XII. TACTICAL AND OPERATIONAL DATA. (Narrative and comment. Describe action fully and comment freely, following applicable items in check list at left. Use additional sheets if necessary.)

> A fire plane fighter meen from WP-45 mas lemeched et 1515 (1) 5 April 1945 by the 188 Sal Jackson. The terret was Mineral with Jime. which had already been windled carlies in the same my by a fighter cross and a Truly strike from the from the Truly

Since the Mellents expend only rechats, there was ittie expectation of improvious tempers on Minoria - the majority of buildings and storage areas had been destroyed proviously, and be be were the only astinfactory are made to anchor against the three runuays of Minemi's single sirficit. The five-land sweep and under the leadered: of the law bear.

As occur as the serves had made a land foll at timest, they elimbed up the up to make the self everent up to they pained an altitude of 6000 foot. Then they received over the 370 received and attractive run, the cut of the comments at 2000 feet, headed southwest to northwest, at fine our. The fine had to turn to get "on" three limits and the morthwest corner of the circles. and these area were have y stroked, although they were petently unflyable. The run anded a in a northwesterly direction, with to delicate approximately 100 feet off the ground. got received the one a warehouse or harronder building on the northwest corner of the faland, starting a large fire. The large withed on the deek.

(At 1g) Dynaster, who had been sequenced from the other fighter Auring the You Clear with the first latter Jime, a marriage of the miles distant, and leabled two recents into the term or the restance. const of the falmed. The stand of the tenace was not consequed.

The classes then recommend and returned to the Edd Lan Jacobs et 1800 (I).

All material and could ment functioned setimfactoring.
