Daily Except Sunday

DEVOTED TO THE INTERESTS OF GLENDALE

### GROWTH OF SCHOOL

#### PRESENT ATTENDANCE AT HIGH SCHOOL FAR IN ADVANCE OF LAST YEAR'S TOTAL

That the public in general has a growing appreciation of the advantages to be gained in Glendale High School is manifest in the largely increased attendance. The attendance at the opening of the school year was considerably increased and that increase has been greatly added to by the half-year's graduation from the grammar schools.

"Our whole staff," said Principal Moyle, "is exceedingly busy at present trying to absorb the new enrollment. The present half year sees an accession of pupils that brings our numbers up to 588. This, let it be remembered, is only for the half year. By the end of the year the enrollment should be much greater. At the close of last year there were 453 students; so that with only one-half of the school year gone we have an increase of 135 students. That is remarkable.

This enrollment is drawn from the Third Street school of Glendale, from Eagle Rock, from Tropic, from La Crescenta, La Canada, Littlelands, and from other schools outside this district, and also from the children of new residents in Glendale. A few students also come from Los Angeles.

The students from the Third Street grammar school number up to date 27. They are all in good shape for beginning their higher studies and seem eager to get into the spirit of High School life. Most of the new students have arranged for the full four year's course. They seem determined to secure enough education to fit them for college if necessary. The fact of the matter is, however, that most of these students realize that if they are to make any progress in the business world that they must secure a thorough High School education.

"We had ample proof of that last year and this year also when students who had left High School without taking a full course came back to complete their studies because they found that they could not get along in the business world without a thorough education.

"The business men of today simply will not be troubled with incompetent help. It is possible to find a hundred products of certain institutions who have not had a complete business education. Such products must give way before the more competent. The students realize this and while those who have had some such experience come back to us the majority of the new students are now avoiding the mistake.

"Personally I think that business is as much a profession as medicine, or law or the ministry and demands a professional education based on a thorough foundation. It is proper to dignify business.

"It is straining all our energies to take care of the incoming class. We have had to call into service again Miss Bessie Field, who was granted a year's vacation. We have also had to engage the services of Mrs. Florence Scott, in the Household Arts department, as assistant to Miss Vera Holloway. The work is very exacting and ladies will appreciate the fact that it is not possible for one teacher to attend to the cutting out of material for 75 pupils.

"In every way this is the most satisfactory year the school has had. The growth of the student body is gratifying and the diligence and intelligence of all promises great things for the future.

#### LUNCHEON

The Geo. A. Montgomery home at 1311 Milford street was the scene of a pretty luncheon Wednesday, given by Mrs. Montgomery to members of the Woman's Guild of Saint Mark's Episcopal church, when they met in her home for an all-day session. An oval table was used, being attractively bright in old fashioned marigolds and ferns.

Covers were arranged for the Guild's president, Mrs. John T. Crampton, and Mesdames George Mitchell, A. M. Parker, Richard H. Wells, I. J. Phillips, George Banock, Albert C. Read, Helen I. Campbell, Wm. Hutchinson, S. O. Delgado, H. G. Henning, E. J. Dodge, the hostess, and daughter, Miss Winifred Montgomery, who assisted her mother during the hours of entertaining.

#### HONOR PROSPECTIVE BRIDE

Invitations have been issued by Mrs. R. T. Lyons and Mrs. James A. Newton for a miscellaneous shower, to be given Saturday afternoon, February 12, at the home of the former, 425 Cedar street, in courtesy to Miss Blanche Lyons, whose engagement to Mr. Edward Ballinger was recently announced.

### TREASURE IN THE SOIL

#### STEREOPTICON LECTURE TONIGHT BY PROF. SCHUFELDT VERY INTERESTING

That there is a treasure in the soil of Glendale which will afford more certain and profitable returns than one-half of the gold mines that are so attractively advertised to catch investors will be demonstrated tonight at the High School auditorium by Prof. Schufeldt, of the Los Angeles schools. The lecture will begin at 8 p. m. Prof. C. L. Schufeldt will give an absorbingly interesting lecture on what can be done with backyards and vacant lots.

Illustrated with a series of pictures showing what has been done in the back yards of Los Angeles, by boys and girls who have made very gratifying sums from this industry, this lecture should attract a large audience. The Garden society is to be congratulated on its enterprise in putting on these lectures and those who attended the last lecture, which was given by Mr. Maxwell, will doubtless be present tonight. With the friends whom they will bring there should be a large audience to greet Prof. Schufeldt.

The Glendale Garden society has the indorsement of the city trustees and the Chamber of Commerce. It is planning to do big things for Glendale. Every man, woman and child should take the invitation of the society to take part in its work to heart and accept it in the cordial manner in which it is given. The society invites everyone to come to its lecture tonight and to get acquainted with the plans that have been made for the future, and to learn about the Flower and Vegetable show that is to be held in April.

Don't forget that Prof. Schufeldt's lecture is tonight at the High School auditorium. The subject of the lecture is "A Treasure Buried in the Soil of Glendale—Dollars for Boys and Girls—Wealth for All."

Until Saturday, Feb. 6, all advertising spaces in the Schedule of Exhibits for the April Free Flower show will be kept open for local firms desiring to use those pages. After that date advertisements will be solicited from Los Angeles and other outside firms. Three thousand of these schedules will be printed about Feb. 14, and will be distributed throughout the entire valley section.

All inquiries as to space, terms, etc., should be addressed to Glendale Garden Society Headquarters, 1111 W. Broadway. Call Glendale 1357. Mrs. Nanno Woods, President.

#### RECIPROCITY DAY P. E. O.

About sixty invitations have been issued by the P. E. O. of Glendale for the luncheon and Reciprocity program to take place on Wednesday, the ninth, at the home of Mrs. A. W. Randolph, 865 South Glendale avenue.

Mrs. Warren Roberts, Mrs. R. E. Chase and Mrs. Chas H. Temple have charge of the musical program, the numbers of which will be made up entirely of selections by American composers.

February, known as the patriotic month, has furnished an inspiration to the decoration committee; with ferns and greenery as a background, silken flags and blossoms of red, white and blue will be generously used. Assisting Mrs. Randolph in serving the 12 o'clock luncheon are Mrs. Gus Pulliam, Mrs. Ed. M. Lee, Mrs. Frank H. Dickman, Mrs. Lyda Border, Miss Lorraine Mitchell and Miss Ruth Byram.

#### TUESDAY AFTERNOON CLUB

Reciprocity Day will be recognized by the Tuesday Afternoon club, Tuesday, February 8, at the regular meeting in the Masonic hall at 2:30 o'clock. Mrs. Wayland Brown, in charge of the program, has obtained many interesting and instructive numbers, as follows:

1. Children's Literature—"Sun-bonnet Babies" by Eulalie Osgood Grover.
2. Essays—"Unknown Guest," by Maurice Maeterlinck.
3. Travel—"Russian Life."
4. Drama—"Soldier's Daughters," by Cosmos Hamilton.
5. Immigration—"Foreign-born Neighbors," by G. W. Tupper.
6. Fiction—"The Lost Word," by Henry Van Dyke.
7. Bible Literature for Children—The Story of How the Robin Got His Red Breast.
8. Poetry—Poems by Rabindranath Tagore.
9. California.

Special guests bidden for the afternoon are the presidents and one delegate from many of the district clubs and during the social hour refreshments will be served by the hospitality committee.

### APPAM'S PASSENGERS ARE LANDED

#### GERMAN CREW AND SOME PASSENGERS WHOSE STATUS IS DOUBTFUL REMAIN ON BOARD

(Special Service to Glendale Evening News)

NEWPORT NEWS, Feb. 3.—All the Appam's passengers, with a few exceptions, were landed here today. Most of them started for New York, where the British authorities will arrange for their transportation to England. The German crew and some of the passengers whose exact status is in doubt, on account of their supposed connection with the British government are detained on board the vessel.

### HOLDS APPAM IS GERMAN PRIZE

#### WASHINGTON ADMINISTRATION DECIDES THAT BRITISH VESSEL WAS LEGITIMATE CAPTURE

(Special Service to Glendale Evening News)

WASHINGTON, D. C., Feb. 3.—Secretary Lansing announced today that the United States officially regarded the Appam as a German war prize. The vessel will thus remain in the possession of the prize crew, the government holding that The Hague convention does not apply. The British ambassador, Sir Cecil Spring-Rice, is preparing a strong protest demanding that the ship be immediately released. The Hague convention appealed to by the British provides that the ship be surrendered and the crew interned. The United States insists that Great Britain signed but never ratified that convention.

### SAYS AMERICAN NEUTRALITY IS REAL

#### PRESIDENT WILSON URGES COUNTRY TO BE PREPARED BOTH ON LAND AND SEA

(Special Service to Glendale Evening News)

ST. LOUIS, Feb. 3.—President Wilson today addressed an immense crowd in the Coliseum building here. He declared that the administration's record in its dealings with foreign nations showed that it had maintained genuine neutrality. He spoke for some time on "Preparedness," saying that the country must be prepared to defend itself effectively both by land and sea.

### SAYS GASOLINE PRICES ARE ARTIFICIAL

#### SECRETARY LANE TOLD SENATE THAT MANIPULATION CAUSED RECENT ADVANCES

(Special Service to Glendale Evening News)

WASHINGTON, D. C., Feb. 3.—Secretary Lane told the United States senate today that the recent advances in the price of gasoline were entirely artificial and that there was no justifiable reason for the increases. They were, he said, due entirely to manipulation.

### BRITISH CRIPPLE GERMAN ZEPPELIN

#### ARTILLERY AT SALONIKI HIT AND REPEL TEUTON AIR RAIDER ON GREEK COAST

(Special Service to Glendale Evening News)

PARIS, Feb. 3.—British artillery at Saloniki signally defeated an attempted raid by a Zeppelin on the Allied positions at Saloniki. The air raider was hit in several places and forced to retreat and come to ground in the German lines.

### KING GEORGE SIGNS CONSCRIPTION BILL

#### ALL BRITAIN FALLS IN LINE WITH COMPULSORY ENLISTMENT MEASURE

(Special Service to Glendale Evening News)

LONDON, Feb. 3.—King George today signed the Compulsory Military Service bill. The measure goes into effect Feb. 10. The whole country is in accord with the measure and no trouble is anticipated in putting it into effect. Volunteers for service have been quite numerous of late. The recent German air raid crowded the enlistment offices with applicants for service.

### SUSPICIOUS AIRSHIP OVER POWDER WORKS

#### EMPLOYEES OF DUPONT FACTORY STATE THAT RECENT EXPLOSIONS WERE DUE TO AIR ATTACK

(Special Service to Glendale Evening News)

WILMINGTON, Del., Feb. 3.—Employees of the Dupont Powder Works stated today that they had both heard and seen an airplane hovering over the factory at Carney's Point last night. They stated that there was every probability that by means of this airship the recent explosions were caused.

#### J. P. MORGAN TO ENGINEER NEW LOAN

NEW YORK, Feb. 3.—J. P. Morgan's recent departure for Europe is said to have been for the purpose of floating a new French loan of \$200,000,000.

### GLENDALE WINS AGAIN

#### LIGHTWEIGHTS DEFEAT LOS ANGELES POLYTECHNIC 22 TO 16

Those who witnessed the game Wednesday night between the Glendale Athletics' 120-lb. team and the lightweight team of the Los Angeles Polytechnic high school were astonished at the ease with which the local boys defeated the representative school of the City league. The game was played at the Athletics' gymnasium, First and Glendale. There was a good attendance. The Polytechnic boys put up a good game. They were aggressive and fast, but in every particular they were outclassed by the Glendale team. The Glendale boys played a high-class game throughout. Their team work was particularly apparent. They played with their heads as well as with their heels.

At the close of the first half the Glendale team had a score of 14 to 3 to their credit. It was plain that they could do what they pleased with their opponents and in the second half they slowed up so as to reserve themselves for the game tonight and the games in the near future. At the end of the game the score stood 22 to 16 in favor of Glendale.

Kolts, the new guard whom the club has signed up, is in every way an excellent addition to the strength of the team. By the time he has played a few more games with the present aggregation of lightweights he will be a first-class factor in winning success. He is a high school boy.

Following was the lineup: Littell, right forward; McDonald, left forward; Pratt, center; Latter and Dewar, right guards; Kolts and Coole, left guards.

At Normal Hill center, Los Angeles, Thursday night, the Glendale unlimiteds will play the Westlake team. This Westlake team is the team that is financed by the City of Los Angeles. It is believed that Glendale should score a victory here also if they show anything like the new form in which they have been playing recently. The game will be played in the old Normal building, on Normal hill. It will be free to all who wish to attend. Glendale's lineup will be as follows: Littell and Bidwell, forwards; Taylor, center; Farnar and Stone, guards.

#### THRILLING WORK AT KALEM

Followers of "The Hazards of Helen" will be afforded an extra thrill when they view the next installment of that most interesting picture serial. Mr. Davis' company took part, Tuesday, in a most thrilling act in the great melodrama. The Kalem people had constructed a railroad depot in the vicinity of the studio and put on a great scene with more than 100 people taking part. The depot was filled with this typical American crowd, which witnessed an exciting race between a train and an automobile. Verdugo road was patrolled during the time this incident occupied. Those who witnessed the act say it will be one of the most striking of the series. "The Hazards of Helen" has been amplified to a 2-reel series and grows more interesting as it develops.

Mr. Horne's company is working on "The Love Pirate," which is a story of two women of the Rufus Wallingford type. Their clever schemes make good pictures. The fourth of the series is now in course of preparation.

#### MONTANA VISITORS

Mr. and Mrs. J. D. Sprague of Kalispell, Montana, are visiting in the home of their nephew, Mr. and Mrs. John R. Barrows of 443 West Colorado boulevard. Mr. Sprague was formerly commander of the Soldiers' Home at Kalispell, and both himself and Mrs. Sprague are so delighted with Southern California that they will in all probability make it their permanent home, deciding after visiting San Diego and other southern points.

#### DINNER EVENT

A basket filled with assorted fruits formed a rather unique and attractive centerpiece on the table in the Warren Roberts home at 707 West Seventh street, Wednesday evening, when these gracious people had as their dinner guests Mrs. Roberts' parents, Mr. and Mrs. C. S. Archer, and Mrs. Archer's two sisters, Mrs. John Parmenter of Pasadena and Mr. and Mrs. Chas. D. Peck of Topeka, Kansas, who are spending the winter in Southern California.

WEATHER FORECAST — Foggy tonight; generally fair Friday; north-westerly winds.

### ON TRIAL FOR MURDER

#### JUDGE MILLER WILL HOLD PRELIMINARY TRIAL OF CORNELIO YANEZ FEB. 8

After a careful and exhaustive examination of witnesses before Judge Miller, Cornelio Yanez of La Canada was held without bail to answer to a charge of murder, and his preliminary examination was set for Feb. 8. Cornelio was arraigned before Judge Miller at first on a charge of assault and battery. It will be remembered that the assault complained of took place Sunday, Feb. 23, when Joe Valencia was cruelly beaten by Yanez.

Yanez is said to be a man of ungovernable temper, especially when under the influence of liquor, and it is believed that he was partly under that influence when the assault occurred. The witnesses who were examined varied somewhat in their statements as witnesses always do. Their accounts of the assault did not agree as to the precise nature of the quarrel, but they all stated that the assault was committed with the hands and feet. This does not tally with the nature of the injuries on Valencia's body.

Valencia was taken to the County hospital, but never regained consciousness. He died Tuesday, Jan. 25. Examination showed that several of his ribs had been fractured and that his skull had been beaten in, apparently with some kind of heavy club. It is not believed that the wound on the head was inflicted by Yanez' feet.

When the case comes up again on Feb. 8 it is thought that additional testimony will be found to show that Yanez used a club in the assault and murder. The Mexican colony of La Canada is greatly stirred up over the affair.

#### HIGH SCHOOL DEBATES

Glendale High School will debate with Huntington Park High School Saturday night. This will be a joint debate. The debate in Glendale will be handled for the Glendale High School by Joseph Maier and Frank Bridgeford. Both are confident. The subject is "The Advisability of a One-Year Military Service." The names of the judges for this contest have just been handed in. They are Dr. R. D. Hunt, professor of economics in the University of Southern California; Judge Gavin Craig of the Los Angeles Superior Court, and Judge Fred Taft of the same court. Friday night at Lincoln High School Miss Ethel West will represent Glendale in an extemporaneous debate against Lincoln, Manual Arts and the Polytechnic.

#### BANK OPENING

The officers of the Glendale Savings Bank will be at home to their patrons and friends, Saturday afternoon and evening, February 5, at their new location in the Flower block at the corner of Broadway and Brand boulevard.

Beginning at 2 p. m. on that date a reception will be tendered to the children, all of whom will receive a suitable present. At 7 p. m. the men and women of the Glendale community are invited to inspect the new quarters of the bank, and they, too, will receive a small gift.

#### PONY EXPRESS ON FIRST EXCITING JOURNEY

April 3, 1851, the picturesque Pony Express started out for the first exciting run half across the continent. As one rider dashed out of the eastern terminus, St. Louis, Mo., another dashed out of the western terminus, San Francisco, both taking a route that led through South Pass, Salt Lake, Humboldt River, Carson Valley and Sacramento. The distance was about 1900 miles, and by maintaining an average speed of eight miles an hour and relaying at intervals, the course could be covered in about ten days. Sacramento and San Francisco turned out en masse when the first pony riders from the east reached the west. The postage was \$5 per half ounce, so one can readily conceive that no bulky packages incumbered the messengers.

#### PHILANTHROPIC SEWING CLUB

The active members of the Philanthropic Sewing club will meet with Mrs. Maxwell, 114 N. Brand, for lunch tomorrow, Thursday, and will spend the afternoon preparing work for the next open meeting for associate members and friends. Mrs. W. D. McRae, Sec.

Mrs. Paul V. Tuttle spent Wednesday with Mrs. C. J. Letts of 1410 West First street.

## NEW YORK CITY IMPROVES ITS MORALS

Those who knew New York City in the old days when Tammany held full sway over the lower regions and the police had power equal to that of the czar of Russia; when Boss Croker had the audacity to tell the courts that he was working for his own pocket all the time, when report had it that in some of the saloons of the Bowery like the famous "Bucket of Blood" there was a murder every night of the week, will find no difficulty in believing that the city has improved. In fact, it has been steadily improving, though even yet it is credited with having centers where you can hire a man to commit murder for any sum from \$35 to \$1000, according to the status of the victim.

At the same time there are particulars in which New York seems to have improved. The New York playhouses which have always gone to the limit in putting on "risque" plays have sobered down a bit. The questionable performances have been eliminated in many cases and the censor's quietus has stilled many a play that would have been considered very mild indeed in the old days. Beginning with the burlesque houses, several of which have been closed, the wave of purity has rolled up to the \$5 houses, where there is little left to the imagination. Just the other day the censor forced one of the leading houses to cut out a "Faun" dance which was considered extreme.

According to young John D. Rockefeller's Bureau of Social Hygiene, commercialized vice has decreased 50 per cent in the city. The situation has improved because of the wiping out of the system of police protection, which gave the police department a steady amount of graft from the houses which sheltered the social evil. Time was when the New York police forcibly compelled the female keepers of houses of ill character to remain in business lest they (the police) should lose the monthly percentage they were reaping from them.

This is, fortunately, all changed. At least so says the Rockefeller institute. If it is it is certainly a change for the better. Visitors to New York are no longer to find a Bowery replete with the worst abominations of vice. Even the police are good and that is alleged as the cause of all this change.

## WORKINGMAN A PRIVY COUNCILLOR

To become a member of the British privy council is one of the highest honors that country can bestow on an individual and argues immense public service at home or abroad. Men of the stamp of Cecil Rhodes are the men who form the privy council of Britain. Men like Sir Gilbert Parker, the brilliant Canadian novelist and political writer, count it a great honor to belong to that advisory body. It is, therefore, quite remarkable to find a labor member like Will Crooks, the champion of the common people, among the number of the king's council.

Crooks has no hesitation in telling those to whom he speaks that he was once an occupant of a poorhouse. That was when he was a boy and the domestic misfortunes of his family sent them all there for a season. Crooks was at first taken as a joke in the House of Commons; but his hard common sense and his unflinching courage finally won him recognition as the ablest exponent of the people's rights in that body.

It is characteristic of the democracy of Britain that such men as Crooks and quite a formidable section of other labor members should sit in the house of commons. Not only do they sit there but they also have power and know how to wield it. Crooks owes a good deal of his popularity in the house to his excellent wife, who has kept him from many of the eccentricities that have militated against the usefulness of other labor members. John Burns, for instance, had an ungovernable temper and got into a public fist fight which kept him back for a long time.

Crooks was a cooper by trade. He has always been intensely interested in the labor problem and has done an immense amount of good work for the workers. His common sense has led him, guided by his wife's counsel, to make no objection to wearing the court dress required by members of the privy council. The dress is of silk with knee breeches and lace ruffles. His wife says he will wear it and that she will see that he has it. The presence of such a man as Crooks in the councils of the king at the present crisis is one of the elements that may be looked to as constituting the strength of Britain.

## DISAPPEARANCE OF THE HORSE

It has often been prophesied that the horse would disappear before the automobile and that before long there would be none of the fourfooted beasts of burden in the land. There is some truth in the belief; but it will be remembered that a similar prophecy was made when the bicycle came into vogue; yet the horse remained in the country in increasing numbers. The present war has made demands on the horse supply of the United States that show that the function of the old and faithful servant of man is not likely to be dispensed with very soon.

In fact, just as many horses are being bred in the year 1916 as there were thirty years ago. The wastage of horseflesh in war is very great. Not only do the horses get shot and wounded and disabled but they also die from disease at a great rate. During and after any forced march the road will be strewn with the dead bodies of horses. The horse is a animal of singular sensitiveness and resembles in his nature the islanders of the Tongas and other islands in the Pacific, who will die, as Stevenson points out, without almost any provocation and simply at times because some one has said a harsh word to them. In times of stress the horse often simply gives up and refuses to live any longer.

This accounts in part for the ever-recurring demand for horses from this and other countries for the war. While it is certain, however, that the use of the horse will not be abandoned as yet to any great extent, it is also certain that the use of the horse within cities

is diminishing and will continue to diminish. The horse is not a fitting part of civic economy. The streets would be better and cleaner without his presence. His efficiency is not equal to that of an auto and consequently he is fast disappearing from the cities.

Mandel Brothers of Chicago, one of the great department stores there, this week relegated to the country the last of their 297 famous Black Beauties, the fine, large horses that drew their delivery wagons. They have found that they could not compete with their rivals by employing horsepower. The suburb delivery demands forced this improvement. So it may be expected that ere long every city will be horseless to the great improvement of the civic health.

## "THE BATTLE OF GETTYSBURG"

The Rev. R. W. Mottern, pastor of the First English Lutheran church in Glendale, will deliver his well-known and interesting lecture on "The Battle of Gettysburg," in Glendale High School auditorium, Friday evening, Feb. 11, under the auspices of the Glendale Federation of Parent-Teacher associations. This lecture should prove a great treat. Mr. Mottern lived for a number of years close to the battlefield and is intimately acquainted with its features and has the graphic details of the famous battle well in hand.

This lecture is most beautifully illustrated by over 100 very fine views of that famous battle and of that great battlefield in Pennsylvania.

It is given at this time while the nations of Europe are involved in the most titanic struggle of all history. It is designed to bring the lessons of war and all its fearfully attendant results, showing its horrors, uselessness and wastefulness, by a description of this illustrious battle, the bloodiest and most costly in American history. And any one who becomes familiar with that great struggle at Gettysburg July 1, 2, and 3, in '63, will be most thoroughly converted to the principles of arbitration as the only sane, human and civilized method, especially by Christian nations, in settling all their international differences.

Being one of the 15 decisive battles of the world, involving human rights and liberties, it is easily seen how "every ounce of devotion" to what was believed to be guaranteed by our Federal Constitution, would be copiously poured out in human blood in the clash of arms. Naturally the human mind and true sense of brotherhood, realizing the costliness, the sacrifice, the great loss from war's havoc, will revolt from the same and hungrily desire to follow the economic paths of peace.

That three days terrific contest at Gettysburg is told and shown in stirring narrative and forceful illustration, so strongly and accurately one seems to be standing on the spot while the great battle is on. Rev. Mottern is familiar with every point of that historic battlefield, having been a college and seminary student there for five years, during which time he made a special study of it.

Most beautiful monuments designed by American and European sculptors are shown marking heroic struggle and patriotic valor between the "Boys in Blue" and the "Boys in Gray." And as a military park, special attention is given in the lecture to what the Federal Government has done to make that battlefield the most accurately and beautifully marked of all battlefields of the world. Thousands of tourists from various parts of the world are unstinted in their praise for its most remarkable beauty.

Having been in Gettysburg in 1913 at the time of the great "Peace Jubilee," the lecturer will conclude with scenes of interest demonstrating how after 50 years all fraternal hate, prejudice and bitterness have entirely passed away and our great nation stands "one and inseparable."

Among the places named at which Rev. Mr. Mottern has delivered this excellent lecture, and from whence he comes splendidly recommended, are: Glenwood Mission Inn, Sherman Institute, the M. E. Church of Riverside, for the G. A. R.; Soldier's Home at Sawtelle; W. Riverside; Corona High School, Carroll Park school.

Much interest is being shown by the students of the Intermediate and lower schools, who are selling the tickets for the lecture. The department of Patriotism, Glendale Federation Parent-Teacher associations, under whose auspices the lecture is being given, is offering as a prize to the room of school children selling the greatest number of tickets, a fine large framed picture of President Lincoln. Help the children. Adults' tickets, 25c each. Students' tickets, 15c each.

## OLD TIME BARN DANCE

Those who enjoy the old-time dances will have an opportunity of gratifying their taste at the Barn Dance, which will be given by Miradero Lodge No. 96, Knights of Pythias, Friday evening, Feb. 4. Everything that can add to the old-time illusion has been arranged so as to make this one of the most enjoyable dances of the season. The large central floor of the Sparr Packing house has been put in excellent shape for the event. Appropriate decorations add to the "barn" illusion. Music of the most realistic kind will be furnished by Thorpe's orchestra and all the old-time quadrilles and country dances will send the blood tingling through the veins of the merry party that is sure to assemble. Light refreshments will be served. There will also be special music in the course of the evening. Admission 50 cents; ladies free. 139t2\*

## DYESTUFFS GETTING SCARCE

By Margaret Mason  
Small boys all know that tanning makes persons quite some smart; And that's a fact that summer girls will have to take to heart. Because all dyes grow scarce Since first the war began And for those dying to be smart There's nothing left but tan.

Positively the only way you can go in for color effects this coming spring is to turn green with envy, have a yellow streak, a fit of blues or red yourself up to be the pink of neatness. They do say that all is fair in love and war, but it's been mighty hard for some of us to be fair with the recent embargo on peroxide. Fortunately that has just been lifted and hearts and heads are once more light.

The outlook for other dyestuffs, however, is very dark. The weather man has often predicted a white winter for us, but now the fashion man promises us a white summer—white with a large dash of tan by way of variety.

By way of getting the greatest amount of variety out of tan you can call it beige, ecru, string biscuit, sand and putty as its intensity of tanness wanes or waxes.

Fortunately, we already have such charming tan summer materials in natural pongee shantung and rajah silks, to say nothing of natural linsens that to be thus limited for our spring and summer outfits threatens no real tribulation.

Cotton voiles of rich beige color striped in the same toned cotton velvet are most effective and the beige black striped are stunning additions to the new tan toned fabrics. Faille is lovely in these neutral shadings too and spring suits of ecru accu much credit to the wearer as do the little turbans of biscuit colored straw and taffeta and the high shoes with putty colored tops.

If you remember, we were caught in a sand storm of sand colored suits, hats, and accessories last spring, but this year's bisque hued crop promises less violence and more quiet effectiveness.

As befitting a neutral nation that other most neutral tint, pearl gray, will also have its place in the monotonous of our most modern frocks. Of a necessity then the modern maid, deliberately going against the admonition of Mr. Omar to fling her winter garment of repentance aside for the fires of spring will change instead her flame hued garb of winter for the ashes of a new sartorial season.

And so a grey or tan mark will be added to the aggregate mass of black marks against the war by the women of fashion. But between you and me, after viewing the Ballet Russe backed by Bakst with its chaotic and unrestrained riot of colors, I can't believe that the poor old war is the only thing responsible for the alarming shortage of dyes.

## THAT TIN BOX

You really can't speak of it in that tone of voice any more, not since the art and crafters have taken it up and covered it with paint. Indeed, the new tin boxes for holding cakes, candies and the like are really works of art. They come in soft, lusterless enamels, dull pinks, and grays and blues, and on them is worked in some inexplicable manner the prettiest silhouettes in misty black and white. It may be a girl with a fan, or a woman and a parasol, or a child feeding ducks, but the story is told just in black and white on the colored ground. Any girl's bedroom or family living room will find a corner for one of these boxes when the candy and cake are a thing of the past.—Philadelphia North American.

## TOMATO SAUCE

Four pounds of ripe tomatoes, one half pint of vinegar, one quarter pound of onions; a little mixed spice; two lemons.

Squeeze the juice from the lemons, cut the tomatoes, onions and lemons, and put them in the oven in a stew jar with the vinegar until cooked. Then rub all through a colander, with a wooden spoon. When cold, add the lemon juice. Then bottle for use.

California and Michigan produce 75 per cent of the domestic beans consumed in the United States, and the production in California is rapidly increasing. Almost every variety of beans, from small whites to limas, are grown in this state and the acreage is estimated to be 25 per cent greater than that of 1914. Heavy purchases have been made for use by the armies of Europe and the price is steadily rising.

Mix one ounce cornflour with one pound castor sugar and the whites of three eggs.

Personals

Mr. and Mrs. W. C. Stone moved from Chestnut street to their old home at 808 Lomita avenue this week.

Miss Eulalia Richardson of 805 South Central avenue spent the fore part of the week in Los Angeles with friends.

Mrs. Ed. M. Lee received members of the Home Missionary society of the First Methodist church in her home at 106 Cedar street, this afternoon.

Tomorrow, Friday, afternoon, at 2:30 o'clock, the Auxiliary Guild of Saint Mark's Episcopal church will hold the regular monthly meeting at the home of Mrs. Richard H. Wells, 1504 W. Broadway.

Dr. and Mrs. Coitin Cable of 755 South Columbus and the LeRoy W. Bossersmans of 814 South Central avenue are among those attending the Timmer concert at Trinity auditorium Friday evening.

Mrs. George Mitchell will open her home on Kenneth Road and serve luncheon to members of the Woman's Guild of Saint Mark's Episcopal church on Wednesday, February 16th, when that organization will hold an all-day meeting.

Mrs. Lida Trauger, of Greensburg, Pa., and Mrs. Harriet Remer, of Dallas, Texas, who are spending the winter at Lakeview Hotel, Los Angeles, were luncheon guests at the home of Mrs. Duane Perley Snow, 817 Lomita avenue, Wednesday.

Roses and foliage adorned the pretty dinner board of Mrs. Marian Wood, who on Wednesday evening bade for guests, Mr. and Mrs. Wm. Paulton of Sioux Falls, South Dakota, Mr. and Mrs. G. W. Luckey of Los Angeles and Mr. Will Paulton of Pasadena, in her home at 202 East Tenth street.

TROPICO

Of unusual interest was the regular monthly meeting of the Woman's Missionary society of the First Presbyterian church of Tropic, which was held in the Philaetha room of the church, Wednesday afternoon. A basket of white hyacinths and ferns were among the pretty floral decorations that brightened the room, where the nineteen ladies assembled and spent a very delightful afternoon. The devotional exercises were conducted by the president, Mrs. G. S. Chapman. Mrs. O. P. Rider gave a most entertaining, as well as instructive, talk on "China," which rendered the program one of much interest. At the conclusion of the program, Mrs. Eliza Birney and Mrs. Henry L. Moody as hostesses served dainty wafers and refreshing tea.

Mr. and Mrs. Jay Rice and young son, who but recently came to Tropic from their ranch near Lindsay, are pleasantly domiciled in one of the L. C. Rice bungalows on Acacia street.

Widespread sympathy among a number of Tropic friends attended the message containing the sad news of the sudden passing of Charles E. Park, which occurred near Indio Tuesday morning. Mr. and Mrs. Park have many friends in this community who extend their sympathy to Mrs. Park and her three sons, who have been so suddenly and sadly bereaved. Mr. Park was a passenger brakeman of the Southern Pacific and passed away while in the performance of his duties.

Mrs. Louise Purnell of West Tenth street and her house guest, Mrs. Mabel Hutchins of Los Angeles, were the dinner guests of Dr. and Mrs. Samuel A. Pollock of West Park avenue, Tuesday evening.

Mrs. Myra C. K. Shuey entertained as her guests at a daintily appointed luncheon at her home on Columbus street, Wednesday, Mrs. James L. Fishback of Los Angeles, and the latter's mother, Mrs. M. E. Nesbit, who but recently came to Los Angeles from Topeka, Kansas, to re-

furnish and clean everything thoroughly. For several years this plan has been followed with success, the thorough weekly cleaning, supplemented by the daily fifteen minutes sufficing to keep the house in good condition.

Sometimes canned soup is used; sometimes enough soup is made on Saturdays to last for several dinners. Easily made desserts are chosen; rice, tapioca and bread puddings may all be prepared in the morning and baked in the evening and sauces of different flavoring will give variety. On Saturday afternoons extensive marketing is done, staple foods being laid in for the following week. For the Saturday evening dinner, this family has a good sized roast, the cold meat from which will be good for Monday night's dinner. A cake made on Sunday is also of a kind to keep fresh for several days.

These are some of the businesslike ways worked out by this New York woman, who closes her article by saying: "Of course there are many things done by some housekeepers that I do not attempt, but from what I know of living in apartments my home is kept as well and our food is as good as where the woman devotes the major part of her time to housekeeping."

side with her daughter, Mrs. Fishback.

Mr. and Mrs. Guy Rice of Lindsay are the house guests of Mr. Rice's mother, Mrs. L. C. Rice of North Central avenue.

With Mrs. Ella W. Richardson as a most efficient leader, a parliamentary drill was conducted in the Ceritos school Wednesday afternoon, preceding the postponed meeting of the Tropic branch of the Parent-Teacher association. Later a class to study parliamentary law was organized and Mrs. Clyde R. Carmack was chosen president and Miss Brown secretary. These drills will precede the regular monthly meetings of the P. T. A. Mrs. Eustace Benton Moore, presided at the Parent-Teacher meeting, which was attended by a goodly number of parents and patrons of the school. Mrs. C. S. Sawyer of Los Angeles, district chairman of education of the Parent-Teacher association, gave a very interesting talk on character building in the school. Many good suggestions and helpful hints were given by this charming woman, which will prove beneficial not only to the parent, but to teacher and pupil as well.

As usual, Miss Melicent Virden charmed her appreciative audience with her delightful piano numbers. Under the direction of Mrs. Ruth Mitchell, supervisor of music, the Tropic Glee Club rendered several choruses. At the close of the interesting program Mrs. Jesse A. Chappins, Mrs. Melville G. Musser and Mrs. Willy Kohl announced that dainty refreshments were awaiting all who desired to partake of the hospitality of these charming hostesses.

LOCAL W. C. T. U. TO MEET

Miss R. M. Sherer, corner of Broadway and Adams street, will entertain the local branch of the W. C. T. U. Friday afternoon, Feb. 4. The meeting will begin promptly at 2:30 p. m. The official board will meet at 1:30 for important business. The instruction quiz on "Knowledge of the Organization" will be led by Mrs. Mary Moore, vice-president. All new members are urged to be present. The parliamentary drill will be conducted by the president. Outlines of plans for the campaign will be given. Members are requested to remember the penny sack and to secure new members.

WHY MEN ARE BALD

In the February American Magazine Dr. Arthur R. Reynolds, former health commissioner of Chicago, gives the following reason for baldness:

"The hats that men wear are the cause of their baldness above the hat line. Women also wear hats, but their hats are fastened to their hair and do not grip the head as men's hats do. All other cases of baldness, such as infections, seborrhea, etc., affect both sexes alike and are, in fact, more difficult to treat locally in women than in men because of their long hair."

YOU SPELL SOME COFFEE SOLD R. U. B. B. I. S. H. Booth's Better Coffee, spells G. O. O. D. 20c, 25c, 30c, 35c, 40c and 45c pound. Phone for delivery, Home 2312; Sunset Glendale 1298-W.

NORTH GLENDALE

Mr. and Mrs. Karl R. Mertens of 1109 North Louise street entertained at a beautifully appointed dinner Wednesday evening in honor of their little son, Master Carl Weldon, who celebrated his seventh birthday on that date.

A large birthday cake adorned with the requisite number of pink candles was placed in the center of the table and a full course dinner was served to the following guests: Mr. and Mrs. Charles Duclos of the Leona Apartments, Los Angeles, and the host's mother and sisters, Mrs. M. Mertens, Miss Thekla Mertens and Miss Carmen Mertens of Los Angeles.

Mrs. James M. Wilson is confined to her home suffering from an attack of la grippe.

Mrs. Frank Bitz and children of Burbank are spending the week with Mr. Bitz' sister, Mrs. E. P. Benfield of 1641 Ruth street.

Mr. and Mrs. R. T. Winterbottom and children of Alhambra were Sunday visitors of Mrs. Winterbottom's sister and family, Mrs. R. T. Burr, of 829 Campbell street.

Mr. W. Collins of Lankershim was in North Glendale on Tuesday of this week.

Mr. and Mrs. Charles Josselyn of 1637 Ruth street were recent guests of the former's parents, Mr. and Mrs. E. A. Josselyn of Rowan avenue, Los Angeles.

WASHING SWEATERS

From the New York Evening Sun: The sweater sets will get dirty and can be washed successfully if the following decalogue is kept in mind:

- 1. Prepare water of tepid of 100 Fahrenheit temperature.
2. Make a white soap solution as follows: One large bar Ivory soap, two tablespoonfuls powdered borax, one-half cup wood alcohol, three quarts cold water.
3. Lay in the garment quickly, keeping it in a heap and moving it with both hands up and down, taking care that no part drags or weighs down the whole mass.
4. Remove from soap water and put into rinsing water of the same temperature, repeating above process.
5. Squeeze, but do not wring out of rinse water.
6. Stretch garment carefully, especially bottom edge, pockets, cap band, etc., getting it back into normal shape.
7. Never hang up to dry. But lay on a board or table covered with a white cloth and in a warm location—about 70 degrees Fahrenheit.
8. Pin the garment in shape either with thumb tacks or large pins.
9. Turn the coat or garment over at least once while drying.
10. Do not hurry the drying as it is better to take two days to dry slowly and thoroughly than to subject it to more heat and dry in a short time, for that would toughen the wool and make the article stiff.

WAR AND PEACE

As the pen is mightier than the sword, And the pen is all I can afford, On this terrible war I wish to write To let you know I don't want to fight. Another country come here? No such stuff! When they get through there they'll have enough. Our honor of course we should protect, But one thing we should recollect, Two wrongs do not make one right, And there's nothing to gain in a long fight. Remember the blood that we would shed, Would not put the life into our dead. If a man walks up to me and says "You lie!" I do not whack him in the eye, But give him time his temper to cool, Then in the mirror he can see the fool. I am always willing to arbitrate, It beats fighting at any rate. I did not lie—perhaps "a mistake," If so, an apology I will make. As we all know, "Might does not make right," So why in thunder should we fight? Once when weakness was on our lips, They said Spain had great warships; We prepared here for over a year, And let them get their ships all here, Then whipped them with many less men. Than in our standing army to begin. So do not say that we are weak, Or that we would show a yellow streak. If this country they try to land on, We'll whip them on less ground than they can stand on. No do not think that I would run, For if it's necessary I will shoulder a gun; And as long as the flag waves over my head I would fight for my country until I am dead. Do we think we could whip them? Do we? There's plenty here just like Dewey. Study this and remember the rule, Wise men can learn something from a fool. If you think this good enough argument, Just send it to the President. —F. O. MOORE.

FOLLOWING THE SEASON'S COLORS

The Parisienne varies her color schemes as well as the materials of her wardrobe, not only with an eye to what becomes her particular type, but also to be in harmony with the seasons. So, in the late winter, as spring approaches, she wears violets in her hat and on her coat or muff, later bringing in the yellow and burnt orange tones; while, as the spring advances, she appears in the light greens and blues of the trees and skies. All this adds to her infinite variety, and is one of the secrets of good dressing.

Also the type of flower in blossom at the time is carefully held to. One does not see a Parisienne with white and lavender lilacs decorating her head in August, nor blues in September; only the dahlias and other autumn artificial flowers appear when the fall comes on.

As she varies her colors, so does she vary her materials and she has many things for the spring "demiseason." Silk toques and those of satin or ribbon are used, perhaps with a touch of straw trimming, or the all flower hats with just a bit of velvet showing. These mid-season hats may be worn late in the spring on the cool days when we cling to warm suits and scarfs. The woman who appears in a straw hat, with nodding flowers on it, when the season of flowers has not yet arrived, is not dressing in harmony, as the French see it.

RECIPES

Noodles: Take one and a half cups of flour, one egg and water enough to mix the dough so that it may be rolled out thin on the board. Let it dry, then cut it into any desired shape; usually it is cut into long narrow strips. These are dropped into boiling soup, fifteen minutes before serving time. If the noodles are to be served with stewed fruit, they may be dropped into boiling water and allowed to cook fifteen minutes.

Peach Dumplings: Make the same dough as is made for the noodles. Roll it out thin and cut it into four-inch squares. Fill the squares with a little chopped fresh fruit and fold dumplings into boiling water and the dough tightly over it. Drop the dumplings into boiling water and let them cook fifteen minutes. Drain them carefully and sprinkle with pot cheese and melted butter.

Bohemian Pot Cheese: Take one quart of sweet milk and one quart of sour milk, turn them both into a basin and set the basin into a larger container filled with hot water, being sure that none of the water gets into the milk. Push it to the back of the stove where it will remain at an even temperature, below boiling point. The milk must not boil. When the curd is set, drain off the milk, break it up finely with a fork and pack it into little basket open work molds; then set it aside to cool. When cold, serve the cheese with any good jam, or with salt and fresh cream.

VISITING JEWELER, A WOMAN'S WORK

Among the newer occupations that may be followed by women that of the visiting jeweler is well established. She is employed by the large jewelry establishments, is as reliable as any member of the firm, and must be a skillful artisan in order to hold her position. Her field of labor is in the homes of the firm's customers, where she goes upon request to examine the family jewels for needed repairs, or to recommend new designs if the jewels are to be done over in modern settings.

The visiting jeweler takes with her a kit-bag of tools her velvet guttered trays and all the necessities of her profession. She, of course, understands the making of ordinary repairs, but the more complicated work she lays aside for the factory or workshop. If she takes any jewels away with her, she telephones to the shop and has a companion and a cab to convey her and the jewels to their destination.

Strange to say, her greatest activity is the re-stringing of pearls. These treasured possessions the owners are loth to let out of their sight for a moment. With the visiting jeweler the owner herself may count the pearls as she drops them into the velvet gutter preparatory to their being strung anew. This done, she fastens the clasps in place and the pearls are again counted.

Some women who have taken up this work have become experts, designing exclusive pieces for the settings of semi-precious stones. For these settings platinum, silver, green gold and combined metals are popular as they harmonize beautifully with the coloring of the various stones. The occupation is a lucrative one, the hours are short and the persons with whom the visiting jeweler comes in contact are agreeable.

GLENN B. PORTER'S SECOND HAND STORE

No special sales. EVERY price a SPECIAL price, every article a bargain. Used furniture bought, sold, exchanged, repaired, or made to order. Boost for Glendale—give your home merchants a fair deal. 1218 W. Broadway, Half Block from P. E. Depot.

Altogether it is a most satisfactory career for a girl whose taste lies in this direction. There are few more fascinating studies than that of gems; and, with the revival of many of the old stones, it takes considerable research to adjust their valuation and the appropriateness of their setting.

HOW TO CHOOSE A HAT

It has been said that the hat will make or mar the costume, and Mrs. Ruth Butts Carson, director of the Drees league conferences, agrees. The hat is often the first thing that is noticed about a person; if hats and gowns were made by the same artist, it would be easier to have the costume an unbroken unit.

In choosing a hat, there are many points to be considered. First of all, the hat should fit the person—should belong to her; this implies a possession not acquired by money, because it is something intangible, indescribable. Large hats should never appear to be heavy, never reach beyond the shoulder line. Hats which seem to tip over backwards should be avoided; great care should be taken to make sure that the headsize is neither too large nor too small and that it is properly placed. The hat should be in the proper proportion to the head. Also, height has to do with the becomingness of hats; all milliners should have pier glasses in their shops.

There are certain shapes that are always in style—such as the short-backed sailor; if a woman finds that this shape becomes her, it is wise for her to cling to it. Very often a frame may be used for a number of years, for good velvet which may be steamed and pressed will give long service. Trimmings may be adjusted with loops and pins so that they are easily changed from one hat to another. Because hats must correspond with various costumes they should be in some harmonious color—the leading color in one's wardrobe, preferably. It will be found that a hat of soft green may be worn with a number of differently colored gowns; green is the fundamental color in nature with which innumerable other colors are combined.

Women should then choose their hats with due consideration; if they choose well, both as to style and materials, the ordeal will not need to recur often. One should select from the fashionable things the things that are really good and beautiful; it is not necessary, when the choice is so great, to wear unbecoming things merely because they are fashionable.

BUSINESS ETHICS IN HOUSE-KEEPING

With busy women it is often a problem how to combine business with successful home making. A writer in the New York Tribune explains how this may be done, insisting that her only secret of success is in doing the same thing at the same time every day, eliminating all unnecessary things in the matter of food, clothing and housefurnishings, and, at the same time, keeping a home that is cozy and comfortable at all times.

This woman applies business ethics to cooking and cleaning; she eliminates unessentials, uses every minute to good advantage, and does her planning ahead. In describing her day in detail she tells of rising every morning at 6:30 and preparing a breakfast of fruit, chops or eggs, hot biscuit or toast; the family breakfast is finished at 7:30. In the meantime, beds have been aired so that they can be made immediately after the meal and the rooms put to rights. Then the breakfast dishes are washed and put away, after which a simple dessert is prepared for dinner. Then this lady, on leaving her apartment at 8:30, proceeds to the market; there she buys whatever she needs for the evening and orders the things delivered at 6 o'clock.

When she reaches home about 6 o'clock she starts the dinner preparations at once; the pudding is now put into the oven. While the steak, chops, or fish, which may be prepared in a half hour, are cooking, fifteen minutes are devoted to the use of the carpet sweeper and duster. This is all the daily cleaning that the five-room apartment gets, but once a week a cleaning woman comes, sweeps, scrubs the floors, rubs the

**REMOVING CREASES**

Clothes that have been packed away in trunks or drawers for some time are often very creased when they are taken out to wear. The best way to remove the creases is to hang the clothes on a line in the bathroom, shut the windows and doors, and turn on the hot water tap, first of all making sure that the water is really hot. A heavy garment which is very strongly creased can be spread over the steaming tub.

The steam will take out all the creases, and make the clothes look quite fresh again. If possible, it is best to hang them out in the air afterwards to air thoroughly—Philadelphia Inquirer.

**AN OPEN APPLE PIE**

Pare, slice and cook the apples, then mash or press through a strainer. To each pint while hot add a teaspoonful of butter, after adding sugar to make sweet. Dust on a little grated nutmeg and cool. Line a plate with paste, fill with the seasoned apple and lay a latticework of narrow strips of paste over the top. Bake, and when served dust lightly with powdered sugar. The strips may be cut with a paste jagger or with a knife and then gashed along the edge to resemble a feather.

When preparing fowls for roasting, after they have been stuffed and trussed, the Bohemian woman brushes them over with butter and sprinkles them thickly with caraway seeds. This is done to season them well while they are cooking.

No. 31342

**NOTICE OF HEARING OF PETITION FOR PROBATE OF WILL**

In the Superior Court of the State of California, in and for the County of Los Angeles.

In the Matter of the Estate of William Lee, Deceased.

Notice is hereby given that the petition of W. W. Lee and Ed. M. Lee for the Probate of Will of William Lee, Deceased, and for the issuance of Letters Testamentary thereon to W. W. Lee and Ed. M. Lee will be heard at 2 o'clock p. m., on the 9th day of February, 1916, at the Court Room of Department 2 of the Superior Court of Los Angeles County, California.

Dated January 22, 1916.

H. J. LELANDE, Clerk.

By H. H. DOYLE, Deputy Clerk.  
CHARLES L. Evans, 1209-10-11  
Haas Building, Los Angeles, California, Attorney for Petitioners. 130111

**—LA CANADA NOTES**

Intersections are being put on streets which cross School street.

Mrs. Kropf of Alhambra visited her sister, Mrs. E. A. Potts, Tuesday of this week.

Mr. Wm. Metzger has been visiting his family for a few days the past week.

Mrs. D. A. Peet and children left for Antelope valley Thursday of this week.

Mr. and Mrs. C. Olsen and son spent last Sunday in Lomita visiting their friends, Mr. and Mrs. William H. Hislops.

The La Canada Valley club will hold its regular monthly business meeting Monday evening, Feb. 7. All members are urged to come.

Craig street, which was badly damaged during the last rains, is now being graded and fixed up and will soon be in as good shape as ever.

A large number of La Canada people went over to La Crescenta Sunday over the new state boulevard to view the new school building nearly completed at that place.

B. D. Jackson's stage line is not running to Montrose now. Instead, La Crescenta is its terminus on the G. & M. road, while Pasadena is the other terminus.

The monthly business meeting of the Ladies' Aid society was held at the church Wednesday. The ladies expect to refurbish the pulpit in the near future with curtains and carpet.

Monday morning D. J. Green had the misfortune to break his right arm at the wrist while cranking his Ford car. The break is considered very serious. Dr. R. S. Lanterman is attending the case.

Mr. John Bonzo has left our valley and has gone to work in Los Angeles. He will be employed with the Edison Electric company in Los Angeles.

Bishop Bashford, the cousin of Mrs. A. G. Williams, has gone away for a short time, but expects to return in the near future.

Several young people of the valley are planning to go to the debate at Huntington Park with the Glendale team. Messrs. Howard Stickney and Samuel Durand will uphold the affirmative side of the question at Huntington Park for Glendale.

Miss Margaret Armstrong graduated from the Glendale intermediate school Friday evening, Jan. 28. Miss Armstrong started with her High School work Monday. Mr. and Mrs. J. H. Armstrong and Misses Faye Crossland and Clara Armstrong attended the graduation exercises.

**Officers Re-Elected**

At the meeting of the stockholders Canada Saturday, Jan. 29, the directors of last year were re-elected of the Valley Water company of La and are as follows: President, D. J. Green; vice president, H. E. White; secretary, F. D. Lanterman; treasurer, E. A. Brigham; auditor, H. S. McKay, Jr.

**P. T. A. To Meet**

The La Canada Parent-Teacher association will hold a meeting Friday afternoon at 2 o'clock. An invitation has been extended to the La Crescenta Parent-Teacher association and a large crowd is expected. Round table talk will be the main feature, and a review of the past year's work will be given. The program will be furnished by the children of the school. All are urged to come.

**Meeting of Improvement Association**

The La Canada Valley Improvement association will hold its regular meeting Saturday evening, Feb. 5. The program is being prepared by Messrs. McMullin and Johnson. The speaker for the evening will be Col. John Sobieski of Pasadena. Col. Sobieski will answer any reasonable questions that the audience may wish to ask him. After the program refreshments will be served. Let us have a good crowd. The president is anxious that every one come and hear the speaker.

**Canyada Park May Be Name**

In quest of a name for the new park at the entrance to La Canada valley, which is located north of Devil's Gate, Chairman Hamilton of the city commission of Pasadena, says the Pasadena News, has hit upon the idea of calling it Canyada park and now faces the broad problem of discovering what the Spanish word "Canada" means and the further question of whether the people would ever correctly pronounce the name unless it was spelled phonetically. Correctly speaking, the valley is that of La Canada, but as the Spanish "n" is much of a puzzle to the average citizen of the United States, the valley title is often spelled La Canyada. Chairman Hamilton believes that with this spelling the people would learn to call it Canyada park and he is now in search of a Spanish scholar who can tell him just what "Canada" means to the sons of the sunny south. He knows that La Canada means in Spanish some sort of a canyon, possibly a broad canyon, but he

is anxious that the name should be exactly appropriate to the situation.

**Keeping Roads in Shape**

Mr. B. J. Kirst, deputy county road supervisor, has had a very strenuous time keeping the roads in his district clear. He states that the largest crew ever employed by the county here was at work keeping the roads in his district in a passable condition. Mr. Kirst says that he was greatly assisted in his work by many loyal citizens who stayed up through the night in the rains to save the public roads. Among these were Mr. A. G. Williams of School street and Mr. Frank Granger.

**On Highway Work**

Mr. W. F. Metzger, a resident of this place, has been employed for some time past on bridge work for the county along the route of the state highway. Lately Mr. Metzger has been in the vicinity of Saugus. Returning to La Canada the first of the week he reports that the roads from Saugus to Los Angeles are in very good shape, but the seventy-five mile strip of dirt highway in Kern county through Bakersfield is completely washed away in places. The bridge over the Santa Clara river is out also, which makes auto travel to San Francisco by this route impossible.

**Death of Valley Resident**

Mr. John C. Shenck passed away at his late home here January 30. Mr. Shenck has been a resident of our valley for a number of years. He owned a beautiful ranch on Michigan avenue. For several weeks Mr. Shenck had been confined to his bed with pneumonia and was removed to his daughter's home in Los Angeles. There he was thought to be improving in health. Sunday morning he requested to be brought to his ranch to spend his remaining days and his daughter and her husband brought him to La Canada in accord with his wish. Mr. Shenck did not live long after reaching La Canada. It is thought the altitude was too high for his weak heart after his long illness.

The funeral was held at the chapel of Breese Brothers Tuesday at 3 o'clock. Mr. Shenck leaves three children, Mrs. W. L. Blanchard and Mrs. Harry Ackelson of Los Angeles and Mr. John F. Shenck of Cleveland, Ohio.

**LA CRESCENTA**

Mr. George Lewenstien was a Los Angeles visitor Sunday.

Rev. Theodore Hopping spent Tuesday in Glendale.

Mrs. Catharine Gray has been visiting her sister in Claremont the past week.

Grandma Slusher is reported quite ill in Los Angeles. Mrs. Slusher is the mother-in-law of F. T. Scott and is well known here.

Mr. and Mrs. Koons and son Wesley have moved into the place recently vacated by Judge Spargur.

Mrs. M. A. Tobey of Los Angeles is enjoying a week's stay with the James Mannings at Wetherbee's store in La Crescenta.

The Tuesday Bridge club met last Tuesday at the home of Mrs. A. W. Brown on Los Angeles avenue.

Mrs. Adelaide Wise of Los Angeles, who resided in the valley for some time prior to the death of her son Tom, is reported as having moved to Denver.

Mrs. Kidd returned Tuesday from a month's trip to Arizona.

Mr. Willis Wise is expected to return during the week from the Los Angeles hospital where he has been confined for a fortnight while undergoing treatment for an old injury.

Miss Mary Clarke of Los Angeles was a visitor at the Dr. Cloud home on Prospect avenue during the past week.

**At the Fairmount**

Registries at the Fairmount hotel during the past week were: Miss Adelaide Barnard, Mr. Ed. Sharp, Mr. Henry Nolte, Mr. D. E. Farley, Mr. and Mrs. C. H. Wofelt, Mrs. H. L. Anderson, Mr. George Woodmanker and Miss Martha Wolfelt.

Mr. Hanger, Mr. Adam and Mr. Conley have been busy these sunny days in fixing up the front yard while the young folks at the place have been entertained by new dance records on the Victrola.

Incidentally, has any one a good cow to sell? Mr. Hanger wants to purchase one. Phone or write the Fairmount hotel.

**Parent-Teacher Meet**

Friday evening of last week the La Crescenta Parent-Teacher's association met at the school house. Mrs. Biddison of Los Angeles was present and addressed the seventy-five residents present on the subject of Child Labor Laws. Mrs. Biddison enforced upon the minds of her hearers the great influence and part the women of the state can have in the enacting and enforcing of such laws. Several musical selections by the pupils and a reading by Miss Dorothy Cloud concluded the program, after which a dainty collation was served.

**Water Company Meets**

Joe Hawkins, secretary of the La

Crescenta Water company, announces a directors' meeting at the home of the president, H. G. Johnston, Monday at 2 o'clock.

**At La Crescenta Hotel**

Those registered during the past week at the La Crescenta hotel are: Mrs. A. G. Wells, wife of a prominent Los Angeles railroad man, and two daughters, Mrs. Johnston and Miss Louise Wells all of Los Angeles; Mrs. Anna Watt, Monmouth, Ill.; and Harold L. Watt, Colton, Cal.

**Catharine Klausen Surprised**

Saturday evening a jolly party of young folks surprised Miss Catharine Klausen at the home of her aunt, Mrs. J. Leenhouts. The party gathered at the home of Miss Margaret Hauber and then entered the Leenhouts home by the rear door, completely surprising Miss Klausen as she sat at the piano. It was indeed a complete surprise. Dancing, games and music were enjoyed after which a light lunch was served. As a conclusion of the evening's fun "Bob" Wise took a flashlight picture of the group.

Those present included: Miss Margaret Hauber, Miss Thelma Stanton of Eagle Rock and Miss Lucile Hadley of Glendale Heights, guests of Miss Hauber; Miss Esther Conley, Miss Gladys Thompson, Miss Dorothy Cookson, the honoree, Miss Klausen, and Miss Edna Welborn; Messrs. Bob Wise, Louis Maranville, Herbert Scheuner, Niles Thompson, George Lewenstien, Carl Adam and Walter Hawkins.

**School Notes**

It is expected that the new school house will be ready for occupancy the middle of this month. The new building was supposed to have been completed the first of the year, but the excessive rains put a stop to all work.

Wesley Koons has been enrolled in the fourth grade during the past week.

Manual Ferreira has been out of school the past week on account of illness.

May Caldwell returned to school Monday from a siege of sickness.

**BURBANK**

Phone numbers are being changed a great deal in Burbank with the establishment of the two new exchanges.

Mr. McGuire of Shelton & McGuire and family have removed to Olive street where they are now at home.

Herbert W. Lewis' home and the Pacific Electric depot are two places which have had Home telephones installed during the past week.

Mr. Goodall and wife, who have been residing for some time on Olive street, moved to the cottage owned by Mrs. Le Doux, east of Verdugo avenue.

**Tuskegee Singers Coming**

Next Monday evening at 7:30 o'clock the Tuskegee singers under the direction of Prof. Wood will present one of their popular programs at the Burbank High School auditorium. The Tuskegee school boys are very much appreciated by Burbank audiences for their splendid programs. Prof. M. M. Livingston, who was instrumental in getting this company here, states that no admission will be charged, although a silver offering will be taken. This money will not go to the boys, for they are sent on tour by the school. The collection will go directly to the treasurer of the school at Tuskegee. A most representative audience is expected to be present.

**Municipal Improvements**

Burbank is moving steadily ahead in the line of municipal improvements. In time, not far off, this city will take its place as one of the best equipped and modern little cities in the Southland.

In an interview with the Progress reporter, Mr. F. Curt Miller, in charge of the water and lighting departments, stated that within two weeks his crew would start in placing about seventy new fire plugs in the more central part of the city where the municipal water mains are laid.

Mr. Miller also told of laying over fifteen hundred feet of water pipe west of Cypress street during the past week. The lighting department has about six wagon loads of shavings at the pole yards at Olive and Front streets which Mr. Miller states he would be glad to have any one needing kindling remove.

**Miss Theddaker Surprised**

A most delightful surprise party was given Miss Alpha Theddaker at the home of her parents on Verdugo avenue last Saturday evening by members of the Christian Endeavor society. During the evening an informal social program followed and Miss Theddaker was presented with a gold C.E. pin. After this refreshments were served.

Those present included Mr. and Mrs. L. B. Taylor, Mrs. Harry Davenport and daughter Dorothy, Mrs. Ray Linn, the Misses Esther and Hazel Rogers Clyde Sainot and the Theddaker family.

**Plans for Church Fair**

Plans are taking headway for an all-day fair to be given under the auspices of the Christian church board and in which all organizations

**News Ads Bring Results**

and members will take an active part to make the affair a success.

Rev. Harry Davenport told the Progress reporter that the date would be set within a week. The event will not be of the usual type of church fair, but will be on one of the downtown streets where an empty store building can be utilized for a cafe in which a chicken dinner will be served.

The Rev. Mr. Davenport also announced an all-day institute which is to be held at the Christian church February 13. This meeting will be in preparation for the convention which will be held in Tropic.

**High School Events**

Wednesday noon the girls of the Junior class held a pie sale in the main hall for the benefit of the class treasury. This method of extracting the elusive nickel from the students has proven quite successful as the Seniors held a very profitable sale of chocolate recently.

Mr. Hampton of the science department will coach the high school nine this year. One of the school directors was heard to remark on the street that the town and directors are back of their team to the limit. This statement would seem quite true for the school board purchased a new set of suits at a cost of \$75.

Friday evening Mr. Hugh Pomeroy, representing Burbank High school, will go to Citrus Union High school where he will take part in one of the first debates in the State Extemporaneous Debating league which is under the direction of the University of California. The general field for discussion will be school athletics. It is understood that a stag party of twenty-five boys will accompany Mr. Pomeroy.

In another article in this column will be found the announcement of the Tuskegee singers who will appear at the High School Monday evening.

**Lane Returns From East**

With the smile of prosperity, which he acquired while touring the middle west and east lighting up his face, O. C. Lane of the Burbank garage arrived in town Wednesday morning after a most enjoyable trip extending over a period of three weeks.

Among the places visited by Mr. Lane were Chicago, Detroit, Salt Lake City, Little Rock, Memphis and points in New Mexico and Leamington, Canada, which would indicate that he had traveled some. Sixteen places in one day was his record.

Automobiles and relatives were Mr. Lane's double purpose for the trip. At Little Rock, Memphis, points in New Mexico and in Leamington, Canada, he visited relatives. Manufactories of autos visited were: Dodge Bros., Ford, Studebaker and Maxwell. He also attended the De-

troit and Chicago Automobile shows. These shows, he says, were no better than the Los Angeles show; in fact, no new models were shown and as far as the decorations went, Mr. Lane was unable to see any superiority over the local show's decorations.

When asked how business conditions were in the east, Mr. Lane replied: "There is no such thing as 'bad times' in the east. In every city which I visited there is a greater demand for men than there are men to fill the place. Wages, too, are very high as manufacturers are offering every possible inducement to their men in order to secure full shifts." Mr. Lane spent some time going over the Ford plant near Detroit.

He found the Detroit plant turning out 1800 cars every day and planning to have placed a total of 585,000 1916 model cars in circulation before 1917 arrives. December 15, 1915, the Ford people turned out their millionth car. According to Mr. Lane, the Detroit plant covers more ground than the City of Burbank and that more people than the number residing in Glendale are employed at the place. At no time, either night or day, does any department stop work. Mr. Lane was greatly impressed by this immense industry for which he is Burbank agent.

Incidentally, while Mr. Lane was absent Mr. Lane sold Ford touring cars to Mr. D. E. Lewis and Mrs. Stella Le Doux.

**Trustees in Session**

Burbank's City Trustees met in regular session at the city hall Tuesday afternoon. Present were President Blanchard, Trustees Craig, Hogle, Kline and Forbes, City Attorney Watkins, City Clerk Emily M. Peyton, and City Engineer F. Curt Miller. The minutes of the previous meeting were read and approved and the superintendent of streets reported that the Sunset Telephone company had covered the conduit on West Second street and left the road in proper shape. On motion, the deposit of the company was ordered refunded.

Mr. Spazier and Mr. Bate then appeared before the board to present the proposition of placing a large electric sign on one of the hills in Burbank which would advertise the city all over the valley and be in sight of the passing coast trains on the Southern Pacific railway. These gentlemen sponsoring the idea presented diagrams and estimates of the cost of the project. The trustees moved that the matter be referred to the electric light committee for further consideration.

The city clerk was authorized to advertise for bids on electric material. The fire committee, appointed by the chamber of commerce to confer with the board in the matter of purchasing the new fire equipment, gave its report in regard to the hose to be used on the Seagraves engine. Action was taken on the part of the board and the hose advised was ordered by the council. In all, the new fire equipment will have 2000 feet of 2 1/2 inch hose.
