REPORT  
OF THE  
COMMISSIONER OF CROWN LANDS  
OF THE  
PROVINCE OF ONTARIO  
FOR THE YEAR 1895.

---

To His Honor the Honorable GEORGE AIREY KIRKPATRICK,  
*Lieutenant-Governor of the Province of Ontario.*

MAY IT PLEASE YOUR HONOR :

As required by law, I submit for the information of your Honor and the Legislative Assembly, a Report for the year ending on the 31st December 1895, of the management, etc., of the Crown Lands of the Province.

CROWN LANDS.

The area of Crown lands sold during the year was 35,209 acres, aggregating in value \$37,213.23. The collections on account of these and sales of former years amounted to \$43,583.91. There was also leased as mining lands under the leasing clauses of The Mines Act, 13,969 acres, on which, and on lands previously leased, rent amounting to \$26,106.12 was collected. The total collections therefore on account of Crown lands were \$69,690.03.

The mining industry of the Province is improving slowly but steadily. In the Sudbury nickel region there has not been any great demand for mining lands, as no new discoveries have been made and the market for nickel during the year has not been such as to induce the establishment of any new works. The industry is however of great value to the settlers in that region by the employment it affords and the markets it creates for all kinds of agricultural produce, etc. It may be mentioned that the output of the nickel and copper mines in the Sudbury district last year when smelted in the furnaces was equivalent in metallic contents to 4,731,000 pounds copper and 4,631,768 pounds nickel, and the value, computed at the selling price at the works, was \$566,073. The industry gave

employment to an average of 419 men, the amount paid in wages for labor being \$210,000. In addition to this the works consumed very large quantities of cordwood, which gives employment to the settlers, who take small contracts to get out wood for the companies.

Discoveries of gold continue to be made in different parts of the Province, as in the Hastings district, Sudbury district, the region north of Lake Superior and the north-western part of the province around Lake of the Woods and Rainy Lake and up the Seine river to Lac des Mille Lacs. This latter field has an area of about 2,000 square miles, the greater part of which has been as yet very imperfectly explored. The formations in which gold is principally found occur irregularly throughout a region of 100,000 square miles extending along both sides of the height of land from the eastern boundary of the province to the western, with a length of 700 miles and a breadth of 100 to 200 miles. Gold mining is largely limited as yet to development work. A number of stamp mills have been erected, but at the present season of the year several of these are not running. It is altogether probable that on the opening of navigation those mills that are not now running and several new ones will be put in operation.

The completion of a blast furnace at Hamilton will, it is confidently hoped, result in the establishment of a good local market for iron ores, and already some progress has been made in opening iron mines, notably in the county of Hastings and on the north shore of Lake Superior, in anticipation of this demand. The immense bodies of hematite ore on the Mattawin river, and of magnetic ore on the Atik-okan river in the western part of the province, when reached by railway communication, will supply ore excellent in quality and practically unlimited in quantity.

#### CLERGY LANDS.

The area of these lands sold during the year was 1,568 $\frac{1}{4}$  acres, aggregating in value \$1,219.85. The amount collected on account of these and former sales was \$6,259.60. (See Appendix No. 3, page 5.)

#### COMMON SCHOOL LANDS.

The area of these lands sold during the year was 213 acres, aggregating in value 557.40. The collections on account of these and former sales amounted to \$13,942.51. (See Appendix No. 3, page 5.)

#### GRAMMAR SCHOOL LANDS.

The area of these lands sold during the year was 906 acres, aggregating in value \$851. The collections on account of these and former sales amounted to \$1,512.43. (See Appendix No. 3, page 5.)

#### RAILWAY LANDS.

Under "Railway Aid Act" of 1889, 52 Vict., c. 35, 969 acres were sold, aggregating in value \$1,209.33. The collections were \$718.42. (See Appendix No. 3, page 5.)

The price fixed by the above Act for these lands was \$2 per acre, or such price as might after inspection and valuation be fixed by Order-in-Council. Some of the railways

extended through townships formerly appropriated as free grants, and the lands remaining unsold or unlocated in these townships were the cull or rejected lots. Last session an Act was passed authorizing the Lieutenant-Governor in Council, where the construction of these railways had not been proceeded with and was not likely to be proceeded with within a reasonable time, and the lands could not be sold for the price fixed by statute, to withdraw any or all of them from the operation of said Act and to restore them to the free grant territory, or open them under settlement regulations at such prices and upon such terms as might be deemed expedient, or in proper cases, as mining lands. Under this Act some of the lands in old free grant townships have been restored to the free grant list, so that settlers may avail themselves of the land for grazing or fuel reserves, as this is the only value which the lots possess.

#### COLLECTIONS AND REVENUE.

The total collections of the Department on account of all sources of revenue were \$947,947.07. (See Appendix No. 4, page 6.)

#### DISBURSEMENTS.

The total disbursements of the Department on account of ordinary services and expenditure were \$249,280.85. (See Appendix No. 6, page 8.) In addition to this there were special votes for the running of the diamond drill, colonization pamphlets, and recounting and remeasurement of saw-logs on certain streams flowing into Lake Huron and in the Peterborough district, amounting to \$15,045.03. (See Appendix No. 7, page 16.)

#### WOODS AND FORESTS.

The total collection for the year amounted to \$853,179.86, in which there is included \$76,579.73 on account of bonuses and \$61,493.49 on account of ground rents, leaving the net revenue from timber dues \$715,106.64. (See Appendix No. 8, page 17.)

In my last annual report I stated that the lumber trade was not in a satisfactory condition owing to the depression which existed in the United States, where the great bulk of our sawn lumber is marketed, and I expressed the opinion that there was no immediate prospect of the prevailing depression passing away. I regret to say that the fears then expressed have been more than realized. (The sawn lumber market has during the past year been in an inactive state, and there was a distinct break in the prices of all but the superior grades of lumber, which constitute not more than twenty to twenty-five per cent of the total quantity of lumber produced at the present time in Canada and the north-western states. The English market for board timber and deals has been fairly satisfactory and prices remunerative, but this is a very limited and conservative market, easily overstocked and demoralized, and takes only the very best qualities of timber and lumber.)

The principal market for Canadian sawn lumber is, as previously stated, in the United States, and any overstocking or depression in that market is immediately felt by Canadian lumbermen. In the early part of the year there appeared to be an improve-

ment in the general business of the country, and, in sympathy with that, a hope arose that trade would be better on the opening of navigation. Very soon after navigation opened it was seen that there would be no improvement, but that things were going to remain in the unsettled and unsatisfactory position in which they had been during the previous year. As a consequence all but the upper grades of lumber moved slowly during the summer, with a decreasing demand and lowering of values. It was anticipated that when the crops in the west began to be marketed there would be an improvement in business, and that at any rate the lumber market of the north-western states would be benefited; but this expectation was also doomed to disappointment. During the summer a rise took place in the price of iron ore, in sympathy with which lake freights of all descriptions advanced. These increased freights lessened the values of all the farmer had to export, so that the farmers of the west either sold at lower prices than they anticipated or held their grain, consequently their purchasing power was diminished and they bought very little lumber.

The markets have become enormously overstocked with inferior grades of lumber, and it is this which has caused the present unfavorable condition of the trade. The circumstances which have led to this plethora of coarse, rough lumber are easily understood, and some of them may be noted. First, the removal of the duty on Canadian lumber passing into the United States enabled the coarse Canadian lumber to get into that market and thus stimulated cutting closer, the consequence of which was that a largely increased percentage of coarse logs was taken out. Secondly, the prices which have recently been paid for limits have rendered it necessary, if a profit was to be obtained, that every log which could be got out with any expectation of a return, should be cut and taken to the mills. Thirdly, during the summer of 1894 disastrous bush fires occurred in Michigan, Minnesota and Wisconsin and enormous quantities of pine timber were so badly scorched that in order to realize anything from it the timber had to be cut last winter. Accordingly, the western market, which in an ordinary year consumes a very large percentage of the cut of the north-western states, was flooded with coarse lumber of an inferior quality largely in excess of what it could use as its normal supply. The consequence was that this coarse lumber overflowed in large quantities into the markets of the eastern and middle states, overstocking and demoralizing them, until coarse lumber was a drug everywhere and prices broke. Fourthly, larger quantities of southern pine are being cut each year, and it is finding a market further and further north until now it is actually competing with Ontario coarse lumber in the United States as far north as the south shore of Lake Ontario.

It will be easily understood, therefore, from what has been stated that during the past year the lumber trade has been in an unsatisfactory and depressed condition. It is a matter of congratulation, however, that under such unfavorable circumstances the revenue collected from woods and forests has been so large.

With respect to the future, it is difficult to forecast what may happen. There does not appear to be any grounds upon which to base expectations of immediate substantial improvement in the conditions of the trade. The western lumber markets are overstocked with large quantities of inferior grades of lumber, which will have to go east, and

there does not appear to be any material decrease in the output of logs this present winter, besides which large stocks of last year's logs are still on hand, more than sufficient to equal any possible decrease that may take place in the output this season.

(The home market in Ontario has also been dull and inactive. Very little building is being done in the larger cities, and there does not appear to be any immediate prospects of extensive building in any of our cities or large towns. In addition to this there is a constant tendency to use steel frames, etc., for the larger buildings now being erected, and granolithic and materials of a similar character are rapidly displacing plank for sidewalk purposes. In the Rat Portage district, owing to the abundant crops in Manitoba, trade is improving, and as a consequence some of the mills at Rat Portage are taking out a limited stock of logs this season.)

The total output of pine from licensed lands of the province last year, including square timber, equalled 843,215,016 feet board measure. So far as can now be estimated, between eight hundred and eight hundred and fifty millions will be taken out this winter, although that estimate may be cut down in sympathy with the dulness of trade.

The Department deemed it expedient to make test measurements and counts of lumbering operations on some of the large streams flowing into Lake Huron, and also on the rivers in the Peterborough district. A staff of men were engaged to count and measure the operations and placed under the charge of the Superintendent of Forest Rangers for the Province, with instructions to make tests, counts, etc., on the French, Spanish and Whitefish rivers flowing into Lake Huron, and on the Gull river waters in the Peterborough district. Owing to the delay in driving the logs, incident to low water and to the great number which were stuck, the expenses were more than had been expected, as it became necessary, in order to render the test complete, to have the men follow the streams up to the limits in order to count the logs which were left along the streams and upon the limits. Some discrepancies in count and measurement were detected, and the parties were notified that the differences, if unaccounted for, would be charged up to their accounts. The investigation did not, however, disclose that there was any general or systematic attempt to defraud the Department, either in count or measurement.

Three examinations of candidates for culler's licenses under the Ontario Cullers' Act were held during the year, at Huntsville, Arnprior and Port Arthur respectively. The number of applicants was sixty, of whom forty-four qualified themselves by passing the examination. The total number of licensed cullers is now 624, as shown in the list given in Appendix No. 35, page 98.

#### FIRE RANGING.

The total cost of this service for last year was \$26,253.81, of which \$12,080.82 was refunded by licensees, leaving the net expenditure \$14,172.99.

The fire ranging system was established in 1886. Its provisions are briefly as follows: The placing of a number of men during the dangerous period of the summer, say from May to the end of September, on licensed and unlicensed lands of the Crown where, from settlement, railway construction, lumbering or any other cause, fire is so frequently used as to be a source of danger. The number of men necessary to give the proper pro-

tection is left to the owners of the limits, who are familiar with the topography, exposed position of the limit, etc., and they are also allowed to nominate or select the men to be employed, the Department reserving the right to reject or remove any man whom it believes to be unfitted for his duties or who neglects his work. These men are instructed by the Department and are, under Section 14 of the Fire Act, officers for the enforcement of the provisions thereof. They are supplied with large posters of the Fire Act and pamphlet copies of the same, and are instructed to put up the posters in public and conspicuous places throughout the territory under their charge, and to hand pamphlet copies to settlers and others, so that they may have an opportunity of becoming acquainted with the provisions of the law and no excuse for not obeying it. They are authorized to engage assistance should fires break out, and should these assume large and dangerous proportions they are required to notify the licensee and the Department, in order that both may be represented on the spot should that appear necessary. The Department bears half of any expense incurred in suppressing fires, as well as half of the wages of the fire rangers, whose remuneration is fixed at \$2 per day, out of which they have to defray their board, etc. At the end of the season they are required to send in their diaries and sworn accounts and a report upon the fires which occurred, together with the loss, etc.

The past summer was one of the dryest for many years, particularly in the country lying east of Sault Ste. Marie, and the experiences of the rangers in this respect are borne out by the reports of the various meteorological stations. The director of the meteorological office at Toronto states that the temperature in Algoma and Nipissing districts up to the end of May was very much higher than the average. In June there was a change to drought, the rainfall being particularly light and the weather unusually warm. In July the deficiency of rain was even more marked than in June. In August the rainfall, which is ordinarily light, was still below the average. In September there was a marked deficiency of rainfall in Parry Sound and Nipissing districts, while in October the rainfall was everywhere below the average. As a consequence of the very dry and hot character of the summer there had to be a closer watch maintained everywhere, and in certain specially dangerous and exposed regions the staff had to be strengthened beyond what has been customary in an ordinary year, and in one or two instances where large fires occurred in outlying districts a staff had to be sent to the spot to fight the fire. I am glad, however, to be able to say that, owing no doubt in a great measure to the close supervision and systematic organization which existed, no large destruction of timber took place. The only fire of any consequence which occurred on unlicensed territory was in the township of Grant, where a considerable quantity of pine was so badly damaged as to render a sale of it advisable, so that it might be cut and not go to waste. The reports show that 46,556,000 feet of pine were damaged, and the estimated loss was \$38,450. Some of the licensees were unable to put a value on the damaged timber, but as nearly all were aware early in the season of the extent of the fires and the localities in which they occurred, they have made preparations to cut the timber, and the actual loss, therefore, will probably not be great. The chief causes of the fires seem to be the clearing of land by settlers and the carelessness of camping and hunting parties. It is customary to ask the licensees each year to point out any defect in the system and to make any suggestions by which they think it could be improved, but with the exception of a desire to make the keeping

of fire rangers on limits in the summer time obligatory instead of optional there is no suggestion of amendment. They all seem to think that the service is admirably adapted to accomplish the object for which it was established. Representations have been made that in the newer parts of the Province it is sometimes difficult to punish parties who break the law in the setting out of fires, owing to the expense necessary in taking witnesses long distances to a magistrate, and it has been suggested that it would simplify the enforcement of the Act if the law were such that the Lieutenant-Governor-in-Council could clothe certain of the most intelligent of the fire rangers with magisterial powers.

#### FISHERIES.

Two additional overseers have been appointed since my last report in localities where their services are required. The reports received from the various overseers show that the law respecting fisheries is fairly well observed. The revenue from permits, etc., was \$365.00. A list of the overseers, with their post-office addresses, etc., is given in Appendix No. 11, page 24.

#### FREE GRANTS.

There are 159 townships open for location under the Free Grants and Homesteads Act, and no addition has been made since my last report. During last year 754 locations were made on 100,040 acres of land, and 62 locatees purchased 1,796 acres; 302 patents were issued to locatees. (See Appendix No. 10, page 20.)

#### ALGONQUIN AND RONDEAU PARKS.

Preliminary work of various kinds continued largely to occupy the attention of the officers charged with the administration of Algonquin National Park and Rondeau Provincial Park during the past year. In the former, some additional shelter huts have been built for use of the rangers while patrolling the Park, trails, portages and canoe routes have been cleared, a considerable portion of the Park boundaries blazed, and other services of like character performed. Concurrently with this, the work of protecting the timber from fire and the game from poachers has been carried on. A fire occurred on the limits owned by the St. Anthony Lumber Company in Canisbay township, extending over a number of lots, but the real damage done was not great. The Superintendent reports a noticeable increase of the game and fur-bearing animals, as a result of the protection now afforded them. The line of the Ottawa, Arnprior and Parry Sound railway was extended some nine miles into Canisbay during 1895, and the Company intend fully completing the railway across the Park and connecting with the western section at Scotia station on the Grand Trunk during the present year. The large numbers of workmen employed on the road will necessitate close attention on the part of the staff to prevent poaching and damage to timber. I regret to note the death of the late efficient Superintendent, Mr. Peter Thomson, in September last. His place was filled by the promotion of Mr. John Simpson, formerly Chief Ranger. The latter's report will be found in Appendix No. 32, page 59.

At Rondeau Provincial Park, a new and substantial dock has been built for the use of parties visiting the Park by boat, and a wire fence has been put up between the Park and private property at the north end. The beauties of the place are attracting visitors in increasing numbers, and several of the lots surveyed as cottage sites have been leased and houses erected thereon for summer resort. Some difficulty has been experienced in preventing trespassers shooting the game and other birds in the Park, especially during the open season for wild duck, when many pothunters as well as sportsmen resort to the Eau. Convictions were secured in a few cases, and it is hoped that such infractions of the law will now cease. Further details will be found in the Ranger's report, printed as Appendix No. 33, page 66.

### CROWN SURVEYS.

The following surveys of townships have been carried out this year :

In the district of Muskoka part of the township of Freeman has been subdivided into lots of 100 acres each ; in the district of Nipissing the township of Murchison has been subdivided into lots of 100 acres each, and the townships of Dana, McNish and Pardo into lots of 320 acres each ; in the district of Rainy River the townships of Van Horne and Wainwright, near Wabigoon on the line of the Canadian Pacific railway, and the township of Bennett on Seine river, Rainy lake, have been subdivided into lots of 320 acres each, as also the township of Haycock near Rat Portage. In the district of Rainy River the surveys of meridian and base lines, and in the district of Thunder Bay the surveys along the line of the Canadian Pacific railway, whereby a system of base lines has been laid down for future reference, which have been prosecuted for several years, have been continued.

The utility of these surveys has been fully demonstrated this season by the great impetus given to mining exploration owing to the facilities afforded by these lines for connecting mining surveys therewith, and by enabling this Department to prepare and publish maps of hitherto unknown regions. A judicious extension of this system into our as yet unpenetrated northern regions is very desirable.

The returns of the above named surveys have been examined and closed. The particulars of the surveys will be found in Appendices Nos. 15 and 20 to 31, pages 29 and 42 to 57.

### MUNICIPAL SURVEYS.

The Department has during the year, on the petitions of the municipal councils interested, issued instructions for surveys in the townships of Chinguacousy, North Grimsby, March and Torbolton, Orford and Vespra, and has during the same period confirmed municipal surveys in the townships of Orford and Chinguacousy.

The particulars relating to the surveys will be found in Appendices Nos. 13 and 14 pages 26 and 28.

---

---

### MINERAL AND OTHER SURVEYS.

The Mines Act 1892 requires that applicants to purchase or lease mining lands in unsurveyed territory shall file surveyor's plans, field notes and descriptions by metes and bounds of their locations in this Department before any sale or lease is carried out. Under Orders-in-Council of dates January 23rd, 1892, December 3rd, 1892, and September 22nd, 1893, applicants to purchase islands or locations in the districts of Thunder bay or Rainy River for agricultural puposes in unsurveyed territory are required to file surveyor's plans, field notes and descriptions by metes and bounds, together with the necessary affidavits of their locations, which are required to be of the form and size, wherever practicable, prescribed by the Mines Act 1892.

Under these regulations a number of applicants in the districts of Algoma, Nipissing, Rainy River and Thunder Bay have filed plans, etc., and an area of 8,924 acres has been sold and patented to them, for which \$15,713.50 has been received; and an area of 13,846 acres has been leased at \$1 per acre for the first year's rental.

The particulars relating to these surveys, sales and leases will be found in Appendices Nos. 16, 17 and 18, pages 30, 34 and 40.

### COLONIZATION ROADS.

The work done during the year was as follows: Miles of new road constructed, 311; miles of road repaired, 526; bridges erected, 35, and many others repaired. The work done was carefully inspected and reported to be of a satisfactory and substantial character.

The net expenditure was \$116,706.59, the details of which are given in the Superintendent's Report, Appendix No. 34, page 69.

Respectfully submitted,

A. S. HARDY,  
Commissioner.

DEPARTMENT OF CROWN LANDS,  
TORONTO, December 31st, 1895.

No.	Name of surveyor.	No.	Date of instructions.	Description of survey.	Date when confirmed.
1	John H. Moore.....	596	January 5th, 1895.....	To survey the ends of concession lines between concessions numbers two and three in the townships of March and Torbolton where they abut on the town line and to plant durable monuments at the ends of those concession lines on said town line.....	.....
2	Speight & Van Nostrand	597	April 18th, 1895.....	To survey the road allowance between lots numbers seventeen and eighteen so far as regards the west halves of said lots in the second concession and the east halves of said lots in the third concession west of Hurontario Street in the township of Chinguacousy and to plant permanent stone or iron monuments to mark the limits of said road allowance, and also at the front and rear angles of the west halves of said lots in the second concession and of the east halves of said lots in the third concession aforesaid where they abut on said road allowance.....	December 2nd, 1895.
3	Richard Coad .....	598	September 4th, 1895...	To survey road allowance between third and fourth concessions of the township of Orford from the town line between Orford and Aldborough across the several lots to number fifteen or as far west as may be necessary to complete the proper allowance for road and to define said road by permanent stone or iron monuments on each side thereof.....	.....
4	John H. Moore.....	599	September 20th, 1895..	To survey that portion of the line between the townships of March and Torbolton crossing the second concessions of said townships, and to have the road allowance along said town line across said second concessions defined by stone or iron monuments on each side thereof; also to have the ends of the concession lines between the first and second concessions and between the second and third concessions of said townships surveyed and defined by stone or iron monuments .....	.....

5	Elihu Stewart. ....	600	October 11th, 1895. ....	To survey the road allowance between the eleventh and twelfth concessions of the township of Vespra from lot number five or as near thereto as the original concession line can be clearly ascertained to lot number fifteen or as near thereto as the original concession line can be clearly ascertained and to define said concession road allowance across said lots by permanent stone monuments on either side thereof. ....
6	M. W. Hopkins. ....	601	December 3rd, 1895. ....	To survey the allowance for road between lots numbers fourteen and fifteen in the second concession of the township of North Grimsby and to mark the same by permanent stone or iron monuments, and also to plant permanent stone or iron monuments at the N. W. and S. W. angles of lot number fourteen and at the N. E. and S. E. angles of lot number fifteen in the said second concession. ....

GEO. B. KIRKPATRICK,  
Director of Surveys.

AUBREY WHITE,  
Assistant Commissioner.

DEPARTMENT OF CROWN LANDS,  
TORONTO, December 31st, 1895.

APPENDIX No. 14.

Statement of municipal surveys confirmed during the year 1895.

No.	Name of surveyor.	No.	Date of instructions.	Description of survey.	Date when confirmed.
1	Richard Coad .....	586	July 4th, 1893 .....	To survey the road allowance between the first concession and the rear of the lots north of the Talbot Road in the township of Orford from Johnson's side road between lots numbers sixty-six and sixty-seven north of the Talbot Road easterly to the town line between Orford and Aldborough, and also of the road allowance between the third and fourth concessions of the township of Orford from the town line between Orford and Aldborough westerly to the limit between lots numbers sixteen and seventeen and to define said road allowance by permanent stone or iron monuments on each side thereof .....	August 2nd, 1895.
2	Speight & Van Nostrand.	597	April 18th, 1895 . . . . .	To survey the road allowance between lots numbers seventeen and eighteen, so far as regards the west halves of said lots in the second concession and the east halves of said lots in the third concession west of Hurontario Street in the township of Chinguacony, and to plant permanent stone or iron monuments to mark the limits of said road allowance, and also at the front and rear angles of the west halves of said lots in the second concession and of the east halves of said lots in the third concession aforesaid where they abut on said road allowance.....	December 2nd, 1895.

## SURVEYORS' REPORTS.

*(Appendix No. 20.)*

## SOUTH-EAST PART OF THE TOWNSHIP OF FREEMAN

DISTRICT OF MUSKOKA.

PARRY SOUND, ONTARIO,

December 16th, 1895.

SIR,—I have the honor to report that I have completed the survey of part of the township of Freeman under your instructions dated July 3rd, 1895 :

I commenced the survey at the south-east angle of the township, where I planted an iron post, marked with a cold chisel, "Medora" on the east side, "Gibson" on the south-west side, and "Freeman" on north-west side as directed. I brushed out the south boundary, which I chained and posted westward, also brushed out and chained the east boundary northward. I first observed Polaris at eastern elongation for meridian on the sixth of August ten hours twenty-eight minutes P. M. on the south boundary at the line between lots 15 and 16, Azimuth, one degree forty-six minutes fifteen seconds. I then ran said line north twenty degrees fifty-one minutes forty seconds west to concession line IV. and V., where I again observed Polaris on August 10th at ten hours twelve minutes P. M., and ran concession line IV. and V. north sixty-nine degrees eight minutes forty seconds east, and observed Polaris on August 21st at nine hours twenty-nine minutes p.m., having surveyed concession line II. and III. and side lines 5 and 6, and 10 and 11, and continued my work northward to the north boundary under repeated observations of Polaris. At north-east angle of township I planted an iron post marked with the names of the four townships. From this post I ran the north boundary to side line 15 and 16. Concessions VIII. and IX. were also surveyed as far west as this side line, the concessions I. to VII. were surveyed westward to line thirty-five and thirty-six, which I had run last winter. The township is well timbered with pine and hardwood from the east boundary westward to lot twenty-five on concession line IV. and V. south side of Moon River, where the timber has been destroyed by fire several years ago. All that part of the township surveyed on the north side of Moon River is green bush.

The township is drained by Moon River, which enters from the south on lot 14 and runs north-westerly, crossing concession line VI and VII. on lots 27 and 28, and thence in the same direction to its outlet into the Georgian Bay.

There is a fairly good wagon road made and used by the lumber company now operating in the township, starting from Foot's bay, on Lake Joseph in the township of Medora, entering Freeman in concession V. and running westward as far as lot 27, where it crosses concession line VI. and VII., passing the lumber company's several shanties on its route.

There are about seven thousand acres in the south-eastern part of the township that will compare favorably with other portions of the district for agricultural purposes, the rest of the township is rolling and rocky, but well timbered with pine of good quality excepting that portion which has been burnt over.

I have the honour to be, Sir,

Your obedient servant,

(Sgd.) DAVID BEATTY,  
Ontario Land Surveyor.The Honorable A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto.

*(Appendix No. 21.)*

## SOUTH-WEST PART OF THE TOWNSHIP OF FREEMAN.

DISTRICT OF MUSKOKA.

PARRY SOUND, ONTARIO,

June 14th, 1895.

SIR,—I have the honor to report that I have completed the survey of part of the township of Freeman as directed by your instructions dated March 8th, 1895 :

On the 19th of March, after receiving your instructions I drove down on the ice from Parry Sound to John King's place below Moose Point where I stayed all night, and sent my hired team back to the Sound the next morning, and moved in to the east end of Tadenac Lake, taking my supplies on handsleighs, and camped within a few chains of the south-east corner of my work, and observed Polaris the same night for meridian, and commenced work by running the centre line between lots 35 and 36, north 20 degrees, 51 minutes, 40 seconds west. After running said line for two days I then chained my south boundary or north boundary of township of Gibson, westward to the Georgian Bay. I was directed by your instructions to repost said line on the south or Gibson side, but after chaining and posting for a mile and a half, I found one of the Gibson posts, and found that my chaining was not agreeing with the old chaining. I decided not to post the Gibson side any farther, but planted centre posts and corresponding ones on the north side through to the Georgian Bay. I carried on my work to completion, observing Polaris frequently for the astronomic bearing of my lines.

The greater part of the country which I surveyed has been burnt over, and is little or no use for agricultural purposes ; the only portion of my survey that has not been burnt over is about fifteen hundred acres lying north of Tadenac Lake, which is fairly well timbered with pine and hemlock ; that portion lying north of the deep bay and in concession V. and VI., and west of side road 40 and 41, has considerable good pine scattered throughout, but the country is rocky and valueless for agricultural purposes.

I have the honor to be Sir,

Your obedient servant,

(Sgd.) DAVID BEATTY,

Ontario Land Surveyor.

The Honorable A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto.

*(Appendix No. 22.)*

## TOWNSHIP OF McNISH.

DISTRICT OF NIPISSING.

WOODSTOCK, ONTARIO,

November 1st, 1895.

SIR,—I have the honor to report as follows, respecting the survey of the township of McNish in the district of Nipissing, under instructions from your department, dated 30th May, 1895 :

I proceeded to the work with a party of thirteen men, from Sturgeon Falls, via Sturgeon River, on the 14th August and reached the south boundary of the township on the evening of the 16th August.

Work was carried on continuously till the completion of the survey at the south-west corner of the township on the 18th September.

At the south-east angle of the township, I found an old balsam post in stone mound, marked concession VI. on south side and lot I. on west side. At the north-west corner of this post, I planted a  $1\frac{1}{4}$  inch gas pipe post with McNish cut with a cold chisel on the side facing the township.

At the south-west angle of the township, I found a red pine post marked 33 on the south-west side, 34 on the north-west side, 25 on the south-east side, and 26 on the north-east side; also a poplar post marked lot 12 on the east side, concession VI. on the south and concession I. on the north. I planted a  $1\frac{1}{4}$  inch gas-pipe post with "McNish" cut with a cold chisel on the side facing the township.

At the north-east angle of the township, I found an old pitch pine post marked 18 on south-east side; and 26 on south-west side; I planted on the south-west side of this post a  $1\frac{1}{4}$  inch gas-pipe post having McNish cut with a cold chisel on the side facing the township.

At the north-west angle of the township, I found a pine post marked on the south-west side 34, Kelly, lot I. concession VI. on the south-east side concession VI. and XXVI.; on the south-east side of this post I planted a  $1\frac{1}{4}$  inch gas pipe post having "McNish" cut with a cold chisel on the side facing the township.

The whole surface of the township is very rugged, many of the hills being 300 feet in height and usually having at least one side nearly perpendicular.

In the numerous beautiful lakes, black bass and pike are abundant, and game of many kinds is everywhere plentiful.

The Sturgeon river, which runs through the centre of the township, though three days' journey from its mouth, is still a large river, averaging about a chain and a half in width and of a varying depth of three or four to fifteen or twenty feet, with moderately swift current.

The timber is principally balsam, birch, pine, tamarac, spruce and poplar; there is no white pine worth mentioning. The spruce which is suitable for pulp wood, is nowhere found in large quantities, but is scattered pretty evenly over the whole township.

No economic minerals were met with during the progress of the work.

The variation of the compass is  $6^{\circ} 45'$  west, and excepting occasional temporary alterations due to local causes, remained at this throughout the whole survey.

I have the honor to be, Sir,  
Your obedient servant,

(Sgd.) WM. MAHLON DAVIS,  
Ontario Land Surveyor.

The Honorable A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto.

(Appendix No. 23.)

## TOWNSHIP OF PARDO.

DISTRICT OF NIPISSING.

CHATHAM, ONTARIO,  
November 22nd, 1895.

SIR,—I have the honor to submit the following general report of the survey entrusted to me this season :

In accordance with instructions received from your Department, dated the 4th day of June, 1895, I left Chatham on August 6th, to survey the township of Pardo, in the District of Nipissing.

I arrived at Sturgeon Falls on the evening of the same day, and spent the following day in providing myself with outfit and provisions, and engaging my party.

On August the 8th I left Sturgeon Falls for the scene of my field operations.

My route was up the Sturgeon River, whose angry waters greatly impeded my progress.

I passed Sandy Falls, two rapids, and Smoky Falls, where I found the necessity of making portages. The rest of my canoe route was also accomplished with considerable difficulty, owing to the rapidity of the current.

I landed about 100 yards above the point where the south boundary of the township of Dana crosses the Sturgeon River, whence I proceeded to the south-east corner of the township of Pardo. At this corner I found the tamarac post referred to in my instructions, in a stone mound, and marked, "McWilliams, concession VI, lot 12," on the south-east face alongside of which there stood an iron post, marked "Dana" on the south-west face. I marked "Pardo, concession I, lot 1," on the north-west face of the tamarac post aforesaid. At this point, according to my instructions, I commenced my survey, planting the lot posts along the south boundary, or the north boundary of the township of Dana. I ran the side lines and concession lines, respectively north and west, astronomically.

The east and west boundaries bear a little to the east, they having been run between posts, which were already planted for the township corners. I ran the east boundary, commencing at the aforesaid south-east corner of the township or the north-west corner of the township of McWilliams, otherwise the north-east corner of the township of Dana, at the tamarac and iron posts above described, northerly, to a pitch pine post in a stone mound, marked "18" on the south-west face, and "10" on the south-east face, planted on a base exploration line of 1881. Alongside this post, and on the south-west face, I planted for the north-east corner of the township of Pardo an iron post  $1\frac{1}{2}$  inches in diameter and 3 feet long, made of gas pipe, welded to a point at the bottom, and closed with a cap screwed on the top, marked "Con VI" on the south side, "Pardo" on the south west side, and "Lot 1" on the west side. The west boundary is identical with the east boundary of the township of McNish, which is run from posts described as follows:—A tamarac post in a stone mound, marked "Dana, con. VI, 12," on the south-east face, "Pardo, con. I, 12" on the north-east face, and an iron post marked, "McNish, con. I, lot 1," on the north-west face. Commencing at the above described posts, and running northerly to a pitch-pine post in a stone mound planted on the aforesaid base exploration line of 1881, and marked, "18 Pardo 12, con. VI," on the south-east face "28," and an iron post, marked "McNish" on the south-west face. The base exploration line referred to is the north boundary of the township of Pardo, besides being a standard parallel of latitude, and a base line for other townships.

The township of Pardo has suffered greatly from forest fires, but there yet remains a belt of valuable timber extending from the south-west corner to the north-east corner, and consisting of white and red or Norway pine, spruce, balsam, tamarac, cedar, white birch, maple and poplar, all of which I found in very nearly equal quantities. I also occasionally met with black oak, black ash, red birch, and wild cherry. The valuable timber can, I think, be marketed without great difficulty, owing to the proximity of the Sturgeon River down which it might be floated to the place of manufacture or export. This timbered portion of the township is all of more or less value for agricultural purposes, consisting of drift and sandy loam in places. The many marshes and shallow ponds being easily drained, leaving a very rich alluvial soil. There are several small tracts, which will in all probability be under cultivation at no distant day. The north-west and south east portions of the township consists of brule burned at different periods; the former probably 75 to 100 years ago, judging from the size of the second growth timber, which consists chiefly of white birch and poplar. The latter section, I learned from one of my party (whose father remembers some of the fires), was burned in 1859. The second growth trees are very small, but there is evidence of the prior existence of a valuable forest. The township is divided into three geological formations. The south easterly portion be-

longs to the Laurentian; the centre belt, or the well timbered portion, extending from the south-west corner to the north east corner, to the Huronian and Cambrian, and the north-west portion to the Laurentian and Huronian. I met with a great many small lakes and ponds, ranging from one-eighth or one-tenth of an acre to two hundred acres. Most of these have been formed by the damming of small streams—the work of beavers, which seem to be, or have been, in very large numbers. I found some of them dammed at places which favored the work throughout their entire length, forming chains of ponds, connected only by small brooks of insignificant depth and width, and fed only by the drainage from the hills. Some of the lakes in the township contain magnificent fish; black, green and rock bass, pickerel and pike.

Game is plentiful; ruffed grouse and Canada grouse, or spruce partridge, being in abundance; moose red deer, bear, beaver, martin, porcupine, wolves, and wild-cats, are also plentiful, as indicated by their tracks recently made.

On lot 12 in the 3rd concession of the township I discovered a stream with a rapid current, eighteen inches deep and thirty feet wide, of very clear cold water, slightly impregnated with mineral, the chemical compound of which I did not recognize. This stream has its source apparently within the limits of lot 12 in the 3rd concession, and evidently issues from springs wholly within that lot. One of these sources I discovered to be a reservoir or deep basin in the ground, twenty feet in diameter, and over thirty feet deep. This stream flows southerly, then south-westerly, and finds its way into the Sturgeon river.

I may add that lot 12 in the 2nd and 3rd concessions are the best portions of the township for agricultural purposes, as they consist of a fertile clay soil, and are in the timbered part of the township.

I have the honor to be, Sir,

Your obedient servant,

(Sgd.) W. F. O'HARA,

Ontario Land Surveyor.

The Honorable A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto.

(Appendix No. 24)

## TOWNSHIP OF MURCHISON.

DISTRICT OF NIPISSING.

PETERBOROUGH, ONTARIO,  
December 19th, 1895.

SIR,—I have the honor to submit herewith the field notes and plan of survey of the township of Murchison, in the Nipissing District, performed under your instructions, dated May 30th, 1895.

Murchison lies south of Algonquin Park and the township of Clancey.

The Ottawa, Arnprior and Parry Sound Railway runs through its south part, and, at the time of survey, afforded passenger accommodation as far west as the village of Whitney, in the adjoining township of Airy.

The railway seems to have been substantially built, well ironed and on easy grades, taken as a whole.

It will serve immensely to open and develop the agricultural, mineral and timber resources of the country between Renfrew and Parry Sound on the Georgian Bay, besides giving employment and a market to the settlers, while at the same time being about the shortest link that could be chosen to connect the great lakes and the west and north-west with the Atlantic seaboard at Portland, Boston and New York, it will, during navigation, be one of the chief highways in the continent.

In its general aspect the township is similar to those surrounding it, which have already been reported upon.

The surface is mostly uneven and broken by granite or gneiss ridges, more or less rounded, with valleys of marsh and swamp land interspersed between.

Some of the latter, when cleared and opened, make good land, and this is also true of many of the lower slopes and side hills, which, however, are found to be more or less stony.

The township, at various times, has been overrun by fire, and at present is for the greater part, denuded of its original woods, in the place of which there is generally a dense growth of white birch, poplar, cherry, alder and willows.

There are, however, several tracts of fine pine and hardwood still remaining, especially in the north-east quarter of the township.

There are already eight settlers (some of them having families) in the township, most of whom have large clearings, well cultivated farms and good homes, with outbuildings, etc.

The settlers, some of them, are of old standing, having taken up land before the township was surveyed, the clearings were made at random, and, as a consequence, are very mixed, some of them occupying part of two or three lots, while in other places two or more are found to be settled on the one lot, thus showing the desirability of having the surveys made in advance of settlement.

The Madawaska River, a rapid, rough stream, averaging about two chains in width and three feet in depth, enters the township in lot 3, concession III., and after a rather meandering course leaves the township at lot 1, concession 1. It is like its tributary streams, well stocked with speckled trout and other small fish. The banks of the river are gradual, and composed of stone and boulders, with stretches of sand beach intervening.

Moose and deer are, under the present efficient administration of the Provincial game laws, rapidly increasing in the district, as are also beaver, otter and other fur-bearing animals.

The mineral resources of this section are as yet but little known, but I have no doubt that after special exploration and examination they will be found capable of profitable development.

The township, on the whole, will afford homes for many industrious settlers, and I am of opinion that thirty to thirty-five per cent. of the land area may be considered fairly suitable for settlement, while a good proportion of the remainder, including beaver meadows and marsh, will supply good pasturage.

Hoping this report and accompanying returns will be found satisfactory,

I have the honor to be, Sir,

Your obedient servant,

(Sgd.)

J. W. FITZGERALD,

Ontario Land Surveyor.

The Honorable A. S. HARDY,

Commissioner of Crown Lands,

Toronto.

(Appendix No. 25.)

## TOWNSHIP OF DANA.

DISTRICT OF NIPISSING.

INGERSOLL, ONTARIO.

August 26th, 1895.

SIR.—I have the honor to report the completion of the survey of the township of Dana, in the district of Nipissing, performed under your instructions of the 30th day of May, 1895.

I proceeded *en route* to Sturgeon Falls, where I procured men, canoes and supplies, and from there, with fourteen of a party, up the Sturgeon River, to where my south boundary crosses this river.

I commenced my survey as instructed at the south-east angle of the township, being the north-east angle of the township of Crerar, where pine and balsam posts, also an iron tube, were found.

I planted a cedar post alongside the iron tube and other posts, placing it in a stone mound, and the post is so placed that the lines connecting the cardinal points will pass through the angles. The post I planted for the south-easterly angle of my township is marked on north-west side "Dana, concession 1, lot 1."

I planted an iron tube in stone mound, as instructed, at the north-easterly angle of my township. The posts at the corner of this township are fully described in the field notes.

The south, east and west boundaries of this township were already run, the south seemingly some years ago, and the east and west in 1894.

The south boundary was grown up again with much undergrowth. I re-opened this line in order to chain it. I also re-chained the east and west boundaries.

I made an accurate micrometric survey of all the waters within the boundaries of my township.

Regarding the general character of the township it may be described as follows, but fuller particulars will be found in the field notes.

The township, on the whole, is rather rocky, hilly and uneven, with numerous swamps and beaver meadows.

The soil is mostly shallow sandy loam, with black loam or muck in and around the swamps.

The hills vary in height from about twenty feet to 100 feet, and are in many cases steep and rocky, while in others gradual stony inclines.

The water supply is good. The Sturgeon River runs into the township about the middle of concession 11 on the west boundary, and following a south-easterly course crosses the south boundary on lot 7, concession 1, where it leaves the township.

In the north-westerly portion are two lakes, partly in the township, of considerable size, and also a few small lakes, mostly connected by creeks.

There are two creeks of moderate size, one entering the township from the east, crossing the eastern boundary about the upper part of concession V., and joining another creek in concession IV., lot 5, which enters the township on the north boundary on lot 5, concession VI., and following in the southerly direction crosses the south boundary on lot 7, concession 1.

The north-easterly half of the township has been overrun by fire at one time, while the remaining portion is uninjured. In the unburnt section the pine timber is good, and the other timber is mixed, consisting of spruce, tamarac, balsam, birch, poplar, and in places some maple and cedar are to be seen.

In the burnt portion the second growth is chiefly pitch pine, spruce, birch, poplar, tamarac and balsam.

Many standing green pine are to be seen throughout the burnt section.

No economic minerals were found during the progress of the survey.

The township of Pardo was not surveyed when running my north boundary, so I am unable to give the jogs that the meridians of that township would make with the meridians of my township.

There are no squatters, nor are there any Indians settled in the township. The lines are all well cut out and blazed and good posts are put in.

Cedar was scarce, but wherever it was obtainable a cedar post was made, and in every case where necessary a stone mound has been placed around the posts.

I have the honor to be, Sir,  
Your obedient servant,

(Sgd.) W. R. BURKE,  
Ontario Land Surveyor.

The Honorable A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto.

(Appendix No. 26.)

## TOWNSHIP OUTLINES.

### DISTRICT OF THUNDER BAY.

COLLINGWOOD ONTARIO.

November 18th 1895.

SIR,—I have the honor to submit the following report on the survey of township outlines along the line of the Canadian Pacific Railway in the district of Thunder Bay during the past summer under instructions from your Department dated the 3rd of June and the 13th of July 1895.

The work is a continuation of that begun in 1891, and which has since been carried on, and consists in a traverse of the railway track as a basis from which the townships adjacent thereto were located.

In addition to the traverse and the location of township boundaries, portions of the latter were run, generally to their nearest corners.

I commenced my survey this year where I closed it last season viz., at an iron plug driven down at station 759 of last year's work, which is made station O for this season's work and is a short distance east of Rossport railway station.

From the above point I carried the traverse on continuously up to the north-east corner of the station building at Neepigon.

This last point is situated in the township of Neepigon previously surveyed, and I connected my traverse with the east boundary of this township by tying to a post at the south-east angle of lot 14, in concession I. and making the west boundary of my township 92 identical with this boundary. This made township 92—567.46 chains wide from east to west instead of the ordinary width of 480 chains.

As will be seen by the plan and field notes, in addition to running certain boundary lines, I connected my traverse with a number of mining locations adjacent to the railway and also with the Indian Reserve at Pay's Plat and with Hudson Bay property at Rossport.

This portion of the work is shown on sheet No. 1 of my returns of survey for this year.

I then moved my outfit to Finmark station, about thirty-three miles west of Fort William and produced the west boundary of the township of Conmee north to intersect a traverse along the C.P.R. which I had started at Finmark station.

The intermediate territory between here and Neepigon being previously surveyed, it was not necessary to make the work continuous.

The above named intersection is the point where the south-east angle of township No. 1 would be located were it not that the Dawson road lots, previously surveyed, cut off that portion of the township; and from this point my reckonings start, for determining the length and width of the series of townships as afterwards laid out.

Owing to a clerical error in placing a decimal point, and which was not discovered in time, township No. 1 is 483.42 chains wide from east to west instead of 480 chains, all the townships west of this range to the end of the work, are each six miles square, excepting township No. 15 which closes on the line between the districts of Thunder Bay and Rainy River and is 516.76 chains from east to west.

I closed my season's work by driving down to the level of the ballast, an iron bar at the intersection of my traverse with this district line and planting posts of both wood and iron at each side of the railway right of way, marked as shown in the field notes. This point of intersection was in the centre of the railway track and was found by measurement to be only one chain and twenty-nine links south of the 61-mile post on said district line.

Posts made of iron gas pipe 1 5-16 in. diameter, plugged and pointed were planted alongside of wooden posts at all township corners to which I ran, as well as at the intersections of the township boundaries with the railway right of way. Both the iron and wooden posts were marked with the numbers of the township on their respective sides, the former with a cold chisel, and in most cases stones were piled around the posts and bearing trees taken wherever available.

In addition to the posts above mentioned, flatted mile posts made of wood were planted on the portion of the township boundaries run. They are numbered from the south side of their respective townships, except in the broken townships fronting on Lake Superior, where they are numbered from the north.

That portion of the work between Finmark station and the said district line, is shown on sheets Nos. 2 and 3 in my returns of survey.

That portion of the country embraced in sheet No. 1 and extending from Rosspoint to Neepigon, is of a rough and rocky nature, the rock being basaltic in character and belonging to the Neepigon formation. In many places the mountains are precipitous but between them there are flats or level stretches of country of fair soil, presenting a more inviting appearance than the country lying farther east. This condition becomes more apparent as we proceed farther west, and in the neighborhood of Neepigon and around the north and west shores of Black Bay a considerable extent of good land is met with.

The timber has been largely destroyed by fire. What remains, consists of spruce, balsam, tamarac, poplar, birch and jack pine.

Wild animals, probably owing to the country having been overrun by fire, seem scarce. but fish of the finest quality are plentiful, and perhaps in no other part of America can brook trout of the size and quality and in the same abundance be found as in the Neepigon river and other streams in that district.

The country between Finmark station and English River which is shown on sheets 2 and 3, differs very much in character, from that north of Lake Superior.

About Finmark and for several miles west the country is hilly, but not mountainous, and as we approach the Savanne River it becomes quite level and in many cases swampy and this continues to the end of the work at English River.

I may say that in carrying out this work, in addition to locating on the ground the boundaries of a series of townships in regular order, extending from the older surveys of what may for distinction be called eastern Ontario to the close of this season's work at the eastern boundary of the Rainy River District, every railway station and siding all bridges, culverts and gravel-pits and all mile boards have been noted and their exact position can now be located, on the plans accompanying the returns.

Also all mining locations or other grants of land, adjacent to or near the railway have been connected with the line of traverse.

As this is through a hitherto unsurveyed district, its utility will be apparent not only as locating definitely the position of several villages along the line and numerous grants of land for mining and other purposes that have been patented but also in preventing confusion in the future, which always arises when surveys are made without having any definite points known to the Department, with which these surveys can be connected.

I have the honor to be, Sir,  
Your obedient servant.

(Sgd.) E. STEWART.  
Ontario Land Surveyor.

The Honorable A. S. Hardy,  
Commissioner of Crown Lands,  
Toronto.

(Appendix No. 27.)

## TOWNSHIP OF WAINWRIGHT.

DISTRICT OF RAINY RIVER.

TORONTO, ONTARIO.

October, 1st, 1895.

SIR,—I have the honor to submit the following report on the survey of the township of Wainwright, in the district of Rainy River, as sub-divided by me during the present season under instructions from your Department bearing date the 30th day of May, 1895.

Upon my arrival I found that the south boundary of this township had already been run by Ontario Land Surveyor Macdougall to form the north boundary of the township of Van Horne which was recently sub-divided by him. This boundary I re-chained according to instructions commencing at the 72nd mile post planted by O. L. S. Niven, and marking the south-west angle of the township of Wainwright and planted posts to mark the fronts of the lots in concession I.

Arriving at the south-east angle of this township, defined by a pitch pine post and iron bar each marked "Van Horne, concession VI., lot 1." I added the marks "Wainwright, concession I., lot 1," and taking an astronomical observation, I ran from thence due north to the north-east angle (planting posts for the fronts of the several concession lines) to the north-east angle where I planted a pitch pine post, eight inches square, marked "Wainwright, concession VI., lot 1," also an iron bar similarly marked. From the points thus established I ran the several side lines and concession lines due north and west, respectively, dividing the township into seventy-two lots of 320 acres each or thereabouts, as instructed. Posts of the best obtainable timber were planted at all the front angles of lots and all lines were well opened out and blazed.

The surface throughout is gently rolling with occasional knolls and small hills, in a few instances capped with rock and boulders.

These exceptions occur chiefly in lots 1, 2, 3, 10 and 11 in concessions II. and III., and lots 1 and 2 in concessions 5 and 6.

The soil is mainly composed of clay and clay loam of excellent quality.

Wabigoon River, a fine stream about two chains in width, with an average depth of six feet, enters the township on lot 6, in concession I., and flowing in a devious course for about thirteen miles of its length, in a general north-westerly direction, crosses the west boundary on lot 12, concession V. This stream contains good water, slightly colored from clay banks about ten feet high on either side, the current being from two to three miles an hour, but broken by rapids in crossing concessions II. and III. Where these rapids occur the banks are rocky.

On lot 7, concession 2, there are two excellent mill sites of considerable power, the first having a natural fall of about ten feet and the second situate about half a mile farther north, has a fall of between sixteen and twenty feet.

Another important stream known as Gull River, flows southerly and westerly across lots 5 to 12 (inclusive) in concession VI. This stream is about fifty links in width and four feet in depth, with a somewhat sluggish current flowing between clay banks about ten feet in height.

The remainder of the township is well drained and watered by numerous small creeks and springs, in addition to which there are three lakes of small area situate upon lots 10 and 11, concession I., lots three and 4, concession II., and lot 12, concession III., respectively.

Fully seventy-five per cent. of the whole township is well adapted for agricultural purposes and the greater part being covered only by open *brulé* the necessary clearing would be easily accomplished.

Patches of open prairie of considerable extent also occur in many places, thus further reducing the usual labors of the future pioneers in preparing farms for cultivation.

Owing to the comparatively level character of the surface of the land and the absence of heavy timber, the roads in the township would generally be easily constructed. The Canadian Pacific Railway crosses the south-west corner of lot 12, in concession I., making the township very easy of access, and the proximity of the pioneer dairy farm, which is located only about a mile south from the south boundary, adds another desirable feature to the township.

With the exception of a few small patches of the original forest which have escaped the fires which at different times during the past twenty-five years have overrun this district, the township may be said to possess no merchantable timber whatever, and in many parts there is scarcely sufficient timber for the usual requirements of the settler. Second growth poplar, jack or pitch pine, spruce and tamarac, comprise the timber now remaining; that in the north-west quarter of the township being somewhat larger than the timber in the other portions. No indications of minerals of any value were met with.

Game of the larger varieties was scarce; but rabbits, partridges and prairie chickens were abundant.

No settlers have as yet located within the limits of the township.

Accompanying this report is a general plan, timber plan and field notes of the entire survey.

I have the honor to be, Sir,  
Your obedient servant,

(Sgd.) T. B. SPEIGHT,  
Ontario Land Surveyor.

The Honorable A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto.

*(Appendix No. 28.)*

## TOWNSHIP OF VAN HORNE.

DISTRICT OF RAINY RIVER.

PORT ARTHUR, ONTARIO,

September 11th, 1895.

SIR,—I have the honor to report that in conformity with your instructions for the survey of the township of Van Horne, dated May 7th, 1895, I have completed the survey plans and field notes.

I commenced work as instructed, at the seventy-second mile post on O. L. S. Niven's, sixth meridian, and ran east astronomically six miles, planting posts at every eighty chains. At the north-east angle thus determined, a pine post was planted, marked on west side lot 1, on south side Van Horne; an iron post similarly marked was planted alongside the wooden one. I then ran the east boundary south to Lake Wabigoon; all the concession lines were run east from the mile posts on the sixth meridian, and the lot lines eighty chains apart north and south astronomically.

The township is in general rolling, with very few hills of over 100 feet high; frequent fires have overrun so that all the timber of value has been destroyed, except two small patches of spruce and tamarac in the south-west quarter, leaving parts of the township completely bare, but the larger portion is covered by a thick growth of small poplar, jack pine and birch.

The soil consists of a fine white or grey clay, with areas of sandy loam. This clay and loam is mostly in the northern and central parts and occupy about one-third of the township. They will, I think, make valuable farms, easy to make ready for the plough, as the ground is almost completely clear of timber. The balance of the township consists chiefly of rolling hills of rock with swamps intervening.

The township is well watered, several large bays of Lake Wabigoon reach well into the centre and the River Wabigoon runs north through the fourth, fifth and sixth concessions, besides there are several small streams of good water. On the River Wabigoon, near the crossing of the Canadian Pacific Railway, on lot 4, concession V., there is an excellent mill site with a fall of about fifteen feet. This is less than a quarter of a mile south from the Pioneer Farm, on lot 4, concession V.

I have the honor to be, Sir,

Your obedient servant,

(Sgd.) A. H. MACDOUGALL,

Ontario Land Surveyor.

The Honorable A. S. Hardy,  
Commissioner of Crown Lands,  
Toronto.

*(Appendix No. 29.)*

## TOWNSHIP OF HAYCOCK.

DISTRICT OF RAINY RIVER.

RAT PORTAGE, ONTARIO,

October 18th, 1895.

SIR,—I have the honor to report that I have completed the survey of the township of Haycock, in the District of Rainy River, according to instructions dated June 7th, 1895.

This township is bounded on the west by the township of Jaffray and by a number of mining locations, while on the other three sides it is bounded by the unsurveyed lands of the Crown.

The survey was commenced from the south-east angle of lot number 16 in the sixth concession of Jaffray, where I observed Polaris at eastern elongation on July 16th, and from here a line was run due east six miles and from this point a line was run at right angles due north and south three miles each way for the east boundary. Using these two lines as base lines, I proceeded to lay out the lots, making the whole regular lots 320 acres, but owing to the numerous lakes and streams there are very few whole lots in the township.

Iron and wooden posts were planted at south-east angle of the township. The wooden post marked on north-west face "lot 1, con. I., Haycock." The iron post is a solid bar one inch square, three and one-half feet long, marked "Haycock" on the face towards the township. Similar posts were planted at north-east angle of township, the wooden one marked on south-west face "Haycock, lot 1, con. VI.," and the iron one "Haycock." The iron post at north-west angle of township is marked "Jaffray" and "Haycock" on the respective sides. Similar iron posts and wood ones are planted on east limit of location 224 P for south boundary, and on the shore of Black Sturgeon Lake for north boundary.

All wooden posts on the boundary are marked "Haycock."

There are twenty-two lakes within or bordering on the township, besides a number of ponds that can hardly be dignified with the name of lakes. In all these lakes and ponds, even the smallest of them, fish of various kinds abound. Game is comparatively plentiful throughout the township; moose and caribou being quite numerous at the time the survey was made, while there were indications of bear in many places, and one family of beaver was discovered not far from the line of the Canadian Pacific Railway, which runs through the township.

The greater part of the township is covered with jack pine, poplar and spruce bush. There is practically no red or white pine fit for lumber, and as the fires of 1894 passed over a great portion of the township, much of the bush is rapidly dying. About four square miles of the south-easterly portion is nearly denuded of trees by the fires. During the construction of the Canadian Pacific Railway most of the timber suitable for ties or bridge timber was used in the construction of this road. Towards the north, near Black Sturgeon Lake, there is some good poplar of considerable size and some fairly good land, but while there are small areas here and there suitable for cultivation or for hay lands, the township is not well adapted for agriculture, but the indications are favorable towards it being a good mining region. Within the locations towards the southwest quarter there are many good veins of gold-bearing quartz, some of which are at present being worked, and other parts of the township are being prospected since the field work was completed.

The land is, for the most part, rolling and broken, the formation of the southern part being slate and hornblende schist, and the northern and eastern parts granite.

I have prepared a plan of the township, as per instructions, which I enclose herewith together with the field notes and account for survey duly sworn to.

I have the honor to be, Sir,

Your obedient servant,

(Sgd.)

THOS. R. DEACON,

Ontario Land Surveyor.

The Honorable A. S. Hardy,  
Commissioner of Crown Lands,  
Toronto.

(Appendix No. 30.)

TOWNSHIP OF BENNETT.

DISTRICT OF RAINY RIVER.

SEINE RIVER,

September 16th, 1895.

SIR,—I have the honor to submit the following report of the survey of the township of Bennett, Rainy River District made under instructions from your Department dated 7th June, 1895.

The township of Bennett is situated on the Seine River, Rainy River District and is bounded on the south by Niven's south base line, on the north by Niven's north base line, on the west by Niven's 5th meridian line and on the east by unsurveyed lands of the Crown.

The Seine River enters the township at the middle of the east boundary and following in a general south-westerly direction, with numerous rapids and falls, leaves the township about the middle of the south boundary.

All that portion of the township lying south and east of the Seine River, with the exception of 70 acres has been taken up as mining lands and surveyed into mining locations. Mining locations have also been laid out along the south and west boundaries and north of the Seine River.

With the exception of a couple of locations on the west boundary that have been surveyed on account of indications of iron, all the above locations have been taken up on account of the gold-bearing quartz reefs that occur in the formation and from a great many of which gold can be obtained by simple panning, the ore being that known as free milling, while in others the quartz has to be treated chemically or burned to obtain the gold.

The trail from Ignace station on the Canadian Pacific Railway to Sturgeon Falls on the Seine river enters the township of Bennett at the south end of West Moose lake at the north-east corner of the township and was followed south-westerly to the line between lots 10 and 11 concession III., but after crossing that line the cutting had not been completed at the time of survey.

The north-westerly and south-easterly portion of the township are rough, hilly and rocky but with some small patches of good farming lands along the Little Turtle river. There are also some good farms on the north boundary, and strips of land lying diagonally across the township from the north-east to the south-west contain some excellent farming land.

The central portion of the township is fairly well timbered with poplar, birch, spruce and tamarac with some very good tie timber in the swamps.

The northerly and southerly parts however have been burned and are now overgrown with small pitch pine, birch and poplar. Very little red and white pine of any size is met with; on lot 11 in 2nd concession north of McPherson lake on lot 7 in the 2nd concession and on lots 3 and 4 in the 5th concession are a few bunches of fair size timber.

The regular lots of the township were made forty chains in frontage and eighty chains in depth containing an area of 320 acres.

Posts were planted at the front angles of all lots, marked with the numbers of the lots on the east and west sides and the number of the concession on the north and south sides, excepting the posts marking the line between lots 1 and 2, 3 and 4 etc., etc., etc., which have no marking on the south side.

The side lines of the township were run due north astronomically and the concession lines due west astronomically. In cases where the fronts of lots were broken by mining locations the posts marking the lot lines were planted on the mining location lines and not on the concession lines. The lines of the township passing through surveyed sections were not blazed. As there was only a small portion of the plans of the sixty-six mining locations surveyed in this township filed with your Department at the time of the issue of instructions, I had to make traverses of all others in order to show them on the plan and field notes.

The line between concessions I. and II., across lot 10 strikes Cedar lake near the north shore at fifteen chains from the line between lots 9 and 10. The north shore of the lake lies about east and west and by producing the concession line to the west a very small strip of land would lie south of it. I deemed it advisable to discontinue the concession line when it intersected Cedar lake.

On account of mining locations HP 242, HP. 234 and 245 E cutting lot 12 in concession II. and III., I made the north boundaries of those locations the front of concession III.

The front of concession IV. across lot 12 is in the same way the north boundary of mining locations HP. 179 and HP. 237.

Accompanying please find plan, field notes and accounts.

I have the honor to be, Sir,

Your obedient servant,

H. B. PROUDFOOT,  
Ontario Land Surveyor.

The Honorable A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto.

(Appendix No. 31.)

## BASE AND MERIDIAN LINES.

### DISTRICT OF RAINY RIVER.

HALIBURTON, ONTARIO,

October 31st. 1895

SIR,—I have the honor to submit the following report on the survey of Base and Meridian lines in the district of Rainy River, surveyed under instructions from your Department dated May 22nd, 1895.

I left Toronto on the 27th May and completed the survey in the month of August.

I commenced at the 42nd mile post on my base line of 1894, being latitude 49 degrees, 32 minutes, 18 seconds north, and continued the same west astronomically to Lake of the Woods, a distance of fifty miles, thirty-two chains, eighty-five links, coming out about two miles north of Yellow Girl Point. I then proceeded to Sabaskong bay (Lake of the Woods), and southerly to the forty-ninth parallel of latitude, and commencing at the iron post planted by myself in 1892 between ranges twenty-six and twenty-seven, ran north astronomically, fifty-six miles, ten chains, ninety links to the south shore of a lake, fifteen chains, twenty-three links north of the centre line of the Canadian Pacific Railway. This line crosses the Canadian Pacific Railway six chains, sixty-two links east of the 159th mile post from Winnipeg, and about two miles east of Hawk Lake station.

All timber limits and Indian Reserves passed through or within a reasonable distance of the lines run were connected with the survey lines, as in former surveys, and all canoe routes used in the transportation of supplies, etc., were sketched in, wooden posts were planted at every mile, and iron posts, three feet long, of  $1\frac{1}{4}$  inch gas-pipe, pointed at the bottom and closed at the top, and painted red, were planted alongside of the wooden posts at every three miles. The number of miles was marked on wooden posts with a scribe iron, and on the iron posts with a cold chisel. Stone mounds were built around all posts wherever practicable, and bearing trees taken.

The posts on the base line were marked on the east side, and numbered from forty-two to ninety-two miles with an extra iron post at ninety two miles, thirty-two chains, fifty links, set in a stone mound being thirty-five links from the shore of the Lake of the Woods, and also at seventy-six miles, two chains, sixty links, where the base line intersects the meridian line. The posts on the meridian line were marked on the south side, and numbered from zero at the forty-ninth parallel to fifty-six miles a short distance north of the Canadian Pacific Railway, where an iron post was also placed with a large stone mound, it being near the termination of the line. A wooden post with stones was planted at nine chains, thirty-five links on the fifty-seventh mile, being fifty-five links south of the lake where the line terminates.

Where the end of a mile came in a lake or river the post was planted on the line on the nearest land and distance noted and marked on the wooden post. In these cases the iron post was marked with the nearest mile, and a plus or minus sign as the case might be.

Astronomical observations were taken whenever practicable, the details of which will be found in the field notes.

The magnetic declination of the needle averaged 7 degrees, 30 minutes east.

The lines as will be seen by the plan, passed through many lakes, some of them of considerable area, and a number of them being very clear, Crow lake in particular being one of the finest lakes I ever saw; the water is blue and beautifully clear.

Dryberry lake is also one of large dimensions, and can be reached from the Canadian Pacific Railway through Hawk lake with very little portaging.

Of the Lake of the Woods I need say nothing. Its beautiful scenery is well known.

Commencing at the forty-ninth parallel the first thirteen miles of the meridian line is through a broken, rocky, burnt country (granite), the six miles south of Sabaskong bay having been burnt clean about eight years ago. The land is of no value unless for its mineral wealth.

On the fourteenth mile we strike the Huronian formation which prevails to the thirty-third mile. This stretch of country is alternately burnt, and green bush and considerable clay soil is found through the Indian reserve 33 A, and around Whitefish lake and Lobstick bay.

On the thirty-fourth mile we again enter the Laurentian formation, which continues to the Canadian Pacific Railway, and the end of the line.

A considerable portion of this distance was burnt in 1894, and most of the timber killed.

Strips of green bush are met with here and there timbered with tamarac, poplar and spruce, and occasionally a little clay soil is met with, but, as a rule, the soil is sandy and the country rocky, and so cut up by lakes that it is of little value for purposes of agriculture.

On the base line beginning at the forty-second mile post, the Huronian and Laurentian formations prevail alternately for about twenty miles, and the country is also alternately green bush and burnt. Considerable tamarac and spruce is met with on these twenty miles

From the sixty-second to the eighty-second mile the Laurentian is the prevailing rock. Large tracts have been burnt, but the country is mostly green bush to Dryberry Lake. There is considerable pine around this lake, but the islands and other portions have been lumbered.

From the eighty-third to the eighty-seventh mile the line is run over the Huronian formation, when the Laurentian again comes in and continues to the ninety-second mile, and the Lake of the Woods. The last ten miles of the line is also rocky and broken with considerable swamp in places in which there is some fairly good cedar, tamarac and spruce.

The soil is generally sandy. An occasional white pine is met with. Pitch pine is the prevailing timber.

East of the twelfth mile (meridian line), on Indian Reserve 35 D., there is some valuable red and white pine of good size and quality.

I saw another fine grove of red pine on an Indian Reserve on my way from Whitefish to Sabaskong bay.

Most of the pine seen along the route of survey has been already included in timber limits, a number of which I have shown on the plan. The water within the limits of the survey is mostly tributary to the Lake of the Woods. When passing through Indian Reserves no trees were blazed nor posts planted.

I found no minerals but passed by some mining locations that were being worked, among them the Regina Gold Mining Company on a bay of Lake of the Woods. The lakes are generally well stocked with fish—pike, pickerel, maskinonge, etc. Moose were frequently seen in the low lands, and partridges were very plentiful.

My party consisted of fourteen all told.

The month of June was very wet, but the remainder of the season very favorable for work.

Herewith are plan of survey, field notes and account.

I have the honor to be Sir,  
Your obedient servant,

(Sgd.) A. NIVEN,  
Ontario Land Surveyor.

Honorable A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto.

(Appendix No. 32.)

THE ALGONQUIN NATIONAL PARK OF ONTARIO.

HEADQUARTERS, CANOE LAKE, January 10th, 1896.

THE HONORABLE A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto, Ont.

SIR,—I have the honor to submit herewith my report as Superintendent of The Algonquin National Park of Ontario for the year 1895.

The regretted death of the late Mr. Peter Thomson, which took place at our headquarters from paralysis on the 5th day of September, rendered the position of Superintendent vacant, and on the 27th of that month I was by Order in Council promoted to the position of Superintendent, and Ranger Timothy O'Leary to the position of Chief Ranger theretofore held by me.

THE OTTAWA, ARNPRIOR AND PARRY SOUND RAILWAY.

The Ottawa, Arnprior and Parry Sound Railway now under construction has reached a point in the township of Canisbay about nine miles from the point of contact with the southern limit of the Park. The contractors commenced operations early in March near the boundary between the townships of Airey and Nightingale, or at a station on the railway called Whitney, on Long lake. The length of railway line built this year was twenty miles, eleven of which was outside of the Park and the remainder inside. The route of the railway may be described as follows: It enters the Park on the south boundary near the corner post between Canisbay and Sproule, skirts the west side of White-Fish lake, on the Madawaska waters; after reaching the head of White Fish lake it follows the river Madawaska until it reaches lake of Two Rivers; thence along the south shore of this lake to its head, or east end; thence along the south shore of the river Madawaska crossing the river a little below a fall and near the outlet of another branch of the Madawaska flowing from Provoking lake; thence along the north side of the Madawaska to a point at or near lot 13 or 14 in the 6th concession of Canisbay where the building operations for the year ended. The track is merely laid up to this point, but no ballasting has been done except for levelling up the ties and bedding them. The telegraph line has been strung up to end of track, but no telegraph office exists as yet, and the Company has made provision to run a train up to end of track once a week. I think this was done to accommodate Messrs. Gilmour & Co. who were at one time contemplating the getting in of supplies that way, as they intended to make a winter road over to the end of track; but it is presumed they have abandoned the idea now as they have since stopped cutting for the winter. The track laying was completed on the 28th November. A temporary boarding house has been erected at end of track for the accommodation of men engaged on the railway, which is placed so that it stands partly on the right of way and partly off it. The Company have also staked out a large gravel pit at the present terminus, and I assume the boarding house is intended for the use of men to be employed in ballasting as early in the spring as possible, and for a temporary station and telegraph office. Some means must be adopted respecting encroachments made outside of right of way for the purpose of buildings, ballast or borrow pits. Sidings will necessarily be required for the crossing of trains and shunting of cars. Water stations will also be needed every nine or ten miles or at convenient points in these distances and they should be located at the crossings of streams or arms of lakes where encroachments on Park property can be avoided. Buildings for sectionmen's houses and perhaps a station of a more permanent nature can be placed near the grade points between cuts and fills.

A trial route for the railway through the remainder of the Park was surveyed last winter by engineers Bruce and Cranston, but it was found to involve considerable heavy work in places and its location was, during last summer, partially revised. The line at this date has been finally located only to a little beyond the crossing of Potter creek in the northern portion of the township of Peck. It runs from the present end of track by way of the north shore of Cache lake, and thence to Source lake; crossing from the south to the north shore by way of an island in the lake it passes along the north shore, and crossing Joe creek about midway between Canoe and Joe lakes, it strikes and follows up Potter creek for a short distance, where its final location at present ends. On the abandoned route a beginning had been made to clear the right of way, and the gap of some extent thus made in the bush is more or less of an eyesore. This, however, on being cleaned up and burned off, will doubtless soon grow up again the same as any other stretch of burned country. Mr. Cranston informs me that from the point on Potter creek, he thinks he will try to follow the old location as nearly as possible through the north part of Peck and south part of McCraney to Moose lake and thence to Rainy river to join his winter's location. The total distance from Ottawa to present terminus or end of track is 163 miles, and the length of railway from the point where it enters the Park on the south boundary to where it will leave it on the west boundary will be from thirty-one to thirty-two miles. The distance still to be built is from twenty-two to twenty-three miles.

#### BUSH FIRES IN THE PARK.

About the 5th of July last a fire started in the neighbourhood of the railway right of way, near a point between the railway and the Madawaska river, in lot 25 in the 7th concession of Canisbay, and burned in through lots 21, 22 and 23 in the same concession; lots 22, 23 and the front parts of lots 24, 25, 26 and 27 in the 8th concession; the east half of lot 22 in the 9th concession, and all of lots 23, 24, 25, 26, 27, 28 and 29, and a part of 30 in the 9th concession, and through the rear parts of lots 22, 23, 24, 25, 26 and 27 in the 10th concession, where it was checked. Ranger James Sawyer and I were across there on the 20th of July, and the fire was still smouldering but under control, and being carefully watched by the St. Anthony Lumber Company's fire rangers. This Company had two camps burned during the progress of the fire, one on lot 24 in the 10th concession, and the other on lot 30 in the 9th concession of Canisbay. I made enquiries about the origin of the fire from the railway contractors and the fire rangers, but could not get any satisfactory information from any of them. The contractors told me that all the clearing and burning on the right of way in the neighbourhood of where it originated had been done and the fires apparently gone out some time before it took place, but that some tramps or men were seen coming along the railway line the day that it started. All the contractors' men were turned out to fight it with what pails and shovels they could get, and they continued at the work until it was got under control. All the St. Anthony Company's fire rangers, as well as some men from their mill, were on the grounds, and remained there until it was all out. Another fire started in about the same time on the east side of White Fish lake, and on the boundary between the townships of Sproule and Nightingale, which ran through about half an acre in the Park not doing much damage, and it also ran south into Nightingale about half a mile, where it was stopped by the railway men and fire rangers. The timber burned in these fires consisted mainly of red pine, and as the majority of the trees were not materially injured, no serious loss was occasioned. Otherwise there have been no fires of any consequence that I have heard of in any part of the Park during the past year.

In regard to the clearing of the balance of the right of way of railway through Park or any place where valuable timber exists, I would recommend that the Department endeavour to get the railway company to do the clearing and burning late in the fall of the year, during the winter, or very early in the spring. Winter would be the best time before the snow gets too deep, and I would especially urge the clearing during the present winter of that part of the railway which will pass through the limits on which Messrs. Gilmour & Co. are and have been cutting during the last three seasons. If this is not attended to and a fire should occur, it will be a disastrous one, there being such a quantity of tree-

tops, windfalls and slashing made for dray roads, that nothing would stop it if it got a start. As a further precautionary measure against fires in any part of the Park during tracklaying, and the operating of the road after completion, it would be well to have the railway company notified as to the necessity of having proper spark screens on the smoke stacks of their engines, as they most likely will be using wood as fuel in that section of the country, and if not properly screened the engines will throw off sparks and brands which, in a dry time, would start a fire very quickly. They should also be cautioned about raking out their fire boxes unless in places where the embers could be attended to and extinguished at once.

#### WORK DONE DURING THE YEAR.

During the course of the summer and this fall there have been two new shelter lodges built, and No. 31 of last year has been repaired and raised by the addition of two extra rounds of logs, and the roof changed from a flat one to a pitched or cottage roof. We also built at headquarters an office with two bedrooms and office combined. A good many of the buildings, or shelter lodges, that we have occupied were old lumber camps, which we thought would not be used by the lumbering firms again; but we find that we will have to abandon these and put up places for ourselves. It is very inconvenient on a winter's night to arrive at a place where we expect to get shelter and find it occupied, as we have done in a few instances. Other camps have been demolished because of the material being required by the shantymen for other places; perhaps scoops taken off the roof, a window sash or some of the panes of glass gone, or probably a stove missing. Smaller places than these large buildings would be more suitable and also more appreciated by us when coming in cold, and perhaps wet, into a too commodious shelter lodge, which we have to find wood to warm up. Where we have small places of our own we feel more independent, and we have not found any of them molested or the locks broken off. The lumbermen and lumbering firms, as a general rule, are very kind and courteous, and always willing to do what lies in their power to assist us. They are only too glad to see us coming around their places on our travels; but for the reasons I have given it is probably better that we should have shelter lodges of our own, without resorting to lumber camps, abandoned or otherwise.

The trails cut in the Park get filled up by trees falling across them, blown down by wind storms or felled by lumbermen; the underbrush also grows up and almost obliterates the trails and portages where they are not much used. A good deal of our time was taken up in cleaning away these obstructions to travel. The streams also get blocked with driftwood and windfalls, and a good many were in this condition last spring. The canoe routes have to be attended to as early in the spring as we can possibly get at them. The new trails cut this year would amount to about twenty-two miles, if all put together, and those cleaned out and widened to about ten miles; creeks cleared out to make way for canoeing, about eight miles.

A very important branch of our duties is the defining and blazing of the Park boundaries, and the putting up of notices at the crossings of all trails and lumber roads and on the crossings by boundary of all lakes. This year we commenced this work by blazing on the north boundary about seven miles; on the west boundary, which is the most important of all, being in the neighborhood of the most thickly settled portion of the country adjoining the Park, we have managed to blaze about twenty miles; and on the south boundary about two miles, or twenty-nine miles in all. As this boundary defining will be a tedious job if undertaken in the summer season, on account of the difficulty of transporting supplies in canoes, I contemplate trying it on showshoes this winter, when the rangers can haul supplies on hand sleighs, and take blankets and tents along with them, shelter lodges not being accessible at all times or at convenient points on the boundary.

I can heartily testify to the efficiency of the staff of rangers in patrolling the Park, having myself put in a good many days and nights with them while I was Chief Ranger and taking my rounds with them during the time patrol work was principally required

of us, namely, in the fall, winter and spring of the year, at which time trappers and hunter are likely to make their raids on the fur-bearing animals and probably other animals if chance affords. In issuing instructions to the rangers as to the routes to be taken this fall, it was arranged that the boundaries should be well watched to prevent any one getting across the lines and to see that hunters kept sufficiently far from the Park. Even during the hunting season neither the sound of dog or gun could be heard, so that sportsmen did not encroach upon the Park so far as the rangers were aware, but in the township of Butt near the west boundary the carcass of a deer was found by them that had been shot and had lain there for some time, the presence of carrion crows being the means of calling their attention to the spot. A trapper in the township of Paxton had some of his traps set not very far from the west boundary, and had apparently caught a beaver or probably more than one, as in a hunter's camp our rangers found a stretcher upon which beaver skins had been prepared for the market. The game wardens in that section should be notified of the circumstance, and if he could only find out where or to whom the skins were sold a stop might be put to this violation of the law. Another case came to my knowledge of deer-killing in the Park, aggravated by its being out of season, but as the statutory limitation of six months had expired, I had to let the case go.

Some of the trappers who carried on their business in the Park before it was set apart as such have come in for their traps, which I have permitted them to collect, at the same time taking the necessary precautions to see that they did not ply their calling while within the limits. I have notified all such persons to come and remove any of their traps that may still be left.

#### INCREASE OF GAME AND FUR ANIMALS.

It affords me much pleasure to report that the protection to game and fur-bearing animals afforded in the Park is causing them to steadily increase. The beaver especially is multiplying in numbers. We now see a great many signs of them along lakes, streams and marshes where in our previous travels we could hardly perceive any, except their old works gone to wreck by reason of the beaver themselves having been killed off. Now a good many of these old dams are being renewed, or new ones made in their places; their houses also are beginning to be seen above the waters, on the edges of streams, along the sides of marshes, and in the quiet bays of lakes. Both dams and houses are marvellous pieces of architectural and engineering skill.

In going up a stream one day I came across one of their houses, where a good deal of work had been done in the way of getting in their winter's supply of saplings for building and for food purposes, and as I took the precaution of shipping my paddle, I was enabled to drop quietly down stream and view them at work without disturbing them, at any rate for a few minutes. The beaver live on the bark of saplings, and as the bark is taken off they haul them out of the house and let them go. In the summer season they sit in many a quiet spot and strip the bark off to save themselves the trouble of taking the saplings bodily into their houses, and the consequence is you will find a great amount of beaver timber, as it is called, along the shores of many streams and lakes.

The dams put at outlets of lakes by lumber firms for river driving has a tendency to force these little workers out of their houses by backing up the water on them at times. Then they get drowned out and have to resort to some other place where they are free from annoyance of this kind.

The moose and deer, the denizens of the bush, are also increasing very rapidly, of which good evidence is presented to us when they come almost up to our doors at headquarters. A good many tracks were made and the animals themselves seen very close to our headquarters and even in our potato patch. While out last February two of the rangers and myself came across two deer and two moose yards not far apart. On one small lake or pond that we had occasion to go over, we might almost have thought we were entering an immense farmyard; and from that lake to another one not far away the path was so completely tracked and padded all the way across by the moose that snowshoeing was almost impracticable. We had occasion to go back over this same

track the following day, and found that the moose had again cut up our snowshoe trail so as to make the hauling of stove on a hand-sleigh very tiresome and tedious work. Another party of rangers were away at the same time near the north end of the Park, and they encountered similar difficulty in travelling in three different places, having come across three separate moose yards. One would think that these animals had become so numerous in that section that they were committing murder and suicide to make room for the others, when I say that in that neighborhood two of the rangers found three drowned last spring. Two had engaged in a conflict fatal to both. Their horns had become so interlocked that they could not disengage themselves and in the struggle both seemed to have fallen into the water. Another was found about five miles down stream on the same river that had probably met his death by breaking through the ice. In the month of June one of the rangers and myself espied two moose crossing a bay of the lake on which we were at the time, and made all haste to have a good look at the noble animals. We got within twenty feet of them, and they were certainly splendid specimens of our biggest game. These are a very few of the instances in which the presence of moose and deer was quite evident to us when on our rounds.

I think an effort ought to be made to introduce into the Park the caribou, which should live there as well as the moose. They are found not very far from us, viz., north and west of the Ottawa river. Of the fur-bearing animals the otter, mink, marten, fisher, and muskrat, are also getting very numerous. The otter especially which was being hunted unmercifully as well as the beaver, is becoming quite plentiful in the Park. One stream that we were travelling up last winter was so thickly inhabited with them that we could hardly go one hundred yards without seeing them dodging out and in through blow holes in the ice. They are very destructive to the fish but they are a curious, playful animal and much to be admired.

Wolves are also too numerous for the good of the deer. We are making every effort this year to kill them and shall continue it during the winter. I have no doubt a good many have got their quietus now from the number of baits we find gone which we had put on their tracks. We lose the animals themselves, and the bounty as well, by snow storms covering up their tracks and bodies after taking the poisoned baits, but we will be amply repaid for getting rid of the pests by the increased numbers of the deer. Two of the rangers found the carcass of a deer in December last that had been run down and almost torn to shreds by wolves. When such occurrences take place, we can generally find the remainder of the carcass from the presence of the carrion crows picking the bones. This fall, when a couple of the rangers were escorting two of the trappers previously noted in this report to the outside of the Park, in crossing Snake lake they came across a splendid buck in the lake that had been chased by three wolves but managed to escape by taking to the water, where wolves will not follow. One of the rangers took a shot at the wolves, but missed on account of the difficulty in shooting while the canoe is under way. They then turned round and got hold of the buck by the tail, allowing it to tow them ashore, where they let it go just before reaching land. If they had still held on it would possibly have swamped them and broken the canoe. Another day a deer was seen to run into Doe lake chased by four wolves. In some other parts where the rangers have been camped, the night has been made hideous with their howls. When daylight approaches they scamper off.

Partridges are so numerous in the Park and so tame that a person walking along armed only with a stick, might be able to exist if hard pressed for food. The partridges are of the spruce and birch varieties. The prairie chicken should be added, I think, to the stock of wild fowl. It exists to the north of Lake Superior and all the way west to the Pacific, where I have myself seen them in abundance. They are a larger and plumper bird than the partridge, and resemble very much the grouse found in Scotland, being probably of the same species. Ducks are not quite so plentiful so far as I have observed except in a few places, but if the wild rice takes hold where we have sowed it, it will reproduce itself and we will soon get the ducks to come at the proper season and have them as plentiful as they are on lakes Erie and Ontario. We sowed three bushels of it this fall and by next fall we will be able to see the results.

## LUMBERING AND REFORESTING OPERATIONS.

I may state that so far our reforestation has been on a small scale. Our time has been taken up so much in the summer season in building shelter lodges and clearing trails, that we have found it almost impossible, with our small staff, to give it the attention and care that is required. Several efforts we had made previous to this year to collect white pine seed turned out unsuccessfully. Either we had commenced too late in the season to gather the cones, or the season was a bad one for the production of the seed, as every year is not suitable for seed-bearing cones. I made another effort last October, when the lumbermen were felling the trees to collect cones in which I expected to find the seed. First I went to the places where the trees had been felled some time previous; in these tree-tops I found a good many cones, but they were all open and the seed gone. I do not think they were eaten out by mice, and I am certain they were not by squirrels, as the latter gnaw all the scales off down to the core to get the seeds, if any. Then I went around to the place where they were felling trees, and also found a good many cones, the most of which were open too. In some of these I found a little, probably three or four seeds to a cone. I followed around for some time with no better success, and I concluded that the seed had all been shaken out when the trees fell, or that I had come too late in the season to collect it, as a good many of the cones were open. I think, myself, that they ought to be gathered in latter part of August or not later than the middle of September. However, three pounds of white pine seed had been sent up by the Department in the month of June, with instructions as to the planting or sowing of it. We prepared a piece of ground carefully in August, and had it turned over again so as to have the ground good and mellow, and sowed a small patch in September. I visited the ground several times before the snow fell, but could not say that I saw any sprouts. I sowed a little seed in a box which we kept in a window in the house, a few of which came up, but as the frost was unusually severe some nights, they were frozen in the box and I think killed off. A year ago last fall we planted a good many acorns or oak nuts, and this summer we found a few had come up. These were put in promiscuously on a point in Canoe lake and also on an island in the same lake. This fall I got a few sent me by the Department, said to be fresh ones. These I planted around the bed in which I sowed the pine seed, also in front of headquarters and in a place that I selected where we had grown potatoes for two years. We must now wait until next spring to see the results. We also planted some horse-chestnuts at the same time. As far as the pine seed is concerned, I think the proper time to sow it is in the spring. The seed is not the same as a nut, but resembles the pip of an apple, and is similar in size and shape to a cucumber seed; hence my conjectures as to the time of sowing or planting.

On the island where we sowed the white pine seed there are a great many young saplings of white pine (*Pinus strobus*), red pine (*Pinus resinosa*), balsam or silver fir (*Abies balsama*). I think that in the event of our efforts with pine being unsuccessful we ought to try the larch or juniper, sometimes called the hackmatack or tamarac (*Larix Americana*). It is said by some arboriculturists to be the "strongest and most durable of all the pine kind which we have. For shipbuilding purposes it is even superior to oak itself. In old vessels the timbers made of hackmatack have been found entirely sound, when those of white oak were completely decayed. It grows naturally upon poor gravelly soils, in cold mossy swamps, and very barren places all over the province. It is very easily raised from seed or seedlings, grows rapidly, but rarely exceeds eighteen inches in diameter."

There is the hemlock (*Tsuga Canadensis*), which is also a beautiful tree and has become a favorite as an ornamental tree for lawns. The foliage is admired for its graceful appearance. It has somewhat the same figure as the white pine. The boards of white hemlock are by some, esteemed equal to white pine and the bark is good for tanning. It grows upon a better quality of soil than white pine. Both of the above timbers, tamarac and hemlock, are much sought after for railway ties.

We planted this spring eight Lombardy poplars, and out of the eight six of them seem to be holding out very well. In the spring of 1894 there were also planted seven crab apple trees, and with the exception of one, all of them were dead in the spring of this year. This spring we planted twenty-four fruit trees, sixty-four currant bushes, four lilacs, two dozen strawberry plants, some horseradish and rhubarb. The strawberry plants never came to anything; the horseradish and rhubarb seem to flourish; all the fruit trees and currant bushes looked very well this fall, but, like their predecessors, they may fail us in the spring of next year. The soil at our headquarters is poor and too near bed rock in a good many places to be suitable for cultivation. Our potato crop has been a failure two seasons in succession, having been cut down by spring frosts and killed off before coming to maturity. The place selected at the first was not suitable for potatoes. Onions, beets, carrots and cabbages were a fine crop.

All of the firms who own timber limits in the Park are not operating at present, but a good many are, to a greater or less extent. Messrs. Gilmour & Co., in the neighborhood of our headquarters, ceased cutting for the season in December, owing, I understand, to the depression in the lumber market. They commenced breaking their log dumps on Potter creek on the 22nd of April and began their drive on the 24th. Their alligator steamer managed to come up the lakes to assist in this work on the 29th of the same month, and it was not until the 27th of May that the logs got clear of Canoe lake, on which our headquarters are situated. The firm did not clear off the logs from their lower dam, at the foot of Tea lake, into the river until the 6th of June. The damage done by keeping the water at a high level in these dams consists in washing away the earth from the roots of the trees growing on the banks, which then fall over into the water and die. The killing of the trees on the shores of the lakes is also detrimental to the fish.

From all the information that I can get, there are no black or rock bass in any of the lakes in the Park. I think an effort should be made to introduce this gamey variety of fish into a few of the lakes at least.

The water in all the rivers and lakes this year has been unusually low, and the summer season was a very dry one until autumn set in.

The snowfall up to the end of 1895, from the time of first fall on September 30th, amounted to thirty-seven inches, and the total snowfall for the winter of 1894-95 was 110 $\frac{3}{4}$  inches. The first snowfall of 1894 was on the 14th of October, and the last snowfall of 1895, when spring was opening up, was on the 14th of May. In the year 1894, on Canoe lake, ice formed on 29th November and broke up on the 24th April, 1895. This year the ice formed all over the lake on the 22nd November. The coldest days of last winter were February 5th, 1895, when the thermometer registered thirty-seven degrees below zero, and on the 11th of March, when it was thirty-one degrees below zero. On the coldest day of this winter, 13th December, the thermometer was thirty-three degrees below zero. Flies during the months of June and July were very bad this year, and these pests make it almost unbearable for men to go abroad in the bush, especially along rivers and swampy lands.

There is a matter that I think needs to be attended to by the proper authorities, and that is the lack of cleanliness around lumber camps. In the spring of the year all lumbering firms ought to be compelled to clean up their camps, and get rid of all filth and refuse by burning it. The interior of the camps is left in complete chaos with old clothes, old boots, and old straw or hay in bunks; sometimes this rubbish is thrown out doors to rot. Last spring an attempt at cleaning the camp next to us was made, but the filth was merely taken and dumped behind a rocky bluff at the back of our headquarters, and most of the summer it was a malodorous mass in which we had to keep fire constantly, in order to get rid of it. Just about one eighth of a mile back of our headquarters some forty or fifty head of cattle had been killed from time to time, and the offal, heads and feet remained there all summer to rot and pollute the air. Down at the depot on Tea lake, right alongside of the lake, a great many head of cattle have been slaughtered, and the smell arising from the place when the wind is blowing off the shore

is sickening. This is on the main thoroughfare to and from the Park, being on the Dorset and Tea lake road, and on the canoe route down Muskoka river to Dwight. I have not the least doubt that like unsanitary conditions led to an outbreak of typhoid fever this fall in the lumber camps on Hurdman's creek in the township of Boyd. The rangers who were up in this locality report that several deaths had occurred either in these camps or after the sick men had been taken out. Something, certainly, ought to be done to remedy this state of affairs.

The number of visitors to the Park this year, noted by the rangers, amounted to thirty-eight, of whom five were ladies. Two of the parties talk of leasing sites for summer residences if they can find suitable places.

Licenses for five guides were issued for the season, and nine licenses granted to visitors to fish with hook and line only.

The present staff of the Park, in addition to the undersigned, is as follows: Timothy O'Leary, Chief Ranger; Stephen Waters and C. K. Grigg, Rangers. Mr. C. K. Grigg was appointed in October of this year. Messrs. D. A. Ross, James Sawyer and Robert Balfour were employed as temporary rangers on account of the extra work to be done in connection with the building of the Ottawa, Arnprior and Parry Sound Railway, to assist in putting up shelter huts, etc., and during the game season. It affords me great pleasure to testify to the efficiency of the staff in all their duties, and their constant desire to forward in every respect the interests of the Park.

I have the honor to be, Sir,

Your obedient Servant,

JOHN SIMPSON,

Superintendent.

(Appendix No. 33.)

RONDEAU PROVINCIAL PARK.

MORPETH P.O., January 10th, 1896.

HON. A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto.

SIR,—I have the honor to submit this my second annual report, as caretaker and ranger of Rondeau Provincial Park.

Since my last report there have been many changes and improvements made upon the Park. By your instructions an excellent dock has been built on the Rondeau side. It is 524 feet long, reaching out to the channel where the water is eight feet deep, making

a good landing place for ordinary excursion and other boats. It is said to be one of the most substantial and most strongly built docks of its kind in Western Ontario, the piles at the outer end having been driven fifteen feet into solid earth and averaging about eleven feet throughout the length of the dock. Under instructions, I secured the services of a portable saw-mill for sawing the down and dying timber on the Park, which if not taken and utilized now would soon have been a total loss. In the building of the dock alone it saved several hundreds of dollars. The balance of the lumber sawn was drawn to the eastern end of the Park, and piled. We have the piles nicely roofed and drying for future use on the Park. There is about one hundred thousand feet of this lumber so piled. It will answer for fencing, or for construction of buildings, or for market.

Since my last report we have cleared the old logs and small underbrush from about thirty acres, and have also cut the lower and unsightly branches from many of the shade trees, thus giving the place a cleanly and park-like appearance. We also underbrushed and fenced in about four acres, where all horses coming to the Park must be tied. Formerly, excursionists and picnickers tied and fed their horses under the nicest shade trees, destroying the grass growing under them and leaving the grounds in a filthy condition. This change has given great satisfaction.

The increase in the number of visitors to the Park has been quite noticeable during the past season; many say it has been nearly double that of former years. No doubt as the improvements advance there will be a still greater number of visitors. Quite a number of people intend erecting summer cottages in the Park next spring. Some of the contracts are already let and the work will commence as soon as spring opens.

Mr. Charles Dauphin (to whom license was granted to sell refreshments and keep small boats for hire), has given good service and satisfaction. I have heard no complaints from any one. He put up a large tent, forty feet in diameter and laid a wooden floor under it, where people found shelter from the rain storms. We also made a number of long tables with seats for them, so that parties wishing to do so may take their lunch in comparative comfort. Since the hogs and cattle have been excluded from the Park, the people are profuse in their expressions of increased pleasure while visiting the Park, and the bare sandy spots are gradually being grown over with grass. In view of the rapid increase of visitors to the Park, I would urge the building of a suitable pavilion in the near future, as the accommodation at present is not adequate for the large numbers that congregate on the Park.

When the new house and barn are erected on the site chosen by the Government, there will be a much better opportunity for raising game birds than there is where I now live. The bush up there is quite dense and will afford shelter and a hiding place for the birds. The wire enclosure can be made near by, and there will be less trouble caring for and protecting them from their enemies.

There have been a number of applicants wishing to lease the house I am now living in as a summer house, for the entertainment of persons visiting the Park. They would like to take possession before the hot weather sets in. As soon as the new house can be finished, the Government can obtain a good rent for the old one, for this purpose. It has always been used as a house of entertainment, and one is most necessary for the accommodation of the public.

The wire fence which I was instructed to have built from the road leading into the Park and running across to the lake between Mr. C. W. Richardson's property and the Park, has been of great service, not only for keeping out hogs and cattle, but also in preventing teams going along the southern part of the Park where they could not be seen from the main road or from my house. Many of them did not want to be seen because they were going to pick up wreckage along the lake shore and many other things which they had no right to take away from the Park. It places me in a much better position to control the Park.

I would suggest that at least two suitable men be employed during the duck shooting season to patrol the Eau shore, as there is about eight miles of the Park exposed to the raids of duck hunters, and it is on the Eau side of the Park that partridge, quail and other game birds are to be found during the autumn months, food being more plentiful there at that season of the year than on any other portion of the Park.

The waters of the Eau have been very low this season, about eighteen inches lower than last year. But the lowness of the water seemed to stimulate the growth of wild rice and water celery, as old hunters say they have not seen the rice and celery crops as large for twenty years. The duck came in large numbers about the 1st of October, but left earlier than usual. It is said by sportsmen that the steam yacht which came here from Port Stanley had much to do with the early departure of the duck. There were eight small boats accompanying this yacht. They would all start from the light-house and the yacht being slightly in advance of the boats, would cause the duck to rise and fly over the heads of the hunters, thus giving them good shooting all the way down the Eau, at the foot of which they would all board the yacht and start back to the piers with the eight small boats in tow. They generally made two trips each day, and they carried this on for about two weeks. Some days one would almost imagine raiders were coming down the Eau. I would strongly advise that steam or sail yachts should not be allowed to assist in any way in the slaughter of duck. These hunters tell us that they were not breaking the law because they were not shooting from the yacht. What is the difference? A dozen men might board a steam yacht and they could not drive the duck from the Eau as quickly as this organized system did last season. I hope the law will be made to apply to such cases before next season. I would also recommend that a further limitation be placed upon the number of ducks that may be killed in any one season on these waters by any one person, and that severe penalties be imposed on persons shooting the birds or fowl in the Park.

I have the honor to be, Sir,

Your obedient servant,

ISAAC GARDINER,

Park Ranger.

(Appendix No. 34.)

REPORT

OF

THE SUPERINTENDENT

OF

COLONIZATION ROADS

---

To the Honorable A. S. HARDY,  
Commissioner of Crown Lands,  
Ontario.

SIR,—I have the honor to present the following report of work accomplished under the management of the Colonization Roads' branch of your Department during the year 1895.

There were about two hundred and ten separate works in various sections of the Province, giving totals of: Three hundred and eleven miles of new roads opened and extended; five hundred and twenty six miles of repairs upon existing roads, and the erection of some thirty-five bridges of various character with total length as to the latter of three thousand nine hundred and fifty-seven feet.

Of the new roads opened it is but accurate to state that more than one hundred miles were of a very cheap character, being good trails only, rather than public highways, as the report explains.

NORTH DIVISION.

ATWOOD ROAD.

A road in the Rainy River District, which is from Rainy River, between lots eight and nine, Atwood, north one mile to the old Government road, which it then follows for a quarter of a mile, all being grubbed and graded.

BARWICK AND DOBIE ROAD.

This work consisted of the chopping and grubbing of a mile and a half of road from the town line between Dobie and Shenston, west between sections 1 and 12 of the latter township, and the chopping and grubbing of ten chains on the town line named, from the newly made portion, north.

---

---

 BIDWELL AND GREEN BAY ROAD.

A road on Manitoulin Island, upon which about three-quarters of a mile of work was done in repairing a difficult hill opposite lot number twelve, on the town line between Bidwell and Howland; and again on the road allowance between lots fifteen and sixteen of Bidwell, a dangerous portion was repaired, and protected by a retaining wall.

## BIRCH LAKE SETTLEMENT ROAD.

Four miles have been opened forty feet wide and grubbed, making a good winter road from Webbwood northward. A substantial bridge was also built over Birch creek with a thirty feet opening, requiring a trussed structure. The inhabitants contributed gratuitous labor in order to complete the bridge and approaches.

## BONHEUR ROAD.

A winter road between Bonheur Station, on the Canadian Pacific Railway, and Lake Harold, on the Seine River, a distance of about fifty miles; of which about twenty-four miles have been opened as portages between lakes. The inspector reports the work as of a very satisfactory character, and it is understood also that mining operators have spent a large amount of money upon this same route.

## BRIDGE REPAIRS.

The repair and protection of two very large bridges over Kaministiquia River, which work was in progress last year as reported. A large quantity of iron plating and other material was required for protection against the annual freshets with accompanying ice jams. The inspector now reports that he does not anticipate any further difficulties in this respect.

## CAMPBELL 10 AND 11 CON. ROAD.

Six miles of excellent repairs from the twenty-fifth side road eastward, making, the inspector says, a very fine road.

## CARIBOO LAKE ROAD.

This road runs east and west from lot No. twelve of the second concession of Plummer to the town line of Johnson, and on to join the Port Lock and Desert Lake road, two miles in all. Gratuitous labor, equal to fifty-one and one-half days, was given as an addition to the Government grant.

## CARTIER ROAD.

Four miles constructed between Cartier Station of the Canadian Pacific Railway, in the township of Cartier, and McCool's siding, in the township of Hess; and its course generally parallel with the railway upon its north side.

## CARPENTER AND LASH ROAD.

Work was begun on the town line between Carpenter and Lash, at north-west quarter section 32, Lash, and continued to a creek on the north-west quarter of section 34 in the same township, a length of nearly two miles. Ten chains of off-take drains were also opened, with one bridge and four culverts.

## CHELMSFORD AND BALFOUR ROAD.

Commencing at the centre of lot number two in the first concession of Balfour, a quarter of a mile was made west, when the work was turned south, and a mile and a half opened into the township of Creighton. About an eighth of a mile was also opened eastward on the north boundary of Creighton from the existing Government road; the whole being chopped, levelled and graded, and is a good second-class road.

## CLARK'S BRIDGE.

A bridge over Thessalon River in Bruce Mines District, damaged by lightning, and otherwise very much out of repair, is now in good condition.

## COFFIN 2 AND 3 CON. ROAD.

Work in this instance was largely on the second and third concession line of Galbraith, which is a continuation of the road named, eastward. Two good bridges were, however, built at a cost, with culverts, of about \$200, and another opposite lot number eight for \$100, the balance being for general repairs, extending over probably a mile.

## CROZIER AND LASH ROAD.

Six and a quarter miles have been added to the length of this road, the opening of which was commenced in 1893. Work this year was begun between river lots eight and nine, Lash township, and continued east to Lavalley River, between sections four and nine of the township of Devlin. A mile of ditching was done upon one side of the road, and five bridges built, aggregating a length of 276 feet.

## DAY MILLS AND DAYTON ROAD.

Some three miles of repairs were made over this road which is from Dayton Station in the township of Bright Additional, north into the township of Day.

## DEAN LAKE AND MISSISSAGA ROAD.

Grading was begun at lot number twenty in the township of Thompson and continued east to Mississaga River, a length of three miles, which were chopped out last year as a winter road at a cost of about \$500.

## GORE BAY AND PROVIDENCE BAY ROAD.

Repairs were commenced about three miles south of Gore Bay and continued to within one mile of Providence Bay, a length of some twenty miles.

## GRAND PORTAGE ROAD.

A mile of substantial repairs as a continuation from last year's operations in the township of Wells.

## GRASSY RIVER ROAD AND BRIDGE.

A bridge 303 feet long was built over Pine River, about the centre of section 35 of the township of Dilke. It is a pile structure having four piles in each bent, with two spans of forty feet, and eight spans of twenty-five feet each. Half a mile of ditching was also done along the road south of the bridge.

## HONORA BAY ROAD.

From Honora Bay of Manitoulin Island heavy repairs were made for two miles eastward; and again from the eleventh concession of Bidwell a mile and one-eighth was opened southward to connect with the existing Government road between lots twenty-eight and twenty-nine of concessions nine and ten. This new portion was heavy work, and for the appropriation could only be opened as a good winter road.

## HAUGHTON AND WELLS ROAD.

Three miles and a half opened from lot number seven of the second concession of Haughton, east to the centre of lot number twelve of the second concession of Gould, and was chopped forty feet wide, and logged and grubbed.

This portion of road is, the inspector says, through a fine section of country and without a swamp in the entire distance.

## IGNACE AND STURGEON FALLS TRAIL.

Between Ignace Station, on the Canadian Pacific Railway, and Sturgeon Falls on the Seine river, a trail sixty-five miles long has been cut out about six feet wide, making a good summer as well as winter line for travellers and pack horses.

## ISBESTER STATION ROAD.

A new road opened from the north-east corner of section 36 McDonald township west one mile, and then south a mile and a half. Three bridges were also constructed aggregating a length of 172 feet.

## LAKE WOLESLEY ROAD.

Seven miles of repairs from lot number twenty-four of the twelfth concession of Robinson westward; included in which is forty-six rods of excellent crosswaying.

## MASSEY AND BIRCH LAKE ROAD.

A continuation of work of last season on the north side of the Canadian Pacific Railway track, and is from the line between lots ten and eleven of the second concession of the township of May, northward a mile and a half; the greater distance being through a bad swamp requiring both crosswaying and ditching.

## MAY 1ST CON. ROAD.

Three miles of new road opened from the west boundary of the township of May eastward, on the line indicated reaching to lot number seven. It is cleared forty feet wide, and made into a good second-class road.

## MAY AND HALLAM T. L. ROAD.

This work was the grading of a road opened previously by settlers, and is from La Cloche creek, near the south boundary of the township, north on the boundary between May and Hallam to the third concession; thence east one mile, and thence north to Spanish River, somewhat over three miles.

## MORLEY TOWNSHIP ROADS.

Three miles of portions destroyed or damaged by fire last year were repaired.

## OLIVER TOWNSHIP ROADS.

In this township two miles were chopped and grubbed from the town line westward, on the 7th concession line, and the work said to be of a very satisfactory character.

## OUMET AND BLACK BAY ROAD.

The repair of five-eighths of a mile along this route from the Canadian Pacific Railway to Black Bay.

## PATTON ROAD.

About one mile and a half of new road opened across lots nine to six, between the fifth and sixth concessions of Patton ; and two miles of repairs over the older portions.

## PINE PORTAGE ROAD.

This road was continued from the point of ending last season two and a half miles this length being very fairly opened for traffic. A mile and a half of the portion before, opened was repaired and otherwise improved, and is that from the limit of Rat Portage to Matheson Bay, on Lake of the Woods.

## PORT LOCK AND DESERT LAKE ROAD.

Three-quarters of a mile has been opened between lots three and four of the fourth concession of Johnson ; and something less than half a mile of repairs were made of last year's work.

## PRINCE AND PARKE T. L. ROAD.

In this instance work was commenced at the east side of section 2, of Parke and continued west 2 miles, which were chopped, grubbed and graded, making a good road throughout.

## RAYSIDE ROAD.

New roads were opened between lots seven and eight across the fifth concession ; between concessions three and four across lots six and seven ; and also between lots two and three, from the first to the fourth concessions, all in Rayside township, and representing about three miles of new work.

## ROSSLAND ROAD.

This road was produced to within three-quarters of a mile of Rossland from the ending of the work in 1893. The length of the new road is three miles, which were brushed, grubbed and partially levelled.

## RAINY RIVER ROAD.

This work extended from River lot number three of the township of Roddick to about the centre of the Indian Reserve in the township of Woodyutt.

Some five and three-quarters miles of the length were grubbed and graded, and one mile grubbed and ditched upon one side. Ten chains of tap-drains were opened, and four small bridges built, together with repairs of the abutments of Lavalle River bridge. This work is reported as highly satisfactory.

## ST. JOSEPH ISLAND ROADS.

For the expenditure of \$893 63 about one mile of road was opened and something like two miles were repaired—namely, on A line between concessions C and D a large hill was cut down and the roadway very much improved; and on the same line a similar work was done on hills through concession M. On the Tenby Bay road repairs and improvements were made on the tenth side line opposite concessions five and six; and on the line between lots twelve and thirteen of the tenth concession some three-quarters of a mile was opened through a rough section. Half a mile of the V line was improved by grading and gravelling, while on the F and G line repairs were made over some very bad places. On I line a large hill was cut down and the material used in raising the road through a swamp; and lastly, one mile of repairs were made on the thirteenth concession from P line south. Gratuitous labour to the extent of forty-two days was given on account of this last named work, and on the I line above mentioned work to the value of \$96 was contributed.

## SAND LAKE AND KAWAWIAGAMOG TRAIL.

A trail cut out from North Lake on the line of the Port Arthur, Duluth and Western Railway to Hart River, which empties into Kawawiagamog River. Its length is thirty-five miles, and is opened six feet wide, and should be of great advantage to explorers and others, giving, as it does, easy access to the township of Moss and the surrounding country.

## SLATE RIVER VALLEY ROAD.

On the first concession line between lots ten to thirteen Paipoonge, half a mile of grading was done and a ditch a quarter of a mile long opened.

On the tenth side line were thirteen chains of grading and three chains of cross waying; while on the fifteenth side line forty-three chains of grading, twenty-seven chains of ditching, six culverts and ten chains of tap-drain represents the work done.

## SHOAL LAKE AND BAD VERMILLION ROAD.

From mining location J. O. 36 on Shoal Lake north to Bad Vermillion Lake, four and three-quarter miles were chopped and grubbed, half a mile was also graded, and two bridges aggregating a length of ninety-seven feet were erected.

There was also a road opened from Bad Vermillion to location K 262, which follows the line between K 224 and A L 104 and also between K 263 and A L 103, the latter being one mile long.

## SPANISH RIVER ROAD.

Six and a half miles made as a good winter road between Spanish Station and Kenabutch, on the Sault Ste. Marie Railway, opened fifty feet wide and grubbed or close-cut fourteen feet.

## STANLEY AND KAKABEKA FALLS ROAD.

From about a mile west of Stanley Station, on the Port Arthur, Duluth and Western Railway, three miles of road have been opened to Kakabeka Falls, and meets a road built by the municipality of Neebing along the railway line from Stanley Station. Over these roads a considerable traffic is reported.

## SUDBURY AND WHITEFISH ROAD.

On this highway work was commenced one mile west of Norton Station where improvements ended last year, and four miles then opened, extending to Vermillion River, and giving now a good winter road to Sudbury.

## TEN MILE POINT ROAD.

Repairs over a considerable length of this road on Manitoulin Island.

## THESSALON AND BRIGHT ROAD.

From between lots three and four of the township of Day repairs were made easterly and southerly, nearly two miles, the work being for the most part ditching, with gravelling also in many places.

## THESSALON RIVER BRIDGE.

A bridge in course of erection in the township of Plummer, but unfinished at the end of the year, as work could be done with greater advantage in the winter season. The bridge is expected to cost very little beyond the amount already paid—\$620.

## THESSALON BRIDGE.

The repair of a bridge on lot number ten in the first concession of Coffin. New stringers were introduced and nearly one-half the top covered anew.

## WELLS ROAD.

Repairs from about the south-west angle of lot number twelve in the second concession of Wells, to the north east angle of lot number eleven, a distance of a mile and a quarter. The character of country was such that it appeared necessary to spend the grant upon the length mentioned, in order to make anything like a satisfactory road.

## WHITEFISH VALLEY BRIDGE.

A bridge ninety-nine feet long with main span of fifty feet, built according to plan furnished by the Department. It is on lot number seven of the fourth concession of Gillies. A quarter of a mile of grading was done that the bridge might at once be used for traffic.

## WHITEWATER LAKE ROAD.

Three and a half miles of new road opened twenty feet wide from about the centre of lot number two of the first concession of Rayside, southward, reaching into, and ending upon lot number four in the fifth concession of Snider.

## WOODYATT ROAD.

This road is one previously opened from Rainy River north, between sections 19 and 20 of the township of Woodyatt, and along which nearly two miles of ditching was done this year.

## WORTHINGTON AND WHITEFISH ROAD.

Commencing at the east side of lot two between the first and second concessions of the township of Drury, work was continued eastward half a mile, thence south to the south boundary of Denison, thence again east to lot number three, a distance of two miles, opened as a winter road.

Also three quarters of a mile was opened from the last mentioned lot to connect with an old road into Whitefish.

## WEST DIVISION.

## ALSACE ROAD.

Three miles of work of which nearly half a mile was new, being a deviation about a very steep hill; the balance being substantial repairs, involving twenty-two new culverts and a large amount of ditching. These operations were from the Rosseau and Nipissing road towards Commanda Lake road.

## BAYSVILLE ROAD.

Repairs over this road were commenced about lot number twenty-eight of Ridout, extending from thence eastward toward Dorset for a length of two and a half miles. Fourteen stone culverts were built in connection with the work.

## BETHUNE 12 CON. ROAD.

A mile and a quarter of substantial repairs on the concession line named, between lots five and eleven.

## BURK'S FALLS ROAD.

Repairs were made from East Armour road eastward for about four miles, work being largely the reduction in gradient of several heavy hills, involving excavation to the extent of nearly 2,000 cubic yards. It is the main road from Burk's Falls eastward, and is an important highway.

## CHRISTIE ROAD.

A bridge 324 feet long was erected over Ten Mile creek, with a main opening of thirty-six feet; and another over Seguin River, on the same road. Both bridges had been carried away or destroyed by flooding and the road was in consequence impassable. Some road improvements were also made.

## CHRISTIE AND HUMPHREY T. L. ROAD.

On this line of road was built over a branch of Seguin River a substantial bridge, with a span of twenty-five feet, resting upon abutments each fourteen feet high. Timber approaches one hundred feet long were also made and the work understood to be quite satisfactory.

## CONGER 10 AND 11 CON. ROAD.

This was chiefly crosswaying through a swamp upon the line mentioned; its length being some four hundred and twenty feet.

## CROFT AND CHAPMAN BRIDGE.

A bridge originally one hundred and twenty feet long on the boundary between Croft and Chapman has now been renewed, shortening the structure to sixty-two feet and filling in the balance permanently. The cost of the work, which was done by the municipality of Chapman, was about \$425, towards which the Government contributed \$200.

## DISTRESS RIVER ROAD.

A production three-quarters of a mile westward to connect the road named with Poverty Bay road. It now crosses through lots one hundred and one and one hundred and two of the Rosseau and Nipissing road survey and lots thirty-four and thirty-five of the eighth concession of Chapman, and shortens the distance materially between Ah-mic Harbor and Sundridge.

## DOE LAKE ROAD.

One mile and a half of repairs from Ryerson road northward to the Miguetawan River, and approximately between lots ten and eleven Ryerson. The road was in a very bad condition.

## DOUDLE AND BARTON ROAD.

This work is from lot two hundred and three of the Rosseau and Nipissing road survey westward into Gurd township, and its length three-quarters of a mile, to make connection with the northern portion of Gurd.

## EDGINGTON ROAD.

Work began at lot fifteen of the sixth concession of Christie, and continued to the same lot number on the fourth concession; altogether a mile and three-quarters, of which more than one mile is new work opened on the proper road allowance.

## GERMAN ROAD.

A mile and a half of road opened from lot twenty-one in the second concession, to lot sixteen in the said concession of the township of Mills. It was opened fifty feet wide and well graded.

## HAGERMAN ROAD.

Runs westward from the northern road between lots forty and forty-one. An eighth of a mile of necessary crosswaying, and a small quantity of grading was done at its west end.

## HAYSTEAD ROAD.

A mile of chopping, grubbing and grading, the work being from about lot one hundred and thirty-six Parry Sound road survey south towards Otter Lake.

## INDIAN PENINSULA ROADS.

In the township of Lindsay five miles of repairs were made from the fifteenth side line to lot thirty-five; and on the west side three miles were improved from the town line of Eastnor northward to the Bury road proper; while in the township of St. Edmund's the work extended from lot number seven to lot twenty-six, nearly five miles in sections or patches.

In Albermarle township from concession B a road was opened between lots fourteen and fifteen one hundred rods; thence south to the line between lots fifteen and sixteen; then west through concessions eight to twelve inclusive; and again southward between concessions seven and eight to the line between lots nineteen and twenty, a length of about four miles.

The Indian Department, I am informed, spent about \$1,000 also upon repairs and improvements in the northern portion of the Peninsula, and a fairly good road is now opened to Tobermory Harbor.

## KEARNEY BRIDGE.

A bridge over the outlet or river between Loon Lake and East Lake on the Perry and Monteith road. It is one hundred and sixty-eight feet long with main span of sixty feet in the clear, the balance being trestle work.

## KEARNEY NO. 1 ROAD.

A mile and a quarter of grading from the third concession of Proudfoot towards Beaver Lake. A short length still remains to be improved but the whole distance is passable, and of great advantage to the settlers in the vicinity of Sand Lake.

## MACHAR 5 AND 6 SIDE LINE ROAD.

The chopping out, grubbing and grading of a mile and a quarter of very heavily timbered land through the ninth and tenth concessions of the side line mentioned, and the further chopping of a quarter of a mile in the eleventh concession. Two bridges of considerable size were also built over streams crossing the road, and three culverts constructed.

## MACHAR 10 AND 11 SIDE LINE ROAD.

This work was chiefly in the eighth concession, being three-quarters of a mile of grubbing and grading. One-half the distance was through a muskeg and therefore unusually heavy construction.

## MCKELLAR CENTRE ROAD.

From Blackwater bridge northward three miles were repaired, together with the partial re-covering of two bridges. Seventeen new culverts were introduced to insure safety to the road.

## MCMURRICH 30 SIDE LINE ROAD.

Repairs between concessions eight to ten, amounting to something like three-quarters of a mile, to give a better outlet for some settlers to Bacon crossing, on the Parry Sound Railway.

## MILLS AND WILSON ROAD.

Commencing at Mills road, a mile and a half was repaired eastward and properly turnpiked. A bridge seventy feet long, and costing about \$200, was also erected over Zichen's creek.

## MONCK 10 AND 11 SIDE LINE ROAD.

Through the eleventh and twelfth concessions of Monck a mile and a quarter was very much improved, and the thirteenth concession was chopped out and grubbed.

## MONTEITH AND PERRY ROAD.

A mile and a quarter of repairs, but practically new work, being a deviation to avoid a very rocky section, and involving sixty-seven rods of crosswaying. Operations were across lots five to ten and between the tenth and eleventh concessions of the township of Perry.

## MUSKOKA ROAD.

In the township of Perry two miles were most thoroughly improved; and in Gurd three-quarters of a mile was opened as a continuation of last year's work, and ending between lots fifteen and sixteen in the seventh concession.

## NIPISSING JUNCTION ROAD.

Two and a half miles were very substantially repaired and drained, making now an excellent highway between South East Bay and North Bay, and is extensively used at all seasons of the year.

## NORTH WEST ROAD.

Repairs to bridges and crossways in the township of Carling which were absolutely required to make the road in some degree passable.

## POVERTY BAY ROAD.

Necessary repairs to crossways and bridges between Ah-mic Harbor and Magnetawan.

## SINCLAIR ROAD.

Between lot number sixteen in the fifth concession and lot number two in the thirteenth concession, about seven miles of repairs were made, and the road put in very fair shape for travel.

## SINCLAIR AND FINLAYSON ROAD.

Five and three-quarters miles were repaired in the township of Sinclair, which forms part of this main road into Algonquin Park. Two miles were opened as an extension of the road, which now reaches, practically, Tea Lake on lot number twenty of Finlayson. The work is reported as well done.

## STEPHENSON AND MACAULAY T. L. ROAD.

This was a contribution to the municipality conditional upon the completion of certain work upon the town line named, and which the Department has assurance that it has been done.

## STATED 15 AND 16 SIDE LINE ROAD.

The completion of road by opening a mile and a quarter through concessions seven and eight, of which 264 rods were through a low tamarac swamp.

## SPENCE AND CROFT ROAD.

Beginning at lot seventy-three, con. B, of the Rosseau and Nipissing road survey, this road is opened westward to the Croft road, on lot number eleven in the second concession of Croft, a length of about five miles. A considerable portion being through cleared land, it was easy of construction, and a large amount of work was therefore effected. The inspector writes that if opened another mile and a quarter to Ah-mic Harbor it would become an important leading highway.

## STRONG 4 AND 5 CON. ROAD.

Repairs were made across lots twenty-eight, twenty-nine and thirty, three-quarters of a mile; and an equal length chopped, grubbed and graded across lots twenty-five, twenty-six and twenty-seven. Owing to the roughness of the road allowance it became necessary to make a diversion upon lots twenty-six and twenty-seven into the fourth concession.

## WESTPHALIA ROAD.

One mile of very heavy work, involving a great deal of rock-blasting. It is from lot number twenty-two, through lots twenty-one and twenty of the second concession, and part of lot nineteen in the third concession of Himsworth.

## WILLETT ROAD.

A road forming a connection with the Parry Sound road and Parry Harbor, in the township of Foley. The length, which is somewhat less than a mile and a half, is over an exceedingly rough section, requiring many deviations before reaching Ross' Point, on the Georgian Bay, to form a connection with the new railway terminus. A first-class road has, however, been made.

## WILSON LAKE ROAD.

This was the opening of a new road from Mills' road (lot thirty-three, con. twelve, Mills), southerly for two and a half miles, so that teams might pass over it. A large amount of work was done for the comparatively small expenditure—\$101.75.

## WISAWASA AND BURFORD BRIDGES.

The renewal of two bridges on the Nipissing road, first built fourteen years ago. The Wisawasa bridge has a main opening of fifty-two feet and total length of sixty-four feet. The Burford bridge is a pile structure eighty-one feet long, and are both reported as excellently built.

## WOOD LAKE ROAD.

Five miles of repairs extending from the town line of Draper to Black River, in the township of Oakley.

## EAST DIVISION.

## ABINGER AND MILLER T. L. ROAD.

Work has been extended from that of 1893 southward to the first lot of the eighteenth concession of Barrie, there connecting with a settlers' road. The length opened is a mile and a quarter, on which a bridge or high crossway four hundred and fifty feet long was required and constructed.

## ADDINGTON ROAD.

Five miles of repairs were made from Kaladar Station, on the Canadian Pacific Railway northward over "Ball Mountains," and a bridge one hundred and seven feet long was rebuilt over Louse Creek. In the townships of Ashby and Sheffield fifteen miles were improved from the boundary between Mayo and Ashby eastward. This latter portion is more properly known as Mississippi road.

## ANTOINE CREEK BRIDGE.

The renewal of a structure originally one hundred and forty feet long, but now reduced to one hundred feet, the balance of length being filled in permanently. It is on the Mattawa and Temiscamingue road, and the work is understood to be of a very substantial character.

## ALICE 14 AND 15 CON. ROAD.

Repairs from lot number one eastward a mile and a half upon a road previously opened by settlers, but was in a very unsatisfactory condition.

## ALICE 25 AND 26 SIDE LINE ROAD.

This road had also been opened roughly by the settlers southward through the ninth and tenth concessions, and is now farther improved over one mile of its length.

## ASHDAD AND CALABOGIE ROAD.

Three miles of repairs from Calabogie Village about the shore of Calabogie Lake, and again two miles northward, toward Mount St. Patrick. It is the leading road between the villages, and benefits a large number of settlers.

## BARRY'S BAY AND BELL'S RAPIDS ROAD.

Beginning about a mile and a half west of Barry's Bay, in the township of Sherwood, repairs were extended westerly towards Bells Rapids, on the Madawaska River, a distance of two and a half miles.

## BATTERSEA AND S. CROSBY ROAD.

The above named highway is one beginning at Battersea (lot 11, concession 9) in the township of Storrington, and continuing in a northeast direction through the said township to Jones' Falls, on the Rideau canal, in the township of South Crosby. Three miles have been improved, thus putting the same in very fair condition.

## BEDFORD CENTRE ROAD.

This road commences at lot number eight in the seventh concession, extending to lot twenty in concession twelve of Bedford, a length of seven miles, of which four miles were substantially repaired. It is a road used chiefly in conveying milk to cheese factories.

## BOBCAYGEON ROAD.

That portion of the above road opened this year is in lieu of a section some seven or more miles in length, which, though opened roughly many years ago was never regarded as travelable; and this difficulty was increased by the damming of waters of Mud Lake and others, rendering the road in many places impassable. The work was begun at lot two, concession A, Ridout; thence northerly to lots five and six, concession nine, and onward to lot three, concession ten, which is about half a mile south of the Baysville road, the length being seven and a half miles. The Messrs. Gilmour Company subscribed \$500 towards the work, which, with the Government grant, has opened what, with some further work, will be a fairly good road; and, it is said, will permit the settlement of perhaps many now vacant lots.

## BONNECHERE AND KILLALOE ROAD.

The opening of a new road from lot number thirty of North Algona in a south-westerly direction to the boundary between North Algona and Hagarty; thence south along said boundary to the eighth concession—a mile and a half, and intended to be a road to Killaloe Station, on the Ottawa and Parry Sound Railway, though not yet completed.

## BONFIELD 6 AND 7 CON. ROAD.

This is also a new work, dating from last year's operations (lots twenty-two and twenty-three), and opened eastward two miles, and properly graded. Over Spark's creek, on this line, a bridge was built sixty-two feet long with a twenty-five feet main opening.

## BONFIELD 25 AND 26 SIDE LINE ROAD.

A mile and a quarter of new and heavy work through the fifth and sixth concessions of the side-line named. It is intended that this road tap the township of Boulter and reach some fifty settlers.

## BROMLEY 3 AND 4 PROOF LINE ROAD.

Another new road situate on the above proof line of Bromley, in the sixth and seventh concessions. It is a mile and a quarter in length, well grubbed and graded, and reduces the distance to Douglas for many settlers and travellers.

## BRUDENELL AND LYNDON ROAD.

Eight miles of repairs from Rockingham on the Peterson road northward towards Wilno in the township of Hagarty. This becomes an outlet to the Ottawa and Parry Sound Railway for settlers in Raglan and the south part of Brudenell.

## BUCKHORN ROAD.

A general course of repairs over twenty-four miles from the Monck road southward through the townships of Cavendish and Harvey; and five miles also from Gooderham northward to meet the work of last season.

## BURLEIGH ROAD.

About two miles of improvements including a deviation south of Haultain P. O. A bridge was also erected over Eel's creek, at Brown's Falls, one hundred and eighty feet long, with a main span of thirty-three feet in the clear.

## CALVIN AND PAPINEAU T. L. ROAD.

This work was from the Canadian Pacific Railway, between concessions five and six of Calvin and thirteen and fourteen of Papineau, extending south, a mile and a quarter of heavy construction.

## CALDWELL NO 1 ROAD.

Commencing at the boundary between Kirkpatrick and Dunnet, where work ended last year, the road has been opened westward along the north boundary of the Canadian Pacific Railway to Warren Station; a length of one mile of entirely new work through heavy bush. With the balance of the appropriation the old road between Verner and Warren, nine miles, was repaired and considerably improved.

## CALDWELL NO. 2 ROAD.

On this road work began on what is known as the Salter Line, and at lot number two and the concession line between one and A, and was continued north one mile to the line between the lots one and two, new entirely. Again, a road was opened from the point first mentioned westward—on Salter Line—across lot number two, and thence south to Veuve River, nearly three-quarters of a mile. This latter portion reaches a settlement hitherto without a road of any description.

## CALVIN 5 AND 6 CON. ROAD.

This is a work consisting of a quarter of a mile of new road and two and a half of repairs. Repairs were from Mattawa and Callender road southward on the line indicated; the new work being across lot number six on the town line.

## CARLOW ROAD.

Three miles of repairs from what is called "Monteagle Turn" northward towards Combermere. Five slight deviations were made to improve this highway, which is the leading one to Barry's Bay station on the new railway.

## CAVENDISH ROAD.

Repairs were made over seven miles from lot twenty-four, concession fourteen, to lot nine and between concessions fourteen and fifteen of Cavendish. Again, from lot nine to lot thirteen a mile of new road was opened; and on what is called Jackson's road two miles were repaired.

## CAVENDISH ROADS.

Beginning at the boundary between Galway and Cavendish at lot number one, in the eighteenth concession, six miles were repaired eastward to the Buckhorn road. Repairs were also made between lots ten and eleven through concessions nine, fifteen and sixteen, making about eight miles of work altogether.

## CAWLEY ROAD.

A road from the Opeongo road about five miles west of D'Acre (free grant lot fifty-four), in Grattan, extending southwesterly, a mile and a quarter of which was repaired.

## CHISHOLM ROAD.

A mile and a quarter of new work, dating from the Wisawasa road (lot eleven, concessions sixteen and seventeen, Chisholm) eastward. Some twenty or thirty settlers are accommodated in this instance, but the inspector says that to further open it a bridge is required over Wisawasa creek on the same line.

## CLARENDON ROAD.

Repairs from Frontenac road (lots thirty-one and thirty-two, concession 6, Clarendon), eastward to the first concession, a length of about five miles. The improvement mentioned enables settlers to deliver milk to the cheese factories at Plevna.

## CLARENDON STATION AND MOBERLY ROAD.

Three miles repaired from lot twenty-nine, concession seven, Oso, to lot twenty-eight in the fourth concession of the same township. This portion had been previously cut out and made passable by the inhabitants.

## CONNELL'S ROAD.

A new road opened from lot seven in the sixteenth concession of Bedford, southward to lot number one in the same concession, to intersect the Opinicon Lake road and thus connecting two settlements—namely, Bedford Mills and Opinicon Lake. The length opened was three miles.

## COUCH ROAD.

A winter road from the third concession of Ohandos, northward to Loon Lake—some two miles or more.

## DALTON AND WASHAGO ROAD.

Repairs over about five miles between the townships of Rama and Morrison.

## D'ACRE AND ADMASTON ROAD.

From the boundary between Grattan and Admaston three miles of repairs were made eastward. The road is on or near the line between eighteen and nineteen of Admaston.

## DEVIL LAKE ROAD AND BRIDGE.

Repairs were made over four miles of this road which is in the township of Glamorgan. Over Burnt River what is called Simmon's bridge, on the Snowdon road near Irondale, a bridge about twenty-five years old was renewed from low water line, and its length reduced to one hundred and two feet.

Furnace Falls Bridge, on the line of the Monck road, about three miles west of Irondale, was also thoroughly repaired by renewing abutments twelve feet in each case and covering one hundred and thirty-four feet.

## DUNNET ROAD.

This work was commenced at the Canadian Pacific Railway boundary of Warren Station (lot two, concession six, Dunnet), and continued south about half a mile, improving a road built by the Imperial Lumber Co.; thence work was continued south one mile to the line between concessions four and five; and thence westward on the last named line to lot number five, completing thus two miles of new road and half a mile of repairs.

## ELDON 8TH CON. ROAD.

Two and a half miles graded and improved between lots sixteen and twenty-one.

## ELDON 4TH CON. ROAD.

This grading and gravelling is a mile and a quarter long, reaching from lot six to lot number eight.

## FARADAY ROAD.

From lot nineteen, concession two, northward to lot nineteen, concession eleven, Faraday, eight miles were fairly repaired. It is a leading road from the central portion of the township to the railway at Coe Hill.

## FERRIS 10TH CON. ROAD.

Two miles of road opened, beginning at lot number nineteen, and ending at lot twenty-eight. This opens a road to Callender which was the object sought.

## FRONTENAC AND GRIFFITH ROAD.

Repairs from the south boundary of Mattawatchan northward seven miles. This is the only road the settlers have to their county town and market.

## GALWAY 4 and 5 CON. ROAD.

From the Bobcaygeon road eastward two miles were repaired; and one mile was opened from lot number four eastward to lot number seven. One mile of repairs were also effected on Nogie's Creek road from its intersection with the above, southerly.

## GALWAY ROADS.

Seventeen miles of roads received general repairs in the above township—namely: six miles from the Bobcaygeon road eastward between concessions twelve and thirteen; three miles along what is locally known as "French line," six miles on "Queen's line," and two miles on Swamp Lake road.

## GANNON'S NARROWS ROAD.

The repair of two miles, from Sandy Point southward to the Ferry ; the chief work being, however, three hundred feet of stone-filling into the water, as approaches to the wharf or boat landing. The work was commenced last year but unfinished for lack of money.

## GLAMORGAN 5 CON. ROAD.

Five miles of repairs were made at various points on this road, with the renewal of portions of a bridge. A bridge one hundred and two feet long was also built over Burnt River on the Burleigh road, to replace an original structure nearly sixty feet longer than the present one, the balance having been made permanent by earth and stone filling.

## GRATTAN 6 CON. ROAD.

Work was commenced on the west side of lot number eighteen, and extended to the east side of lot fifteen, one mile of new work, including a bridge eighty-five feet long, built over a stream on lot seventeen.

## HAGARTY AND NORTH ALGONA ROAD.

This is one and three-quarters of a mile of new work from Killale Station, on the Ottawa, Arnprior and Parry Sound Railway—namely, one mile on the road allowance between lots five and six, and three quarters between the fifth and sixth concessions of Hagarty.

## HAGARTY 3 CON. ROAD.

Two miles repaired on this line from lot twenty-one westward, and one mile also repaired from lot thirty-one westward. The road was a very bad one.

## HAGARTY 8 CON. ROAD.

A mile of new road opened from lot number twenty-four eastward on the above mentioned concession line.

## HARVEY 28 AND 29 ROAD.

Three-quarters of a mile of valuable work from Bobcaygeon road eastward, in grading the entire distance.

## HASTINGS ROADS.

The following roads in the County of Hasting have this season received repairs :—A road from lot twenty-nine, concession three, Faraday, northerly one mile. On Snow road east of Brennan's bridge over York Branch two and a half miles were repaired, and which with a small municipal grant also expended has made the road a fair one. On the Limerick line between concessions two and three of Dungannon, three miles of repairs were made over the worst portions and now said to be in good general condition.

Six miles of repairs were also made over what is called Gilmour and Cashel road. On Bell's Rapids road in the township of Bangor another six miles were more or less improved. A bridge was built over a stream in the seventh concession of McClure, on the Papineau Lake settlement road, and the municipality has, I understand, arranged for a grant to complete the road, and make the bridge approaches. Again, repairs of three and a half miles were made on Lake township road from lot twenty-eight, concession three, Marmora, thence northward to the boundary and into lot one, concession three, Lake ;

and again north-easterly to about lot three, concession four, making a very good road into the Airhart Settlement in the township of Lake. Lastly, Mud Creek bridge on the Hastings road in Herschel, which has a total length of nine hundred and ten feet was renewed for three hundred and sixty feet, leaving the balance unfinished for lack of funds. The foregoing represents twenty-two miles of repairing, outside the bridge work which seems to be very satisfactory for the amount spent.

#### HASTINGS ROAD.

On the Hastings road proper repairs were made from about two miles north of Rathbun Station to near Bancroft, a length of about fifteen miles; and again from about two miles and a half north of Maynooth, four and a half miles were repaired northward. A bridge was also re-built over York River, one mile south of Bancroft, one hundred and twenty feet long, having one span of sixty feet and another of thirty feet. This same road was also extended into the township of Murchison from lot twenty-seven, concession thirteen Lyell, north to the Egan Estate depot, a distance of about three miles, chopped out twenty feet wide and levelled ten feet wide, making it fairly passable for waggons, and opening a road to the Ottawa, Arnprior and Parry Sound Railway.

#### HAWLEY ROAD.

A road extending from the Hastings road on the south side of Bird's creek eastward into the township of Montegale. Three and a half miles were repaired to lot twenty-two of the second concession, and includes a log bridge over Bently's creek sixty feet long.

#### HEAD TOWNSHIP ROAD.

Grading from lot number twelve, concession B of Head township, east half a mile and west half a mile. A heavy hill on lot number twelve was very much reduced in slope and with other work represents about a mile and three-quarters of repairs.

#### HINCHINBROOKE ROAD.

Repairs were commenced at lot number six in the seventh concession of Hinchinbrooke, and continued southward into the township of Portland towards the Frontenac road, a length of three miles, used largely as a cheese factory road to Verona.

#### HUGEL AND BADGEROW ROAD.

Three miles were opened on this road which is on the town line between Caldwell and Kirkpatrick, and also between Hugel and Badgerow. Work was begun at the Canadian Pacific Railway boundary and continued north. It was of a very heavy character of work throughout, but understood to have been well performed.

#### JACK'S LAKE ROAD.

A continuation from last year's operations, a mile and a half in a southerly direction of new road.

#### JUNCTION CREEK BRIDGE.

A structure three hundred and twenty feet long, with a width of eighteen feet and a side walk four feet wide added. This bridge is over the above-named creek, and is on the line of the Sudbury and Wahnapiatae road. The municipality of Sudbury contributed \$350 on account of the extra width of the bridge and sidewalk which was regarded as a necessity, the bridge being in the precincts of the village.

## LAVANT BRANCH ROAD.

One mile of new work in the township of Darling, from lot number twelve in the third concession eastward across lots ten to twelve inclusive, opened thirty feet and graded sixteen feet.

## LOUGHBORO' ROAD.

The repairing of one mile on the town line between Loughboro' and Portland from the south boundary of the first mentioned township northward, largely a cheese factory road.

## LYNDOCH AND SEBASTOPOL ROAD.

Four miles repaired from lot number one in the first concession of Sebastopol southwesterly into the township of Lyndoch, the road being a leading one into a German settlement in the latter named township.

## MATTAWA AND CALLENDER ROAD.

Repairs in the townships of Calvin and Papineau, amounting to four and a quarter miles.

## MAYO AND CARLOW ROAD.

From the south boundary of Carlow, repairs were made to McArthur's Mills—that is to say, between lots twenty and twenty-one southward, ending on lot twelve, concession thirteen of Mayo, the distance being three and a half miles. A bridge was also built over the Mississippi branch of York River, seventy feet long with main opening of thirty-six feet, supported by two piers each seventeen feet high.

## MINK LAKE ROAD.

A road from the twelfth concession and between lots ten and eleven of Wilberforce, southward to Mink Lake, and thence eastward about its west shore. Its length of a mile and three-quarters was very well repaired.

## MISSISSIPPI BRIDGE.

A bridge in Palmerston near the railway crossing (lot ten, concession nine), and not yet completed as the work could be done with more economy in winter.

## MONCK ROAD.

The improvement of nine and a half miles from Sebright westward, over a portion which for twelve years had been neglected, but now is in a very good state of repair.

## MOOR'S FALLS BRIDGE.

The renewal of a bridge on Oameron road in the township of Lutterworth. The original structure was three hundred and forty-five feet long, but by changing the location somewhat and taking advantage of a small island the length has been reduced to two hundred and thirty feet. By obtaining timber during the winter and the exercise of due economy the work was done for a less sum than was estimated.

## MOUNT ST. PATRICK AND OPEONGO ROAD.

From lot number one of the fourteenth concession of Brougham northward to the Opeongo road, four miles of substantial repairs were effected.

## MOUNTAIN ROAD.

Repairs in the township of Stafford, and extending westward to Shaw's Mill at the outlet of Lake Doré—some three miles.

## MUD LAKE AND BOLSOVER ROAD.

Six miles of repairs from the second concession of Eldon northward into the township of Carden.

## NORTH ALGONA 5 AND 6 SIDE LINE ROAD.

Improvements extending over four miles from lot number seven of North Algona northward, on or near the road allowance between lots five and six. This work is of great advantage to the settlers in that locality who are mostly Germans.

## NOGIE'S CREEK ROAD.

Five miles of general repairs in the townships of Harvey and Galway.

## NORTH BAY AND TEMISCAMINGUE ROAD.

The work in this instance was in the townships of Dymond and Harris on Lake Temiscamingue where settlement is taking place with considerable activity and where no roads existed. Three have this season been opened into lands now occupied or applied for, namely :—A road named West Dymond and Kerns, opened from lot number nine, west between concessions one and two, to about centre of lot seven; thence in a north-west direction to the line between lots four and five which it strikes about the middle of the third concession, and thence north through the last mentioned concession a length of four miles and a half. Again, North Dymond and Harly road was opened from about the point of commencement of the first named road, and made north on the line between lots eight and nine into the fifth concession, and is three miles in length. Lastly, Harris road was constructed from the same point of commencement easterly and southerly about the shore of Wabis Bay to Dawson's Point in A concession of the township of Harris, and is four miles long, making altogether eleven and a half miles of new work.

## NORTH HARVEY ROAD.

About ten miles of substantial repairs eastward towards Burleigh road. A bridge was also built over Squaw River.

## NORTH METHUEN ROAD.

Two miles of road made in the township of Chandos through concessions ten to fourteen, from the point between lots twenty-four and twenty-five.

## NOSBONSING AND SOUTH EAST BAY ROAD.

From lot number twenty, between the first and second concessions of Ferris, a road two miles long has been opened in a westward direction, towards South East Bay of Lake Nipissing; crossing Booth's Railway at what is called Willett's. A further opening of a mile and a quarter would complete the road and be available for some seventy-five settlers near Lake Nosbonsing.

## NOSBONSING AND THORNCLIFFE ROAD.

Seven miles of repairs from Thorncliffe eastward and parallel with the Canadian Pacific Railway.

## OLDEN AND SHARBOT LAKE ROAD.

The improvement of two and a quarter miles which had been cheaply opened two years ago. It is in the township of Olden (from lot 11, concession 10, to lot 12, concession 8), and is valuable to persons living in the eastern portions of the township when travelling to and from Sharbot Lake station of the C. P. Railway.

## OPEONGO ROAD.

Five miles of repairs in the townships of Grattan and Brougham.

## OSO AND BEDFORD ROAD.

A new road from the south-west angle of the township of Oso, eastward between Oso and Bedford to the line between concessions two and three Bedford; and thence south on said line to that between lots thirty-one and thirty-two of the latter township—altogether a mile and a quarter.

## PAPINEAU 10 CONCESSION ROAD.

Two portions were in this case opened, one being from lot twenty-one eastward to lot fourteen through a very rough section of country to open a road to Mattawa; and the second was opened between lots ten and fourteen through a swampy district—total length two and three quarters miles.

## [ PAPINEAU 10 AND 11 SIDE LINE ROAD.

The opening of a new road from the seventh to the tenth concessions, and length about a mile and a quarter.

## PARHAM AND SHARBOT LAKE ROAD.

Repairs were commenced at lot number twenty-five of the third concession of Hinchinbrooke, and extended northerly towards Sharbot and St. George's Lakes—eight miles.

## PEMBROOKE AND MATTAWA ROAD.

A mile and a quarter was thoroughly repaired in the township of Maria, and a bridge built over Bissett's creek to renew one erected some twenty-eight years ago.

## PERTH ROAD.

Repairs from Loughboro' Lake bridge extending northerly some seven miles.

## [ PETEWAWA AND ALICE T. L. ROAD.

This work was chiefly the construction of a bridge over a creek and ravine on the town line indicated. Its main span is twenty five feet, abutments twelve feet high and width eighteen feet. Some repairs were also made upon the road.

## PETEWAWA 15 AND 16 SIDE LINE ROAD.

Three quarters of a mile of repairs in the third and fourth concessions of Petewawa on the side-line mentioned.

---

 RAGLAN AND SNAKE CREEK ROAD.

The repair of three and a half miles from lot twenty-four of the twelfth concession to lot twenty-seven in the sixth concession of the township of Raglan. It is between two German settlements—one in Raglan, the other in Denbigh.

## REID ROAD.

From lot number eight, concession sixteen, to lot number sixteen, concession fifteen, two miles and a half of general and substantial repairs were made.

## ROLPH ROAD.

A continuation of work from last year's operations westward about two miles, thus giving an outlet for settlers to the Canadian Pacific Railway, from Des Joachim and for those also on the east side of the Ottawa River.

## ROLPH AND BUCHANAN ROAD.

A road cut out by the settlers from Chalk River Station in Buchanan to the Ottawa River, and this year improved from a point a mile east of the station, a mile and a quarter, and said to be of great importance to the settlers.

## ROSS ROAD.

The repair of two and a half miles on the boundary between Ross and Horton and another mile of work in repairing heavy hills on the fifth concession of Ross.

## ROUND LAKE ROAD.

This was a quarter of a mile of heavy blasting in Belmont on the ninth and tenth concession line. The County of Peterboro' and township of Belmont contributed \$25 each, making the Government outlay \$100 only.

## SANDY LAKE ROAD.

Three miles of improvements from lots nine and ten, concession ten Harvey, westward.

## SANDY POINT ROAD.

A small sum granted to complete an unfinished work of last season. A mile and a half of work has made the road to the lake, which was very desirable in the interests of the district.

## SEBASTOPOL AND LYNDON ROAD.

Four miles of repairs from Vanbrugh on the Opeongo road in Sebastopol south-westerly. It is now a good waggon road over the distance mentioned.

## SHARBOT LAKE BRIDGE.

Repairs to a floating bridge built fourteen years ago, and rendered necessary in consequence of the falling of water in the lake. A portion resting upon rock was raised and other changes effected.

## SHIELD'S PIT ROAD.

The grading of three and a half miles opened last year from near railway crossing at Eau Claire to the next crossing on the way to Ruther Glen.

## SILVER LAKE ROAD.

A road cut out by settlers and this year repaired from lot number eight in the fourth concession of South Algona eastward, two miles, to what is known as Telegraph road,—a great advantage to a German settlement near Silver Lake.

## SOMERVILLE ROADS.

Three sections were wrought over and very much improved, the first being from lot eight, concession thirteen southerly four and a half miles upon what is locally called "Finlan road." The second section was on the Base line, about one mile south of Monck road and received four miles of repairs. Section number three embraced about eight miles of improvements, reaching from about half a mile south of Monck road to "Howe's Settlement."

## SOUTH ALGONA 24 AND 25 SIDE LINE ROAD.

Repairs upon the line mentioned from its intersection with the Ottawa, Arnprior and Parry Sound Railway northward to or near Golden Lake.

## SOUTH ALGONA 3 CON. ROAD.

A mile and a half of mostly new work, a small portion only having been in any degree before opened. It is from the "Telegraph road" (between lots ten and eleven, concession three), in South Algona south to the end of the third concession, and thence west on the last-named concession line for three-quarters of a mile.

## SOUTH MOUNTAIN ROAD.

Certain repairs on lot number four in the twelfth concession of Brougham. It is a matter of deep regret that, while engaged in the work, Mr. M. Kennelly, the overseer, broke his leg and was unable to proceed.

## SPRINGER ROAD.

A continuation of last year's work between lots one and two, Springer, southward to Lake Nipissing. Three-quarters of a mile was opened, and one mile of last year's ditching was deepened in order the better to drain the road and lands adjoining.

## STURGEON RIVER AND SMOKY FALLS ROAD.

The further opening of two and three-quarters miles from the end of last year's work north-easterly to Smoky Falls in the township of Springer. One mile of repairs was also made.

## SUDBURY AND NEELON ROAD.

From the village of Wahnapiatae westward toward Sudbury, a mile and a half was opened, and two miles repaired.

## THORNCLIFFE AND NORTH BAY ROAD.

Four miles of substantial repairs from the Trout Lake and Nipissing Junction road westward, and reaching almost to the easterly limit of North Bay.

## TROUT LAKE ROAD.

One mile opened between concessions A and B, Widdifield, and four and a half miles of the existing road were repaired.

## VANBRUGH AND LAKE CLEAR ROAD.

Repaired from Vanbrugh on the Opeongo road about the west end of Lake Clear, three and a half miles. The road was, in many places, so "gullied" as to be unsafe for travel.

## VANSICKLE ROAD.

One mile of road opened from the boundary line of Methuen (lot three concession one) northerly; and a mile and a half repaired on a continuation of the same.

## VERNER AND BADGEROW ROAD.

The opening of six miles from the Canadian Pacific Railway boundary in Caldwell north, between lots nine and ten, into the township of Badgerow to meet the requirements of settlers and those intending to make homes in those townships.

## WESTPORT AND MISSISSIPPI ROAD.

Three miles of repairs from a point about six miles north of the south boundary of South Sherbrooke, northward to Moberly Station, on the Canadian Pacific Railway.

## WHITE LAKE ROAD.

Repaired over ten miles from lot number thirteen in the third concession of Bedford, southerly to Bedford Station, of the Kingston and Pembroke Railway. It is the main road in that vicinity.

## WIDDIFIELD (GARVIN) ROAD.

Three miles and a half of repairs from lot number seventeen, concession A, Widdifield, eastward.

## WIDDIFIELD 5 AND 6 PROOF LINE ROAD.

A road roughly cut out some years ago. This year's work was from concession twelve north on the proof line indicated for three-quarters of a mile through a low swampy portion requiring brushing, ditching and gravelling.

## WILBERFORCE, 30 AND 31 SIDE LINE ROAD.

This line was improved through concessions twenty to twenty-three—two and a half miles. It is an outlet for a number of settlers in the north-westerly part of the township.

## WISAWASA ROAD.

From the end of last year's work one mile has been opened, the road now ending at concession thirteen, between lots five and six, Chisholm. A bridge over Spark's creek, with an opening of thirty-four feet, was also built.

## WOERMKE'S ROAD.

Commencing at lot number ten, in the seventh concession of Sebastopol, repairs were made westward a mile and a quarter, involving a considerable amount of blasting of rock and boulders, the line being very rough and broken.

## WYLIE ROAD.

A road from Chalk River Station, of the Canadian Pacific Railway, north-easterly along and near the railway into the township of Wylie, now repaired and improved over four miles of the length.

SUMMARY OF EXPENDITURE ON COLONIZATION ROADS AND BRIDGES

# REPORT

OF THE

# IMMIGRATION DEPARTMENT

FOR THE YEAR ENDING 31ST DECEMBER,

1895.

---

*To the Honourable JOHN DRYDEN, M.P.P.,  
Commissioner of Immigration.*

SIR,—I have the honour to submit the following report on the operations of the Immigration Department for the twelve months ending 31st December, 1895.

As compared with 1894 there was a decrease of 582, and with 1893, of 1,185, in the number of immigrants reported as having settled in this Province during 1895, the total number being 5,386.

The total statistics now available furnish an incomplete statement of the actual number of intending settlers arriving during the year, as they only cover the arrivals at Halifax and Quebec, with such of those at the port of Montreal as are destined for this Province by way of the United States. But a large number of European immigrants find their way to this Province from New York by other ports than that of Montreal, and though there are no means of ascertaining the exact figures, there is reason to believe that the number was greater in 1895 than in the previous year, as there was for a time a considerable steerage passenger traffic from London and other English ports *via*. Amsterdam to New York. This deflection of the travel no doubt reduced the arrivals at Halifax and Quebec intended for Ontario, as many immigrants by the route named reported at this office, having come here directly from New York. It is therefore, probable, that the falling off in the official returns is more than the actual decrease from the arrivals in 1894.

It has also been a noticeable feature in the movement of immigrants during the past year that an unusually large number who, having made an unsuccessful effort to settle in the Province of Quebec (mostly in the Eastern Townships or in the city of Montreal) and remained there for periods varying from one to six or eight months, came to this Province with the view of bettering their position. And as if this were but one phase of the westward movement of population, there was also a considerable increase in the number of applications for information as to the cheapest mode of reaching Manitoba, the North-West Territories and British Columbia. The increasing difficulty of securing permanent employment in the older portions of the Province is the natural explanation of this desire to reach newer regions; hence the efforts to attract the attention of the migratory portion of our population, as well as of incoming intending settlers to the advantages offered by Algoma and other north-western districts of Ontario appear to have been put forth at a most favourable conjunction of circumstances, and will no doubt be productive of most satisfactory results in the near future. As the advantages of these north-western regions become more generally known, it may be safely predicted that Ontario will continue to maintain its firm hold on the confidence of the emigrating classes of the Old World and especially of those of the British Isles.

I am indebted to the courtesy of the Department of the Interior at Ottawa, and the Dominion Agents at Halifax, Quebec and Montreal, for the returns appended to this report, and for co-operation generally in promoting the interests of immigration. From these reports the accompanying statement A has been compiled, giving the particulars as to number, nationality and occupation of those immigrants only who arrived at these ports with the declared intention of settling in Ontario; and omitting the details of monthly arrivals, and of the arrivals destined for other places in the Dominion and for the United States.

The proportions between the nationalities of the immigrants settling in Ontario have been steadily changing during the past fifteen years. In the five years, 1881-5, the average percentages were: English, forty-seven; Irish, twenty-four; Scotch, thirteen, and all other nationalities, sixteen. In the next five years, 1886-90, they were: English, fifty-six; Irish, fifteen; Scotch, sixteen; other nationalities, thirteen. In the last five years, 1891-5, they were: English, sixty-five; Irish, nine; Scotch, 12; other nationalities, fourteen. In 1895 the English constituted seventy, the Irish seven, the Scotch ten and all other nationalities thirteen, per cent. of the whole. With slight yearly variations the preponderance of the English has steadily increased so that in the period mentioned they have risen from less than one-half to seven-tenths of the whole, while the Irish have dropped from about one-fourth to one-fourteenth, the Scotch from one-sixth (1886-90) to one-tenth, and all other nationalities from one-sixth (1881-5) to one-eighth.

The occupations, classified so far as ascertained, when compared with 1894, give little proof of improvement in the adaptability of the majority of the immigrants to the requirements of the Province. Though the number of general labourers is proportionately smaller in 1895, than in 1894, it is still about two and a half times as large as the number of farmers and farm labourers combined; and despite the falling off in the total of arrivals, there is an increase of thirty-three over 1894, in the number of clerks and traders, the class above all others for which there is the least demand. With this exception, and allowing for the reduction in the total number, there is a general similarity in the relative proportions of the several classes for 1894 and 1895. In both years it has been difficult to place so large a number of the non-agricultural classes, especially when there has been no great activity in the construction of public works or in the mechanical trades; and at the same time during the busy seasons of agricultural work it has been equally difficult to fill the demand for skilled farm hands. It has also to be noted that while clerks, warehousemen and mechanics—young men—make up their minds to go to farm work, they generally succeed in becoming efficient farm hands; but the “general labourer,” having in many cases grown up without training in any fixed employment, is seldom a desirable acquisition on the farm, and as a consequence he drifts into the cities, where there is already an abundant supply of his class.

The returns from the several homes in this Province, under the management of philanthropic individuals or societies, show a total of 1,389 juvenile immigrants for 1895, being more by eighteen than the number brought in under the same auspices during the previous year, but less than in any other year, except 1890, since 1884. The bringing of these children into the Province and placing them in situations are managed by those in charge without the intervention of this Department. So far as information has reached me, it appears that the management of these homes has been generally satisfactory during the year.

In 1895, as in former years, the supply of experienced farm labourers failed to meet the demand, and many applications had to go unfilled, or farmers had to accept inexperienced hands. Farm labourers and domestic servants can always rely upon finding employment. Young men anxious to learn farming, if physically qualified, can be placed in good situations; but with respect to other classes dependent on their labour, it would be well for them to make inquiries as to their individual prospects before leaving home. There are no indications that general labourers will be in greater demand during the coming season than they were in the past; but farm hands will have no difficulty in finding employment as a largely increased number could readily be placed.

In spite of repeated warnings the “farm pupil” business still appears to flourish in England, but it is to be hoped that the exposure of the sad experience of some of its most recent victims will tend to abate the nuisance. As stated in

---

the annual report for 1893, "for young men with means who desire to acquire an agricultural education, ample opportunity is afforded at the Ontario Agricultural College and Experimental Farm, where for a less sum than is exacted by way of 'bounty' they can be thoroughly trained in all the branches of knowledge requisite for the management of a farm. Or if these young men are disposed to acquire their knowledge and experience by working on a farm, there is no difficulty in finding places for them without the payment of a bounty, where they can get fair remuneration for their labour."

The rate of wages, in sympathy with the general decline in prices, was rather lower than in 1894, and present prospects do not indicate any material change during the coming season.

STATEMENT A.—Showing the number, nationalities and occupations, so far as ascertained, of the immigrants arriving at the ports of Halifax, Quebec and Montreal for the Province of Ontario, during the year 1895.

	Total arrivals for the year.	Nationalities.							Occupations so far as ascertained.						
		English.	Irish.	Scotch.	German.	Scandinavian.	French and Belgians.	Other countries.	Farmers.	Farm laborers.	General laborers.	Mechanics.	Clerks and traders.	Female domestics.	Not classified.

ANNUAL REPORT OF PETER BYRNE, ESQ., IMMIGRATION AGENT  
LIVERPOOL, ENGLAND.

ONTARIO GOVERNMENT AGENCY,

7 JAMES STREET,

LIVERPOOL, January 1st, 1896.

HON. JOHN DRYDEN,

*Minister of Agriculture, etc., etc.,  
Toronto.*

DEAR SIR,—I have the honor to submit the following report of the operations of this agency for the past year.

The work of the agency has been carried steadily on during the year, though it has been more exclusively of a routine character than formerly, on account of the continual dulness in Canadian emigration generally, which seemed rather to discourage than to call for special outside effort in the form of lectures, public meetings, etc., etc. The steamship companies have taken the same view of the situation and discontinued their lecturing arrangements till better prospects are apparent.

I have, however, continued to disseminate information regarding the Province as widely as possible by means of newspaper advertising, correspondence, and the distribution through every available channel of pamphlets, leaflets, etc.

The office advertisement has been published almost continuously in all the principal agricultural papers of the United Kingdom; also for a more limited period in over 300 ordinary newspapers, many of them of the largest circulation and of the most influential character. The correspondence to which these advertisements have given rise has shown no decline, and has been of the usual varied character, requiring every kind of information regarding the Province, and necessitating in many cases considerable research and care in the answering. Many inquiries have been received from persons of some capital to invest in land or in trade, and desiring to know what prospects and advantages the Province had to offer them; but a great part of the inquiries received, both in person and by letter, were on the part of mechanics and others for whom there is no demand in the Province. These I invariably dissuaded from emigrating till times improve and a demand should arise for their labor.

In addition to the ordinary pamphlets, etc., which are sent to every applicant, I have distributed a considerable number of the "Northern District" pamphlets, and others relating specially to Algoma, the Rainy River, and Temiscamingue Districts. Mr. Farr, a resident for many years of the last named district, has recently arrived in England, of which he is a native, and during his visit here will endeavor to make known its great agricultural attractions among

his English friends. He brought a letter of introduction from the Honorable the Commissioner of Crown Lands, requesting me to give him all the assistance in my power in carrying out his object, and this I shall gladly do.

The subject of Farm Pupil Agencies continues to crop up occasionally in the press here, and though their nefarious practices have been frequently exposed and condemned, they seem to flourish as much as ever. Their plausible advertisements appear in many leading newspapers, and easily lure persons who have never seen the warnings which have been so often given for the protection of the public against those impostures.

In pursuance of the instructions conveyed in your letter of the 24th July last, I have paid a good deal of attention to the green fruit trade as conducted in this country, and especially with regard to the apple trade, in which Ontario is so largely interested. The trial shipment of tender fruits consigned to me by the Ontario Fruit Growers' Association, which you specially requested me to receive and place on the Liverpool market to the best advantage, arrived here, as you are aware, in a hopelessly damaged condition, owing to defective cold storage arrangements. I did everything possible to secure for the shipment a good reception, having, in anticipation of its turning out well, arranged beforehand with the brokers charged with its disposal, to have a private inspection of the fruit by leading buyers and representatives of the press, before it was offered for public sale. I had also previously drawn attention to the shipment by a paragraph in the newspapers, pointing out that it was a new departure in Ontario exports, and if successful would open a new branch of the Canadian fruit trade; that hitherto the only kind of fruit by which Ontario was known in this country was apples, which everybody acknowledged to be of the very best sorts and quality, but that she was noted also for excellent kinds of pears, peaches, tomatoes, plums and grapes, all of which, thanks to her fine summer climate, were grown in the open air, and that if they were found to bear transportation well, could be supplied to this market in great abundance. There is every reason to believe that but for the breakdown of the cold storage arrangements, the fruit would all have turned out well. As it was, the apples were the only portion of the lot that escaped serious injury or destruction; and the amount realized for the shipment unfortunately fell a little short of covering freight and charges. Its failure, therefore, was a great disappointment to all concerned, but it is to be hoped another trial will be made next season, with reliable and effective arrangements for bringing the fruit over in perfect condition, when there is good reason to hope a gratifying success will be achieved.

For the information of Ontario growers and shippers, I may mention a few particulars as to the most approved methods of packing fruit for this market. Imported grapes come in casks holding about forty pounds, and are packed in cork dust. Tomatoes are packed in boxes holding about sixty pounds, and are packed in cork dust or sawdust; also in small baskets containing about eight pounds. Pears are packed side by side in boxes containing two layers and holding four dozen each. Plums and peaches are similarly packed. The Liverpool fruit brokers condemn the use of boxes for apples. They allege that they are more expensive and difficult to handle than barrels, and that buyers are prejudiced against them; also that the fruit cannot be so firmly packed in boxes as in barrels. For these reasons they recommend the use of barrels exclusively.

Before being placed on sale, apples are classified into "tight" packed, "slack," "wet," and "wet and slack." Only the first named (other things being equal) commands the highest price, the other grades being from twenty-five per cent. to seventy-five per cent. less than the highest, according to the estimate made of their condition by the purchaser.

All consignments of fruit are exposed for sale by auction in a public sale room fitted up expressly for the purpose. This room is controlled by a syndicate of brokers, who have the exclusive use of it, in turn. There is a gallery for the accommodation of buyers capable of seating 200 to 300, who are supplied with catalogues having each lot numbered and described. Samples of each lot are placed before them, and the bidding commences. So rapidly are the sales conducted that two or three thousand packages are often disposed of in an hour.

The Fruit Brokers' Association are a close corporation, mutually bound by rules and regulations. They have two rates of commission. To shippers who consign to them direct their charge is five per cent., and includes a guarantee against bad debts; on shipments that are consigned to a resident merchant or other agent of the shipper, they charge only two per cent., including guarantee.

Shippers of fruit should be careful to send only the best kind of fruit in prime and sound condition. There is every season a superabundance of poor green fruit in this country, either imported in bulk from the continent or home grown, so that such fruit can never pay when sent from Canada in barrels.

The English crop for the past year was the largest on record, yet Canadian apples of good quality have brought high prices. This is no doubt partly due to the short crop in Canada; but it is also largely owing to the fact that the home fruit will not compare with Canadian apples for beauty of color, excellence of flavor, and good keeping qualities. The quality of the Canadian importations for the past season to the 28th December are described by Messrs. Woodall & Co. in their circular of that date, as "mostly of splendid quality and condition." There was, however, a great falling off in the quantities arriving from the United States and Canada as compared with the previous year, the figures being 279,036 barrels in 1895, as against 628,045 barrels in 1894.

With regard to tomatoes, I may mention that their cultivation is now carried on very successfully in this country under glass, and the industry is a growing one. Some few months ago I visited a market garden in the vicinity of Liverpool, where I saw half a dozen glass houses about eighty feet long, each having several rows of tomato vines trained on light wooden supports as high as the roof. They seemed to be covered with fruit in all stages of growth, but much of it perfectly ripe and of rich color and beautiful in shape. Every day quantities were sent to market. The gardener told me he had already disposed of five or six tons, and it appeared that he might be able to gather at least twice as many more. He found good sale for them at eight pence per pound early in the season, but when the foreign importations came in the price was a little less. The kind which commanded the best market were those of moderate size, and as nearly round as possible. This account may suggest some useful hints to Ontario growers and intending shippers of this popular fruit.

The offices I have occupied for several years past being required by the landlord, I have been obliged to remove to other premises. I have fortunately secured an excellent office, in a more commanding and accessible position than the old one, at practically the same rent. I have rented it from the Canadian Pacific Railway Company, whose offices are in the same building. The address, as you will observe, is now 7 James Street.

I have the honor to be,

Your obedient Servant,

P. BYRNE,

Agent for Ontario.

## No 2.

ANNUAL REPORT OF DUNCAN BOLE, ESQ., IMMIGRATION AGENT,  
SAULT STE. MARIE, ONTARIO.

To the HONORABLE JOHN DRYDEN,  
*the Minister of Agriculture for the Province of Ontario.*

HONORABLE AND DEAR SIR,—During the last season, owing largely, I think, to the prominence into which Algoma has been brought by the active immigration policy lately adopted by your Government and the C. P. R., a good many new settlers have settled in different parts of Algoma District.

I have located during the last season and in different parts of this large district forty-three families of English, French, German, Finnish and Swedish extraction, and having from one to forty-four head of stock.

In connection with my duties I have travelled over 2,000 miles during the season. I am glad to say that here and there throughout the district a better class of settlers is commencing to come in, men who have a knowledge of farming and who in addition have a little means to enable them to get fairly well started.

The men just named were as a rule tenant farmers in older Canada, the United States and the Old Country, and the keeping of articles in the newspapers, distributing literature and doing other immigration work amongst men of that class in the countries named are absolutely necessary to be done in order to induce a good many more men of that desirable class to settle in various parts of the district within the next year or two.

The exhibits at the various fall shows recently held throughout the district (both the district and the township fairs) in grains, roots, grasses, dairy products, etc., were as usual excellent. The grain shown equalled anything seen at the exhibitions in the older parts of the Province, and the grasses, roots and dairy products are much in advance of anything of the kind raised in the older parts of the Province.

The quality of stock shown is improving, and there is no doubt as to the excellence of the cattle and sheep raised in Algoma—both on the North Shore and on the islands.

The completion of the new Canadian Ship Canal and the erection of the immense pulp and paper mills, etc., by the water power companies at Sault Ste. Marie will add greatly to the already good home market existing in the district. And take it all round there is no field of immigration in the world which can offer such great inducements to the new settler if he is hardworking and industrious, as Algoma does, especially if he has a little means or capital to enable him to make a fair start in any new country.

I have found that large numbers of settlers have been induced to come here by reading the pamphlet, "Our Northern Districts," published by the Crown Lands Department, and the pamphlet, "Algoma Farmers Testify," and other pamphlets published by the Algoma Colonization Society bearing on Algoma. I used up several months ago the supply of pamphlets your Department sent me, and also large supplies of "Algoma Farmers Testify" and other pamphlets furnished me by the Algoma Colonization Society, and am continually receiving enquiries for literature about Algoma.

---

I am being repeatedly asked for illustrated literature, and I am glad to learn that the society mentioned have in preparation a third and illustrated edition of their pamphlet, "Algoma Farmers Testify," and the same through its distribution and circulation will do a great deal of good in the way of attracting the most desirable class of settlers which can be attracted to New Ontario, viz., the tenant farmers and farmers' sons of older Canada, the Old Country and the United States, and I am glad to learn that the Society are keeping letters and articles in the newspapers and doing other immigration work amongst the class mentioned.

Applications have been made to me on several occasions by parties who wish to colonize together in families of twelve or more. There is no land available and for open settlement where this can be accomplished, and I would recommend that the township of Vankoughnet, which has a good tract of land close to the Goulais Bay Settlement, be opened for settlement for this purpose.

I may add that owing to the great distances necessarily to be travelled in looking at land in this district I found it necessary frequently to procure conveyance for parties of land-seekers, and have done so in a great many cases where they were parties of three and upwards; and in my opinion the result has justified the expense, as fully ninety per cent. of those thus sent have afterwards become actual settlers. I may say, however, that the small sum allowed me for such expenses is wholly inadequate, and I trust your Department will see its way clear to increase the same.

Dated this 31st day of January, 1896.

Respectfully submitted,

D. BOLE.

## No. 3.

ANNUAL REPORT OF E. M. CLAY, ESQ., DOMINION IMMIGRATION  
AGENT, HALIFAX, N.S.

DOMINION GOVERNMENT IMMIGRATION AGENCY,  
INTERCOLONIAL RAILWAY STATION,  
HALIFAX, NOVA SCOTIA, January 1st, 1896.

D. SPENCE, Esq.,  
Secretary, Ontario Immigration Department,  
Toronto, Ont.

SIR,—I have the honor to submit for your information a report of the arrival and departure of immigrants at the Port of Halifax for the year ending December 31st, 1895.

The arrivals for the year have been as follows :

## CABIN.

Males .....	3,988
Females .....	3,620
Children .....	712
Total .....	8,320

## STEERAGE.

Males .....	3,847
Females .....	1,615
Children .....	1,100
Total .....	6,562
Grand total .....	14,882

of the steerage, 1,045 were for the Province of Ontario, the nationalities being, English, 707; Irish, 51; Scotch, 198; Germans, 24; Scandinavians, 19; French and Belgians, 2; Russians, 6; Russian Fins, 9; Russian Jews, 2; Austrians, 1; Hungarians, 1; East Indian, 1; United States citizens, 1; Canadians, 23.

This shows a decrease in the number for Ontario of 537 from those in 1894.

I have also to report the arrival of six parties of children going into Ontario as per statement attached.

The arrivals for the year have been of about the usual class, and good reports should be heard from the most of them.

I am thankful to be able to report no sickness during the year, the immigrants as a class being unusually healthy. For your information I attach the following statements, showing monthly arrivals of cabin and steerage passengers, and the number of children for your Province.

I have the honor to be, Sir,  
Your obedient servant,

EDWIN M. CLAY.

Statement showing monthly arrival and departure of cabin passengers for twelve months ending December 31st, 1895.

## No. 5.

## ANNUAL REPORT OF JOHN HOOLAHAN, ESQ., DOMINION IMMIGRATION AGENT, MONTREAL.

DOMINION IMMIGRATION AGENCY,  
MONTREAL, January 25th, 1896.

SIR,—I beg to acknowledge the receipt of your letter of a recent date asking for a copy of the annual report of the immigration work of this agency for the year 1895, and in compliance with your request beg to submit a brief summary of the same for the year ending the 31st December, 1895.

That there is no record kept at this agency of the European immigrant arrivals at the ports of Quebec, Halifax, N.S.; and St. John, N.B. Such immigrants are taken account of at the respective ports of landing.

That a record is kept at this agency of the immigrants arriving at Montreal *via* the United States. Statement A hereto annexed gives full particulars of the same.

## THE HEALTH OF THE IMMIGRANTS.

The general health of the immigrants was good, with the exception of two deaths and a few cases of sickness of a mild nature, would be enabled to present a clean bill of health.

## THE TRANSPORTATION COMPANIES.

The steamship and railway service has been satisfactory as regards the transportation of the immigrants and their effects.

## STEAMSHIP RATES—STEERAGE.

The steerage rates of passage to and from Portland, Halifax, N.S.; St. John, N.B.; and Liverpool, London, Glasgow, Belfast and Londonderry are \$24.50 and \$25.50, which amounts include every requisite for the voyage.

## GARDENERS AND FLORISTS.

There is a good demand in the spring for competent men in these branches, provided they are sober and industrious.

## JUVENILE IMMIGRATION.

The juvenile immigrants who had arrived here during 1895 were a desirable class for Canada. The majority of them went to the homes established for them in Ontario and Manitoba. The remainder were consigned to the homes in the Quebec Province *viz.* Knowlton, P.Q., and Montreal.

## FEMALE DOMESTICS.

The demand for female domestics is in excess of the supply at our command, and respectable women of this class can secure employment almost immediately after arrival. The wages are fair to good according to the ability of the individual. It may be stated that there is a permanent demand for this class of persons, provided always that they bring with them certificates of good character.

## FARM HANDS.

Employment is readily obtained at the proper season for good farm hands of both sexes.

## GENERAL LABOURERS.

There was a good demand for this class of workmen during the year.

## THE LEARNED AND MECHANICAL CLASS.

The Dominion Government and its emigration agents in Britain discourage the emigration of this class—such as doctors, college professors, school teachers, etc., unless they come here to fill engagements previously provided for them. The above remarks would also apply to the mechanical class of workmen. The reasons are that the local supply of both the learned and the mechanical branches are quite sufficient to satisfy the demand.

## A GOOD CLASS OF IMMIGRANTS.

It is satisfactory to be enabled to state that the immigrant settlers of the year were of a suitable and desirable class for Canada they being apparently mentally and physically well qualified to assume the duties and responsibilities of citizenship of the Dominion. The Dominion Government's emigration agents in the mother country have evidently taken every possible precaution to promote the movement to Canada of a population of the right class. That they have been successful in their efforts in this direction has been amply demonstrated by the superior quality of the immigration of the year just closed.

## WARNING TO EMIGRANTS.

The question has been often asked by intending emigrants if it is necessary for young men wishing to take up farms in Canada, but desiring before doing so to acquire a knowledge of agriculture, to pay premiums to persons either in the mother country or the Dominion for this purpose. The response to the question is that a fee should not be paid; moreover, that the system of paying a premium to any emigration agency for the purpose referred to has been condemned by the Canadian Government and its agents.

Strong and healthy young men from eighteen to twenty-one years of age, who are prepared to accept for a time the hard work and surroundings more or less inseparable from a farm labourer's life, have no difficulty in getting employment in the spring, and the agents of the Government will assist them as far as possible in doing so without charge; although, of course, without accepting any responsibility. Being without experience, they will not get much wages at the commencement; but as they acquire skill they will be able to command remuneration in proportion to the value of their work.

In conclusion, I beg to tender you my thanks for the courtesy accorded me and your readiness to co-operate with me in the matters connected with immigration.

I have the honor to be, Sir,

Your obedient Servant,

JOHN HOOLAHAN,

Dominion Government Immigration Agent.

DAVID SPENCE, ESQ.,

Secretary Department of Immigration for Ontario.

DOMINION GOVERNMENT IMMIGRATION AGENCY,

MONTREAL, December 31st, 1895.

JOHN HOOLAHAN,

Dominion Government Immigration Agent.

ANNUAL REPORT

OF THE

INSPECTOR OF DIVISION COURTS

FOR THE

PROVINCE OF ONTARIO,

FOR THE YEAR

1895.

---

PRINTED BY ORDER OF THE LEGISLATIVE ASSEMBLY.

TORONTO:

WARWICK BROS & RUTTER, PRINTERS, &C., 68 AND 70 FRONT STREET WEST.

1896.

# ANNUAL REPORT

OF THE

# INSPECTOR OF DIVISION COURTS

FOR THE

PROVINCE OF ONTARIO,

FOR THE YEAR

1895.

---

OFFICE OF THE INSPECTOR OF DIVISION COURTS,  
PARLIAMENT BUILDINGS, TORONTO, Dec, 31st, 1895.

*To His Honor*

THE HON. G. A. KIRKPATRICK,

*Lieutenant-Governor of Ontario.*

MAY IT PLEASE YOUR HONOR:

I have the honor to submit the following report upon the Division Courts of the Province of Ontario, for the year ending 31st December, 1895.

The usual tabulated returns give full details of the business transacted, shewing the number of suits, amount of claims, etc., entered in the courts in each county and district, under appropriate headings. [See Table A.]

In Tables B and C will be found complete lists of the clerks and bailiffs together with their post office address, and the number of the court in the county or district where situated.

Table D supplies descriptive limits of the several divisions.

The list of officers, although stated to be for 1895, are corrected up to the latest moment of sending the report to press.

## SUITS—CLAIMS.

There were entered during the year the total number of suits of 54,201, exclusive of transcripts of judgments, for claims aggregating \$2,114,980.98. This is an increase of nearly two thousand suits, and of over \$110,208 over the returns of the previous year.

## CASH RECEIVED AND PAID.

In the total amount of suitors' moneys paid into and out of court there is also an increase, being \$640,404.33 received, and \$635,103.36 paid out, as against \$606,318.43 and \$599,549.73, received and paid out of court in 1894. The returns also continue to shew an increased percentage recovered upon the claims sued. And it has to be borne in mind that the figures given by no means represent the full collecting powers of these courts, inasmuch as a large proportion of the suits entered are settled by the parties out of court, and of course no record of the amounts appear in the returns made to the department.

## REVENUE.

Returns of percentages shew an increase of nearly \$1,300; the figures being \$7,256,191 for 1895, as against \$5,966,95 for 1894.

## JURY FUND.

The amount paid county treasurers for Division Court Jury Fund has also increased, from \$1,896.83 to \$2,083.94. I can also repeat the assurance, heretofore given on this head, that the fund is proving sufficient to meet the demands upon it. County treasurers should examine the figures, under the proper head in this report, and compare same with the returns made them, as entered in the county books. Copies of report are forwarded to all county treasurers.

## COURTS—CHANGES.

A new court has been established for the District of Nipissing, at Bonfield, and is known as the Fifth Division Court of that district. It embraces the townships of Bonfield and Boulter as the limits of the division.

The Sixth Division Court of Wentworth, heretofore known as the "Ancaster Court," has been abolished, and the territory comprised therein added to the limits of the Ninth Division.

## APPOINTMENTS, RESIGNATIONS, ETC.

During the past year there were 28 new appointments of clerks and 27 new bailiffs appointed, to fill vacancies caused by death, resignations and removals. The figures under this head for the previous year were 38 new appointments of clerks and 46 bailiffs.

## LEAVE OF ABSENCE—DEPUTIES.

The necessary papers were made out and transmitted, granting leave of absence to 61 clerks and 45 bailiffs, and for the approval of the appointment of their deputies.

## COMPLAINTS.

Neglect in making prompt returns and overholding moneys of suitors, and not giving notice, as required, of moneys when paid into court, continue to be the most serious causes of complaint. Delay in answering letters asking for information, which suitors are entitled to receive, form the subject of a large portion of the complaints sent into the department, as do also the making of charges outside the tariff. The number of complaints, however, have somewhat decreased the past year. The figures stand:—

	1894.	1895.
Complaints against clerks . . . . .	198	187
Complaints against bailiffs . . . . .	163	159

## SEALS.

It became necessary to supply new seals for eight offices, during the past year, to replace old worn out ones no longer fit for use, and also a seal for the new court established in Nipissing.

## INSPECTION, COVENANTS, ETC.

I am much pleased to be able to report as a result of my inspection that I find a decided improvement in most of the offices visited; that the court books are better kept, the duties better attended to, and more promptly and satisfactorily discharged.

A good many officers of the courts are now giving the bonds of guarantee companies as security for the due performance of their duties, instead of getting private friends to join them in giving covenants, and the change is one that is working well in the public interest.

The duties of personal inspection and investigation of complaints occupy the greater portion of my time and necessitate much and constant travelling throughout the wide extent of territory covered by the 321 Division Courts of the Province, which require to be visited and inspected.

I have the honor to be,

Your Honor's obedient servant,

J. DICKIEY,

Inspector.

	4	W. H. Reynolds.....	Verona.
	5	John McGrath .....	Sunbury.
	6	Jesse Shibley.....	Sharbot Lake.
Grey .....	1	Benjamin Allen .....	Owen Sound.
	2	David Jackson, jr .....	Durham.
	3	Thomas Plunkett.....	Meaford.
	4	T. J. Korke .....	Heathcote.
	5	A. S. VanDusen .....	Flesherton.
	6	John McDonald .....	Chatsworth.
	7	Duncan Campbell .....	Hanover.
	8	Richard L. Stephen.....	Markdale.
Haldimand.....	1	D. McGregor .....	Caledonia.
	2	David T. Rogers .....	Cayuga.
	3	T. Armour .....	Dunnville.
	4	R. A. Havill .....	Rainham.
	5	Elgin Birdsall .....	Canboro'.
	6	C. E. Bourne.....	Jarvis.
Haliburton .....	1	C. D. Curry.....	Minden.
	2	Wm. Prust .....	Haliburton.
	3	Stephen Kettle .....	Ursa.
Halton.....	1	Wm. Panton .....	Milton.
	2	R. Balmer .....	Oakville.
	3	Lachlan Grant .....	Georgetown.
	4	R. J. McNabb.....	Acton.
	5	Neil McPhail.....	Nassagaweya
	6	James Robinson .....	Burlington.
Hastings .....	1	Hartford Ashley .....	Belleville.
	2	Fras. B. Prior .....	Wallbridge.
	3	A. B. Randall .....	Shannonville.
	4	T. McCann.....	Tweed.
	5	F. B. Parker .....	Stirling.
	6	Arthur W. Coe.....	Madoc.
	7	A. S. Vallean .....	Deseronto.
	9	James B. Young .....	Trenton.
	10	Marcus H. Powell .....	Marmora.
	12	Dermott Kavanagh .....	Umfraville.
Huron .....	1	Charler Souger .....	Goderich.
	2	John Beattie .....	Seaforth.
	3	W. W. Farran .....	Clinton.
	4	A. Hunter .....	Brussels.
	5	Chas. Snell.....	Exeter.
	6	Jas. Whyard .....	Imozannon.
	7	John Morgan .....	Bayfield.
	8	James McGuire .....	Wingham.
	9	Joseph Cowan .....	Wroxeter.
	10	M. Zeller .....	Zurich.
	11	Wm. Lewis .....	Crediton.
	12	Wm. Campbell.....	Blyth.

LIST of Division Court clerks, etc.—Continued.

County.	No. of Division.	Name of clerk.	Post office address.
Kent.....	1	W. B. Wells .....	Chatham.

## TABLE D.

DIVISION COURTS AND THE LIMITS OF THE RESPECTIVE  
DIVISIONS IN THE PROVINCE OF ONTARIO.

## DISTRICT OF ALGOMA.

1.—Bounded west by Thunder Bay District, 85th parallel of west longitude, and east by Barr River, including all the islands in front.

2.—Bounded west by Barr River, and east by the westerly boundary of the Townships of Thessaion River, Kirkwood, Bridgeland and Houghton, and by said boundary line of the last three named townships, produced northerly.

3.—Bounded west by the westerly boundary of the Townships of Thessaion River, Kirkwood, Bridgeland and Houghton, and the boundary line of the last named three townships, produced northerly, and on the east by the eastern boundary of the Township of Sprague, produced northerly.

4.—Bounded on the west by the boundary line between the Townships of Sprague and Lewis, produced north to the northern boundary of the District of Algoma, thence along the northern boundary of the said district, thence south along the eastern boundary to the waters of Lake Huron, thence westerly along the southern boundary of the District of Algoma, to a point opposite the boundary line between the Townships of Sprague and Long, thence northerly to said last-mentioned boundary line, thence easterly along the said southern boundary line of the Township of Sprague to the place of beginning.

6.—Consisting of St. Joseph's Island.

## COUNTY OF BRANT.

1.—The City of Brantford and that part of the Township of Brantford not included in the other divisions hereinafter described. The Townships of Onondāga and Tuscarora, and that part of the Township of Brantford lying south of the main road from Brantford to Hamilton and east of Fairchild's Creek.

2. The Town of Paris and that part of South Dumfries west of the line between lots 18 and 19, and that part of the first concession of the Township of Brantford lying west of a continuation of the last mentioned line.

3.—The remainder of the Township of South Dumfries and of the first concession of the Township of Brantford.

4.—The ten northern concessions of the Township of Burford, and that part of the 2nd, 3rd, 4th and 5th concessions of the Township of Brantford, west of the line between lots numbers 10 and 11, and that portion of the Kerr Tract west of a continuation of the last mentioned line.

5.—The Township of Oakland, the four southern concessions of the Township of Burford and lots numbers 1 to 5, inclusive, in the ranges east and west of the Mount Pleasant Road, in the Township of Brantford, adjoining the Township of Oakland.

---

COUNTY OF BRUCE.

1. The Town of Walkerton and township of Carrick, and all the Township of Brant south of the line between the 11th and 12th concessions in lots up to No. 25, and south of the line between concessions 9 and 10, in lots 26 to 34 inclusive.

2.—The Village of Teeswater, all the Township of Culross, and that part of the Township of Greenock lying south of the line between the 11th and 12th concessions.

3.—The Town of Kincardine and that part of the Township of Kincardine lying south of a line drawn between the 9th and 10th concessions.

4.—The Village of Paisley and that part of the Township of Brant lying north of a line drawn between the 11th and 12th concessions of the Township of Brant.

That part of the Township of Elderslie, except lots 16 to 36, both inclusive, in concessions 12, 13 and 14 of said Township, except so much of said Township as lies south of concession 12 and east of lot 25, and so much of the Township of Brant as lies north and east of lot 25.

All the Township of Greenock lying north of a line drawn between concessions 11 and 12 of said Township.

Lots 26 to 35, both inclusive, in the 8th, 9th, 10th, 11th, 12th, 13th and 14th concessions of the Township of Bruce; and that part of the Township of Saugeen lying east of a line between lots 28 and 29, and south of the production of the town line between the townships of Arran and Elderslie to the Saugeen River.

5.—All Saugeen Township not included in No. 4, all that part of the Township of Arran lying west of a line between lots 10 and 11 and north of Arran Lake and the outlet of said lake, and that part of the Township of Amabel lying south of the 10th concession of Amabel, and the Villages of Port Elgin and Southampton.

6.—The Village of Tiverton, and that portion of Kincardine Township north of a line drawn between concessions 9 and 10 in said Township, and all the Township of Bruce, except that part included in No. 4.

7.—That part of the Township of Elderslie not included in No. 4, and that part of Arran Township not included in No. 5, and the Village of Arran.

8.—The Village of Wiarton, the Township of Albemarle, and that part of the Township of Amabel lying north of a line between the 9th and 10th concessions.

9.—All the Township of Huron.

10.—All the Township of Eastnor, Lindsay and St. Edmunds.

11.—The Village of Lucknow; all of the Township of Kinloss.

12.—The Village of Chesley; that part of the Township of Elderslie lying east of the 25th side line and south of the 12th concession of said Township; all that part of the Township of Brant, lying east of the 25th side line and north of the 9th concession of said Township.

---

### COUNTY OF CARLETON.

1.—Comprising all the City of Ottawa, and the Township of Gloucester, to lot 15, inclusive, Rideau front and concessions 1 to 6, inclusive, Ottawa front and the islands in the Ottawa River opposite thereto.

2.—All the Township of Goulbourn; the 8th, 9th and 10th concessions of the Township of Marlborough; all that portion of the Township of Nepean south of the River Goodwood; and the 4th, 5th and 6th concessions thereof north of the same river to the boundary line between lots 20 and 21 in the last mentioned concessions.

3.—All the Township of Huntley, and all the Township of March, except lots 1 to 5, inclusive, in concessions 1, 2, 3 and 4 thereof.

4.—All the Townships of Fitzroy and Torbolton.

5.—All the Township of North Gower; Long Island in the Rideau River and 1st, 2nd, 3rd, 4th, 5th, 6th and 7th concessions of the Township of Marlborough.

6.—All the Township of Osgoode; the 6th, 7th and 8th concessions Ottawa front and from lots 16 to 30, inclusive, of the Rideau front of the Township of Gloucester.

7.—All the Township of Nepean, except the City of Ottawa, and the part of the said Township lying south of the River Goodwood, and concessions 4, 5 and 6 north of said River Goodwood to the boundary line between lots 20 and 21 in said last mentioned concessions, and including also lots 1 to 5, inclusive, in concessions 1, 2, 3 and 4 in the Township of March.

---

### COUNTY OF DUFFERIN.

1.—The Town of Orangeville, the Township of East Garafraxa, and all that portion of the Township of Amaranth lying south of the southerly boundary of lot number 26, in each concession of the Township of Amaranth.

2.—The Village of Shelburne, the Township of Melancthon, and all that portion of the Township of Amaranth lying north of the southerly boundary of lot number 26, in each concession of the Township of Amaranth.

3.—The Township of Mulmur.

4.—The Township of Mono.

5.—The Township of East Luther.

---

#### COUNTY OF ELGIN.

1.—The Townships of Bayham, Malahide and South Dorchester.

2.—The Townships of Southwold and Yarmouth (except the City of St. Thomas).

3.—The City of St. Thomas.

4.—The Townships of Aldborough and Dunwich.

---

#### COUNTY OF ESSEX.

1.—Town of Sandwich and Township of Sandwich West.

2.—Town of Amherstburg and Townships of Alden and Anderdon.

3.—The Village of Kingsville, and all that part of the Township of Gosfield not included in Division No. 8.

4.—The Township of Colchester South, and all that part of Colchester North, south of the 9th concession, exclusive of the said concession and the lots on both sides of Malden Street.

5.—Township of Mersa and Village of Leamington.

6. The Township of Rochester, the Village of Belle River, the first concession of the Township of Maidstone, and all north of the Middle Road in said Township of Maidstone.

7.—Town of Windsor, the Town of Walkerville, and all that part of Sandwich East, north of the Talbot Street range.

8. The Town of Essex, all that part of the Township of Maidstone lying west of the first concession and south of the Middle Road; so much of Sandwich East as is south of Talbot Street, including the lots on both sides of said street to Nos. 306 and 307; all of Colchester north of the 9th concession, including said concession and lots on both sides of Malden Street, and all that part of Gosfield lying north of concession 6, and extending as far east from the limits between Gosfield and Colchester as lot No. 12, including such lot in each concession north of concession 6, inclusive.

9. The Townships of Tilbury West and Tilbury North.

## COUNTY OF FRONTENAC.

- 1.—City of Kingston, Township of Garden Island, Wolfe Island, Howe Island and part of the Township of Pittsburg.
- 2.—Cataraqui, comprising the Township of Kingston and the Village of Portsmouth.
- 3.—Loughboro', comprising the Townships of Loughboro' and Bedford.
- 4.—Verona, comprising the Townships of Portland and Hinchinbrooke.
- 5.—Sunbury, comprising the Township of Storrington and part of the Township of Pittsburg.
6. Comprising the Townships of Kennebec, Olden, Oso, Barrie, Clarendon, Palmerston, Miller, North Canonto and South Canonto.

## COUNTY OF GREY.

- 1.—The Town of Owen Sound, the Village of Brook, and the Townships of Derby, Keppel, Sarawak and Sydenham.
- 2.—The Town of Durham, the Township of Egremont, and those portions of the Townships of Bentinck, Normanby and Glenelg, as follows:—That part of the Township of Bentinck lying east of the line between lots 30 and 31 in the 1st, 2nd and 3rd concessions south of the Durham Road, and in concessions 1, 2 and 3 north of the Durham Road, and east of the line between lots 15 and 16 in concessions 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15 thereof. That part of the Township of Normanby lying east of the line between lots 20 and 21, in the 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th and 18th concessions, and all the Township of Glenelg, excepting that portion lying east of the line between lots 10 and 11 in the 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th and 15th concessions thereof.
- 3.—The Town of Meaford, the Township of St. Vincent, and that part of the Township of Euphrasia lying west of the line between the 6th and 7th concessions and north of the line between lots 15 and 16.
- 4.—The Township of Collingwood and the east half of the Township of Euphrasia, excepting that part thereof lying west of the line between the 4th and 5th concessions, and south of the lots between lots 12 and 13, and east half of the Township of Osprey.
- 5.—The Township of Proton, the west half of the Township of Osprey, and those parts of the Township of Artemesia, consisting of the ranges of lots lying parallel to the Toronto and Sydenham Road, and south of the line between lots 130 and 131, and concessions 1, 2 and 3 south of the Durham Road, and 1, 2, 3, 4, 5 and 6 north of the said Durham Road, and those portions of concessions 7, 8 and 9 lying east of the ranges of lots parallel with the Toronto and Sydenham Road, and those portions of concessions 10, 11, 12, 13 and 14 lying east of the line between lots 30 and 31.

6.—The Township of Sullivan and the Township of Holland, excepting those portions of concessions 9, 10, 11 and 12 lying south of the line between lots 15 and 16, and those portions of concessions 7 and 8 west of the ranges of lots lying parallel with the Toronto and Sydenham Road, and the ranges of lots lying parallel with the Toronto and Sydenham Road, and south of the line between lots 50 and 51.

7.—All the lots from 1 to 30 inclusive, in the three concessions south, and the three concessions north of the Durham Road, in the said Township of Bentinck; and all the lots from 1 to 15 inclusive, in the 12th concession, from the 4th to the 15th concessions inclusive, of the said Township of Bentinck; and all the lots from 1 to 20 inclusive, in all the concessions from 4 to 18 inclusive, in the Township of Normanby aforesaid.

8.—All the lots from 51 to 130 inclusive, in all the concessions parallel, to (and being north-east and south-west) of the Toronto and Sydenham Road, in the Townships of Artemesia, Glenelg, and Holland aforesaid; all lots to the westward of the dividing line between lots 30 and 31, in all the concessions from 10 to 14, inclusive, and all the lots from 1 to 5 in the 7th, 8th and 9th concessions, inclusive, which lie to the south-west of the 3rd concession, south-west of the said Toronto and Sydenham Road, in the said Township of Artemesia; all the lots from 1 to 12, inclusive, in concessions 5 and 6, and the lots from 1 to 15, inclusive, in the concessions from 7 to 12, inclusive, in the Township of Euphrasia; all lots south of the allowance for road between lots 15 and 16 in the 9th, 10th, 11th and 12th concessions, and from lots 25 to 30, inclusive, in the 7th concession, and lots 28, 29 and 30, in the 8th concession of the said Township of Holland; and all the lots lying east of the allowance for road between lots 10 and 11, in all the concessions from 7 to 15, inclusive, in the said Township of Glenelg.

#### COUNTY OF HALDIMAND.

1.—All the Township of Seneca, except the first and second concessions, the Young tract, and the property of the late Richard Martin, and the late Robt. Weir; all the Township of Oneida, except the first range north of the Cayuga line; the Dennis tract and the lots southerly of said tract.

2.—The whole of the Township of North Cayuga, except that portion thereof lying north-east of side line between lots 12 and 13; the first and second concessions of the Township of Seneca, excepting that portion thereof lying north-east of the side line between lots 12 and 13; the Young tract and the lands of the late Robert Weir and the late Richard Martin, Esquires; the first range of Oneida and north of Cayuga line; also the Dennis tract and River lots lying south

3.—The Townships of Moulton, Sherbrooke and Dunn, including the Village of Dunnville.

4.—The Townships of South Cayuga and Rainham.

5.—The Township of Canboro', and those portions of North Cayuga and Seneca not included in the other divisions.

6.—The Township of Walpole.

---

---

 COUNTY OF HALIBURTON.

1.—The Township of Glamorgan and Snowden, except that portion of both included in the 3rd division, and all of the Townships of Snowdon, Lutterworth, Minden, Anson, Stanhope, Hindon, Sherbourne and McClintock.

2.—The Townships of Dysart, Guilford, Havelock, Livingstone, Lawrence, Eyre, Harburn, Dudley, Harecourt, Bruton, Clyde and Nightingale and that portion of Monmouth not included in the 3rd division.

3.—The Township of Cardiff, the Township of Monmouth (except lots 1 to 19 inclusive) in the 13th, 14th, 15th, 16th and 17th concessions; the south 12 concessions of the Township of Glamorgan, and from lot 21, inclusive, to the eastern boundary in the south six concessions of Snowden.

---

 COUNTY OF HALTON.

1.—All the territory comprised in the new survey of the Township of Trafalgar, and the first ten lots in concessions 1, 2, 3, 4, 5 and 6 in the Township of Esquesing, and the first five lots in concessions 7, 8, 9, 10 and 11 in said township.

2.—That part of the Township of Trafalgar known as the Old Survey.

3.—All the rest of the territory comprised in concessions 8, 9, 10 and 11 in the Township of Esquesing not comprised in the first division.

4.—All the rest of the territory comprised in concessions 1, 2, 3, 4, 5 and 6 in the Township of Esquesing.

5.—The Township of Nassagaweya.

6.—The Township of Nelson.

---

 COUNTY OF HASTINGS.

1.—To comprise the City of Belleville and the Township of Thurlow.

2.—To comprise all that part of the Township of Sydney which lies east of the line between lots No. 6 and 7 in the several concessions and south of the 9th concession.

3.—The Township of Tyendinaga, except that part called Deseronto.

4.—The Township of Hungerford.

5.—All that part of the Township of Sidney which lies to the north of the 8th concession, and to the east of lot No. 6 in each concession north of the 8th concession, and all that part of the Township of Rawdon which lies to the south of the 9th concession, and that part of the Township of Huntingdon south of the 6th concession.

6.—The Townships of Madoc, Tudor, Limerick, excepting that part lying north of the 10th concession, and also that part lying west of lot 25 in the different concessions south of the 11th concession of said township, and including all that part of the Township of Huntingdon north of the 6th concession of said township, the Townships of Elzevir, Grimsthorpe, Cashel, excepting that part of Cashel lying north of the 10th concession of the said township.

7.—The Village of Deseronto.

9.—The Town of Trenton, and all that part of the Township of Sidney which lies to the west of lot 7 in each of the concessions of the said township, including Mill Island.

10.—The Townships of Marmora, Lake, and all that part of the Township of Rawdon which lies to the north of the 5th concession.

12.—The Townships of Wollaston, Faraday, Herschel, McClure, Wicklow, Bangor, Carlow, Monteagle, Dungannon, Mayo, and all that part of the Township of Cashel lying north of the 10th concession of said township, and all those parts of the Township of Limerick lying north of the 10th concession, and west of lot No. 25 in the several concessions of the said Township of Limerick.

#### COUNTY OF HURON.

1.—Comprising that part of the Township of Goderich to the north of the Cut Line and the Huron Road until the same meets the road allowance between the 13th and 14th concessions; then back along the Huron Road to its junction with the Cut Line; then west by the road allowance between concessions 11 and 12 to the River Maitland; then along the River Maitland to Goderich, together with the Township of Colborne.

2.—Comprising the Township of McKillop, the Town of Seaforth, and all that portion of the Township of Tuckersmith not included in the third division, south of the blind line between the 7th and 8th concessions of the said Township of Hullett.

3.—Comprising the Township of Hullett; that part of the Township of Goderich not included in Nos. 1 and 7; 1st, 2nd, 3rd and 4th concessions Township of Stanley; 1st and 2nd concession Township of Tuckersmith, L.R.S., north of lot 15, and that portion west of side road between lots 25 and 26, H.R.S., and Town of Clinton.

4.—Comprising the Township of Grey; all of the Township of Morris east of side road between lots numbers 10 and 11 (which is not included in No. 12), and the Village of Brussels.

5.—Comprising the Townships of Osborne and Stephen, and the Village of Exeter.

6.—Comprising the Townships of Ashfield and West Wawanosh, except that portion east of Maitland River.

7.—Comprising the Township of Goderich south of Cut Line and Huron Road until the same joins the road between the 12th and 14th concessions of the Township of Goderich; thence along the said concessions until the same joins the River Bayfield; all Stanley not included in number 3; and the Village of Bayfield.

8.—Comprising the Village of Wingham, the Township of Turnberry; all that part of East Wawanosh not included in number 12, and all the Township of Morris not included in Nos. 4 and 12.

9.—Comprising the Township of Howick and the Village of Wroxeter.

10.—Comprising the Township of Hay.

11.—Comprising the Township of Stephen.

12.—Commencing at the north-east angle of the Township of Hullett, thence southerly along the easterly boundary of the said Township of Hullett to the blind line, between the 7th and 8th concessions of said township; thence westerly along said line to the western boundary of the township; thence northerly along the westerly boundary of the township to the Maitland River at the south-eastern corner of the Maitland Block; thence along the said river northerly till the western boundary of East Wawanosh is reached; thence northerly along said westerly boundary to the road running between the 6th and 7th concessions of said Township of East Wawanosh; thence easterly along said road to the easterly limit of said township; thence northerly along the gravel road to the road running between the 5th and 6th concessions of the Township of Morris; thence easterly along said road to the line between lots 10 and 11; thence southerly along said line between the 6th and 7th concessions; thence easterly along said line to the line between lots 15 and 16; thence southerly to the boundary line between the Townships of Morris and Hullett; thence easterly to the place of beginning, including the Village of Blyth.

#### COUNTY OF KENT.

1.—The First Division to consist of the Town of Chatham and that part of the Townships of Dover East and West to the south of the 12th and 13th concession line of the Township of Dover East; and that part of the Township of Chatham south of the 12th and 13th concession line, and west of the side road between lots 12 and 13, from the first mentioned 12th and 13th concession line to the 5th and 6th concession line, and all south of the said 5th and 6th concession line of said township; that part of the Township of Harwich north of 5th and 6th concession line by the eastern boundary; that part of the Township of Raleigh north of the 16th concession to the west side road between lots 12 and 13 north to the 6th and 7th concession line, and all of the said township north of the said last mentioned line, and that part of the Township of Tilbury East north of the 4th concession.

2.—The Second Division to consist of that part of the Township of Howard south of the 2nd and 3rd concession line by the eastern boundary (known as the Botany Road), and that part of the Township of Orford south of the 10th and 11th concession line of said township.

3.—The Third Division to consist of all that part of the Gore of Camden lying west of the 10th and 11th concession line, and that part of the Township of Camden lying west of the side line between lots 6 and 1; the Village of Dresden; and that part of the Township of Chatham north of the 5th and 6th concession line and east of the side road between lots 12 and 13.

4.—The Fourth Division to consist of that part of the Township of Harwich south of the 5th concession of the eastern boundary, and south of the 3rd concession by the western boundary, and that part of Raleigh south of the 15th concession and east of the side road between lots 12 and 13, and the road to the Lake shore through lot 146 on the Talbot road.

5.—The Fifth Division to consist of the Village of Wallaceburg, the Gore of Chatham, and that part of the Township of Chatham north-west of the 12th and 13th concession line and west of the said road between lots 12 and 13, and that part of Dover East lying north of the 12th and 13th concession side road.

6.—The Sixth Division to consist of that part of the Township of Howard, north of the Botany road aforesaid, and of that part of the Township of Orford north of the 10th and 11th concession line, the Township of Zone, the Town of Bothwell, the Village of Thamesville, and that part of the Gore of Camden east of the 10th and 11th concession line, and that part of the Township of Camden east of the side line between lots 6 and 7.

7.—The Seventh Division to consist of that part of Tilbury East south of the 3rd concession, the Township of Romney, and that part of the Township of Raleigh, south of the 6th and 7th concession line and west of the side road between lots 12 and 13 in the said township, and the road through lot 147 on Talbot road.

#### COUNTY OF LAMBTON.

1.—The external boundaries of the Township of Sarnia and the Town of Sarnia.

2.—The external boundaries of the Township of Warwick, including that portion of the Village of Arkona south of the township line.

3.—The external boundaries of the Townships of Euphemia and Dawn.

4.—The external boundaries of the Township of Sombra.

5.—The external boundaries of the Township of Plympton.

6.—The external boundaries of the Township of Bosanquet, including that portion of the Village of Arkona north of the township line.

7.—The external boundaries of the Township of Moore.

8.—The external boundaries of the Township of Enniskillen.

9.—The external boundaries of the Township of Brock.

---

---

 COUNTY OF LANARK.

1.—The Townships of Drummond, Bathurst, South Sherbrooke, Burgess North, and that part of the Township of Elmsley North, north of the Rideau River, within the County of Lanark and west of lot No. 12 in each concession.

2.—The Townships of Lanark, Dalhousie, Darling, Lavant and North Sherbrooke.

3.—The Township of Beckwith, and the first six lots in the first seven concessions of the Township of Ramsay.

4.—The Township of Montague, and that part of the Township of North Elmsley from lot No. 1 to lot No. 12 in each concession, both inclusive.

5.—The Township of Pakenham.

6. The Township of Ramsay, with the exception of the first six lots on the first seven concessions of the said township.

---

 UNITED COUNTIES OF LEEDS AND GRENVILLE.

1.—To consist of the 1st, 2nd, 3rd, 4th, 5th, 6th and 7th concessions and broken front of the Township of Elizabethtown, and the concession roads between them.

2.—To consist of the 1st, 2nd, 3rd, 4th and 5th concessions, and broken front, and that part of the 6th, 7th and 8th concessions from the town line of Edwardsburgh, to lot number 18; inclusive of the Township of Augusta, and the concession roads between them.

3.—To consist of the 1st, 2nd, 3rd, 4th and 5th concessions and broken front, of the Townships of Leeds and Lansdowne, respectively, and the concession roads between them.

4.—To consist of the Township of South Gower, the Township of Oxford from the west side line of lots numbers 11 in all the concessions of the eastern boundary of the township, and the gore of land between South Gower, Oxford and Edwardsburgh.

5.—To consist of the Township of Wolford (except the 7th and 8th concessions and the allowance of road between them), lots numbers 1 to 10 inclusive, in the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th and 8th concessions of the Township of Oxford, and the allowance of roads within and between them.

6.—To consist of the Townships of Bastard and Burgess, and those parts of the Township of Leeds and Lansdowne, on the north side of the rear of the 5th concession in each, respectively.

7.—To consist of the Townships of Kitley and Elmsley.

8.—To consist of the Townships of North Crosby and South Crosby.

9.—To consist of that part of the Townships of Escott and Yonge, in rear of the 4th concessions of Yonge, and in the rear of the 6th concession of Escott; that part of the Township of Elizabethtown, in rear of the 7th concession, and west of lot number 18 in the 8th, 9th, 10th and 11th concessions, and the allowances for roads embraced therein.

10.—To consist of the Township of Edwardsburgh.

11.—To consist of that part of the Township of Augusta, in rear of 5th concession and west of lot number 18, in the 6th, 7th and 8th concessions; the whole of the 9th and 10th concessions of the Township of Augusta; the Gore between the Townships of Oxford, Wolford and Augusta; that part of the Township of Elizabethtown in rear of the 7th concession, and east of the commons, between lots numbers 18 and 19 in the 8th, 9th and 10th concessions; the 7th and 8th concessions of the Township of Wolford; lots numbers 1 to 10, inclusive, in the 9th and 10th concessions of the Township of Oxford; and the allowances for roads embraced therein.

12.—To consist of the 1st, 2nd, 3rd and 4th concessions and broken front of the Township of Yonge; the 1st, 2nd, 3rd, 4th, 5th and 6th concessions and broken front of the Township of Escott, and the allowances for roads embraced therein.

The said 1st, 2nd, 3rd and 12th Divisions shall, respectively, embrace and comprehend within their limits those portions of the River St. Lawrence, and Islands therein, within the exterior side lines of which such portions of said river and islands would lie and be, if such exterior side lines were produced and extended in that direction to the utmost limits of the Province.

#### COUNTY OF LENNOX AND ADDINGTON.

1.—The Town of Napanee; Township of Richmond; all that part of North Fredericksburg and Adolphustown lying north of Hay Bay; and all that part of North Fredericksburg lying north of Big Creek.

2.—Comprises 1st concession of Ernestown, the Village of Bath, the Township of Amherst Island, and the 2nd, 3rd and 4th concessions of the said Township of Ernestown, from the west limits thereof to the west limit of Lot No. 21, in each concession.

3.—Township of South Fredericksburg and all that part of North Fredericksburg and Adolphustown, not included in Division No. 1.

4.—1st, 2nd and 3rd concessions of the Township of Camden and the Village of Newburg.

5.—All that part of the Township of Camden not included in Division No. 4.

6.—All that portion of the Township of Ernestown, not included in the limits of Division No. 2.

7.—Townships of Sheffield, Kalala, Anglesa, Abinger, Edlingham, Ashby and Denbigh.

---

---

 COUNTY OF LINCOLN.

1.—The Town and Township of Niagara.

2.—The Township of Grantham (including the City of St. Catharines, the Villages of Merritton and Port Dalhousie), and the Township of Louth.

3.—The Townships of Caistor and Gainsborough, and the 9th concession of the Township of Grimsby, including the 1st and 2nd ranges as part of the said concession.

4.—The Villages of Grimsby and Beamsville: the Township of Clinton and the Township of Grimsby, except the 9th concession and 1st and 2nd included as part of the said 9th concession.

---

 DISTRICT OF MANITOULIN.

1.—The Town of Gore Bay, the Townships of Gordon, Allan, Campbell Mills, Burpee, Robinson, Dawson, the islands known as Cockburn, Barrie, Clapperton and the Duck Islands and that part of the Township of Billings lying west of the road allowance between lots fifteen and sixteen in the several concessions thereof and so much of the Township of Carnarvon as lies west of Lake Mindemoya and north of the line between the sixth and seventh concessions thereof.

2.—The Town of Little Carrant, the Township of Howland, and those parts of the Townships of Sheguindah and Bidwell lying north of the line between the sixth and seventh concessions of Sheguindah, and fourth and fifth concessions of the Township of Bidwell and the sixth and seventh concessions of the line between lots seventeen and eighteen in the Township of Billings and the adjacent islands lying north and east of the said Townships, except the Clapperton Island.

3.—Manitowaning, the Townships of Assiginack, Tehkummah and Sandfield, and those parts of the Township of Sheguindah lying south of the line between the sixth and seventh concessions of Sheguindah, and fourth and fifth concessions of the Township of Bidwell, and the sixth and seventh concessions of the Township of Billings to the line between lots seventeen and eighteen of said township, and the Township of Carnarvon, except so much of the same as lies west of Mindemoya Lake, and all that part of Manitoulin lying east of the Township of Assiginack, Manitowaning and South Bays and the islands adjacent thereto.

---

 COUNTY OF MIDDLESEX.

1.—That part of the City of London lying to the west of Maitland street, with that portion of the Township of London lying south of the line between the 4th and 5th concessions and west of the said street, produced northerly or a line in the same direction to the line between the said 4th and 5th concessions, and with that portion of the Township of Westminster lying west of the main road leading south from Clarke's Bridge across the Thames; south to the line

between the 1st and 2nd concessions; and westerly to the line between lots 42 and 43, and extending northerly to the River Thames; and also including the Village of London West.

2.—The Villages of Parkhill and Ailsa Craig, the Townships of East Williams and West Williams, and that portion of the Township of Lobo lying north of the line between the 11th and 12th concessions; and east of the line between lots numbers 12 and 13.

3.—The Townships of McGillivray and Biddulph, and the Village of Lucan.

4.—The Township of Delaware, with that portion of the Township of Westminster west of the line between lots 30 and 31, in the second concession; then southerly on the line between lots 20 and 21, to the southerly limit of the township, including all west of said line, and also including all that portion of the front of said Township of Westminster, lying west of the line between lots numbers 42 and 43, not included in the first division; with that portion of the Township of Caradoc lying south of the line between the 5th and 6th concessions, to the River Thames; and with that portion of the Township of Lobo, lying south of the line, between the 6th and 7th concessions, to the River Thames.

5.—The Townships of Ekfrid and Mosa, including the Villages of Wardsville, Newbury and Glencoe.

6.—Townships of Adelaide and Metcalfe; the town of Strathroy, with that portion of the Township of Caradoc lying north of the line, between the 3rd and 4th concessions; with that portion of the Township of Lobo which lies north of the 6th concession, and west of the line between lots 12 and 13 of the said Township.

7.—The Township of North Dorchester, north and south of the River Thames; that portion of the Township of West Nissouri which lies south of the line between lots 14 and 15; and with that portion of the Township of Westminster lying south of the line between the 1st and 2nd concessions, and east of the line between lots 30 and 31, in the second concession, and thence east of the line between lots 20 and 21, continued south to the southerly limit of the said Township of Westminster.

8.—All that portion of the Township of London which lies north of the line between the 4th and 5th concessions; that portion of the Township of Lobo which lies north of the line between the 6th and 7th concessions, and east of the line between lots 12 and 13, to the line between the 11th and 12th concessions, and with all that portion of the Township of West Nissouri which lies north of the line between lots numbers 14 and 15.

9.—That part of the City of London lying east of Maitland street; that part of the Township of London lying south of the line between the 4th and 5th concessions and east of the said street, produced northerly or in a line in the same direction to the line between the said 4th and 5th concessions; and that part of the Township of Westminster lying north of the line between the 1st and 2nd concessions, and east of the main road leading south from Clarke's Bridge, across the Thames.

---

---

DISTRICT OF MUSKOKA.

1.—The Village of Bracebridge, and the Townships of Macaulay, McLean, Ridout, Monck and Cardwell, concessions 1, 2, 3, 4, 5, 6, 7, 8, and 9 in the Townships of Stephenson, Bruce and Franklin, and that part of the Township of Watt, situated east of lot 21, in the several concessions thereof; and concessions thereof; and concessions 7, 8, 9, 10, 11, 12 and 13 in the Townships of Muskoka and Draper.

2.—The Village of Gravenhurst; the Townships of Morrison, Ryder and Oakley, and concessions 1, 2, 3, 4, 5 and 6 of the Townships of Muskoka and Draper.

3.—The Village of Huntsville; the Townships of Stisted, Chaffey and Sinclair; and concessions 10, 11, 12, 13 and 14 in the Townships of Stevenson, Brunel and Franklin.

4.—The Townships of Wood, Medora and Humphrey, and that part of the Township of Watt situated west of lot 21 in the several concessions thereof.

---

DISTRICT OF NIPISSING.

1.—To be composed of the Townships of Springer, Field, Badgerow, Caldwell, Kirkpatrick, Hugel, Rattler, Dunnet, Hagar and Appleby, and all that part of the District of Nipissing which is situated west of the line between the Indian Reserve and the Township of Widdifield, produced north and south, to the boundary of the said District and east of the eastern boundary of the fourth division.

2.—To be composed of the Townships of Mattawan, Orlig, Calvin, Papineau, Lauder, Pentland, Boyd, Osler, McLaughlin, Canisby, Sabine, Lyell, Airy, Murchison and Robinson, and all that part of the District of Nipissing situated east of the line between the townships of Bonfield and Calvin, produced south to the provisional County of Haliburton, and east of the line between the Townships of Phelps and Orlig, produced north to the Ottawa River.

3.—To be composed of the Townships of Widdifield, Merrick, Mulock, Phelps Ferris, Chisholm, Ballantyne, Wilkes, Biggar, Paxton, Butt, Devine, Hunter, McCraney, Finlayson, Peck, and all that part of the District of Nipissing situated west of the line between the Townships of Phelps and Orlig, produced north to the Ottawa River and east of the eastern boundary of first division.

4.—To be composed of the Townships of McKim, Neelon, Dryden, Awrey, Hawley, Blezard, and all that part of the District of Nipissing which is situated west of the line between the said Township of Awrey and the Township of Hagar, produced north and south to the boundary of the said district.

5.—To be composed of Townships of Bonfield and Boulter.

---

---

 COUNTY OF NORFOLK.

- 1.—The Town of Simcoe, the Gore of the Township of Woodhouse, and all that part of said Township lying west of the side line between lots 5 and 6, together with that part of the 4th, 5th and 6th concessions lying west of the side line, between lots 12 and 13.
- 2.—The Township of Townsend, and the Village of Waterford.
- 3.—The Township of Windham.
- 4.—The Township of Middleton, and the Village of Delhi.
- 5.—The Township of Charlotteville.
- 6.—The Townships of North Walsingham, South Walsingham, and the Village of Port Rowan.
- 7.—The Township of Houghton.
- 8.—The Village of Port Dover, and that part of the Township of Woodhouse not included in Division No. 1, viz: all that part of the 1st, 2nd and 3rd concessions lying east of the side line, between lots 5 and 6, and that part of the 4th, 5th and 6th concessions lying east of the said line, between lots Nos. 12 and 13 in said Township.

---

 UNITED COUNTIES OF NORTHUMBERLAND AND DURHAM.

- 1.—Townships of Cartwright and Darlington, and the Town of Bowmanville.
- 2.—Township of Clarke and Village of Newcastle.
- 3.—Township of Hope and Town of Port Hope.
- 4.—Townships of Caven, Manvers, South Monaghan and Village of Millbrook.
- 5.—Township of Hamilton and Town of Cobourg.
- 6.—Townships of Haldimand and Alnwick.
- 7.—Township of Cramahe and Village of Colborne.
- 8.—Township of Brighton and Village of Brighton.
- 9.—Township of Percy and Village of Hastings.
- 10.—Township of Murray.
- 11.—Township of Seymour and Village of Campbellford,

---

 COUNTY OF ONTARIO.

- 1.—Including the Townships of Whiby and East Whitby and the Towns of Whitby and Oshawa.
- 2.—The Township of Pickering.
- 3.—The Townships of Reach and Scugog, and the Village of Port Perry.
- 4.—The Townships of Uxbridge and Scott, and the Town of Uxbridge.
- 5.—The Township of Brock and the Village of Cannington.
- 6.—The Township of Thorah, and all that part of the Township of Mara lying south of the line, between the 4th and 5th concessions.
- 7.—All that part of the Township of Mara, lying north of the line between the 4th and 5th concessions thereof, and the Township of Rama.

---

 COUNTY OF OXFORD.

- 1.—Comprising the Town of Woodstock, the Townships of Blanford, East Zorra, East Oxford, and that part of the Township of North Oxford, situated east of lot 16, and that part of West Oxford lying east of lot No. 7, to the Stage Road, thence on the north side of the Stage Road, to where the said road intersects the Township of East Oxford.
- 2.—Comprises the Township of Blenheim.
- 3.—Comprises the Township of West Zorra and East Nissouri.
- 4.—Comprises the Townships of North Norwich and South Norwich and the Village of Norwich.
- 5.—Comprises all those portions of the Townships of North Oxford and West Oxford not comprised in the 1st Division; the Town of Ingersoll, and those portions of the 1st and 2nd concession of the Township of Durham west of the Middle Town line.
- 6.—Comprises the Town of Tilsonburg, and all that portion of the Township of Durham not included in the 5th Division.

---

 DISTRICT OF PARRY SOUND.

- 1.—The Town of Parry Sound, and the Townships of Foley, McDougall, Cowper and Carling, and all that portion of the District lying to the west of the east boundary of Carling, produced to the French River.
- 2.—The Townships of McKellar, Croft, Hagerman, Ferguson, and all that portion of the District lying between the east boundary of Ferris and the west boundary of Ferguson, produced to the French River.

- 3.—Townships of Humphrey, Christie, Monteith and Conger.
- 4.—Townships of McMurrich, Perry and Armour.
- 5.—The Townships of Spence, Chapman, Ryerson, Lount, Proudfoot, Bethune and Sinclair.
- 6.—That territory bounded on the west by the western boundaries of Townships of Pringle and Patterson, and the western boundary of the Township of Patterson, produced to French River and Lake Nipissing; on the east by the eastern boundary of the District of Parry Sound, and on the south by the southern boundaries of the Townships of Himsworth, Gurd and Pringle.
- 7.—The Townships of Machar, Laurier, Strong and Joly.

---

#### COUNTY OF PEEL.

- 1.—Town of Brampton, Township of Chinguacousy and northern Division of Township of Toronto Gore.
- 2.—Village of Streetsville, Township of Toronto, and southern Division of Township of Toronto Gore.
- 3.—Township of Caledon.
- 4.—Village of Bolton, Township of Albion.

---

#### COUNTY OF PERTH.

- 1.—To consist of all that part of the Township of North Easthope west of the line between lots 25 and 26, and south of the road between the 8th and 9th concessions, and all that part of the Township of South Easthope west of the side line between lots 25 and 26; all that part of the Township of Downie and Gore north and east of the concession line, between the 10th and 11th concessions and the Oxford Road; and all the Township of Ellice from the 1st to the 13th concessions, inclusive.
- 2.—To consist of all that part of the Township of Fullarton not included in Division No. 3, and the Townships of Hibbert and Logan.
- 3.—To consist of that portion of the Township of Downie west of the Oxford Road, and south of the concession line between the 10th and 11th concessions; the Township of Blanchard; all that part of the Township of Fullarton comprising the 13th and 14th concessions, and south of a road leading from the Mitchell Road, between lots 24 and 25, east to lot 3 in the 10th concession; thence east along the line between the 10th and 11th concessions to the town line.
- 4.—To consist of that part of the Township of North Easthope east of the line, between lots 25 and 26, and north of the 8th concession, inclusive, with the 9th and 10th concessions; all that part of the Township of South Easthope not included in Division No. 1.

5.—To consist of the Township of Mornington, and all that part of the Township of Elma from lots No. 53 to 72, both numbers inclusive, of the 1st concession, and from lots No. 27 to No. 36, both numbers inclusive, in and from the second to the eighteenth concessions, both concessions inclusive, of the said Township of Elma; and concessions 14, 15 and 16 of the Township of Ellice; and concessions 11th, 12th, 13th and 14th of the Township of North Easthope.

6.—To consist of the Township of Wallace, and all that part of the Township of Elma from the 1st concession to the 18th concession, both concessions inclusive, and comprising lots Nos. 1 to 52, both inclusive, of the 1st concession, and lots Nos. 1 to 26, inclusive, from the 2nd to the 18th concessions, both concessions inclusive.

---

#### COUNTY OF PETERBOROUGH.

1.—Composed of the Town of Peterborough, the Village of Ashburnham, the Townships of North Monaghan and Ennismore, and all that part of the Township of Harvey lying west of Pigeon Lake and south of Bobcaygeon; and all the Township of Smith lying south of the 7th concession; and all the Township of Otonabee lying west of the 8th concession and north of lots 21 from the said 8th concession to the western boundary of said Township of Otonabee; and all the Township of Douro lying south of lots numbered 11; and all that part of the Township of Dummer lying south of lots numbered 11 and west of the 5th concession.

2.—Composed of the Townships of Asphodel, Belmont and Methuen, and that part of the Township of Dummer lying east of the 4th concession and south of lots numbered 11.

3.—Composed of all that part of the Township of Otonabee lying east of the 9th concession; and all that part of said Township of Otonabee lying south of lots numbered 22 and west of the 8th concession.

4.—Composed of all that part of the Township of Smith lying north of the 6th concession; and all that part of the Township of Douro lying north of lots numbered 10; and all that part of the Township of Dummer lying north of lots numbered 10; and also of the Village of Lakefield, and of the Township of Galway; and all the Township of Harvey, except that portion lying west of Pigeon Lake and south of Bobcaygeon.

5.—Composed of the Townships of Burleigh, Cavendish, Anstuther and Chandos.

---

#### UNITED COUNTIES OF PRESCOTT AND RUSSELL.

1.—Comprises the whole of the Township of Longueuil, the municipality of the Village of L'Orignal, and the first concession of the Township of Caledonia.

2.—Comprises all that part of the Township of West Hawkesbury, extending from the front of the third concession to the rear of the said township.

3.—Comprises the whole of the Township of East Hawkesbury.

4.—Comprises the Township of North Plantagenet, and that part of the Township of South Plantagenet, lying north of the Nation River.

5.—Comprises the whole of the Township of Cumberland.

6.—Comprises the whole of the Township of Russell.

7.—Comprises the two front concessions of the Township of West Hawkesbury, and the Municipality of Hawkesbury Village, within the same.

8.—Comprises the Township of Caledonia (excepting the 1st concession of the said township), and also that portion of the Township of South Plantagenet lying south and east of the Nation River.

9.—Comprises the whole of the Township of Alfred.

10.—Comprises the whole of the Township of Clarence.

11.—Comprises the whole of the Township of Cambridge.

---

#### COUNTY OF PRINCE EDWARD.

1.—The Town of Pieton, the 2nd and 3rd concessions "Military Tract," from the west line of lot No. 13, eastward; Gore "G"; 1st and 2nd concessions north of the Carrying Place; 1st concession south-east of the Carrying Place, and 2nd concession north of Black River, including Gore "K" and "L" and McCan Gores, all in the Township of Hallowell; Block "I" the concessions north and east of East Lake, and Gore "B" in the Township of Athol, and the 1st and 2nd concessions south of the Bay of Quinte, and Gore "A" in the Township of North Marysburg, and 1st concession southwest of Green Point, to the end of Carman's Point in Sophiasburg.

2.—The Township of South Marysburg, and the southern part of Athol, commencing at the outlet of East Lake, thence down to the head of the lake, thence down to the base line between the 1st concession south and the 1st concession north of East Lake, till it strikes the Township line of Hallowell, thence down said township line till it strikes South Marysburg.

3.—The Township of Sophiasburg, together with Big Island, excepting the 1st concession southwest of Green Point to the end of Carman's Point.

4.—All that part of the Township of Ameliasburg lying east of the line between lots Nos. 86 and 87, in the 1st, 2nd, 3rd and 4th concessions of said Township, including Huff's Island.

5.—That part of the Township of Hillier not included in the 7th Division also the 1st and 2nd concessions north of West Lake, and west of lot No. 7 in the said concession, and that part of Irwin Gore lying north of and west of lot No. 7 in the 2nd concession, and the west part of the 2nd concession produced west of lots No. 74, in that concession, in the Township of Hallowell.

is sickening. This is on the main thoroughfare to and from the Park, being on the Dorset and Tea lake road, and on the canoe route down Muskoka river to Dwight. I have not the least doubt that like unsanitary conditions led to an outbreak of typhoid fever this fall in the lumber camps on Hurdman's creek in the township of Boyd. The rangers who were up in this locality report that several deaths had occurred either in these camps or after the sick men had been taken out. Something, certainly, ought to be done to remedy this state of affairs.

The number of visitors to the Park this year, noted by the rangers, amounted to thirty-eight, of whom five were ladies. Two of the parties talk of leasing sites for summer residences if they can find suitable places.

Licenses for five guides were issued for the season, and nine licenses granted to visitors to fish with hook and line only.

The present staff of the Park, in addition to the undersigned, is as follows: Timothy O'Leary, Chief Ranger; Stephen Waters and C. K. Grigg, Rangers. Mr. C. K. Grigg was appointed in October of this year. Messrs. D. A. Ross, James Sawyer and Robert Balfour were employed as temporary rangers on account of the extra work to be done in connection with the building of the Ottawa, Arnprior and Parry Sound Railway, to assist in putting up shelter huts, etc., and during the game season. It affords me great pleasure to testify to the efficiency of the staff in all their duties, and their constant desire to forward in every respect the interests of the Park.

I have the honor to be, Sir,

Your obedient Servant,

JOHN SIMPSON,

Superintendent.

---

(Appendix No. 33.)

RONDEAU PROVINCIAL PARK.

MORPETH P.O., January 10th, 1896.

HON. A. S. HARDY,  
Commissioner of Crown Lands,  
Toronto.

SIR,—I have the honor to submit this my second annual report, as caretaker and ranger of Rondeau Provincial Park.

Since my last report there have been many changes and improvements made upon the Park. By your instructions an excellent dock has been built on the Rondeau side. It is 524 feet long, reaching out to the channel where the water is eight feet deep, making

a good landing place for ordinary excursion and other boats. It is said to be one of the most substantial and most strongly built docks of its kind in Western Ontario, the piles at the outer end having been driven fifteen feet into solid earth and averaging about eleven feet throughout the length of the dock. Under instructions, I secured the services of a portable saw-mill for sawing the down and dying timber on the Park, which if not taken and utilized now would soon have been a total loss. In the building of the dock alone it saved several hundreds of dollars. The balance of the lumber sawn was drawn to the eastern end of the Park, and piled. We have the piles nicely roofed and drying for future use on the Park. There is about one hundred thousand feet of this lumber so piled. It will answer for fencing, or for construction of buildings, or for market.

Since my last report we have cleared the old logs and small underbrush from about thirty acres, and have also cut the lower and unsightly branches from many of the shade trees, thus giving the place a cleanly and park-like appearance. We also underbrushed and fenced in about four acres, where all horses coming to the Park must be tied. Formerly, excursionists and picnickers tied and fed their horses under the nicest shade trees, destroying the grass growing under them and leaving the grounds in a filthy condition. This change has given great satisfaction.

The increase in the number of visitors to the Park has been quite noticeable during the past season; many say it has been nearly double that of former years. No doubt as the improvements advance there will be a still greater number of visitors. Quite a number of people intend erecting summer cottages in the Park next spring. Some of the contracts are already let and the work will commence as soon as spring opens.

Mr. Charles Dauphin (to whom license was granted to sell refreshments and keep small boats for hire), has given good service and satisfaction. I have heard no complaints from any one. He put up a large tent, forty feet in diameter and laid a wooden floor under it, where people found shelter from the rain storms. We also made a number of long tables with seats for them, so that parties wishing to do so may take their lunch in comparative comfort. Since the hogs and cattle have been excluded from the Park, the people are profuse in their expressions of increased pleasure while visiting the Park, and the bare sandy spots are gradually being grown over with grass. In view of the rapid increase of visitors to the Park, I would urge the building of a suitable pavilion in the near future, as the accommodation at present is not adequate for the large numbers that congregate on the Park.

When the new house and barn are erected on the site chosen by the Government, there will be a much better opportunity for raising game birds than there is where I now live. The bush up there is quite dense and will afford shelter and a hiding place for the birds. The wire enclosure can be made near by, and there will be less trouble caring for and protecting them from their enemies.

There have been a number of applicants wishing to lease the house I am now living in as a summer house, for the entertainment of persons visiting the Park. They would like to take possession before the hot weather sets in. As soon as the new house can be finished, the Government can obtain a good rent for the old one, for this purpose. It has always been used as a house of entertainment, and one is most necessary for the accommodation of the public.

The wire fence which I was instructed to have built from the road leading into the Park and running across to the lake between Mr. C. W. Richardson's property and the Park, has been of great service, not only for keeping out hogs and cattle, but also in preventing teams going along the southern part of the Park where they could not be seen from the main road or from my house. Many of them did not want to be seen because they were going to pick up wreckage along the lake shore and many other things which they had no right to take away from the Park. It places me in a much better position to control the Park.

5. The Township of Flos, except that portion lying west of the Nottawasaga River; the Township of Medonte, except that portion lying east of the 10th concession; and north of lots Nos. 10 in the 9th and 10th concessions, respectively; that portion of the Township of Oro, lying north of the southern boundaries of lots Nos. 21 in the 1st and 2nd concessions, and north of the southern boundaries of lots Nos. 13 in the 3rd, 4th, 5th, 6th, 7th and 8th concessions respectively; lots 38, 39 and 40 in the first and second concessions, and lots Nos. 1, 2 and 3 in the 3rd, 4th, 5th, 6th and 7th concessions of the Township of Vespra.

6.—The Town of Orillia, the Township of Orillia, southern division, the Township of Orillia, northern division, except that portion lying north of lots Nos. 15 in the first seven concessions thereof; that portion of the township of Oro lying east of the 8th concession; that portion of the Township of Medonte being composed of lots Nos. 1 to 6 (both inclusive) in the 11th, 12th, 13th and 14th concessions; the Islands in Lake Simcoe contiguous to the townships and portions of townships above described lying wholly or for the most part opposite thereto.

7.—The Township of Nottawasaga, except that portion lying north of lots Nos. 18 in the 12th concession thereof; the Township of Sunnidale, except that portion lying north of the 8th concession; that portion of the Township of Vespra lying west of the Nottawasaga River; that portion of the Township of Essa lying north of lots Nos. 19 in the 1st, 2nd, 3rd, 4th, 5th and 6th concessions; that portion of the Township of Tossorontio lying north of lots Nos. 20 in each of the seven concessions thereof.

8.—The Township of Essa, except that portion lying north of lots Nos. 19 in each of the eleven concessions thereof; the Township of Tossorontio, except that portion lying north of lots Nos. 20 in each of the seven concessions thereof; that portion of the Township of Innisfil, being composed of lots Nos. 1, 2, 3, 4 and 5 in the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th and 8th concessions; the 12th, 13th, 14th and 15th concessions of the Township of Tecumseth; lots Nos. 1, 2, 3, 4 and 5 in the 14th and 15th concessions of the Township of West Gwillimbury; that portion of the Township of Adjala lying north of lots Nos. 25 in the eight concessions thereof.

9.—The Town of Penetanguishene, and the Village of Midland, the Township of Tiny; that portion of the Township of Tay lying west of the 8th concession; the Islands in Lake Huron contiguous to the Township of Tiny, and to that part of the Township of Tay, forming part of the ninth division, and lying wholly and for the most part opposite thereto.

10.—The Township of Matchedash, that portion of the Township of Orillia, northern division, lying north of lots Nos. 15 in the first seven concessions thereof; that portion of the Township of Medonte lying north of lots Nos. 6, in the 11th, 12th, 13th and 14th concessions, and that portion lying north of lots Nos. 10, in the 9th and 10th concessions thereof; the Township of Tay, except that portion lying west of the 8th concession; the Island in Lake Huron, contiguous to that portion of the Township of Tay, forming part of the 10th division, and lying wholly or for the most part opposite thereto.

NOTE.—Each of the said several divisions shall include all allowances for roads embraced within its external limits, and shall also extend to the centre of every allowance for road lying external and adjacent to every such division excepting always where any such last-mentioned allowance is hereinbefore declared to belong to or form part of any particular division.

---

**DISTRICT OF THUNDER BAY.**

1.—All that part of the District lying west of the meridian of 87 degrees of west longitude, to the meridian of the most easterly part of Hunter's Island, **excepting** therefrom the Municipality of Neebing.

2.—

3.—Comprising the municipality of Neebing.

---

**COUNTY OF VICTORIA.**

1.—The first consists of the following townships and parts of townships, **viz.** : of the 15th concession of the Township of Mariposa, and the Township of Eldon, **except** the ranges north and south of Portage Road.

2.—The second consists of the following townships: all of the Township of Fenelon, **except** that portion lying east of the Scugog River, and south of Sturgeon Lake, and the Township of Somerville.

3.—The third consists of the Township of Verulam.

4.—The fourth consists of the Township of Emily.

## BIDWELL AND GREEN BAY ROAD.

A road on Manitoulin Island, upon which about three-quarters of a mile of work was done in repairing a difficult hill opposite lot number twelve, on the town line between Bidwell and Howland; and again on the road allowance between lots fifteen and sixteen of Bidwell, a dangerous portion was repaired, and protected by a retaining wall.

## BIRCH LAKE SETTLEMENT ROAD.

Four miles have been opened forty feet wide and grubbed, making a good winter road from Webbwood northward. A substantial bridge was also built over Birch creek with a thirty feet opening, requiring a trussed structure. The inhabitants contributed gratuitous labor in order to complete the bridge and approaches.

## BONHEUR ROAD.

A winter road between Bonheur Station, on the Canadian Pacific Railway, and Lake Harold, on the Seine River, a distance of about fifty miles; of which about twenty-four miles have been opened as portages between lakes. The inspector reports the work as of a very satisfactory character, and it is understood also that mining operators have spent a large amount of money upon this same route.

## BRIDGE REPAIRS.

The repair and protection of two very large bridges over Kaministiquia River, which work was in progress last year as reported. A large quantity of iron plating and other material was required for protection against the annual freshets with accompanying ice jams. The inspector now reports that he does not anticipate any further difficulties in this respect.

## CAMPBELL 10 AND 11 CON. ROAD.

Six miles of excellent repairs from the twenty-fifth side road eastward, making, the inspector says, a very fine road.

## CARIBOO LAKE ROAD.

This road runs east and west from lot No. twelve of the second concession of Plummer to the town line of Johnson, and on to join the Port Lock and Desert Lake road, two miles in all. Gratuitous labor, equal to fifty-one and one-half days, was given as an addition to the Government grant.

## CARTIER ROAD.

Four miles constructed between Cartier Station of the Canadian Pacific Railway, in the township of Cartier, and McCool's siding, in the township of Hess; and its course generally parallel with the railway upon its north side.

## CARPENTER AND LASH ROAD.

Work was begun on the town line between Carpenter and Lash, at north-west quarter section 32, Lash, and continued to a creek on the north-west quarter of section 34 in the same township, a length of nearly two miles. Ten chains of off-take drains were also opened, with one bridge and four culverts.

## CHELMSFORD AND BALFOUR ROAD.

Commencing at the centre of lot number two in the first concession of Balfour, a quarter of a mile was made west, when the work was turned south, and a mile and a half opened into the township of Creighton. About an eighth of a mile was also opened eastward on the north boundary of Creighton from the existing Government road; the whole being chopped, levelled and graded, and is a good second-class road.

## CLARK'S BRIDGE.

A bridge over Thessalon River in Bruce Mines District, damaged by lightning, and otherwise very much out of repair, is now in good condition.

## COFFIN 2 AND 3 CON. ROAD.

Work in this instance was largely on the second and third concession line of Galbraith, which is a continuation of the road named, eastward. Two good bridges were, however, built at a cost, with culverts, of about \$200, and another opposite lot number eight for \$100, the balance being for general repairs, extending over probably a mile.

## CROZIER AND LASH ROAD.

Six and a quarter miles have been added to the length of this road, the opening of which was commenced in 1893. Work this year was begun between river lots eight and nine, Lash township, and continued east to Lavalle River, between sections four and nine of the township of Devlin. A mile of ditching was done upon one side of the road, and five bridges built, aggregating a length of 276 feet.

## DAY MILLS AND DAYTON ROAD.

Some three miles of repairs were made over this road which is from Dayton Station in the township of Bright Additional, north into the township of Day.

## DEAN LAKE AND MISSISSAGA ROAD.

Grading was begun at lot number twenty in the township of Thompson and continued east to Mississaga River, a length of three miles, which were chopped out last year as a winter road at a cost of about \$500.

## GORE BAY AND PROVIDENCE BAY ROAD.

Repairs were commenced about three miles south of Gore Bay and continued to within one mile of Providence Bay, a length of some twenty miles.

## GRAND PORTAGE ROAD.

A mile of substantial repairs as a continuation from last year's operations in the township of Wells.

## GRASSY RIVER ROAD AND BRIDGE.

A bridge 303 feet long was built over Pine River, about the centre of section 35 of the township of Dilke. It is a pile structure having four piles in each bent, with two spans of forty feet, and eight spans of twenty-five feet each. Half a mile of ditching was also done along the road south of the bridge.

9.—The territory formerly comprised in this Division is now in the County of Dufferin.

10.—Consists of the Township of Minto.

11.—Consists of the Town of Mount Forest, and that part of the Township of Arthur north of lot 16, west of the Owen Sound Road; lot 17, on the Owen Sound Road, and lot 13, east of the Owen Sound Road.

---

### COUNTY OF WENTWORTH.

1.—All that part of the Township of Barton lying east of the line between lots 14 and 15, and all that part of Hamilton City east of Hughson Street.

2.—The whole of the Township of Flamboro' West.

3.—The whole of the Township of Flamboro' East.

4.—The whole of the Township of Beverley.

5.—The whole of the Township of Saltfleet.

7.—The whole of the Township of Glanford.

8.—The whole of the Township of Binbrook.

9.—All that part of the Township of Barton lying west of the lines between lots 14 and 15, and that part of Hamilton City west of Hughson Street.

---

### COUNTY OF YORK.

1.—The City of Toronto, east of Yonge Street, at date of 14th Sept., 1875, (*i.e.* Bloor, Sherbourne and Howard Streets on the north, the Don on the east, down to Queen Street, then all south of Queen Street as far as Lee Avenue).

2.—Concessions 5 to 11, inclusive, of the Township of Markham; and concessions 5 to 10, inclusive, of the Township of Whitchurch, from 1 to 10, inclusive, together with the Villages of Markham and Stouffville.

3.—Concessions 1 to 4, inclusive, of the Township of Markham; and concessions 1 to 4, inclusive, of the Township of Whitchurch from lot 1 to 10, inclusive; and concessions 1 to 4, inclusive, of the Township of Vaughan.

4.—The Township of Whitchurch, from the line between lots 10 and 11, northward, and the Township of East Gwillimbury.

5.—The Townships of Georgina and North Gwillimbury.

6.—The Township of King and the Incorporated Village of Aurora.

7.—Concessions 1 to 11, inclusive, of the Township of Vaughan.

8.—All that portion of the Township of York lying west of Yonge Street, and the Township of Etobicoke.

9.—Township of Scarboro' and all that portion of the Township of York which lies east of Yonge Street and the Village of Leslieville.

10.—The City of Toronto, west of Yonge Street, at date of 14th Sept., 1875, (i.e. Bloor Street on the north and Dufferin Street on the west).

DIVISION COURT TARIFF.

Fees to be received by the several Clerks and Bailiffs of Division Courts, from and after 1st July, 1894.

FORM I.

CLERK'S FEES.

1. Receiving claim, numbering and entering in procedure book	\$0	15
(This item to apply to entering in the procedure book a transcript of judgment from another Court, but not an entry made for the issue of a judgment summons).		
2. Issuing summons, with necessary notices and warnings thereon, or judgment summons (as provided in the forms), in all :		
Where claim does not exceed \$20	40	
" exceeds \$20 and does not exceed \$60	50	
" exceeds \$60 and does not exceed \$100	60	
" exceeds \$100	1	00
<i>(N. B.—In replevin and interpleader suits the value of goods to regulate the fee.)</i>		
3. Copy of summons, including all notices and warnings thereon		25
4. Copy of claim (including particulars), when not furnished by plaintiff		25
5. Copy of, set off or counterclaim (including particulars) when not furnished by the defendant		25
<i>(NOTE.—In either of the last two preceding items the fees may be taxed against the party ordered to pay costs.)</i>		
6. Receiving and entering bailiff's return to any summons, writ or warrant issued under the seal of the Court (except summons to witness and return to summons or papers from another division)		15
7. Taking confession of judgment		10
<i>(This does not include affidavit and oath, chargeable under item 8.)</i>		
8. Every necessary affidavit, if actually prepared by the clerk, and administering oath to the deponent		25
9. Furnishing duly certified copies of the summons and notices and papers with all proceedings, for purposes of appeal (under section 151), as required by either party, per folio of 100 words		05

10. Certificate therewith .....	\$0 25
11. Certifying under the seal of the Court, and delivering to a judgment creditor a memorandum of the amount of judgment and costs against a judgment debtor, under The Creditors' Relief Act, or for any other purpose.....	25
12. Copies of papers for which no fee is otherwise provided, necessarily required for service or transmission to the judge, each .....	10
If exceeding two folios, per folio .....	05
13. Every notice of defence or admission entered, or other notice required to be given by the clerk to any party to a cause or proceeding, including mailing, but not postages .....	15
14. Entering final judgment by clerk, on special summons, where claim not disputed	50

(NOTE.—This fee does not apply to any proceeding on judgment summons.)	
(This one fee of 50 cents will include the service of recording at the trial and afterwards entering in the procedure book the judgment, decree and order in its entirety, rendered or made at the trial. If a garnishee proceeding before a judgment, the fee of 50 cents will be allowed for the judgment in respect to the primary debtor, and a like fee of 50 cents for the adjudication, whenever made, in respect to the garnishee.)	
16. Subpœna to witness.....	25
(The subpœna may include any number of names therein, and only one original subpœna shall be taxed, unless the judge otherwise orders.)	
17. For every copy of subpœna required for service .....	05
18. Summons for jury (including copy for each juryman) when required by the parties	1 25
19. Calling and returning jury ordered by the judge .....	25
20. Every order of reference or order for adjournment made at hearing, and every order requiring the signature of the judge and entering the same, including final order or judgment debtor's examination .....	25
(Any warning necessary with order, <i>e.g.</i> , the warning in Form 73 forms part of the order.)	
21. Transcript of judgment to another Division Court .....	25
23. Every writ of execution, warrant of attachment, or warrant of commitment and delivering same to bailiff .....	50
24. Renewal of every writ of execution, when ordered by the judgment creditor, or of warrant of commitment, when ordered by the judge .....	15
25. Every bond, when necessary and prepared by the clerk (including affidavits of justification and of execution) .....	1 00
26. For necessary entries in the debt attachment book, in each case (in all) .....	20
27. Transmitting transcript of judgment; or transmitting papers for service to another division, or to the judge, on application to him, including necessary entries and mailing, but not including postages .....	25

28. Receiving papers from another division for service, entering the same, handing to the bailiff, receiving and entering his return, and transmitting the same (if return made promptly, not otherwise).....	\$0 30
29. Search by person not party to the suit or proceeding, to be paid by the applicant	10
Search by party to the suit or proceeding, where the suit or proceeding, is over one year old . . . . .	10
(No fee is chargeable for search to a party to the suit or proceeding, if the same is not over one year old)	
30. Taxing costs in defended suits, after judgment pronounced.....	25
31. Making out statement of costs in detail, (including bailiff's fees) at the request of any party, or for the purpose of settlement, or upon entering judgment by default.....	10
(Neither item 30 nor 31 applies to statement of costs endorsed on summons or copy to be served.)	
32. Taxing bailiff's costs, under section 7 of the Division Courts Act, 1889.....	25
33. Copying and transmitting to municipal clerk, judge's decision in appeal.....	50

2. BAILIFF'S FEES.

1. Service of summons issued under the seal of the Court, or judge's summons or order, on each person (except summons to witness and summons to juryman):	
Where claim does not exceed \$20.....	30
"    exceeds \$20 and does not exceed \$60.....	40
"    exceeds \$60 and does not exceed \$100.....	50
"    exceeds \$100.....	75
(In interpleader suits the value of the goods to regulate the fee.)	
2. For every return as to service under item 1; attending at the clerk's office and making the necessary affidavit (as provided by Rule 183).....	15
3. Service of summons on witness or juryman, or service of notice.....	1
4. Taking confession of judgment and attending to prove . . . . .	10
5. For calling parties and their witnesses at the sittings of the Court, in every defended case, and at the hearing of every judgment summons.....	15
6. Enforcing every writ of execution, or summons in replevin, or warrant of attachment, or warrant against the body, each:	
Where claim does not exceed \$20.....	50
"    exceeds \$20 and does not exceed \$60.....	75
"    exceeds \$60 . . . . .	100
(When goods replevied, the value of the goods to regulate the amount of the fee.) This fee does not include service of summons in replevin on defendant.	
Fees under Creditors' Relief Act (see section 7 of 52 Vict. cap. 12; and sect 25 of R. S. O. cap. 65) shall be taxed according to this tariff.	
7. Every mile necessarily travelled to serve summons, or process or other necessary papers, or in going to replevy goods, or to seize on attachment, or in going to seize on a writ of execution, where money paid on demand, or made on execution, or case settled after seizure.....	12

8. Mileage going to arrest under a warrant, when arrest made, per mile.....	\$0 12
9. Mileage carrying delinquent to prison, including all expenses and assistance, per mile.....	20
10. Every schedule of property seized, attached or replevied, including affidavit of appraisal, when necessary :	
Not exceeding \$20.....	30
Exceeding \$20 and not exceeding \$60.....	50
Exceeding \$60.....	75
11. Every bond, when necessary, when prepared by the bailiff, including affidavit of justification and of execution.....	50
12. Every notice of sale, not exceeding three, under execution or under attachment, each.....	15
13. Reasonable allowances and disbursements, necessarily incurred in the care and removal of property.	
(a) If a bailiff removes property seized, he is entitled to the necessary disbursements, in addition to the fees for seizure and mileage.	
(b) If he takes a bond, then to 50 cents, instead of disbursements, for removal of property.	
(c) If assistance is necessary in the seizure, or securing, or removal, or retaining of property, the bailiff is entitled to the disbursements, for such assistance.	
(d) All charges for disbursements are to be submitted to the clerk for taxation, subject to appeal to the judge.	
(e) The bailiff must in all cases endorse a memorandum of all his charges on the back of the execution or state them on a separate slip of paper, so that the clerk may conveniently tax the bailiff's charges for fees and disbursements.	
(f) The clerk is in all cases to sign the memorandum of his taxation and preserve it among the papers in the cause, together with the execution, for future reference, and thereby enable the clerk to certify the bailiff's returns properly.	
14. If execution, or process in attachment in the nature of execution, be satisfied, in whole or in part, after seizure and before sale, whether by action of the parties or otherwise, the bailiff shall be entitled to charge and receive 3 per cent. on the amount directed to be levied, or on the amount of the value of the property seized, whichever shall be the lesser amount.	
15. Poundage on execution, and on attachments in the nature of executions, 5 per cent. exclusive of mileage for going to seize and sell, upon the amount realized from property necessarily sold.	

3. FEES TO WITNESSES AND APPRAISERS.

*Allowance to Witnesses.*

Attendance, <i>per diem</i> , to witnesses residing within 3 miles of the place where the Court is held, if within the county.....	\$ 75
And if without the county.....	1 00
Attendance, if witness resides over 3 miles from the place of sittings, and within the county, <i>per diem</i> .....	1 00
Attendance, if witness resides without the country and more than 3 miles from the place of sittings, <i>per diem</i> .....	1 25
Barristers and solicitors, physicians and surgeons, engineers and veterinary surgeons, other than parties to the cause, when called upon to give evidence of any professional service rendered by them, or to give professional opinions, <i>per diem</i> ..	4 00

(Note.—Disbursements to surveyors, architects and professional witnesses, such as are entitled to specific fees by statute, are to be taxed, as authorized by such statute.)

If witnesses attend in one case only, they will be entitled to the full allowance.

If they attend in more than one case, they will be entitled to a proportionate in part each cause only.

The travelling expenses of witnesses, over three miles, shall be allowed, according to the sums reasonably and actually paid, but in no case shall exceed twenty cents per mile, in one way.

FEEs TO APPRAISERS

*Fees to Appraisers of Goods, etc., Seized under Warrant of Attachment.*

To each appraiser, 50 cents, per day, during the time actually employed in appraising goods to be paid in the first instance by plaintiff, and allowed as costs in the cause.

FEEs IN SUITS NOT EXCEEDING \$10.

(57 Vict. cap. 23, sec. 11)

*Clerk.*

For all services, from entering action, or suing out a judgment or interpleader summons, up to and including the entering of final judgment, or final order on any such judgment, or interpleader summons, in case the action proceeds to judgment or final order ..... \$1 25

In case the action does not proceed to judgment or final order, the fees heretofore, or that may hereafter be payable, but not exceeding in the whole the said sum.

For issuing writ of execution, warrant of attachment, or warrant for arrest of delinquent, and entering the return thereto..... £ 0

*Bailiff.*

For all services rendered in serving summons and making return, and any other service that may be necessary, before judgment is entered by the clerk or pronounced by the judge, mileage excepted..... 4 0

For enforcing execution, schedule of property seized, or attached, bond, where necessary, and all other necessary acts done by him, after seizure, mileage excepted, if money made, or case settled, after levy..... 1 00

(Necessary disbursements incurred in the care and removal of property shall be allowed, to be first allowed by the clerk, subject to the approval of the judge.)

REPORT

OF

THE HONORABLE THE PROVINCIAL TREASURER

ON THE WORKING OF THE

TAVERN AND SHOP LICENSES ACTS

# LICENSE REPORT.

PROVINCIAL TREASURER'S OFFICE,

LICENSE BRANCH,

TORONTO, January, 1896.

To the Honourable GEORGE AIREY KIRKPATRICK,

*Lieutenant-Governor of the Province of Ontario.*

MAY IT PLEASE YOUR HONOUR:

I have the honour to submit the Twentieth Annual Report, and accompanying Schedules, respecting the operation of the Liquor License Laws.

## NUMBER OF LICENSES.

Schedule A is a comparative Statement of the number of Licenses of the various denominations issued, and of the number extended, transferred or removed in each of the License Districts of the Province, during the past three license years, and may be thus summarized:

Years.	Licenses.							Extensions, transfers and removals of licenses.			
	Tavern.				Shop.	Wholesale.	Total.	Extensions.	Transfers.	Removals.	Total.
	Yearly.		Six months.								
	Ordinary.	Beer and wine.	Ordinary.	Beer and wine.							
1892-3 .....	2,907	59	40	4	378	25	3,413	87	566	59	712
1893-4 .....	2,841	47	36	5	357	31	3,317	59	511	39	609
1894-5 .....	2,735	50	50	1	337	29	3,205	73	550	45	668

PROVINCIAL REVENUE.

The same Schedule shews the revenue derived by the Province from Licenses and fines to have been for :

1892-3 .....	\$297,644 47
1893-4 .....	289,821 02
1894-5 .....	277,478 99

LICENSES IN COUNTIES AND CITIES.

Schedule B is a Statement of the number of Licenses issued in the several Counties and Cities during the past twenty years.

LICENSES IN MINOR MUNICIPALITIES.

Schedule C gives in detail, as regards each City, Town, Incorporated Village, and Township, and the Unorganized Territory of the Province, the number of Licenses, and of extensions, transfers and removals granted during the past three years.

TOTAL COLLECTIONS.

This Schedule also gives the amounts collected on account of Licenses and Fines including the sums imposed by municipal by-laws, the totals of which were as follows :

1892-3 .....	\$664,169 83
1893-4 .....	649,173 98
1894-5 .....	623,717 17

MUNICIPAL REVENUE.

The payments to the Municipalities are shown by the same Schedule to have been in :

1892-3 .....	\$289,996 74
1893-4 .....	282,473 97
1894-5 .....	272,101 31

The amounts imposed in each Municipality by by-laws, in excess of statutory duties, are also given in this Schedule.

FINES.

The fines collected during the past year, as shewn by Schedule D, amounted to \$17,243.46 as compared with \$19,277.77 in 1893-4.

## SALARIES OF INSPECTORS—EXPENSES OF COMMISSIONERS.

The payments under these heads are also shewn in the same Schedule D.

## MISCELLANEOUS EXPENDITURE.

Schedule E shows the expenditures of enforcing the Act in the several districts other than those included in Schedule D, consisting of office rent, postage, stationery, printing, advertising, magistrates, constables, witness, counsel and detective fees, etc.

## COMMITMENTS FOR DRUNKENNESS.

Schedule F shews the number of prisoners committed for drunkenness during the years from 1876 to 1895 inclusive. The number committed during the year 1895 as compared with 1894 shews a decrease of 37.

The average yearly commitments for each period of five years from 1876, are as follows:

From 1876 to 1880 inclusive.....	3,812
1881 to 1885 " .....	4,016
" 1886 to 1890 " .....	4,311
1891 to 1895 " .....	2,703

## THE INSPECTOR OF LICENSES.

The names and post office addresses of the Inspectors of Licenses are set out in Schedule G.

## SPECIAL INSPECTION OF LICENSE DISTRICTS.

The special inspection of the License Districts, and the examination of the work of the license officials therein, from time to time, have been continued during the past year.

Respectfully submitted,

R. HARCOURT,

Provincial Treasurer.

---

The Six Months' Licenses and the Licenses *extended* do not appear in the above Schedule or recapitulation, and as a consequence the total number of Licenses issued, according to the Statement, does not correspond with the number as shown in Schedules A and C. Beer and Wine Licenses are included with the ordinary licenses, under the heads of Tavern Licenses and Vessel Licenses respectively. An *extended* License is good for a period not exceeding three months. It is not in the nature of a new license, but simply a permission, granted by the Board of Commissioners, to the holder of a license expiring in April, to continue his business under the old license for the specified period, that he may be enabled to dispose of his stock on hand and quit the business without loss. Six Months' Licenses run from the first day of May to the thirty-first day of October, and are not valid after the latter date. They are granted in localities which are largely resorted to in summer by visitors, where the Board of Commissioners are of opinion that increased tavern accommodation for the summer months is necessary.

SCHEDULE O.

COMPARATIVE STATEMENT BY MUNICIPALITIES, showing the number of Provincial Licenses, whether Ordinary or Beer and Wine, issued, and the number extended, transferred or removed, the gross sums deposited to the credit of the License Fund Accounts therefor, and for fines, the amount imposed by municipal by-laws for license in excess of statutory duties, for 1892-3, 1893-4 and 1894-5, and the revenue paid over to the municipal treasurers during the license years 1892-3, 1893-4 and 1894-5, respectively.

REPORT  
OF THE  
COMMISSIONER OF PUBLIC WORKS

FOR THE  
PROVINCE OF ONTARIO

FOR THE YEAR ENDING 31st DECEMBER,

1895

---

*To His Honour* GEORGE AIREY KIRKPATRICK,  
*Lieutenant-Governor of the Province of Ontario, etc.*

As required by the provisions of the Statute in that behalf, I beg to submit my report respecting the works, etc., carried out under the control of the Public Works Department, during the year 1895.

Details of operations in connection with the public institutions and buildings will be found herewith in the report of the Architect, etc.

The accompanying report of the Engineer contains details in respect of locks, dams, slides, and of railway construction during the year.

The usual statements of the Accountant and Law Clerk, as to contracts and expenditure in respect of the several appropriations, are hereto appended.

Very respectfully submitted,

WM. HARTY,  
Commissioner.

DEPARTMENT OF PUBLIC WORKS, ONTARIO,  
January, 1896.

REPORT  
OF  
THE ARCHITECT, ETC.

---

DEPARTMENT OF PUBLIC WORKS, ONTARIO,  
December 31st, 1895.

SIR,—I have the honour to submit the following report :

GOVERNMENT HOUSE.

Ordinary repairs were made as required to the main and outbuildings, conservatory, etc.; the grounds also have been kept in good order.

Additional furniture and furnishings were supplied as required during the year.

A new "Daisy" heating boiler was placed in the lower hothouse, the old boiler having been found inadequate after twenty years' service.

There has not been any expenditure on capital account.

NEW PROVINCIAL PARLIAMENT BUILDINGS.

Owing to the increase of members, four new desks and chairs had to be provided at the south end of the Legislative Chamber, and the platforms had to be altered for the additional accommodation.

Settees and platforms were also constructed in the rear of the Speaker's chair, and on either side of the entrance at the north end of the chamber for the convenience of distinguished visitors during the sittings.

The arches of the public galleries, also the Speakers' and Reporters' galleries were draped with suitable hangings for the purpose of improving the acoustic properties of the Chamber, on expert advice, and the experiment has been partially successful, but it will probably require further draping at the south windows before a permanent improvement will be effected.

The shelving of the Library annexes was completed, and shelving was constructed in the Post Office for the reception and storage of files, papers and reports.

Ordinary repairs were made throughout the building, and furniture, exclusive of departments, supplied where required.

As a flag-staff could not be conveniently placed on the building, a suitable flagstaff was placed on the grounds in front, to the east of the entrance path.

The road in front of the building was increased in width ten feet, and the sodding inside the boundaries, defined by the Act of 1893, was fully completed.

A steam pump, Underwriters' pattern, the Northey Mfg. Co., contractors, was placed in the basement, connecting with the hydrants in the building, to increase the water pressure in the upper portion of the building in case of fire, the pressure from the City Water Works not being sufficient.

The roads, sidewalks and grounds round the buildings were kept in good order.

#### OLD PARLIAMENT BUILDINGS.

The Immigration Department continues to use the Speaker's apartments as offices, and the caretaker resides in a house on the premises, taking charge of the buildings.

Ordinary repairs were made as required.

#### ASYLUM FOR INSANE, TORONTO.

Repairs were made to the slating and galvanized iron work of the roof of the main building and wings.

The verandahs and outbuildings were also repaired by institution labour, the necessary materials having been purchased and charged to the appropriations.

Some repairs were also made to the chimneys on the roofs and drains.

#### ASYLUM FOR INSANE, MIMICO.

A separate residence for the medical superintendent was erected on the grounds to the east of the Asylum buildings, by institution labour, under the supervision of the medical superintendent, for the amount of the appropriation, and the work was done in a satisfactory manner.

The residence was heated by hot water apparatus.

The tile drain from the residence was connected with the main Asylum sewer.

The flooring of the Asylum kitchen was repaired, the steam kettles having been removed from the sides to the centre.

#### ASYLUM FOR INSANE, LONDON.

The roofs of the covered ways in the airing courts to the east and west of the main building were repaired and shingled; the floors also were repaired, under the Asylum carpenter, with institution labour, the materials having been purchased. The work was done in a very satisfactory manner.

The roofs and flooring of the shelters in the airing courts in rear of the north building were also repaired by the Asylum carpenter with institution labour.

The verandah round the medical superintendent's residence was also repaired by the carpenter.

The front of the gardeners house was reconstructed, and the rear portion repaired, the work having been done in a satisfactory manner, under the carpenter's supervision, with institution assistance.

Some repairs were made to the roof of the main building, drains, etc.  
The sewage disposal works, when inspected, were in a satisfactory condition.

#### ASYLUM FOR INSANE, HAMILTON.

The infirmary for sixty patients was commenced on a site north-east of the Orchard House, the basement having been excavated by Asylum labour; also for the tile pipe leading to the main sewer, and the levelling of the surface round the building.

The basement was built of stone, quarried by the patients on the grounds, by masons employed under the direction of Mr. R. Chisholm, clerk of works.

The tile pipe for drainage from the basement and down pipes was also laid by the masons employed for the purpose.

The basement walls have been covered with boards and the foundations were protected from frost during the winter.

The superstructure will be built of brick during next season.

A kitchen was built of brick in the rear of the east house, and an addition was built at the reservoir engine house, for hose reels, etc.

The portico and steps were built at the front of the main building.

The eavetroughs and down pipes of the Orchard House were repaired.

#### ASYLUM FOR INSANE, KINGSTON.

The sewage disposal works were completed early in the season, under the superintendence of Mr. Wilson, clerk of works, and have been successfully operated under a competent attendant appointed by the medical superintendent.

A steam heating boiler and connecting pipes were placed in the south cottage, thereby relieving the steam boilers in the main asylum boiler house; the contractors being Elliott Bros., Kingston, their tender being the lowest.

Repairs were made to the water supply pipes as required.

#### ASYLUM FOR INSANE, BROCKVILLE.

The work connected with the construction of the six cottages was completed early in the year, and two of the cottages adjoining the main building were occupied by patients last month.

The farm buildings were also completed, and the reservoir filled with 250,000 gallons of water, as a storage supply in case of accident, and for fire protection.

The houses for the engineer and farmer, and for the blacksmith's and carpenter's shops, were built, the contractor being T. H. Fitzgibbon, Brockville; and the work was done in a satisfactory manner.

An ice house was also built north of the reservoir.

The water supply was also completed, the pipes having been connected with an underwriter's steam pump in the basement, the Northey Mfg. Co. being the contractors.

A Siemen's meter was also placed on the line of the main supply pipe from the city water works, where it enters the grounds at the western boundary.

The roads and sidewalks were also completed under the superintendence of Mr. H. Welch.

The steam main supply and return heating pipes in the basement of the main building were covered with mineral wool and canvas, and have proved satisfactory.

The hot water heating pipes in the six cottages were also contracted for to be covered with felt and canvas, McKelvey & Birch, of Kingston, being the contractors. Some portion of the work has been done and the whole will soon be completed.

#### ASYLUM FOR IDIOTS, ORILLIA.

The addition to the boiler house was completed, and the high pressure steam boiler was erected as previously arranged in connection with the steam heating boilers.

The flush tank which was constructed for clearing the sewer outlet into the lake has answered the purpose for which it was intended, and has proved satisfactory in keeping the outlet clear of any obstruction.

#### REFORMATORY FOR BOYS, PENETANGUISHENE.

A steam engine was placed in the workshop, the contractors being the Bertram Engine Works Co. The work was done in a satisfactory manner.

The foundation for the engine and cut stone work was done by masons with reformatory labour.

Some repairs were also made to the drains.

Rubber fire hose and reels were provided as required.

#### REFORMATORY FOR FEMALES, TORONTO.

A fire escape was constructed on the south front of the Girl's Refuge, and was duly tested.

Some repairs were made to the water closets and drains.

#### CENTRAL PRISON, TORONTO.

Specifications were prepared and tenders received after due advertisement for the construction of two steam boilers in the south boiler house, to replace old boilers, the lowest tender being that of the Waterous Engine Works Co., of Brantford.

The boilers are in place, but have not been bricked in; the brickwork will be done with the assistance of prison labour.

The reconstruction of the heating and ventilation of the main building and wings, the heating coils having become rusted and worn out, has been done under the directions of the Inspector of Prisons, with prison labour. The work will soon be completed and is so far satisfactory.

#### DEAF AND DUMB INSTITUTE, BELLEVILLE.

A hot water apparatus was constructed for the Infirmary, the work having been done by the day under the superintendence of the plumber of the department; the materials were purchased.

Storm windows were also placed at the Infirmary.

Fire hose, with reel, were provided to replace old hose.

## BLIND INSTITUTE, BRANTFORD.

The expenditure at this Institution was trifling, being for the cavetroughs for the barn.

The buildings and premises are kept in good condition.

## AGRICULTURAL COLLEGE, GUELPH.

A new steam boiler was placed in the coal vault near the boiler house in the rear of the main building; the contractors were the Waterous Engine Works Co., of Brantford, their tender being the lowest after due advertisement. This boiler heats the convocation hall, chemical laboratory, and experimental building recently erected, the steam connections having been made under the directions of the college engineer.

The experimental building was erected near the convocation hall, tenders for which were received early in the year, after due advertisement, the lowest being that of Messrs. McIntosh & Griffiths, Woodstock. The work was done in a satisfactory manner, under the clerk of works, J. Brown, Brantford, and the building is now occupied.

The completion of the poultry building, cottage, porches and other works being under the control of the college authorities will be reported on by them.

EDUCATION DEPARTMENT, NORMAL AND MODEL SCHOOLS,  
TORONTO.

The basements under the Normal school and front building were concreted early in the year, the tile drains having been previously repaired.

The west yard in the rear of the front building was graded, and the tile drains repaired.

Some repairs were made to slating and galvanized iron on the roofs.

## NORMAL SCHOOL, OTTAWA.

The usual ordinary repairs to the roofs were made, and the boiler furnaces repaired as required.

The interior of the buildings, and planking of the yards, fences, etc., were repaired during the vacation.

The grounds in the rear of the buildings were seeded and levelled.

## SCHOOL OF PRACTICAL SCIENCE, TORONTO.

Ordinary repairs to the roofs, drains, etc., were made as required.

Alterations were made in the west wing for the mining laboratory for which an appropriation was included in the estimates.

The drains also were repaired.

The revote for equipment, and for the several laboratories, being under the control of the school authorities, will be reported in the usual manner.

---

---

OSGOODE HALL, TORONTO.

Ordinary repairs were made to the roofs and boiler furnaces, and furniture was provided as required.

Iron shelvings and fittings were placed in the accountant's vault, the work being now fully completed.

The extension of the library at the west end, for which permission was given by the Government to the Law Society was completed early in the season

Furniture, etc., was provided for the several offices as required.

## ALGOMA DISTRICT.

Tenders were received after due advertisement for the erection of lock-ups at Webbwood and Massie, but none of the tenders were accepted, as they were considered too high, being in excess of the appropriations.

The lock-up at Webbwood was constructed under the superintendence of the Clerk of Works, Mr. McClaren, for less than the appropriation, and the lock-up at Massie was let to Miles McDonnell for the amount of the appropriation.

Repairs were made to the gaol at Sault Ste. Marie and other lock-ups and furniture provided.

## THUNDER BAY DISTRICT.

Tenders were received after due advertisement, for the construction of a hot water apparatus for the court room and registry office at Port Arthur, the lowest being that of Messrs. Keith & Fitzsimmons, Toronto. The work was done in a satisfactory manner.

Repairs were made and furniture provided as required.

## MUSKOKA DISTRICT.

An addition was made to the lock-up, Bracebridge, for a kitchen for the gaoler, and the yard fence was extended. The work was done under the superintendence of Mr. J. Patton, Clerk of Works.

A hot water apparatus was constructed for heating the lock-up and gaoler's residence; the work was done by the plumber of the department, materials having been purchased, and the heating is quite satisfactory.

Repairs were made to other lock-ups and furniture provided.

## PARRY SOUND DISTRICT.

A log lock-up was constructed at Dunchurch in the township of Hagerman for the amount of the appropriation, the contractor being Miles McDonnell; and the work was done in a satisfactory manner.

Repairs were made to the court house, Parry Sound, and other lock-ups in the district. Furniture also was provided.

---

---

### NIPISSING DISTRICT.

The court room and lock-up at Mattawa was completed early in the season and occupied.

Furniture for the court room and offices was also provided, and the fencing completed.

Tenders were received, after due advertisement, for the construction of a lock-up at Sturgeon Falls, the lowest being that of Mr. J. R. Eaton, Orillia. The work was done in a satisfactory manner under the Clerk of Works, Mr. W. J. McClaren.

A kitchen for the gaoler was built at court house, etc., North Bay.

Repairs were made as required to the lock-up at Sudbury.

Furniture for these lock-ups was provided as required.

### RAINY RIVER DISTRICT.

The expenditure for repairs and furniture for the court room and gaol at Rat Portage, and the lock-up, Fort Francis, was trifling in amount.

### MISCELLANEOUS.

An appropriation was made for the construction of a new registry office at Minden, in the provisional County of Haliburton, on a lot provided by the municipality for the purpose. The contract was let to Mr. W. J. Clarke, Toronto, whose tender was lowest, and the work was done in a satisfactory manner under the superintendence of the Clerk of Works, Mr. J. Patton.

### DAIRY SCHOOL, STRATHROY.

Plans and specifications were prepared early in the season for the building, and tenders were received after due advertisement, the lowest being that of McBeth Brothers, Strathroy. The work was done in a satisfactory manner, under the superintendence of Mr. F. London, Clerk of Works.

Tenders also were received for the plumbing work in connection with the equipment of the dairy, the lowest being that of J. Ritchie & Co., Toronto.

The steam boiler and engine were constructed by R. Whitelaw, Woodstock according to tender. The above work was done in a satisfactory manner.

### BROCK'S MONUMENT.

As the monument and grounds were transferred to the Niagara Falls Park Commission during this year, there was no expenditure for repairs. The monument and caretaker's house having been previously well repaired, were handed over in good order and condition.

---

---

### BOILER INSPECTION.

Since the Government have ceased to pay for the insurance of the steam boilers in the public buildings and provincial institutions, they have been regularly inspected by officers of the Department; but recently the engineer in charge of the new Parliament Buildings has been instructed to make two annual inspections; one when the steam is on the boilers and another when the steam is off the boilers, and the inspector makes duplicate reports in reference to their condition. The duplicate reports are sent to the Inspectors of Asylums and Prisons and the superintendents of the several institutions. This is done for the purpose of notifying the inspectors and superintendents to have those repairs made so as to keep the steam boilers in a safe and efficient condition. There are in all twenty public buildings and institutions heated by steam in which there are one hundred and twenty steam boilers of several capacities and forty-five steam engines of different sizes, all of which are reported to be in a satisfactory condition. The cost of inspection is simply the travelling expenses of the inspector, which is charged to the different buildings and institutions, his salary being paid as engineer in charge of the steam-heating, ventilating and electric plant machinery in the new Parliament Buildings.

### CONCLUSION.

In concluding this report I have to thank you and the Government for the four months leave which was granted me to visit my friends and relatives in England and Ireland, after an absence of twenty years. Besides the benefit on the score of health, I had an opportunity of visiting several prisons and a large lunatic asylum at Claybury, near London, and I trust the information I have acquired in connection with the latest improvement of such buildings may be useful to the public service.

During my absence, the Chief Draughtsman, Mr. F. R. Heakes, attended to the several matters in connection with the contracts for public buildings, most of which were entered into before I left Toronto, and I have much pleasure in testifying to the skill and attention which he showed, and which I trust has met with your approval.

I have the honor to remain,

Your obedient servant,

KIVAS TULLY,

Architect, etc.

HON. WM. HARTY,

Commissioner of Public Works, Ontario.

REPORT  
OF  
THE ENGINEER.

---

DEPARTMENT OF PUBLIC WORKS, ONTARIO,  
TORONTO, December 31st, 1895.

HON. WM. HARTY, *Commissioner of Public Works, Ontario* :

SIR,—I have the honour to submit the following report on works which have been attended to ; also respecting railway construction throughout the Province during the year 1895 :—

MUSKOKA LAKES WORKS.

IMPROVEMENT OF " WALLACE'S CUT."

The improvement of this channel, which connects what is known as " Sutherland's Bay " with the northerly portion of Bala Bay, has been proceeded with during the present year.

Operations were commenced in the latter part of April and proceeded with continuously until the 22nd of November, when, owing to the severity of the weather, they were brought to a close.

The work consisted of dredging and rock excavation, the total length of channel improved being 2,884 feet, of which 257 feet was rock cutting.

The rock has been excavated so as to give a clear channel, forty feet in width and a depth of seven feet four inches at low water ; and the channel on the southerly side of the rock cut has been dredged for a length of 2,000 feet, to a width of fifty feet, and so as to give a depth of nine feet, the additional depth being given in order to provide for material which may find its way into it from the sides. The channel on the northerly side of the rock cut has been dredged for a length of 627 feet, and to a similar width and depth to the southerly channel ; and both have been provided with buoys indicating their positions.

In order to enable the rock excavation to be carried out, a coffer-dam had to be erected at each end of the cutting, the upper one being eighty-five feet in length and the lower one 130 feet, the heights being nine feet and ten feet six inches each respectively, the channel being unwatered and kept dry by a steam pump.

The work yet remaining to be attended to consists of the removal of the lower coffer-dam and the grading of a portion of the bank on the northerly side of the rock cut; also a general cleaning up of the adjoining grounds, and the placing of four more buoys along the channels, for which a re-vote of the unexpended balance of the appropriation will require to be taken.

It is expected that this improvement will not only benefit navigation by considerably lessening the distance to be travelled in order to reach Bala when Whitesides and other post-offices and points in that neighborhood have to be called at, but that owing to the additional outlet which it provides for the escape of flood water from Muskoka Lake into Bala Bay, the settlers around the shores of the lake, many of whose lands have in the past been seriously effected during time of freshet, will also be materially benefitted by the carrying out of the work.

#### DREDGING AT MOUTH OF MUSKOKA RIVER.

The improvement of the steamboat channel in the portion of Muskoka Lake known as "McCurdy's Bay," into which the northerly outlet of the river empties, was resumed on the 21st of August, and continued until the 23rd of September, when the work was completed.

The dredging has been continued a distance of 600 feet from where operations ceased last year, the channel being excavated forty-five feet in width and so as to give a depth of eight feet at low water. A shoal in the northerly channel which interfered with navigation has also been improved by the removal of about 450 cubic yards of material, and two buoys have been placed in McCurdy's Bay, indicating the position of the recently improved channel. Two buoys have also been placed at what is known as "Sutton's Narrows," and one at a point known as the "Kettles," and two in Bala Bay, in order to indicate where obstructions to navigation exist.

#### MAGNETAWAN WORKS.

A glance boom has been constructed and placed above the dam, on the northerly side of the river, which forms the outlet of Ah-Mic Lake.

The boom is 200 feet in length and twenty-seven inches in width, constructed of three pieces of 9x10-inch sawn pine timber, the whole being keyed together and securely bolted with  $\frac{7}{8}$ -inch bolts.

It is supported by two piers 10x10 feet and 10x12 feet square respectively, the piers being constructed of pine and cedar timber, and compactly filled with stone.

Two stop-log piers have also been constructed at the narrows above the lock at Magnetawan village, in order to enable the water of Se-Se-Be Lake to be expeditiously shut off from the lock and dam when repairs are required, or in case of emergency. The piers are twelve feet in width and ten feet in height, thirty feet in length at the back and twelve feet at the front, the ends being splayed nine feet at each end; and the cribwork is constructed of hemlock timber below the water line and pine above, the whole being fastened together with  $\frac{7}{8}$ -inch iron drift bolts. The foundation timbers are bedded in Portland cement, and a concrete wall, the full height of the piers and two feet in thickness, has been provided on the inside above the stop-log check, the remaining space being compactly filled with stone; and the top of the southerly pier is also covered with three-inch pine planking.

In the construction of the platform upon which the stop-logs will rest when in place, the rock was excavated a sufficient depth to bring the surface of it when completed below the ordinary bed of the channel. It is constructed with three 12x14-inch sills, which are of sufficient length to extend under the piers, the spaces between the sills, and for a distance of eighteen inches outside of them, being filled with concrete, and the whole covered with a double thickness of one and one-half inch dressed and jointed planking, securely fastened with 6x $\frac{3}{4}$ -inch spikes. A stop-log platform thirty-two feet in length and twelve feet in width, covered with three-inch pine planking, has also been constructed on the southerly side of the channel, and a quantity of rock, which interfered with the escape of water in time of freshet, has been blasted and removed.

The work was commenced on the 5th of June and completed on the 9th of July; the lock, after the erection of the coffer-dam on the 15th of June, being of course closed until the improvement was completed, but as the Navigation Company arranged for one of their steamers to ply between Burk's Falls and Magnetawan, and another between Magnetawan and Ah-Mie Harbour during this period, the inconvenience to the public was slight.

### GULL AND BURNT RIVER WORKS.

The works attended to out of this appropriation during the present year are as follows:

#### OTTER CREEK, DAM AND SLIDE.

A new dam and slide have been constructed on this creek, in the township of Monmouth, to facilitate the passage of saw-logs and timber down the stream.

The dam is seventy-eight feet in length, twelve feet in width, and about eleven feet in height; the cribwork being constructed of 12x12-inch square pine timber, which is fastened together with iron drift bolts. It is provided with a stop-log platform, twenty-seven feet in length and twelve feet in width, and the necessary windlasses, chains, etc., required for raising and lowering the stop-logs.

The slide is 116 feet in length and three feet in width at the bottom; the sides, built with a batter of seven inches to the foot, varying in height from seven feet at the upper end to three feet at the lower. The slide is constructed with 10x12-inch stringers, which support cross-bents placed about four feet apart from centres, the sills of bents being of 8x10-inch timber, and the posts and braces 5x6 inches square. The flooring is of hardwood, four inches in thickness, and the sides are of three-inch pine planking, the whole being securely fastened with seven and eight-inch wrought iron spikes.

#### SWAMP LAKE DAM.

A new dam has been constructed at the outlet of this lake, in the township of Galway, to replace the old one, which, owing to damage by fire and decay, had become in an unsatisfactory condition. The new structure is ninety-two feet in length, twelve feet in width, and ten feet in height, with a stop-log opening eight feet in width and eight feet six inches in height from the floor to the top of the dam. The stop-log platform, twenty-two feet in length and twelve feet in width, is covered with three-inch pine planking, and the necessary windlasses

and chains have been provided. The dam is constructed of 12x12-inch square timber; the cribwork being filled with stone, and the stop-log opening is floored with hardwood, six inches in thickness.

#### CONTAIN LAKE DAM.

A new dam has been built at the outlet of this lake, on lot eighteen, in the fifth concession, of the township of Glamorgan. It is ninety-one feet in length, ten feet in width and eight feet in height, and has a slide opening seven feet in width, floored with four-inch hardwood planking; also a flume 2x3 feet square at the easterly end, which supplies water to an adjoining mill. The dam is constructed of 10x12-inch pine and hemlock timber. The cribbing being compactly filled with stone, and the stop-log platform, twenty-two feet in length and ten in width, is covered with three-inch pine planking, and provided with the necessary appliances for handling the stop-logs. This improvement will greatly benefit both the lumbermen and settlers in the locality, as by utilizing the water reserved by it, the passage of logs and timber over a rocky shoal on the Burnt River, known as "Green's Rapids," can be greatly facilitated, and by removing obstructions, such as fallen trees, brush and other debris, from the creek, which forms the outlet of the lake and which empties into the Burnt River, a short distance from the dam, the settlers and others will be enabled to float their logs and other products of the forest to the main stream, instead of having to transport them by teams for a considerable distance as formerly had to be done.

#### MAINTENANCE OF LOCKS, DAMS AND BRIDGES, Etc.

The following repairs and improvements have been attended to out of this appropriation during the present year:

##### WORKMAN'S DAM AND SLIDE.

This dam, situated on the Gull River, a short distance above the village of Minden, has been supplied with a set of new windlass frames and one new stop-log, and repairs have also been made to the stop-log platform. The cribwork on the southerly side of the slide, six feet in width, has been rebuilt to a height of five feet, for a length of 120 feet from the upper end. The cribbing is formed with 12x12-inch square hemlock timber, and 8x10-inch cross ties, fastened together with iron drift bolts, and the whole compactly filled with stone. Repairs have also been made to the flooring of the slide, with new planking, and portions of the old planking have been refastened with three-quarter-inch square iron drift bolts.

##### HORSE SHOE LAKE DAM.

A new pier has been built to support the guide-boom above this dam. It is 10x12 feet square, and ten feet six inches in height, constructed of 10x10-inch cedar timber, fastened together with iron drift bolts; the cribwork being filled with stone.

##### COCKLONG LAKE, DAM AND SLIDE.

This dam, situated at the outlet of the above named lake, in the township of Glamorgan, is 103 feet in length, twelve feet six inches in width, and averages about twelve feet in height. It has a slide opening six feet in width, and has been entirely rebuilt, a height of eight feet with 12x12-inch hemlock timber; the

cribwork being filled with stone. The stop-log platform, twenty feet in length and twelve feet in width, is covered with two-inch pine planking, and the necessary windlasses, chains, ratchet-wheels, etc., required for raising and lowering the stop-logs have been provided. The foundation portion of the old dam, which was utilized, has been sheeted with two-inch pine planking, closely jointed, and the entire structure well gravelled and made water-tight.

The slide, which is 175 feet in length, and six feet in width, has been entirely rebuilt for a length of twenty-five feet at the upper end, and the remaining portion has been repaired, several new sills, posts and braces, also side planking having been provided, and the flooring has been refastened where required with three-quarter-inch drift bolts, and one and a half-inch oak pins.

#### HIGH FALLS DAM AND SLIDE.

This dam, situated on the Burnt River in the township of Monmouth, has been supplied with a new stop-log platform, also stop-log posts and windlasses, and half-round hardwood pieces have been spiked on the corners of the cribbing, at the slide opening, to protect them from injury.

The slide has been provided with six new 12x12 inch posts and braces, and the southerly side, which was much worn for a length of forty-four feet from the lower end, has been rebuilt with 12x12-inch hardwood timber, and the flooring renewed with six-inch hardwood planking for a length of thirty-two feet.

#### REDSTONE LAKE DAMS.

The stop-log platform of the dam at the outlet of this lake, forty-nine feet in length and twelve feet in width, has been replanked with three-inch pine planking, and the dam has been supplied with two new windlasses and frames. The largest of the two dams, on the easterly side of the lake, which were erected in 1880 to prevent the water of Redstone from escaping into Eagle lake, has been gravelled to make it watertight.

#### BOB LAKE DAM.

This dam, situated at the outlet of the above-named lake, in the township of Lutterworth, has been supplied with three new stop-logs, and some other minor repairs made thereto.

#### CRAB LAKE, DAM AND SLIDE.

The dam, at the outlet of this lake, in the township of Sherborne, sixty feet in length and twenty feet in width, has been rebuilt a height of four feet with 12x12-inch hemlock timber, and 10x12-inch cross ties; the cribwork being compactly filled with stone, and half-round hardwood pieces have been bolted on at the slide opening to prevent the corners of the cribbing from being injured by logs and timber, and tapering pieces secured to the sides of the cribbing to protect the stop-log posts. The dam has also been supplied with a new stop-log platform, twenty-nine feet in length and twelve feet in width, which is floored with three-inch planking, and repairs have been made to the windlasses and frames, and also to the flooring of the slide.

### FARQUHAR LAKE, DAM AND SLIDE

The repairs made to this dam which is situated in the township of Harcourt, and is seventy-three feet in length, ten feet in width and ten feet in height, are as follows:

The face timbers have been hewn plumb and double-sheeted with one-inch pine lumber, and a new stop-log platform twenty-four feet in length and twelve feet in width has been constructed, with flooring formed of three-inch pine planking. The dam has also been supplied with new stop-log posts, stop-logs and windlasses and frames, and some additional stone-filling put in, and the entire structure gravelled to make it watertight.

The flooring of the slide-opening has also been raised fourteen inches, to afford support for the gravel, and the slide has been supplied with new sills and floored with birch planking, four inches in thickness, for a length of sixteen feet.

The dam which was leaking badly, is now watertight; and as the lake has considerable area it will prove a valuable reservoir and feeder to the Burnt River

### DEVIL'S LAKE, DAM AND SLIDE.

This dam, 127 feet in length and twenty feet in width has been entirely rebuilt for a height of seven feet, and supplied with a new stop-log platform twenty-one feet in length and twelve feet in width, covered with three-inch pine planking. The slide, originally forty feet in length and six feet six inches in width, has also been extended to 100 feet; the new portion resting upon cribs constructed of round timber, and the old portion has been extensively repaired, and provided with new four-inch hardwood flooring. The timber used in the construction of the work consisted of 12x12-inch, 10x12-inch and 6x12-inch hemlock and pine; the whole being securely fastened together with  $\frac{7}{8}$ -inch wrought iron drift bolts, and 2 $\frac{1}{4}$ -inch oak trenails, the slide flooring being secured with 8x $\frac{1}{2}$ -inch ship spikes. As lumbering operations are being vigorously prosecuted in this locality, it is expected that the number of logs which will pass through this slide during the coming spring will be exceptionally large.

### STORMY LAKE DAM.

A new dam has been built at the outlet of this lake in the township of Glamorgan, sixty-six feet in length, eight feet in width and five feet in height, with sluice opening eight feet in width and stop-log platform twenty-three feet in length and eight feet in width. The cribwork is constructed of 12x12-inch square hemlock timber, and 10x12-inch ties; the whole being compactly filled with stone. The dam is supplied with five stop-logs constructed of 9x12-inch pine timber, and the necessary windlasses and chains, etc., required for raising and lowering the stop-logs have also been provided. A quantity of rock which interfered with the flow of the water through the dam has also been blasted and removed from the channel.

### WORKS ON BEAR CREEK, TOWNSHIP OF GLAMORGAN.

The improvements and repairs which have been made to the works on this creek during the present year, are as follows:—

*Slide No. 1.*—Situated at the outlet of the creek into Pine Lake, has been entirely rebuilt for a length of twenty feet, and the remaining portion, sixty feet in length, renewed from the foundation up. The sides, four feet in height, are

formed with 10x10-inch timber, solidly bolted to posts and braces; and the flooring is hardwood planking, four inches in thickness. The cribwork piers, which extend from the head of the slide to the banks of the creek, forty and fifty feet in length respectively, have also been rebuilt four feet in height and six feet in width, with 10x10-inch cedar and hemlock timber; and the cribbing filled with stone.

*Dam and Slide No. 2.*—A new dam and slide have been constructed a short distance up stream from Slide No. 1, at a point known as the "Kettles" or "High Falls." The dam is 106 feet in length, ten feet in width and seven feet in height; constructed of 10x12-inch hemlock timber, solidly bolted together with seven-eighth-inch square drift bolts; and the cribwork filled with stone.

The slide, 229 feet in length and four feet in width at the bottom, with sides battered seven inches to the foot, is constructed with three 10x12-inch longitudinal stringers, which support framed bents placed at four feet centres, the bents being formed with 8x10-inch sills, and 5x6-inch posts and braces. The flooring is of birch, four inches in thickness, and the sides, five feet in height at the upper end and three at the lower, are sheeted with three-inch pine planking.

The superstructure rests upon seven cribs constructed of round timber, the cribs varying in size from 12x25 feet to 12x12 feet square, and from three to ten feet in height.

A number of boulders which obstructed the channel below the slide have also been removed from the bed of the creek.

*Slide No. 3.*—The lower end of this slide has been rebuilt for a length of thirty feet, the sides being formed with 10x12-inch hemlock timber; and the flooring with four-inch hardwood planking. The cribwork at the head of the slide has also been rebuilt three feet in height, for a length of eighteen feet, and about sixty feet of decayed timber in the sides has been removed and replaced with sound material.

*Slide No. 4.*—The westerly side of this slide has been rebuilt three feet in height for a length of eighty-five feet, with 10x12-inch timber; and nine new ties, extending from the side of the slide to the bank of the creek, have also been provided.

The dam at the foot of what is known as the "Big Marsh" has been supplied with six new stop-logs, 10x12-inch square and eleven feet in length; and the stop log platform, twenty-three feet in length and ten feet in width, has been covered with three-inch pine planking, and provided with new windlasses and chains. The cribwork on the westerly end of the dam has been provided with forty-eight feet of new 12x12-inch square timber to replace material which had become decayed.

*Scott's Dam and Slide.*—This dam which is seventy-one feet in length and eight feet in width, has been supplied with a new course of timber and cross ties on top for its entire length, and new half round pieces of hardwood have been provided at the corners of the slide opening to protect them from injury. The slide has been provided with one new cross sill and six new posts and braces, and the sides repaired with 10x12-inch hemlock timber. The flooring at the lower end has also been renewed for a length of twenty-four feet, with six inch hardwood planking.

---

---

### MAGNETAWAN LOCK AND SWING BRIDGE, ETC.

The platform at the upper end of the lock, on the easterly side, has been extended and a winch and cable provided, to facilitate the opening of the gates; and steps have been supplied to lessen the difficulty in getting over the balance beams. The lift-wall above the chamber has also been refilled with concrete to stop leakage; and a bent has been put in to afford additional support to the stringers of the landing pier above the lock. Two lamp posts have also been provided, the valve rods on the lock gates repaired, and a quantity of debris removed from the chamber by a diver.

Repairs have also been made to the turntable of the swing-bridge, and the old flooring covered eight feet in width for the entire length of the bridge, with two-inch hemlock planking.

### PENINSULA CREEK BRIDGE.

The floor of this bridge has been repaired with two-inch hemlock planking for its entire length of 200 feet, and a width of eight feet, the new planking being laid upon and spiked to the original flooring which had become in a worn and somewhat dangerous condition.

### SWING BRIDGE AT PORT SANDFIELD.

Some repairs have been made to the turn-table of this bridge, and the ordinary adjustment of suspension rods and other bolts attended to.

### PORT CARLING LOCK AND SWING BRIDGE, ETC.

The pier on the south-easterly side of this lock has been extended forty feet in length and twelve feet in width. The superstructure rests upon the old crib-work at the westerly end, and at the easterly end upon a new crib ten feet in width, twelve feet in depth, and averaging about six feet in height, and is also supported with a framed bent placed midway between the piers. The stringers, 12x12-inch square rest upon corbels, and the whole is covered with three-inch hemlock planking, a 3x8-inch oak ribbon piece being provided along the face of the work to protect the ends of the planking from injury. A platform extending from the pier to the shore, nineteen feet six inches in length and twelve feet in width, has also been provided. The lock-wall on the southerly side has been replanked a length of 124 feet with three inch pine planking, and the planking on the northerly side has also been renewed in various places. The balance beams have been painted, and a new foot-walk provided for the lower lock gates; and some obstructions which interfered with the working of the gates, removed from the chamber by a diver. Repairs have also been made to the floor planking of the swing bridge, and the dam has been provided with two new windlasses.

### BALSAM RIVER LOCK.

An obstruction which interfered with the proper working of one of the valves of this lock, was removed by the departmental diver, and gauges have been provided to enable the lock-master to keep a record of the different heights of water, both above and below the lock.

---

---

 YOUNG'S POINT LOCK AND SWING BRIDGE.

Repairs have been made to the valve rods of this lock, and a quantity of slabs and other debris which had been carried into the chamber by the current, and which interfered with the working of the gates, have been removed from the lower recess by a diver.

The swing bridge has also been provided with a new floor of three-inch hemlock planking.

## LINDSAY LOCK AND SWING BRIDGES, ETC.

The northerly wall of this lock has been extensively repaired on top with three-inch hemlock planking, and a quantity of concrete has been put around the foundations of both upper and lower mitre-sills to stop leakage, and the recesses in the chamber cleaned out, the work being done by a diver.

The swing bridge on Lindsay street has been provided with a new floor of three-inch hemlock planking, and the turn-table has been supplied with one new wheel.

The Wellington street bridge has also been supplied with a new wheel, and repairs have been made to the floor planking. A number of sunken logs and roots, which interfered with navigation on the Scugog river, both above and below the town of Lindsay, have also been removed from the channel.

The following are the lockmasters' returns of the lockages made at the different locks during the present year :

Port Carling Lock—1,892 steamers, 1,332 small boats, 728 scows and 408 rafts or cribs of timber.

Mary's and Fairy Lakes Lock—136 steamers, 25 small boats, 88 scows and 11 rafts or cribs of timber.

Magnetawan Lock—564 steamers, 145 small boats, 94 scows and 19 rafts or cribs of timber.

Lindsay Lock—148 steamers, 25 small boats, 125 scows and 250 rafts or cribs of timber.

Young's Point Lock—1,138 steamers, 47 small boats, 115 scows and 230 rafts or cribs of timber.

Balsam River Lock—70 steamers, 83 small boats, 50 scows, 2 rafts and 294,203 saw logs.

## UNION CREEK IMPROVEMENT.

In order to take advantage of low water, the improvement of this creek was not commenced until about the 20th of September, the work being continued until the 20th of October, when it was completed. It consisted chiefly of the removal of fallen timber, which obstructed the channel to such an extent that the floating of saw-logs and other products of the forest down the stream to the Burnt River was rendered a difficult undertaking, the low lands and highways in the locality being also seriously affected by the water after protracted or heavy rainfall.

Operations were commenced on the main stream on lot No. 1, in the 10th concession, and continued to lot No. 3, in the 13th, and the easterly branch, which joins the main stream between lots 5 and 6, in the 12th concession, has also been improved for a length of about 200 rods.

As this creek has no feeders of any consequence, the residents of the locality are entirely dependent upon the spring freshet to float their saw-logs or other material to market, and as the improvement made will greatly facilitate this operation, it is expected they will be materially benefitted by the carrying out of the work.

#### MUSKRAT RIVER IMPROVEMENT.

The work attended to out of this appropriation consisted of the improvement of the bed of the stream, by the removal of shoals formed of a tenacious clay, gravel and boulders, and the blasting and removal of solid rock obstructions, which impeded the flow of the water to such an extent that the highways and large quantities of low-lying lands in the townships of Ross, Bromley, Westmeath and Stafford were seriously effected, not only during the ordinary freshets, but also after heavy or unusual rainfall.

Operations were commenced about the 15th of August, on the east half of lot No. 10, in the 1st concession of Pembroke, where a shoal 800 feet in length was cleared, for a width of about 100 feet, of stones and boulders, and a channel of about twenty-five feet in width and one foot in depth formed in the centre by ploughing and scraping. An old pier which formed an obstruction a short distance below the shoal was also removed.

The river has also been improved by removing obstructions of a similar character from a shoal about 600 feet in length, situated on lot No. 9 of the same township, and about 792 feet up the stream from the head of the one above referred to, the bed of the stream at this point being ploughed and scraped for a width of seventy feet, with a channel twenty-five feet in width formed in the centre, the excavation averaging on the whole about eighteen inches in depth.

The rock excavation was required on the portion of the stream extending through the west half of lot 6 and the east half of lot 7, in the first concession of Pembroke, the obstructions being distributed for a distance of about 1,200 feet, many of them being of a formidable character extending almost completely across the channel, and to a considerable height above what in the past has been considered low water.

It is expected that through the carrying out of this work, the time formerly required for the water of freshets to pass away will be considerably lessened, and that the ordinary summer level of Muskrat lake and river will also be lowered about eighteen inches.

#### BRIDGES AT PORTAGE DU FORT AND DES JOACHIMS RAPIDS.

The sum of \$1,250.00 was included in the estimates for the present year to meet one-fourth of the cost of repairs to the bridges across the Ottawa river at the above-named points, the amount being granted on condition that one-half of such cost be provided by the Dominion of Canada, and the remaining one-fourth by the Province of Quebec, and that the Province of Ontario should not in any event be called upon to pay more than the above-mentioned amount.

The repairs to the Portage du Fort bridge were carried out by the Dominion Government in the early part of the summer, at a cost of \$2,000.00, and upon the Department being notified that the work had been completed and properly certified vouchers of the expenditure furnished, a cheque for the one-fourth cost, \$500.00, was placed to the credit of the Honourable the Receiver-General of Canada.

This has been the only amount expended out of the appropriation, it having, I understand, been ascertained upon making subsequent and more thorough examination that the Des Joacims Rapids bridge was decayed to such an extent as to render any expenditure on repairs unadvisable, consequently a new structure will require to be provided, towards the construction of which it is altogether likely that the Province of Ontario will be asked to contribute at the coming session of the Legislature.

#### OTONABEE RIVER.

An appropriation of \$2,500.00 was granted last session to assist in construction of a bridge and approaches thereto, across this river, at a point called "Rosa's" (between the townships of South Monaghan and Otonabee), on the condition that the sum of \$4,000.00 be provided by the Dominion of Canada and \$2,000.00 by the township of South Monaghan, and that the Province of Ontario should not in any event be called upon to pay more than the sum appropriated; the plans for and construction of the bridge to be approved of by the Commissioner of Public Works, and the contribution to be paid upon the satisfactory completion of the work.

Upon the department being notified that the structure had been completed, examination was made on the 24th of October, and as the work was found satisfactorily carried out, a cheque for the amount of the appropriation was forwarded to the treasurer of the township of South Monaghan.

The bridge consists of two fixed and one swinging span, the trusses and floor-beams being constructed of steel and the floor joists of 3 x 12-inch pine, and the flooring of three-inch pine planking.

The fixed spans are pin-connected, the trusses being constructed on the principle known as the Whipple or single intersection Pratt truss, the spans being 113 feet in length each from centre to centre of end pins, and the clear width of roadway sixteen feet.

The swinging span is a stiff-riveted bridge of the type known as the pony lattice or Warren girder, having a navigable opening of forty-seven feet; the total length of the girder being eighty-seven feet, and the width of roadway twelve feet.

The piers, which support the superstructure, are constructed of cribbing up to within about one foot of extreme low water level, above which they are first-class masonry—the masonry resting upon a bed of concrete about eighteen inches in thickness, which is supported by the rough stone filling, with which the cribbing is filled.

The masonry of the abutment on the northerly bank rests upon a pile foundation, and that of the southerly one upon the clay.

The approaches to the bridge are formed of gravel, the lower portions adjoining the river being protected and maintained in place by cribwork retaining walls. The cost of the structure, exclusive of the approaches, was \$9,537.00.

## EXTENSION OF RAILWAYS IN 1895.

The details of the work done on the several lines of railway under construction during the present year are, as far as could be ascertained, as follows :

## IRONDALE, BANCROFT AND OTTAWA RAILWAY.

At the close of 1894 this railway was reported as completed and opened for traffic to Wilberforce, which is situated in the extreme easterly portion of the township of Monmouth. Operations have been steadily proceeded with during the present year, and, I understand that a further distance of fifteen miles have been graded, and the track-laying and ballasting completed for twelve miles, five of which were opened for traffic on the 23rd of October last.

It is expected that the line will be completed in the early part of the coming year to a point called Baptiste, which is situated about forty-eight miles easterly from the junction with the Haliburton branch of the Grand Trunk Railway, and about five miles from the village of Bancroft.

## OTTAWA, ARNPRIOR AND PARRY SOUND RAILWAY.

Construction work has continued to be vigorously prosecuted on this railway during the present year, the line being now completed for a distance of 164 miles from Ottawa, and to within about forty-seven miles of the proposed crossing of the Northern Division of the Grand Trunk at Scotia, where it will join the Parry Sound Colonization Railway.

During the coming season, it is, I understand, intended to commence operations as early as the weather will permit, and prosecute the work from both ends of the unfinished portion, which it is expected will enable the line to be fully completed and opened for traffic before the close of the year.

## PARRY SOUND COLONIZATION RAILWAY.

The construction of this railway, which at the close of 1894 was completed to a point forty miles westward from its commencement at Scotia, has been continued during the present year, and it is now practically completed a further distance of  $7\frac{5}{16}$  miles, or to what is known as the inner channel of the Georgian Bay.

It was originally intended to have the westerly terminus of this railway in Parry Harbor, but upon further examination, and surveys being made, it was decided to change the location and continue the line to what is known as "Depot Bay," situated on the northerly shore of Parry Island and about three and one-half miles distant from where it will cross the inner channel, at what is known as "Rose Point Narrows." The Narrows, which are situated 4,950 feet southerly from the southerly limit of Parry Sound, will be crossed on a steel swing bridge, having two navigable openings of fifty feet in width each, the superstructure resting upon first-class masonry piers.

It is expected the entire work will be completed and the line opened for traffic before the close of 1896.

## CENTRAL COUNTIES RAILWAY.

As previously reported, the construction of the portion of this railway extending from South Indian on the Canada Atlantic Railway to Rockland on the Ottawa River, a distance of about seventeen miles, was commenced in the early part of September, 1894, and the work was well advanced at the close of that year.

Considerable delay, however, occurred in the completion of the line, the work, I understand, being not fully carried out until the early part of December of the present year, since which time it has been operated as a portion of the Canada Atlantic system.

## TORONTO, HAMILTON AND BUFFALO RAILWAY.

This railway extends from Waterford on the Michigan Central (formerly C. S. R.) to Welland, the total length being eighty and one-half miles. The construction of the portion between Brantford and Hamilton, a distance of twenty-four miles, was commenced in the early part of 1894, and at the close of that year the grading was about completed and the track laid for a distance of six and one-half miles easterly from Brantford.

Operations have continued to be vigorously prosecuted during the present year, and, I understand, that the line was completed and opened for traffic to Welland on the 30th December, the distance between Brantford and Welland being sixty-two and one-half miles. An important feature in connection with the carrying out of this work was the construction of a tunnel through the City of Hamilton. It is intended for a double track, being twenty-six and one-half feet in width at the springing line of the arch, and twenty-three and one-half feet in height from the top of the rail to the highest point of the intrados, and extends along Hunter street from the west line of Queen to the east line of Park street: the total length being 1,900 feet.

## TILSONBURG, LAKE ERIE AND PACIFIC RAILWAY.

The construction of this railway from Tilsonburg to Port Burwell, a distance of sixteen miles, was commenced during the present year, and, I understand the line is now completed and will be open for traffic on the first of the new year. I am also informed that an extension from Tilsonburg to Woodstock, a distance of twenty-four miles, is contemplated, and that a survey has been made for a proposed connection with the Michigan Central Railway, which will be about two miles in length.

The following revised statement to the close of 1895 gives in detail the mileage of each railway in Ontario, distinguishing between those constructed prior to and since Confederation.

REVISED STATEMENT.

No.	Name of railway.	Terminal points.		Completed prior to Confederation.	Completed since Confederation.	At present under construction.	Total length in operation of each railway or system of railways in miles.
		From.	To.				
1	Grand Trunk Railway, Main Line.	Eastern Province Boundary	Point Edward	457			
2	do	Fort Erie	Goderich	158			
3	do	St. Mary's	London	23			
4	do	Galt	Berlin	7	4.5		
5	do	Waterloo Junction Railway	Elmira		10.25		
6	do	Toronto & Nipissing Branch	Toronto		88		
7	do	Midland Railway, Main Line	Midland City	65	54.53		
8	do	do Peterboro' Branch.	Millbrook	13	9		
9	do	Lake Simcoe Junction	Jackson's Point		26.5		
10	do	Whitby, Port Perry & Lindsay.	Whitby		46		
11	do	Victoria Railway	Lindsay		55.81		
12	do	Grand Junction Railway	Belleville		61.65

				1447.50	5072.45	62.00	6519.95

From the details given it will be seen that construction work has been in progress during the present year on six new lines of railway, and that 138.25 miles have been completed and opened for traffic.

I have the honor to remain, Sir,  
Your obedient servant,

ROBT. McCALLUM,  
Engineer Public Works.

Index D. Schedule of Agents of Life and Accident Insurance Companies, standing registered at the 1st November, 1895.

PARLIAMENT BUILDINGS, TORONTO, 12th November, 1895.

To the Honourable COLONEL GIBSON, Q.C., M.P.P., &c.,

*Provincial Secretary,*

*Toronto.*

SIR,—I have the honor to submit the accompanying reports respecting the various organizations authorized to undertake contracts of insurance, indemnity or guarantee, in the Province of Ontario. Of these organizations the Act of 1892 (55 Vict. chap. 39), as amended by the Act of 1893 (56 Vict., chap. 32), distinguishes three great Divisions :

A. Registered Dominion Licensees: being Insurance Corporations, Companies, or Underwriters, operating under the Insurance Act of Canada and registered by the Province of Ontario, for the transaction of insurance in the Province.

B. Provincial Licensees: being Insurance Companies licensed, inspected and registered by the Province of Ontario, for the transaction of insurance therein.

C. Registered Friendly Societies: being Societies registered by the Province of Ontario, for the transaction of insurance therein.

Of these Divisions the Companies comprised in Division B (Provincial Licensees) are alone inspected by the Province, and are here reported on in the usual form and with the usual financial details pursuant to the provisions of the Ontario Insurance Act.

The report upon Division A (Dominion Licensees), made on the 26th January, 1893, described fully their mode and place of incorporation; their statutory powers, duties, rights and obligations; their internal organization; the relation of the members *inter se*; the liabilities of the members to creditors of the Company; the kind or kinds of insurance for which the Company is registered in Ontario; and the extent to which assets of the Company have been deposited in various countries as special security for the policy holders of these several countries. In the present report, except in case of new licenses, it has not been considered necessary to set out all of these details. Where any change has occurred in the Company's powers or status the nature and extent of such changes are indicated.

All of the Companies in Division A, except Ocean Marine Companies, make financial statements annually to the Dominion of Canada; and those statements, as revised by the Dominion Superintendent, can be found in the Superintendent's Annual Report. The balance-sheets therefore printed here, under Division A, are limited to those of Ocean-Marine Companies.

The report upon Division C (Friendly Societies), made on the 26th January, 1893, related to their mode and place of incorporation; the statutes and instruments under which the Societies were constituted, and those by which they are now governed; the

---

kind of insurance or insurance benefits undertaken ; that report also showed *inter alia*, whether or not the certificate holders generally are secured by a reserve fund ; and, if a reserve fund is maintained, whether any of this reserve is held in Ontario, any, how much, how invested, and by whom held and controlled.

The present report on Division C consists of abstracts of the Annual Statement for the year ending 31st December, 1894, made by the Friendly Societies to the Insurance Department of Ontario, under section 47 of the Insurance Corporations Act.

In order to prevent unnecessary delay in publication, the three Divisions have been placed simultaneously in the printer's hands—the pages of the several Divisions being distinguished by the Division letter prefixed. Division indexes have been inserted at the end of the volume. These indexes show the Companies and Societies standing registered at dates therein mentioned.

Besides requiring all bodies undertaking insurance to be registered, the Act requires registration of the individual agents of Life and Accident Insurance Companies. The concluding index shows in alphabetical order the names of all such agents standing registered at the date specified therein.

I have the honor to be,

Sir,

Your obedient servant,

J. HOWARD HUNTER,

Inspector of Insurance and  
Registrar of Friendly Societies.

## DIVISION A.

REGISTERED DOMINION LICENSEES: BEING INSURANCE CORPORATIONS, COMPANIES OR UNDERWRITERS OPERATING UNDER THE INSURANCE ACT OF CANADA, AND REGISTERED BY THE PROVINCE OF ONTARIO FOR THE TRANSACTION OF INSURANCE IN THE PROVINCE.

---

---

**DIVISION A.—REGISTERED DOMINION LICENSEES, BEING INSURANCE CORPORATIONS, COMPANIES OR UNDERWRITERS OPERATING UNDER THE INSURANCE ACT OF CANADA AND REGISTERED BY THE PROVINCE OF ONTARIO FOR THE TRANSACTION OF INSURANCE IN THE PROVINCE.**

NOTE.—The report upon Division A (Dominion Licensees), made on the 26th January, 1893, described fully their mode and place of incorporation; their statutory powers, duties, rights and obligations; their internal organization; the relation of the members *inter se*; the liabilities of the members to creditors of the Company; the kind or kinds of insurance for which the Company is registered in Ontario; and the extent to which assets of the Company have been deposited in various countries as special security for the policy holders of those several countries. In the present report, except in the case of new licensees, it has not been considered necessary to set out all of these details. Where any change has occurred in the Company's powers or status, the nature and extent of such change are indicated.

All of the Companies in Division A, except Ocean-Marine Companies, make financial statements annually to the Dominion of Canada; and those statements as revised by the Dominion Superintendent can be found in the Superintendent's Annual Report. The balance sheets therefore printed here under Division A are limited to those of Ocean-Marine Companies.

## DIVISION A.

### ALLIANCE ASSURANCE COMPANY.

Register No. 494.

Certificate of Registry No. 272.

Head Office, London, England. Chief Agent and Attorney for Ontario, George McMurrich, Toronto. Suits by or against the Company may be brought in the name of the Alliance Assurance Company.

*The legislative enactments by which the powers, duties, rights and obligations of the Company are now declared, defined or governed are the following: 49 and 50 Vict. (1886), chap. 74 (Imp.); The Alliance Assurance Company's Act, 1886.*

*The members are related as shareholders in a joint stock company with a capital of five million pounds, divided into 250,000 shares, each of the nominal amount of £20, on each of which the sum of £2 4s. is deemed to have been paid. The contracts of the Company contain a clause limiting the liabilities of the shareholders to the amount remaining unpaid on his or her share or shares.*

NOTE.—The clause above referred to is as follows: "Provided always that no member of the Company shall be liable for more than the unpaid portion of his share or shares in the capital of the Company."

The Company is now authorized by license issued by the Dominion of Canada, bearing date the 31st day of March, 1895, and expiring on the 31st day of March, 1896, to transact Fire Insurance.

*Deposited assets.*—Assets of the Company are deposited and held in Canada as special security for the policy holders therein as follows: Deposit accepted at the value of \$311,142, held by the Receiver-General of Canada.

## CANADA LIFE ASSURANCE COMPANY.

Register No. 505.

Certificate of Registry No. 283.

1. Head Office, Hamilton, Ontario. President and Managing Director, A. G. Ramsay. Suits by or against the Company may be brought in the name of The Canada Life Assurance Company.

2. *The legislative enactments* by which the powers, duties, rights and obligations of the Company are now declared, defined, limited, or governed are the following: Province of Canada, 12 Vict., chap. 168, an Act to incorporate The Canada Life Assurance Company; Dominion of Canada, 42 Vict., chap. 71, an Act to amend the Act incorporating The Canada Life Assurance Company, 56 Vict., chap. 76; R. S. C., 1886, chap. 124, The Insurance Act.

3. *The members are related* as shareholders in an incorporated joint stock company, and the liability of the members is limited to amount of shares held by them.

4. The Company is now authorized by license issued by the Dominion of Canada, bearing date 31st day of March, 1895, and expiring on the 31st day of March, 1896, to transact Life Insurance.

5. *Deposited assets.*—Assets of the Company are deposited and held in Canada as special security for the policy holders therein as follows: Deposit accepted at the value of \$54,900, held by the Government of Canada.

*Recent legislation* respecting The Canada Life Assurance Company was published in the report of 1893.

## ÆTNA LIFE INSURANCE COMPANY.

Register No. 571.

Certificate of Registry No. 348.

1. Head Office, Hartford, Conn. Chief Agent and Attorney for Ontario, William H. Orr, Toronto. Suits by or against the Company may be brought in the name of the Ætna Life Insurance Company.

2. *The legislative enactments* by which the powers, duties, rights and obligations of the Company are now declared, defined or governed are the following: State of Connecticut, 1878, an Act to amend the charter of the Ætna Life Insurance Company of Hartford; State of Connecticut, 1882, amending the charter of the Ætna Life Insurance Company; State of Connecticut, 1883, amending the charter of the Ætna Life Insurance Company.

3. *The members are related* as shareholders in an incorporated stock company, and the liability of the members is limited to the amount of their capital stock. The amount of the capital stock is \$1,250,000.

4. The Company is now authorized by license issued by the Dominion of Canada, bearing date the 31st day of March, 1895, and expiring on the 31st day of March, 1896, to transact Life Insurance.

5. *Deposited assets.*—Assets of the Company are deposited and held in Canada as special security for the policy holders therein as follows: Those marked A are applicable solely to policies existing 31st March, 1879; those marked B, to policies issued subsequently; \$531,833 Province of Quebec Debentures; \$149,893 Province of Manitoba Debentures; \$66,000 Province of New Brunswick Bonds; \$100,000 Prince Edward Island Bonds; \$60,000 Montreal Harbour Bonds; \$2,572,631 Municipal Debentures and \$150,000 U. S. Registered Bonds. Total \$3,641,837. Accepted value \$3,359,534, being \$100,000 (A), and \$3,259,534 (B).

### THE STANDARD LIFE ASSURANCE COMPANY.

Register No. 513.

Certificate of Registry No. 291.

1. Head Office, Edinburgh, Scotland. Chief Agent and Attorney for Ontario, Charles Hunter, Toronto. Suits by or against the Company may be brought in the name of the Manager for the time being, or in the name of any three of the Directors for the time being of the said Company.

2. *The legislative enactments* by which the powers, duties, rights and obligations of the Company are now declared, defined or governed are the following: United Kingdom of Great Britain and Ireland, 2 Will. IV., chap. 81, Standard Life Assurance Company's Act, 1832; 8 and 9 Vict., chap. 75, Standard Life Assurance Company's Act, 1845 22 and 23 Vict., chap. 37, Standard Life Assurance Company's Act, 1859; 44 Vict., chap. 26, Standard Life Assurance Company's Act, 1881; 54 Vict., chap. 6, Standard Life Assurance Company's Act, 1891. Province of Quebec, 51 and 52 Vict., chap. 120, an Act to authorize the Standard Life Assurance Company to sue and be sued, and to acquire and hold real estate under the name of The Standard Life Assurance Company. Province of Ontario, 56 Vict., chap. 106. R. S. C., chap. 124, The Insurance Act.

3. *The members are related* as shareholders in an unincorporated joint stock company with a capital of £500,000, divided into 10,000 shares of £50 each, of which £12 has been paid. The paid-up capital is thus £120,000, and the liability of the members is limited to the amount remaining unpaid upon the shares held by them, being £38 per share.

4. The Company is now authorized by license issued by the Dominion of Canada, bearing date the 31st day of March, 1895, and expiring on the 31st day of March, 1896, to transact Life Insurance.

5. *Deposited assets.*—Assets of the Company are deposited and held in Canada as special security for the policy holders therein as follows: Deposit accepted at the value of \$2,705,591.

---

---

 COMMERCIAL UNION ASSURANCE COMPANY (LIMITED).

Register No. 515.

Certificate of Registry No. 292.

1. Head Office, London, England. Chief Agent and Attorney for Ontario, Richard Wickens, Toronto. Suits by or against the Company may be brought in the name of the Commercial Union Insurance Company (Limited).

2. *The legislative enactments* by which the powers, duties, rights and obligations of the Company are now declared, defined or governed are the following: Public General Acts of the United Kingdom: 25 and 26 Vict., chap. 89, The Companies' Act, 1862; 27 Vict., chap. 19, The Companies' Seal Act, 1864; 30 and 31 Vict., chap. 131, The Companies' Act, 1867; 33 and 34 Vict., chap. 104, The Joint Stock Companies' Arrangement Act, 1870; 40 and 41 Vict., chap. 26, The Companies' Act, 1877; 42 and 43 Vict., chap. 76, The Companies' Act, 1879; 43 Vict., chap. 10, The Companies' Act, 1880; 46 and 47 Vict., chap. 25, the Companies' Act, 1883; 46 and 47 Vict., chap. 30, the Companies' (Colonial Registers) Act, 1883; 49 Vict., chap. 23, The Companies' Act, 1886; 53 and 54 Vict., chap. 62, The Companies' (Memorandum of Association) Act, 1890; 53 and 54 Vict., chap. 63, the Companies' Winding-up Act, 1890.

3. *The members are related as shareholders* in an incorporated joint stock company, the share capital of which consists of 50,000 shares of £50 each, and the liability of the members is limited to the amount remaining unpaid upon the shares held by them.

4. The Company is now authorized by license issued by the Dominion of Canada, bearing date the 31st day of March 1895, and expiring on the 31st day of March, 1896, to transact Fire, Inland Marine and Life Insurance.

5. *Deposited assets.* Assets of the Company are deposited and held in Canada as special security for the policy holders therein as follows: Deposit accepted at the value of \$352,998, held by the Receiver-General.

---

 CONFEDERATION LIFE ASSOCIATION.

Register No. 502.

Certificate of Registry No. 280.

1. Head Office, Toronto, Ontario. Managing Director, John Kay Macdonald. Suits by or against the Company may be brought in the name of the Confederation Life Association.

2. *The legislative enactments* by which the powers, duties, rights and obligations of the Company are now declared, defined, limited or governed are as follows: Canada, 34 Vict., 1871, chap. 54, an Act to incorporate the Confederation Life Association; 37 Vict., 1874, chap. 58, an Act to amend the Act incorporating the Confederation Life Association; 42 Vict., 1879, chap. 72, an Act to amend the Act of incorporation of the Confederation Life Association; 53 Vict., 1890, chap. 45, an Act relating to the Confederation Life Association.

3. *Members, how related.*—Certain of the members are related as shareholders in an incorporated joint stock company. The amount of the authorized capital stock, of which the full amount has been subscribed, is \$1,000,000, divided into 10,000 shares of \$100 each. Ten per cent., \$100,000 has been paid up. (The capital stock was originally \$500,000 and increased to \$1,000,000 under authority of charter). The liability of those members who are shareholders is limited to the amount of the subscribed capital stock. The Association being incorporated on the stock and mutual plans combined, certain of the members are related as policy holders and are entitled along with the shareholders to vote and take part in the proceedings at all general and special meetings of the Association, and they participate (in the mutual branch of the Company's business) in the distribution of surplus or profits earned to the extent of not less than ninety per cent.

4 The Company is now authorized by license issued by the Dominion of Canada, bearing date the 31st day of March, 1895, and expiring on the 31st day of March, 1896, to transact Life Insurance.

5. *Deposited assets.*—Assets of the Company are deposited and held in Canada as special security for the policy holders therein as follows: 1. Deposit accepted at the value of \$76,050, held by Dominion Government.

#### ROYAL INSURANCE COMPANY.

Register No. 520.

Certificate of Registry No. 297.

1. Head Office, Liverpool, England. Chief Agent and Attorney for Ontario, John Kay, Toronto. Suits by or against the Company may be brought in the name of The Royal Insurance Company.

2. *The legislative enactments* by which the powers, duties, rights and obligations of the Company are now declared, defined or governed are the following: United Kingdom, 25 and 26 Vict., chap. 89, The Companies' Act, 1862; United Kingdom, 54 and 55 Vict., chap. 81, an Act to define and extend the objects of The Royal Insurance Company, to provide for the transfer to that Company of the business of The Queen Insurance Company and for other purposes.

3. *The members are related* as shareholders in an incorporated stock company, and the liability of the members is unlimited.

4. The Company is now authorized by license issued by the Dominion of Canada, bearing date the 31st day of March, 1895, and expiring on the 31st day of March, 1896, to transact Fire and Life Insurance.

5. *Deposited assets.*—Assets of the Company are deposited and held in Canada as special security for the policy holders therein as follows: Deposit accepted at the value of \$689,533, held by Glynn, Mills & Co., London, and Receiver-General, Canada, for Canadian Government.

## WESTERN ASSURANCE COMPANY.

Register No. 504.

Certificate of Registry No. 282.

1. Head Office, Toronto, Ontario; J. J. Kenny, Managing Director. Suits by or against the Company may be brought in the name of the Western Assurance Company.

2. *The members of the Company are all related* to each other as shareholders of a joint stock company, and the liability of the members is limited to the amount remaining unpaid upon the shares held by them.

3 The Company is now authorized by license issued by the Dominion of Canada, bearing date 31st day of March, 1895, and expiring on the 31st day of March, 1896, to transact Fire and Inland Marine Insurance.

THE GUARDIAN FIRE AND LIFE ASSURANCE COMPANY (LIMITED)  
OF LONDON, ENGLAND.

Register No. 551.

Certificate of Registry No. 328.

1. Head Office, London, England. Chief Agent and Attorney for Ontario, Henry D. P. Armstrong, Toronto. Suits by or against the Company may be brought in the name of the Company, which (as mentioned below) became on the 25th May, 1893, incorporated as a Company limited by shares.

2. *The legislative enactments* by which the powers, duties, rights and obligations of the Company are now declared, defined or governed are the following: United Kingdom, 13 and 14 Vict., 1850, chap. 25, an Act for the better enabling The Guardian Fire and Life Assurance Company to sue and be sued, and to alter certain provisions of their Deed of Settlement, and to give other powers to the Company; 29 and 30 Vict., 1866, chap. 225, an Act to enable The Guardian Fire and Life Assurance Company to reduce the amount of their paid up subscription capital stock, and to alter certain provisions of their Deed of Settlement and to amend The Guardian Assurance Company's Act, 1850, and to give further powers to the Company and Directors thereof; 33 and 34 Vict., 1870, chap. 61, The Life Assurance Companies' Act, and The Guardian Assurance Company's Act, 1893. More particularly referred to below.

3. *The members, prior to the 25th May, 1893, were related* as shareholders in an unincorporated joint stock company, and the liability of the members was unlimited, except so far as their liability was limited by the 51st article of the Deed of Settlement, which required that all policies and instruments of assurance to be granted by the Company should contain a proviso limiting the liability of the shareholders in the Company to the amount of their respective shares in the capital stock and funds of the Company, and by the 109th article of the same deed which required that all deeds and contracts entered into by the Directors and other officers of the Company should contain a like proviso, and by the proviso to the effect aforesaid, which by the practice of the Company was actually inserted in all the policies of assurance issued by the Company. The Company was advised that by the laws of the United Kingdom the effect of the said articles and proviso when so inserted was to restrict the liability of the shareholders to the amount remaining unpaid upon the shares held by them, so far as regarded their liability to the persons assured by or claiming under any such policy, instrument, deed or contract containing such proviso.

By the Guardian Assurance Company's Act, 1893, (Imp.) which received the Royal Assent April 29th, 1893, the Company was empowered to register under the Companies' Act, 1862 to 1890 as a limited liability Company, and this was done on the 25th May, 1893. Section 9 of the Act of 1893 provides: "Nothing in this Act shall operate to prejudice or affect the rights of the existing policy holders of the Company." Copies of the Act of 1893, of the Memorandum of Association, 1893, and of the Certificate of Incorporation are filed in the Department of Insurance for Ontario.

4. The Company is now authorized by license issued by the Dominion of Canada, bearing date the 31st day of March, 1895, and expiring on the 31st day of March, 1896, to transact Fire Insurance.

5. *Deposited assets.*—Assets of the Company are deposited and held in Canada as special security for the policy holders therein as follows: Deposit accepted at the value of \$167,900, held by the Receiver-General in Canada.

## VII. MISCELLANEOUS.

Actions or proceedings instituted or prosecuted by or against the Society during 1894: The following action was instituted against Court No. 7,045, viz.: “*Cerri vs. Ancient Order of Foresters.*” This is an action claiming \$1,000. The defence of the Society is that a fraudulent statement was made. The case is still in course of trial.

Assessments made for purposes of life insurance certificates are stated sums payable on the 1st day of each month in advance.

Twelve payments were made in 1894.

The Society’s accounts were audited in July, 1894, and in January, 1895.

The Society’s accounts are kept in the following books: cash journals, ledgers, records and registers, and monthly balances.

Names and post office addresses of the auditors for 1894 were as follows: R. Howie, Guelph; F. Abbott, Meaford; John Anderson, Montreal, and John B. Buckingham, Hamilton.

No changes were made in the organization or management of the Society during 1894.

No changes were made in the constitution during 1894.

- 648—Kess Mintz ; illegally admitted ; made new application and died before re-examination ; no information as to amount.
- 430—Larkin H. Reeves ; died Aug. 2nd, 1888, ten years after suspension ; in court ; no information as to amount.

Assessments for the purpose of life insurance certificates are made as often as appear necessary. Sixteen assessments were made during the year 1894.

The accounts and books of the Society were audited for the year 1893 on April 21st, 1894.

The books of record and account kept for purposes of insurance certificates or benefits are registers of membership of each council, registers of benefit certificates, registers of deaths, register of suspension, withdrawals, etc., and the usual cash books, journals and ledgers.

Name and address of the auditors of accounts for 1894 : C. P. Ingersoll, Buffalo, New York ; W. L. Douglas, Garfield National Bank, New York ; C. O. Spencer, Hartford, Conn.

Certain changes were, during 1894, made in the organization and management of the Society, in relation to insurance certificates or benefits, and the same have been set forth in the annual statement.

No changes were, during 1894, made in the Constitution and Rules, in relation to insurance certificates or benefits.

Interest due and accrued . . . . .	693 60
<b>Total assets . . . . .</b>	<b><u>\$76,890 76</u></b>

LIABILITIES.—None.

MISCELLANEOUS.

The following action was instituted against the Society during 1894 :

Cusack v. The Toronto Police Benefit fund, and Kennedy, McDougall and Denison comprising the Board of Police Commissioners. A special case stated for an opinion.

Subject of action : The plaintiff claimed that he was entitled to fifteen days' pay for each year's service on this fund, according to the amended rules of January 1st, 1887, and that the amendments made by the Police Commissioners, December 29th, 1892, are not valid, not having been made by the Committee in accordance with Rule 30.

The action was made in the High Court of Justice (Queen's Bench). The amount claimed was \$389.28.

The defence put in was : That the Society was not liable under the rules and regulations of the fund.

The decision of the Court was : "That the alterations and amendments ordered by the Police Commissioners on the 29th day of December, 1892, were and are void and the plaintiff is entitled to the amount claimed, viz., \$389.28, with all costs in connection with the suit."

Twelve assessments were made during the year 1894, on the fourth day of each and every month.

The Society's accounts for the year 1894 were duly audited on the 6th day of February, 1895.

The books of account and record kept are : Ledger, Pensioner's Minute Book.

Inspectors James Stephen and John J. Clarke, of the Police Headquarters' staff, were the Auditors for the year 1894.

The following change was made during the year 1894, in the Constitution and Rules of the Society in relation to assessments and pensions, viz.:

Two per cent. was added to the assessment, making a total of five per cent. on each member's income and members who were entitled to the pension after twenty years' service; are required to serve for the period of twenty-five years. The allowance in case of death is not to exceed the following sums respectively, viz: Constables of all classes, \$1,000; Sergeants and Patrol Sergeants, \$1,200; Detectives, \$1,200; Inspectors and Sub-Inspectors, \$1,440; Deputy Chief Constable, \$1,800, and Chief Constable, \$2,400. No allowance will be made to members of the Society who leave while enjoying a state of good health, unless the said members leaving have served a period of not less than twenty years, to date from the time of first joining the said Society.

CIGARMAKERS' INTERNATIONAL UNION, No. 55, HAMILTON.

---

Date of application for registry, 2nd March, 1895.

---

*Par. 2.—Society, how constituted or incorporated.*—The Society was organized on the 9th day of May, 1869, and incorporated on the 27th day of June, 1895, and the documents evidencing the same are filed or deposited in the office of the Provincial Registrar at Toronto.

*Par. 3.—Incorporation, how effected.*—The incorporation was effected under 57 Vict., chap. 48.

*Par. 4.—The legislative enactments* by which the powers, duties, rights and obligations of the Society are now declared, defined, limited or governed are the following: 55 Vict., chap. 39; 56 Vict., chap. 32; 57 Vict., chap. 48.

*Par. 9*—The Society hereby applies to be registered under the name of The Cigarmakers' International Union, No. 55, Hamilton, Ontario.

*Par. 10*—The Head Office of the Society is at Hamilton. Suits by or against the Society may be brought in the name of The Cigarmakers' International Union, No. 55, Hamilton, Ont.

*Par. 16.*—The general insurance funds of the Society, amounting to \$897.12, are in the possession or control of the Trustees, who are elected by vote at the semi-annual meetings.

*Par. 18.*—The Society by itself undertakes exclusively with members of the Society the following insurance: Sick, death and out-of-work benefits.

*Par. 21.*—The Society had at the date of application in good standing upon the books of the Society not less than 72 members, all residents of Ontario, holding insurance or entitled to insurance benefits under the Constitution of the Society.

*Par. 22*—The document filed as exhibit B is declared to be a true copy of the Constitution, By-laws and Rules of the Society, as far as they relate to the insurance contracts.

OF INCORPORATION.

---

(1.) REMARKS ON RECENT LEGISLATION :

BEING AN ADDRESS BY THE REGISTRAR OF FRIENDLY SOCIETIES DELIVERED BEFORE  
THE CANADIAN FRATERNAL ASSOCIATION, TORONTO, APRIL, 25TH, 1895.

[Reprinted from the Association's Journal of Proceedings.]

Mr. J. Howard Hunter, M.A., Inspector of Insurance and Registrar of Friendly Societies for Ontario, being in the ante-room, was introduced by Past President MacWatt and delivered the following address :

*Mr. President and Gentlemen :*

You have placed me in a very unenviable position, for I have not prepared anything in the form of a set speech. I don't know whether you expected anything of that kind. Perhaps not, but I thought that a short talk on the recent legislation affecting friendly societies would be more agreeable than anything else, and best serve the purpose for which you invited me here to-day, at all events serve much better than any formal address. As you are well aware, for a great many years in this country the rule both as to insurance companies and friendly societies was the simple rule of *laissez-taire*,—go as you please. Then, under the compulsion of events, that indifference had to be abandoned, first in the case of insurance companies, and afterwards in the case of friendly societies. But even as to these societies the protection of their funds from misapplication early became a public question, and this, in 1850, was the genesis of our first friendly society act, precisely as the same question occasioned in England Sir George Rose's Act of 1793, the earliest of the English enactments. On our statute book the earliest measure touching friendly societies, as I have intimated, is the Act of 1850, an Act passed by the old Province of Canada. That Act describes a friendly society as "charitable" and "philanthropic." A friendly society according to the conception of our legislators in those days was a sort of glorified poor-law board, a sort of out-door relief society. The objects of the typical society were described in the Act, and we gather that the moneys were expected to be raised by "contributed subscriptions," the subscribers not necessarily being members of the association at all. Then there was no compulsion on the part of the society to pay anybody in particular, or in general. Under the circumstances you may be sure that the officers of the societies in those days took good care of themselves; they took the ground that it was no matter of public concern what they did with the funds; also that payment to a beneficiary was at their discretion; and that therefore no member of the society could hold them to an account; they denied to even the members a right of inquiry. The Legislature disabused the minds of officers on one branch of the question, and made the conversion or improper retention of moneys after due demand by the society a penitentiary offence. But the larger question, viz.:—the rights of beneficiaries against the society itself,—was completely overlooked. The use in the Act of such descriptive words as "charitable," "philanthropic," "benevolent," only served to continue the confusion between a public or private charity and a contracting friendly society. "Philanthropic" and "benevolent" were good mouth filling words; but neither in law nor in popular language had they any definite meaning, and they consequently darkened the path of any beneficiary who resorted to the civil tribunals. The persons from whom the friendly societies then drew, and now draw their membership, were not the helpless, diseased or destitute poor—the ordinary and proper subjects for charity—but self-maintaining wage-earners and yeomen, sturdy freemen, who, in Ontario at all events, ask no charity; they are willing to pay a fair rate for the assurance benefit, but they expect and demand that when the benefit, according to the bargain, becomes payable, it shall be paid, not as matter of favor or discretion, but as a matter of right, and without abatement

or delay. It is only by virtue of recent legislation that the certificates of friendly societies have received from the courts the recognition and protection that the policies of insurance companies have long enjoyed. For instance, it was held that Chap. 136 of the Revised Statutes (relating to the insurance money payable to the wife or children,) was not intended for the protection of friendly societies at all, and would not apply; so that any money payable under a certificate of a friendly society was at the mercy of a creditor, and was not protected in the same manner as when payable under the policy of a life insurance company. The first difficulty with the courts was the doubt whether there was in the case of friendly societies any contract with the member at all; or whether the payment of the benefit money was not in part or wholly a matter of charity or discretion, on the part of the society. And the next difficulty was, supposing a contract to be on foot, from what document or documents were the rights and obligations of the parties to be ascertained? The certificate generally was so clouded with stipulations and with vague references to constitutions and by-laws, past, present and future, that no layman or lawyer could say what were the rights of the beneficiary; or, if the beneficiary had any rights, how he was to enforce them. Where such difficulties confronted the courts in cases founded upon friendly societies' certificates, it is not surprising that the judges were disposed to decline jurisdiction. That condition of things, by leaving an open door to fraudulent societies to prey upon the public, was in the highest degree detrimental to legitimate societies. No legitimate society will object because its contract is made intelligible; no honest society can object because its contract is made enforceable.

Matters were visibly approaching a crisis in 1887; and in the session of 1888 I submitted a draft of a bill respecting friendly societies. This bill—which received the support of the oldest of the societies but was denounced and petitioned against by some of the newer societies as quite revolutionary—distinguished between charitable societies and contracting societies, provided for the registration of the latter, and placed the beneficiary in a position, first, to ascertain his rights under the contract and then in a position to enforce them. The leading provisions were carried into the Act of 1892, and are now familiar law, but were in 1888 received with such a fusillade of petitions that the bill was not pressed. Many things happened between 1888 and 1892. In the neighboring states friendly society contracts had developed in unscrupulous hands into instruments of fraud upon a colossal scale, and the Courts and the Legislature were all engaged with questions arising out of such fraudulent operations. Some of our neighbor's societies had obtained a foothold in Ontario, and a crop of Ontario imitators was threatened. In 1890 therefore, our Legislature repealed the clause of the Benevolent Societies' Act under color of which speculative and gambling insurance benefit societies and companies were then being promoted. The general question of registering and distinguishing insurance corporations had in 1890 become far more important and complicated than it was when the bill of 1888 was drafted. All the special Acts incorporating particular societies had to be considered and abstracted. Copies of all the declaration papers filed with the Clerks of the Peace under public general Acts had to be collected from all the counties in the Province and indexed and examined. This work occupied every spare moment of 1891. In the session of 1892 the Insurance Corporations Act was introduced, and being now supported by an overwhelming public opinion as well as by the societies that supported the bill of 1888, it became law. As the Provincial Secretary, the Hon. Colonel Gibson said in introducing and explaining the bill to the Legislature, the legislation was not now a matter of choice or expediency, for the question had become one of public safety.

Some of the subjects dealt with in the Act of 1892 were treated only in outline, leaving the details to be filled in by future enactments. One of these subjects was the winding up of unregistered societies. A friendly society is not within the scope of the Dominion Winding-up Act; and, if it had been, the great expense of liquidating under that Act would render it unsuitable. The Act of 1892 therefore outlined simpler and much cheaper machinery. Our experience of this machinery in some recent winding up cases has clearly proved its value, but also showed where the process could still further be hastened and cheapened. The Act of 1895 is therefore largely occupied with provisions that will secure this most desirable object.

The Act of 1892 found in existence a small group of societies or associations registered by the Dominion Government under section 38 of the Dominion Insurance Act. It was understood that the policy of the Dominion was quite settled that this list would not be enlarged, and our Act of 1892, recognizing all upon the list, allowed them the same status for registry as other Dominion licensees. But of late the Dominion has again begun incorporating friendly societies, and in one case the Dominion incorporated and registered a society which had been refused registry by Ontario. To prevent the obvious incongruity of obtaining Provincial registry by way of Ottawa, the law has been amended so as to recognize hereafter only such Dominion licensees (not already registered) as shall be certified to have made a substantial deposit with that Government.

In some cases executive boards of societies complained of the difficulties thrown in their way when desiring access to the books and accounts of subordinate branches or divisions of the society. The Act of 1892 contained a provision on this subject, but by an amendment of 1895 the matter has been made quite clear and explicit.

Section 34 of the principal Act related to errors in age made by applicants in applying for insurance. You are aware that, as the law formerly stood, an error in age was fatal to the validity of the policy. This led to the greatest hardship: and the law was amended so that, instead of the policy becoming void, the amount payable would only be reduced according to a certain prescribed scale. But, where the insuring corporation lays down in its printed application a limit of age beyond which under no circumstances it will go, then the above rule of simple correction is hardly just; for the corporation has been unwittingly drawn into a contract which, had the applicant's true age been known, would never have been issued. The principal Act is therefore now amended by allowing the insuring corporation the right of declaring the contract void within thirty days after such an error in age comes to its knowledge.

The Act of 1895 now makes the law clear that in any contract of insurance the application is to be considered in conjunction with the policy or certificate; and provides that the court shall determine how far the insurer was induced to enter into the contract by any material misrepresentation contained in the application. The question, what is a material misrepresentation is however still, as it has always been in our law, a question for the jury. Cases are so frequent of late in which juries, apparently with the motive of excusing improper verdicts, have declared the most vital mis-statements to be immaterial, I am free to confess my fear that, if we are to be saved from organized frauds upon insurance societies and companies, the decision of this question of materiality may have to be wholly withdrawn from juries. I shall read to you the questions put by the judge and the answers rendered by the jury in an actual suit brought a few months ago against a friendly society in Toronto. In these questions I have substituted the name of John Smith for the actual name of the deceased certificate-holder:

Questions put by the judge to the jury, and the answers of the jury thereto:

"Q. Was the statement made by the late John Smith respecting his age and the date of his birth in his application, true or false?

"A. False.

"Q. If such statement was false, was it false to the knowledge of the late John Smith?

"A. No.

"Q. Was the statement made in good faith and without any attempt to deceive?

"A. Yes.

"Q. Was the answer "no" opposite the word "dropsy" amongst the answers to questions respecting complaints on the second page of the same application, true or false?

"A. False.

"Q. If false, was the said answer false to the knowledge of the late John Smith?

"A. No.

"Was the statement respecting his age and the date of birth material to the contract?

"A. No.

" Was the answer to having had dropsy or not, material to the risk ?

" A. No.

" Q. Was the answer to the question, " have you ever had any serious illness or personal injury," true or false ?

" A. False.

" Q. If false, was it material ?

" A. No.

" Q. Is the answer to the question ' when were you last confined to the house by sickness,' true or false ?

" A. False.

" Q. If false, was it material ?

" A. No.

" Q. Is the answer to the question ' when and for what have the doctor's services been required,' true or false ?

" A. False.

" Q. If false, was it material ?

" A. No."

On the answers by the jury to the questions submitted to them, the judge gave judgment for \$1,065.\*

When a friendly society is incorporated and registered by Ontario, and is not by the law of Ontario forbidden from transacting business in another Province, the transaction of business in that other Province is a question for that Province to determine ; and when that Province by a comity usual among states and provinces, acquiesces, Ontario makes no objection to the arrangement. This, the Act of 1895, makes clear by an amendment to section 22 (2) of the principal Act. In furtherance of such arrangements it is also now provided that the president of the Ontario society need not necessarily be a resident of Ontario ; but, as enacted by the principal Act, the secretary and the treasurer of the society must still be so resident.

Under the old law, the declaration of incorporation filed by the society became its charter, defined its objects, prescribed its methods and limited its powers. No machinery existing for amending this charter, difficulties have arisen when the declaration contains inconsistent provisions, or vexatious restrictions or requirements. Similar difficulties have arisen under constitutions and by-laws founded upon those declarations. In a proper case the Registrar of Friendly Societies has now, under the Act of 1895, power to grant relief and to validate amendments which otherwise would have been *ultra vires* of the society.

Some other cases also are covered, where the validity of amendments heretofore or hereafter made in the constitution and rules of societies may be brought in question, and it becomes a matter of vital importance to remove the doubt. It is not intended that societies shall invoke this jurisdiction of the Registrar except in cases of real weight, difficulty and urgency.

A vigorous argument lately arose over the question, how long does the liability of a member for unpaid fees, dues and assessments, continue to accumulate ? The principal Act provides a simple mode of withdrawal ; the member has only to give written notice of withdrawal and pay up his fees, dues and assessments of which he then has had actual notice. But suppose the member discontinues payment and gives no notice of withdrawal, *how long* would his liability continue to accumulate ? In the recent case before our courts, it was, I believe, claimed that the society could recover for a period of six years, that is for the whole period allowed by the statute of limitations in the case of simple contract debts ; and in numerous American cases where assessment insurance was in question, the courts have held the society or association entitled to recover for an extended series of assessments. Those courts, in at least some of the cases, were impressed with the alternative that, to hold otherwise, would permit the members of any insurance society by concerted action to work a general repudiation of the society's actual debts. This result is obvious enough ; but the reasoning is too general for a good work-

\* In this case a new trial has since been granted.

ing rule. In fixing a limit to the member's liability, we must, I think, be guided by the question, how long does a defaulting member retain a right of reinstatement? Beyond the thirty days' grace allowed by statute most societies give a further period of weeks or months, during which the member, on paying the sum in default is, without medical examination, permitted to revive his insurance policy or certificate at the same rate of monthly premium as before. The member may have reached such an age as to make him uninsurable elsewhere, and during the period of his non-payment of dues and assessments he may have been struck by such disease, or may have received such physical injuries as involve a fatal result; he is nevertheless entitled to resume his former status and privileges upon the simple payment of the default, and to reinstate his insurance certificate, which, visibly, will, in a few months, become a claim on the society for \$1,000, \$2,000 or \$3,000, according to the amount specified in the certificate. Here we plainly have a valuable right; and with the right of reinstatement should also run the obligation to pay for that right; the right and the obligation should be correlative and coterminous. Some societies add a still further period of indulgence, during which the member has a qualified right of reinstatement, the qualification being that during this final period there must be a satisfactory medical certificate before reinstatement. Even as thus qualified the right is still a valuable one; for the member, though now perhaps beyond the admissible age for insurance in that society or any society, is readmitted at the same rate as he paid at his original entry into the society. This final period of indulgence is not, I believe, in any registered society carried beyond twelve months from the commencement of the member's default; and upon the principle just laid down, twelve months should therefore be the extreme limit of the member's liability for unpaid fees, dues and assessments. Upon this basis the enactment of 1895 proceeds: it does *not* say, as some have supposed, that in any given case the defaulting member shall be liable for twelve months' default; but it says that "in no case"—that is, no matter what the contract or the constitution or rules of the society, or the common law or prior statute law may be—shall the liability cover a period of more than twelve months. Many of the societies by their constitution and rules limit the period of reinstatement to three months. This was the case with the Canadian Relief Society; and accordingly in that case the Judge, following the obvious equitable principle before mentioned, and cases decided thereon in England, limited the member's liability to the same period of three months, during which the right of reinstatement existed. The new Act enables societies to make it clear by their constitution and rules what is the precise period of liability in the case of defaulting members; and where such enactment of the society receives the assent of the Registrar of Friendly Societies, it becomes binding and obligatory upon the members. In fraternal societies the payment of honest death claims ought to be regarded as a sacred and inviolate duty, not only to the dead brother, but to his surviving dependents. To him and to them the faith of the society was pledged; and, if the society becomes insensible to its duty, the courts should be vigorously invoked to quicken its conscience. The day is past for technical defences to honest claims, or for liquidating debts with smooth phrases. Widows and orphans want their money, not sympathy. The society's maturing obligations must be provided for; and when they have matured, they must be paid without delay or abatement. During the past year a number of our friendly societies have heard these wholesome truths preached by their own executive officers, and have reformed their premium rates so as to make them more adequate to the large liabilities undertaken. This movement augurs well for the future of those societies. It was, and is, by such plain straightforward dealing with difficulties that those grand old English societies, the Ancient Order of Foresters and the Manchester Unity, first won, and have ever since retained, the confidence of the people of England. In many other respects these great societies are worthy of our imitation. Their inexpensive management, their jealous care of the society's funds, their searching audits, and their prudent investments are full of instruction. Upon your management as executive officers depends the future of our friendly societies in Ontario. Do not offer more in your certificate than anyone can possibly perform. By careful selection, skillful medical examination and economy, very large advantages can be gained, but there is such a thing as an impossible contract. By no stress of competition be lured into promising impossibilities. Lastly, a word as to the

care of the funds. You stand in the position of trustees to the working classes of Ontario; you are handling special trust funds; trust funds that beyond all others need and deserve your vigilance as well as the vigilance of the state; for they contain the savings and investments of the poor. Often it is only by the most painful thrift and self-denial that the industrial classes keep their certificates alive. This fact is daily brought to your knowledge, and should in the most powerful way appeal to you, when you are pressed to any course of action which either would endanger the funds of the society, or would delay or impede the payment of a claim.

On motion of Vice-President Inwood, seconded by Bro. John A. McGillivray, the Association tendered its thanks to Mr. Hunter for his instructive address, and the President, Dr. King, expressed them in suitable and eloquent words.

*Journal of Proceedings* pp. 44 *et seq.*

## (2.) KNIGHTS OF THE MACCABEES.

### AMENDMENT TO ARTICLES OF INCORPORATION.

The Supreme Tent of the Knights of the Maccabees of the World is a corporation of the State of Michigan, incorporated originally under Articles of Association filed with the Secretary of State for Michigan on 12th September, 1885. Upon these Articles of Association, the Corporation was granted registry in the Province of Ontario, under the Insurance Corporations Act, 1892.

On 31st August, 1894, new articles of Incorporation or Association, enacted by the Board of Trustees, were filed with the Commissioner of Insurance for the State of Michigan. The sixth of these new articles constituted the Supreme Tent of the Society the tribunal of last resort, and then proceeded to enact as follows:

"It [meaning the Supreme Tent] shall have the power, when an appeal is made under the laws of the order, from the action or findings of the Board of Trustees to decide as to the validity of all death claims, or any other claim which a member or the beneficiary of a member, may have against it, and its decisions shall be final and binding upon every member and their beneficiaries, and no suit at law or in equity shall be commenced or maintained by any member or beneficiary against this Corporation."

Now the Supreme Court of Michigan has in a series of recent cases held that a Society may by its constitution exclude beneficiaries or claimants from resorting to the civil courts to enforce the insurance contracts of the Society. *Van Poucke v. Netherland St., etc., Society* 63 Michigan 378; 6 West. Rep. 132; 16 Ins. L. J. 142; *Peet v. Great Camp of the Knights of the Maccabees* 83 Michigan 92; 47 N. W. R. 119; *Canfield v. Great Camp of the Knights of the Maccabees* 87 Mich. 626; 49 N. W. R. 875; 21 Ins. L. J. 22; *Hembeau v. Great Camp of the Knights of the Maccabees*, 59 N. W. R. 417; 23 Ins. L. J. 704; *Fillmore v. Great Camp of the Knights of the Maccabees* (1895).—The domicile and the assets of the Knights of the Maccabees being in the State of Michigan, it was evident that, as against the above provision in the new articles of incorporation, an Ontario claimant obtaining judgment in Ontario under Ontario law could not hope to realize in Michigan by legal process.

Upon the application therefore of the Knights of the Maccabees for renewal of registry on the 30th June, 1895, the usual renewal was deferred; and interim registry was granted to enable the Board of Trustees to so amend the Articles of Incorporation as to remove their conflict with the laws of Ontario, and restore the certificate holders of Ontario to their rights and remedies. An amendment for this purpose was approved by the

Registrar of Friendly Societies; and, on the 7th November, 1895, revised Articles of Incorporation were filed with the Commissioner of Insurance for Michigan. As thus revised, the sixth article enacts.—

POWER—SUPREME TENT.

“Sixth.—This Corporation shall have power to make its own laws, rules and regulations.

“It shall have power to establish great camps and subordinate tents, except in the State of Michigan, and shall have power to establish a sick, funeral and accident benefit and ladies social, and beneficial department as auxiliary branches of this Association, and to give authority to great camps to create such branches under their jurisdiction, and to make and formulate the laws governing the same.

“It shall be the judge of the election and qualification of its own members and decide contested elections.

“It possesses the right and power of regulating and controlling its benefit funds, fixing the rate of assessment on members of subordinate tents under its jurisdiction, receiving appeals and redressing grievances arising in tents, of originating and regulating the means of its own support, of deciding as the tribunal of last resort all questions arising out of its laws and rules of order, and of doing all other legitimate acts necessary to promote its interests.

“Provided, however, that notwithstanding anything contained herein, or in any Articles of Association, constitution, by-laws, enactment, resolution, rule or regulation of the Supreme Tent of the Knights of the Maccabees of the World, or any camp, tent or other division, branch or body thereof, anyone claiming under any certificate, contract or agreement of the said Supreme Tent, heretofore or hereafter issued, or in force, in any country or jurisdiction other than the United States of America, has the right at any time of resorting to the courts of that country or jurisdiction, and of pursuing any remedy under the laws of the said country or jurisdiction, and a final and unappealed judgment obtained in a court thereof, against the said Supreme Tent, shall bind absolutely all funds and assets of the said Supreme Tent, and without further or other proceedings, shall constitute a debt due and payable forthwith by the said Supreme Tent; and the claim so adjudicated upon shall be satisfied by the Supreme Tent without further opposition or contention, and may be enforced through the intervention of the courts of the State of Michigan, and whenever any action, suit, cause, matter or proceeding is brought upon any such certificate, contract or agreement the said Supreme Tent shall, in any of the courts of the said country or jurisdiction or of the State of Michigan, or of the United States, be debarred from pleading as a defence to the jurisdiction of any of such foreign country or jurisdiction, anything contained in these or any Articles of Association, or in any constitution, by-law, enactment, resolution, rule or regulation of the said Supreme Tent, or of any camp, tent or other division, branch or body thereof, and this proviso shall be deemed to be an essential term of every certificate, contract or agreement of the said Supreme Tent heretofore or hereafter issued or in force in the said country or jurisdiction.”

Upon the certificate of the Commissioner of Insurance for Michigan that the revised Articles of Incorporation had been duly filed with him, the ordinary renewal of registry was granted to the Society.

J. H. H.

INDEXES  
TO  
DETAILED REPORT  
OF THE  
INSPECTOR OF INSURANCE  
AND  
REGISTRAR OF FRIENDLY SOCIETIES.

The following Indexes comprise all insurance corporations or companies standing registered at the 12th November, 1895; and the Schedule of Agents comprises all agents of Life and Accident Insurance Corporations or Companies standing registered at the 1st November, 1895:

PAGE 3.—Index A: Dominion Licensees, standing registered at the 12th November, 1895, being Insurance Corporations or Companies licensed and inspected by the Dominion of Canada, and registered by the Province of Ontario for the transaction of insurance in the Province.

PAGE 8.—Index B: Provincial Licensees standing registered at the 12th November, 1895, being Insurance Corporations licensed, inspected and registered by the Province of Ontario for the transaction of insurance therein.

PAGE 12.—Index C: Friendly Societies, standing registered at the 12th November, 1895, being Societies registered by the Province of Ontario for the transaction of insurance therein.

PAGE 17.—Index D: Schedule of Agents of Life and Accident Insurance Companies standing registered at the 1st November, 1895.

J. HOWARD HUNTER,  
Inspector of Insurance and Registrar of Friendly Societies.
