## Competition Format and Rules

Formato y reglas de la competencia / Format et règles de compétition

As of SAT 17 SEP 2018

### Youth Olympic Competition Format

Fencing at the Summer Youth Olympic Games Buenos Aires 2018 comprises men's and women's individual events and a Mixed Continental Team event.

Two days before the start of the individual competition there will be a public draw during the Team Managers' meeting for the order of weapons during a team match. Genders and weapons will be alternated. For example, the draw starts with one of the three female weapons, the Women's Foil. From the male weapons, there will be a draw between the Men's Épée and Men's Sabre to alternate gender and weapon, etc.

### Individual Events

Each individual event consists of two phases: a pool round and a direct elimination phase.

Each of the individual events will start with a pool round. All fencers will be allocated into pools according to their ranking in the 2018 Cadet World Championships final ranking. There will be a maximum of seven fencers in each pool. Fencers will compete against all others in their pool. A pool ranking will then be calculated based on FIE rules. This overall pool rank will be used to seed fencers into the direct elimination bracket.

The direct elimination phase in the individual events is divided into: table of 32 (optionally), table of 16, quarterfinals, semifinals and finals (gold and bronze medal matches). Each individual bout continues until 15 hits, or until the total bout time of three times three minutes has elapsed. Winners of the semifinals will compete for the gold medal, and losers for the bronze medal. The final ranking of the other fencers will be determined by their overall pool ranking. If more than 16 fencers are entered in an individual event, a table of 32 format will be used.

### Mixed Continental Team Event

In the team event, competition is a direct elimination divided into the following phases: table of 16, quarterfinals, semifinals and finals. A team consists of three men, three women and all three weapons. In a team match each fencer weapon specialist will compete against the fencer weapon specialist from the other team of the same gender.

A match between two teams therefore consists of six bouts:

- The first bout will finish when the first fencer makes five hits, or after three minutes if neither of them has made five hits
- The second bout will finish when the first fencer reaches the team cumulative score of ten, or after six minutes
- The third bout will finish when the first fencer reaches the team cumulative score of 15, or after nine minutes; and so on

A team match is finished either after 30 hits or after the sixth bout. Winners of the semifinals will compete for the gold medal, and losers for the bronze medal. The final rank of the other teams will be determined by the classification matches that will be organised before the final matches.

### Differences between the FIE Cadet World Championships and the Summer Youth Olympic Games

Team composition for the FIE Cadet World Championships is based on the NOC level. At the Summer Youth Olympic Games the team level is continental, and teams are mixed gender and mixed weapon.

### Changes since the Summer Youth Olympic Games Nanjing 2014

None

## Sport Rules and Procedures

### Individual Bouts

During the pool round phase each bout consists of one period of three minutes. The fencer who first scores five valid hits on the opponent, or scores the most hits by the end of the bout is the winner. If the fencers are tied at the end of normal bout time, one minute of extra time is played. The first fencer to score a hit on the opponent is the winner.

Prior to the start of extra time a draw will be held to determine the winner if neither fencer scores during the extra time period.

During the direct elimination phase, each bout consists of three periods of three minutes each, with an interval of one minute between periods. The fencer who first scores 15 valid hits on the opponent or scores the most hits by the end of the bout is the winner. If the fencers are tied at the end of normal bout time, one minute of extra time is played. The first fencer to score a hit on the opponent is the winner.

Prior to the start of extra time a draw will be held to determine the winner if neither fencer scores during the extra time period.

### Team Matches

The winning team is the one that first scores a total of 30 hits on the fencers of the opposing team, or the team that has scored the greatest number of hits by the end of the match. If the teams are tied at the end of regulation time, there is one minute of extra time, and the team which scores the first hit wins the match.

Prior to the start of extra time a draw will be held to determine the winner if neither team scores during the extra time period.

### Tie Break Rules

In case of a tie after the bout/match time has run out, the referee adds one minute of extra time. Before starting the referee conducts a draw to determine the winner if no hit is made during the extra minute. The first hit within extra time determines the winner immediately, and ends the bout/match.

### Penalties / Disqualification Rules

Depending on the offence, a fencer could be warned (yellow card), warned with a supplementary point for his opponent (red card), or excluded (black card) from a bout or the entire competition.

### Protests / Appeals

Protests must be made immediately. For example, protests concerning the world ranking must be made before the head of the Delegations Leaders' meeting, protests concerning incorrect results must be made by the fencer. If there is a mistake afterwards, the Delegation Leader must protest before the start of the next phase.

### Special Rules for the Youth Olympic Games in Fencing

#### Summary:

We remind all the delegations of the Chief of Delegation meeting for fencing on Friday 5th October at 15.00 in the fencing venue (Africa Pavillion). Please consult the special rules for these competitions decided by the FIE Executive Committee below.

#### Details:

##### Formula Individual Competition

The initial seeding will be based on the results obtained at the World Cadet Championships 2018. The formula for the individual competition is one round of pools where no fencer is eliminated. This is followed by a direct elimination table where the fencers are put in the table according to their results in the pools.

##### Video Refereeing

Video refereeing will be used for all matches in individual and team competitions, including the pools of the individual competitions. In the pools, each fencer has one possibility per match to challenge the referee's decision. This possibility is retained if the decision of the referee is changed. There will be no documentation of the decisions of the referee and the video referee during the pools.

##### Formula for Mixed Team Competition

The ranking of the teams is calculated by adding together the positions obtained by the six team members in the individual events. The competition is run by integral direct elimination.

##### Selection Process in the Mixed Team Competition

There are 9 teams participating in the team competition. For the first team of each continental zone, the fencers with the best result in each weapon are selected for the team. For the continental zones who have more than one team, the fencers with the second best result are selected for the second team etc.

The final team members in each team for Women's Foil, Men's Sabre, Women's Epee and Men's Epee are announced at 16.00 the day preceding the team competition. The final team members in Men's Foil and Women's Sabre are announced directly after the individual competitions in these weapons.

##### Order of Relays in the Mixed Team Competition

During the mixed team competition female and men's relays of the same weapon follow one after another, the order of the relay for matches of a mixed team will be established only once, which will occur in the day preceding a mixed team competition in the presence of Chiefs of Delegation of the relevant National Federations. The draw will define a gender (man/woman) of fencers for the first match of the first relay and will be fixed in the next matches.

The order of weapons will be as follows: Sabre, Foil and Epee.

##### Injury in the Mixed Team Competition

## Sport Communication

### **a) Withdrawal caused by injury duly recognised by the FIE Medical Commission delegate before 12.00 on the day before the competition**

In case of withdrawal caused by injury of one of the team members, which is certified by the FIE delegate at the latest at 12.00 on the day preceding the team competition, a substitute is selected, if possible, from the group of fencers that have participated in the individual competition but not eligible for the first team selection. The substitute should preferably fence the same weapon but must have the same gender and belong to the same continental zone as the fencer who is withdrawn.

If the continental zone has more than one team in the competition, and the injured fencer belongs to a team that has higher ranking than another team belonging to the same continental zone, the equivalent fencer(s) in the lower ranked team(s) will move up into the higher ranked team(s). The substitute will then enter into the team with the lowest ranking.

The name of the substitute must be announced by the Directoire technique before 16.00 on the day preceding the competition. If a substitute cannot be found, the team in which a substitute fencer would have fenced can continue the competition. However, the result of the fight in the team match in which the substitute fencer would have fenced will be that his or her team scores zero hits and the opponent's team scores the maximum number of hits possible.

### **b) Withdrawal caused by injury occurring after 12.00 the day before the competition**

In case of withdrawal caused by injury to one of the team members occurring after 12.00 on the day before the team competition, there is no possibility for the team to call a substitute. The team can continue the competition but the result of the fight in the team match, in which the withdrawn fencer should have fenced, will be that the withdrawn fencer scored zero hits and his or her opponent the maximum number of hits possible.

### **c) Withdrawal of a competitor fencing the last relay of the match**

After the drawing of lots organized the day before the team competitions, we will know the gender of the athlete that will perform the final relay in every bout. The competing team is able to designate one more athlete that can take part in the last relay of every bout. The replacement can be made only after the beginning of the final relay and only due to medical reasons, confirmed by the member of the FIE medical commission. The return substitution during the last relay of the match is not allowed.

### **Coaches in the Mixed Team Competition**

For each team a head coach and an assistant coach should be selected by joint decision of the delegations. The head coach and the assistant coach are allowed to remain with their teams within the team box. For the personal coaches of the fencers, special seatings will be provided in the spectator stands, as close as possible to the fencing area. The names of the head coach, the assistant coach and the personal coaches for each team must be announced to the Directoire technique at the latest at 12.00 the day preceding the competition.

Issued by: Technical Delegate  
Time: 9:31  
Date: 5 OCT 2018
