Title 3—THE PRESIDENT

Proclamation 3600

NATIONAL FARM-CITY WEEK, 1964

By the President of the United States of America

A Proclamation

WHEREAS American farmers are the most efficient producers of agricultural products the world has ever known; and

WHEREAS, never before in history, has so much food and fiber been produced by so few farmers for so many people throughout this world at so reasonable a cost; and

WHEREAS, because of the initiative and efficiency of our farmers, most of our people have no need to produce their own food, and, instead, are free to produce the many other goods and to provide the many services that account for our high standard of living; and

WHEREAS the consumer's stake in assuring the continuing vitality of our agricultural system becomes more apparent each day as the world's exploding population creates ever increasing demands upon us for food and fiber; and

WHEREAS the farmer, already a major consumer, depends more and more each day upon the products and services of science, labor, and industry to provide him with the modern tools and supplies needed for farm production today; and

WHEREAS farm and city families should recognize and better understand their interdependence:

NOW, THEREFORE, I, LYNDON B. JOHNSON, President of the United States of America, do hereby designate the week of November 20 through November 26, 1964, as National Farm-City Week; and I call upon people throughout the Nation to participate in the observance of that week.

I request that leaders of business groups, labor unions, women's clubs, and civic associations, and all consumers join, along with farm families and other rural people, in this observance, as evidence of the strong ties that bind urban and rural Americans.

I urge the Department of Agriculture, land-grant colleges and universities, the cooperative extension service, and all appropriate Government officials to cooperate with national, State, and local organizations in carrying out programs to observe National Farm-City Week, including public meetings and exhibits and press, radio, and television features. I urge that such programs place special emphasis on the increasing importance of protecting our Nation's soil, water, and timber so that our estimated 340 million citizens of the year 2000 may enjoy abundance then as we do now.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 21st day of July in the year of our Lord nineteen hundred and sixty-four, and of [SEAL] the Independence of the United States of America the one hundred and eighty-ninth.

LYNDON B. JOHNSON

By the President:

DEAN RUSK,
Secretary of State.

AMERICAN SOCIETY OF MECHANICAL ENGINEERS
 Proposed Code of Ethics for Engineers
 Proposed Code of Ethics for Engineers

The American Society of Mechanical Engineers (ASME) has proposed a Code of Ethics for Engineers. The code is intended to guide the conduct of engineers in their professional lives. It is based on the principles of honesty, integrity, and public service. The code is divided into several sections, including a general statement of purpose, a list of principles, and a list of specific rules of conduct. The code is intended to be adopted by the engineering profession as a whole.

The proposed code of ethics for engineers is as follows:

Section 1. Purpose and Scope.

The purpose of this code of ethics is to define the standards of conduct which should govern the professional life of the engineer. It is intended to apply to all engineers, whether they are employed by a firm, a government agency, or are in private practice.

Section 2. Principles.

The engineer shall be guided by the following principles:

1. The engineer shall be honest and truthful in all his professional dealings.
2. The engineer shall be fair and impartial in all his professional dealings.
3. The engineer shall be loyal to his employer and to his profession.
4. The engineer shall be diligent and careful in the performance of his duties.
5. The engineer shall be conservative in his estimates and calculations.
6. The engineer shall be economical in his use of materials and labor.
7. The engineer shall be a public servant and shall act in the best interests of the public.

Section 3. Rules of Conduct.

The engineer shall observe the following rules of conduct:

1. He shall not accept a contract for which he is not qualified by education, training, or experience.
2. He shall not accept a contract which is in violation of any applicable laws or regulations.
3. He shall not accept a contract which is in violation of any applicable ethical standards.
4. He shall not accept a contract which is in violation of any applicable public policy.
5. He shall not accept a contract which is in violation of any applicable public interest.
6. He shall not accept a contract which is in violation of any applicable public safety.
7. He shall not accept a contract which is in violation of any applicable public health.
8. He shall not accept a contract which is in violation of any applicable public morals.
9. He shall not accept a contract which is in violation of any applicable public order.
10. He shall not accept a contract which is in violation of any applicable public peace.
11. He shall not accept a contract which is in violation of any applicable public safety.
12. He shall not accept a contract which is in violation of any applicable public health.
13. He shall not accept a contract which is in violation of any applicable public morals.
14. He shall not accept a contract which is in violation of any applicable public order.
15. He shall not accept a contract which is in violation of any applicable public peace.

Proclamation 3601
AMERICAN EDUCATION WEEK, 1964

By the President of the United States of America

A Proclamation

WHEREAS education is the keystone to human advancement because it promotes understanding among all men of good will, makes possible scientific, industrial, and agricultural achievements that exceed our fondest dreams, and gives promise of an ever better world tomorrow; and

WHEREAS education is basic to every facet of our individual lives and of the life of our Nation; and

WHEREAS our long-standing and determined support of education has rewarded our people with a fulfillment and prosperity unparalleled in the history of mankind; and

WHEREAS our educational framework must be responsive not only to the needs of individuals as they seek to solve the problems of today but must also anticipate the challenges of tomorrow; and

WHEREAS our goal for these momentous times must be the creation with utmost haste of a great society—a Nation without poverty or rancor and a world without fear; and

WHEREAS education is the single most effective instrument by which we can make that goal a reality:

NOW, THEREFORE, I, LYNDON B. JOHNSON, President of the United States of America, do hereby designate the period from November 8 through November 14, 1964, as American Education Week.

I urge all Americans to take time during that week to consider the needs and the accomplishments of our schools and colleges and to acquaint themselves more fully with the activities and objectives of those institutions. I ask all our people to dedicate themselves to renewed and continuous efforts to improve the quality of education. We must avoid complacency and we must never be quite satisfied with our educational institutions, no matter how good they may be, and, instead, we must constantly strive to assure that each of our people has the opportunity to obtain the best education possible—for upon the accomplishment of that task depends the realization of our hopes and aspirations for a bright future for our Nation and for our children.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 21st day of July in the year of our Lord nineteen hundred and sixty-four, and of [SEAL] the Independence of the United States of America the one hundred and eighty-ninth.

LYNDON B. JOHNSON

By the President:

DEAN RUSK,
Secretary of State.

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amend. 9]

PART 722—COTTON

Subpart—Acreage Allotment Regulations for the 1964 and Succeeding Crops of Upland Cotton

COTTON ACREAGE HISTORY

This amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.), as amended by Title I of the Agricultural Act of 1964.

(a) The purpose of this amendment is to clarify the cotton acreage history provisions of § 722.214(d) in the case of farms planting for 1964 and 1965 within the farm domestic allotment established under section 350 of the Act.

(b) In order that county offices may properly establish farm bases and history acreages, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, public procedure requirements and the thirty day effective date requirements of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) is impracticable and contrary to the public interest and this amendment shall be effective upon filing of this document with the Director, Office of the Federal Register.

Section 722.214(d) of the acreage allotment regulations for the 1964 and succeeding crops of upland cotton (28 F.R. 11041, 29 F.R. 2301, 5303, 5274, 5941, 6477, 6941, 7865, 7312) is amended to read as follows:

§ 722.214 Adjustment of allotment bases and determination of acreage history.

(d) Farms planting within the farm domestic allotment for 1964 and 1965. Farm domestic allotments for the 1964 and 1965 crops are required to be established for each farm under section 350 of the Act. If the acreage planted to cotton on the farm is within the farm domestic allotment so established and the farm has qualified for price support under section 103(b) of the Agricultural Act of 1949, as amended and the regulations implementing such statute (section 1427.1908; 29 F.R. 5742; 1964 cotton domestic allotment program), the provisions of paragraphs (a) and (b) of this section regarding planting of 75 percent of the farm allotment shall be satisfied if 75 percent of the smaller of the farm allotment or the farm domestic allot-

ment is planted as specified in these respective paragraphs.

(Sec. 344(f) (8), 375, 377; 78 Stat. 173, 52 Stat. 66, as amended; 7 U.S.C. 1344, 1375, 1377)

Effective date: Date of filing this document with the Director, Office of the Federal Register.

Signed at Washington, D.C., on July 22, 1964.

H. D. GODFREY,
Administrator, Agricultural Stabilization and Conservation Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

[Valencia Orange Reg. 94]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.394 Valencia Orange Regulation 94.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908; 27 F.R. 10089), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider

supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 23, 1964.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., July 26, 1964, and ending at 12:01 a.m., P.s.t., August 2, 1964, are hereby fixed as follows:

- (i) District 1: Unlimited movement;
- (ii) District 2: 500,000 cartons;
- (iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," and "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: July 24, 1964.

[Lemon Regulation 121]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.421 Lemon Regulation 121.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 27 F.R. 8346), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available informa-

tion, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 21, 1964.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., July 26, 1964, and ending at 12:01 a.m., P.s.t., August 2, 1964, are hereby fixed as follows:

- (i) District 1: Unlimited movement;
- (ii) District 2: 348,750 cartons;
- (iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

PART 929—CRANBERRIES GROWN IN THE STATES OF MASSACHUSETTS, RHODE ISLAND, CONNECTICUT, NEW JERSEY, WISCONSIN, MICHIGAN, MINNESOTA, OREGON, WASHINGTON, AND LONG ISLAND IN THE STATE OF NEW YORK

Expenses and Rate of Assessment for the 1963-64 Fiscal Period

Pursuant to the marketing agreement, as amended, and Order No. 929, as amended (7 CFR Part 929; 29 F.R. 6617), regulating the handling of cranberries grown in the States of Massachusetts, Rhode Island, Connecticut, New Jersey, Wisconsin, Michigan, Minnesota, Oregon, Washington, and Long Island in the State of New York, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the proposals submitted by the Cranberry Marketing Committee, established pursuant to the aforesaid amended marketing agreement and order, it is hereby found that the expenses to be incurred by the Cranberry Marketing Committee will amount to \$32,000.

It is, therefore, ordered, That paragraph (a) of § 929.203, as amended, Expenses and rate of assessment for the 1963-64 fiscal period (28 F.R. 10634, 12663) is hereby further amended by deleting therefrom the amount \$29,000 and substituting in lieu thereof the amount \$32,000. As amended, paragraph (a) of § 929.203 reads as follows:

§ 929.203 Expenses and rate of assessment for the 1963-64 fiscal period.

(a) *Expenses.* The reasonable expenses to be incurred by the Cranberry Marketing Committee, established pursuant to the provisions of the amended marketing agreement and order, for its maintenance and functioning during the fiscal period ending July 31, 1964, will amount to \$32,000.

It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that (1) the increase in the budget does not involve an increase in the rate of assessment heretofore established by the Secretary (28 F.R. 10634, 12663); (2) the said committee in the performance of its duties and functions has incurred expenses in excess of those previously thought likely to be incurred; and (3) it is, therefore, essential that this amendatory action be issued immediately so that said committee can meet its obligations.

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

1964-65 Crop Year; Determination Relative to Estimated Season Average Price to Producers

Under the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), the more restrictive grade regulation (7 CFR 993.601), and pack specifications as to size (7 CFR 993.501-993.518), are effective, as applicable, whenever the estimated season average price to producers for prunes does not exceed or is below the parity level specified in section 2(1) of the aforesaid act.

Based on information submitted by the Prune Administrative Committee and other available supply and demand information, it is determined that the estimated season average price to producers for prunes for the 1964-65 crop year beginning August 1, 1964, will not be at or in excess of the estimated average parity price for prunes for such crop year.

Dated: July 22, 1964.

Deputy Director, Fruit and Veg-
etable Division, Agricultural
Marketing Service.

Chapter X—Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 136]

PART 1136—MILK IN GREAT BASIN MARKETING AREA

Order Suspending Certain Provision

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Great Basin marketing area (7 CFR Part 1136), it is hereby found and determined that:

(a) The following provision of the order no longer tends to effectuate the declared policy of the Act for the months of July and August 1964: "fluid milk products equal to not less than 40 percent of the receipts during the month

at such plant of producer milk and receipts at the plant of fluid milk products from plants described pursuant to paragraph (b) of this section and there are disposed of on routes", appearing in § 1136.11(a).

(b) Thirty days notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This suspension action will permit the major cooperative association in the market to maintain pool plant status for all of its existing pool plants during the months of July and August 1964. As a result of the merging of two cooperative associations and the changes being made in their operations, it would be extremely difficult, if not impossible, for such association to meet the present requirements necessary to maintain pool plant status for these months in view of the expected level of milk production during this period. Hence, the suspension action will permit member dairy farmers who have supplied the fluid milk requirements of the market to continue as producers under the order.

(4) Interested parties were afforded opportunity to file written data, views or arguments concerning this suspension (29 F.R. 9506). Based on the views, data, and arguments filed in response to this invitation, it is concluded that the suspension order should be issued.

Therefore, good cause exists for making this order effective upon publication in the FEDERAL REGISTER.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended for the period July 1 through August 31, 1964.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: The date of publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on July 22, 1964.

Under Secretary.

SUBCHAPTER C—EXPORT PROGRAMS

[Rev. II, Amdt. 3]

PART 1481—RICE

Subpart—Rice Export Program; Payment-in-Kind (GR-369)

The Terms and Conditions of the Rice Export Program—Payment-in-Kind (GR-369), Revision II (27 F.R. 10931),

No. 145—Pt. I—2

as amended (28 F.R. 543) and (28 F.R. 9420), are, with regard to any contract resulting from CCC's acceptance of an exporter's offer to export rice (milled, or brown, or both) which is submitted by such exporter on and after the date of publication of this Amendment 3 in the FEDERAL REGISTER, amended as follows:

§ 1481.111 [Amended]

Section 1481.111(c) (1) is amended by substituting the following for the second and third sentences of the subparagraph: "Exportation to an eligible country, and within the period of time specified in the exporter's contract with CCC or as approved by the Vice President, CCC, are of the essence of the contract and, except as otherwise provided in this paragraph (c) (1), are conditions precedent to any right to payment under this program. Exportation to other than an eligible country, or during a period of time other than that specified in the exporter's contract with CCC or approved in writing by the Vice President, CCC, as provided in paragraph (a) of this section, shall not entitle the exporter to any payment under this subpart, except that, if the rice is exported within 60 days after the end of the period of time specified in the exporter's contract with CCC or any extensions thereof under paragraph (a) of this section, the exporter shall be entitled to payment at the contract rate which would have been applied if the class and variety of rice exported had been exported on the last day of the contract export period, or any extensions thereof under paragraph (a) of this section, without regard to any extensions of rate periods with respect to registered sales under § 1481.113(b), less liquidated damages for delay in exportation as provided herein."

Section 1481.113(b) is amended by substituting the following for the last sentence of the paragraph:

§ 1481.113 Export payment rates.

(b) * * * As specified in the rate schedules, one rate established for each class or variety will apply to rice exported before the end of the period applicable to the class or variety of rice exported, or with respect to a registered sale, any extension of such period approved by the Vice President, CCC, and the second rate will apply to rice exported after the end of such period or, if such period is extended with respect to a registered sale by the Vice President, CCC, after the end of such extended period.

Section 1481.151 is amended to read as follows:

§ 1481.151 Export and Exportation.

"Export" and "exportation" means, except as hereinafter provided, a shipment from the United States or Puerto Rico destined to another area excluding the United States, Alaska, Hawaii, and

Puerto Rico. The milled rice or brown rice so shipped shall be deemed to have been exported on the date which appears on the applicable on-board vessel export bill of lading or other document authorized by this subpart to be furnished in lieu of such bill of lading, or if shipment from the continental United States is by truck or rail, the date the shipment clears United States Customs. If milled rice or brown rice is lost, destroyed, or damaged after loading on board an export ship, exportation shall be deemed to have been made as of the date of the on-board ship ocean bill of lading or other document authorized by this subpart to be furnished in lieu of such bill of lading, or the latest date appearing on the loading tally sheet or similar documents if the loss, destruction, or damage occurs subsequent to loading aboard ship but prior to issuance of on-board ship ocean bill of lading or such other document: *Provided*: That if the "lost" or "damaged" rice remains in the United States or Puerto Rico, it shall be considered as reentered rice and shall be subject to the provisions of § 1481.111(d).

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Airspace Docket No. 63-SW-94]

PART 75—ESTABLISHMENT OF JET ROUTES [NEW]

Designation

On April 25, 1964, a notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 5565) stating that the Federal Aviation Agency (FAA) proposed to designate a jet route from the El Paso, Texas, VORTAC via the Fort Stockton, Texas, VORTAC; the Austin, Texas, VORTAC; to the Houston, Texas, VORTAC.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. The Department of the Air Force objected to the proposal since the proposed segment between Fort Stockton and Austin would penetrate a small portion of a special military operating area (SOA) used by aircraft from Webb AFB, Texas. However, the Fort Worth ARTC Center controls the altitudes utilized by training activities conducted within the SOA and can integrate en route traffic with the aircraft operating out of Webb AFB; or, if necessary, can radar vector the en route traffic away from the special operating area. All other comments received were favorable.

In consideration of the foregoing, Part 75 [New] of the Federal Aviation Regulations is amended, effective 0001 e.s.t., September 17, 1964, as hereinafter set forth.

In § 75.100 (29 F.R. 1287), the following Jet Route is added:

Jet Route No. 86 (El Paso, Texas, to Houston, Texas). From El Paso, Texas, via Fort Stockton, Texas; Austin, Texas; to Houston, Texas.

(Sec. 307(a) of the Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on July 20, 1964.

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

DEPENDENCY AND INDEMNITY COMPENSATION

Section 3.5 is revised to read as follows:

§ 3.5 Dependency and indemnity compensation.

(a) *Dependency and indemnity compensation.* This term means a monthly payment made by the Veterans Administration to a widow, child, or parent:

(1) Because of a service-connected death occurring after December 31, 1956, or

(2) Pursuant to the election of a widow, child, or parent, in the case of such a death occurring before January 1, 1957. (38 U.S.C. 101(14).)

(b) *Entitlement.* Basic entitlement for a widow, child or children, and parent or parents of a veteran, except those specified in § 3.4(c), exists,

(1) Death occurred on or after January 1, 1957; or

(2) Death occurred prior to January 1, 1957, and the claimant was receiving or eligible to receive death compensation on December 31, 1956 (or, as to a parent, would have been eligible except for his income), under laws in effect on that date or who subsequently becomes eligible by reason of a death which occurred prior to January 1, 1957. (38 U.S.C. 410, 416.)

(c) *Exclusiveness of remedy.* No person eligible for dependency and indemnity compensation by reason of a death occurring on or after January 1, 1957, shall be eligible by reason of such death for death pension or compensation under any other law administered by the Veterans Administration. (38 U.S.C. 417 (b).)

(d) *Group life insurance.* No dependency and indemnity compensation or death compensation shall be paid to any widow, child, or parent based on the death of a commissioned officer of the Public Health Service or Coast and Geodetic Survey whose death occurs on or after May 1, 1957, if any amounts are payable under the Federal Employees' Group Life Insurance Act of 1954 (Public Law 598, 83d Congress, as amended) based on the same death. (Sec. 501(c) (2), Public Law 881, 84th Congress, as amended by Sec. 13(u), Public Law 85-857; 5 U.S.C. 2091 note.)

(e) *Widow's rate.* (1) The monthly rate of dependency and indemnity compensation for a widow is \$120 plus 12 percent of the basic pay of the veteran. (38 U.S.C. 411(a).) This rate is subject to increase as provided in subparagraph (3) of this paragraph.

(2) "Basic Pay" is the amount certified by the Secretary concerned. This

amount is the basic pay prescribed for persons currently on active duty whose rank or grade and years of service are the same as those of the deceased veteran. The certification of the Secretary concerned is binding on the Veterans Administration. (38 U.S.C. 421.)

(3) If there is a widow and two or more children under the age of 18 (including a child not in the widow's actual or constructive custody and a child who is in active military, air, or naval service), the total amount payable shall be increased by not more than \$28 monthly for each child under 18 in excess of one. The total of such increase shall not exceed the difference between the amounts certified by the Secretary of Health, Education, and Welfare or the Railroad Retirement Board as being payable under 38 U.S.C. 412(a) or the Social Security Act or the Railroad Retirement Act and the applicable ceiling under 38 U.S.C. 411(e) as certified by the Secretary of Health, Education, and Welfare. (38 U.S.C. 411(b), (d) and (e).)

(4) Where the amount, determined to be payable under this paragraph involves a fraction of a dollar, the amount shall be increased to the next higher dollar. (38 U.S.C. 411(c).)

(72 Stat. 1114; 38 U.S.C. 10)

This VA Regulation is effective the date of approval.

Approved: July 21, 1964.

By direction of the Administrator.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 919]

[AO-102-A4]

PEACHES GROWN IN COUNTY OF MESA, COLORADO

Determination on Basis of Results of Referendum on Proposed Amendment

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Palisade, Colorado, January 23, 1964, pursuant to a notice thereof which was published in the FEDERAL REGISTER (28 F.R. 14334; 29 F.R. 50) upon a proposed amendment to the marketing agreement and Order No. 919, as amended (7 CFR Part 919), regulating the handling of peaches grown in the County of Mesa, Colorado. The recommended decision in this proceeding (29 F.R. 5683), and the decision and referendum order (29 F.R. 7096), of the Assistant Secretary of Agriculture setting forth the proposed amendment of the marketing agreement and order were published in the FEDERAL REGISTER on April 29, 1964, and May 29, 1964, respectively. Such decision and referendum order directed that a referendum be conducted among the producers of peaches grown in the County of Mesa, Colorado, to determine whether the requisite majority of such producers favors or approves issuance of the proposed amendment of the marketing order.

It is hereby determined on the basis of the results of the referendum conducted June 6-13, 1964, pursuant to the aforementioned referendum order, that the issuance of the proposed amendment to Order No. 919, as amended, regulating the handling of peaches grown in the County of Mesa, Colorado, is not approved or favored (1) by at least two-thirds of the producers who participated in such referendum and who, during the determined representative period (March 1, 1962, through February 28, 1963), were engaged in the production for market of peaches grown in Mesa County, Colorado; or (2) by producers of at least two-thirds of the volume of production of such peaches represented in the aforesaid referendum.

It is hereby determined that the proposed amendment to the order set forth in the Assistant Secretary's decision of

May 29, 1964 (29 F.R. 7096), should not be made effective.

IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

Proposed Expenses and Rate of Assessment

Consideration is being given to the approval of proposed expenses and a proposed rate of assessment as herein-after set forth, which were recommended by the Idaho-Eastern Oregon Potato Committee, established pursuant to Marketing Agreement No. 98, as amended, and Order No. 945, as amended (7 CFR Part 945), herein referred to collectively as the "order."

This marketing order regulates the handling of Irish potatoes grown in Idaho and Malheur County, Oregon, and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C., 20250, not later than the 15th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

§ 945.217 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period beginning June 1, 1964, and ending May 31, 1965, by the Idaho-Eastern Oregon Potato Committee, for its maintenance and functioning, and for such purposes as the Secretary determines to be appropriate, will amount to \$30,000.00.

(b) The rate of assessment to be paid by each handler in accordance with the amended marketing agreement and this part, shall be seventy cents per carload or fraction thereof, or per truckload of 5,000 pounds or more, of potatoes handled by him as the first handler thereof during said fiscal period.

(c) Terms used in this section have the same meaning as when used in the said amended marketing agreement and this part.

[7 CFR Parts 1041, 1098, 1101] MILK IN TOLEDO, OHIO; NASHVILLE, TENNESSEE; AND KNOXVILLE, TENNESSEE MARKETING AREAS

Proposed Termination of Certain Provisions of Orders

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the termination of certain provisions of the order regulating the handling of milk in the above designated marketing areas is being considered.

The classified pricing provisions of several Federal milk marketing orders use the average of the basic (or field) prices reported to have been paid per hundred-weight for milk of 3.5 percent butterfat content received from farmers during the month at seven Midwestern plants or places. Throughout the fluid milk industry, this group of plants is commonly referred to as the "Midwestern condenseries".

Some orders which use this price series specify a final date by which the price information received shall be included in the class-price computations provided in the orders. Most orders which use this price series do not specify any final date for including the prices reported by the Midwestern condenseries in their classified pricing formulas. Thus, the additional price information which may be available from the Midwestern condenseries at a later date in one order as compared with another order results in different rather than identical average Midwestern condensery prices being used among orders.

Termination of the specific date provision in each of the above orders is being considered. This action would permit the use of an identical average price for orders which use the Midwestern condenseries in class-price formulas.

The specific provisions proposed to be terminated are:

Part 1041, regulating the handling of milk in the Toledo, Ohio, marketing area:

In § 1041.50(b)(1), the provision, "on or before the 5th day after the end of the month", relating to the final date on which prices paid or reported to be paid at specified Midwestern plants or

places may be averaged and used as an alternative price for Class II milk.

Part 1098, regulating the handling of milk in the Nashville, Tennessee, marketing area:

In § 1098.51(b) (2), the provision, "on or before the 5th day after the end of the month", relating to the final date on which prices paid or reported to be paid at specified Midwestern plants or places may be averaged and used as a factor in determining the upper limit of the minimum price for Class II milk.

Part 1101, regulating the handling of milk in the Knoxville, Tennessee, marketing area:

In § 1101.51(b) (2), the provision, "on or before the 6th day after the end of the month", relating to the final date on which prices paid or reported to be paid at specified Midwestern plants or places may be averaged and used as a factor in determining the upper limit of the minimum price for Class II milk.

All persons who desire to submit written data, views, or arguments in connection with the proposed termination should file the same with the Hearing Clerk, Room 112-A, Administration Building, United States Department of Agriculture, Washington, D.C., 20250, not later than 5 days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in quadruplicate.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Signed at Washington, D.C., on July 22, 1964.

MILK IN MICHIGAN UPPER-PENINSULA MARKETING AREA

Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Conference Room of the State Office Building, Escanaba, Michigan, beginning at 10:00 a.m., local time, on August 20, 1964, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Michigan Upper Peninsula marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions

which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by Michigan Milk Producers Association:

Proposal No. 1. Amend § 1044.50 to read as follows:

§ 1044.50 Class I milk price.

Subject to the provisions of § 1044.52 the price per hundredweight for Class I milk shall be as follows:

(a) The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the Department for the month: *Provided*, That such reported price shall be adjusted to a 3.5 percent butterfat basis at the rate of the butter price times 0.120 and rounded to the nearest cent.

(b) The basic formula price for the preceding month plus \$0.65 during the months March, April, May, and June in Zone 1(a), \$0.75 in Zone 1, and \$0.95 in Zone 2; plus \$0.85 during January, February, July, and December in Zone 1(a), \$0.95 in Zone 1, and \$1.15 in Zone 2, and \$1.05 during all other months in Zone 1(a), \$1.15 in Zone 1, and \$1.35 in Zone 2, plus or minus a supply-demand adjustment of not more than 24 cents. For plants located outside of the marketing area and west of Lake Michigan, the price (subject to § 1044.53) shall be that specified for Zone 1. For plants located outside the marketing area and east of Lake Michigan, the price (subject to § 1044.53) shall be Zone 2. The supply-demand adjustment shall be computed as follows:

(1) Calculate a "current utilization percentage" for each month by dividing the total pounds of Class I milk (excluding interhandler transfers) disposed of from pool plants under the terms of this order and the order regulating the handling of milk in the Northeastern Wisconsin marketing area (Part 1045 of this chapter) for the second and third preceding months into the total hundredweight of producer milk received at such plants during the same months, multiply by 100 and round to the nearest whole number;

(2) Calculate a "net deviation percentage" as follows:

(i) If the current utilization percentage is neither less than the minimum standard utilization percentage specified below nor in excess of the maximum standard utilization percentage specified below, the net deviation percentage is zero;

(ii) Any amount by which the current utilization percentage is less than the minimum standard utilization percentage specified below is a "minus net deviation percentage;" and

(iii) Any amount by which the current utilization percentage exceeds the maximum standard utilization percentage specified below is a "plus net deviation percentage."

COTTON, TOBACCO, WHEAT AND RICE

Allotments

Pursuant to authority contained in applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.), proposed amendments are being prepared to amend the (1) Acreage Allotment Regulations for the 1964 and Succeeding Crops of Upland Cotton (28 F.R. 11041, 29 F.R. 2301, 5303, 5274, 5941, 6477, 6941, 7865, 7312, 8375); (2) Acreage Allotment Regulations for the 1964 and Succeeding Crops of Extra Long Staple Cotton (28 F.R. 11034, 29 F.R. 2302); (3) Burley, Flue-Cured, Fire-Cured, Dark Air-Cured, Virginia Sun-Cured, Cigar-Binder (Types 51 and 52), Cigar-Filler and Binder

(Types 42, 43, 44, 53, 54 and 55), and Maryland Tobacco Allotment and Marketing Quota Regulations, 1963-64 and Subsequent Marketing Years (27 F.R. 8937, 9211, 10743, 28 F.R. 7757, 8018, 9144, 11049, 29 F.R. 1315, 6520, 7588); Wheat Regulations Pertaining to Farm Acreage Allotments, Small Farm Bases and Normal Yields for 1964 and Subsequent Crop Years (28 F.R. 3574, 10565, 29 F.R. 2925, 8393), and Rice Acreage Allotment Regulations for 1964 and Subsequent Crops of Rice (28 F.R. 13254, 29 F.R. 2909, 3612).

As presently contemplated the amendments would:

1. Amend §§ 722.212 and 722.312 of the cotton regulations to provide that a farm which includes land acquired by an agency having the right of eminent domain for which the entire cotton allotment was pooled pursuant to Part 719 of Chapter VII, which is subsequently returned to agricultural production, shall not be eligible for a new farm cotton allotment for a period equal to the base period used in determining old farm cotton allotments (i.e., 3 years) from the date the former owner was displaced.

2. Amend § 724.62 of the tobacco regulations to provide that a farm which includes land acquired by an agency having the right of eminent domain for which the entire tobacco allotment was pooled pursuant to Part 719 of Chapter VII, which is subsequently returned to agricultural production, shall not be eligible for a new farm tobacco allotment for a period equal to the base period used in determining old farm tobacco allotments (i.e., 5 years) from the date the former owner was displaced.

3. Amend § 728.19 of the wheat regulations to provide that a farm which includes land acquired by an agency having the right of eminent domain for which the entire wheat allotment was pooled pursuant to Part 719 of Chapter VII, which is subsequently returned to agricultural production, shall not be eligible for a new farm wheat allotment for a period equal to the base period used in determining old farm wheat allotments (i.e., 3 years) from the date the former owner was displaced.

4. Amend § 730.1529 of the rice regulations to provide that a farm which includes land acquired by an agency having the right of eminent domain for which the entire rice allotment was pooled pursuant to Part 719 of Chapter

VII, which is subsequently returned to agricultural production, shall not be eligible for a new farm rice allotment for a period equal to the base period used in determining old farm rice allotments (i.e., 5 years) from the date the former owner was displaced.

Prior to the amendments being issued, consideration will be given to any data, views and recommendations which are submitted in writing to the Director, Farmer Programs Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington, D.C., 20250. To be considered any such submission must be postmarked not later than 15 days after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Signed at Washington, D.C., on July 22, 1964.

HUNTING AND SPORT FISHING

Additions to List of Open Areas

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Migratory Bird Conservation Act of February 18, 1929, as amended (45 Stat. 1222; 16 U.S.C. 715), it is proposed to amend 50 CFR 32.11, 32.21, and 33.4 by the addition of Noxubee National Wildlife Refuge, Mississippi, and Savannah National Wildlife Refuge, Georgia and South Carolina, to the list of areas open to the hunting of migratory game birds; Wapanocca National Wildlife Refuge, Arkansas, to the list of areas open to upland game hunting; and Choctaw National Wildlife Refuge, Alabama, to the list of areas open to sport fishing.

It has been determined that sport fishing and the regulated hunting of upland game and migratory game birds may

be permitted as designated on Noxubee, Savannah, Wapanocca, and Choctaw National Wildlife Refuges without detriment to the objectives for which the areas were established.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections, with respect to this proposed amendment, to the Director, Bureau of Sport Fisheries and Wildlife, Washington, D.C., 20240, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

1. Section 32.11 is amended by the addition of the following areas to those where hunting of migratory game birds is authorized:

§ 32.11 List of open areas; migratory game birds.

GREAT LAKES AREA

Determination of Fishery Failure Due to Resource Disaster

Whereas, many firms are engaged in catching, processing and marketing fish from the Great Lakes area; and

Whereas, the Food and Drug Administration on October 25, 1963, issued a statement warning the public of botulism in smoked fish from the Great Lakes area; and this warning was followed by a drastic reduction in consumption resulting in substantial economic injury to the Great Lakes fishing industry and to processors and distributors of smoked fish from the Great Lakes area; and

Whereas, the cause of the botulism was not known; and

Whereas, Great Lakes chubs on hand at the time of this incident were either destroyed or preserved in freezers, with approximately 2 million pounds still in storage; and these fish, even though frozen, have deteriorated to the point where they cannot even be used for pet food; and the only use to which they

can now be put is for reduction, that is, to produce fishmeal; and the value of the fishmeal will not pay for the processing and raw material transport costs;

Now, therefore, as Secretary of the Interior, I hereby determine that the foregoing circumstances constitute a commercial fishery failure due to a resource disaster within the meaning of section 4(b) of Public Law 88-309. Pursuant to this determination, I hereby authorize the use of funds appropriated under the above legislation as diversion payments to cause removal from the usual markets the stocks of chubs which are preventing normal trade operations and for such other measures as may be necessary to mitigate the damage.

CENTRAL GULF STEAMSHIP CORP.

Notice of Application

Notice is hereby given that Central Gulf Steamship Corporation has applied for Operating-Differential Subsidy under Title VI of the Merchant Marine Act, 1936, as amended, covering the freight service described as follows:

A minimum of 24 and a maximum of 28 sailings per year from United States Gulf and Atlantic Coast ports extending from Brownsville, Texas, to Portland, Maine, from and to foreign ports on Trade Route 18, with privilege calls at Beirut, Port Said and Alexandria.

Any person, firm, or corporation having any interest in such application and

desiring a hearing under section 605(c) of the Merchant Marine Act, 1936, as amended, 46 U.S.C. 1175, should by the close of business on August 17, 1964, notify the Secretary, Maritime Subsidy Board in writing in triplicate, and file petition for leave to intervene in accordance with the rules of practice and procedure of the Maritime Subsidy Board.

In the event that a hearing is ordered to be held on the application under section 605(c), the purpose thereof will be to receive evidence relevant to the following: (1) Whether the application is one with respect to vessels to be operated on a service, route or line, served by citizens of the United States which would be in addition to the existing service or services, and, if so, whether the service already provided by vessels of United States registry in such service, route or line is inadequate, and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board will take such action as may otherwise be deemed appropriate.

By order of the Maritime Subsidy Board.

CIVIL AERONAUTICS BOARD

[Docket No. 13777; Order E-21094]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 21st day of July 1964.

Agreement adopted by Traffic Conference 1 of the International Air Transport Association relating to specific commodity rates; Docket No. 13777, Agreement C.A.B. 17666, R-44 and R-45.

There has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, an agreement between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 (Commodity Rates Board).

The agreement, adopted pursuant to unprotested notices to the carriers and promulgated in IATA memoranda,

names additional rates as set forth in the attachment hereto.¹

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find the subject agreement to be adverse to the public interest or in violation of the Act, provided that approval thereof is conditioned as hereinafter ordered.

Accordingly, it is ordered, That Agreement C.A.B. 17666, R-44 and R-45, be and hereby is approved, provided that such approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication.

Any air carrier party to the agreement, or any interested person, may, within 15 days from the date of service of this order, submit statements in writing containing reasons deemed appropriate, together with supporting data, in support of or in opposition to the Board's action herein. An original and nineteen copies of the statements should be filed with the Board's Docket Section. The Board may, upon consideration of any such statements filed, modify or rescind its action herein by subsequent order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

CIVIL SERVICE COMMISSION

GEOLOGY SERIES

Decision To Prescribe Minimum Educational Requirements

In accordance with section 5 of the Veterans' Preference Act of 1944, as amended, the Civil Service Commission has decided that previously-approved minimum educational requirements for positions in the Geology Series, GS-

¹ Filed as part of the original document.

1350-0, should be superseded by revised requirements. Identification of the superseded requirements, the revised requirements, the duties of the positions, and the reasons for the Commission's decision that these requirements are necessary are set forth below.

GEOLOGY SERIES, GS-1350-0

(ALL GRADE LEVELS AND SPECIALIZATIONS)

Superseded requirements. The following material supersedes that previously appearing in 5 CFR 24.97 (published originally in 20 F.R. 9380, December 15, 1955).

Minimum educational requirements. For Geologist positions, all grade levels and specializations, applicants must meet the requirements in A or B below.

A. A full 4-year or longer curriculum in an accredited college or university leading to a bachelor's degree. The courses must have included 30 semester hours in geology, including geomorphology, structural geology, mineralogy, petrology, paleontology, and stratigraphy; and 20 semester hours in any combination of mathematics, physics, chemistry, biological science, engineering, and pertinent related sciences such as geophysics, meteorology, hydrology, and oceanography.

B. Courses in geology totaling 30 semester hours, and courses in related sciences totaling 20 semester hours, as specified in A above, in an accredited college or university, plus additional appropriate work experience or education which will total 4 years of combined education and experience comparable in type, scope, and thoroughness to that acquired through successful completion of a 4-year college curriculum. The work experience acceptable in combination with education must have been such as to demonstrate that the applicant can perform professional geological work at the initial entrance level in this occupation.

Duties. Typical duties include geologic mapping of surficial deposits, bedrock, subsurface phenomena, and mineral deposits; making and recording geological field observations and collecting samples for laboratory analyses; devising field and laboratory techniques and methods, both observational and experimental, for use in the study of geologic phenomena, processes, and changes; making special studies of the characteristics, occurrence and distribution of mineral deposits, glaciers, and other geologic phenomena; preparing, identifying, and studying samples of minerals, sediments, rocks, fossils, ores, and natural liquids and gases; compiling and interpreting field, laboratory, and published data for use by others or for publication; investigating the influences and interrelationships of climate, topography, plants and animals, and water bodies on specific geologic processes and environments; and preparing professional scientific and economic reports for publication; or for use in planning, design and construction activities. The difficulty of the work and the degree of responsibility will vary and be commensurate with the grade of the position.

Reasons for the requirements. Most of the positions in this occupation are research positions. All geologist positions in the Federal Service are concerned with making studies which require the knowledge and application of geological principles, hypotheses and theories which can only be acquired through education. Formal academic training provides systematic and progressive acquisition of necessary knowledge in geology and related sciences, and critical evaluation of such knowledges. At this stage it is highly unlikely that such knowledges can be acquired through other means.

Executive Assistant to the Commissioners.

PAUL DEAN FORD ET AL.

Order Continuing Hearing

In re applications of Paul Dean Ford and J. T. Winchester, London, Ohio, Docket No. 15279, File No. BPH-3936; Charles H. Chamberlain, Urbana, Ohio, Docket No. 15280, File No. BPH-3993; The Brown Publishing Company, Urbana, Ohio, Docket No. 15281, File No. BPH-4138; for construction permits.

The Hearing Examiner having under consideration a joint motion filed on July 15, 1964, by applicants Paul Dean Ford and J. T. Winchester and The Brown Publishing Company, requesting that certain changes be made in procedural dates heretofore specified in the above-entitled proceeding, pending action by the Review Board on certain pertinent pleadings¹ now pending before

¹ Among the pleadings pending before the Review Board are (1) a joint petition filed Apr. 16, 1964, by Charles H. Chamberlain and The Brown Publishing Company, seeking approval of an agreement looking toward the dismissal of the Chamberlain application for a new FM station at Urbana, Ohio, and associated pleadings; and (2) a petition to enlarge issues, filed by the Broadcast Bureau

the Review Board and other procedural steps; and

It appearing, that a rule-making petition was recently granted (Report and Order dated July 1, 1964) assigning FM Channel 292A to London, Ohio, and as a consequence the London, Ohio applicant now proposes to file at the earliest possible date a petition for leave to amend² its application to specify FM Channel 292A, London, Ohio, instead of Channel 269, which is at issue in the instant proceeding; and

It further appearing, that in view of the pendency of the aforementioned interlocutory matters, the request by the petitioners for a change in the schedule of procedural steps in the instant case would serve the public interest, since a resolution of such interlocutory matters may obviate the necessity for an evidentiary hearing in this proceeding; and

It further appearing, that all the parties to the proceeding, including the Broadcast Bureau, have consented to the requested changes in the schedule of the procedural steps in the hearing and have waived the provisions of § 1.298 of the Commission's rules;

It is, therefore, ordered, This 15th day of July 1964, that the request for change in the schedule of procedural steps in the instant proceeding is granted, as follows:

	Extended from	To
Exchange of engineering exhibits and direct engineering case in final form.	July 16, 1964	Sept. 1, 1964
Exchange of exhibits involving nontechnical comparative matters, and furnishing of names of witnesses to be called in direct case.	July 23, 1964	Sept. 9, 1964
Requests for witnesses of opposing applicants for cross-examination (both engineering and non-engineering).	July 27, 1964	Sept. 11, 1964

Released: July 16, 1964.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[F.R. Doc. 64-7414; Filed, July 24, 1964; 8:49 a.m.]

on Apr. 29, 1964, and associated pleadings. By Memorandum Opinion and Order released June 17, 1964, the Review Board determined that petitioners Chamberlain and Brown had adequately demonstrated the public interest considerations in their dismissal agreement under § 1.525(a)(4) of the Commission's rules, but held in abeyance further consideration of such joint petition pending receipt of certain additional affidavits as to consideration with respect to the dismissal agreement. Such affidavits were filed on July 2, 1964.

² The Commission noted that allocation of Channel 292A to London might obviate the necessity of a comparative hearing in the instant proceeding. This clearly contemplated that a request would be made by Ford and Winchester for the new channel at London in lieu of the one involved herein. The assignment of Channel 292A to London becomes effective Aug. 10, 1964.

TRATION****SISAL HELD IN NATIONAL
STOCKPILE****Proposed Disposition**

Pursuant to the provisions of section 3(e) of the Strategic and Critical Materials Stock Piling Act, 50 U.S.C. 98b(e),

notice is hereby given of a proposed disposition of approximately 9,500,000 pounds of sisal now held in the national stockpile.

The Office of Emergency Planning has made a revised determination pursuant to section 2(a) of the Strategic and Critical Materials Stock Piling Act, 50 U.S.C. 98a(a), of the quantity of sisal to be stockpiled. As a result of that revised determination, said quantity of sisal is no longer needed for the stockpile.

Since the revised determination is not by reason of obsolescence of the sisal for use in time of war, this proposed disposition is being referred to the Congress for its express approval, as required by section 3(e) of the Strategic and Critical Materials Stock Piling Act.

General Services Administration proposes to make said sisal available for transfer to other Government agencies, to offer the material for sale on a competitive basis, or otherwise to dispose of it in the best interest of the Government, upon the express approval by the Congress of this proposed disposition, but not prior to the expiration of six months after the date of publication of this notice in the FEDERAL REGISTER unless earlier disposal may be authorized by law.

The initial quantity to be offered for sale will be approximately 3,000,000 pounds. The quantities and timing of subsequent offerings will depend upon the seasonal nature of the sisal market and the demand then existing. The sisal will be made available in quantities of interest to any potential buyer, including those who qualify as small business.

The plan and dates of disposition have been fixed with due regard to the protection of producers, processors, and consumers against avoidable disruption of their usual markets, as well as the protection of the United States against avoidable loss.

Dated: July 21, 1964.

LAWSON B. KNOTT, Jr.

of General Services.

EL PASO NATURAL GAS CO.**Notice of Application To Amend**

JULY 20, 1964.

Take notice that on June 2, 1964, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas, 79999, filed in Docket No. CP62-154 an application to amend an order of the Commission issued October 17, 1962, in Docket No. CP62-154, authorizing Applicant to sell and deliver on an interruptible, best efforts basis, under its Rate Schedule G-X-2, FPC Gas Tariff, Original Volume No. 1, during the calendar year 1962, up to 25,700,000 Mcf of natural gas (at 14.9 psia) to Southern California Gas Company and Southern Counties Gas Company of California (jointly "Southern") for resale by Southern in its southern California market area. The application to amend seek authorization to extend its authorization to permit resumption of sales of best efforts excess gas to its California customers, namely "Southern", all as more fully set forth in the application to amend on file with the Commission, and open to public inspection.

The application states "Southern" will use the subject gas to increase the reserves in its storage reservoirs which were depleted due to subnormal spring temperatures and to provide additional service that arose from an extension of the Los Angeles County Air Pollution Control Board Rule 62.1. Service will be under El Paso's Rate Schedule G-X-2 at a rate of 22.48 cents per Mcf for a limited period ending December 31, 1965.

Protests, petitions to intervene or request for hearing in this proceeding may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 12, 1964.

¹ The pressure base is 14.65 psia for all filings, except that submitted by Tidewater at 15.025 psia.
² The stated effective date is the date proposed by respondent.
³ Periodic increase. Includes partial reimbursement for full 2.55 percent New Mexico Emergency School Tax.
⁴ Subject to deduction of 0.4467 cent per Mcf compression charge for low pressure gas (below 800 psig).
⁵ Subject to deduction of 0.4467 cent per Mcf compression charge for low pressure gas (below 850 psig).
⁶ Periodic increase.

⁷ Inclusive of 0.5 cent per Mcf compression charge.
⁸ Subject to reduction of 0.5 cent per Mcf for compression of low pressure gas (below 650 psig).
⁹ The stated effective date is the first day after expiration of the required 30 days notice.
¹⁰ Subject to downward Btu adjustment.
¹¹ Rate inclusive of reimbursement for Louisiana State Tax and for 1.0 cent per Mcf escrow payment by buyer for other properties on which such taxes are not paid, pending determination of the State's jurisdiction.

C. Michael Paul (Paul) requests an effective date of December 1, 1963, for his proposed rate increase. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit an earlier effective date for Paul's rate filing and such request is denied.

The Atlantic Refining Company's (Atlantic) proposed rate increases contained in Supplements Nos. 2, 5, 9 and 6 to Atlantic's FPC Gas Rate Schedules Nos. 275, 245, 243 and 139, respectively, reflect periodic increases plus partial reimbursement for the full 2.55 percent New Mexico Emergency School Tax which was increased from 2.0 percent to 2.55 percent on April 1, 1963. The periodic increases, exclusive of tax reimbursement, result in increased rates which exceed the area ceiling. The buyer, El Paso Natural Gas Company, (El Paso) has protested the rate increases filed by Atlantic. El Paso questions the right of Atlantic under the tax reimbursement clause to file a rate increase reflecting tax reimbursement computed on the basis of an increase in tax rate by the New Mexico Legislature in excess of 0.55 percent. While El Paso concedes that the New Mexico tax legislation

effected a higher tax rate of at least 0.55 percent, they claim there is controversy as to whether or not the new legislation effected an increased tax rate in excess of 0.55 percent. Under the circumstances, we shall provide that the hearing provided for herein for Atlantic shall concern itself with the contractual basis for the rate filings which El Paso has protested.

Tidewater Oil Company requests an effective date of November 1, 1964, for its proposed rate filings. Such action is the result of an offer of settlement approved by the Commission in their order issued December 21, 1962, in Docket Nos. G-11024, et al., wherein Tidewater was permitted to file for 0.5 cent per Mcf increases sufficiently in advance of November 1, 1964, assuming such changes would be suspended for the maximum period permitted by law. However, Tidewater did not file the proposed changes sufficiently in advance to allow them to become effective November 1, 1964, after a full five-month suspension period, as contemplated in the settlement. Under the circumstances, Tidewater's proposed rate increases are suspended for five months from July 20, 1964, the date of expiration of the statutory notice.

All of the proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR Ch. I, Part 2, § 2.56).

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the contractual basis for Atlantic's proposed rate filings which El Paso has protested, as well as hearings concerning the statutory lawfulness of the increased rates and charges contained in all of the rate filings of the producers listed herein, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held

upon dates to be fixed by notices from the Secretary concerning the contractual basis for Atlantic's proposed rate filings which El Paso has protested, and the statutory lawfulness of the rates and charges contained in all of the rate filings of the producers' listed herein.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until the date shown in the "Date Suspended Until" column, and thereafter until made effective as prescribed by the Natural Gas Act.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until dis-

position of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f) on or before September 2, 1964.

By the Commission, Commissioner O'Connor not participating in the suspension of the filing in Docket No. RI65-9, The Atlantic Refining Company (Operator).

Secretary.

¹⁵ Respondent was permitted (by the Commission's Order issued December 26, 1962 in Docket Nos. G-9510, et al., accepting settlement offer) to file in advance so that the effective date would be October 1, 1964, assuming that the filing would be suspended for five months. Adequate notice was not given.

¹⁷ Rate filing permitted pursuant to the Commission's Order issued Dec. 26, 1962 in Docket Nos. G-9510, et al.

Forest Oil Corporation (Forest), The Pure Oil Company (Pure) and Amerada Petroleum Corporation (Amerada), as noted in footnote ³ supra, have filed proposed increased rates reflecting partial reimbursement for the full 2.55 percent New Mexico Oil and Gas Emergency School Tax which was increased from 2.0 percent to 2.55 percent on April 1, 1963. The buyer, El Paso Natural Gas Company (El Paso), has protested the

filings, with the exception of those by Amerada to which it is expected a similar protest will be filed. El Paso questions the rights of the sellers under the tax reimbursement clauses to file rate increases reflecting tax reimbursement computed on the basis of an increase in tax rate by the New Mexico Legislature in excess of 0.55 percent. While El Paso concedes that the New Mexico tax legislation effected a higher tax rate of at

least 0.55 percent, it claims there is controversy as to whether or not the new legislation effected an increased tax rate in excess of 0.55 percent. Under the circumstances, we shall provide that the hearing provided for herein for Forest, Pure and Amerada shall concern itself with the contractual basis for the producer's rate filings which El Paso has or will protest, as well as the statutory law-

fulness of the increased rates contained in the proposed supplements.

Cities Service Oil Company (Operator), et al. (Cities Service) proposes an effective date of October 1, 1964. These filings are permitted pursuant to an offer of settlement approved by the Commission in its order issued December 21, 1962, in Docket Nos. G-9510, et al., whereby Cities Service was permitted to file for 1.0¢ per Mcf increases sufficiently in advance of October 1, 1964, so that such rate changes would become effective on that date, assuming the increased rates would be suspended for the maximum period permitted by law. The proposed changes were not filed sufficiently in advance to allow them to become effective October 1, 1964, after a full five month suspension period, as contemplated in the settlement. Under the circumstances, we believe such changes should be suspended until December 19, 1964.

All of the proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR, Ch. I, Part 2, § 2.56).

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the contractual basis for Forest, Pure and Ameradas' proposed rate filings which El Paso has protested, as well as hearings as to the statutory lawfulness of the increased rates and charges contained in all of the producers' rate filings, and that the above-designated rate supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. 1), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the contractual basis for Forest, Pure and Ameradas' proposed rate filings which El Paso has protested, and the statutory lawfulness of the rates and charges contained in all of the producers' proposed rate supplements.

(B) Pending hearings and decisions thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the

Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before August 31, 1964.

[Docket No. CP64-298]

EL PASO NATURAL GAS CO.

Notice of Application

JULY 20, 1964.

Take notice that on June 11, 1964, El Paso Natural Gas Company (El Paso), a Delaware corporation, P.O. Box 1492, El Paso, Texas, 79999, filed in Docket No. CP64-298 an application for a certificate of public convenience and necessity under section 7(c) of the Natural Gas Act, as amended, authorizing the construction and operation of certain facilities and the sale and delivery of natural gas to EMW Gas Association (EMW) for transportation to and resale and general distribution in the Villages of Willard and Moriarty and the Town of Estancia, New Mexico, their respective environs and intervening and adjacent areas, all within Torrance County, New Mexico, as more fully set forth in the application on file with the Commission and open to public inspection.

El Paso proposes to construct, at an estimated cost of \$6,050, and operate a measuring and regulating station, and necessary appurtenances, at a point adjacent to its 30-inch O.D. Permian-San Juan Crossover Pipeline in Torrance County, New Mexico. Deliveries of natural gas to EMW will be made at the outlet of such measuring and regulating station.

EMW proposes to construct a 4½-inch O.D. transmission pipeline extending from El Paso's proposed measuring and regulating station in a northerly direction a distance of approximately 50 miles to a point of termination in the immediate vicinity of Moriarty, New Mexico, together with distribution facilities necessary to provide natural gas service to consumers in the Villages of Willard and Moriarty and the Town of Estancia, New Mexico. EMW also proposes to construct approximately 4 miles of 2¾-inch O.D. lateral pipeline extending from the foregoing transmission line to Willard and approximately 10 miles of 2¾-inch O.D. laterals where required to provide service along the route of the transmission line. The total estimated cost of the facilities to be constructed by EMW is \$793,000. Such cost will be financed in part by a grant of \$363,000 made available by the federal Housing and Home Finance Agency under the accelerated works program and the balance of the funds will be obtained through the sale of revenue bonds.

The application states that during the third full year of operation of the proposed facilities, annual and maximum daily natural gas requirements for the

proposed project will aggregate 148,206 Mcf and 1,324 Mcf, respectively.

The sales and deliveries which are the subject of the application are proposed to be made in accordance with and at rates contained in El Paso's Rate Schedules A-2, B-3 and D-3, FPC Gas Tariff, Original Volume No. 1.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that preliminary staff analysis has indicated that there are no problems which would warrant a recommendation that the Commission designate this application for formal hearing before an examiner and that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing may be held without further notice before the Commission on this application provided no protest or petition to intervene is filed within the time required herein. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 7, 1964.

MIDWESTERN GAS TRANSMISSION CO.

Notice of Applications

JULY 20, 1964.

Take notice that on June 24, 1964, Midwestern Gas Transmission Company (Applicant), 231 South LaSalle Street, Chicago, Illinois, filed in Docket No. CP64-308¹ an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to increase total peak day firm sales of natural gas to five existing customers on Applicant's northern system. An increase in peak day sales of 75 Mcf per day is proposed to commence on November 1, 1964, with subsequent peak day increases of 1,174 Mcf per day on November 1, 1965; 2,361 Mcf per day on November 1, 1966; and 810 Mcf per day on November 1, 1967, amounting to a fourth year total peak day increase of 4,420 Mcf. No additional facilities will be necessary to render the increased natural gas service, and the additional volumes of gas will be sold under the

¹ This application is, in fact, a request for amendment of the certificate authorization originally issued in Docket No. G-18313.

terms of Midwestern's presently effective FPC Gas Tariff.

Take further notice that on June 24, 1964, Applicant filed, pursuant to section 3 of the Natural Gas Act, an application for amendment of the authorization to import natural gas from Canada previously granted in Docket No. G-18314 and, pursuant to Executive Order No. 10485, Applicant filed an application for amendment of the Presidential Permit authorizing the construction, operation and maintenance of facilities at the International Boundary for the importation of natural gas from Canada previously granted in Docket No. G-18315.

In each of these applications, Applicant seeks amendments authorizing it to import a peak-day volume of 222,360 Mcf of natural gas per day (at 14.73 psia) through Applicant's connection with Trans-Canada Pipe Lines, Ltd. near Emerson, Manitoba. Applicant does not propose any increase in the annual volumes of gas to be imported.

Applicant states that the requested authorization in Docket Nos. G-18314 and G-18315 will provide a gas supply adequate to meet the increased requirements of existing customers proposed to be served under the application in Docket No. CP64-308. Additionally, Applicant states that it would then have an adequate gas supply to its northern system to meet requirements arising from presently pending or expected applications of five prospective customers seeking service from Applicant under section 7(a) of the Natural Gas Act. The total third year request of these section 7(a) applicants is indicated to be 13,606 Mcf per day.

Protests or petitions to intervene in the matters of the subject applications may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 14, 1964.

[Project No. 2464]

VILLAGE OF GRESHAM Order Fixing Hearing

JULY 20, 1964.

The Village of Gresham, Wisconsin, filed an application for license on April 20, 1964, for project No. 2464, to be known as the Weed Dam and to be located on the Red River and Mill Creek in Shawano County, Wisconsin.

There is considerable local interest. Numerous informal protests and three formal petitions for intervention in opposition to the proposed project have been received by the Commission.

It is desirable and in the public interest to hold a public hearing respecting the matters involved and the issues presented by the application for license.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Federal

Power Act, particularly sections 4(e), 10(a) and 308 thereof, and the Commission's rules of practice and procedure, a public hearing shall be held in Shawano, Wisconsin, at 10 a.m. (c.d.t.) on August 18, 1964, respecting matters involved in and the issues presented by the application for license for Project No. 2464. The place of the hearing is to be fixed by further notice by the Secretary.

By the Commission.

INTERAGENCY TEXTILE ADMINISTRATIVE COMMITTEE

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS UNDER LONG TERM ARRANGEMENT REGARDING INTERNATIONAL TRADE IN COTTON TEXTILES

Announcement of ITAC Actions and Restraint Levels

JULY 20, 1964

The purpose of this notice is to announce certain actions taken by the U.S. Government in furtherance of the objectives of, and under the terms of, the Long Term Arrangement Regarding International Trade in Cotton Textiles, done at Geneva on February 9, 1962.

1. *Bilateral agreements.* Consultations are continuing with the Governments of Pakistan, Korea, Yugoslavia, Greece, and Turkey.

2. *Completed restraint actions.* Discussions have been completed with the Governments of Argentina and Korea relating to the following categories which will be restrained for a period of twelve months in the amounts indicated:

Country	Category	Restraint level	Date effective
Argentina	9	500,000 sq. yds.	July 1, 1964
Korea	18/19	750,000 sq. yds.	Apr. 30, 1964

3. *Renewal of restraint actions.* In view of the continuing disruption of the domestic cotton textile market, the U.S. Government has renewed the following restraints for an additional twelve-month period:

Country	Category	Restraint level	Effective date of restraint renewal
Turkey	9	200,000 sq. yds.	June 20, 1964
Korea	22	100,000 sq. yds.	June 26, 1964
	42	10,500 dozen	June 26, 1964
	52	5,000 dozen	June 26, 1964

4. *Pending restraints.* Consultations are in progress with several foreign governments concerning United States requests for restraints in certain categories. Under Article 3 of the Long Term Arrangement, if no agreement is reached at the end of a sixty-day period of consultation, the importing country may

decline to accept cotton textiles in the particular categories excess of the requested level of restraint.

The particular countries and categories involved are as follows:

Country	Category
Yugoslavia	1, 2, 18,* 19.*
Pakistan	18, 19, 26 (printcloth only), 41, and 42.
Poland	46 and 47.

*Import controls were established on June 23, 1964, pending conclusion of consultations with Yugoslavia.
