expenses of the war. All wars should be accompanied by a system of direct and internal taxation. Nothing short of this can show, in addition to the sacrifice of life, what we pay for military giory. This was the policy in the better days of the republic.

The late war with England was nobly sestained by the scople, and not only in the field, but by the payment of taxes. And they will sustain every just war in which our country shall be involved. But I risk nothing in saying that an attempt to adopt such a system of taxation would wind up this Mexican war in sixty days. And this shows that the sure should be put an end to. This may be done by Congress in ninety days, and I pay God that they may do it.

Very truly yours.

JOHIN McLEAN.
