

February 11th 1834

Dear friend

In answer to your letter which I received dated the 23th of January I have seated my self to write a few lines to you to state the particulars you spoke of getting a pair of steers to put in the henyard I think it would be a good plan it will keep the grass out of the year so that we can sell the chickens our cow is doing very well I think she will have a steer before long I think I will put it in your yard then it will be there when you come home your pigs is getting along well
Brother George Hunter has bought two pigs of the Dutchman Dick I have wished for you this week we have had vacation and we have had plenty of fine skating and we would have had sport if you had been here although we might have found as a boy did on the lake he went from Waterloo to the lake to skate and he skated in a hole where people had been getting out ice and he was drowned before they could get him out
