TOKYO PREFECTURAL
ECONOMIC INVESTIGATION AGENCY

February 8, 1950

TO : Mr. JONES
Chief of the Law Enforcement Division,
Economic Section, HQ KANTO CA REGION

SUBJECT: Interpretation of Applicable Provisions in regard to the Control Program of Confectioneries made from Staplefoods.

THROUGH: Tokyo Regional EIA (Liaison Section)

FROM : MANAGO Denji
Director of the Tokyo Prefectural EIA

We herewith submit you this report for your information;

1. Please refer to the letter submitted to you on 20th January this year which has same title with this report.

2. We obtained an official answer from the Chief of the Prosecution Bureau of the Attorney General's Office which reads as follows;

- - - - - -

(TRANSLATION)
No. Kemmu 2,828 (Prosecution Bureau of the Attorney General's Office)
January 31, 1950

TO : Director of the Tokyo Prefectural EIA
SUBJECT: Answer to your Question concerning applicable provision of the Food Control Law
FROM : TAKAHASHI Ichiro
Chief of the Prosecution Bureau of the Attorney General's Office

We herewith reply to your request dated on 24 January this year (No. Tokei Shokuryo Hatsu 22) concerning the matter that wether or not the provisions of the Food Control Law shall be applicable to the enforcement program of the investigation into violation cases of confectioneries made of staple foods as follows;

The provisions of the Food Control Law shall not be applicable to the acts to make (including processing, same as hereinafter) confectioneries from staple foods or to sell them in public. However in case where an enterpriser purchases from any other person except the Government Office or the SHOKURYOHIN HAIKYU KODAN (Foodstuff Distribution Public Corporation) rice, barley, naked barley, wheat or any other designated cereals the very act is generally considered to be applicable to Article 23-2 of the Foodstuff Control Law Enforcement Regulation which has been issued based on the Food Control Law.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOKYO REGIONAL ECONOMIC INVESTIGATION AGENCY

6 Feb. L950

To : Mr. J. W. Jones, Economic Section, Kanto CAR

From : T. Otsu, Director of Tokyo Regional EIA

Subject: Report on the collusion of Railway personnel with blackmarket carriers

1. Collusion of Railway personnel with carriers

It was not positively certified but suspected that National Railway personnel colluded with carriers as follows:

a. Railway personnel gave information to carriers

1. In Gumma Prefecture, arailway personnel for Takasaki District, named Kan Otsuka whose wife keeps a restaurant in front of Yokokawa Station, Shinetsu line , and lodges carriers exvlusively without hotel license, is rumoured to be giving informations to carriers. Investigation is under way.

2. In Chiba Prefecture, on Feb. 8 when Sahara police raided 12.00 up train at Sahara Station, several professional blackmarketeers boarded the locomotive engine, and just before the train pulled in Odo Station, someone (presumed to be a former engine-driver) gave a signal by waving a hand out of the window and carriers who were waiting at the station disappeared. Check by Sahara police revealed that the driver undertook the work for two boxes of tobacco.

b. Railway personnel afforded carriers facilities

In Gumma prefecture, on Jan . 22 Kuro-o and another driver for Tatebayashi Station of Tobu line accomodated 2 women carriers at the signal room of the station and helped them board the first electric train for Asakusa the next morning, The carriers were arrested by the Tatebyashi Police but no action was taken to the Railway carriers. One of the carriers is Toshi Ishihara, aged 30, carrying 19 kilograms of rice, and the other is Masa Ishiyama, 35, carrying 20 kilograms of rice.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

c. Other collusion

In the Chiba Prefecture at the Economic Investigation Coordinating Committee meeting held on Jan 19, one member reported that when he boarded 10.00 A.M. train from Chiba for Choshi via Narita on Dec. 10 last year, two carriers were in the same compartmentm and as the conductor came by to check on ticket, a railway personnel who was seated on the same seat showed his pass to the conductor and had the latter approve to give free ride to the carriers and when the former detrained at Namekawa, he phoned Sawara Station to let the two carriers pass the exit without ticket. EIA asked a Railway police man who was present at the meeting to investigate the case but no evidence was secured.

11. Railway personnel themselves engaged in illegal transportation of rice

a. Railway personnel transported illegally a considerable amount of food by utilizing "pass". 2 former railway personnel who got "pass" at the time of retirement as the reward for the long service were arrested on charge of illegal carrying of rice (in Tochigi). 40 active railway personnel were arrested when they went out for rice-hunting for their own use by taking days-off.
One station master engaged in blackmarketing of staple food on a large scale, and another was a professional carrier (the last-mentioned two were fined)

b. Railway personnel let other carriers use their "pass" to transport illegal staple food. In Gumma Prefecture, Michio Kazamiya, working for Tatebayashi station of Tobu line, loaned his "pass" to a woman carrier (Ishi Imai, from Tatebayashi-machi) on Jan. 22 and Imai was arrested by Tatebayashi police on her way of transporting 18 kilograms of rice to Tokyo by utilizing the "pass" on Jan. 24. No action was taken to the railway man.

111. Railway personnel tolerates carriers

a. Railway men overlook carriers carrying baggage bigger than the authorized size. In Yamanashi, on Feb. 26, an economic investigator inspected with Sakaori

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

station on railwaymen's baggage checking. The investigator witnessed without having himself recognized 30 carriers carrying big-sized baggage crossed the railway instead of walking the platform and 20 others were hiding in the underground passage between the ticket-check point and the platform and boarded the train. No railway man did not stop them doing so. 20 to 30 gangsters are roving around the Sakaori station to act as the liaison men for carriers who give the former tips for their service. Sakaori Police hold a train raid twice a week. Yamanashi NRP controls 70 % of trains.

b. Railway personnel overlook carriers piling up a tremendous amount of food on the floor of the compartment to the great inconvenience of passengers. Carriers usually force tother passengers to stand up and hide the illegal food under the seat when there was not control. These deeds are seen publicly done always but railway men overlook such illegal deeds. Many of these cases are seen especially in private railway lines, but the same scene was seen at Kofu station of Chuo line.

c. Railway men overlook carriers board a train in unauthorized way. In Gunma, Nobue Hiroki, the wife of a railway man working for Tatebayashi station, Tobu line, is a carrier. On Feb. 24, the railwaymen of the station overlooked her board a train without a ticket carrying 11.2 kilograms of rice. She got into the special compartment for railway personnel, but Otozo Tachikawa (who was transporting illegal rice, too , and arrested) and four other railway men overlooked her. But a railway police man arrested Nobue Hiroki and is going to transfer her to the Procurator's Office.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOKYO PREFECTURAL
ECONOMIC INVESTIGATION AGENCY

January 31st , 1950

(till end of this month)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOKYO PREFECTURAL
ECONOMIC INVESTIGATION AGENCY

Mr. MURASHIGE

January 20 , 1950

TO : MR. JONES ,
Chief of the Law Enforcement Division ,
Economic Section , HQ KANTO C A REGION

SUBJECT : Applicable Provisions , and their Interpretation concerning Control Progarm of Confecticneries made of Staplefoods

THROUGH : Tokyo Regional E I A (Liaison Section)

FROM : MANAGO Denji ,
Director of Tokyo Prefectural E I A

According to your sincere suggestion delivered on the occasion of the conference meeting of 17th this month , I sent a officer of this office who is taking charge the food control problems to the Attorney General's Office and to the Tokyo Prefectural Public Procurator's Office and made him to ask their opinions concerning above mentioned problems. They commented as follows ;

1. Opinion of the First Economic Section , Prosecution Bureau of the Attorney General's Office

(1) There is no applicable provision in the Food Control Law in regard to the selling activity of cakes made of staple foods. However , in a case where a person is engaged in the business of selling and processing simultaneously , he cannot help purchasing the raw materials illegally , so that Article 23 - 2 of the Foodstuffs Control Law Enforcement Regulation (Ministry of Agriculture & Forestry Ordinance No.103 ..... refer to Note 1.) shall be applicable to such sellers or brokers , but we have to give actual evidences to those kind of violations.

Note 1. THE FOODSTUFFS CONTROL LAW ENFORCEMENT REGULATION

Ministry of Agriculture & Forestry Ordinance No.103
(Dec. 30 '47)
Amended by Ministry of Agriculture & Forestry Ordinance No. 101 of 1949

Article 23 - 2. Except cases where prescribed by the Food Control Law or any other regulations based on the

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Food Control Law , a person cannot purchase rice , wheat or starch from any other person but the Government or the SHOKURYO HAIKYU KODAN (Foodstuffs Distribution Public Corporation) in order to sell the foods to other person or consume for himself under the business purpose.

(2) Cakes , crackers and other confectioneries were included in the designated imported foods by the Minister of Agriculture & Forestry as prescribed by the Notification Relative to Enforcement of Food Control Law (Ministry of Agriculture & Forestry Notification No. 196 dated on Dec. 30 '47) which was issued based on the No. 9 of Article 1. of the Enforcement Ordinance of the Food Control Law (Cabinet Order No. 330 ..... refer to Note 2.). However , this designation was abolished on September 1st last year excepting the provisions for treacle and condensed milk.

Note 2. THE ENFORCEMENT ORDINANCE OF THE FOOD CONTROL LAW

Cabinet Order No.330 (Dec. 30 '46)
Amended by the Cabinet Order No.343 of 1949

Article 1. The following foods shall be defined as the staple foods in accordance with the provisions of Article 2. of the Food Control Law ;
(9) Foods imported into Japan since 15 August , 1945 and to be designated by the Minister of Agriculture and Forestry.

(3) We cannot execute the control activity against the selling business - just selling business , of cakes which are made from staple foods , but we consider now practically that we are able to obtain enough effects by means of the application of the Price Control Ordinance.

2. Opinion of the Vice-Chief of the Economic Section of the Tokyo Prefectural Public Procurator's Office

There has been no actual case untill today which was indicted or handled in accordance with the Food Control Law among illegal cases of selling cakes made from staple foods. We are disposing now such cases with the Price Control Ordinance , because we fear that the application of provisions of the Food Control Law will probably cause us misjudge , but the provisions of the Price Control Ordinance are clear and simple.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOKYO PREFECTURAL
ECONOMIC INVESTIGATION AGENCY

EIA

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

2. Periodical Conference Meeting and other Coordinating activity with concerned Government agencies

1) No. 13th Plenary Meeting of Tokyo Prefectural Economic Investigation Council.

Date ; 16th Dec. (Friday) from 1:30 to 4:30 p.m.

Place ; at Tokyo Prefectural E I A

Attendants ; Officers from KANTO CA REGION 4) total
MPB. NRP and other Government offices 23) 36
fron Tokyo Prefectural EIA 9)

Discussion ;

Subject matters	Decision (Conclusion)
1. Report on the 16th Sub-committee meeting of the Tokyo Prefectural E.I.C. which was held for the purpose of execution of the restaurant control program.	Concerned offices agreed to enforce strict control activity against violators.
2. Regarding the additional allocation of staple foods for employees in the Tokyo Central Whole sale market of Fish & Marine products.	Decision of this problem was postponed to the Sub-committee meeting of the Tokyo Prefectural E.I.C. (Sub-committee meeting was held on 22th Dec.)
3. Regarding the control program of material soybeans and edible oils which are consumed for production of " Tofu " (Beans curd) and " Abura age " (fried beans curd).	We suggested material allocation should be increased in coming year. Official from the Foodstuff Agency decleared that at least more than 35,000 metric tons of soy-beans shall be rationed for production of " Tofu " to Tokyo-to , on the other hand, T.M.O. is planning to distribute now 2 pieces of "Tofu " and 2 pieces of Fried Benscurd per head for year end period.
4. Regarding the inspection activity of violation case of petroleum products.	We suggested that administrative inspection shall be conducted to concerned offices for improvement of distributing business.
5. Concerning Special investigation of Soap distribution program.	We are of opinion that problems concerning distribution of material oils for production of soap is much important than distribution of soap itself, so that terminal distribution plan for general consumer shall be abolished as soon as possibly. Officer of the Tokyo Bureau of Inter national Trade & Industry said soap allocation shall be increased by 2 or 3 times in coming year.
6. Regarding Char-coal distribution plan of Tokyo-to	Arriving volume into Tokyo-to is reportedly pretty bad now, but officer of T.M.O..said that they are expecting the present situation shall be made better in near future.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

7. Report on the results of the Special Investigation conducted into stocked coal of HAITAN KODAN (Coal Distribution Public Corporation)

Separate report concerning this problem was sent to your office on 16th Dec.

2) No.17th Sub-committee meeting of Tokyo Prefectural E.I.C.

Date ; 6 Dec. from 13.30 to 15.10

Place ; at Tokyo Prefectural E I A

Attendants ; 16 including representatives from EIA

Discussion ;

Subject matter Investigation program of Staple food control.

Decision (conclusion)

Mr. Jones , representative officer of KANTO CA Region , requested to execute strict control activity against violators , therefor, concerned agencies , including EIA , TMO , MPB , NRP & Public procurator's Office,decided to carry out more effective activity thereafter under their close connection - that is ,MPB shall conduct an large scale inspection activity against retailers (small scale bakery , confectionaries etc) and EIA shall conduct an effective coordinative activity.

3) No. 18th Sub-committee meeting of Tokyo Prefectural E.I.C.

Date ; 22 Dec. from 13.00 to 16.00

Place ; at Tokyo Prefectural E I A

Attendants ; 16 including officials from this office

Discussion ;

Subject matters Concerning additional allocation of staple foods for employees of the Central Fish & Marine products Wholesale market (TSUKIJI Market)

Conclusion Comapny authority wanted to get additional ration of staple foods for its employees because they are engaged hevy labor , however concerned agencies decided from the viewpoint of the law that normal allocation of additional ration shall not be given to them. But , further studying concerning this problem shall be continued.

4) Conference meeting concerning educational program of economic investigator sponsered by the Inspection Section , that started its business from 10th Dec.

Date ; 9 Dec. Place ; at Tokyo Prefectural E I A

Attendants ; Tokyo Prefectural Public Procurator's Office (Economic Sec.)
Chief of Economic Investigation Sec. of Metropolitan Police Board
Chief of Criminal Affairs Sec of N.R.P. Tokyo Regional HQ

Conclusion ; We got sincere advise and suggestion from abovementiond agencies and it was decided that lectures should be given to our economic investigators from higher officials from these offices.

5) Conference Meeting with officials fron the Forestry Agency,T.M.O. & other concerned agencies in connection with the enforcement program of Investigation of Charcoal distribution problem;

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Date ; 2 Dec. Place ; at Tokyo Prefectural EIA (2nd Material Sec.)

Conclusion ; We learned many important facts in connection with the charcoal distribution problem.

6) Conference meeting with concerned agencies in connection with soap distribution program.

Date ; 16 Dec. Place ; at Tokyo Prefectural EIA (1st Material Sec.)

Conclusion ; We requested to concerned agencies to cooperate with our investigation campaign in regard to soap distribution problem within the district of Tokyo-to.

3. Education & Publicity Campaign for general Consumers

1) Moving Exhibition of educational Posters for general consumers ;

We conducted cercuit exhibition of educational posters for general consumers as follows ;

Date ;	Place ;
15 Dec.	In front of the Shibuya Railway Station
20 "	" Ikebukuro " "
22 "	" Gotanda " "
22 "	Shopping center of Musashi Koyama (Shinagawa-ku)

2) Publicity Campaign with Moving " News Car " (Broadcasting car) ;

We borrowed "news Car " from the Press Mainichi Co. and Yomiuri Co. and conducted publicity campaign as follows ;

Date ;	Place ;
15 Dec.	In front of the Shibuya Railway Station
20 "	" Ikebukuro " "
22 "	in Tsukiji Central Market of Fish & Marine products, Gotanda and Musashi Koyama shopping centers
7 "	in the direction of Koto-ku

3) Conference meeting with representatives of general consumers association , mainly representatives from " Shufu rengokai " (Housewives Federation of Tokyo-to) was held at the auditorium of Press Asahi on 16th Dec. We consider that we could get very good effects from this meeting and we want to have this kind of meetings as often as possibly hereafter.

4. Economic Investigation Activity

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOKYO PREFECTURAL
ECONOMIC INVESTIGATION AGENCY

16th December 1949

Subject ; 13th Plenary Meeting of the Tokyo Prefectural Economic Investigation Council

PROGRAMME

Subject Matters ;

1. Report on the results of the 16th Sub-committee meeting of the Tokyo Prefectural E.I.C. that was held for the purpose of executing the restaurant control program;
Results of the inspection activity concerning restaurant business , illegal service of staple foods based on the provisions of the Temporary Regulating Law of Restaurant Business shall be reported.

2. Concerning the problem of additional allocation of staple foods for employees in the TSUKIJI Central Market of Fish & Marine Products;
We considered that employees in the Central Market of Fish & Marine Products shall be rationed additional allocation of staple foods because of heavy labour.

3. Control progarm into illegal " Tofu " (Beans curd) & " Abura age " (Fried Beans Curd) and enforcement of fair distribution of these kind of foods ;
Many a this kind of foods are now being sold at illegal prices (2or 3 times of official prices) in public recently. So that we are going to execute strictly this inspection activity and secure the fair distribution for general consumers.

4. Control Program of Edible oils ;

5. Special Investigation Program of Petroleum Products;
This special Investigation plan was postponed untill 25th December, and inspection against individual violators is now being conducted.

6. Special Investigation concerning Soap Distribution ;
This special investigation shall be executed untill the end of Feburary next year in parallel with the administrative inspection plan against Government agencies.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

7. Investigation Program of Charcoal Distribution ;

8. Report on the results of the Special Investigation conducted into HAITAN KODAN (Coal Distribution Public Corporation) ;

The said KODAN was abolicshed and its stock coal was transfered to liquidator on 16th September this year. So that we executed this inspection activity checking that any illegal acts were made or any other weak points would be found.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOKYO PREFECTURAL
ECONOMIC INVESTIGATION AGENCY

16th December 1949

Subject ; 13th Plenary Meeting of the Tokyo Prefectural Economic Investigation Council

PROGRAMME

Subject Matters ;

1. Report on the results of the 16th Sub-committee meeting of the Tokyo Prefectural E.I.C. that was held for the purpose of executing the restaurant control program; Results of the inspection activity concerning restaurant business , illegal service of staple foods based on the provisions of the Temporary Regulating Law of Restaurant Business shall be reported.

2. Concerning the problem of additional allocation of staple foods for employees in the TSUKIJI Central Market of Fish & Marine Products;
We considered that employees in the Central Market of Fish & Marine Products shall be rationed additional allocation of staple foods because of heavy labour.

3. Control progarm into illegal " Tofu " (Beans curd) & " Abura age " (Fried Beans Curd) and enforcement of fair distribution of these kind of foods ;
Many a this kind of foods are now being sold at illegal prices (2or 3 times of official prices) in public recently. So that we are going to execute strictly this inspection activity and secure the fair distribution for general consumers.

4. Control Program of Edible oils ;

5. Special Investigation Program of Petroleum Products;
This special Investigation plan was postponed untill 25th December, and inspection against individual violators is now being conducted.

6. Special Investigation concerning Soap Distribution ;
This special investigation shall be executed untill the end of Feburary next year in parallel with the administrative inspection plan against Govarnment agencies.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

7. Investigation Program of Charcoal Distribution ;

8. Report on the results of the Special Investigation conducted into HAITAN KODAN (Coal Distribution Public Corporation) ;
The said KODAN was abolished and its stock coal was transfered to liquidater on 16th September this year. So that we executed this inspection activity checking any illegal acts were made or any other weak points would be found.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

17 December 1949

No. 13th Tokyo Prefectural Economic Investigation at a place of "Meeting hall of the Tokyo Prefectural Economic Investigation Agency" attended by representatives of:

Kanto Regional E.I.A.
Tokyo Prefectural E.I.A.
Tokyo Metropolitan Office
Tokyo-to Police Board
N.R.P.
Tokyo Material Adjustment Office
Tokyo Branch of the I.T.I. Ministry
Tokyo Branch, Custom House
Tokyo Maritime Safety Station
Tokyo Labor Standard Board
Kanto Maritime Bureau
Tokyo Sub-station of Marine Goods Agency

Subject 1.

"Report on the results of the 16th Sub-committee meeting for the restaurant control".
Applications which request the operating restaurant were totaled to 28,450, according to the records on Tokyo-to as of 15th Dec 49. Of which 188 were disapproved, 34 are pending and 24 were cancelled. Both EIA and Tokyo-to insist on their principle policy not to give approval to the "Processors on commission base" (Itaku-kako) (in other words, Sushi or Cake - process dealer who furnish processed food upon receiving material).
Tokyo prefectural EIA handled and sent 415 cases of violation to the procurators in Nov. 49.

Subject 2.

"Supplementary distribution of staple foods for laborers in the Tsukiji central market". No conclusion has been made, but further discussion will be made at the coming sub-committee meeting. Chief of Food Section, Tokyo EIA stated: laborers have actually bought up rice through illegal channel, therefore blackmarket activities would be ceased if the labores could get additional distribution through official channel. Chief of Food Section, Tokyo-to stated: Labor inthe Tsukiji Central Market are not assigned to job which authorize to get supplementary distribution. It would be hoped to distribute supplementary allocation to the labors in Tsukiji through, if possible.

Subject 3.

"Turning illegal dealing on -Bean curd- and -Fried beans curd- to fair distribution". EIA statement: Most of these kind of foods are being sold at illegal prices in public. Distribution of prices of "Beans curd" and 2 sheets of "Fried beans curd" could be secured if skimmed soya-beans and soya-bdans were released from the Ministry of Agriculture and forestry.
Tokyo-to, Food Section, statement:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Blackmarket dealing would be decreased due to the imported 200,000 tons of soya-beans expected. Also much more soya beans are expected to be imported next year.

Subject 4

"Control program of Edible oil". Edible oil for the Third-quarters 1949 will be distributed in a near future, EIA proposed close liaison with police authorites to protect illegal actions on distribution agencies and producers. EIA stressed that strict enforcement would be taken on retailers by the police authorities. EIA inspection reveales that illegal actions amounted to ¥50,000,000- has been done by the "Oil Distribution Kodan" and also much amount of edible oil might be sold by the producers.

Subject 5

"Special investigation of Petroleum Products" "Advance delivery from dealers to consumers is common sense in the field recently, that is caused by because (1) coupon tickets are apt to be delayed of issurance to consummers and (2) authorize period available is too short to buy.
EIA inspection shows that 73 dealers were inspected of which 30% have done "Advance delivery" illegally and also at the same time much amount of petroleum products have been purchased and sold by dealers through illegal channel.
EIA requested strict enforcement on Petroleum Products by Police Authorities. Chairman, Tokyo EIA, said that he has heard some amount of gasoline Allied Force car are illegally sold by some employees who are working in the Allied Forces Units.

Subject 6

"Special investigation concening soap distribution". Soap which are to be distributed to the consumers and laborers, are being investigated by EIA on the points of (1) smoothly distributed or not (2) elimination of illegal action (3) general situation on demand and supply (4) demand for polishing powder.
Consumers received very few soap through official channel and most of the soap are being sold at illegal prices recently.
EIA and Police Authorities claims that it is very difficult to control soap because producers use uncontrolled oil for raw material.
A big problem raised if it is still necessary to control soap. No conclusion were made but further discussion would be done. But majority opinion is that control is considered still in necessity if Japanese Government continued request for imported oil.

Subject 7

"Investigation concerning charcoal distribution". Investigation is scheduled to be done from 15th Nov. 49 through 31 Jan. 50 on the points of (1) illegal dealing (2) How many charcoal were distributed to the consumers (3) if the dealers received charcoal directly from producers through blackmarket

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

channel (4) if the dealers delivered charcoal to the big-consummers neglecting small consumers.

Subject 8

"Report on the results of the special investigation conducted into Coal Distribution Kodan". Investigation has been made on 145 coal stock-piles in Tokyo-to and revealed that 800,000 tons of coal are being piled up. But in the past time, it is scarcely to be stocked in the coal stock-piles amounted to 200,000 tons in Tokyo-to. This is caused by recent abolishment of Kodan at 16th Sept. 1949 and early liquidation of coal stock would strougly be desired by EIA to Tokyo-to.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOKYO PREFECTURAL
ECONOMIC INVESTIGATION AGENCY

December 15 , 1949

To ; Economic Section , HQ KANTO CA REGION

Subject ; The 13th Plenary Meeting of the Tokyo Prefectural Economic Investigation Council

From ; Tokyo Prefectural E I A

We have an honour of informing you that we are going to have No.13th Plenary Meeting of the Tokyo Prefectural Economic Investigation Council according to the following schedule.

Date ; December 16th (Friday) from 13:00

Place ; at the Conference room of Tokyo Prefectural E I A

Subject matters ;

1. Report on the No.16th Sub-committee meeting of the Tokyo Prefectural E.I.C., which was held for the Restaurant Control programme. -(Food Sec.)-

2. Concerning the additional allocation of staple foods for employees of the Tokyo Central Fish & Marine Products Market (TSUKIJI Wholesale Market).

- (Foods Section) -

3. Concerning Control Progarm of Illegal " Tofu " (Beans curd) and " Abura age " (Fried Beans Curd) and Execution of Distribution Program of this kind of foods.

- (Food Sec.) -

4. Concerning the Control Program of Edible Oil -(Food Sec.) -

5. Concerning the Special Investigation Program of Petroleum Products.
- (1st Material Sec.) -

6. Special Investigation of Soap Distribution . - (1st Material Section)-

7. Concerning Special Investigation Plan of Char-coal Distribution.
- (2nd Material Sec.) -

8. Report on the resultas of the Special Investigation conducted into HAITAN KODAN (Coal Distribution Public Corporation) - (Hoarded & Hidden Goods Sec.)-

Copy distributed ; 1 to Tokyo Regional E I A

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOKYO PREFECTURAL
ECONOMIC INVESTIGATION AGENCY

Subject ; Report on the results of the investigation conducted into inventoried stock of coal & coke in hand of HAITAN KODAN (Coal Distribution Public Corporation)

Tokyo Prefectural E I A
(Hoarded & Hidden Goods Sec.)

1. Period the Inspection was executed ;
from 10 Oct. to 2 Nov. '49 (total 25 days)

2. Items investigated ;

Object investigated	TOKYO HAITAN KYOKU (Tokyo Coal Distribution Bureau) 145 places		
Number of Inspector mobilized in this investigation	14 ..... grand total 350		
	Coal	Coke	Total
Stock of book surface when the inspection was made	metric tons 457,420	metric tons 38,015	metric tons 495,435
Turned volume from KODAN to the Liquidator when KODAN was abolished	389,964	34,917	424,881
Shortage found by the investigation	33,790	3,269	37,059
Volume which shall be scrapped	2,877	8	2,885

3. Results of the Investigation ;

(1) Burglar prevention measures ;

Although each coal-depot has been surrounded with wood or bamboo fence , yet there have been seen few full-time (day and night work) guards , so we considered this preventional measure was not enough to keep stocks safety.

(2) Countermeasures of Coal spontaneous combustion ;

As emergency coal stocking was made, there have been seen many stock piles whose height were over two (2) metres , and in such places air-ducts have been installed , however we find out that 15 stock-yards of dust-coal of JOBAN (Producted in IBARAKI Prefecture) were burnt due to spontaneous combustion and not a few coal was under-classified or turned into scrap.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(3) Coal carried away by flood ;

Many coal-depots are located in sea-side districts because of the transportation facilities , so that great deal of coal was lost by high-tide caused by the latest typhoon of 1st September this year. The biggest loss was 2500 metric tons which was kept in a coal-depot of SHIOZAKI cho (Fukagawa , ~~T~~KO to-ku , Tokyo) .

(4) Shortage of Volume pointed out by our Investigation ;

We examined strictly concerning this matters and find out that natural decreasing rate of ..... 7.4 % Coal
8.4 % Coke .... shall be normal one from present situation of stock-keeping of view.

Copy distributed ; 1 to the Tokyo Regional E I A

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOKYO REGIONAL ECONOMIC INVESTIGATION AGENCY

15 December 1949

TO : Mr. J. W. Jones, Economic Section, Kanto C.A.T.

FROM : Mr. T. Otsu, Director of Kanto E.I.A.

SUBJECT: Blackmarket Dealing of Staple Food at Kamasuzaka, Tochigi Pref.

Upon the request made by C.A.R. to investigate the above-mentioned case, 8 investigators from Tochigi E.I.A. with the cooperation of 4 policemen raided the collecting station of the following 5 blackmarketeers with the warrant for search, seizure, and arrest. The results are as follows:

1. Kido Nagakichi and Nagai Teru were found to hold illegal goods which were seized immediately. On the following day, the two suspects were arrested, ~~and~~ investigated and transfered to Ujiie-machi, police .

2. Seized Goods

Rice (non-glutinous)	132 kg
Soy bean	11.2 kg

3. Name of the suspects envolved:

Mito Chohkichi ————	Kamasuzaka, Ujiie-machi, Shioya-gun, Tochigi-ken.
Ezura Shuichi ————	"
Nagai Teru ————	"
Ezura Hisaji ————	"
Naganuma Kintaro ————	"

TOKYO REGIONAL ECONOMIC INVESTIGATION AGENCY

13 December 1949

TO : Mr. J. W. Jones, Economics Section, Kanto C.A.T.

FROM : Mr. T. Otsu, Director of Kanto E.I.A.

SUBJECT: Request of Investigation by Hokkaido R.E.I.A.

Request came from Sapporo as follows:

"This organization and Sapporo Finance Bureau were requested by Sapporo C.A.T. in April this year to investigate tax delinquency and illegally hidden and hoarded goods case. Tax delinquency was detected by Finance Bureau, but the latter case could not be disclosed by this organization. And we are going to transfer to your the investigation of those goods allegedly ~~to be~~ hidden and hoarded in your (Tokyo) Region. The results of the investigation are expected to be reported to Mr. Harrold Moth, chief of Nationl income division, E.S.S."

1. Information given by Yusa, a member of the Action corps of Hokkaido Democratic young men's league.

a. Name of the suspect: Tsuchiya Enginnering Co., Representative: Tsuchiya Eiichi.

b. The above-mentioned Co. has been engaging in illegal construction and tax evasion.
Goods are hidden and hoarded by him at #751, 1-chome, Daita, Setagaya, Tokyo and at Okura, Hotari-mura, Kitakoma-gun, Yamanashi-Ken.

c. Item of goods: Luxurious goods.

The results of the investigation made by this organization proved that the information was unfounded.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOKYO PREFECTURAL
ECONOMIC INVESTIGATION AGENCY

9 December , 1949

To ; Economic Section , HQ KANTO CA REGION

Subject ; Report on the results of the Investigation conducted into the latest Situation of Supply & Demand of Soy-beans and Edible Oil to be used for the material of "Tofu " (Beans curd) and " Abura age " (Fried beans curd) (Report Part 2.)

From ; Tokyo Prefectural E I A

We hereby submit you a report concerning above mentioned items as follows ;

Outline of the Report

1. Why we launched this investigation activity ;

We discovered in the process of the special investigation based on a fixed plan that was conducted into the real state of supply & demand of edible oils to be distributed for general consumers another vicious violation fact , that is - - there have been being sold great deal of " Tofu " (Beans curd) and " Abura age " (Fried Beans curd) in public which have been made from illegal materials , in the district of Tokyo-to. So that we intended to conduct a special investigation program against this unlawful facts.

2. Period this investigation was executed ;

from 1 November to 10 November 1949

3. Name of Economic Investigators who executed this investigation program ;

Mr. INOUE Seiichi & 3 other persons

4. Results of the Investigation ;

1) General State of the Investigation Activity ;

(A) Soy-beans as a raw material of " Tofu " and " Abura age "

As we informed you already in the Report Part 1. , in Tokyo area almost whole volume of the material for the producing of " Tofu " and " Abura age " has been obtained by producers & dealers from the blackmarket , and its volume is expected to be estimated about 9,139 metric tons in a year.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Owing to the shortage of the supply of material soy-beans in the period from the War-end untill today , the Economic Stabilization Board and the Ministry of Agriculturer & Forestry as the competent authorities could not help allocating very few volume of soy-beans to the production of this kind of foods , and most of soy-beans has been being allocated for the producing of Soy-sauce , " Miso " (beans paste) and amino-acid. However , in view of that the volume of soy-beans production in 1949 has been much increased , that is over 50 % compared with planned volume of the distribution program, the concerned authorities are now considering the increasing of the allocation (additional allocation) for this kind of foods. In facts , as following figures show , there had been almost equal volume of soy-beans consumed for the production of " Tofu " and " Abura age " as for the production of soy-sauce , " Miso " and other seasonings.

Volume of Consumption of Soy-beans in 1929

Used for	Volume (in metric ton)
Production of " Tofu " & " Abura age " ..... (Beans curd) (Fried beanscurd)	290,000
Production of " Miso " (Beans paste)	190,000
Production of Soy-sauce	200,000
Production of Soy-beans Oil (Edible oil)	200,000
Production of other products (including for ccereals use , for production of " Natto " (fermented soy-beans) etc. ...	70,000
TOTAL	950,000

Out of 950,000 metric tons of abovementiond volume 700,000 metric tons were the imported ones from Manchuria and Korea.

(B) Edible oils as material for the production of " Abura age " (fried beans curd)

There have been being consumed approximately 605 metric tons of edible oils for the illegal production of fried beans curd in a year within the district of Tokyo-to , also about 1,900 metric tons were consumed in 8 big consuming cities area and 6,000 metric tons would be used for nation-wide scale. Separate report will be filed you in near future concerning this problems.

2) Present state of Demand & Supply of Soy-beans , Soy-beans allocation for the production of Beans-curd and Fried Beans curd.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(A) Concerning imported soy-beans ;

Name of Countries from where material purchased	Volume which were imported from the War-end untill the end of Sep. this year	Volume imported during the period from Apr. to Sep.'49
U.S.A.	183,120 metric tons	124,752 m.tons
China	37,641 "	1,890 "
Java	6,861 "	0
Tetal	227,622 "	136,102 "

(B) Volume of imported materials allocated for the production of Soy-sauce , " Miso " and Amino-acid during the period from Apr. to Sep. this year ;

Used for	Name of materials & its volume
Production of Soy-sauce	Soy-beans ..... 10,965 metric tons Beans-meal ..... 65,353 " (imported from U.S.A.)
Production of Amino acid	Soy-beans ..... 5,034 "
Production of "Miso "	Soy-beans .....25,296 " Beans flour..... 121,613 " (imported from U.S.A.)

(C) State of home products soy-beans and its distribution ;

In 1948 127,415 metric tons of domestic soy-beans were collected through authorized channels , and 85,690 metric tons were distributed for undermentioned purposes. The rest have been stored in warehouse of YURYO HAIKYU KODAN (Oilstuff Distribution Public Corporation) as the reserved stock for business operation. From 30,000 to 50,000 metric tons of soy-beans are estimated to be consumed by producers for their household use.

Distributed volume of home-produced Soy-beans

Used for	Volume allocated by the Ministry of Agriculture & Forestry	Volume allocated by the local Government Offices
Production of " Miso"	51,435 metric tons	
Production of Soy-sauce	27,027 "	
Production of Beans-glue	6,000 "	
Production of Beans-curd & fried beans curd	706 "	472 metric tons
Production of fermented soy-beans		50 "

(D) Present stock in hand of the YURYO HAIKYU KODAN (Oilstuff Distribution Public Corporation) as of the end of August this year , and volume of soy-beans which can be allocated for production of " Tofu " and " Aburage " at present;

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The said KODAN is keeping now 55,131 metric tons of oil-extracted soy-beans (imported one) and 10,333 metric tons of domestic products (un-oil-extracted one) in its hand , however , except 4,400 metric tons of remainig one there is nothing to be possible to allocated for the producing of " Tofu " and " Abura age " , because most of these stock are expected to be distributed for the material of beans-oils.

3) Forcast of the situation of Supply & Demand of material soy-beans ,both domestic products and to be imported, (in 1949 production) and Volume of Soy-beans to be possibly allocated for the production of " Tofu " (Beans curd) and " Abura age " (fried beans curd) ;

Total volume of supply ..... 340,000 metric tons

shall be imported from U.S.A. ,....	77,000	metric tons
" from Honkong (China)	123,000	"
domestic products	140,000	"
Total	340,000	"

Distribution plan of domestic products

(un-oil-extracted products) ..... 65,000 metric tons

for " Miso " production	45,000	metric tons
for cereals use	8,000	"
for " Natto " fermented soy-beans production	5,000	"
for other use	7,000	"
Total	65,000	"

(Oil-extracted products) ..... 75,000 metric tons

for " Miso " production	25,000	metric tons
for frozen Beans curd.....	5,000	"
for Beans curd & Fried Beans curd production	35,000	"
for Beans glue and other use	10,000	"
Total	75,000	"

Distribution Plan of imported Soy-beans ..... 177,750 metric tons

for production of Soy-sauce	105,000	metric tons
for feed use	65,000	"
for other use	7,750	"
Total	177,750	"

As above mentioned figures show , we can say at present that , only 35,000 metric tons of material soy-beans , that is ... only one third of necessity would be allocated for the production of this kind of foods.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

5. Effects of this Investigation ... Conclusion ... Administrative countermeasures expected to be suggested by this office ;

1) Volume of material beans to be consumed for the production of this kind of foods in comming year is estimated at least 100,000 metric tons , therefor , about two thirds of material will be short according abovementioned distribution progarm , however , out of abovementioned figures about 10,000 metric tons of soy-beans will be used in Tokyo area and about 25,500 metric tons will be used in the district of 8 (eight) big consuming cities area in the country.

2) So that we consider said 35,000 metric tons of soy-beans shall be allocated chiefly for the production in the 8 big consuming cities area. Because , if this countermeasure will be taken , concerned authorities shall be able to settle this difficult problem comperative smooth. For, generally speaking, proper producers, most of them are little scale dealers , are gathered mostly in big cities area - and this fact causes blackmarketing among them - on the other hand , consumers in sub-urban districts are able to purchase the products easily by asking " consigment processing " of their own materials.

3) At any rate, above mentioned remaining stock in KODAN's hand , 4,400 metric tons of soy-beans shall be distributed as soon as possibly as the additional allocation for " Tofu " dealers for the time being.

4) On the other hand , we gave lectures to representatives of dealers within the district of Tokyo-to and asked their serious self-control concerning this problem.

5) Anyway we can say now that the main effect of this investigation program is - - - we made Economic Stabilization Board and the Ministry of Agriculture & Forestry to consider this problem seriously and they intended to take countermeasures to improve this situation.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Report on Enforcement Program on Retail Sales of Illegal Foodstuff.

8 December '49.

Metropolitan Police Board
Tokyo local NRP
} at Tokyo ESA

Tokyo MPB will hold a conference (1300 8 Dec. 49) with economic police chiefs of all police stations in Tokyo to draw up a plan for an intensive drive against illegal sale of foods processed from staple food. First drive will begin on 10 December and will last for 1 week. Candies and other sweets made from sugar will be included in the items for confiscation. However, some cakes, candies, etc. are made from decontrolled materials such as starch, "shiroshita (kind of sugar produced in Japan), saccharine, sweet potato syrup and these will not be included.

After strict enforcement for 1 week, MPB desires Civil Affairs Team to make an inspection. If the Civil Affairs Team thinks the result is unsatisfactory second drive will be made.

NRP will hold a meeting 1000 9 Dec. 1949 and the drive will begin from 11 Dec. 49.

Police were instructed that all stores (smaller or large) be treated in the same manner and use this opportunity to bear down on processors, brokers, etc.
