PLATINA CEMENT.

DR. ACHILLE LION, Dentist of the Faculty of Paris after many researches and labors has discovered this valuable composition, which he applies with the utmost success in plugging decayed teeth, and rendering them sound. The composition of the Platina Cement, which is entirely mineral, is incorruptible; it is used cold, almost in a liquid state, and immediately acquires the hardness and solidity of the enamel of the tooth when in its purity. It will last for many years, not only as a preservative of the tooth, but also to render extremely sensitive teeth insensible.

Dr. Lion's office is at No. 106 Royal street, between Conti and St. Louis streets, where he may be seen every day.
