## WITNESSES WILL TELL AT INQUEST ABOUT SHOOTING

Coroner at Courtney Will Inquire Into Teed-Corbett Deaths

Alfred Corbett to be Given Preliminary Hearing on Saturday Next

Special to The Times  
Courtney, B.C., April 15—Evidence as to the shooting and killing of Spence Teed and Mrs. Alfred Corbett in the Corbett restaurant here Sunday will be taken at the resumed coroner's inquest here this evening, starting at 7 o'clock, and Alfred Corbett will appear for preliminary hearing before Magistrate W. A. W. Hames on a charge of murder next Saturday.

The prisoner continues to display as little emotion as he did when arrested. He shed a few tears when he was told that his wife was dead, but said never a word when he was charged with murder at the first hearing of the case before Magistrate Hames yesterday, when the hearing was adjourned till Saturday.

Examination of the building in which the shooting took place resulted in the recovery of one of the bullets which passed through Teed's body.

**TEED FUNERAL**  
The Teed funeral will be held on Wednesday afternoon, and will be a most impressive one. It will be attended in a body by the Native Sons, the Orangemen and the city officials, as Teed was a member of both the former organizations, and had just been appointed on the permanent staff of the city.

The murders were the first ever committed in the little town. A lawyer was murdered near Oyster River about six years ago, and in the sixties one of the first white men in the district was knocked on the head by an Indian, but otherwise the Courtney-Corbett district has been clear of crime.

**STATEMENT BY EYE-WITNESS**  
Edward Mainwaring, one of the eye-witnesses of the tragedy, made the following statement to the police: "About 3 o'clock (Sunday afternoon) I went into the Corbett restaurant through the store to the dining-room. I saw Mrs. Corbett had brown smudges on the floor, and saw broken dishes and food on the floor. Mrs. Corbett was spattered with food. I said, 'Where's Corbett?' I saw no one else. I asked, 'What's the trouble?' Mrs. Corbett replied, 'I finished with this man.' I went into the bedroom and saw Corbett sitting on a chair and spoke to him. He said 'We had a little dispute.'"

Immediately afterwards Teed and Joseph Orr came in. Teed went through the dining-room and said, 'What's the matter?' (Concluded on page 2.)

## TITANIC SERVICE WAS HELD AT SEA

Sinking of Liner With 1,634 Persons Twelve Years Ago Recalled

Halifax, April 15—Twelve years ago this morning, at 2 o'clock, the White Star liner Titanic, on her maiden voyage from Liverpool to New York, sank off the Grand Banks of Newfoundland and took 1,634 of her passengers and crew to their deaths. Some four hours previously she had struck an iceberg.

Yesterday afternoon at 2 o'clock a memorial service was held at or near the place of the sinking by the United States ice patrol cutter Modoc, one of the vessels which every Spring patrol the North Atlantic to give warning of the presence of icebergs and to prevent recurrence of the Titanic disaster. The service was participated in by all ships and shore stations within wireless communication of the Modoc and all ships in the vicinity were asked to keep their wireless silent for five minutes.

This is the second year a memorial service has been held by the United States ice patrol.

## GERMAN GOVERNMENT ACCEPTS EXPERTS' REPARATION PLAN AS A BASIS OF NEW NEGOTIATIONS

Berlin, April 15.—The German Cabinet to-day decided to accept the experts' report as a basis for negotiations and to inform the Reparations Commission to this effect. This is in line with the attitude taken by the conference at yesterday's meeting between the central Government and the Premier's of the federated states.

The Government has instructed Dr. Fischer of the German War Burden Commission in Paris to notify the Reparations Commission that Germany is prepared to resume negotiations on the basis of the experts' report. It makes no suggestion with respect to the manner in which the parleys are to be resumed, but it is assumed these will be initiated through oral discussions shortly after the Easter holidays.

**BRITISH ATTITUDE**  
London, April 15.—The first official expression of opinion of the reparations experts' report from Premier MacDonald came in the House of Commons to-day when he announced the Government had learned with greatest satisfaction of the unanimous signing of the experts' findings.

"The experts' reports constitute, in our opinion," said the Premier, "an unbiased and carefully-thought-out endeavor to aid the Government concerned in their task of reaching a settlement of this vital and long-standing problem."

**SUPPORT ENTIRE SCHEME**  
"His Majesty's Government," added the Prime Minister, "attach so much importance to the agreed recommendations which can be brought into immediate operation, that they are prepared for their part to support the scheme in its entirety, provided all the other parties concerned are willing to take the same course, and on April 15 they communicated that view to the Governments concerned, including the United States."

**UNITED SUPPORT**  
After the Prime Minister had made his announcement on the experts' report, Stanley Baldwin, his Conservative predecessor, declared the Premier would have the united support of the British people in his attitude.

**GERMAN CRITICISM**  
Paris, April 15.—The conclusions reached by the experts' reparations committee under Brigadier-General Dawson and the French economist, Arnold Rechberg, eminent German economist, in a letter to The Journal des Debats. He considers the idea of issuing debenture stock secured on Germany's railroads as fallacious, as no purchaser could be found for debentures which might fail to pay dividends.

He suggests that the French and British, or preferably the United States, guarantee the issues of such debentures. Unless this is done, he adds, the British Government might buy up all the securities, making Great Britain financially prominent in any future combination of international policy involving Germany.

## FRANK COMMENTS IN THE PRESS ON SOVIET DELEGATES

British Papers Not Concealing Their Opinions While Russians at Conference

Zinovieff Says Soviet Government Will Not be Hurried Into Agreement

London, April 15.—Probably no foreign delegation visiting Great Britain for a conference ever has had the opportunity of reading in the British press such outspoken comments on its Government and itself as the present group representing the Russian Soviet Government.

To a great extent it is admitted in the press that a trade settlement with Russia is desirable, but the circumstances of the Soviet revolution, the policy of the Moscow Government and the responsibility of leading Russian statesmen of the present day come in for condemnation in the majority of the comments, and the Russian visitors can read in the newspapers such intimations as the following from The Daily Telegraph:

"The most serious danger to the friendly relations on any conditions whatever with a government of such character, and having such a record as that seated at Moscow."

**WARNING APPROVED**  
In view of such feeling on the part of the newspaper commentators, it is not surprising Premier MacDonald's frank admission to the Russians yesterday against any attempts at propaganda which here meets with the strongest approval of the press.

The Daily News alone makes a plea on behalf of the visitors and roundly condemns the criticism of the Russians in yesterday's press as "grossly mischievous, unfair and patriotic. But even this paper commends Premier MacDonald's frankness as well as his cordiality toward the Soviet delegates."

**NOT IN A HURRY**  
Moscow, April 15 (Associated Press).—The Soviet Government has agreed to an agreement with Great Britain on the ground that the MacDonald Government might fall during the prolonged health of Premier Zinovieff, chairman of the executive committee of the Third International.

Substantial interest will be paid for the new Russian bonds, but Russia is not going to pay England any £200,000,000, because she considers England owes Russia more than that.

Contrary to the impression given in previous speeches, Zinovieff indicated he was not against attracting capital to Russia, provided the terms were not exorbitant. "The Soviet Government," he said, "was ready to talk definite concessions to any concessionaire. The Government would regard its obligations seriously, but it was not afraid of being overthrown."

### JUDY FIERS DEATH WAS ACCIDENTAL

#### Motor Fatality Before the Coroner's Jury; Mrs. Creffield Recovering

Accidental death was the verdict returned by a coroner's jury sitting inquest on the remains of the late Mrs. Charles Creffield, at the Sands Funeral Company premises this morning. Lt. Hector M. Turner, of the City Fire Department, told of seeing the accident take place. The car which caused the fatality overturned when swung suddenly to the right across the intersection at Fairfield and Linden Avenue at 15:45 o'clock on Sunday. The driver was thrown out and struck his head against the curb.

James W. Bell, the driver of a car approaching the intersection from the north on Linden Avenue, told of stopping his vehicle, expecting to see the Creffield car go by. Instead of that driver swung down Linden, while going at a high rate of speed. Witness thought the Creffield car was making twenty-five miles an hour at the intersection. Lt. Turner described it as traveling at a dangerously high rate of speed.

Both witnesses agreed that if the Creffield car had held its course on Fairfield the accident would not have taken place. It was a choice of actions, and the strong opinion taken, they said, the jury found a verdict of accidental death after a few moments' deliberation. Coroner E. C. Hart presided.

Mrs. Creffield, injured while riding in the front seat of the damaged car, was discharged from the St. Joseph's Hospital yesterday, and is on the road to recovery. The funeral will take place tomorrow morning at 11 o'clock from the Sands Funeral Chapel. Rev. F. G. Chapman will officiate and the remains will be laid to rest at Ross Bay Cemetery. The late soldier was thirty-five years of age. He was born in England and had been a resident of this city for the past fourteen years, residing at Macaulay Point. He is survived by his widow, one daughter aged six years, and two sons in England. He joined the B.C. Horse, in 1915, transferred to the 103rd Battalion in 1918 and later transferred to the 102nd with which company he served overseas. He was wounded in October, 1918 and discharged with the rank of sergeant.

### Motor Tourist Travel Begins

The hotels are beginning to report a distinct stimulus in the tourist trade. Points in Oregon and Washington, with one or two cars through from California. Much appears to depend on two factors: the measure of precaution which may be taken in connection with the foot and mouth disease in animals, and also the condition of the roads in northern California. On these vital points opinions differ as widely as official communications during the Great War, but at any rate the Anacortes ferry is bringing some additional business and more is expected when the Bellingham ferry goes on the route. The mobile tourist camp is ready there is no reason why there should not be sufficient business offering for the Curtis Point camp.

### ESQUIMALT TO SPEED PARK PLAN

#### War Memorial Park Will Cost \$5,000 This Year; Council Wants Action

An early start on the war memorial park, for which purpose \$5,000 has been laid aside in the estimates, was forecast at a meeting of the Esquimalt Council last night with Reeve Alexander Lockley in the chair. The council will seek a modification of plans, the present drawings entailing a cost slightly above that set aside in estimates. The clerk was instructed to get in touch with the draftsman and see what his fee would be for this work. The council expressed its desire to see the actual work under way at the first possible moment. The meeting decided to ask the war memorial committee in Esquimalt, a body specially formed for this purpose, to go ahead with their plans in connection with the raising of a public fund to finance the erection of the memorial monument proper. The monument will be situated in the north side of Esquimalt Road, directly in front of the wooden frame building serving as a municipal hall. The committee have first and second readings to the milk by-law, and the fire prevention by-law. Both follow closely city ordinances on the same subject, providing for the inspection of milk, licensing of vendors on the one hand, and adequate right of ways for fire fighting apparatus in the latter measure.

The provision, bitterly protested by Japan, is similar to the one already adopted by the House. The provision was adopted without a record vote. About twenty-five senators were on the floor when the amendment came to a vote.

Tokio, April 15.—Foreign Minister Matsui, in a statement to-day to United States correspondents, protested against exclusion of Japanese from the United States, declaring "we have cause for grave anxiety and we appeal against any action which can only wound us to some extent and bring little satisfaction to you."

"I want to appeal against final passage of the proposal designed to exclude Japanese," Baron Matsui said. "For many years and sometimes at a considerable sacrifice we Japanese, both through Government circles and privately, have made the utmost effort to develop friendship with the United States. We never gave up hope that this very clear and worthy policy would be successful, nor have we given up hope now."

"However, we have cause for grave anxiety. Therefore I make this appeal through the American press." The Senate's refusal to recognize the "Gentlemen's Agreement" has increased anxiety over the possible effects of Ambassador Hanabara's note, the phrase of which, warning of "grave consequences" which might follow Japanese exclusion, is admitted here to have been unfortunate. This evening the newspapers here gave little attention to any other event, printing scores of interviews with prominent persons expressing rising indignation.

### WITNESSES WILL TELL AT INQUIRY ABOUT SHOOTING

Corbett replied, "It's none of your business. You better get home and look after your own family." Corbett had moved into the store behind the counter. Ted went in and said, "You are not going to strike that woman while I'm here," and took his coat off. Corbett said, "This is my affair, not yours." He stooped down and reached under the counter, and when he stood up he had a revolver and began firing. If I had not ducked he would have shot me. "I tried to grab the gun after the shooting. Five shots were fired. Ted said nothing, but ran away holding his breast. When I tried to get the gun he broke it and threw it at me, and I said, 'You're crazy, man.' Corbett said, 'I'll show you sons-of-a-bitch what you are worth around here.' He went in the bedroom and put on his hat and coat. I said 'Where are you going, Corbett? You must be crazy.' He replied 'All right, Ted, go behind the counter and look after the store. I'll be all right.' He then went out. I then went to the Courtenay Hotel, where I saw Ted lying on the floor. I never realized he was so near death." Joseph Orr corroborated most of this statement. Harold Boomer, a jitney driver who had been in the restaurant looking for his father, told of the quarrel that preceded the shooting, but no statement was taken from him, as it was in most part a corroboration of Mainwaring's statement. Corbett formerly operated the Burleigh Grocery in Victoria, and then moved to Nanaimo, where he conducted a grocery store at the corner of Milton and Fitzwilliam Streets. He then disposed of his business and left for Courtenay, where he opened a general store and restaurant.

### CITY UNDECIDED ON GRANT FOR FLEET

#### But Decide That \$3,000 is Too Much to Spend

How much the City Council will vote for the entertainment of the officers and men of the Empire special service squadron visiting Victoria in June is undecided and will not be set until after the council receives an estimate of the proposed expenditure. Alderman Todd pressed for \$3,000 to be put in the estimates for this purpose at the estimates committee meeting last night, but even a proposal to allow \$1,500 did not pass. Alderman Todd was proceeding with a speech on the importance of the visit and proper entertainment for the sailors when they arrived at the capital of British Columbia. When he stated that the land owners had to foot the bill, Alderman Woodward promptly called upon him to "lay off that stuff; you know it is the bunk." "We could not do too much for these men during the war," Alderman Todd proceeded. "They saved the land for the landowners," said Alderman Woodward. The sum of \$50,000 was being asked from the Dominion Government for the entertainment of the sailors in Canada, and \$10,000 for their entertainment in British Columbia was presented. The Mayor thought it would be improbable that such an estimate would be produced. "I'll bet the Provincial Government gets one," remarked Alderman Sargent. Alderman Sargent's motion carried.

### BUILDINGS WILL BE CLOSED OVER LONG WEEK-END

**ARGUMENTS AGAINST PULPWOOD EMBARGO**

Ottawa, April 15.—A memorandum on behalf of the pulp and paper manufacturers of the United States summarizing the arguments against the proposed imposition of an embargo on exportation of pulpwood from Canada to the United States was filed with the Royal Commission which has been investigating for the last four months the whole question of an embargo and which is now completing here its report for presentation to the Government.

In summarizing the evidence presented before the commission the memorandum asserted that in the Dominion as a whole about ninety per cent. of the forest area is publicly owned or crown lands, while in the province of Quebec, from which most of the exports of pulpwood go to the United States, ninety-four per cent. of the forest area is crown lands.

Since in practically all the provinces there is a prohibition against the export of wood from crown lands, it is pointed out that any embargo would affect less than ten per cent. of the whole forest area, and what wood is now exported is only from lands owned by farmers and settlers or from lands owned in freehold by manufacturers in the United States.

Quebec, April 15.—Official information has been received here to the effect that Henri Gagnon, managing director of Le Soleil and director of the Canadian Press, had been honored by the French Government by being named an Officer of the French Academy.

It is the first time in the last ten years that such an honor has been extended to a Canadian.

Constantinople, April 15.—The French representative here has presented to the Turkish authorities a note protesting against the closure of thirty-six French schools attended by 12,900 pupils. The note states very grave consequences may result from this "violation of the Angora Agreement and the Treaty of Lausanne."

Mrs. Ulmonek, cut by the glass, ran screaming to the home of neighbors. After Ulmonek had frustrated efforts of neighbors to remove the baby, the police were called. By firing rifles and shotguns from windows of all sides of the house, Ulmonek kept the police at bay. He was captured after he had boldly stepped out in front of the house and had fired pointblank at an officer missing him by a hair.

**POLICEMEN HID DURING MEETING**

Henderson Tells British Commons About Incident at Communist Meeting

London, April 15 (Canadian Press Cable)—The incident of two police agents being caught spying on a Communist meeting here was brought up in the House of Commons at question time yesterday by George Lansbury, Labor member for Poplar, who wanted to know by whose authority the policemen had hidden under the platform at the meeting.

Arthur Henderson, Home Secretary replied that two policemen were found concealed at a meeting of Communists in the course of the policemen's duty, without his, Mrs. Henderson's, special instructions or approval.

It was a brief statement, but while it was being made the Home Secretary was greeted with laughter and opposition cheers, followed by cries of "Oh."

Mr. Henderson, continuing, said the Communist Party was not an illegal organization, but the policy of certain Communist leaders, if carried out would involve breaches of the law. A certain amount of vigilance on the part of the police therefore was necessary in the interests of the community. He would confer with the Commissioner of Police on this particular case. Mr. Henderson added. More opposition cheers followed.

Port Angeles, April 15.—A second message has been caught by Everett Sutton, fifteen years old, an amateur radio operator of this city, from the exploration vessel Bowdoin, in which Donald B. MacMillan and his party have been held in the ice north of Greenland since last summer.

"This is first time in a month we have worked with the outside world," the message read, according to Sutton. "Daylight here all the time now. All well. Thirty below zero."

Sutton worked with the Bowdoin for an hour and took seven messages to relatives and others, which were signed by Donald Mix, radio operator of the vessel, and D. MacMillan, commander.

A message was caught here April 3 by Herman Helgeson, sixteen, which said the Bowdoin had had no two-way communication for a month.

**DUTY ON AUTOS MAY BE ABOLISHED**

Manufacturers in Britain Agitated Over Report of Government's Intention

London, April 15.—Manufacturers and others concerned are much agitated over the reported intention of the Chancellor of the Exchequer, Philip Snowden, to abolish the Mc-Kenna duties on motorcars, bicycles, musical instruments, clocks and films when he introduces the budget in Parliament.

The rumor cannot be confirmed, but Godfrey Chesham, Secretary of the National Union of Manufacturers, said that as the Government had decided to abolish the second part of the Safeguarding of Industries Act, the manufacturers expected the McKenna duties would also disappear.

In the event, he declared, "the whole motor trade would collapse, owing to the huge importation of foreign made cars and accessories, while other industries would be profoundly affected."

**STINNES FUNERAL WAS HELD TO-DAY**

Berlin, April 15.—Coal miners of the Ruhr yesterday carried the body of Hugo Stinnes, German industrial leader, from his private villa in Gruenwald to the cemetery to the accompaniment of melodies played by their own band, while a miners' chorus alternately chanted dirges and sang Westphalian folk songs.

Two of the numbers played were the Wedding March from Lohengrin and the Rhineland Song, both of which were favorites of Stinnes. Simplicity marked the funeral service for the magnate. There were no floral tributes visible and the official flag of the Stinnes merchant marine fleet was the only insignia on the plain oak casket. The funeral congregation comprised a distinguished gathering of representatives of German industry and finance and numerous attendants from abroad.

TO INCLUDE CANADA?

SENATOR WILLIS of Ohio has a resolution in the United States Senate providing that the quota of immigrants admitted into the United States be cut from two to one per cent. and that it be made applicable to all countries in the Western hemisphere.

Under the quota restrictions which the Senate at Washington is considering—apart from the amendment of Senator Willis—the number of immigrants from any European country to be admitted to the United States is limited to two per cent. every year, of the number of people of that nationality who were in the republic at the time of the census of 1910.

The proposal of Senator Willis no doubt is aimed at the large number of people from Europe who use Canada as a means of gaining access to the United States. If it should be adopted the exodus of people from this Dominion to the States would diminish to a large extent.

These quota regulations are based upon Uncle Sam's fear that his melting pot would not be able to function under the load of immigrants mainly from European countries who would be pouring into his country if they were not in force.

HIGHLANDERS' EMIGRATION

AS far as emigration figures can tell the story, the Scottish Highlands, home of song and story, of warlike chieftains and romantic legends, are being seriously denuded of their hardy race by the New World.

The tendency of Scottish emigration is discussed in a new book, "British-American Relations" by J. D. Whelpley. The Scots who are emigrating all seem to prefer to go to the United States and with that persistence characteristic of the race they wait from month to month in hopes of getting under the legal quota.

The average density of population in Scotland is about 127 to the square mile as compared to about thirty-six in the United States. Of the less than 5,000,000 persons in Scotland, more than 2,000,000 are to be found in seven cities.

Western Canada and particularly the British Columbian coast have been fortunate in getting the Hebrideans, whose movement seems to approach in proportion the emigration of a whole race. If parts of the Highlands are doomed to become a deserted land—regrettable as it is sentimentally—Canada should see to it that she gains at least proportionately to the United States.

BRITISH DEBT REDUCTION

THE British Treasury made a new reduction of £3,620,000 in the floating debt of Great Britain at the beginning of March.

This reduction was made possible by the growing excess of revenue over expenditure which, according to official figures for the past eleven months of the present budget, amounted to £29,529,543, the position on March 1 being as follows:

Revenue Receipts £740,496,761; Expenditure 710,967,218; Surplus £29,529,543

Revenue to date is now £78,003,239 below the total estimate for the whole year, and should the present inflow be maintained, it is expected in well informed circles that the official estimates will be reached with a margin to the good.

BURDEN HEAVY, BUT BRITISH CREDIT SOLID

BRITAIN unlike some of her allies in the war, has kept her credit solid. But does the world realize what burdens the British people have imposed on themselves to do so?

Economists have set the total national wealth of Great Britain at \$100,000,000,000. The national debt is \$40,000,000,000. That is, her people have mortgaged two-fifths of their aggregate wealth. They have mortgaged it largely to themselves, of course, but none the less the mortgage is non-productive and dead-weight, much of it a dead loss representing what they shot away in the war to preserve the world's liberties.

Taxes in Britain are four to five times what they were before the war. The people are paying \$400 a year per family in taxes and have been paying at about that rate for ten years.

The cost of living is seventy-two per cent. higher than in 1913, and trade is twenty-five per cent. less. High taxation is largely responsible for both.

"The fact is that the British people are being taxed to a standstill, but they are too proud and independent to admit their fatigue," says an expert financier.

There is interest everywhere as to how the Labor Government will handle the taxation problem and apportion the burden in the budget, which will be brought down within the next two weeks.

Recent investigations lead to the belief that a man does not necessarily become famous because he gets his name on the front page.

With the news from Vancouver that Mr. Justice Morrison has found it necessary to reprimand lawyers for deserting clients when their money has run out, comes the announcement from Atlanta, Ga., that the lawyers there are taking up the cause of the penniless client by organizing a legal aid society to defend prisoners unable to employ counsel.

The bankers and industrialists of Germany are the ones who will have most to say about the coming settlement following the reparations committee report, the New York Times says. It is their property—most of it—which will be mortgaged. Certainly they will have difficulty in persuading the Nationalists to accept. But it is so clearly to their interests to do so, and interest plays such a part in guiding German policy, that it is hard to believe they will do more than wait before the world and finally submit.

THE TIME OF NEW TALK

UP to this year Mowgli had always delighted in the turn of the seasons. It was he who generally saw the first Eys-of-the-Spring deep down among the grasses, and the first bank of Spring-clouds, which are like nothing else in the Jungle. His voice could be heard in all sorts of wet, star-lighted, blossoming places, helping the big frogs through their choruses, or mocking the little up-side-down owls that hoot through the white nights. Like all his people, Spring was the season he chose for his fittings—moving, for the mere joy of rushing through the warm air, thirty, forty, or fifty miles between twilight and the morning star, and coming back panting and laughing and wreathed with strange flowers. The four did not follow him on these wild rindings of the Jungle, but went off to sing songs with other voices. The Jungle People are very busy in the Spring, and Mowgli could hear them grunting and screaming and whistling according to their kind. Their voices then are different from their voices at other times of the year, and that is one of the reasons why Spring in the Jungle is called the Time of New Talk—Rudyard Kipling.

Upon your rapier LAY my pinnacled dreams, But you spoke not; your eye Wags as cold as the beams Of the moon. I listened; no word Did you utter to me, But the river I heard, As it rushed to the sea With a tune. You murmured: the ice— On the mountains above, Was as cold as your love Was for me. You left me: I cried To your vanishing tread, But you heard not; there stiched But the cold wild instead— Through a tree. —Eric Foster.

Doctor Frank Crane on "The Defense of Riches"

(Copyright)

THERE is no greater mistake in the world than to denounce capital as something evil in itself.

Capital is merely a tool which can be used for good or ill. It is like an automobile, which can be employed in robberies or take crippled children for an airing.

Failure to recognize this is the trouble with Russia. The Bolshevik tried to wipe out capitalism and came near wiping out civilization. They saved off the branch which supported them.

Statistics prove that there is a tendency for population to increase faster than the means of sustenance. Capital is the world's greatest invention, as it makes possible the support of an immense population which could not exist without utilizing its surplus.

It is just as easy to starve in the United States as it is in Russia or China. The reason our people are going to motion pictures and riding in automobiles, instead of starving to death, is because we have the sense to use capital instead of destroying it, as in Russia, or ignoring it, as in China.

Rich men are scolded and damned because they waste so much. As a matter of record, rich men are more frugal than poor men. A rich man can only eat a limited quantity of food. It is the employee who yearns for the silk shirt, while the boss's idea of real luxury is to get into a flannel shirt and an old felt hat. The reason that the Bolsheviks depict indulgence in becoming their themselves would do so if they had the chance.

A test of intelligence is whether you can think in terms of percentages. The percentage of a millionaire's resources spent on personal indulgence is remarkably low.

The deepest instinct of the rich man is not to squander but to conserve. It is the man who spends all he earns who must always work for other people.

Capital is like steam; before it can do work it must be concentrated. Nineteen percent of twenty waste wealth. The twentieth person automatically becomes well off.

If all capitalists were stripped of their resources and the money were divided, the wage workers of the country might enjoy an increase for a week or so, but the next step would be universal poverty.

Here, at least, is food for discussion.

French Canada's Charter

Quebec Act of 1775 Guarantees French-Speaking People Their Rights and Removal of Danger of Absorption by English-Speaking Elements

THE Quebec Act passed by the British Parliament in 1774 is the charter of the liberties of the French-Canadians. It removed for all time the questions of the French-Canadian nationality, French-Canadian absorption by Englishness, and the extinction of the French language and customs. It founded as on a rock the racial and religious rights of the recently acquired French citizens of the British Empire. Purposely planned to win the support of the French-Canadians it was the religious provisions of the Act, notwithstanding the return of the hated tithes, which most successfully accomplished this end.

Yet the measure regarding the religion of the habitant was not only defensible, but the sole just and equitable course possible. From the Conquest the church had been tolerated. It was now given legal standing, and the habitant was happy that its position was secure. The lending of civil authority to the collection of tithes may have been superfluous and an over-zealous bid on the part of the British Government for the loyalty of the clergy, but in the main the act carried out the practice of the two first Governors, General Murray and Sir Guy Carleton.

THE Protestants in the worship if not in the prejudice, were amply protected, too. On April 15, 1775, The Earl of Dartmouth wrote on behalf of the British Cabinet to Sir Guy Carleton, the Governor, explanatory instructions regarding the act, especially regarding his supremacy of the king. "All appeals to or correspondence with any foreign ecclesiastical jurisdiction of what nature or kind soever are absolutely forbidden under very severe penalties."

Altogether, the Protestant was sufficiently protected by the law; but it was not protection the American colonists resident in Montreal and Quebec desired so much as a dominant position. They were offended, as were their brethren in the colonies to the south, that the Protestant heel was not strongly placed upon the neck of Rome. They would have had the British Government, which they, close at hand, could in no manner have done themselves. Yet they and their brethren of similar kidney in the colonies southward would have been quick to take advantage of the disaffection produced by any such oppression on the part of the British Government to rally the inhabitants against the Motherland. Indeed, this very year, 1775, the rebel Congress at Philadelphia, angry at the British Government for stealing a march on it by securing the French their religion and thus removing the greatest cause they might have for dissatisfaction, declared in its address to the Canadian people, which was intended to rouse them to make common cause with the rebel party in the colonies, that the Government of Great Britain should receive no credit for securing them their freedom of worship, for God himself had given them that.

On the whole the French-Canadians were pleased with the Quebec Act. They were relieved to find their church safe, but they were not pleased that the church was given the legal power to enforce payment of the tithes for ever. Since the Conquest they had more or less shirked this burden with impunity. However, that was a comparatively minor annoyance beside their joy at the security of the church and the settlement of the question of their laws and language in their favor.

### WOMEN'S COUNCIL LEARNS OF SAANICH HEALTH POLICY

#### Mrs. C. A. Lucas Graphically Describes Splendid Public Health Programme

The enviable record held by Saanich as the leader in public health work in Canada was readily understood by the Local Council of Women yesterday afternoon when Mrs. C. A. Lucas, superintendent of the War Memorial Health Centre, graphically described its public health programme. A series of excellent slides showed the broad nature of this work which is based upon the belief that a child which is born into the world with a heritage of health should be able to keep that heritage unblemished.

#### CHILD WELFARE

Mrs. Lucas told of child welfare work in its various stages. Care of the expectant mother, the care of the child before birth, from birth until two years old, the little ones were carefully watched by the V. O. nurses and any signs of incipient weakness were immediately dealt with, the pre-school age from two to six years was also given special attention, while children attending school figured prominently on the public health programme. In the schools the children were weighed and measured at regular intervals and the first signs of loss of weight was noted and the child examined by a physician.

The various tonal and well-baby clinics had proved a popular innovation, many a child being soothed much suffering in later life through these preventive measures in childhood. Mrs. Lucas also spoke of the excellent results accruing from the establishment of the Little Mothers' League in the schools and the home nursing classes for women, paying warm tribute to the splendid co-operation which the Women's Institute had extended in these undertakings.

#### CONFERENCE REVIEWED

Mrs. H. E. Young gave a comprehensive survey of the recent conference on domestic science which had brought together expert domestic economists from Seattle, Vancouver, Nanaimo, Duncan as well as Victoria. Mrs. Y. S. MacLachlan who has recently returned from a trip to the interior brought a message of greeting from various institutes which she visited in her tour. The council unanimously endorsed the resolution of the Great War Veterans Association asking for the establishment of the pension scale. The meeting passed a vote of thanks to the Ladies' Musical Club for its generosity in arranging the recent concert in aid of council funds.

#### LIBERAL DANCE

Ward Three Liberals will hold a dance and social in the Liberal headquarters, Government and Broughton Streets, on Wednesday night at 8 o'clock. Zala's orchestra will supply the music for dancing.

The wedding is to take place in Grace Cathedral, San Francisco, and the honeymoon will be spent in Victoria and vicinity.

Miss Tully of the Balmoral Hotel was completely taken by surprise last night when many members of the Women's Progressive, Conscravative Club and their friends assembled at the hotel to welcome her home from a trip to Ontario. Bridge and 500 formed part of the evening's amusement, while a delightful part of the entertainment consisted of songs rendered by Mrs. MacDonagh, Mrs. Stubbs, Mrs. L. M. Dr. Henry Wace, D.D. of the Deanery, Canterbury, Dean of Canterbury since 1903, formerly Chaplain, and Preacher at Lincoln's Inn, Professor of Ecclesiastical History at King's College, London, and Principal of the College, will be the lecturer at the St. Michael's, Cornhill, author of several theological works, and for some years a leader-writer on The Times, who died on January 8, aged eighty-seven, left an estate of the gross value of £22,229, with net personality nil. The testator left:

To his son, Henry Charles Wace, the testimonial plate presented to him by the Benchers of Lincoln's Inn (with the request that it should be held in the Wace family with the Wadburst Estate) and the silver inkstand presented to him by the students of King's College, London, and the silver bowl and candlesticks presented to him by the committee and staff of King's College, London.

By far the most interesting of the series of dramalogues this season was the final one held yesterday afternoon at Government House through the kindness of Mrs. Macdonald. The ballroom lent itself admirably to the successful presentation of the various numbers of the artistically arranged programme. The part of the first play, "The Peacemaker," were read by Mr. and Mrs. George Bushby, Miss Dorothy Stuart-Robertson, Mr. Alex. McPhillips and Miss Ethel Bale in a very finished manner. This was followed by a brief account of the Japanese earthquake by Mr. E. Babo-Vivient, who experienced all of the horrors of which he spoke. A group of songs by Mrs. Tyrwit-Drake, accompanied by Mrs. Hebdon Gillespie, met with warm applause. Two recitations by Mr. Bullock-Webster and solo dances by Miss Helen Macdonald, most gracefully executed and accompanied by Mrs. A. J. Gibson, were followed by "Joint Owners Spain," cleverly acted by Mrs. Boldeiro, Mrs. Hayward, Mrs. Barker and Miss Hope Böhall; a "Chinese costume" scene from "The Adams Beck's novel," "The Key of Dreams," was daintily given by Miss Ella Pottinger, and Miss Barbara Gibson. Miss Hall played the violin-obligato for this number. Mrs. Harry Briggs sang charmingly a group of songs, accompanied by Mrs. Clifford Warr. Mrs. Briggs gave also Douglas Mace's "Spring's Triumph," words by Frances Ebbs-Conover. The last number on the programme was a new farce by Van Tassel Sutphen, read by Mrs. Guy Goddard, Captain Thorpe-Douglas, E. N. Miss Agnes Charles, Miss Madge McGregor, Miss Nora Hunter and Mr. Bullock-Webster, and all the parts were splendidly sustained.

### MIRROR GOWN WAS STARTLING FASHION

#### Paris Dazzled by Scintillating Gown Worn by New York Woman

Paris, April 15.—Described as the "most startling fashion innovation since the war," mirror gowns appeared this afternoon at Longchamps, where the paddock was packed with stylish women eager to show off their new Spring gowns.

When Mrs. Lionel Gaylord of New York stepped into the paddock there was literally a gasp of astonishment, for from her dress myriads of darting sunbeams went flashing all over the enclosure.

Closer investigation revealed that the dress was embroidered with hundreds of tiny mirrors, varying in size from one-tenth of an inch square around the hem to two inches in diameter directly in the centre of the corsage.

EXPLAINS ITS USE  
"This," Mrs. Gaylord explained, "is so that my friends can see themselves when they are talking to me and will not have to hunt for a pocket mirror when they want to powder their noses."

The effect of the gown was literally breathtaking as well as beautiful. The dressmaker responsible for the creation announced that all his evening gowns hereafter will be mirror embroidered.

Another interesting innovation marking to-day's fashion parade was the "luck hat," a brimless toque in which is sewed the wearer's own "luck symbol," such as swastikas, signs of the Zodiac, etc.

The cloudless weather brought the first really smart crowd of the season, the presence of the King and Queen of Rumania, escorted by guards in full uniform adding a vivid touch of color.

#### C. P. R. SOCIAL CLUB

All arrangements are made for the final ball of the season to be held on Thursday May 1. Ozard's augmented orchestra has been engaged and a buffet supper will be served during the evening. Tickets will be on sale at the small dance on Thursday evening and in the Canadian Pacific Railway ticket office, Government Street; wharf ticket office and from members of the committee. As only a limited number of tickets are to be sold, the public is advised to make reservations early. A military 500 game will take place in the Empress Hotel under the auspices of the C. P. R. social club on Wednesday evening, commencing at 8:30 sharp. Blood scrips will be given as prizes, and all players are advised to be on time.

#### WHERE THE BEST TEA GROWS

The tea plant flourishes best on the well-drained side of a mountain, in a country where there is plenty of moisture and a warm sun. Certain parts of Ceylon, India and Java are ideal for the growing of delicious tea, hence from these countries come the finest varieties. SALADA is a blend of the choicest qualities grown in these three most famous tea-growing countries in the world.

No lustre lost—  
as new as ever

How pretty those beige silk stockings were when you first saw them. It seems a shame that they must be washed, risking their lovely sheen.

You can safely trust them to Lux. The instant soapy Lux suds gently pass through and through the delicate silken weave, dissolving all dirt, dust or perspiration that might possibly harm the threads, and restoring the stockings to their original charm.

After a Lux bath, the finest hosiery will have its original loveliness, to lend charm to dainty ankles.

### OFFICERS ELECTED FOR ENSUING YEAR BY CITY RETAILERS

#### Retail Merchants' Association Hears Speakers at Annual Gathering

H. O. Kirkham, retiring president of the Retail Merchants' Association of Victoria, last night at the Dominion Hotel addressed the annual meeting of the organization. He stated that the organization were in a far better condition than they were previous to his term of presidency, and also that the merchants of the city were beginning to realize the importance of organization and co-operation. The value of the Retail Merchants' Association had been proved beyond any doubt, he argued, through the accomplishments of reforms in the luxury, personal property and sales taxes. The results of the recent campaign to raise the membership of the association had been exceedingly gratifying, he continued, and he pointed to the awakening of the retailers to the necessity of co-operation in dealing with the problem which he mentioned, from time to time, as promising indications for the future.

If the members were to stand behind the association, as they should do, and might be expected to do in the future, Mr. Kirkham said, there was no reason why Victoria could not have one of the strongest organizations in the Province.

Mr. Kirkham was emphatic in his praise of the work done by conventions of the R.M.A. in the past, and pointed to the great good accomplished through the meeting of retailers from all parts of the Province at Esquimalt in 1923. The annual convention will be held at Merritt this year, he stated, and he urged all those who possibly could manage it, to attend that gathering.

Mr. Kirkham touched upon phases of work undertaken by the provincial and Dominion bodies of the R.M.A., and urged the members of the Victoria branch to take note of the good accomplished by these bigger units.

CORNWELL IS PRESIDENT An election of officers for 1924 was held during the evening and the following results were forthcoming: President, A. E. G. Cornwell; vice-president, R. R. Taylor; second vice-

president, W. J. Barker; honorary secretary, J. M. Carter; treasurer, J. H. Fletcher.

W. F. Norris of Nanaimo, associated with the R.M.A. in that city, spoke of the gathering upon the system of credit rating which has been adopted in his home town. He stated that the system had met with unqualified success, and that the saying was something which the merchants all testified was both satisfactory and gratifying. The rate charged for the collection of bills was ten per cent on sums over \$10, whereas, private collectors often charged as much as sixty per cent.

Horace E. Sykes, fire prevention engineer of the Northwest Mutual Fire Assurance Company, Seattle, spoke of the fire hazards which the merchant faced, and the methods to be adopted in preventing loss in this way. His lecture was illustrated with lantern slides. A great proportion of the loss yearly sustained through fire was preventable, said the speaker, and he gave the principal causes of fire as being defective heating appliances, defective electric light wiring, cigarettes, matches and poor housekeeping.

Secretary Wallis reported that the finances of the association were in excellent condition, and that, if some understanding could be arrived at concerning fees, that the Esquimalt branch of the R.M.A. could probably be prevailed upon to amalgamate with Victoria.

W. H. Schnell of Seattle stated that co-operation and organization were two of the most valuable assets of any body of men, and that effort fostered by these principles was far in advance of individual enterprises. To simplify matters, he said, it would be a fine thing for the organization, if the members signified their desires to their officers in what they thought the association should try to accomplish. Thus, men could trade their opinions, and benefit by one another's experience and knowledge.

WILL HAVE QUEEN The association definitely decided to place a candidate in the May Queen contest this year, and steps will be taken to choose someone to represent the body immediately. The competition for honors will be the keener for the candidate, and the merchants are sure to prove strong supporters.

A plan to install a registration bureau for unemployed clerks will shortly be considered by the executive of the association, for the purpose of aiding the employment situation, and at the same time making the hiring of trained men and women by business men in Victoria. The suggestion met with decided approval of the meeting.

### CITY REFUSES TO PROVIDE SAANICH SEWER CONNECTION

Realize Epidemic Danger But Would Force Municipality's Hand Turn Down Rental Request of Twelve Residents

No further sewer connection with Saanich will be made until that municipality settles its \$40,000 claim which the city of Victoria holds against its portion of the cost of installing the northwest sewer. Alderman Sangster advocated at last night's council meeting. Twelve applications received last night for sewer connection were turned down, although the aldermen expressed themselves as fully alive to the danger of an epidemic, the germs of which would know no boundary line between Victoria and Saanich.

Miss M. Lucas of Tomlie Avenue in a letter to the council said there were twelve residents in that section who would like to make property connections with the city sewer. Unfortunately it appears to be impossible to secure a majority support from Saanich in favor of sewerage at this time.

The health of our community is menaced by present conditions," said the writer, "as there are practically no outlets for septic tanks. Connection with the city sewer on a rental basis pending the installation of a sewerage in Saanich was sought."

Alderman Sangster moved and Alderman Sargent seconded that the request be refused, but Alderman Woodward protested that it was an opportunity to secure revenue, and did not jeopardize the city's chance of recovering its \$40,000. They had heard a lot about the need of revenue, but now they were proposing to turn away revenue.

Alderman Todd spoke of the danger of an epidemic. Something should be done so that Saanich would settle this matter, and he suggested that the Provincial Health authorities should be asked to intervene. He also suggested the Mayor have a talk with Reeve Macnicol on the matter.

THIS MAN TELLS YOU HOW TO KEEP FIT! Dear River, N.S.—"My back was so bad I could hardly work. I was always tired out and had no ambition; was nervous and dizzy, and everything seemed to worry me. I also had terrible pains in my right side. I felt badly for about eighteen months, and could not do my work as it should have been done. I tried several doctors, and also bought about \$25.00 worth of put up medicines, but I found no relief until I took Doctor Pierce's Anuric (anti-uric-acid) Tablets. I have taken two bottles of the Discovery, and four bottles of the Anuric Tablets, and can say that I feel as well as I have felt for the last ten years. I advise any sufferer to give Dr. Pierce's remedies a fair trial. I cannot recommend them too highly for what they have done for me and shall be pleased to answer any one who cares to write me."—Norman E. Trimmer, R.F. 1.

**EXPECT DECISION FROM SEATTLE ON FERRY SLIP SOON**

Six Tenders Sent in; Announcement Will Be Made To-morrow

Work on the Puget Sound Navigation Company's ferry slip in the inner harbor will in all probability be started this week. Six tenders were sent in by local contractors and a decision is expected to-morrow. In fact local representatives had expected to hear from the Seattle office this morning.

As soon as the contract is announced work will be rushed right ahead so to complete the slip in time for the inaugural trip of the ferry boat Olympic, formerly known as the Sitka.

The Olympic is at present in drydock being reconditioned for the run and will be ready to make its first trip from Port Angeles to Victoria in June. A schedule of two trips a day will be arranged to commence the service, and as business increases the schedule will be changed accordingly. Over fifty cars will be accommodated aboard the vessel.

Dear Sir or Madam—  
The Red Cross Workshop is a local industry established for the purpose of providing employment to disabled soldiers, who, through their war service, are now unable to earn their own living in the open labor market.  
At present we are employing thirty disabled men and it takes a lot of work to keep them steadily engaged.  
May we take this means of soliciting your support? We supply the shop. We look to you to supply the work. When you give us an order you not only assist in the employment of disabled soldiers who have sacrificed so much for you, but you also receive full value for your money.  
Very respectfully yours,  
THE RED CROSS WORKSHOP.

Mr. Woodworth's acquaintance with Victoria dates back many years, and he notes the many attractions added from year to year. At St. Paul, where his headquarters are now located, the inquiries from tourists coming west are much greater than in the past. The season of 1923, Mr. Woodworth states.

**"Exhausted Nerves and Palpitating Heart"**

Mrs. L. Whiting, 202 King St. West, Brockville, Ont., writes:

"I took very sick with my nerves and stomach, and seemed to be all run down. At times my heart would flutter and palpitate so and I would take such weak spells in the pit of my stomach that I sometimes thought I would never get better. I tried several doctors, but it seemed nothing they gave me helped. I had almost given up hope when a friend advised the use of Dr. Chase's Nerve Food. I tried it, and can say it certainly has done wonders for me. I did not stop until I had taken twenty-five boxes."

The electric light and power service of the city from Jordan River was interrupted shortly after 9 o'clock this morning by a split in a cable on the high tension line at Scarf, about thirty miles west of the city.

The actual work of repairing only took twenty minutes, and meanwhile the Greenwood Bay auxiliary plant was brought into service. The break brought home the dependency of the city on modern lighting and power facilities, and also the desirability of the second transmission line, which is now building from Jordan River to Brentwood.

The cantata was written by R. Deane Shure, a composer of our own day and it gives a beautiful interpretation of our Lord's triumphant entry into Jerusalem. His betrayal, His death, glorious resurrection and appearance again before His disciples on the Sea of Galilee.

Mr. Longfield will be at the organ and will have the assistance of well known soloists.

**POINTS TO GREATER PROSPERITY IN ALL PARTS OF DOMINION**

F. I. Fox Tells Kiwanians of Strides Made by Ford Motors in Canada

F. I. Fox, late of the Ford Motor Company of Canada, addressed the Kiwanie Club at its regular weekly luncheon to-day telling the members of the tremendous strides made by the Canadian manufacturing concern at Ford, Ontario, which was originally started by Gordon McGregor, many years ago. When first Mr. McGregor broached the scheme to Henry Ford, there seemed little likelihood of his being able to gain sufficient funds to start a Canadian branch, but through the efforts of this far-seeing Canadian his friends and acquaintances were influenced in such a way that \$125,000 was subscribed towards the concern. Today the paid up capital is \$7,000,000 and the total capitalization is \$10,000,000.

"When I say that the Ford Company of Canada sends forty-seven per cent of the Dominion exports away yearly, I am not exaggerating," said Mr. Fox. "The fact is proved by Government figures. The company supports 10,000 Canadian families and gives to them a living. More than that, the export of Ford cars to all parts of the British overseas dominions brings Canada to the proud position of fourth on the list of exporting countries of the world."

Mr. Fox gave an interesting and familiar account of happenings in the life of Henry Ford, with whom he was well acquainted, and said that the man was misunderstood by many. It had been said that he was not philanthropic, he stated, but Mr. Ford had spent over \$25,000,000 in Detroit alone on a hospital in which was given free treatment to all those who could not afford to pay. Mr. Ford paid every expense account of that institution, as well as many other similar accounts which were of material benefit to the people.

Miss May McFadden rendered two very humorous monologues, which were greatly enjoyed.

**SHANKS WILL RUN FOR LEGISLATURE**

J. A. Shanks, who has been a candidate for civic office for many years, came out last night as an aspirant for a seat in the Provincial Legislature. He said he would run on "a straight independent ticket," standing for "Canadians first, both in jobs and opportunities." He says that if he is elected he will not be satisfied until he has brought a motion picture industry here.

Georges' First Opponent Causes Rumpus in East

New York, April 15.—Georges Carpenter was immediately announced yesterday by Billy Gibson, Tunney's manager, by Francois Descaamps, the Frenchman's manager, and agreement with Gibson making possible the Gibson-Carpenter match first.

Rejection of this plan, however, was immediately announced yesterday by Gibson, who declared he would hold Carpenter to the letter of an agreement to fight Tunney first.

Floyd Fitzsimmons, Michian City promoter in the meantime, is going ahead with the match he intends to hold May 11 in spite of Gibson's attitude.

Important business will come before the meeting including the election of officers for the year, the appointment of a committee to secure playing grounds and also a thorough discussion of the proposal to enter a team in the British Columbia series.

Hornsby Alright but Rest of Team Shows Very Little

Star Batsman of National League May Have Better Year Than Ever Before

Catching Department of St. Louis Cards is Very Weak; Changes in Infield

Braden, Fla., April 15.—Being somewhat of an on-ball club, it inevitably follows that as Rogers Hornsby goes so go the Cardinals.

It is especially the thing to do this Spring, since Mr. Hornsby and his manager, Branch Rickey, do little more than smile superficially as they exchange the greetings of the day.

Mr. Hornsby has not forgotten that Rickey soaked him on the whippers in the clubhouse late last season following a sulphuric diatribe in the course of which Mr. Hornsby intimated that Rickey could manage a ball club better than Mr. Hornsby could make a watch with four-brake attachment and balloons tires.

It was later disclosed in the public prints that the two had shaken hands over a banana split and agreed to let bygones be bygones.

Will Not Lay Down It so happens that Mr. Hornsby is a regular guy, and he unquestionably would welcome a deal which would carry him elsewhere, preferably to New York, where, as he says, "Mickey would make a regular second baseman out of him," he has no intentions of laying down on the job in St. Louis.

Rickey will get just as much out of Hornsby this year as he ever did, possibly more. Indeed, Hornsby may be more inclined to play for Hornsby this year than for the Cardinals.

Hornsby is one of the most remarkable right-hand hitters of all time. This Spring he seems already to be hitting 400 hits exactly a handicap.

Later, at Sarasota, John McGraw sent his first-string pitchers against the Cardinals and Mr. Hornsby tore them to shreds, with a devastating bat fire.

**AT THE THEATRES**

**Attractive Vehicle for Gloria Swanson at Dominion**

You've seen his picture everywhere and often wondered who he was—the man whose likeness stares down upon you from billboards and electric signs, car cards and store windows. So let us introduce you to Allan Simpson, erstwhile nationally famous artist's model, at present playing an important supporting role opposite Gloria Swanson in the Allan Dwan Paramount production, "A Society Scandal," which is being shown at the Dominion Theatre. You might recall Simpson in Allan Dwan's "The Glimpses of the Moon," and in "The Exciters," with Bebe Daniels, but this is his first real big chance. When he first started in the picture game, Allan's one ambition in life was to make the picture-going public admit that he could act, and not merely to think of him in the light of a poster for collar, hat and tobacco ads. Just how far he has succeeded may be seen in "A Society Scandal," to which he is forced to do no little amount of dramatic acting as the husband who divorces Miss Swanson in the first few feet of the picture and then spends his time through the rest of the production trying to win her back while Rod LaTouque and Ricardo Cortez do their damndest to win her affection for themselves. It's a great story, an adaptation of Alfred Sutrø's stage play, "The Laughing Lady."

**Comedy is Main Element in Show at the Pantages**  
Comedy is the strongest element in the vaudeville programme which inaugurates the new Pantages season to-night with a show commencing at 9 o'clock. First, there's Joe Jackson, imitable fun maker, who appears with a line of refreshing comedy and a personality that has won him fame wherever vaudeville has penetrated. Then there is Dave Harris, billed as a singing comic, who knows his business of creating laughter with a satisfying thoroughness. Wallace and May are two other laugh makers whose scientific "Bird Seed" has created a big sensation. Orville Stamm and girls appear in a fantasy of beauty, comedy and strength. Torino is the first man on the programme, presenting a series of amazing juggling feats. Motion pictures comprise the sixth feature of the bill. The performance will be repeated to-morrow and Thursday with matinee and two shows nightly.

**Betty Balfour Pleases Many at the Royal**  
Last night the Royal Theatre presented for the first time in this city Betty Balfour, Britain's Queen of Happiness, in her latest comedy, "Wee MacGregor's Sweetheart." It is a refreshing and diverting comedy, because you have no idea of what is going to happen next, and above all it is good clean fun. It is an all-British production, using Glasgow as the setting. Torino is the first man on the book, "Christina," by J. J. Bell and George Pearson. A minute description of the play is not wise as it might spoil some of the funny situations to those who see it. It has some real Scottish humor and a splendid cast of characters, even the smallest being in very capable hands. All these things contributed to the success of this production, and you might describe it as well-

Approximately 670 tons of wire will be used as the strand weighs 210 pounds to the mile. This work will have been completed before the end of the month. Between Winnipeg and Fort William 200 miles of wire are being strung and from Bredenburg to Saskatoon 250 miles of telephone wires

**Viola Dana Stars in Offering at Columbia To-day**  
Harold Shaw, who directed Viola Dana in her latest Metro picture, "Rouged Lips," coming to the Columbia Theatre to-day, hailed from England and he has some interesting things to say about picture making in that country. Mr. Shaw for many years was one of the notable independent producers of Great Britain. "The girls in England are just as eager to become film stars as the girls in America," Mr. Shaw declared. "Every time some newspaper or magazine holds a beauty contest with the prize a minor role in some motion picture production there are thousands of entrants from all over Great Britain. While the population of Great Britain is, of course, far smaller than that of the United States, the number of producing companies is correspondingly smaller so that the value of opportunities given the various companies to secure the services as actors and actresses is correspondingly larger. A majority of the newer English screen artists have been developed from the rank and file of these extras. Most of them look forward to Hollywood."

**Mary Miles Minter Makes Charming Maid at Playhouse**  
At the Playhouse Mary Miles Minter proved to local playgoers that she possesses that most valuable attribute of a true artist—versatility. For certainly her delineation of "Tillie" is entirely different from the modern flappers, which she has most recently given us. Gone are the curls; gone is the twentieth century vivacity—and in their place one sees little "Tillie" fringed with a hunted look in her eyes, girl brought up in a strict Mennonite community, her father a cruel and grasping personality who denies her all those things that belong to a maid just emerging into womanhood. The direction of Frank Urson is thoughtful and his handling of Miss Minter's characterization is outstanding but Noah Beery is splendid as the grasping Jake Getz. Alan Forrest plays the role of Tillie's fiance, in the cast include Lucien Littlefield, Marie Treboal, Virginia Adair, Robert Anderson and Ashley Cooper. Supervision was by Elmer Harris.

**Martin Harvey Will Open Here Next Monday**  
Intense interest attaches to the engagement of Sir John Martin Harvey, which opens at the Royal Theatre next Monday evening. Since last appearing here Sir John has done big things, a record which he has broken which was his recent wonderful success at the Century Theatre in New York, where he was accorded the most enthusiastic reception that an English or any other star has received since the days of his old "Chief," Sir Henry Irving. Sir John Martin Harvey is now breaking all records by crossing the continent with the largest organization that has ever visited the west, bringing with him more than six complete metropolitan productions and a company of fifty. Monday evening and again on Friday evening Sir John has consented to revive one of the old favorites of his original career, "The Merry Widow," a Cigarette Maker's Romance, adapted from the popular novel by F. Marion Crawford, whose recent success as a scenario writer has brought his works into great prominence among playgoers. This should add greatly to the interest in Sir John's revival of this play. Tuesday will see the first presentation here of "Oedipus Rex," a production in which Victorians are greatly interested on account of having heard so much of the sensational success which Sir John achieved with it on the opening of his present tour at the Century Theatre, New York. Wednesday evening another revival will be presented in Maeterlinck's "The Burgomaster of Stilemonde." In which Sir John's characterization of Cyrille van Bell, the lovable old burgomaster has become a modern stage classic. On Friday Sir John Martin Harvey's latest production of "Hamlet" will be the offering. Sir John presented this in New York about the same time as John Barrymore, as the "Melancholy Dane" and the consensus of opinion among Broadway critics was that the Harvey production was superior in many respects. On Saturday the engagement will close and Sir John bid farewell to Victoria for at least two years in his striking interpretation of Lieut. Raresby, the devil-may-care hero of "The Breed of the Treshams."

**CLEARHUE FINDS PROSPECTS GOOD**  
Conditions in Canada Improving, He Tells Automobile Dealers  
Optimism over present conditions in Canada to-day, Mr. Clearhue said, justified real optimism. Bankruptcies to the end of March of this year numbered 223 as against 246 last year. Life insurance sales last year had exceeded the total for 1922 by \$1,000, and bank clearings were showing marked increases now, Mr. Clearhue pointed out. Mr. Clearhue urged the businessmen present to remember that there is more to business than merely the making of money. Businessmen, he said, should not lose sight of their obligations to the nation, and should strive for the development of character as well as the accumulation of wealth. The automobile dealers' smoke last night was attended by 150 guests. Three reels of moving picture films, showing various phases of the automobile business, were displayed. Vocal selections by the Top quartette with Mrs. E. J. Harris as accompanist greatly increased the pleasure of the evening.

**FOUR HUNDRED AND SEVENTEEN MADE WIDOWS AND ORPHANS BY A COAL MINE BLAST.**—A few of the Castle Gate, Utah, children who lost their fathers in a coal mine explosion. Usually a mine disaster is forgotten by all but the grief-stricken community before the victims are buried. This is the story of those who cannot forget. Newspapers carried the story of the explosion in the Utah Fuel Company mine at Castle Gate in which 173 men were killed. Here's the story of a survey made after the disaster. This survey showed: That the blast affected 417 dependents, of whom twenty-five are expectant mothers and thirty-seven are babies under one year of age. Boys over sixteen and girls over eighteen are not listed as dependents. That 143 of the families which lost their breadwinner had no income or asset other than the wage of the men who were killed. Only one of the 173 victims owned his home. That only twenty-two of the 173 men carried life insurance, totaling \$50,000. That in the Horace Simpson family both father and son were killed, leaving as dependents the widow and nine children. Mrs. Simpson expects to become a mother again in May or June.

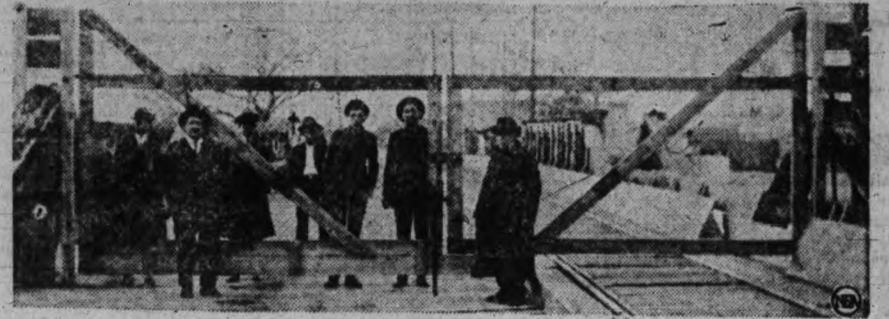

**MATHEMATICS SHARK.**—Urbane L. Barrett, Mason City Iowa, lawyer, is called the "cube root king of the world." At a recent gathering of college juniors, somebody called out the number 699,517,822,123. Without a moment's hesitation, Barrett wrote down the correct answer—8877. "Always been a hobby with me," he explained.

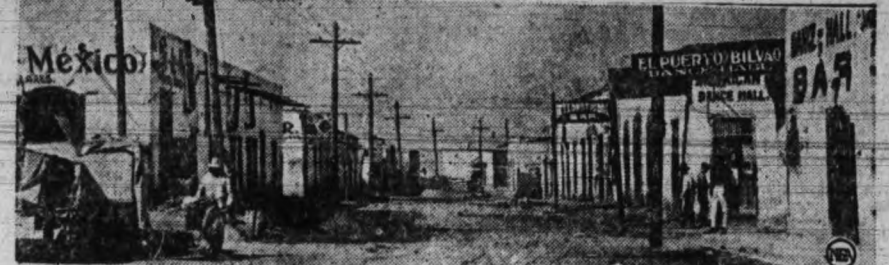

**TEMPLE OF DEATH.**—This is the Temple of Death, near St. Francis Leon, Mexico. A tourist recently ran across it, and succeeded in getting this picture.

# Visitors to the South Know Juarez, Mexico As Wickedest City, But 9 p.m. Curfew At U.S. Boundary Line Has Made It Dead

Here's the hog wire gate on the international bridge connecting El Paso, Texas, and Juarez, Mex., which made "the wickedest city" a 9 o'clock town. Visitors across the line now have to be back across the line when the curfew rings.

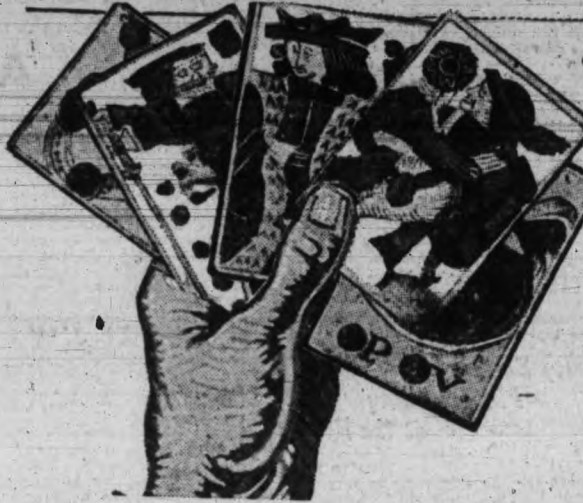

The Calle Del Diablo—Street of the Devil—along which many of Juarez's resorts are located.

**IN TROUBLE.**—Russell T. Scott, former Toronto broker, who is reported to be the man who now under arrest in Chicago in connection with the shooting and killing of Joseph Mauer while he and his brother, Robert Scott, were alleged to have been attempting to rob the Edison drug store in that city.

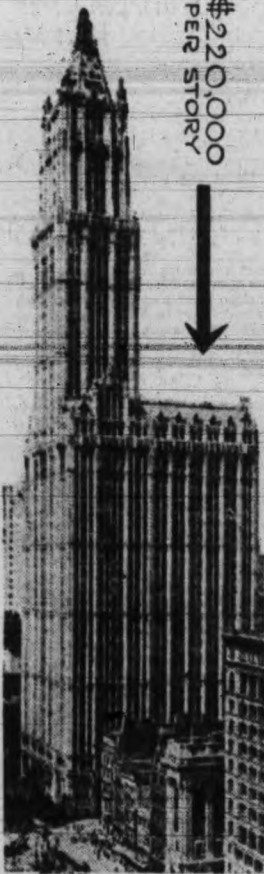

**A GOOD HAND—500 YEARS AGO.**—Five hundred years ago Englishmen played with these cards. They were found by Burton Young of Lansing, Mich., in a chest shipped him from his ancestral home in Devonshire, England. They had lain in the unopened box for more than 100 years. The cards do not carry the symbols of to-day, except that they show clubs—pictures of real clubs.

**KING TUT TOMB OPENING FETE.**—When the tomb was opened the crowds began to sing, to paraphrase the nursery rhyme. Here is the first picture of inhabitants of Luxor celebrating the opening of the well-known King Tut's tomb.

**ATTACKS DR. MARIE STOPES.**—Rev. Joseph Hampton, who concluded a series of sermons in St. Michael's Cathedral, Toronto, with a strong denunciation of birth control. He referred to a certain English propagandist of birth control, whom he did not name, as a "pestilential woman."

**A "BIG" BARGAIN.**—The Woolworth Building, New York, famed as the world's tallest office building, has been sold at approximately \$200,000 per floor. Costing \$13,500,000 to construct it brought \$11,000,000 to the Woolworth heirs. The building is fifty-two stories high and attracts tourists from all over the world to its tower.

**CHAMPION RIVET DRIVERS.**—Robert Chambers (left) and William Heber. They are workmen of a shipbuilding plant at Quincy, Mass., and they hold the record for driving rivets. This team can drive rivets, seven-eighths of an inch thick at the rate of seventy a minute.

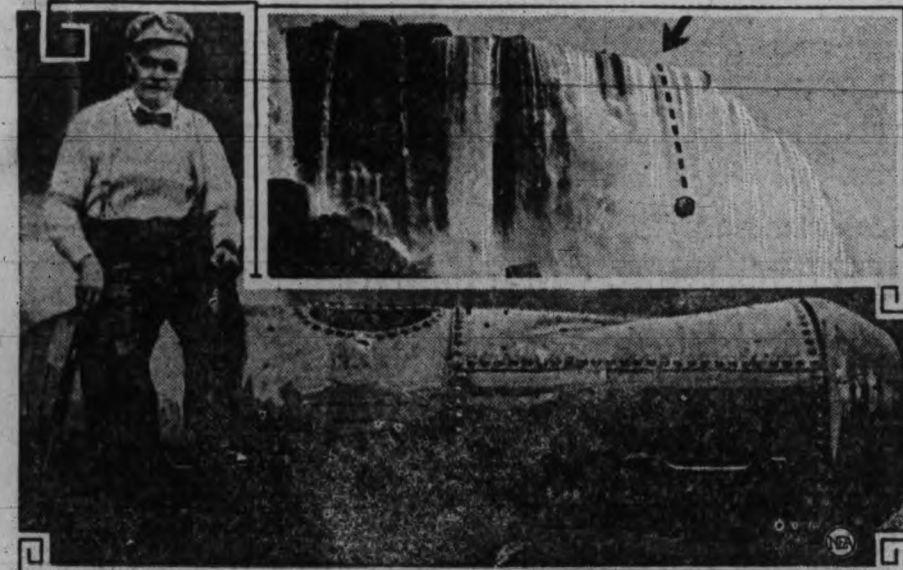

Tourists frequently took children into Juarez resorts, a situation which is partly responsible for closing the gate on the bridge at 9 p.m.

### MEMORIAL AVENUE SCHEME A FAILURE

**Ald. Ker Declares Street is Ruined For Object in View**  
Asks City to Lead Way For Another Memorial

Shearwater Street has been ruined for the purpose of a memorial avenue by the erection of poles, and the whole scheme is now a failure, Alderman Ker declared at the City Council meeting last night. He said he believed the whole idea of a memorial avenue would be abandoned. He was of the opinion that some striking and impressive memorial, such as a cenotaph, should be erected for the men who fell in the Great War. A suitable one might cost \$8,000 to \$15,000. He did not suggest the council should put this amount in the estimates but it was time something was done and the council, he thought, should take the lead. The use of the City Hall for the purpose of holding a public meeting was granted to the Victoria Women's Institute. The institute wrote to say that this amount being made to have a suitable permanent memorial erected. The memorial avenue scheme appeared unpopular.

For a thousand three hundred pounds four per cent. city of Victoria bonds due August, 1935, at 85.42. £200 four per cent. bonds due January, 1935 at 82.99. £100 four per cent. due January, 1927 at 87.32 yield in all cases 5.75 per cent.

**GAS TANK**  
A 200 gallon gas tank will be installed at the city garage station, telegraph station at a cost of \$225.

**EASTER HOLIDAYS**  
The city engineer, E. M. Preston, was given power to act with regard to Easter holidays for the city outside gangs by the council last night. It is customary for the gangs to have a holiday—on Good Friday, Easter Monday, a half day being worked on Saturday. He suggested the holidays be fixed for Friday and Saturday instead of Friday and Monday.

**INNER HARBOR GRANT**  
A request from Thomas C. Sorby for the usual grant from the City Council to the Inner Harbor Association was referred to the estimates committee by the council last night. Mr. Sorby referred to the work done by the association in developing the shipping of the city port.

**SALVATION ARMY**  
A grant of \$250 was made last night by the City Council to the Salvation Army, an increase of \$100 over the grant last year.

**HOLIDAYS**  
Owing to ill-health, Dr. A. G. Peles, City Medical Health Officer, was granted four months' leave of absence by the City Council last night. The doctor will arrange for and pay for the services of another medical to carry on the duties during his absence.

**TENDERS**  
Tenders for cast iron pipe, electrical supplies and printing the annual report were opened last night at the council meeting. The pipe tenders were referred to the engineer and purchasing agent. The electrical supplies were referred to the electric light committee, and the tender for printing to the purchasing agent and the committee handling the annual report.

**RESTRICTED SALE**  
Alderman Marchant remarked that the idea of a restricted sale of city property was not the true one to stabilize the market but he again referred to the difference in sale price and assessed value. "We should not sell except under exceptional circumstances and then at assessed prices," he said. "We should not sell in this room and another price by another place." For that reason he pressed his motion.

Alderman Sargent failing to get Alderman Marchant to second his motion moved an amendment that after July the council withdraw its lands from the market but the city would negotiate with those requiring property for industrial purposes.

Alderman Ker seconded the amendment.

**ENCOURAGE HOME BUILDING**  
Objection to taking the lands off the market and support of the present system was voiced by Alderman Amos. He declared he would rather see them put down lower than raised. If a man would put up a house on a lot and make it revenue producing he believed it should pay the council to give him it for nothing, although he would not advocate that.

Admitting that it was a difficult situation, Alderman Todd said there was no doubt the Court of Revision had done its best to solve the problem and the best plan of the council was to let them alone. If they did not agree to the decisions, there was not one individual who had thought the city into a worse position than it had been explained to him. A good many had threatened to do so but an explanation had caused them to abandon the threat.

**"LET THEM ALONE"**  
The land committee was a hard working committee which had done its best to handle the matter and he thought the best plan of the council was to let them alone. If they were not satisfied with the personnel of the present committee they should appoint another.

Alderman Marchant remarked that Alderman Todd's apparent stand that the probability of the lands committee was questioned was a foolish one to take. He stated at the outset of the discussion that it was only the committee's policy that was questioned, as at present. As long as an equitable price was agreed upon he saw no difference what was the assessed value. He charged Alderman Marchant with bringing forward another theory.

Alderman Sargent declared in moving his amendment he had no intention of assailing the lands committee. This was not a question of criticizing a committee. It was a question of policy on a matter of outstanding importance. It was a question whether 2,000 lots people did not want and had no use for should be allowed to flood the market.

**ASSESSMENT REVISION**  
He asserted he could not support Alderman Marchant's motion because he did not agree with a great deal of the assessment work done in the last few years. Assessments were arrived at by methods that were not at all equitable. To adjust the assessed value to the assessed value was nothing in it.

He declared that the withdrawal of lands would encourage private

### COUNCIL STANDS PAT ON REVERTED PROPERTY SALES

**Lengthy Discussions Leave Matters on Original Footing**  
Aldermen Against Price Change or Withdrawal From Market

After discussions spread over several council meetings the City Council last night voted against any change in the present system of sale of reverted lands. Alderman Marchant's motion to stabilize the real estate market by making the sale price the same as the assessed price was defeated. An amendment by Alderman Sargent to take all city property off the market indefinitely after July 1 but to be open to negotiate at any time with those requiring property for industrial sites met similar fate. Letters from the Real Estate Board and H. E. Munday were received and filed. Alderman Todd declared the council had already discussed the matter fully. "I have wanted too much time," he said. "In all the years I have been on the council I have never known any council to waste so much time in useless debate."

**THE MOTION**  
Alderman Marchant's motion that no city lands be sold for less than the assessed value and the city land commissioner be instructed to make every effort to raise the price put before the meeting for discussion.

"In my judgment one of the results of this policy would be the land would be held out of sale. I think it is very likely by raising the price we will keep it in possession of the city," he said.

Alderman Sargent observed that when Alderman Marchant previously spoke on the matter he sympathized with a great deal that he said, but he did not approve of his motion. If the market was overstocked with land and prices would not solve the difficulty. If he doubled the price of lots it would make matters worse for them as far as sales are concerned. "We must observe the rules of supply and demand, and the only solution of the difficulty, I believe, is to draw all city lots from the market for an indefinite time and say we are open to make arrangements with anyone wanting industrial property."

Alderman Sargent's motion and second a motion of mine that we withdraw all lots from the market on July 1 if it be able to move it. I believe we stand a chance to make money out of reverted lands if we follow this policy and allow other property owners to make money too, but the way we are doing now we are ruining the market."

### WEB CORD PROCESS

**The new Web Cord process**

—unites the cords by saturating them in latex, the natural sap of the rubber tree, thus forming a web of pure rubber, insulating each cord from the other, eliminating cross threads which cause internal friction and destructive heat. Web Cords lie flat and even and take all strains with perfect uniformity.

The Web Cord process is used exclusively in Canada for building Dominion Royal Cord and U-cord Tires.

**Sprayed Rubber**

—is the natural, pure rubber extracted, by evaporation, direct from the latex or rubber tree sap, thus eliminating the use of smoke, coagulating acids or other processes used in preserving crude rubber.

By the Sprayed Rubber process, the finest and purest rubber and therefore the strongest and most elastic, is obtained. Sprayed Rubber is used exclusively in Canada for the walls and treads of Dominion Royal Cord and U-cord Tires.

### HELP FOR YOUNG WOMEN

**Mrs. Holmberg Tells How Lydia E. Pinkham's Vegetable Compound Helped Her**

Viking, Alta.—"From the time I was 15 years old I would get such sick feelings in the lower part of my abdomen, followed by cramps and vomiting. This kept me from my work (I help my parents on the farm) as I usually had to go to bed for the rest of the day. Or times would have to walk the floor. I suffered in this way until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. I have had very satisfactory results so far and am recommending the Vegetable Compound to my friends. I surely am glad I tried it for I feel like a different person now that I don't have these troubles."

—ODELLA HOLMBERG, Box 88, Viking, Alberta.

Letters like this establish the merits of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking it.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of being the most successful remedy for female ills in this country, and thousands of voluntary testimonials prove this fact.

If you doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Mrs. Pinkham's private text-book and learn more about it.
