SELL ICE CREAM BY WEIGHT NOW

Selling ice cream by weight is a novel practice started here by Pettitt's news stand and which Mr. Pettitt President Stovall and the other offibelieves will prove more satisfactory to all concerned as it is tried out. Mr. Pettitt announces that bulk ice cream will be weighed out at the rate of 24 ounces to the quart. Regardless of the degree of hardness, the muscular strength of the person packing it or other variable factor, a quart of ice cream will be the same by this system of selling.

The general public is not aware that when a dealer buys a gallon of ice cream he does not have four SPECIAL TRAIN TO quarts to sell. Detroit Genius Makes Purchase of Car Simple Matter. Banks to Co-Operate in the Plan

Announcing a plan whereby practically every wage-earner in the United States can now purchase a new Ford car, Henry Ford has again demonstrated his desire to assist the working man to own an atuomobile.

It is safe to say that this plan will interest more millions of people thru out the world than any other announcement made in recent years by any manufacurer.

"It has been Henry Ford's life-long ambition to build the universal family car, and to put it within the reach of every one," declares a local Ford dealer, in describing the revolutionary sales plan. "Realizing that there are over 20,000,000 wage-earners in this country, the largest majority of whom do not own automobies because of the large down payment required the 'Ford Weekly Purchase Plan' has result in real satisfaction to the buybeen worked out for their benefit. MILLIONS of FAMILIES

"I Will Build a Car for the Multitude" Said Henry Ford in 1903-Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car, to put it within the reach of millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,500,000 Ford cars have been placed in the hands of retail customers-more than a million and a half of them within the past twelve months-and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford.

And now the way is open.

Under the terms of this plan you can select your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks where it will draw interest. Think it over. Five dollars will start an account. The whole family can participate in itfather, mother, brothers and sisters each doing a little.

Why not start today. Stop in and talk it over with your local Ford dealer. He will be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford Car.

COUNTY NEEDS BOND ISSUES

Endorsed by the Los Angeles Chamber of Commerce, prominent clubwomen and civic organizations, a \$7,-000,000 county bond issue will be submited to the voters of Los Angeles county at a special election, May 1.

The issue is designed to finance additions and improvements at the County Hospital the County Farm, the Olive View Sanitorium for tubercular patients and the construction of a new Hall of Justice and jail in Los An-

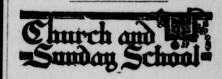

Of the total sum, \$5,000,000 is required to enlarge the plants and personnel of the hospital, farm and sanitorium. The remainder is for the construction of the Hall of Justice.

Conditions in the charitable institutions in the county are deplorable, according to County Supervisor Cogswell. While Los Angeles county, at an unparalleled rate, has grown from a population of 600,000 to approximately 1,270,000 during the past eight years, the county institutions have struggled along with the same buildings and equipment as in 1914.

"At the County hospital," said Mr. Cogswell, "the daily patient population for the year ending June 30, 1921, was 1038; for the year ending June 30, 1922, the average was 1133, a daily increase of 94 patients.

One of the serious results of this congestion is the necessity of restricting admissions in the acute cases. The total capacity of the hospital is 800 beds and at the present time 1200 patients the being cared for.

"It is hard to realize the terrible conditions at the hospital without actually seeing them. In the tuberculosis ward beds are but 20 inches apart, and a patient may be dying with only a screen to separate him from the other inmates of the ward. There are 65 patients to the ward, where there should be only 30."

Building Of Power Plant Starts Today

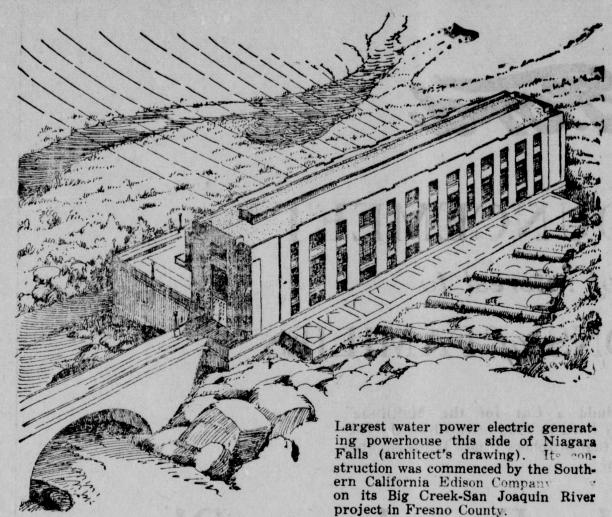

"Building of the largest water pow er electric generating house west of Niagra Falls was commenced this morning by the Southern California Edison Company," said district manager. Fred Schwartz today. He had just received a message from R. H. Ballard, vice-president and general manager, notifying him that 100,000 horsepower would be shortly available from this great construction program, insuring an ample supply of electric power for all purposes for Sierra Madre and vicinity and throughout the entire territory served by the company.

"This power house," said District Manager Schwartz, "will be the fourth of the chain of Edison company power houses on its Big Creek-San Joaquin River project and is the first to be constructed on the main channel of the San Joaquin River far down the canyon and will receive its water supply by diverting the river through a tunnel nearly six miles long and twenty-one feet in diameter, now nearing completion, which is part of the eighty-six miles of tunnel system contemplated in this development project. The first 33,000 horsepower generating unit will come into operation about August 1st, and will be followed by the lines by October 1.
