ESTABLISHED 1852

MEEHANS' NURSERIES

FALL OF 1891 JUNIA

WHOLESALE TRADE LIST

THOMAS MEEHAN & SONS

GERMANTOWN, PHILADELPHIA, PA.

NOTICE TO CUSTOMERS

In ordering stock sent by mail, add ten cents on every dollar for Deciduous Trees, and fifteen cents for Evergreens, to prepay postage. For Seeds, ten cents per pound.

Parties are requested to state the mode of conveyance by which they desire their trees forwarded. When no route is named we forward to the best of our judgment; but in no case do we assume any responsibility after the goods are shipped, unless for our own mistake

Shipping is direct from Germantown to any part of the world, by sea or land

Terms, in all cases, cash, on or before delivery to express or railroad agents, unless by special arrangement.

Five hundred, fifty, and five, will be furnished at the thousand, hundred, and ten rates respectively. Packing charged extra

Post Office Orders payable at Station G, Philad'a.

Our Retail Catalogue is complete and will be sent to all applicants.

Visitors are always welcome, and should take train at Ninth and Green Streets. Philadelphia, for Chestnut Hill, getting off at GORGAS LANE STATION;—or at Broad and Filbert Streets, getting out at CARPENTER STREET STATION. Trains run every half hour, both ways.

IMPORTED AND NATIVE FRUIT STOCKS AND SEEDS.

THE imported stocks will be ready for shipment FROM HERE about the first of the year, but the native grown seedlings can be shipped about the first of December. We re-pack all stocks here and make suitable provision to secure them from freezing while en route to our customers. Packing charged extra, but only sufficient to cover cost.

No less than 10,000 furnished at the 10,000 rates. Samples furnished after the first of January. The increased price over former years is on account of the 20% duty now existing on imported stocks and seeds.

FRUIT SEEDS.

Our fruit seeds are now so well known that they need no recommendation. We shall have a good supply of all kinds. Bags and boxes are charged for extra. While we exercise every care to have our seeds of the very best quality, we give no warranty either expressed or implied, nor do we hold ourselves responsible for any seeds that fail to germinate. Samples furnished upon application.

August 1, 1891.

Deciduous Trees.

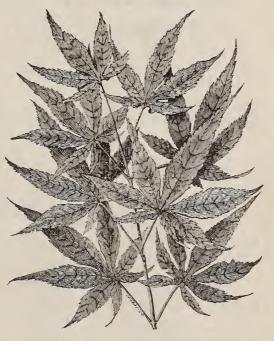

The letters (tr) signify that the stock has been once or more transplanted.

ACER POLYMORPHUM ATROPURPUREUM.

(Japan Blood-leaved Maple.)

We invite the attention of our customers to the very low prices at which we are offering these plants this year. We claim superiority over all others grown for them as we have them *all on their own roots*. They grow better and hold a better color than grafted plants, and the vitality is greater. We now make them one of our specialties, and grow a large supply yearly.

The color of the foliage is a rich wine, and the plant frequently makes a second growth in the fall, the color of which is darker than at midsummer.

CERCIDIPHYLLUM JAPONICUM.

The Cercidiphyllum we have found to be a very salable tree. The foliage is pretty, the dark green of the upper surface of the leaves and the silvery underside, with the dark red stalks, forming a nice contrast. It has an upright habit of growth without being stiff looking. It is a quick grower, perfectly hardy, and is easily transplanted.

Cercidiphyllum Japonicum. (5 years growth; 8 feet high.)

OAKS.

Oaks are our specialty, and we have the largest quantities of them of any nursery in the country.

At one time they had the reputation of being of slow growth. While this may be true of them in Europe it is not so here. In our nursery they grow just as fast as any other ordinary tree. Our sales of them increase every year. The White, Scarlet, Mossy Cup, Pin, Red and Black are particularly fine sorts.

Quercus palustris.	(Pin Oak.)	10 years growth ;	20 feet high.

MEEHANS' MONTHLY.

DEVOTED TO

GENERAL GARDENING AND WILD FLOWERS.

An octavo magazine of 16 pages, with a colored plate made by L. Prang & Co. of Boston, of a Wild Flower of some portion of the United States; with a chapter on wild flowers, and others on the more intelligent features of General Gardening. Illustrated with numerous wood-cuts. Issued monthly.

Conducted by THOMAS MEEHAN

Formerly Editor of the "Gardeners' Monthly" and of the "Native Flowers and Ferns of the U. S."

Assisted by THOMAS B., J. FRANK., and S. M. MEEHAN.

Price, \$2.00 per year, in advance. SAMPLE COPY FREE.

There was scarcely a nurseryman or prominent florist but what was a subscriber to the "GARDENERS' MONTHLY," and who read it regularly. Since the commencement of "MEEHANS' MONTHLY" a great many of the old subscribers have again found pleasure and profitable reading in the pages of the new magazine, and we have received numbers of letters from prominent men in the trade welcoming "MEEHANS' MONTHLY" as an old friend. While it is not the intention of the conductor to pursue exactly the same line or cover all the ground formerly occupied by the "GARDENERS' MONTHLY," yet he believes that by giving a broader scope to the magazine it will be of as much interest as its predecessor.

From a business point of view we expect the support of every intelligent Nurseryman and Florist, as it is clearly their interest that the number and enthusiasm of their customers should be increased, which is the great task the magazine has started out to accomplish.

Sample copies will be gladly sent on application.

As an Advertising Medium, it will be unexcelled by any similar publication for advertising goods at retail. Its subscribers are nearly all people having large gardens, and who are the class of people who buy. Though the magazine has been but recently started we have already secured some of the largest advertisers, most of them taking space by the year.

Correspondence relating to advertising should be sent to

A. S. TINGLEY, Advertising Manager, S. W. Cor. Third & Walnut Sts., Phila.
