

### BRIDGES COMPLETED

**WASH NOW SPANNED ON BOTH SIDES P. E. TRACK BY CONCRETE STRUCTURES**

There are still busy times at the Brand boulevard crossing of the Wash. The west side concrete bridge has just been finished and the roadway portion is now a swimming pool, the ends having been banked up and water turned on till it now stands at a depth of about 18 inches. This is to allow the concrete to harden slowly and evenly. The false work is still under the entire bed of the bridge and will not be removed until the concrete is thoroughly hardened. Men with big scrapers each drawn by four mules are engaged in hauling dirt to the ends of the bridge for the approaches. The other bridge, that on the east side, has been completed for several weeks and the dirt approaches put in so it is now crossed by work teams and wagons. Both will have to be entirely completed and approaches paved before they can be received and opened to traffic.

### WORK PROGRESSING ON BROADWAY SCHOOL BUILDING

Construction on the new Broadway School building is showing marked progress. The moulds for all the foundations have been in place for some time and the concrete mixers have been filling them rapidly. It is hoped to have the building, which will be the most ornamental grammar school structure in the city, ready for occupancy this fall. Then when the wide Sycamore Canyon boulevard is constructed from Lexington Drive down to the south city limits the east side will take on an up-to-date appearance.

### TELEPHONE GROWTH

**GLENDALE DISTRICT NOW HAS MORE THAN 3000 SUBSCRIBERS**

The Glendale office of the Pacific Telephone & Telegraph Company opened June, 1906, at Glendale Ave. and Broadway with 60 subscribers. This office was outgrown in 1910 at which time there was a removal to larger quarters at 142 North Brand boulevard from which location they moved to their new three-story and basement class A building at 125 S. Brand boulevard. The district has been extended from time to time until at the present there are 3215 telephone subscribers in the Glendale district, which extends from the Verdugo and San Fernando roads northwest to the Ventura county line with service in the following towns and locations: Glendale 2467, Burbank 395, Van Nuys 267, Palmdale 35, Newhall 25, Sunland 50 and the following locations and agencies, in addition: Lankershim, La Crescenta, La Canada, Roscoe, Marian, Owensmouth, Saugus, Newhall Ranch, Rose Ranch, Castaic, Acton, Sandberg, Chatsworth, Calabasas and Craig's Country Club. The Glendale district is growing rapidly as there are now one hundred and fifty orders on hand for new telephone connection.

### BELLEWS BUY HOME

**MR. BENTLEY TAKES HIS OWN ADVICE AND BUILDS RESIDENCE GARAGE**

Mr. and Mrs. O. H. Bellew have grown tired of moving around to suit the caprice of landlords and have purchased from Mrs. Neil the cottage at 318 West Ivy street which has been occupied by Mr. Bentley of the Bentley-Schoeneman Lumber Company. That gentleman has had to take the advice he has been handing out to the public and has just secured a permit for a residence garage to be erected at 725 North Jackson street. The Bellows have recently recovered from belated attacks of the influenza and have had an accession of pep since they became the owners of a really truly home which they can improve as fancy dictates and where they can be sure of room enough in which to exercise that generous hospitality for which they are famed among their intimates. All their spare time now is being given to looking up furnishings for the little home. They expect to have possession by May 1st.

**WEATHER FORECAST:**—Fair tonight and Friday.

### ADVICE TO VOTERS

**W. F. TOWER URGES CONSIDERATION OF CITY CANDIDATES ON MERIT ALONE**

Editor Glendale Evening News.—I was quite interested to read that Pasadena's profits from its lighting department for February were nearly \$13,000. As citizens of Glendale we are vitally interested in the success of our public utilities, and in view of our approaching election it may not be amiss if I express a thought or two along that line. In the first place we have reason to be proud of our public utilities and can only hope for continued success by conforming to sound business principles and by placing in charge of our public affairs the best officers available. Let this and this alone influence our choice. I have observed in my four years' residence in Glendale that partisan politics are eliminated from local affairs, and that is a great advantage. Many eastern cities have their local and state elections at the same time and as a result mere political advantage dominates the situation. Neither should social affiliations or the matter of sex determine our choice. Only capable, progressive candidates disposed to consider economy should receive our support. As California was one of the foremost states to adopt equal suffrage and as one of the candidates for trustee is a woman, and a thoroughly capable woman, I trust no voter will allow his prejudices to influence his vote either for or against her. Each candidate should be judged on merit alone. Let politics, creed or sex be relegated to the rear, as relics of the past.

W. F. TOWER,  
328 North Maryland Ave.

### ANNIVERSARY DINNER

**MARRIAGE OF MR. AND MRS. A. M. HUNT 33 YEARS AGO CELEBRATED**

Mr. and Mrs. A. M. Hunt were the honorees at a prettily appointed dinner given Wednesday evening by their daughter and son-in-law, Mr. and Mrs. J. W. Feinstein, at their home, 1234 Viola street. It was a celebration of the anniversary of their marriage which took place 33 years ago in New York. A pink and white color scheme was carried out in floral decorations in which Cecil Brunner roses and orange blossoms were employed, and in the bon bon boxes and place cards. Covers were laid for Mr. and Mrs. Hunt, Mr. and Mrs. A. T. Show of Los Angeles, Miss Lole Hunt and the host and hostess. Following the dinner a pleasant social evening was enjoyed by the party. Mr. and Mrs. Hunt have been residents of Glendale about six years.

### ANNUAL MEETING

**TROPICO PRESBYTERIAN CHURCH HEARS REPORTS AND ELECTS OFFICERS**

About eighty persons attended the congregational meeting of the Tropico Presbyterian church Wednesday evening. After the supper had been enjoyed reports were received from the pastor, the session, trustees, women's societies, Sunday School and Christian Endeavor. These reports showed that the church had reached and in some cases surpassed the New Era goal set at the beginning of the year in the matter of new members, community service, benevolent offerings, stewardship, enlistment of life recruits and increased enrollment in the Sunday School and Christian Endeavor. Every department of the church showed an advance in its finances, with all bills paid. An increased budget for the new year was proposed and adopted. One elder and the entire Board of Trustees were elected. The official list of the church is as follows:  
Pastor, Rev. O. P. Rider.  
Elders, F. C. Richardson, J. A. Adams, C. T. Van Etten, C. W. Angier, R. W. Horning.  
Trustees, Dr. A. M. Duncan, Sam Brown, H. L. Moody, W. R. Alexander, Dr. H. St. Clair.  
Financial Secretary, S. E. Brown.  
Sunday School Superintendent, H. E. Fry.  
Superintendent of Primary Department, Mrs. S. E. Brown.  
President of Christian Endeavor, Sarah Fay Snell.  
President of Ladies' Aid, Mrs. S. E. Brown.  
President of Women's Missionary Society, Mrs. L. E. Richardson.

### FREIGHT STRIKE HITS LOS ANGELES

**NOT A WHEEL MOVED AFTER EIGHT O'CLOCK IN YARDS OF SOUTHERN PACIFIC**

(Special Service to Glendale Evening News)  
LOS ANGELES, April 8.—The movement of freight trains was said to be practically at a stand-still today in the Southern Pacific yards and to be crippled in the yards of the Santa Fe and Salt Lake railroads as a result of the unauthorized strike of railroad employees which spread west from Chicago and hit Los Angeles shortly after midnight. Not a wheel was moving in the S. P. yards at 8 o'clock a. m., it was said. The yards, usually the scene of marked activity, were silent, the sidings filled with freight cars. There was some movement in the freight yards of the other roads, however. At the S. P. offices it was admitted that only one freight train had been able to leave since 12:30 a. m. though a statement was made that "things are clearing up and it looks as though the strikers would return soon." The Salt Lake railroad claimed to have moved freight trains as usual. The Santa Fe claimed it had started five freights out on schedule before seven a. m. All the roads said that passenger service had not been and would not be affected.

Union officials claim to have no knowledge of the strike which is unauthorized. The strikers claim that one thousand men have quit work.

### EXPLOSION IN PONCA CITY

**ESCAPING GAS WRECKS LARGE BUSINESS BLOCK AND TWO PERSONS ARE KILLED**

(Special Service to Glendale Evening News)  
PONCA CITY, Okla., April 8.—In a terrific explosion which rocked the city early today, two persons were killed and seven injured when a business block owned by F. C. Nonamaker was wrecked by an explosion said to have been caused by escaping gas. Many persons had narrow escapes. The force of the explosion broke plate glass windows a block away.

### FRENCH TROOPS IN GERMAN TERRITORY

**SEVERAL FATALITIES IN CLASHES BETWEEN SOLDIERS AND CITIZENS IN FRANKFORT**

(Special Service to Glendale Evening News)  
PARIS, April 8.—The 147th Regiment has entrained to reinforce the French garrisons along the Rhine, it was learned today. Ten persons were killed and thirty wounded in clashes between the French occupational forces and citizens of Frankfort, a News Agency dispatch said today.

FRANKFORT, April 7.—French troops and citizens clashed here this afternoon. A number of citizens were killed or wounded. Great crowds gathered in the streets after a rumor had been circulated that the United States and Great Britain had demanded that France evacuate Frankfort by six o'clock. One of the incidents contributing to the fatal clash was an alleged attack on a German reserve officer by French officers. The German officer said he entered the Imperial Hotel, where the French had their headquarters, and was attacked by seven French officers who threw him to the floor and beat him with a whip. The French officers accused the German of passing improper remarks. Citizens began hunting the French Colonials. One patrol was overpowered and disarmed. Other French troops then charged the crowd and for a few minutes there was severe fighting. The number of killed and wounded could not be learned definitely. Tanks armed with machine guns finally cleared the streets and restored order.

### FIRE IN AVIATION FIELD

**FIVE BUILDINGS IN REPAIR DEPOT BURNED WITH LOSS ESTIMATED AT \$1,000,000**

(Special Service to Glendale Evening News)  
DALLAS, April 8.—Five main buildings of the aviation repair depot at Love Field burned early today with a loss estimated at \$1,000,000. The fire originated among highly combustible wings of wrecked German planes and only the perfect fire drill of the enlisted men prevented heavier losses.

### FRANCE TO HAVE MORAL SUPPORT

**U. S., GREAT BRITAIN AND ITALY MARK TIME IN HOPE SITUATION WILL CLEAR**

WASHINGTON, April 8.—The United States, Great Britain and Italy will at least lend their moral support to France's action in occupying German cities, it was strongly intimated in official circles today. The three governments, however, are still marking time in the hope that the situation which has arisen because of the efforts of German troops to quell Red activity in the Ruhr district, will soon clear.

### VOLUME OF WHEAT CROP DECLINES

WASHINGTON, April 8.—The 1920 wheat crop will be more than 248,000,000 bushels below that of last year according to a forecast given out today by the Department of Agriculture based on reports from all sections of the country.

### SUMMER BIBLE SCHOOL

**PLANS LAID FOR INTERESTING OCCUPATIONAL WORK FOR BOYS AND GIRLS**

Plans are fast taking shape for a Daily Vacation Bible School to be held in the Glendale Presbyterian Church this summer. It is probable the school will open the last of June, continuing for five weeks. The Daily Vacation Bible School movement has been growing in various centers throughout the country for several years, and has proved very successful wherever it has been tried.

The school meets every morning except Saturday, during the vacation period, holding its sessions from 9 to 11:30 a. m. The first hour and a half are taken up with worship, Bible memory work, habit talks, singing, and listening to Bible stories, attractively told, and the last hour is devoted to craft work.

The craft work will include wood-working, clay modeling, basketry, Kitemaking, sewing, rug-weaving, etc., for the older boys and girls, paper and cardboard work, and simple clay work for those in the Junior department, and there will be a kindergarten for the very youngest ones.

The school provides a place where boys and girls are kept busy and interested during the vacation time, and where at the same time they are receiving Bible instruction in a way that appeals to them. Wherever the plan has been tried, it has been found that so many boys and girls want to come that it is difficult to find the teachers and the room needed to accommodate them all. And they become just as enthusiastic over the Bible work and singing as over the craft program.

Last year about seven such schools were held in the Los Angeles district, but this year it is expected that there will be nearly forty of them. Leaders are now being selected for the Glendale school, and the programs shaped, so that everything will be in readiness for the opening on June 28th.

### PROGRESSIVE DINNER

Miss Bess Moore and Mrs. Mabel Gallup entertained last evening at the White Inn with a progressive dinner. The table decorations and handpainted place cards were carried out in the motif of spring. The last course of the dinner was served at the hospitable home of Mr. and Mrs. Max L. Green, of 140 South Jackson street. Music and various sorts of entertainment filled the very pleasant evening.

The guests were the Misses Laura Hunt, Charlotte Norton and Virginia Williamson of the Westlake Hospital of Los Angeles, Miss Laura Johnston of Pasadena and the Misses Margaret Psenner, Anna Chapman, Hulda Hansen, Margaret Cross and Dr. A. Goff of Glendale.

### AUTO CARAVAN COMING

**OREGONIANS TO TOUR CALIFORNIA, WITH THEM PROSPECTIVE GLENDALE RESIDENTS**

Miss Anita M. Harrison, who lives with the family of Dr. F. M. Collier, 130 Franklin court, has informed the Evening News of a great visitation Glendale and other Southland cities will receive about June 1st. A caravan of autos will start on May 20th from Portland, headed by the editor of the "Oregonian," and composed of residents of Portland, Eugene, Salem and other cities, bound on a tour of California from the Oregon line to the southern limits. There are to be 150 autos in the caravan, which will proceed in a leisurely manner and will camp out along the way. A fully equipped service car with all kinds of repair tools and food supplies will precede the caravan and pick out camping places, investigate road conditions and ascertain if detours are necessary. This service car will be equipped with a wireless telephone outfit as will be the leading machine in the caravan. The autos will all be decorated with streamers and banners bearing the names of the cities of which the occupants are residents. Among those attached to the caravan will be H. A. Price, wife and young son, who are coming to Glendale to make their home. They have been reading the Evening News for several months, thereby getting acquainted with the names of our citizens and keeping in touch with its marvelous development. They have two daughters in school in Oregon and they will not join the parents here until about July 1st.

### MAJOR BLAKE TALKS

**TELLS OF IMPROVEMENTS PLANNED AND TO COME ON FOOTHILL BOULEVARD**

Major J. P. Blake, who lives on the Foothill boulevard between Sunland and Tujunga, was a caller at the office of the Evening News yesterday. He says the growth of that rural section in the past year has been marvelous. The concrete roadway section extending west from La Canada through La Crescenta and Sunland is a famous driveway for motorists and brings many people along that stretch where the Verdugo Hills on the south and the lofty Sierra Madre range on the north enclose a highway of surpassing beauty. The old wooden bridge spanning the little wash a short distance east of La Crescenta has been replaced with a handsome concrete structure and it is promised that a bridge of similar construction will be built over the Big Tujunga between Sunland and San Fernando this year, by the government, at a cost of \$125,000.

Major Blake is greatly enjoying his present peaceful life after his strenuous activities overseas. He retired from a long army service in 1914 and expected to cultivate the arts of peace for the remainder of his days, but when the United States entered the war he dropped everything to aid his country. He was made disbursing officer and went across in September, 1917. He was at the front for 21 months and during his term of service paid out over \$9,000,000. He received a report a few days ago of the auditing of his accounts, and they balanced to a penny.

### LARGE CONSTRUCTION OF SALES GARAGES

Perhaps in no single class of business buildings has there been so great construction as in auto garages. This holds good not only in the past five or six years but in the past few months. Nine buildings for this exclusive purpose had been erected previous to the great campaign of the past few months, some of them as large as 50x100 feet. In the last half year two of such buildings have been put up, two are now being constructed and one or more are projected. In addition to these exclusive buildings, many business rooms built for other purposes are now used for auto and accessory sales.

### GLENDALE SALES

The Edwards & Wildey Company report that they are meeting with a very successful sale in the closing out of the unsold lots in the Kenilworth Subdivision. They have sold in the past two weeks 24 lots ranging in price from \$400 up to \$650. Several of the purchasers are to improve the property at once with modern bungalows. They also report through their Glendale Branch the sale of a modern 6-room bungalow located at 1007 North Brand Blvd. from Louise O'Brien to Dr. Young. For W. B. Engle to H. L. Jenkins a modern 5-room bungalow on Fairview avenue. Consideration \$4500.

### COACHELLA VALLEY

**L. W. BABCOCK CONDUCTS PARTY ON WEEK-END TOUR OF INVESTIGATION**

L. W. Babcock "personally conducted" a party of six Glendale residents accompanied by Mr. Stearns, a capitalist of Hutchinson, Minn., and his son, on a week-end tour of Coachella Valley. They passed miles and miles of acreage set to Bermuda onions, great cotton fields, date palm orchards and Malaga grape vineyards. The grape vines have already put out shoots three feet long, Mr. Babcock says, and there are as many as 36 bunches of bloom to a vine. The date palms are now being pollenized which is an interesting sight. Many fields of cotton show flourishing green shoots that came up thickly and regularly from last year's roots and other fields are being seeded. Prices of all products raised in the Valley are advancing and every available acre is being planted to cotton which promises the largest returns.

Mr. Babcock as manager of the company of five to which he belongs, started the drilling of the first well on their 80 acres. The second well will be put down next year. He says the outlook in the entire Valley is most promising.

## Fire Insurance

We Have 4 A-1 Good Companies

MILLER'S NATIONAL UNION UNITED FIREMANS NETHERLANDS PITTSBURG UNDERWRITERS

## Personals

Mrs. Peacock of 116 East Cypress Ave. is quite seriously ill of inflammatory rheumatism.

Mr. and Mrs. L. N. Hagood, who have been living at 215 West Chestnut street, have just moved to 216 North Orange street.

Lloyd Wilson drove down from Stanford University the first of the week to visit his parents, H. A. Wilson and wife. He will return tomorrow, accompanied by his mother.

Mrs. Bausch of 120 East Cypress, who underwent quite a serious operation at the California Hospital a few weeks ago, has been brought home and is making an excellent recovery.

The coming Saturday Mrs. Richard Wells of 404 West Broadway plans to leave for a month's visit with her oldest daughter, Mrs. Robert Hugh Hopkins, in Moreney, Ariz.

Mrs. Jackson and daughter of 212 East Cypress Ave. have decided to return to Iowa to live and are disposing of their effects. They have been occupying one of the Dransfield cottages.

The Kenneth Tract seems to have struck the popular fancy. Several lots there have recently been sold to Mrs. E. F. Heisser, of North Dakota, who plans to return next winter and build upon them. Dr. Leslie Eames of Gardena avenue has also purchased a lot there.

Mr. and Mrs. W. S. Farlow are new comers from Van Nuys who are now living at 317 North Brand. They have been Glendale residents only about a week, but all their impressions of the city thus far have been favorable and they are confident they will enjoy life here.

Mrs. L. B. Sporeleder who, with her little daughter, has been the house guest of her sister, Mrs. Richard Wells, is leaving tonight to visit friends in San Francisco and vicinity. She will return to Glendale before going back to her home in Colorado.

The 8-room house W. S. Caldwell has just commenced at 349 West Broadway is to have two 4-room apartments, though in appearance it will be like a single residence. A narrow but deep patio in the rear between the two wings will give plenty of light to the two bath rooms.

A considerable number of Glendale residents is attending the revival services at the Church of the Nazarene in Los Angeles, the group including Mrs. Eustace B. Moore, her mother, Mrs. Pennymann, Mrs. Fannie Marple and Mrs. Ruis. The meetings are being conducted by Charles Babcock.

Dr. and Mrs. Leslie Eames had the pleasure of entertaining for dinner and the night on Wednesday, Captain Joe Collins from the Presidio, who came south to San Pedro on the Battleship Mississippi. He is returning to San Francisco today by train. He and Dr. Eames were graduated from the same college and are great chums.

Friends of Mr. and Mrs. Frank Dupuy, who formerly resided at 1006 East Colorado, and are now living in San Leandro, have written friends here of the arrival in their home, March 29th, of a little daughter. As she is the only girl in a family of six boys, she is very welcome. Mr. Dupuy writes that he and his wife are all smiles over this very satisfactory addition to their family.

Theodore F. Peirce of 317 Vine who went to San Francisco a few months ago and established a branch of the Weber Show Case & Fixture Company, for which he has worked for a number of years, now has the work in the Bay City so well in hand that monthly visits are about all that are needed and he can spend most of his nights, at least, at home. But in about two weeks he will again be away, as he has to make an extended visit in the East in the interests of his firm.

Alton Goodale and family, who have been living at 1254 South Maryland avenue, have been compelled to move because the house has been sold. The Goodales have chosen a more northern location near the Doran Street School where they are building a home which will be ready for occupancy in June. Not being able to find a temporary residence here they have left Glendale for the time being. The new owners of the Maryland avenue house have moved in. They are from another suburb of Los Angeles.

### BIG APARTMENT HOUSE FOR N. BRAND

Nathan Rigdon, who came to Glendale from San Diego last fall and who has built several houses since, most of them on Central avenue and Orange above Doran, will soon begin the erection of a large apartment house with white plastered exterior, at 241 North Brand boulevard. The rear of the lot will be occupied with garages, the first of which he is building now to be used as a temporary residence for two of his workmen who recently came here from San Diego.

## SAN BERDOO HILLS

### J. G. HUNTLEY AND PARTY RETURN FROM WEEK-END TRIP TO BIG BEAR

J. G. Huntley and a party of young people, which included his daughter Virginia and Evelyn Gregg, returned Sunday from a week-end trip to the San Bernardino mountains. They found the road considerably washed out by the rains on the switchback, and on the north side of the hill a foot of snow covered it. When they reached the cabin at horseshoe bend they found the snow two feet deep and had lots of sport with it. Beyond that point the road was closed. Reports from Little Bear Valley indicated a fall of four feet of snow which was melting fast. When the party returned Sunday they found the snow they had traversed going up had almost entirely melted. Mr. Huntley says he found more water in the streams than he has seen there since 1914. The hills are lovely now and all members of the party enjoyed the trip immensely. Their only regret was that they couldn't stay longer.

On the way down they saw a car that had gone off the grade and been badly demolished, but could not get particulars nor learn whether any one had been hurt. Mr. Huntley advises the postponement of pleasure trips in that direction until the roads are mended. The repair crews are now working on them and he thinks they will be in much better condition two weeks hence.

Advertise it, or advertise for it in the Evening News.

Loren Babcock came up from Brawley last Saturday and is the guest of his father, L. W. Babcock, of 413 North Isabel, while waiting for work to open up in the Imperial Valley in the line of produce shipments which will be about the last of May. He is employed as buyer by a large produce firm in Los Angeles.

Mrs. Agnes Lauk had a permit taken out yesterday for the building of a 5-room California house at 319 West Palmer Ave. to cost \$1000.

T. A. Williams of Phoenix, Arizona, came yesterday to spend a few days with his sister, Mrs. M. F. Elliott, of 127 South Kenwood, and his nieces, Mrs. Clifford A. Cole and Miss Eva Garton.

Mr. and Mrs. Ralph Meeker of East Colorado street spent Easter in Santa Barbara where they called upon relatives and toured the country around Montecito, which they say is very beautiful now. Mrs. Meeker is a member of the State Republican Central Committee.

Mr. and Mrs. Ernest Purnell and Miss Purnell, who have been house guests for the past two weeks of Mrs. Louise Purnell at her home at 353 Ivy street, left yesterday for Laurel, Delaware, with the expectation of stopping en route in St. Louis and at a few other points.

Mrs. O. S. Palmer of 1008 East Colorado said good-bye Tuesday to Mr. and Mrs. J. J. Van Eaton of Poplar Bluff, Mo., who have been wintering at Santa Monica, and who have visited her several times during their stay. She says they are so greatly pleased with Southern California she would not be greatly surprised to hear they had sold out and would return to stay. They have large real estate holdings in Missouri and married children residing there which may keep them there however.

### DYNAMITE FOUND ON EAST BROADWAY RANCH

Ed Martmer, a former employe at the city hall, who was forced to move from 1329 East California avenue on account of the place having been sold, has bought a small ranch on the line separating Glendale from Eagle Rock, on the south side of East Broadway. In clearing up the place Ed found nine sticks of dynamite, partially buried near his water meter. No one in the neighborhood had any idea of how the dangerous stuff got there, but Chief Lampert, who was called to the scene and buried the dynamite, thinks it may have been cached there in war time.

### GIRLS' ASSEMBLY

A Girls' Assembly at Glendale Union High, called at 11 o'clock Wednesday morning, was addressed by Mrs. Daniel Campbell whose theme was "Girls," which she subdivided under several heads suggested by the letters which compose the word. It was a good, sensible, motherly but sympathetic talk about dress and behavior, in which she emphasized the characteristics most pleasing in young girls and gently urged her hearers to avoid the conspicuous in dress and manners. This talk was to have been made during the first half of the year, but was postponed on account of the influenza which closed the school. Miss Marie Oliver contributed a vocal solo.

Advertise in the Evening News.

Mrs. Christ E. Baer has reopened as a grocery store in the building she and her husband own at the junction of Cypress and Glendale avenues. She is being assisted by Mrs. Flora Seymour who has had years of experience in the grocery business. It will be remembered that for long Mr. Baer conducted a macaroon factory in the rear portion of the building, but after the great advance in the price of sugar and coconut it ceased to be profitable and the bakery was discontinued. Mr. Baer has never completely recovered from the effects of a severe attack of influenza which he experienced in February and has gone East to try the effect of a change of climate. Little Eleanor Baer has been sick for a week or ten days and is threatened with pneumonia.

**SALVATION**

**EVANGELIST ROOT EXPLAINS  
WHAT IT IS AND HOW  
OBTAINED**

Claiming that "Salvation" includes the terms justification, redemption and sanctification and that all of these are the result of an obedient faith in Jesus Christ, Evangelist Clayton C. Root delivered a forceful and convincing sermon last night at the Central Christian church.

The greatness of Salvation was proven in that it delivers us from self, from worldly practices, from pleasures that destroy, from sin. The reality and terror of sin was plainly brought out.

The teaching value of these meetings under Evangelist Root as well as the results in strengthening the local church has been very large. Tonight the much-discussed question as to the necessity of Christian baptism will be the topic and a chart will be used to emphasize the sermon. No doubt a large crowd will be present.

**THE CAMPFIRE**

**MANY TESTS TAKEN BY MEM-  
BERS OF TROOPS ONE, TWO  
AND THREE**

So many were the tests taken at headquarters this week that the records have not yet been completed. Troops one, two and three made fine showings.

**Troop Two**

Troop II had a very interesting meeting last Friday. Nearly a full membership was present. Dr. Scaafe gave a fine talk on astronomy illustrated by some wonderful pictures taken at Mount Wilson observatory. Following the talk the doctor presented the Troop with a beautiful star map. Scouts Robert Frazee, Thomas Wood and Burton Kuntzner received a Scout neckerchief as a reward for exceptional work in Scout tests. Scout Willard Roberts received a fine book on knots. Seven other Scouts received honor cards. Dr. Scaafe surprised Assistant Scout Master Robison by presenting him with a handsome magnifying glass.

The Troop decided to hold a grand campfire supper and celebration next Friday night up in the hills near Montrose. A special "dinky" has been chartered for the grand joy ride.

**SALOON-CLOSING HELPS LABOR**

Reports from all parts of the State show that the closing of the saloons has been most far-reaching in bettering the condition of labor. The following significant article from a Sacramento paper is in point:

"Unclaimed bundles of bedding have decreased by two-thirds in Sacramento during the last year, according to Bob Laidlaw, foreman of the baggage rooms of the Southern Pacific station. Formerly it was necessary to set aside a special place in the baggage rooms for storage of unclaimed bundles, but this condition no longer exists, he says.

"Laidlaw believes the closing of the saloons is responsible for the change. The irresponsible victims of alcohol who once left their baggage in storage for days and sometimes never claimed it, now no longer exist," he states.

"Laboring men are now more dependable," said the foreman. "But we used to have this room stored to the ceiling with bundles belonging to men who had 'blowed' into town and gone on a protracted drunk. After the first 24 hours, the storage charges commenced to pile up with the usual result that the men, victimized of their money by the saloons, had no means of recovering their baggage. Subsequently they drifted out of the city and the bundles were left on our hands.

"But now it is a rare thing for us to keep bundles more than two or three days. Sometimes the men leave them here for a while because they don't want to be bothered with them, but when they come back they always have the money to pay the storage charges."

**SCIENTIST WAS FOOLED**

A few years ago Doctor Emmens, a distinguished American scientist, was convinced that he had discovered a "missing element" between gold and silver, which he called "argentaurum." He melted Mexican dollars in a crucible, dissolved the silver with nitric acid, and exhibited a residue of undeniable gold.

Explanation lay in the fact that there was originally some gold in the silver out of which the dollars were minted. This is commonly the case (owing to imperfect metallurgical processes) with the older Mexican coins.

**CARDIFF**—Avon Valley miners are going to take drastic steps against profiteers. The miners have pledged themselves not to pay more than "reasonable" prices for foodstuffs, and retailers refusing to sell, are to be reported to a special Union committee which will arrange demonstrations, headed by brass bands to "serenade" offenders.

**NO-PARKING MEASURE**

**GLENDALE MOTORISTS SHOULD  
PREPARE TO OBSERVE NEW  
L. A. ORDINANCE**

It behooves Glendale motorists, as well as those of other nearby cities and towns to acquaint themselves thoroughly with all the provisions of the new parking law of Los Angeles, which was bitterly fought for weeks, but to no avail. It is to be enforced to the letter by traffic officers, it is announced, whether from a strict sense of duty, or with the hope of thereby bringing about an early repeal of the ordinance, it is not stated. In what is called the congested district there is to be no parking of autos between 10:30 a. m. and 6 p. m. and no stop for more than two minutes, except of trucks loading or unloading goods and they are allowed only 15 minutes. This district is bounded, roughly, by First, Los Angeles, Ninth and Olive streets, with the addition of Sixth, Seventh and Eighth between Olive and Figueroa, and Grand, Hope and Flower in the same limits. No left-hand turns will be permitted at the crossings of Main, Spring, Broadway and Hill with Fifth, Sixth and Seventh.

Surrounding the congested district and extending out as far in places at Sunset boulevard, San Pedro street, Central avenue, Fourth street and Figueroa, is a district in which parking for two hours only will be allowed from 10:30 a. m. to 6:30 p. m.

In neither of the districts above mentioned is the ordinance in force on Sundays. It goes into effect on Monday next.

**CHINESE STUDY REAL WORK**

Even a Chinese pocket dictionary contains more than 10,000 characters representing words, and if a man intends really to master Chinese he must learn to recognize them all—"a stupendous task." However, 3,000, 4,000, or 5,000 syllables are all that a Chinese of average education requires, and, if anyone will persevere until he has thoroughly conquered a thousand, he will be in a position to have some appreciation of a novel and to master the difficulties of a simple business document. But for the sincere student a thousand characters is the minimum.

**LOWDEN AS A STUDENT**

Gov. Frank O. Lowden of Illinois when a student at the State University of Iowa, had close friendships among all classes of students, though he was a member of the most exclusive Greek letter fraternities on the campus. One of his old college mates, Henry C. Gardiner, a San Diego, Cal., attorney, recalls the characteristics that made Lowden a leader among his associates at that period of his life.

"Lowden seemed to hold friendships on all sides," Mr. Gardiner said. "One reason was that he was not scrappy but was always ready to fight and fight hard when there was anything worth fighting for. His later success as a politician was foreshadowed in the tact and good judgment he always showed in college politics. I believe he could get along and work with almost any sort of a congress if he were president. He seemed to have even in those days an almost uncanny faculty for seeing the right side a long distance ahead. There was nothing Napoleonic or spectacular about Lowden. His position or argument always seemed so obvious and natural that one wondered why he had not thought of it before."

**BREAKING IT GENTLY**

At an amateur performance an artist gave imitations of several popular actors, one of whom happened to be present.

Afterward the ambitious amateur sought an introduction to the "star," and asked hopefully:

"Did you see my imitation of you?"

"I did," replied the great man, promptly.

"Then, sir," persisted the aspiring youth, "may I ask you to give me your opinion of my art as shown in that impersonation?"

"Well, my boy," the great man said, "one of us is rotten!"—From London Tit-Bits.

The world's standard remedy for kidney, liver, bladder and uric acid troubles—the National Remedy of Holland since 1696. Guaranteed. Three sizes, all druggists. Look for the name Gold Medal on every box and accept no imitation.

**JINKS DAY**

**PUBLIC WARNED OF ANNUAL  
FROLIC OF HIGH SCHOOL  
STUDENTS**

Teachers in Glendale High are sending out warnings to the public not to get excited over developments among students or to imagine that the institution has been converted into a moving picture studio if, on some fine day the latter part of the present week, they see boys and girls with school books under their arms on their way to the campus in the most fantastic garb with complexions and hair arrangement in character. This is the time for the annual jinks day and our streets are likely to be patrolled by "Uncle Sams," "John Bulls," "Sis Hopkings," not to speak of "Mary Pickfords" and "Doug, Fairbanks."

Prof. Harry Howe says the faculty has found this day is quite a vent for superfluous animal spirits and the sort of innocent mischief that spring seems to breed. So far from interfering with studies it seems to stimulate work and recitations on jinks day are generally better than average. The school work proceeds as usual, the difference being that students are allowed to "make believe" for this one day.

This year the seniors have challenged faculty members to a ball game promising to wipe up the field with them; but the profs snuff the battle from afar and have accepted the challenge with avidity. They were school boys once themselves and have had a chance to watch all the new wrinkles in play and may even have practiced them in secret. It would not be at all surprising to learn of a private rehearsal on some lonely moor although the instructors are not lacking in confidence. No other program announcements have yet been made.

**D. O. K. K. BAND IN GLENDALE**

Local Pythians had a big night Tuesday at the K. of P. Hall. The members were visited and entertained by the official "Dokey" Band of Al Borah Temple, No. 75, Los Angeles.

F. J. Willett's beautiful "flag of our country" was received on behalf of the Lodge by Judge Templeton with an eloquent speech. Delegates were elected to the State Convention, and at the conclusion of the session lunch was served in the banquet room.

**LITTLE ASTOR CRACKS U. S.  
BRITISH NUT**

(By United Press)

LONDON. (By Mail).—Lady Astor's little daughter has solved an international problem which has been perplexing the best American and British brains for some months past.

It was at luncheon at Lady Astor's house. The conversation had turned on the topic of present Anglo-American misunderstandings and Lady Astor invited her guests in turn to give an opinion as to the causes thereof.

Words of wondrous wisdom wafted across the table. There was a general feeling that that little difficulty had been settled once and forever, and each embryo-diplomatist having vented an opinion leaned back with a self-satisfied air, as who would say, "I think my theory's best, anyway!"

Suddenly Lady Astor turned towards her young hopeful.

"Well, Toots," she exclaimed, "and what do you think stands between England and America?"

The child, who up to this point had paid very little attention to the babblings of her elders, looked up in evident mystification at having such an utterly foolish question put to her by a parent whose intelligence she had every reason to respect.

"Why, Mummie dear," she faltered shyly, "the—the ocean, of course!"

**"Never Has to Call  
a Doctor—Bathes  
Internally"**

Mr. J. E. McNeil, P. O. Box 217, Globe, Ariz., writes to the Tyrrell Hygienic Institute:

"I have been using the 'J. B. L. Cascade' for the past twenty-five years and call it our cheap family physician for the reason that I have never had to call in a physician to treat one of the family. What a pity more of the human race are not acquainted with the virtues of the Cascade in a family."

The "J. B. L. Cascade" cleanses the lower intestine its entire length and keeps it always free of poisonous waste.

Thousands testify that Constipation, Indigestion, Stomach Troubles, Biliousness, Headaches and all the many serious troubles which they cause are absolutely relieved and prevented by this Nature Treatment.

Roberts & Echols in Glendale, will be glad to show you the "J. B. L. Cascade," explain its simple operation and will give you, free on request, an interesting little book by Dr. Chas. A. Tyrrell of New York, a noted specialist on Internal Bathing for 25 years in that City. Clip this out as a reminder to ask for the booklet at your first opportunity.

**WILD FLOWER TIME  
IN THE FOOTHILLS**

IS THERE anything more appealing to nature lovers than a Spring-time stroll among the wildflowers?

The gentle rains of the past few weeks and the balmy sunshine is coaxing nature to smile with her flowers most benignly.

Take a little journey over our lines to the upper San Fernando Valley, to the foothills and canyons above Glendale, Altadena, Sierra Madre, Monrovia or Duarte. If you would go farther afield, go to Puente Largo and explore the San Gabriel River canyon and revel in the joy of a long Spring-time hike.
