

TRUSTEES' MEETING

CITY ENGINEER ORDERED TO PREPARE MAPS NEEDED IN RENUMBERING STREETS

The Board of Trustees met in regular session at the City Hall at 7:45 p. m. All members present at roll call.

The minutes of the last regular meeting and of the Adjourned Meeting were read and approved.

A communication was read from a "Committee of Taxpayers and Business Men" signed by S. C. Parker and four other citizens protesting against the manner in which the traffic ordinance is being enforced. There was also read in this connection, letters from two of the signers of this protest requesting that their names be withdrawn from the same. On motion of Trustee Muhleman, the communication was referred to the Committee of the Whole.

A communication was read from the California Traffic Officers' Association, San Mateo, California, stating that the traffic bureau heads of the Police Departments, the District Attorneys, Sheriffs, and Marshals' officers throughout the State of California, had met in Convention at Oakland, December 15th, 16th, 17th, last and perfected a permanent organization known as the California Traffic Officers' Association. The communication stated the aims of the organization and emphasized the desirability of all municipalities becoming members of the organization. On motion the communication was referred to the Committee of the Whole.

A communication was read from Maria L. Patterson, requesting a refund of taxes paid by a soldier's widow under misunderstanding. The communication was accompanied by tax receipts. On motion of Trustee Muhleman, the communication was referred to the City Manager to consult with the Tax Collector and report upon the same.

At 8:20 p. m. protests were called for in regard to the improvement of a portion of Milford Street. A protest filed on January 3rd signed by Lillian J. Empey and eight other property owners whose property is subject to assessment for the said improvement, was presented to the Board and read by the Clerk. On motion of Trustee Woodberry, the time for the hearing of protests against the acceptance of the work on improvement of a portion of Milford Street was set for Thursday, January 31st at 8:30 p. m.

The report of the Tax Collector for the week ending January 24th was presented and read, and on motion ordered to be received and filed.

Demands were referred to the Finance Committee.

The City Manager reported in regard to the renumbering of Tropico election precincts, reading a letter received from Supervisor Dodge in reply to one calling his attention to the matter, stating that the changes had been made as requested.

The City Manager reported as having written to the Manager of the Southern Pacific Railway in regard to the renaming of Tropico station; but no answer had been received.

The Chairman made a statement in regard to complaints received as to the confusion resulting from the consolidation of Tropico and Glendale, in regard to mail delivery. The City Clerk also stated that inquiries in regard to the matter had been made by telephone, and in such cases, citizens had been informed that the consolidation of the two cities had not as yet resulted in any action by the Post Office Department, and that at present mail should be addressed as heretofore. The matter was referred to the City Manager.

The City Manager stated in regard to renumbering the streets, that it is absolutely necessary that new maps of the enlarged city be prepared before satisfactory action can be taken.

The City Engineer stated that in order to furnish the maps required, it would be necessary to have new negotiations made, which would answer the purpose of the City Assessor as well as that of the Lot Cleaning Department and the furnishing of street numbers; that the probable cost of the work would be in the neighborhood of \$200. On motion of Trustee Woodberry, seconded by Trustee Grist, the City Engineer was instructed to prepare such maps.

The Manager of the Public Service Department stated that his statement made at the last meeting of the Board showing that there was \$260 in Ornamental Street Lighting Fund No. 9, which he requested be transferred to the Public Service Fund, was an error, and that the order for transfer should be that the sum of \$260 be transferred from Ornamental Street Lighting Fund No. 9 to the

NAPOLEON BONAPARTE

RESPONSIBLE FOR THE PRESENT WAR IN OPINION OF E. S. PARKER

A good audience, two excellent speakers, encouraging official reports, and delicious punch served at the close of the program combined to make a very enjoyable meeting of the monthly gathering of the Tropico Red Cross Auxiliary Thursday evening.

Mrs. Hattie Tiffany, the very efficient secretary of the organization, who resigned her office because she and Mr. Tiffany will soon move to Porterville, submitted a highly satisfactory report which showed that the Auxiliary has a membership of 304 and has collected about \$1000 since its organization, \$290 of which was yielded by the very successful Red Cross Bazaar.

The Auxiliary reluctantly accepted Mrs. Tiffany's resignation and proceeded to elect another very competent woman to take her place in Mrs. Wesley Bullis, whose acceptance of the office was received with great satisfaction by the members present.

Communications from C. Enoch, John Collage, and Charles E. White thanking the Auxiliary for comfort bags and other much appreciated equipment given by the Auxiliary, were read by Mrs. Tiffany who then announced committee chairmen as follows: Mrs. W. J. Hibbert, Hospital Garments; Mrs. Charles A. Barker, Knitting; Mrs. Leigh Bancroft, Purchasing; Mrs. William Harvey, Surgical Dressings.

The first speaker of the evening, Mr. Brown, from the Los Angeles Chapter, who spent two years in service with the Allied Armies in France, was then introduced.

He explained the intimacy of the relations of the Red Cross and the armies, how every bandage rolled, every compress made is put into the same packing case as the army medical supplies and is not in any way segregated.

We cannot realize, he said, what the war means yet because it has been so easy thus far, but that we will wake up, as England waked up, when her lists of casualties by the thousands began to be published.

He described a field hospital experience in the Alsatian Mountains Christmas eve when after singing Christmas Carols the Germans surprised the allied troops with a big bombardment and the wounded came in faster than the hospital unit could take care of them. Their supplies of anaesthetics ran short but they husbanded them, knowing a supply train was on the way. Then came word that the supply train had been blown up. For three days surgeons were forced to operate without anaesthetics and had to call in passing soldiers to hold down patients while they did it. At the end of the three days supplies from the American Red Cross reached them giving comfort to the suffering wounded. That was before the United States entered the war. He told the story how cruelly necessary the surgical supplies are at all times at the front.

He also told of the heroism of an English nurse in one of the base hospitals where surgeons were feverishly working to discover some remedy for the gangrene from which so many thousands of the wounded died at beginning of the war. One surgeon declared in her presence he believed if he only had a clean case to demonstrate upon he could prove that he had found the remedy. Without saying anything to the hospital corps Miss Davis stole from the laboratory a bottle of gangrene germs with which she inoculated herself and then when they had sufficiently developed presented herself as a subject of experimentation. Her hospital comrades were horrified at what she had done and she came near losing her life, but the remedy of which the surgeon had hoped so much justified his expectations, she is now perfectly well and continuing her hospital service, and the antidote for gangrene is being used by surgeons not only in the allied armies but in the German army as well. It is called the Quinine Drip.

E. S. Parker

The second speaker, E. S. Parker, who is a teacher in Manual Arts High but expects in the near future to be at the front with a Y.M.C.A. unit, spoke of the tremendous importance of the war contributions of women and of their influence on American soldiers who, he declared, could never degenerate to the things which have been done by the German army.

He charged Napoleon with being responsible for the militarism of Prussia and thus with being the

GERMANY WILLING FOR PEACE

HERTLING SAYS WILSON'S PEACE TERMS CONTAIN MANY POINTS THAT WOULD FORM BASIS OF NEGOTIATIONS

(Special Service to Glendale Evening News)
THE HAGUE, January 25.—Notwithstanding her strong military and political position Germany is willing for peace. President Wilson's message contains many points that are apt to form a base for peace negotiations. Premier Lloyd-George's conditions are absolutely unacceptable and are badly masked annexation terms. So said German Chancellor von Hertling in a speech to the Reichstag, Berlin dispatches declare.

CZERNIN SUGGESTS DISCUSSION

SAYS EXCHANGE OF VIEWS MIGHT FORM BASIS OF CONCILIATORY DISCUSSION BETWEEN U. S. AND AUSTRIA

(Special Service to Glendale Evening News)
COPENHAGEN, January 25.—Austria-Hungary and the United States practically agree not only on the great principles of the new arrangement of the world war but they hold views approaching each other on several concrete peace questions, declared Count Czernin, Hungarian foreign minister. His speech was a frank, open bid for a discussion of the differences between the two countries, looking to the possible adjustment.

"It is obvious," he said, "that an exchange of views might form the starting point of a conciliatory discussion between all the states not heretofore entering negotiations."

WANTS NEW TERMS

VON HERTLING SAYS THAT CERTAIN PRINCIPLES OF WILSON AND LLOYD-GEORGE SPEECHES ARE ACCEPTABLE

(Special Service to Glendale Evening News)
AMSTERDAM, January 25.—Hertling told the Reichstag that the speeches of Premier Lloyd-George and President Wilson contain certain acceptable principles to Germany. Enemy leaders should set forth new proposals, he said in his long-expected speech answering Wilson and Lloyd-George.

BAKER WANTS TO MAKE STATEMENT

WAR SECRETARY ASKS OPPORTUNITY TO GIVE SUMMARY OF HIS ACCOMPLISHMENTS TO MILITARY COMMITTEE

(Special Service to Glendale Evening News)
WASHINGTON, January 25.—Secretary Baker asked Senator Chamberlain formally today for an opportunity to make a statement to the Senate Military Committee giving a complete summary of what has been done by America since she entered the war.

Baker proposes in a big way to answer Chamberlain's charges against the war administration.

SURVEYOR-GENERAL OF WAR PURCHASES

SENATOR CHAMBERLAIN SAYS HE WILL STILL INSIST ON ESTABLISHMENT OF WAR CABINET

(Special Service to Glendale Evening News)
WASHINGTON, January 25.—Edward J. Stettinius of New York, J. P. Morgan's aid, has been appointed surveyor-general of all army purchases. This appointment makes him virtually munitions director in the war government.

Senator Chamberlain declares this will make no difference in his insistence on a superior war cabinet.

GORGAS RECOMMENDS SANITARY MEASURES

SURGEON GENERAL SAYS LACK OF SEWAGE FACILITIES AND OVERCROWDING CAUSE OF EPIDEMICS

(Special Service to Glendale Evening News)
WASHINGTON, January 25.—Lack of proper sewage facilities and overcrowding are responsible for the epidemics that have left their mark on the training camps, Surgeon General Gorgas told the Senate Military committee.

Gorgas said practically none of the National Guard camps have sewage facilities. He earnestly recommended that fully equipped hospitals and sanitary arrangements be provided. These, he said, had been disregarded by the war department.

ANOTHER AMERICAN SOLDIER KILLED

GEN. PERSHING REPORTS ANOTHER CASUALTY IN ACTION BETWEEN U. S. TROOPS AND GERMANS

(Special Service to Glendale Evening News)
WASHINGTON, January 25.—American forces on the French front have been in action on several occasions against the Germans, General Pershing reported this afternoon in cabling another casualty in action to the war department, Fred P. Thompson of Georgetown, Illinois. Four Americans were killed in fighting January 21 and 22 and action between the Americans and Germans was reported another day this week. No details are given. Clashes are frequent in patrol action and small raids.

METALLURGIC ENGINEER

NEPHEW OF MISS EVA DANIELS IS EXPERT FOR BIG MUNITION MAKING CONCERN

Miss Eva Daniels of 1424 West Colorado street, is in receipt of an interesting clipping from a leading Chicago daily headed:

"Graduates with Honor—Boston Student Engages in Mmunition Making."

The student referred to is Samuel Daniels, a nephew of Miss Eva Daniels, and the clipping, which is in the form of a telegram from Boston contains the following interesting statements:

"Two years ago Samuel Daniels of this city completed a four-year course in mining engineering at Harvard University and received the degree of Bachelor of Arts. The president and fellows were in a dilemma when Mr. Daniels registered for a supplementary course in Metallurgy, for they had voted to discontinue that course in one year to avoid competition with the Institute of Technology. President Lowell decided that Harvard was morally bound to give him the degree and it was arranged that one year be spent in laboratory work at the Institute of Technology.

"At the commencement exercises last spring Harvard University conferred upon him the degree of Master Metallurgic Engineer.

"The young artificer began his new career as Chief Metallurgic Expert in one of the largest concerns in the United States engaged in the making of exacting tools and dies and war munitions."

Miss Daniels states that he is but twenty-three years of age and that all indications point to a brilliant and successful career.

"BERLIN" BLOTTED OUT

Mr. and Mrs. McBrine and their daughter Miss McBrine, are spending the winter in Glendale at 210 Dayton Court. They come from Kitchener, Ontario, which is about eighty miles from Niagara. It is a city of approximately 20,000 inhabitants and a large manufacturing center with probably twenty factories where shoes, furniture, shirts and other articles are made, the power coming from the Niagara power plant.

The town was largely settled by Germans and until after the war broke out was known as "Berlin," but the prejudice against anything German ran so high, and the manufacturers there found it such a handicap to try to sell anything with the label "Made in Berlin," that the name was changed to Kitchener.

Mrs. and Miss McBrine are Red Cross workers and say that about 500 men have gone from Kitchener to the war front. The winter has been severe there and the big storm of January 12th left them with drifts fifteen feet deep. There is a shortage of coal but none of the factories have had to close.

DOCTORS WORKED HARD

Dr. William C. Mabry of Acacia avenue, who has been one of the examining physicians for Exemption Board No. 46 in Los Angeles, states that the examinations which are being made now are considerably more exacting than those under the original draft because the examiners have to get at a man's qualifications and determine what he is fitted for, whether he will be equal to general military service, or special military service, or if not that, what, as a last resort a man can be called upon to do. Also, the blanks have to be filled out in triplicate. The physicians are now working nights as well as days, Wednesday evening the doctor examined fourteen men. Under the requirements of the first examination he could have examined eighteen or twenty men in the same time.

INSPECTING SCHOOLS

E. E. Knepper, Assistant County Superintendent of Schools, was in Glendale today inspecting the High School in the forenoon and the Intermediate and other grade schools in the afternoon. He says he always puts the Glendale schools at the top of the list of schools which he visits and that it is always a pleasure to come to Glendale because of the excellent work the schools are doing and the fine spirit shown by teachers and pupils. He says he has been especially interested in the work they have done in supporting government activities like the Red Cross, the Y. M. C. A. Recreation Camps, the liberty bond and thrift stamp drives.

WEATHER FORECAST—Probably rain tonight and Saturday. Northerly winds.

SOLDIERS SEE SEATTLE

CAMP LEWIS MEN NOW ALLOWED TO VISIT WASHINGTON METROPOLIS

Three Glendale boys now at Camp Lewis, are members of Company B, Military Police, Joe Wilson, Murray Durham and Will Richardson.

Men stationed at Camp Lewis are now allowed to go to Seattle. Will Richardson writes from that city during his first visit there. He says: "Portland and Seattle are perfectly wonderful. All the time we have talked of Los Angeles, San Francisco and San Diego where there is a fine climate but here where you might say they are at a disadvantage due to weather conditions they have such a beautiful city of nice new large buildings all over the hills. Tacoma and Olympia of course are small and like an eastern city as far as buildings and streets are concerned."

"The Military Police gave a dance last Friday. We wanted to raise some money for our athletic fund. The gross receipts were \$1400, \$700 for Company B. We protect the public and they came to our aid and we had the finest kind of a time. I was on the dance committee so was down there all day. At noon I went for a row on American lake. The sun came out and it was so pretty."

"We were out this morning with the horses through the hills and this afternoon I was up in the hills cutting down trees. The ones we are using are between 25 and 30 years old so are subject to the draft. There is so much timber here and some of the trees are quite large."

"We always work in the rain. If we didn't we would always be indoors for it rains constantly and we have our raincoats with us all the time even on horseback."

"The men of February 15 who will be called will be up here by the first of April and those now here will have to be out so there will be good chances of my being on duty in France this summer. It is too bad there is such a demand for everything such as clothing, saddles, guns, etc., and that we didn't wake up sooner. Every man that goes across takes four extra guns with him."

O'NEILL-PRATHER WEDDING

A wedding of more than common interest to residents of Glendale was quietly celebrated Thursday evening at the Church of the Blessed Sacrament in Hollywood when Charles I. O'Neill, brother of Father O'Neill of this city—the officiating priest, was united in marriage to Miss Ione Bernice Prather, niece of Mr. and Mrs. George Washington Sisk of Hollywood. Only a few relatives and intimate friends witnessed the ceremony which was performed at 7:30 o'clock.

Jesse E. Smith of this city was the best man, and Miss Mabel Sanford, also of this city, attended the bride who was attired in a handsome tailored street costume of white serge with hat and shoes to match, and carried a shower bouquet of lilies of the valley and hyacinths. Miss Sanford was also in street costume and carried a bouquet of pink sweet peas.

Immediately following the ceremony the wedding party adjourned to the Hollywood Hotel where a table beautiful in all its appointments was spread and where a delicious wedding supper was served to the following guests: Mr. and Mrs. Charles I. O'Neill, Father O'Neill, Miss Mabel Sanford, Jesse E. Smith, Mr. and Mrs. George Washington Sisk, Mr. and Mrs. Frederick Warring, Mr. and Mrs. Ralph Huesman, Raymond Sisk and Miss Clark.

The groom is paying teller in the Hibernian Savings Bank of Los Angeles where the bride was also employed once upon a time and where they learned to know and care for each other. They are to go to house-keeping in a new apartment on Western avenue, Hollywood, where they will soon be at home to their friends.

SWEET POTATO PRODUCERS

The Vacant Lot Vegetable Producers have looked into the value of the Sweet Potato as a suitable crop for Glendale gardeners, and would recommend it as one of the best vegetables to grow. It has proven a success in Glendale. One resident on Patterson avenue raised a good crop on the parkway sufficient for her family needs and supplied her friends. One hill bore eleven good sized potatoes. A resident of Glendale, formerly Tropico, raised one and a half tons on a lot 50x100. In neither case was fertilizer used, not very much water either. If enough interest is manifested the Vacant Lot Vegetable Producers will contract for several thousand plants and supply the public at a very reasonable price. Also other plants and seeds.

TWO KINDS OF MEN
 Financially there are only two kinds of men in this world: those who figure on the principal of their money and those who deal with the interest on the principal.
 The one man throws away \$10 carelessly and says: "What's the difference? It's only a ten-dollar bill."
 The other holds on to that ten and says: "Ten dollars is the interest at 4 per cent on a capital of \$250."
 One man figures how much \$10 will buy; the other man on how much it would cost him to buy \$10.
 The only difference between financial success and financial failure is saving.

MEMORIES OF THE RUSSO-TURKISH WAR OF 1870
 Mr. F. Booth, the Coffee King, has a woven cap worn by his father when with the British staff in Constantinople in 1870 when the Russians got to Plevna within six miles from Constantinople and the British army said stop to the Russians who had set greedy eyes on Constantinople and the Dardanelles. Mr. Booth has also a Turkish fez presented to his father by the Sultan of Turkey. The woven cap is very similar to the ones now being knitted for our soldier boys in France.

BUSINESS NOVELTY

A new business is being established at 610 South Brand, Glendale, an innovation which has never been tried before. Two Williams are responsible for the novelty, viz. William Brunton and William Wolbert. It is called "Shoe Shine Service" and when interviewed in regard to methods, Mr. Brunton said:
 "We will call for and deliver shoes at the same prices ordinarily charged at stands. In other words, the delivery will be free. In connection with the business we will also establish a complete line of repair work which will also be included in the free delivery service. Yesterday was our first day and from the reception we have received from the people we have called upon we feel assured that ultimately our business will be a big success. We are making a house to house canvass to let everybody know what service they can expect, and as time progresses this service will be bettered until it will be possible, when the business is in full swing, for any patron to telephone Glendale 888 or Black 223 and have shoes sent for, shined and returned within an hour. This is a look into the future but from the way the business is starting out we feel sure this service can be obtained inside of the next three months.

Messrs. Brunton and Wolbert have both been connected with the moving picture industry for the past five years, but confident of the success of their enterprise, Mr. Brunton, who is acting as business manager for the concern, has left the picture field and will devote his entire time to the perfection of the system.

JAMES C. RIVES,

Mr. Babcock had offered to attempt to sell the \$17,000 issue of fire apparatus bonds at par; provided that he be given the exclusive right to do so for one week.

In regard to the conditions at Mr. Woodill's place in Verdugo Canyon, the City Attorney reported that he had looked into the matter in connection with the Health Officer and Manager of the Public Service Department, all of whom agreed that the conditions are bad from a sanitary standpoint. He read a copy of a letter which he had written to Mr. Woodill, to which a reply had been received, stating that the writer desired to comply with the City regulations in the matter, but had been assured by the mechanic constructing the cesspool in question, that it could not possibly contaminate the waters of the stream on account of the distance of its location from the water supply.

On motion of Trustee Grist, Ordinance No. 321, "An Ordinance of the Board of Trustees of the City of Glendale changing and establishing the grade on a portion of Broadway in said City" was taken up for third and final reading.

The Chairman submitted a written report of the meeting held on Monday evening last with citizens engaged in the automobile business and those operating service stations, and that in his opinion the same would be productive of good results, as some valuable suggestions had been made and steps taken to comply with them, and that altogether a spirit of harmony prevailed. Upon the report being read, it was, on motion of Trustee Grist ordered to be received and filed.

NAPOLEON BONAPARTE

(Continued from Page 1)

mary cause of this war. Napoleon, he reminded the audience, was once master of Prussia but became fascinated with Prussia's queen and because of her influence allowed Prussia to maintain an army of 40,000 men. The King of Prussia, taking advantage of the privilege trained to the highest point of efficiency 40,000 men, then released them and similarly trained 40,000 more men and so continued until he had a highly trained body of 300,000 troops with which he helped to bring about the defeat of Napoleon at Waterloo. That, Mr. Parker declared, was the beginning of Prussia's military policy and the foundation of the Kaiser's dream of world dominion. He charged the Kaiser with having caused the assassination of the Crown Prince of Austria and of throwing the blame upon Serbia for the purpose of precipitating this war.

He spoke of the Americans who are patriotic for defense but opposed to what they term a foreign war, but declared had we not come to the rescue of the allies America would have had to fight Germany on our own soil, and therefore it is a war for defense. He spoke of the attacks we may expect from German submarines and of the cry which will probably go up for the return of our fleet which is doing heroic service in keeping the German fleet bottled up and starving it out, and said the Kaiser's agents are doing everything they can to foment dissatisfaction among our people with the government's policy in the war, but that Americans must stand together and back up the president and his administration.

One hundred million dollars have been contributed by the allied nations to the Red Cross, he stated, and the allies have 25,000,000 men in the field. This means an average of \$4 to a man.

"Our suffering," he said, "has not begun. Think of France! There isn't a house in all France that has not felt the war. You see no bright colors on the streets of Paris, the gayest city in the world in normal times. Everybody is in working clothes. The English women are working too, at every kind of employment, even as veterinarians in the hospitals for wounded horses. With the spring drive we will begin to get the death lists and it will not be sixteen men at a time, but thousands. This war may last for three or four years. Germany has not begun to think of giving up."

Speaking of the Junior Red Cross, Mr. Parker said: "The children are going to do wonderful things. There are 8,000,000 children in the United States who have been called to service by the President. If each child contributes only 25 cents a year it will mean \$20,000,000 annually, and I predict that their contributions will equal a dollar apiece."

At the close of the program fruit punch and cake were served by pupils of the Eighth Grade of the Cerritos School, the proceeds to be devoted to the Junior Red Cross fund.

ONCE UPON A TIME

Last week a man came into my store. He had a package in his hand. He had been down to one of the cut-rate stores for it. I asked him how much he paid for it. He said, 34c. I told him I sold the same thing for 30c.

Another customer had obtained 12 pounds of potatoes all nicely done up in a package, sight unseen, for 25c. When she got them home, seven pounds were rotten, so she got 5 pounds, which just cost her 5c a pound.

When you see a store advertising eggs and butter for retail less than they cost wholesale, you can bet your bottom dollar there's a nigger in the wood pile.

Cold storage eggs and tub cooking butter are the bait.
