MEMORANDUM FOR: The Board of Trade (Boeki Cho)
Ministry of Commerce and Industry, Tokyo

SUBJECT: Revised Schedule for Domestic Consumption

1. Pursuant to paragraph 6 of Memorandum for the Imperial Japanese Government, from General Headquarters, Supreme Commander for the Allied Powers, AG 334 (3 Apr 46) ESS/IE (SCAPIN 854), dated 3 April 1946, subject: Board of Trade (Boeki Cho), the Board of Trade is directed to rearrange the release of raw cotton provided for in Memorandum to the Board of Trade, dated 30 January 1947 (BT 47-58) to the extent outlined below in Paragraph 2.

2. Memorandum to the Board of Trade, BT 47-58 dated 30 January, released 48,749 bales of raw cotton for domestic production covered by Schedule No. D-7. Of the above quantity, 7,450 bales were to be used in a program involving the manufacture of asbestos yarn, absorbent cotton and wadding. Boeki Cho, by its Memorandum dated 5 February 1947 (BOTB 452-II-34), subject: "Revision of Allotment of Raw Cotton for Domestic Use" requests a change in allocation of releases of raw cotton for the above uses from the original allocations contained in our Memorandum to the Board of Trade (Boeki Cho), BT 47-58 dated 30 January 1947, due to difficulties in carrying out the original allocations under the present difficult transportation situation. The Board of Trade is therefore hereby directed to:

a. Repossess 4,386 bales of raw cotton approved for sale to manufacturers in our Memorandum BT 47-58 dated 30 January 1947 as tabulated below:

Vessel	Staple & Grade		Intended Use	Quantity	Total per vessel

SUBJECT: Shipments of Salt from Tsingtao, China

1. Pursuant to paragraph 6 of the directive to the Imperial Japanese Government SCAPIN 854, AG 334 (3 Apr 46) ESS-IE, dated 3 April 1946, subject: Board of Trade (Boeki Cho), Boeki Cho will take action and assume responsibility as follows with regard to approximately 50,000 tons of salt being made available for Japanese consumption:

a. Arrange with Civil Merchant Marine Committee in conjunction with Shipping Control Authority for Japanese Merchant Marine for assignment of suitable shipping to lift approximately 50,000 tons at Tsingtao, China.

b. Declare ports of discharge in Japan for cargoes of salt at the time shipping is assigned and make all the necessary arrangements to discharge the cargoes at such ports.

c. Submit to General Headquarters, Supreme Commander for the Allied Powers, a forward schedule of the ports of discharge.

d. Instruct each ship master concerned to furnish the official representative of the Chinese National Government at Tsingtao with quantitative receipts for the salt at the shipping point. Two copies of these quantitative receipts to be verified by the official representative of the Chinese National Government at the port of loading and to be returned to the ship master.

e. Transmit copies of quantitative receipts in duplicate verified by an official representative of the Imperial Japanese Government upon discharge of the salt at ports in Japan to the Commanding General, Eighth Army.

2. Boeki Cho is authorized to distribute the subject salt upon arrival in Japan. Reference is made to memorandum for the Imperial Japanese Government, from General Headquarters, Supreme Commander for the Allied Powers, file AG 430 (11 Apr 46) ESS/PC, (SCAPIN 960-A) dated 11 April 1946, subject:

MEMORANDUM FOR: The Board of Trade (Boeki Cho), Ministry of Commerce and Industry, Tokyo

SUBJECT: Raw Cotton Processing Schedule for Export Use

1. Pursuant to paragraph six of Memorandum for the Imperial Japanese Government, SCAPIN 854, AG 334 (3 Apr 46) ESS/IE, dated 3 April 1946, subject: Board of Trade (Boeki Cho), the Board of Trade is directed to arrange for the manufacture of the specified amounts of each size of cotton yarn provided for in this proposal based on the distribution of raw cotton to each spinning company shown in Table No. 1 attached. This table represents an allocation of raw cotton approved by the Textile Bureau of the Ministry of Commerce and Industry.

2. Schedule No. CF-9 for the manufacture of CCC Group 1 cotton during Jan./Feb./Mar 1947 has been prepared by the Textile Bureau of the Ministry of Commerce and Industry and submitted through the Board of Trade to the Supreme Commander for the Allied Powers, as required by paragraph 2-3 (1) of Raw Cotton Regulations, issued by the Economic and Scientific Section (15 June 1946) ESS/IE, (BT-2). The raw cotton covered by this schedule is described as 78,149 bales of American cotton imported as designated in Table No. 1 attached and delivered to the Board of Trade by the U. S. Commercial Company. All references to raw cotton in this memorandum refer to these specified lots of raw cotton. Provisional Schedule No. CF-9 for Jan./Feb./Mar 1947 proposes to authorize the manufacture of cotton yarns from these 78,149 bales of raw cotton owned by the Board of Trade.

3. Each spinning company designated in Table No. 1 should be instructed to proceed with the processing of this raw cotton into yarn, without delay, under the general supervision of the Board of Trade. The counts and quantities of cotton yarn described in the production plan will be produced, insofar as mechanically practicable, out of the grades and staples lengths of raw cotton allocated to the respective companies. Prior to making any changes in or additions to the spinning program, the proposed amendment must be submitted by the Board of Trade for the approval of the Economic and Scientific Section, Supreme Commander for the Allied Powers.

BASIC: Memorandum to the Board of Trade (Boeki Cho) dated 24 Jan 47 subject: Raw Cotton Processing Schedule for Export Use.

4. All cotton yarn manufactured from this raw cotton is intended for export as yarn or fabric and, meanwhile, will be stored as the property of the Board of Trade in such form as may be convenient. The Textile Bureau will prepare a schedule for the further manufacture or other disposition of the cotton yarn produced under Schedule No. CP-o.

5. All cotton waste produced from the raw cotton hereby released and not reintroduced into the manufacturing process by the original spinners, will be transferred by sale to these spinning companies by the Board of Trade. A plan prepared by the Textile Bureau for using such cotton waste should be submitted to the Supreme Commander for the Allied Powers by the Board of Trade as soon as possible.

6. Weekly reports covering all CCC Group I cotton and the products thereof will be submitted by each spinning company on ESS Form No. 23 to the Board of Trade which will forward these reports to the Supreme Commander for the Allied Powers. Raw cotton in process, in transit and stored at port warehouses will be included in the report of raw cotton held by the Board of Trade, as provided for by paragraph 2 of Raw Cotton Regulations.

MEMORANDUM FOR: The Board of Trade (Boeki Cho)
Ministry of Commerce and Industry, Tokyo

SUBJECT: Release of Raw Cotton for Domestic Consumption

1. Pursuant to paragraph 6 of Memorandum to the Imperial Japanese Government, SCAPIN 854, AG 334 (3 Apr 46) ESS/IE, subject: Board of Trade (Boeki Cho) dated 3 April 1946, the Board of Trade is directed to arrange for the manufacture of the specified products for use within Japan provided for in this proposal, based on the distribution of raw cotton shown in Tables 1 and 2 attached.

2. Schedule No. D-7 covering raw cotton for domestic consumption during the period from October 1946 through March 1947 has been prepared by the Textile Bureau of the Ministry of Commerce and Industry and submitted through the Board of Trade to the Supreme Commander for the Allied Powers as required by paragraph 2-a (1) of Raw Cotton Regulations, issued by the Economic and Scientific Section (15 June 46, BT-2). This schedule provides for the allocation of 50,053 bales of cotton, of which 48,749 bales constitutes hitherto unreleased cotton. The balance of 1,304 bales involves a transfer of a portion of a lot previously released for export purposes to use in domestic products.

3. Inasmuch as the proposed transfer of 1,304 bales from export to domestic use comprises but a portion of the cotton previously released for export and eventually to be transferred to domestic use due to a curtailment in the original production plan for bed sheets and pillow cases, the above transfer is not authorized in this release. The above lot of 1,304 bales is to be included in a subsequent production schedule incorporating all cotton previously released for export production of bed sheets and pillow cases and which still remain in raw cotton form due to a change in previous production plans. This release therefore specifically limits the quantity of cotton to 48,749 bales of previously unreleased cotton to be used for the following purposes:

A.	41,299	b/s	for	manufacture of yarns
B.	5,000	"	"	wadding
C.	2,300	"	"	absorbent cotton
D.	150	"	"	asbestos manufacture

4. Pursuant to the authority cited in paragraph 1, the Board of Trade is directed to transfer title by sale of 48,749 bales of previously unreleased cotton to the companies named in the reference schedule. Particulars regarding the use of this cotton are contained in Tables 1 and 2 attached.

DECLASSIFIED AUTH: PUBL SEC. 3(E) AND 3(D) OR (E) NNDB # 775012

BASIC: Memorandum to the Board of Trade (Brooki Che) dated 30 Jan 47
subject: Release of Raw Cotton for Domestic Consumption.

5. The CCC Group I cotton described in A,B,C and D of paragraph 3 of this memorandum will be manufactured in accordance with Schedule No. D-7 during Jan/Feb/Mar 1947. The various grades and staples of the 48,749 bales of raw cotton approved for manufacture into products for domestic use may be mixed or combined for the purpose of obtaining the most practical and effective manufacturing operation of spinning mills. In no event, however, may any quantity of this cotton be blended, mixed or combined in any way with the raw cotton to which title is held by the Board of Trade and which is included in an approved export manufacturing schedule.

6. All cotton waste produced from this raw cotton and not reintroduced into the manufacturing process, as well as the bagging and ties around the cotton bales, are considered the property of the manufacturers purchasing the cotton from the Board of Trade and may be disposed of by them in accordance with regulations of the Textile Bureau.

7. Control over the distribution of the manufactured cotton textiles and other products containing cotton to be made for domestic use from this imported CCC Group I cotton will be exercised by the Textile Bureau, in accordance with the allocation plans attached to the schedules submitted.

8. Separate records as to inventories and processing of this purchased cotton will be maintained by all spinning, weaving and processing plants receiving allocations of CCC Group I raw cotton or cotton yarn intended for domestic use. Weekly reports on forms BSS-23 and 2a are required from all spinning and weaving mills processing CCC Group I cotton and the textiles made therefrom. The Board of Trade will submit weekly consolidated reports and the individual mill reports to the Economic and Scientific Section within twelve (12) days after the end of the period covered.
