CONFERENCE REPORT

7 September 1950

Participants:

| | |
|---|---|
| Col R. H. Bradshaw | COM |
| Lt Col A. K. Akin | G-4 |
| Maj R B. Kreutzer | G-4 |
| Maj G. C. Freeman | CAS |
| Mr. C. H. Roller | CPC |
| Mr. E. C. Hutchinson | ESS |
| Mr. J. Hanna | ESS |

1. Conference was called for the purpose of resolving questions of policy on reimbursement for the use of reparations equipment and/or Japanese buildings and facilities used by the U.S. Forces not wholly in direct support of the Occupation.

2. Col Bradshaw reiterated the basic policy decision that costs above normal TOW operations should be charged to U. S. funds. He emphasized that unavoidable initial expenditures of TOW funds not in support of the Occupation should be held to an absolute minimum inasmuch as TOW funds, once expended, could never be recovered for that fund even though technically offset reimbursement in dollars was subsequently made. Such inability to recoup TOW funds is due to fiscal regulations stemming from the Japanese Constitution.

3. For policy relating to the question at hand, reference was made to paragraph 4 of Real Estate Conference Notes (31 Aug 50) which stated:

a. All categories of real estate (i.e., Japanese Government owned; enemy seized; privately owned enemy seized, etc.) acquired to support the Korean effort, must be paid for from U. S. appropriated dollars.

b. Real estate which was on procurement demand and other real estate under control of the Occupation Forces prior to 25 June 1950, is

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNBG NO. 770815

considered to be an occupational force requirement notwithstanding additional use thereof.

c. Each parcel of real estate acquired since 25 June 1950 will have to be considered on its merits based on the intended use thereof.

4. It was agreed that unless and until a directive may be received from an appropriately high body, such as the Joint Chiefs of Staff or the Far East Commission, no reimbursement would be made to compensate for the use in Japan of items which had been earmarked for reparations, regardless of whether such items are Japanese Government owned or privately owned, and further regardless of the degree to which such items may be used in support of the Occupation.

5. Mr. Hutchinson raised the question of dollar reimbursement to the Japanese Government for the use of items (non-reparation) which were originally obtained under the TOW program for exclusive use in support of the Occupation but which are presently used partially in support of other than Occupation activities. It was agreed that such reimbursement should be on a proportionate use basis but that the methods of computing such proportionate costs, which was a point of particular interest to Mr. Hutchinson, was the responsibility of JLCOM in coordination with appropriate GHQ staff sections and was not a matter for decision by the conferees.
