NO. 2.

PRIZE FIGHT IS CONDEMNED

LONDON PRESS ON DISORDERS IN STATES

The Globe Declares Racial Effects of Contest Will Continue for Years

(Times Leased Wire.)
London, July 6.—Although deploring race riots in many American cities and towns following the Jeffries-Johnson fight, the London papers to-day almost unanimously excuse the disorders.
The usually anti-American Globe, commenting on the riots and lynchings following the fight, says:
"Our sympathy runs more to the man with the rope than the blatant blacks. It is against human nature to expect white men to accept the negroes' insolent assertion that Johnson's victory established the superiority of the blacks, without instant protest."
"The race contest was the most in-judicious one ever permitted, and the racial effects will continue for years."
"The Americans are the trustees of the predominance of whites over blacks, and we believe they will prove true to their trust."
Many of the papers deplore the fact that a white man should have consented to meet a negro, and some reiterate the condemnation of former Champion Tommy Burns for ever having consented to meet the negro in the prize ring for a few paltry dollars.
The Star takes a fling at the presence of women in the fight arena, saying:
"When next we are shocked at the spectacle of Spanish women at a bull fight we must remember that in an Anglo-Saxon community women watched two nearly naked men fight until one was pounded senseless."
The Star also takes occasion to "josh" Roosevelt for his Guildhall speech, reciting the colonel's statement that a nation's first duty is to preserve order.
"His complacency must be shaken," says the Star, referring to Roosevelt. "We await to see whether he will apply the criticism of England's conduct of affairs in Egypt to his own country. It is a pity that Americans are not cultivated in the art of taking sporting defeats in a dignified manner and in minding their own business politically."

WHEAT CROP OF WESTERN CANADA

RAILWAY REPORTS CONTINUE FAVORABLE

Manager of Freight Steamers Says Yield Will Not Exceed 100,000,000 Bushels

Toronto, Ont., July 6.—E. Burker, traffic manager of the Merchants' Mutual Line of freight boats, who returned to Toronto yesterday after a trip through Manitoba, Alberta and the southern part of Saskatchewan, says the wheat crop in western Canada this year will not exceed 100,000,000 bushels.
Crop Conditions
Winnipeg, July 6.—Despite the assurances that present crop conditions do not warrant the uneasiness which appears to prevail among a certain section of the farming communities, some pessimism still exists, notwithstanding the reports which have been issued by the railway companies regarding the wheat fields along their respective lines.
These reports show that the conditions generally are all that can be expected, and providing favorable weather reigns, there is no reason, many well-informed persons claim, to believe that the crop this year will not be as big as in any previous season, and perhaps bigger.
The weekly report of the Canadian Northern Railway is exceptionally bright, and there are indications that everyone will be satisfied when the harvest is gathered in.

POWER BOATS AT CAUSEWAY ANCHORAGE
FLEET OF SWIFT YACHTS
NEARING THE FINISH OF A RACE
INTERNATIONAL REGATTA

BRITISH EMIGRATION.

(Special to the Times.)
London, July 6.—The Times says: The time is not far distant, if it has not come, when the Dominions can no longer expect to draw from us the flower of the very classes which we most need at home; they must be content with a good average. One of the best ways to secure it is to attract their immigrants while they are still young.

FALLS UNDER TRAM.

(Special to the Times.)
North Bay, Ont., July 6.—Archie McGinnis fell under the wheels of a passenger train here and received injuries which necessitated the amputation of both legs. He is alive but very weak.

MAY DIE FROM INJURIES.

Windsor, Ont., July 6.—In an altercation at the Iroquois hotel, William B. Mallery, of Detroit, was thrown down stairs from the second story and his skull was fractured. He is likely to die. Mallery was intoxicated and is supposed to have interfered with a party of men and women who immediately disappeared.

TWO FIRES.

Brockville, July 6.—Plenic Island, one of the largest in the St. Lawrence, controlled by Brockville, had a narrow escape from devastation by fire during Monday night. Just how the blaze originated is not known, but it is thought to have been caused by rockets exploded from the main shore and dropping into the dry grass. The summer residents at Fern Bank and adjacent points turned out en masse, and after vigorous work succeeded in extinguishing the flames, which covered a wide area. The fire broke out again yesterday, but was quickly put out. On the island is a large pavilion erected by the Dominion government.

F. GOULDTHRITE'S BODY FOUND IN RIVER

Former Official of Printing Bureau Committed Suicide by Leaping From Steamer

Detroit, July 6.—The body of F. Gouldthrite, formerly superintendent of the printing bureau at Ottawa, was found in the river near here.
A few days ago it was reported that Gouldthrite, who was being sought by the Dominion police, had jumped from the deck of a lake steamer while on the way to Cleveland. Upon taking the clothes off the body of Gouldthrite, Undertaker Baker discovered \$960, which, with \$96 already found in the pocket-book, makes a total of \$1,056 in money, with other valuables, discovered on the remains.
The body was shipped to Ottawa.

ATTACKED BY TRAMP.

Man Found in Barn When Ordered Out, Tries to Kill Owner.

Galt, Ont., July 6.—A daring attempt was made by a tramp to take the life of Andrew Oliver, who resides on Preston road. Mr. Oliver had gone to the barn to do the chores, when he heard some person muttering in an incoherent manner in the vicinity of the sheep pen. He found a tramp lying on his back apparently the worse for liquor, and requested him to leave, upon which the tramp drew a knife from his pocket and desperately attempted to stab Mr. Oliver in the heart. Fortunately the knife missed its mark, entering the left arm and cutting a deep wound three inches in length. Not satisfied, the tramp circled about Mr. Oliver, attempting to repeat the act, but his blows being warded off he disappeared in the darkness.
When Mr. Oliver went to Preston to notify Chief Levan the latter had a man in the cells who proved to be the assailant. He was found on the streets at midnight, and his actions being suspicious, he was taken in charge. The prisoner gave his name as William Rogers, of Chatham, and on pleading guilty was remanded to Berlin gaol to await trial.

POLICE CHIEFS OPPOSE PICTURES OF FIGHT

Movement Against Reproduction of Championship Battle at Reno is Growing

(Times Leased Wire.)
New York, July 6.—Charging that the exhibition of the Jeffries-Johnson fight pictures constitutes the reproduction of an illegal act and insisting that the exhibition of the pictures amounts practically to the flaunting of a crime in the public face, the International Association of Police Chiefs to-day entered the fight against the picture production of the late affair at Reno.
At the last meeting of the association the chiefs put the ban on exhibiting any pictures of crime. To-day they declare the Jeffries-Johnson fight is the sort of fight that is a crime in most states, and as a result they cannot sanction a broadcast reproduction of the battle in pictures.
The Christian Endeavor Society, with headquarters in Boston, to-day also weighed into the fight. Secretary William Shaw wired every governor in the country, in addition to the mayors of many cities, urging them to exclude the pictures. He also urged President Taft, former President Roosevelt and Governor Hughes of New York to lend the anti-picture movement their influence. In his telegrams to the governors and mayors Secretary Shaw says: "Race riots and murders already have followed the announcement of Johnson's victory. The moving pictures will create more violence. Will you join in an appeal to the authorities in the cities and towns to prohibit the exhibition of the pictures? Help save the young people from demoralizing shows."
On the moving pictures depends the loss or gain of the American Vitagraph, owners and controllers of the countless sets of films that are now being prepared for the motion picture houses. Recently the company estimated that its receipts would exceed a million dollars, but it is now unsafe to predict any figures until the proportions of the anti-picture movement become more defined.
Mayor Gaynor of New York looks on the pictures tolerantly and apparently sees no harm in them. So far as he is concerned the pictures can be shown in New York city.
"New York hasn't a large negro population," he said, "and I am sure the pictures will not engender race feeling here."

STORM WRECKS BIG CIRCUS TENT

Collapses While Performance is in Progress—Several Persons Slightly Hurt

(Times Leased Wire.)
Waterford, S. D., July 6.—A number of persons are nursing minor injuries and bruises here to-day as a result of a storm, which wrecked the main tent of the Ringling Brothers' circus while the night performance was in progress. The storm, which was almost as severe as a cyclone, struck the big canvas and it partially collapsed. The tent took fire and was destroyed. The spectators caught under the canvas struggled out and none was severely injured. Two circus employees received broken arms.
The storm was so severe that houses were unroofed, box cars blown from the tracks and other damage done. Telegraph communication was cut off for a number of hours.

LOGGING CAMPS AGAIN IN OPERATION

More Than Three Thousand Men Return to Work in Gray's Harbor District

(Times Leased Wire.)
Houma, Wash., July 6.—The logging camps in the Gray's Harbor district resumed operation this morning after a shut down of 27 days. The surplus supply of fir logs on the harbor has been decreased by curtailing the output, and all possibility of a drop in the price has gone. More than 3,000 men, idle for a month, went back to work to-day. The market seems steady with a moderate supply of fir on hand and a slight shortage of both spruce and cedar.

POWER DEAL COMPLETED.

Sherbrooke, July 6.—Frank Thompson, director of the Sherbrooke Railway & Power Company, completed here yesterday the deed of sale conveying all the properties, water powers, etc., purchased by the railway company from the British American Land Company. Mr. Thompson paid over the purchase price of \$15,000.

FIRE ON BOARD EXCURSION STEAMER

Fireboats Assist in Rescuing Passengers From Burning Vessel at New York

(Times Leased Wire.)
New York, July 6.—The steamer Grand Republic, sister ship to the General Slocum, caught fire to-day while coming through the Narrows.
Sounding her siren, the steamer headed for shore. A horde of tugs and small craft dashed for the vessel and the crowd of excursionists aboard were taken off.
Fire boats were rushed to the aid of the flaming vessel and helped take off her passengers.
There were 20 passengers aboard the vessel when the fire started and the crew had little trouble in getting them into the small boats.

TWO DROWNED.

Sorel, Que., July 6.—A youth named Jules Cournoyer and Miss Ethel Johnson, were drowned here by the upsetting of a canoe.

CONTRIBUTES TO RELIEF FUND.

Montreal, July 6.—The city council at a meeting yesterday voted the sum of \$10,000 to the fund for the families of the victims of the Herald disaster.

FOR CAPTURE OF BANDITS.

Harriman Lines Offer \$5,750 for Arrest of Men Who Robbed Train.

Salt Lake City, Utah, July 6.—Robert S. Lovett, of the Harriman lines, to-day increased the reward for the capture of the three bandits who held up an Oregon Short Line passenger train on the outskirts of this city the night of June 25th to \$5,750.

MAY STOP SALE OF FIREWORKS.

Chicago, July 6.—The success of the same Fourth, as shown by dispatches from many parts of the country, to-day inspired Fire Marshal Horan to recommend to the city council the prohibition of the sale or use of fireworks. The council is considering the passage of such an ordinance.

LOST FOR TWO DAYS IN FOREST

Six-Year-Old Boy Who Disappeared From Camp is Found Unharmed

(Times Leased Wire.)
Bellingham, Wash., July 6.—After all hope of finding their child alive had been abandoned, Mr. and Mrs. W. R. Kline, of Deming, this morning found their little six-year-old lad Danny near the head of Lake Whatcom, several miles from the camping ground at Canyon Falls, from which he wandered at 4 o'clock July 4th. How the child reached the spot unharmed, travelling through a rough country that is covered by a dense forest and populated with cougars and bear, is a mystery. The boy seemed well, although he was terribly worn and exhausted as a result of his two days and nights in the woods.

NEW REPUBLIC MAY BE FORMED

Revolutionary Leaders Likely to Declare Independence of Eastern Section of Nicaragua

(Times Leased Wire.)
San Juan del Sur, Nicaragua, July 6.—General Estrada and his followers have decided to await the outcome of General Menzies' invasion of Chontales before declaring the independence of the eastern section of Nicaragua, according to released prisoners returning here from Bluefields. This decision was reached after a conference between Estrada, General Diaz, General Chamorro and other leading insurgents.
Original plans were to declare independence and call the new republic New Nicaragua. It was to have come under the protection of the American government and General Estrada was to have been the first president.

WILL EXTEND SERVICE.

Salt Lake City, July 6.—With the opening of passenger traffic to California over the line of the Western Pacific the Pacific express company will extend its service to San Francisco. The Pacific now operates over all the Gould lines in the east and southwest.

MET TO DISCUSS MOUNT DOUGLAS

PARK HELD IN TRUST BY CITY FOR PUBLIC

Gathering at Home of A. W. McCurdy Talk Over Best Means of Interesting Authorities

Twenty years ago the British Columbia government conveyed to the city of Victoria, in trust, a tract of about 250 acres, more or less, known as Mount Douglas park, with a mile of waterfront on Cordova Bay, to be held and maintained for the benefit of the public. For twenty years the city has neglected the trust, but now at last there is a movement on foot to have the park surveyed, fenced and put in such shape that it will be possible to get to the top of the hill without great difficulty.

Mount Douglas is a little over 700 feet high, and from the summit may be obtained one of the finest views in the world. With a view to having this natural park put in better shape, the Natural History Society recently organized an excursion to the top of the hill and invited the mayor and aldermen, the city engineer and the member for the district to go with them. The excursion was an eye-opener to many who had not been there before, and a discussion was held as to the best means of bringing the park into more general use.

Following this-up a number of members of the Natural History Society and other citizens, including Mayor Morley, City Engineer Smith and D. M. Eberts, M. P., met at the invitation of A. W. McCurdy at his residence, Esquimaux road, last night, and further discussed the matter. It was shown that the park was a most valuable property, a good deal of it being worth as much as \$500 an acre. The general opinion was that this would be a most opportune time to get the park in order so that it might be used by the public both of Victoria and the surrounding neighborhood.

Both Mr. Eberts and Mr. Morley expressed themselves as in full sympathy with the move, but they thought the initiative should be taken by them at the meeting on Monday next.

The opinion was freely expressed that the surveys of the park should be made this year and a fence erected and a road cut through it at as early a date as possible. If this were done it would become a favorite resort for tourists. Following this it would be necessary to have a caretaker to protect the trees, flowers and birds, and to keep cattle from roaming through it as well as at present. As the park was left to the city in trust to maintain for the use of the people they could hardly have been said to have fulfilled that trust so far.

MANY MATTERS BEFORE COUNCIL

IMPROVED POSTAL SERVICE TO COMOX

Board of Trade Executive Holds Final Meeting—President Leiser's Services Appreciated

At the last meeting of the 1909-1910 council of the board of trade held this morning a number of important matters received consideration. Among them were the New Westminster steamship service, improved postal connections with Comox, consideration of the C. P. R. application for foreshore rights to permit extension of the company's local wharves and the reading of a long letter from Provincial Librarian Scholefield anent the securing of the next convention of the American Library Association for Victoria.

In regard to the Fraser River service it was decided that, although the council has received a letter from the Gulf Steamship & Trading Company, offering to place the steamer Trader on a twice-a-week service, the matter be left until a report is received showing that the business men of the city consider this service to be equal to their requirements.

The proposal to take advantage of the E. & N. railway extensions to the north in improving the Comox and Cumberland mail service was reported. It is suggested that the mail be sent overland, as the railroad extensions will allow of good stage connections with the two districts. The matter has been referred to J. O. MacLeod, superintendent of railway mail service, and further consideration by the board will be delayed until a reply is received from that official.

A letter from the Canadian Pacific Railroad Company setting forth particulars of the proposed wharf extensions in the inner harbor, which have been previously detailed in the Times, was read. The letter was accompanied by a plan showing the projected wharves running from a line parallel with Menzies street for 687 feet. The company asked the board to express its opinion on the plans and the matter will be taken up at an early meeting.

Those present at the meeting were: Simon Leiser, chairman; J. A. Marsz, Joshua Kingham, J. J. Shallock, Geo. Carter, C. F. Todd, James Forman and Charles H. Lugin.
Upon the completion of the council's business several of the members took occasion to refer in complimentary terms to the services rendered by President Leiser. His untiring energy during his term of office was unanimously appreciated, and the feeling of the meeting was that without his enthusiasm and ability in guiding the destinies of the board many of its beneficial activities would not have resulted successfully.

In replying, Mr. Leiser thanked the members of the council for their warm praise and also for the cooperation they had given him in matters connected with the board. He felt that whatever success had attended the efforts of the council and of the board as a whole had been obtained only as the result of the members' unflinching interest and the consequent support he had received from them.

RETAINS POST AS CONSUL-GENERAL

Foreign Secretary Grey Says Sir Eldon Gorst Will Remain in Egypt

London, July 6.—Replying to a question in the House of Commons yesterday afternoon, Foreign Secretary Grey stated that Sir Eldon Gorst would remain in Egypt as British diplomatic agent and consul-general.
Several questions have been asked of the government since Mr. Roosevelt's Guildhall speech on Egypt as to what the government was going to do in regard to the British agent there, in view of Mr. Roosevelt's statements. This is the answer.

The Star referring to the fact that Sir Eldon Gorst is not to be removed from the position of consul-general in Egypt, says:
"Roosevelt allowed himself to become the cat's paw of a cabal against Gorst and did much to kill the Liberal's confidence in him."

SUFFRAGETTES ACTIVE.

Collect \$1,500 for the Cause at Meeting on Atlantic Liner.

London, July 6.—Mrs. O. M. P. Belmont and Miss Inez M. Holland, American suffragettes, who have just arrived here, said to-day that at a meeting of passengers held on the steamship Lusitania during the voyage from New York \$1,500 was subscribed for the suffragette cause. Senator Chauncey M. Depew, of New York, presided at the meeting.

LADY TEACHERS DISMISSED.

Windsor, Ont., July 6.—Seven lady teachers comprising the entire staff of St. Alphonsus separate school here, have been notified of their summary dismissal and of the intention to fill their places with members of the Ursuline order. The action was taken by the Roman Catholic separate school board and is believed to be the outcome of the differences existing between the board and staff for the past two years.

WILL SUBMIT REPORT REGARDING DUST NUISANCE

Angus Smith, City Engineer, Has Collected Valuable Data on the Subject

Angus Smith, city engineer, hopes to be able to submit his report as to the best manner of dealing with the dust nuisance at Friday evening's meeting of the streets committee. Mr. Smith for several months past has been in communication with the engineers of the various northwest cities, and has collected in this way a mass of valuable data.

Save in certain cities in California, oil has not proved a success in dealing with the dust nuisance. In many places it has been found to add to the nuisance, owing to it adhering to the shoes of pedestrians and the wheels of vehicles.

Mr. Smith will submit the various letters he has received on the subject. In the interim experiments are being made with calcium chloride on certain streets of the city.

ILLINOIS BRIBERY CASE.

Second Trial of Browne Will Begin on July 20th.

Chicago, July 6.—Judge McSweeney announced to-day that the second trial of Lee O'Neill Browne, charged with bribery in connection with the election of William Lorimer to the United States senate, will begin July 20th. The first trial of Browne resulted in a disagreement of the jury after it had deliberated 115 hours.

LATE CHIEF JUSTICE FULLER.

Chicago, July 6.—The body of the late Chief Justice Melville W. Fuller will arrive here to-morrow. The funeral will be held Friday afternoon and the body will be buried in Graceland cemetery beside that of his wife.

Rev. James Freeman will officiate. The pallbearers will be Justice Holmes, of the United States supreme court, General Thomas Hubbard, William D. Hyde, Hugh C. Wallace of Tacoma and Nathaniel Francis.

C. P. R. EARNINGS.

Montreal, July 6.—C. P. R. traffic earnings for the period ending June 30th totalled \$2,735,900, an increase of \$764,500 over the same period last year.

JOHNSON WILL NOT RETIRE.

Cheyenne, Wyo., July 6.—Jack Johnson, who arrived here in his special car at 11:40 o'clock to-day, denied that there is any truth in his mother's statement that he was ready to retire from the prize ring. Johnson made no attempt to explain any possible reasons for the statement, but declared that he had no intention of quitting the game. Fully 200 curious persons were at the station when Johnson's special car arrived over the Union Pacific. A squad of detectives was on the scene to guard the black champion.

Chicago, July 6.—Chief of Police Steward to-day announced that he would not permit negroes to parade through the streets of Chicago upon the return of Champion Jack Johnson from Reno. The blacks have been making elaborate preparations for a welcome for Johnson, and every negro organization planned to be in line.

SCHWENGER GETS INTO FINAL ROUND

Tyler Beaten—Victoria Double Defeated by Seattle Pair at Spokane

B. P. Schwenger, the Victoria tennis player and champion of the Northwest in the singles, has run into the international finals at Spokane and will play Wickersham, of Portland, for the title. In the doubles Schwengers, playing with Cambie, was beaten by Russell and Fitz of Seattle, yesterday. The surprise of the meeting so far is the easy defeat administered yesterday morning to Joe Tyler by Wickersham of Portland, who won in two straight sets, 8-6, 6-1. Tyler was out met and defeated Wickersham in other tournaments. He will play the Portland man for the final this week. In the first round Schwengers put out Fitz of Seattle, 5-7, 12-10 and 5-2. The match was one of the hardest of the present international tournament and Schwengers apparently wore his opponent down through a long second set, and then beat him after breaking through his service in the last set. Gilliat and Jukes of Vancouver defeated Andrews and Ewing of Portland in the doubles, 6-11, 6-4, 6-4, and will play Fitz and Russell to-day.

DWELLING HOUSE FIRE. Fire broke out at 2 o'clock this afternoon in the residence of Robert Tennant, 625 Superior street. The brigade responded promptly and found that the blaze had originated from the kitchen stove. Considerable damage was done to the roof by fire, and some of the contents by water. There was no insurance carried.

—An orchestral concert and moving pictures will be to-night's special attraction at the Gorge park.

—The police commissioners this morning held the regular monthly meeting receiving and approving the monthly report handed in by the chief of police.

—In the police court this morning Magistrate Jay dealt with a couple of bicycle offenders who were fined, and remanded a common danger automobile charge until to-morrow.

—The companions of the Forest will hold an ice cream social in Foresters' hall, Broad street, to-morrow evening at 8:30 o'clock. Miss Thain's orchestra will provide music.

—Three new cars for the B. C. Electric Company are daily expected by Manager Goward from the New Westminster shops. They are similar to the large cars in use on the Fort street line.

—A band concert will be given this evening, commencing at 8 o'clock, by the Fifth Regiment band, in front of the Victoria West fire hall, corner of Catherine and Edward streets. A choice programme of selections will be rendered.

SETTLER STANDS UP FOR HIS ISLAND

Climate of Graham Island, in Agricultural Sections, is as Fine As Can Be

A Graham Island settler at present in the city takes exception to a remark made by E. M. Anderson, assistant curator of the provincial museum, as reported in yesterday's Times, which he fears may be construed by some as a reflection on the climate of the Queen Charlotte Islands. Mr. Anderson, who said he thought the darker plumage of the birds on the islands was due to the continuous and heavy rainfall, was, however, referring solely to the mountainous portions of the western coasts of Moresby and Graham Islands, where he spent some time collecting specimens and where the rainfall certainly is heavy. In the lower portions, especially of Graham Island, where there is much splendid agricultural land now being taken up, the climate is described as fine, approximating to that of Vancouver Island. Some English settlers say it was as mild and equable a climate as Devonshire has. The rainfall, according to Rev. Mr. Harrison, at weather office observer, is between 30 and 40 inches a year. Graham Island resembles the south end of Vancouver Island, in the fact that the rain-clouds pass over the lowlands, to be caught on the mainland coast.

EMPRESS STOCK COMPANY.

Fine Body of Players Are Making Many Friends in Victoria.

The tremendous success of the Empress Theatre stock company at the Victoria theatre is causing much comment among theatre goers and orders for seats have been arriving at the ticket office with great frequency. To-night the company will give "Tribby" for the last time, and no lover of the drama should miss seeing this powerful play. Written by Du Maurier, it has been read by countless thousands of delighted readers and as dramatized by Paul Potter and played by Beer-bohm Tree in London, it has been equally successful. Isabelle Fletcher and Fredrick Wilson give fine presentations of "Tribby" and "Svenigall" while the "Laird," "Taffy" and "Little Billee" are played by V. T. Henderson, Chauncey Southern and T. B. Loftus. D. M. Dunbar, who plays Little Billee's clerical uncle, is excellent. He makes the character one of the most humorous in the cast, without at all overdoing it. Rise Adams, as Madame Menard, the large-hearted concierge of the Quartier Latin boarding house, deserves mention for the very fine interpretation she gives. By an unfortunate omission of the printer Miss Adams' name does not appear on the bill. On Thursday, Friday and Saturday evenings of this week, with matinee Saturday will be given that sparkling up-to-date racing comedy-drama, "Wildfire." In this Teddy MacNamara and the Pollards will have leading parts. Next week will be the last of the company's engagement and "The Lion and the Mouse" and "The Girl of the Golden West" will be the programme.

PERSONAL

Mr. and Mrs. Gibbons, Cowichan, are spending a few days in the city. Joshua Kingham left this afternoon for a brief business trip to Vancouver. A. Cunningham Tweedie, Brighton, Eng., is registered at the Balmoral. Capt. Josef P. Jurkovic, steamer Hermine, is registered at the Dominion hotel. F. R. Jarman, Ottawa, is a visitor to the city and is registered at the Empress hotel.

Mr. and Mrs. W. G. McAllister, Alberni, until recently residents of this city, are visiting friends here. W. H. D. Ariss returned yesterday from a trip to Seattle, Portland, Salem and the Columbia river valley.

Ralph Smith, M. P., and his son Jack came down from Nanaimo at noon to-day and will spend several days here.

A. C. Flumerfelt is slowly recovering from the result of an accident on the tennis courts, which occurred some two weeks ago.

"THE UNWRITTEN LAW"

Little Rock, Ark., July 6.—Finding Higgins Gibson, 18, hiding in his wife's room under the bed, John Pitcock, chief clerk at the Arkansas penitentiary, stabbed the youth to death and attempted to shoot his wife to-day. He then gave himself up, and a coroner's jury exonerated him upon his pleading "the unwritten law." Pitcock was informed by a friend that John Gibson was with Mrs. Pitcock. He hastened from the prison to his home. When he discovered Gibson he stabbed him 77 times. Pitcock then fired a shot at his wife, who had taken refuge in a shed. The Pitcocks long had been friends of the Gibson family.

EXHIBITION FLIGHTS.

Montreal, July 6.—The aviation meet, second yesterday, but not in a blaze of glory, only about a thousand people being present, and the programme consisting merely of two short flights by Count de Lesseps. The Count is going to Toronto for the meet, which opens there on Thursday. Of the four Wright machines, one lies a wreck at the railway, one had been sent to Dayton, Ohio, one with Brooks and Coffin to Atlantic City, and the fourth with Johnson and LaChapelle to Detroit. None of the contests arranged for the Montreal meet were brought off, the meeting being confined to exhibitions. Financially it is stated to have been a success.

SALISBURY RACES.

(Special to the Times.) Salisbury, July 6.—The Hurstbourne stakes of twenty sovereigns each, with 300 sovereigns added, for 5-year-olds, distance 5 furlongs, straight, was run here to-day and was won by Charles Cargill's Night rider. Rosmarket was second and Master Thrush third. There were six starters.

DRY DOCK FOR PRINCE RUPERT

G. T. P. APPLICATION FOR SUBSIDY APPROVED

Company Will Spend \$1,200,000—Dominion Marine Department to Establish Depot

(Special to the Times.) Ottawa, July 6.—The government has approved the application of the Grand Trunk Pacific for a subsidy on a dry-dock of the second class at Prince Rupert. The company will build a dock costing \$1,200,000, able to handle vessels of 20,000 tons. The subsidy is 3 1/2 per cent. of the total cost for 25 years. The marine department will establish a depot at Prince Rupert, including lighthouse and buoy service, at an expenditure of \$100,000.

WINNIPEG CREW AT HENLEY REGATTA

(Special to the Times.) Henley, July 6.—In the fourth heat of the Steward's Cup to-day, the Winnipeg four beat Thames Rowing Club by a length. It was a hard race. Winnipeg will row in the finals to-morrow.

LARGE INCREASE IN HOMESTEAD ENTRIES

(Special to the Times.) Ottawa, July 6.—Homestead entries in Western Canada for five calendar months of the present year to June 1st, totalled 23,354, compared with 13,111 for the same period last year.

THE JEFFRIES-JOHNSON FIGHT.

(Special to the Times.) London, July 6.—While editorially deprecating on higher grounds the Reno fight, the press here prints fully for its readers a description of the combat. Regard is expressed—on sentimental grounds that the champion failed. At the same time the black's victory was generally anticipated. The Times says: "Curiosity and amusement mingled with disgust are the predominant feelings wherewith the reports of the combat will be read in England. A relatively small circle will mourn with a half sigh for the old glory of the prize ring of England." The Times remarks that the failure of Jeffries, if only for semi-political reasons, is to be regretted here. The Telegraph, while giving the longest reports of the fight, rejoices at the disappearance of the ring, saying it stands condemned with practical unanimity by public opinion.

TECHNICAL EDUCATION.

National Commission Holds its First Session at Ottawa.

(Special to the Times.) Ottawa, July 6.—The national commission on technical education held its first session this morning and will hold another this afternoon. It is expected that by to-morrow plans will be completed for a tour of the Dominion, starting in the Maritime Provinces. Members of the commission were entertained at Rideau Club by Hon. Mackenzie King.

TO PROMOTE IMMIGRATION.

(Special to the Times.) Toronto, July 6.—Over 500 men, women and children of British birth or descent left the Union station this morning for Montreal, en route to England. Two hundred more will join the party at Montreal. It is said to be the biggest excursion party ever taken out of Canada to cross the Atlantic. Every member of the party is pledged to induce at least one Briton to come to Canada. The trip is under the auspices of the Sons of England.

FUNERAL OF GOULDTHRITE.

Ottawa, July 6.—The remains of Frank Gouldthrite, superintendent of the stationery branch of the government printing bureau, who committed suicide by jumping into Detroit river, were interred in Beechwood cemetery this morning. The funeral was private.

DENMARK'S ANCIENT FLAG.

The flag of Denmark, a plain red banner bearing on it a white cross, is the oldest flag now in existence. For 300 years both Norway and Sweden were united with Denmark under this flag. In the year 1219 King Waldemar of Denmark, when leading his troops to battle against the Livonians, saw or thought he saw, a bright light in the form of a cross in the sky. He held this appearance to be a promise of Divine aid and pressed forward to victory.

From this time he had the cross placed on the flag of his country and called it the Dannebrog, that is, the strength of Denmark. Aside from legend there is no doubt that this flag with the cross was adopted by Denmark in the thirteenth century and that at about the same date an order, known as the Order of Dannebrog, was instituted, to which only soldiers and sailors who were distinguished for courage were allowed to belong.—The Housekeeper.

Great Britain now gets 85 per cent. of her tea from India and Ceylon, as against 3 per cent. in 1864. The oil companies that are in control of the great Baku district in Southern Russia are substituting electric power for steam.

FIGHT PICTURES.

Mayor of San Francisco Declares They Will Be Barred From Bay City.

San Francisco, Cal., July 6.—The exhibition of moving pictures of the Jeffries-Johnson fight will not be permitted in San Francisco, according to Mayor P. H. McCarthy this afternoon. The mayor said: "Inasmuch as the fight has been held to be a felony in California, and moreover holding that the display of the pictures would be far worse than the fight itself, because children would see the pictures, I will not permit the pictures to be shown in San Francisco." "The Reno contest proved to be a prize fight and the display of pictures would be as unlawful as the fight itself." "The moving picture companies may complain, but there will be no pictures displayed as long as we have a police force here."

INSURANCE AGAINST DISEASE.

(Special to the Times.) London, July 6.—At the closing meeting of the tuberculosis conference Dr. Oiler, referring to the proposal of a national system of insurance against disease, strongly opposed any such innovations by the state as occurred in the matter of non-contributory old-age pensions.

AUTO DRIVER KILLED.

Loses Life While Participating in Race at Indianapolis.

Indianapolis, July 6.—Tommy Kincaid was killed at the motor speedway to-day when the National car which he was driving in the races dashed over an embankment. The car was overturned and Kincaid was pinned under it.

CRICKET IN ENGLAND.

(Special to the Times.) London, July 6.—Cricket results yesterday.

Derby beat Leicester by six wickets. Lancashire beat Worcestershire by an innings and 125 runs. Yorkshire beat Surrey by five wickets. Oxford beat Cambridge by an innings and 125 runs.

PIONEER DEAD.

(Special to the Times.) Winnipeg, July 6.—W. J. O'Conner, proprietor of the Corona hotel, a pioneer, and one of the best known and wealthiest men in western Canada, died to-day. He was president of the Manitoba hotel men's association.

WILL NOT RUN FOR SENATE.

Lincoln, Neb., July 6.—William J. Bryan to-day issued a formal statement that he will not be a candidate for election to the United States Senate. Bryan said that he intends to campaign against the liquor interests in Nebraska, and that he did not wish to be hampered by his own candidacy for any office.

MUST PAY PENALTY.

Ottawa, July 6.—The cabinet has decided to let the law take its course in the case of Arthur McLaughlin, sentenced to hang at Whitty on July 12th for the murder of his wife and two children at Orillia last October.

TOO LATE TO CLASSIFY

OAK HAY.—The "Y" company, situated on lot 10x120 feet, together with upwards of one acre in rear, 4-year-old orchard and quantity of small fruits, including 1,000 strawberry plants planted this spring; fine sea view; price \$5,000; small cash payment and balance as rent monthly. IRRIGATION CONVENTION

PREPARATIONS FOR MEETING AT KAMLOOPS

Number of Papers on Subject Will Be Read at Meeting to Be Held in August

Kamloops, July 6.—Irrigation is the handmaiden of agriculture, and the history of the first is coeval with that of the second. In the cradle of the race the success of crops was absolutely dependent upon water supply, and throughout Asia Minor, India, Egypt and China there are still in existence remains of irrigation works which by their size and workmanship bear mute testimony to the importance of irrigation to the long forgotten builders. Canada in length, breadth and depth, larger by far than any yet dreamed of by modern engineers, storage basins which rival in size some of the great lakes; stone aqueducts which would bear the weight of a couple of modern railway trains running on a double-tracked road, existed in all these countries. Even the great dam at Assouan had a rival in that which occupied virtually the same position in prehistoric times. In more recent times the art spread to Italy, Spain and North Africa, or rather from North Africa to Spain; and thence to Italy. It was the Spanish monks, those devoted soldiers of the Cross, who accompanied the Spanish armies of conquest on even their bloodiest campaigns, who first introduced the art of irrigation into the New World, and from the small works which they constructed wherever they erected an altar, the work has spread all over the arid and semi-arid districts of the two Americas.

Even yet the work is still in its infancy, and local conditions have so far been the only ones considered. The result has been the wasteful distribution from the more easily controlled sources and the ignoring of those sources which could be utilized for the irrigation of huge stretches of country. During the past few years, however, governments have become interested in what was hitherto a proposition for the individual, and capital has begun to recognize that money invested in irrigation projects will give good returns.

The increase of interest and activity in irrigation has given rise to many vexed questions, and it is only by the interchange of views between those who are interested in the subject or have studied these questions from the practical, the engineering or the legal standpoint that any final system of control, administration and distribution of the available water supply can be arranged.

It is hoped that the residents of all parts of the province will be sufficiently interested in the subject of irrigation to have delegates present, and that in the Dry Belt all those who may perform a more intimate interest will turn up whether delegates or not. The programme, which it is hoped will be carried out in full, includes papers by Mr. Newell, chief of the reclamation department of the United States; Hon. Clifford Sifton, M.P., an enthusiastic advocate of conservation; R. B. Bennett, of Calgary, and Charles Wilson, K. C., both of whom are experts on the legal questions connected with irrigation, and A. E. McElheath, of Vernon, and A. E. Melnich, of Kamloops, on the practical side as concerned with company projects. Other recognized experts on different branches of the subject will also be asked to prepare papers for submission to the convention, and the discussion on all these papers cannot but result in benefit to the cause.

Resolutions may be brought before the convention and it is requested that proposed resolutions should be mailed to J. T. Hall, secretary Western Canada Irrigation Convention, Brandon, Manitoba, before July 20th. The people of Kamloops are particularly interested in the subject of irrigation, and will spare no effort to make the convention a success so far as lies in their power.

PRESENTS CASE FOR NEWFOUNDLAND

Sir James Winter Begins Argument on Fisheries Question at The Hague

The Hague, July 6.—The fisheries tribunal has asked the lawyers to finish their speeches in another fortnight. Sir James Winter, on behalf of Newfoundland, endeavored to show the hollowness of former Senator Turner's argument that legislation on Newfoundland fisheries favored Newfoundland fishermen at the expense of Americans. In regard to the herring fishery regulations, Sir James observed that they could not affect American fishermen, because this kind of fishing was carried on in the bays, harbors and creeks of the territorial waters which Americans were not allowed to enter by the treaty of 1818. Sir James argued that Newfoundland had not infringed the treaty of 1818 by forbidding Americans in 1905 and 1906 to buy herring in Newfoundland as bait for cod fishing and engage inhabitants of Newfoundland to catch herring. These regulations were commercial in character. In regard to other regulations prohibiting the use of certain nets, etc., even if the American criticism was justified, which he denied, that was no proof that the United States had a right to veto Newfoundland fishery legislation, which affected the vital interests of Newfoundland and tended to prevent Americans from abusing their privilege by destroying the fisheries.

FLAMES CHECKED AFTER HARD FIGHT

Fire at Nelson Causes Loss Estimated at \$44,000—Wind Spreads Flames

Nelson, July 6.—At 1:50 yesterday afternoon flames were seen issuing from the Kootenay Shingle Company's mill, on the east waterfront of the city. In a few moments the mill and stock of shingles and bolts stacked up along side were a mass of flames, which quickly enveloped the building of the Kootenay engineering works, adjoining immediately on the east. The brigade responded promptly and quickly had four streams at work, but by this time the fire had leaped across the railway track and attacked five residences, setting the north fronts ablaze.

A strong gale was blowing, making the brigade's work very difficult. To make matters worse, two fresh fires broke out to the east, caused by the flying burning shingles that were carried in some instances a mile and more from the scene of the fire. Eight teams were playing on the fire when at its height. Fortunately the fire was near hydrants with excellent water pressure.

The fire brigade was handled exceedingly well and accomplished fine, persistent, well directed work. It was a hard heart-breaking fight for about an hour, but by 2 o'clock the fire was clearly under control, though it may smoulder for days yet. But for the fact that Nelson has fine fire-fighters well equipped and an equal water supply, the northeastern quarter of the city at least would have been destroyed.

The loss is placed at \$44,000, with insurance for half that sum. The Kootenay engineering works have been closed down for the past three months, and the chief loss was there.

The chief of police's resignation was only accepted at Monday night's council meeting. The chief is leaving on August 1st and a successor is wanted.

TENDERS APOLOGY.

Immigration Official Admits He Made a Mistake.

Woodstock, Ont., July 6.—The departmental investigation into the charges preferred in an article published in a recent issue of the Sentinel-Review against an officer of the Canadian immigration department for using insulting language and ordering W. J. Taylor, the well known newspaper and magazine publisher of this city, off the train at Windsor, was held here.

The investigation, which was held at the Sentinel-Review office, was conducted by N. G. Herbert, travelling inspector of the immigration department, the officer against whom the charges were laid being also present. The inspecting officer had in his possession a written statement from an eye-witness of the affair, which tallies with the account as outlined by Mr. Taylor. Before the investigation closed the offending official acknowledged that he had made a mistake in addressing Mr. Taylor in the way he had and stating that he was under the impression that he was addressing another man with whom he had an altercation a few minutes before. The offending officer consequently tendered a verbal and written apology to Mr. Taylor for his conduct on the night in question and for the remarks made on the occasion referred to. The report of the investigation is being forwarded by the inspecting officer to the department at Ottawa.

IN FAVOR OF WOMAN SUFFRAGE

Resolution Adopted by National Council of Women After a Lively Debate

Halifax, July 6.—The National Council of Women had a hot time yesterday discussing and finally adopting a resolution moved on behalf of the Canadian Suffrage Association by Dr. Gordon of Kingston, seconded by the medical alumni of Toronto university by Dr. Todd. "That the National Council of Women of Canada do hereby place itself on record in favor of the enfranchisement of women."

The following rider was proposed: "The Hamilton local council would in connection with this resolution draw attention to article 11 of the constitution, entitled 'general policy,' in as much as the resolution seems inconsistent with the principles laid down in that article."

The National Council has shown sympathy with the work of the Canadian Suffrage Association in allowing its affiliation with the National Council. In this resolution, they seek to go beyond sympathy and make use of their own particular propaganda and to commit all their principles and opinions."

It was midnight before the council got to a vote, and the excitement was keen. An amendment that the matter be referred to the local councils for careful consideration was lost, and the vote on the resolution was put, when it was found that 71 delegates favored the enfranchisement of women and 51 were against it. Lady Taylor asked that her protest be recorded.

IDLE FREIGHT CARS.

Report of Railway Association Shows Increase Over Previous Fortnight.

Montreal, July 6.—The bulletin of the American Railway Association states that on June 8th the net surplus of cars on the lines of the United States and Canada stood at 126,497, an increase of 15,836, or about 14.3 per cent, over a fortnight ago. The number idle was 129,508, compared with 115,390. The shortage decreased from 4,729 to 2,911 cars figures totaled 39,888, against 48,328 two weeks ago. Box car surplus increased from 48,328 to 56,127. A considerable increase in miscellaneous cars was due to the increase of coke cars in the middle Atlantic states and of stock cars in the northwest.

In the middle Atlantic states and in the northwest there was a considerable decrease in freight activity, in marked contrast to the improvement reported in these sections two weeks ago. In the former section the total number of idle cars was 28,838, and the northwest showed a surplus of 16,810. To a lesser extent freight traffic slackened in the New England states and along the lines operating in Kansas, Colorado and Missouri. Freight off-loads were smaller in the Virginia and the Carolinas. Middle western conditions were

INDIANS WILL GREET SIR WILFRID LAURIER

Chiefs to Gather at Vancouver on Occasion of the Premier's Visit

Vancouver, July 6.—Clad in all their aboriginal finery, the Indian chiefs from the mountains and valleys of British Columbia, will gather in Vancouver to greet Premier Laurier when he visits the coast in the middle of August. Chief Matthias, successor to the late Chief Joe Capilano, crossed from the Indian village, near North Vancouver and had an interview with Mayor Taylor in which he informed his worship that he was sending out messages to every chieftain in the province urging them to attend a great potlatch here on the occasion of the western trip of the Dominion premier.

The Indians have no demands to lay before Sir Wilfrid, it is understood, but they desire simply to show their esteem of the premier by gathering to present him with an address some time during his stay here.

It is the purpose of Chief Matthias to have all the Indians come to Vancouver with their regalia and for the benefit of the distinguished eastern visitor the chiefs will appear in public with their paint, feathers and robes of honor.

A parade through the streets is probable and there will also likely be a general celebration either here or over in the Capilano village across the inlet. The visiting chiefs will remain on the coast for a couple of weeks, holding private ceremonies and celebrations, as well as those conducted in honor of the premier.

MURDER AND SUICIDE.

Detroit, Mich., July 6.—Because she spurned his love, Edward Welas yesterday shot and instantly killed Gertrude Eubank, his own sister and killed himself.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 50c. at all Dealers or EDWARDS, BATES & CO., Toronto.

SOARING TAXES.

Of increases in taxation there is no end. The tendency is upward, ever upward. This generalization may be applied particularly and specifically. It is true in a national, a state, a provincial and municipal sense, from the highest grade to the lowest, from the largest unit of a community to the smallest. Men who seek public office invariably pledge themselves to labor assiduously for a reduction in the burdens of taxpayers. They are doubtless earnest and sincere in their pledges, but the dominating influence of leaders and of the times overcomes them. They are swept away in the current. We have had some experience with the inevitable trend of the times in Victoria. The demands upon the municipal exchequer are increasing every year. Some of the exactions might be resisted by a strong council as tending too much in the direction of municipal frills and furbelows, but the majority of the causes are deserving of public recognition and assistance. And it is always easier to yield than to resist whatever the nature of the call. Streets must be paved and kept up. We must keep abreast of the times in educational matters. It would never do for us to lag behind in that procession. So up goes either the assessment or the rate of taxation.

What is true of the municipality applies to the province, the state or the nation. We know of but one national government in which the tendency in the rate of taxation is not upward but downward. That is the government of Canada. While the revenues have increased of late years literally by "leaps and bounds," while some persons argue that the increase proves the people are being subjected to heavier rates of taxation, an examination of the facts quickly disposes of the argument. There has been an all round reduction in recent years in the duties imposed for revenue purposes. If there were no other proof of that fact it would be found in the British preference, involving a lump reduction of thirty-three and a third per cent, and in the treaties consummated with France, Germany, Italy, Belgium and the United States. If reductions in duties were not involved in these instruments for the promotion of trade, there would obviously be no virtue in them. The increase in Dominion revenue is therefore not due to heavier taxes, but first to the wonderful growth of population and to heavier imports following a clearing away of some of the barriers to international trade.

Great Britain, while a free trade country with the effects of all measures for raising revenue clearly revealed, has been forced to seek new sources of raising money to meet the growing demands of government. The programme of the Asquith government has been bitterly resented and violently opposed by the interests most directly affected. The battle between the landed proprietors and the "common people" is only begun.

In the United States the people have lately had their eyes opened to the truth that they have long been laboring under a sedulously fostered delusion—that under their fiscal system foreigners were paying all their taxes. They now perceive that they have been deceived, and the indications are that the party which has been long in power and dominant will be held responsible. They expected relief from the election of President Taft, and they got the Payne-Aldrich tariff act, an aggravation of the highly protective measure of the late Senator Dingley. But the Payne-Aldrich measure has failed to provide the treasury with sufficient revenue, and increased internal revenue taxes have been resorted to. As a Boston exchange points out, this is the day when the user of tobacco is in the way to realize that the ultimate consumer is no myth. The increased taxes on tobacco imposed by the new tariff have just gone into effect. Smoking and chewing tobacco, cigars and cigarettes, all pay more in taxes than they did yesterday. The seller may be relied upon to shift the burden to the consumer and the latter must find what consolation he can in the reflection as he smokes that he is helping to keep up the revenues. The great item of internal revenue is distilled spirits, which counts for from \$140,000,000 to \$150,000,000 a year, but "manufactured tobacco" pays in all its forms more than \$50,000,000 into the treasury.

THE COMPANIES ACT.

Realizing that it cannot utter a word in defence of the Attorney-General with reference to the Companies Act and that every sentence the Times has printed bearing upon his career as a public man is fully justified, the Colonist takes refuge in a convenient but unsupported assertion that we have been showering personal abuse upon the head of Mr. Bowser. We might, but for the fact that it would be revamping an old and yet true story, and prove a bore to our readers in the season of political torpidity, review the public career of the Attorney-General, paying special to his one outstanding characteristic as a political campaigner who has no regard for truth and honesty, but this is not the time nor the season for overhauling records. What we have to consider now is the repeated blunders of a minister chiefly responsible for the enactment of legislation and for the administration of the laws and of justice within the province. The case of the Companies Act illustrates, if additional illustration be necessary, first the incompetency of the Attorney-General as the legal advisor of the legislature, and second his blustering, blundering determination to enforce the provisions of a law for which he is responsible upon the community, although he must be convinced in his own mind, unless mentally impervious to reason or logic, that the consequences of enforcement cannot be detrimental to the business interests of the Province and the general interests of the people. Competent and experienced authorities have laid the facts before Mr. Bowser, but of course a law that has received his endorsement is above criticism; it is perfect in principle and in detail, and must be enforced. Still the Colonist, whose mouth is closed for obvious reasons, weakly murmurs that to call attention to facts which have been ably presented to members of the government by capable business men, is to personally assail the Attorney-General. We understand the Premier has given an assurance that the provisions of the law will be applied with discretion. That may or may not be accepted as a merited snub to Mr. Bowser, who has twice intimated in imperious terms that the law is upon the statute book and must be enforced. We trust it is an intimation that at last the autocratic gentleman who delights to refer to himself as "the first law officer of the Crown in British Columbia" is to be taken in hand and suitably admonished. But, whatever the relations between Mr. McBride and Mr. Bowser, the fact that the Companies Act is upon the statute book will have a pernicious effect upon business. Unless mercantile concerns which have established business relations within the province, comply with the provisions of the act they can have no assurance of their status under the law. The agents of these houses, or of most of them, contend there is nothing for them to do but to comply with the provisions of the act would be out of the question in face of the amount of business involved. Under the circumstances it is easy to understand what the effect of the enforcement of the act will be.

Premier McBride should give a definite assurance that the provisions of the Companies Act will not be enforced in the meantime and that immediately the legislature assembles the law will be amended.

PEACE RIVER LANDS FOR ACTUAL SETTLERS

At irregular intervals the attention of Dominion Ministers of the Crown is directed to the alleged "moral" claim of the province to three million five hundred thousand acres of public land in the Peace River country, and an appeal is made that in satisfaction of this alleged moral claim the land in question be transferred from the Dominion to the province. Obviously this periodic agitation is not raised by the Colonist with any idea of benefiting the province. Every one familiar with the methods followed by the provincial government in administering public lands knows that if public interest were the sole object to be served it would be vastly better for the Dominion to retain the Peace River lands. That would be an assurance that when the time comes for their distribution the lands will be allotted to actual settlers, as has been the case in Saskatchewan and Alberta. The splendid system of immigration which has filled up the new territories so rapidly and added to the population and prosperity of the country at large will be brought to bear in the Peace River country, and we do not think it is true, as suggested, that British Columbia would suffer by reason of the increased responsibility of an increased population. So it is not the true interests of the province, the agitators seek, while the Peace River lands remain under the control of the Dominion, speculators are excluded from them. If a transfer were made from Dominion to provincial authority, experience tells us what would happen. We do not believe the Dominion government will ever turn the Peace River lands over to the province, nor do we consider such a transfer could be justified on any ground or from any point of view. A demand might just as reasonably be made for all the lands in the

Dominion, railway belt, basing the claim on the bad bargain a former Conservative provincial government made with a former Dominion government. If such a precedent were established no one can possibly foretell what the result might be. The Dominion government has acquired all the public lands in Saskatchewan and Alberta, giving a handsome annual consideration therefor. That bargain was consummated because the Dominion government believed it could handle the lands better and put settlers upon them more quickly, which would manifestly be in the best interests of the whole country. The provinces agreed to the proposal because it promised them the revenue they required, which could ordinarily only be raised by the sale of their public lands, and to sell the lands would place an embargo upon settlement. The arrangement was therefore in the best interests of the provinces themselves and of the whole Dominion. Yet that bargain has been attacked by the opponents of the government in the two provinces and attempts made to turn it into a "better terms" issue as we have that issue in British Columbia, but fortunately the electors of Saskatchewan and Alberta could not be hoodwinked and deceived as the people of British Columbia have been. However, the point is that a bargain is a bargain whether between communities or individuals, and if contracts are to be broken at the behests of agitators-hungry for political power or greedy for their own personal advantages, where would such agitations lead to?

We are not going to argue now whether the contract made by the Macdonald government with the Canadian Pacific Railway Company was a good one or a bad one. We believe, however, that while some of its provisions are indefensible, it has on the whole proved advantageous to both the Dominion and the province. We are told that the Peace River lands are worth almost as much as the total cash subsidy paid by the Canadian government to the Canadian Pacific Railway. If that is true, it certainly was not true up to the time of the consummation of the contract with the Grand Trunk Pacific Railway for the construction of a new line from the Atlantic to the Pacific. That road will pierce the lands and has given them their alleged current value. Before the Dominion liability in connection with the mountain section of the line is met the cost to the federal treasury will be between seven and eight million dollars. The Dominion government will not seek to reimburse itself for this outlay by selling the lands. It will derive no revenue from them indirectly. They will be thrown open to settlement after survey just as other public lands are. The province will be the chief beneficiary, and the best interests of the people of the province will be served by the Dominion retaining possession of the lands until they pass under control of actual settlers.

A GENTLE ROAST

To the Editor:—The race riots now in progress in the United States are a fitting subject for the satirists who give to the principals and parasites of this fight lies at the door of the newspaper offices of the United States. Not one paper of any prominence had the moral courage to ignore these pug-noses and their hangerson; not one editor of standing dared to shut the columns of his paper absolutely to both the fight and the fighters, not one of these alleged "moulders of public opinion" but what pondered in the lowest sense to the virulence of his particular constituency. And for what? Simply for the money there was in it by the dissemination of what was considered "news." A charming lesson for the growing generation. An admirable example of the enterprise of modern journalism. It will be urged that the wiping out of a number of black and white "riff-raff" through these riots is a distinct benefit to the various districts where they are being shot and hanged, and while this cannot be denied, the disturbances of the peace thereby caused is greatly to be regretted. In some portions of the country tedious and costly trials are likely to be had against the survivors of these feuds, which will take time and taxes to carry on. It can also be urged that it would be impossible to dispose of but a limited number of these human pyres in this manner, and the riots merely make away with a very small quota of the breed. It is the symptom of degeneracy in a nation, as it is in an individual, and the undeniably sordid and brutal instincts are excited at the expense of the higher attributes of mankind. The United States, I am very sorry to say, has literally wallowed in the mire of this kind of disgraceful orgy of blood and dollars, and no one regrets it more keenly than decent Americans. And chief among all offenders have been the cowardly and hypocritical owners and editors of American daily newspapers, who, lost to all shame on their own account, paraded their dishonest like paid harlots, and sold their pages to a dishonored and shameful McGAFFEY.

July 5th, 1910.

CALEDONIAN CAUTION.

(London Truth.)
My Flora is a canny Scot—
Too tany, truth to tell—
For though I'd have her share my lot,
She'll no commit herself.
I said: "Will you my sweetheart be?"
She answered: "Hoots! You men!"
I pressed her: "Do you care for me?"
She said: "I dinna ken."
"What! Don't you know your mind?" I
cried.
"She said: 'Tis warm the day"
I asked her: "Will you be my bride?"
She said: "I couldna say."
"Come, lassie, shall it be this spring?"
She cried: "You're varra free."
"Then tell me, may I buy the ring?"
"Man! Please yourself," says she.
Before the chance slips we stood
St. Giles' Kirk in;
The parson asked me if I would;
Of course I said "I will."
But when it came to Flo's reply,
The nearest that she'd go
Was just to murmur cautiously,
"I wudna say I'll no."

One Week of the Sale Over, and July Sale Bargains Are Just as Good as if the Sale Was About to Commence

Our Best Efforts Have Been Put Forth to Make the First Friday in July One of Our Record Days

Friday's Special Leaders Will Be Found in the Mantel Section Second Floor

Women's Tailored Costumes, Values From \$35 to \$45 for \$17.50

WOMEN'S SUITS AT HALF PRICE AND LESS will be the leading feature for Friday, and splendid bargains they are. This offering includes the balance of our \$35 to \$45 Suits, and at this extremely low price should sell quickly. Raced Into Condition

The whole sum of life or capability. Humans, equines, yachts rust out sooner than they wear out. Everybody and everything is better for being raced into condition. One thing that has gained marvelous popularity from being scientifically raced into condition is Lemp's Beer. Its proper brewing and proper aging before being placed upon the market testifies to this. It has also the advantage of doing its work on a first-class track, being continually called for at the best hotels, clubs and cafes throughout the western world. Lemp's Beer is a easy winner, not only the most popular bottled beer in this city, but the beverage for "the stranger within our gates," who soon learns of Lemp's fine brew. Prince Rupert city has been granted by the provincial government a water record of three hundred inches for domestic and civic purposes.

About 600 men are now employed on corporation work. The average rate of wage is \$2.75. They are paid twice a month—the fifteenth and thirtieth. All the men applying for jobs are being taken on at the city hall just now as it is desired to clean up all the work possible before the wet weather sets in.

Building permits have been issued to R. Moffat for a dwelling to be erected on Ontario street, to cost \$1,850; to Thomas Hall for a dwelling on Joseph street, to cost \$750; to E. W. Rigby for dwelling on Skinner street to cost \$1,400; to Miss L. M. Sylvester for dwelling on Queen's avenue, to cost \$2,200.

The revenue of the provincial timber department during June totalled \$144,436.50. Making up this total the 659 timber licenses issued for lands west of the Cascades, produced rentals of \$36,644.50, while 295 licenses east of the mountains contributed to revenue, \$34,240. One hundred and fifteen coal prospecting licenses were issued yielding \$11,590; timber transfer amounted to \$681; coal transfers, \$120; penalties, \$1,125; and miscellaneous receipts, \$106.

The number of books loaned at the public library during the past month totalled 4,229, which is considerably behind the figures of the preceding months of the year. At this season many of those who patronize the Carnegie library take up summer quarters outside the city and do not find time to secure the books. This probably is the reason why there has been a falling off. The average for 26 days was 162, highest daily average, 289, and number of new cards issued 109. During the past month more non-fiction books were issued than any other kind.

The remains of the late Harold Brown McNeil were interred in Ross Bay cemetery yesterday afternoon, the funeral taking place at 2:30 o'clock from the family residence, 2213 Clarke street. From the house the cortege proceeded to St. Barnabas church, where Rev. W. Barton conducted a very appropriate service. There was a large number of friends present and the floral offerings were numerous. The following acted as pallbearers: H. F. Shadle, R. C. Filinton, H. Altmuth and B. Scott.

PREMIER APPRECIATES WORK.

Mr. McBride Writes Letter to V. I. Development League—Plans For Outing.

Premier McBride has written to the V. I. Development League thanking the secretary for the invitation extended to him and other members of the government to attend the annual meeting at Alberni. Mr. McBride regrets that he is unable to attend, but states that he will endeavor to arrange for some of the ministers to go.

In concluding his letter the Premier says: "I fully appreciate the good work which the league is doing in assisting the development of this part of the province."

A circular which is being sent to every branch league details the arrangements for the meeting. The train will leave on the B. & N. at 9 a.m., July 14th. The railroad company will give a low rate of \$4.65 return to Wellington and will carry the passengers free both coming and going over the new extension to the end of the line so far constructed. Vehicles will be there to convey the delegates on to Alberni.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, July 6, 5 a.m.—Rain has fallen in Northern British Columbia, but the pressure is high on the Coast and in Oregon and Washington, and under its influence fair weather is general from Vancouver Island southward. In the prairie provinces the pressure is low and the weather mostly fair and warm.

Forecasts:
For 26 hours ending 5 p. m. Thursday, Victoria and vicinity—Moderate to fresh winds, fair and warm to-day and Thursday.
Lower Mainland—Light to moderate winds, fair and warm to-day and Thursday.

Observations at 5 a. m.:
Victoria—Barometer, 30.12; temperature, 54; minimum, 54; wind, 16 miles S. W.; weather, cloudy.
New Westminster—Barometer, 30.14; temperature, 54; minimum, 54; wind, calm; weather, cloudy.

Kamloops—Barometer, 29.98; temperature, 58; minimum, 58; wind, calm; weather, part cloudy.
Barkerville—Barometer, 30.00; temperature, 44; minimum, 42; wind, 6 miles S. W.; rain, 2; weather, part cloudy.

Edmonton—Barometer, 29.88; temperature, 50; minimum, 47; wind, 4 miles W.; weather, cloudy.
Winnipeg—Barometer, 29.82; temperature, 46; minimum, 56; wind, 8 mile S. W.; weather, clear.

Victoria Daily Weather.
Observations taken 5 a. m., noon and 5 p. m., Tuesday.

Temperature.
Highest 62
Lowest 51
Average 54
Bright sunshine, 4 hours 20 minutes.
General state of weather, fair.

Seattle, Wash.—S. S. Iroquois leaves daily, except Sunday, at 9 a.m.

WILL ASK RATEPAYERS FOR SCHOOL LOAN

Board of Trustees Decides to Ask Citizens for an Additional \$45,000.

At a special meeting of the school board held last evening it was decided to appeal to the ratepayers in a short time for the sum of \$45,000 for school purposes. This amount will be expended as follows: \$20,000 on the Victoria West school, \$20,000 for the erection of a school on the Bank street site and \$5,000 for additional accommodation at the Kingston street school.

During the discussion on the question of submitting the by-laws the chairman, George Jay, commented on the fact that the city council in preparing the by-law soon to be submitted to provide for the transfer of the Spring Ridge pits property, had not seen fit to permit the board to inspect the measure before it was introduced in council meeting. Mr. Jay suggested that before the measure is submitted to the ratepayers the school board should have an opportunity of considering it.

Charles Hayward, secretary of the Children's Aid Society, asked the board in appointing a trustee officer consider the feasibility of combining that office with that of probation officer. Mr. Spofford was suggested as a suitable person for the position. Mrs. Spofford had consented to become matron of the Detention Home.

Chairman Jay believed it would be a good policy to combine the two offices of trustee officer and probation officer, but no final decision was reached in the matter.

The bid of Parfitt Bros. at \$1,554 for repairs to the South Park school was accepted.

Tenders for the painting of the High school were referred to the buildings and grounds committee, as were also the tenders for the installation of a fire alarm system in the Victoria West school.

H. B. McLean, first assistant at the South Park school, was named as principal of the new George Jay school, and Fred Wood was appointed to a like position at the Moss street school.

Applications for the positions of janitors of the new schools will be called in by noon on the 13th inst, the salary being \$75 for the George Jay school and \$60 for the Moss street institution.

PANTAGES THEATRE.

The combination of musical comedy and vaudeville at the Pantages is attracting large audiences both afternoon and night. "Jakob, Hev and Mike" is the musical production, and it is the limit as to clean, wholesome comedy. The chorus numbers are tuneful and of pleasing effect, while the vaudeville portion of the programme is quite entertaining. The show is enjoyable throughout. Friday night a chorus girl contest will be presented in addition to the regular bill, when each girl will attempt an individual vaudeville stunt in competition for prizes.

SMOKE NUISANCE IN OLD COUNTRY

Deputation Requests Hon. John Burns to Assist in Fight Against Evil

Exceptional efforts to cope with the coal smoke evil in Great Britain are likely to result from the reception recently by Hon. John Burns, president of the local government board, of a deputation representing nineteen of the most important British towns and a great number of public associations.

The deputation made our visit to consider the strongest case yet presented against the nuisance.

"We hold," said Chairman Graham of the Smoke Abatement League, "that up-to-date the campaign to stop pollution of the air has been a substantial failure. The health, beauty and cheerfulness of English and Scottish life continues to suffer and the wastage of fuel goes on in spite of fifty-five years of agitation and legislation. Magistrates inflict trifling fines or none at all. London and seven other large cities are the only places in the world where any headway worth considering has been made against coal smoke, and even in these places the movement is lamentably behind what it ought to be."

"We insist that the London county council bill soon to be introduced in parliament shall apply to the whole country. This provides for fines beginning with five pounds (\$25), and doubling the amount for each offence until a maximum of forty pounds (\$200) is reached.

"The manufacturers will cease to make smoke only when it costs them more than not making it. The power to impose daily fines, which exists in London, Leeds, Manchester and Sheffield must be extended to every city in the land. The local government board ought to take over this whole matter and appoint competent inspectors throughout the country."

"Domestic grates should be passed upon as drains, and the pernicious practice of selling gas dear to relieve the rates must be abolished. We get sanitary streets, houses and water, but consent to breathe poison laden air. Soot causes drinking and gambling to escape depression, encourages shut windows and promotes consumption. The smoke nuisance is the worst that civilized communities ever endured."

Mr. Burns promised to do his utmost to help in the fight.

BANK CLEARINGS.

The bank clearings for the week ending yesterday afternoon were \$2,514,705, a considerable increase on the past few weeks and practically double that for the week ending June 28. For June the clearings aggregated \$9,159,761, as compared with \$6,421,175 last year, and \$4,509,812 two years ago.

Seattle, Wash.—S. S. Iroquois leaves daily, except Sunday, at 9 a.m.

SUPPORTERS TO FOLLOW TWELVE

LACROSSE MEN WILL NOT LACK ROOTERS

Over Seventy Passages Have Been Booked for Vancouver on Friday Night

Victoria lacrosse enthusiasts and supporters of the Victoria lacrosse team, which is in its winning stride and looks to beat the Terranals on Saturday, will follow the team to Vancouver on Saturday and visit Brockton Point, where the game will be played.

Secretary John P. Sweeney has been notified by seventy-six supporters of the club to book berths and passage for them on this trip, leaving here Friday night by the Chamer. By booking

through the secretary the supporters of the club are enabled to get the reduced club rates for the steamer and the hotel at Vancouver. Sweeney is still taking orders for passage across, and when the boat goes out on Friday night with the team there will be one of the biggest crowds aboard that ever followed a Victoria lacrosse team across the water to the Terminal City. The game takes place at Brockton Point on Saturday afternoon and Victoria will send across her best twelve. To-morrow night the A and B teams will practice again at the North-Ward park and after that practice the twelve will be selected. Unfortunately, by Saturday and Sunday, many are unable to get to Vancouver for the game. The teams to play in the test game to-morrow night are: "A"—Johnson, Clegg, Stiles, Dakers, Okell, Brynjolfsson, Sweeney, Carrs, Sargison, Pettierew, McDonald and M. Young. "B"—Clark, Sweeney, Temple, Noel, Wilson, Redgrave, Hamber, Jenkins, Dempster, Kroeger, McDougal, Julien, Ross and Campbell.

INTERMEDIATE LACROSSE

Another game of the intermediate series of the city lacrosse league will be played to-morrow evening at 6:30 o'clock at the Royal Athletic park, between Victoria West and Oak Bay. So far two games have been played, North Ward having met and defeated both mentioned teams, but since that time both have been practicing diligently and it is understood have some dark horses whom they will bring to light in this game. From previous form it would be judged that both Oak Bay and Victoria West teams are evenly matched and a game between them ought to be keen and interesting. It is hoped a good crowd of citizens will be out to encourage the boys along, as this is the only way to build up a Min-to-Cun team in Victoria.

Last evening a largely attended and strenuous and beneficial practice was indulged in by the Victoria West team at the Prince St. grounds, when the following team was selected. Goal, C. Medridge; point, Prevost; cover, John-Ron; 1st defence, D. S. Tait; 2nd defence, Perkins; 3rd defence, Williams; centre, Brown; 3rd home, S. Stewart; 2nd home, Semple; 1st home, Stevens; outside home, Cook; inside home, Thomas; reserve defence, Bolton, Robertson; reserve home, Bartlett, Lofty Brown.

TRY TO SUPPRESS

Officials in Many States Fear Race Riots as Result of Showing Films

Chicago, July 6.—A movement to prevent the exhibition of the Jeffries-Johnson fight pictures is sweeping the country today. In many cities of the middle west and south the authorities have ordered that the pictures cannot be shown, fearing a recurrence of the rioting that followed the victory of the giant black man over the so-called "hope of the white race."

The movement started when the Mayor of Houston, Texas, issued an order against the exhibition of the films. Since then in many cities similar orders have been issued and in other cities the matter is being agitated.

In New Orleans the authorities have decided to allow the pictures to be exhibited, but will not permit whites and blacks to see them at the same time, and unusual precautions will be taken to prevent any disturbance.

In Chicago Mayor Busse and Chief of Police Stewart have conferred about the matter and have decided that the pictures must be displayed.

San Francisco, July 6.—Church men here have begun a movement to bar the Jeffries-Johnson fight pictures from San Francisco. Attorney J. E. White, of the Church Federation, declared today that he believed a municipal ordinance is in force forbidding the display or reproduction of crime.

Representatives of the Mayor and the board of supervisors to-day declared that the church men may spare their efforts, as a board of censors, appointed by the supervisors, will pass upon the question, and if the pictures are found to be subversive to the general public morals will bar them.

It was asserted that the censors already have barred more than one-fourth of the pictures brought in by moving picture companies.

SNOHOMISH TO PLAY VICTORIA

DOUBLE-HEADER HERE FRIDAY AND SATURDAY

The Visiting Nine Contains Four Northwestern League Try-Outs

Snohomish baseball team is to play here on Friday night and Saturday afternoon, the regular week-end double header, against the Victoria baseball club at the Royal Athletic park, and judging from the record of the club, sent to Victoria yesterday afternoon, the games against Victoria will both be close and interesting. It is certain the home nine will have to play up to the top of its form to hold its own, for the Snohomish nine contains four of the best players who were tried out for the northwestern league this year.

Oriet at short stop; Wilson, centre field; Roberts, left field, and Bunstine, behind the plate, are all players who were lined out for Northwest league teams during the try out period of the present season.

Better men crowded them out, for the material offered to the Northwest this year was better and more plentiful than for seasons passed.

The Snohomish nine this season has won only one game. The team was beaten by Mount Vernon on June 25th by a score of 3 to 6. In that game Vernon played the straight university team. Against this one defeat the Snohomish nine has eighteen victories. The record is as follows:

Beat El Sidelos two games, 14 to 7 and 5 to 0; Bellingham four games; won from Mount Vernon five games; from Burlington two games; from Spauldings of Seattle one game, 9 to 5; Victoria of Seattle two games; Ironquios of Seattle, 11 to 6; and Eilers Pioneers, 2 to 2.

Some of the teams in that record have been to Victoria and been beaten as badly as they were beaten by Snohomish. There are, however, teams enumerated that stack up very well as ball players, and the fans Friday night and Saturday afternoon can, from all reports to hand, expect to see some first-class ball played at the ball park by the home nine.

It is more than probable that Steenson will pitch the Friday night game, and, owing to Wattlet's illness, Brown will take his place in the right field. The full team has been holding regular practices during this week, so that it will be able to do the fans justice on Saturday. The full line-up of the Snohomish nine is: Oriet, s.s.; Wilson, c.f.; Giddings, 1st b.; Roberts, 1st b.; Welsh, p.; McLaughlin, 3rd b.; Bunstine, c.; Rialley, 2nd b.; Stevens, p. and Waugh, sv.

BEACON HILL BEAT COMMERCIAL TEAM

Five Runs Hit Off the Travellers in the Sixth Spoils U. C. T. Chances

LEAGUE STANDING.			
	W.	L.	Pts.
Beacon Hill	5	0	10
Prides	3	2	6
U. C. T.	1	2	2
Empress	1	2	2
Knights of Columbus	1	2	2
Regiment	0	2	0

By the wide score of 10 to 2 the Beacon Hill ball nine last night defeated the United Commercial Travellers team and added another victory to its credit, placing Beacon Hill firmly at the top of the list with two wins ahead of the Prides.

The game last night stood 2 to 1 in favor of the Beacon Hill team at the commencement of the fifth innings, and it had been very evenly fought out the fifth, however, the Beacon Hill batemen and base-runners got down to hard work and scored five runs from four hits and an error, making what looked like a close and interesting game into a certain easy victory. McDougall scored a home run which brought in two ahead of him.

W. Gravin got a three-base hit and Ed. Stocke a two-bagger in the sixth. Russell sacrificed and three runs were added to the score and for the last two innings the Travellers were able to keep the Hills down to no score.

For the losing side Nason scored in the third, getting a base on balls and coming home on two errors. Smith secured the second for the knights of the grip, starting by being hit and coming home on a sacrifice and an error.

T. Gravin, from the right field, did clever work and was the best man of the garden-parties. The commercial men got four hits off Steele, while the Hills got 11 hits off Hallett. The batteries were Steele and Scott for the Hills, and Hallett and Gregg for the Commercial Travellers.

Beacon Hill— 1234567—Tri. Runs 1100530—10 Hits 1211420—11 U. C. T. 1234567—Tri. Runs 0010100—2 Hits 1100101—4

The game to-night is between Prides and the Beacon Hill team will play Chemainus nine at Chemainus on Sunday. The Chemainus nine has had a successful season beating among other teams a nine from Victoria including Oak Bay and Victoria nine players. The Chemainus team is credited with good performances, and as the Hills this year have not lost a game in their league matches, and have defeated Vancouver, the supporters of the team look for the Chemainus match to be a real test of the youngsters against the bigger men.

ALASKA RACE \$1000 PRIZE

START PROBABLE IN NORTHERN SEAPORT

Vancouver is to Be Terminal of Ketchikan Power Boat Contest

Provided that the motor boat race from Alaska to Puget Sound waters, which is due to take place next month, finishes at Vancouver instead of Seattle, Dr. A. R. Baker of Vancouver, has undertaken to secure the sum of \$1,000 for prize money.

On Dr. Baker making his offer to Secretary Foulser of the P. I. P. B. A. the latter arranged for the finish to take place at Vancouver as far as it was possible in the last few days, and yesterday he said it was a practical certainty that the terminus of the race next month would be shifted from Seattle to Vancouver.

Heretofore the race has been started at Ketchikan and the boats have raced down the coast to Seattle, but as Seattle is to be cut out this year, a new starting place will have to be determined upon, and it is probable that some of the northern cities between Vancouver and Nome will be given an opportunity to have the race start in their harbor.

Stewart or Prince Rupert are likely places to make a bid for the race this summer, and from whichever of these places the race starts the boats will go north to Ketchikan and then return south to Seattle.

There are likely to be as many as ten entries in the race this year, five or six of these having definitely arranged for the trip. They are: the Chaos, the Wanderer, the Limit, all of which have been racing in local waters this week; Dr. A. R. Baker has promised that he will have a new 60-footer built for this race which will be fitted with a specially built Brooks engine; the Marans 2nd, R. P. Jacobs, of Tacoma, which is a 45-foot replica of the Ilys, designed by Bowes and Watts and one of the champion boats of the eastern coast. Probable entries expected, although not definitely determined yet, are the Easthorne, now known as the Economic, the Summer, the Soya, and perhaps Simpson and Greenwood's Jessie.

W. E. Boeing is contemplating entering in this race a magnificent new 100-foot cruiser, designed by Henry Gielow of New York City, with 200 horse-power, eastern standard engines. If there is any boat in sight for the race that could give the big 100-footer a race, the new craft will be entered.

LOST ON A MOUNTAIN.
Two Women Are Without Food for Twenty-four Hours.

Miss Buckea and Miss Sutherland, visitors from London, have just had an unusual experience in the Snowdon range of North Wales. They drove from Beddgelert to Capel Curig, and thence walked to Ogwen lake, where, diverging from the highway, they took the rocky road to Idwal lake. There they decided to climb Carnedd Llewelyn, one of the highest peaks in the district, with the object of getting into Trefriw, an inland resort in the Conwy valley.

Maude Powell

FERRO

Maude Powell is known on both sides of the Atlantic as the world's premier woman Violinist. The Ferro factory received the following letter from her manager:

"I have much pleasure in sending you a photograph of Maude Powell, taken in her 18 ft. boat 'Middle-de-dee,' which she uses as a tender to her yacht 'Cremona.' This tender is driven with one of your 3 h.p. Specials, and has never been the least trouble, in spite of the fact that Madame Powell runs the boat so often alone, and was absolutely unfamiliar with any sort of engine until she owned this Ferro. I venture to hope this letter will interest you."

Hinton Electric Co., LIMITED

City Realty at Half Price

A fine DOUBLE CORNER on the GORGE ROAD which we can deliver for \$1,500 is \$300 less than the assessed value, and is the same price asked for the SINGLE CORNER across the road. Inside lots in the same block held at \$1,200 each. This property is all cleared and is a beautiful residential site.

Two Acres on Quadra Street

With seven room house, large chicken houses, 135 bearing fruit trees, just outside the city limits, city water; land is high and dry. The B. C. Electric Railway Co. is considering extending their line past this property. A good revenue can be made off this land, and the present car service enables one to get to the centre of the city in about twenty to twenty-five minutes. Price \$6,000. This is the cheapest property in this neighborhood.

PRAYED AGAINST TIME.

Humorous Story Regarding United States House of Representatives.

Speaking against time is common enough in most parliaments, but praying against time is something new. The Washington Times, however, tells of such an occurrence, which once happened in the United States capital:

Members of the House, who had congregated in the cloak room during the general debate on the tariff, were discussing the recent prayer of the Rev. Mr. Condrey, the House chaplain, deploring muckraking.

"For some reason," said one of the veteran members, "the chaplain's prayer reminded me of the most amusing incident I ever saw during my entire service in the House of Representatives. The incident occurred many years ago so I have forgotten the names of the actors, but there are still members of the House who recall it."

"One day the journal clerk rushed into the House while the chaplain was praying. He looked through the drawers of his desk in a hasty manner and then hustled to the side of the chaplain.

"Keep on praying," he urged earnestly. "We can't find the journal."

"Mr. Chaplain was so startled that he faltered in his prayer, but after a moment he seemed to grasp the situation. He bowed his head still lower

and continued to pray. The usual time devoted to prayer in the House is about a minute. Members began to shift uneasily on their feet, to look at their watches, and instead of bowing their heads in reverence, they looked at the Speaker, pleadingly. The Speaker, evidently, had been informed of the difficulty and, realizing that the business of the House could not proceed without the journal, he was willing that the members get plenty of prayer. After ten minutes' solid praying the preacher showed signs of getting nervous. He knew the members were getting restive and he looked down to one of the clerks.

"Don't stop, pleaded the clerk. 'We haven't found it yet.' The preacher did not stop until he had been praying for fifteen minutes, at the end of which time the journal clerk rushed into the House bearing the precious book under his arm.

"Amen," said the chaplain with a sigh of relief, and the Speaker promptly ordered the clerk to read the journal of the preceding day's business."

In the last twenty years the percentage of sailing vessels has declined in the merchant marine of the United States from 80.7 to 20.9; in that of Great Britain from 41.1 to 12.6, and in that of Germany from 82.1 to 19.1.

Peat will be the only fuel used in a great German electric power generating station.

COCKPIT TOPICS

An informal race between John Arbuthnot's big 60 h. p. twin-screw Tannis and the Sans Souci yesterday afternoon resulted in a good win for the former. The Sans Souci passed the Tannis coming out of the harbor and was headed for the Brothie Ledge beacon when Capt. Arbuthnot opened his boat up. The Tannis caught and passed the Seattle boat inside of three-quarters of a mile and was increasing her lead when the Sound boat dropped out.

Credit must be given to Captains Jarvis and James, who handled the nautical and a large amount of the clerical arrangements for the regatta. No fault has been found with the course and no protests entered by any of the competing yachtsmen, which is high praise in itself, and their work as secretaries has proved most satisfactory.

It is a pity that yesterday's parade around the course should have fizzled out so miserably. Several of the launches and yachts got away from the inner harbor before three o'clock and a good crowd was waiting on the Dallas road. The majority of the boats stayed inside, however, and those that were out devoted their time to cruising until the cold wind became uncomfortable. Needless to say the crowd on shore went home disappointed.

Yachtsmen last night were the guests of John Arbuthnot at his residence, 1337 Rockland avenue, where a garden party was held. The proceedings lasted from 8 till 11 p. m., during which time the Fifth Regiment band, under Bandmaster Sidney Rogers played a long and well-selected programme of classical music. There were a large number of visiting yachtsmen from the Sound cities present.

The Fifth Regiment band has been rendering concerts during the afternoons of the regatta opposite the judge's barge off the Dallas hotel, which have been greatly enjoyed by the large crowds which have attended at the finishing point.

The appointment of a press agent for future regattas is a matter that is worthy of consideration by those in charge. The newspaper men have been "up against it" during the week getting information of a reliable and official character. The arrangements made by the local officials for their

following the races have been of a most unsatisfactory and uncertain nature, although the pressmen are very grateful to the owners who hospitably took them around on their launches.

To-night the regatta will terminate with a supper at the Driad hotel at 8.30 p. m. and half an hour later the annual meeting of the N. W. I. Y. R. A. will take place in the parlor of the hotel. The final ceremony, that of presenting the prizes to the winners, will follow.

VANCOUVER ISLAND

BOOK IS PUBLISHED

Large and Well-Printed Volume Covering Resources of "Treasure Island"

Fresh from the press the splendid book on Vancouver Island, which has been compiled for the Vancouver Island Development League under the editorship of Secretary McGaffey, comes to hand to-day. The book has been printed for the league by the provincial government, an edition of 20,000 being bound, and copies will be widely distributed. Agent-General Turner in London has already asked for 4,000; J. Obed Smith, Dominion government agent in London, wrote recently requesting 1,000 copies, and 250 will be sent to every branch of the league immediately.

With 128 pages of letter-press devoted to the agriculture, timber, mines and fisheries of the "treasure island," the book is a carefully written compendium of its resources, given by districts in alphabetical order. The articles are unsigned, but all have been written by persons well acquainted with their subject, and nothing but plain fact and figure is given throughout. Even at that the book is intensely interesting, and the silent eloquence of its money-heap illustrations makes an appeal equal to that of the letter press.

As the districts are described in alphabetical order with the idea of avoiding preference or undue prominence being given to any particular section, Victoria is the last place dealt with. The city and its surroundings are adequately treated, and three fine full-page pictures accompany the text.

Much credit is due to Ernest McGaffey, the capable secretary of the Development League, for the compilation and arrangement of the book. The printing and binding, which are beyond criticism, testify to the excellence of the equipment and workmanship of the Colonist printing department. The cover design is striking. Against a background of forest and water are shown four figures representing the industries for which the island is most famous, agriculture, lumbering, mining and fisheries, and in scroll-work panels the title of the book is printed in a bright red which contrasts well with the brown tone of the picture. On the back a good map of Vancouver Island with a distance-table and explanatory references greatly enhances the usefulness of the volume.

The cover cuts and the 57 full-page reproductions from photographs which illustrate the pages are the work of the B. C. Engraving Company.

ANARCHISTS' REVENGE.

Induce a Soldier to Turn Traitor and Then Betray Him.

Not an anarchist have taken an extraordinary revenge on a French soldier who had exposed one of their plots.

A man named Beau deserted from the French army, went to Italy, and got mixed up in an anarchist plot. He exposed the conspiracy to the police, and the an-

\$3,000,000 Spent

To Make a \$1000 Car

Over \$3,000,000 has been invested to make Overland cars cost less than any others. The saving all goes to our buyers

UTTER SIMPLICITY

Yet the man who knows would give more for the Overland than for any other car in its class. It is so simple, so easy to care for, so trouble-proof, that it appeals to experts and novices. The Overland has fewer parts than any other automobile. All the complexities have been eliminated. The car almost cares for itself. Many owners write of running it thousands of miles without even cleaning a spark-plug.

The operation of the car is by pedal control. One goes forward or backward, fast or slow, by simply pushing pedals. A child can master the car in ten minutes. A young woman is now running one of the cars from the Atlantic to the Pacific. Overlands are used in the U. S. Mail service because of their proved reliability. Each car does the work of three horse-drawn vehicles. Numerous large concerns supply Overlands to their country salesmen, because any man can always keep them going.

On a ranch in Texas, 15 men in Overlands are doing the work of 50 men on horses.

ASK FOR THE FACTS

More people are buying Overlands now than any other car in the world. You should know all the reasons, for these reasons will appeal to you. If you will send us this coupon we will mail you a beautiful catalogue giving all the facts and picturing all the styles. Please cut out the coupon—now—before you forget it. Learn the facts about this remarkable car. We have dealers in 800 towns.

AUTOMATIC MACHINERY

We have spent some hundreds of thousands of dollars on special automatic machinery. Each machine is devised to make some part in the most economical, most exact way.

Here is a machine which enables one man to do the work of sixty men. Here is a machine which performs thirty operations in the time which another machine took for one.

Here is a welding machine which brings steel to white heat while one is taking a breath. Here are rows upon rows of automatic machines doing the work of an army of experts far better than experts ever did it by hand. The sum of their savings—on the thousands of parts which go into a car—saves hundreds of dollars on an automobile.

OTHER ECONOMIES

One whole factory—every machine and every man in it—is devoted to one model alone.

There are separate factories for the different parts, so that all can be made in the most economical way.

Then we have an output of \$24,000,000 per year. So the overhead expense, which in some cars amounts to a fourth of the cost—is but a trifle per car in the Overland. Those are some of the reasons why no other car can compete with the Overland.

The Overland

The 40-horse power Overland costs from \$1,250 to \$1,500, according to style of body, etc. The wheel base is 112 inches. All prices include gas lamps and magneto.

The Evening Chit-Chat

There is a certain form of selfishness or thoughtlessness the two are pretty often synonymous. I think that irritates me more every time I run up against it. It is the selfishness of the women less frequently the men—who manage her affairs so as to travel on the trolleys at rush hours. I think such a person has absolutely no right to a seat or to consideration of any kind. It fairly makes my blood boil when I see a woman, who, by her general appearance, I am very sure has been on a pleasure or shopping excursion, get on a crowded car at the rush hour and accept a seat from a man who has evidently been working all day, and who, according to my way of thinking, has twice the right she has to that seat. I thoroughly believe in chivalry, but I think it should have a basis of justice and there is no justice in such a proceeding. The idea of chivalry is that the strong should help the weak and the man who has been working at the top pitch of his strength all day is no stronger than the lady who has been amusing herself. Another street car offender that I have no use for is the woman of either the working or the leisure class who always goes and stands ostentatiously in front of whatever is due to be seated while she is standing. Receiving a seat under these conditions seems to me like receiving a gift or an invitation after many hints. Myself, I would rather stand all night than get a seat that way. Whether it is too conspicuous for a young girl to rise and give her seat to an elderly man or woman while men are sitting, is a question of trolly car ethics that I have occasionally heard discussed. It seems to me that if the men have been given a chance to rise and have not availed themselves of it, it is quite the kind and proper thing for a young girl to offer her seat to an elderly woman. I don't quite like to see her do it for a man, though, because I have an idea that the mental discomfort he undergoes in realizing that he has reached the point where he needs to accept such a thing from a woman, often counterbalances the physical comfort he gets from the seat. In the same way I am very chary now I offer my seat to a woman not much older than I am. I think she is quite as apt to resent the inference the action conveys as to be pleased by it. I shall never forget my own feelings on a similar experience some years ago. I had been under terrific mental and physical strain and probably looked twice my age, but I could not help instinctively resenting it when I was sharply reminded of the fact by a girl hardly younger than I was who insisted on my taking her seat. But whether it is always the wisest and kindest thing for a young girl to give up her seat or not, I do think it is always kindest for her to sit down while an older woman or an elderly man is standing. And if you are ever puzzled by a question of street car ethics I fancy just the best test to put it to, is the supreme test of the golden rule. For I have an idea that politeness in street cars is essentially what it is everywhere else. —To do and say the kindest thing in the kindest way.

RECIPES FOR RICE
Some of the following recipes are rather new and some are old.
Rice Pudding Without Eggs.—Four tablespoonfuls of rice, four tablespoonfuls of sugar, one quart of milk, one cupful of raisins. Bake rice, sugar and milk for one and one-half hours, then add raisins and bake another half hour. Stir occasionally.
Cream of Rice Pudding.—Three cupfuls of milk, three tablespoonfuls of rice, one-half cupful of sugar, and nutmeg or vanilla flavoring. Wash the rice, put it with two cupfuls of cold water on back of stove until it comes to boiling point, then add the three cupfuls of milk, the sugar, and flavoring, and place pan in slow oven for three or four hours. Every time a crust forms on top stir it until just before taking from the oven. Eat hot or cold and without sauce.
Rice Snow Ball.—Cook six tablespoonfuls of rice until tender. Sweeten with two tablespoonfuls of sugar and add a pinch of salt. Pile on a low flat dish. While hot have one tablespoonful of egg beaten with one tablespoonful of sugar. Spread over the rice. Set in the oven to glaze but not brown. The sauce: Stir together the yolk of one egg, one teaspoonful of flour, two tablespoonfuls of sugar thinned with one tablespoonful of water, then beat to a cream. Stir this into one cupful of boiling milk and have to taste.
Poor Man's Pudding.—One-half cupful of boiled rice, two eggs, one-half cupful of sugar, one tablespoonful of butter, two cupfuls of milk. Place butter in pudding dish and melt it. Beat eggs, sugar and salt together, add milk and rice, mix thoroughly, pour into pudding dish, and bake until firm and browned slightly. Serve warm or cold as preferred.
Rice Pudding II.—One-half cupful of rice washed in salt water. Stir the

Mme. Martin has left for Ottawa, where she will spend the summer with her son, Albert Martin. She is being accompanied on the journey across the continent by Mrs. A. C. Flumerfelt, who is on her way to England to visit her daughter.
CANADIAN MAGAZINE.

A fine comprehensive article entitled "The Canadian Meteorological Service," by R. F. Stupart, director of the service, heads the list of contents in the July Canadian Magazine. This is a most informing article, and it is well illustrated. It is followed by the first act of Arthur Stringer's play "The Plot," which absorbs the reader's interest and promises much for the other three acts. Other attractive features of this number are: "Earl Grey's Administration in Canada," by J. Caswell Hopkins; "Are We Producing a Criminal Class?" by J. Sedgwick Cowper; "A Soul's Tragedy," by George Herbert Clarke; "Making the Railways Serve the People," by Leonard F. Earl; "King George V.," by Hector Charlesworth; "The Pyramids of Teotihuacan," by G. E. Kinzford; "The

rice in a pint of milk with a cupful of water added, then pour into buttered pudding dish. Add pinch of salt, a dash of vanilla or cinnamon, and a few bits of butter. Put in oven and bake. Serve warm with cream sauce made as follows: One cupful of milk (or half milk and half water), sugar, bit of butter, a little vanilla. Thicken with tablespoonful of corn starch. Serve hot.

Rocking Down vs Shaking
Which Do You Prefer?
Look at the man above. He's SHAKING an ordinary furnace. He bends nearly double, exerts all his strength, works up a perspiration, and gets a sore back.
Now, look at the woman. She stands nearly erect, gently moves the lever to and fro, a few inches, and the ashes are dropped into the Sunshine ash-pan. This is called ROCKING DOWN. It's so easy a child can do it.
Which method do you prefer? Why, Rocking Down, of course.
Go to our agent in your locality. Let him show you the many other time-saving, labor-saving and fuel-economizing features of the Sunshine. Order him to install the Sunshine with a guarantee to heat your home to your entire satisfaction.

UNION RATES ARE EASILY OBTAINED

Sufficient Tonnage for Early Months of Grain Season Already Taken

The market for grain freights holds steady, with only an occasional fixture, says the San Francisco Commercial News in its review of the charter market. Union rates are easily obtained by owners, and occasionally a fraction above. One big steamer has been taken for general cargo, with part cargo barley, but thus far steam has not cut any figure in the grain export business. A sufficient amount of tonnage for the early months of the season has already been engaged, and not much activity may be looked for until later, when the trend of the market may be more definitely determined.

Lumber business, offshore and coastwise, is quiet, with rates on the latter class rather weak and unprofitable. To San Pedro \$4.75 has been paid, but it is hard to get more. To the port of Victoria to Sydney 30s is quoted and 31s 3d to 32s 6d to Melbourne or Adelaide; for sail 21s 3d has been done to Sydney and 41s 3d to Coquimbo and repeated to direct port west coast.

In general business another steamer has been fixed for coal from Nanaimo to Anacapa, and the ship Aryan has been fixed from Newport News to San Francisco.

Offshore lumber rates are quoted as follows: Lumber from Puget Sound or British Columbia to Sydney, 28s 3d to 31s 3d; to Melbourne or Adelaide, 31s 3d to 32s 6d; to Port Pirie, 32s 6d to 33s 6d; to Fremantle, 32s 6d to 33s 6d; to China ports (steam), 3s 9d to 4s 6d; on gross; direct nitrate port, 40s to 42s 6d; with 2s 6d less to direct port; to South African ports, 55s; to U. K. or Continent, 52s 6d to 53s; Guaymas, 35s; Mazatlan, 33s; Santa Rosalia, 4s; Honolulu, 4s.

CANNERY BURNED.

Only Twenty Plants to Operate on Fraser River This Season.

The Burrard cannery, on the Fraser river, was destroyed by fire early yesterday morning and the loss is estimated to be \$30,000. The principal owners are James Webster and Ross and Howard. The destruction of the plant on the eve of the fishing season will entail considerable loss on the owners through their inability to reconstruct in time to participate in this season's operations. A little over a week ago the plant of the Eagle Harbor Packing Company, Howe Sound, was totally destroyed, and the loss of these two canneries will leave but 20 plants in operation in the Fraser River district this year.

HENLEY LEAVING.

Canadian-Mexican Pacific Liner Making First Voyage—Chiefly Coal and Barley Cargo.

Steamer Henley, the first vessel to sail under the newly organized Canadian-Mexican Pacific Steamship Co., Ltd., is expected here from Vancouver today with a full cargo for Mexican ports. The larger part of the cargo consists of coal taken at Comox and Boat Harbor, but she also has a large quantity of barley shipped from Vancouver. This steamer is under charter from the Watts, Watts Co.

29	29:50 59:45	19:38 32:21		
30	31:12 61:05	19:50 32:33		
31	32:35 62:20	20:01 32:44		

The time used is Pacific Standard, for the 12th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. The height is in feet and tenths of a foot, above the average level of the lowest low water in each month of the year. This level is half a foot lower than the datum to which the soundings on the Admiralty chart of Victoria harbor are reduced.

WILL DEVELOP B. C. FISHERIES

WHALING COMPANY TO EXTEND OPERATIONS

During Winter Steam Whalers Are to Be Operated in Halibut Fishing Industry

The Pacific Whaling Company is making preparations to enter the halibut fishing industry in connection with the whaling, and during the winter season their steam whalers will be operated at fishing. For some time past the heads of the company have been trying to arrange not to have the steamers left off during the winter months. Last year an effort was made to hunt whales in the winter, but without any success. The fishing, however, can be carried on, and as the boats will have the advantage of being able to enter B. C. harbors and secure bait there, they will undoubtedly make a success of it.

Freezing plants will be established at Kyquol, Sechart, and Rose Harbor, and from these ports, in this way it will be possible to handle the fish quickly and ship in the very best of condition.

Steam whaler Germania, the latest acquisition of the Whaling Company, has been reported at San Diego and is expected here in about ten days, when she will at once be sent north to the Rose Harbor station. The William Grant, which has been hunting on the west coast, will also go to the new station and the hunt will be in full swing there. The steamers to be operated in the halibut fishing will be the Orion, St. Lawrence, William Grant, Sebastian and Germania.

SHIP GLORY OF SEAS LOADING FOR ALASKA

Vessel Formerly Owned by Capt. Freeman Now Flying Uruguayan Flag

Ship Glory of the Seas, formerly owned, operated and commanded by Captain Freeman, of this city, is at present loading coal at Ladysmith for Unalaska. She was purchased in the spring by Captain McDonell for a syndicate in which local men are interested to engage in the hardwood trade with the South Sea Islands. She is taking the cargo of coal to Alaska first and will later outfit for the South.

CANNERS WILL PAY TWENTY-FIVE CENTS

No Fish Yet in Fraser—Preparations for Big Season in Northern British Columbia

A good many sockeyes are being taken in the traps at Sooke, but so far they have not appeared in the Fraser river. The local catch is being shipped to the Fraser for canning. It is expected that the run will be a fair one, although, of course, not approximating the big run of last year. After the year following this one, it is expected to be a better one than some of the subsequent seasons.

On the Fraser river the canners have agreed upon 25 cents as the price to be paid for salmon. The canners held a meeting a day or two ago at which the price was fixed. It was decided that a better one than two bits would be the rule.

In the northern canneries the fish are coming slowly, but it is expected that the run will increase somewhat during the month of August. Preparations have been made for a big catch in northern waters at Rivers Inlet, Skeena and Nass rivers. All the canneries are to be operated, and there will be great disappointment if the run fails.

B. C. A. S. A. WILL BE RE-ORGANIZED HERE

Local Swimmers Will Meet Tomorrow Night at J.B.A.A. Rooms for This Purpose

After a great deal of agitation on the part of the members of the Victoria Y. M. C. A. Swimming and Life Saving Club, the British Columbia Amateur Swimming Association is to be re-organized. Last summer at the annual meeting of the association it was decided to affiliate with the B. C. A. S. A. but since that time it has been found necessary to re-establish the old organization, owing to the fact that there are very few representatives in the amateur union who understand or take an interest in aquatic sports.

A meeting will be held in the J. B. A. rooms tomorrow evening at 8 o'clock, when officers for this body will be elected. After the work of re-organization is completed the attention of those present will be directed towards the arranging for the British Columbia championships to be held here. The date will be settled on, officials named and the kind of prizes to be presented to the winners will be discussed. Ian St. Clair, the old stand-by in swimming circles and one who has done his best to help the cause along, will preside at the meeting and a full attendance is requested.

A. J. Brace, who was appointed by the club to write the Vancouver association and find out their opinion regarding the re-organizing of the B. C. A. S. A., reports that the Terminal City club has taken the matter up and is strongly in favor of the movement. The swimming association has been granted a sanction for the purpose of re-organizing and no time will be lost in the carrying out of the plans which have been formed.

CROFTERS COMMISSION.

Received Over Twenty-one Thousand Applications to Have Fair Rents Fixed.

The annual report of the British Crofters Commission, detailing their work of 1909, has just been published. During the year the commissioners visited various districts of Inverness, Ross and Cromarty, Sutherland and Caithness, and dealt with applications from all the counties mentioned in the Crofters act. After describing some of the applications which were made, the commissioners state that they have received 21,592 applications to have fair rents fixed, 4,113 applications for enlargement of holdings, 73 miscellaneous cases and 1,206 appeals. They have disposed of 21,255 fair rent applications, 3,825 enlargement applications, 595 miscellaneous cases and 1,202 appeals under the delegation of powers act, or in all, 26,787. The number of inspections made before disposal of these various cases was 19,688. They have dealt with 708 applications to prohibit the sale of effects on the holding also in respect of non-payment of rent, and 262 applications under the Crofters common grazing regulation act, 1891 and 1909. The extent of land dealt with in fair rent applications is 209,579 acres in individual occupancy, and 1,577,875 acres in common occupancy. They have assigned 62,000 acres in enlargement of crofters' holdings. The total area ofcroft land, both that held in individual occupancy and that held as common pastures, traversed and inspected by them under the act since they began their duties (not including the farm and forest lands inspected under applications for enlargement of holdings) is not less than 1,787,454 acres. The total rents with which they dealt in fair rent applications and applications for revaluation of holdings amounted to £57,987, and they fixed the fair rents at £68,116, an annual reduction of £11,070, or practically 25 per cent. The arrears with which they dealt amounted to £185,979. Of these, they cancelled £124,749, or slightly over 67 per cent, and ordered the balance of £61,230 to be paid.

cutting his hair, and turned round as a customer entered and cut a piece out of his ear.
Judge Emden (to the defendant)—How much of the ear did you take off?—How got it here. (Laughter).
What? the ear?—Yes.
The defendant then carefully unwrapped the portion of the ear from a piece of paper and handed it to the judge.
Judgment was given for the plaintiff for \$5.

INJURED IN FIGHTS.

Los Angeles, Cal., July 6.—Four white men are being treated at the receiving hospitals for injuries they received in fights with negroes following the announcement of the Jeffries-Johnson fight.
Several clashes between whites and blacks occurred during the night. A dozen revellers were arrested on charges of drunkenness.
Joseph Dowling was cut severely by a negro who attacked him with a razor for speaking disparagingly of the black champion. William Bennett received two rib fractures in a fight with a burly black man who declared he could lick any white man in California. R. Peterson was taken to the hospital with a broken rib after a battle with another negro. George Bottsworth was beaten by a negro in Spring street.

POLICY OF THE KAISER IN LAND OF PALESTINE

How the Course of Events is Summarized in Recent Press Comments

After the recent visit of the German Emperor's second son to Palestine, the papers devoted a good deal of space to the growing influence of Germany in Syria, and L'Opinion, a new French paper, published an interesting article on the subject, which was summarized by the Spectator. The course of events in Palestine is thus described:

"Twelve years ago the Emperor William proclaimed as the object of his Syrian ambition the 'pacific co-existence of Protestantism and the other confessions.' When he visited Palestine in 1888 the Kaiser found the Christian population alarmed by the massacres of which they had recently been the victims, and the mohammedans made uneasy by fears of European retaliation. The presence of the German Emperor did something to lessen the fears of both. Oriental Catholicism was soon startled by the news that, after long negotiations at Constantinople, the chief Protestant sovereign of the European continent had obtained from the sultan a site for a Roman Catholic church on Mount Zion.

"The protectorate of the Latin Catholics, so long claimed by France, had been given up by the Republican government, and, though some of the races in whose favor it had been exerted took no notice of the change, others accepted the transfer without hesitation. Until the date of the Imperial visit the German Roman Catholics had had nothing in Jerusalem beyond an unimportant mission, and though various attempts had been made to give importance to the German Protestant congregations, they had not been attended with much success.

"The Jerusalem Bishopric, of which Great Britain and Prussia were the joint founders, had come to an end in 1886, and long before that time German congregations had been set up outside the bishop's jurisdiction, and the German Protestant church in Palestine had started on a career of its own. Frederick William IV. had re-established the Brandenburg branch of the Order of St. John, and in 1884 he asked the Sultan to give him the site of the hospice which had belonged to the order during the existence of the Latin Kingdom of Jerusalem.

"It needed twelve years to gain the necessary consents, for it was not till 1899 that Abd-ul-Aziz yielded to the persistent demands of the Prussian government. The Protestant Knights were now in possession of what had been the property of the Roman Catholic Order seven centuries earlier.

"Will the German Emperor succeed to that protectorate of the Christians which seems the only possible substitute for the protectorate of the Roman Catholics which France has abandoned? That is a question which hardly admits of a positive answer. Why, it may be asked, should the German government be so greatly interested in the progress of the German colony in Palestine? Two advantages possibly present themselves to German minds. One is that if, after all, the break-up of the Turkish empire should not be averted by the recent revolution, if the heritage of the Turks should still have to be scrambled for, it is intelligible that a far-sighted ruler may wish to secure a good start. Or, the German emperor's desire for colonies is well known, and he may think that Palestine has merits from this point of view, even if it remains in the hands of the present owners."

"The Jerusalem Bishopric, of which Great Britain and Prussia were the joint founders, had come to an end in 1886, and long before that time German congregations had been set up outside the bishop's jurisdiction, and the German Protestant church in Palestine had started on a career of its own. HOSPITAL NEEDS TO BE ENLARGED WOMEN'S AUXILIARY OF JUBILEE MEETS

Necessity of Remodelling Referred to—Officers for Ensuing Year Elected

At the annual meeting of the Women's Auxiliary to the Jubilee hospital, held at the board of trade rooms yesterday afternoon, Dr. Hasell paid a tribute to the work of women's societies in supporting the institution and pointed out the urgent necessity of enlarging and remodelling the building.

The chair was occupied by the vice-president, Mrs. W. Dalby, in the enforced absence of Mrs. C. W. Rhodes through illness. The chief feature of the meeting was the reading of an executive's report which was adopted. It was as follows:

Your executive committee have held seven regular meetings during the past working year. The meetings have taken place in the new work room, under the Pemberton-Chapel at the hospital, which, though admirable for the principal purposes for which it was secured—namely, as a room where sewing and special committees could meet, and where the properties of the societies could be stored—has proved a little out of the way for the business meetings. We attribute to this cause a slight falling off in the attendance, and we would consent with this general meeting on the advisability of again calling the monthly meetings in town.

The canvassing committee have again conscientiously fulfilled their duties. The names of Mrs. A. Lindsay, Mrs. Pallantine, Mrs. Hearn and Miss Meyer are added to their ranks, and, in such districts where the regular canvassers were unable to register, busy canvassers were untried in regular duty.

The sewing committee—Mrs. John Watson again convener—had a most agreeable session last winter, meeting every Tuesday in the work room, and completing a number of useful and necessary articles, besides considerably assisting with repairs and mending. Tea was kindly provided by the various members in town—a very pleasant and sociable addition to the day's work.

The expenditure amounting to \$2,227 has been devoted, as usual, to the current needs, as indicated by the matron of the board. We have had very great pleasure in being able to assist the directors, both in erecting a modern X-ray room and also an outdoor ward for extreme cases of tuberculosis. These have been our special coupes. Other purchases have been made as follows: Blankets, sheets, pillow cases, tray and table cloths, 24 dozen nightgowns, quilts, crockery, glass, heating apparatus for greenhouse, plants, table, chairs and stove for work room. We have also contributed a sum of \$250 towards the fund for the maternity ward.

In view of the increased demands upon us and the necessity for keeping up our interest in our working fund sustained by a larger membership, we would add here a list of present needs which we must, with the commencement of our new working year, provide immediately. The linen and various perishable furnishings in the Strathcona ward are, after the wear and tear of six years, completely worn out and need thorough replenishment. A much larger number of blankets will be needed before the winter owing to the quantity that will be required to supply the out-of-door tuberculosis ward. Many of the ambulatory ward chairs are almost outworn, and these are a very special feature of our hospital furnishings, as the patients practically convalesce out-of-doors in the beautiful grounds of the hospital. The demand for quilts and linen is always before us.

Christmas tide was celebrated and hospital beautifully decorated by the Daughters of Pity, and many pleasures made possible by the liberality of the following friends, whom we now take occasion to warmly thank: Mesdames Pearce, Wallace, Beaven, O. Weller, G. H. Barnard, Thomas Lee, M. Rathom, Dunsmuir, Trewartha, James, Mara, Henry Croft, R. B. McMicking, Moulton Fell and children, C. W. Rhodes and children, W. E. Gilver, Meyer, W. H. Jamieson, John Piggott, B. Janlon, H. R. Jackson, John Hope, A. W. Jones, Stewart, Herman Robertson, Henry Clay and Owen Goward, and Messrs. Robert Ward & Co., R. P. Rithet & Co., B. Wilson & Co., Pither & Leiser, E. G. Prior & Co., E. B. Marvin, A. G. C. Gallety, A. W. Vowell, C. Challoner, J. Lawson, sr. H. G. Newton, C. F. Todd, Cuyler, A. Holland, A. C. Finmerfelt, Chas. Hayward, Barber Bros., Hall & Co., D. G. Campbell and the West End.

At the opening of the Pemberton Chapel in December last our society, by the kind permission of the matron, Miss Macdonald, held a reception in the Nurses' Home and had the pleasure of entertaining Mrs. Pemberton and the many friends who attended the ceremony.

We would thank Mr. George Phillips for again giving us the opportunity to increase our revenue by making collections for the Victoria Musical Society. By this means our president and secretary were enabled to secure the sum of \$10 for our funds.

The churches again granted to us the receipts from Hospital Sunday, held in October last, which amounted to a total of \$327.95, and without which timely assistance we should have been unable to fully provide the winter's needs.

Hospital day was held on Saturday, May 28th, and was most unfortunate as regards weather. In spite of the elements, however, and by the staunch service of our volunteers, the net considerable sum of \$645 was collected and was allotted in the proportion

shown in the treasurer's statement to the tuberculosis ward and the maternity ward funds, with balance to working fund. We would especially thank this committee, for it is certainly an undertaking that takes both strength and courage. The results in other cities and the many kind words spoken in our own will, however, encourage us to continue the custom and to hope for a larger committee in the future.

We also desire to put on record our thanks to the Country Club for a donation of \$529 whereby we have been enabled to erect the new X-ray room at the hospital.

Plants and flowers for beautifying the corridors and grounds have been kindly contributed by the following members: Mrs. H. M. Croft, Mrs. E. J. Johnson and Mrs. Frank Wollaston. In conclusion, we can only repeat our oft-told tale of insistent need and faithful devotion in small things. We would ask all our members and friends to believe that we recognize the quiet, faithful attachment to routine work, often through times of depression and with funds at a low ebb, as fully as we welcome and appreciate the energy and spirit of those whom we call to our aid for entertainment and emergencies, for we all remember that the value of true service is not always reckoned by results here, but goes to make an imperishable record there—in that far country whither we are all travelling, and where only our works may follow us.

By order of the Executive,
B. M. HASELL, Hon. Sec.
It was stated that the maternity ward fund has now reached the sum of \$12,500, which will cover the cost of building and equipment.

Mrs. Jenkins commented upon the untiring work of the hospital's friends as shown by the reports. She wished the society a greater success this year than in the past.

Dr. Hasell said that only those who bore the burden of work at the hospital knew how much the institution was indebted to the women's societies for assistance. The directors were confronted with the task of remodelling and enlarging the hospital, which had engaged the public for twenty-two years. He felt sure that the society would afford them assistance in this labor.

The meeting expressed its sympathy with Mrs. Rhodes and passed a vote of thanks to Mrs. Hasell in appreciation of her service as secretary-treasurer. Following this the meeting discussed briefly the best methods of work for the future, and decided to hold the business meetings of the executive in the city instead of at the hospital as formerly.

Mrs. Rhodes, who declined nomination as president, feeling that the office should be occupied in rotation, was accorded an unanimous vote of thanks for all her past services. The election of officers for the ensuing year resulted as follows:

President, Mrs. Harold Robertson; first vice-president, Mrs. Thomas Watson; second vice-president, Miss Meyer; secretary-treasurer, Mrs. E. S. Hasell. The following members were added to the executive: Mrs. C. N. Spencer, Mrs. Heigterman, Mrs. Sproule, Mrs. C. N. Gowen, Mrs. Cook, Mrs. An-

Rock-haven

BEACH DRIVE
Oak Bay

Situated on the waterfront, ninety feet wide by sixty feet on Oak Bay Road, new bungalow, artistically arranged and well built.

FARMER IMPRISONED WITH A LEOPARD

Struggle for Life in Diningroom of British East Africa Farm House

The story of a young British East African farmer's terrifying encounter with a leopard in a dining-room is published in the East African Standard. The farmer had been dining with a friend near Nyeri, and as they sat chatting by the fire his dog began barking.

"A leopard had been paying attention to the pigs a few nights before," he relates, "and I suggested that the beast was at hand again. While we were discussing this a monster leopard came into the room with such a bang that it was nearly against us before it could pull up."

"We started shouting for fear it would collar the dog, but it was too surprised at the sight of us and at the light from the lamp to meddle with the dog. The leopard then turned towards the doorway, but missed it and got behind the door. Anxious to get out, it roared itself against the wall and pawed round about to the side of the room. We had no weapons handy, but we still kept shouting at it, thinking it would soon gain the doorway."

"As it moved about, however, it came against the door and shut it. Then the tune was changed. We saw we were in a tight place, and looked round for something to defend ourselves with. We now had our chairs up as shields. I was nearest to the door, and began to move slowly thereto whenever the leopard's back was turned to me."

"It noticed what I was after, however, and was on me like a shot with a roar or growl, jaws out, and mouth wide open."

"I guarded with the chair, but it knocked that out of my hands, and getting one paw home on my scalp clawed it and ripped it like a piece of cloth. I kept my feet, however, though it must have knocked me violently against the wall, for my shoulder was sore for weeks after."

"I hammered on the beast's head with my fists, but don't suppose, with much effect, though it probably prevented it from using teeth and claws on my legs or body, as it kept snapping at and trying to catch my hands as I hit it, while all the time the dog was tearing at its ears. The dog must have gripped one of the leopard's hind legs, which made the leopard turn from me."

"The young man took the opportunity to open the door, although almost blinded by blood. In the meantime the leopard was making for his friend Mr. D., who had been burning his hands badly in trying to take a brand from the fire as a weapon."

"The next I saw," the narrator pursues, "was Mr. D. on the bed and the leopard gathering itself for a spring upon him. But D. was in time to lift a blanket over himself and so foil the charge. I stood holding the door open with one hand, with the other diverting the blood from my eyes."

"The leopard now leaped back to the floor. Turning a little towards the dog, which kept pestering it, it felt the cold air blowing in from the open door. Turning further it saw outside and trotted out. I had not even the chance of giving it a parting kick as it brushed past me, because the dog was hanging on to its hindquarters. After getting out, it must have turned on the dog; at any rate, the latter came back in a mighty hurry."

"The next day the young farmer was taken on a stretcher to the Ober hospital, where he was treated for his wounds."

Moore & Whittington 865 Yates St.

A Storekeeper Says:

"A lady came into my store lately and said: 'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was small and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost.'"

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired out that you can't eat. Just light a Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no smoke, no smell, no outside heat, no draughts in the kitchen where one of these stoves is used.

Cautionary Note: Be sure you get this stove—see that the name-plate reads 'New Perfection.'

New Perfection Oil Cook-stove

It has a Cabinet Top with a shelf for keeping plates and food hot. The wicket finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

ANOTHER DEAL IN SHEEP CREEK CAMP

Lessees of the Eureka Group Intend to Install Stamp Mill on Property.

Nelson, July 5.—Another important transfer in the Sheep Creek gold camp took place when William Claffy of Salmon, gave a lease and bond on the Eureka group to Messrs. Hymann, Van Houten and their associates of Vancouver. The sum involved is \$55,000, of which 10 per cent. has been paid.

REVELSTOKE WATER BY-LAW.

Revelstoke, July 5.—Little interest was manifested in voting on the by-law for the raising of \$27,000 for the extending, augmenting and improving of the city's water supply. Only 76 votes were cast, 73 voted for the by-law and three voted against it.

ECZEMA ON HEAD AND ARM Four Doctors Failed After Fair Trial—Cure Effected by DR. CHASE'S OINTMENT

The average physician is helpless in the presence of skin diseases such as eczema and salt rheum. Some make the mistake of treating eczema as a blood disease and advise internal treatment. Others think only relief is possible and recommend a lotion to afford relief from the itching.

SUCCESSFUL PUPILS RECEIVE PRIZES

Closing Exercises at Quamichan Lake Boys' School—Head Master Reports.

(Special Correspondence.) Duncan, July 5.—The closing exercises of the Quamichan Lake Boys' school were held on Thursday afternoon last. W. H. Elkington, president of the board of directors, took the chair supported by the Rev. Canon Leakey and P. T. Skrimshire, master of the school. Mr. Skrimshire delivered a report on the work of the last two terms, and the examinations just concluded. The school consists of Junior and intermediate preparatory classes, and an advanced class for entrance examination to Kingston R. M. College on matriculation.

RAILWAY FOR BIG BEND.

Revelstoke, July 5.—That the C. P. R. is in earnest in its scheme to open up the Big Bend by railway transportation and build a connecting line between Revelstoke and the Grand Trunk Pacific at Tete Jaune Cache, is evident from the fact that a party of locating engineers numbering 18, have arrived from the east. They will start locating the permanent way north of Revelstoke at once and will meet at the junction of Canoe river and the Columbia, the party which has gone north from Beavermouth, locating the line along the arm of the river. Thence the location survey will be pushed on to Tete Jaune Cache.

NEW PRINCIPAL

Nelson, July 5.—The Nelson school board has made two more appointments to the teaching staff to fill vacancies in the high school staff. R. Smille, science master at Regina, has been appointed to the principalship of the high school. He will probably teach science and mathematics.

USED KNIFE.

Prince Rupert, July 5.—Edward Leighton, the Indian youth who stabbed Lillian Calvert a few weeks ago, was sentenced to three years imprisonment by Judge Young. The prisoner made a full confession.

PRINCE RUPERT SCHOOL.

Prince Rupert, July 5.—The work on the new school building is progressing in good style. The buildings will be completed well within the specified time called for in the contract.

NOTICE

It is estimated by engineers that the leakage from the gaspipes of London equals 9 per cent. of the total manufacture.

BUILDINGS ENCROACH ON NANAIMO STREET

Question Discussed at Council Meeting—City Engineer Receives Increase.

Nanaimo, July 5.—At the regular meeting of the city council the question of Fire Chief Parkin attending the convention of Coast Fire Chiefs in Stockton, Cal., was brought up by Ald. Watson, who informed the council in view of the dissatisfaction expressed by some of the aldermen at his attending the convention at the city's expense, Mr. Parkin expressed his desire to attend the convention at his own expense.

ENJOYABLE CONCERT AT CEDAR HILL

Pupils and Their Friends Contribute to Programme—Football Club Picnic.

(Special Correspondence.) Gordon Head, July 5.—On Thursday evening a concert was given in the Temperance hall by the pupils of the Cedar Hill school and their friends. The first part of the programme was given entirely by the children. The hall was prettily decorated with flowers and evergreens and a good sum was realized. The proceeds will be devoted to a school picnic to be held at Toddy's beach on Thursdays, the 7th inst. The programme was as follows: Song by school; dialogue, "Keeping House"; dialogue, "Playing School"; song, "Buy My Flowers"; by six little girls; dialogue, "How the Story Grew"; song by school; dialogue, "Country Cousin"; "Wax Figures"; song by Jean Halliday; reading by Rev. T. E. Gardner; song, Miss Shirley Offerhaus; impersonations by Captain Cullin.

Department of Railways and Canals

QUEBEC BRIDGE. TENDERS FOR SUPERSTRUCTURE.

Notice to Contractors. SEALED TENDERS addressed to the undersigned and endorsed "Tender for Quebec Bridge Superstructure," will be received at this office until 12 o'clock noon, not later than September 1st, 1910, for the superstructure of a Bridge across the St. Lawrence River near the City of Quebec.

NOTICE

Parties tendering will be required to accept the Fair Wages Schedule prepared or to be prepared by the Department of Labor, which Schedule will form part of the contract. Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of Quebec Bridge Tender of Engineers, Canadian Express Building, Montreal, and at the Department of Railways and Canals, Ottawa.

CHIEF OF POLICE.

Prince Rupert, July 5.—J. J. McCavall has been permanently appointed chief of police for Prince Rupert. The commissioners made the selection out of about forty applications. The commissioners also decided to call for tenders for uniforms for the police force.

WILSON'S Fly Pads

The destruction of the house fly is a public duty. Almost every American State Board of Health is carrying on a crusade against him. His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race. If the houseflies of Canada will use

permanently, this pest would be tremendously reduced.

Uncle Walt The Poet Philosopher

Wait till you're old and haggard, wait till you're bent and gray, before you complain with a voice full of pain: "I am so tired to-day!" You are so young and active, you are so young and strong! Wait a while You tired of the game, and, feeling no shame, singing a dotard's song? Wait till the shades have gathered, wait till the night is near, then you may moan as you walk alone, down to the vale of fear. You with your little burden, strapped to your stalwart back! And you would repine and utter a whine over the thorns in the track! Wait till your friends have left you, wait till your heart is tired, and you're mocked by hosts of the sheeted ghosts of things you have long desired. Youth is the greatest treasure! Youth is the world's red gold! And the man who sighs under morning skies, deserves to be stricken old.

**INDIAN IS SPOILED
 BY CIVILIZATION**

Dr. Emmons, the Famous Anthropologist Discussed Character of Natives When Here

"The pig was not dirty until it was kept in a civilized state, and the Indian was perfectly clean morally until he felt the influence of modern civilization." This was the way Dr. G. T. Emmons expressed himself when seen by a newspaper man yesterday. The doctor, who spent twenty years in the United States naval service on the coast of Alaska, and has for years made an exhaustive study of the Indians, has just returned from a trip up the Skeena and Naas rivers. He says he does not like the country now as well as he did at one time. He meets too many white people there now. The country is being spoiled from the anthropologist's point of view. Asked if he did not find the Indian always trying to bleed the white man financially, the doctor said that everyone in that north country was looking for money. That was what the white people went there for. They ran hotels, stores, steamboats and everything else for the simple purpose of making money, and he did not think the Indians were to be blamed if they caught some of the same spirit. He always found the Indians honest. During the twenty years he was on the coast of Alaska in every difficulty with the Indians it was found that a white man was to blame.

"I have travelled fifteen hundred miles at a stretch with the Indians in their canoes, and I have never had any difficulty with them. I have never carried a gun, and I have always felt perfectly safe. I have tried to treat

PORTLAND TRAGEDY.

Attorneys for Webb and Mrs. Kersh File Demurrers to Indictments Charging Murder.

Portland, Ore., July 6. — Availing themselves of all the time possible, attorneys for Jesse P. Webb and Mrs. Carrie Kersh, who are jointly indicted for the murder of W. A. Johnson, whose body was found in a trunk at the Union Depot recently, yesterday filed demurrers to the indictments of murder. Webb and the woman were to plead yesterday. The filing of the demurrers, however, automatically postpones this time. They will not be compelled to plead until after the demurrer has been ruled on. As the matter will come before Judge Cleland, no ruling can be handed

SCOTT BROTHERS AT THE GRAND THIS WEEK.

down until he takes his seat as president judge, August 22nd.

THREE BOYS HURT.

Portland, Ore., July 6.—Reports indicate that Portland celebrated the fourth in a decidedly "sane" manner. Twelve accidents, of which only two were serious, were registered at the hospitals and drug stores. Two small boys were injured by an exploding toy cannon. One 12-year-old lad thrust a lighted "punk" in his trousers pocket, which was filled with fire-crackers. He went to the hospital badly burned. Late at night the fire department was called out to extinguish six small fires, due to fire-works.

The ear of the elephant, like his eye, is very small in proportion to the size of the animal, although the "rop" of skin which covers it is often of considerable size. The hearing of the elephant, however, is singularly acute.

them honestly and they have done the same with me. The Indian is at heart perfectly honest. He is like a child."

Dr. Emmons has written a number of books on anthropological subjects for the Museum of Natural History and other scientific institutions. He has a book at present in the press. One of the most notable of his works was one on the rock carvings of Northern British Columbia.

On this trip he brought two interesting presents for the Provincial Museum. One of these was a crown of grizzly bear's claws which was worn by the Indian medicine men in their ceremonies at Kitwinkool, near Naas river. It has a small queue at the back somewhat resembling the pigtail of a Chinaman. The other curio was a native trap used in their dead-falls. Both will be of great value from an anthropological point of view. He also promised to send from New York several other trophies of his recent trip. He is now on his way east, where he will continue his literary work.

HIGH COMMISSIONER OF SOUTH AFRICA

Sir R. Solomon Has His Finger on Pulse of Affairs in New Union

If there is any man in London who has his finger on the pulse of the administrative and economic affairs of South Africa it is Hon. Sir Richard Solomon, K. C., K. C. B., K. C. M. G., who has the honor of being appointed the first high commissioner under the South African union. His intimate knowledge of the inner affairs of South African life and policy makes the appointment a most popular one. London can now boast of four high commissioners, a striking evidence of the increasing importance of overseas interests in the very heart of the Empire. Since 1907 Sir Richard Solomon has filled the office of agent-general for the Transvaal, and from his office in Victoria street he will henceforth direct and control the larger issues involved in the high commissionership. With his unrivalled experience of African affairs, Sir Richard will have an advantage for those qualities of head and heart which are proverbially his. He has a great work before him, chiefly of a constructive character. Sir Richard Solomon was born in Cape Town in 1859, and educated at

the South African college there, and also at St. Peter's college, Cambridge, where he became 3rd wrangler. He was called to the bar of the Inner Temple in 1879, became legal adviser to Lord Rotherham on his mission to Mauritius in 1886 to inquire into the affairs of that island, was appointed a member of the Native Law commission, chairman of the Mining commission, and later a member of the house of assembly for the Cape as representative of Tembuland. From 1898 to 1909 he was attorney-general in the Schreiner ministry, was legal adviser to the Transvaal (1902-7). He was also a member of the executive and legislative councils of the Transvaal, and an hon. fellow of St. Peter's college, Cambridge. Sir Richard represented South Africa in 1901 at the Delhi Durbar. This epitome of Sir Richard Solomon's useful career in the public service, is eloquent proof, if proof were needed, of his qualifications for the post of high commissioner.

British South African interests, but that will not be quite yet, for there are so many important preliminaries to be settled in the way of amalgamation.

NEW IDEALS OF CITIZENSHIP.

"There have been times in the history of society when either the state or the individual was everything," says the Daily News. "We are groping our way slowly and tentatively, not without error and blundering, to an ideal of citizenship which gives proper weight both to personal initiative and to human fellowship. We are coming to see dimly and theoretically that the individual must live through the society and the society live through the individual, and the task that lies before us is to shape this England of ours into such a fellowship of free men and women. It is a task that cannot be accomplished unless we look upon public service not as a nuisance, or even as a duty, but as natural to us as the striving we make for ourselves or our kin."

BRITISH DESTROYERS.

The British Admiralty recently placed orders for the whole of the twenty torpedo boat destroyers to be built under the Naval Estimates for 1910-11. Eight will be built on the Clyde, five on the Tyne, two each at Cowes, Southampton and Birkenhead, and one at Barrow. Great Britain has now no less than 27 torpedo boat destroyers built and under construction. Germany has eighty-five destroyers completed and twenty-four building.

WHY NOT DEAL HERE

.. "Where The Most Furniture Is Shown And Sold" .. Where You Are Sure Of a "Square Deal"

THE fact that this store shows and sells more furniture and home furnishings than any other store in British Columbia is but one reason why you should investigate this store's offerings before making any purchases in furniture, carpets, curtains, china, silverware or home furnishings of any description.

Nothing less than a combination of superior quality and fairest prices would permit a firm to enjoy this enviable reputation throughout so many continuous years.

These features, combined with our "square deal" policy, have kept us at the front for almost half a century. The "one price to all" idea has always been a strong feature of this business, and has been a great factor in building up our present splendid business.

We can sympathize with the woman who pays \$50.00 for a parlor suite to-day, and viewing a duplicate suite in her neighbor's home to-morrow, hears the joyful news that "I got this suite at Slasher's—regular \$50.00, for \$18.69."

You'll get none of that here. "ONE price to ALL and ALL the time"—that's our policy. And that's one big reason why so many people trade—

"Where the Most Furniture is Shown and Sold."

For the Summer

You'll Need Such as the Following

REED AND LINEN FIBRE CHAIRS.

First and foremost on the list is the magnificent display of these delightful Summer chairs. Nothing more comfortable or more attractive than these new designs in reed and linen fibre chairs. We have just received another big shipment, and offer an excellent variety of pleasing styles. Direct importations enable us to quote right prices. See what we offer in Chairs or Rockers from \$4.50
