LETTER OF TRANSMITTAL.

OFFICE OF HOTEL COMMISSION,  
TOPEKA, KAN., August 8, 1916.

*To His Excellency, Arthur Capper, Governor of Kansas,  
Topeka, Kan.:*

SIR—I have the honor to present herewith the report of the State Hotel Commission from July 1, 1915, to July 1, 1916, including list of hotels, rooming houses, restaurants and apartment houses licensed for the calendar years 1915 and 1916, to August 8, 1916.

Very respectfully,

LEON A. CONGDON,  
*State Hotel Commissioner.*

(3)

G. G. H. 6/28/17 S. L.

# REPORT OF THE STATE HOTEL COMMISSION.

FISCAL YEAR ENDING JUNE 30, 1916.

---

IT IS gratifying to state that the Hotel Commission has completed the most prosperous year of its existence since its organization by the legislature of 1913. The law creating a separate department for the inspection of hotels, restaurants, rooming houses and apartment houses resulted from a joint demand from the United Commercial Travelers' Association and the Missouri, Kansas and Oklahoma Hotel Men's Association. The former hotel commissioner states that this demand was stimulated by the report of the State Board of Health for 1912, recommending that an "independent commission be established which will be charged with the enforcement of the hotel inspection law."

Doctor Chapin, of Providence, Rhode Island, who made a survey of the State Boards of Health in 1915, says, in his report in regard to hotel inspection: "A number of states, especially in the South and West, have enacted a 'hotel law.' These laws are very similar in nature, though some go much farther than others, and have more sanitary features. The administration of most of these laws is self-supporting, or partly so, as a license fee is charged. Among sanitary features touched on are the common towel, common glass for drinking, condition of toilets, freedom from vermin, cleanliness of bedding, length of sheets, cleansing, disinfection, screening, etc. Among the states which have such a statute are Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New York, North Dakota, South Dakota, Tennessee, Utah, Virginia, Washington, West Virginia and Wisconsin. The inspection is the duty of the health department only in Idaho, Iowa, Mississippi, Montana, New York, Tennessee, Virginia and Wisconsin. In other states the inspector is an independent official, or in the food department, as in Utah. In most states the law seems to be quite vigorously enforced, while in others, as Indiana, Illinois, Minnesota, Oklahoma and South Dakota, less attention is paid to it. Some of the state health officers think well of the law and believe that it is productive of much good; others think that its enforcement causes an undue amount of trouble. In Kansas the law was at first enforced by the health department, and when it was transferred to another department the former was well pleased."

There is no doubt but that the present hotel law of Kansas is a good law and should be left on the statute books. There are some minor changes to be made, but the enforcement of the act should remain as it is, independent of the health board, with the coöperation of the food and drug inspectors as deputy hotel inspectors.

The sanitation of our public hostelries and restaurants is of extreme importance. The ninety-nine-inch bed sheet may be ridiculed by the

ignorant, but one has to experience the old-time method of a dirty quilt or a sweaty comfort not properly protected from the face to fully realize what a necessity clean bedding is to the guest in a public lodging place. The comfort and safety of the guest is required under the Kansas hotel law. The strict enforcement of cleanliness in our restaurants and public eating houses is a necessity—not merely from the æsthetic point of view but from the health standpoint. Dirty dishes and silverware have been known to have carried diphtheria and syphilis to the innocent, because one can not regulate the customer of eating places. Hence, it is quite right that the public demand clean utensils in and by which food is served to them. Leading sanitarians agree that the common towel is a menace to the public health in our hotels, lodging houses and restaurants. The Kansas hotel law does not permit the use of such in these places.

We started a campaign against the so-called “blind room” with the result that over 200 such rooms were either closed or made to comply with the law prohibiting such fire traps.

The Department of Hotel Commission since July 1, 1915, has been placed on a firm business basis, as the financial statement will show. We have also installed a modern card index system of all places coming under the jurisdiction of the department.

The following table gives an idea of the inspections caused to be made by the present commissioner from July 1, 1915, to July 1, 1916:

#### INSPECTIONS.

Towns visited .....	684
Totels inspected .....	953
Rooming houses inspected.....	842
Restaurants inspected .....	2,325
Combined restaurant and rooms inspected.....	53
Combined restaurant and hotel inspected.....	33
Apartment houses (those under department).....	10
Total inspections .....	4,216
Written orders issued.....	1,399
Approximate oral orders by inspectors.....	1,000

#### LICENSES ISSUED.

All licenses terminate December 31 of the calendar year.

1914 Licenses issued by former commissioner.....	2,527
1915 Licenses issued by former commissioner.....	1,826
1914 Delinquent licenses issued by present commissioner (from July 1, 1915).....	1
1915 Delinquent licenses issued by present commissioner (from July 1, 1915).....	1,057
1916 Licenses issued by present commissioner (to August 8, 1916),	3,745

SANITARY, GENERAL FIRE PREVENTION AND FIRE-ESCAPE CONDITIONS

*Of the Inspections Caused to be Made by the Writer from July 1, 1915, to July 1, 1916.*

CLASSED.	Number inspected.	Per cent good.	Per cent good to fair.	Per cent fair.	Per cent poor.
Hotels.....	953	41.19	11.81	40.14	6.86
Rooming houses.....	699	60.40	8.67	23.92	7.01
Restaurants.....	2,325	50.42	12.38	31.54	5.66
Combined restaurant and rooms....	53	39.17	7.05	44.78	9.00
Combined restaurant and hotel....	33	41.12	6.67	31.67	21.54
Apartment house (those under department).....	10	90.00	.....	10.00	.....
College rooms that were not under law.....	143	99.30	.70	.....	.....
Averages and total inspections....	4,216	57.29	7.20	29.19	6.32

In addition to the above inspections, a circular letter was sent out in April, 1916, to 133 local fire chiefs in cities of 1000 inhabitants or above. This letter requested coöperation, and asked for the local chiefs to make inspections and report to the hotel commissioner. A number of them have done so, and 141 inspections have resulted from that source up to July 1, 1916.

It has been necessary to employ regular traveling hotel inspectors. Dr. Harold Wood was appointed as traveling hotel inspector, by me, March 23, 1916, but resigned April 7, 1916, to accept a position in West Virginia. Miss Mabel I. Getman was appointed April 24, 1916, to take the place left vacant by Doctor Wood, and is still in the employ of the Hotel Commission. Mr. E. R. Etnyre was appointed as traveling hotel inspector March 26, 1916, but his services were discontinued July 1, 1916. Mr. Fred O. Blaylock superseded Mr. Etnyre as traveling hotel inspector July 24, 1916. These appointments are and were only temporary, until such time as the State Civil Service Commission gives an examination to make an eligible list for this department.

In order to get an idea of the large amount of office work necessary to carry-on this department, I wish to invite your attention to the fact that over 7000 official notices in the shape of circular letters were sent out during the past fiscal year. Then the writing, recording, signing and sending out of over 4000 licenses is a task that takes office help. We have, at the present time, one clerk and one stenographer, both of whom are kept busy with the general routine work of the office. Thousands of letters, giving advice and answering requests, were personally dictated by the commissioner during the past fiscal year. The checking of written orders by the traveling inspectors is also a big task.

The sanitary condition of Kansas hotels, lodging houses and restaurants is above the average found in this country, taking into consideration the population and amount of travel in the state. Of course, we have not reached that time when every place is in first-class condition. In fact, the inspection of these classes of places means a regulation of methods. It is hard to educate a person who has been in the habit of doing things the wrong way. We must also take into consideration that especially

in the larger towns of the state there is need for cheap rooming houses and hotels for the poorer class of trade who can not afford to pay the higher prices demanded by the first-class hotel and lodging house. These cheaper hotels and rooming houses can not afford to give the service that is given by the better class of places. We will always have these classes of places, and it is extremely important that we have regulation of them. The mere fact that inspectors are on the job tends to produce better sanitation and better fire protection and prevention.

The following score card was devised by the present commissioner, and is used by the traveling inspectors in making inspections:

Date.....

STATE OF KANSAS

Telephone and telegraph service.....	32.81	
Total expenditures .....		4,044.92

Unexpended balance, August 1, 1916..... \$6,166.96

The present hotel commissioner, who also has charge of the State Division of Food and Drugs, hereby commends the traveling state food and drug inspectors for their aid and assistance in helping enforce the important law intrusted to the writer. These traveling state food and drug inspectors were made deputy hotel inspectors.

NEEDED LEGISLATION.

A law should be enacted by the coming legislature compelling all persons handling food products in the state to submit to a physical examination by a competent physician. Especially those handling and serving food in our restaurants and hotels should be required to take such a physical examination, to be paid for by hotel or restaurant proprietor. The original certificate covering such physical examination should be required by law to be filed with the state hotel commissioner, with the application for state license by such hotel and restaurant keeper, at least once annually, and as often as the state hotel commissioner thinks necessary, on recommendation from the State Health Department. The Pennsylvania Railroad at the present time requires physical examination of all employees serving food on its trains and in its restaurants. Is it not time that the state of Kansas, which has always been a leader in progressive legislation, enact such a law?

Respectfully submitted.

LEON A. CONGDON,  
State Hotel Commissioner.
