

Netherlands and the World Exchange Platform is online

Dutch cultural heritage institutions have large collections on non-European countries such as Indonesia, Sri Lanka, Brazil, Ghana, Suriname, South Africa, and others. The Netherlands and the World Exchange Platform aims to make these collections available to the Wikimedia community.

Key properties are: (1) Dutch heritage institutions can post (parts of) their collections that are relevant to non-European countries; and (2) Wikimedia contributors can make requests for specific materials.

Interested? Visit www.netherlandsworld.nl, or ask any WMNL staff or board member!
