MEMORANDUM TO: SGS, Attention: Lt. Col. Christensen

1. Attached Staff Memorandum has been reviewed in compliance with telephonic instructions 5 May from the SGS.

2. Only two minor observations are submitted:

a. In Inclosure 1, paragraph 3 b states that "three spaces will be left between the file line and the MEMORANDUM FOR line" but only two spaces have been left on this sample.

b. In Inclosure 2, paragraph 2 a, shouldn't the last word of the sentence be the singular form, "section" instead of "sections"?

3. It is recommended that this draft be approved for publication.

CHECK SHEET

(Do not remove from attached sheets)

File No. Subject: Relaxation of Controls

From: Chief of Staff To: SRS Date: 8 September 1949

1. The Relaxation of Controls Committee, appointed by Checknote from D C/S SCAP to staff sections of GHQ, SCAP, 17 June 1949, subject, "Relaxation of Controls," has completed its interviews with representatives of sections concerned.

2. At the meetings of the Committee with representatives of the various sections agreement was reached to eliminate or scale down a number of reports, controls and requirements. Section chiefs will insure that these eliminiations and relaxations are effected and that the reports, controls, and requirements involved are not re-established.

3. Section chiefs are reminded that relaxation of controls is a continuing program. As the Japanese Government and its agencies demonstrate capacity for assuming responsibility for additional functions now performed, or closely supervised by this headquarters, those functions must be returned to it. Section chiefs are responsible for initiating such action within their respective spheres of interest.

4. A report will be required from each section by 15 January 1950 indicating the reports, controls, and requirements eliminated or scaled down during the period from date of this checknote to 31 December 1949 and those still remaining in effect. Those referred to in paragraph 2, above, will not be included.

CHECK SHEET
(Do not remove from attached sheets)

File No:

Subject: Daily Report of Change of Officer Personnel

Note No.	From: CS	To: All Staff Sections	Date: 12 July 1949

1. Replies to check sheet from the Office of the Chief of Staff, subject: Daily Report of Change of Officer Personnel, 25 June 1949 indicates a general opinion that it will be necessary for each Staff Section to hand carry Daily Reports of Change to the Adjutant General's Section in order to comply with directive contained in Paragraph 1, Staff Memorandum No. 3, General Headquarters, SCAP and FEC, 2 January 1947.

2. The procedure of hand carrying these reports is considered inadvisable, since this constitutes a waste of manpower and transportation. It is therefore desired that each Staff Section place the Daily Report of Change with a small red tag appended thereto, in the AG messenger pick-up box not later than 0830 each work day, which will insure their receipt by 1000 in the Adjutant General's Section. The purpose of the red tag is to signal the report for special attention by the AG messenger service.

File No: Subject: Daily Report of Change of Office Personnel

Note No. 1.

From: C/S To: S&RS Date: 25 June 1949

1. Staff Memorandum No. 3, GHQ, SCAP & FEC, 2 January 1947, requires that each staff section furnish Officers Branch, Personnel Division, AG Section, not later than 1000 each day, a Daily Report of Change (FEC AGO Form 48). During the period 1-20 June 1949, your section submitted 7 delinquent reports. On these reports, a maximum time delinquency of 47 hours 40 minutes has been recorded.

2. It is desired that actions be taken to insure accurate compliance with Staff Memorandum No. 3, referred to above. Report of action taken in this matter will be furnished this office prior to 30 June 1949.

By Direction of the Chief of Staff.

J. J. [illegible]

Col. Clarke 26-5362

From: S&RS To: Chief of Staff Date: 27 June 1949

2. Daily Report of Change (FEC AGO Form 48) will be hand-carried from this section to Officers Branch, Personnel Division, AG Section, to insure timely compliance with Staff Memorandum No. 3 GHQ, SCAP & FEC, 2 January 1947.

(Do not remove from attached sheets)

WFM/KIM/FG/JSF/SJ/a

File No. ESS/RP 319.25(24 May 49) Subject: Submission of Source Data - (Opn Rpt)

Note No.	From: ESS	To: SRS	Date: 24 May 1949

1

1. Reference is made to:

a. Check note from SRS to ESS, subject as above, dated 25 April 1949.

b. Check note from SRS to ESS, subject as above, dated 2 May 1949.

2. Attention is invited to the following facts concerning Part IV of Operations Reports:

a. Data reported in Part IV are published monthly by ESS/RP in Japanese Economic Statistics. This report is submitted to the printer on approximately the 15th day of each month, and data published represent the most recent statistics available for each individual item.

b. Items reported and periods covered in the Operations Report of 25 April are as follows:

Number of Items	Period Covered
9	March 1949
85	February 1949
43	January 1949
1	December 1948
4	November 1948
1	Coal allocations Jul-Sep 49

c. Data were reported for 84 items in the Operations Report dated July 1947, for 99 items in July 1948, and for 143 items in April 1949.

3. As the items reported in Part IV have increased in number, it has become increasingly necessary to obtain data for individual items from Japanese or SCAP collecting agencies prior to the date the complete series are submitted for inclusion in Japanese Economic Statistics. Needless to say, additional time is involved in securing data in this manner. Moreover, during the first half of April the Research and Programs Division was moved, in several segments, from the Economic Research Building to Empire House; and the collection of data for the April Operations Report was further delayed.

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

BASIC: Check Note No. 1 from ESS to SRS, subj, Submission of Source Data, 24 May 49

4. With specific reference to paragraph 3 of check note referred to in 1.a. above, data reported in Part IV of each month's Operations Report subsequently are published in the previous month's issue of Japanese Economic Statistics. (For example, data reported in Part IV of the April Operations Report were later published in the March issue of Japanese Economic Statistics, which was distributed 2 May). Radio WCL 21333, 30 May 1947, indicates the desirability of obtaining data in a cable by the middle of the month following the month covered, and the term "month covered" in this instance necessarily refers to the month of issue of Japanese Economic Statistics rather than to the period for which data are reported. Therefore, it is pointed out that the "near current" reporting referred to by SRS was at no time anticipated; and, as was pointed out by SRS in a check note to the Chief of Staff, 25 April 1949, no commitment has been made as to any specific date of submission of Part IV.

5. Inasmuch as the purpose of Part IV is merely to transmit specific data in advance of publication in Japanese Economic Statistics, it is requested that hereafter SRS accept as correct the figures submitted by ESS, transmit them as submitted and subsequently refer to ESS/RP any questions as to the content of Part IV. It is suggested that several days' time could be saved in many instances if SRS should arrange to transmit Part IV as a supplemental Operations Report on the day the source data are received from ESS. In this connection, it is pointed out that Part IV is submitted to SRS in "radio language."

6. As requested in check Note referred to in 1.b. above, an interim report covering those items for which data are available will be transmitted for inclusion in the Operations Reports of about the 15th of the month, and an approximate date of transmittal of the remaining items will be stated therein.

File No: Subject: Release of Industrial and Scientific Info

Note No.	
2	From: G-2 To: SRS Thru: ESS Date: 29 Apr 49 MISD/EHFS/MBA/FWS/md 1. G-2 does not concur in the proposed staff memo as now written. 2. DA letter, subject: "Transmission of Industrial and Scientific Information", dated 30 Dec 48 (Incl 1) is, in effect, a definite warning to guard against improper release of industrial and scientific information to unauthorized foreign sources. The letter is ipso facto applicable, as a warning, to Japan and the Ryukyus, as well as to the US and its possessions and should, therefore, be mentioned in any staff memo which might conceivably deal with releases of information of this potential intelligence value. GO 4, GHQ, SCAP, should also be referred to since it is basic policy on releases of this type. 3. The proposed staff memo, with amendments underlined (Incl 4) represent G-2 views requested in para 4 above, and we will assume no responsibility for leakages if this D/A warning is suppressed, ignored or eliminated. 4 Incls 1-3. n/c 4. Revision of SRS proposed staff memo
3	From: ESS To: SRS WHM/WJA/DR/vmp - Mr. Reck 26-8060 16 May 1949 1. ESS concurs with SRS that DA letter regarding industrial and scientific information (Incl 1) is intended to apply primarily to industrial and scientific information originating in the U.S. and its possessions but considers that it also would apply to information, of whatever origin, which would deleteriously affect the security of the U.S. 2. ESS cannot concur with SRS proposed staff memorandum for the reason that the requirements of paragraph 3b are unduly restrictive upon the functions of ESS insofar as requests received from individuals or organizations within the U.S. for unclassified non-military industrial and scientific information solely of Japanese origin are concerned. It is in the interests of the U.S. and necessary for the proper execution of the Nine-point Economic Stabilization Program that information promoting Japanese trade and for the establishment of international scientific relations be given the widest possible dissemination. It is therefore necessary that ESS make direct reply to queries for unclassified, non-military industrial and scientific information solely of Japanese origin. 3. For the same reasons ESS cannot concur in G-2's proposed staff memorandum as written. However, should paragraph 4 of G-2 proposed staff memorandum

WFM/WJA/DR/ej
12 May 1949

MEMO FOR RECORD:

1. SRS prepared proposed staff memorandum implementing DA letter, subject "Transmission of Industrial and Scientific Information" dated 30 December 1948. The proposed staff memorandum is based on the premise that DA letter applied solely to information regarding the United States and its possessions. G-2 in commenting non-concurred in proposed staff memorandum and indicated that it was their opinion that the DA letter was a definite warning to guard against improper release of industrial and scientific information to unauthorized foreign sources. They stated that it applied to Japanese information as well as United States and submitted a G-2 proposed staff memorandum which would incorporate their desires. While ESS agrees with SRS in their interpretation of the DA letter, the requirement in both staff memorandums that requests received from individuals or organizations within the United States for industrial and scientific information be returned to DA for consideration is considered unnecessary and unduly restrictive on the requirements of ESS to render direct reply to requests received from the United States for unclassified non-military industrial and scientific information of Japanese origin. ESS therefore non-concurs in both proposed staff memorandums, but offers a proposed re-write of paragraph 4 in G-2 proposed staff memorandum. When it is amended accordingly, ESS will have no objection.

2. ~~No concurrences necessary.~~

NO.....)

(SCAP AND FEC)

DISTRIBUTION OF SCAP REPORTS

1. Rescission. Staff Memorandum 40, General Headquarters, Supreme Commander for the Allied Powers and Far East Command, 1 November 1948.

2. References.

a. Civil Affairs Division policy pamphlet "Information Management Group (IMG) - Background and Functions," of 15 July 1949 (transmitted by 2d Ind., Department of Army, subject: Request for Japanese Publications for the British Library of Political and Economic Science, dated 2 August 1949), which states that: "IMG functions as an interdepartmental agency for the exchange of Civil Affairs/Military Government information and material of interest to both the federal agencies and the occupied areas."

b. Department of Army letter, subject: "Transmission of Industrial and Scientific Information," dated 30 December 1948, which states that: "Military personnel should be alert to the fact that such information although unclassified and solicited by overt means, provides, in part, basic intelligence information of strategic importance to potential enemies of the US."

c. General Order No. 4, SCAP, subject: "Intelligence Targets in Japan," 13 March 1948, which designates the Assistant Chief of Staff, G-2, to coordinate the exploitation of all intelligence in Japan.

DRAFT

RESTRICTED

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

RESTRICTED

3. Requests for routine or special reports of non-military activities in Japan and the Ryukyus, made direct to this headquarters, to staff sections, or to individuals within staff sections, which contain no information of potential strategic intelligence value will be processed as follows:

a. Requests received from individuals or organizations outside this command and the United States:

(1) If from an individual or organization whose government has a mission accredited to SCAP, will be referred to that mission for action on the basis of materials regularly available to it through official SCAP channels.

(2) If from an individual or organization whose government has no mission accredited to SCAP, will be referred to the Diplomatic Section for consideration.

b. Requests received from individuals or organizations within the United States will be forwarded to the staff section having primary interest for:

(1) Necessary action; or

(2) (a) If addressed to this headquarters or to a staff section, will be forwarded through channels to the Department of the Army for consideration.

(b) If addressed to an individual, will be answered personally by the addressee who will inform the inquirer that such reports are furnished by the Department of the Army.

RESTRICTED

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

c. Requests received from individuals or organizations within this command will be forwarded to the staff section having primary responsibility for necessary action.

4. Requests received from individuals and organizations within the United States and this command:

a. For reports of non-military activities containing information of potential strategic intelligence value pertaining to Japan or Ryukyus will be brought to the attention of and reports thereon cleared by G-2 prior to release, under the provisions of reference 2 c.

b. For reports containing industrial and scientific information pertaining to the United States and its possessions will be processed as indicated in par 4, b (2), under the provisions of reference 2 b.

Statistics and Reports Section

13 May 1949

MEMORANDUM FOR: Chief of Staff

SUBJECT : Preparation of Brochures proposed by PIO

1. The proposed plan to prepare brochures for general press distribution appears to be at least indirectly associated with Radio C-64066 dated 26 September (Incl 1) and Radio C-64991 dated 17 October 1948 which advised the DA: (1) that the Summation is being discontinued because its original purpose to overcome paucity of information concerning Japan and occupation progress for FEC nations and the world at large is now fulfilled through the medium of other reports and current press releases; and (2) because of curtailment of funds, SCAP could not comply with the DA request to furnish certain specified limited reports as a partial replacement for the Summations.

It is believed that the reasons stated by the Functions and Controls Committee in session on 25 September in justification for the termination of the Summation (which was the basis for the above radios) have application to this project.

2. From experience in preparing the Summation and the History, it is felt:

a. That the project proposed must of necessity be of considerable magnitude if these brochures are to withstand critical challenge, be properly balanced against one another, and intergrated into a proper SCAP prospective. The project involves more than just the preparation of individual brochures.

b. The project proposed, if carried to full effectiveness, would amount to a duplication of the work now being done in the nonmilitary fields by SRS Historical Division.

3. While in favor of expanding the dissemination of information on the Occupation, the undersigned does not feel that the project proposed is necessary, that the duplicating of such major effort is justifiable, nor that any appreciable expenditure of funds or allocation of personnel for the partial implementation of the project proposed should be favorably considered until after pressing requirements for current top-priority projects are fully met.

C. H. UNGER
Colonel, Cavalry

OUTGOING MESSAGE

DS/S, SCAP AFF/GVE/mp

26 September 1948

FROM: SCAP

TO : DEPT OF ARMY. . . . . PRIORITY

(C-64088) For CSCAD. Subject is Summation of Nonmilitary Activities in Japan. Recurads C 63100 and C 64026 local survey in progress establishes this publication as low priority function.

Information here indicates its usefulness outside the Occupation area is questionable. Original purpose of this publication (1945) was to overcome scarcity of information available at that time concerning Japan and Occupation progress. Through it FEC nations, U. S. agencies and world at large received information. The original purpose now fulfilled through the medium of other recurring, and operationally more vital reports and current press releases. Convinced here that availability of other reports now being rendered obviates necessity for continued publication of Summation.

Urad WDL 37004 indicates Summation no longer required. Its elimination will reduce Department of Army civilians by approximately forty. In view of high dollar cost, its low value to the Occupation and sharply curtailed personnel funds, the Summation will be discontinued after August issue unless advised to contrary.

OUTGOING MESSAGE

DC/S, SCAP APF/hp

17 October 1948

FROM: SCAP

TO : DEPT OF ARMY. . . . . ROUTINE

(C-64591) For OSCAD. Reurads W 90046 and W 90577 and ourads C 64088 and C 64212 regarding discontinuance of monthly summation.

1. As stated in ourads C 64212 and C 64088 the discontinuance of the monthly summation was indicated after consideration of the cost and man-years involved in the compilation, editing and reproduction. The man-years involved in the compilation within the various sections of the headquarters constituted a very considerable portion of the total. Based upon the surveys referred to in oured reductions in strength have been and are being effected of necessity because of the curtailment of funds. To comply fully with the requests contained in ured W 90577 would require the identical efforts in those sections as have been required in compiling the material for the summation. This is not considered feasible as the services of the personnel involved are needed for more essential activities.

2. The three sections referred to in W 90577 issue a considerable number of periodic and special reports which include CAD in the distribution. These, combined with the bi-weekly radio report of operations, are considered to contain adequate information pertinent to the functions

RESTRICTED

Inc 2

of these sections. Matters of particular interest will be made the subject of special reports. If more extensive or detailed information is desired at any time it will be furnished on request within the limit of available facilities.

3. Public Health and Welfare "Weekly Bulletin" will be declassified as requested urad.

4. Basic information for Ryukyus Summation is presently submitted monthly repeat monthly by HYCOM to CINCFE in mimeograph form. Mimeograph version will be continued on a monthly basis and requisite number of copies furnished CAD. Request information as to number of copies desired.

5. August Summation for Japan will be clearly marked "Final" as suggested.

AG 319.2(26 Apr 49) SRS — National Debt As Reported In Semi-weekly Operations Report

SRS — Deputy Chief of Staff — 28 April 1949.

1. 1. Reference is made to query by Deputy Chief of Staff on figure for national debt, reported for inclusion in 25 April Operations Report as ¥ 537,806,000,000 on 31 March but reported by SRS in radio to Washington to be ¥ 631,824,000,000 on 31 March.

2. For their respective purposes, both figures were correct at dates of intended transmission, SRS reports. The larger figure includes about ¥ 100,000,000,000 in Reconstruction Finance Bank debentures. The omission from the Operations Report of this figure, which is not strictly chargeable to the national debt although it is a government obligation, is consistent with past reporting. The larger figure also reflects relatively minor Ministry of Finance revisions resulting from delayed post-fiscal year reports.

3. The figure originally reported for inclusion in the Operations Report has been revised by SRS from ¥ 537,806,000,000 to ¥ 538,604,000,000.

- C. H. U. - - - - - - - - - -

Subject: Query by DA on Nonreceipt of Periodic Statistical Data

Note No.:	From: SRS	To: SGS Att: Col. Slocum	Date: 26 April 1949

1.

1. In compliance with your telephonic conversation of this date, please add the following to par. 1, CM SRS to Chief of Staff, subject as above, dated 25 April 1949:

"b. The Operations Report was changed from a daily to a twice-weekly basis with no change in the nature of information envisaged, as suggested by the DA in WCL 28085 dated 8 October 1947. It is, therefore, not abnormal to hold source data from one to three days for incorporation into a scheduled Operations Report. Special Operations Reports (see following subparagraph) are dispatched in the case of nonroutine developments of substance and urgency, or when so indicated by the Supreme Commander or Chief of Staff.

It is not believed that the subject routine, recurring statistical data warranted special transmission, either by application of the existing policy of this headquarters or by interpretation of WCL 28085 referred to in par. 1b.

"c. Supplemental Operations Reports submitted in 1948 and 1949, in accordance with the above, have been limited to the following:

1948

23 July	Subject: The Supreme Commander's message to the Prime Minister on the adequacy of the National Public Service Law.
17 August	Subject: The Supreme Commander's address at the ceremony inaugurating the Republic of Korea.
3 September	Subject: The Supreme Commander's statement on the third anniversary of Japan's surrender.
12 November	Subject: Judgment passed by the International Military Tribunal for the Far East on the 25 accused Class A war criminals.
24 November	Subject: The Supreme Commander's statement in review of the sentences of the 25 Japanese tried by the International Military Tribunal.

CHECK SHEET

265382

(Do not remove from attached sheets) Col. C. H. Unger, 28-8542

File No.: AG 319.25(25 Apr 49)SRS Subject: Query by Department of Army on Nonreceipt Periodic Statistical Data

Note No.:	From: SRS	To: Chief of Staff	Date: 25 April 1949.

1.

1. Statistical data referred to in WCL 34296 was included in the Operations Report submitted this date to Office of the Chief of Staff for approval. Source data for same was received from ESS during the afternoon of 21 April, too late for inclusion in the Operations Report of that date.

2. This periodic tabulation of economic statistics has been forwarded in its current form in Operations Reports since 9 July 1947 -- between the 9th and 17th of each month. In the 9 July 1947 Operations Report, SCAP advised that this data would be submitted monthly in the Operations Report; no commitment being made therein as to any specific date of submission.

3. SRS is in touch with ESS for the purpose of assuring the submission of source data at the earliest possible time.

UNCLASSIFIED
ROUTINE

30 May 1947

FROM: WAR (WDSCA RA)

TO : CINCFE

NR : WCL 21333

On basis informal discussions with Emerson Ross, Chief, Research and Statistics Div, ESS, subj: Transmittal of basic economic statistics in advance of publication in bulletin Japanese Economic Statistics, request monthly rad transmittal of fol data, based on most pressing needs of WD and civilian agencies:

Desireable to obtain data in single unclassified cable by middle of month fol month covered. Where not possible to dispatch last months figures, request latest statistics on this basis.

Fol items requested with sub-categories as presently published except where otherwise specified:

(1) Index of industrial production, including over-all index, mining, manufacturing, and major industrial groups listed under manufacturing.

(2) Fol production data: Coke, iron and steel, coal, coal distribution, copper, other nonferrous metals, railway rolling stock, motor vehicles (truck chassis only), textiles, caustic soda, chemical fertilizers, brick and roofing tile, cement, wheat flour, optical goods, electric energy generation (total, hydro, thermal), and manufactured gas.

(3) Fol transportation data: Railway freight dispatched (total only), waterborne cargo tonnage (total only).

(4) Food: Supply and distribution staple foods (stocks on hand beginning of month only).

(5) Family expenditures in Japanese cities (all cities only): Total, and food expenditures.

(6) Staple food purchased in Tokyo: (Caloric value and average price paid per sho).

(7) Average money wages in manufacturing industries (average daily wage only).

(8) Finance:

(a) Natl Dept outstanding.

(b) Bank of Japan assets and liabilities (securities, advances to Govt, loans and note issues).

(c) Postal savings deposits.

(d) All ordinary banks (securities, loans, deposits and borrowed money).

(e) All savings banks (deposits and loans). Considerable interest in obtaining, soonest possible, foreign trade data in terms of categories listed.

Note, however, nbr of notations re preliminary nature of statistics and non-availability of same. Request your recommendations for handling this problem. Please advise if procedure outlined above feasible.

Submission of Source Data

Col. C. H. Unger
28-5382

RSS

26 April 1949

1. Reference is made to telephone conversation this date between Mr. C. M. Hamm, RSS and Colonel C. H. Unger, SRS, in connection with WCL 34296 dated 24 April 1949 querying SCAP on the nonreceipt of the monthly economic statistical data in the Operations Report.

Attention is invited to copy of reply made by SRS to a memorandum from the Chief of Staff on the above subject. (Incl. 1).

2. For your information, of the 22 Operations Reports containing the subject monthly statistical data, 14 have been dispatched to the DA on or before the 11th of the month; the remaining were included in Operations Reports of 12 April, 13 May, 15 July, 15 November and 16 December 1948, and of 17 January, 14 March and 25 April 1949.

The subject source data for the 25 April Operations Report was in a check sheet dated 18 April, but not received by SRS until the afternoon of 21 April, too late for inclusion in Operations Report of that date. (Attention is invited to the two items on top of page 2 of Operations Report of 21 April: these late announcements of action taken by SCAP on 4 and 9 April, respectively, were contained in a check sheet dated 15 April and received by SRS on 18 April).

3. WCL 21333 of 30 May 1947 (Inclosure 2) indicates the desirability of obtaining the subject statistical data by the middle of the month following the month covered. This "near current" reporting has not been realized.

4. Any additional cooperation you may give in further speeding up the transmission of source data will further the purpose of the Operations Report and be appreciated.

File No: Subject: Clarification of Data Reported to DA

Note No.	From: SRS To: Chief of Staff Date: 9 April 1949
1	1. The following information is furnished in regard to the difference in number of ships in Japanese Merchant Fleet transferred to time charter, reported in PIO press release (inclosure 1) as "approximately 695," and in SCAP Operations Report ZA5593 (inclosure 2) as 631: a. PIO press release, dated 24 March 1949, stated "Approximately 695 ships in the Japanese Merchant Fleet . . . will be transferred . . . to a time charter basis, effective April 1 . . ." b. CTS, in submitting source material for the Operations Report on 2 April (inclosure 3) furnished information which indicated 631 ships were transferred, as was reported in 4 April Operations Report (inclosure 2). c. CTS reported that as of the present date, 697 ships have been transferred. This figure, or a further revision thereof if necessary, will be included in the Operations Report for 11 April 1949. 2. Staff action among SRS, AG and PIO resulted in assignment to PIO of action for answering DA's query in WCL 23592, 7 April 1949 (inclosure 4). Copy of the reply is furnished as inclosure 5 (Z-46172). 5 Incls: as indicated C. H. U.

CIVIL TRANSPORTATION SECTION
APO 500

2 April 1949

MEMORANDUM FOR: Chief, Statistics and Reports Section
General Headquarters
Supreme Commander for the Allied Powers
APO 500
ATTENTION: Mr. Hutchinson

SUBJECT: Operations Report

On 1 April 1949 all cargo vessels under compulsory bareboat charterage to the Japanese Government were released back to respective steamship owners and effective that date the vessels are employed on the time charterage basis by the Japanese Government agency known as the Civilian Merchant Marine Committee. By this action, ship owners for the first time since 1942, have the responsibility for manning, supplying and repairing their own ships. This was the last step in the implementation of SCAPIN 1931, dated 2 September 1948. Progressive phases of the approval contained in that directive were carried out as follows:

a. All vessels to which complete title was held by the Japanese Government and engaged in special services of the government have been returned to respective ministries having jurisdiction.

b. Privately owned special service vessels, such as salvage, ships, barges and tugs, have been returned to their respective private owners.

c. Fishing vessels have been returned to their respective private owners.
