Announcement

ON December 1, 1891 (10 years ago) in the small building illustrated on the next page, we began the business of Seedsmen, our purposes and plans were, that we should permit nothing to reach our customers but what by "test was best;" that principle well planted, took firm root, germinated, budded and blossomed, until now, in the fullness of time it has spread like the bay tree—occupying on Philadelphia's main business thoroughfare (Market Street), a handsome, five-story building extending in depth 190 feet (or over a half city block) to Ludlow

Street, covering a floor space of over 22,800 square feet, where are erected our very large warehouses. In this building furnished with every facility for the careful and rapid transaction of our business, are arranged our various departments. On the first floor are our salesrooms and offices and also our mail order department; here we have every twentieth century convenience for the prompt facilitating of our business; telegraph, long distance telephone and the railroad and shipping conveniences of the world right at our doors. On the other floors are the departments for the reception and inspection of all our goods. We show herewith a very small section of the various floors, the immense depth of the building precluding the possibility of our showing more in the illustration; in this magnificent mercantile house we are ready to begin the twentieth century in competition with America's largest seedsmen and with the assurance of a continuance of the foundation principle upon which this business has been built—"absolute security of our goods and prompt attention to our customer's wants," we feel a measure of safety in looking forward to a continuance of that patronage so liberally bestowed upon us by a discriminating and appreciative community.

NOVELTIES IN SEEDS OF EXTRAORDINARY MERIT

NEW ASTER

King
Humbert

PURE WHITE

NEW
MAMMOTH
ASTER

"King Humbert"

IN this beautiful novelty the acme of perfection in large-blooming dwarf Comet Asters has been attained. The plants form compact bushes and bear magnificent globular pure white flowers of the genuine long-petalled Comet type, but of extraordinary size, sometimes surpassing 5 inches in diameter. It is extremely seldom that any of these flowers show a yellow centre, a fault often found with the old Giant Comet Asters. Will be unsurpassed in value as a pot-blooming, also garden Aster.

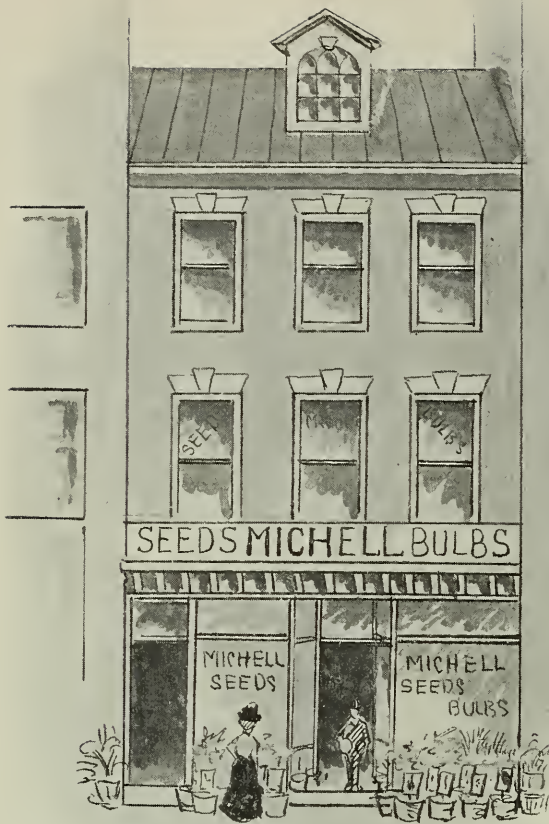

No. 1120.
25c. per packet.
5 packets for \$1.00.

MIGNONETTE "BISMARCK"

NOTHING can surpass the vigour and robustness of the plant, and the immense size of the flowers, which attain twice the diameter of Machet and are of pyramidal shape. Every part of the plant partakes of that sturdy strength superior to anything known in Mignonette, even the dark green, crimped foliage. "Bismarck" Mignonette comes quite true from seed. Of most imposing appearance with delicious fragrance, it is the beau-ideal of an ornament for the table, the window, and the garden. No. 639—15c. per packet; 4 packets for 50c.

New Monster...
Flowering Carnation

“Prosperity or 666”

THE LARGEST SIZE FLOWERS
EVER INTRODUCED

At the Buffalo, N. Y., meeting of the American Carnation Society, February, 1900, it was awarded **The Lawson Gold Medal**, offered for best 100 blooms of any variety.

ITS HABIT is nearest to the ideal yet produced. It makes no useless grass, but goes straight up to bloom. Its strength is marked by very heavy foliage, a stiff and upright grower, not soft and brittle, but hard and wiry.

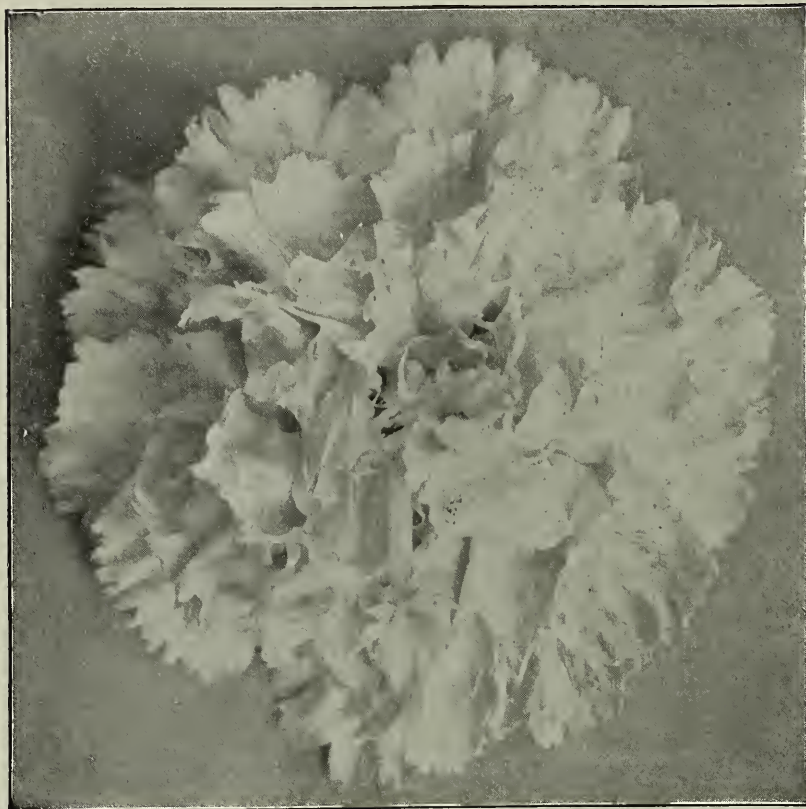

THE HEALTH of this variety is unsurpassed by any other, not being subject to any of the diseases that attack Carnations, and altogether it is a clean, healthful, and exceptionally strong grower.

THE BLOOMING QUALITIES are free and marvelous, considering that the flowers reach four inches in diameter.

SIZE OF BLOOM. We modestly claim that No. 666 is the **largest perfect Carnation** ever offered, as regards size, calyx and stem. Unlike most varieties that give a few large blooms, this variety produces all large flowers, regardless of size of wood, even side shoots give large flowers, and at all seasons of the year.

Orders booked now, and filled in rotation. Deliveries to begin March 1, 1901.

New Carnation “Queen Louise” (Dillon)

Considered now to be the best pure white variety on the market. Per doz. \$2.00; \$3.00 per 25; \$10.00 per 100.

New Carnation “Dorothy”

One of the best commercial pink varieties recently introduced. We have watched this for three years and think that probably it has no equal. It is a bright pure pink about the shade of Scott, produces as freely as Scott, has no equal in keeping and traveling qualities. The flower is larger than Scott, finely formed and nicely serated. \$2.00 doz.; 25 for \$3.00; \$10.00 per 100; \$75.00 per 1000.

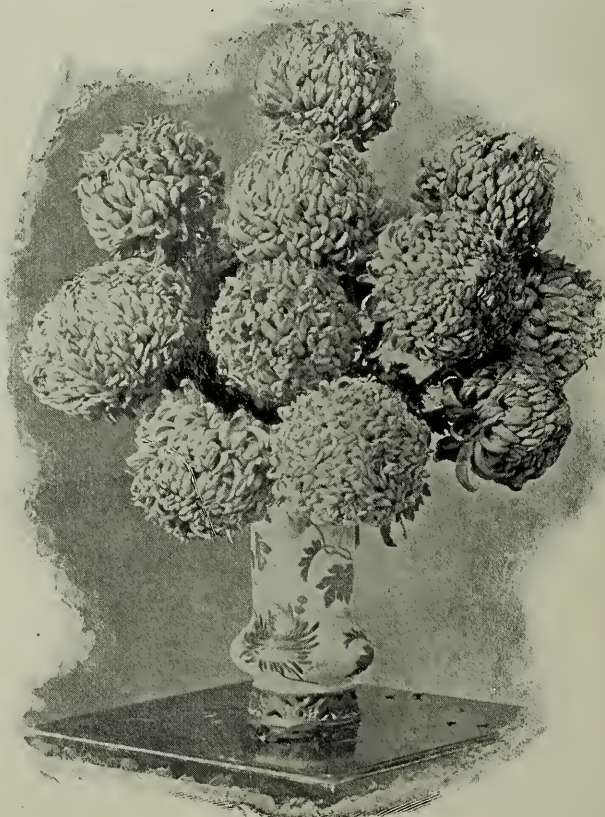

The New Sectional
Prize-Winning Chrysanthemum

“Timothy Eaton”

The largest pure white variety now in existence. Secured all the **cups, medals and first prizes** wherever shown. **READY APRIL 1st.** 50c. each; per doz. \$5.00; \$30.00 per 100.

New Chrysanthemum, “Col. D. Appleton”

The finest yellow variety now on the market. Every gardener who wishes the best, must have “**Timothy Eaton**” and “**Col. D. Appleton**” in his collection. 25c. ea.; \$2.50 doz.; \$15.00 per 100.

THE NEW **Pink American Beauty Rose**

"QUEEN OF EDGELY"

ENTIRELY new and distinct. The color is a RICH PINK. A strong, healthy grower, produces the choicest flowers on very long, stiff stems. Was awarded the Silver Medal by the Pennsylvania Horticultural Society, the Massachusetts Horticultural Society and the American Institute of New York. Rose growers cannot afford to be without this GOOD NEW ROSE. READY APRIL 1ST.

New Rose "Robert Scott"

THIS NEW ROSE is practically an Ever-blooming Hybrid, and the first of a type that will not only flower profusely during the spring and summer, but will flower during the winter. The habit of growth is strong and vigorous, with bright green foliage. The buds are of large size, and are produced on stiff stems. The open flower is of immense size, very double. The color is clear, rosy pink, shading to flesh color on the outer petals. "Robert Scott" will not only be a very welcome addition to our small list of forcing roses, but is everybody's rose. Awarded honors

wherever shown. Certificate of Merit and Silver Medal by Pennsylvania Horticultural Society. Preliminary Certificate of Merit by American Rose Society. Intending planters should place their orders at once. We offer both grafted and own root plants for March and April delivery.

The New Rose "Sunrise"

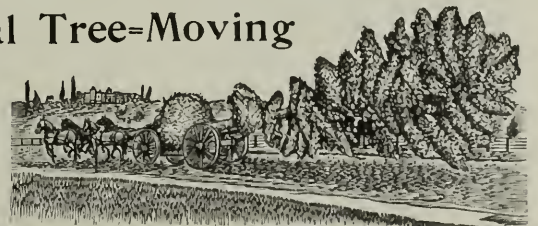

THE MOST GORGEOUS ROSE of its class yet introduced. This has made a sensation in England and taken first honors wherever shown. In close bud form it shows the high, brilliant colors seen only in the Austrian Copper, scarlet and yellow. As it opens the color deepens, the scarlet turning darker red, the yellow to orange and copper, the inside of the petal golden yellow. The open Rose is large, perfectly double and of grand form. The foliage is glossy and thick, the new growths being the darkest and most beautiful found among roses. The form and color of bud, its freedom of growth and bloom will give Sunrise a high place among forcing Roses. A novelty is earnestly wished for by cut-flower growers and here is a novelty of the highest quality. 50c. each: per doz. \$5.00.

New Rose "Killarney"

A LOVELY AND DISTINCT VARIETY of great merit. Flesh shaded white, suffused pale pink. Buds long and pointed, opening out to large, beautifully colored flowers. 50c. each; per doz. \$5.00.

Special Tree-Moving

This illustration represents the patent Tree Lifter. We are now prepared to Transplant Trees

from one inch to ten inches in diameter and guarantee same to grow by this new process. You will not have to wait a lifetime to have large shade trees on your lawn. Estimates furnished for moving and transplanting, also for furnishing trees. All our trees, whether large or small, are root pruned as well as top pruned, which insures their success when transplanted.

A FEW GOOD HOUSE PLANTS

Sweet Malabar Vine

Asparagus Sprengeri

Lotus-Coral Gem

Variegated Passiflora

Lotus-Coral Gem. Nothing prettier under the sun for a hanging basket. Delicate silvery green feathery foliage, drooping in a most graceful manner, and, when in flower, a grand sight, the brilliant, dazzling crimson buds resembling some quaint orchid. Pretty, whether in bloom or not. Price 15 cents.

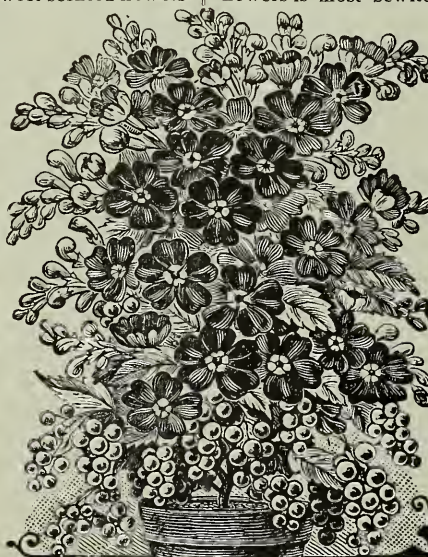

Asparagus Sprengeri or Parlor Fern. Next to the Boston Fern no other house plant is more popular to-day, its feathery foliage of lively emerald green droops 4 to 5 feet below the pot. It is elegant for cutting and arranging with flowers. The thousands of little white sweet scented flowers are followed by bright scarlet berries as large as peas. Plants at 15 cts., 30 cts., 50 cts., \$1.00 up to \$5.00. Seed 10 cts. per pkt.

Sweet Malabar Vine. This is a gem of many colors, exceedingly rare and beautiful, which should not be mistaken for the common vinca. The leaves are thick and fleshy, creamy white, edged with pink and blotched with gray and emerald green. Its tiny flowers of yellow and red are very graceful. With age it assumes a drooping habit. When cut keeps fresh for weeks; of easiest growth. 20 cents.

The Sago Palm

Sago Palms or Cycas Revoluta. Everyone admires the Sago Palm; its graceful curving leathery leaves remain on the plant for years. Small plants are fine for table decoration, larger ones for the porch or lawn. Prices for nice plants, 50c., 75c., \$1.00, \$5.00 and even up to \$50.00. Everyone ought to have a Cycas, you can't kill it.

Durenta, Golden Dew Drop

The Washington Palm. One of the finest palms known, and rarely found near Philadelphia. From the broad leaves long white silvery threads droop gracefully. Small plants 35 cents, larger 50 cents and \$1.00. Seed 10 cents.

Golden Dew Drop, (Duranta Plumieri.) A handsome evergreen pot plant as may be seen, bearing dense racemes of lovely delicate blue flowers with a white eye. These are followed by clusters of shining golden berries which remain on the plant for six months. The contrast between the berries and flowers is most bewitching indeed. A fine plant with bright green foliage, always full and clean to the edge of the pot. Fine plants 25 cents. Smaller 15 cents. Seed 10c.

The Grand Variegated Passion Flower. There is scarcely anything more gorgeous under the sun than this handsome scarlet Passion flower which when open measures fully 16 inches around, and very fragrant. The leaves, 6 to 8 inches long, are beautifully blotched with yellow. One of the finest and rarest plants we have. 30 cents each. 6 other Passion flowers all distinct 15 cents each.

The Life Plant or Bryophyllum. A curious plant from the Philippine Islands. If well grown attains 3 or 4 feet in height surmounted by an immense cluster of flowers difficult to describe. The leaves are fleshy and can be cut off, pinned to a wall or laid in a saucer, when from each notch small plants will appear. 20c.

The Life Plant

The New Daisy Rose Snowflake. A new American Rose now offered for the first time. The small very double pure white fragrant flowers remind one of a double daisy. They are borne in clusters of 25 to 50, and on plants not higher than 6 or 8 inches. So pretty are they that they have been used repeatedly of late by prominent florists for dinner decorations and weddings. The cluster if cut when in bud open beautifully and remains fresh for a week or more. In the garden it seldom exceeds 8 inches in height forming a broad spreading little bush. It is perfectly hardy. Plants from 2 1/2 inch pots 25 cents 3 for 60 cents., \$2.00 for 12.

New White Caryopteris. In addition to the Blue Caryopteris now so popular as a fall bloomer we have now the white flowering sort, the contrast between these is very striking. Both are hardy, white or blue. 15 cents each.

New Incarvillea Delavayi. This fine new introduction from China bears immense Gloxinia-like flowers, the foliage is also very ornamental, very hardy. 35 cents.

Salpichroa Rhombodeia. (Pampas Lily of the Valley.) A rapid growing hardy creeper or climber with dense fleshy foliage. It bears white sweet scented Lily of the Valley like flowers followed by Ivory white edible fruits. Very pretty. 25 cents.

New Salvia Glory of Stuttgart. The brightest, finest and earliest of all the scarlet sages. Should be grown in quantity. 15 cents. \$1.25 per 12.

New Queen of Abyssinia, (Kalanchoe Marmorata,) a fleshy silvery leaved plant soon forming grand specimens which bear clusters of pure white sweet scented flowers a foot in diameter. Fine plants 30 cents.

New Ageratum Stella Guernei. By far the dwarfiest, brightest and most profuse bloomer, almost sky blue, flowers last a week when cut. 15c. each; per doz. \$1.50.

New American Wonder Lemon. When only two years old this wonderful plant bears Lemons weighing as much as 2 1/2 pounds!! This may appear exaggerate but the fact has been sworn to. It has created quite a sensation. Plants 25 cents, 50 cents, \$1.00 and up to \$5.00.

Sansevieria Zeylanica. A grand variegated leaved plant of the strongest endurance sending forth long upright leaves marbled crosswise with grey and green. One of the best room plants known. 25 cents to \$1.00.

Ipomea Palmata. The most luxuriant tuberous rooted climbing vine known. A single root has produced over 5000 large rosy purple flowers of largest size and in dense clusters. The roots must be taken up in the fall. It can also be grown in large pots, and trained along porches or verandas. Plants 20 cents, very strong roots 30 cents, 4 for \$1.00.

Amaryllis. Veitches strain produces bulbs bearing 3 to 4 spikes with 4 to 5 flowers each, and bulbs frequently sell at \$10.00 each. Seed 10 and 25 cents per pkt.

New Fragrant Pink—Astilbe Chinense

GLORY OF THE BUTTERFLIES

Buddleia Variabilis is a grand new Chinese garden plant, recently exhibited at Paris, where it was greatly admired. It has done wonderfully well in this country, standing without harm a temperature of nearly zero. The plants have a graceful habit, the branches being arching and wavy, showing to great advantage the dark olive green and white leaves. It commences to bloom early in June and positively continues until severe frost checks the growth. The color of the flowers is a rosy lilac with orange center carried in sprays 18 inches long. So powerful is the fragrance that it attracts bees and butterflies by the hundreds, hence the name bestowed upon it; also a fine pot plant. Young plants 20c. each, \$2.00 per doz; field grown 35c. each, 3 for \$1.00, \$3.50 per doz. From seed it blooms in 3 months indoors. Seed 10c. per pkt.

THE FAMOUS CHINESE KUDZU;

OR "JACK-AND-THE-BEAN-STALK-VINE"

Watch it grow. "It is a veritable Jack and the Bean Stalk Vine."—A. H. Olmsted, Esq. "There is possibly nothing like it in the whole vegetable kingdom. It is extremely valuable for covering everything in one season, and interesting to the lover of the wonderful. It has grown on our grounds since 1876 and has made a growth of 100 feet in one season. The stiff racemes of rosy purple flowers are beautiful. The flowers soon make themselves known by a delightful odor that is wafted to long distances.—Mr. Thomas Meehan, in *Meehan's Monthly*.

When the two greatest horticultural authorities in the United States speak so enthusiastically about a plant we may well recommend it. Indeed, the phenomenal growth of this new, hardy Chinese vine is exceeded only by the prototype of the fairy tales. Plant it in any soil, rich or poor, and in 3 months, when established it will make more

New Deutzia Lemoinei.—Compacta

NEW PINK ASTILBE CHINENSE

This new Astilbe resembles in some respects the well known *Spiraea Astilboides*, but is finer, larger and harder in every way. In the garden it bears sprays several feet long of delicate rosy flowers with the most lasting and agreeable fragrance, keeping well in water for two weeks. It soon produces large dense clumps that can be multiplied rapidly. In fact it was introduced only two years ago by Mr. Lemoine at \$2.00 each and is already offered now at popular prices. It forces as readily as any spiraea. Roots 20c., 3 for 50c., 12 for \$1.50.

THREE NEW DEUTZIAS

No garden is complete without the Deutzias and the old forms were indeed very popular. Since Mr. Lemoine made these his hobby several new sorts have been put forward. His latest and best are undoubtedly the following: **New Deutzia Lemoinei Compacta**—The dwarfest and perhaps finest of all Deutzias especially for forcing. Flowers of the purest white, borne in dense corymbs and lasting for a long time. Young plants from pots 25c., 3 for 60c. **New Deutzia Corymbiflora**.—A larger and

Little Darling or 1000 Blossoms

stronger grower than the above. Immense balls of snow white flowers bend down the gracefully arched branches so as to completely cover the plant as if it were a mound of snow. This is positively the finest of all the Deutzias and is sure to become very popular as soon as better known. Young plants from pots 25c., 3 for 60c. **Deutzia Lemoinei**—A grand sort preferred by some owing to its medium size growth, being just intermediate with the two preceding sorts. The flowers are very large, fully double the size of the old D. Gracilis. It will undoubtedly be grown by thousands. 15c. each. These 3 new Deutzias for 50c.

NEW ROSE "LITTLE DARLING" OR 1000 BLOSSOMS

A grand new ever-blooming rose, the first to bloom in the garden, the last to blossom in the fall—a real Christmas Rose. This grand new German Rose "Kleiner Liebling" is at this writing, Nov. 22, still in full bloom after every other plant has been killed by frost since Oct. 15, blooming even after 7 degrees of frost. Not blooming here and there but abundantly. In the garden a single plant will probably bear hundreds of clusters and thousands of flowers in one season. These are of dainty shape, though small, the buds deep crimson, flowers a pretty rose and white, delightfully fragrant. While none but the few leading roses are bought by the leading Philadelphia florists, yet Little Darling and Snowflake are snapped up eagerly. Plants from pots 2 1/2 in. 20c. each, 3 for 50c., \$2.00 for 12.

PLANT AND SEED NOVELTIES

The Popular Swiss Mountain Plant

“EDELWEISS”

Gnaphalium Alpinum

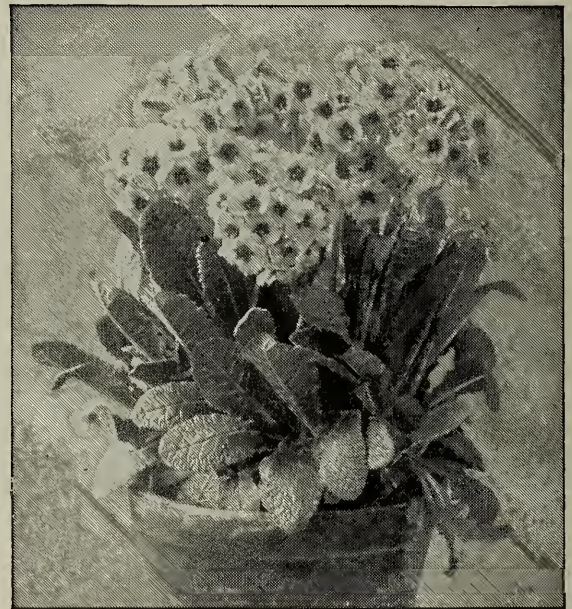

HARDY perennial; white star-shape flowers with very thick, fuzzy-like leaves. Very interesting and novel. Very easily grown. Treat them similar to violets, divide the clumps after the blooming season. Strong plants 25c. each; per doz. \$2.50; \$15.00 per 100. **Ready about April 1st.**

SEED of Edelweiss 15c. per pkt.; 4 pkts. for 50c.

New Double Sunflower

(Helianthus Cucumerifolius fl. pl.)

PERFECTLY double and semi-double flowers; come more than 60 per cent. true from seed and afford an excellent stuff for different floral work. No. 491. 20c. per original pkt.; 3 pkts. for 50c.

New Hardy
Giant Primrose

(Primula Veris Superba)

THIS is one of the good new things that occasionally turn up by chance. The plant originated a few years ago in a batch of seedling Polyanthus, and apparently is a hybrid Primrose, having somewhat the growth of a Polyanthus combined with the yellow color and fragrance of the English Primrose.

In size of flower, it is fully three times as large as any hardy Primrose, the average size of the flower being over one inch, and we have seen them frequently measuring over two inches, with individual trusses of bloom six inches in diameter. It is perfectly hardy, grows from 10 to 12 inches high, and begins to flower earlier and continues in bloom longer than any other plant of the same family. This alone is sufficient to insure its popularity as a plant for the garden, but its greatest merit lies in the fact that it is not only one of the easiest plants we know of to force, but a plant that can readily be brought into flower during the winter and early spring months, and is especially desirable as a cut flower, being very popular and of delightful fragrance.

The plants can be stored in cold frames, successive batches being brought into the greenhouse or conservatory as required, allowing about four to five weeks time to bring them into full bloom. Price 25c. each; per doz. \$2.50; \$15.00 per 100.

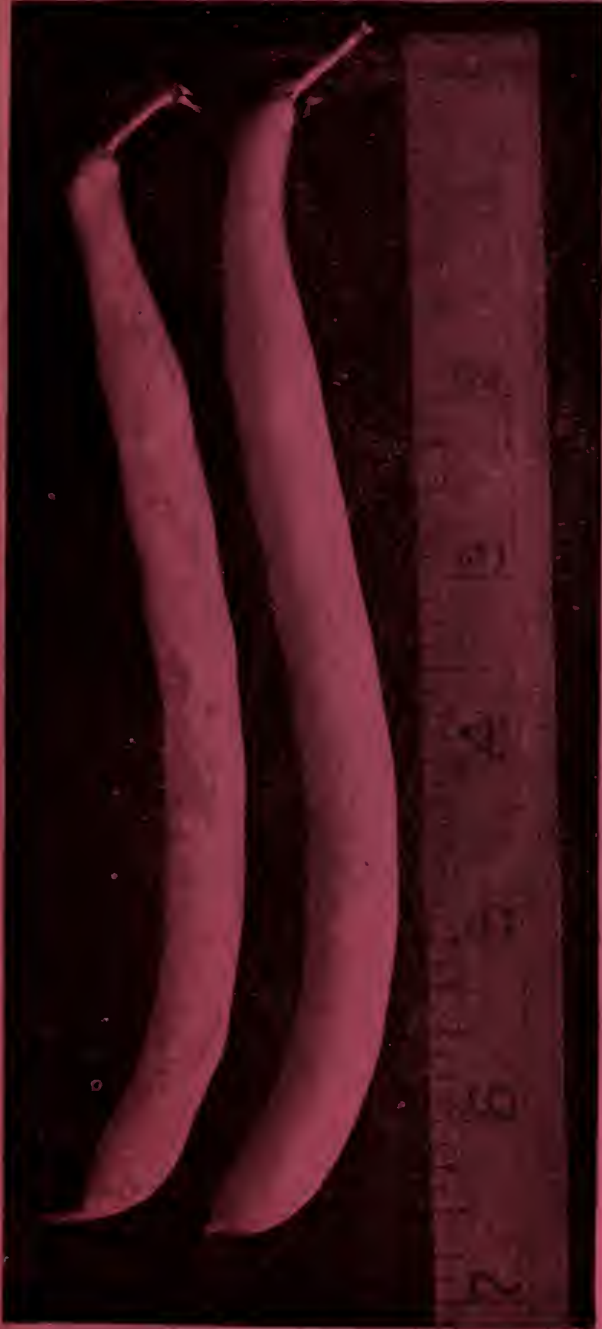

New Pure White

...LARGE FLOWERING...

Hyacinth Bean

THE most valuable species of this favorite Climber. The flowers are very large and are most excellent for cutting. No. 520. 10c. per pkt.; 3 pkts. for 25c.

NOVELTIES AND SPECIALTIES IN VEGETABLE SEEDS

New Round-Podded Kidney Wax Bean.

New Round Podded Kidney Wax Bean

The greatest and most reliable novelty in beans ever offered. No garden should be without some of these. They have originated with the leading specialist in bean culture in this country. Entirely stringless, very tender and a rich golden or wax color. The pods as will be seen in the above photograph nearly always measure 7 in. in length. Considered to be free from rust. Per pkt. 15c.; (mailed free), 35c. per pint; (by mail 43c.). 60c. per quart (by mail 75c.).

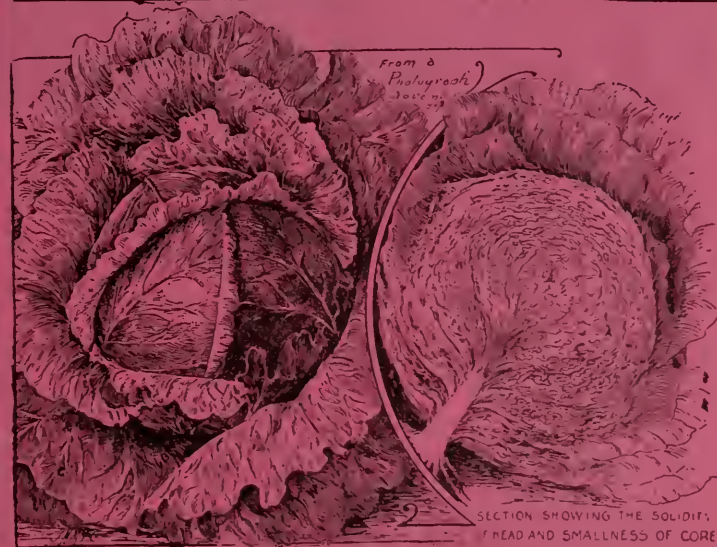

New Bean Mammoth Green Pod Stringless

The largest green pod bean yet obtained. It will surpass all others as soon as its merits become known. Pkt. 15c.; 30c. per pint; per quart, 50c.

New Extra Early Lettuce "Advancer"

NEW EXTRA EARLY HEAD LETTUCE "ADVANCER." This novel variety is easily grown to a full size head in four weeks after the seed is sown. The heads which are of a rather delicate butter color, are of the finest quality. In spite of the compact solid head it forms, the whole center or heart is very tender and of luscious flavor. We can highly recommend it for forcing in green houses, for growing in hot beds also stands considerable summer heat, remaining in perfect condition a long time before going to seed. 15c. per pkt; per oz. 50c.

HOLMES-HOUSER CABBAGE. (From a photograph.)

J. M. Lupton, the noted Cabbage-grower of Long Island, has been growing and selecting the Cabbage for us. The description of this Cabbage is as follows: The heads are large, weighing on an average 10 to 12 pounds. They grow so compact and free from spreading leaves that fully 500 more heads can be obtained to the acre than with other Cabbages, and in solidity cannot be excelled even by the Danish Ball Head. Heads measuring 36 inches in circumference had hearts measuring only 2 inches. Mr. Lupton says: "The Holmes-Houser Cabbage is entirely distinct from anything I have ever grown or anything now on the market." Price, 15c per pkt; 4 pkts. for 50c.

A new and entirely distinct round late cabbage, the largest, hardest-heading, fine grained cabbage known. Five years ago we were fortunate enough to secure a small quantity of seed of this valuable cabbage from Mr. Houser, one of the most successful market gardeners in this section. He had retained the seed for his own planting for many years back, never allowing any to get into the hands of other truckers. We secured the stock seed, and Mr.

Lettuce "Giant Crystal Head"

(Cut across)

A decided improvement over all Lettuce of similar type, such as Hanson, etc. We cannot recommend it too highly. The quality is superior to most other varieties heretofore introduced. Early and always sure to produce a good crisp head. 20c. per pkt.; 3 pkts. for 50c.

NEW EXTRA EARLY SUGAR CORN, "MAMMOTH WHITE CORN." A great improvement on the "First of All." Earlier, much larger ear, and very sweet. 10c. per pkt.; 2c. per pint; per quart 35c.

- Cucumber "Alabaster"** Pure White, very tender, 20c. per pkt.
- Parsley Dwarf Curled "Perfection"** Beautifully crimped and curled, excellent for garnishing. 15c per pkt.
- Radish "First Number."** The earliest of the round, rich red varieties, very solid and crisp. 10c. per pkt
- Radish "Triumph."** New and distinct, pure white, mottled with red; 10c per pkt.

New Amaranthus (Joseph's Coat)

"Sunset." A brilliant color species, adapted for large tropical plant beds, a great acquisition and contrast to green foliage plants. Annual, No. 32, 20c. per pkt.; 3 pkts. for 50c.

No. 1112. **PINK OSTRICH FEATHER ASTER.** A tall branching, large flowering variety borne on long stems, color rich pink. 20c. per pkt., 3 pkts. for 50c.

No. 1111. **GIANT SNOW WHITE VICTORIA ASTER.** Of pyramidal habit, free flowering, each plant bearing from 15 to 20 magnificent blooms of pure white. 20c. per pkt., 3 pkts. for 50c.

2 NEW TRIUMPH ASTERS

No. 1118. Coppery scarlet with white. 20c. per pkt., 3 pkts. for 50c.
No. 1119. **Rich Scarlet.** 20c. per pkt., 3 pkts. for 50c.

These two new shades obtained in this valuable **Extra Early Type** of Asters, will please all who may grow them. They begin blooming last week in June and continue a mass of flowers until late in autumn.

New Triumph Aster "Rich Scarlet"

NEW AFRICAN PLANT
ARCTOTIS GRANDIS

Remarkably Handsome new annual from South-West-Africa growing luxuriantly and forming profusely branched bushes of about 2 to 2½ feet in height. Its flowerheads, borne on long stems and rising well above the foliage, are large and showy, from 2½ to 3 inches across; the ray florets being pure white on the upper surface are embellished by a narrow yellow zone at their base. Being of very easy culture, the plants produce their splendid flowers most abundantly and in constant succession from early summer to the autumn. Magnificent and prominent novelty.

No. 106, 25c. per pkt.; 5 pkts. for \$1.00

New Cyclamen
"BUTTERFLY"

New Ageratum "Princess Victoria Louise"

Ageratum "Princess Victoria Louise"

The dwarf, quite proportional and compact habit of growth makes this new variety particularly adapted for edging and bedding.

The plant grows about 3½ inches high and 8 inches broad. Every branch produces in succession an abundance of white tinted with blue flower heads. No. 22, 20 cts. per pkt.; 3 pkts. for 50 cts.

New White Ageratum "Grandiflorum Album"

The finest white flowering variety yet introduced. No. 15, 15 cts. per pkt.; 4 pkts. for 50c.

New
Sweet-
Scented

SULTAN

(*Centaurea imperialis*)

THIS is doubtless the best "Sweet Sultan" for cut-flower purposes. Beautiful, sweet-scented and noble-shaped flowers of very large size. The color of the flowers varies in pure white, lilac, rose, purple, dark red and other similar tints. The flowers are supported by strong, long stalks and have an extremely long duration, one of the nicest of all annuals, is easy to cultivate and flowers continually from spring to autumn.

Splendid Mixture. All colors. No. 304—15c per pkt.; 4 pkts. for 50c.

Brilliant Pink (Favorita). Finest fancy color. No. 301—15 cts. per pkt.; 4 pkts. for 50cts.

Dark Purple (Splendens). No. 303—15 cts. per pkt.; 4 pkts. for 50 cts.
White (Alba). Magnificent. No. 300. 15 cts. per pkt.; 4 pkts. for 50 cts.
 One pkt. of each of the above four colors for 50 cts.

New Giant Hyacinth-Flowered CANDYTUFT

THIS improved new strain is far superior to that well-known kind, Empress, heretofore the best of its class. The flower-heads are of immense size, six inches long and about three inches across, resembling a Dutch Hyacinth. They are pure white, and are desirable for cut flowers. No. 189—10 cts. per pkt.; 40 cts. per oz.

NEW POT MARIGOLD "FAVORITE" (CALENDULA)

Calendula officinalis, fl. pl. "Favorite."

PRETTY counterpart to the well-known Pot Marigold "Meteor." While the latter produces flowers of a deep orange with straw-colored stripes, those of our new variety are of a light sulphur striped with creamy-white in the greatest regularity. It is the lightest colored variety of the whole collection.

No. 181, 20 cts. per original pkt.; 3 pkts. for 50 cts.

New Carnation

"GIANT OF NICE"

PRODUCES enormous perfect shaped flowers of the richest colors. The plant is a strong robust grower. It is the very best out-door carnation ever introduced.

No. 242. Choicest mixed. 25 cts. per pkt.; 5 pkts. for \$1.00.

New Double Japanese Pink

"SALMON QUEEN"

(*Dianthus Laciniatus fl. pl.*)

ITS beautiful, finely fringed, double flowers are of brilliant salmon color, changing into a salmony rose when fading. The plants attain a height of ten to twelve inches and are vigorous and free blooming.

No. 367. Per original pkt., 20cts.; 3 pkts. for 50cts.

New Paris Daisy
Chrysanthemum Maximum
"Princess Henry"

The finest and most valuable of the Maximum varieties, even superior to the famous "Perfection." It is of a more set growth, only about 18 inches high. This very floriferous plant is of a globular shape and very decorative, the flowers open to 4 inches and more in diameter, and are valuable as cut flowers. Comes true from seed. It is not particular as to soil, coming up every summer in the same beauty for many years, and outlasts the severest winter. Seeds if sown early will bloom the first season.

No. 1310, 20c. per Pkt.; 3 Pkts. for 50c.

Chrysanthemum Maximum "Princess Henry"

Cineraria

Grandiflora
"Stella"

Gold Medal Awarded at the Horticultural Exhibition in Dresden, 1900.

Cineraria, Flowering in the shape of the Cactus-Dahlia.

It is well known that the Cactus-Dahlias have become universal favorites ever since their introduction. The illustration shows the whole plant with a multitude of beautiful flowers much resembling the Cactus-Dahlia. Cineraria "Stella" is remarkable for the singular position of its flowers; it comes true from seed; The colors are Pink, Dark-red, Indigo, Violet, etc

Stella"

No. 1300, 30c. per pkt.; 4 pkts. for \$1.00.

Novelties of Extraordinary Merit

NEW JAPANESE "ROYAL" PINK

(*Dianthus Heddeuigi noblis*)

AN improvement on the old fashioned Indian Pink. The flowers are of a noble shape and considerably larger, 3 to 4 inches in diameter. The petals are fringed and fringed giving the large flower a graceful and light appearance. The colors are very bright blood red, then shade to carmine and pink and even white. The plant grows vigorous and tall, and gives lots of first-class cut flowers on long stems, and keeping a full week in water. The more the blooms are cut, the more the plant will produce.

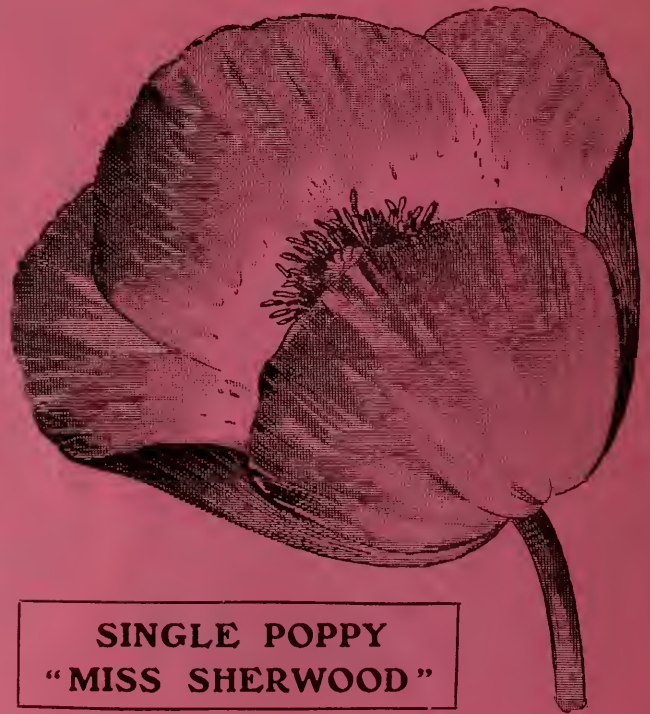

No. 356—20c. per pkt.; 3 pkts. for 50c.

NEW PINK FLOWERING HARDY DAISY

(*Pyrethrum Roseum Hybridum Grandiflorum*)

FEW perennials can be more beautiful than well-grown hybrids of *Pyrethrum roseum*. Not only are they, through their vivid coloring and long-lasting bloom, most effective in the open border, either singly or in groups, but the splendid long-stalked ray-shaped flowers are of exceptional value for cutting, and just what the present fashion demands. It has long been my aim to attain a flower of increased dimensions and I am now able to offer large-flowering *Pyrethrum*s often reaching 4 inches in diameter, which present all the beautiful variations of color between light rose and deep carmine.

No. 777—20c. per pkt.; 3 pkts. 50c.

SINGLE POPPY "MISS SHERWOOD"

STURDY plants 2½ feet high, with noble foliage, bear in profusion large single flowers of a shining satiny white, the upper half of the flower being a silky chamois rose. This is a combination of color quite original in its delicacy and I am convinced that this beautiful Poppy, which comes quite true from seed, will be found one of the finest of single-blooming varieties, more especially as a cut flower and quickly meet with the appreciation it deserves.

No. 2351—15c. per pkt.; 4 pkts. for 50c.

New
"Pink Flowering"
Hardy Daisy

NEW MINIATURE

SUNFLOWER "PERKEO"

(*Helianthus cucumerifolius nanus compactus*)

A perfectly dwarf variety. The plants form a regular dwarf, round and compact bush, measure when fully developed 10 to 12 inches high and 14 to 16 inches in diameter. The single, brilliant, yellow flowers with black centre, are borne on long, strong stems, well above the foliage. Will make a handsome display in the garden, the flowers can be cut with long stems and are very decorative. The culture of this novelty is so easy that it ought to be grown in every garden. Seeds may be sown either in pots or pans or in a frame in March or April; the plants may be transplanted in May and treated like other annuals. Seeds can also be sown in open ground. No. 488, 20c. per pkt.; 3 pkts. for 50c.

NEW FORGET-ME-NOT
"ROYAL BLUE"

(*Myosotis alpestris stricta grandiflora*)

Produces flowers of a large size and dark blue. Its bright and handsome flowers which create a brilliant display, make plants much valuable for bedding purposes as well as for cultivation in pots.

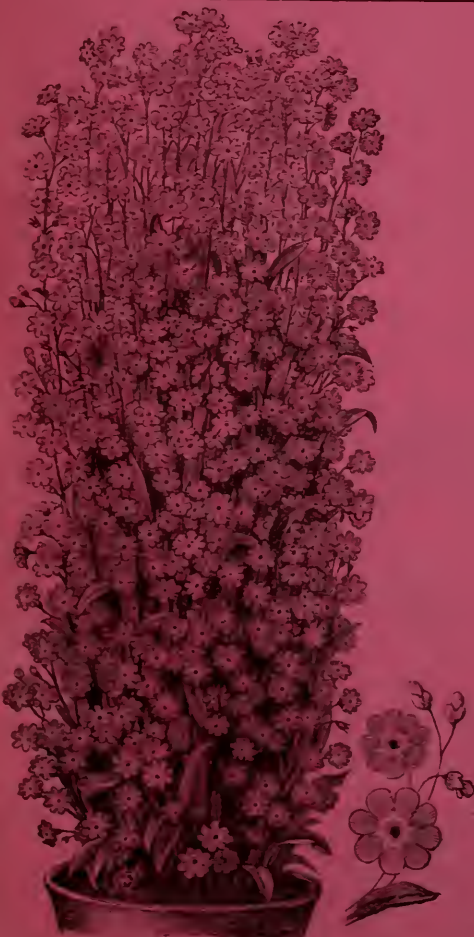

No. 618—20c. per original pkt., 3 pkts. for 50c.

NEW LARGE FLOWERING
PILLAR SHAPED FORGET-ME-NOT
"FAIR MAIDEN"

(*Myosotis Alp. Grand. Rosea*)

A distinct novelty, the single bloom being exceedingly large and of such a lively pink color as no other *Myosotis* has ever shown before. It flowers early and lasts longer than all the others. The characteristic shape is also in this showed up to advantage. When first only seen in the picture, it may have met with many a doubtful look, but every purchaser will soon have found out, that the reality does not in the least belie the picture.

No. 617—20c. per pkt., 3 pkts. for 50c.

Myosotis alp. stricta grandifl. rosea
"Fair Maiden"

Mignonette "Orange Queen"

NEW MIGNONETTE
"ORANGE QUEEN"

The latest and largest flowering orange color variety. The sweet scented yet introduced. No. 623—20c. per pkt., 3 pkts. for 50c.

MIGNONETTE
"NINETEEN HUNDRED"

The plant forms a semi-globular bush of the most perfect shape, measuring 24 inches in diameter and consisting often of more than 400 flower spikes. It will be no exaggeration to say that anything more perfect in regularity of shape of the plant and in over-abundance of flowers could not be imagined in a Mignonette.

No. 641—5c. per original pkt., 3 pkts. for 50c.

New "Dwarf Shirley" Poppy

NEW "Dwarf Shirley" POPPY

Charming dwarf varieties of the universally esteemed Shirley Poppy, which is admittedly one of our best annuals. The seedlings grow into bushy little plants about 18 inches high only, with bright green lacinated foliage and all ablaze with innumerable fine flowers of rose, chamois, scarlet and salmon, some having a distinct light bordering to the petals, all thrown well up above the foliage. In this dwarf form the Shirley Poppy will be used not only for groups but also for edgings and pot culture.

No. 2352.

20c. per pkt., 3 pkts. 50c.

New Red Primula obconica (Kermesina)

After several years experimenting we have at last succeeded to get hold of the long desired red colour of the Primula obconica, so that plants grown from seeds show the original colour.

The plants have the strong growth, the finely built round trusses and the well shaped middle sized flowers of the Primula obconica rosea, the colour is however especially of the older flowers in autumn and winter of a bright rich crimson red. Equally valuable for growing in pots or for cutting purposes.

No. 806.

20c. per pkt., 3 pkts. for 50c.

New Red Primula obconica (Kermesina.)

Pansy

“Masterpiece”

(New Giant-Curled Pansy)

Pansy “Masterpiece.” Natural Size.

The chief difference from the other Pansies in existence consists in a very original form of the flowers, the border of every petal being conspicuously curled. This peculiarity is to be found in nearly every flower, the size of which is extremely large.

The form of the flowers in all the other classes of Pansies hitherto known represents a more or less flat disc, while the flowers of the “Masterpiece” Pansy on account of the crisp and curled petals have a more globular appearance. Extraordinary free flowering. No. 776, 25c. per original pkt., 5 pkts. for \$1.00.

New Climbing Nasturtium

“Princess Victoria Louise”

Decidedly one of the finest and most effective kinds of Lobb's climbing Nasturtiums. The large, well-shaped flowers are creamy-white with conspicuous orange scarlet blotches at the base of each petal and pure orange red calyx and spur; a rare coloring amongst annual Nasturtiums. At times the flowers show also a red margin. True from seed.

No. 697. 20 cts. per original pkt.; 3 pkts. for 50 cts.

New Dwarf Compact Phlox “Bunch of Roses”

This new variety is not only most effective on account of its striking beauty of the colour, but also the remarkable size and profusion of its flowers and the perfect shape and habit of the plant. The flowers are of an *unusually vivid pink colour, each petal having towards the base a darker spot, while the centre of the flower is pure white*, as it is in *Phlox grandiflora stellata splendens*. The flowers are large, of perfect form, and appear in abundant profusion. No. 718. 20c. per pkt. 3 pkts. for 50c.

Gaillardia Grandiflora Sulphurea Oculata

The flowers of this new variety of perennial Gaillardias are of good substance, well set upon long stalks. The color is a pale sulphur, having a well defined bright maroon eye. It is the most striking of all Gaillardias whether as a cut flower or in a border. If seeds are sown early it may be treated as an annual and will commence flowering by the end of July and last until killed by frost. No. 456. 20c. per pkt.; 3 pkts. for 50c.

New Dwarf Nasturtium “Vesuvius”

This is the “Tom Thumb” variety of the tall climbing Nasturtium “Vesuvius” introduced three years ago. It produces dwarf compact bushes covered with large flowers of a beautiful and **brilliant salmony-pink**, an extremely bright colour showing off well at a great distance. No. 665. 20c. per pkt.; 3 pkts 50c.

Dianthus Stellaris (Star Pink)

Represents quite a **new class** of annuals. Every single flower has the form of a five or six-rayed star, hence the name “**Star Pink.**” In the seed hereby offered **will be found all the brilliant colors.** From the beginning of June until first days of October the plants are covered with flowers uninterruptedly. Many leading specialists, having seen the “Star Pink” in summer, acknowledged it to be one of the best of this year's introductions. No. 372. 20c. per pkt. ; 3 pkts. for 50c.

NEW SCARLET SAGE

“DROOPING SPIKES”

A very free flowering dwarf plant of brilliant scarlet flowers, produced in drooping effect, giving the plant a handsome appearance. No. 849—15c. per pkt., 4 pkts. for 50c.

NEW SCABIOSA (*Caucasica Perfecta*)

This new variety represents the greatest perfection what could be obtained in perennial Caucasian Scabious up to the present. The color of the flowers ranges from the most beautiful water-blue to the deepest azure blue. The single flowers are borne haughtily poised on twenty to twenty-five inches long stiff stalks and have a diameter of three to four inches. While the old Scabiosa Caucasica are single flowering, the flowers of this novelty have three and four rows of petals being produced as little side flowers. This Scabiosa Caucasica Perfecta recommends itself through its beauty. No. 876—20c. per original pkt., 3 pkts. for 50c.

SALPIGLOSSIS NEW EMPEROR
“BRIGHT CRIMSON”

This new Salpiglossis is without doubt a splendid enrichment of the class of “Emperor Salpiglossis” introduced by me two years ago, and on account of its beautiful color considerably surpasses all other sorts. It comes quite true from seed. No. 845—20c. per pkt.

VERBENA ERINOIDES ALBA

From the *V. erinoides* with lilac flower introduced some time ago I have obtained this white-blooming variety. The plants are about 8 inches high with very finely cut dark green foliage; they branch freely and produce in great abundance fine trusses of pure white flowers. This plant will doubtless become a favorite after it is better known. No. 951—20c. per pkt., 3 pkts. for 50c.

MINIATURE VERBENA. Purple with White Eye

The plant attains by an average diameter of 12 inches, only a height of 6 inches. The numerous trusses of flowers are borne free above the foliage almost thoroughly of equal height; the flowers are of large size and of a bright purple red color with white eye, quite distinct. The plant forms a compact branching bush. No. 950—20c. per original pkt., 3 pkts. for 50c.

SCARLET SAGE “SILVER SPOT”

(*Salvia Splendens*)

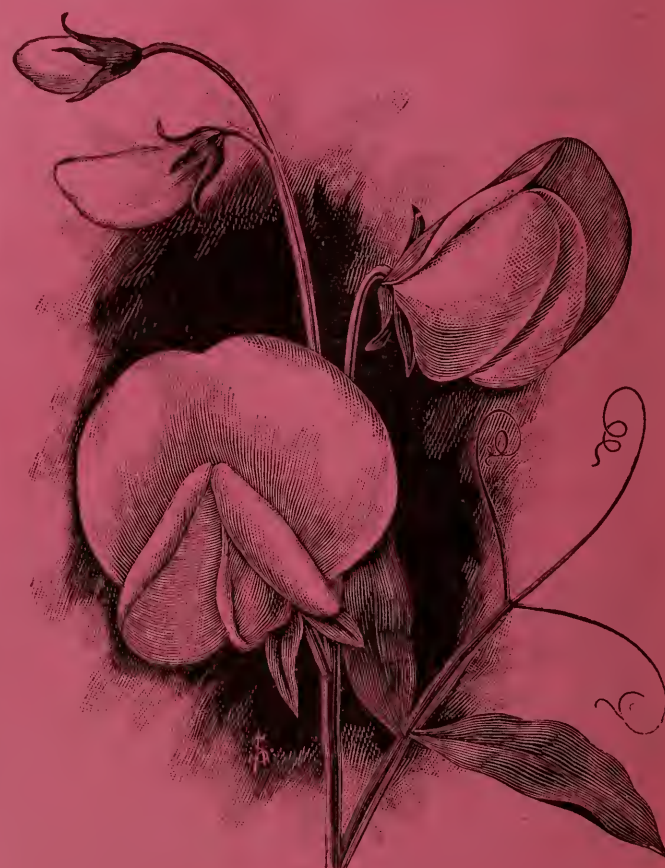

Its most distinctive feature is its strikingly handsome spotted foliage. The leaves are rich soft dark green, with light sulphur or cream colored spots liberally sprinkled over them. The elegant foliage is very abundant and has an extremely fresh and healthy appearance. The intense bright scarlet flowers are very large and the plants of neat compact habit and as floriferous as the ordinary sorts. In three years' trials we found that 85 per cent. came true from seed. No. 841—15c. per pkt., 4 pkts. for 50c.

¾ natural size

NEW SINGLE SUNFLOWER
“POLAR STAR”

Helianthus Cucumerifolius type. Height, 5 to 6 feet. The first large flowering white Sunflower with black centre. Excellent for cut flowers. Hardy annual. No. 490—15c. per pkt., 4 pkts. for 50c.

NEW EARLIEST WHITE
SWEET PEA “MONT BLANC”

The very best white variety yet introduced. Very valuable on account of its extreme earliness. Sow seeds in a warm, rather dry position; do not cover the seeds over ¼ inch, until well established. No. 1030—15c. per pkt., 4 pkts. for 50c.

New
Heliotrope Seed

“Regal”

The finest
large flowering
variety
yet introduced.
Comes true
from seed.

No. 1825. 20c. per original pkt.
3 pkts. for 50c.

New Coleus “Brilliancy”

The finest giant Coleus ever offered.

The name aptly describes the appearance of this plant; the color is a bright carmine shading off to a deep maroon, the margins of the leaves bordered with yellow and green and having a rich velvety lustre equal to the finest rose; the whole effect being one rarely seen in any plant.

The habit is strong and vigorous, growing two to three feet high, leaves very large, often nine to ten inches long, and standing hot sun very well.

Unequaled as a centre-piece for vases, as a border for foliage beds or for interior decorations. Under a bright gas or electric light the beautiful rich coloring stands out clear and strong. 30c. each; \$3.00 per doz.; \$20.00 per 100.

NEW AND VALUABLE PLANTS

RUELLIA MAKOYANA. (Carmine Blossoms)

A new Brazilian plant of easiest growth for the house as well as the garden, forming in a short time specimens measuring two to three feet across, with over three hundred flowers open at one time. Leaves velvety, dark olive green, with prominent silvery white midrib and veins; underpart purplish wine color and very ornamental. Flowers large, brilliant carmine, produced even on plants in 2-inch pots, and almost during the entire year. Grows vigorously in shady places and would probably make a fine Easter plant. We recommend it as one of the finest introductions of recent years. It was exhibited at the great floral display of Great in grand specimens, measuring nine feet around. 15c., 4 for 50c.

Ruellia Makoyana. (Carmine Blossoms)

NEW HIBISCUS ARCHERI

Perhaps the most floriferous and most unique of all the rich colored single crimson Hibiscus. The flowers are nearly 5 inches across, of a glowing crimson and every petal is deeply fringed and lacinated. Price 20 cts.

New Double Hibiscus "Peachblow"

The Double Flowering Hibiscus are not free bloomers as a rule, but this one really is. Plants in 3-inch pots frequently bear 5 to 8 opened flowers and show buds from every leaf. If kept growing and repotted when needed it would bloom perpetually. The flowers are accurately shown in cut. In color this is entirely new, being a salmon rose, shading to deep carmine red towards the base of the petals. Like the Archeri, this is also a fine bedder, both standing the sun remarkably well. A year ago one plant could not have been bought for \$100. 20c., or one of each of the above Hibiscus for 30c.

New Hibiscus "Peachblow"

New Double White Hibiscus "Jeanne d'Arc"

A grand sort, with immense pure, white double flowers, perfectly hardy; blooms when only a few inches high. 25c.

BROWALLIA SPECIOSA MAJOR

This new giant violet is an easy plant to grow. It will make much finer specimens than shown in our cut. The flowers are of large size, fully 2 inches, and vary in color from light blue to deep violet blue, with a large white eye—a rare color among house plants. Grand for pots or hanging baskets, and frequently used as a substitute for violets when the latter are scarce. Plants 15c., seed 10c. pkge.

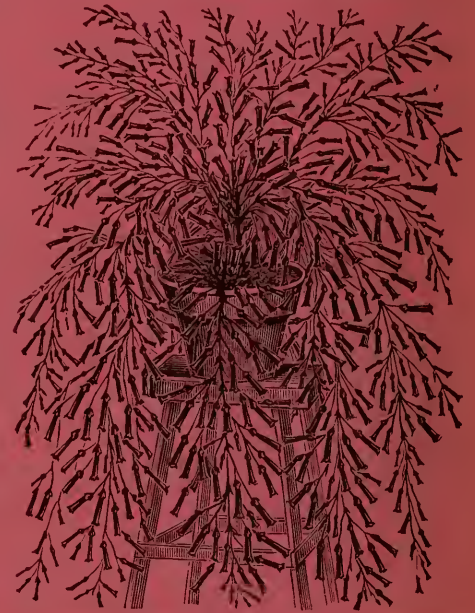

Browallia Speciosa Major

NEW RUSSELLIA ELEGANTISSIMA

or SCARLET FOUNTAIN

Here is certainly a fine new plant that you should not be without. It's another of Mr. Lemoine's scientific works, and a vast improvement of the old Russelia. The habit is drooping as shown, the slender branches and leaves being completely hidden by hundreds of the vivid scarlet tubular flowers. It is so floriferous that tiny cuttings show more flowers than leaves. It is one of the finest and best new plants ever introduced and one that will give satisfaction to everyone. As a new plant we know of nothing more striking. Price 20 cts. each, 3 for 50 cts., 12 for \$1.50.

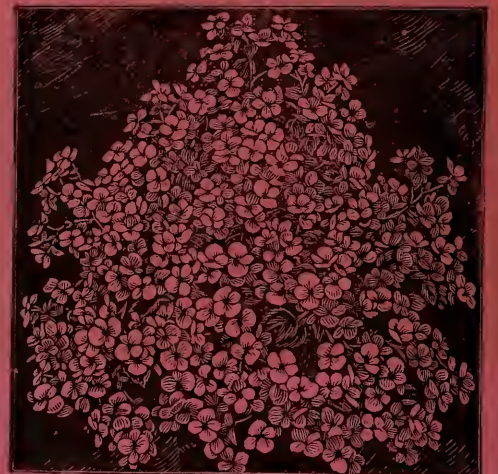

New Russelia Elegantissima

NEW BEGONIA GLOIRE DE LORRAINE

The most sensational plant of the season. It is such an abundant bloomer that scarcely a leaf can be seen, and will bloom for months at that. As a show plant for parlor or dining room nothing could be more desirable. The flowers are very waxy like and of beautiful lilac rose color. From 2 3/4 in. pots 25c. each, 3 in. 35c., 4 in. 75c. up to \$5.00. Small plants have sold readily at \$5.00 or \$10.00 each.

NEW BEGONIA GRACILIS

Next to Gloire de Lorraine there is perhaps no other Begonia so floriferous as this—indeed it is a perpetual bloomer, winter and summer. The flowers are equally as large as Gloire de Lorraine but carried on upright bushes and stems. The color is a purer shade of pink. We have also a new pure white sort. Price, 20c. each, three of each of the above varieties, \$1.00.

New Begonia Gloire de Lorraine

THE ORANGE VIOLET

BROWALLIA JAMISONI

Bears dense clusters of beautiful orange yellow violet-like flowers and make an excellent pot plant. 20 cts. each, 3 for 50 cts.

TECOMA STANS (FIRE BUSH)

"Yellow Elder" and "Fire Bush" have been suggested as names for this very handsome plant. It blooms readily in 3-inch pots, the bunches of yellow and fire-scarlet flowers being exceedingly conspicuous and attractive. If allowed to run it will attain considerable height. Fine plants, 20 cts.

CACTUS We are in position to supply up to 300 varieties of Cactus. 10 small plants for \$1.00. 20 for \$2.50, all distinct and named.

DOUBLE RUDBECKIA (GOLDEN GLOW)

Or SUMMER CHRYSANTHEMUM

Gardening, the most valuable of all horticultural journals, speaks of this new plant as follows: "We hail it with delight, as being one of the most distinct and beautiful hardy perennials introduced for years." It will give you *armfuls of large*, very double golden yellow flowers, elegantly set off with their own foliage. Lasting in perfection for many days. Blooms from July until well in November. 15 cts. each, 4 for 50 cts.

500 of one variety at 1000 rates.

Artichoke (Ger.) ARTICHOKE Artichaut (Fr.)

Green Globe. Pkt. 5c., oz. 30c.
Jerusalem Artichoke Roots. This variety is not produced from seed. They are sometimes used as a table vegetable when picked, but their greatest value is for feeding stock. Qt. 15c. pk. \$1.00. bush. \$3.00.

Runkel Rube (Ger.) Beets Betterave (Fr.).

One ounce will sow fifty feet of drill, 5 lbs. per acre.

The soil best suited for beet culture is that which is rather light and well enriched. Sow in drills one foot apart and one inch deep, as early as the ground can be worked; when the plants are large enough thin out to stand six inches apart in rows; continue for a succession as late as the middle of July. Keep well cultivated.

Varieties for Table Use

- Bastian's Extra Early Turnip.** The best beet for the market gardener and family use; very early, of quick, large growth, fine turnip form and bright red color; a good forcing variety. Pkt. 5c., oz. 10c., 1 lb. 50c.
Crosby's Egyptian. An improved, perfectly smooth, Egyptian Beet. Much thicker than the original early, of better color and quality. Pkt. 5c., oz. 10c., ¼ lb. 20c., 1 lb. 60c.
Carter's Excelsior. A variety of superior quality; color of flesh is perfect, being fine grained with smooth skin and small tops. Pkt. 5c., oz. 10c., ¼ lb. 20c., 1 lb. 75c.
Arlington Favorite Blood Turnip. Extra early; exceedingly sweet, rich blood red. Pkt. 5c., oz., 10c., lb. 75c.
Dirigo. Rich red, turnip shaped. Small top. Pkt. 5c., 10c. per oz., ¼ lb. 20c., 65c. per lb.
Edmand's Blood Turnip. An early variety, possessing good qualities; flesh dark red, sweet and of good flavor. Pkt. 5c. oz. 10c., 1 lb. 50c., 5 lbs. \$2.00.
Eclipse. Remarkable for its rapid growth, extreme smallness of top and extra fine quality. Perfectly smooth and round, skin and flesh intense red. An excellent sort for forcing. Pkt. 5c., oz. 10c., 1 lb., 50c., 5 lbs. \$2.00.
Extra Early Bassano. A very early flat variety, tender, juicy, flesh white and rose colored. Pkt. 5c., oz. 10c., 1 lb. 50c.
Lentz Early Turnip. Pkt. 5c., oz. 10c., 1 lb. 50c., 5 lbs. \$2.00.
Bastian's Half-Long Blood. A valuable variety to follow Bastian's Extra Early; for winter use plant about the middle of July. Pkt. 5c., oz. 10c., 1 lb. 50c., 5 lbs. \$2.00.
Improved Long Blood. A good late variety for fall and winter use; sweet and tender. Pkt. 5c., oz. 10c., 1 lb. 50c.
Swiss Chard. Grown for its leaves only; the middle of the leaf is served like Asparagus; the other portions of the leaf are used like Spinach. Pkt. 5c., oz. 10c., ¼ lb. 20c., 1 lb. 60c.

Sugar and Cattle Beets. (Sow 6 lbs. per acre.)

- Improved Imperial White Sugar.** An improvement on the other varieties of Sugar Beets; more hardy and containing a greater percentage of sugar. Lb. 30c., 5 lbs. \$1.25.
Lane's Improved White Sugar. This variety attains a large size and grows considerably above the ground; fine for feeding. Oz. 5c., 1 lb. 30c., 10 lbs. \$2.50.

MANGEL-WURZEL. (See next page.)

23 lbs.
MICHELL'S
Mammoth Long Red
Mangel=Wurzel
 We offer \$5.00 in 2 Prizes
 for the best 6 Mangel-Wurzel Beets ex-
 hibited at the Philadelphia Chrysanthe-
 mum Show in November, 1901.

BEET
Mangel=Wurzel

Five pounds are sown to the acre.

Sow in April and May in thoroughly plowed, well-manured soil, in drills two inches deep and about eighteen inches apart. Thin out to twelve inches and keep the weeds down by frequent hoeing and cultivating. Low ground is best adapted for mangel-wurzels.
Mammoth Long Red. This is an enormously productive variety, yielding from fifty to seventy tons to the acre, a single root often weighing from twenty to thirty pounds. It is the best long red mangel and very valuable for stock feeding. Oz., 5c.; lb. 30c., 10 lb. lots, \$2.50.
Golden Tankard. The best yellow mangel in cultivation. Relished by milch cows and sheep. Maturing earlier than other large sorts. Oz. 5c., lb. 30c., 10 lb. lots, \$2.50.
Red Globe. Oz. 5c., lb. 30c., 10 lb. lots, \$2.50.
Yellow Globe. Oz. 5c., lb. 30c., 10 lb. lots, \$2.50.
Norbiton Giant. Large, small top, one of the best long red varieties. Oz. 5c., lb. 30c., 10 lb. lots, \$2.50.

BROCCOLI Chou Brocolis (Fr.).

Grange's Autumn White Cape. This is the best variety grown; can be grown where cauliflower is an uncertain crop. Pkt. 10c., oz. 30c., 1/4 lb. \$1.00. lb. \$4.00.

Bohne (Ger.) **BEANS** Haricot (Fr.).
 One quart will plant about 200 hills or a drill 100 feet long.

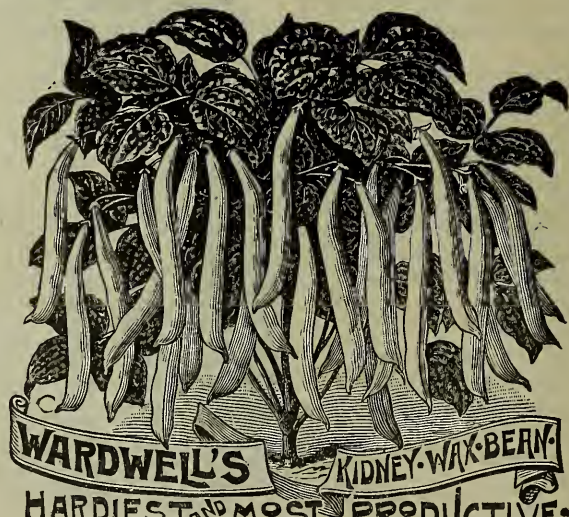

DWARF OR SNAP SHORT

Plant soon as danger from frost is past, in light, warm soil, in drills two inches deep and two feet apart, three inches apart in the drill, or in hills three or four feet apart. Avoid cultivating when wet with rain or dew, as it will injure the crop; hoe often when dry. Plant every two weeks for succession.

GREEN POD VARIETIES

Improved Extra Early Red Valentine. One of the very best sorts for private use or market. The pods are round, fleshy, tender and remain longer in a green state than most varieties. Good for pickling. Pkt. 10c.; qt. 25c.; 4 qts. 90c.; pk. \$1.65; bu. \$6.00.
Best of All. The pods are six inches long, very fleshy, succulent, and of rich flavor; produced early and abundantly. Pkt. 10c.; qt. 30c.; 4 qts. \$1.00; \$1.90 per peck.
Early Mohawk. The hardiest of the early varieties, and will endure a slight frost. Pkt. 10c.; qt. 25c.; 4 qts. 90c.; pk. \$1.60; bu. \$5.75.
Early Long Yellow Six Weeks. A hardy and prolific variety, a good and reliable cropper. Qt. 30c.; 4 qts. 90c.; pk. 1.65; bu. \$6.00.
Stringless Green Pod. Positively stringless, round pods. Extra early. 35c. per qt.; per 1/2 pk. \$1.15; \$2.00 per pk.
White Kidney or Royal Dwarf. Pkt. 10c.; qt. 20c.; pk. \$1.00; bush. \$3.75.
White Marrowfat. Grown as a dry bean for winter use; excellent shelled. Qt. 20c.; pk. \$1.00; bush. \$3.75.
Sion House (Forcing). Qt. 40c.
Triumph of the Frames (Forcing). Pkt. 15c.; qt. 60c.
Emperor William (Forcing). Pkt. 20c.; 3 pkts. 50c.

WARDWELL'S KIDNEY WAX
 One of the earliest of all Wax Podded Varieties. Almost entirely free from rust and spots. Long flat stringless pods. Per qt. 30c.; 4 qts. for \$1.00; \$1.75 per pk.; per bu. \$6.75.

BEANS, Wax or Yellow Pod—Continued.

Dwarf Golden Wax. (Rust Proof.) Very early and productive, of excellent quality, and entirely free from rust, besides being very crisp and tender and keeps longer than any other after picking, which renders it valuable for distant shipping. Pkt. 10c.; qt. 30c.; 4 qts. \$1.00; \$1.75 per peck.

Black or German Wax. Pkt. 10c.; qt. 30c.; 4 qts. \$1.00; pk. \$1.75.

White Wax. Pods delicate, waxy white, half transparent. Pkt. 10c.; qt. 30c.; 4 qts. \$1.00; \$1.75 per peck.

Saddle-Back Wax. A cross between the Yosemite Wax and the Black-Eyed Wax, pod large, long, round, very solid and absolutely stringless; an excellent variety. Pkt. 10c.; qt. 30c.; 4 qts. \$1.00; \$1.90 per peck.

Perfection Wax. For vigor of growth and immense productiveness it is scarcely equaled by any other Dwarf Wax Bean. The magnificent, large, golden-yellow pods are handsome, stringless, tender, and of very rich flavor. Pkt. 10c.; qt. 30c.; 4 qts. \$1.00.

Valentine Wax. The very earliest wax bean. Round pods, stringless and rust-proof. 30c. per qt., 4 qts. for \$1.00; \$1.75 per peck; per bu. \$6.75.

Pole Beans

Plant in hills four feet apart, six to eight beans to hill, eyes downward, afterward thin to three plants in a hill. Set poles eight to ten feet high before planting.

Early Golden Cluster Wax. Pods very tender, six to eight inches long, of large size, borne profusely in large clusters of three to six; beautiful golden-yellow color, which they retain long after being picked. Snaps easily, is stringless, cooks tender, delicious flavor. Pkt. 10c., qt. 50c.

Lazy Wife's. Pkt. 10c., 30c. per quart.

Horticultural or Speckled Cranberry. Pkt. 10c., pt. 15c., qt. 30c., pk. \$2.00.

Scarlet Runner. Pkt. 10c. qt. 35c.

English or Broad Windsor Beans

Used only as shelled beans. Plant in strong, heavy soil, in drills three feet apart and two inches deep. Pkt. 10c., qt. 35c.

LIMA BEANS

These are more tender and require rather more care in culture than the Bush Beans, and should be sown two weeks later. They succeed best in sandy loam, which should be liberally enriched with short manure in the hills, which are formed, according to the variety, from three to four feet apart; from 5 to 6 seeds are planted in each hill about two inches deep. Rough cedar or similar poles, about seven or eight feet long, should be used for Lima Beans to climb on. They should be set in the ground at least eighteen inches, so as to prevent being blown over.

Stangen Bohne (Ger.). **Pole Varieties** Haricots A Rames (Fr.).

One quart will plant 150 hills.

Ford's Mammoth Podded Large. The most valuable and prolific variety. Pods six to nine inches long; seed grown from original stock. Pkt. 10c., qt. 50c.; 4 qts. \$1.50.

LIMA BEANS—Continued.

Michell's Selected Large Jersey.

Has proven exceedingly satisfactory; beans are very tender and luscious. An extra selection of seed stock; large fine beans, all hand picked. Pkt. 10c.; qt. 35c.; 4 qts. \$1.20; \$2.00 per peck.

King of the Garden.

Vigorous grower, requiring but two vines to each pole, producing a continuous bloom and fruitage to extreme end of season. Pods are of enormous size, many specimens measuring from five to eight inches, producing as high as six beans to the pod, perfectly formed and of superior quality. Pkt. 10c.; qt. 35c.; 4 qts. \$1.20; \$2.00 per peck.

Siebert's Extra Early.

The earliest pole lima. Very productive and tender. Pkt. 10c., pint 25c., qt. 45c., peck \$2.25.

Dreer's Improved.

Earlier and more prolific than Large Lima; beans smaller, extra quality. Pkt. 10c.; qt. 40c.; 4 qts. \$1.35; pk. \$2.25.

Extra Early Jersey.

Pkt. 10c., qt. 40c.; 4 qts. \$1.35; pk. \$2.25.

Small Lima or Sieva.

Pkt. 10c., qt. 30c., pk. \$1.75.

Horticultural Lima.

A new variety of the highest merit. It is a cross between Dreer's Pole Lima and Dwarf Horticultural, combining the excellent quality of the Dreer Lima with the earliness, hardness and flavor of the Horticultural, being fully three weeks earlier than any other Lima. Pkt. 10c., pt. 20c., qt. 40c., pk. \$2.25.

Early Black Lima.

Pkt. 10c., qt. 40c.

Dwarf or Bush Lima

Dreer's Bush Lima.

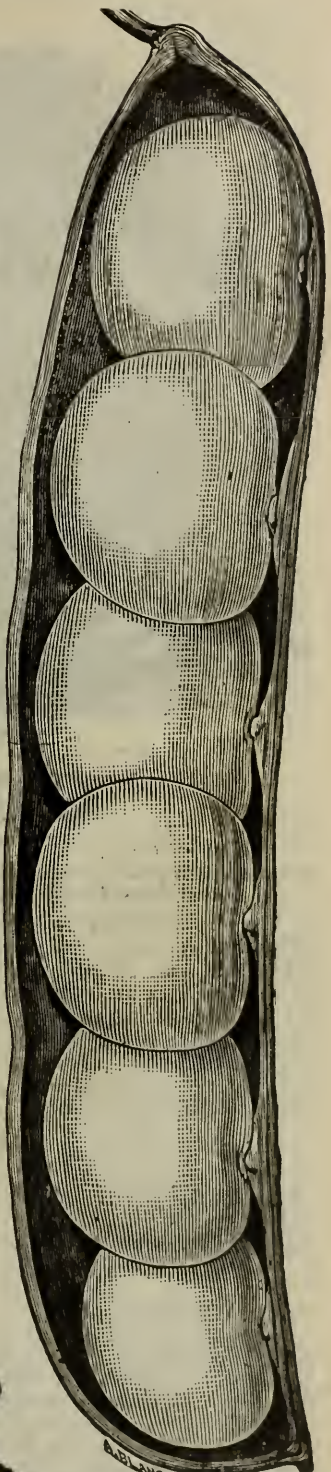

A splendid variety. Pkt. 10c.; 30c. per pint; 50c. per qt.; 4 qts. for \$1.60.

Henderson's Bush Lima.

The earliest of all Limas. Pkt. 10c., qt. 40c.

Burpee's Bush Lima.

The only bush form of the true Large Lima Bean, comes absolutely true from seed. Pkt. 10c., pt. 20c., qt. 40c. 4 qts. \$1.20; \$2.25 per peck.

Michell's Selected Large Jersey Lima.

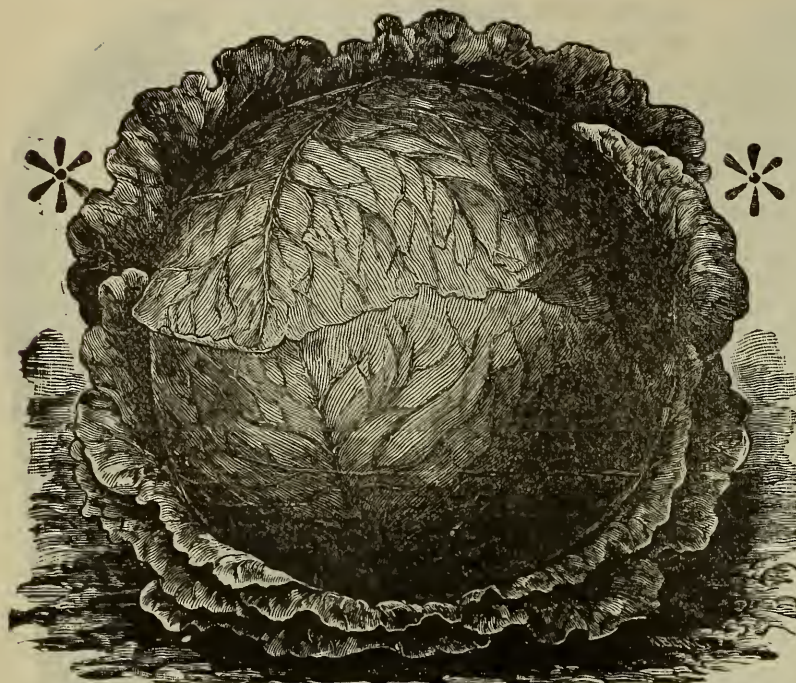

Brussels Sprouts

Brusseler Sprossen (Ger.). Chou De Bruxelles (Fr.).

Produces small heads from side of stalk, which are in perfection for use in autumn after early frosts. Sow in May, transplant in June one foot apart each way and cultivate like winter cabbage. A most delicious vegetable very easily grown.

Matchless Improved.

Pkt. 5c., oz. 25c., 1/4 lb. 75c. Sutton's Exhibition. Per original pkt. 25c.

"All Seasons" Cabbage.

Cabbage

Kopfkohl (Ger.) Chou Pomme ou Cabus (Fr.).

One ounce will produce about 2000 plants. Our Cabbage seed is all grown from selected heads only, by a specialist on Long Island.

The requirements for a good crop are rich soil, deep plowing, high manuring and good seed. Sow seeds in January or February in hotbeds, and transplant latter part of April or early in May to open ground, or an early sowing in open ground is the custom. Set the plants in rows two feet apart, and 12 to 18 inches apart in the row. For second early sow in April and transplant in May. For late crop sow in May and transplant in July, setting plants in rows three feet apart and two feet in rows.

Early Jersey Wakefield. A favorite market gardeners' variety, very early, following the Oxheart, of good size and quality and always sure to head; extra fine selected stock, Pkt. 10c., oz. 30c.; lb. \$3.00.

Large Early York. A good old standard variety. Pkt. 5c., oz. 20c., lb. \$2.00.

Large Charleston Wakefield. Selected, large solid heads, of good quality, about one week later than Early Jersey Wakefield. Pkt. 10 cts., oz. 30 cts., lb. \$3.00.

Early Winningstadt. A solid tender variety, good for either early or late. Pkt. 5c., oz. 20c., lb. \$1.50.

All Head Early. Pkt. 10c.; 20c. per oz.; per ¼ lb. 75c.

Stoneball (New) Late. Pkt. 10c.; 30c. per oz.; \$1.00 per ¼ lb.

Henderson's Early Summer. A second early variety, with large solid heads, coming in a few days later than the Wakefield. Pkt. 10c., oz. 25c., lb. \$2.50.

Early Drumhead. A second early, large, solid, flat-heading variety. Pkt. 10c., oz. 30c., lb. \$2.25.

All Seasons Selected. Pkt. 10c.; oz. 25c.; \$2.50 per lb.

Danish Ballhead. One of the very best medium late sorts. Hardly ever fails to produce a hard, good shape, large head. Pkt. 10c.; oz. 25c.; 75c. per ¼ lb.; \$2.50 per lb.

Extra Selected Late Flat Dutch. The favorite Philadelphia winter market variety, short stem and large solid flat heads; superior stock. Pkt. 5c., oz. 20c., lb. \$2.00.

Large Late Drumhead. A favorite winter variety with market gardeners; extra large solid heads. Pkt. 5c., oz. 20c., lb. \$2.00.

Perfection Curled Drumhead Savoy. The largest solid heading curled sort, of excellent flavor. Pkt. 5c., oz. 25c., lb. \$2.00.

Early Green Curled Savoy. Pkt. 5c., oz. 25c.

Red Dutch Drumhead. A large red-heading variety for pickling. Pkt. 5c., oz. 20c., lb. \$2.00.

Carrot

Mohre (Ger.).

Carotte (Fr.).

One ounce to 100 feet of drill, three pounds to the acre.

A light sandy loam, well tilled and manured the previous year best suits the carrot; for early crops sow as early as the ground can be worked, in drills ten inches apart, and thin to five inches in the row.

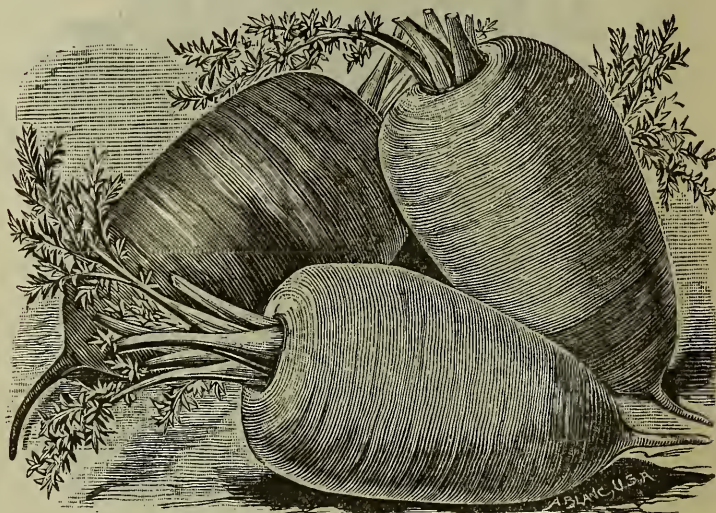

Very Early Short-Horn Scarlet or French Forcing. An early forcing variety; small root and excellent flavor. Pkt. 5c., oz. 10c., ¼ lb. 30c., lb. \$1.00.

Early Scarlet Horn. The favorite early red variety, fine grained and good flavor. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 75c.

Early Half-Long Scarlet. A very desirable pointed-root variety, coming in between the Scarlet Horn and the Long Orange; early, of fine flavor and good color. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 75c.

Danvers Half-Long. The best variety for general crop; is of rich orange color, a very heavy yielder and splendid keeper; a first-class Carrot for all soils, and valuable both for table use and stock. We have an extra fine strain of seed of this favorite sort. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 75c.

New Rubicon Half-Long. An entirely distinct Carrot. It is the best in shape, and its deep red orange-colored flesh is the finest in quality of all. It is earlier than the Danvers and about the same length; extremely well adapted for early forcing, for growing outside at any season of the year, being a wonderfully heavy cropper on any kind of soil. Pkt. 5c., oz. 10c., ¼ lb. 30c., lb. 85c.

Guerrande or Oxheart. A desirable variety on soils too hard and stiff for the longer growing sorts, as it is not over five or six inches long. It frequently grows as thick as long, thus making it really as large as the longer sorts. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 75c.

Chantenay Half-Long. Resembles the Nantes; very productive. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 75c.

Nichol's Improved Long Orange. Deep orange color, good flavor, yields heavily; is of excellent table quality, and is also the best for stock. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 75c., 5 lb. lots \$3.25.

We offer \$5.00 in Two Prizes for the best
 Three Heads of Cauliflower
 exhibited at the Philadelphia Chrysanthemum Show
 in November, 1901.

Sow for early use about the middle of September or October, in a bed of rich earth, transplant in frames and cover with sashes and shutters during severe weather, giving them the light and air every mild day, or they may be had nearly as well by sowing the seed in a hotbed in January or February; when the plants are large enough, transplant three inches apart in boxes or in other hotbed until time to plant out; if hardened off, they are seldom injured by planting out as early as ground can be properly prepared, 2 1/2 feet apart each way; keep well hoed, and bring earth gradually up to their stems, watering freely in dry weather, and especially when they begin to head.

Mitchell's Special Strain, Selected Erfurt. One of the earliest in cultivation, small-leaved dwarf, for forcing or open ground, producing very solid, pure white heads of the finest quality; ordinary seasons every plant will produce a marketable head. Pkt. 20c.; quarter oz. 75c.; oz. \$2.50; \$8.00 per 1/2 lb.

Earliest Snowstorm. Earliest and best for forcing; dwarf, with short outer leaves, can be planted two feet apart each way; sure to make large fine heads; must be kept growing constantly, will not stand a check at any period of its growth. Pkt. 25c.; \$1.50 per quarter oz.; \$5.00 per oz.

Early Snowball. A splendid early dwarf variety, producing magnificent white heads. Pkt. 20c.; 75c. per 1/2 oz.; \$2.50 per oz.; \$7.50 per 1/2 lb.

Blumen-Kohl (Ger.)
CAULIFLOWER
 Chou-Fleur (Fr.)

One ounce produces about 1500 plants

Half Early Paris. A popular, white, sure heading variety, good for early or late use. Pkt. 10c.; oz. 65c.

Lenormand's Short Stem. A large, late short-stemmed variety, with well formed white heads. Pkt. 10c.; oz. 65c.

Velch's Autumn Giant. One of the finest late varieties of robust habit, heads large, compact. Per pkt. 10c.; oz. 65c.

Sutton's First Crop. Per original pkt. 50c.

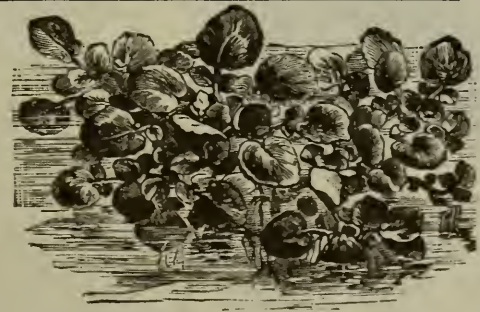

Algiers. One of the best late sorts; always produces a good head. 10c. per pkt.; per oz. 75c.

CARDOON

The midribs are the edible parts, desirable for soups or stews, after being blanched in the same manner as celery. Sow in April in drills one inch deep; when one year old transplant in trenches of well manured ground three feet apart and one foot in the rows. The roots remain from year to year. Is now also used as a boarder plant around large beds of cannas and grasses. Pkt. 10c.; oz. 40c.

CHIVES For Seasoning. Strong Plants, 10c. each; per doz. \$1.00; \$7.50 per 100.

Cauliflower Plants Spring plants, best varieties, Ready about April 1st, 25c. per doz.; \$1.25 per 100. Wintered over Cauliflower Plants, strong and healthy, 40c. per doz.; \$2.00 per 100.

Water Cress.

Corn Salad.

CRESS

Kresse (Ger.) Cresson (Fr.)
 Sow thickly in early spring in drills one foot apart, and follow every two weeks with a new sowing as it quickly runs to seed. Water-cress should be sown along the margin of ditches, ponds, or better still, of slow running streams. It requires no care except to free it at first from weeds.

Extra Curled or Pepper Grass. Fine flavor, can be cut several times. Pkt. 5c.; oz. 10c.; 1 lb. 50c.

Upland Cress. Perennial, grown in the same manner as spinach; resembles water-cress in flavor. Pkt. 10c.; oz. 50c.

CHICORY

Large Rooted. Pkt. 5c.; oz. 10c.; 1/4 lb. 25c.; 1 lb. 80c.

CHERVIL

Gartenkerbel (Ger.) Cerfeuil (Fr.)
Curled or Doubled, Pkt. 5c.; oz. 15c.; 1 lb. \$2.00.

WATER-CRESS

Brunnenkresse (Ger.) Cresson de Fontaine (Fr.)
 The pleasant and peculiar flavor of the water-cress, and also the hygienic properties have caused it to be highly esteemed for table use. Its culture can be carried on anywhere where there is sufficient supply of fresh, pure water; it is not even necessary it should be running water; it can be renewed often enough to keep it clean and pure. It can be grown without water even, in tubs half filled with good soil and kept in a moist, shady position with an occasional watering.

True Erfurt. Pkt. 10c.; oz. 40c.; 1 lb. \$3.50.

CORN SALAD

Acker Salat (Ger.) Mache (Fr.)
 For early spring use sow the seed in September thickly in drills quarter-inch deep. Protect with litter when cold weather comes and winter over like spinach. One ounce will sow 35 feet of row.

Large Round Leaved. Pkt. 5c.; oz. 10c.; 1/2 lb. 20c.; 1 lb. 55c.

Celery.

Sellerie (Ger.)

Celeri (Fr.)

One ounce of seed will produce about 2000 plants.

Sow the seed late in March, or early in April, on fine, well worked soil. Cover slightly, or better still, roll or press it. Shade the young plants for a week or ten days, and do not let the soil dry out. Cut them once or twice before setting out to make them stocky. When from four to six inches high transplant into broad shallow trenches or to level ground, setting dwarf sorts in rows three feet apart, and tall sorts four feet apart, six inches apart in the rows. To store for winter use select well drained ground, dig trenches one foot wide and deep enough to cover tops of plants. Pack stalks in this in an upright position, covering with boards to shed the water, and in severe weather protect with straw or leaves and celery paper. **Michell's "Far Superior Many Heart."** We can especially recommend this variety to every grower of celery; its quality is superior to most other varieties, an excellent keeper over winter and produces plenty of heart which is now the most important point in celery. Pkt. 10c., 30c. per oz., 85c. per ¼ lb., \$3.00 per lb. *Godfrey Lafferty, Gardener to Mrs. Longstreth, 55th and Springfield avenue, Philadelphia, bought ½ lb. Michell's "Far Superior Many Hearts" Celery Seed and realized over 30,000 strong, healthy plants. He considers it the best he has ever grown.*

Crawford's Half Dwarf. An old and always reliable variety, still in demand, good winter keeper. 10c. per pkt., per oz. 25c., 75c. per ¼ lb.

Perle Le Grand. Full golden heart, and rich nutty flavor, a good early celery, and a good winter keeper. Pkt. 10c., oz. 40c., ¼ lb. \$1.25, lb. \$4.00.

Large white Solid. (True). Pkt. 5c., oz. 25c., 75c. ¼ lb.

Improved Dwarf Golden Heart. Heart large and full, of a golden yellow, excellent for either market or private use; solid, of excellent flavor, and keeps well. Pkt. 5c., oz. 20c., lb. \$2.00.

Winter Queen. (New). Very solid half dwarf, will keep fresh later than any other variety. 10c. pkt., 35c. per oz., \$1.00 per ¼ lb., \$3.50 per lb.

"Fin de Siecle." This is one of the very best varieties in cultivation, stalks thick and compact, very crisp and fine flavor. Pkt. 10c., oz. 35c., ¼ lb. \$1.00, \$3.50 per lb.

Cooper's Improved Cutting or Branching. The leaves are used as greens for flavoring soups. Plants are pulled when few inches high and bunched for market. Pkt. 10c., oz. 15c.

Giant Pascal. A superior keeping sort. The stalks are very large, thick, solid, crisp, and of a rich nutty flavor. Pkt. 5c., oz. 25c., ¼ lb. 75c., lb. \$2.50.

Boston Market. A short, bushy, white, solid, excellent flavored variety, constantly in demand. Pkt. 10c., oz. 25c., ¼ lb. 75c., lb. \$2.50.

White Plume, Improved. (True Stock). The best for early use, crisp, solid, nutty flavor. Pkt. 10c., oz. 25c., lb. \$2.50.

Sutton's White Gem. Per original pkt. 40c.

Golden Self-Blanching. Compact, large, solid, crisp, and of a nutty flavor, with a rich golden heart. Pkt. 10c., oz. 30c., lb. \$3.50.

Self-Blanching Paris Pink. The very best pink variety yet introduced. Its quality is very highly praised by celery growers and has given universal satisfaction. Pkt. 15c., oz. 50c., ¼ lb. \$1.50.

Red Solid or Rose. Pkt. 5c., oz. 25c.

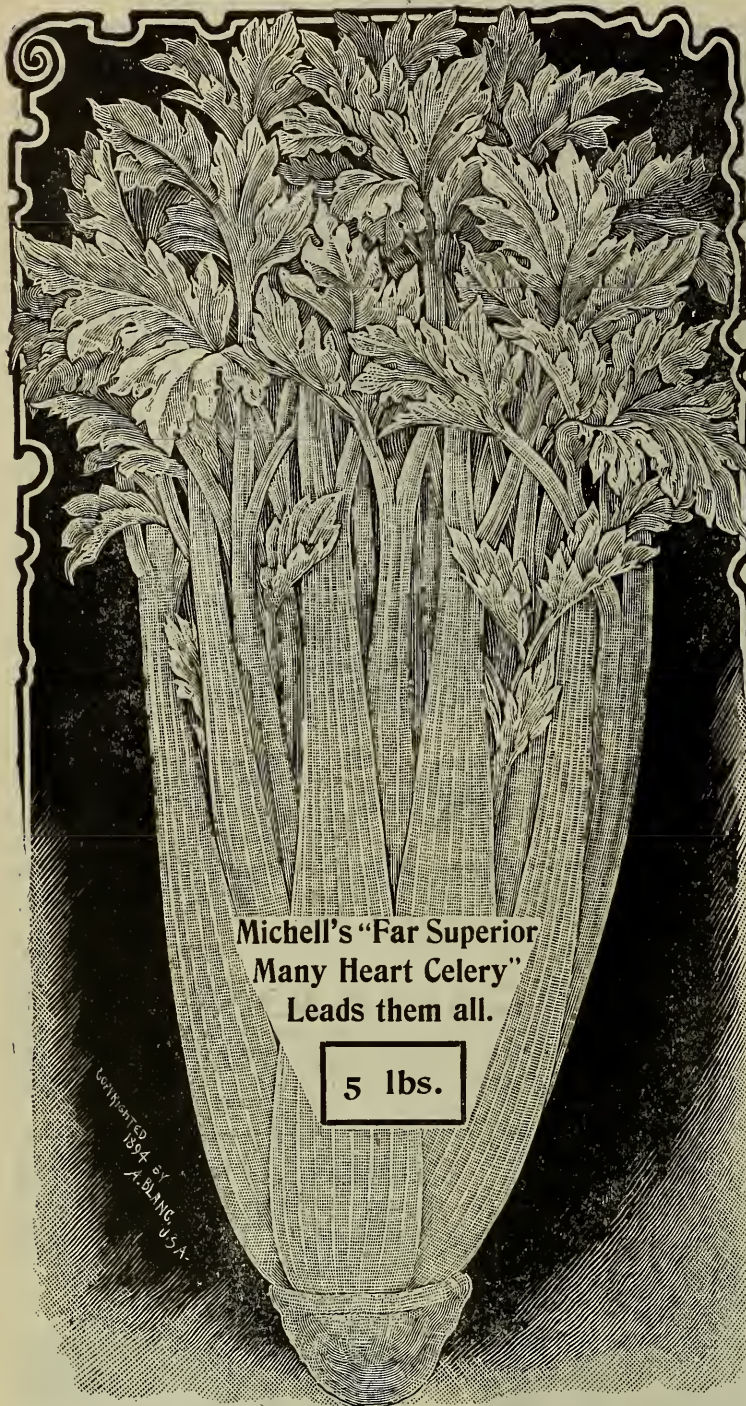

Henderson's "Pink Plume." Very solid and crisp, extra early and a long keeper. A self-blanching variety, and requires but a slight earthing-up or banking. Pkt. 10c., oz. 30c.

Heartwell Perfection. Pkt. 5c., oz. 20c., lb. \$2.00.

Celeriac or Turnip-Rooted. Large, early Erfurt variety. The root cooked or sliced and used with vinegar, makes an excellent salad. Pkt. 5c., oz. 20c., lb. \$1.50.

Soup or Flavoring Celery. Used for soups, stews, etc., and not for sowing. Oz. 5c., lb. 30c.

We strongly advise using **Rosin-Sized Paper** for covering celery over winter. \$1.00 per roll of 500 square feet.

We offer \$5.00 in 2 prizes for the best 6 stalks of Celery of any named variety or varieties exhibited at the Philadelphia Chrysanthemum Show in November, 1901.

Cucumber.

Gurke (Ger.)

Concombre (Fr.)

One ounce of seed will plant about fifty hills, or two pounds per acre.

For early use sow in hothouse on small sods overturned, or in small pots plunged in earth. As soon as danger from frost is over, transplant with sod, so as not to disturb the plants, into hills in the open ground. For general crop sow from about the first to the middle of May in rich, mellow, warm soil. Use a shovelful of well-rotted manure in each hill and cover it two inches deep with fine earth. On this sow the seed, about eight or ten seeds to a hill; cover one-half inch with earth and press down. When danger from bugs is past thin out to four plants to a hill. For pickles, plant from June to middle of July.

Livingston's Evergreen. Very hardy and probably the most prolific of all varieties. Very early, and the cucumbers retain their beautiful green color longer than any other sort. It is one of the very best varieties for slicing. Pkt. 5c., oz. 10c., ¼ lb. 25c., lb. 80c.

Early Russian. The earliest variety; the fruit is of small size and produced in pairs. Pkt. 5c., oz. 10c., lb. 65c.

Early Frame. A good old popular variety, of medium size. Pkt. 5c., oz. 10c., lb. 65c.

[CUCUMBER continued on next page.]

CUCUMBER—Continued

- Livingston's Emerald (New).** A new and most excellent rich green variety, either for outdoor culture or for growing under glass. Pkt. 10c., 3 pkts. for 25c.
- Improved Early White-spined.** The favorite market variety, largely used for forcing, and extensively grown South for shipping North early in the season; of medium large size, deep green, crisp, fine flavor, and very productive. Pkt. 5c., oz. 10c., lb. 60c.
- Everbearing.** Pkt. 5c., oz. 10c., lb. 60c.
- Tailby's Hybrid.** A variety hybridized with the White-spined and English prize, retaining the beauty of the Long English and hardness of the White-spined; of large size and excellent for slicing; splendid forcing variety. Pkt. 5c., oz. 10c., lb. 75c.
- Jersey Pickle or Green Prolific.** One of the best pickling varieties; dark green, tender, crisp, and great productiveness, of fine flavor, and good for table use. Pkt. 5c., oz. 10c., lb. 60c.
- Long Green Turkey.** The leading long green variety for pickling; of excellent quality and productiveness, fruit dark green, firm and crisp; can be gathered any size while young for pickles. Pkt. 5c., oz. 10c., lb. 60c.
- Small Gherkin or Burr.** Also known as the West India or Jerusalem Pickle; used only for pickling while young and tender. Pkt. 5c., oz. 20c., lb. \$1.00.

ENGLISH PRIZE FORCING CUCUMBER

Sow the seeds in small pots about the middle of January; when they have grown to three leaves plant in a prepared hill of rich, loose soil in the centre of a sash.

Michell's
Selected
New York
Improved

Michell's Selected Stock New York Improved Large Purple Egg Plant.

Eierpflanze (Ger.).

Egg Plant

Aubergine (Fr.).

One ounce of seed will produce about 1000 plants. Grown by a specialist in New Jersey.

Sow the seed in a hotbed in March or April, when about three inches high pot the plants and plunge in earth; transplant in open ground in May or June according to the warmth of the season. Uniform heat is essential to this plant, and it rarely recovers from the least chill in its early growth. Set out according to richness of soil, two or three feet apart each way.

Michell's New York Improved Large Purple. The leading variety; large, round, dark purple, most productive variety. Pkt. 10c., oz. 30c., $\frac{1}{4}$ lb. 75c. \$2.50 per lb.

Early Long Purple. The earliest and hardiest, very productive. Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 75c.

Black Pekin. Pkt. 10c., oz. 30c.

Egg Plants

Ready May 15th.

New York Improved. True and pure. Pot grown per doz. 50c.; hotbed grown, per doz. 30c.; per 100, \$2.00.

Winter Kohl (Ger.) **Kale or Borecole** Chou-Verts (Fr.)

They are more hardy than cabbage, and are improved by frost, but the time and manner of sowing, and the culture are identical with cabbage.

Dwarf Green Curled. Very hardy, leaves numerous, frilled and of excellent quality. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 75c.

New Imperial, or Long Standing. A beautiful curled and crimped sort, selected by a Philadelphia market gardener; of strong, vigorous habit, perfectly hardy, bright green color, and very attractive in appearance. It is superior to all other sorts, and will stand longer without shooting to seed than any other variety. Height about two feet. Pkt. 5c., oz. 10c., ¼ lb. 25c., lb. 75c.

Tall Purple Scotch. Finely curled, one of the best sorts. Pkt. 5c., oz. 10c., ¼ lb. 30c., lb. \$1.00.

Knoll Kohl (Ger.) **Kohl=Rabi** Chou-Raves (Fr.)

For early use sow in hotbed, transplant and cultivate like early cabbage. For winter use sow the middle of June or first of July in rows, eighteen inches apart, thin out to eight inches in the row.

Early White Vienna. Pkt. 5c., oz. 25c., ¼ lb. 75c., lb. \$2.50.

Early Purple Vienna. Pkt. 5c., oz. 25c., ¼ lb. 75c., lb. \$2.50.

Martynia

Proboscidea. The seed pods are used to a considerable extent for pickling when gathered green and tender. Sow in the open ground in May, and transplant two feet apart. Pkt. 10c., oz. 30c., ¼ lb. \$1.00, lb. \$3.00.

Lattich (Ger.) **Lettuce** Laitue (Fr.)

One ounce for 150 feet of drill, or 1000 plants.

Lettuce thrives best in rich, moist ground. For the principal early crop sow the seed in September in the open ground; transplant when large enough into cold frames, and protect the plants during the winter in the same manner as early cabbage; set the plants out early in April, or sow the seed in hotbeds in February or March, and transplant to a southern exposure. Always thin out well or the plants will not head. When wanted as a cut salad sow the seed thickly in rows or broadcast.

We offer \$5.00 in Two Prizes for the best Six Heads of Lettuce exhibited at the Philadelphia Chrysanthemum Show, Nov. 1901.

Michell's Very Best. Produces a medium size perfect head of the very best quality. Good for outdoor or frame growing. 10c. per pkt., 3c. per oz., \$1.00 per ¼ lb.

Big Boston. It is about one week later in maturing, but its solidity and greater size of head will make it a most valuable sort. A most desirable variety either for forcing in cold frames or open ground planting. Pkt. 5c., oz. 25c., ¼ lb. 65c., lb. \$2.00.

Black-Seeded Simpson. Produces a compact mass of leaves, nearly double the size of the ordinary Simpson, standing well the summer heat. Pkt. 5c., oz. 15c., ¼ lb. 40c., lb. \$1.25.

Boston Market. White seed. Hardy and crisp; earliest heading variety; one of the best for forcing. Pkt. 5c., oz. 15c., ¼ lb. 40c., lb. \$1.50.

LETTUCE—Continued.

Dutch Butter Spotted. The old and always reliable variety, especially adapted for cold frames and hotbeds; produces a solid tender head. Pkt. 5c., 20c. per oz., 50c. per ¼ lb., \$1.50 per lb.

Defiance. (Summer.) Pkt. 5c., 15c. per oz., per ¼ lb. 40c.

Deacon Improved. Excellent summer variety. Pkt. 5c., 20c. per oz., per ¼ lb. 50c., \$1.50 per lb.

Denver Market Forcing. A very good curled sort, produces good size, solid heads. Pkt. 5c., oz. 15c., lb. \$1.25.

Early Cabbage or White Butter. A favorite for sowing in the spring or fall, nearly hardy, requires only a slight protection; produces fine well-formed heads. Pkt. 5c., oz. 15c., ¼ lb. 40c., lb. \$1.25.

Early Curled Simpson. Does not head, but forms a close, compact mass of leaves; very early, excellent for forcing. Pkt. 5c., oz. 15c., ¼ lb. 50c., lb. \$1.50.

Early Tennisball. Black seed. Forms a close, hard head, the best forcing sort. Pkt. 5c., oz. 15c., ¼ lb. 40c., lb. \$1.25.

Forcing Emperor (True). A medium size, compact-growing, very early variety; very crisp and tender and unequaled for forcing. Pkt. 5c., oz. 20c., ¼ lb. 50c.

Golden Queen. A very desirable early variety, second to none for forcing. At first glance it seems to be of medium size, but it forms all solid heads with little or no waste, so that there is really more to it than in any Lettuces double the size. Very crisp, tender and juicy. Pkt. 5c., oz. 15c., ¼ lb. 40c., lb. \$1.50.

Grand Rapids Forcing. An excellent variety, grown most extensively in the West, but has given the best satisfaction wherever grown; does not produce a large head. Pkt. 5c., oz. 15c., lb. \$1.25.

Hanson Improved Hard Head. A superior curled heading variety. Pkt. 5c., oz. 15c., ¼ lb. 40c., lb. \$1.25

Iceberg. Fine head, curly and good flavor. Pkt. 5c., oz. 20c., ¼ lb. 50c.

Michell's All Right Spring and Summer. Without a doubt one of the very best smooth varieties. We recommend this very highly for a general cropper at all seasons. It withstands the heat of the Summer, and can also stand the cold late in autumn. The heads are very large and solid, and is a true butter variety. 10c. per pkt., 25c. per oz., ¼ lb. 75c., \$2.50 per lb.

Michell's All Right Spring and Summer.

Romaine, Cos or Celery. Long upright heads of leaves which are tied up and bleached to make them very tender. Extensively used in Paris. Pkt. 5c., oz. 20c., ¼ lb. 50c., lb. \$1.50.

Royal Cabbage Summer Drumhead. Pkt. 5c., oz. 15c., lb. \$1.25.

Salamander. Summer variety forming good-sized heads. Pkt. 5c., oz. 15c., ¼ lb. 40c., lb. \$1.50.

Sensation. The very best for open ground, will stand the hottest summer. Beautiful light yellowish green color. Forms solid heads. Pkt. 10c., oz. 25c., ¼ lb. 75c., lb. \$2.00.

Sutton's Favorite. 40c. per original pkt.

Sutton's Giant. 25c. per original pkt.

Silver Ball Improved. Excellent for summer; very firm and compact; rich flavor. Pkt. 5c., oz. 20c., ¼ lb. 50c., lb. \$1.25.

White Russian Summer. One of the best sorts to withstand the extreme heat. Pkt. 10c., oz. 30c.

"Wonderful." The largest cabbage head lettuce, very tender and crisp, and has no bitter taste, stands the heat. 5c. per pkt., 20c. per oz., 60c. per ¼ lb.

LETTUCE PLANTS
Ready in April

Best heading varieties. Per 100 40c., per 1000 \$3.00.

Large Musselburgh Leek.

Leek

Lauch (Ger.).

One ounce to 100 feet.

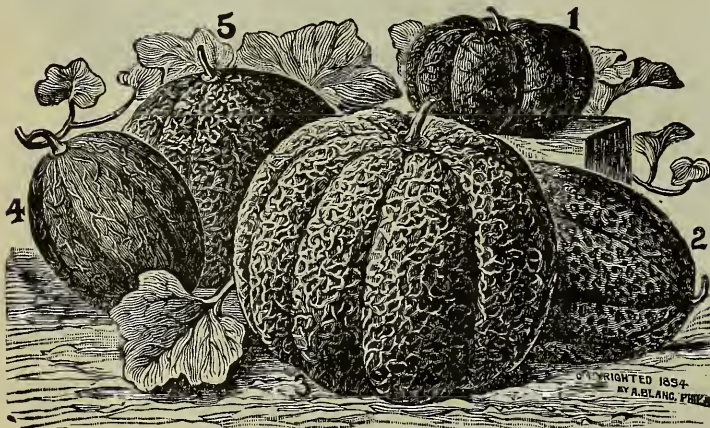

Poireau (Fr.).

Plant the seed in April, in drills one foot apart and one inch deep. When six or eight inches high, remove the plants to deep, rich soil, setting them in rows twelve to fifteen inches apart in the rows; plant as deep as possible, and during growth draw the earth to them to blanch stems. One ounce will produce about two thousand plants.

London Flag. Hardy, large, strong plant, with broad leaves. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 40c., lb. \$1.25.

Large Musselburgh. Of enormous size, leaves large and broad. Of very mild, pleasant flavor. Pkt. 5c., oz. 20c., $\frac{1}{4}$ lb. 40c., lb. \$1.50.

Giant Carentan. Pkt. 5c., oz. 20c., lb. \$1.50.

Musk Melon.
(Cantaloupe)

Melone (Ger.).

Melon (Fr.).

One ounce for seventy-five hills; two and one-half pounds to the acre.

A rich, warm, sandy soil is the best for the musk melon. Plant the seed when the ground is warm. Plant from six to twelve seeds in hills six feet apart each way, and when danger from bugs is past, thin to three vigorous plants in a hill. When the shoots are a foot long pinch off the tips to make them branching and strengthen the vine. Thin out the fruit if it is excessive, the remaining melons will thereby increase in size and ripen earlier.

Be careful not to grow pumpkins, squashes or cucumbers near musk melons.

Onion

Zwieble (Ger.) Ognon (Fr.)

One ounce for 100 feet of row; for sets 50 lbs. to the acre.

For sets, sow the seeds as early as possible, in the spring, very thickly, in drills. As soon as the tops die off in summer, remove them to a dry, airy place; and early in the following spring, replant them by placing sets in shallow drills twelve inches apart and about four inches apart in the drills. They may also be grown to full size during the first season by sowing thinly in drills one foot apart and about one-fourth of an inch deep, in March or early in April, well manured, and thinning them out to stand three or four inches apart in the drills. They delight in a strong, rich, deep, loamy soil, and succeed well if grown successive years on the same ground.

Bermuda Large White. The earliest. Pkt. 10c., oz. 30c., ¼ lb. \$1.00, lb. \$3.00.

Bermuda Large Red. (Extra early). Pkt. 10c., oz. 30c., ¼ lb. \$1.00, \$3.00 per lb.

Extra Early Red. Pkt. 5c., oz. 15c., lb. \$1.50.

White or Silver Skin. A mild-flavored early variety, extensively grown for pickling. Pkt. 5c., oz. 25c., ¼ lb. 75c., lb. \$2.50.

Yellow Danvers. An excellent early oval, straw colored variety, of mild flavor, productive and a good keeper. Pkt. 5c., oz. 15c., ¼ lb. 45c., lb. \$1.35.

Prize Taker Mammoth Yellow. Large round, rapid grower; attains full size in one season. Pkt. 10c., oz. 20c., lb. \$1.75.

Yellow Strasburg or Dutch. A good keeper; somewhat flattened shape. Pkt. 5c., oz. 15c., ¼ lb. 45c., lb. \$1.35.

Large Red Wethersfield. Grows to full size the first season from seed, almost round, large size, deep red color, and keeps well. Pkt. 5c., oz. 15c., ¼ lb. 45c., lb. \$1.35.

Southport Yellow Globe. Pkt. 5c., oz. 20c., ¼ lb. 45c., lb. \$1.50.

Parsnip

Pastinake (Ger.) Panais (Fr.)
 One ounce to 150 feet; five pounds to the acre.

Sow early in spring in drills fifteen inches apart and one-half inch deep; when plants are two or three inches high, thin out to six inches in the rows, cultivate often until the leaves cover the ground. These roots are improved by frost, and can be left in the ground over winter.

Improved Sugar or Hollow Corn. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 60c.

Guernsey or Student. Half long and thick. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 60c.

Covent Garden Curled Parsley.

Pepper

Pfeffer (Ger.)

Piment (Fr.)

One ounce will produce about 100 plants.

Sow in hotbed in April, and transplant the plants to open ground in warm, settled weather to rows two feet apart and eighteen inches in the rows, or when all danger of frost is past, sow at once in the open ground and thin to the same distance as above. Any rich fertilizer, if applied and stirred into the soil when the plants are six inches high, will be found of great benefit.

Large Sweet Bell or Bull Nose. Large variety, mild, rind thick, fleshy; best for pickling and pepper sauce, or filled as mangoes. Pkt. 5c., oz. 25c., ¼ lb. 65c., lb. \$2.00.

PEAS

Erbse (Ger.)

Pois (Fr.)

One quart to 100 feet of row.

Extra Early Sorts.

Peas succeed best in light, dry, loamy soil. Early and dwarf sorts require richer soil than the late varieties. If manure is used, let it be old and well rotted, or there will be a rank growth of vines with few pods. Sow the early, smooth, round sorts as early in the spring as the ground can be worked. Seeds of wrinkled varieties are more liable to rot if the ground is cold, and must be planted later. Sow seed in single rows, three feet apart, for dwarf sorts, and four for tall sorts, or in double drills, six to eight inches apart, one inch apart in the drill, and not less than four inches deep, for late sorts seven to eight inches deep. Deep planting prevents mildew.

Michell's Dandy Extra Early. Selected from first crop of Eureka's and are the best extra early pea in the market. Pkt. 10c., qt. 30c., ½ pk. 85c., pk. \$1.40, bu. \$4.50.

Black-eyed Marrowfat. Extensively grown, hardy, productive, four feet high. Qt. 15c., pk. 70c., bu. \$2.25.

NEW POTATO, MICHELL'S EXTRA EARLY "BEATS THEM ALL."

Advantages of Changing Seed Potatoes.

There is no other crop that we raise that is so much benefited by the introduction of fresh seed from time to time as the potato. They seem to take on new life and prosper wonderfully, provided the change is to a well-selected stock, and the further north it is grown, the better. Our best customers will not plant their own raising of seed at all, but buy of us every year. They can grow nearly double the crop on the same land that they can from their own raising, and the tubers are smoother, handsomer and of better quality and more salable in the markets.

Kartoffel (Ger.).

POTATOES.

Pomme de Terre (Fr.).

PLANT TEN BUSHELS TO THE ACRE.

The soil best suited to the potato is a rich, sandy loam; being a gross feeder, it requires a liberal application of manure; if stable manure is to be used it should be well rotted and not allowed to come in contact with the tubers. On no other crop are the results from the use of phosphates so manifest as on the potato; almost invariably the tubers are brighter, smoother and freer from rust and the destructive influence of wire worms. The best fertilizers are plaster, lime, super-phosphate of lime, and bone dust, for heavy and wet soils especially, as they promote growth, and at the same time, prevent disease. Plant as early in spring as the ground can be thoroughly worked, in rows three feet apart and one foot in the rows.

NOTICE—Our Seed Potatoes are all NORTHERN GROWN. Customers may rely upon getting the very best stock in the market.

PRICES MAY Fluctuate somewhat.

Radish

Radies (Ger.) Radis (Fr.)
 One ounce to seventy-five feet of row.

Radishes delight in light, rich, mellow soil, and to be crisp and tender, must make rapid growth. For very early use sow in a gentle hotbed in January, and continue sowing every two weeks until September, choosing the varieties suited to the season; sowings should be made in drills ten inches apart, and the plants should be thinned to two inches apart in the row. Sow winter radishes in July and take up before severe frosts and store in sand or earth in a cool cellar.

PHILADELPHIA

Sown with

Michell's Non-Superior Evergreen Lawn Grass Seed

Mr. Drahn, the Superintendent of Girard Park, informed us that it was a perfect green carpet, absolutely free from weeds.

HOW TO MAKE A LAWN

Some previous cultivation, or at least a thorough turning over should be given. A clayey loam is the best foundation for a good lawn. Let the surface be graded to the level wanted in all parts and well rolled—a light raking following this will prepare for the seed sowing, which should be done as early in the spring as the ground can be worked, provided the ground has not already been prepared in the fall. The very best time, the ground being in order, is about April 1st. Three to four bushels per acre should be sown; the latter amount is best, for the young plants are but small and if thick, cover the ground better and make a smoother and more even turf. Mowing should be done at least once a week in favorable growing weather, and even in dry weather it should be cut twice a month. Do not allow the clippings to remain on the ground, except they are very short.

Michell's Own Special Formulas of Lawn Grass Seed Mixtures

Michell's "None-Superior Evergreen" Lawn Grass Seed. This mixture is made of the finest varieties, presenting the appearance of the lawn like a bed of dark green velvet. We can safely say that there is no better mixture in the market. The seeds used are all fresh and re-cleaned, and enough white clover is added to make it strong and durable. Per qt. 25c.; 2 qts. for 40c.; 4 qts. 65c.; \$1.00 per peck, \$4.00 per bushel of 20 lbs. Five to ten bushel lots \$3.65 per bushel.

Please note that we give 20 pounds per bushel, which is equivalent to 1 1/3 bushel.

Fairmount or Central Park Lawn Mixture. A very fine mixture, which we can highly recommend. Qt. 20c.; pk. 75c.; bush. (15 lbs.) \$2.75; five to ten bush. lots, \$2.50 bush.

Phila. Country Club Golf Grounds Mixture. P. F. Foy's special formula. Strictly reliable. \$2.50 per bu.; 5 bu. lots at \$2.25 per bu. Special price on application for larger quantities.

UNSOLICITED TESTIMONIALS

THE HILL SCHOOL, Pottstown, Pa.
Please send us as soon as possible . . . bushels of YOUR SPECIAL FORMULA GOLF GREENS Grass Seed, same as you sent me last November. The seed has been most satisfactory.
Yours truly,
H. C. YARROW, JR., Secretary, Hill School Golf Club.

Michell's Putting Greens Mixture. This is a new mixture of our own; made up especially from such grasses as will grow very short and make a solid surface to withstand heavy wear. Bush. of 20 lbs. \$4.00. Ask for special price on quantity.

Michell's Shady Lawn Mixtures. Specially adapted for lawns on which there are trees, and where the usual grass seeds do not thrive. Peck, \$1.25; bush. of 18 lbs. \$4.00.

Michell's Special Formula Permanent Pasture Grass Seed

20 lbs. per bushel, \$3.00 per bu.; 5 bu. lots, \$2.60 per bu.; 10 bu. lots and over at \$2.50 per bu.

This special mixture is made by us after careful study of the very best permanent, hardy varieties of grasses, such as will produce a quick growth and of a permanent nature. All the different varieties contained in this special formula are especially adapted either for cutting for hay or pasturing horses and cattle, and can be relied upon to give the very best results. We recommend this mixture either for making entirely new pasture fields, or for replenishing partly worn out pastures.

2 1/2 bushels per acre is the proper quantity to sow on new fields, whereas one to 1 1/2 bushels per acre is sufficient for re-sowing and replenishing old fields.

P. S.—We have numerous unsolicited testimonials from our best customers, praising the results derived from this mixture.

Branching Asters (Semple's True Strain) from a Photograph.

Asters (Queen Margaret)

There is no flower which combines so much beauty and variety of habit and shape, with such brilliancy and richness of color, as this; it is splendid for bedding, bordering or pot culture. Give it rich soil and plenty of water for the best results. The seed we offer has been saved from the very best double flowers only.

Semple's Branching Large Flowering. Without doubt the best garden aster, produces flowers of immense size on very long stems, which make them a most desirable cut flower.

- 88 **Semple's Bright Red.** Pkt. 10c., 1/8 oz. 30c.
- 89 " **Pure White.** Pkt. 10c., 1/8 oz. 30c.

COSMOS.

An autumn flowering plant. The large flowers are born profusely, and present a charming appearance when the plants are in full blossom as they wave to and fro in every passing breeze. Seed should be sown early in spring and the plants transplanted in the open border when danger from frost is past. If young plants are starved a little it will have the effect of bringing them into bloom earlier.

FRINGED PERPETUAL BLOOMING "ALLEGHENY".

Blooms the first season from seed if sown early. Its points of merit are: The novel shape of the flower and the fringed edges, and its large size, from 5 in to 7 in. diameter. In addition hereto the color is something fine, and the appearance of the petals convey the idea that they were made of crushed silk, on account of the delicate colors. **The immunity from disease is a good point,** and the fact that at each axil are 3 to 4 buds, which all develop, is also a good point; this prolongs the blooming season. They come 90 per cent. true from seed.

No. 510. Choicest mixed of all colors. 10c. per pkt., 6 pkts for 50c.

SWEET PEAS

NEW CROP 1900

SWEET PEAS

NAMED VARIETIES
LARGEST FLOWERING SORTS

When properly grown, are nearly double the size of the ordinary varieties, of perfect form, and present combination in marking and colors heretofore unknown in this exquisite flower. The seed should be sown as early as the ground can be worked in the spring to enable the vines to get a good strong growth before the warm weather comes. Prepare the ground thoroughly by working in a large quantity of well-rotted manure, sow the seed and cover two inches deep. As fast as the flowers come into full bloom or fade, they should be cut off, for if seed pods are allowed to form, the plants will stop blooming. Seed may be sown late in the autumn.

NOTE.—Where two colors are used to describe a shade the last named color predominates.

Pink Cupid Sweet Peas
These are really a grand addition to the Sweet Pea family. The seeds germinate fully 95 per cent, and can be fully relied upon to give the very best satisfaction. The plants are literally covered with Sweet Pink Flowers, and grow only 8 inches high. Per pkt. 5c.; per. oz. 10c.; per 1/4 lb. 25c.

PINK CUPID DWARF SWEET PEAS

Everlasting Peas

- 920 **Choicest Mixed.** Hardy perennial. Will bloom the first season if sown early. Pkt. 5c., oz. 3c.
- 1015 **Pure White.** Pkt. 10c., oz. 30c.
- 299 **Yellow.** (Crotalaria Retusa), 10c. per pkt., 3 pkts. for 25c.

"IMPORTANT" SPECIAL NOTICE
TROUBLE is at times experienced in getting WHITE varieties (white seeded) Sweet Pea seeds to germinate. We therefore advise sowing these shallow, barely covering them. (which should be with sand) KEEPING THEM ALMOST DRY until well started, say 2 to 3 inches high, they can then be covered up more, and hilled up like the other varieties.

Tagetes (*Single Marigold*).

A dwarf Globular compact, bushy plant, densely covered with flowers, valuable for borders as well as beds. Half hardy annual.

969 **Pumila Golden Ring**. Orange color. Pkt. 5c.

Torenia

Splendid for vases, hanging baskets or borders out of doors; they are covered until late in the season with one mass of bloom.

970 **Fournieri — Princess Helen of Montenegro**. (New). Pkt. 15c.

971 **Fournieri Grandiflora**. Flowers much larger and more showy than Fournieri. Pkt. 10c.

CANNAS. The Best Varieties.

We have a large supply of Cannas, grown under contract for us by one of the leading growers in this country. They can be relied upon to be true and sure-blooming roots, mostly all with two or three shoots.

Alphonse Bouvier. Rich velvety red; very large truss and flower; petals broad and wavy. Each 8c., per doz. 75c., per 100 \$5.00.

Austria. A splendid variety; grows five feet high; leaves 15 to 18 inches long and 8 to 10 inches broad. Flowers 6 to 7 inches across and borne erect in immense trusses; color pure deep golden yellow, truly magnificent. 10c. each, \$1.00 per doz., \$6.00 per 100.

"Alsace" (White Canna). A vigorous grower with green foliage, four feet high, 10c. each, \$1.00 per doz., \$7.00 per 100.

Allemania. Very large salmon flowers with yellow border; foliage dark green; a most desirable bedding variety. 12c. each, \$1.25 per doz., \$8.00 per 100.

Burbank (New). Very large flowering, rich yellow, with very substantial heavy light green foliage. Height about four feet. 10c. each, \$1.00 per doz., \$6.00 per 100.

Charles Henderson. A grand variety of a fine crimson color. $3\frac{1}{2}$ feet in height, a desirable companion to Florence Vaughan. Each 8c., per doz. 75c., per 100 \$5.00.

Chicago. Four feet, green foliage. The large flowers open out nearly flat, petals $1\frac{1}{2}$ inches wide and five in number; in this respect the Chicago fairly out-classes all Cannas. The color is a clear, deep vermilion scarlet. 15c. each, \$1.25 per doz., \$8.00 per 100.

Columbia. A perfect gem; color rich cardinal red; of branching habit, sometimes has three or four trusses of bloom on the same spike, all open at the same time producing a mass of blooms at an even height. Price 15c. each, \$1.25 per doz., \$8.00 per 100.

Eldorado. Bright clear yellow, lightly marked with crimson, light green foliage. The best yellow Canna for general effect, being a very profuse bloomer. 10c. each, \$1.00 per doz., \$6.00 per 100.

Egendale. Valuable as a bedding variety, bronzy foliage, with large bright cherry red flowers of good shape and substance. It is of compact uniform growth, height four feet, is considered one of the very best dark foliage varieties. Each 10c., per doz. \$1.00, per 100 \$6.00.

Florence Vaughan. Bright rich golden yellow, spotted with bright red; the flowers which are large size; of great substance and perfect form, are borne in large heads and in the greatest profusion; the foliage is massive and of a rich green color, three feet in height. Each 10c., per doz. \$1.00, per 100 \$6.00.

Flamingo. Crimson, growing about three feet high. Each 15c., per doz. \$1.50, per hundred \$7.50.

Golden Star. Rich golden yellow flowers, rich dark green foliage of a strong healthy substance. 10c. each, \$1.00 per doz., \$7.00 per 100.

Golden Border. Three feet high. The flowers are canary yellow, slightly spotted with red; foliage green. Each 10c., per doz. \$1.00.

Italia (Orchid-Flowered Canna). Rich golden yellow with a broad blotch of dark crimson maroon in the centre of each petal and throat. 10c. each, \$1.00 per doz., \$6.00 per 100.

Maidens Blush. The best pink variety. 15c. each, \$1.50 per doz., \$10.00 per 100.

Madame Crozy. Brilliant vermilion scarlet; bordered with deep golden yellow. The foliage is green, broad and massive; the habit of the plant is compact and vigorous; height four feet. Each 8c., doz. 75c., 100 \$5.00.

President Carnot. A distinct bronze foliage variety, with very large flowers of a rich vermilion scarlet. 10c. each, \$1.00 per doz., \$6.00 per 100.

French
Canna.

Philadelphia. (New). This is one of the finest of the new sorts. The flowers are intense deep crimson borne well above the plant, foliage bright green, plant very dwarf; three feet. 20c. each, \$2.00 per doz., \$12.00 per 100.

President William McKinley.—Novelty 1898. Color brilliant crimson. Plant dwarf, growing from $2\frac{1}{2}$ to 3 feet high in rich soil. Foliage deep green, with heavy chocolate margin. An abundant and very early bloomer. The trusses are large, of good shape and held well above the foliage, and the growth is compact and even. The effect when massed is extremely brilliant, the rich crimson color contrasting finely with the deep green foliage. 15c. each, \$1.50 per doz.

J. D. Cabos. 4 to $4\frac{1}{2}$ feet. Flower light orange, large truss. Foliage purple bronze. A good variety. 8c. each.; 75c. per doz.; \$5.00 per 100.

Souv. de Antoine Crozy. The richest gold border variety yet introduced. Dazzling scarlet flowers with yellow border, three feet, green foliage. 10c. each, \$1.00 per doz., \$7.00 per 100.

Queen Charlotte. Rich crimson scarlet with wide gold border on every petal. A very handsome plant, medium in height, compact grower, broad, green leaves, profuse bloomer. Each 10c., per doz. \$1.00, per 100 \$5.00.

Mixed Dwarf French. Containing the best sorts only. Each 6c., per doz. 60c., per 100 \$4.00.

Robusta Perfecta. Very tall growing, dark foliage; variety specially adapted for the centre of Canna beds. Each 8c., per doz. 75c., per 100 \$5.00.

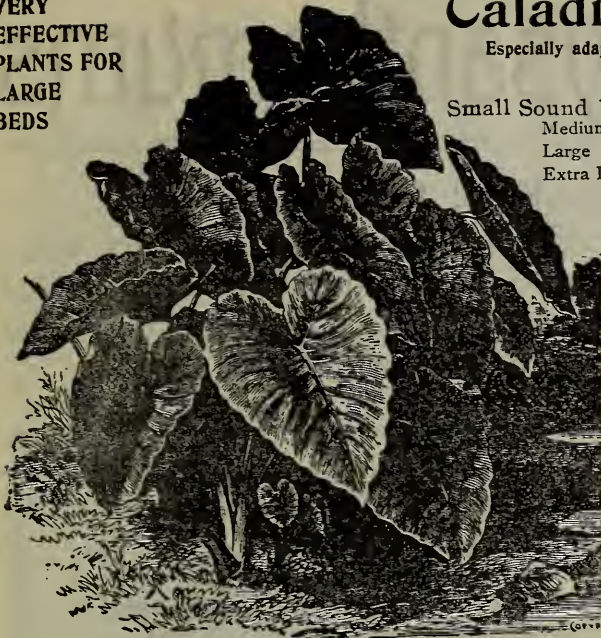

Tall Sorts Mixed. 6c. each, 60c. per doz., \$4.00 per 100.

We also have some extra strong vines of the above sorts at 50c. each, per doz. \$5.00.

HEDGE PLANTS

California Privet—Large Stock, Strong Plants

Exceedingly beautiful, nearly evergreen hedge plants. Very vigorous and hardy; leaves deep green, bright and very glossy. Especially adapted for hedges at the seashore; very easily transplanted. Beware of spurious kinds of privet which are being offered for the above and which are not nearly so desirable. Ours are the genuine California, or Japan Privet (Ligustrum Ovalifolium). Most of them have been transplanted and are furnished with an abundance of fine fibrous roots, are well branched and are sure to give satisfaction.

FERTILIZERS

Sold with our Guarantee.

Ashes. (Canada Unleached Hard Wood). These contain all of the fertilizing elements except nitrogen. They drive away insects, and are indispensable for all crops requiring potash. Apply about 1000 lbs. to the acre. Per 100 lbs. \$1.50; bbl. of 250 lbs. \$2.50; ton of 2000 lbs. \$18.00.

THE COST OF WOOD ASHES can be reduced \$3.00 per ton by customers giving us their order two weeks ahead, to enable us to ship it direct from Canada to the customer. Special rate on application.

Bone Meal. **Michell's Strictly Pure and Fresh.** In fertilization nothing takes precedence in importance over animal bones, because they furnish the soil with the essential requisite of nitrogen as well as phosphoric acid. The most substantial fertilizer for lawns and plants. It keeps on feeding the soil for fully ten months. 3 lb. box 15c.; 5 lb. bag 25c.; 10 lbs. 40c.; 25 lbs. 75c.; 100 lbs. \$2.00; sack of 200 lbs. \$3.50; ton \$30.00.

Baugh's Celebrated \$25.00 Phosphate. \$3.00 per 200 lb. sack; \$25.00 per ton.

Bone. **Pure Ground.** Coarser than bone meal; apply 400 lbs. to the acre. 25 lbs. 75c.; 100 lbs. \$2.00, sack of 200 lbs. \$3.50; ton \$30.00.

Bone Flour. **Pure.** Ground perfectly fine; excellent for pot plants or beds where an immediate effect is wanted. 5 lbs. 25c.; 25 lbs. \$1.25; 100 lbs. \$2.50; bag or bbl. of 200 lbs. \$4.50; ton \$40.00.

Button Bone. (Wahl's Pure). \$3.50 per 200 lb. sack, \$32.00 per ton.

Blood (Dried). Very rich in nitrogen. \$3.00 per 100 lbs.; \$5.00 per 200 lbs.; \$42.00 per ton.

Bowker's **CHEMICAL FERTILIZERS.** For general forcing (indoors or out), apply at the rate of about one pound to each hot-bed sash, or six pounds to every one hundred square feet of bed, thoroughly worked into the soil to the depth of two or three inches.

For forcing lettuce, cabbage, tomato plants, etc., apply from four to six pounds per one hundred square feet, thoroughly mixed with the soil. Half the quantity may be applied a month later.

For carnations, violets and similar plants use at the rate of four to six pounds for every 100 square feet, or two to three pounds may be applied at one dressing, and then a month later apply two or three pounds more. 10 lbs. 50c.; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.00.

Bowker's **Plant Food.** Made especially for plants grown in conservatory, house or garden. Clean, free from offensive odor. Full directions with each package. Package 25c.; by mail 40c.

Clay's Fertilizer. Imported manure especially recommended for flowers or vegetables, to bring the highest perfection. Should be used in potting soil, and spread on staging of greenhouses planted with flowering plants. Per bag of 25 lbs. \$2.00; 50 lbs. \$3.50; 100 lbs. \$6.50.

Cotton **Seed Meal.** \$2.00 per 100 lb. sack; \$25.00 per ton. Special price will be quoted on larger lots.

COLDWELL'S IMPROVED HORSE MOWERS

EVERY MOWER IS GUARANTEED TO GIVE SATISFACTION OR NO SALE.

These Mowers are used on the Public Parks of

Paris, (France), New York City, Brooklyn, Baltimore, Chicago, Buffalo and Washington.

MR. HENRY F. MICHELL:

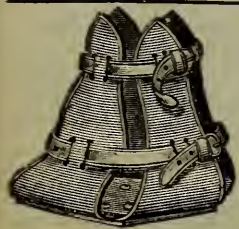

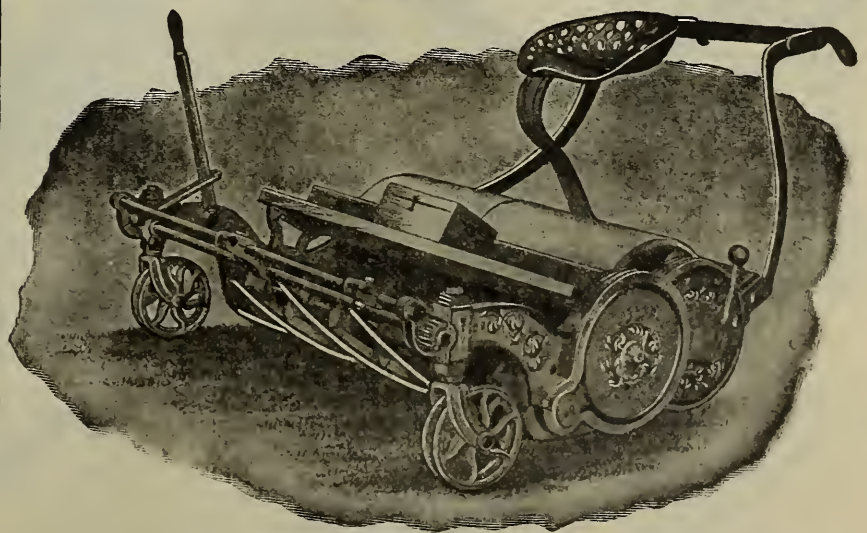

Dear Sir:—The COLDWELL Hand and Horse Lawn Mowers we bought of you this Spring have given satisfaction in every respect, in fact, the best mowers we ever had and we have used different makes.

Yours respectfully,

DR. J. B. MAYER,
President Hillside Cemetery Co.

Dear Sir:—At the end of the mowing season, I think in justice, I should let you know of the satisfaction I have had with the COLDWELL Horse Mower I bought of you in the Spring. I refer to the good material in all the blades, which have stood the season's work without showing any dents or breaks, and to the perfection of its work. For the sake of the horse, also, I am glad that I bought a Coldwell Horse Mower with seat and shafts. The horse cannot back on to the blades of the machine, or get tangled up in the braces, which often used to occur while using mowers without seat and shafts.

Very respectfully,
EDWARD JONES,
Head Gardener to Mrs. J. W. M. Cardeza,
Washington Lane, Germantown.

"PLANET JR." FARM AND GARDEN TOOLS

Space will not permit our showing and describing all of the "Planet Jr." tools, but we will send a fully illustrated catalogue free for the asking to any who desire it. "Planet Jr." goods are standard machines; the best; yet great improvements have been made for 1901. You can rely on getting a bottom price from us on any of the "Planet Jr." Tools.

"PLANET JR." No. 3, Hill Dropping Seed Drill.

We all know that a seed sower that does not drop in hills is fast becoming a thing of the past. Why? Because all crops that are to be grown from seed and thinned to a regular stand should be planted in hills at just the distance apart the plants are desired; for in drilling, unless the seed is sown unnecessarily thick, there will not always be a plant at the proper spot, and the crop is therefore irregular. This means that a seed sower should drop in hills, and at various distances. The new No. 3 "Planet Jr." drops at 4, 6, 8, 12 and 24 inches apart, and also in a continuous row, without injury to the seed and can be changed from hill to drill instantly, or from one distance to another very quickly. The index is at the top of the handle, with hairbreadth adjustment and instantaneous cut-off.

Sows Either in Hills or in Continuous Rows.

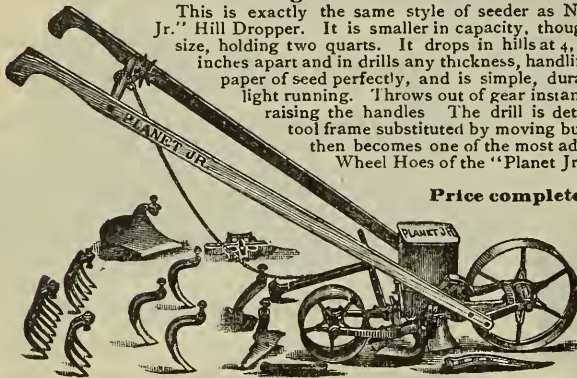

Price \$10.00

"PLANET JR." No. 4 Combined Hill Dropping Seeder and Single Wheel Hoe.

This is exactly the same style of seeder as No. 3 "Planet Jr." Hill Dropper. It is smaller in capacity, though still of good size, holding two quarts. It drops in hills at 4, 6, 8, 12 and 24 inches apart and in drills any thickness, handling the smallest paper of seed perfectly, and is simple, durable and very light running. Throws out of gear instantly by simply raising the handles. The drill is detached and the tool frame substituted by moving but one bolt. It then becomes one of the most admirable Single Wheel Hoes of the "Planet Jr." family.

Price complete \$11.00

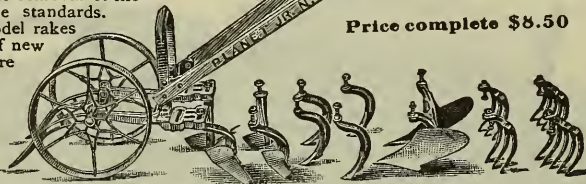

As a Drill only \$8.00

"PLANET JR." No. 11 Double Wheel Hoe, Cultivator, Rake and Plow

This tool combines in itself the good points of its predecessors, with valuable new ideas. It has 11-inch wheels which can be set at four different distances apart; the frame is malleable, with ample room for tool adjustment, and can be set at three different heights. The handles are adjustable, and being attached to the arch, are entirely undisturbed in making changes of the height of frame, width of wheels or in the adjustment of the tools themselves. The arch is of stiff steel unusually high. The design of the frame is novel, allowing all changes of tools to be made without removal of the nuts from the standards. A pair of model rakes and a pair of new style hoes are added to the usual equipment—seven pairs of tools in all. The variety of the work possible with this machine is incredible, covering the whole range of wheel hoe work, both in the garden and on the farm, and has our unqualified endorsement.

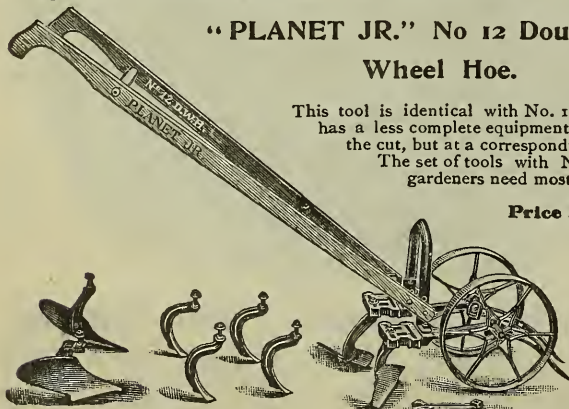

Price complete \$8.50

"PLANET JR." No 12 Double Wheel Hoe.

This tool is identical with No. 11 except that it has a less complete equipment, as shown in the cut, but at a correspondingly less price. The set of tools with No. 12 is what gardeners need most.

Price \$6.50

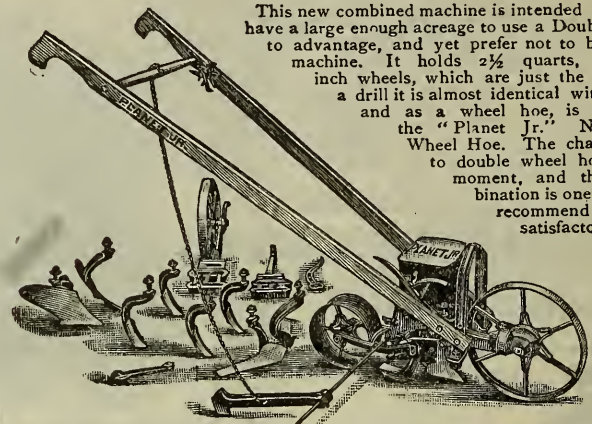

The "PLANET JR." No. 13 Double Wheel Hoe

This tool is the No. 11 with 6-inch hoes only, this pair of tools being most generally useful at all seasons. Any or all of the No. 11 tools may be added at any time, and are sure to fit. Price \$4.50.

"PLANET JR." No. 25 Combined Drill and Double Wheel Hoe

This new combined machine is intended for those who have a large enough acreage to use a Double Wheel Hoe to advantage, and yet prefer not to buy a separate machine. It holds 2½ quarts, and has 11¼ inch wheels, which are just the right size. As a drill it is almost identical with the No. 4, and as a wheel hoe, is identical with the "Planet Jr." No. 12 Double Wheel Hoe. The change from drill to double wheel hoe takes but a moment, and the entire combination is one we can heartily recommend and guarantee satisfactory.

Price

\$13.00

"PLANET JR." No. 17 Single Wheel Hoe, Cultivator, Rake and Plow

This latest and best Single Wheel Hoe has an 11-inch wheel with broad face, and a conveniently arranged and very valuable set of tools. It is very light, strong and easy running. Has adjustable handles and frame, and is the most perfect wheel hoe for market gardeners and private places. Frame changes in height; and the wheels to the other side of the frame, to allow of hoeing both sides of the row at one passage.

Price \$4.75

The "PLANET JR." No 18 Single Wheel Hoe.

With the same frame and handles as No. 17, it has one pair of 6-inch hoes only, but they are the most constantly useful through the season of all the list. The remainder you buy as wanted. Price \$3.25.

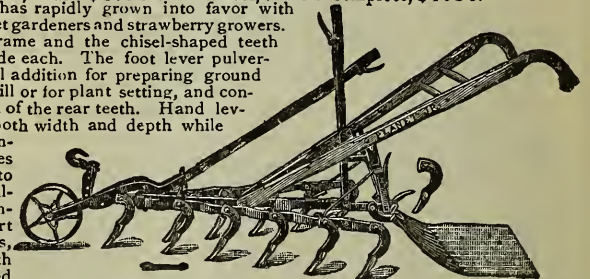

The "FIRE-FLY" PLOW.

This tool is invaluable for those having small gardens. The mould-board is tempered and polished steel. The depth may be changed very quickly. Price \$2.25

"PLANET JR." Harrow and Cultivator.

Price, Plain \$5.00 with Wheel, \$6.00 Complete, \$7.50.

This tool has rapidly grown into favor with farmers, market gardeners and strawberry growers. It has a high frame and the chisel-shaped teeth cut an inch wide each. The foot lever pulverizer is a capital addition for preparing ground for the seed drill or for plant setting, and controls the depth of the rear teeth. Hand levers regulate both width and depth while in motion; it contracts to 12 inches and expands to 32 inches. It cultivates deep without throwing dirt upon the plants, and the smooth round-throated teeth turn strawberry runners without injuring them. For cutting strawberry runners we make a special attachment, consisting of a ten-inch flat steel disc mounted on an outrigger. Strawberry Runner Cutter Attachment extra \$1.60.

"PLANET JR." No 8 Horse Hoe.

Price as in cut \$7.50.

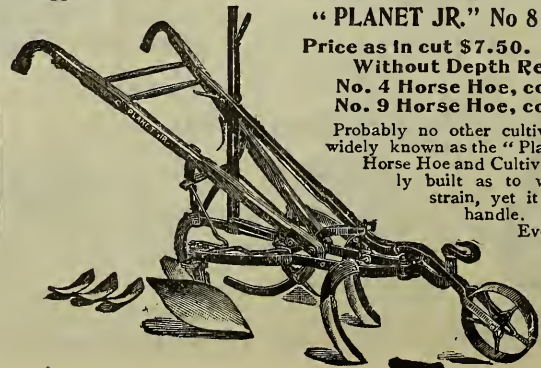

Without Depth Regulator \$7.00.

No. 4 Horse Hoe, complete \$5.50.

No. 9 Horse Hoe, complete \$6.50.

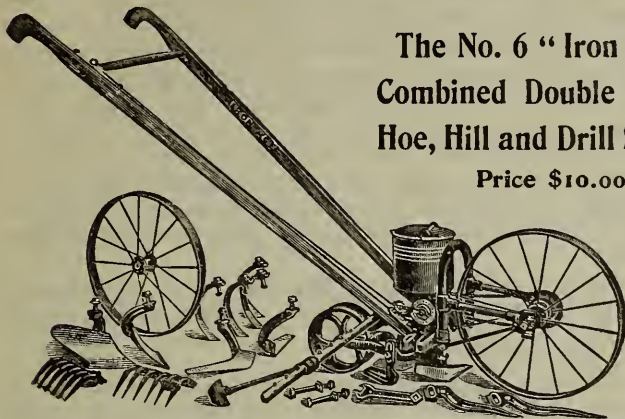

Probably no other cultivating machine is so widely known as the "Planet Jr." Combined Horse Hoe and Cultivator. It is so strongly built as to withstand incredible strain, yet it is light and easy to handle.

Every part is perfected to make the tool comprehensive to the intelligent farmer, who knows the best is always the cheapest.

Thoroughbred Poultry and Eggs for Hatching

WE HAVE SPARED no expense to have the finest stock, keeping several distinct yards of each breed, so that we can send out stock pure and not akin. The prices quoted, which are our very lowest, are for first-class breeding fowls, from the very best strains and properly mated. We guarantee safe arrival.

NOTICE. All Claims for Eggs not fertile must be made promptly, and the Eggs held subject to our orders.

Brown and White Leghorns—Single Comb. They mature very early, and make good table fowls. Splendid layers, producing large eggs. Price, either Brown or White, single male, \$3.00, pair, \$5.50, trio, one cockerel and two pullets, \$7.50. Eggs \$1.50 per 15, \$2.75 per 30.

Brown and White Leghorns—Rose Combed. Similar to above except the comb. Price either Brown or White, single male, \$3.00, pair, \$5.50, trio, one cockerel and two pullets \$7.50. Eggs \$1.50 per 15, \$2.75 per 30.

White Plymouth Rock. Have all the good points that make Plymouth Rock such a favorite, but have a pure white plumage. They are very prolific layers and make excellent mothers; a most profitable breed for either the farmer or fancier. Single male \$3.00, pair, \$5.50, trio, one cockerel and two pullets, \$7.50. Eggs \$1.50 per 15, \$2.75 per 30.

Barred Plymouth Rock. For general purposes may be justly entitled the "Farmer's Fowl." They are very hardy, most excellent layers and one of the very best market fowls. Single male \$3.00, pair \$5.50, trio, one cockerel and two pullets \$7.50. Eggs \$1.50 per 15, \$2.75 per 30.

Buff Plymouth Rock. Rich, buff plumage, golden yellow legs and grand carriage; the finest of this family. Single male \$3.50, pair \$6.00, trio, one cockerel and two pullets \$8.00. Eggs \$2.00 per 15, \$3.50 per 30.

Light or Dark Brahmans. No breed makes larger or better broilers at 8 to 10 weeks than the Brahmans. Very docile. Price for either Light or Dark Brahmans, single male \$3.00, pair \$5.50, trio, one cockerel and two pullets \$7.50. Eggs \$1.50 per 15, \$2.75 per 30.

Buff Cochins. They thrive well in the smallest yards, and are most excellent winter layers. Single male \$3.00, pair \$5.50, trio, one cockerel and two pullets \$7.50. Eggs \$1.50 per 15, \$2.75 per 30.

EGGS FOR HATCHING. We guarantee all eggs fresh and true to name. We can ship eggs by express only, and use the utmost care in packing, but cannot guarantee any number to hatch, as this depends on causes over which we have no control. We have frequently sent eggs from 1000 to 3000 miles, and had 14 out of 15 hatch out a chick.

White Wyandottes. Similar to Silver Laced except in plumage, which is pure white. Single male \$3.00, pair \$5.50, trio, one cockerel and two pullets \$7.50. Eggs \$1.50 per 15, \$2.75 per 30.

White-Faced Black Spanish. One of the handsomest fowls, and also one of the best layers. Single male \$3.00, pair \$5.50, trio, one cockerel and two pullets \$7.50. Eggs \$1.50 per 15, \$2.75 per 30.

Indian Games. The quickest growing chick from the shell up to 10 or 12 weeks, of any breed; at 12 weeks old we have seen males weigh 3 to 4 pounds each. The flesh is of the finest quality juicy and tender. They are easily cared for, and are without doubt the fowl for those who want quick growth, good size, good laying and eating qualities, and beauty in appearance combined. Single male \$3.50, pair \$6.00, trio, one cockerel and two pullets \$8.00. Eggs \$2.00 per 15, \$3.50 per 30.

Silver Spangled and Silver Penciled Hamburgs. A very handsome breed. Cannot be praised to highly for beauty and usefulness. Most excellent layers. Price of either breed, single male \$3.50, pair \$6.00, trio, one cockerel and two pullets \$8.00. Eggs \$2.00 per 15, \$3.50 per 30.

Golden Seabright Bantams. The most popular of bantams; very gay, rich golden plumage; good layers and brooders. Hardy both as fowls and chicks; thrive well in enclosure, as well as running at large. Single male \$3.00, pair \$5.50, trio, one cockerel and two pullets \$7.50. Eggs \$1.50 per 15, \$2.75 per 30.

Pekin Ducks. They are without doubt the best laying duck known. When fully mature and fat will weigh 12 to 15 pounds per pair. Single drake \$3.00, pair \$5.00, trio, one drake and two ducks \$7.50. Eggs \$1.50 per 15, \$2.75 per 26.

Incubators and Brooders

How to Tell which is the Best Incubator. Try it Before You Buy it.

We will send you one on trial. If you want an incubator and are at loss to know which kind is the best, because so many claim to make the best, we will send a machine for you to try, at the prices enclosed, and for which you do not pay us one cent, unless it gives you satisfaction. Be your own judge of a good article. Could you ask more? There is no catch in this proposition, it is a genuine, straightforward business offer made in good faith by us.

Now Reflect. You can see the working principles of our machine; compare them with those of other makes. We have a perfect incubator and are willing for you to try it before we receive a cent. You are to be the judge. If, after you make a hatch, you are satisfied, you keep it and pay for it. If not satisfied, you return it. Could you ask anything more! If there was any doubt about our machines giving satisfaction, we would be foolish to send them all over the United States to be returned if not satisfactory.

We do not ask you to pay for our incubator before you try it; but if you are satisfied that it is as represented, we will allow you 5 per cent. off for cash with order.

POUDRETTE (Fertilizer)

(or Native Guano.) Odorless.

Wherever we have sold this valuable fertilizer the past year we received highly complimentary testimonials as to the satisfactory results obtained from it. We can highly recommend its use on LAWNS and GOLF GROUNDS, VEGETABLE and FLOWER GARDENS, PASTURE FIELDS, WHEAT, RYE and TIMOTHY FIELDS, and for all other purposes where a rich fertilizer is needed.

Price: 25 lbs., 50c.; \$1.50 per 100 lbs.; \$10.00 per 1/2 ton; \$15.00 per ton. Special prices on larger quantities.

Read this, one of the numerous, unsolicited testimonials on POUDRETTE:

From Dr. Flagg,
GENTLEMEN:

SWARTHMORE, PA., June 6th, 1900.

I am more pleased with POUDRETTE than with any fertilizer I have ever used, because of its good results which I have obtained in the garden, on the lawn, and in pasture, particularly under the trees; have also obtained excellent results from its use in greenhouse; its absence of odor and its easy use seem to meet every indication. Our garden is a show for 1018 and our table is giving us cause for thanksgiving every day. POUDRETTE makes your seed grow finely—it fills your Braun Grass Catcher full of green grass. I wish you would send me another ton at once.

Truly yours,

J. FOSTER FLAGG.
