"AMPHORA"

Is the trade mark of that wonderful new ware forming such a perfect blending of the Jeweler's and Potter's Art. AMPHORA, among the Greeks and Romans, was a vase shaped vessel for holding wine; the modern AMPHORA combines all the grace and beauty of the Greek shapes with the wonderful addition of the "GRES-BIJOU" or Jewelry China. We have secured very fine assortments, which is now on view in our show rooms. Ask to see "THE JEWEL BEAUTY"; "THE WATERLILY VASE" "LA COQUETTE"; "SEMARAMIS" and other specimens of GRES-BIJOU, Jewelry China.

ENGINE JUMPED TRACK.

Four Men Lost Their Lives, Three of Them Being Scalded to Death.

Willits, Cal., Aug. 29.—Four men were killed and several others injured in a railway wreck on the California Northwestern, near Silverwood Junction, yesterday. The engineer, with his crew, was bringing his engine down a steep grade, when suddenly the engine began to slide. In reversing, the engineer lost control of the engine, and the engine jumped the track and fell over on its side. Engineer Lucas was caught under the engine and killed. W. Higgins, H. L. Stolnecker and C. Leotiote were scalded to death by steam from the broken pipes of the engine.

MURDERED FOR MONEY.

Hermit Killed and His Body Buried in a Shallow Grave.

Butte, Mont., Aug. 29.—A Phillipsburg, Mont., special to the Miner says: The badly decomposed body of George A. Reed, who has been missing since last June, has been found in a shallow grave near Boulder creek. The body shows that Reed had been shot in the back and dragged some distance to the place where he was buried. Owing to the breaking of a shovel handle, the grave was not dug very deep, and the body was covered with brush and earth and a big tree fell.

It is supposed Reed was murdered for the money he is known to have hoarded in his hermit cabin in the mountains. Two arrests have been made in connection with the crime.

A new railway station costing \$6,000,000 is soon to be built in the German university town of Heidelberg.

LONDON PRESS EULOGIZES JAPS

FOR MAKING SACRIFICES IN CAUSE OF PEACE

Is There Something Yet Unrevealed? Roosevelt Given Credit for Outcome of Conference.

(Associated Press)

London, Aug. 29.—12:43 p. m.—The news of the conclusion of peace at Portsmouth yesterday reached London so late last evening that with the exception of official and diplomatic circles and those who were in the city at a late hour the announcements in the morning papers came as a complete surprise. Even many cabinet officers and other high officials were ignorant of the momentous event until today, as those who compose the official and social circles in England are now gathered around the lions for grouse shooting.

With the general public the news was received with the usual enthusiasm and admiration for Japan's "sacrifice in the cause of peace." The evening papers follow the lead of the morning newspapers in bestowing unstinted praise on President Roosevelt to whom they give the fullest credit for the outcome of the conference whose decision was entirely at variance with their daily predictions since the opening of the negotiations. Both papers and people were so astounded at the outcome of the conference that they feel that there is something in the agreement arrived at which has not been published, and that if this is not the case then the new Anglo-Japanese treaty has affected the result in some way.

In this connection the Pall Mall Gazette says: "The enlarged treaty with England may have had considerable weight in persuading the Mikado and his advisors that the Japanese position in the Far East is practically impregnable and that peace may be made without pressing for the payment of costs."

The paper adds: "Japan now stands in position of impregnable supremacy in the Far East, and this supremacy could only be disputed by a coalition against which her alliance with the greatest naval power in the world constitutes an absolute guarantee."

In this connection the Pall Mall Gazette says: "The enlarged treaty with England may have had considerable weight in persuading the Mikado and his advisors that the Japanese position in the Far East is practically impregnable and that peace may be made without pressing for the payment of costs."

The paper adds: "Japan now stands in position of impregnable supremacy in the Far East, and this supremacy could only be disputed by a coalition against which her alliance with the greatest naval power in the world constitutes an absolute guarantee."

CONGRATULATIONS FROM ITALIAN NEWSPAPERS.

Rome, Aug. 29.—The majority of high government officials and members of the diplomatic corps are away from Rome on their vacations, but those remaining in the capital when acquainted with the result of the conference at Portsmouth expressed their gratification and appreciation enthusiastically. This morning's newspapers pay tribute to President Roosevelt and extended congratulations to Russia and Japan on the outcome of the conference.

MORAL ADVANTAGE RESTS WITH JAPANESE.

St. Petersburg, Aug. 29.—"A great diplomatic victory for M. Witte, but a great moral victory for Japan," is the verdict of Prince Oukhomsky in his editorial in the Vladiostok to-day. He says: "Notwithstanding the difficulties under which the negotiations commenced, M. Witte carried out his task with the greatest skill and obtained from Japan the utmost she was prepared to give. More we expected to receive, but though M. Witte wrested out of defeat these advantages, the moral advantage rests with Japan. She will be recognized in the Far East and in Europe as the foremost power, and has acquired a predominant position in Asia, while Russia's prestige has suffered a correspondingly heavy blow." However, Russia is only reaping the reward of war conceived in injustice, and resting on a policy of aggression towards a weak nation, against which I and others warned the government. I was for peace before, and have been ever since the commencement of the war, and I rejoice that peace has been concluded. I have no fear of the results on the army. Some of the men will object to this peace, but the great mass will be glad of the termination of the war on so honorable a basis, and will be content to return to their homes.

It is impossible to tell what will be the result of peace on the internal situation. The revolutionary movement has roots a generation deep, and its causes are generally independent of the war which preceded, though it has been fostered by the misfortunes of the conflict. The agitation and turmoil will no doubt find an outlet in the coming elections for the Duma, regardless of the outcome of the war.

In conclusion Prince Oukhomsky pays a high tribute to President Roosevelt, whose name should be blessed throughout Russia."

THE BUTTE COLLISION.

Verdict of the Coroner's Jury—No Gates at Railway Crossing.

Butte, Mont., Aug. 29.—A coroner's jury has returned a verdict in connection with the collision between a street car and a Butte, Anaconda & Pacific freight car on August 20th in which eight persons lost their lives and a score of others were injured. According to the verdict the railroad company had failed to install gates at the crossing and the city council was held negligent for failure to compel the railroad to put in the gate.

KILLED BY LUNATIC.

Toronto, Aug. 29.—A lunatic at Mi-

croasay asylum killed Guard Albert William Curtis with a shovel on Friday.

The victim lived only twenty-four hours.

TROUBLE OVER ROAD.

Man Charged With Blocking Public Highway by Building Fence Across It.

(Special to the Times.)

Nanaimo, Aug. 30.—The trouble over the road to East Wellington has resulted in James W. Louden, farmer for James Dunsmuir, being summoned to appear before the magistrate for blocking the public highway by building a fence across it. The road was built through in 1901, and in the fall of 1903 Mr. Dunsmuir had a fence built across it. This was ordered removed, and the road gazetted in November of the same year. Now another fence has been put across, and the summons follows.

WILL RECOVER.

(Special to the Times.)

Vancouver, Aug. 30.—Harry Edgett and F. R. Stewart, who were injured in last night's auto accident, will recover. Both were badly shaken up when the street car crashed into the auto. The automobile was badly damaged.

THE AUTHORITIES WILL TAKE ACTION

(Special to the Times.)

Manitoba Farmer Trampled to Death By Team of Bronchos—Lad Killed by Lightning.

(Associated Press)

Toronto, Aug. 29.—The Attorney-General has received a great many letters, principally from persons in the United States, protesting against the destruction of the beauty of Niagara Falls by corporations who use the water for business purposes. The writers ask that some international action be taken to prevent this. The state department is looking into the matter.

Coming to Coast.

Sir Frederick Borden, minister of militia, leaves on Saturday for the Pacific coast.

Many Protests.

The Governor-General has received a great many letters, principally from persons in the United States, protesting against the destruction of the beauty of Niagara Falls by corporations who use the water for business purposes. The writers ask that some international action be taken to prevent this. The state department is looking into the matter.

DECISIVE VICTORY FOR CANADIAN CRICKETERS

(Special to the Times.)

Toronto, Aug. 30.—The international match ended yesterday in a victory for Canada by an innings and 29 runs. The total scores were: United States, first innings, 127; second, 80; Canada, first innings, 245.

Though L. York, of Victoria, did not come off as batsman in his first international, his brilliant fielding showed the stuff of which he is made. His score was struck.

Farmer's Death.

Winnipeg, Aug. 30.—E. H. Belfry, a respected farmer of Melita district, was knocked down by a team of bronchos and trampled on, sustaining injuries which caused his death.

Beyond Expectations.

Winnipeg, Aug. 30.—The Lakes of the Woods Mining Company today shipped some of what from the farm of Mr. Lovett, Dominion City. The wheat is a good sample of No. 1 Northern and went 26 bushels to the acre. Seventy-five per cent. of the wheat cut is turning out beyond expectations.

On Holiday.

Dresden, Ont., Aug. 30.—During a severe electrical storm which passed over here to-day Welba Thatcher, 12 years of age, was struck by lightning and killed. He was in swimming with some other boys and they took refuge under some trees. The boys were playing and singing and young Thatcher said: "Boys, you should not be so happy, you do not know when you may be struck." He went off by himself and was struck.

Defeated Players From United States

By an Innings and Twenty-Nine Runs.

(Associated Press)

Tangier, Morocco, Aug. 30.—The Sultan has replied by letter to the French minister that he continues to regard the recently arrested French-Algerian merchant Bouzian as a Moroccan subject, and will refuse to comply with the demands of the French government for his extradition.

The Final Message.

Paris, Aug. 30.—The foreign office has issued an announcement to the effect that to-day or to-morrow the French minister to St. Petersburg will call on the ambassador of the French-Algerian merchant Bouzian. The minister at the time limit will advise Mr. de la Chambre, government of the demand for the release of Bouzian and redress for his arrest be not complied with. M. Tailleur will be instructed to reach Tangier by the shortest route, and to take such steps as may be deemed necessary after his arrival there, if in the meantime the demands remain unsatisfied.

Dispatches from Toulon to the French newspapers announced in view of the trouble with Morocco the cruiser Charner, Bruix, Pothuau, Chigny, Latouche, Treville and Requin are being held in readiness.

VESSUVIUS IN ERUPTION.

Lava Is Flowing Down Side of Cone.

Tancre in Villages Near Stamboli.

(Associated Press)

Naples, Aug. 30.—Mount Vesuvius is in full eruption, and is throwing out an enormous mass of lava. Deep rumblings are heard in the interior of the crater, and lava is flowing down the right side of the cone.

Villagers Panic Stricken.

Nothing is known of Odessa officially or otherwise of the reported Jewish massacres at Gidja, Bessarabia. In Jewish circles, however, enquiry elicited denial.

If such a thing had occurred the Jews would have been fully informed.

HIGH SCORES.

The Feature at Dominion Rifle Association Meeting To-Day—Winnipeg.

Local Shooters.

(Special to the Times.)

Rockcliffe Rifle Range, Ottawa, Aug. 30.—To-day weather conditions were splendid for shooting at the Dominion Rifle Association meeting, and scoring ran high.

Sgt. Butler in the Harold L. Borden match won 55; Sgt. Carr, 55; Sgt. Richardson, 55; Lt. Col. Slater, 54; Corp. Biss, 54; Mr. Joynt, 54; Sgt. Bryant, 54.

In the Ross match, rapid fire, Sgt. Richardson, 55; Lt. Col. Slater, 55; Lieut. Kennedy, 55; Lt. Col. Slater, 54; Corp. Biss, 54; Mr. Joynt, 54; Sgt. Bryant, 54.

Capt. W. H. Forrest, 6th D. C. O. R., won the Gillisippe medal in a shot-off with Pte. L. Pinard, 43rd. Pinard retired after three misses.

PORTLAND POULTRY SHOW.

Harry H. Collier, of Tacoma, poultry commissioner for the state of Washington, is making a tour of the Pacific Coast in the interests of the show to take place in connection with the fair. It will be held from the 4th to the 12th of October, and promises to be the biggest affair of its kind ever held in the west. The birds will be judged by some of the most noted experts of the United States. It is understood that Quick Bros., of Victoria, who have a splendid collection of Buff Orpington varieties, intend entering the exhibition. It is also possible that other local fanciers will enter.

The judges for the show follow: George D. Holden, president of the American Poultry Association, of Oconomowoc, Minn.; Theodore Howes, of Indianapolis, Ind.; W. W. Browning, Oden, Utah; G. G. Hinds, Alameda, Cal.; E. J. Ladd, Portland, Ore.; Ross C. H. Hallock, St. Louis, Mo.; Thomas Wilkinson, Nanaimo, B. C., and H. H. Collier, Tacoma, Wash.

COMMISSIONER OF TERRITORIES

Colonel Fred White

HAS BEEN SELECTED

(Special to the Times.)

The Trial Inquiry—Sir F. Borden Will Start For the Coast on Saturday.

(Special to the Times.)

Vancouver, Aug. 30.—The impersonation charge was adjourned this morning until September 6th. This was done on the application of the defence on the ground that they wish to procure the evidence of a witness of the peace residing in Ucluelet west coast of Vancouver Island, and J. A. Russell, for the defence, says the defence will be that the accused was a qualified voter, that he was drunk at the time, and that if a mistake was made it was as much on the part of the returning officer as of the accused.

MONTANA COWBOY WON.

(Associated Press)

Ottawa, Aug. 30.—Col. Fred White, comptroller of the Mounted Police, has been appointed commissioner of the Northwest Territories. He will have jurisdiction over Mackenzie, Keewatin and Ungava.

JAPANESE ENVOYS ISSUE STATEMENT

MIKADO AUTHORIZED WITHDRAWAL OF CLAIMS

Clauses of Treaty Are Being Drafted— Surprise to the Officials In Russia.

Washington, Aug. 29.—News of the agreement of the peace plenipotentiaries at Portsmouth was received here with surprise, for while the official mind had in a measure been prepared for a successful outcome of the conference by the statements contained in the Associated Press dispatches from Portsmouth last night, no such speedy action was anticipated.

The state department realizes a great victory in having secured beyond any question the open door in Manchuria. The territorial integrity of China seems also assured, and with the restoration of the vast Manchurian provinces to the control of the present Emperor of China and the Dowager Empress, it is felt here that there is an end for all time of insidious foreign aggressions upon Chinese soil.

Articles 10 and 11 (interred warships and the limitation of Russian sea power in the Far East) were withdrawn. Japan agreed that only that portion of the Chinese Eastern railway south of Chant-fu, the position occupied by Oryama, should be ceded to Japan. Both sides, once the deadlock was broken, wanted a just and lasting peace, and in that respect it was decided to practically neutralize Sakhalin, each country binding itself not to fortify its half of the island, and Japan assuming an obligation not to fortify La Perouse strait, between Sakhalin and Hokkaido, which would bar Russia's commercial route to the Pacific.

The plenipotentiaries further agreed to add a new clause in the nature of a broad provision for mutual commercial privileges by which each country will soon, as possible.

THE NEWS IN THE RUSSIAN CAPITAL

St. Petersburg, Aug. 30.—The Associated Press dispatches from Portsmouth brought the first news of the results of the peace conference. It came as an electric surprise, as official and diplomatic circles had been practically without hopes of a peaceful issue of the negotiations.

A rumour current last night that Emperor Nicholas had expressed his willingness to cede the southern part of the island of Sakhalin aroused indignation, editorially, among the leading papers of St. Petersburg, where both Conservative and Liberal organizations this morning in more or less veiled editorials expressed dissatisfaction with the Emperor if he fails to keep his word not to accept a disgraceful peace. Any concession to Japan, either in money or territory, according to these papers, would constitute a serious menace to the monarchy. If the army is in good fighting trim, it would be dangerous to bring them back without giving them a chance to vindicate themselves. This note in the press is not moderate in tone, but the fact that it is even touched upon is significant. It is the breaking of the comparative silence which, considering the loyalty of the press and so-

when reduced, with water and sweetened it is pleasant to take.

You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will need it badly; you will need it quickly. Why not buy it now and be prepared for such an emergency? Price, 25 cents.

Being for Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Don't put yourself in one man's place, but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera Morbus, Dysentery and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use.

When reduced, with water and sweetened it is pleasant to take.

You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will need it badly; you will need it quickly. Why not buy it now and be prepared for such an emergency? Price, 25 cents.

society to ancient institutions and traditions, is in some quarters considered ominous.

CAME AS A SURPRISE TO FOREIGN OFFICE.

London, Aug. 29.—The announcement that the Portsmouth, N. H., conference had concluded peace was received in London just in time for brief bulletins to be printed in the afternoon papers. The Associated Press conveyed the first information to the foreign office, where Sir Eric Barrington, representing Foreign Secretary Lansdowne, expressed profound astonishment and said this was the first intimation the government had received.

In fact it has not been informed from any official source that Japan intended to make such wholesale concessions.

Sir Eric's first expression after he had heard the dispatch by a representative of the Associated Press was: "It is simply extraordinary."

The foreign office, according to Sir Eric, had no idea that Japan, intended to yield on all points. The Associated Press understands, however, that it was well known in official circles here that Japan was so anxious to make a good impression on the world that she was ready to make extraordinary concessions.

Sir Eric, representing the Associated Press, that the Anglo-Jap peace treaty was released by the announcement of the decision of the Portsmouth conference, but that the terms would not be given out till the government had been officially notified of the result of the peace conference.

ARMENIAN SHOT.

Assassines He Was Ordered to Commit the Crime.

Constantinople, Aug. 29.—The police and other officials are making inquiries into the mysterious death of a Armenian, who claims to be a naturalized citizen of the United States. According to the official version of the affair, Vartanian, who is a native of Kharpat, and resided for ten years in the United States, where it is alleged in his behalf, he became naturalized though only 20 years old, says he was ordered to commit the crime, but refused to do so when the order was issued.

The question of whether the crime will be tried by an Ottoman court or by an American consul court, Turkey, has always refused to recognize as foreign subjects naturalized natives of the empire.

BOARD AND ROOMS.

TWENTY KILLED.

Premature Explosion of Dynamite Resulted in Death of Many Mexican Laborers.

Mexico, Aug. 28.—Twenty Mexican laborers were killed and a number injured by the premature explosion of a quantity of dynamite at the port works at Manzanillo.

While it is said that the explosion was the result of carelessness on the part of some of the laborers, the families of those killed have been indemnified by Colonel Edgar K. Smoot, the contractor-in-charge of the Manzanillo port works.

The United States last year consumed 1,117,000,000 pounds of coffee, valued at \$88,000,000, less about 64,000,000 exported to other countries.

Blood and nerve builder. Drives away that tired spring feeling.

LOTS OF RAW MATERIAL.

Affairs of the Western Canada Pulp and Paper Company.

Wm. G. Ward, presiding at the meeting of the Western Canada Pulp and Paper Company, Limited, recently, said when the board were induced to take up the company they were thoroughly convinced of the soundness of the project, and it seemed to contain all the elements of success. They knew there was abundance of raw material in the concession in British Columbia--sufficient water power for manufacturing at the lowest possible price. They decided that the lowest amount of capital they could go to obtainment on was \$200,000, which amount was secured by underwriting. A dissentient shareholder, however, based his case upon a mere technicality. The company had, it appeared, not obeyed the letter of the law by accepting cheques for payment of dividend money, and the case had been carried to the courts, where it was decided against them. The "undivertised" had found themselves entangled with more shares than they liked, and had promptly demanded their money back. The large shareholders had agreed to give up their shares offered to make good the difference between the described capital caused by the withdrawal of the dissentient shareholders. They would inform the board of the decision they had arrived at at the end of a month, and the board would then inform the shareholders.

Canada Gazette. — Curtis Jadwin, a millionaire lumberman of Minneapolis, is dead at Berkeley, Cal., from Bright's disease, despite the efforts of specialists brought from New York, Chicago and his home city. Mr. Johnson was born in Canada in 1857.

Curtis Jadwin, the hero, is a type of the exchange Napoleon, who by the way passes his career under circumstances more killing, perhaps, than those of his mighty prototype. In some inexplicable manner he waits time to court and marry Laura Dearborn, a winsome girl from the country. At first Jadwin is at attention and devotion, and then the fatal magnetism of the stock exchange—*the Chicago whirlpool* by the way seizes him, and although he seems unaware of the fact he becomes negligent of his domestic duties. His mind is perpetually upon the job and wheat. He is always planning a big coup, which will cost the grain of an enemy, while the cynical world cries "hallo," and give himself not so much wealth as power. And so he revels in wheat, of which he buys and sells millions of bushels and never sees them. He "buys" and his "buys"—and all the time, by his unintentional neglect, is killing the affection of his wife.

Driver to desperation, she entertains the companionship of a former admirer, an artist with an elastic conscience and submerged principles, and is about to fly with him when a blessing in the guise of a widow prevents it. This is the crash of Mr. Curtis Jadwin's palace of wheat, which it is almost bound to break the chasm, touches him that wheat is not wheat, and is "cracked up" to be.

The curtain descends upon the reunited couple, Jadwin wearily and delightedly sitting in a big arm chair, and his wife beside him full of tender consolation. One might carry the scene further in imagination and picture Curtis Jadwin on a little Nebraska farm trying to restore his shattered fortunes by the actual production of that commodity, with which he used to airy deal by the million bushels.

There are some unusually strong situations in the play, especially in the second act when, driven to despair, by his losses in wheat, an old speculator shoots himself in his home, while outside on the lawn a garden party is in progress. The scene in the broker's office in the last act is also strong and tense, showing the operations of the tickers and depicting the tremendous excitement under which the "Napoleons" of the "change" labor when a big coup is on.

Wilton Lackaye is a capital Curtis Jadwin. He is eminently natural and quite strenuous enough to suit anybody, even "Felix" and Tom Lawson. He has a good presence, an agreeable manner, and makes his Curtis Jadwin a likable fellow. Jane Oaker is a charming Laura Dearborn, who a product of the country, is used to nature at night, and the "jungle" business of a broker's office. She has a pleasing stage appearance, and a musical contralto voice, well modulated and used with rare deftness and distinctness. The support is excellent, although the play might perhaps be described as a "play for stars," a sphere in which, however, both planets may move without collision.

WILTON LACKAYE**IN A WHEAT PLAY**

A WILD SPECULATOR

ON THE ASO CHANGE

"The Pit" Presented at Victoria Theatre
Last Evening. Strong Drama
and Well Played.

If all the plays produced at the Victoria theatre this coming season are as good as "The Pit" which Wilton Lackaye and company presented last night, the pitoune will have no ground for complaint.

It is true there were some features in connection with the production that the critical taste might not consider palatable, but then there are spots upon the sun which shines brightly enough to drown the clouds.

Let us stand back. The large audiences evidently liked the performance for it lasted upon a considerable number of curtain-calls.

The adapter of "The Pit" has produced a strong play from a strong story.

There was one man on this continent

who could handle financial stock operations with a master's touch that man was the late Francis Morris, whom death unfortunately cut short before he could produce a sober book and create an immortal trilogy. There is nothing amateurish in a play like "The Pit." It deals with strenuous conditions and strenuous men—the men of that feverish, nervous, vibrating world known as the stock exchange. It furnishes an insight into the motives which impel a man to plunge into speculation in stocks and bonds, and the only determining factor, according to the adapter, is power. The love of sport, as exhibited in a prominent among the contributions to a stock exchange strategist's triumph.

It is a stock exchange offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring health to many women, you cannot well say, without trying it,

"I do not believe it will help me."

STOP, WOMAN!AND CONSIDER
THE ALL-
IMPORTANT FACT.

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is regarding to relate your private troubles to a man, besides a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Lydia E. Pinkham, Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken.

Out of the vast volume of experience which she has to draw from, it is more than possible that she has received the very knowledge that will help you.

She asks nothing in return except your good will, and her advice has relieved thousands.

Simply any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring health to many women, you cannot well say, without trying it,

"I do not believe it will help me."

CAMPBELL'S**New Raincoats**

Our New Stock of Fall Raincoats arrived to-day.

A host of Attractive Garments in every length and size.

Styles absolutely correct, and the prices extremely reasonable.

Make Sewing Easy.

The woman, who does her own sewing and embroidery, should insist on having Belding's Silks. They sew smoothly, easily—because they are free of kinks and knots. They won't break—because they are all pure, tough silk, evenly twisted and spooled.

Belding's Spool Silks

are the result of 40 years experience in making embroidery and sewing silks. When you buy Belding's, you get the best silks for hand and machine work. At all dealers.

MILLIONS OF FEET
OF LUMBER DESTROYED

Forest Fire Raging North of Rossland
Is Most Extensive in History
of That Section.

The forest fire which is now raging to the north of the city is the most extensive and destructive that has been witnessed in this vicinity since Rossland was founded, says Sunday's Rossland Miner. It has swept since Thursday afternoon a distance of over six miles, and its path is from one mile to a mile and a half in width. It has destroyed the station, a mill on over 5,000 acres of wood, which contained many millions of feet of lumber. On the basis of a million feet to the quarter section 32,000,000,000 feet of timber has been destroyed. The fire was still moving in a northwesterly direction this morning, and unless the wind changes or a rainstorm causes it will continue unchecked till it reaches the Columbia river, and there are some splendid timber limits between the present terminus of the fire and the river. It will have to travel seven or eight miles in order to reach the river.

Amos La Rue and Andy Garvey were out yesterday during most of the day for the purpose of protecting the pipe line and flumes of the city waterworks from destruction from the forest fire that is on.

The fire started on Big Four flat made its way up the bench on the west side of Little Sheep creek, ran past the Jimbo and threatened to destroy the plant of the mine, which was saved only by the hardest kind of effort on the part of the employees of the Jumbo.

The fire, fanned by a wind from the south, kept on and reached a point beyond the valley between Red mountain and Mount Roberts. Then it crossed the valley, and soon Green mountain was ablaze. Here the flames destroyed several hundred cords of wood belonging to Messrs. Peters and Henderson, and threatened the destruction of the buildings and plant of the Green Mountain Lumber and Mining Company. Buildings and plant were saved only after a hard struggle by men sent from this city for the purpose.

The flames rushed down the sides of Green mountain, crossed the valley and leaped across Stoney creek and spread to other mountains and hills in that vicinity. It burned large areas of the timber limits belonging to Blue & Deschamps, and it was only by "back firing" that the employees of the mill, after a hard and long fight, were enabled to save the mill, and this, notwithstanding the fact that the land is cleared off in the vicinity of the mill, for a considerable distance.

The teams of Blue & Deschamps that are hauling timber from the mill to this city could not get to the mill yesterday afternoon, as the fire was burning in the woods to the northwest of Stoney creek, and cut them off.

Messrs. La Rue and Garvey got over the city water line as far as the Rock creek dam, and when they were returning they were cut off by the fire which was raging between Stoney and Rock creeks.

In order to reach this city they were compelled to go to Murphy creek and come in over the lower trail, as the woods through which the upper trail runs were on fire on both sides.

There was another very serious collapse in the sugar market in Paris on Monday, owing to the sudden demand for charbon, following the suicide of Ernest Crouvier, chairman of the board of directors of the Savoie sugar refinery, the most important concern in the trade. Shares fell 390 points. The foreign exchanges, according to report, have not been affected by the incident.

C. P. R. STRATEGY.

The Canadian Pacific Railway Company, as a distinctively Canadian institution which is willing to do business in the United States when doing business with the United States can be done with profit, and also by reason of its tremendous influence upon Canadian public affairs, is a corporation which compels our admiration and reverence. But the Canadian Pacific Railway Company's ambitions are not invariably in consonance and harmony with the best interests of Canadians. For that reason it is necessary, sometimes, in the public interest's that the great Canadian railway company's ambitions should be thwarted.

During the late session of parliament the Canadian Pacific Railway Company indicated its desire to maintain a monopoly, or a virtual monopoly, in the transportation business of Southern British Columbia by what some plain-spoken people termed an insolent or offensive attempt to dictate to the Dominion legislators on the subject of railway construction in this province. The C. P. R. based its opposition to the construction of the V. V. & E. railway on patriotic grounds. Its representatives were told to draw a weird picture of the evils that would surely follow in the train of the advent of an American road within the preserves of the loyal and patriotic Canadian corporation. A considerable number of the members of parliament were impressed, or affected to be impressed, by the arguments of the apostles of monopoly. But in the end common sense prevailed, when the absurdity of the contentions was proved by the very fact that the C. P. R., if it were true that railways crossing the boundary were bound to drain Canada of her resources, was itself one of the principal denuders, as it crossed the boundary whenever business reasons seemed to demand that it should do so.

But it appears that defeat in parliament did not daunt the minds of the men who direct the operations of the C. P. R. It has not yet given up the fight against the construction of the V. V. & E. Rebuffed at one point, it seizes another and continues its obstruction. A dispatch from Ottawa to the Times says the time of the railway commission was yesterday taken up for an hour with the consideration of the V. V. & E. Company's application for the approval of plans to build forty miles along the Similkameen river from Princeton to Keremeos. The Similkameen & Keremeos railway, a company whose existence will be a source of considerable surprise to many people in British Columbia, has protested that it was the first to file plans for construction over the ground proposed to be traversed by the V. V. & E. By what mysterious process does this hitherto unknown and unsuspected railway corporation, the Similkameen & Keremeos Railway Company, under the stimulating impulse imparted by the prospect of the construction of a railway which is something more than a paper concern, spring into activity and assert its rights to recognition and essay to block the V. V. & E.? The explanation is simple. The Similkameen & Keremeos charter, after the manner of many of its kind issued by careless legislatures, is the property of the C. P. R., and the C. P. R. now finds

it useful in its business of attempting to perpetuate its monopoly. The C. P. R. is fighting the Great Northern to the last ditch, and great as is our admiration for the pertinacity and the resourcefulness of the great and patriotic Canadian corporation, we hope, for the sake of Southern British Columbia and the realization of the great expectations which have been awakened in the interior as a result of the prospect of railway communication, that the final attempt to block the path of progress will not prove successful.

JAPAN'S "BACKDOWN."

The victorious Japanese, realizing that peace also hath her victories, have played the chivalrous, generous and magnanimous part, have appreciably abated their apparently reasonable claims, and have thus made an end of one of the bloodiest wars of history. The Russians, with their usual bravado, are proclaiming that they made no humiliating concessions, that they paid not a kopeck as the price of peace, and that by the stubborn adherence to their original position and their inflexible determination to maintain what they term their national honor they carried all before them diplomatically. Perhaps M. Witte and his fellow plenipotentiaries are entitled to all the consolation they can extract from the satisfactory conclusion of a most glorious land and sea campaign. But the Japs have brought to a climax one of the most remarkable of wars—a contest in which from beginning to end they lost not a single point—with a great moral victory which has gained them the good opinion of the world, and, with characteristic self-repression, not a single syllable of vanquished laudation has escaped from their mouths.

Nevertheless and notwithstanding the magnanimous concessions of the people of Nippon, as a result of the war the territorial ambitions of the victors have been amply satisfied and gratified. As the Times has already pointed out, Japan was not in a position to extort terms in any degree corresponding to those exacted from France by the victorious Germans. It would not be possible for any nation, certainly it would be impossible for any Far Eastern nation, to overrule Muscovy as the Germans poured into France, seize the capital, dictating such terms as they pleased as the price of withdrawal. But all that Japan demanded from Russia previous to the declaration of war is now hers. She has established a protectorate over Korea. There end henceforth be no Russian menace to her interests in Manchuria. No frowning fortress sitting beneath the Russian imperial eagles can be maintained on the Straits of Pechili. The railway through Manchuria, which cost so many millions and which was built with an eye to the development of schemes of future aggrandizement at the expense of hapless, helpless China, has been confiscated, and a barrier thus effectively raised against possible Muscovite encroachments. Sakhalien has in part been restored to its original possessors. From every point of view Japan has gained that which she sought, and more. The restoration of peace confers upon her additional honors. By her prowess on the field she has not only taught the nations to respect her as one of the powers of the first class, but she has compelled the admiration and won the good opinion of the world by the moderation she has shown as she puts up the sword.

RAILWAY CONSTRUCTION.

It was an atrocious act of treachery on the part of a Grit government, and with the acquiescence of the Liberal "solid seven," to ignore the protestations of the Tories and provide for the construction of a transcontinental railway system. The contending parties were told to draw a weird picture of the evils that would surely follow in the train of the advent of an American road within the preserves of the loyal and patriotic Canadian corporation. A considerable number of the members of parliament were impressed, or affected to be impressed, by the arguments of the apostles of monopoly. But in the end common sense prevailed, when the absurdity of the contentions was proved by the very fact that the C. P. R., if it were true that railways crossing the boundary were bound to drain Canada of her resources, was itself one of the principal denuders, as it crossed the boundary whenever business reasons seemed to demand that it should do so.

But it appears that defeat in parliament did not daunt the minds of the men who direct the operations of the C. P. R. It has not yet given up the fight against the construction of the V. V. & E. Rebuffed at one point, it seizes another and continues its obstruction. A dispatch from Ottawa to the Times says the time of the railway commission was yesterday taken up for an hour with the consideration of the V. V. & E. Company's application for the approval of plans to build forty miles along the Similkameen river from Princeton to Keremeos. The Similkameen & Keremeos railway, a company whose existence will be a source of considerable surprise to many people in British Columbia, has protested that it was the first to file plans for construction over the ground proposed to be traversed by the V. V. & E. By what mysterious process does this hitherto unknown and unsuspected railway corporation, the Similkameen & Keremeos Railway Company, under the stimulating impulse imparted by the prospect of the construction of a railway which is something more than a paper concern, spring into activity and assert its rights to recognition and essay to block the V. V. & E.?

The explanation is simple. The Similkameen & Keremeos charter, after the manner of many of its kind issued by careless legislatures, is the property of the C. P. R., and the C. P. R. now finds

the total cost of the three schemes, and

Get the Doctor Quick!

VISION OF THE MOON AND SEA.

Frederic Allston Tupper in the Boston Transcript.

"Come," said the moon to the mighty sea, invisible by man.

Wrecker of ships.

Stormer of cities.

Laughter at works of man.

Weaver away of curving shores,

Ever since time began.

Ever the chief of revellers.

In the carnival of storm,

Caring naught for the princeless wealth

deep down in the fathomless depths;

No care, Christian or otherwise,

What odds to the credulous sea?

"Come," said the distant, wandering moon.

The storm sea obeyed.

Fawning the flood-tide heard that voice

Soft and distant and still.

No matter how soft or distant,

"Twas the voice of a regnant sun,

The tide fawned tremulous to the call,

Casting its paper aside,

Like a faded flower in a lady's bower.

After its hour, of pride,

"Come," said the moon to the fawning sea.

The fawning sea obeyed.

"Go," said the moon to the obedient sea.

It walked in other word.

The tide abode, and away forthwith

Snow as the voice was heard.

For above all power and above all might

is the one great Power of all,

Wherein all lesser powers are held,

Like grains of sand in a mighty hand,

"Go," said the moon in the obedient sea.

The fawning sea obeyed.

—TENDER-HEARTED.

"Mama, mama, don't let sister kill that

poor fly on the window."

"Why not, Tommy?"

"Because I want to kill it myself."

Translated for Tales from Charivari.

Inquiring Into CARMENCITA CASE

SECRET SERVICE MAN SEEKING INFORMATION

The May and Beatrice Continue
Skagway Run Until First of
November.

There has been considerable speculation of late in marine circles as to where the schooner Carmencita will likely land her valuable cargo of seal skins taken, it is said, in a raid on one of the rockeries off Behring Sea. And the important question arises in this connection what can be done with the skins? The crew are rather offered to certain Canadian and Mexican governments than the Canadian, and they are probably aware of this fact. Therefore, they will land where they will have the least trouble. Should it be at Victoria or at any other Canadian port it will be interesting to note what protection the schooner is entitled to.

As previously explained the Carmencita arrived at this port, and was cleared for Acapulco on the strength of a document given by the consul general of the United States at Mexico City at San Francisco. She was Japan referred to the schooner as a "certain Mexican register," and she was cleared. It was explained that the schooner had been sold to Mr. Woodside and associates of the Bay City, and that while her record was bad these men should not be held responsible for the misdeeds of the past.

The schooner was to be taken to the Mexican port and reinstated as a duly qualified commercial craft entitled to any protection which the Mexican flag offered. But this was never done. Instead, the schooner was taken north, and the news is now received that she raided the rockeries that she has held well filled with valuable fur, and that the schooner remains free to pursue her nefarious course.

In the meanwhile officials at San Francisco are waxing wary over what they term an "outrous conspiracy," and they are prying into all the facts with the utmost interest. Mr. Moffit, of the customs service, says the Carmencita has been in Victoria for this purpose, and while here interested in the records of the vessel, as also into the business transactions of the schooner Victoria. He wished to know among other things who paid the vessel's bills, what Wharf street company disbursed her, and any other information he could get with a view to establishing the ownership of the schooner. He was surprised to find among other documents in the customs the credentials of the Mexican consul-general. This gentleman has recently been ill, and cannot be said to be present at any of the investigations which the officials have held into the Carmencita case. They have been devoting to positively identify the man responsible for the schooner, but in this case are said to be meeting with their share of trouble, a number of those alleged to be interested having denied that they are implicated in the venture.

The American government prohibits citizens from that country engaging in sealing, and the Carmencita could not only be held on this charge, but she can now be prosecuted for raiding the island rockeries. Capt. McLean, however, who heads the expedition, is an old hand in the sealing business, and no one knows better the chances he is taking. When he outfitted here he sent to San Francisco for his men to man the craft, and his whole procedure in preparing the schooner seems to indicate to the American officials that the expedition is a huge conflagration which when revealed will show that many prominent people are connected with it.

THE SKAGWAY SERVICE.

The Skagway service as it is now maintained by the C. P. R. Company will be continued until November 1st. This was the statement made by Capt. Troup this morning in reply to a question regarding what changes were to be made.

The Princess May and Beatrice have been running on this route for several months and when relieved the former will be laid up for repairs and improvements planned for her, and the latter will in all probability be placed on the Seattle and Victoria run on which she was operated last year. When she re-commences next spring the Princess May will be a different steamer from what she is to-day. As mentioned some months ago, it is the intention of the C. P. R. to tear out all the main deck accommodation and run up a saloon and accompanying staterooms on the upper deck.

Mr. Taylor attacked the warrant

commitment made by the extension

commissioner, Judge L. E. Troup. He argued that it was defective in essential points.

One of these was that it was not set forth that the accused had appeared before him and witnesses had been examined. This, Mr. Taylor contended, was an essential feature.

His Lordship could not agree with the construction placed on it by counsel, failing to see that the authorities bore out the contention he raised.

The court adjourned at 1 o'clock until this afternoon.

—Last evening interesting addresses were delivered by S. F. Hackett, president of the Catholic Mutual Benefit Association, and J. J. Behan of Kingston, Ont., at the Institute hall. The chair was occupied by A. E. McPhillips, K. C., and there was a good attendance considering the counter attractions and the inclemency of the weather. Mr. Hackett spoke of the benefits of the organization. He said that there were 20,000 members of the church at the present time. Mr. Behan referred to the internal economy of the society and quoted figures in order to demonstrate the progress it has made since its incorporation, 25 years ago. The two gentlemen will leave for Seattle this evening.

—Rev. J. F. Vichery conducted the services yesterday afternoon in connection with the funeral of the infant daughter of R. Rowden, of St. Lewis street.

—The steamer Amur will go on the Lynn Canal for the winter, and will make her first sailing on October 30th. The Amur is now in the north with a cargo of general freight consigned to Yukon ports. On her return to port she will be laid up till she goes on the winter run.

—The fishery commission appointed by the Dominion government, of which the chairman is Prof. Prince, is to hold its first session in this city on Wednesday next. The meeting in question will be merely preliminary, and will take place at the Driad hotel. Its object will be to open the work and scope of the body and arrange the conferences with the American commissioners. It is intended also to hold a few sittings, but the main investigation will be deferred until early next season.

—W. Manson, of Nanaimo, the newly elected member of the local legislature for Alberni, and E. M. Yarrow, also of the Coal City, were guests at the Vernon last night. Both of them spoke hopefully of the prospects of a settlement of the纠纷 in the coal mines. They say that neither a representative of the company nor any information as to the progress being made in arranging a basis for peace. There is, however, they say a better feeling apparently existing which prompts the belief that a settlement may result.

PROVINCIAL NEWS.

VANCOUVER.

The street ends case came up again before the city council at its meeting on Monday evening, and one more of the aldermen took advantage of the opportunity of voicing disapproval of the action of the Attorney-General in not allowing the city to do as it desired in the matter. Ald. Hadam suggested passing a vote of censure against the government, and Ald. Johnson declared he would get out of the council rather than be dictated to. A motion was passed authorizing the city council to take the necessary steps to have the city withdraw as later in the case. — News-Advertiser.

A Robson street car bound down hill ran into a motor car on Westminster avenue on Tuesday evening, smashing the vehicle and hurling its occupants on to the track. F. R. Stewart, of the wholesale commission firm of F. R. Stewart & Co., and Harry A. Edgett, of the grocery firm of H. A. Edgett & Co., were in the automobile, but the former escaped without a scratch, while Mr. Edgett suffered a slight cut. His injuries are somewhat severe, but not serious. The motor vehicle was crossing the track when the street car struck it. Mr. Stewart said they had miscalculated the rate at which the car was coming. They thought they had plenty of time to get across the track. No blame attaches to the motorman.

Samuel Butterworth, an employee of McArthur & Co., furniture dealers, Hastings street east, died very suddenly on Tuesday morning. Mr. Butterworth went on duty at the store, as usual yesterday. About 9 o'clock he complained of not feeling well, and went home. At 10 a.m. he was dead. Deceased leaves a wife and three small children. Mr. Butterworth had been a resident of Vancouver for only three months.

PHOENIX.

James H. Kennedy, chief engineer of construction for the V. & W. railway now building into the Similkameen country, started Thursday on a hurried trip to Ottawa, where he has been summoned to appear before the railway commission of Canada. Mr. Kennedy was just starting on a trip through the Hope range of mountains with A. H. Hogeland, chief engineer of the Great Northern, and L. E. Shilds, one of the head men of Great Northern contractors. The receipt of the message made it necessary for the other gentlemen to proceed without Mr. Kennedy, and they will look for the long desired low grade pass for the Great Northern line to the coast from the Similkameen.

A party of four Chicago men have just completed an examination of the properties of the Chicago-British Columbia Mining Company, which are located in the Skylark camp, about two miles and a half from Phoenix. In the party were John Certo, vice-president of the company, who is a piano manufacturer; Nic Kuhnen, treasurer a wagon manufacturer; Theo. T. Mueller, in the employ of the city of Chicago, and Louis Werneke, a prominent business man of the Windy City. They were met here by Harry H. Schallenberger, the manager of the company, who showed them over the property. On their return the visitors expressed themselves as more than pleased with the result of development thus far at the high grade mines of the company. They had never been here before, and stopped off en route while on their trip to the Portland exposition. Mr. Certo stated that the visit was a most interesting one to him, and he was glad to have been able to see the company's mines. The group owned consists of the Lake, Idaho, Yellowstone Fraction, Crescent Fraction and Don Pedro, 177 acres in all. Considerable work has been done on the Lake claim where there is a 165-foot shaft, with crosscuts and good ore. But lately the work has been going on at the Don Pedro, where ore is now being stopped from a drift at the 80-foot level that is expected to give better than \$100 per

ton in gold, silver and copper. A shipment to the smelters will soon be made.

George C. Hodges, district manager of the B. C. Telephone Company, who was in the city Wednesday, says that the company is considering the installation of a telephone exchange at Midway.

Last week the Miners' Union force, employed in the excavation for the new opera house and hall, worked a double shift on the rock cutting. Another week should see that part done, and ready for

J. P. Graves, general manager of the Grandy Company, came up from Spokane on Thursday with Mrs. Graves and Supt. Hodges. While here Mr. Graves went over the company's mines with Mr. Hodges and Mr. Smith, and discussed further enlargements and improvements for the properties. He stated that the new three compartment shaft will be completed in about six months, in time for the installation of the extensive head works equipment. Meanwhile the exploration of the 400-foot level is steadily going on with crosscuts and drifts, and the mine from the 300 foot to the 400-foot level is also being steadily sunk to the 500-foot level, some distance of this incline being already attained.

GREENWOOD.

"A. R. E. Luckie of Baltimore, chief engineer of the Midway & Vernon, arrived from the coast Tuesday evening, accompanied by Ralph Smalley," says the Boundary Creek Times. "Mr. Luckie has full charge of construction matters. He will arrange for the immediate construction of the line as far as Westridge. He intends leaving for Vernon over the proposed route of the railway this week. Mr. Luckie has had a long and varied experience as a railway engineer. He is a native of Mount Forest, Ont., and got his first annual experience on the construction of the G. & R. along the north shore of Lake Superior. After successfully carrying out some heavy work in Baltimore and vicinity, he went to Central America, where he constructed railways under great difficulties, both as regards labor and climate. He considers British Columbia a delightful change, after the fever-laden atmosphere of Central America. The McLean Bros. have sublet the greater portion of the first ten miles of the Midway & Vernon, and considerable grading has already been done. As soon as Mr. Luckie gets his staff organized, further contracts will be let. Messrs. Arthur and Cain, who represent the New York capitalists who are financing the construction of the road, are expected here early in September."

ROSSLAND.

G. R. Naden, mayor of Greenwood, was in the city Friday and reports that there is a little excitement around Midway over railway building. One hundred and fifty men are at work grading for the Great Northern west of Midway, and the contractors are putting up camps at intervals along the route between Midway and Moison. In a month work will be in full blast, with from 400 to 500 men at work. The route of the railway instead of following the Kettle river will go along Myers creek, along which there can be done a good deal of rock work, which can be done in the winter time. The chief engineer of the Vernon & Midway railway has arrived from the east, and R. Smalley, who has had charge of the work, states that in two or twenty weeks will be built this year. Greenwood is the theatre of considerable mining activity at present, and the people there are feeling hopeful. The extension of the railway to the west will make a considerable area tributary to it and enlarge its importance. The high grade belt around Greenwood is developing well and promises to do much better in the future than in the past. In fact, the Boundary country is prosperous, with an improving outlook.

GRAND FORKS.

A remarkable strike of copper and silver has just been made on the McKinley in Franklin camp which is thought to be superior in value to any that has as yet been discovered in this vicinity. Manager McLeod says: "In the last two weeks we have been engaged in stripping the ledge, which parallels the main body of the McKinley. One vein has been opened for 12 and one for 7 feet wide for a depth of 20 feet. On the surface the ore was galena and copper sulphide. With depth the galena is replaced with chalcocite and copper oxides of an average value of \$29."

The appointment of W. H. P. Clements to the County court judgeship has been popular locally.

ASHCROFT.

A runaway occurred on the Dog Creek stage line last week, resulting in A. M. Bushell, the proprietor, who was driving the stage, having his arm broken and receiving other painful injuries besides breaking the wagon and injuring one of the horses. The accident happened near the occupied creek.

NEGRO LYNCHED.

Hanged to Bridge and His Body Riddled With Bullets.

Newbern, N. C., Aug. 28.—John Moore, a negro, 20 years old, was taken from the Craven county jail, in this city, yesterday, and lynched by a mob of 100 masked men armed with rifles and revolvers. With his hands tied behind him, the negro was led out about a third of a mile from the jail to the draw of Neuse river bridge and hanged to one of its braces and his body riddled with bullets.

The mob attacked the jail between 1 and 2 o'clock in the morning. Entrance to the jail was effected by forcing the jailer to surrender the keys. As soon as the attack was discovered the naval reserves were called out and attempted to stop the lynching. Craven asked the bridge. Sheriff J. W. Biddle was quickly on the scene, pleading with Moore to leave the jail, but his efforts were unavailing, and the mob carried out. It

was the theatre of considerable mining activity at present, and the people there are feeling hopeful. The extension of the railway to the west will make a considerable area tributary to it and enlarge its importance. The high grade belt around Greenwood is developing well and promises to do much better in the future than in the past. In fact, the Boundary country is prosperous, with an improving outlook.

Moore entered the country store of Geo. Embank at Clark, seven miles from Newbern, last Friday, when the proprietor's wife was alone in the store. The negro attempted robbery, and struck Mrs. Embank on the head with a meat axe, fracturing bones and inflicting serious injuries. Mrs. Embank screamed and people came to her rescue. The negro fled, but was captured in a swamp after a chase of a few miles, and was placed in jail.

Cause of Lynching.

Charlotte, N. C., Aug. 28.—A special committee of the legislature has been appointed to inquire into the cause of the lynching lay in the fact that at his preliminary hearing Moore's bond was fixed at the small sum of \$300. The lynching was denounced from all the pulpits of the town.

THE TONIC OF HEALTH

Must be more than a stimulant—must be a food as well. There is one medicine that is both a food and a tonic—it aids digestion, promotes assimilation, converts food into nutriment that builds up nerves, blood, brain and bone. The medicine is Ferrozone which contains exactly what a roundworm system needs. Ferrozone supplies oxygen to purify the blood, phosphorus to develop the brain, iron to harden the muscle. No wonder it makes such vigorous men and women. You'll eat, sleep, think and feel better by using Ferrozone; try it—now! Fifty cents buys a box of fifty chocolate coated Ferrozone tablets, at all dealers.

OPTIMISTIC VIEW.

United States Consul at Newhaven says Leading Merchants are Opposed to Boycott.

Washington, Aug. 26.—Consul Sammons of Newhaven, who has been here to the state government, a report which he makes a very optimistic view of the boycott on American goods. He declares that the strong movement in favor of the boycott is to be found in Shanghai, where most American goods are landed, but that only certain elements in the city favor it, and the leading merchants are firmly opposed and will force the anti-American agitation to die out.

The war in the East has had considerable influence upon commerce, and especially in America oil there is a great chance, the Russian competition being removed for the moment.

The cotton market has a dangerous competitor in Japan, and also in China, where yearly produces a large crop.

On the whole of the present war no new concessions have been given to foreign companies, but after the war it is expected that concessions for coal and gold mining enterprises will be made in a larger number than ever before.

Consul General Rogers, at Shanghai, has called the state department, under today's date, as follows:

"While the boycott still continues, there are no disturbances, and the Chinese officials are endeavoring to suppress the movement. On the whole conditions appear more hopeful."

AUCTIONEER****PERSONAL**

Walter Warner of Telesa River district, has been appointed by H. P. Hardaker, mining commissioner and justice of the peace for Cassiar district. Mr. Warner left Aldermins, the new townsite in the Bulkley Valley, on the 13th last, in charge of Andrew McKinlay, who was accidentally shot at South Bulkley telegraph cabin. He brought the wounded man over the trail to Hazelton, thence by steamer to Port Essington, and from there to Victoria by the steamer Princess Victoria. The bullet's position has been located under an X-ray, and an effort will probably be made to extract it to-morrow. Mr. Warner reports that the Bulkley valley is looking up, and that there is considerable activity among the prospectors in the neighborhood of the river. Discoveries of galena, copper and zinc-bearing gold are almost a daily occurrence. People are coming in rapidly and taking up land in anticipation of the incoming railway. He states that the trails, though bad, are still making transportation difficult, are no worse than is usually expected by prospectors. The government he said, had appropriated \$2,000 for the construction of roads and improvement was anticipated. While in the city Mr. Warner is a guest at the Dominion.

Jas. Green and wife, of Golden, P. F. Blodget and Mr. Brown, of Toronto, Ont.; A. Gillett, Miss Gillett and Miss Mulligan, of St. Edmunds, Ont.; Wm. Gardner and W. H. Saunders, of Magdalene, New Mexico; Wm. Clark and wife, of Dundas, Ont.; and E. J. McLellan, of Iglesia, Ont., are guests at the Dominion hotel.

Mr. and Mrs. W. G. O'Langille, of Vancouver; Mrs. J. S. M. Neil, of Helena, Mont.; W. J. Parker and Mrs. Parker, of San Francisco; Col. E. M. Porter and wife, of Napa, Cal.; Mrs. A. T. Ellis, Miss Ellis, Miss Lawrey, G. B. Champlin, and Mrs. Champlin, of Tehama, Cal., are in the city. They are among the guests at the Drury hotel.

W. Walker, of San Francisco; Capt. A. B. Smith, of Vancouver; M. B. Garretson and wife, of Spokane; L. C. Parsons and wife, of Missoula; Capt. Howard C. North, of Michigan; W. S. Latson, of Brandon, Man.; and J. Whitehead and J. W. Parker, of Missoula, are staying at the Victoria.

Mr. Justice Angus, of Toronto, is in the city spending a part of his vacation. This morning he visited the court house and for a short time followed proceedings in the Collins case, occupying a seat on the bench beside Mr. Justice Duff, by whom the argument is being heard.

Mrs. R. S. Hutchison, of Chicago, Ill., has returned from a business trip to Europe. She is on her way to Dawson with a salutation of silk. While here she was a guest at the Victoria.

Judge McKinley and Misses McKinley, of the Hotel Victoria, are returning in the city. They are registered at the Imperial.

Mr. and Mrs. J. A. Stratton and son, of Seattle, are visiting Mr. and Mrs. E. B. Marvin, 24 Cadboro Bay road.

Mrs. W. J. Hanna and daughter returned yesterday from a week's visit to Portland.

R. Kerr Repeats His Account of the Unexampled Prosperity of Canada—
Mormon Colony.

The party of C. P. R. officials who were in Victoria a few days ago are now in Vancouver. When they arrived a New Zealand newspaper reporter, Robt. Kerr, said he could only repeat what he had already told nearly every other paper in Western Canada. It was the same tale of unequalled prosperity throughout the Dominion.

"I don't believe," said Mr. Kerr, "that prosperity has ever been so general throughout the length and breadth of the country as it is today. Grain, cattle, horses, timber, dairy products, minerals, salmon, in short, everything that Canada produces, has been produced in abundance and commands good prices."

The trolley party to the George, announced to take place this evening under the auspices of the Ladies' Aid of the Central Methodist church, has been deferred owing to the unsettled weather. A social will be given in the school room, and a musical programme being rendered, games dispensed and refreshments dispensed. A pleasant time is guaranteed all attending.

Higman, chief electrical engineer, or the inland revenue department, is arranging for the installation at Vancouver of electrical standards for watts and ampere. He was in Victoria a few days ago and was accompanied from here to the Mainland by R. Jones, inspector of the local department. They were received at the Terminal City by Colonel Worsnop, surveyor of customs, and J. E. Miller, inland revenue collector.

—Wives sometimes object to life insurance, widows never do. How is it in your case? Have you made provision for your family so that in the event of something happening to you, they will at least have something to fall back on? If you have not, then don't delay any longer. Let us show you the new tract of the Canada Life. No better policy, no better company can be found anywhere. A policy in its p's. Heisterman & Co., general agents.

—Local Masons are invited to visit St. John's Lodge, A. F. & A. M., Seattle, on the 9th of next month, in return for the courtesies extended to the Sound city craftsmen by Victoria-Vancouver Lodge last month. The Victorians will leave here on the evening of the 8th, and on Tuesday will be entertained by the grand master of St. John, those who desire may return on the following Sunday.

From Macleod they travelled over the Crow's Nest branch into the Kootenays. There they saw signs of progress both in mining, agriculture and fruit raising. They also made a detour into the Okanagan valley, and then returned to the main line and at Mission branched off to Seattle. From there they took the Prince of Wales for the Capital, so that they travelled by means of the company's steamer. They were in the whole distance, with the exception of the cross-country ride from Lethbridge to Macleod.

Mr. Kerr says the traffic on the lines this year has never been approached, and as an instance of the size of the tourist traffic mentions that they are now running two trains each way every day, and very frequently have to break them up into sections, at that.

Mr. Kerr says that now the bulk of their work is done, his party will rest for a few days in Vancouver before going East. There were met on their arrival Monday evening by General Superintendent Marpole and Superintendent H. E. Beader, with whom they dined at the Hotel Vancouver.

—**AT HOME ON FALKE.**

German Officers Are Entertaining Citizens This Afternoon. The Marblehead's Arrival.

This afternoon an "at home" is being held aboard the German cruiser Falke. The ship is gaily decorated and a pleasing programme has been arranged for the entertainment of the citizens and officers of the American ships invited. The number of these in port was yesterday afternoon augmented by the arrival of the second class cruiser Marpole, which has been at Victoria and Port Angeles, and the arrival eventually here of the customs sailing ship. The officers are as follows: Commander F. H. Holmes, commanding; Lieutenant-commander A. C. Almy; Lieutenant-commander J. E. Palmer; ensign, J. H. Blackburn; ensign, M. S. Davis; midshipman, R. A. Dawes; midshipman, J. C. Johnson; assistant surgeon, C. N. Piske; assistant paymaster, G. A. Helmle; boatswain, J. C. Ricketts; gunner, J. Wilson; warrant machinist, D. J. McCarthy; pay clerk, E. F. Deeds.

Ships of the American fleet in port are expected to remain until Monday.

ECLIPSE OF THE SUN

Witnessed By a Large Number of People at Pilot Mount, Manitoba.

(Associated Press.)

Pilot Mount, Man.—Aug. 30.—The

eclipse of the sun was witnessed here by a large number of people, but the best view was obtained by the dozen downtowners who walked on the top of the old mound and the little dance hill of the Indians, whence the horizon is visible for 30 miles around. The morning dawned clear and fine, except that a thin bank of cloud lay just above the eastern horizon, but exactly where the sun was to rise. A gap in the clouds obligingly opened about 5:30 a.m., and the Zodiac light was plainly visible over this gap. At about 5:35 a.m. grey darkness began to fall or the daws of day, when from the south there crept a mighty shadow like the wings of a negative searchlight moving rapidly northwards, and the little clouds grew rosier. Presently the bright rim of the upper edge of the sun on the right hand looked over the edge of the world. Then the dark convex rim of the moon followed. Both

Peter McQuade & Son, 78 Wharf Street.

luminaries finally cleared, the horizon revealing an eclipse just short of totality, which lasted till 6:30 a.m.

Winnipeggers Disappointed.

Winnipeg, Aug. 30.—Low lying clouds along the edge of the horizon caused disappointment to hundreds of residents who arose early to-day to view the eclipse of the sun from its starting point near the city. Prof. William Upton of the University, Provincial Observatory, Prof. R. L. Macleod erected instruments but the results were disappointing. Above the low-lying clouds the sky was clear across the heavens, but the eclipse was invisible here.
