DIRECTIONS FOR PRINTING THE FORMS, &c.

Should use heavy cap paper to print the forms on, and you must use your own judgment in regard to spacing the blank space I have left to be filled in the names, &c. The space generally is from $\frac{1}{2}$ to 3 inches, and space for territory is generally about two extra lines, to give room to fill in a number of counties at one time to one or more parties. Always best to have more space than you need, than not enough. Always use good plain type to look well. You will find the size of paper generally used for each form, &c., is at the bottom of each page or form.

HENRY MYERS. [SEAL.

John Johns is the party you are transacting the sale with. Henry Myers is the security or maker of the note. John Johns has Henry Myers to give him a note for the amount, and then John Johns transfers the note to you, which makes a straight sale, and same time indorses the note, and that is no patent right note and will stand law. This form alone is worth five times for what you paid for all, and then you need not sacrifice your paper or notes, always can get full value for them.
