

Capture of More Ground Was Announced Last Night; Over 200 Guns

Paris, Aug. 23.—The following official report was issued here last night: "Our troops continue to advance along the whole front. We have carried the Divette River from its mouth as far as Evrincourt. We have carried our lines to the outskirts of Quierzy. "We have occupied St. Aubin, Selins, Bagnieu, Epagny, Bleuxy, Vauxreux and Pommeries. "The material abandoned by the enemy between the Aisne and the Oise is considerable. More than 200 cannon have been counted since August 20."

RECAPTURE OF ALBERT REPORTED LAST NIGHT

London, Aug. 23.—Field-Marshal Haig reported last night: "In our attack between Bray-sur-Somme and Albert we have been completely successful, capturing the whole of our objectives at an early hour and advancing two miles on a front of more than six miles. "We have retaken Albert (eighteen miles northeast of Amiens, on the Ancre River). "There was considerable resistance at certain points, especially on the slopes north of Bray, the town itself not forming a part of our objective. "We have captured over 5,000 prisoners in the battle. We captured in Albert 1,400 prisoners and a few guns. "In counter-attacks in the Miraumont sector, the enemy entered our positions, but was driven out again. The same thing happened north of Achiet-le-Grand. Hostile attacks east of Courcelles and east of Moyenneville also were repulsed. "In the Air. "Aviation—The thick mist which prevailed during the early morning of August 21 prevented our aeroplanes from taking part in the battle at the opening of the attack north of the Ancre. As the morning advanced, the sky grew clearer, and for the rest of the day our airmen were actively engaged. "Some machines devoted themselves to the work of contact patrol and reported the positions of our advancing troops to their headquarters from time to time. Other machines attacked hostile troops and transports from low altitudes with bombs and machine gun fire, scattering ammunition wagons and columns on the march. "In several cases German guns firing at our tanks were silenced by bombs and machine gun fire from the air. A great deal of work was done also in reporting active hostile batteries to our artillery, as well as in reconnaissance and observation of our artillery fire. "Bombs Dropped. "Twelve tons of bombs were dropped by us during the day. In air fighting twenty-one hostile machines were destroyed and eight others were driven down out of control. One German balloon was shot down in flames. Eight of our machines are missing. "On the night of August 21-22 there was a bright moonlight and a clear sky. Our night bombing aeroplanes dropped more than 2 1/2 tons of bombs on the enemy's positions. The Captains and Marooning stations were heavily attacked, as well as a number of railway bridges and lines, aerodromes and billets. The bridge at Aubigny-au-Bac, on the road connecting Douai and Cambrai, was broken down. All our machines returned safely. "One of our night-flying machines brought down in flames on this side of the line a large enemy night bombing aeroplane. "The machine reported in yesterday's communication as missing has returned."

GERMAN PRINCE AS KING OF FINLAND

London, Aug. 23.—A Finnish delegation has left Helsinki for Germany to offer the crown of Finland to a German Prince, who probably will be Duke Adolphus Frederick H. of Mecklenburg-Schwerin, says a dispatch from Copenhagen to the Exchange Telegraph. "Advices from Finland early this month said the election of a King of Finland had been fixed for September and that it probably would be the Duke of Mecklenburg-Schwerin who would be chosen, or Prince William of Hohenzollern-Sigmaringen. An early story from Zurich said the Duke of Mecklenburg-Schwerin had accepted the Finnish crown. Duke Adolphus Frederick, who is a colonel in the Prussian Guards, was born in Schwerin in 1872. For a time he was Governor of Togoland.

AMERICAN AVIATORS MADE DIRECT HITS

Washington, Aug. 23.—General Pershing's communique for Thursday says many direct hits were observed when American aviators successfully bombed the railroad yards at Longueyon, Audun-de-Romain and Conflans on August 21 and 22. "TO SERVE IN PALESTINE. "New York, Aug. 23.—Men who enlist in the Jewish battalion of the British army are assured service in Palestine in a statement issued to-day by Major C. Brooman White, of the British and Canadian Recruiting Mission. Major White declares recruits will "fight under the Jewish flag until their services are no longer required."

TURKS SAY KING OF HEDJAZ IS DEAD

Amsterdam, Aug. 23.—Constantinople newspapers received here carry a report of the death of Hussein Ben Ali, King of the Hedjaz and Grand Sheriff of Mecca.

RECAPTURE OF ALBERT REPORTED LAST NIGHT

London, Aug. 23.—Field-Marshal Haig reported last night: "In our attack between Bray-sur-Somme and Albert we have been completely successful, capturing the whole of our objectives at an early hour and advancing two miles on a front of more than six miles. "We have retaken Albert (eighteen miles northeast of Amiens, on the Ancre River). "There was considerable resistance at certain points, especially on the slopes north of Bray, the town itself not forming a part of our objective. GERMAN PRINCE AS KING OF FINLAND Finnish Delegation Goes to Germany to Offer the Crown

WIRELESS BETWEEN JAPAN AND STATES Tokyo, Aug. 22.—(By the Associated Press) The installation of a new high power wireless system between Japan and the United States is actively occupying the Department of Communications.

AMERICAN AVIATORS MADE DIRECT HITS Washington, Aug. 23.—General Pershing's communique for Thursday says many direct hits were observed when American aviators successfully bombed the railroad yards at Longueyon, Audun-de-Romain and Conflans on August 21 and 22.

INCREASE IN PRICE OF BREAD PLANNED IN VANCOUVER CITY Vancouver, Aug. 23.—Learning that a substantial increase in the retail price of bread is imminent on the part of local retailers, Mayor Gale has called a meeting of all the master bakers and bread retailers, of Vancouver, to be held in the Mayor's office at 4 o'clock this afternoon.

Bristol—Lieut. J. D. Black, Saskatchewan, face, slight.

Brighton—Lieut. C. C. Ferris, British Columbia, forearm, slight.

Thirty-Day Suspension for Matthews-Blackwell and Davies Co's., Montreal

Ottawa, Aug. 23.—For violating the provision in the regulations applying to produce dealers which limits the allowance to be made for bad eggs by dealers to one per cent. on the total of each transaction, the Matthews-Blackwell Company, Ltd., of Montreal, and the William Davies Company, Ltd., of Montreal, have been forbidden to buy or sell or otherwise deal in eggs for a period of thirty days. Eggs in transit to-day must be disposed of to other dealers.

In the case of the two companies under suspension it was found that no attempt had been made to charge back for unsound eggs, although in some cases it was shown by the candling records that the percentage of bad eggs ran as high as fourteen per cent.

FUNERAL AT QUAMICHAN OF REV. JOHN FIELD

Duncan, Aug. 23.—The remains of the Rev. John Field were interred yesterday in St. Peter's churchyard, Quamichan, the services being conducted by the Rev. des Barres, of Sidney, representing the Bishop of Caledonia, and the Rev. G. Christmas, of Duncan. The pallbearers were J. H. Whitmore, J. Mattland-Dougall, E. Hicks-Beach, of Courtenay; H. Chambers, W. P. Jaynes and A. Kennedy, of Cobble Hill.

VOLCANOES IN SOUTH AMERICA IN ERUPTION

Buenos Ayres, Aug. 23.—Mount Llama, near Las Lajas, and Mount Lanan, near Junin de las Andes, are in violent eruption, according to advices from the territory of Neuquen. The people of the two towns named are said to be in panic and are leaving their homes.

Buenos Ayres, Aug. 23.—Government telegraph stations report that the eruptions of Mount Llama and Mount Lanan, in the territory of Neuquen, are not serious. The inhabitants of two towns near the mountains were reported to have left their homes.

## HURLEY DEALS WITH ENEMY PROPAGANDA

### U.S. Not Planning to Use Ships for Trade Conquests Over Allies

Washington, Aug. 23.—German propaganda designed to cause dissension among the Allies with stories that the United States will use her enormous fleet of transports and food ships for trade conquests after the war, was the subject of a statement to-day by Chairman Hurley, of the Shipping Board. He said every nation lined up against autocracy can be depended upon to detect the source of these suggestions and discount them.

"In building her merchant fleet, the United States plans first of all to win the war and after that to overcome her own neglect to provide transportation for her own trade," said Mr. Hurley. "To this end the people of the United States are preparing to develop transportation for their own trade routes without disturbing the trade rights of other nations."

"It is unthinkable that a nation fighting shoulder to shoulder with the other democracies should turn its resources after the war against them for trade conquests, the nature of which was largely instrumental in causing the war."

### FINE CO-OPERATION AMONG FRENCH FORCES

#### All Branches Working Together Splendidly While Pursuing German Troops

With the French Army on the Oise, 11 p.m., Aug. 22.—Via London, Aug. 23. (By the Associated Press.)—General Mangin now has driven the Germans across the valley of the Ailette on a front of several miles. The enemy's forces on the right wing on the battle-line are on the plateau between the Ailette and the Oise. To the left of Brittany the Germans are north of the Oise, except those that are hiding in fields and thickets, dead or prisoners.

It is impossible to estimate the number of captives being sent to the camps in the rear, and army headquarters itself does not have more than approximate count. Only a partial count has been made of the booty, which includes 200 guns, many of them of large calibre.

The Germans still are stoutly resisting the French First Army around Roye. Gen. Debeney's men, however, forged ahead again to-day both north and south of that town. In their retreat across the Oise the Germans did not have time to destroy the bridges. Some were found intact, while others were damaged.

#### Cavalry and Planes.

Cavalry is rendering marked service in the pursuit of the enemy. Not only are the cavalry units supplying advance guards, but other troops are following the infantry to take care of the machine gun nests left behind by the Germans to delay the advance in attempting to check the French advance. Aviators preceded the cavalry. They are dispersing enemy rear-guards who attempt to make a stand, and are breaking up and scattering convoys on the crowded roads with machine gun fire.

Batteries of guns and ammunition wagons with the enemy at the rail-park were pushing north to-day through immense dust cloud over the fields where yesterday the German rear-guards fought desperately to save part of their artillery. Many of the guns were left behind, as well as a great number of machine guns.

"The devil himself could not hold out against all that," said one captured German. "We did not know which way to turn."

The excellent co-operation of the different branches of the French army is proving more effective in the present pursuit than formerly. It has been the manner in which the infantry, artillery, cavalry and aerial arms have worked together that has made it so difficult for the Germans to get away.

#### DUNCAN YOUNG MAN IS GIVEN COMMISSION

Duncan, Aug. 23.—Gerald Elkington, a graduate of the Kingston Military College, has just obtained his commission and left via Victoria on the way to report at Petawawa. Lieut. Elkington expects to be sent overseas very shortly.

Mrs. F. L. Troughton is judging cats at the fair in Vancouver. St. Hopkins, District Supervisor of Elementary Agriculture, is judging hogs. Several Cowichan owners have sent their stock over and numerous visitors from the district also came. Raffles, wheel of fortune, ice cream and soft drinks helped swell the total.

#### FOR RED CROSS.

Duncan, Aug. 23.—Over \$120 has been added to the fund for Red Cross work as a result of the Cowichan Lake dance held last Saturday evening. A total of \$160 was taken in.

Messrs. W. Robinson, of the Sahtlam Red Cross branch, and Schegal, of Cowichan Lake, kindly supplied the music. The men at the dance sang the hymns most tastefully with flags and evergreens. Seven or eight cars came up from Duncan. The residents at the lake turned out en masse and the men from the camps also came. Raffles, wheel of fortune, ice cream and soft drinks helped swell the total.

#### FISH IN COWICHAN BAY.

Duncan, Aug. 23.—After an absence of several weeks fish are again for sale in Duncan. One Indian yesterday speared two salmon at once at Cowichan Bay, and they were taking splendidly all over the Bay.

#### BREAD IN FRANCE.

Paris, Aug. 23.—The splendid promise of the wheat harvest in France having given rise to a report that the limitation on the bread allowance would shortly be removed or that the ration would be considerably increased, caused the issuance of an official note of warning to-day that such reports were distinctly premature.

THE FASHION CENTRE *Angus Campbell & Co. Ltd.* THE FASHION CENTRE  
1008-10 Government Street

THE GARMENT SECTION HAS RECEIVED A FINE NEW LOT OF

## Women's New Fall Tweed Suits

Exceptional Value

Saturday at \$29.50 and \$32.50

THE SHIPPING IMBROGLIO.

The refusal of the Royal Commission appointed by the Dominion Government to inquire into the dispute between the coast shipping companies and their captains and mates to disclose their findings calls for more explanation than has been given by the chairman of that body. His reason that its recommendations would not be acceptable to both sides and therefore would not avert a strike certainly is too trivial to merit serious consideration. The Commission's duty is to pronounce a verdict regardless of consequences so that the public, in whose interest it was appointed, may be able to apportion the responsibility for the continuation of the trouble. That would have been the function of a Board of Conciliation which the captains and mates applied for, which the Government refused and for which the Commission was supposed to be a substitute. The Commission has been sitting for a month and no doubt has cost a considerable sum. If it does not express its opinion on the merits of the dispute its proceedings will be little better than trifling with a serious situation and the money expended upon it will be wasted.

This is no ordinary dispute between capital and labor. The masters and mates of steamships are the last people in the world to agitate for the sake of agitating or to make extreme demands. They have stood by the companies in various strikes even to the point of handling cargo when longshoremen and deckhands have struck. They ask chiefly for recognition of the Canadian Merchant Service Guild, in the same way the Imperial Merchant Service Guild is recognized in Great Britain, Australia and New Zealand, and for working conditions such as exist elsewhere. If the Royal Commission thinks these demands are not justified it should say so, and give its reasons. If it thinks they should be granted it should be equally frank; but the public is entitled to know what it does think. Incidentally, we may add that the captains and mates agreed to abide by the findings of the Commission. Is it because those findings favor them that the Commission declines to give its decision, as their counsel has charged?

Ottawa's attitude towards this dispute likewise requires explanation. Why was the application of the Guild for a Board of Conciliation refused? There is nothing in the Industrial Disputes Act which would not permit compliance with the request, for the captains and mates are employees of private companies operating public utilities. Was the Government's refusal dictated by powerful outside influence? And has that influence, through Ottawa, restricted the freedom of action of the Royal Commission? In a word, is the Government determined to stand behind the companies against the Guild regardless of the merits of the case? Assuredly there is much that is mysterious in this affair.

If the Coast steamship services are suspended an enormous amount of harm will be done to the Province, not to speak of great inconvenience and hardship to the public. We, in Victoria, will be almost marooned. In such a case the Government will have to resort to radical action to bring an intolerable situation to an early end, for the public will insist upon it. This is no common strike imbroglio and The Times is convinced that if it had been handled properly from Ottawa in the first place it would have been settled without much difficulty.

VICTORIA TO NITINAT.

The supplementary arrangement between the Dominion and Provincial Governments regarding track-laying on the Canadian Northern between Victoria and Nitinat Lake, as announced by Premier Oliver yesterday, is a matter for congratulation all round. Under its terms the Dominion will lay rails on the thirty-mile stretch between Milne's Landing and Cowichan Lake, which was not included in the original arrangement, the rails to be loaned by the Province. This will obviate the necessity of using the C. P. R. on that section and will give Victoria continuous service to Nitinat Lake, 108 miles distant, on the Canadian Northern.

Besides its relation to the production of aeroplane spruce, the immediate object of the work, the opening of the new road to the West Coast will have an important bearing on the development of the southern part of the Island. It should promote considerable settlement in districts hitherto sparsely occupied, while its effect upon lumbering and, possibly, mineral, development should be marked.

Furthermore, the business that eventually must develop along the line will be tributary to Victoria and when the road has been extended from Nitinat to the Alberni district, Victoria again will greatly benefit. And we shall owe this very largely to the initiative, enterprise and determination of

the Hon. John Oliver, who undoubtedly has done more for Vancouver Island in the short period he has been in office than anybody who had held the Premiership of the Province up to his time.

When the track has been laid on the Canadian Northern to Nitinat Lake, Victoria will be served with ample railway connections. Between the three lines operating on the Saanich Peninsula, the E. & N. and the Canadian Northern, there should be a very promising outlook for this city. What with the new railroad development and the prospective expansion of the shipbuilding industry we shall have something to justify every confidence in the future.

ON A SEVENTY-MILE FRONT.

With the extension of the British fighting-front south of the Somme to Chaulnes and the resumption of French operations around Roye, the Allies now are exercising heavy pressure upon the enemy on a line of seventy miles, extending from the Cojeul river southwest of Arras to the north of Soissons. The British are meeting with bitter resistance, but, nevertheless, are making important progress along the entire front. Between the Ancre and the Somme yesterday they occupied Albert, and advanced two miles on a six-mile front. Sir Douglas Haig is evidently engaged on one of the biggest operations ever undertaken by him.

In the critical sector between the Oise and the Aisne the French continue to make vital gains. General Mangin's army now holds the south bank of the Oise from Semigny, just south of Noyon, as far as its confluence with the Ailette, ten miles east of Noyon; also the left bank of the Ailette to a point ten miles north of Soissons. From the Ailette the line runs almost straight south to Pommiers on the Aisne west of Soissons.

This north and south front from the Ailette to Pommiers, therefore, takes in flank and rear the positions which were established on the heights north of Soissons by the Germans after they were expelled from that place in the battle in the Aisne-Marne salient. Those positions soon must be abandoned, for if the French should cross the Ailette and penetrate only three miles farther east they would be on the western spur of the Chemin des Dames and well in the rear of part of the hostile front which extends from Soissons eastward along the Aisne and Vesle towards Rheims. This the enemy must avoid at all costs, so he will have to bid the environs of Soissons a fond farewell within a very short time.

But when the Germans have done this they also will have shifted the western anchor of their front between Soissons and Rheims, which therefore must retire from the Vesle and across the Aisne to the Chemin des Dames. Hence, Mangin, by driving his wedge between the Picardy and Aisne salients, threatens the rear of the enemy's key positions in both. By crossing the Oise east of Noyon and penetrating two or three miles to the north he would bar the enemy's retreat from that place, while by crossing the Ailette and pushing eastward towards the Chemin des Dames he would have the Germans north of Soissons at his mercy.

GERMAN LOSSES.

The Echo de Paris two days ago estimated the number of prisoners taken by the Allies since 18 at more than 100,000. That number has been considerably augmented within the last forty-eight hours. Mangin's original ten thousand must have grown to twice that number, while the British had taken more than five thousand up to last night in their operations north and south of the Ancre. The total, however, is still substantially short of the number of prisoners the Germans took from the Allies in their five offensives, which they claim to be about 180,000, but which probably does not exceed 140,000. Further, the German total is the result of offensive operations extending over four months, whereas Foch began his counter-offensive only a few days over a month ago. Moreover, Foch has not yet completed his programme for 1918; he will be heard from in other quarters and it is not unlikely that before the present campaigning season is over the enemy will have lost at least 200,000 men as prisoners. These are permanent losses of much more serious import to the Germans than similar losses have been to the Allies, and infinitely more serious than the ground lost, which, indeed, is of little consequence unless it possesses important strategical value. Germany's total casualties for 1918 on the West Front from March to the end of this fighting season probably will exceed 1,500,000, which will include a large proportion of the pick of her manpower sacrificed as shock units.

WHEN THEY HOWL.

The Germans have discovered shot-guns among the American troops captured by them and their military publicists have complained that the use of these weapons is an outrage upon the Geneva Convention. We wonder just whom the Germans are trying to impress when they invoke the Geneva Convention against the Allies and how they hope to impress them. Everybody knows that Germany deliberately buried the stipulations of the Geneva Convention when she entered the war, and most people know that in doing so she was carrying out the fundamental instructions of the Prussian War Book to do "every kind of harm, even the very utmost," "to use all means of destruction which modern inventions afford—the completest, most dangerous and most wholesale," and that in pursuance of these "there is no legal obligation upon a state to observe treaties, because a state cannot commit a crime." The violation of Belgian neutrality, the use of poisonous gases and liquid fire, the circulation of disease germs, the poisoning of wells, the torpedoing of merchant shipping without warning, the bombing of hospitals on land and sea, enslavement of peoples in territories under military occupation, and the ill-treatment of prisoners, are prohibited by the Geneva Convention, to which Germany was a signatory; but only when the Allies give the Huns doses of their own medicine in certain important instances do they ever refer to the Geneva Convention.

COAST SHIPPING WILL BE TIED UP

(Continued from page 1.)

will be no G. T. P. boat from Seattle to Victoria or Victoria to Vancouver next Monday.

In the event of an agreement being reached at the beginning of the week, G. T. P. passengers for the North will be sent over to Vancouver by the C. F. R. afternoon boat on Monday to leave for the Prince Rupert-Vancouver, which is posted to sail from the mainland port on Monday night on the last voyage of the season to Alaska.

Engineers Lend Support. It is understood that the marine engineers have unanimously voted to stand by the masters and mates in support of their demands. Such action will mean an absolute tie-up, as it will be out of the question for the steamship companies to operate vessels without the assistance of the men below deck.

Situation at Vancouver.

Vancouver, Aug. 23.—A complete tie-up of British Columbia coastwise and interior lake shipping appears inevitable as a result of the difference between the Canadian Coast Service Guild, an organization made up of the masters and mates of steamers and the employing companies. Members of the guild announced that they would hand in their resignations, claiming that the employers would not recognize their organization in negotiations looking toward wage adjustments.

Officials of the Guild state that they have received no reply from the Dominion Government authorities at Ottawa to whom an appeal was forwarded, asking that the Government take over the operation of the steamers for the duration of the war. W. E. Burns, Chairman of the Royal Commission which is investigating the dispute from which the guild withdrew, stated that Ottawa had acknowledged receipt of his wire explaining the situation, but had sent no other reply. He said that probably the Government was waiting for the Premier Borden before taking action.

Vessels of the C. P. R., the G. T. P. and the Union S. S. Company are practically all tied up. There will be no sailing to Seattle to-night. The Prince Rupert-Vancouver campaign was inaugurated to reduce its mortality—only one child in twenty dying under the age of five years.

In the United States statistics show that 300,000 babies under five die every year, and 15,000 mothers die at childbirth. The majority of these deaths could be prevented, and the authorities are setting out to do it. Infant mortality in the United States is one child in ten under the age of five years, and in April of this year a campaign was inaugurated to reduce this by at least one-half as has been done in New Zealand under the able generalship of Dr. F. Truby King, since the beginning of war.

The American campaign will be to save 100,000 babies this year. To do this each state is divided into counties, and each county into districts, and each district is asked to reduce its infant mortality, and to hold that it must save the lives of a certain proportion of the hundred thousand babies. There will be a rivalry among the districts in an endeavor to save a percentage over the number asked.

Campaign in B. C. In British Columbia the health authorities are already at work along similar lines. Dr. Young, secretary of the Provincial Board of Health, is urging upon Women's Institutes the need for educating the public along these lines as they can impress upon the women of their districts that talk is of no avail unless followed up in actual practice. Better baby contests have the sympathy, and all the help the British Columbia Health Department can give. Sets of charts, motion picture films and lantern slides have been ordered, and will be available for use from the health department. These illustrations will show clearly what can be done to improve the vigor of the babies.

The Cowichan fall fair will probably be the first to avail itself of these health demonstrations. The department is also lending Mrs. W. Macleinch, secretary of the Advisory Board of Women's Institutes, whose experience in this line of work is invaluable, to help with the management. Dr. Dykes, Dr. A. G. Price, of Victoria, the Duncan Hospital staff and Nurses McKay and Campbell, of the health department of the City of Vancouver, will attend, if possible. All of these will assist at the child welfare section of the fair, which is to occupy the five rooms of the second floor of the Agricultural Hall at Duncan.

Prevention of Disease. In addition to the steps being taken through the Women's Institutes, Dr. Young says his department is working along the same lines, and every effort is being made to prevent disease. It is understood that nurses will be attached to health centres throughout the province working in connection with the hospitals for the prevention of tuberculosis, the stamping out of contagious diseases, the attention given to schools with regard to sanitation, children's teeth, eyes, adenoids, etc. This work will be done in co-operation with the health officers.

To meet these various demands upon the energies of the women Mrs. Blackwood-Wileman, president of the Cowichan Women's Institute has reorganized the education committee of that institute to be now a committee of education and health. Its personnel now includes Mrs. G. G. Henderson (convener), Mesdames F. G. Christmas, E. Macnamid, E. W. Faltson, G. A. Tinsall, G. Kjer, W. H. Barnett, and D. H. Hopkins.

This committee has asked the combined school boards of North Cowichan and the City of Duncan to meet them on Monday evening next to talk over school consolidation, manual training, domestic science, and health of children at the Women's Institute room, Duncan. This committee will probably manage an education demonstration of lantern slides and motion pictures during the fall fair in connection with the child welfare and health section. Details of the programme will be announced later. Dr. Young is sending

YOUR EYES! What are They Worth to You? I know something about eyes, for I devote all my time to examining eyes. I know how to make glasses that will correct the defects in a pair of eyes. Bring your eye troubles to a specialist.

COWICHAN ACTIVE IN CHILD WELFARE

Demonstrations to Be Given at Fall Fair Next Month

Duncan, Aug. 23.—In the world-wide endeavor for efficiency and economy nothing counts so much as the conservation of life by the prevention of disease and particularly infant mortality. England has done wonders during the last two years. The United States has made splendid plans for a baby saving campaign this year, and is just beginning to count up the results. New Zealand tops the list in decreasing infant mortality—only one child in twenty dying under the age of five years.

In the United States statistics show that 300,000 babies under five die every year, and 15,000 mothers die at childbirth. The majority of these deaths could be prevented, and the authorities are setting out to do it. Infant mortality in the United States is one child in ten under the age of five years, and in April of this year a campaign was inaugurated to reduce this by at least one-half as has been done in New Zealand under the able generalship of Dr. F. Truby King, since the beginning of war.

The American campaign will be to save 100,000 babies this year. To do this each state is divided into counties, and each county into districts, and each district is asked to reduce its infant mortality, and to hold that it must save the lives of a certain proportion of the hundred thousand babies. There will be a rivalry among the districts in an endeavor to save a percentage over the number asked.

Campaign in B. C. In British Columbia the health authorities are already at work along similar lines. Dr. Young, secretary of the Provincial Board of Health, is urging upon Women's Institutes the need for educating the public along these lines as they can impress upon the women of their districts that talk is of no avail unless followed up in actual practice. Better baby contests have the sympathy, and all the help the British Columbia Health Department can give. Sets of charts, motion picture films and lantern slides have been ordered, and will be available for use from the health department. These illustrations will show clearly what can be done to improve the vigor of the babies.

The Cowichan fall fair will probably be the first to avail itself of these health demonstrations. The department is also lending Mrs. W. Macleinch, secretary of the Advisory Board of Women's Institutes, whose experience in this line of work is invaluable, to help with the management. Dr. Dykes, Dr. A. G. Price, of Victoria, the Duncan Hospital staff and Nurses McKay and Campbell, of the health department of the City of Vancouver, will attend, if possible. All of these will assist at the child welfare section of the fair, which is to occupy the five rooms of the second floor of the Agricultural Hall at Duncan.

Prevention of Disease. In addition to the steps being taken through the Women's Institutes, Dr. Young says his department is working along the same lines, and every effort is being made to prevent disease. It is understood that nurses will be attached to health centres throughout the province working in connection with the hospitals for the prevention of tuberculosis, the stamping out of contagious diseases, the attention given to schools with regard to sanitation, children's teeth, eyes, adenoids, etc. This work will be done in co-operation with the health officers.

To meet these various demands upon the energies of the women Mrs. Blackwood-Wileman, president of the Cowichan Women's Institute has reorganized the education committee of that institute to be now a committee of education and health. YOUR OPPORTUNITY— TRY THIS WONDERFUL EDISON INVENTION IN YOUR HOME

If Thomas A. Edison himself should come to your home and say, "I want you to try this new phonograph of mine, because I want every American family to know how wonderful life-like it is," you would jump at the opportunity. Well, our offer means just as much as if Mr. Edison made it himself, because he permits us to make it in his name.

We offer you an extraordinary, special free trial offer of

EDISON'S VERY LATEST MODEL DIAMOND AMBEROLA

Uses no needles. Has a diamond reproducer point which never wears out. Plays the wonderful Edison Blue Amberol Records, which are almost unwearable and unbreakable.

Drop us a line, phone or call for a copy of

"A MASTER PRODUCT OF A MASTER MIND"

the Amberola booklet beautifully illustrated in natural colors. From this booklet select any one of the three models of the Edison Diamond Amberola which you would like to have on trial, and from the Blue Amberol Record Catalogue (which we will also send you) select any twelve records for use with the Amberola.

For three full days you may entertain your family and your friends with Mr. Edison's almost-human musical instrument, without a cent of cost to you.

We shall do our best to furnish every applicant with an instrument, but will have to observe our rule of "first come first served." An application made at once will insure your getting the instrument you desire.

KENT'S EDISON STORE

1004 Government St.

the available slides and material from his stores. These displays will be intensely interesting to parents. In connection with the Better Babies Contest and child welfare exhibition in Duncan next month one or more of the insurance companies have offered to send displays which are features of such shows on the other side of the line.

Semi-Centennial Show. W. A. McAdam, Secretary of the Cowichan Agricultural Society, has been attending the Vancouver Fall Fair this week. He is getting points for the local show, advertising it, finding side shows, securing judges, and as a result this year's fair, which is the semi-centennial event will attain a dignity never dreamed of when the first show was organized fifty years ago by Archdeacon Reese, of St. Peter's, and held on the verandah of his house.

WEATHER REPORTS.

To the Editor.—We see many reports on the splendid climate we enjoy, the number of hours of sunshine, etc., and if they are based upon the published reports of our local bureau I fear they are somewhat misleading. I call attention to the report in the morning paper for yesterday (Wednesday), wherein it was stated that we had bright sunshine for 10 hours and 24 minutes! Surely every one of your readers can see that it is incorrect when we had mist or rain nearly the whole day.

SUBSCRIBER.

B. C. ELECTRIC RAILWAY.

The B. C. Electric Railway Company has spoken of Edmonton's municipally-owned street railway fares, and did not state the whole of the matter. Edmonton does charge seven cents for a single cash fare, but allows cheaper rides to those who will take the trouble to buy tickets. At stores situated near to stops you may buy adult tickets at the rate of five for a quarter, and children's tickets at half that rate. If you chose to buy tickets from the motorman in charge of the car you may procure four rides for twenty-five cents, with the usual issues of transfers at intersecting points. The one-man cars successfully operated there induced this scale of fares.

that the delay caused by change-making might be largely eliminated. These various fares have been in effect since May, and have met with general satisfaction. H. A. MacGREGOR, Strathcona, P. O. Edmonton, Alta. Victoria, B. C., Aug. 22, 1918.

WAR GARDEN CAMPAIGN GIVES GREAT RESULTS

Ottawa, Aug. 23.—The Canada Food Board has received numerous communications regarding cases of large surplus production of fruits and vegetables as a result of the war garden campaign. Last year it was estimated that the value of food products from this source amounted to from \$20,000,000 to \$30,000,000. Frederick Abraham, honorary chairman of the war garden and vacant lot section of the Canada Food Board, after a survey of reports covering all Canada, estimates this year's production at least double that of last year.

LONDON NEWS WAS MISQUOTED BY SOFT

London, Aug. 22.—Dr. W. Self, the German Colonial Secretary, cited comment in the London newspapers in discussing the attitude of the Allies toward Germany in an address he made on Wednesday. He declared the London Evening News had said that Germany "must be destroyed by bloody and irreparable defeats on the battlefield." The Evening News points out that what it actually said was: "Nothing of Germany is to be left in France or Belgium, but the remains of German soldiers."

WAR WORKERS NEEDED.

Washington, Aug. 22.—The fact that there is now in the United States a shortage in war work of 1,000,000 unskilled laborers, and that the reserve of skilled workers is exhausted developed yesterday at a conference of field agents of the Federal Employment Service. Further curtailment of non-essential production is planned to release men for war work.

SEEKING DIVORCE.

Pittsfield, Mass., Aug. 22.—Mrs. Katherine L. Livingston Mellen, of Stockbridge, to-day filed suit here for a divorce from Charles S. Mellen, former president of the N. Y. N. H. & H. R. R. Company. Cruel and abusive treatment and attempts to damage her character are charged.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, August 23, 1893.

Alderman Anton Henderson placed his resignation in the hands of Mayor Beaven this morning and Alderman James Baker is alone in the legal battle begun last week.

The Hon. Amor De Cosmos has appealed to the Supreme Court from the decision of the Court of Revision on the matter of the assessment of his property situate at Spring Ridge.

The steamer Premier this morning carried away fifty-two tons of seal-skins shipped by William Munzie to London by the Allah Line.

# It Takes Considerable Planning to Provide Winter Coats of Dependable Qualities to Sell

## At \$17.50

But our painstaking efforts have been rewarded and we have now ready for sale a splendid range of models, tailored from good woolen coatings. Materials you can depend on for wear and service, for warmth and comfort. The great demand for Coats about this price in former years and the fact that all garments of this description are selling at considerably advanced prices—we predict a big demand for these particular models priced at **\$17.50**. Early buying—earlier buying than usual will be an absolute necessity to secure the best values at the lowest prices this season. We, therefore, suggest that you lose no time in examining these models.

—Mantles, First Floor

### New Donegal Tweed Coats at \$24.50

These Coats are going to be popular again this season—particularly so in the early fall. They are so serviceable and always look well.

This range includes various styles and several useful shades in Donegal tweed effects. Splendid value at ..... **\$24.50**

—Mantles, First Floor

### New Coats of Velour Plush and Other Fashionable Fabrics

New Coats of velour, plush and other fashionable fabrics arriving every day or so. We ask you to come in and see them and keep in touch with the latest trend of fashion for the approaching season.

—Mantles, First Floor

### About One Hundred Print Negligee Shirts to Go Out Saturday at 85c Each

Do Not Fail to See Our New Fall and Winter Coats

## TO ESTABLISH AN INTERIOR FISHERY

Hon. William Sloan Asks Dominion Authorities for Extension of Regulations

## NORTHERN DISTRICTS WOULD BENEFIT MUCH

Following an extended investigation the Hon. William Sloan, Commissioner of Fisheries for British Columbia, has requested the Dominion Government to enlarge the scope of fishing operations in northern waters.

In April, 1917, the Dominion Government, at the request of the Provincial Government, passed an Order-in-Council providing regulations for commercial fishing in certain non-tidal waters in the Fort George and Omineca districts. Under these provisions white fish, charr and lake trout could be taken by means of gill-nets upon the obtaining of a license from the provincial Commissioner. As already stated, the regulation originated with the Provincial Department and dealt with an entirely new fishery; but following a year's operation it has been demonstrated that the regulations are not sufficient to develop the fishery to the extent the Commissioner deems desirable and necessary.

## More Latitude Wanted.

Mr. Sloan states that sufficient effort was made by the holders of the nineteen licenses last year to demonstrate that the large and numerous fresh water lakes of the Fort George and Omineca districts contained a supply of excellent food-fish that could be taken by the use of nets; but in no other manner could marketable quantities be secured. It appears necessary, however, to afford the fishermen greater latitude in both extent of water to be fished and in the length of net to be used, none the less to the determination of the season and by other considerations to make the efforts of the fishermen profitable.

## Will Establish Industry.

Heretofore the Commissioner has confined the issue of licenses to resident settlers only in order to encourage them to engage extensively in fishing during the winter months. A year's trial, however, has convinced him that a fishery of commercial importance cannot be established upon this northern region. In view of the fact, then, that the number of local residents applying for licenses were too small, Mr. Sloan has been advised that by permitting non-residents to engage in the enterprise the market supply of fish for the interior of the Province will be greatly increased, and that it will be the means of bringing a considerable number of desirable men into the district who will eventually take advantage of the enormous settlement possibilities which abound in that favorable section.

## To Begin This Fall.

In addition to the very natural advantage that will accrue from the extension of fishing privileges Mr. Sloan is convinced that cold storage plants and fishing stations will be established at convenient points, and that men accustomed to engage in commercial fishing will help to develop the industry. That there may be ample time to provide for the necessary gear and plants to begin operations this fall, the Commissioner has requested that his suggestion be acted upon by the authorities at Ottawa at the earliest possible moment.

Discussing the fish supply of the lakes in the Fort George and Omineca districts, Mr. Sloan declares that there is an ample supply of whitefish, charr—of two varieties—and lake trout as well as sturgeon. The whitefish, he says, are similar to the eastern whitefish found in the southern lakes. It should be noted again, says the Commissioner, that thousands of tons of whitefish and lake trout were taken

## OBJECTS TO ADVENT OF STOCK COMPANY

Charles Williams, speaking for the Victoria Branch of the Canadian Red Cross Society, takes strong objection to the recommendation by Mayor Todd and Publicity Commissioner Armstrong that the Warren Stock Company should come to Victoria; that they would be warranted in moving here owing to the shipbuilding activity, and that the Princess Theatre would be the most likely place for the company to stage its productions.

## Red Cross Society Thinks Local Productions Might Be Affected

"It is possible that when the Warren Company was given this encouragement the fact that the Red Cross Stock Company had undertaken to stage a regular series of performances at the Princess Theatre was overlooked," said Mr. Williams. "Otherwise why mention the Princess when the Red Cross has it?"

## VARIED ENQUIRIES RESPECTING CITY

"We will soon have to branch out as a sort of employment information bureau," remarked Miss Taylor, of the Victoria and Island Development Association, yesterday. In explanation she stated that letters from all parts of Western Canada and many from the eastern provinces and different portions of the United States enquiring as to chances of obtaining employment in Victoria were being received.

## Inquiries Are Being Received at Development Association From All Classes

The class of men who are writing are mostly married men in good circumstances and following a good trade. Their chief reason for wanting to make their home in Victoria is the great consideration of better climatic conditions for working, the beauty of the surrounding scenery and the opportunities for recreation.

## Best in the World.

"How are your schools?" writes one man. "Best in the world," is the response by Publicity Commissioner Armstrong, who, while answering one question invariably takes the opportunity of sandwiching in all the information possible respecting the Queen City of the Canadian Pacific Coast.

## Important Industry.

While Victoria is not aiming to build up a reputation as a resort for retired farmers, yet the indications are that despite anything else that may be in store for the city's future, there will be hundreds of wealthy men who start up in as poor homesteaders on the prairies, who in prosperity will make Victoria their home.

## Red Cross Society Thinks Local Productions Might Be Affected

Charles Williams, speaking for the Victoria Branch of the Canadian Red Cross Society, takes strong objection to the recommendation by Mayor Todd and Publicity Commissioner Armstrong that the Warren Stock Company should come to Victoria; that they would be warranted in moving here owing to the shipbuilding activity, and that the Princess Theatre would be the most likely place for the company to stage its productions.

## WAS IN FIRING LINE NEARLY TWO YEARS

After a splendid record of 22 months fighting, Pte. Kenneth W. Peter, youngest son of Mr. and Mrs. W. H. Peter, of 3221 Harriett Road, has given his life in the service of his country. Only the recollection of his excellent service in a great cause is left to the parents to ease the poignant grief they feel in the death of their son, who had not yet reached his twenty-second year.

Pte. Peter was for some time in the 50th Gordon Highlanders, but transferred to the 103rd Battalion on the formation of the unit, with which he went overseas in July, 1916. After a very short time in England he volunteered for the first draft from the battalion to proceed overseas with a reinforcement to the 29th Battalion and entered the trenches on his twentieth birthday. He carried out the arduous duties of bombardier and Lewis gunner for over twenty-two months continuously, with the exception of one short leave spent in England. His first big engagement was at Vimy Ridge, through which he passed unscathed, and he has also been through Passchendaele and all the other heavy fighting since that date. On account of his cheerfulness and optimism he was always popular with his comrades in the trenches, and his parents cherish many bright letters written from the firing line.

## GUNNER ERNEST P. BARTLETT

Husband of Mrs. Sarah Bartlett, of Quadra Street, and youngest son of Mrs. Samuel Bartlett, 539 Douglas Street, and the late Samuel Bartlett, who died last year. Gnr. Bartlett was a native son of Victoria, his father and mother having resided in the city over thirty-five years. Gnr. Bartlett had been away over two years when the sad news of his death in action was sent to the relatives. A brother, W. S. Bartlett, who resides with the mother and a sister, Mrs. H. McCandless, of Lamson Street, are also left to mourn his loss. An uncle of Gnr. Bartlett, John Bartlett, of 3748 Prior Street, has his two sons, John and Richard, on active service.

PTE. WILLIAM DEE Who went overseas with the 103rd Battalion and has just been reported gassed. Pte. Dee enlisted when he was only sixteen years of age.

DRIVER JOHN PULLING of the First Canadian Pioneers, in France.

## JOINING THE POLES.

A Polish couple, who emigrated to the United States, came before a justice of the peace to be married. The young man handed him the marriage license, and the pair stood up before him.

## A SONG.

(Written in honor of the Canadian soldiers on the centenary of the Battle of Waterloo, June 18, 1815, by H. M. Stramberg, of Prince Rupert, B. C.)

Who are these, with banners flying,  
Victors in that deadly game—  
Lance-wreathed—whose tams undying  
Breathe of an immortal name?  
They are all Canadian freemen;  
Who have crossed the roaring sea,  
Which their brothers, British seamen,  
Rule in glorious liberty.

They are fighting Freedom's battle,  
'Gainst a ruthless German horde;  
Fearless they have heard the rattle  
Of the Kaiser's murderous sword;  
For Teutonic might can never  
Quench the Canadian valor high,  
Till the polar star forever  
Fades from out the northern sky.

Worthy sons of sires whose legions,  
Just one hundred years ago,  
Fought victorious in those regions,  
With the French, a nobler foe,  
Now that foe, with them united,  
Laughs to scorn the tyrant's frown;  
Swears that wrong shall all be righted,  
And the spoiler lose his crown.

While the mighty world rejoices,  
Hails Britannia's fearless sons;  
And a hundred million voices  
Sing the downfall of the Hun;  
For the nations, as if dreaming,  
See the flags of battle furled,  
Over a federated world,  
Prince Rupert, B. C., June 18, 1915.

## LOOKS HOPEFULLY TO SETTLEMENT POLICIES

B. C. Veterans Weekly Sees Something in the Government's Plan

In accordance with the policy of the Provincial Government to throw open for soldier settlement tracts of land in various sections of the province, the Department of Lands is busily engaged with the consideration of many suitable areas concerning which an announcement will be made at an early date.

## BEND YOUR BACK TO IT.

When life's task proves hard and toil-some  
Needling all your grit and strength,  
If you set your teeth to it  
You will see it done at length.  
Difficulties soon are vanquished  
If you meet them with a grin.  
Firmness makes the hard task easy,  
Bend your back to it—and win!

## To Keep Fit

The best work is demanded from all at this crisis in the world's history. We can't do our best when the system is full of poisons. The liver and kidneys must be kept active so that the blood will be properly filtered. Dr. Chase's Kidney-Liver Pills are the most effective regulators of these important organs. They will help you to keep well and active and to do your best work.

TO-DAY'S AMUSEMENTS

Royal Victoria—Douglas Fairbanks in "Say, Young Fellow," Variety—Nell Shipman in "God's Country and the Woman," Dominion—Madge Kennedy will appear to-day in her late Goldwyn production in place of "Toys of Fate," which has been recalled to Vancouver.

ROYAL VICTORIA

The scenes of "Say, Young Fellow" are laid in a small island city which has its newspapers, all looking for the conventional "scoop" in the way of exclusive news. On one of these newspapers is employed a "young fellow" who is widely known for his smiling optimism which defies discouragement. When he succeeds against almost insuperable odds in getting an interview from a crusty old millionaire who loathes the press and its representatives, "the young fellow's" stock mounts high.

He is then sent to a neighboring town to dig up the facts regarding an alleged fraudulent scheme in connection with the operation of a big factory, and it is in the performance of his duties as press Sherlock in this connection that he meets with the surprising adventures which form the basis of this unusual picture. Mr. Fairbanks is at his best in the development of this somewhat remarkable story, and his athletics, his smile and his geniality are constantly in evidence.

ROYAL VICTORIA TO-DAY

Douglas Fairbanks in "Say, Young Fellow" COMEDY SCENIC

DOMINION To-day and Saturday

Madge Kennedy in "Friend Husband" in Place of "TOYS OF FATE" which has been recalled owing to the impending shipping strike.

Charlie Chaplin in "His Musical Career"

VARIETY TO-DAY

NELL SHIPMAN, the Victoria Girl, and WILLIAM DUNCAN in "God's Country and the Woman"

COLUMBIA TO-DAY

Annette Kellerman in "A Daughter of the Gods" A Million Dollar Picture. Shows Begin 1, 3.30, 6, 8.30 p. m.

PANTAGES VAUDEVILLE

A Steady Half-Hour Laugh, "EN ROUTE," CHARLES MORATI, And Five Other Attractions. Matinee, 2; Night, 7 and 9.

tion with the operation of a big factory, and it is in the performance of his duties as press Sherlock in this connection that he meets with the surprising adventures which form the basis of this unusual picture. Mr. Fairbanks is at his best in the development of this somewhat remarkable story, and his athletics, his smile and his geniality are constantly in evidence.

Mr. Fairbanks is admirably supported by prominent screen players including Marjorie Daw, who is seen as "the girl," Frank Campeau, known as "the villain," Edythe Chapman, "a sweet spinster," and James Neil, "a kindly bachelor." The photography, by Hugh McClung, is highly artistic.

VARIETY

William Duncan, who plays the leading male role in "God's Country and the Woman," the fascinating photo-drama showing on the Variety screen this week, tells a good one on himself. While in Bear Valley during the filming of the picture, under the direction of Hollis S. Sturgeon, he suffered two days from intense cold, especially about the ears—he just could not keep them from freezing. He mentioned this fact to George Holt on their way to the train coming home. Holt's reply was: "Well, why didn't you pull down your ear flaps?" It transpired that Duncan had been wearing a seal skin cap with ear flaps, but had forgotten all about them. He will undoubtedly remember them the next time.

ROMANO

Wonderful Emily Stevens herself is her own best form of advertising! The simple announcement that this gifted woman is to appear as the star of a Metro wonderplay—and she has never appeared in the productions of any other company—is sufficient proof that patrons are going to get their money's worth. Remember "The Slacker"—remember "Outwitted"—remember "A Sleeping Memory," "Destiny, or the Soul of a Woman," "The House of Tears" and her other matchless productions. The art of Emily Stevens gives "good measure and running over."

PANTAGES

Morey Barton, the wee comedian singer, appears at the Pantages this week with two new partners, William Creamer and Jack Sparling, singers with splendid voices. Barton is as funny as ever, with a new act, and his songs are put across with the same "pep." Charles Morati, a continental operatic tenor, sings some of the late operatic hits with all the fervor one expects in operatic numbers. With him is Felham Lynton, an English comedian, and Grace Morati. He sings the bright humor with his splendid vocal numbers. "En Route" features six dancing chorus girls with nimble limbs and brilliant costumes, and Jimmy Gildea, the comedian. This act is a musical tabloid of the best. Farish and Peru present a mixture of singing, dancing and tumbling. Jessie and Dolly Miller are just as big a hit as when they first introduced their splendid interpretations of native dances of New Zealand and Hawaii. Doranto has an interesting number in his Oriental musical act.

OUT OF HIS TURN. Mr. Jenkins was sedate and strongly disliked making what he was pleased to term an exhibition of himself. In fact, he was a highly respectable partner in a big contracting firm of decorators, and having on one occasion secured a large contract he advertised for workmen.

GAS IN THE STOMACH IS DANGEROUS

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion." Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to complications by serious stomach ulcers. Food ferments and stews, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the head.

WILL SERVE TWO YEARS IN PRISON

Defiant Bible Student, With Teuton Name, is Sentenced

"It is an honor for me to be persecuted," said the defendant, Johann Meyers, a German who has naturalized, as he received without flinching a penitentiary sentence of two years for having in his possession books and documents and published by the different Bible Student organizations, Magistrate Jay, considering the case in the Police Court this morning, said, as he gave his decision, "I don't know where your sympathies are, but there can be no half measures about loyalty. You are either for us or against us, and you are certainly not for us!" The Magistrate closed the books in question as propaganda, and said that in the prosecutions so far he had exercised great leniency.

"My conscience tells me that these are good books," said Meyers in broken English, before his sentence was pronounced. "And I will stand up for the word of God until death! The word of God says, 'If you deny me, I will deny you. I will go down to death for the Lord,'" he continued. "Why don't you suppress the Bible if you want to suppress the truth?"

"Persecution an Honor." "It is an honor for me to be persecuted," said Meyers. "I will stand up for the word of God until death! The word of God says, 'If you deny me, I will deny you. I will go down to death for the Lord,'" he continued. "Why don't you suppress the Bible if you want to suppress the truth?"

"Propaganda." "It is not necessary for me to repeat the proclamation which forbids the possession of propaganda," said Magistrate Jay. You are a naturalized British subject and formerly a citizen of Germany. To become naturalized you took an oath of allegiance, and I don't think you appreciated the solemnity of it. There can be no half measures about loyalty.

"I don't know where your sympathies are," continued the Magistrate, "but I can only come to the conclusion that, in view of the attitude with which you look on propaganda you sympathize with it, and that you are in violation of the laws of this country. You are either for us or against us—and you are certainly not for us."

THE USE OF OFFALS

Lesser Known Portions of Meat Both Palatable and Reasonable in Price. The average Canadian housekeeper is very discriminating in the kind of meat she buys. Indeed, she is so discriminating that she has headed her off with a barrier which excludes some of the most palatable parts of the meat animals because, in the trade classification, they come under the opprobrious and misleading term "offals."

FALL FRUIT APPEARS ON RETAIL MARKET

Jam Making Now Proceeding Actively; Canned Salmon Will Take Sharp Rise

Fall fruit is beginning to appear upon the local retail market now, and judging by the purchase of sugar and other culinary necessities, the process of jam-making is now proceeding actively in Victoria households. Crab-apples are now on sale and California peaches, recently arrived, are proving popular with housewives for preserving purposes. A few local plums have made their appearance, but larger quantities are expected next week, when most of the plum preserving will be done. Tomatoes are retailing for ten and fifteen cents a pound, and Cansab melons are in stock.

Meat shows no change since last week and feed remains stationary. Timothy hay, however, has advanced slightly in price. Canned Salmon Advances. Fresh fish is still retailing at the same prices as have prevailed for several weeks, but the prices of canned salmon, as recently issued by the B. C. Cannery Association, are considerably above those of last year.

A very small but live boy applied to a great merchant for a job. The great man sized him up with twinkling eyes, for the one situation open needed a bigger parcel of human experience, and asked what position he wanted, according to Everybody's. "A chance to grow up in the business, mister!" "Well, we are more or less being depopulated by the drafts. What is your motto, my son?" "The same as yours," was the ready answer. "What do you mean?" asked the puzzled merchant. "Why, the door there—" "Push." He got the job of keeper of that very door.

BOOTS and SHOES

That command attention, and save you good money; made of the best material obtainable, by the leading manufacturers. A few more of these good ones to be cleared out at tempting prices.

### WHISKY \$400 A BOTTLE

Prohibition Fines Make Liquor Expensive; Second Offence. One of the most expensive bottles of whisky in the world was owned a few days ago by Frank King who, charged with having liquor in other than a private dwelling place, was fined \$400 by Magistrate Jay in the Police Court this morning. King had been convicted a short time ago of having liquor in the New England bar. The alternative to the heavy fine levied to-day was four months in jail but, accused contributed the muck imposed. The evidence brought forward showed that King had liquor in the Fairfield Hotel, which was entered by Sgt. Fry and Constable Walton. The officers found accused and two friends in a room of that establishment and they also discovered a bottle of whisky which accused tried to seize when he perceived the identity of his unwitting guests. Sergeant Fry, however, was too quick and the bottle, as a result of his agility in grabbing it, was produced in court.

## Sugar-Saving Candies!

Sounds Funny—Nevertheless, 'Tis True

As a patriotic duty we are asked to save sugar for our Allies by using as little of it as possible ourselves. This may at first glance, appear to be a real hardship, but there are many ways in which sugar can be saved without the practice of a great deal of self-denial. The following toothsome confections will testify to that fact:

- Chocolate Dates, per lb. 75¢
- Chocolate Raisins, per lb. 75¢
- Chocolate-Ginger, per lb. 75¢
- Chocolate Peanut, per lb. 75¢
- Chocolate Walnut-Stuffed Dates, per lb. 75¢
- Chocolate Ting-a-lings, lb. 75¢
- Chocolate Coconut, per lb. 75¢
- Chocolate Almonds, lb. \$1.00
- Chocolate Filberts, per lb. \$1.25

### BAND WILL ASSIST AT SUNDAY'S SING

Army and Navy Veterans' Orchestra to Play; Solo by Mrs. Fahey

That Mayor Todd had enthusiastically voiced his appreciation of the steps being taken to establish a community sing in Victoria, and had promised his whole-hearted support of the efforts in this direction was reported by Frank F. Schl at a meeting of the sing committee held last night. Through the instrumentality of the Mayor a platform is being secured for the use of the conductor while he has also detailed members of the police department to assist at Sunday afternoon's sing in Beacon Hill Park. Mr. Schl also reported that the members of the Army and Navy Veterans' Band, under Sergt. Will Edmunds had generously offered to assist in the programme. This talented organization will play several band selections, in addition to accompanying most of the vocal numbers, and their co-operation will be materially conducive to the pleasure and success of the sing. Mrs. Macdonald Fahey, who is one of the most enthusiastic supporters of the movement, has consented to sing a solo, and Fletcher Bros. have generously offered the loan of a piano for the occasion. No stone has been left unturned to make the occasion a memorable one, and it only remains for Victorians to assemble in force near the Burns statue on Sunday afternoon to effect the consummation of the plans to make this community sing an outstanding success. The public is requested to assemble shortly after 3 o'clock on Sunday afternoon as the band will play several selections before the commencement of the vocal programme. Emphasis has been laid on the fact that the sing will definitely be held, unless rain is actually falling in the afternoon.

### LOCAL CASUALTIES INCREASE EACH DAY

Anxious Relatives Receive News of Friends in Firing Line

The roll of honor for Victoria men continues to grow and anxious relatives in Victoria are each day receiving telegrams informing them of sons or husbands wounded in the recent fighting. Major T. D. J. Ringwood, after rendering yeoman service to his country both in the training of officers and in the fighting line, has been killed in action. His death being reported on August 19. Major Ringwood is one of the officers who have gone from this side and helped building up the reputation for stirring fighters and proficient soldiers that Canada now enjoys. At the time of his death he was serving at O. C. of the 66th Battery, 14th Brigade. Major Ringwood, born Dec. 6, 1886, at Enniskillen County, Fermanagh, Ireland, and was post-humous son of John Ringwood, B. A., Trinity College, Dublin. He came to Manitoba with his mother and stepfather, Chas. C. Castle, who now reside at Ganges Harbor, Salt Spring Island. He was educated at Pleasant Home, Manitoba, and afterwards at Charles School, Weston, Super-Macs, England, from whence he passed into Royal Military College, Kingston, Ontario, which he went through. At the outbreak of war he was a lieutenant in C. F. A. Halifax, when he was transferred to Kingston as chief instructor in School of Artillery, and the work of "Rings" is appreciated all over Canada by over 1,600 officers and N. C. O.'s whom he trained for war. Later he went overseas as Captain in the 15th Brigade, West. Oplivie, O. C., 15th Brigade, and was finally appointed major and officer commanding 66th Battery, 14th Brigade, and since 1917 served in France, protecting the trenches on the Somme. In his last letter to his mother he wrote, "Everything is going splendidly. I am well and happy."

### Third Time Wounded.

The wife of Pte. J. J. Godber, has received information that her husband has been admitted to hospital in Rouen, suffering from wounds in the stomach received in action. Pte. Godber, who has been two years in France, already wears two strips of gold braid on his sleeve indicating that he has twice previously been wounded. Whilst fighting side by side with his brother-in-law the trenches on the Somme, Hugh McMillan, the latter was killed. Pte. Godber went to England with the 88th Battalion and proceeded to the firing line with the 47th Battalion.

### Wounded in Chest.

Pte. Dhrappleton, whose wife resides at 3108 King's Road has been admitted to the 2nd Canadian General Hospital at Abbeville, suffering from wounds in the chest, received in action August 15. Pte. Dhrappleton, who was in the Mounted Service, had a long record of service in the war zone.

### Went From Chicago.

Mrs. C. A. Chislett, of 2540 Prior Street, has been notified that her brother, Pte. Michael Kenny, of the 4th Canadian Battalion was killed in action August 9th. He enlisted in Chicago.

### Driver Joseph Ross.

For the second time Driver Joseph Ross, whose home is at 119 St. Francis Street, has been wounded on the field. He is a brother of Driver Robert Ross, late of the Times staff. Driver Joseph Ross went to England from Vancouver with the 62nd Battalion in 1915, and afterwards transferred to the Canadian Army Service Corps. He is only twelve years of age, but being only just old enough to enlist when he first offered his services.

Winners at Vancouver Fair—C. J. V. Spratt, of Victoria, and G. T. Corfield, of Duncan, carried off a number of prizes in cattle classes at the Vancouver Exhibition on Wednesday. In the Holsteins, for bull three years and over, C. J. V. Spratt took first and G. T. Corfield, second prize; bull, yearling, Mr. Spratt, third; senior bull calf under twelve months, G. T. Corfield, second; heifer yearling senior, G. T. Corfield, third; aged heifer, G. T. Corfield, second; special four calves bred by exhibitor, G. T. Corfield, fourth prize.

## FRIDAY FORMALIZES CO-OPERATIVE PLANS

Prohibition Commissioner Has Arranged Conference in Ottawa for Sept. 5

### PATENT MEDICINE ACT TOPIC OF DISCUSSION

Will Draw Amendments Considerably Altering the Dominion Measure

Consummation of plans formulated by Walter C. Findlay, British Columbia Prohibition Commissioner, will result in the holding of an official conference at Ottawa on September 5 next, between representatives of the Attorneys-General of the Provinces of Canada for the purpose of drafting and agreeing upon certain amendments to the Patent Medicine Act for submission to the Dominion Government. The main object of the amendments will be to bring the Federal law into a closer harmony with the various Prohibition laws now being enforced throughout the Dominion of Canada, and to remedy certain phases of the present situation which render difficult the effective carrying out of the spirit and intent of the various Prohibition Acts where the sale of Patent Medicines is concerned.

Closer Relations. In brief the amendments will be directed to prohibit the manufacture and sale of certain patent medicines which now come more or less under the heading of medicated wines. And in addition to discussion relating thereto it is the intention of the conference to formulate and finally agree upon future interprovincial relationships in respect of administrative functions applying to prohibitory law in general.

The matter first suggested itself to Mr. Findlay at the time amendments to the British Columbia Prohibition Act were under advisement between Attorney-General Farris and himself. It was patent to the mind of the Commissioner that the question of patent medicines would require effective treatment by law if the practice of more or less indiscriminate sale were to be curtailed so as to conform to the spirit and intent of the local Act. The Patent Medicine Act, however, being purely federal machinery, the Provincial Government consequently possessed neither remedial machinery nor power to give effect to such legislation.

Times Have Changed. It should be noted that when the Patent Medicine Act was drawn up in 1908 there appeared no question of a more or less universal "dry" law and the design was directed to control the sale of habit forming drugs. Since British Columbia has adopted prohibition, and more especially since interprovincial trade has been totally prohibited, statistics procured by Commissioner Findlay go to show that the increase in sale of tonic with large alcoholic content has increased enormously. Some of the liquids that will doubtless come under a proposed ban have been proven by analysis to contain no less than sixty per cent. proof spirit, while many well-known "lines" contain sufficient medication to prevent their use as a beverage.

Lengthy Negotiations. As soon as this became obvious to the Commissioner, he commenced to get into touch with the Governments of other Provinces with a view to arranging a representative conference and to provide an opportunity to canvass the whole situation and to draw up suggested amending legislation for submission to the Dominion Government. For several weeks past Mr. Findlay has been in communication with the Attorneys-General of the various Provinces of the Dominion to the end that the necessary arrangements were completed by wire this morning for the conference to take place in Ottawa on September 5.

While in the national capital and in touch with the officials entrusted with the enforcement of prohibitory law, Mr. Findlay will take advantage of methods in vogue in Provinces where "dry" law has had a longer innings than has been the case in British Columbia. His suggestions may be expected to assist in even better administration in this Province.

### Did Their Best.

Between this date and his departure east, Mr. Findlay will take up many matters of importance with the members of the British Columbia Pharmaceutical Association, who are vitally affected, and with the Municipal Police authorities, who have naturally had considerable difficulty in dealing with this particular phase of the prohibition law. While the Commissioner has nothing but praise for the manner in which the druggists of the Province have dealt with a complex situation, he says that they have very naturally governed themselves in the light of the present law.

### PRETTY WEDDING AT BELMONT CHURCH

The Belmont Methodist Church was the scene of an exceptionally pretty wedding on Wednesday week at 1.30 p.m. When Miss Bertha Anne Boydell, daughter of Mrs. J. A. Boydell, of 2745 Scott Avenue, became the bride of Samuel Arnold Hearle, of Victoria, son of Mr. and Mrs. Hearle, of Cornwall, England. The ceremony was performed by the Rev. Robt. Williams in the presence of a few intimate friends of the contracting parties. The bride, who was given away by her brother, John R. Boydell, wore a beautiful gown of white satin trimmed with silver lace, with conventional tulle veil and orange blossoms, and carried a bouquet of white jasmine and carnations. He was attended by one bridesmaid, Miss Lila Boydell, prettily gowned in rose-satin trimmed with gold lace, with which she wore a becoming white satin picture hat and

## During the Long Evenings

—now approaching you, will be able to derive more real enjoyment with a Columbia Grafonola than by any other form of indoor entertainment. You can listen to the world's great artists, hear the latest popular songs, or dance to a proper measure—in fact, you can have a splendid concert, dance or a real old time sing-song by your own fireside.

The Columbia Grafonola is the most versatile musical instrument known.

Buy Your Grafonola To-day—Prices Will Go Up on September 1st.

### SOOKE LAKE WORKS

City Engineer Estimates Construction Will Occupy Another Month. City Engineer Rust estimates that it will take another month to complete the reversion wall at Sooke Lake, the construction work having been considerably affected by the difficulty in securing labor and material. The object is to confine the channel of Sooke River below the dam.

The hauling of sand and other materials has been a big item to consider. Sand, which was at first thought to be quite suitable, and was obtained at the head of the lake, was found by test to be useless for mixing. Trouble was also experienced in getting teams, and the cost has been great. Mr. Rust states that all difficulties have been fairly overcome, and the work is now going on as smoothly as can be expected under the circumstances.

Greatest Swimming, Diving and Water Polo Championships ever staged in Canada, Gorge, Saturday afternoon. All Over Town—Fred Mellor Signs, Phone 3565.

VICTORIA THE NORTHWEST OF THE WORLD

CHAMPIONSHIP WATER GALA AT GORGE SATURDAY WILL BRING STATE'S STAR DIVERS HERE

Water Polo Games, Sprint and Long Distance Races Attract Big Entries; Fifth Regiment Band to be on Hand.

With moving pictures of the event being taken by the Pathe Company to show all over Canada and the United States, crack swimmers from the Northwest out to make world's records, and the eyes of sportsmen of two countries centred on the gala the Pacific Northwest Amateur Championship sports to start at the Gorge 2.45 Saturday afternoon will place Victoria in the limelight to a greater degree than any other sporting event ever held in the province.

Variety of Events. The championship events provide lots of variety comprising diving, water polo, sprints and long distance races. A number of concessions and side shows have been taken over by the Red Cross and the 5th Regiment Band will be in attendance to render selections. A fee of twenty-five cents will be charged for admittance to the Victoria and Island Athletic Association Club grounds, children under ten being admitted free, and the whole of the net proceeds of the gala will be handed over the Red Cross Society.

provide and a picked team from the big United States army training centre, Camp Lewis. The American soldiers are being captained by Geo. Cunha, who showed such speed on one occasion that he beat the world famous Hawaiian, the other members of the team Sergeant A. E. Mattern, Pte. Frank Robinson, Cpl. W. C. Schulze, and Pte. C. W. Sexsmith are also named that figure prominently in aquatic records. Two Victoria teams will be up against them—an entry from the Victoria Amateur Swimming Club captained by Angus McKinnon, who showed such ability at the game in the night against Vancouver on the Mainland last Saturday, and a V. I. A. A. team captained by Stanley Warn.

Diving a Feature. The aggregation of divers from Portland, Seattle, and the clever local entries will without a doubt give the best exhibition ever seen in the West. Constance Myers and Thelma Payne, who have both competed in championship events for the U. S. A. will represent the Portland entry, and Mrs. Constance Myers, who is the American

WILL ADVERTISE CITY AS RESORT, SAYS M. P.

The following extract from a letter written to W. H. Davies, Superintendent of the Victoria and Island Athletic Association regarding the Pacific Northwest Championship Gala at the Gorge Saturday by J. C. McIntosh, M. P. for the Nanaimo Riding, requires no comment. "On my return to the city I found your favor of the 15th inst. awaiting me regarding the proposal to hold the Pacific Northwest annual swimming, diving and water polo championships in our city on the 24th inst., under the auspices of your club. May I congratulate you and the club upon the aggressive interest you have shown in the development of aquatic sports here, as to my mind it means much in receiving recognition to our city as a resort, and will tend to draw many tourists here in their travels."

National Champion for 1918, has offered to dive from any height an amateur has attempted, and there should be a good exhibition. In spite of the fact that Mr. Justice Martin, who incidentally is one of the prima movers in the event, has won fame by diving from the Gorge Bridge, Pte. Lockhart, a recent acquisition to the V. I. A. A. Club, will uphold the reputation of the local clubs in the diving events. Lockhart reveals in doing fancy stunts from wonderful heights, and claims he has not yet seen a diving platform high enough to give him the full enjoyment that he derives from gliding through the air into the waters below so the thrills promised for Saturday can be looked forward to with interest. The Seattle Crystal Pool Swimming Club will be represented by four members and Roy O'Neill will endeavor to take back to the neighboring city some of the diving honors. Miss Beth Langley is entered for the sprints, and Miss Molly Langley in the long distance races. The complete entry list is as follows: Event No. 1.—50-yard dash (ladies); Audrey Griffin, V. I. A. A.; Edna Curry, V. I. A. A.; Frances Bayley, V. I. A. A.; Mrs. D. Martin, V. I. A. A.; Roberta Balcom, V. I. A. A.; Rosie Robertson, Victoria A. S. C.; Thelma Wellburn, Victoria A. S. C.; Thelma Payne, Mult. A. C.; Beth Langley, Crystal Pool, Seattle; Molly Langley, Crystal Pool.

Event No. 2.—50 yards, backstroke: C. W. Sexsmith, Camp Lewis; Geo. Cunha, Camp Lewis; H. W. Buckland, Mult. A. C.; Myron Wilsey, Mult. A. C.; Locke Webster, Mult. A. C.; Jas. Rendall, Van. A. S. C.; R. D. Granger, Van. A. S. C.; A. Stannard, V. I. A. A.; A. Kennedy, V. I. A. A.; E. P. Shaw, V. I. A. A.; Roy O'Neill, Crystal Pool. Event No. 3.—Plunge for distance: Pte. C. W. Sexsmith, Camp Lewis; Locke Webster, Mult. A. C.; E. Worth, V. I. A. A.; Geo. Doreux, V. I. A. A.; A. Kennedy, V. I. A. A.; W. Muir, V. I. A. A.; H. Calder, V. I. A. A.; H. R. Lockard, V. I. A. A. Event No. 4.—100 yards dash (men): Pte. F. Robinson, Camp Lewis; Sgt. A. E. Mattern, Camp Lewis; Pte. Geo. Cunha, Camp Lewis; Geo. Bidlake, Victoria A. S. C.; G. E. Wellburn, Victoria A. S. C.; R. D. Granger, Van. A. S. C.; H. R. Buckland, Mult. A. C.; O. J. Horsford, Mult. A. C.; Myron Wilsey, Mult. A. C.; H. C. Ross, V. I. A. A.; A. Kennedy, V. I. A. A.; W. Muir, V. I. A. A.; E. P. Shaw, V. I. A. A.; Roy O'Neill, Crystal Pool. Event No. 5.—50 yds. breaststroke (women)—Mrs. D. Martin, V. I. A. A.; Edna Curry, V. I. A. A.; Ella Simpson, V. I. A. A.; Audrey Griffin, V. I. A. A.; Rosie Robertson, Victoria A. S. C.; Thelma Payne, Mult. A. C.; Beth Langley, Crystal Pool; Bernice Ruddock, Victoria A. S. C.; Owen Jane, Mult. A. C. Event No. 6.—Water polo—First heats—V. I. A. A. vs. Camp Lewis; 2.—Mult. A. C. vs. Victoria A. S. C.; Van. A. S. C. Event No. 7.—Fancy diving 10 ft. board (women)—Thelma Payne, Mult. A. C.; Mrs. Constance Myers, Mult. A. C.; Mrs. R. W. Hibberson, Victoria A. S. C. Event No. 8.—400 yards breaststroke (men)—R. Mitchell, V. I. A. A.; Geo. Y. Simpson, V. I. A. A.; E. P. Shaw, V. I. A. A.; Corpl. W. C. Schulze, Cp. Lewis; H. W. Buckland, Mult. A. C.; Locke Webster, Mult. A. C.; James Rendall, Van. A. S. C.; R. D. Granger, Van. A. S. C.; A. Austin, Van. A. S. C.; Roy O'Neill, Crystal Pool. Event No. 9.—50 yards dash (men)—W. Muir, V. I. A. A.; E. P. Shaw, V. I. A. A.; A. Kennedy, V. I. A. A.; Pte. F. Robinson, Cp. Lewis; E. Worth, V. I. A. A.; Sgt. A. E. Mattern, Cp. Lewis; Pte. Geo. Cunha, Cp. Lewis; Geo. Bidlake, Victoria A. S. C.; J. T. Marshall, Victoria A. S. C.; G. E. Wellburn, Victoria A. S. C.; Angus McKinnon, Victoria A. S. C.; O. J. Horsford, Mult. A. C.; Myron Wilsey, Mult. A. C.; V. Brydon-Jack, Van. A. S. C.; R. D. Granger, Van. A. S. C.; H. J. Calder, V. I. A. A.; E. P. Shaw, V. I. A. A.; H. R. Lockard, V. I. A. A.; Roy O'Neill, Crystal Pool. Event No. 11.—440 free style (women)

SWIMMING CHAMPIONS MEET AT NEW YORK

New York, Aug. 22.—The Amateur Athletic Union's national 440-yard swimming championship for women was won by Mrs. Claire Calligan Finney, of New Rochelle, N.Y., in the open and rough water off Brighton beach yesterday in 7 minutes 19.45 seconds. Mrs. Finney made a record in winning the same event last year at Honolulu. Miss Dorothy Burns, of Los Angeles, who was ten yards back, finished second in 7:33.25, while the other entrant, Miss Charlotte Boll, of Seagate, failed to finish.

TOMMY BURNS TO DON LACROSSE UNIFORM Will Referee Game, Coughlans Versus Dynamiters, on Saturday

Chicago, Aug. 22.—James J. Corbett, former champion heavyweight pugilist, is planning the organization of two all-star teams of baseball players who do not have to work and have them tour the country in benefit games for war funds. He has asked Christy Mathewson and Ty Cobb to act as managers. Cobb, however, if he carries out his announced intention, will join the marines as soon as the baseball season ends.

Tommy Burns, now acting as boxing instructor to the men of the 2nd Depot Battalion at the Willows, will don the lacrosse uniform, for the Veterans during his stay in Victoria. The Veterans are to meet the winners of the game between James Island and Coughlans at Royal Athletic Park set for Saturday at 6.30 after the Pacific Northwest gala at the Gorge, and Burns will also referee the game. It was thought at first that Coughlans, the world's amateur lacrosse champions, would not be able to come to Victoria for the game on Saturday but they have since accepted the challenge to meet the James Island men, and the fixture should provide the best game seen in Victoria for some time. The men from the Mainland are in great shape, according to reports, and have been practicing hard with the Minto Cup winners. Manager Robertson of the "Dynamiters," points to the splendid record of his team, and states that they have the speed and combination necessary to make the Coughlans go all the way. It will be the best opportunity the Island men have had of showing what they are really worth. The Veterans are showing some ambition in challenging the winners to a Labor Day game. The selections for Saturday's games will be as follows: Coughlans' Jake Davis, Teddy Mowat, Billy Campbell, Charlie Gilanders, Charlie Bigger, Russell McLaren, Cig. Peterson, Billy Gray, Joe Shillingford, Johnnie Caldwell, Pat Wolcombe, Bernie Feedham, Jim McGregor, Allie McGregor, James Island. Humphries, Graham, Morgan, Mooney, McNamee, Fairburn, D. Robertson, Le Daine, G. Robertson, Alexander, Shandley, J. Hancock.

"HE'S DEAD," SAID HUN NOW SWIMMING STAR

Stanley Warn was once lying out in No-Man's Land, given up for dead. He was wounded in the head, arm and hip and part of one of his feet is missing from the trench feet. After one of the big battles he was lying out in No-Man's Land for nine days, and for the last two or three days he was unconscious. The Hun passed him in the disputed territory dividing the British from the German trenches and passed him by as dead. Fortunately they did not know that Stan was only wounded, so they left him there until he was picked up by his own comrades. During his nine days in that unhealthy strip of land Warn used up the water he had in his bottle, and any he could get from the bottles of the men who had been killed near him, and finished up his emergency rations. By the time he was recovered he looked as if his days on this earth were numbered. That was less than two years ago, now he is back in the swimming game as strong as ever and is captain of the Victoria and Island Athletic Association polo team which is competing for championship honors at the Gorge Gala on Saturday afternoon. In addition he has won several races since he came back, and is showing such speed that in every handicap race he is on a mark that would discourage a young physically fit athlete. On Saturday the returned soldier will captain a team of polo players to meet a Sammie's side from Camp Lewis. The U. S. A. men are in the city in full strength for the gala, and when it is mentioned that George Cunha, who is now in training to do his bit with the American forces is over with them, it can be judged that Warn has to show some of his finest speed.

JOHNSON'S OVERTIME GAMES.

Walter Johnson, the ace of the pitchers of the big leagues, has run into no less than eleven overtime games this season. He won six and lost five. Two of the extra inning games went 18 innings and another 15. Johnson beat the White Sox 1 to 0 in 18 innings and duplicated the performance against the Browns in 15 innings. He lost to Detroit, 6 to 7, in 18 innings, and yesterday was again beaten by the Tigers in 16 innings. Johnson went in as a relief moundman in yesterday's game.

FINALS OF RED CROSS TENNIS HELD OVER

Owing to rain having interfered with play, it will be impossible to play complete the finals on Saturday in the Red Cross Tennis Tournament being held at the Victoria Lawn Tennis Club's courts, although probably the finals in the men's singles and doubles and the ladies' singles will be played. An exhibition of mixed doubles will be staged on Saturday as a special attraction. Yesterday's matches were as follows: Gordon beat Rome, 6-1, 6-3. Fairbairn and Davis beat Hoy and Poisson, 6-1, 6-3. Miss Leeming beat Miss Harris, 6-1, 6-3. Miss Idens and Miss Bradford beat Mrs. Aldridge and Mrs. Reesdale, 7-5, 6-2. Miss Bradford and Proctor, beat Miss Tatlow and Davies, by default. Miss Neame and Virtue beat Miss Jones and Capt. Hendy, 6-1, 6-3. Brown and Schwengers beat Robertson and Edwards, by default. Davies beat Clowes, by default. Miss Markham and Gordon beat Miss Harlow and Bone, 6-3, 6-2. Miss Idens and Davies beat Miss Bradford and Proctor, 6-1, 6-3. To-day's Draw. At 4 p. m.—Miss Neame plays Miss Bradford. Mrs. Fairbairn plays Miss Leeming. At 5 p. m.—Rome and Gordon play Garrett and Leeming. Davies plays Jephson. Miss Wilson and Miss Tatlow play Mrs. and Miss Leeming. Springett plays Ashdown. At 6 p. m.—Fairbairn and Davies play Brown and Schwengers. Miss Markham and Gordon play Miss Neame and Virtue.

AutoStrop SAFETY RAZOR

Of Supreme Necessity Every soldier's kit must contain certain things if he is to present that smart appearance which is so necessary in our Army. Of these probably the most important is his razor—it must "stand up" under all conditions—it must be ready at all times so that he can get a clean, velvety, comfortable shave in the shortest time. This is only possible with the AutoStrop Safety Razor because it is the only one that sharpens its own blades automatically. Include an AutoStrop in your next Overseas package. Price \$5.00 At leading dealers everywhere. 25c postage will follow on AutoStrop Overseas by first class registered mail. AutoStrop Safety Razor Co. Limited. 83-87 Bala St., Toronto, Ont. 9-9-18

HARVARD FOOTBALLER KILLED IN ACTION

New York, Aug. 22.—Capt. Phillip O. Mills, former Harvard football player and a son of the late Gen. Samuel M. Mills, chief of artillery, U.S.A., was killed in action July 25 last, according to information received here to-day by friends.

## CANADIANS OVERSEAS IN EMPIRE SPORTS

Elimination Events Held Preparatory to Big Day of Sport

London, Aug. 15.—The big athletic championship meet of the Canadian troops in Britain was held last week at Stamford Bridge, London. It was the more important because the winners will represent Canada in the great Empire sports on the same ground on September 7. Some fine performances were done and the men all round will be hard to beat. Sgt. J. H. Massey, from Witley Camp, was a notable treble winner, namely, the half mile and three miles, easily beating the Canadian championship record in each event.

Capt. E. B. Archibald was also very successful, winning the hammer throw and pole vault and was third in the long jump and shot-put. 100 yards—1. Selars; 2. O. Johnson; 3. C. Kelly; 4. B. Rushton. 880-yards—1. Massey; 2. W. E. Lloyd; 3. A. Turnbull. Putting shot—1. Barton, 34 feet 11; 2. Stewart, 24 feet 5 1/2; 3. Archibald, 23 feet 10 inches. Pole vault—1. Archibald, 11 feet 6; 2. L. M. Dick, 9 feet 9; 3. Khuring, 9

feet 6 inches. Archibald eventually cleared twelve feet.

### Massey Wins Mile Run.

Mile run—1. Massey; 2. Whitehead; 3. Pte. T. Jackson. Time, 4:37 2-5.

220 yards—1. M. Kelly; 2. C. Winters; 3. B. Dasherford, 23 3-5 secs.

Mile walk—1. T. J. Edmundson; 2. Corp. Jackson; 3. W. G. Russell. Time, 7:01 3-5.

High jump—1. J. V. McDonald, 5 feet 7; 2. E. C. Ball and Mvllvena, 5 feet 6 each.

Physical training—1. Seaford Camp; 2. Bramshott; 3. Witley.

Quarter mile—1. C. T. Davidson; 2. H. Evans; 3. R. McGillivray and A. E. Foster. Time, 51 4-5.

120 yard hurdles—1. F. M. Hann; 2. A. G. Wilkin; 3. F. Zoellin; 4. D. Heylan. Time, 1:16 4-5.

Hammer throwing, twelve pounds—1. Archibald, 152 feet ten inches; 2. G. R. Beer, 131 feet 3 inches; 3. R. Clarke, 123 feet 7 inches.

Three miles—1. Massey; 2. C. V. Phillips; 3. J. S. Keith; 4. J. Montambault. Time, 15:37 3-5.

Long jump—1. V. Kelly, 20 feet 11; 2. J. P. McDonald, 20 feet 8; 3. Archibald, 20 feet 4 1/2 inches.

### Bramshott Team Wins.

Tug-of-war—Bramshott beat Witley.

Mile relay race—1. Witley; 2. Seaford; 3. First Tank Batt.

Discus throwing—1. W. A. Forsythe, 114 feet 9 3-4 inches; 2. R. B. Campbell, 102 feet 7 1/4 inches.

Boxing contests at London—Pte. Gray beat Brookbank, Air Force, in the second round, but was beaten in the semi-final by Stewart, American. Sgt. Joe Attwood, of the Canadians, beat W. Farrell, Southwark, Corp. Wingham, Canada, was beaten by Pte. Eugene, Australia.

## VISITORS SUCCESSFUL IN RED CROSS GAMES

Oils and Military Team From Vancouver Won; Cricket Tournament Opens

Two of the visiting teams were successful in the Red Cross cricket tournament for the Red Cross Great War Cup, which started yesterday after being delayed one day on account of rain. Vancouver Oils got the decision over Victoria Military with a score of 197 against 148. Nanaimo lost to the Five C's, who knocked off the necessary runs in the second innings with only three wickets down. The Military team from Vancouver beat the Incogs by the close margin of fifteen runs. Kortlang, the Australian star with the Vancouver soldiers, did not make one of those large scales for which he is famous, being out to Sparks with only three to his credit. The Congos obtained an easy decision over the Wanderers, who only scored fifty-five runs against the Congos' total of 181. The complete scores are as follows:

**VANCOUVER MILITARY V. INCOGS.**

HUBERT LETHABY

Player on Wanderers eleven, and Secretary of Red Cross Cricket Tournament for the Great War Cup, now in progress here.

**TOURNAMENT SECRETARY**

**FORTUNE'S CHAMPION.**

The Kaiser is sadly missed nowadays. Early in March we used to hear from him two or three times a week, telling the world what he was going to do, advising us of the "historic moment" of complete German victory which he was about to usher in and mentioning great things about the "German sword." Why has he suddenly fallen silent? The world will not know what to think without his guidance. No one else is so deep as he in the councils of God, and if he does not reveal them to us every day or two, we shall be in danger of going wrong.—The New York Evening Post.

An obstinate man does not hold opinions, but they hold him.—Pope.

### FOUNDATION LAUNCHING RECORD STANDS UNIQUE

Twenty-Four Ships Put Afloat at Portland and Tacoma Since March 20

Some idea of the energy and enterprise displayed in connection with the various activities of the Foundation Company can be gathered from the fact that since March 20 last no less than twenty-four vessels have been launched from the Portland and Tacoma yards. This means that one vessel has been put afloat each week from the two shipyards controlled by the company just across the border as it goes without saying that no other wooden shipyards on the continent can boast of such a record. The above interesting data was imparted by Bayly Hipkins, Northwest manager of the Foundation Company, prior to his departure from Victoria yesterday for Seattle.

With the inauguration of the Foundation Company's new shipbuilding programme here activity on a similar scale will prevail at Victoria. The enlarged yard here will operate ten shipways to correspond with the capacity of the yards at Portland and Tacoma, and a similar number of men will be employed by the time the first ten vessels of the new programme are put afloat. Twelve vessels of the steam-driven auxiliary schooner type have been delivered by the Foundation Company from its plants over the border. Some of these vessels have already put to sea on their maiden voyages. The Tacoma yard has launched its twelfth boat and twelve have been put into the water at Portland. The most recent launching took place at Tacoma on Wednesday last.

**Live Wire at Head.**  
Bayly Hipkins is a live wire, and his name needs no exploitation. His achievement in bringing the Foundation yard at Tacoma to such a high point of efficiency, and the record he has established in various yards along the Pacific coast, eloquently attest his ability. Possessed of keen analytic judgment, Mr. Hipkins has become widely known for his remarkable insight into all those elements which make for perfection of organization. On July 23, 1917, when the Foundation Company started operation in Victoria after being awarded a contract for five wooden steamships by the Imperial Munitions Board, the site where the Tacoma plant now exists was completely under water.

STEAMSHIP INDIANAPOLIS

### NOTICE TO MARINERS

Canada—(151) Ship Protests—Modification of Proceedings.  
Under the authority of an Order-in-Council dated the 2nd day of July, 1913, Collector of Customs at ports of entry on the Pacific and Atlantic, including ports on the Gulf and River St. Lawrence up to and including the port of Montreal, are authorized, during the present war, to do any notarial act for the purpose of noting and extending ship protests, and are authorized to receive any statutory declarations required in connection therewith. The masters of all British ships have been instructed that no note of protest

of loss or of any occurrence whatsoever arising in respect of their ships is to be made by them in the Dominion of Canada except before a Collector of Customs.  
Collectors of Customs are instructed, when the master of a British ship reports inward and when issuing a clearance to a British ship, to direct the attention of the master of such a ship to the above requirements.  
Note: Protests by masters of British ships trading on the inland waters of Canada, or protests in respect of loss or other occurrence arising while a British ship is on any of the inland waters of Canada, do not require to be made before a Collector of Customs. In such cases the master may follow the usual and existing practice.  
For the information and guidance of Collectors before whom a master may present himself in connection with ship protests, it should be stated that a protest may be made in the first instance, or the master may desire to make a note or entry of protest only, which may later be extended to a regular protest before the same or another Collector of Customs.  
The note or entry of protest is merely a notice of the master's intention to protest, should an extended protest afterwards become necessary or advisable.  
A note or entry of protest, also a protest—if made in the first instance—should be made as soon as possible after the arrival of the ship in port. If made later than twenty-four hours after arrival, it should contain a brief statement of the cause of the delay.  
Note or entry of protest forms, protest forms, and extended protest forms, may be obtained from Collectors of Customs.  
The note or entry of protest should be made in duplicate, signed by the master and formally certified to by the Collector, and one copy retained by the Collector and one copy retained by the master and placed on file. When a protest is made or extended, the original, which may later be extended to a regular protest, and certified copies are to be given or mailed to the master and to the owner of the ship.

### BARRACOUTA SALVED FROM ALASKAN COAST

Capt. F. C. Stratford, Local Navigator, Responsible for Successful Salvage Feat  
Capt. F. C. Stratford, formerly master of the steamship Salvor, prominently identified with numerous successful salvage operations during his association with the B. C. Salvage Company, and now in the service of the Coastwise Barge & Steamship Company, has been successful in salvaging the big barge Barracouta which piled up at Cook's Inlet, near Seward, Alaska, last September.  
Information has been received here that the Barracouta was floated on Wednesday evening, and to Capt. Stratford is attributed the complete success of the salvage venture. Deeply embedded in the sand at Cook's Inlet the Barracouta presented a very difficult salvage task. The big barge was worked off the beach by means of kedge anchors after the same principle that was adopted by Capt. Stratford in connection with the remarkable salvage of the steamer Sogestrup at Ocos, on the Guatemalan coast.  
Since he left the service of the B. C. Salvage Co., Capt. Stratford has been in the employ of the Coastwise Barge & Steamship Co. as master of the steamer Amur. As owners of the Barracouta the company was fortunately enabled to avail itself of the expert services of Capt. Stratford in an effort to recover the barge which last fall broke away from her tug and drove hard ashore during an Alaska storm.  
Without the aid of a salvage vessel, Capt. Stratford assisted by a wrecking crew, has been working on the Barracouta for some time past. His efforts were crowned with success this week when the barge, practically undamaged, was got afloat.

### FRENCH STEAMERS WILL HAVE SPEED

Acting Manager of Foundation Co. Says New Vessels Will Have Twin Screws  
"We are now awaiting the arrival of the arrival of the plans and specifications for New York," said H. B. Pickering, Acting Manager of the Foundation Company's plant here, when asked this morning regarding the inauguration of the new shipbuilding programme. "We shall then be in a position to go right ahead," he added.  
The new vessels, which are twin-screw steamers of about 3,000 tons each. They will be somewhat longer than the steamers under construction here to the order of the Imperial Munitions Board, and of more shallow draft.  
The twin screws will give the vessels greater speed, which is now considered one of the main essentials. Mr. Pickering is now located at the Point Hope offices and is busily engaged in supervising the preliminary organization work.

### WAR CARIBOO IS UNDERGOING TRIALS

Product of Lyall Yard Subjected to Exhaustive Tests at Parry Bay  
The War Cariboo, fifth of the I.M.B. fleet to be completed for sea at the Orden Point Assembly plant, is to-day undergoing her trials. Providing the exhaustive tests are satisfactory the steamship will, immediately go on berth to load cargo for an offshore destination.

### THE WORLD'S BAD MAN.

In a frontier town it sometimes happens that there is no organized government, no semblance of law and order, until the "bad man" forces the rest to co-operate in self-defence. The Kaiser is the "bad man" who has compelled co-operation and organization in this world community of ours. We can thank him, if for nothing else, for the enemies he has made.—Boston Globe.

Full particulars Phone 447 and 111.

### KATORI MARU HELD IN GRIP OF DENSE FOG

N. Y. K. Liner Has Been Slowly Cruising Off Swiftsure Bank Since Yesterday  
Dense fog off the entrance to the Straits of Juan de Fuca have seriously delayed the arrival of the Nippon Yusen Kaisha liner Katori Maru from the East.  
The Katori Maru, since early yesterday morning, when she arrived off Cape Flattery, has been cruising under a slow bell off Swiftsure Bank, awaiting for an opportunity to slip inside. Fishing vessels coming in from outside the Straits report the worst fog experienced this year. Up to the time of going to press no definite word had been received by the local agents as to the position of the liner, which has been enveloped in fog for the past thirty-six hours.  
Azure blue skies and bright sunshine have been Victoria's portion throughout the day, but Capt. Noma, of the Katori Maru, was not aware of this, although but sixty odd miles away. Fog is still reported off the Cape.  
In view of the fact that the O. S. K. liner Canada Maru was wrecked under similar conditions but a few weeks ago, it can be taken for granted that no chances will be taken by the master of the Katori Maru to endanger his ship.  
Of course there is always the possibility that a rift in the mist has permitted the negotiation of the entrance and the big Japanese liner may yet reach William Head in time to pass quarantine to-day.  
The Katori Maru has aboard 107 first-class passengers and a large stevedore list. In her holds are stowed 10,000 tons of Oriental cargo, including 3,237 bales of raw silk. The silk shipment is valued at over \$3,000,000. The local cargo carried by the liner is estimated at over 1,500 tons.

### TRAVEL OVER THE GRAND TRUNK PACIFIC

Five hundred miles of ocean voyage between Victoria and Prince Rupert, thence eastward by perfect travelling accommodations and equipment through the grandeur of the Canadian Rockies.

### PRINCESS CHARLOTTE WILL RETURN HERE BEFORE LAYING UP

Vancouver, Aug. 22.—The Princess Charlotte will sail for Victoria tomorrow where she will tie up, and the steamer Princess Alice goes to Nanaimo where she will tie up. The C. P. R. tug used in the freight barge transfer business between Vancouver and Victoria—and Nanaimo and Coast sawmill points, are now tied up. Prince Rupert, now in Northern waters, will tie up on arrival. Of the Union S. S. Company's vessels the Chusina and Chilco are now at their docks. The Chelovina, due to leave to-night is still in berth, but its officers declare they will not take her out. Two other Union boats now in the North are due to tie up on arrival.

### LOVER OF NATURE

"I wish to buy a motor car horn to replace the one we now have—something distinctive," said the haughty matron.  
"Yes, my'am," replied the salesman. "Would a siren do?"  
"Dear me, no. It must be something entirely different from the ordinary motor horn."  
"But we have a siren that exactly imitates the howl of a timber wolf."  
"Ah! That ought to suit my husband. He's a great lover of nature."

# BLUE RIBBON TEA

There isn't a leaf of common tea in a ton of it, and being stronger it really is the most economical to use in your home. Blue Ribbon—British grown tea.

19

## EARLY MORNING ON THE AERODROME

By Pilot.

The scene is a big training aerodrome somewhere in England, and it is 5.5 on a chilly spring morning. The instructor on duty, having seen in haste and run half the way to his hut to the aerodrome, determined not to be late for five o'clock. He is not exactly brimming over with love for mankind, nor is he acutely aware of the beauties of nature. He is extraordinarily comfortable a minute ago. He finds no pupils in no mechanics. To say that this is a morning of the beauties of nature is a bit of a stretch. Presently the mechanics appear, headed by a pilot. The latter gives the same use for his unpunctuality as the pilot to arrive, who turns up five minutes later; they had been called late to the aerodrome. Noted for report to the instructor. The instructor climbs into a machine, the passenger's seat, whilst his pilot sits in front as pilot. The machine is of a familiar type; very comfortable and easy to fly when the line is running well and very crochety when it is not. This is one of the "mornings," just because every one wants to make up as much as possible for lost time. Slicking-in is completed, and one stands ready to swing the prop, and another looks after the hand-grenade. Contact, sir," says he with the pilot. Contact," says the pupil, turning on in and hand magnet switches. Wind," shouts the mechanic, giving a furious heave to the propeller. A starting "mag" is duly wound, everybody looks expectant and hopeful. Result—Nil. Switch off, sir. Switches are off. The performance is repeated, with same result. By the time that half mechanics have been reduced to spinning masses of suppressed propriety she will start suddenly with a maddening roar and the violent attempt to put the bus on its nose, rattled down promptly: "Cough, utter, bang! Bang, splutter, cough, sez!"

If someone is quick on the air-ports will not stop altogether. A beautiful engine, murmurs the tractor, conscious that no one can dream of that none would contract him if they could. Speaking down

the telephone he reassures the pupil: "Of course she's meant to do that in the early morning. It clears the sheep off the aerodrome." The pupil takes off. If the pupil does not choke the engine by opening the throttle too quickly she will probably leave the ground quite satisfactorily. The particular engine in question has this to be said for it. Its vices are displayed on the ground, and if it once gets you into the air it can be relied on to keep you there as long as the petrol lasts. Nor is a bad start like this to the day's work entirely a waste of time. The pupil will have learnt something about his engine and also about the merit of punctuality. The instructor may have reflected upon the foolishness of getting angry with any sort of engine. It is not from perfectly smooth, effortless flight that the novice acquires the knowledge which makes him of most value at the front—and most capable of taking care of himself and his machine in the air.

### SWATTING FLIES.

Swat! Smack! Bang! then another clout—What the devil's all the row about? It makes the old man's temper rise. When his old woman swats those flies. Sweater in hand, across the room she rushes. She cares not how the old man curses; she says no heed to warning cries. So long as she can kill those flies. A lump is on the old man's pate—(He got a whack there by mistake); She very nearly blacked his eyes. When bent on killing those poor flies. He hears that swat last thing at night. At early morn he wakes in fright. 'Tis no more sleep, he must arise. His wife has started swatting flies. She's broken cups, upset the tea; But never mind, we all agree That his "Old Dutch" should take first prize. For swatting all those cursed flies. DINGO.

### WHAT AILED WILLIE.

There was a sound of revelry by night, for the Bolognas were giving a party. Mr. Bologas was singing "This Love That Makes the World Go Round," and Master Bologas seized the opportunity to slip into the other room with his father's pipe. Shortly afterward it was apparent that Willie wasn't well. "Goodness, child!" cried his mother; "have you been smoking?" "Faint that, ma," said Willie feebly; "if it's true what pa's been singing about I must be in love." Exchange.

## Ashamed of Corns

As People Should Be—They Are So Unnecessary

The instinct is to hide a corn. And to cover the pain with a smile. For people nowadays know that a corn is passed. And that naught but neglect can account for it. It is like a torn gown which you fail to repair. Or a spot which you fail to remove. The fault lies in neglecting a few-minute duty—just as with a corn. Any corn pain can be stopped in a moment and stopped for good. Any corn can be ended quickly and completely. All that is necessary is to apply a little Blue-jay plaster. It is done in a jiffy. It means no inconvenience. Then a bit of scientific wax begins its gentle action. In two days, usually, the whole corn disappears. Some old, tough corns require a second application, but not often. Can you think of a reason for paring corns and letting them continue? Or for using harsh or messy applications? Or for changing to any old-time method which is now taboo? Or for suffering corns—for spoiling hours when millions of others escape? Can you think of a reason for not trying Blue-jay? It is a modern scientific treatment, invented by a famous chemist. It is made by a house of world-wide fame in the making of surgical dressings. It has ended corns by the tens of millions. Corns which are just like yours. It is easy and gentle and sure, and you can prove for yourself tonight. Try Blue-jay on one corn. If it does not ease, keep it by you. On future corns apply it the moment they appear. That will mean perpetual freedom. A corn which, after that, will be unknown to you.

Stops Pain Instantly Ends Corns Completely Large Packages 25c at Druggists Small package discontinued

## ALLIES CONTROL RAW MATERIALS

The Tremendous Economic Strength of Entente Powers is of Importance

(The Toronto Globe.) A tremendous preponderance in the control of the world's raw materials is held by the allied powers, and this economic weapon is one that can practically paralyze the industrial life of the Central nations of Europe. The significance of the economic strength of the Allies was appreciated to the full by the delegates to the fourth Inter-Parliamentary Commercial Conference, held in London early last month, according to information that has reached this side of the Atlantic recently. The fact that the Allies are in possession of the greater part of the raw material necessary to German industry is an advantage we can oppose usefully to our enemies' territorial annexations as the war map," declared Charles Chauvet, president of the French group of delegates. The Allies have it in their power to restrict seriously the imports and exports of Germany and her allies. The decision of the British Government to control the movement of raw materials in the interests of the Allies was the subject of discussion at this conference by Chancellor Bonar Law. The same control was demanded by the conference over manufactured and all other goods as well.

**Powerful Economic Weapon.** Statistics were presented by Eugene Bale, one of the Belgian delegates, who is secretary of the General Council, in which the economic strength of the Allies, which can be used for post-war purposes, was strikingly shown. The populations of the Allied countries at the opening of the war was 1,140,000,000, which, with the omission of Russia and Roumania, becomes 950,000,000. This compares with 160,000,000 for the German coalition. The summary of the possession of raw materials presented by M. Bale contains the following: Textiles—Wool, 1,130,000 tons for the Allies, as against 57,000 tons for the German coalition; cotton, 4,650,000 tons, against none; silk, 229,000 tons, against 16,000; flax, 1,225,000 tons, against 190,000; hemp, 913,000 tons, against none; jute, 1,482,000 tons, against none. Oil seed, 8,230,000 tons for the Allies, against 160,000 tons for the German coalition; olive, 1,245,000 tons, against none; rubber, 129,500 tons, against none. Metals—Iron ore, 164,000,000 tons for the Allies, as against 37,000,000 for the German coalition; copper, 740,000,000 tons against 29,000,000; lead, 1,000,000,000 tons, against 172,000,000; zinc, 1,513,000,000 tons, against 678,000,000; nickel, 339,000,000 tons against 14,000,000; aluminum, 829,000,000 tons, against 10,000,000; manganese, 222,000,000 tons, against 124,000,000. Petroleum, 56,000,000 tons for the Allies, against barely 30,000 tons (these figures have evidently not been subjected to the inevitable adjustments from German acquisition of Roumanian wells—after considerable destruction—and the still doubtful status of Russian works).

**Fuel and Power Resources.** Coal, 878,000,000 tons for the Allies, against 307,000,000 tons for the German coalition (these figures, which are taken from 1912, also need adjustment). The Allies on the other hand, are increasing the development of electricity from water power, in which they have the advantage. Germany's coal riches would be held, in case of victory as surety for legitimate reparation to the Allies. Food products—Leaving wheat and other cereals out of the count because of the condition of Russia, there still remains Rice, 34,000,000 tons for the Allies, as against 106,000 tons for the German coalition; coffee, 805,000 tons, against none; tea, 354,000 tons, against none; cocoa, 187,000 tons, against 6,500 tons.

**Comparative Stocks of Gold.** From the Allies' possession of raw materials compared with that of the German coalition there is but a step to their respective possession of gold metal, whether coined or not. This is quite distinct from the question of comparative credit, which internationally has to be counted in gold and, at the close of the war, will be based more than before on the actual possession of gold at home and abroad. So far as is known, the entire possession of gold by the banks of the German coalition amounts to little more than \$300,000,000, whereas the known reserve of the Allies figures at \$5,100,000,000. This takes no account of the equivalence of silver metal reserves, which is by no means to be overlooked. In the re-establishment of money exchange after the war, which is now being done, it is important to Germany as the possession of raw materials, this possession of gold will be extremely important.

### A BOLSHEVIK TRAGEDY.

Worthy of a Greek dramatist is the unfolding of the Russian revolution. Scarcely in human history has there been played on a large stage so discernible a working out of a duel between two great powers. The Bolsheviks have sought to substitute wrong for right, have by the most adroit casuistry endeavored to present the worse as the better reason, but inexorably an avenging fate has pursued them. The moral perceptions inaugurated in the human breast have seen what was behind the shifting and the turnings. As often as masks have been fitted they have been torn away. The final one—that the abominable things done have been to advance the cause of socialism—is now broken. The most dangerous enemies of socialism are not capitalists, or doctrinaire opponents, but men who used power for the first time placed in socialist hands to help the imperialistic and capitalistic German Kaiser. Did they know what they were doing? They did. The truth was shouted at them in Russia by the outside world—New York Globe.

### A MYSTERY EXPLAINED.

"What's become of your old friend the Sea Serpent?" asked a vacationist at the beach. "Has he been frightened off by the submarines?" "Guess not," returned the hotel manager. "I rather think he's sore over our treatment of him. Last time he was here we chased him off the coast. You see he caused so many men to sign the pledge that he was killing our bar business."

## THE TRAGI-COMEDY OF HERR THYSSEN

From The Christian Science Monitor.

At a moment when every conceivable thing that can be imagined is being done to enable Germany to escape the penalty of first provoking the war and then fighting it with an utter disregard for the law of nations or the dictates of humanity, it is doubtful if too much can be said of the nature of original offences. Pacifists and pacifist Socialists all round the world seem, for reasons not at all unfathomable, to have thrown their aciegs before the modern Attila, and to be engaged in endeavoring to prove that Germany's entrance into the war was due quite as much to allied diplomacy as to the teachings of Kultur. Men like Mr. Ramsey MacDonald, in England, have preached this doctrine from a hundred platforms, and have left the world very little to choose between Dr. von Bethmann-Hollweg and Lord Grey, between General von Moltke and Monsieur Poincare, or between the Kaiser and the Czar. It is probably very little use appealing to the political wisdom and the mental perversity which has produced this point of view. But it is perfectly worth while to disclose to the public some of the things which seem to make no impression on the defeatist elements in the allied and neutrals' countries. In such an effort it may be necessary to refer not to new discoveries but to ascertained facts; and it is certainly wise to call witnesses the spokesmen of Central Europe rather than those of the allied nations. Now of all men in the world there is not one who has exposed the iniquities of Kultur with greater thoroughness than Herr August Thyssen, the Iron King of Germany.

In order, however, to understand such a man as Herr Thyssen's revelations it is necessary to know something of Herr Thyssen himself. Herr Thyssen, be it said then, is a man whom it is common to call the captain-general of industrial Germany. What Alfred Ballin has done for its merchant fleet, what Arthur von Gwinner has done for its finances, what Emil Rathenau has done for its engineering, that, and all of that, August Thyssen has done for its steel, iron and coal trade. Half a century ago Herr Thyssen built, with a capital of 24,000 marks, a single rolling mill. To-day, the Rheinisch-Westphalian Steel and Iron Works, the British Coal Syndicate cover the world with their wharves and their shipping, their mines, their warehouses and their iron works. Herr Thyssen, in short, in the days past has done for Germany what Napoleon did for France, and what the Kaiser did for Germany. His ships embarked the iron from the Westphalian mines and rolled mill and blast furnaces, in conquered Lorraine, for all parts of the world. At Nikolaieff, on the Black Sea, were his docks and warehouses. In Brazil, in one hemisphere, and in the other, were the wharves and the docks to which his own ships brought the exports from his own Germany. On the very eve of the war he had even laid his hand upon the mines of the United States. In doing all this he was, of course, playing a great game which he enjoyed, for he had taken as his motto the words, "If I rest, I rust." But behind all this he had another end in view. He was one of the millionaire internationalist traders and financiers, all of whom intended to make a new world industrial heaven and earth in which the worker would obey the foreman as the private obey the sergeant; whilst among those members of this international band who were Germans there was the further intention of hoisting the black, white and red flag over a modern empire which was to reduce that of Alexander or of Genghis Khan, of Sulaiman or of Akbar, of Philip or of Napoleon to insignificant anachronisms. He was to be the successor of the Sardinia, of Moorsheadabad or even the fabled wealth of Aladdin's cave.

It might have been imagined that such success as he had achieved would have been enough for Herr Thyssen. But, as President Wilson pointed out, in a famous speech, the legitimate triumphs of Germany in the fields of commerce, of natural science and of art were not enough. The morality of the whole nation had been so debauched by the teachings of Kultur that it was open to any proposal, no matter how villainous. Such a proposal showing, to himself, and made, no less than two years before the war broke out, by the Kaiser himself. In the year 1912 the Hohenzollerns, having come to the conclusion that a continuation of peace would be fatal to the military machine, determined to embark on a great war of conquest. In order to be successful in this, however, it was necessary that they should have the whole-hearted cooperation of the commercial community. In consequence of this a series of conferences was held between the Chancellor, Dr. von Bethmann-Hollweg, and the great captains of commerce and finance. Amongst the first to be approached was necessarily the Iron King, with the result that an offer of 30,000 acres in Australia, and a loan from the Deutsche Bank of 3,000,000 marks, at 3 per cent., to enable him to develop this Australian property, was made to Herr Thyssen. At the same time, Herr Thyssen cynically explains, a syndicate of twelve great firms was formed for the exploitation of Canada. The capital of this syndicate was fixed at 100,000,000 marks, half of which was to be found by the German Government. In addition to this, great projects were undertaken, which were to effect upon the conquest of England. The promoters of the Suez Canal, Italy, had been given the choicest estates along the Nile, with the result that travelers to this day have their attention attracted by the mansions which have already grown up between the Bosphorus and the Cilician Gates and between these and the capital of Haroun-al-Raschid. In England these mansions had been built for the German superman empires. There were Chatworth and Longlet, Badminton and Knowle, all waiting for German princes, viceroys and field-marshal.

When this idea was first put to Herr Thyssen he felt somewhat doubtful as to the soundness of the speculation. In other words he, from the very first, doubted the security. He allowed himself, however, to be persuaded as against his will at one of the select gatherings, held in 1912 and 1913, to listen to the Kaiser himself pouring out in the most "flowery" language the schemes of the German High Command for the new empire. Over the prospect of the conquest of India, the Kaiser, according to Herr Thyssen, was peculiarly enthusiastic.

"India," he exclaimed, "is occupied by the British. It is in a way governed by the British, but it is by no means completely governed by them. We shall not merely occupy India. We shall conquer it, and the vast revenues

# Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. B. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KIMBLE, 935 West Race Street, Portland, Ind.

Every Sick Woman Should Try

## LYDIA E. PINKHAM'S VEGETABLE COMPOUND

LYDIA E. PINKHAM MEDICINE CO. LYNN, MASS.

the advance from the Deutsche Bank, the Indian Princes will, after our conquest, flow in a golden stream into the Fatherland. In all the richest lands of the earth the German flag shall fly over every other flag. I am making you no promises that cannot be redeemed, and they shall be redeemed if you are now prepared to make the sacrifices which are necessary to secure the position that our country must and shall occupy in the world. He who refuses to help is a traitor to the Fatherland; he who helps willingly and generously will have this rich reward."

So, at the voice of the tempter, Herr August exchanged the doubting spirit of Thomas for the avarice of Kasim Baba.

Unfortunately for Herr Thyssen, this was not the end of it. The victory of the whole earth was to have been won in December, 1915. But in December, 1916, the Chancellor began to have a new series of interviews with the shareholders in Germany, "place in the sun." Guarantees were asked from seventy-five of the leading business men for 4,000,000,000 marks for the next war loan. Herr Thyssen had been put down for 4,000,000 marks, or considerably more than that promised lit-

## Between the children & the sun stands Mennen's TALCUM POWDER

HAPPY summer hours spent in open air on sands or in meadow are healthful hours for children, if sunburn doesn't spoil the fun. Sunburn with children is especially painful. You can prevent it by generous use of Mennen's on their faces, legs and arms before they run out of doors in the morning.

# MENNEN'S TALCUM POWDERS

(now in the large-size economical tins) include a variety of perfume, color and package to suit every personal need. There's the original Borated—also Violet, Flesh Tint, Cream, Pine—each charmingly perfumed. There is also the new Mennen's Talcum for Men—neutral in tint—delightful for shave or bath.

All have the original Mennen's Borated formula which has never been bettered.

The Other Mennen Family—

- Shaving Cream
- Dentifrice
- San-Yang Talcum
- Unscented Talcum
- Mennen's Baby Soap
- Cold Cream
- Tag Shampooing Cream
- Ruvia

For more serious skin abrasions—severe chafing and other skin soreness—for adults as well as children—use

## MENNEN'S KORA-KONIA

It has similar soothing action to Talcum but in addition contains several ingredients of recognized medicinal value.

SKILLED WORKERS IN SHIPYARDS IN STATES ASK HIGHER PAY. Washington, Aug. 23.—Skilled workers in the shipbuilding industry of the United States have presented "frivolous demands" to the labor adjustment board...

Washington, Aug. 23.—Fuel Administrator Garfield will not approve a wage increase for coal miners, if it is not accompanied by a reduction in the price of coal...

Washington, Aug. 23.—The Senate today passed a bill to extend the army draft ages. The terms outlined include complete restoration of Russia from unconditional return of Alsace-Lorraine to France and of Italy Irredenta to Italy...

San Francisco, Aug. 23.—All highway, road and street work, except that necessary for war purposes, in all states west of the Rocky Mountains is to be stopped in thirty days in the interests of fuel conservation...

San Francisco, Aug. 23.—Thomas J. Mooney will appeal at once to the United States Supreme Court for a reversal of his conviction for murder in connection with a bomb explosion here, officials of the International Workers' Defence League have announced.

Ottawa, Aug. 23.—Helen Higgins, of Ottawa, formerly an employee of the estates branch of the Department of Militia, was sentenced to two years in the Mercer reformatory on each of four charges of forging endorsement to Militia Department cheques, to which she pleaded guilty.

Although the Central Powers need money, the cheques on the banks of France and the Allies were not welcomed.

Sun Burned Skin. You want a healthy summer tan. But sometimes you get it too quickly and then there is a few days of suffering. The application of Dr. Chase's Ointment takes out the stinging and burning and leaves the skin delightfully soft and smooth.

Why Your Savings Are Needed Too. Do not hesitate to open a savings account with us because you can save only a little money. It is the hundreds of savings accounts, small and large, that enable Banks to lend large sums to the Government for the prosecution of the war.

LODGE GIVES WARNING IN U. S. SENATE AGAINST GERMAN PROPAGANDA. Washington, Aug. 23.—An earnest warning against "insidious and poisonous" German peace propaganda and a declaration that peace must be dictated to and not negotiated with Germany to place her in a position where she never again can disturb the world's peace...

Washington, Aug. 23.—An earnest warning against "insidious and poisonous" German peace propaganda and a declaration that peace must be dictated to and not negotiated with Germany to place her in a position where she never again can disturb the world's peace...

Peace terms which must and will be forced on Germany were especially detailed by Senator Lodge in addressing the Senate today in support of the man-power bill to extend the army draft ages. The terms outlined include complete restoration of Russia from unconditional return of Alsace-Lorraine to France and of Italy Irredenta to Italy...

Dictated Peace. "These are the principal conditions," he said, "which will give a victory worth having. No peace that would satisfy Germany could ever satisfy us. It cannot be a negotiated peace. It must be a dictated peace, and we and our allies must dictate it."

Safe for Democracy. "But what is a just and righteous peace? We intend to make the world safe for democracy. But what exactly do we mean by democracy? It is the democracy of the United States and the United States, we can all understand, is the only democracy in the world."

MAN-POWER BILL IN AMERICAN SENATE. Washington, Aug. 23.—General debate in the Senate on the Man-power Bill closed unexpectedly late today, and Chairman Chamberlain, of the Military Committee, proceeded with formal consideration of the measure with the Committee's amendments having precedence.

LIEUT. THAW KILLED. With the American Army in France, Aug. 22.—Via London, Aug. 23.—Lieut. Elmer Thaw, of Pittsburg, a member of the American aviation service, was killed Sunday evening, when his aeroplane fell as a result of engine trouble.

MEAT AT BUENO AYRES. Buenos Ayres, Aug. 23.—The municipal authorities on Buenos Ayres have taken over the supervision of the sale of meat to the public. This step was ordered by President Irigoyen in an effort to combat the high price of meat.

At Penticton on Okanagan Lake there is reported to be 190 tons of fruit waiting shipment, and there are various important fruit shipping centres on the Arrow and Kootenay Lakes which will have their output blocked.

ALLIES DETERMINED, DECLARES DORDEN. Back From England, He Says Spirit of Allies Most Resolute

An Atlantic Port, Aug. 23.—After his arrival here from England today Sir Robert Dorden gave the following statement to the Canadian Press: "I was on the other side of the Atlantic for ten weeks and I return with the conviction that never was the spirit of the Allied nations more steadfast or more resolute than at present."

London, Aug. 23.—Lord Robert Cecil, Under-Secretary for Foreign Affairs, announced this evening that reports had been received in London to the effect that the Czech-Slovak forces in Trans-Baikalia had captured the town of Berchnidinsk, south of Lake Baikal, and had achieved a decided victory against the Bolsheviki forces.

ITALIANS REPULSE AN ENEMY ATTACK ALBANIAN FIELD. Haig's Forces Drive Forward; Importance of Advance is Great

Rome, Aug. 23.—Forces of the Central Powers attacked the advanced lines of the Italians from the lower Monastir to the heights of Maltomora, in Albania, it was announced today by the Italian War Office. The attack was repulsed by the Italians.

London, Aug. 23.—News from the zone of the great struggle in France indicates that the British have plunged deep into the vital positions held by the Germans as a protection to their right flank.

The exact line as it now stands cannot be given, but some of the towns inside of the positions where the Germans stood yesterday, and the greatest advance is said to be two miles.

When it is realized that the fighting on this front is along the lines which were strongly entrenched by the Germans and held by them until the great British offensive before Albert in 1916, the importance of the advance made today is appreciated.

FINANCIAL STATEMENT OF THE GRAIN BOARD. Winnipeg, Aug. 23.—The financial statement of the Board of Grain Supervisors for Canada from the date of its creation in July, 1917, until July 31 last, shows that the Board begins the new fiscal year with a surplus of more than \$1,000,000, and that the receipts during the last year amounted to \$6,000,000, of which \$2,500,000 was returned to the Imperial authorities...

French Get Across the Oise River, East of Town of Noyon

Paris, Aug. 23.—French troops have crossed the Oise River and the canal at Manicamp, eight miles east of Noyon, and are in the outskirts of the village of Morlan-court, on the north side of the Oise, a mile and a half from Noyon station, according to dispatches to newspapers here.

CZECHO-SLOVAKS IN TRANS-BAIKALIA WIN OVER BOLSHEVIKI

London, Aug. 23.—Lord Robert Cecil, Under-Secretary for Foreign Affairs, announced this evening that reports had been received in London to the effect that the Czech-Slovak forces in Trans-Baikalia had captured the town of Berchnidinsk, south of Lake Baikal, and had achieved a decided victory against the Bolsheviki forces.

KAISERIN IS ILL, THE CAUSE GIVEN BEING OVER-WORK

Amsterdam, Aug. 23.—The German Kaiserin is ill at Castle Wilhelmhoe, Hees-Canal, the Lokal-Anzeiger, of Berlin, says, owing to over-strain from her war relief work. Physicians in attendance promise her full recovery within a few weeks.

SHIPS AT MONTEVIDEO LOADED BY SOLDIERS

Montevideo, Aug. 23.—The long paralysis of port activities here has been broken by the Government putting soldiers to work loading vessels. This action was taken after a striking workmen had refused to obey a Government order to return to work.

FOUR U. S. NAVAL MEN WERE KILLED BY DEPTH CHARGE

Washington, Aug. 23.—The explosion of a depth charge on board the American naval ship Orizaba at sea on August 17 killed Lieut.-Commander Brooks, and three enlisted men and three enlisted men and three enlisted men.

WOMEN MUNITION WORKERS IN BRITAIN GET HIGHER PAY

London, Aug. 23.—The Ministry of Munitions has ordered that the wages of women munition workers be increased five shillings after September 1. Girls under eighteen in munitions plants will receive an increase of half a crown.

CHICAGO GRAINS BREAK ON GOOD WAR NEWS

Chicago, Aug. 23.—The good war news was the factor which received the most attention here today. Everyone appeared to have grain to sell. To add to the comfortable position of the bulls, receipts were larger than for some time. The market was also in a technically weak position after the recent rise.

### ENTERTAINMENT AT RESTHAVEN HOSPITAL

Tuesday Evening Gathering Was Heartily Enjoyed; Moving Pictures

Military Y. M. C. A. entertainments are the only form of entertainment regularly conducted by any agency at Resthaven Hospital—so quietly nestled on its island home some twenty-two miles from Victoria. No wonder, then, that the large hall at the Resthaven Military Hospital was crowded with convalescent soldiers at the weekly picture show and concert arranged by the Military Department of the Y. M. C. A. And not only soldiers and the nursing staff, but many nearby friends flocked to attend this Tuesday evening "treat." Besides the hospital and its cheery inmates, its courteous staff and excellent equipment, a visitor is attracted by the beauty of the grounds and the picturesque variety of quaint land and water scenes. One may also find interest and satisfaction in a visit to the vocational school, where men are trained in bookbinding, sign-making and model-making workshops for various trades and professions.

A Moving Picture Show: This week, instead of the usual serial picture provided by the Pathe Exchange, a vividly illustrated series of topical films supplied to the Military Y. M. C. A. by the Ford Motor Company were exhibited. This enterprising company has created another useful channel for its many activities in an endeavor to make Canadian life and work, scenery and industry, more widely known and advertised. The photography was of a high order and the practical value of the films was fully appreciated by the Resthaven audience. The reels shown included "The Story of a Whelan of a Whelan tracing its course from the preparation of prairie soil to a baker's delivery at an Eastern city residence, and "The making of a Canadian Magazine" beginning with a river and pulp-mill scene in Quebec and concluding with the finished product ready for mailing across the continent. Films of Indian life and hunting, the work of Dominion fish hatcheries and various events of current interest were also displayed, with humorous caricatures interspersed at appropriate intervals. The adventures of the circus elephant "Mabel" evoked roars of laughter, and all would agree with the title of another film that "Broncho busting is real sport!" Great satisfaction was expressed with the new screen, furnished through the generosity of the Great War-Next-of-Kin Association, and due appreciation was also given to the operator of the lantern, H. G. Estabrook, military work secretary of the Y. M. C. A., who in conjunction with the Military Service Committee, is directly responsible for these weekly entertainments. Similar arrangements have been successfully conducted at the Dominion Hospital, both centres enjoying the benefits of this service rendered weekly without interruption since April last.

Musical Programme: The vocal and instrumental programme at this week's visit to Resthaven was provided by the Misses Bell, of Victoria, and Miss Morley, of Sidney. Miss Winifred Bell's clear, sweet voice was heard to good advantage in her sympathetic interpretation of several inspiring songs, including "In an Old-Fashioned Town," "I Hear a Thrush at Eve" and "The Beat of a Passionate Heart." Each brought the talented vocalist a chorus of approval and applause. Miss E. Bell, who accompanied her sister and contributed effectively to the evening's music. While the pictures were being displayed Miss Morley proved an accomplished and versatile pianist. Her services in this respect were gratefully recognized.

Citizens Help: It was announced that next Tuesday's programme would include a serial film now being shown in a Vancouver theatre. Due acknowledgment was made of the valued and highly appreciated contribution on the part of Victoria's talented musicians who accompany the military work secretary on the weekly trip of the Red Triangle car, thus affording the Resthaven soldiers and nurses a variety of programme and providing a pleasant diversion from the routine of hospital life which is always welcomed.

The Weekly Round: Following the scheduled plans, Wednesday evening the moving picture machine was engaged at the Y. M. C. A. in the Willows Camp, where about two hundred men passed a couple of hours happily on a rainy night. Yesterday morning Mr. Estabrook left for Qualicum, and on his return to the city evening will conduct a similar entertainment for men of the navy in the Sailors' Home at Esquimalt.
