Heavy Urban Search and Rescue		Standing Engineering Capacity	
Structural Assessment Capacity		Technical Assistance and Support Team	
Mobile Lab		ICT Help Desk	
Medical Air Evacuation		Shelter Capacities	
Emergency Medical Team		Maritime Incident Response Group	
		Marine Pollution Capacities	

The European Emergency Response Capacity is commonly referred to as the "voluntary pool". It consists of a range of civil protection capacities which countries that participate in the EU Civil Protection Mechanism make available for EU emergency response operations. Since the establishment of the voluntary pool in October 2014, 18 Participating States have brought together over 78 civil protection capacities which are now available (or will eventually become available) for EU operations worldwide, following a request for assistance through the European Commission's Emergency Response Coordination Centre.

\*This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo Declaration of Independence.
