This is a wilful misrepresentation. The people of the Second Congressional district are in the aggregate decidedly hostile to the Bank of the United States, and friendly to the administration, therefore no such declaration as spoken of on General Ripley's part could have been acceptable, nor do we believe that he would for the mere sake of being elected, as is intimated, have those injury to his feelings, by bending to such a necessity, if it had in fact existed. NEW WORKS.

The M dical Companion, or Family Physician, by the late Dr. James Excell.—The public have been long expecting the eacht edition of this popular work, revised, enlarged and considerably improved, embracing a treatise on epidemic and malignant choicra. We have now the pleasure to state that it is for sale by Mr. Win McKean, bookselfer, corner of Camp and Common sts. The writer of this article was assumented with the doctor, and knows that he labored hard in the improvements made upon the former editions of this work, and fully deserves the high encominum passed upon it by the witters of papers and professional men generally.—
The following remarks are taken from the New York Medical Reposstory. In speaking of Dr. Ewell's Metical Work, the Editorsays:

The body of the work is devoted to the consideration of the principal diseases which assail the human frame at different times of life, they begin with fevers, and with rickets, without however observing any strict method or nooological arrangement, each section stands by itself, and has little or no connection with the preceding or subsequent matter.—
But a table of contents or index are two good keys to the subject discussed. The diseases are generally exhibited in short and generally appropriate terms, after a definition—The observations are mostly complised under the head of symptoms, causes, treatment and regimen, to which in some instances are added paragraphs on preventitive, and it is but justice to observe that the author has manifested a careful and discriminating mind in condensing so much valuable Editorways:
The body of the work is devoted to the consideration of

out justice to observe that the author has mannested a unit and discriminating mind in condensing so much valuable into such a mederate compass."

This opinion given by the most talented medical periodical in the United States, speaks more in favor of the work than we can say. In addition, however, it may be well to state for the information of the doctor's friends that this work is for the information of the doctor's triends that has work is published for the benefit of his family.

Annexed to the present edition is a number of highly complingentary letters recommending the work to the public.—

Among them we preceive the names of Thos. Jederson, Dr. Chapman, Dr. Caldwell, Dr. Shippen, &c.

64 lots in Mandeville, of which a part is spposite to th Lake.
The whole conformably to the plots made by Mr Brin

gier and deposited in the Exchange.

I am to observe to the public that at the of my first sale which took place on the 24th of feet February I had announced in my prospectus that I would take feet thousand dollars of shares in the first steamboat of the value of ten thousand dollars which the proprietors of Mandeville would have to the between that place and New Libbians. would buy to ply between that place and New Urleans, but taking under consideration the difficulties to be encountered by a new actitement, in making up a sufficient stock I have bought with Mr John Davis a stemboat instock I have bought with Mr John Davis a scennoos: me-tended provisionally to ply between the two above men-tioned places, however I do not consider myself by any means discharged from the obligation which I have of taking the above amount of five thousand dellars of shires

taking the above amount of five thousand dillars of stieres in the fi st steaming at valued at ten thousand dollars when it will suit the proprietors of Mandeville or its viemity as procure such a boat for the navigation of the Lake.

I had also engaged myself to have done a wharf of sigh hundred feet long by eight in breadth instead of those dimensions I have built and delivered to the proprietors of Mandeville one of 750 feet long by 12 in breadth. I have also passed a contract to have completed a Bank down to the Ravine on Covinient in the prospectus, moreover I have opened Gerard street down to the Road which leads to Covington and Monroe street from Lewisburg to Casting. ovington and Monroe street from Lewisburg to Casting Bayon, I have began another wharf of the same dimen-ions of the one completed and will be delivered in the course of 120 days. Mr John Davis has done every thing
